Larval diapause in the tick Ixodes ricinus L. and its relation to external conditions. 7. On the sensitivity to photoperiodic stimuli during bloodsucking. 13018

Effects of temperature and light on takeoff of Rhopalosiphum maidis and Schizaphis graminum in the field (Homoptera: Aphididae). 13022

Observations on Platypus flavicornis (Coleoptera: Platypodidae) in southern pine beetle infestations. 13033

The ramp-trap, an unbaited device for flight studies of mosquitoes. 13052

Suppression of populations of pink bollworms in field cages with traps baited with sex attractant. 13061

Devourers. 13066

Laboratory experiments on the olfactory orientation of Blastophagus piniperda L. (Coleoptera, Scolytidae) to substances isolated from pine rind. 13069

Audition by Cerura larvae (Lepidoptera: Notodontidae). 13071

Effect of starvation on the sensitivity of tarsal and labellar contact chemoreceptors in Hyhomitra lasiophthalma (Diptera: Tabanidae). 13075

The hunting-web of the young spider Pisaura mirabilis. 13079

Preliminary studies on the effects of gamma irradiation of eggs and adults of the southern green stink bug, Nezara viridula (L.). 13087

Patterns of flight activity in livestock insects. I. Preliminary testing of a system for recording flight activity of the stable fly. 13089

Oviposition by the boll weevil in the field. 13092

Variability within and between strains for mating behavior parameters in Drosophila pseudobscura. 13108

Larval behavior of Eupsilia morrisoni. 13115

Biological studies of Tabanidae: A preliminary study of female tabanids attracted to a bait animal. 13116

Experiments on aggregations of Phymateus purpurascens (Orthoptera, Acrididae, Pyrgomorphinae). 13118

Minority advantage in interpopulational matings of Drosophila persimilis. 13131

Chemical substances for defense of insects. 13136

Two species of Pteronemobius previously unreported in Quebec (Orthoptera: Ensifera: Grylloidea: Nemobiinae). 13140

Life history, habits, and damage of a gall midge, Oligotrophus papyriferae (Diptera: Cecidomyiidae), injurious to paper birch in Michigan. 13147

Immature stages of the flesh fly, Parasarcophaga (Thomsonea) argyrostoma (Robineau-Desvoidy). 13150

Association between mating speed and fertility in Drosophila robusta. 13198

The relative susceptibility of the larvae of Spodoptera mauritia acronyctoides (Guenee) (Lepidoptera: Noctuidae) to several contact insecticides. 13300

Sidedress applications of union carbide UC-21149 for control of overwintered boll weevils. 13305

Distribution of Surattha indentalla Kearfott on Buffalograss. 13327

Aedes atlanticus Dyar and Knab, feeding on turtles. 13405

A feeding association between Hippelates (Diptera: Chloropidae) and Tabanidae on cattle: Its possible role in transmission of anaplasmosis. 13406

Ascorbic acid impractical as a character for resistance in cotton to the boll weevil. 13480

Monogyny in ant societies. 13600

Phosphorus-32 for marking Tabanidae (Diptera). 13604

The influence of temperature on host orientation by the alfalfa weevil, Hypera postica. 13630

New experiments with Mueller termites (Macrotermes muelleri) and considerations of the stigmergy theory. 13631

Sexual receptivity in female Aedes aegypti. 13632

Biology of Trypargilum spinosum, with notes on T. texense and T. politum at Lake Texoma (Hymenoptera: Sphecidae: Trypoxyloninae). 13645

Generalization of visual stimuli as an example of solution of abstract problems by bees. 13651

Loss of rhythmic activity in female ants caused by mating. 13652

Habitat selection of laboratory populations of Tribolium. 13657

The larval behavior of Trypoxylon figulus L. (Hym., Sphecidae). 13659

On visual orientation of the house fly (Musca domestica) to colours. 13667

Oviposition by Pieris rapae L. in the insectary. 13673

Experimental studies on hybridization and sexual isolation between some Aphytis species (Hymenoptera: Aphelinidae). I. Experimental

hybridization and an interpretation of evolutionary relationships among the species.
13674

Experimental studies on hybridization and sexual isolation between some Aphytis species (Hymenoptera: Aphelinidae). II. Experiments on sexual isolation.
13675

Possible factor responsible for the specific growth of Xylaria nigripes in the fungus gardens of the mounds of the termite, Odontotermes redemanni.
13679

Behavioral adaptations of cryptic moths. V. Preliminary studies on an anthophilous species, Schinia florida (Noctuidae).
13680

Behavioral adaptations of cryptic moths. II. Experimental studies on bark-like species.
13681

Laboratory studies on the biology of Anopheles stephensi Liston.
13689

Emergence periods and population fluctuations of the frit fly Oscinella frit L. (Dipt.: Chloropidae) in Norway.
13693

Wave-making by whirligig beetles (Gyrinidae).
13694

Wave-making by whirligig beetles (Gyrindae).
13695

Acoustic synchronyi Two mechanisms in the snowy tree cricket.
13699

Acoustic synchrony: Two mechanisms in the snowy tree cricket.
13700

Bioassay of the response of Tribolium castaneum to repellent substance excreted by Trogoderma granarium.
13708

Oedaleus senegalensis Krauss (Orthoptera: Acrididae sub family Oedipodinae) plague in Rajasthan.
13829

Pheromone response in pine bark beetles: Influence of host volatiles.
13851

Geotactic response of the two-spotted spider mite. Tetranychus urticae Koch (Acarina: Tetranychidae).
14137

A comparative study of gastric caeca in adult and larval stages of bark beetles (Coleoptera: Scolytidae).
14170

A change of feeding habit in Archips cerasivorana (Fitch) (Lepidoptera, Tortricidae).
14178

Some phase characteristics of the southern African form of the desert locust (Schistocerca gregaria (Forskal)).
14187

The ultrastructure and electrophysiology of the membranous lobe of the antenna in Speophyes lucidulus larvae (Coleoptera).
14192

Hilaria sartor Becker, the fly with the little veil and its dance (Diptera).
14204

Hilaria sartor Becker, the fly with the little veil and its dance (Diptera).
14205

Adenine and related substances as potent feeding stimulants for the alfalfa weevil, Hypera postica.
14213

Field studies on the life-histories of some British Staphylinidae (Coleoptera).
14220

Hawk moths with mites. (Lep. Sphingidae).
14222

The ability of colour distinction in the wood-ant Formica polyctena Forster.
14223

Parasitization of social Halictine bees in southern Ontario.
14224

Dawn and dusk activity periods and orientation to forest and field of the Drosophila subobscura and Drosophila obscura.
14225

Mating and ovary studies on Cerapteryx grammis L. (Lep. Noctuidae), collected from a light trap.
14228

Artificial stimulations in encounter behavior of Vestria viridis (Redt.) (Orthoptera Tettigonidae Copiphorinae de La Trinite).
14232

Preliminary report about my breeding attempts with Micropteryx calthella L. (Lep., Micr.).
14234

A new method of estimating population size, survivorship, and birth rate from capture-recapture data.
14237

Does the beating of butterfly wings cause electrical phenomena .
14239

The flight activity of the pigmy-mangold chafer Atomaria linearis Steph. in the course of 24 hours. (Col., Cryptophagidae).
14249

Sperm activation and migration in bed bugs. size in hypersensitive hosts in the presence of chloramphenicol.
14257

Blossom visitations of domestic Allantus species, and places where they are found.
14263

The mode of life of the borer moth parasite Adelius erythronotus Forst.(Hym., Brac.).
14264

Brachymeria femorata Panzer (Hymenoptera Chalcididae).
14267

The mechnism of coupling of the locust Light oscillator to oscillatory inputs.
14278

The genetics of Drosophila mating behavior. II. The genetic architecture of mating speed in Drosophila pseudoobscura.
14286

The European corn borer; how to control it.
14301

Neotetranychus rubicola Bagd. on the raspberry bush in Serbia.
14501

First records of eye-frequenting Lepidoptera from Nepal.
14722

Notes on Fustiger elegans Raffray (Coleoptera, Pselaphidae) in Uraguay and Argentina.
14772

On some aspects of the biology of Acheta domesticus Insecta, Orthoptera with reference to the infestation of refuse tips.
14789

Evidence of an alarm phermone in the ant Odontomachus haematodes (Hym. Form. Ponerinae).
14807

A contribution to the understanding of the biology of Sesamia cretica Led. (Lepidoptera Agrotidae) in Tripolitania.
14809

Flight capacity of blood-engorged mosquitoes.
14815

The reactions of three species of grasshopper to simple visual stimuli at different temperature-humidity conditions.
14819

On the place of the first mating in the different sequences of imaginal activity of Oryctes rhinoceras (Coleoptera, Scarabaeidae).
14829

The importance of the site of food up-take of plant-sucking insects for use of systemic insecticides.
14835

On the knowledge of the biologic valence of Onychiurus carvernicolus and O. vornatscheri Collembola, Insecta apterygota . On temperature, humidity, and light reactions.
14843

Interspecific inhibitions released by fertilized females of the ant parasites Plaziolepis xene St. and Plaziolepis grassei Le Mas. Pas..
14862

The optical orientation to black and white patterns in different size groups of Cataglyphis bicolor Fab. (Formicidae, Hymenoptera).
14892

Houshold pests in Hamburg through three imported beetles.
15230

Reaction of the winter tick, Dermacentor albipictus (Packard), to CO2.
15368

The influence of the host plant or males on ovarian development or oviposition in the diamondback moth Plutella maculipennis (Curt.).
15373

Host finding by odor in the myrmecophilic beetle Atemeles pubicollis Bris. (Staphylinidae).
15375

Feeding habits of two Phylloxera species (Phylloxeridae, Aphidina) on oak leaves.
15387

Observations on the nesting behavior of Crossocerus (C.) maculiclypeus (Fox) (Hymenoptera: Sphecidae).
15388

The flight of insects.
15391

Phoresia of Damalinia (C.) meyeri (Mallophaga) and Lamprochernes nodosus (Pseudoscorpionidea) on mosquitoes Aedes sticticus (Culicidae).
15400

Orientation of Myzus persicae (Sulz.) to light.
15415

Daily flight activity of male Tabanus lineola var. hinellus Philip (Diptera: Tabanidae) in the estuarine area of Louisiana.
15423

Research on cranefly populations. The effect of certain ecological factors on Tipula paludosa Meig.
15424

An interesting case of swarming of Cicadatra xantes walk. (Homoptera).
15430

Effect of photoperiod on patterns of oviposition of Anocentor nitens Neumann (Acarina: Ixodidae).
15434

Studies on the behaviour of Plusia orichalcea Fabr. (Lepidoptera: Noctuidae) and an assessment of the foliar loss caused by it and the control measures.
15617

Mechanism of feeding of some virus-vector leafhoppers. histological studies of the tracks.
15654

INSECT BIOCHEMISTRY

Changes in nitrogenous compounds during the metamorphosis of the blowfly, Lucilia cuprina.
8086

The incorporation of amino-alcohols into the phospholipids of the adult housefly, Musca domestica.
8090

Relationship between the proteins of the haemolymph and fat body during development of Pieris brassicae.
8097

Developmental changes in the protein constitution of a mosquito (Armigeres subalbatus) as revealed by disc electrophoresis.
8106

On the phosphagen isolated from eggs of insects.
8108

INSECT BIOCHEMISTRY

Ecdysone titres in the last larva adult stages of the milkweed bug.
8115

The protein nature of the substance inducing female monogamy in Aedes aegypti. despommier, d d.
8118

Isolation and characterization of the ribosomal proteins of Drosophila melanogaster.
8147

Correlation of nucleolytic activities with the stage of growth of the silkworm.
8151

In vitro synthesis of injury protein and a companion protein in organs of prepupa of Galleria mellonella L..
8156

Phenoxazinone synthesis in Drosophila melanogaster.
8170

On the positional specificity of phospholipase A of certain species of mosquitoes.
8172

DNase as a component of multi-enzyme complexes in the blood of saturniid moths.
8175

Regulation of external respiration by the booklung spiracles of the spiders, Araneus diadematus Clerck and A. marmoreus Clerck.
8176

Phenylalanine induced enhancement of drosopterin formation in the eye color mutant or66k (orange) of Drosophila melanogaster.
8187

Activities in unfertilized and fertilized Drosophila eggs of enzymes in the nucleic acid biosynthetic pathway.
8194

Carbohydrates in the haemolymph of the cricket, Acheta domesticus.
8210

Chromatographic comparison of pteridine levels in four white locus alleles of Drosophila melanogaster.
8218

Carnitine acetyltransferase in developing and mature sperm of wild-type and mutant Drosophila melanogaster.
8231

Association of somatic cell lesions with 3-bromodeoxyoridine incorporation in ONA of Drosophila.
8263

Genetic control of the iso-accepting forms of tyrosyl-tRna in a suppressor of Drosophila melanogaster.
8269

Mode of action of insecticide synergists.
8569

Alkaline phosphatase in the digestive system of the desert locust, Schistocerca gregaria (Forskal).
8699

Free and peptide-bound amino acids during the larval and pupal stages of the yellow-fever mosquito, Aedes aegypti.
8729

Esterases and phosphatases in the gastric secretion of the cockroach, Periplaneta americana.
8733

Marking adult boll weevils with dyes fed in a cottonseed oil bait.
8739

Occurrence of an alkaline phosphomondesterase associated with the brochosomes in the malpighian tubules of Cicadella viridis Lin. (Homoptera).
8762

Bioassay, preliminary purification, and effect of age, crowding, and mating on the release of sex pheromone by female Tenebrio molitor.
8765

Hydrocarbon metabolism in insects: Oxidation of hexadecane-1-C14 in the boll weevil and the house fly.
8777

Acetylcholinesterase polymorphism in the face fly (Diptera: Muscidae).
8786

Developmental inhibition in Drosophila using dihydroxybenzoic acid isomers.
8793

Control of haemolymph lipid concentration during locust flight: An adipokinetic hormone from the corpora cardiaca.
8808

Two juvenile hormones in Cecropia silk moth.
8810

Gel electrophoresis of some dehydrogenases from flight muscles of tsetse flies (Glossina morsitans) and houseflies (Musca domestica).
8815

Comparative production of pheromone by the California red scale reared on lemons and potatoes.
8841

Bursicon mediation of tyrosine hydroxylation during tanning of the adult cuticle of the fly, Sarcophaga bullata.
8853

Sense organs on the antennal flagellum of a giant cockroach, Gromphadorhina portentosa, and a comparison with those of several other species (Dictyoptera, Blattaria).
8856

On the tetrapyrrolic pigments of Lepidoptera,.
8892

Nitrogenous compounds in the haemolymph of the cricket. Acheta domesticus.
8894

Studies on the biosynthesis and degradation of phosphatidylbeta-methylcholine by housefly larvae. (Abstract).
9060

The problem of the ootheca secretion in orthopteroids in the light of the most recent acquisitions.
9340

Preliminary studies on the isolation of pterins from the wings of Heliconiid butterflies.
9347

Effect of mitomycin-C on the development of the eye-disks in Drosophila melanogaster.
9401

The action of the endocrine system and the ovaries on the hemogram of Locusta migratoria L. (Orthoptera). The role of the corpora cardiaca.
9402

Esterase inhibition in malathion poisoning in the desert locust, Schistocerca gregaria Forskal.
9423

Hormonal control of turnover of tyrosine and tyrosine and tyrosine phosphate during tanning of the adult cuticle in the fly, Sarcophaga bullata.
9465

The pattern of pteridine accumulation in eggs of Pyrrhocoris apterus.
9473

The cockroach integument: Pas-positive granules and their possible relationship with phenol storage.
9492

Next move against the grassgrub.
9630

Lactic dehydrogenase isozymes in the grasshopper.
9961

The utilization of C14-labelled adenosine diphosphate during the in vitro respiration of housefly sarcosomes.
9984

On the odour components of the stink of two heteropteran bugs of India.
9989

The neutral lipids from various organs of the termite Macrotermes goliath.
9991

Variations in free amino acids in the larvae and pupae of Chilo zonellus.
9994

Physico-organic chemical approach to the mode of action of organophosphorus insecticides.
10014

A simple starch-gel electrophoretic method to investigate esterase inhibition by common organic insecticides.
10044

Proteins in the spermathecae and haemolymph of the queen bee (Apis mellifica L. var. ligustica Spin.).
10057

Hydrogen-ion concentration and the digestive enzymes in Cletus signatus Walker (Heteroptera: Coreidae).
10063

Immune reaction in insects. I. Lysozyme as the fundamental antibacterial factor in the humoral preventive mechanism of the insects.
10077

Studies on phosphohexoseisomerase (d-glucose-6-phosphate ketol isomerase) from the Indian honeybee, Apis indica Fabricius:.
10098

Sex attractant of female dermestid beetle Trogoderma inclusum Le Conte.
10105

Isolation and biological properties of the juvenile hormone.
10106

On the explosion chemistry of the bombardier beetle. Vi. On the chemistry of the smallest bombardier beetle Paussus favieri. XLIII. Communication on arthropod protective substances.
10111

Retention of intra-cellular potassium by the housefly.
10113

Identification of hydrocarbons from Novomessor cockerelli.
10138

Refined defensive mechanisms in Chrysomela scripta.
10139

Sexual dimorphism in neutral lipid metabolism in the Indian-meal moth, Plodia interpunctella (Hubner).
10143

Biochemical genetics of insecticide resistance in the housefly.
10163

Progeny suppression of Attagenus megatoma and Trogoderma parabile by dietary factors.
10521

Incorporation of 1-C14-sodium palmitate into lipids of the ovariole of Galleria mellonella.
10525

Influencing the metabolism in Tenebrio monitor (Coleoptera) during the pupal stages by farnesyl-methyl-ether.
10528

The excited state products of firefly bioluminescence: properties and mechanism of formation. (Abstract).
10534

Studies on amino acid composition of mulberry pyralid fiber.
10539

The effects of pH on the labellar sugar receptor of the fleshfly.
10560

Cytostatic effects on the hemocytes of Tenebrio molitor L. (Coleoptera).
10572

DDT-DEHYDROCHLORINASE activity in house fly strains resistant to various groups of insecticides.
10579

Arrestant-feeding stimulant as an additive to shell SD-8447 for control of corn earworm larvae in sweet corn.
10732

Some principles of the selection of the synergists for organophosphorous pesticides.
11072

3,4-dihydroxy-mandelic acid in the mushroom gland of cockroaches.
11220

Arginine content of the neurosecretory cells of grasshopper, Acrida gigantea Hhst.
11225

The contents of the pharyngeal glands of the ant Messor capitatus Latr. (Insecta, Hymenoptera, Formicidae).
11226

The major hydrocarbon of a cockroach cuticular wax.
11230

Induction of morphological aberrations by enzyme inhibition in Drosophila melanogaster.
11236

Growth of the trehala and its neuro-endrocrine control in the migratory locust, Locusta migratoria migratorioides, The identification of trehalose in the hemolymph.
11242

Changes in haemolymph and cuticle proteins during the molting process in the American cockroach.
11273

Proteolytic enzymes of the crop fluid from Locusta migratoria L.
11274

Biochemical and autoradiographic studies of DNA synthesis in the salivary gland of the melonfly, Dacus cucurbitae.
11278

The equilibrium reaction sorbitol (reversible reaction) fructose in the intact mosquito.
11285

Explanation of the molecular structure of insect hemoglobins.
11294

Fatty acid metabolism in Drosophila melanogaster: Interaction between dietary fatty acids and de novo synthesis.
11307

The digestive enzymes of the larva of Utetheisa pulchella Linnaeus (Lepidopterai Arctiidae).
11308

Nature of cuticle of the scorpion, Heterometrus scaber.
11323

Study of the hemolymph proteins of the gypsy moth (Lymantria dispar L.) by paper and starch gel electrophoresis. Results in normal animals and those exposed to various experimental conditions.
11326

Variations of pH and osmotic pressure of the hemolymph in Galleria mellonella L..
11329

A study of the oxidases in the xylophagous insect, Ips sexdentatus and in its microbial flora.
11331

Specific activity increase of a Balhiani ring by Mg2 plus in isolated nuclei of Chironomus.
11334

Lipid composition of fat body and its contribution to the maturing oocytes in Pyrrhocoris apterus.
11340

Effects of magnesium and calcium ions on the adenosinetriphosphatase activity of insect actomyosin at low ionic strength.
11342

A simple rapid method for the multiple assay of tryptophan pyrpolase in Drosophila.
11357

Protein synthesis and nucleic acid metabolism in the fat body of the larva of the blowfly, Calliphora erythrocephala.
11372

Haemolymph proteins and water uptake in female Leucophaea maderae during the sexual cycle.
11385

Studies on acid phosphatase in the silk gland of the silkworm. I. Electrophoretic analyses of acid phosphatase in the silk gland of Samia cynthia ricini.
11402

Phospholipid synthesis during flight muscle development in the American silkmoth, Hyalophora cecropia.
11405

The phosphorylase system of the silkmoth, Hyalophora cecropia.
11411

Pentose phosphate pathway enzyme studies of the lz allele of Drosophila melanogaster.
11427

Ultrastructural localization of phosphatases in the midgut of the silkworm, Bombyx mori.
11774

Reactions of bioindicators to haemolymph and excreta of Colorado beetle larvae--Leptinotarsa decemlineata Say (Col. Chrysomelidae) treated with preparation dieldrin.
11787

Composition of the neutral lipids from termite queens.
11801

In vitro fatty acid oxidation by developing tissues in the adult of the blowfly, flucilia.
11803

Respiratory physiology of the larva of Donacia simplex, a root-piercing beetle.
11830

Programmed cell death. Activation of lysis by a mechanism involving the synthesis of protein.
11849

Secretion by the malpighian tubules of Rhodnius. The movements of ions and water.
11855

Incorporation of glucose-U-C14 into lipids of the blowfly during flight.
11859

Sex pheromone of the queen butterfly: Chemistry.
11861

The synthesis in vitro of the protein calliphorin by fat body from the larva of the blowfly, Calliphora erythrocephala.
11866

The utilization of amino acids and sugars by tick cells cultivated in vitro.
11873

Calcium, potassium, and sodium content of forest floor arthropods.
11874

Movement of potassium and sodium across the midgut epithelium of the American cockroach.
11876

Haemolymph proteins and yolk formation in the cockroach, Leucophaea maderae.
11878

An investigation of haemolymph protein economy during the fifth instar of Locusta migratoria migratorioides.
11889

Protein changes in the haemolymph of Pieris hrassicae during the last larval instars and the beginning of the pupal stage.
11892

Lysozyme action on the cockroach, Periplaneta americana, and its intracellular symbionts.
11898

Juvenile hormone: Effects on a higher Dipteran.
11912

Studies on the pH of the digestive tract of Aulacophora fovecollis Lucas and Epilachna dodecastigma Wied.
12406

Uncoupling of DNA and histone synthesis prior to prophase I of meiosis in the cricket Grillus (Acheta) domesticus L.
12417

The toxicity of alpha-dihydroheptachlor and related compounds to the housefly (M. domestica L.) and their metabolism by housefly and pig liver microsomes.
12422

Responses of Ips confusus to synthetic sex pheromones in nature.
12424

Presenting results of tests involving biologically active materials.
12431

Isolation of N, N-diethyl-m-toluamide (deet) from female pink bollworm moths.
12471

DDT-DEHYDROCHLORINASE and aldrin-epoxidase activity in corn earworm and polyphemus moth larvae, and house fly adults.
12480

Purification of the male factor increasing egg deposition in D. melanogaster.
12490

Chemical analysis of the scent fluid of Leptoglossus clypeatus.
12495

DNA synthesis in the gaint salivary chromosomes of Drosophila virilis proir to pupation.
12513

Insect neurometamorphis. IV. Effects of the brain and synthetic alpha-ecdysone upon interganglionic connective shortening in Galleria mellonella (L.) (Lepidoptera).
12516

Proteolytic enzymes in the salivary gland of Chironomus tentans.
12524

Tryptophan is not assimilated in breathing by insects.
12531

Lipids in the haemolymph of the cricket, Acheta domesticus.
12551

Lipids of the mutant bronze mosquito, Aedes aegypti (L.).
12559

Metabolism of cholesterol-4-C14 in insecticide-resistant and susceptible strains of aseptically reared house flies, Musca domestica.
13014

Sex pheromone of Trypodendron lineatum (Coleoptera: Scolytidae): Production, bio-assay, and partial isolation.
13023

Sex pheromone of Dendroctonus pseudotsugae (Coleoptera: Scolytidae): Production, bio-assay, and partial isolation.
13024

Identification of an alarm pheromone in the ant, Crematogaster peringueyi.
13035

A study of the citric acid cycle in the tick Hyalomma dromedarii.
13036

Physiology of the large milkweed bug after laser irradiation.
13048

Differences in hydrolase isozymes of Italian and Rhodesian strains of Aedes vittatus (Bigot) (Diptera: Culicidae) and their hybrids.
13049

Enzymatic studies on the hydroxylation of kynurenine in Drosophila melanogaster.
13051

Effects of substrates on gene-controlled enzyme activities in cultured embryonic cells of Drosophila.
13063

Purine excretion in five scorpions, a uropygid and a centipede.
13064

Anion-induced potentiation of contraction in insect skeletal muscle.
13065

Effect of denervation on enzyme levels in indirect flight muscles of the desert locust.
13073

Nerve regeneration in the cockroach, Leucophaea maderae: The effect of humoral substances in vitro.
13085

Phenol oxidase characteristics in mutants of Drosophila melanogaster. 13093

Tests on susceptibility of Culex gelidus Theobald to DDT, dieldrin and BHC in Thailand. 13097

Phosphomonoesterase activity in the life-cycle stages of Schistocerca gregaria. 13100

Natural and synthetic materials with insect hormone activity--VI. Juvenile hormone effects of some alkyl-ethers derived from aliphatic beta-hydroxy acids. 13113

Chemical substances for defense of insects. 13136

Biochemical effects of apholate on mosquito ovarian tissue. 13137

Electrophoretic study of protein changes between several developmental stages of three species of Heliothis (Lepidoptera: Noctuidae). 13142

Electrophoretic patterns in mosquitoes. 13144

Distribution of DNA in heterochromatin and euchromatin of polytene nuclei of Drosophia hydei. 13158

Protein differences in Drosophila. III. Allelic differences and species differences in invitro hybrid enzyme formation. 13178

Sugars and trehalase in the reproductive organs and hemolymph of the queen and drone honey bees (Apis mellifica l. var. ligustica spin.). 13597

Distribution of alkaline phosphatase in the castes of the termite Odontotermes redemanni (Wasmann) and its role in caste formation. 13598

Chemical control of Chrotogonus trachypterus Blanchard. 13615

Mitochondrial oxidations of fatty acids in the blowfly, Lucilia. 13621

Evolution of xanthine dehydrogenase in Drosophila. 13624

Concentration of insect hemolymph proteins under various experimental conditions. 13626

Aliesterase activity and reproduction in Blattela germanica. 13635

Function and properties in an assembling scent in the Khapra beetle, Trogoderma granarium. 13643

Preliminary toxicity studies on the yellowjacket Vespula pensylvanica (Saussure) in California. 13644

Tetrahydrofolate cofactors in the house fly Musca domestica. 13654

Absorption and metabolism of a 10 per cent glucose solution in the mosquito Culex pipiens molestus Forsk. 13663

Pheromone response in pine bark beetles: Influence of host volatiles. 13665

Free amino acids and derivatives in eggs of Tenebrio molitor during development. 13666

The utilization of glycine for protein sythesis in th silk gland by fifth-stage Bombyx mori larvae. 13671

The acid gland of Nasonia vitripennis (Walker) (Pteromalidae: Hymenoptera). 13676

Free amino acid composition of the ageing female mosquito Aedes aegypti as determined by automatic ion-exchange chromatography. 13686

Carotenoids and bile pigments of Carausius morosus and their participation in the beginning of color changes. 13703

Purification of the proteinic brain hormone of the silkworm, Bombyx mori. 13707

Aliesterase activity and reproduction in Musca domestica: Effects of DDT and metepa. 13863

The effects of polychlorobiphenyls on Chorthippus hrunneus (Saltatoria: Acrididae). 14066

Continuous and rhythmic reproductive cycle observed in Periplaneta americana (L.). 14182

DNA-MEASUREMENTS in insects and a hypothesis concerning retarded evolution and especially high DNA content in the animal kingdom. 14185

Studies on a trehalase from a symbiont of the tropical cockroach, Blaberus craniifer--a suggested analytical enzyme. 14198

A study of free amino acids in rice moth larvae during mycotoxicosis. 14209

Properties of leptinotarsin, a toxic hemolymph protein from the Colorado potato beetle. 14212

The pheromone of the queen of the Oriental hornet, Vespa orientalis. 14214

Cytology and cytochemistry of spermatogenesis in two millipedes Phyllogonostreptus nigrolabiatus and Gonoplectus malayas. 14219

Effect of Loxosceles reclusa Gertsch and Mulaik venom on Heliothis virescens (F.) larvae. oosterhof, g. 14248

Ecdysone and DNA synthesis in cultured wing disks of the wax moth, Galleria mellonella. 14250

Sperm activation and migration in bed bugs. size in hypersensitive hosts in the presence of chloramphenicol. 14257

Fatty acids, alcohols and hydrocarbons in the waxy covering of Ceroplastes pseudoceriferus Green, Ceroplastes japonicus Green and Ceroplastes ruhens Maskell (Homoptera: Coccidae). 14269

Lysozyme action in the cockroach--blood changes. while probing intercellularly. 14279

Developmental genetic studies of aminopeptidases in Drosophila melanogaster. 14294

Sex differences in embryonic response to Eimeria tenella infection. 14579

RNA and protein in nucleolar structures of dragonfly oocytes. 14826

Lipids of Culex pipiens fatigans during metamorphosis. 14833

The influence of the selective destruction of the microbial flora on the activity of two oxidases in the xylophagous insect Ips sexdentatus. 14838

Isolation, purification and toxicity of a thermostable exotoxin from the strain of Bacillus gelechiae Auct. 14874

Cholinesterase in the brain of the Cercropia silkmoth during metamorphosis and pupal diapause. 14878

Evidence of blue and green pigments in the Lepidoptera. Systematic research on pterobiline in various Rhopalocerus. 14891

Protein variations in the ovary of Locusta migratoria (L.) (Orthoptera) in the first phase of maturation. 15351

Colors of firefly bioluminescence: Invariability of intraspecies emission spectra. 15352

Lipid content and composition of the tsetse fly, Glossina moritans Westwood. 15357

Mechanism of oxidation of luciferin in firefly bioluminescence. 15376

Developmental changes in the late larva of Calliphora stygia. II. Protein synthesis. 15397

Hemagglutination with cytoplasmic-polyhedrosis virus of the silkworm, Bombyx mori. 15402

The soluble proteins of developing Calliphora erythrocephala, particularly calliphorin, and similar proteins in other insects. 15404

Deoxyribonucleoside monophosphokinases of silkworm pupae infected and uninfected with nuclear polyhedrosis virus. 15408

Osmotic regulation and rectal absorption in the blowfly, Calliphora erythrocephala. 15413

Changes in some haemolymph dehydrogenase isozymes of the female honeybee, Apis millifera L., during caste development. 15429

Esterase activity in organophosphorus- tolerant strains of Aepes aegypti. 15454

INSECT BIOLOGY

A new subfamily of blind beetle from Idaho ice caves with notes on its bionomics and evolution (Coleoptera: Leiodidae). 8065

Biology of Bracon mellitor, a parasite of the boll weevil. 8070

Influence of larval population density on the size of adults, duration of development, and diapause frequency in Pteromalus puparum L. (Hym., Chalcididae). 8088

Research with ionizing irradiation on the sterilization and radiosensitivity of Chrysomela decemlineata Say. 8096

Age structure of insect populations of medical importance. 8107

Studies on the mating hehaviour of the predaceous mite Amhlyseius gossipi (Acarina, Phytoseiidae). 8112

The comparative biologics of two hymenopterous parasites of the chaff scale, Parlatoria pergandii. 8123

Recent fundamental work on tsetse flies. 8124

Impact of pathogens, parasites, and predators on aphids. 8126

The biology of the European corn borer, Ostrinia nubilalis (Huhner), in Manitoba. 8127

Daily and seasonal density of four entomophagous predators on cotton in upper Egypt. 8130

Bionomics and ecology of predaceous Coccinellidae. 8135

Behavioural aspects of the ecology of the sand martin flea Ceratophyllus styx jordani Smit (Siphonaptera). 8139

Research on bio-ecology of Sitona crinitus (Herbst) and method for chemical control. 8148

The biology and life cycle of Chilo suppressalis (Walker) and Tryporyza (Schoenobius) incertulas (Walker) in temperature-climate areas. 8149

Biological investigations on Pandemis heparana (Den. and Schiff.) with special consideration given to the factors inducing diapause and influencing egg laying. 8155

Bionomics of Siricidae. 8162

Food selection by grasshoppers. 8164

Investigation into the morphology, taxonomy, and biology of the Podapolipidae (Acarina, Tarsonemini) (Under special consideration, the parallel evolution of the genera feutarsopolipus and Dorsipes with their hosts (Coleopt., Carabidae)). 8173

Biological and ecological study of the hymenopterous parasites of the eggs of cereal bugs. 8182

Synecological studies on flies (Anthomyiini) in cultivated fields. (A contribution to agrarecology). 8190

Effects of sub-lethal dosages of parathion and carbaryl on the biology of Dysdercus koenigii Fahricius. 8191

Color and natural products attracting the adult sugarbeet root maggot in Southcentral Idaho. 8197

Predators and parasites of Aphytis (Hym., Aphelinidae). 8206

The presence in the vineyards of the Tessin of a nearctic cicadella, new for Switzerland, Scaphoideus littoralis Ball (Hom.Jassidae) a possible carrier of yellow flavescence. 8325

Biological studies on Amblyscius aleyrodis a predator of the cotton whitefly (Acarina, Phytoseiidae). 8338

Evaluation of forest insect infestations. 8357

Some aspects of biological control of the San Jose scale (Quadraspidiotus perniciosus Comst.) with the help of the aphelinid Prospaltella perniciosi Tow. 8361

Fifty years of research on the pink hollworm in the United States. 8365

Ecology of common insect pests of rice. 8368

Investigations on the biology and control of Melolontha melolontha in hazelnut plantations. 8377

Impact of parasites, predators, and diseases on rice pests. 8380

Biology and economic importance of the chigger Neoschongastia americana on turkeys. 8489

Host-parasite interactions and the feeding of blood-sucking arthropods. 8490

Some Australian parthenogenetic Chironomidae (Diptera). 8626

The black bark beetle, Xylosandrus germanus Blandf., a newcomer to our domestic insect fauna. 8643

Palearctic species of egg parasites of the genus Telenomus haliday (Hymenoptera, Scelionidae, Telenominae). 8645

Biology and phenology of the grasshopper Dociostaurus curvicercus in Israel. 8712

Field observations on the pales weevil, Hylobius pales, in the South Carolina Piedmont. 8721

Living doors. 8735

Biology of Melichares tarsalis in association with Plodia interpunctella. 8738

Rearing Phryxe caudata Rond. (Larvaevoridae), a parasite of Thaumetopoaea pytocampa Schiff. on an alternate host: Galleria mellonella. 8744

The existence of two optional diapauses in the biological cycle of Villa brunnea Beck. (Dipt., Bombyliidae). 8746

Life on the sticky sundew. 8749

The natural control of the apple-grass aphid, Rhopalosiphum insertum, with remarks on the control of apple aphids in the Netherlands in general. 8752

Life history of the boll weevil in field cages. 8772

Life history of Upis ceramboides at Fairbanks, Alaska. 8780

Notes on biology of clerid beetles that attack Ips spp. in upper South Carolina. 8783

Observations on the immature stages of Cordilura (Achaetella) deceptiva and C. (A.) varipes. 8817

Biology of the spider mite, Tetranychus evansi. 8838

A contribution to the study of the Greek species injurious to corn, of the genus Sesamia (Lepidoptera-Noctuidae). 8865

Seasonal history of a unisexual population of the pine needle scale, Phenacaspis pinifoliae. 8870

Feeding habits of larvae of seven Rhyacophila (Trichoptera: Rhyacophilidae) species with notes on other life-history features. 8882

Ecological studies of the field cricket, Gryllus campestris L.. 8887

Life history and some factors affecting the population of Arzama densa in Louisiana. 8891

Hyalomyodes triangulifer parasitizing the cereal leaf beetle, Oulema melanopus. 8897

On the bionomics of Lyctocoris beneficus (Hiura) and Xylocoris galactinus (Fieber) (Anthocoridae, Heteroptera). 9003

The leaf snout weevil of the avocado. 9018

Some ecological observations and results of the control of Argyresthia fundella F. R. 9022

A hymenopterous primary parasite of morabine grasshoppers. 9262

Rhynchosciara baschanti (Diptera, Nematocera, Sciaridae), a new Brazilian species. 9265

The Donaciinae of North Africa (Col. Chrysomelidae). 9295

Taxonomic and biological studies of Hawaiian Sphaeroceridae (Diptera). 9325

Biological examination of Psylliodes chrysocephala L. 9335

Preliminary results of a new seasonal investigation on brook Hydracarinae (Acari-Trombidiformes). 9341

Observations on the parasites (Hymenoptera, Diptera) of Trichotaphe levisella Fyles (Gelechiidae, Lepidoptera) with nottes on the host. 9342

Parathion and lindane in the control of the spruce gall aphid. 9346

A note on the comparative biology of some Italian Cassidae. (Col., Chrysomelidae). 9350

A thesis by G. Strebler on the gall midge of alfalfa. 9351

Population dynamics of the weevil Sitôna regensteinensis (Hbst.) on broom. 9363

Changes in temperature tolerance during the life cycle of Calliphora erythrocephala. 9364

Research on Messor of the Basin of Aquitaine: Ecology and biology. 9366

New or little known feeding habits in Empididae (Diptera). 9370

Studies on longevity of adult Eretmapodites chrysogaster, Aedes togoi and Aedes (Stegomyia) Albopictus females Diptera: Culicidae). 9406

Entomological and general biological interest in a comparative endocrinology of social insects. (abstract). 9407

Biological observations on Zeuzera pyrina L. in Sicily. (Lep. Cossidae). 9417

On Cryptolaemus montrouzieri Muls. (Morphobiological observations). 9426

The laboratory breeding and embryonic development of Chorthippus brunneus Thunherg (Orthoptera: Acrididae). 9432

A quantitative study of food consumption and growth of Podisus.maculiventris.(Hemiptera: Pentatomidae). 9434

Biotic factors influencing populations of Dacus dorsalis in Hawaii. 9437

Bionomics of the juniper webworm. 9440

The determination of larval instars of the rice weevil Sitophilus oryzae (L.) (Coleoptera: Curculionidae) in wheat. 9441

The biology and morphology of Eriophyes emarginatae, a Prunus finger gall mite, and notes on E. prunidemissae. 9442

A population study of Cis bilamellatus Wood (Coleoptera, Ciidae). 9446

Preliminary observations on the biology of Amblyseius tardi Lomb. (Acarina-Phytoseiidae) a predator of Tetranychus urticae Koch. 9455

Factor analysis as a multivariate statistical method in the study of the growth pattern of the antennae of Gerris Fluviorum F. (Hem. Gerridae). 9456

Binomics of Enoclerus barri (Coleoptera: Cleridae). 9458

The fundamental schema of oogenesis in the firebrat Lepismodes inquilinus (Thysanura, Lepismatidae) and its periodisation in connection with imaginal moulting cycles. 9459

Notes on the biology and hostplant associations of Ornithoptera priamus urvilleanus and O. victoriae (Papilionidae). 9478

Study of a biting midge, Forcipomyia (Lasiohelea) taiwana (Shiraki) (Diptera: Ceratopogonidae)I. Description of the complete life cycle of the midge reared in the laboratory. 9479

Some factors influencing the reproduction and longevity of Coccinella septempunctata Linnaeus (Coleoptera: Coccinellidae). 9480

Biology and morphology of Graphosoma semipunctata Fabricius, (Heteroptera, Pentatomidae). 9493

Life history and habits of the short-tailed cricket, Anurogryllus muticus in central Louisiana. 9496

Biology of Cheilonevrus noxius, with emphasis on host relationships and oviposition behavior. 9498

Life history and predatory importance of the striped lynx spider (Araneida: Oxyopidae). 9499

The biology of Pipunculidae (Diptera) parasitising some British Cercopidae (Homoptera). 9501

The chemical control of the diplopoda of beets. 9622

First observations of damage to olive trees, caused by a cecidomyde. Clinodiplosis oleisuga Targ.(Dipt. Cecidomydae). 9629

New hosts, distribution, and biological notes on an imported ambrosia beetle, Xylosandrus germanus (Coleoptera: Scolytidae). 9642

Ixodes pacificus Cooley and Kohls, 1943: Its life-history and occurrence. 9962

Studies on an Israel strain of Anagyrus pseudococci (Girault) (Hym., Encyrtidae). II. Some biological aspects. 9964

Life history and habits of Sialis rotunda and S. californica in western Oregon. 9965

Note on Prospaltella aurantii How. (Hym., Aphelinidae), parasite of Quadraspidiotus pyri Licht. in the Matitime Alps (Hom., Diaspidinae). 9967

Notes on the biology of Diatraeophaga striatalis Townsend, tachinid parasite of Proceras sacchariphagus Boj. 9970

Oviposition behaviour of the desert locust (Schistocerca gregaria Forsk.). 9971

Effect of temperature on the development of mustard sawfly, Athalia proxima Klug. (Hymenoptera: Tenthredinidae). 9976

Observations on the life history and bionomics of Oligotoma ceylonica ceylonica Enderlein (Oligotomidae, Embioptera), commensal in the nest of the social spider Stegodyphus sarasinorum Karsch. 9978

Meteorus versicolor Wesm. var. decoloratus Ruthe (Hym., Braconidae), a new parasite of Thaumetopoea pityocampa Schiff. (Lep., Thaumetopoeidae). 9980

A note on the occurrence of fruit fly maggots of Dacus cucurbitae Coq. in cecidomyiid galls of Coccinia indica in Andhra Pradesh. 9998

The life histories and drifting of the Plecoptera and Ephemeroptera in a dartmoor stream. 10001

Deviate-ontogenies in the aphelinid male (Hymenoptera) associated with the ovipositional behavior of the parental female. 10006

Morphology and biology of a nest-producing mite, Bakericheyla chanayi (Acarina: Cheyletidae). 10015

In vitro colonization of the goat biting lice, Bovicola crassipes and B. limbata. 10034

Laboratory studies of Eucelatoria armigera, a tachinid parasite of Heliothis spp. 10040

Biology of Apanteles chilonis and A. flavipes (Hymenoptera: Braconidae), parasites of Chilo suppressalis. 10045

Biology of the hillbug Sphenophorus venatus confluens, a new pest of orchardgrass. 10047

Life history and damage of the pine root tip weevil, Hylobius rhizophagus, in Wisconsin. 10049

Biology of Agrothereutes tunethnus Haber. (Hym., Ichneumonidae) an ectoparasite of Orgyia dubia Tausch. (Lep., Lymantriidae). 10054

Insect parasites of the green peach aphid, Myzus persicae Sulz. and their control potential. 10059

Age-distribution and abundance in populations of flour beetles. I. Experimental studies. 10071

Biology and description of immature stages of Orthacheta hirtipes, a predator of Cordilura spp. 10080

Effect of different food plants on the larval and post-larval development on Diacrisia obliqua Walker. 10084

Isolation and biological properties of the juvenile hormone. 10106

Biological notes on the bee Tetralonia minuta and its cleptoparasite, Morgania histrio transvaalensis (Hymenoptera: Anthophoridae). 10109

Selection for lindane resistance in Dermestes maculatus de Geer (Coleoptera, Dermestidae). 10114

Observations on the biology of Lathromeroides sp. (Trichogrammatidae: Hymenoptera) egg parasite of the leaf rolling weevil, Apoderus sissu Marshall (Curculionidae: Coleoptera) with notes on the host weevil. 10117

Notes on the natural history of Tenebrionidae (Coleoptera) in Canterbury. 10140

Continuous laboratory culture of the locust borer, Megacyllene robiniae. 10141

Etology as the determining factor of the numerical distribution of the species in the fauna. 10144

A new species of Aedes (Stegomyia) from Thailand (Diptera: Culicidae). 10164

The biology, mode of attack and damage caused by the thrips, (Haplothrips tritici Kurd) to wheat crops. 10235

Biology and control of leopard moth on pear trees in the United Arab Republic. 10242

Biological control of olive scale, Parlatoria oleae (Colvee), in a deciduous fruit orchard in California. 10252

Integrated control of insects. A challenge for scientists. 10265

Biological control of Cuscuta spp. II. Biology and host-plant range of Melanagromyza cuscutae Hering (Dipt. Agromyzidae). 10272

A study of the mites of the Gamasoidea superfamily (Parasitiformes) infesting small mammals on the Vitosha Mountain. 10364

Wharf borer. 10385

Research on the biology and control of Tetranychus viennensis Zacher in the region of Marmara. 10530

Central European larval forms of Chlaenius Bon. (Coleoptera, Carabidae). 10536

Immunological response of male cockroaches to injection of Tetrahymena pyriformis. 10559

Biology of Myelois ceratoniae Zeller and research on the control methods. 10568

Biology of the robber fly Eutolmus rufibarbis Mg, (Diptera, Asilidae) in Khabarovsk Territory. 10574

Ethology as the determining factor in the distribution of species and fauna. 10576

Reversion disease and gall mite of black currant. 10670

The gypsy moth, Porthetria dispar L., a threat to Ontario horticulture and forestry. 10716

Chrysanthemum leaf miner. 10733

A remarkable case of alary dimorphism in the Aradidae (Heniptera) with a generic synonymy and a new species. 11179

On the biology of some species of Papilionidae from the island of Celebes (East-Indonesia). 11207

Laboratory study of Anocentor nitens (Neumann) (Acarina: Ixodidae). the tropical horse tick. 11259

Influence of temperature inversion on development of spruce beetle, Dendroctonus obesus (Mannerheim) (Coleoptera: Scolytidae). 11263

Life history and behavior of Pardosa lapidicina Emerton (Araneae: Lycosidae). 11264

Biology of the two-lined spittlebug, Prosapia bicincta, on Florida pastures (Homoptera, Cercopidae). 11268

Concerning evolution by stages in certain arthropods. 11271

Morphological, systematic, and biometric discussion on Agrion (Cercion) lindeni Selys, 1840. (Odonata Zygoptera). 11288

Comparative ecology of some hymenopterous egg parasites of the pine moth, Dendrolimus spectabilis Butler (Lepidoptera: Lasiocampidae), with special reference to the factors affecting their efficiency as natural enemies. 11289

The nesting activities of the vespoid potter wasp Eumenes campaniformis esuriens (Fabr.) compared with the ecologically similar sphecoid Sceliphron madraspatanum (Fabr.) (Hymenoptera). 11299

Amydria effrentella from nests of mountain beaver, Aplodontia rufa. 11300

Studies on the utilization of natural enemies as biotic insecticides . Mating of Pseudaphycus malinus Gahan and sex of the progeny. 11302

Studies on the utilization of natural enemies as biotic insecticides . Density effect in the mass culture of Pseudaphycus malinus Gahan. 11303

Hydraecia petasitis in mountainous country, (Lep., Noctuidae). 11311

Larval density and adult fecundity in a natural population of the pine looper (Bupalus piniarius L.). 11312

Psilococcus parvus Borchsenius (Homoptera, Coccoidea)-morphology, biology and taxonomy. 11315

Overwintering phytoseiid mites in central Utah apple orchards. 11333

Immature stages of a chalcidoid parasite tended by allodapine bees. (Hymenoptera: Perilampidae and Anthophoridae). 11350

Observations and records for some British Thysanoptera. XI Thripidae, Belothrips acuminatus Haliday. 11356

Life history and biology of Caloglyphus anomalus Nesbitt (Acarina: Acaridae). 11370

Immature stages of the flesh fly, Parasarcophaga (Thomsonea) argyrostoma (Robineau-Desvoidy). 11418

A note on Nephus regularis Sic. (Coccinellidae: Coleoptera) as a predator of Ferrisia virgata Ckll. 11540

Revision of the genus Enophosema (Lep., Geom.). 11728

The sugar pine cone beetle. 11784

Some remarks on the parasitism of insects. 11785

Control of the circadian rhythm of activity in the cockroach. lii. A possible role of the blood-electrolytes. 11792

Biology of Bracon kirkpatricki and field releases of the parasite for control of the boll weevil. 11802

Sex pheromone of the queen butterfly: Biology. 11807

Molecular organization in the polyhedra of Porthetria dispar nuclear-polyhedrosis. 11812

Masonaphis maxima (Mason) (Homoptera: Aphididae), an aphid on thimbleberry with an unusual life history. 11816

The bioccology of Corthylus columbianus Hopkins. 11821

Contribution to the bionomics of Coptotermes formosanus, its laboratory breeding and applicability for testing the resistance of materials. 11831

Biological observations on Larra amplipennis (Smith) in Kagawa, Japan (Hymenoptera. Sphecidae). 11834

Biological studies of Scythropus californicus on Monterey pine in northern California. 11836

The life history and feeding habits of Opatroides punctulatus in Tiberias, Israel. 11842

The control of water loss in Locusta migratoria mays. Influence of high-temperature treatment before spiracles. 11850

Migratorioides R. and F. I. Cuticular water loss. The control of water loss in Locusta migratoria. 11851

Spectral sensitivity of scorpion eyes and the possible role of shielding pigment effect. 11853

The influence of abiotic factors on the development cycle of the grape phylloxera (Dactylosphaera vitifolii Schim.) and on a population of jassids (Homoptera, Auchenorrhyncha, Jassidae). 11856

Further studies on gradient-dependent diversification in the pupal cuticle of Galleria mellonella. 11887

A critical study of the evidence for peripheral inhibitory axons in insects. 11890

Biology and immature stages of Eumctopiella rufipes. 11891

Observations on the biology of six species of acarid mites. 11900

Parasitism of Chrysis shanghaiensis Smith on Cnidocampa flavescens Walker in Kagawa, Japan (Hymenoptera: Chrysididae). 12062

Biological studies of Argyresthia franciscella and A. cupressella on ornamental Cupressaceae. 12079

Subterranean termites: Their prevention and control in buildings. 12206

A new Japanese species of Trioza from Machilus thunbergii, with descriptions of the immature stages and notes on biology (Hemiptera: Psyllidae). 12369

Taxonomic review, ecological and biological aspects of Diptera (Culicidae) living in the forest of Manera (Province of Kaffa) Ethiopia. 12373

The black flies of Alabama (Diptera: Simuliidae). 12389

The black flies of Alabama (Diptera: Simuliidae). 12390

The distribution and biology of Tribolium castaneum (Coleoptera, Tenebrionidae) on temperature gradients varying in steepness. 12404

A new parasite of the vegetable weevil in southern California. 12436

Biological observations on the Anopheles gambiae complex. (Abstract). 12438

Life history studies on the predatory mite Agistemus exsertus. 12449

A study of the mortality factors acting upon Cyzenis albicans (Fall.), a tachinid parasite of the winter moth (Operophtera Brumata (L.)). 12462

Ecological and biological data on Synopsyllus fonquerniei Wagner and Roubaud, 1932 (Siphonaptera), a flea of the domestic rat in the region of Tananarive. 12484

Observations on the biology of Mesidia nigra, a parasite of Iziphya punctata. 12488

Outline life histories of some west African Lepidoptera. Part II Limacodidae. 12491

Notes on the biology of Culex territans Walker. 12496

Oinophila v-flava Haw. (Lep., Tischeridae) in a distillery warehouse. 12499

Notes on the biology of Anopheles hargreavesi (Evans), 1927, and Anopheles paludis Theobald, 1900, in the south of Yaounde (Cameroon), along the Nyong river. 12508

A note on Vanessa kershawi (McCoy) in Auckland. Presenting evidence of an unusual host plant. 12519

Studies on Nephus regularis (Coleoptera: Coccinellidae) as a predator of the striped mealybug in Madhya Pradesh (India). 12521

Iconography of the eggs of the Lepidotera fauna of Belgium. 12530

Bionomics of Carpophilus foveicollis Murr. in pineapple. 12542

Observations on Rhypodes chiwai Usinger (Hemiptera: Lygaeidae). 12553

Epidemic role of ticks of the genera Dermacentor and Ixodes persulcatus P. Sch. in mountain foci of tick-borne encephalitis depending upon activity of their attacks on man. 12581

A preliminary account of Macrosiphum miscanthi Takahashi on grasses and cereals in New Zealand. 12678

Bionomics of Hellula undalis Fb., the cabbage borer (Pyralidae: Lepidoptera) at Jabalpur. 12683

Taxonomy, immature stages, and bionomics of the South American genera Perilimnia and Shannonia (Diptera: Sciomyzidae). 12970

Root maggots, Hylemya spp. (Diptera: Muscidae), enemies of the Quebec crucifers. I.--Bibliographical notes. 12986

Simuliidae of the Apennines. 12987

Lomamyia latipennis (Neuroptera: Berothidae) life history and larval descriptions. 12994

Coleopterous leaf-miners of Japan, VI. The larva of Mantura clavareaui Heikertinger (Chrysomelidae). 13000

Biology of the Coreidae in Wisconsin. 13001

Studies on the biology of Margarodes vitium, a ground pearl (Homoptera: Margarodidae) on roots of grapevines. 13011

Some peculiarities and numbers in two species of Eurygaster. 13017

The silkworm embryo. 13042

Distribution of an endemic population of the gypsy moth. 13054

Rearing technique for the granulate cutworm and some effects of temperature on its life cycle. 13078

Host records and phenology of louse-flies on Wisconsin birds. 13099

Phosphomonoesterase activity in the life-cycle stages of Schistocerca gregaria. 13100

A gynandromorph of Culicoides lailae Khalaf (Ceratopogonidae: Diptera). 13101

Larval behavior of Eupsilia morrisoni. 13115

Biological studies of Tabanidae: A preliminary study of female tabanids attracted to a bait animal. 13116

Notes on the biology of Ips pini in central Wisconsin Jack Pine Forests. 13119

Some physiological peculiarities in Perillus bioculatus (Heteroptera, Pentatomidae). 13124

Hyperparasitism of the pea aphid parasite Aphelinus semiflavus by Asaphes vulgaris in a greenhouse. 13130

Overwintering by Protocalliphora metallica (Diptera: Calliphoridae). 13132

The influence of abiotic factors upon the distribution and abundance of egg parasites of the Eurygaster integriceps (Hymenoptera, Scelionidae). 13141

Life history, habits, and damage of a gall midge, Oligotrophus papyriferae (Diptera: Cecidomyiidae), injurious to paper birch in Michigan. 13147

Laboratory studies on the development period and feeding behavior of Aphidecta obliterata (L.) (Coleoptera: Coccinellidae), an introduced predator of the balsam woolly aphid. 13148

Laboratory studies on the seasonal hatchability of egg batches of Aedes sollicitans, A. taeniorhynchus, and Psorophora confinnis. 13149

Immature stages of the flesh fly, Parasarcophaga (Thomsonea) argyrostoma (Robineau-Desvoidy). 13150

A contribution to the study of cicada (Cicadetta montana Scop.) as pest of raspberries (rubus idaeus L.) in the regions of Valjevo and Cacak. 13307

The biology and chemical control of the maize borer, Ostrinia salentialis, Snellen, in west Malaysia. 13332

Cockroaches. 13425

A note on Epilandex burri (Borelli) (Dermaptera: Carcinophorinae) and Pareparchus pelvimeter Hebard (Dermaptera: Opisthocosmiinae). 13564

Biology of the trefoil seed chalcid, Bruchophagus kolobovae Fedoseeva (Hymenoptera: Eurytomidae). 13601

Hymenoptera associated with elm bark beetles in Wytham Wood, Berks. 13602

Notes on the biology of Ctenophthalmus p. pseudagyrtes Baker in the Northeast (Siphonaptera: Hystrichopsyllidae). 13605

Host specificity with Oncopeltus fasciatus (Heteroptera: Lygaeidae). 13608

Cynipoidea and Ichneumonidae Hym. as parasites of Boriomyia subnebulosa (Steph. Neur. Hemerobiidae . 13646

Establishment and maintenance of a laboratory colony of Aedes nigromaculis (Ludlow) (Diptera: Culicidae) hy induced mating. 13656

The Nopalea fly, Dasiops hennetti, McAlpine Diptera, Lonchaeidae. 13661

On visual orientation of the house fly (Musca domestica) to colours. 13667

Contributions to the morphological and biological study of Aphomia sociella L. (Lepidoptera, Heteroneura, Pyralidoidea, Pyralididae), a parasite of hechives (Hymenoptera, Apoidea, Bombus Latr.). 13668

Competition and other factors influencing the population dynamics of Aphis gossypii and Macrosiphoniella sanhorni on greenhouse chrysanthemums. 13687

Laboratory studies on the biology of Anopheles stephensi Liston. 13689

A note on the tree locust in the Rajasthan desert. 13697

The pear Phylloxera aphanostigma piri Cholod. et Mokrz. (Phylloxeridae). 13844

Biology and control of citrus psylla Diaphorina citri Kuw. 13847

Biological control of prickly pear cacti on Santa Cruz Island, California. 13909

Continuous and rhythmic reproductive cycle observed in Periplaneta americana (L.). 14182

Essentials in pest control. 14196

Some aspects of adaptation in the life cycle of insects. 14238

Natural mortality of overwintering eggs of Longiunguis donacis (Pass.). 14266

Sparrow mite Dermanyssus passerinus Berl. et Trouess, 1885. 14282

Entomological notes on Beprata maculicollis Cam., perforator of seeds of some Annonaceae. 14283

Tanymecus dilaticollis Gyll. (Curculionidae, Coleoptera) as a pest of cultivated plants and the pre-sowing treatment of the seed with insecticides as a control measure. 14494

A contribution to the study of olive Cecidomyiidae: Lasioptera berlesiana (paoli). 14502

Serological response in cattle to East Coast fever (Theileria parva infection) as measured by the indirect fluorescent antibody test. 14588

Biology of Hyphantria cunea Drury (Lepidoptera: arctiidae in Japan. I. Notes on adult biology with references to the predation by birds. 14627

Development of Caenorhabditis briggsae and Hymenolepis nana in interchanged media. France. 14633

Taxonomy, distribution and biology of the genus Cercyonis (Satyridae). I. Characteristics of the genus. 14738

A note on the genus Drosophilella Duda (Diptera; Drosophilidae). 14784

Occurrence of Sphaerolecanium prunastri (Fonscolombe) in Israel and description of its hitherto unknown larval instar. 14791

The male line of Eupulvinaria hydrangeae (Hom., Coccidae). 14800

Contribution to the knowledge of Stauronematus compressicornis . (F.). (Hymenoptera-Tenthredinidae). 14804

A contribution to the understanding of the biology of Sesamia cretica Led. (Lepidoptera Agrotidae) in Tripolitania. 14809

The second All-Union Symposium on soil-forming mites (Oribatei). 14816

Biological study of some Hymenoptera of Chile. 14830

The phenology of Pharoscymnus spp. and Chilocorus bipustulatus L. (Coccinellidae) in date palm plantations in Israel. 14834

Contribution to the biological study of Xanthandrus comtus Harr. (Diptera, Syrphidae). 14841

The biologies of the Pseudohylesinus tsugae and P. grandis (Coleoptera: Scolytidae) in western hemlock. 14851

A literature review of the spruce, western, and 2-year-cycle budworms Choristoneura fumiferana, C. occidentalis, and C. biennis (Lepidoptera: Tortricidae). 14852

Chloridea. 14866

A study of the bionomics of Lymantria ampla Wlk. (Lymantriidaei Lepidoptera). 14887

Biology of Thaumetopoea wilkinsoni Tams in Jordan. 14893

Role of the jassid Aphrodes bicinctus Schrk (Hom., Auchen) in the transmission of some white clover diseases. 15020

Effects of sub-lethal dosages of parathion and carbaryl on the biology of Dysdercus koenigii Fabricius. 15028

Effects of insecticidal treatment on the biology of surviving insects. 15029

The palm seed weevil , Caryobruchus gleditsiae (L.), in Florida (Coleoptera: Bruchidae). 15040

The true taxonomic identity of a moth known as Rosquilla negra , a most distructive plague on our crops which corresponds to the scientific name of Spodoptera littoralis (B., 1833) (Lep. Noctuidae) (Lam. V.). 15309

Culiseta marchettei, a new species of the subgenus Climacura Howard, Dyar, and Knab from Malaysia, with notes on its biology (Diptera: Culicidae). 15319

Attempt at reacclimatization of the butterfly of madrona (Lep. Nymphalidae) in Madrid (Parts II-III). 15343

Mechanisms of population homeostasis in Anagasta ecosystems. 15364

Morphology, biology, and ecology of Dasychira selenitica Esp. (Lepidopt., Lymantriidae). 15369

Host finding by odor in the myrmecophilic beetle Atemeles pubicollis Bris. (Staphylinidae). 15375

Ecological and biological studies on Empoasca spp. (jassidae) in the Cairo area, U.A.R. 15377

Biological and morphological investigations of Brachycaudus spiraeae (Oestl.) C.B., an aphid pest of Spiraea (Homoptera: Aphididae): a contribution to the determination, to the specific morphology and chetotaxy of the aphid. 15380

Observations on the nesting behavior of Crossocerus (C.) maculiclypeus (Fox) (Hymenoptera: Sphecidae). 15388

Coprophilous flies. 15390

On the biology of Epinotia (Evertria) cedricida Diakonoff, a serious pest of cedar in France (Lep., Tortricidae). 15393

Contribution to the biology and ecology of the carnation fly, Phorbia brunnescens Zett (Diptera, Anthomyiidae). 15395

Observations of a mermithid nematodes parasitic in Orthopodomyia signifera (Coquillett) (Diptera: Culicidae). 15412

Studies on biology of Ferrisia virgata Ckll. Pseudococcidae: Homoptera) in Madhya Pradesh. 15420

Biology and natural enemies of the hrinjal mealybug, Centrococcus insolitis (Green) in Madhya Pradesh. 15421

Autogeny in Culex peus Speiser. 15431

Pigmy mangold beetle (Atomaria linearis Steph.), biology and control. 15623

An exceptional outbreak of the aphid Macrosiphum (Sitobion) avenae Fabricius on wheat in southwestern France. 15649

INSECT BREEDING

On Cryptolaemus montrouzieri Muls. (Morphobiological observations). 9426

Studies on the environmental factors for the breeding of grain mites. Part IX. The effect of relative humidity on the age composition of the population of Lardoglyphus konoi. 10549

Host trees and breeding sites of native North American Pissodes bark weevils, with a note on synonymy. 11884

INSECT CAGES

Relationship of the green peach aphid to incidence and severity of lettuce mosaic. 10717

Unusual damage by clover seed weevils. 12066

Suppression of populations of pink bollworms in field cages with traps baited with sex attractant. 13061

Identification and characterization of tungro, a virus disease of rice in India. 13262

Establishment and maintenance of a laboratory colony of Aedes nigromaculis (Ludlow) (Diptera: Culicidae) by induced mating. 13656

INSECT COLLECTING EQUIPMENT

Concerning the validity of the capture results of insect traps, together with an attitude toward the work of H. Peters, Heidelberg, on synanthropic flies. 8784

A control unit for the automatic operation of a portable 115 volt 60 cycle A.C. power plant for insect light traps. 9418

A lightweight collapsible bait trap for Lepidoptera. 9451

Study of a biting midge, Forcipomyia (Lasiohelea) taiwana (Shiraki) (Diptera: Ceratopogonidae)I. Description of the complete life cycle of the midge reared in the laboratory. 9479

A killing agent for use in light traps. 10090

A simple collector for removing soil insects from an oil/water interface. 10095

On problems with weather conditions in light trap use. 11166

Carrion beetles (Necrophorus spp.) in the Netherlands (Col.). 11316

Scorpion collecting. 11382

Problems with mercury vapor light traps. 11413

A light-trap bag for collecting live insects. 12378

A simplified trap for collecting adult pecan weevils. 12379

The black flies of Alabama (Diptera: Simuliidae). 12389

Dry preparation of small soft skinned animals particularly arthropods, and of plant parts with dichlormethane-glacial acetic acid-silica gel.. 12440

Application of ovitraps in the U. S. Aedes aegypti eradication program. 12468

An appraisal of adult mosquito trapping techniques used in Nigeria, West Africa. 12534

Apparatus for removing overwintering adult rice water weevils from brunch grass. 12960

Apropriateness of a method of pursuing and capturing Hydraecia petasitis (Noctuidae). 13529

Epilecta linogrisea Schiff. in Normandy, their pursuit today, their raising from eggs. 13580

A procedure for collecting all of the Formica polyctena rejections from the nest. 13616

A simple separator for mosquito larvae and pupae. 13625

An all-purpose field kit for collecting and transporting aquatic insects. 13658

Mosquito collections by CDC miniature light traps and livestock-baited stable traps at Callao, Utah. 13660

A history of grasshopper abundance surveys and forecasts of outbreaks in Saskatchewan. 13677

A suction apparatus for collecting mosquitoes and other insects. 13692

An improved mechanical method of aspirating insects. 13737

A subsurface light trap for sampling aquatic insect populations. 13738

INSECT COLLECTION

The problem of insect identification and the University of Arkansas Reference Collection. 9317

List of insect and other invertebrate types in the Miguel Lillo Institute. (3rd list). 9902

Flight capacity of blood-engorged mosquitoes. 14815

INSECT COLOR

A natural hybrid butterfly of the genus Vanessa in New Zealand. 8825

A new British species of the genus Trioxys haliday (Hym., Braconidae). 11760

Epidemiology of tea blister blight (Exobasidium vexans). the genus Graphelysia Hampson, 1911 (Lepidoptera -Heterocerca). 14384

Studies on the parasitsm and control of tea root disease fungi in Ceylon. Heteroptera. 14448

Study of Neotropical Ctenuchidae -- II Revision of the genus Tipulodes Boisd., 1832 (Lepidoptera -Heteroptera. 15327

Contribution to the study of the family Arctiidae, on the genus Graphelysia Hampson, 1911 (Lepidoptera -Heterocerca). 15335

INSECT CONTROL

A summary of the forecasting program for rice stem borer control in Japan. 8068

Recent fundamental work on tsetse flies. 8124

Experiences in mass rearing of Prospaltella perniciosi Tow. in the transformed Stuttgart insectarium. 8167

Forest entomology. 8328

Bibliography on biological control. XI. 8341

Some aspects of biological control of the San Jose scale (Quadraspidiotus perniciosus Comst.) with the help of the aphelinid Prospaltella perniciosi Tow. 8361

Varietal resistance to rice stem borers at IRRI. 8367

Some recommendations for the control of perforators of seeds of Anonaceae (Bephrata sp. order Hymenoptera). 8372

Can the developmental trends of biological pest control be demonstrated with a bibliography . 8375

Predators pitted against cereal leaf beetle. 8696

Mixtures of dichlorvos, pyrethrins and dimethrin in aerosols for controlling houseflies. 8708

Alate aphids trapped over 8 years at two sites in Canterbury, New Zealand. 8798

Trithion-a new acaricide. 8814

Control of mites and aphids on and in bulbs. 8850

The PCO market in tick control. 8859

Breath lures bloodsucking bugs. 8920

Ecology of Utah apple mites: A statement of the problem. 9011

Insect vs men. 9013

The leaf snout weevil of the avocado. 9018

Occurrence and distribution of diseases and pests of rice and their control in Thailand. 9531

Fababeans, a new crop for Minnesota . 9535

First observations of damage to olive trees, caused by a cecidomyde. Clinodiplosis oleisuga Targ.(Dipt. Cecidomydae). 9629

A new method of cabbage root fly control. 9637

Effectiveness of a light trap in the protection of the health and productivity of corn. 9639

The defense of a corn crop against noxious insects by means of a light trap. 9640

Mid-state of Nebraska: There's no magic in pest control . 9861

New approaches to the control of pest organisms. 10118

A review of the use of insecticides on the main agricultural crops of the world--3. Section 3: Cotton. 10245

Black flies (Diptera, Simulidae) of Vologda region and their control. 10517

Corn rootworm control in South Dakota with notes on wireworm and cutworm control. 10520

Report of the Anti-locust Research Centre 1965. 10552

Report of the Anti-locust Research Centre for 1966. 10553

Experience of extermination of pasture ticks in a natural focus of tularemia on the Island of Biryuchy. 10583

On results of control of a tick vector of spirochaetosis in village foci of the Central Asian Republics.
10585

Medical and veterinary entomology in the USSR.
11435

Biological study of Phoracantha semipunctata F. (Coleoptera; Cerambycidae, Xy lophage) specific to the Eucalyptus in Tunisia, and research on the vitality and adaptation of its (Eucalyptus') oils.
11524

The campaign against the citrus blackfly. Aleurocanthus woglumi Ashby.
11528

Chemical control of the white potato grub Premnotrypes vorax (Hustache).
11548

Notice of withdrawal of petition for food additive ruelene.
11584

The effect of trichlorphone (Soldep, Hypodermin) on some ectoparasites or mycoses in cattle and sheep.
11636

Oral famphur for treatment of cattle lice, and against scabies mites and ear ticks of cattle and sheep.
11637

No frontier in the fight against the desert locust.
11782

The toxicity of organophosphorus insecticides to miner moths.
12045

Currant and gooseberry aphids.
12047

Control of vine bunch mite this season.
12053

A contribution to the biology of Dysaphis aphids on apple and their control.
12061

The currant borer (Synanthedon tipuliformis).
12073

Orchard illumination as a counter to the fruit piercing moth.
12089

Delsea of Camden, N. J.--mouth-to-mouth pest control.
12330

Distribution of the corn earworm on St. Croix, U.S. Virgin Islands, and its relation to suppression programs.
12387

Control of acarids with triphenyl tin compounds. patent 3,445,575.
12545

Promising chemicals for control of adult mosquitoes.
12583

Use of radiography in seed and grain technology.
12595

Laboratory and field tests in 1966--67 on chemical control of wireworms (Agriotes spp.).
12671

Susceptibility of six anopheline species from Thailand to insecticides.
13098

The brine fly problem on the great salt lake beaches.
13104

The use of micro-organisms for the control of insect pests.
13105

Quarantine hearings reveal Formosan termite may cause 62 million dollar damage yearly; is now found in South Carolina.
13112

Field tests with bed nets treated with repellents to prevent mosquito bites.
13220

New results in the control of the coffee borer--Hypothenemus Hanpei (Ferr., 1867).
13299

A contribution to the study of cicada (Cicadetta montana Scop.) as pest of raspberries (rubus idaeus L.) in the regions of Valjevo and Cacak.
13307

The fight against synanthropic flies.
13312

The effects of synergized pyrethrins and lindane on pre-emergence mortality of Acanthoscelides obtectus (Say.) (Coleoptera: Bruchidae).
13314

Control of aphids in seed potato production.
13322

The biology and chemical control of the maize borer, Ostrinia salentialis, Snellen, in west Malaysia.
13332

Ants indoors.
13424

A mosquito control district's public information and education program.
13527

Experiments with food attractants for the detection and control of fruit flies in the state of Veracruz.
13612

Tests of larvicides for control of salt-marsh sand flies (Culicoides), 1967.
13729

Evaluation of smoke from insecticidal coils against mosquitos.
13732

Some recent developments and trends in vector control aspects of malaria eradication.
13733

Experiences with aerial dusting in the Kern mosquito abatement district--1967.
13734

Mosquito control on Smith Mountain Reservoir by pumped storage water level management.
13735

Aerial insecticidal sprays against resistant salt-marsh mosquitoes Aedes taeniorhynchus (Wiedemann) and Aedes sollicitans (Walker).
13736

Aerial application of a chemical fog for the control of mosquito larvae and adults.
13739

Control of mosquito adults and larvae using Baytex and Baygon in a SiO2 chemical fog.
13743

Two formulations effective in the laboratory as ovicides for Aedes aegypti (L.).
13744

The control program of the Mexican fruit fly, Anastrepha Ludens Loew.
13850

Desert locust situation and control in India during 1962-63.
13858

Fly and economic evaluation of urban refuse systems. I. Control of green blow flies (Phaenicia) by improved methods of residential refuse storage and collection.
14031

The silent supervisor (a functional organization chart).
14114

An apparatus for dispensing house fly eggs mechanically.
14119

Important forest insects of Ontario in 1966.
14120

Fruit-piercing moths and their control in Japan.
14246

Oviposition sites and the viability of eggs of Thymelicus lincola (Ochs.) (Lepidoptera: Hesperiidae).
14253

Insects of the season 1966 related to fruit, vegetables and ornamentals.
14483

Hard-to-kill pests of fruit trees;the mites.
14488

Warble fly larvae control study.
14631

Report to the Government of Madagascar on locust control.
14871

Mosquito control in Utah by shore line modification.
14908

Strawberry insect control.
15011

The use of systemic insecticides to reduce the incidence of curly top virus disease in sugarbeets.
15019

Pecan insect and disease spray schedule.
15025

Flower and shrub insects.
15027

Central anti-locust organisation in India.
15031

Relative efficacy of endrin and parathion as prophylactic sprays in the control of jute apion, Apion corchori Marshall (Coleoptera: Curculionidae).
15035

Feasibility and outlook for results of granulated insecticide application against forest pests.
15416

Effects of ultraviolet radiation on adults of Aedes aegypti (L.) (Diptera: Culicidae).
15451

Bunch grape spray program.
15486

Blueberry spray program.
15548

Domestic quarantine notices. European chafer.
15614

Studies on the behaviour of Plusia orichalcea Fabr. (Lepidoptera: Noctuidae) and an assessment of the foliar loss caused by it and the control measures.
15617

Philosophy of forest insect control in Britain.
15618

Peanut insects. Seasonal control of thrips, leafhoppers, southern corn rootworm and wireworms.
15624

Tree insects and mites.
15639

Tobacco insects.
15663

Cotton insects. General statewide control program.
15664

Comparative effectiveness of some modern insecticides against the blossom thrips of red-gram (Cajanus cajan (L.) Millsp.).
15673

Tularemia focus in the Volga River delta and measures of its control.
15796

INSECT CULTURES

Etiella zinckenella Treit-a pod borer pest of Crotalaria anagyroides H.B.K.
8778

Study of the corpus allatum in living larvae of the blow fly Calliphora erythrocephala MG. (Diptera, Calliphoridae).
8877

Oviposition of Aedes aegypti L. on a dry surface and hygroreceptors.
11780

Unusual damage by clover seed weevils.
12066

Cannibalism and predation by aphids.
12409

The effects of population size and selection intensity in selection for a quantitative character in Drosphila. I. Short-term response to selection.
13717

The effects of population size and selection intensity in selection for a quantitative character in Drosphila. II. Long-term response to selection. 13724

The ability of colour distinction in the wood-ant Formica polyctena Forster. 14223

Dawn and dusk activity periods and orientation to forest and field of the Drosophila subobscura and Drosophila obscura. 14225

INSECT CYTOLOGY

Ultrastructure of the trophic bands in the ovaries of several homopteran Auchenorrhyncha. 9393

The sensory cells of the hypopharyngeal organ of Blabera craniifer Burm. (Insecta, Dictyoptera). Study of the ciliary segment and the connected structures. 10554

A new type of invertebrate virus shown in Coleoptera. 10570

Cytostatic effects on the hemocytes of Tenebrio molitor L. (Coleoptera). 10572

Experiments on nuclear transplantation in Drosophila melanogaster. Preliminary report. 14200

Study of the infrastructure of the molting glands of Locusta migratoria migratorioides (R. and F.). I. Cyclic development during the larval stages and production of the secretion product, ecdysone. 14742

RNA and protein in nucleolar structures of dragonfly oocytes. 14826

INSECT DIETS

Ovarian function and oviposition in virgin females and fertilized females of Drosophila melanogaster which have been submitted to an exclusively glucoside diet. 11349

INSECT DISEASES

Motion and flagellation of Clostridium brevifaciens. 8094

A polyhedrosis in Culex salinarius of Louisiana. 8098

A noninclusion virus of blow-fly larvae. 8105

Nosema sp. infecting a laboratory colony of the alfalfa weevil. 8109

Laboratory study of the ecological conditions favoring the development of the fungus Beauveria tenella on cockchafer larvae. 8116

A bloating disease of adults of the apple maggot. 8142

Research on the pathogenesis of Nosema melolonthae Krieg.. 8146

New ultracytological findings in insect nuclear polyhedroses. 8152

Purification of a cytoplasmic-polyhedrosis virus of the silkworm, Bombyx mori. 8159

The fine-structure of the epimastigote forms of Trypanosoma lewisi in the rectum of the flea, Nosopsyllus fasciatus. 8161

Control of European foulbrood disease of the honey bee. 8189

Ineffectiveness of a microsporidian and a granulosis virus in activating a cytoplasmic polyhedrosis virus in the alfalfa caterpillar, Colias eurytheme. 8198

Formation of tumorlike lesions in the cockroach Leucophaea maderae after nerve severance. 8199

An epizootic disease of Tarichium (Entomophthoraceae) on the larvae of Ocnogyna parasita Hbn. (Lepidoptera, Arctiidae). 8215

Entomophthora aquatica sp. n. infecting larvae and pupae of floodwater mosquitoes. 8695

Occult viruses in insects. (Abstract). 8710

Wetanema hula n. gen. et sp., a nematode from the weta Hemideina thoracica (White). 8737

Cytopathology of a nucleopolyhedrosis of the beet armyworm, Spodoptera exigua. 8773

Pathogenicity of a nuclear-polyhedrosis virus of the beet armyworm, Spodoptera exigua. 8774

The incidence of parasitism and disease in some populations of the cabbage aphid,(Brevicoryne brassicae L.) in New Zealand. 8799

Simultaneous infection with the nucleopolyhedrosis and granulosis viruses of Trichoplusia ni. 8800

Histopathological data on amoebiasis in Acrididae. 8805

The method and role of vertical transmission of a nucleopolyhedrosis virus in the European spruce fly, Diprion hercyniae. 8818

Comparative toxicites of crystal serotypes of Bacillus thuringiensis for larvae of Philosamia cynthia var. ricini. 8830

Ecological significance of antibiotics of some varieties of Bacillus thuringiensis. 8831

A new virus of Drosophila melanogaster, virus P1. 8835

Sigma virus multiplication in whole-animal culture of Drosophila. 8852

Lack of multiplication of simian virus 40 (SV40) in experimentally infected mosquitoes. 8854

Purification and some properties of Chilo iridescent virus. 8883

Some effects of sublethal heat on spores of Nosema apis. 8890

Rate of oxygen uptake of healthy and diseased larvae of the Japanese beetle. 8895

Iridescent virus from blackfly Simulium ornatum Meigen in Czechoslovakia. 8896

Alkali bees: Response of adults to pathogenic fungi in brood cells. 9344

Tests on the control of Prays citri Mill. by means of Bacillus thuringiensis. (preliminary report). 9389

Note on a parasitic Aspergillus on larvae of Amsacta moorei Butler. 9420

An epizootic of Serratia marcescens (Enterobacteriaceae) in Periplaneta fuliginosa (Blattaria) and a suggested method for control. 9462

Some consequences of irradiating the gypsy moth eggs with radioactive cobalt 60. 9491

Helicopter sprayers may rescue infested forests. 9959

Ultrastructural observations on the branched rods associated with some insect granuloses. 9960

Sindbis virus multiplication and Calliphora erythrocephala (Meig.) metamorphosis. 9969

Spermatocyte granules in Drosophila melanogaster. 10003

Fine structures of merozoites of Babesia bigemina in the ovaries of Boophilus microplus and Boophilus decoloratus. 10012

Microscopical studies on the development of Babesia ovis in Rhipicephalus bursa (Ixodoidea). I. Development in female ticks after repletion. 10013

Study of densonucleosis of Lepidoptera by the immunological gel diffusion method. 10019

Experimental infections with Bacillus larvae. I. A strain with a morphological marker. 10020

Antennopsis gallica Heim and Buchli (hyphomycetes: Gloeohaustoriales), an entomogenous fungus on subterranean termites in Florida. 10022

Course of sporulation of Bacillus popilliae in liquid medium containing activated carbon. 10029

Lethargy, a new virus of Melolontha melolontha L. larvae (Coleoptera, Scarabaeidae). 10036

Leaching of the nuclear-polyhedrosis virus of Trichoplusia ni from soil. 10041

Laboratory and field experiments on the effectiveness of purified and non-purified nuclear polyhedral virus of Lymantria dispar L.. 10061

Development of the bait principle for boll weevil control. IV. Field tests with a bait containing a feeding stimulant and the sporozoans Glugea gasti and Mattesia grandis. 10068

Diplogasterid nematodes (Diplogasteridae: Rhabditida) and their relationship to insect disease. 10094

Nematode parasites of the face fly and the onion maggot in France and Denmark. 10120

A strain of nuclear-polyhedrosis virus causing extensive cellular hypertrophy. 10126

Fuseaux virus of a South American Scarabaeidae. 10133

The histopathology of a nuclear polyhedrosis in larvae of the cabbage looper, Trichoplusia ni, related to symptoms and mortality. 10134

Changes in chromosomes induced by different DNA virus in cells of Rhynchosciara angelae. 10158

Natural infection of chigger mites with Rickettsia tsutsugamushi on the Primorsky Territory. 10541

Studies on the diseases of aseptically reared silkworms, Bombyx mori L. V. Induction of nuclear polyhedroses by the feeding of certain chemicals to the silkworm after transfer from aseptic to normal rearing condition. 10548

Distribution of rickettsia Dermacentroxenus sibiricus in the organisms of ticks Ornithodoros lahorensis Neumann, Alveonasus canestrinii Bir. (Argasidae, Ixoidea). 10561

Occurrence of the non-moulting tiny silkworms caused by inoculation of the flacheric (F) virus. 10573

Gregarinidae: New Orthopteran parasites. 11246

Formaldehyde as an antiviral agent against a granulosis virus of Pieris brassicae. 11251

Effect of starvation on the black carpet beetle, Attagenus megatoma, infected with the eugregarine Pyxinia frenzeli. 11260

Extension of the host range of Nosema locustae in Orthoptera. 11286

A disease of the honey bee causing behavioral changes and mortality. 11321

Factors influencing the development of a polyhedral cytoplasmic intestinal virus in Mamestra brassicae L. (Lepidoptera). 11322

A coccidian pathogen of the dermestid Trogoderma parabile. 11336

A candidiasis in larvae of the Douglas-fir tussock moth, Hemerocampa pseudotsugata. 11339

Penetration of Keystone virus in artificially infected female Aedes infirmatus (Dyar and Knab). 11367

A Coelomomyces infection of Aedes australis in New Zealand. 11369

A guide for the application of dark field microscopy for routine diagnosis in insect pathology. 11397

Virus-cell studies of Tipula iridescent virus in Galleria mellonella (L.). I. Electron microscopy of infection and synthesis of Tipula iridescent virus in hemocytes. 11420

Microbial control in Hawaii. 11545

Mode of multiplication of the nuclear-polyhedrosis virus of the silkworm. 11773

Molecular organization in the polyhedra of Porthetria dispar nuclear-polyhedrosis. 11812

Histopathology of lecithodendriid trematode infections in stonefly naiads. 11823

Serological investigations of insect viruses. I. Comparison of three highly purified cytoplasmic-polyhedrosis viruses. 11846

Subterranean termites and fungal-bacterial relationships. 11852

The occurrence of house crickets (Acheta domesticus (Linnaeus, 1758)) on mountain slopes. 11864

Electron-microscope studies of a granulosis virus of Pygaera anastomosis. 11882

A new spindle virus observed in a Lucanid (Coleoptera) of Madagascar. 12326

A ten year survey of Trinidadian arthropods for natural virus infections (1953-1963).(Abstract). 12403

The multiplication and spread of sacbrood virus of bees. 12408

On the specificity of Vagoiavirus melolonthae. 12467

Fatty acids in Bacillus larvae, Bacillus lentimorbus, and Bacillus popilliae. 12474

Comparative resistance to sedimentation of three different strains of sigma virus of Drosophila. 12517

On a new species of Agamermis (Mermithidae) of a bug in Poland. 12525

Stempellia scolyti (Weiser) comb. nov. and Nosema scolyti sp. n. microsporidan parasites of four species of Scolytus (Coleoptera). 12540

Parasites of mosquitoes in southwestern Wyoming and northern Utah. 12549

Transmission of Hamosporidiorida by cave-dwelling Anopheles in the grottos of the Congo. 12577

Treatment of corn rootworm larvae and adults with Bacillus thuringiensis and B. popilliae. 12687

Symposium on the action of entomopathologic viruses and fungi on the vertebrates. 12895

Protease production by species of Entomophthora. 12969

Milky disease bacteria. 12992

Incidence of virus diseases in aseptically-grown silkworm, Bombyx mori L. (II. Effect of feeding of chemicals and irradiation of gamma-rays. 13074

Diseases of the Clear Lake gnat Chaoborus astictopus (Diptera: Chaoboridae). 13129

The relative susceptibility of the larvae of Spodoptera mauritia acronyctoides (Guence) (Lepidoptera: Noctuidae) to several contact insecticides. 13300

Some observations on Anthix puta (Grote and Robinson) (Lepidopterai Noctuidae) found on aspens in the Province of Quebec. 13324

Laboratory batch production of Bacillus thuringiensis spores and crystals. 13376

Pathogenesis of an Aspergillus flavus infection of Galleria mellonella eggs. 13603

Manner of action of Aspergillus parasites in insect wounds. 13698

Natural enemies of the desert locust (Schistocerca gregaria). 13830

Electron microscopy of spindle-shaped inclusion viruses of Coleoptera. 14184

A serological comparison of some iridescent non-occluded insect viruses. 14193

On the cross-inoculation of Chilo iridescent virus. CIV. 14206

Natural mortality of overwintering eggs of Longiunguis donacis (Pass.). 14266

Development of the virus with inclusion bodies, of the Lepidoptera Lymantria dispar in cell cultures. 14275

Damage caused by Lankesteria culicis (Ross) to Aedes aegypti (L.). 14297

Sex differences in embryonic response to Eimeria tenella infection. 14579

Demonstration of the vagoiavirus by the electron microscope after the dissolution of the inclusion bodies. 14793

The identification of a virus through the electronic microscope: The sigma virus of Drosophila. 14794

Development of glycemia in the scorpion Androctonus australis L. subjected to cobalt 60 gamma rays. 14822

A literature review of the spruce, western, and 2-year-cycle budworms Choristoneura fumiferana, C. occidentalis, and C. biennis (Lepidoptera: Tortricidae). 14852

A virosis with ovoid inclusions in Lepidoptera. 14853

On mass cultivation, determination of effectiveness, and standardization of insect pathogenic fungi. 14857

On the classification of the insect parasitic nematodes of the Sphaerulariidae Lubbock, 1861 (Tylenchoidea: Nematoda). 14860

Pathogenicity studies of neoaplectanid nematodes and their use for insect control. 14864

On the mode of action of Aspergillus, parasites of insect wounds. 14888

Defensive reaction of cells in wound infections caused by Mucor hiemalis Wehmer. 14889

Viruses of the mealy bug larvae, Tenebrio molitor. of granular insecticides in coconut leaf axils. 15379

Preliminary research on Drosophila sigma virus multiplication in insects belonging to different orders. 15383

Hemagglutination with cytoplasmic-polyhedrosis virus of the silkworm, Bombyx mori. 15402

Deoxyribonucleoside monophosphokinases of silkworm pupae infected and uninfected with nuclear polyhedrosis virus. 15408

Viruslike particles in adult Drosophila melanogaster. 15418

A new parasite of Culex pipiens L., Entomophthora destruens sp.n. (Phycomycetes, Entomophthoraceae). 15432

The poisoner's primer. caused by a cytoplasmic virus Smithiavirus pithyocampae Vag.. 15759

INSECT DISSEMINATION

Dispersion of released white-pine weevils in intrastand growth types. 8766

Spring dispersal of some leafhoppers and aphids. 8832

Preliminary studies of the release in 1965 on the island of Chalki, of Opius concolor Szepl. (Hymen, Braconidae) a parasite of Dacus olcae Gmel. (Dipt. Trypetidae). 8864

The light threshold controlling the periodicity of invertebrate drift. 9358

Artificial biological control of the olive fruit fly (Dacus oleae Gmel.) by means of Opius concolor Sz. siculus Mon. on the Lipari Islands (Sicily). July-September 1965. 9429

The importance of the transplantation of Formica lugubris in Italy. 9445

On the transplantation of ants of the group Formica rufa in Italy. 9461

The status of biological control of the weed Hypericum perforatum in British Columbia. 9667

Ochromolopis ictella Hb. (Lepidoptera, Epermeniidae) in Finland, probably transported by windstorm. 9912

Colonization of an island by the buffalo fly, Haematobia exigua. 10004

Blankaartia acuscutellaris (Acarina, Trombiculidae) and its extension to the African continent. 11404

The family Xestocephalidae of Japan (Hemiptera). 11736

A new British species of the genus Trioxys haliday (Hym., Braconidae). 11760

Movement and oviposition of wheat bulb flies. 11781

Control of wheat bulb fly by large area cropping restrictions. 12069

Ecology of lice on sheep. VI. The influence of shearing and solar radiation on populations and transmission of Damalinia ovis. 12186

Aerial dispersal of some British Psocoptera, as indicated by suction trap catches. 13103

Morphology and geographic distribution in Spain of the 'child of the milk vetch' Plebejus (Plebejus) pylaon (F.d.W., 1824). 13531

Review of recent literature on mosquitoes of North America. 13539

Coenonympha oedippus Fab. in Sarthe and Maine-Loire. 13549

Biogeographical reflections with special reference to the beetle fauna of western Norway. 13553

Distribution and abundance of Hylotrupes bajulus L. (Col., Cerambycide) and Anobium punctatum de Geer (Col., Anobiidae) along the Sogneford in West Norway. 13566

An apparatus for dispensing house fly eggs mechanically. 14119

Hemianax ephippiger (Burm.) (Odonata) carried to Iceland from the eastern Mediterranean by an aircurrent . 14243

Study on the density of the adult of the brown planthopper Nilaparvata lugens Stal. 14251

Records of the orthopteroid insects in Ontario. 14276

The mechnism of coupling of the locust Light oscillator to oscillatory inputs. 14278

Factors affecting the infestation of aphids on potato plants. 14481

On the ecology of natural dispersal; Dione moneta poeyii in Texas (Nymphalidae). 14747

INSECT ECOLOGY

A new subfamily of blind beetle from Idaho ice caves with notes on its bionomics and evolution (Coleoptera: Leiodidae). 8065

Intrafloral ecology. 8080

Experiments on the description of the environments of an insect form (model and field experiments with Drosophila). 8085

Ecological research on arthropods of a sandy beach of the Mediterranean. II. The migrations of Talitrus saltator (Montagu) (Crustacea-Amphipoda). 8122

Fungal-insect mutualism in trees and timber. 8125

Behavioural aspects of the ecology of the sand martin flea Ceratophyllus styx jordani Smit (Siphonaptera). 8139

Research on bio-ecology of Sitona crinitus (Herbst) and method for chemical control. 8148

Association among species of infrequent occurrence: The insect and spider fauna of Polyporus betulinus (Bulliard) Fries. 8171

Biological and ecological study of the hymenopterous parasites of the eggs of cereal bugs. 8182

Air swallowing- an effective protection against drowning in larvae of Epistrophe balteata (Syrphidae Dipt.). 8185

Synecological studies on flies (Anthomyiini) in cultivated fields. (A contribution to agrarecology). 8190

Color and natural products attracting the adult sugarbeet root maggot in Southcentral Idaho. 8197

Genetic and environmental influences upon the viability of Drosophila melanogaster metafemales. 8255

Some aspects of biological control of the San Jose scale (Quadraspidiotus perniciosus Comst.) with the help of the aphelinid Prospaltella perniciosi Tow. 8361

Ecology of common insect pests of rice. 8368

The rice gall midge Pachydiplosis oryzae (Wood-Mason). 8371

Proposed faunal affinities of Utah Dytiscidae with the emphasis on the genus Hygrotus Stephens. 8618

Two species of apple-feeding gelechiids new to science (Lepidoptera). 8640

A revision of the genus Chlorocnemis Selys (Odonata). 8659

The genera Neurocyta Navas and Phryganopsyche Wiggins in India (Trichoptera, Phryganeidae, and Phryganopsychidae). 8670

Further studies on the Tarsonemidae, II (Acarina). 8672

The genus Craterocercus Rohwer (Hymenoptera: Tenthredinidae). 8673

Notes on the systematics and dulosis of some western species of Formica, subgenus Raptiformica (Hymenoptera: Formicidae). 8675

Preliminary observations of alpine grasshoppers in a habitat modified by deer and chamois. 8706

Biology and phenology of the grasshopper Dociostaurus curvicercus in Israel. 8712

Dispersion of released white-pine weevils in intrastand growth types. 8766

Bionomic notes on the solitary Evylaeus oenotherae (Stevens) (Hymenoptera: Halictinae), a matinal summer bee visiting cultivated Onagraceae. 8785

On the bionomics of the clearwing Chamaesphecia colpiformis (Staudinger, 1850) (Lepidoptera, Sesiidae). 8787

Ecological research in the Lamto Savannah (Ivory Coast): Preliminary data on the populations of terrestrial ants. 8794

The incidence of parasitism and disease in some populations of the cabbage aphid,(Brevicoryne brassicae L.) in New Zealand. 8799

Trails of the leafcutters. 8812

Hypnoidus riparius (Fabricius), a possible agricultural pest from Europe (Coleoptera: Elateridae). 8868

The limnology of Playa Lakes on the Llano Estacado, New Mexico and Texas. 8872

Ecological studies of the field cricket, Gryllus campestris L. . 8887

Field identification and sex determination of Aphidecta obliterata, an introduced predator of Adelges piceae. 8903

Ecology of Utah apple mites: A statement of the problem. 9011

Some ecological observations and results of the control of Argyresthia fundella F. R. 9022

Larval development of Mansonia mosquitoes in Central Florida. 9261

The spiders of Mississippi. 9277

The Donaciinae of North Africa (Col. Chrysomelidae). 9295

Arthropoda associated with a nest of the Hawaiian crow. 9328

A study of the hibernation of bumblebees (Hymenoptera: Bombidae) in southern England. 9334

Preliminary results of a new seasonal investigation on brook Hydracarinae (Acari-Trombidi formes). 9341

A thesis by G. Strebler on the gall midge of alfalfa. 9351

Research on Messor of the Basin of Aquitaine: Ecology and biology. 9366

The proliferation of aquatic plants in Lake Trasimeno and its consequences on the diffusion of Phytochironomus severini Goetgh. 9367

The distribution of benthic invertebrates on substrata in fast-flowing streams. 9375

Taxonomic composition, trophic structure and seasonal occurrence in a grassland insect community. 9377

The influence of light and temperature on the pupal emergence activity of Chironomus nuditarsis Str. 9381

Studies on the ecology of adult Tipulidae (Diptera) in southern England. 9383

Parasitic changing in hosts and its ecological importance for the parasite. 9385

Research on the ecological system of the forest. Series B: The mixed, calcicolous oaks of Virelles-Blaimont. Contribution no. 18. Coleoptera caught in 1965 and 1966. 9388

The appraisal of delayed and direct density-independence. 9395

Some aspects of assessing efficiency of natural enemies. 9405

The effect of varying the initial numbers on the outcome of competition between two Tribolium species. 9416

Logarithmic regression as an index of responses to population density. 9433

Ecological observations on the species Smicromyrme septentrionalis Hffr. (Hym. Mutillidae). 9435

Biotic factors influencing populations of Dacus dorsalis in Hawaii. 9437

Bionomics of the juniper webworm. 9440

Food preference as a factor in distribution and abundance of Phoetaliotes nebrascensis. 9454

Aspects of the relationship between burying beetles, Necrophorus ssp. and the mite, Poecilochirus necrophori Vitz. 9476

Causes of the varied behavior of the black bark beetle of olives (Hylesinus oleiperda Fabr.) in Dalmatia. 9488

Estimated food consumption by the Colorado beetle (Leptinotarsa decemlineata Say) under conditions of natural reduction. 9489

Observations on the ecology of Thaia oryzivora, a leafhopper found on rice in Thailand. 9634

The status of biological control of the weed Hypericum perforatum in British Columbia. 9667

The larvae of Odonata in the vascular territory of stagnant waters in Bulgaria. 9872

Lathridius bifasciatus Reitt. (Col., Lathridiidae) habitats. 9878

Description of Dendrocerus (tmacrostigma) noumeae sp. nov. from New Caledonia (Ceraphronoidea, Megaspilidae). 9885

A new species of Chrysomela (Coleoptera, Chrysomelidae)-an important component of the Taimyr Peninsula biocoenoses. 9918

Life history and habits of Sialis rotunda and S. californica in western Oregon. 9965

The influence of ecological and genetic factors on the birth and death of Macrocheles robustulus (Berlese,1904). 10005

Deviate-ontogenics in the aphelinid male (Hymenoptera) associated with the ovipositional behavior of the parental female. 10006

Studies on the ecology of larval Tipulinae (Diptera, Tipulidae). 10011

Ecological research in the Lamto Savannah (Ivory Coast): Annual cycle of the population size and biomasses of arthropods in the herbaceous stratum. 10017

Aquatic insect communities of a small stream on Mont St. Hilaire, Quebec. 10060

The ecology of the Simuliidae in a Scottish river. 10062

Age-distribution and abundance in populations of flour beetles. I. Experimental studies. 10071

A model accounting for sympatry in water mites. 10076

Etology as the determining factor of the numerical distribution of the species in the fauna. 10144

The parasitism of gamasid mites (Gamasoidea) on birds. 10145

Symposium on the principles of the application of microbiological preparations in nature. 10249

Structure, stability, and energy flow in plants and arthropods in a sericea Lespedeza stand. 10255

Integrated control of insects. A challenge for scientists. 10265

Orthopteroid insects of east Nepal. 10487

New species of Gargara living on cola and cocoa trees in Central Africa. 10488

Fauna of the springtails (Collembola) of the Ojcow. 10509

Black flies (Diptera, Simulidae) of Vologda region and their control. 10517

Breeding places of blood-sucking Culicidae mosquitoes and recommendations for preventing of their appearance in lands of new irrigation in the Golodnaya Steppe. 10524

Leaterjackets. 10526

Some ecological studies on Agrotis segetum Schiff. (Lepidoptera, Noctuidae). 10531

Biological effects and persistence of dursban insecticide in a salt-marsh habitat. 10545

Autoecological-zoogeographical analysis of moss mites (Acari, Oribatei) on the basis of fauna in the Poznan environs. Part I. 10557

Insects associated with the sponge Spongilla fragilis in the Savannah River. 10558

Biology of the robber fly Eutolmus rufibarbis Mg, (Diptera, Asilidae) in Khabarovsk Territory. 10574

Ethology as the determining factor in the distribution of species and fauna. 10576

Specialist advisory and diagnostic service. 10598

The nymph of Amphiagrion abbreviatum. 11119

Pseudoscorpions and spiders from moss, fungi, Rhododendron leaf litter, and other microcommunities in the Highlands area of western North Carolina. 11144

Drosophila lowei, a new American member of the obscura species group. 11146

Parasites of the larch casebearer, Coleophora laricella (Hbn.), in British Columbia (Leidoptera: Coleophoridae). 11222

Comparative ecology of some hymenopterous egg parasites of the pine moth, Dendrolimus spectabilis Butler (Lepidoptera: Lasiocampidae), with special reference to the factors affecting their efficiency as natural enemies. 11289

Hydraecia petasitis in mountainous country, (Lep., Noctuidae). 11311

Research on the forest ecosystem. Series C. The Galeobdolon oaks and Mesnil-Eglise wood sorrel (Ferage). Contribution no. 8. Diptera collected in water jars. 11318

Investigations into the population dynamics of parasites and hyperparasites of Brevicoryne brassicae (L.) (Homoptera, Aphididae). 11362

Comparative notes on the distribution, ecology and behaviour of some damselflies (Odonata: Coenagriidae). 11363

Autogeny in the deerfly, Chrysops fuliginosus (Diptera: Tabanidae). 11380

Compensation of the back drift of caddis fly larvae (Insecta, Trichoptera). 11388

The distribution of two species of Cenocorixa in inland saline lakes of British columbia. 11390

Research on the forest ecosystem. Series C. The Galeobdolon oaks and Mesnil-Eglise wood sorrel (Ferage). Contribution no. 7. Hymenoptera collected in water jars. 11416

On the knowledge of the relationship of the Coccinellidae to pine groves (Pinus silvestris L.). 11530

An introduced pasture beetle, Plectris aliena Chapin (Scarabaeidae: Melolonthinae). 11755

Notes on parasites attacking the yellow-striped armyworm in Oklahoma. 11790

On the ecology of the fauna of stones in the current in a South African river supporting a very large Simulium (Diptera) population. 11798

Ecology of the American dog tick, Dermacentor variabilis (Say), in Nova Scotia. 11808

Research on the ecological system of the forest. Series C: Oaks of Mesnil-Eglise (Ferage) with Galeoblolon and Oxalis. Contribution no. 5. Insects collected in water jars. 11819

The bioecology of Corthylus columbianus Hopkins. 11821

Ground beetles of the genus Lebia Latreille in Arkansas (Coleoptera: Carabidae): Ecology and geographical distribution. 11827

Field investigations preliminary to life history studies on the lithosina-miona-casta complex of the genus Annaphila (Noctuidae). 11828

Contribution to the bionomics of Coptotermes formosanus, its laboratory breeding and applicability for testing the resistance of materials. 11831

Biological studies of Scythropus californicus on Monterey pine in northern California. 11836

The occurrence of house crickets (Acheta domesticus (Linnaeus, 1758)) on mountain slopes. 11864

19. Thysanoptera (Physopoda). 11870

Calcium, potassium, and sodium content of forest floor arthropods. 11874

Host trees and breeding sites of native North American Pissodes bark weevils, with a note on synonymy. 11884

Biology and immature stages of Eumetopiella rufipes. 11891

Ecological relations of three Atta species in Panama. 11897

Control of wheat bulb fly by large area cropping restrictions. 12069

Parasitization of Nabis alternatus by Leucostoma simplex in eastern South Dakota. 12072

Parasites of Rhyacionia buoliana and their occurrence at different crown levels of red pine in Wisconsin. 12087

Ecology of lice on sheep. VI. The influence of shearing and solar radiation on populations and transmission of Damalinia ovis. 12186

Subterranean termites: Their prevention and control in buildings. 12206

Faunistic and ecological data on the fleas of Madagascar (Siphonaptera). 12363

Taxonomic review, ecological and biological aspects of Diptera (Culicidae) living in the forest of Manera (Province of Kaffa) Ethiopia. 12373

A new genus and species of Tydeidae (Acari : Prostigmata) from New Zealand. 12388

The black flies of Alabama (Diptera: Simuliidae). 12390

Paper wasp in pitcher plant, Sarracenia purpurea L. 12412

Populations of the ant Tetramorium caespitum Latreille. 12421

Ecological studies on three pond midges (Diptera: Ceratopogonidae) in Quebec. 12433

Biological observations on the Anopheles gambiae complex. (Abstract). 12438

Changes in a Heterodera rostochiensis population through the growing season. 12451

Further studies on the pollination ecology of Ficus sycomorus L. (Hymenoptera, Chalcidoidea, Agaonidae). 12453

The problem of age determination in Anopheles melas Theo. 1903, by Polovodova's method. 12455

Shot-hole borer of tea plant in Japan. 12475

Ecological and biological data on Synopsyllus fonquerniei Wagner and Roubaud, 1932 (Siphonaptera), a flea of the domestic rat in the region of Tananarive. 12484

Ecology of the mosquitoes in artificially irrigated meadows of Southern Moravia. 12503

Maternal age as an ecological factor in the population dynamics of the European corn borer, Ostrinia nubilalis. 12520

Bionomics of Carpophilus foveicollis Murr. in pineapple. 12542

The ecology of selection in hybrid populations of Tribolium castaneum. 12575

New ecological data on vectors of human malaria in Africa. 12584

Ecology of stored grain insect pests. 12876

The coleopteran soil fauna in virgin islands cultivated for cotton in the north of Tadjikistan. 12949

Peculiarities of the fauna, ecology and geographic distribution of blood-sucking Arthropoda in Vietnam. 12964

Alphitobius diaperinus Pz. (Col., Tenebrionidae) in broiler houses. 13044

The influence of colony density and other factors on the number of offspring in Blastophagus piniperda L. (Col., Scolytidae). 13046

Defensive use of a fecal shield by a beetle larva. 13047

The effect of population structure on the success of insect introductions. 13082

The phenology of linyphiid spiders on heathland in Dorset. 13088

Arthropoda associated with a nest of the Hawaiian crow. 13135

Two species of Pteronemobius previously unreported in Quebec (Orthoptera: Ensifera: Grylloidea: Nemobiinae). 13140

Tabanid larval habitats and population densities in an alluvial area in southern Louisiana. 13146

Laboratory studies on the seasonal hatchability of egg batches of Aedes sollicitans, A. taeniorhynchus, and Psorophora confinnis. 13149

Mosquito studies in northern Wisconsin. I. Larval studies. 13224

Distribution and importance of Heterolaccus grandis as a parasite of the boll weevil. 13306

The role of parasites in decrease of numbers of Pissodes piceae (Curculionidae). 13309

Integrated control of insects. 13325

Ants indoors. 13424

Apropriateness of a method of pursuing and capturing Hydraecia petasitis (Noctuidae). 13529

Morphology and geographic distribution in Spain of the 'child of the milk vetch' Plebejus (Plebejus) pylaon (F.d.W., 1824). 13531

Not all diurnal butterflies have become rare. 13535

Review of recent literature on mosquitoes of North America. 13539

On some species of Aedes (Diptera, Culicidae) collected on the Apennines and on the Gargano Mountain. 13542

Biogeographical reflections with special reference to the beetle fauna of western Norway. 13553

List of nocturnal trifids of France and Belgium (continuation and end) and appendix (species of german fauna not in France and Belgium). 13558

On some Geometridae of Sardinia. 13561

A contribution to the composition and origin of alpine faunas of Coleoptera. 13569

Some new Oribatci from xerotherm soil of central Spain (Acarina). 13576

Lethe eurydice (Johansson) and L. fumosus (Leussler), sibling species (Lepidoptera: Satyridae). 13582

The Lohmanniidae of Spain (Acari, Oribatei). 13583

Notes on the biology of Ctenophthalmus p. pseudagyrtes Baker in the Northeast (Siphonaptera: Hystrichopsyllidae). 13605

Distribution and ecology of Aedes bicristatus Thurman and Winkler. 13613

Habitat selection of laboratory populations of Tribolium. 13657

Phyto-ecological basis of mosquito control: Cartography of larval biotypes. 13678

Behavioral adaptations of cryptic moths. V. Preliminary studies on an anthophilous species, Schinia florida (Noctuidae). 13680

A note on the tree locust in the Rajasthan desert. 13697

A laboratory study of larval competition between Aedes aegypti (L.) and Aedes triseriatus (Say). 13704

Mosquito control on Smith Mountain Reservoir by pumped storage water level management. 13735

Observations on Lygaeus pandurus Scopli in West Rajasthan. 13854

Oribatid mite fauna in Sarobetsu Moor in northern Hokkaido, Japan. 14138

The insect fauna in the burrows of the long-clawed molevole, a Caucasian endemic species. 14154

The viability of brown locust eggs (Locustana pardalina (Walker)). 14188

Epizoic symbiosis. 14203

Insects Vs man. (Lep. Notodontidae). 14210

A troglobitic staphylinid from Mexico (Coleoptera, Staphylinidae, Paederinae). 14211

Dawn and dusk activity periods and orientation to forest and field of the Drosophila subobscura and Drosophila obscura. 14225

Mating and ovary studies on Cerapteryx grammis L. (Lep. Noctuidae), collected from a light trap. 14228

Observations on wood-destroying insect living in the footbridge over Siikaneva bog. 14235

A three dimensional sketch of the tunnels of the Rapientia nests (Hym., Sphecoidea). 14240

On the life cycle of Coelorabro ambiguus (Hym., Sphecidae). 14241

Observations of the insect pests of the old shrine and the Buddhist temple wooden buildings and a few trypoxylonid wasps. 14244

Fruit-piercing moths and their control in Japan. 14246

A new contribution to the study of Leafhopper fauna (Homoptera, Auchenorrhyncha). 14270

Trends in studies on insect natural enemies and the future problems concerned. 14271

Lest white grubs visit your sugarcane...and find you unprepared. 14486

Influence of pesticides on russeting of Golden Delicious apples. 14487

Occurrence and control of Haplodiplosis equestris in Holland. 14496

The insect ecology of old-field red pine plantations in central Ontario, I. Description of the study area. III. Soil-surface fauna as indicators of stand change. 14548

Ecology of lice on sheep. VI. The influence of shearing and solar radiation on populations and transmission of Damalinia ovis. 14629

Contribution to the study of Caeculidae, 7th series, Microcaelulus franzi sp. n., sand living Caeculidae from Corsica. 14727

On the ecology of natural dispersal; Dione moneta poeyii in Texas (Nymphalidae). 14747

Chrysomelidae of the Debdou mountains of Morocco. (Coleoptera). 14753

Results of the Peris-Alvarez expedition to the island of Annobon. (12). Mantodea, Tettigonoidea and Acridoidea I. (Orthoptera). 14762

A contribution to the knowledge of Argentine Scorpions. Ii. Considerations on the genus Bothriurus in Patagonia and Tierra del Fuego with the description of a new species (Bothriuridae).
14763

On some aspects of the biology of Acheta domesticus Insecta, Orthoptera with reference to the infestation of refuse tips.
14789

The influence of fire on the carabid populations in the Lamto Savannah (Ivory Coast).
14808

Biology and external morphology of forage pests. I. Tussock caterpillars, Euproctis spp. (Lymantriidae: Lepidoptera).
14836

Contribution to the biological study of Xanthandrus comtus Harr. (Diptera, Syrphidae).
14841

Field observations on forest Oeneis (Satyridae).
14846

A literature review of the spruce, western, and 2-year-cycle budworms Choristoneura fumiferana, C. occidentalis, and C. biennis (Lepidoptera: Tortricidae).
14852

Report to the Government of Madagascar on locust control.
14871

Studies on bionomics and control measures of Cnaphalocrocis medinalis Guence; preliminary report.
14872

Population dynamics of rice stink-bug (Leptocorisa varicornis Fabr.) in relation to weather factors.
14879

Mosquito control in Utah by shore line modification.
14908

Possible courses for the disappearance of malaria in the Netherlands.
14909

Preference of the leaf-hopper Empoasca kerri Pruthi (Homoptera: Jassidae) to pigeon pea (Cajanus cajan (L.) Millsp.) plants infected with sterility mosaic virus.
15012

The new Hermonassa wlk-species from Dr. H. Hone's chinese-crop.
15314

Plant geography of Dicranura iberica Templ. and Ort. (Lep. Notodontidae).
15338

Growth of the dog tick Dermacentor variabilis Say (Acarina: Ixodidae). II. The effect of starvation and host species on its growth and fecundity.
15346

Permanent rearing of Phorbia platura Meigen (Hylemyia cilicrura RONDANI) (Diptera Muscidae). I. Artificial egg laying site.
15348

Mechanisms of population homeostasis in Anagasta ecosystems.
15364

Morphology, biology, and ecology of Dasychira selenitica Esp. (Lepidopt., Lymantriidae).
15369

Host finding by odor in the myrmecophilic beetle Atemeles pubicollis Bris. (Staphylinidae).
15375

Ecological and biological studies on Empoasca spp. (jassidae) in the Cairo area, U.A.R.
15377

Contribution to the biology and ecology of the carnation fly, Phorbia brunnescens Zett (Diptera, Anthomyiidae).
15395

Observations of a mermithid nematodes parasitic in Orthopodomyia signifera (Coquillett) (Diptera: Culicidae).
15412

Research on cranefly populations. The effect of certain ecological factors on Tipula paludosa Meig.
15424

The transitory nature of Aedes aegypti larval habitats in an urban situation.
15433

Microbiological control of pestiferous insects in the USSR.
15650

INSECT EGGS

On the phosphagen isolated from eggs of insects.
8108

Endocrine control of reproduction in insects.
8113

Mass rearing of the rice stem borer.
8119

Physiology of rice stem borers, including hibernation and diapause.
8120

Influence of light on diapause in the boll weevil. Ii. Dependence of diapause response on narrow bands of visible radiation and a broad band of infrared radiation used to extend the photoperiod.
8128

Nutritional studies of the rice stem borer Chilo suppressalis Walker.
8140

Biological investigations on Pandemis heparana (Den. and Schiff.) with special consideration given to the factors inducing diapause and influencing egg laying.
8155

Biological and ecological study of the hymenopterous parasites of the eggs of cereal bugs.
8182

The role of short infra-red rays, on the egg laying workers of the ant Dolichoderus quadripunctatus L..
8200

The embryogenesis of the larval head of Simulium venustum Say (Diptera: Nematocera).
8225

Recent developments in and future prospects for the chemical control of the rice stem borer at IRRI.
8366

Apple chalcid, Torymus varians (Wlk.), (Hymenoptera: Torymidae), in Quebec.
8373

Ovicidal efficiency of parathion and diazion for quarantine treatment of the Western tent caterpillar.
8376

Palearctic species of egg parasites of the genus Telenomus haliday (Hymenoptera, Scelionidae, Telenominae).
8645

Winter control of the European red mite, Panonychus ulmi, and certain fruit insects by M-2060 (2-fluoroethyl(4-biphenylyl)acetate) in Italy.
8691

Screwworm fly upsurge.
8698

Nucleic acid synthesis in nurse cells of Rhynchosciara angelae Nonato and Pavan, 1951.
8705

The development and larval behavior of Stigmella malella Stainton. (Lep. Stigmellidae).
8728

Female specific protein: Biosynthesis controlled by corpus allatum in Leucophaea maderae.
8750

Description of immature stages of Noctuiseius treati Prasad (Acarina: Phytoseiidae).
8836

The influence of infections of nuclear-polyhedrosis virus on adult cabbage loopers and their progeny.
8889

A temperature effect on nondisjunction of the X chromosomes among eggs from aged Drosophila females.
8912

Factors influencing egg survival of Scolypopa australis Walker (Hemiptera-Homoptera: Ricaniidae) in the Sydney area (N. S. W. Australia).
9005

The problem of the ootheca secretion in orthopteroids in the light of the most recent acquisitions.
9340

Effects of dietary amino acids, salts, and protein starvation on fecundity of the parasitoid Excristes comstockii (Hymenoptera: Ichneumonidae).
9353

On the weight decline of eggs in one oviposition batch of Bombyx mori.
9414

Preliminary studies on the effects of gamma irradiation of eggs and adults of the southern green stink bug, Nezara viridula (L.).
9421

Artificial biological control of the olive fruit fly (Dacus oleae Gmel.) by means of Opius concolor Sz. siculus Mon. on the Lipari Islands (Sicily). July-September 1965.
9429

Artificial biological control of Dacus oleae Gmel. by means of Opius concolor Szep. siculus Mon.
9430

The laboratory breeding and embryonic development of Chorthippus brunneus Thunberg (Orthoptera: Acrididae).
9432

The pattern of pteridine accumulation in eggs of Pyrrhocoris apterus.
9473

Study of a biting midge, Forcipomyia (Lasiohelea) taiwana (Shiraki) (Diptera: Ceratopogonidae)I. Description of the complete life cycle of the midge reared in the laboratory.
9479

Some consequences of irradiating the gypsy moth eggs with radioactive cobalt 60.
9491

Biology and morphology of Graphosoma semipunctata Fabricius, (Heteroptera, Pentatomidae).
9493

The influence of nutrition on the fertility and longevity of the bean weevil (Acanthoscelides obtectus Say).
9494

Correlations between egg production and chromosomal- regions in Drosophila melanogaster.
9510

The effect of temperature on the number of eggs deposited and on the production of hatching larvae in versene-treated Drosophila melanogaster.
9511

Description of immature stages of Coreidae. 3. Archimerus alternus.
9956

Description of immature stages of Coreidae. 1. Euthochtha galeator.
9957

The external morphogenesis of grasshopper embryos.
9987

Effect of temperature on water absorption, development, and hatching in eggs of the prairie grain wireworm, Ctenicera destructor.
9999

Temperature effects on embryonic development in insects.
10035

Biology of the billbug Sphenophorus venatus confluens, a new pest of orchardgrass.
10047

Experimental studies on diapause in stoneflies. III. Eggs of Brachyptera risi (Morton).
10051

Field observations on periodicity and site preference in oviposition by Aedes aegypti (L.)

and related mosquitoes (Diptera: Culicidae) in Kenya. 10072

Water uptake and embryonic development in eggs of Chorthippus brunneus Thunberg (Saltatoria: Acrididae). 10079

Oviposition and hatching in two species of ticks in relation to moisture deficit. 10119

Sensitivity to gamma radiation of Tribolium confusum eggs at various developmental stages. 10136

Parasitization of imported cabbageworm and cabbage looper eggs on cabbage in Southern California, with notes on the colonization of Trichogramma evanescens. 10556

Mating of untreated and tepa-chemosterilized fall armyworm moths. 10575

On the locus of 'White lethal egg' gene in the silkworm. 10580

Egg production by the Engelmann spruce beetle, Dendroctonus obesus, in relation to status of infestation. 11313

A coccidian pathogen of the dermestid Trogoderma parabile. 11336

Some regulatory mechanism in populations of Tribolium confusum Duval and Tribolium castaneum Herbst. 11374

Artificial parthenogenesis and experimental polyploidy in silkworm. 11778

Oviposition of Aedes aegypti L. on a dry surface and hygroreceptors. 11780

Movement and oviposition of wheat bulb flies. 11781

Permeability to water of the shell of the egg of Locusta migratoria migratoriodes, with observations on the egg of Teleogryllus commodus. 11793

Effects of light: Dark cycles on development in Drosophila melanogaster. 11800

Masonaphis maxima (Mason) (Homoptera: Aphididae), an aphid on thimbleberry with an unusual life history. 11816

Biological studies of Scythropus californicus on Monterey pine in northern California. 11836

Haemolymph proteins and yolk formation in the cockroach, Leucophaea maderae. 11878

Observations on the biology of six species of acarid mites. 11900

Some observations on the pentatomides of cereals and their parasitism in 1965. 11902

The promorhology of insect eggs. 11903

The morphology of cleavage of the Collembola egg. 11904

Cyclamen mite (Steneotarsonemus pallidus Banks) on Chrysanthemums. 12060

Control of wheat bulb fly by large area cropping restrictions. 12069

Experiments to control wheat bulb fly with a flame thrower. 12070

Biological studies of Argyresthia franciscella and A. cupressella on ornamental Cupressaceae. 12079

Conversion of results of concentrated samples to density estimates of egg and larval populations of the Northern corn rootworm. 12345

Description of immature stages of Coreidae. 2. Acanthocephala terminalis. 12400

Effect of winter precipitation and temperature on overwintering eggs of Northern and Western corn rootworms. 12432

Agistemus exsertus as a predator of two tetranichid mites. 12448

Lypolysis of triglycerides during cold storage of eggs of corn rootworms. 12459

Intercurrent resting, a neglected aspect of mosquito behavior. (Abstract). 12494

X-ray radiation effects on survival and sterility of adults of the cereal leaf beetle. 12500

Maternal age as an ecological factor in the population dynamics of the European corn borer, Ostrinia nubilalis. 12520

Iconography of the eggs of the Lepidotera fauna of Belgium. 12530

Photoperiodism in relation to development and reproduction in the green stink bug. 12554

Results of application of aluminum phosphide pellets to rice weevils in an open bin and to angoumois grain moths under air-tight conditions. 12878

Laboratory evaluation of malathion as a storage protectant for figs. 12879

The immature stages of the flea beetles Psylliodes cuprea (Koch) and Psylliodes chrysocephala (L.) (Col., Chrysomelidae). 12951

The effect of radioactive phosphorus on the development of Aedes aegypti larvae. 13006

Development of Crambus trisectus at controlled constant temperatures in the laboratory. 13009

The silkworm embryo. 13042

The effect of parental temperature upon filial egg period in Drosophila melanogaster. 13043

Survey of species and number of gypsy moth egg parasites in some localities of Yugoslavia. 13072

Preliminary studies on the effects of gamma irradiation of eggs and adults of the southern green stink bug, Nezara viridula (L.). 13087

Phosphomonoesterase activity in the life-cycle stages of Schistocerca gregaria. 13100

Some effects of anoxia and hypoxia on the European red mite, Panonychus ulmi (Acarina: Tetranychidae). 13111

An experimental study of the mortality factors of larval Musca autumnalis DeGreer. 13139

The influence of abiotic factors upon the distribution and abundance of egg parasites of the Eurygaster integriceps (Hymenoptera, Scelionidae). 13141

Laboratory studies on the seasonal hatchability of egg batches of Aedes sollicitans, A. taeniorhynchus, and Psorophora confinnis. 13149

The effects of oil treatments on egg hatching in the buffalo tree hopper, Stictocephala bubalus (F.) (Homoptera: Membracidae), in the apple orchards of southwest Quebec. 13318

Epilecta linogrisea Schiff. in Normandy, their pursuit today, their raising from eggs. 13580

Pathogenesis of an Aspergillus flavus infection of Galleria mellonella eggs. 13603

The influence of parental age on size of eggs, duration of development, and thoracic size of the progeny in Drosophila melanogaster. 13622

Fertilization in Drosophila. III. A revaluation of the role of polyspermy in development of the mutant deep orange. 13633

Transport of microorganisms (Phi particles) by the female germinal cells in the Homoptera Typhlocyba douglasi Edw. 13649

Free amino acids and derivatives in eggs of Tenebrio molitor during development. 13666

Oviposition by Pieris rapae L. in the insectary. 13673

A history of grasshopper abundance surveys and forecasts of outbreaks in Saskatchewan. 13677

An apparatus for dispensing house fly eggs mechanically. 14119

Notes on the genus Schyzops Spinola, 1837 (Phyllocephalinae, Pentatomoidea, Heteroptera). maritima (Guer.). 14139

Observations on the ovulation and oviposition with reference to corpus luteum formation in Musca domestica nebulo Fabr. (Muscidae: Diptera). 14229

Natural mortality of overwintering eggs of Longiunguis donacis (Pass.). 14266

Hard-to-kill pests of fruit trees;the mites. 14488

Review of Holarctic tarsonemid mites (Acarina: Prostigmata)parasitizing eggs of pine bark beetles. 14761

The female genital apparatus of Ranatra (Hemiptera, Ranatridae). 14801

Action of amine ovicides on Aedes aegypti mosquitoes. 14911

Effects of sub-lethal dosages of parathion and carbaryl on the biology of Dysdercus koenigii Fabricius. 15028

Effects of insecticidal treatment on the biology of surviving insects. 15029

Permanent rearing of Phorbia platura Meigen (Hylemyia cilicrura RONDANI) (Diptera Muscidae). I. Artificial egg laying site. 15348

In vitro: Ending of egg diapause in some Tettigoniids. 15361

Action of reserpine on Dacus oleae Gmel. 15366

The coelomic vesicles of the intercalary segment (0premandibular) in the embryo of the collembole Anurida maritima (Guer.). 15367

Contribution to the biology and ecology of the carnation fly, Phorbia brunnescens Zett (Diptera, Anthomyiidae). 15395

Preliminary observations on the embryonic development of Pissodes notatus F. (Col., Curculionidae). 15422

A new parasite of Culex pipiens L., Entomophthora destruens sp.n. (Phycomycetes, Entomophthoraceae). 15432
Simulated field tests with ovicides against Aedes aegypti eggs in tires and cans. 15446

INSECT EMERGENCE
Distrihution and emergence patterns of mayflies Ephemera simulans (Ephemeroptera: Ephemeridae). 8753

INSECT EVOLUTION
A new subfamily of blind beetle from Idaho ice caves with notes on its bionomics and evolution (Coleoptera: Leiodidae). 8065
Intrafloral ecology. 8080
Insects and the prohlem of austral disjunctive distribution. 8092
Investigation into the morphology, taxonomy, and biology of the Podapolipidae (Acarina, Tarsonemini) (Under special consideration, the parallel evolution of the genera feutarsopolipus and Dorsipes with their hosts (Coleopt., Carahidae)). 8173
Sex pheromone specificity: Taxonomic and evolutionary aspects in Lepidoptera. 8178
The evolution and past dispersal of the Trichoptera. 8181
The population genetics of insect introduction. 8260
Host-parasite interactions and the feeding of blood-sucking arthropods. 8490
The natural foci of human transmissive diseases. 8657
Sex chromosomes and sex determining mechanisms in Odonata, with a review of the cytological conditions in the family Gomphidae, and references to the karyotypic evolution in the order. 8913
The comparative morphology of the dorsal vessel and accessory structures of the Lepioptera and its phylogenetic implications. 9399
Reproductive isolation and size variation in the Muscidifurax raptor complex. 9415
Spiracles of adult Scarabaeoidea (Coleoptera) and their phylogenetic significance. I. The abdominal spiracles. 9934
Spermatophores of the Blattaria. 10024
Seasonal evolution of the honey bee thermogenesis. Oxygen consumption of the isolated bee at five different temperatures in summer and in winter. 10123
Evolution of fitness. IV. Genetic evolution of inter-specific competitive ability in Drosophila. 10146
Autosomal fragmentations and fusions in Odonata and their evolutionary implications. 10157
Taxonomy and phylogeny of the clothes moth family (Lepidoptera, Tineidae). 10516
Concerning evolution by stages in certain arthropods. 11271
The salivary gland chromosomes of Chironomus oppositus Walker (Diptera: Nematocera). 11426
The promorhology of insect eggs. 11903
Parallel polymorphisms in different species of Hawaiian Drosophila. 12562
Descriptions of new species of hystrichopsyllid fleas with notes on arched pronotal combs, convergent evolution and zoogeography (Siphonaptera). 12995
A system favoring the evolution of holometabolous development. 13026
Evolution and population ecology of parasite-host systems. 13110
Experiments on the incipient species of the Drosophila paulistorum complex. 13167
A Palaearctic representative of the genus Parahomalopoda Girault (Hymenoptera, Encyrtidae). 13592
Evolution of xanthine dehydrogenase in Drosophila. 13624
Experimental studies on hybridization and sexual isolation between some Aphytis species (Hymenoptera: Aphelinidae). I. Experimental hybridization and an interpretation of evolutionary relationships among the species. 13674
Microevolution within three species of Hawaiian Drosophila. 13713
Transitional populations of Drosophila paulistorum. 13715
Differential variation of males and females in Polistes exclamans. 13716
Structural peculiarities of the mouth parts in certain gamasid mites (Parasitiformes, Gamasoidea) in relation to their transition to haematophagy. 14230
Infrastructural study of the molt glands in Locusta migratoria migratorioides (R. and F.). III. On the presence or degeneration of the ventral glands in solitary imagos. 14803
Interspecific inhibitions released by fertilized females of the ant parasites Plaziolepis xene St. and Plaziolepis grassei Le Mas. Pas.. 14862
A taxonomic synopsis of the tribe Loricerini (Coleoptera: Carahidae). 15313

INSECT FEEDING
Determination of mosquito hosts in salt marsh areas of Louisiana. 9318
Arthropod predators of immature diptera developing in poultry droppings in northern California. Part II. Laboratory studies on feeding behavior and predation potential of selected species. 9448
On the effect of mating and nutrition on the reproduction of Culex pipiens fatigans Wiedemann. 12487
The feeding and fecundity of Sitophilus granarius (L.), Sitophilus oryzae (L.) and Rhyzopertha dominica (F.) in wheat grain. 13053
Rhinoncus bruchoides (Herbst) (Col., Curculionidae) in West Kent. 13095

INSECT FLIGHT
A continously recording flight mill for investigating the effect of volatile substances on the flight of teathered insects. 8087
A Light mill for studies with the Mexican fruit fly. 8727
Control of haemolymph lipid concentration during locust flight: An adipokinetic hormone from the corpora cardiaca. 8808
Investigations of the wing mechanism of Dermaptera. 9409
Locust wind receptors. I. Transducer mechanics and sensory response. 9981
Locust wind receptors. III. Contribution to flight initiation and lift control. 9982
Locust wind receptors. ii. Interneurones in the cervical connective. 9983
A record of diurnal flight in Dytiscus. 10132
Some observations on flight in Oncopeltus fasciatus (Hemiptera. Lygaeidae). 11287
Circadian rhythms in female ants, and loss after mating flight. 11345
Laboratory experiments on the sound of the wing beats of Culex pipiens Linnaeus during diapause. 11360
Further experience obtained in studies on dispersal flights of Meligethes aeneus F., marked with P32 (Coleoptera). 11401
Incorporation of glucose-U-C14 into lipids of the blowfly during flight. 11859
The occurrence of house crickets (Acheta domesticus (Linnaeus, 1758)) on mountain slopes. 11864
Mimicry of Hymenoptera by beetles with unconventional flight. 11883
Diurnal flight in the larger Dytiscidae (Col) and the attraction of car roofs to Coleoptera in flight. 12428
Color preference and flight habits of thrips associated with cotton. 13016
Effects of temperature and light on dispersal of the pea aphid, Acyrthosiphon pisum, and a braconid parasite, Aphidius pisivorus, in the field. 13021
Effects of temperature and light on takeoff of Rhopalosiphum maidis and Schizaphis graminum in the field (Homoptera: Aphididae). 13022
Observations on Platypus flavicornis (Coleoptera: Platypodidae) in southern pine heetle infestations. 13033
The ramp-trap, an unbaited device for flight studies of mosquitoes. 13052
Effect of denervation on enzyme levels in indirect flight muscles of the desert locust. 13073
Patterns of flight activity in livestock insects. I. Preliminary testing of a system for recording flight activity of the stable fly. 13089
Phosphorus-32 for marking Tabanidae (Diptera). 13604
Loss of rhythmic activity in female ants caused by mating. 13652
The flight activity of the pigmy-mangold chafer Atomaria linearis Steph. in the course of 24 hours. (Col., Cryptophagidae). 14249
On some aspects of the biology of Acheta domesticus Insecta, Orthoptera with reference to the infestation of refuse tips. 14789
Flight capacity of blood-engorged mosquitoes. 14815
The flight of insects. 15391

Daily flight activity of male Tabanus lineola var. hinellus Philip (Diptera: Tabanidae) in the estuarine area of Louisiana. 15423

INSECT GENETICS

Cytotaxonomy of Aphididae. 8051

Practical importance of resistance to insecticides in Anopheles. 8099

Cuticular pigments of tobacco hornworm (Manduca sexta) larvae: Effects of diet and genetic differences. 8100

Terminal respiration in minute mutations of Drosophila. 8114

Neoplasms of insects. 8129

Chromatographic comparison of pteridine levels in four white locus alleles of Drosophila melanogaster. 8218

Radiation induced increase in fitness in Drosophila simulans. 8219

The productivity of four inbred strains of Drosophila melanogaster. 8221

Allelic complementation and genetic fine structure at the rudimentary locus of Drosophila melanogaster. 8222

Triploidy in natural populations of black flies Prosimulium macropyga Lundstr (Simuliidae, Diptera). 8223

Sonless, a sex-ratio anomaly in Drosophila melanogaster caused by an interaction of cytoplasm and a sex-linked gene. 8224

The embryogenesis of the larval head of Simulium venustum Say (Diptera: Nematocera). 8225

The influence of linkage phase on recombination rates in Tribolium. 8226

Genetic and environmental variability for bristles in Drosophila. 8227

The evolution and genetics of insect behaviour. 8228

Preliminary laboratory study of the effect of X rays on the fertility of Carpocapsa pomonella (Laspeyresia pomonella L.). 8229

Heterozygosity in inbred lines of Tribolium castaneum. 8230

Induction of duplications of genes which specify enzymes in Drosophila melanogaster. 8232

Sterility, lethality and segregation ratios in XYY males of Drosophila melanogaster. 8233

Evidence for a transposable element which causes reversible gene inactivation in Drosophila melanogaster. 8234

The complementation map of mutations in a small region of the X-chromosome of Drosophila melanogaster. 8235

Reciprocal fertility among five populations of Anopheles albimanus. 8236

Ultrastructural study of hybrid sterility in Drosophila paulistrom. 8237

The synaptomere-zygosome-recombinase hypothesis of meiotic crossing over in Drosophila. 8238

Lampbrush chromosomes and multiple nucleoli of Orthoptera. 8239

Genetic control of a sex influenced quantitative trait in Tribolium castaneum. 8240

Inheritance of semi-sterility and transmission of chromosome rearrangements and fragments for 3 generations in the large milkweed bug. 8241

The semispecies and the transitional populations of Drosophila paulistorum. 8242

In vitro growth of the infective agent responsible for the Sex Ratio condition in Drosophila bifasciata. 8243

Genetic variability and competitive performance in species of Drosophila. 8244

Multiple phene variegation of a pleiotropic gene of Drosophila melanogaster. 8246

Phenotypic polymorphism in Aphidius smithi Sharma Subba Rao (Hymenoptera, Aphidiidae). 8247

Detection and partial characterization of a crossover suppressor on chromosome V of the house fly. 8248

Genetic mapping of behavioral mutants in Drosophila melanogaster by countercurrent distribution. 8249

Caffeine and radiation induced mutations in Drosophila melanogaster. 8250

Effects of controlled heterozygosis on viability in Drosophila melanogaster. 8252

Relation between homozygous viability and average dominance in Drosophila melanogaster. 8253

Natural selection on the degree of dominance of viability polygenes in Drosophila melanogaster. 8254

Genetic and environmental influences upon the viability of Drosophila melanogaster metafemales. 8255

Maternal influence of the OUHI structural gene of octanol dehydrogenase in intra-and interspecific hybrids of D. metzii, D. pellewae, and D. leticiae. 8257

Chromosome interactions affecting mating speed in Drosophila robusta. 8258

On the arrangement of genes of 28s and 18s ribosomal RNA'S in Drosophila melanogaster. 8259

The population genetics of insect introduction. 8260

The embryology of Lytta viridana Le Conte (Coleoptera: Meloidae). IV. Chromatin elimination. 8261

Chromosomes of the tsetse fly, Glossina palpalis R.-D.. 8262

Association of somatic cell lesions with 3-bromodeoxyoridine incorporation in ONA of Drosophila. 8263

Quantitative determination of DNA content during formation of one of the puffs and one of the Balbiani rings in Chironomus dorsalis. 8264

Non-random mating in Tribolium castaneum. 8265

The sS RNA genes of Drosophila melanogaster. 8267

New data on nondisjunction of the X chromosomes in females of Drosophila melanogaster. 8268

Genetic control of the iso-accepting forms of tyrosyl-tRna in a suppressor of Drosophila melanogaster. 8269

Genetic and physiological effects of ethylenimine in Habrobracon females. 8270

Male determining factors found on 3 autosomes in the house fly, Musca domestica L.. 8271

Anomalous dimorphism in Aedes vexans. 8736

The action of Tepa on the adults of Dacus oleae Gmel. (Diptera: Tephritidae) as a function of the quantity of the chemosterilant used. 8757

Use of a genetically marked strain to evaluate the retention of marking dyes by released screwworm flies. 8768

The salivary gland chromosomes of Anopheles pulcherrimus Theobald. 8909

Mosaicism in Habrobracon juglandis associated with the ebony locus. 8910

Studies on cytology and differentiation in Sciaridae. II. DNA redundancy in salivary gland cells of Hybosciara fragilis (Diptera, Sciaridae). 8911

A temperature effect on nondisjunction of the X chromosomes among eggs from aged Drosophila females. 8912

Sex chromosomes and sex determining mechanisms in Odonata, with a review of the cytological conditions in the family Gomphidae, and references to the karyotypic evolution in the order. 8913

Chemosterilant studies on Bracon sperm. II. Studies of selected compounds for induction of dominant lethal mutations or sperm inactivation. 8914

Spermiogenesis without chromosomes in Drosophila melanogaster. 8915

Genetic loads and cold temperature resistance in Drosophila pseudoobscura. 8916

Experimental studies on spermiogenesis in Drosophila. 8917

Recessive mutants in a wild Drosophila melanogaster population. 8918

Correlations between egg production and chromosomal- regions in Drosophila melanogaster. 9510

The effect of temperature on the number of eggs deposited and on the production of hatching larvae in versene-treated Drosophila melanogaster. 9511

Drosophila melanogaster treated with LSD: Absence of mutation and chromosome breakage. 9512

A Drosophila stock useful for simultaneous scoring of sex-linked and autosomal recessive lethals. 9513

The role of the amphinucleolus in meiosis and pole plasm development of Aedes aegypti. 9515

A chromosome study on bisexual and parthenogenetic races of Scepticus insularis Roelofs (Curculionidae: Coleoptera). 9516

A chiasmate sex quadrivalent in the male of an alticid beetle, Cyrsylus volkameriae (F.). 9517

A new Polymixis HB. of Spain. Polymixis lajonquierei Brsn. (Supplemental description (1)) contribution to the study of Noctuidae trifinae 159(2). 9875

Spermatocyte granules in Drosophila melanogaster. 10003

The influence of ecological and genetic factors on the birth and death of Macrocheles robustulus (Berlese,1904). 10005

Evolution of fitness. IV. Genetic evolution of inter-specific competitive ability in Drosophila. 10146

Ethyl methanesulfonate (EMS) induced mutations in Drosophila melanogaster. 10147

Interaction between chronic irradiation, vibration, and centrifugation in the production of genetic effects in Drosophila. 10148

On the determination of insect and mite resistance to pesticides. The influence of these products in sublethal doses on animals and in the trophic effect following biochemical repercussions on plants. 10149

Meiosis in the grasshopper: Chiasma frequency after elevated temperature and X-rays. 10151

A third locus (lpo) affecting pyridoxal oxidase in Drosophila melanogaster. 10152

Chromosomal polymorphism and genetic load in Drosophila pseudoobscura. 10153

Chromosome behavior under the influence of claret-nondisjunctional in Drosophila melanogaster. 10154

Segregation distorter in D. melanogaster males: An effect of female genotype on the segregation ratio. 10155

Population genetics in the American tropics. IV. Temporal changes effected in natural populations of Drosophila melanogaster from Colombia. 10156

A molecular approach to the study of genic heterozygosity in natural populations. IV. Patterns of genic variation in central, marginal and isolated populations of Drosophila pseudoobscura. 10159

Position effect on DNA transcription and replication. 10160

Experimental evidence for factors affecting the relative efficiency of indirect to direct selection in Tribolium castaneum. 10161

The role of sexuality in dosage compensation in Drosophila. 10162

Biochemical genetics of insecticide resistance in the housefly. 10163

Progeny suppression of Attagenus megatoma and Trogoderma parabile by dietary factors. 10521

Genetic aspects of pteridines in mosquitoes. 10577

Non-random localization of lethals in Drosophila. 10578

DDT-DEHYDROCHLORINASE activity in house fly strains resistant to various groups of insecticides. 10579

On the locus of 'White lethal egg' gene in the silkworm. 10580

Possible pleiotropism of a gene conferring resistance to DDT, DDT analogs, and pyrethrins in the house fly and Culex tarsalis. 10581

Genetic variability in the German cockroach. II. A description of new mutants and linkage tests. 10582

Cytotaxonomic studies of Sciomyzidae (Diptera: Acalyptratae). 11114

Concerning evolution by stages in certain arthropods. 11271

Further experiments with Saturnia pavonia L. (Lep., Saturniidae). 11421

Genetical sensitivity of the different stages of spermatogenesis to methylmethanesulphonate (MMS) in Drosophila melanogaster. I. Crossing-over, deletions, fertility. 11422

The chromosome numbers of six species of formicine ants. 11424

Selection for mating speed in Drosophila pavani. 11425

The salivary gland chromosomes of Chironomus oppositus Walker (Diptera: Nematocera). 11426

Pentose phosphate pathway enzyme studies of the lz allele of Drosophila melanogaster. 11427

The effect of Actinomycin D pre-treatment of Drosophila melanogaster females on the frequency of dominated lethals induced by X-rays on mature spermatozoids. 11428

The genetics of east African Lepidoptera--X. Danus chrysippus L. (Lepidoptera, Danaidea). 11429

The effect of X-irradiation on male meiosis in Schistocerca gregaria (Forskal). II. The induction of chromosome mutations. 11430

Cytogenetics of the Viatica group of morabine grasshoppers. II. Kangroos Island populations. 11431

An unusual chromosome system in a leafhopper (Homoptera, Auchenorrhyncha). 11432

Artificial parthenogenesis and experimental polyploidy in silkworm. 11778

The development of Pentac resistance in an outcrossing swarm of the two-spotted spider mite. 11860

Function of the brain through nerve commissures on the suboesophageal ganglion in Bombyx mori L. 11865

Genetic homeostasis in Drosophila melanogaster. 11895

Isolation of polyhedral pre-viral deoxyribonucleic acid from healthy silkworms. 11901

Chromosome number polymorphism in an Australian ponerine ant. 11905

Difference in adsorption of dyes to the tissues between normal silkworm and transparent mutant. 11906

The phenomenon of cross resistance in insects: Empirical, theoretical, and genetical considerations. 11907

Aberrant segregation: A new case in Drosophila melanogaster. 11908

Influence of some genes on the development of winged forms such as the green peach aphid (Myzus persicae Sulz.). 11910

X-Ray-induced multiple aberrations among oocytes of Drosophila melanogaster. 11911

Juvenile hormone: Effects on a higher Dipteran. 11912

Drosophila andalusiaca, a polymorphic species new to Holland. 12337

Cell lineage, growth, and determination in the imaginal leg discs of Drosophila melanogaster. 12427

Lipids of the mutant bronze mosquito, Aedes aegypti (L.). 12559

Disruptive selection for sternopleural bristle number in Drosophila melanogaster. 12560

The effect of selection for sternopleural bristle number on mating behavior in Drosophila melanogaster. 12561

Parallel polymorphisms in different species of Hawaiian Drosophila. 12562

Resistance to dieldrin of Culex pipiens fatigans in the city of Bobo-Dioulasso (Upper Volta). Methods of study and genetic determinism. 12563

Temperature induction of phenodeviants in Drosophila melanogaster mutants. 12565

Incompatibility tests in the Culex pipiens complex. Part I. African strains. Part II. Egyptian strains. 12566

Tetraploid females in Mormoniella. 12567

The causes of male sterility in A. gambiae A-B group crosses. (Abstract). 12568

Monofactorial inheritance of autogeny in Aedes atropalpus. 12569

Direct evidence for the specific distinctness of forms A, B and C of the Anopheles gambiae complex. (Abstract). 12570

Genic variation in a natural population of Drosophila persimilis. 12571

Red-rose linkage in the German cockroach. 12572

Rare pseudoallelic crossover between two phenotypically identical alleles at a restricted sublocus of dumpy in Drosophila melanogaster. 12573

Karyoecology of simulids (Diptera, Simuliidae). Genome structure of karyopool in Odagmia ornata Mg. with accessory chromosomes. 12574

The ecology of selection in hybrid populations of Tribolium castaneum. 12575

Experiments on selection for developmental rate in Drosophila melanogaster. 12576

The productivity of four inbred strains of Drosophila melanogaster. 13027

Mosaic mutations induced in Drosophila by ethylenimine. 13152

Effect of the absence of the Y chromosome on the expression of the cubitus interruptus phenotype in various translocations in Drosophila melanogaster. 13153

The regional effects of two mutants in Drosophila analyzed by means of mosaics. 13154

Lack of effect of a previous meiotic exchange on somatic crossing over in Drosophila. 13155

INSECT GENETICS

Autosomal half-tetrad analysis in Drosophila melanogaster. 13156

Radiation induced tandem duplications in Drosophila melanogaster. 13157

Distribution of DNA in heterochromatin and euchromatin of polytene nuclei of Drosophia hydei. 13158

Evidence favoring a frame shift mechanism for ICR-170 induced mutations in Drosophila melanogaster. 13159

Selection for parthenogenesis in Drosophila mercaptorum. 13160

Persistence of a mutant gene in Drosophila populations of different genetic backgrounds. 13161

Patterns of abdominal tergite bristles in wild-type and scute Drosophila melanogaster. 13162

Measurement of effective generation length in Drosophila population cages. 13163

An analysis of radiation-induced variation on body-weight of Habrobracon juglandis. 13164

Close linkage of eye color genes in Tribolium castaneum. 13165

An experiment on migration and simultaneous selection for several traits in Drosophila pseudoobscura. 13166

Selection and the effect of temperature on scutellar bristle number in Drosophila. 13168

An abnormal sex ratio in Drosophila simulans. 13169

Crossing-over between heterozygous inversions and its relation with polymorphism in Drosophila willistoni. 13170

Genetic evidence of elimination of chromosomes in the Hessian fly. 13171

Crossing over in a reversed acrocentric compound X chromosome of Drosophila melanogaster. 13172

The genetics of a mutable gene at the white locus of Drosophila melanogaster. 13173

Complementation of genetic activity in translocated fragments of the Y chromosome in Drosophila hydei. 13174

Genetic activities of the Y chromosome in Drosophila during spermatogenesis. 13175

Deviant sex ratio associated with segregation distortion in Drosophila melanogaster. 13176

Purine catabolism in Drosophila melanogaster. II. Guanine deaminase, inosine phosphorylase and adenosine deaminase activities in mutants with altered xanthine dehydrogenase activities. 13177

Protein differences in Drosophila. III. Allelic differences and species differences in invitro hybrid enzyme formation. 13178

Mutagenesis at a complex locus in Drosophila with the monofunctional alkylating agent, ethyl methanesulfonate. 13179

Spermatogonial crossing over in Drosophila melanogaster and Drosophila ananassae. 13180

The genetic architecture of body weight and egg hatchability in Drosophila melanogaster. 13181

Comparison of frequency distributions of viabilities of second with fourth chromosomes from caged Drosophila melanogaster. 13182

Interaction in fitness between lethal genes in heterozygous condition in Drosophila melanogaster. 13183

Chromosomal fragments transmitted through three generations in Oncopeltus (Hemiptera). 13185

The relation of germ line mosaicism to somatic mosaicism in Drosophila. 13186

Sterility, chromosomal breakage, X-ray-induced mutation rates and detected mutation frequencies in Drosophila melanogaster. 13187

Directional selection for duration of copulation in Drosophila melanogaster. 13188

Genetic loads affecting fertility in natural populations of Drosophila pseudoobscura. 13189

Genetic loads affecting fecundity in natural populations of Drosophila pseudoobscura. 13190

The initiation of nonhomologous chromosome pairing before exchange in female Drosophila melanogaster. 13191

Some interactions of crossveinless-like genes in Drosophila melanogaster. 13192

Reversal of heterochromatization and the activity of the paternal chromosome set in the male mealy bug. 13193

An analysis of gene-enzyme variability in natural populations of Drosophila melanogaster and D. simulans. 13194

An experimental examination of restricted selection index, using Tribolium castaneum. I. The results of two-way selection. 13195

Chromosome interactions in Drosophila robusta. 13197

Association between mating speed and fertility in Drosophila robusta. 13198

Theory of allelism between Drosophila lethals collected at different times. 13199

A positive correlation between crossing over within heterozygous pericentric inversions and reduced egg hatch of Drosophila females. 13200

DNA replication in salivary gland nuclei of Drosophila melanogaster at successive larval and prepupal stages. 13201

Recessive lethals in second chromosomes of Drosophila melanogaster with radiation histories. 13202

Physiological genetics of melanotic tumors in Drosophila melanogaster. IV. Gene-environment interactions of tu-bw with different third chromosome backgrounds. 13203

Influence of selection on the viability of irradiated experimental populations of Drosophila melanogaster. 13204

Linkage in Mormoniella. 13205

Stabilizing and disruptive selection on a mutant character in Drosophila. I. The phenotypic variance and its components. 13206

Effects of crossover modifying agents on recombination in intra- and interlocus regions in Drosophila. 13207

Ultrastructure of the chromocentre heterochromatin in Drosophila melanogaster. 13208

Ultrastructure of puffs in the proximal part of chromosome 3 R in Drosophila melanogaster. 13209

Ultrastructure of the polytene chromosome in Drosophila melanogaster with special reference to electron microscopic mapping of chromosome 3 R. 13210

Single-locus modification of position-effect variegation in Drosophila melanogaster. I. White variegation. 13211

The effect of temperature on crossvein formation in crossveinless-like strains of Drosophila melanogaster. 13212

Selective modes associated with inversion karyotypes in Drosophila ananassae. I. Frequency-dependent selection. 13213

X-ray induction of 2;3 translocations in mature and immature oocytes of Drosophila melanogaster. 13214

Incidence of genetic mutations in Culex pipiens. 13215

Induction of hybrid sterility in nonhybrid males of Drosophila paulistorum. 13216

Viability of homokaryotypes in the tumorous-head strain of Drosophila melanogaster. 13217

The mode of selection at the polymorphic esterase 6 locus in cage populations of Drosophila melanogaster. 13218

Selection for larval growth in Tribolium under two levels of nutrition. 13706

Further evidence for coadaptation in crosses between geographic populations of Drosophila pseudoobscura. 13710

Patterns of puffing activity in the salivary gland chromosomes of Drosophila. I. Autosomal puffing patterns in a laboratory stock of Drosophila melanogaster. 13711

Long-term changes in chromosomally polymorphic laboratory stocks of Drosophila pavani. 13712

Selection for and against gregariousness in the choice of oviposition sites by Drosophila pseudoobscura. 13714

Transitional populations of Drosophila paulistorum. 13715

Differential variation of males and females in Polistes exclamans. 13716

The effects of population size and selection intensity in selection for a quantitative character in Drosphila. I. Short-term response to selection. 13717

Karyotypes and sex determination in spider mites (Tetranychidae). 13719

Morphological variability of the chromosomal functional structure in the spermatocyte nucleus of Drosophila species. 13720

The genetics of the Xasta mutant of Drosophila melanogaster. 13721

Antinomycin D induced chromosome breakage and suppression of meiosis in the locust, Schistocerca gregaria. 13723

The effects of population size and selection intensity in selection for a quantitative character in Drosphila. II. Long-term response to selection.
13724

Lampbrush chromosomes and multiple nuclei in Orthoptera.
13725

The polytene chromosomes of the bristle-forming cells of Calliphora erythrocephala, with special regard for the sex-linked heterozygote structure of the puff types during metamorphosis.
13726

Drosophila salivary glands in vitro.
13727

Progeny: Sperm ratios and non-functional sperm in Drosophila melanogaster.
13728

Physiological genetics of melanotic tumors in Drosophila melanogaster. VI. The tumorigenic effects of juvenile hormone-like substances.
14190

Development and diapause in insects.
14199

Puff forming ability as a function of chromosomal position in Drosophila melanogaster .
14284

The genetics of Drosophila mating behavior. II. The genetic architecture of mating speed in Drosophila pseudoobscura.
14286

Genetical studies on the resistance to parathion in Drosophila melanogaster. III. Induction of a susceptible gene from its resistance allele.
14287

Analysis of a recessive mutation on the Y chromosome of the fly Calliphora erythrocephala.
14288

A system for screening of rare events in genes of Drosophila melanogaster.
14289

Genetical relationship and isolating mechanisms in Ananassae species subgroup (Sophophora, Drosophila). III. Chromosome behaviour during meiosis in D. bipectinata, D. malerkotliana and their hybrid.
14290

Efficiency of selection for increased or decreased recombination.
14291

A thymidine-induced sex-linked, sex-limited temperature-sensitive lethal and the significance of modifier genes in Drosophila melanogaster.
14292

The position of the cp, in and ri genes and the 3rd chromosome centromere in Drosophila melanogaster. Evidence from a new translocation.
14293

Developmental genetic studies of aminopeptidases in Drosophila melanogaster.
14294

The sheep blowfly's tolerance of insecticides (Lucilia cuprina).
14295

Genetic variation in natural island populations of members of the Drosophila nasuta and Drosophila ananassae subgroups.
14296

Terminal chromosome rearrangements in Chironomus riparius.
14894

Studies on genetic organization in higher organisms: I. Analysis of a complex gene in Drosophila melanogaster.
14895

On the etiology of the sterility of hybrids between certain strains of Drosophila paulistorum.
14896

Genetic control of pattern determination in Drosphila. II. Nonrandom distribution of mosaic tissues.
14897

The meiotic origin of spontaneous crossovers in Drosophila ananassae males.
14898

The capacity of the fourth chromosome of Drosophila melanogaster to establish end-to-end contacts with the other chromosomes in salivary-gland cells.
14899

Comparative studies of phenol oxidase activity during pupal development of three lozenge mutants (lz8, lz, lzk) of Drosophila melanogaster.
14901

Chromosome number in Tasar silkworm Antheraea mylitta Drury.
14902

The ruby eye-color mutant in the house fly, Musca domestica L., a case of duplicate genes.
14903

Linkage group-karyotype correlation in the house fly, Musca domestica L., confirmed by cytological analysis of X-ray induced Y-autosomal translocations.
14904

Corpora allata and genetic instinct in Calotermes flavicollis Fabr. The release of sexual activity in young winged imagos of Calotermes flavicollis Fabr. necessitates the presence in the organism of an elevated amount of juvenile hormone.
15392

Vitality of the crossbreeds from Bombyx mori L..
15435

Studies on karyotypes of some Japanese mosquitoes.
15436

An experimental approach to the study of multiple peak epistasis in Drosophila melanogaster.
15437

The salivary gland chromosomes of Prosimulium multidentatum Twinn and three forms included in Prosimulium magnum (Dyar and Shannon) (Diptera: Simuliidae).
15438

Orientation and segregation of asynaptic multiple sex chromosomes in the male Omophoita clerica Erichson (Coleoptera: Alticidae).
15439

INSECT GEOGRAPHY

The soft scales (Homoptera: Coccidae) of South Africa. I.
9273

The Rhaphidophoridae (Orthoptera) of Australia. Part 5. The Rhaphidophoridae of Flinders Island.
9313

The brown recluse spider and loxoscelism in Tennessee.
9457

Orthopteroid insects of east Nepal.
10487

Chrysomelid beetles from the Papuan Subregion (Eumolpinae).
10493

The Bibionidae (Diptera) of the Philippines.
10494

The genus Evaza in the Philippines and the Australasian region (Diptera: Stratiomyidae).
10495

Three new species of Sarcosolomonia Baranov, 1938 (Diptera: Sarcophagidae).
10498

Two new genera of leafhoppers (Homoptera, Cicadellidae) from Mongolia.
10515

Taxonomy and phylogeny of the clothes moth family (Lepidoptera, Tineidae).
10516

Undescribed species of Nearctic Tipulidae (Diptera), X.
11103

The Buprestidae and Cleridae of the Nevada Test Site (Coleoptera).
11109

Contribution to the knowledge of the genus Saprinus (Col., Histeridae) III.
11121

New species of subgenera Isothrips and Isochaetothrips from Oceania and Australia, with note on changes in nomenclature (Thysanoptera: Thripidae).
11198

A survey of the distribution and present status of the wood ant, Formica rufa L. (Hym., Formicidae), in England and Wales.
11718

Revision of the genus Euryglossina Cockerell (Apoidea: Colletidae).
11731

Discovery of Marlattiella prima Howard, a parasite of the pear white scale, from Japan (Hymenoptera: Aphelinidae).
11762

Trigoniophthalmus alternatus (Silvestri) (Thysanura, Machilidae) in the British Isles.
12948

INSECT HISTOLOGY

The connective tissues of insects.
8078

Some observations on the morphology and histology of the alimentary canal of the fruit-sucking moth Serrodes inara Cram. (Lepidoptera: Noctuidae).
8791

Histological and electrophysiological studies on the giant axons of the cockroach Periplaneta americana.
8862

Study of the corpus allatum in living larvae of the blow fly Calliphora erythrocephala MG. (Diptera, Calliphoridae).
8877

The influence of infections of nuclear-polyhedrosis virus on adult cabbage loopers and their progeny.
8889

Iridescent virus from blackfly Simulium ornatum Meigen in Czechoslovakia.
8896

Some unusual cell inclusions in the mid-gut of a moth bug, Gyarina nigritarsis Karsch (Homoptera: Flatidae), and their possible significance in nutrition.
9391

The intestine of a higher termite (Microcerotermes edentatus, Wasman, Amitermitinae). Histophysiology and symbiotic bacterial flora.
9411

Histological data on the cuticular acidic mucopolysaccharides in Orthoptera.
9419

The myoblastic masses and neural tissue associated with the proventriculus of larvae of Aedes triseriatus, A. aegypti, and Anopheles quadrimaculatus.
9460

The cockroach integument: Pas-positive granules and their possible relationship with phenol storage.
9492

The nymphal liabial gland of damselflies (Zygoptera: Odonata).
9503

Spermatocyte granules in Drosophila melanogaster.
10003

Microscopical studies on the development of Babesia ovis in Rhipicephalus bursa (Ixodoidea). I. Development in female ticks after repletion.
10013

Histological, behavioral, and symptomatic effects of Pentac on Tetranychus urticae.
10018

Damage to testes and recovery of fertility in boll weevils fed chemosterilants.
10100

Correlation of cellular activity in Weismann's ring with molting cycles in larvae of Musca autumnalis.
11231

A histological and biometrical study of wing development in the grasshopper Melanoplus lakinus.
11232

The anatomy and histology of the maxillary palp of Schistocerca gregaria (Orthoptera, Acrididae).
11233

New photoreceptors placed in evidence in the Dictyoptera: The paraocellar organs.
11239

Histology of the male auxillary glands of Schistocerca gregaria F. (Orthoptera). Effect of allatectomy on their structure and function.
11241

Growth pattern of Leishmania in Phlebotomus sandflies.
11829

Biological observations on Larra amplipennis (Smith) in Kagawa, Japan (Hymenoptera: Sphecidae).
11834

Acarine molting-the migration of hemocytes through the epidermis of Caloglyphus berlesei.
11841

Orientation and biorhythms in jumping spiders (Araneida: Salticidae).
11869

Hormonale regulation of the metamorphosis-new aspects based on investigations in Formica polyctena Foerst. (Hym.).
11879

Sex pheromone gland in the potato tuberworm moth, Phthorimaea operculella.
12402

Accessory nuclei and annulate lamellae in hymenopteran oocytes.
12483

Histopathological and developmental effects of the chemosterilant apholate, on the mosquito Aedes aegypti.
12535

Biology and control of citrus psylla Diaphorina citri Kuw.
13847

Revision of Indo--Pakistan Parisomias Faust (Coleoptera, Curculionidae) with some notes on Leptomias Faust.
14123

Notes on the genus Schyzops Spinola, 1837 (Phyllocephalinae, Pentatomoidea, Heteroptera). maritima (Guer.).
14139

A comparative study of gastric caeca in adult and larval stages of bark beetles (Coleoptera: Scolytidae).
14170

On the cross-inoculation of Chilo iridescent virus. CIV.
14206

Observations on the ovulation and oviposition with reference to corpus luteum formation in Musca domestica nebulo Fabr. (Muscidae: Diptera).
14229

Exceptions to the prevailing pattern of tubules (9 plus 9 plus 2) in the sperm flagella of certain insect species.
14255

Sex differences in embryonic response to Eimeria tenella infection.
14579

The anatomy and histology of the digestive tract of Hypoderma bovis larvae (Diptera: Oestriformes).
14797

Study of the gonads of triploid intersexes of Drosophila melanogaster. Ontogenetic morphological description of histological structures.
14837

The coelomic vesicles of the intercalary segment (0premandibular) in the embryo of the collembole Anurida maritima (Guer.).
15367

Feeding habits of two Phylloxera species (Phylloxeridae, Aphidina) on oak leaves.
15387

Hemagglutination with cytoplasmic-polyhedrosis virus of the silkworm, Bombyx mori.
15402

Data on oogenesis in a parthenogenic Collembola, Isotomidae.
15409

Preliminary observations on the embryonic development of Pissodes notatus F. (Col., Curculionidae).
15422

Mechanism of feeding of some virus-vector leafhoppers. histological studies of the tracks.
15654

INSECT HORMONES

Control of haemolymph lipid concentration during locust flight: An adipokinetic hormone from the corpora cardiaca.
8808

Study of the corpus allatum in living larvae of the blow fly Calliphora erythrocephala MG. (Diptera, Calliphoridae).
8877

Effects of exogenous moulting hormones on puparium formation in Calliphora.
10130

Structure of capitasterone, a novel C29 insect-moulting substance from Cyathula capitata.
10565

Cellular response in the female gonads of Galleria mellonella L. (Lepidoptera) to the experimental disturbances in the normal supply of hormones.
11261

On the ability of the female imaginal corpora allata to induce supernumary molt in Bombyx mori L.
11275

INSECT IDENTIFICATION

Notes on some new or little known Chalcididae (Hym.).
8031

Contribution to the knowledge of the genus Holostaspella Berlese 1903 (Acari: Mesostigmata: Macrochelidae).
8032

Additions to the Cyrtosiinae (Bombyliidae) of South Africa.
8037

New species of the Laspeyresia succedana Schiff. group (Lep. Tortricidae).
8052

New Pterostichinae (Coleopt. Carabid.). VIII.
8058

Thaeniothrips vuilleti Bagnall 1933 and Thaeniothrips falsus Priesner 1936.
8061

Investigations concerning the taxonomy of German Thysanoptera. 5. Thaeniotrips linariae Pr. 1928 and Thaeniotrips hildae Tck. 1956.
8062

The old house borer in Eastern States.
8076

New and little known species of the family Trioza Forst. (Homoptera, Psyllidae) from Korea.
8150

How to distinguish attacks by the black turpentine beetle and Dioryctria amatella on southern pines.
8339

How to control insects on field tobacco.
8347

Description of new Arctiidae from Madagascar. (lep.) (15th note).
8616

A new Coptotermes (Isoptera, Rhinotermitidae) from Gabon.
8636

First record of Rhagio scolopaceus (Linne) in North America (Diptera: Rhagionidae).
8682

Previously unpublished nocturnals of Madagascar. (Lep.).
8684

Characters for determining sex of pupae of the oakworms Anisota senatoria, A. stigma, and A. virginiensis, and the yellow-necked caterpillar, Datana ministra.
8748

A contribution to the study of the Greek species injurious to corn, of the genus Sesamia (Lepidoptera-Noctuidae).
8865

Field identification and sex determination of Aphidecta obliterata, an introduced predator of Adelges piceae.
8903

Rhynchosciara baschanti (Diptera, Nematocera, Sciaridae), a new Brazilian species.
9265

A new species of Pyrrhalta from Sable Island (Coleoptera: Chrysomelidae).
9268

Contribution to the study of Hymenoptera Proctotrupoidea (XII). With regard to Ceraphronidae Megaspilinae males with branching antennae.
9275

Results of the zoological research of Dr. Z. Kaszab in Mongolia. No. 163: Homoptera, Auchenorrhyncha.
9276

Descriptions of some new cheyletid mites from the United Arab Republic. (Acarina: Cheyletidae).
9279

On a Simulium of the group neavei captured in Ethiopia. (Preliminary report).
9281

Morphological criteria as indicators of species limits in spiders of the subfamily Araneinae. (Arachnida: Araneae: Araneidae).
9287

The taxonomic status of Dialectica soffneri (Gregor and Povolny) and Parectopa cupediella (Herrich-Schaffer) (Lepidoptera, Lithocolletidae).
9288

Pictoral key of the ants of Hawaii based on the worker forms.
9292

Results of the zoological research of Dr. Z. Kaszab in Mongolia. 115. Homoptera: Psyllodea of the III. Expedition.
9297

Catalogue of New World Dermaptera (Insecta). Part I: Introduction and pygidicranoidea.
9312

Drepanaphis pallida, a new aphid collected on Acer saccharum in Ontario (Homoptera: Aphididae).
9314

The larvae of Australian Ixodidae (Acarina: Ixodoidea).
9316

The problem of insect identification and the University of Arkansas Reference Collection.
9317

The Aedes mosquitoes of New England (Diptera: Culicidae). II. Larvae: Keys to instars, and to species exclusive of first instar.
9321

Parasarcophaga (Curranea) tibialis (Macquart, 1850) a new species for the Czechoslovak fauna (Diptera).
9322

The recognition of nulliparous and parous Culicoides (Diptera: Ceratopogonidae) without dissection.
9371

Materials for identification of parasites of some noxious forest insects.
9469

Wing coloration of Dendrothrips ornatus (Jablonowski).
9485

Ticks (Ixodoidea) of domestics animals in Iraq. Part 7. Seasonal incidence on cattle, sheep and goats in the Tigris-Euphrates valley plain. 9760

Gall-inhabiting Liothrips Uzel from India. 9867

A new Polymixis HB. of Spain. Polymixis lajonquierei Brsn. (Supplemental description (1)) contribution to the study of Noctuidae trifinae 159(2). 9875

Oriental species of Coesula Cameron (Hymenoptera: Ichneumonidae). 9897

A revision of the pseudomorphacridini (Orthoptera: Acridoidea: Pyrgomorphidae). 9909

New Mymaridae from Central Africa. (Hymenoptera: Chalcidoidea). 9916

Hypocyptus nitidus Palm. (Col., Staphylinidae) in the Joy collection. 9954

Quedius (Microsaurus) scitus (Grav.) (Col., Staphylinidae) a teratological specimen. 9955

On two new species of Terebrantian Thysanoptera with remarks on a new genus Pellothrips. 9958

A new Caradrina O. of Spain- Contributions to the study Noctuidae Trifinae, 158(1). 9977

Recent records of migrant Lepidoptera in Taranaki. 10008

Beetle. 10137

Wharf borer. 10385

New species of Gargara living on cola and cocoa trees in Central Africa. 10488

Culicoides marcleti n. sp. and new identifications of Culicoides (Diptera, Ceratopogonidae) of the Mediterranean region and especially of Algeria. 10489

An investigation of the Culicidae of Charente-Maritime; The occurrence of the genus Mansonia Blanchard 1901: M. (Coquilletidia) richiardii (Ficalbi) 1896 and M. (C.) buxtoni (Edwards) 1923. 10500

Redescription of three species of Mealia Trouessart, 1897 (Acarina: Pyroglyphidae) from house dust in Japan. 10502

Ants (Formicidae) collected in Afghanistan by Dr. J. Klapperich. 10503

Materials concerning the knowledge of the palearctic Momphidae (Lepidoptera). Part VIII. Distribution of the Momphidae in Poland. 10504

Pieris virginiensis Edwards in Ontario (Lepidoptera: Pieridae). 10505

Tarsal chaetotaxy of Argas japonicus Yamaguti, Clifford, and Tifton, 1968 (Ixodoidea: Argasidae). 10512

A contribution to the knowledge of the Halticinae of Northern Persia. 10514

Cockchafers. 10518

Research on the biology and control of Tetranychus viennensis Zacher in the region of Marmara. 10530

Central European larval forms of Chlaenius Bon. (Coleoptera, Carabidae). 10536

An annotated list of the Dermaptera, Dictyoptera, Phasmatoptera, and Orthoptera of Michigan. 11115

A note on cuticular lobes of Tetranychus marianae McGregor (Acarina: Tetranychidae) from Papua. 11123

Two new species of Lithophane from California (Noctuidae, Cuculliinae). 11136

Two new species of Ornithodoros from the Galapagos Islands (Acarina: Argasidae). 11157

The Aphidiidae (Hymenoptera) of Finland. 11171

Results of a study of the order Coleoptera in our country. 11181

Morphology of the reproductive system of Strumeta tryoni (Froggatt) (Diptera: Trypetidae) with a method of distinguishing sexually mature adult males. 11258

Arthropod prepators of immature diptera developing in poultry droppings in northern California. Part I. Determination, seasonal abundance and natural cohabitation with prey. 11366

On a species of Lipoptena (Diptera, Hippoboscidae, Melophaginae) from Indian spotted deer and hog deer. 11635

A record of Rhagoletis indifferens Curran from Creston, British Columbia. 11716

Ticks from waterbuck and warthog in the Queen Elizabeth National Park, Uganda. 11721

Agrilus cupripes (Carter) Comb. N. (Coleoptera: Buprestidae). 11722

Notes on Culiseta (Culicella) atra (Lee) (Diptera: Culicidae) in western Australia. 11727

A new species of Nepticula on bur oak in Ontario (Nepticulidae). 11733

The description of pupae of Colymbetes paykulli Er. and C. dolabratus (Payk.) with a key to the identification of pupae of the European species of Colymbetes Clairv. (Coleoptera, Dytiscidae). 11734

The family Xestocephalidae of Japan (Hemiptera). 11736

The genus Horniolus Weise of Japan and the Ryukyu Islands (Coleoptera: Coccinellidae). 11745

A new species of the genus Heptaphylla from Shikoku, Japan (Coleoptera:-Melolonthidae). 11746

Descriptions of two new species of the genus Serangium from Japan (Coleoptera, Coccinellidae). 11747

New or little-known Elateridae from Japan. VI. (Coleoptera). 11753

The genera, Evippe and Stenolechia, of Japan, with the descriptions of two species of the latter (Lepidoptera: Gelechiidae). 11754

An introduced pasture beetle, Plectris aliena Chapin (Scarabaeidae: Melolonthinae). 11755

Three aphelinid parasites of Odonaspis secreta Cockerell from Japan (Hymenoptera: Chalcidoidea). 11761

Scale insects of Shikoku, II (Homoptera: Coccoidea). 11763

On Callipteroma kiushiuense Ishii (Hymenoptera: Encyrtidae). 11764

Some species of Capitophorus of Japan (Homoptera: Aphididae). 11766

Key to genera and species of Greenideini of Japan, with descriptions of a new genus and three species (Homoptera: Aphididae). 11767

Four aphids new for Chile. (Homoptera, Aphididae). 11772

Two Acmaeodera parasites of Acacia in Mauritania and in the Sahara (Col. Buprestidae). 11806

Aphidius rubifolii n. sp. (Hymenoptera: Aphidiidae), a parasitoid of Masonaphis maxima from British Columbia. 11854

Panonychus elongatus Manson (Acarina: Tetranychidae)-a description and comparison with P. citri (McG.). 11857

Host trees and breeding sites of native North American Pissodes bark weevils, with a note on synonymy. 11884

Mites or red spiders on ornamentals. 11893

Ecological relations of three Atta species in Panama. 11897

The scales of olive trees occuring in Greece and their entomophagous insects. 12048

Subterranean termites: Their prevention and control in buildings. 12206

Revision of the genus Phlebotomus of Arica south of the Zambesi, key for the identification and description of: P. salisburiensis n. sp., P. zumpti n. sp. and P. haeselbarthi n. sp., (Diptera-Psychodidae). 12331

Contribution to the study of the Culex of the Ethiopian region belonging to the sub-genus Mochthogenes (Diptera, Culicidae), with a description of the males of five new species. 12342

Contribution to the study of the Culicidae of the Ethiopian region. Description of Culex (Barraudius) richeti n. sp. Supplemental notes on Culex (B) pusillus Macquart and Culex (B.) modestus Ficalbi. 12343

On two mites of economic importance in Japan (Arachnida: Acarina). 12349

Three new aphid species of the subfam. Dactynotinae from the Crimea (Homoptera). 12357

Two new Malayan species of the genus Nephotettix (Hemiptera: Cicadellidae). 12360

Faunistic and ecological data on the fleas of Madagascar (Siphonaptera). 12363

Tabanidae (Diptera) of Morocco, III. description of Tabanus choumarae n. sp. 12364

A new Japanese species of Trioza from Machilus thunbergii, with descriptions of the immature stages and notes on biology (Hemiptera: Psyllidae). 12369

Tabanidae of Cameroon. I. Description of new species. 12374

Anoplura of rodents and insectivores in the Central African Republic. 12376

Phlebotomus moucheti (Diptera Psychodidae), a new species caught in the caves of Cameroon and in the Central African Republic. 12394

The first instar larvae of the genus Trixa Meigen and remarks on the systematics and nomenclature of this genus (Diptera, Larvaevoridae). 12401

Contribution to the study of the Culicidae of Madagascar. Description of larvae and nymphs of Culex (C.) giganteus Ventrillon and Culex (C.) argenteopunctatus argenteopunctatus Ventrillon. Comparative notes on the adults of the two species. 12425

Description of the male, the larva and the nymph of Ficalbia (Etorleptiomyia) xanthozona van Someren, 1948 (Diptera, Culicidae). 12450

Direct evidence for the specific distinctness of forms A, B and C of the Anopheles gambiae comples. (Abstract). 12570

Trigoniophthalmus alternatus (Silvestri) (Thysanura, Machilidae) in the British Isles. 12948

Revision of the genus Nephotettix (Hemiptera: Deltocephalidae). 12967

The deletion of the Herefordshire record for Aphodius niger (Pz.) (Col., Scarabaeidae). 12968

Descriptions of two new Zipanginia-species from Japan (Coleoptera: Chrysomelidae Alticinae). 12978

Where in Switzerland is Ethmia (Psecadia) candidella Alpheraky found . 12993

Coleopterous leaf-miners of Japan, VI. The larva of Mantura clavareaui Heikertinger (Chrysomelidae). 13000

Another species of Lithocolletis is spread over Italian fruit orchards. 13303

Determination of females of Calliphorini and Pollenini (Diptera, Calliphoridae) by ovipositors. 13647

Determination of thrips in crops in the Centro-Chaquena area with special reference to cotton. 13827

A note on the new species of Sphegigaster Spin. (Chalcidoidae, Pteromalidae). 14136

A further representitive of the sub-species Betuloxys Mackauer (Hymenoptera: Braconidae, Aphidiinae). 14155

A new species of Acmaeodera (Coleoptera, Buprestidae). 14158

Identity of instars of apterous viviparae of Rhopalosiphum fitchii (Sanderson) and Toxoptera graminum (Rondani), (Aphididae, Homoptera). 14163

What is Dasyscytus sordidus Fieber 1864 (Hem. Het. Miridae). 14173

Remarks concerning some species of spider wasps (Hym. Pompiloidae)(2.). 14174

Remarks concerning some species of wasps (Hym. Pompiloidae (3.). 14175

Morphology, geographical distribution and bionomics in Spain of Charaxes jasius (L., 1767) (Lep. Nymphalidae). 14711

Descriptions of three new reared Eulophidae (Hymenoptera) from Europe and Africa. 14716

A new Conisania Hps. from Sining with synonym notes (contributions to the knowledge of Noctuidae-Trifinae 154). 14718

Three new species of the genus Coleopterocoris and one new species of the genus Heleocoris (Hemiptera, Naucoridae). 14723

Contributions to the knowledge of the Mutillidae of the Argentine republic. II. The males of Ephutini Ashmead (Hyymenoptera). 14724

The subgenus Culex (Aedinus) Bourroul, 1904, new for the Argentine entomofauna, with the description of a new species (Diptera, Culicidae). 14725

Notes on Argentine tabanids (Insecta, Diptera). VII. The tabanids of the Parana River delta. 14728

A new treehopper (Homoptera: Membracidae) record for Oklahoma. 14733

Contributions to the study of Eumastacidae of Madagascar (Orthoptera-Eumastacidae). I. Revision of Miraculinae. 14734

Contributions to the study of Eumastacidae of Madagascar (Orthoptera-Eumastacidae). II. Pseudoschmidtiinae: Biological notes and new species. 14735

Two new species of Culex from Brazil (Diptera, Culicidae). 14737

Notes on Anobiidae (Coleoptera). XXXII. Anobiidae of the Spanish territories of the Gulf of Guinea. 14740

Seven species of Culicidae (Diptera) new for the Argentine entomofauna. 14746

Additions to Coccidae of Spain . VII. Note. (Hem. Homoptera). 14749

Annotated key to the Plusiinae moths of Florida (Lepidoptera: Noctuidae). 14752

Chrysomelidae of the Debdou mountains of Morocco. (Coleoptera). 14753

Further observations on Sagittacridini, Gymnohippini and Geloiini. (Orth.: Pyrgomorphidae). 14755

Contribution to the study of the blood sucking Diptera of Turkey. The occurrence of Musca (Philaematomyia) crassirostris Stein. (Diptera Muscidae). 14759

Review of Holarctic tarsonemid mites (Acarina: Prostigmata)parasitizing eggs of pine bark beetles. 14761

A contribution to the knowledge of Argentine Scorpions. Ii. Considerations on the genus Bothriurus in Patagonia and Tierra del Fuego with the description of a new species (Bothriuridae). 14763

A new species and subspecies of genus Dysaphis born (Aphidoidea) from Tadjikistan. 14764

Eurema salome in Texas (Pieridae). 14767

The genus Tryssotmele Simon, 1902 (Araneae, Dipluridae). 14769

The Haematopota of the Iberian Peninsula. II. Description of the male of Haematopota lambi Villen. 14771

The aquatic and semiaquatic Hemiptera (Belostomatidae and Saldidae) of Oklahoma. 14774

The genus Achetopus Tullgren 1905 (Araneae, Dipluridae). 14776

Biological notes on the genus Tinna Dohrn (Hemiptera, Reduviidae, Emesitae). 14777

Faunistic remarks on the west palearctic bees of the genus Andreana F. (Hymenoptera Apoidea). 14781

Anastrepha ocresia (Walker) (Diptera: Tephritidae). 14782

Phalaenopsis mite, Tenuipalpus pacificus Baker. 14813

The post-embryonic ontogeny of Acridomorpha. (Orthoptera). 14814

Biological study of some Hymenoptera of Chile. 14830

A note on Heliconius antiochus salvinii (Nymphalidae). 14847

The palm seed weevil , Caryobruchus gleditsiae (L.), in Florida (Coleoptera: Bruchidae). 15040

Separation of the females of Aedes hendersoni Cockerell and Aedes triseriatus (Say) Diptera: Culicidae by the tarsal claws. 15320

Quilaphoetosus, Chillanella and Haywardella, new genera of Satyridae of the Andes (Lepidoptera). 15321

Aedes in Mexico. Description of a new species of the subgenus Howardina (Diptera: Culicidae). 15333

Instructions for sending insect specimens for identification. 15347

INSECT INFESTATION

Uric acid as an index of insect infestation in flour. 14032

INSECT MATING

Selection for generation time in Drosophila melanogaster. 9403

INSECT METABOLISM

Toxicology and physiology of DDT resistance in the German cockroach. 8138

Use of the multiple regression equation in the prediction of the insecticidal activity of anticholinesterase insecticides. 8143

Absorption of DDT and metabolism of DDT and related compounds by DDT-RESISTANT codling moths. 8180

P32-labeling of common malaria mosquitoes: assimilation by larvae and retention and transfer during mating. 8193

The residual of N,N,N',N'-tetramethylppiperidinophosphonic diamide after injection, tarsal contact, and topical application to the boll weevil. 8202

Effect of DDT on incorporation of C14-labeled glucose into protein and soluble intermediates of nymphal Triatoma infestans. 8743

Hydrocarbon metabolism in insects: Oxidation of hexadecane-1-C14 in the boll weevil and the house fly. 8777

The role of gamma-aminobutyric acid in mosquito-host interactions: A hypothesis. 8779

Water balance in the firebrat, Thermobia domestica (Packard). Exchanges of water with the atmosphere. 8820

Oxygen consumption of the western horse lubber grasshopper. 8899

Utilization of tricarboxylic acid cycle intermediates by Haemonchus contortus larvae. 9133

Comparative action of an oligo-infection of Bacillus thuringiensis and of total starvation on the water, lipid, and nitrogen contents of a lepidopteran. 9345

The endocrine control of protein metabolism as related to reproduction in the fleshfly Sarcophaga bullata. 9502

Sexual dimorphism in neutral lipid metabolism in the Indian-meal moth, Plodia interpunctella (Hubner). 10143

The in vitro metabolism of organophosphorus insecticides by tissue homogenates from mammal and insect. 10426

Influencing the metabolism in Tenebrio monitor (Coleoptera) during the pupal stages by farnesylmethyl-ether. 10528

DDT-DEHYDROCHLORINASE activity in house fly strains resistant to various groups of insecticides. 10579

Nucleic acid. amino acid. and carbohydrate metabolism of nurse cell nucleoli in Musca domestica. 11267

Oxygen consumption of the scorpion Centruroides sculpturatus. 11283

The equilibrium reaction sorbitol (reversible reaction) fructose in the intact mosquito. 11285

Fatty acid metabolism in Drosophila melanogaster: Interaction between dietary fatty acids and de novo synthesis. 11307

Absorption and metabolism of a 10 per cent glucose solution by mosquitoes Culex pipiens molestus Forsk. 11364

Protein synthesis and nucleic acid metabolism in the fat body of the larva of the blowfly, Calliphora erythrocephala. 11372

The phosphorylase system of the silkmoth, Hyalophora cecropia. 11411

Respiratory physiology of the larva of Donacia simplex, a root-piercing beetle. 11830

Facet-inhibitory effect of certain chemicals on the compound eyes of Drosophila melanogaster. 11839

The utilization of amino acids and sugars by tick cells cultivated in vitro. 11873

Hormonale regulation of the metamorphosis-new aspects based on investigations in Formica polyctena Foerst. (Hym.). 11879

The toxicity of alpha-dihydroheptachlor and related compounds to the housefly (M. domestica L.) and their metabolism by housefly and pig liver microsomes. 12422

Lypolysis of triglycerides during cold storage of eggs of corn rootworms. 12459

The peritrophic membranes in arthropods, their role in digestion and their intervention in the development of parasitic organisms. 12489

Absorption and metabolism of fenthion in blood-sucking arthropods. 12558

The effect of radioactive phosphorus on the development of Aedes aegypti larvae. 13006

The evaluation of assimilability of different leaf-litters by millipedes (Diplopoda). 13133

Purine catabolism in Drosophila melanogaster. II. Guanine deaminase, inosine phosphorylase and adenosine deaminase activities in mutants with altered xanthine dehydrogenase activities. 13177

Respiratory metabolism during metamorphosis: Respiration in vitro of the ovaries of Bombyx mori. 13627

Absorption and metabolism of a 10 per cent glucose solution in the mosquito Culex pipiens molestus Forsk. 13663

Quantitative aspects of insect nutrition. 14201

INSECT MIGRATION

Ecological research on arthropods of a sandy beach of the Mediterranean. II. The migrations of Talitrus saltator (Montagu) (Crustacea-Amphipoda). 8122

Field observations on the pales weevil, Hylobius pales, in the South Carolina Piedmont. 8721

Migration of an anholocyclic strain of the spotted alfalfa aphid into Nebraska. 8848

Hypnoidus riparius (Fabricius), a possible agricultural pest from Europe (Coleoptera: Elateridae). 8868

Migration of Laphygma exigua Hubner (Lepidoptera: Noctuidae) to the British Isles in relation to large-scale weather systems. 9384

Mechanisms of orientation in the leaf-cutter bee Megachile rotundata (Fabricius). 9443

The role of Hampea sp. in the migration of the cotton leafworm to the United States. 9635

Recent records of migrant Lepidoptera in Taranaki. 10008

Studies and suggestions on the behaviour of moths at light. 10033

Meteorological aspects of insect migrations. 10037

Migrating butterflies in 1967 (Twentieth Annual Report). 10056

Pygmy mangel beetle, (Atomaria linearis). 10724

Migrations of Hippelates collusor larvae from moisture and trophic stimuli and their encounter by Trybliographa para-. 11848

A large migration of the Australian painted lady butterfly, Vanessa kershawi (McCoy), to New Zealand. 12454

A system favoring the evolution of holometabolous development. 13026

An experiment on migration and simultaneous selection for several traits in Drosophila pseudoobscura. 13166

Epidemiology of leafhopper-transmitted viruses. 13239

Fly larval migration from residential refuse containers in the city of Fresno. 14033

Sleep in moths and its dependence on the frequency of stimulation in Anagasta kuehniella. 14177

The large invasion of lepidoptera occurring in Madrid during the third week of May, 1966. (Part I). 15342

On the migration of some leafhoppers--foes to fruit trees. 15642

INSECT MORPHOLOGY

Contribution to the knowledge of the genus Holostaspella Berlese 1903 (Acari: Mesostigmata: Macrochelidae). 8032

Taxonomy of the rice stem borers. 8041

The systematic position of Brahmaea europaea Hartig (Lepidoptera Brahmaeidae). 8053

Physiology of rice stem borers, including hibernation and diapause. 8120

Investigations of the morphology and development of the scolopidia in the stick insect Carausius morosus Br. 8141

The biology and life cycle of Chilo suppressalis (Walker) and Tryporyza (Schoenobius) incertulas (Walker) in temperature-climate areas. 8149

The role of the neurohormones in the sexual differentiation of Lampyris noctiluca. 8165

The labium of Aphelocheirus aestivalis F. as compared with that of typical Naucoridae (Heteroptera). 8169

Investigation into the morphology, taxonomy, and biology of the Podapolipidae (Acarina, Tarsonemini) (Under special consideration, the parallel evolution of the genera feutarsopolipus and Dorsipes with their hosts (Coleopt., Carabidae)). 8173

The embryogenesis of the larval head of Simulium venustum Say (Diptera: Nematocera). 8225

The presence in the vineyards of the Tessin of a nearctic cicadella, new for Switzerland, Scaphoideus littoralis Ball (Hom.Jassidae) a possible carrier of yellow flavescence. 8325

Rice leafhoppers. 8363

Fourteen new chrysomelid beetles from Jamaica. 8619

Some Australian parthenogenetic Chironomidae (Diptera). 8626

Two species of apple-feeding gelechiids new to science (Lepidoptera). 8640

Microctonus glyptosceli n. sp., a parasite of Glyptoscelis pubescens (F.) in Wisconsin (Hymenoptera: Braconidae: Euphorinae and Coleoptera: Chrysomelidae). 8648

The Aradidae of New Zealand (Hemiptera, Heteroptera). III. The Aradinae and Calisiinae. 8656

Further studies on the Tarsonemidae, II (Acarina). 8672

The genus Craterocercus Rohwer (Hymenoptera: Tenthredinidae). 8673

Notes on the systematics and dulosis of some western species of Formica, subgenus Raptiformica (Hymenoptera: Formicidae). 8675

Some African Fulgoroidea in the United States National Museum. 8679

Mallophaga from birds of the Oriental Region. Part IX. Sturnidoecus philippensis, n. sp. (Ischnocera: Philopteridae). 8680

Neuromuscular synapses in the cockroach extensor tibiae muscle. 8700

INSECT MORPHOLOGY

Analysis of the structure of the pore ducts in the favorable case offered by the tegument of Galleria mellonella nymphs. 8703

The subcoxa of the aphid hind leg (Homoptera: Aphididae). 8711

The development and larval behavior of Stigmella malella Stainton. (Lep. Stigmellidae). 8728

Anomalous dimorphism in Aedes vexans. 8736

Characters for determining sex of pupae of the oakworms Anisota senatoria, A. stigma, and A. virginiensis, and the yellow-necked caterpillar, Datana ministra. 8748

Stridulatory files as diffraction gratings in mutillid wasps. 8769

Time required for development of Voria ruralis and its host, the cabbage looper, at different temperatures. 8775

Etiella zinckenella Treit-a pod borer pest of Crotalaria anagyroides H.B.K. 8778

Some observations on the morphology and histology of the alimentary canal of the fruit-sucking moth Serrodes inara Cram. (Lepidoptera: Noctuidae). 8791

Observations on the immature stages of Cordilura (Achaetella) deceptiva and C. (A.) varipes. 8817

Morphology of the larval and adult brains of the monarch butterfly, Danaus plexippus plexippus, L. 8821

A natural hybrid butterfly of the genus Vanessa in New Zealand. 8825

Description of immature stages of Noctuiseius treati Prasad (Acarina: Phytoseiidae). 8836

An electron microscope study of nebenkern formation and differentiation in spermatids of Murgantia histrionica (Hemiptera, Pentatomidae). 8837

Sense organs on the antennal flagellum of a giant cockroach, Gromphadorhina portentosa, and a comparison with those of several other species (Dictyoptera, Blattaria). 8856

Teratology of the beetle Tenebrio molitor. IV. Ultrastructure of the necrotic fat body and foregut associated with the pupal-winged adult. 8866

Hypnoidus riparius (Fabricius), a possible agricultural pest from Europe (Coleoptera: Elateridae). 8868

The adult cervicothoracic musculature of the cockroach, Nauphoeta cinerea (Olivier). 8871

Field identification and sex determination of Aphidecta obliterata, an introduced predator of Adelges piceae. 8903

Undescribed species of Nearctic Tipulidae (Diptera). X. 9256

Rhynchosciara baschanti (Diptera, Nematocera, Sciaridae), a new Brazilian species. 9265

Morphological criteria as indicators of species limits in spiders of the subfamily Araneinae. (Arachnida: Araneae: Araneidae). 9287

Drepanaphis pallida, a new aphid collected on Acer saccharum in Ontario (Homoptera: Aphididae). 9314

A new species of Tuberculatus from Turkey, with revisionary, descriptive notes on Tuberculoides (Homoptera: Aphididae). 9315

Biological examination of Psylliodes chrysocephala L. 9335

A thesis by G. Strebler on the gall midge of alfalfa. 9351

Observations on polymorphism in two species of heliconiine butterflies from Trinidad, West Indies. 9360

Study of social relationships in ants of the genus Aphaenogaster. 9365

Morphology of hemocytes of Rhynchosciara angelae Nonato and Pavan, 1951 (Diptera, Mycetophilidae). 9380

The coccid Saccharicoccus sacchari (Cockerell) (Hemiptera Pseudococcidae) of sugar cane in Mozambique. 9390

Notes on parasites of immature Tabanidae (Diptera) and descriptions of the larva and puparium of Carinosillus pravus (Diptera: Tachinidae). 9392

Ultrastructure of the trophic bands in the ovaries of several homopteran Auchenorrhyncha. 9393

Postembryonic development of the male and female reproductive systems of Frankliniella fusca (Hinds) (Thripidae) and Haplothrips verbasci (Osborn) (Philaeothripidae) (Thysanoptera). 9397

The comparative morphology of the dorsal vessel and accessory structures of the Lepioptera and its phylogenetic implications. 9399

An electron microscope study of the diffraction gratings of some carabid beetles. 9400

Investigations of the wing mechanism of Dermaptera. 9409

Description of new social parasites of Leptothorax acervorum F. (Formicidae). 9412

The neurosecretory cells of the brain of Aedes aegypti in relation to larval molt, metamorphosis and ovarian development. 9413

Histological data on the cuticular acidic mucopolysaccharides in Orthoptera. 9419

An observation on the ileum of the European corn borer, Ostrinia nubilalis. 9422

On Cryptolaemus montrouzieri Muls. (Morphobiological observations). 9426

The mode of feeding in the silverfish Acrotelsa collaris (F.) (Thysanura: Lepismatidae). 9428

The biology and morphology of Eriophyes emarginatae, a Prunus finger gall mite, and notes on E. prunidemissae. 9442

The brown recluse spider and loxoscelism in Tennessee. 9457

The myoblastic masses and neural tissue associated with the proventriculus of larvae of Aedes triseriatus, A. aegypti, and Anopheles quadrimaculatus. 9460

Remarks on the morphology of some rare palearctic Opilonids (Opilionidea). 9470

Influence by mitomycin on the bristle differentiation and pattern structure in Drosphila melanogaster. 9487

Biology and morphology of Graphosoma semipunctata Fabricius, (Heteroptera, Pentatomidae). 9493

Life history and habits of the short-tailed cricket, Anurogryllus muticus in central Louisiana. 9496

The nymphal liabial gland of damselflies (Zygoptera: Odonata). 9503

The spiracular morphology of the Hawaiian damselfly Megalagrion blackburni (Odonata). 9504

The role of the amphinucleolus in meiosis and pole plasm development of Aedes aegypti. 9515

Note on the effects of certain wild plants, temperature and insecticides on the growth and development of Agrotis segetum Schiffer-Mueller (Lepidoptera: Noctuidae). 9638

New species of Chrysobothris from the Pacific Northwest (Coleoptera: Buprestidae). 9870

A new species of Ficalbia (Ravenalites) from Cambodia (Diptera: Culicidae). 9910

Ochromolopis ictella Hb. (Lepidoptera, Epermeniidae) in Finland, probably transported by windstorm. 9912

Amphipyra pyramidea L. and A. berbera Rungs in Finland (Lepidoptera, Noctuidae). 9913

Description of the male, pupa, and larval habitat of Nilobezzia brevicornis (Diptera: Ceratopogonidae). 9963

Elm spanworm eye size depends upon sex and diet. 10000

Morphology and biology of a nest-producing mite, Bakericheyla chanayi (Acarina: Cheyletidae). 10015

A study of a pocket of scattered desert locust population in Rajasthan, India during 1966 with special reference to eye-stripes and biometrics. 10027

Temperature effects on embryonic development in insects. 10035

The ultrastructure of the brain of the insect Notonecta glauca L. 10042

A more recent sensillary type on the antenna of female mosquitoes (Aedes aegypti L.). 10055

Morphology of the nervous system of adult Prodenia litura. 10064

Eyes of the female two-spotted spider mite, Tetranychus urticae. i. Morphology. 10067

New record of Chanliops fallax Scott. (Hemiptera: Lygacidae) on moong and urid (Phaseolus spp.). 10097

The defensive behaviour of the stick insect Oncotophasma martini (Griffini) (Orthoptera: Phasmatidae). 10103

Notes on the male germ cells of a beetle, Leptinotarsa decemlineata. 10115

Etology as the determining factor of the numerical distribution of the species in the fauna. 10144

A new species of Aedes (Stegomyia) from Thailand (Diptera: Culicidae). 10164

Easy-to-kill pests of fruit trees...codling moth. 10253

Tarsal chaetotaxy of Argas japonicus Yamaguti, Clifford, and Tifton, 1968 (Ixodoidea: Argasidae). 10512

Cockchafers. 10518

Evidence, in Dictyoptera, of a fourth pair of Nervi corporis cardiaci. 10522

Some ecological studies on Agrotis segetum Schiff. (Lepidoptera, Noctuidae). 10531

The eye of the firefly Photuris. 10535

Effects of the antifeeding compound AC-24055 (4'-(3,3-Dimethyl-1-triazeno)acetanilide) on the survival, development, and reproduction of some stored-products insects. 10544

Insects associated with the sponge Spongilla fragilis in the Savannah River. 10558

Difference of larval period observed between males and females of Culex pipiens pallens. 10567

The nutrition of desert locust (Schistocerca gregaria Forks.) nymphs and developmental differences of the nymphs caused by nutrition. 10569

Occurrence of the non-moulting tiny silkworms caused by inoculation of the flacherie (F) virus. 10573

Ethology as the determining factor in the distribution of species and fauna. 10576

Relationship of the green peach aphid to incidence and severity of lettuce mosaic. 10717

Contribution to the study of the morphology of Leucoptera scitella Zell. 10742

A new Tunga (Siphonaptera) from the Nearctic Region with description of all stages. 11108

A note on cuticular lobes of Tetranychus marianae McGregor (Acarina: Tetranychidae) from Papua. 11123

Morphology and relationships of the Pentatomoidea (Heteroptera). IV. Oncomerinae (Tessaratomidae). 11159

Morphological and phylogenic studies on the larvae and male genitalia of the East Asiatic Tingidae (Heteroptera). 11165

A remarkable case of alary dimorphism in the Aradidae (Heniptera) with a generic synonymy and a new species. 11179

The photoreceptors of the Collembola. New formations of the rhabdomeric structure belonging to the genus Tomocerus (Insecta, Collembola). 11228

A histological and biometrical study of wing development in the grasshopper Melanoplus lakinus. 11232

The anatomy and histology of the maxillary palp of Schistocerca gregaria (Orthoptera, Acrididae). 11233

Induction of morphological aberrations by enzyme inhibition in Drosophila melanogaster. 11236

Ultrastructure of the vas deferens of Apis mellifera L.. 11247

Morphology of the reproductive system of Strumeta tryoni (Froggatt) (Diptera: Trypetidae) with a method of distinguishing sexually mature adult males. 11258

Notes on the muscles closing the anal and genital opening and on the reproductive structure in mature Oribatei. 11279

Morphological, systematic, and biometric discussion on Agrion (Cercion) lindeni Selys, 1840. (Odonata Zygoptera). 11288

Notes on remarkable color variations of Cryptocephalus amiculus Baly occurring on Mt. Hiko and its adjacent areas. 11309

The structure of the female reproductive system in the Mymaridae (Chalcidoidea: Hymenoptera). 11310

Psilococcus parvus Borchsenius (Homoptera, Coccoidea)-morphology, biology and taxonomy. 11315

Effects of allatectomy on the imaginal development of the female genital tract in Locusta migratoria migratorioides (Insecta, Orthoptera). 11328

The sensory equipment of the first-stage Locusta migratoria L. larvae mandibles. 11330

Larval aggregation formation and population density interrelations in Aedes taeniorhynchus, their effects on pupal ecdysis and adult characteristics at emergence. 11358

Studies on the anatomy of Cyclopelta siccifolio (Westw.) (Hemiptera, Pentatomidae, Dinidorinae). 11395

Studies on the morphology of the principle salivary gland of Myzus persicae. 11410

Immature stages of the flesh fly, Parasarcophaga (Thomsonea) argyrostoma (Robineau-Desvoidy). 11418

The morphology of the scent glands of Dysdercus intermedius Distant (Hemiptera: Pyrrhocoridae) and a preliminary analysis of the scent gland secretions of the fifth instar larvae. 11419

Contribution to the etiology of some galls found in Israel. 11509

On a species of Lipoptena (Diptera, Hippoboscidae, Melophaginae) from Indian spotted deer and hog deer. 11635

The position of the Strepsiptera in the classification of insects. 11720

The question of applied terminology for development stages of mites of the suborder Sarcoptiformes. 11724

Notes on Culiseta (Culicella) atra (Lee) (Diptera: Culicidae) in western Australia. 11727

A preliminary review of the genus Homochaetothrips gen-.n., with brief description of a new species (Thysanoptera: Thripidae). 11757

New hosts of two tachinid flies (Diptera). 11765

New or little known noctural Quadrifids of Madagascar, III (Lep. Noctuidae). 11770

The sugar pine cone beetle. 11784

Some remarks on the parasitism of insects. 11785

Immature stages of Australian Anthophorinae (Hymenoptera: Apoidea). 11795

Contribution to the morphology and phylogeny of the Reduvioidea. Part IV. The harpactoroid complex. 11805

Soldier-reproductive intercastes in a species of Tumulitermes (Isoptera: Termitidae). 11820

Biological observations on Larra amplipennis (Smith) in Kagawa, Japan (Hymenoptera: Sphecidae). 11834

The life history and feeding habits of Opatroides punctulatus in Tiberias, Israel. 11842

Aphidius rubifolii n. sp. (Hymenoptera: Aphidiidae), a parasitoid of Masonaphis maxima from British Columbia. 11854

Panonychus elongatus Manson (Acarina: Tetranychidae)-a description and comparison with P. citri (McG.). 11857

19. Thysanoptera (Physopoda). 11870

Fig wasps: Mechanism of pollen transfer. 11872

Biology and immature stages of Eumetopiella rufipes. 11891

The promorhology of insect eggs. 11903

The morphology of cleavage of the Collembola egg. 11904

Influence of some genes on the development of winged forms such as the green peach aphid (Myzus persicae Sulz.). 11910

Galls and larvae of the European species of genera Phyllocolpa and Pontania (Hymenoptera, Tenthredinidae). 12052

Intersex of Culicoides circumscriptus Kieffer (Ceratopogonidae: Diptera). 12372

On the genitalia of Merodontina sikkimensis Enderl. (Asilidae, Diptera) with a description of a new species of Merodontina Enderl. from India. 12380

Sex pheromone gland in the potato tuberworm moth, Phthorimaea operculella. 12402

Gynandromorphism in Culex tritaeniorhynchus. 12405

Contribution to the study of the Culicidae of Madagascar. Description of larvae and nymphs of Culex (C.) giganteus Ventrillon and Culex (C.) argenteopunctatus argenteopunctatus Ventrillon. Comparative notes on the adults of the two species. 12425

Cell lineage, growth, and determination in the imaginal leg discs of Drosophila melanogaster. 12427

Morphological study on the instars of the alfalfa caterpillar , Colias lesbia (F.) (Lep., Pieridae). 12441

Accessory nuclei and annulate lamellae in hymenopteran oocytes. 12483

An Aedes vexans gynandromorph. 12497

Studies on the alimentary canal of Odoiporus longicollis. I. Morphology. 12537

Deformation of puparia of the housefly (Musca domestica L.) on treatment with organophosphorus insectisides. 12541

Study of the morphological and anatomical characteristics of female Glossina and their relationship to physiological age. 12550

Disruptive selection for sternopleural bristle number in Drosophila melanogaster. 12560

INSECT MORPHOLOGY

The effect of selection for sternopleural bristle number on mating behavior in Drosophila melanogaster. 12561

Genic variation in a natural population of Drosophila persimilis. 12571

New forms of larvae from Stictochironomus (Diptera, Chironomidae) genus obtained from reservoirs. 12936

The immature stages of the flea beetles Psylliodes cuprea (Koch) and Psylliodes chrysocephala (L.) (Col., Chrysomelidae). 12951

Scolytidae and Platypodidae from the Naturhistoriska Riksmuseum in Stockholm. 235. Contribution to the morphology and systematics of the Scolytoidea. 12989

Descriptions of new species of hystrichopsyllid fleas with notes on arched pronotal combs, convergent evolution and zoogeography (Siphonaptera). 12995

A comparison of three strains of Oryzaephilus surinamensis (L.) (Col., Silvanidae) on a temperature--moisture gradient. 13005

The egg of Wyeomyia smithii (Coquillett) and a review of knowledge of the eggs of the Sabethini. 13012

Notes on the occurrence of abnormal scale patterns in adult female Aedes vexans (Meigen). 13034

Note on salivary glands in Megachile (MegachilidaeApoidea). 13056

A new tribe, genus, and species of termitophilous aleocharinae (Coleoptera: Staphylinidae) from South-West Africa with a description of its integumentary glands. 13070

A comparative morphology of Panstrongylus geniculatus (Latreille, 1811) and Panstrongylus megistus (Burmeister, 1835) and their external genitalia (Hemiptera, Reduviidae, Triatominae). 13080

Cornicles of the pea aphid, Acyrthosiphon pisum; their structure and function. A light and electron microscope study. 13081

Sex determination of pupae of Vogtia malloi (Lepidoptera: Phycitidae). 13084

Occurrence of a two-headed pupa in a population of Tribolium confusum (Coleoptera: Tenebrionidae). 13126

Holding technique for the manipulation and excision of adult anopheline mouthparts. 13128

Electrophoretic study of protein changes between several developmental stages of three species of Heliothis (Lepidoptera: Noctuidae). 13142

Immature stages of the flesh fly, Parasarcophaga (Thomsonea) argyrostoma (Robineau-Desvoidy). 13150

Incidence of genetic mutations in Culex pipiens. 13215

Cockroaches. 13425

A new Parascotia (Hb., 1826) of the Guadarama mountain range, dedicated to his Excellency Prof. D. Manuel Lora Tomayo, Phd., Minister of Education and Science. (Lep. noctuidae). (Lam. i.). 13530

Morphology and geographic distribution in Spain of the 'child of the milk vetch' Plebejus (Plebejus) pylaon (F.d.W., 1824). 13531

Material for a revision of the genus Oreopsyche (Psychidae). 13536

Material for a revision of the Oreopsyche (Psychidae) genus (continuation and end). 13537

Presence in Italy of Leptoconops kerteszi Kieffer (Diptera, Ceratapogonidae). 13541

On some species of Aedes (Diptera, Culicidae) collected on the Apennines and on the Gargano Mountain. 13542

Revision of the genus Brachyderes Schonherr, with special reference to the study of its generative organs and its geographic distribution in the Iberian peninsula. 13543

Notes on beetles (Coleoptera). 13548

A taxonomic revision of the genus Asteromyia (Diptera: Cecidomyiidae). 13554

The Lohmanniidae of Spain (Acari, Oribatei). 13583

Preliminary diagnosis of new species of Tricholabiodes Rad. (Hym. Mutillidae). 13590

Contributions to the elucidation of Palearctic Andrena species. (Hym. Apidae). 13594

Distribution and ecology of Aedes bicristatus Thurman and Winkler. 13613

The influence of parental age on size of eggs, duration of development, and thoracic size of the progeny in Drosophila melanogaster. 13622

Research on the effect of the queen bee's substance on the development of the endocrine gland of the worker honeybee (Apis mellifica). 13628

Diffraction gratings in burying beetles (Nicrophorus). 13634

Determination of females of Calliphorini and Pollenini (Diptera, Calliphoridae) by ovipositors. 13647

Antennal tuft organs of Pediculus humanus Linn. and Phthirus pubis (Linn.) (Anoplura: Pediculidae). 13653

Contributions to the morphological and biological study of Aphomia sociella L. (Lepidoptera, Heteroneura, Pyralidoidea, Pyralididae), a parasite of beehives (Hymenoptera, Apoidea, Bombus Latr.). 13668

Some observations on Hoplocampa crataegi Klug (Hym., Tenthredinidae). 13672

Emergence periods and population fluctuations of the frit fly Oscinella frit L. (Dipt.: Chloropidae) in Norway. 13693

Manner of action of Aspergillus parasites in insect wounds. 13698

Morphological variability of the chromosomal functional structure in the spermatocyte nucleus of Drosophila species. 13720

Uric acid as an index of insect infestation in flour. 14032

Studies on the biology and control of Sogatella furcifera Horv. (Delphacidae: Homoptera) in the Punjab. 14118

Effect of population density on the larval coloration and development of larva and pupa in the larger pellucid hawk moth, Cephonodes hylas L. (Lepidoptera' Sphingidae). 14121

Leaf beetle larvae of the subfamily Eumolpinae and of Syneta betulae F. (Coleoptera, Chrysomelidae). 14149

Development and diapause in insects. 14199

Caterpillar polymorphism of Pergesa elpenor L. 14221

Structural peculiarities of the mouth parts in certain gamasid mites (Parasitiformes, Gamasoidea) in relation to their transition to haematophagy. 14230

The mandibles of two South American grasshoppers. 14233

Observations on the diapausal and post-diapausal, proterandric developmental events in caterpillars of Sparganothis pilleriana Schiff. (Lepidoptera: Tortricidae). 14259

Diversity of forms of physiological rest in insects as one of the causes of their biological progress. 14274

The development of the citrus psylla, Trioza erytreae (Del Guercio) (Homoptera: Psyllidae), on Citrus limon and four indigenous host plants. 14491

Morphology, geographical distribution and bionomics in Spain of Charaxes jasius (L., 1767) (Lep. Nymphalidae). 14711

Seven species of Culicidae (Diptera) new for the Argentine entomofauna. 14746

Review of Holarctic tarsonemid mites (Acarina: Prostigmata)parasitizing eggs of pine bark beetles. 14761

Occurrence of Sphaerolecanium prunastri (Fonscolombe) in Israel and description of its hitherto unknown larval instar. 14791

The parasitism of various species of coccids of the Leucapis genus in the Alpes-Maritime Department of France and Corsica. I. Inventory and distribution of Leucapis genus and their parasites (Hymenoptera, Chalcidoidea). 14792

The anatomy and histology of the digestive tract of Hypoderma bovis larvae (Diptera: Oestriformes). 14797

The male line of Eupulvinaria hydrangeae (Hom., Coccidae). 14800

Infrastructural study of the molt glands in Locusta migratoria migratorioides (R. and F.). III. On the presence or degeneration of the ventral glands in solitary imagos. 14803

A contribution to the understanding of the biology of Sesamia cretica Led. (Lepidoptera Agrotidae) in Tripolitania. 14809

The post-embryonic ontogeny of Acridomorpha. (Orthoptera). 14814

On the ultrastructure of the eye of Lithobius forficatus L. (Myriapoda, Chilopoda). 14831

Biology and external morphology of forage pests. I. Tussock caterpillars, Euproctis spp. (Lymantriidae: Lepidoptera). 14836

Study of the gonads of triploid intersexes of Drosophila melanogaster. Ontogenetic morphological description of histological structures. 14837

Allomorphosis and geography in insect populations. 14844

A note on Heliconius antiochus salvinii (Nymphalidae). 14847

Anatomic studies on the hypopharynx of Forficula auricularia L. (Insecta, Dermaptera): Teguments, musculature, sense organs, and innervations. Morphologic interpretation. 14856

An intense electron microscope study of the pars stridens of the ensiform Orthoptera. 14875

An extreme phenotype of Pieris protodice)Pieridae). 14877

A study of the bionomics of Lymantria ampla Wlk. (Lymantriidaei Lepidoptera). 14887

Separation of the females of Aedes hendersoni Cockerell and Aedes triseriatus (Say) Diptera: Culicidae by the tarsal claws. 15320

Research concerning secondary effects of chlorcholinchlorid (CCC). 15341

Growth of the dog tick Dermacentor variabilis Say (Acarina: Ixodidae). I. Growth pattern. 15345

Morphology, biology, and ecology of Dasychira selenitica Esp. (Lepidopt., Lymantriidae). 15369

Biological and morphological investigations of Brachycaudus spiraeae (Oestl.) C.B., an aphid pest of Spiraea (Homoptera: Aphididae): a contribution to the determination, to the specific morphology and chetotaxy of the aphid. 15380

Feeding habits of two Phylloxera species (Phylloxeridae, Aphidina) on oak leaves. 15387

Sexual forms of the pea aphid, Acyrthosiphon pisum, produced on an artificial diet. 15427

INSECT MOUNTING

Experimental transmission of Enterobacteriaceae by insects. I. Fate of Salmonella fed to the hide beetle Dermestes maculatus and a novel method for mounting insects. 12472

INSECT MUTATION

Terminal respiration in minute mutations of Drosophila. 8114

The productivity of four inbred strains of Drosophila melanogaster. 8221

Carnitine acetyltransferase in developing and mature sperm of wild-type and mutant Drosophila melanogaster. 8231

The complementation map of mutations in a small region of the X-chromosome of Drosophila melanogaster. 8235

The action of actinomycin D on the pigmentation of albino mutants of the locust Locusta migratoria cinerascens L. (Orthop.). 8756

Chemosterilant studies on Bracon sperm. II. Studies of selected compounds for induction of dominant lethal mutations or sperm inactivation. 8914

Recessive mutants in a wild Drosophila melanogaster population. 8918

Description of new social parasites of Leptothorax acervorum F. (Formicidae). 9412

Drosophila melanogaster treated with LSD: Absence of mutation and chromosome breakage. 9512

Ethyl methanesulfonate (EMS) induced mutations in Drosophila melanogaster. 10147

On the locus of 'White lethal egg' gene in the silkworm. 10580

Genetic variability in the German cockroach. II. A description of new mutants and linkage tests. 10582

Comparative effects of chemosterilants on spermatogenic stages in the house fly. I. Induction of dominant lethal mutations in mature sperm and gonial cell death. 11847

Difference in adsorption of dyes to the tissues between normal silkworm and transparent mutant. 11906

A deviant sex ratio in Drosophila melanogaster. 12564

Temperature induction of phenodeviants in Drosophila melanogaster mutants. 12565

Red-rose linkage in the German cockroach. 12572

The temperature-sensitive period in the development of rolled hemizygotes of Drosophila melanogaster. 13062

Phenol oxidase characteristics in mutants of Drosophila melanogaster. 13093

Persistence of a mutant gene in Drosophila populations of different genetic backgrounds. 13161

Purine catabolism in Drosophila melanogaster. II. Guanine deaminase, inosine phosphorylase and adenosine deaminase activities in mutants with altered xanthine dehydrogenase activities. 13177

Mutagenesis at a complex locus in Drosophila with the monofunctional alkylating agent, ethyl methanesulfonate. 13179

Chromosomal fragments transmitted through three generations in Oncopeltus (Hemiptera). 13185

The relation of germ line mosaicism to somatic mosaicism in Drosophila. 13186

Linkage in Mormoniella. 13205

Analysis of a recessive mutation on the Y chromosome of the fly Calliphora erythrocephala. 14288

INSECT NAMES

Ichneumonidae of Northwest Germany. (II. Part). 8043

Epichnopteryx pusilella Rbl. belongs to the genus Reisseronia Sied. (Lepidoptera, Psychidae). 8054

Thaeniothrips vuilleti Bagnall 1933 and Thaeniothrips falsus Priesner 1936. 8061

Morphology and relationships of the Pentatomoidea (Heteroptera). III. Natalicolinae and some Tessaratomidae of uncertain position. 8647

The new genus Fregatiella (Mallophaga: Menoponidae) for Menopon aurifasciatum from the frigate-bird. 8665

A review of the genus Eidmanniella (Mallophaga: Menoponidae) from the Pelecaniformes. 8666

International commission on zoological nomenclature. 9269

Contribution to the study of Hymenoptera Proctotrupoidea (XII). With regard to Ceraphronidae Megaspilinae males with branching antennae. 9275

Note on the change of a specific name of New Guinea Culex (Lophoceraomyia) (Diptera: Culicidae). 9320

Wing coloration of Dendrothrips ornatus (Jablonowski). 9485

The family Leptogastridae (Diptera). 9927

Spiracles of adult Scarabaeoidea (Coleoptera) and their phylogenetic significance. I. The abdominal spiracles. 9934

Some Lepidoptera of economic importance in Commonwealth countries. 10715

Field notes and subspecific status of Oeneis melissa (Satyridae) in northern Quebec. 11106

Amitermes pallidiceps, a new name for A. pallidus Gay (Isoptera: Termitidae). 11138

Studies on the genus Abgrallaspis Balachowsky 1948, (Homoptera, Coccoidea, Diaspididae). 11158

The question of applied terminology for development stages of mites of the suborder Sarcoptiformes. 11724

A study of the population of insects emerging as adults from Spettigue's Pond at London, Ontario. 14144

A comparative study of gastric caeca in adult and larval stages of bark beetles (Coleoptera: Scolytidae). 14170

Parasitization of social Halictine bees in southern Ontario. 14224

Records of the orthopteroid insects in Ontario. 14276

A new Conisania Hps. from Sining with synonym notes (contributions to the knowledge of Noctuidae-Trifinae 154). 14718

Quilaphoetosus, Chillanella and Haywardella, new genera of Satyridae of the Andes (Lepidoptera). 15321

INSECT NESTS

Bionomic notes on the solitary Evylaeus oenotherae (Stevens) (Hymenoptera: Halictinae), a matinal summer bee visiting cultivated Onagraceae. 8785

Iridium-192 as a tag for carpenter ants of the genus Camponotus (Hymenoptera: Formicidae). 9464

A new family Turanoniscidae fam. n. (Isopoda, Oniscoidea) from termitaria of Middle Asia. 9874

Observations on the life history and bionomics of Oligotoma ceylonica ceylonica Enderlein (Oligotomidae, Embioptera), commensal in the nest of the social spider Stegodyphus sarasinorum Karsch. 9978

Morphology and biology of a nest-producing mite, Bakericheyla chanayi (Acarina: Cheyletidae). 10015

Foraging galleries of the Formosan subterranean termite, Coptotermes formosanus, in Louisiana. 10052

Observations on the nests and behaviour of some Euryglossine bees (Hymenoptera: Colletidae). 11292

The nesting activities of the vespoid potter wasp Eumenes campaniformis esuriens (Fabr.) compared with the ecologically similar sphecoid Sceliphron madraspatanum (Fabr.) (Hymenoptera). 11299

On the nest architecture of Megachile (Chalicodoma) parietina Fourcroy (Hym., Apidae). 11377

Parasites and other organisms associated with nests of Amegilla Friese (Hymenoptera: Anthophorinae). 11796

Tribal positions of Western Hemisphere green sweat bees, with comments on their nest architecture (Hymenoptera Halictidae). 12350

Paper wasp in pitcher plant, Sarracenia purpurea L. 12412

Stones, cement and guards in halictine nest architecture and defense. 12485

Bionomics and nest structure of Pogonomyrmex occidentalis (Hymenoptera: Formicidae). 13076

A procedure for collecting all of the Formica polyctena rejections from the nest. 13616

New experiments with Mueller termites (Macrotermes muelleri) and considerations of the stigmergy theory. 13631

Biology of Trypargilum spinosum, with notes on T. texense and T. politum at Lake Texoma (Hymenoptera: Sphecidae: Trypoxyloninae). 13645

Water movement in two termite mounds in Rhodesia. 13701

The ultrastructure and electrophysiology of the membranous lobe of the antenna in Speophyes lucidulus larvae (Coleoptera). 14192

A three dimensional sketch of the tunnels of the Rapientia nests (Hym., Sphecoidea). 14240

Artificial multiplication of anthills. 14824

Observations on the nesting behavior of Crossocerus (C.) maculiclypeus (Fox) (Hymenoptera: Sphecidae). 15388

INSECT NUTRITION

Effects of introduced irradiated male grain mites on population development. 8091

Cuticular pigments of tobacco hornworm (Manduca sexta) larvae: Effects of diet and genetic differences. 8100

Endocrine control of reproduction in insects. 8113

Mass rearing of the rice stem borer. 8119

Ecological research on arthropods of a sandy beach of the Mediterranean. II. The migrations of Talitrus saltator (Montagu) (Crustacea-Amphipoda). 8122

The comparative biologies of two hymenopterous parasites of the chaff scale, Parlatoria pergandii. 8123

Recent fundamental work on tsetse flies. 8124

Bionomics and ecology of predaceous Coccinellidae. 8135

Nutritional studies of the rice stem borer Chilo suppressalis Walker. 8140

Biological investigations on Pandemis heparana (Den. and Schiff.) with special consideration given to the factors inducing diapause and influencing egg laying. 8155

Food selection by grasshoppers. 8164

Chemosensory bases of host plant selection. 8186

Feeding and reproduction of the grain and the mushroom mite on wood-inhabiting hymenomyeetes. 8192

P32-labeling of common malaria mosquitoes: assimilation by larvae and retention and transfer during mating. 8193

Influence of food on the fecundity of Chrysopa carnea Stephens (Neuroptera, Chrysopidae). 8196

Biological studies on Amblyseius aleyrodis a predator of the cotton whitefly (Acarina, Phytoseiidae). 8338

On the rating of plants as sources of polyphagous species of plant lice (Homoptera: Aphididae). 8351

Investigations on the biology and control of Melolontha melolontha in hazelnut plantations. 8377

Asynchronous ovarian development in the housefly, Musca domestica L. (diptera: Muscidae), caused by dietary gamma-aminobutyric acid (GABA). 8714

Feeding responses by Hylurgopinus rufipes to combined chemical and physical stimuli. 8715

Glutamic acid requirements of the saw-toothed grain beetle, Oryzaephilus surinamensis (L.) (Coleoptera, Silvanidae). 8741

An artificial diet for the adult Japanese beetle. 8761

Ascorbic acid and unsaturated fatty acids in the nutrition of the Egyptian cotton leafworm, Prodenia litura. 8795

The mandibles of two South American grasshoppers. 8796

Studies on larval development in Culicoides furens (Poey) (Diptera: Ceratopogonidae). I. Establishment of a standard rearing technique. 8797

The varied fare of the honeybee. 8811

Effect of biotin on the fertility of the yellow fever mosquito, Aedes aegypti (L.). 8833

A method of rearing the peach tree borer on artificial diet. 8858

Low-cost larval rearing medium for mass production of Oriental and Mediterranean fruit flies. 8879

Feeding habits of larvae of seven Rhyacophila (Trichoptera: Rhyacophilidae) species with notes on other life-history features. 8882

Field notes on a feeding swarm of Cheiroplatys clunalis. 8908

A review of lepidopterous pests of coniferous forests in the Baykal Region. 9019

Rearing the forest tent caterpillar on an artificial diet. 9332

Preliminary results of the rearing of a hymenopterous chalcid (Pteromalus puparum L.) on the hemolymph of a lepidopteran. 9352

Trees for bees. 9361

Population dynamics of the weevil Sitona regensteinensis (Hbst.) on broom. 9363

The distribution of benthic invertebrates on substrata in fast-flowing streams. 9375

Vitamin requirements in a sieve tube sucking aphid, Neomyzus circumflexus Buckt. (Homoptera, Insecta). 9376

Taxonomic composition, trophic structure and seasonal occurrence in a grassland insect community. 9377

The laboratory breeding and embryonic development of Chorthippus brunneus Thunberg (Orthoptera: Acrididae). 9432

Some factors influencing the reproduction and longevity of Coccinella septempunctata Linnaeus (Coleoptera: Coccinellidae). 9480

Biochemical and physiological studies of certain ticks (Ixodoidea). Experimental feeding of Argas (Persicargas) arboreus Kaiser, Hoogstraal and Kohls (Areasidae) through membranes. 9484

Wing coloration of Dendrothrips ornatus (Jablonowski). 9485

Laboratory rearing of pepper weevils on artificial diets. 9486

Causes of the varied behavior of the black bark beetle of olives (Hylesinus oleiperda Fabr.) in Dalmatia. 9488

The influence of nutrition on the fertility and longevity of the bean weevil (Acanthoscelides obtectus Say). 9494

Studies on brood rearing activity of Indian honey bee Apis indica F. under Delhi conditions. 9974

Rearing of the maize stem borer, Chilo zonellus Swinhoe on artificial diet. 9988

Elm spanworm eye size depends upon sex and diet. 10000

In vitro colonization of the goat biting lice, Bovicola crassipes and B. limbata. 10034

Myxomycetes as food for other organisms. 10038

Biology of the billbug Sphenophorus venatus confluens, a new pest of orchardgrass. 10047

The ecology of the Simuliidae in a Scottish river. 10062

Entomocoenological and biological studies in Rosa damascena Mill. plantations. II. Coleoptera. 10081

Nutrition of Xyleborus ferrugineus. I. Ethanol in diets as a tunneling (feeding) stimulant. 10082

Effect of different food plants on the larval and post-larval development on Diacrisia obliqua Walker. 10084

Sterol and water-soluble requirements for larvae of the red-banded leaf roller, Argyrotaenia velutinana. 10104

On the oviposition behaviour and development of Sitophilus oryzae Linn. in various natural foods. 10127

On the determination of insect and mite resistance to pesticides. The influence of these products in sublethal doses on animals and in the trophic effect following biochemical repercussions on plants. 10149

Progeny suppression of Attagenus megatoma and Trogoderma parabile by dietary factors. 10521

Chemical ecology: Fungus-growing ants. (abstract). 10547

The nutrition of desert locust (Schistocerca gregaria Forks.) nymphs and developmental differences of the nymphs caused by nutrition. 10569

The distribution of an oil, carbohydrate, and protein food source to members of the imported fire ant colony. 10571

Flea beetles in sugar beet fields. 10735

The foraging behaviour of Atta cephalotes L. (Hymenoptera, Formicidae). I. Foraging pattern and plant species attacked in tropical rain forest. 11244

Studies on the incidence of mosquitoes in the food of Tetragnatha montana Simon and its food activity in the natural habitat. 11248

Effect of starvation on the black carpet beetle, Attagenus megatoma, infected with the eugregarine Pyxinia frenzeli. 11260

The effect of some trace elements on growth, reproduction, and symbionts of artificially fed Neomyzus circumflexus Buckt. (Aphidae, Homoptera, Insecta). 11265

Tick-host relationships. I. The existence of a circadian rhythm of drop-off of engorged ticks from their hosts. 11282

Artificial diet for the adult froghopper. 11284

Preference for wood of different degrees of dampness in some termites from Cuba (Isoptera). 11293

Nutritional studies on excessive larval molting in the silkworm Bombyx mori. 11306

Ovarian function and oviposition in virgin females and fertilized females of Drosophila melanogaster which have been submitted to an exclusively glucoside diet. 11349

The life history and habits of Chlosyne fulvia (Nymphalidae). 11389

Study of factors affecting the food uptake by the nymphs of Locusta migratoria migratorioides (Orthoptera, Acrididae). II. Internal factors. 11396

A simple method for rearing Drosophila melanogaster Mg. 11399

On the knowledge of the relationship of the Coccinellidae to pine groves (Pinus silvestris L.). 11530

Application of X-radiography to the estimation of larval size in Anobium punctatum (Deg.). 11779

Aspects of the habits and nutrition of the Anobiidae with special reference to Anobium punctatum. 11788

Development of a chemically defined diet for adults of the apple maggot based on amino acid analysis of honeydew. 11791

Influence of meterology upon the nutrition of ladybugs (Coccinellidae). 11833

The life history and feeding habits of Opatroides punctulatus in Tiberias, Israel. 11842

Losses of active insecticidal elements of the dried roots of Derris elliptica Benth. under the influence of predators and especially of Trogoxylon aequale Woll. 12071

Sarcophagous habits of Trichoptera larvae on dead fish. 12426

Egg-yolk and olive juice as supplements to the yeast hydrolyzate-sucrose diet for adults of Dacus oleae. 12446

Relevance of methionine, cysteine, cystine and sulphate in artificial feeding of Neomyzus (Aulacorthum) circumflexus BUCKT. (Aphidae, Homoptera, Insecta). 12447

Need for immediate sugar and ability to withstand thirst by newly emerged Oriental fruit flies, and Mediterranean fruit flies untreated or sexually sterilized with gamma radiation. 12478

Longevity, resistance to deprivation of food and water, and susceptibility to malathion and DDT of Oriental fruit flies, melon flies, and Mediterranean fruit flies sexually sterilized with tepa or radiation. 12479

Formulation of a semisynthetic nutrient medium and methods of feeding of larvae of Agrotis segetum on it. 12481

On the effect of mating and nutrition on the reproduction of Culex pipiens fatigans Wiedemann. 12487

The causes of sexual differences in the size of Aphelinus asychis Walker (Hym., Aphelinidae). 12502

House fly response to fluorescent lamps: Influenced by fly age and nutrition, air temperature, and position of lamps. 12515

Laboratory rearing of the spinach leaf miner Pegomyia hyoscyami Panz. 12518

Influence of temperature and diet on attainment of firm diapause in the boll weevil. 12547

Laboratory evaluation of malathion as a storage protectant for figs. 12879

The response of a predator, Hypoaspis aculeifer (Canestrini) (Acarina:Laelapidae), to two species of prey. 13010

Effects of plant growth regulators on locusts and cotton stainer bugs. 13028

Purine excretion in five scorpions, a uropygid and a centipede. 13064

Effect of flavonoid pigments and gossypol on growth and development of the bollworm, tobacco budworm, and pink bollworm. 13127

The evaluation of assimilability of different leaf-litters by millipedes (Diplopoda). 13133

Ascorbic acid impractical as a character for resistance in cotton to the boll weevil. 13480

Resistance of cotton stains with high gossypol content to Heliothis spp. 13483

Host specificity with Oncopeltus fasciatus (Heteroptera: Lygaeidae). 13608

Laboratory studies on the biology of Anopheles stephensi Liston. 13689

Selection for larval growth in Tribolium under two levels of nutrition. 13706

Quantitative aspects of insect nutrition. 14201

Role of vegetation in sexual maturation of the desert locust (Schistocerca gregaria Forsk.). 14795

Systematic oligophagy of the central-European species of the genus Lithocolletis Hbn. and Argyresthia Hbn. (Lep.) on Prunoideae. 14823

The importance of the site of food up-take of plant-sucking insects for use of systemic insecticides. 14835

A further field experiment regarding the effect of fentin acetate, maneb and copper oxychloride fungicides on the population density of the Colorado beetle (Leptinotarsa decemlineata Say.). 14858

The action of different factors on the number of larval stages in the tomato night moth Helicoverpa armigera Hbn. 14865

Leaf injury and food consumption by larvae of Phaedon cochleariae (Coleoptera; Chrysomelidae) and Plutella maculipennis (Lepidoptera Plutellidae) feeding on turnip and radish. 15034

Houshold pests in Hamburg through three imported beetles. 15230

Growth of the dog tick Dermacentor variabilis Say (Acarina: Ixodidae). II. The effect of starvation and host species on its growth and fecundity. 15346

The influence of the host plant or males on ovarian development or oviposition in the diamondback moth Plutella maculipennis (Curt.). 15373

Sexual forms of the pea aphid, Acyrthosiphon pisum, produced on an artificial diet. 15427

INSECT OUTBREAK FORECASTING

The rice stem borer forecasting system in Taiwan. 8045

A summary of the forecasting program for rice stem borer control in Japan. 8068

Recent developments in and future prospects for the chemical control of the rice stem borer in India. 8370

A history of grasshopper abundance surveys and forecasts of outbreaks in Saskatchewan. 13677

Traps, male lures, and a warning system for Queensland fruit fly, Dacus tryoni (Frogg.) (Diptera, Trypetidae). 13849

Development of the most important diseases and pests of crops grown in Poland in the year 1966 and foreast of their appearance in the year 1967. 14920

Characteristic of development and noxiousness of the most important polyphagous pests present in Poland in the year 1967 and their forecast for 1968. 15022

Organic insecticides and some recent trends in pest control. 15030

Feasibility and outlook for results of granulated insecticide application against forest pests. 15416

INSECT OUTBREAKS

Evaluation of forest insect infestations. 8357

The proliferation of aquatic plants in Lake Trasimeno and its consequences on the diffusion of Phytochironomus severini Goetgh. 9367

A new pimiento fruit disorder associated with the feeding of the leaf-footed bug, Leptoglossus phyllopus L. 12056

Experiments with Lyctus. 12057

Cyclamen mite (Steneotarsonemus pallidus Banks) on Chrysanthemums. 12060

A contribution to the biology of Dysaphis aphids on apple and their control. 12061

The inhibitory action of 2,4,6-trichlorophenoxy ethanol on females of red spider mite (Metatetranychus ulmi Koch). 12064

Cherry flower moth. 12067

Losses of active insecticidal elements of the dried roots of Derris elliptica Benth. under the influence of predators and especially of Trogoxylon aequale Woll. 12071

Parasitization of Nabis alternatus by Leucostoma simplex in eastern South Dakota. 12072

The currant borer (Synanthedon tipuliformis). 12073

A record of natural enemies of Ferrisia virgata Ckll. in Madhya Pradesh (India). 12077

Biological studies of Argyresthia franciscella and A. cupressella on ornamental Cupressaceae. 12079

Comparison tests of insecticides in the control of Sesamia nonagrioides Lef., (Lepidoptera: Noctuidae) on corn. 12081

The phyllophagous larvae of the family Noctuidae (Lepidoptera), collected on corn in Northern Greece. 12082

The relationship of glandular hairs on tomatoes to spider mite resistance. 12085

A record of Parlatoria pittospori Mask. (Hemiptera: Diaspididae) on apples. (Abstract). 12088

Orchard illumination as a counter to the fruit piercing moth. 12089

Tea Research Association. Annual scientific report 1967-68. 12109

On the symbiosis of xylo-mycetophagous and phloeophagous Scolytoidea with wood-inhabiting fungi. 12112

Research on the effectiveness of cobalt 60 irradiation for the control of Sitophilus granarius and Tribolium confusum Duv. 12205

The enzymes hydrolysing carbohydrates of xylophagous insects parasitic of softwoods and some other forest trees. 12245

On the decomposition of wood cellulose by organisms. 12290

Four methods of sampling to measure populations of alfalfa weevil larvae. 12341

Conversion of results of concentrated samples to density estimates of egg and larval populations of the Northern corn rootworm. 12345

A new Japanese species of Trioza from Machilus thunbergii, with descriptions of the immature stages and notes on biology (Hemiptera: Psyllidae). 12369

A light-trap bag for collecting live insects. 12378

Continuous rearing of the apple maggot. 12419

A study of insects attacking Douglas-fir cones in eastern Montana and Yellowstone National Park, 1967. 12444

Longevity, resistance to deprivation of food and water, and susceptibility to malathion and DDT of Oriental fruit flies, melon flies, and Mediterranean fruit flies sexually sterilized with tepa or radiation. 12479

Atrophy and developmental abnormality in insects exposed to dodecyl alcohol. 12511

Efficacy of malathion on wheat grains against Trogoderma granarium Everts at constant temperatures. 12527

Amphibolus venator (Klug) (Hemiptera-Heteroptera)-a predator on insect pests of stored products. 12546

Competition and survival among the corn earworm, the tobacco budworm, and the Fall armyworm. 12555

Unnamed and little-known insects attacking cottonwood in southern California. 12667

New record of Eubrachis indica Bally (Chrysomelidae: Coleoptera) as a serious pest of apple in Himachal Pradesh. 12668

Differential yield responses of commercial sugarcane varities to sugarcane borer damage. 12672

Toxicity, control, and residue studies with DO-14 (2-(p-tert-Butylphenoxy) cyclohexyl 2-propynyl sulfite) as an acaridicide against the citrus red mite. 12673

Effect of late infestation of the stem borer Chilo zonellus Swin. on the yield of sorghum grains. 12675

Treatment of corn rootworm larvae and adults with Bacillus thuringiensis and B. popilliae. 12687

Entomology. 12688

Insect control studies on the new hybrid sorghum CSH-1 in India. 12691

Arthropods in the diet of the cattle egret, Bubulcus ibis, in southern Louisiana. 12812

Fly control in cage layer houses. 12813

Ecology of stored grain insect pests. 12876

A chemosterilant feeder for insects. 12934

Three new species of Pityophthorus from Canada (Coleoptera: Scolytidae). 12945

Apparatus for removing overwintering adult rice water weevils from brunch grass. 12960

A revision of the world fauna of Tuberculatus, with descriptions of two new species from China (Homoptera: Aphididae. 12985

Variation in the response to endrin of progeny from pairs of bollworms. 13002

Color preference and flight habits of thrips associated with cotton. 13016

Suppression of populations of pink bollworms in field cages with traps baited with sex attractant. 13061

Oviposition by the boll weevil in the field. 13092

Effect of flavonoid pigments and gossypol on growth and development of the bollworm, tobacco budworm, and pink bollworm. 13127

Arthropoda associated with a nest of the Hawaiian crow. 13135

Life history, habits, and damage of a gall midge, Oligotrophus papyriferae (Diptera: Cecidomyiidae), injurious to paper birch in Michigan. 13147

Tree planting guide for rural South Australia. 13229

Recent introductions for biological control in Hawaii. XII. 13230

Spray schedule for diseases and insects of cane fruits. 13233

Prevention and treatment. 13236

Further investigations on an abnormality of potato tubers. 13280

Grain aphids in New Brunswick. IV. Effects of malathion and 2,4-D amine on aphid populations and on yields of oats and barley. 13297

The use of cidial to control certain poplar borers. 13302

Another species of Lithocolletis is spread over Italian fruit orchards. 13303

Grave damage to greenhouse tomatoes by Liriomyza-solani Macquart. 13304

Sidedress applications of union carbide UC-21149 for control of overwintered boll weevils. 13305

Distribution and importance of Heterolaccus grandis as a parasite of the boll weevil. 13306

A contribution to the study of cicada (Cicadetta montana Scop.) as pest of raspberries (rubus idaeus L.) in the regions of Valjevo and Cacak. 13307

Ancylis comptana, a new tortix moth on strawberries. 13308

San Jose scale (Quadraspidiotus perniciosus). 13311

Investigations on the control of pasture cockchafers, Aphodius pseudotasmaniae, given in Tasmania. 13313

Biological methods are effective and hygienic. 13317

The ground beetle Anisodactylus signatus (Coleoptera, Carabidae)--maize pest in the Rostov district. 13320

Integrated control of insects. 13325

Distribution of Surattha indentalla Kearfott on Buffalograss. 13327

Scales on lemon trees. 13328

Plant resistance to aphids induced by chemicals. 13329

Displacement in the ratio between Clysia ambiguella and Polychrosis botrana vine moth populations in 1965-1966. 13330

Ants indoors. 13424

Cockroaches. 13425

Ascorbic acid impractical as a character for resistance in cotton to the boll weevil. 13480

Resistance of cotton stains with high gossypol content to Heliothis spp. 13483

On the comparative study of some new insecticides for the control of jute semi-looper (Cosmophila sabulifera). 13641

Studies on factors affecting population density and phase of desert locust in India. 13696

Prophylactic treatment for raising a pest and disease free crop of 'pan' vineyards. 13782

Bunchy top disease of bananas in the central highlands of South Vietnam. 13822

New double-duty insecticide. 13825

On some alterations in the composition of wheat grain damaged by wheat bugs (Eurygaster and Aelia). 13826

Oedaleus senegalensis Krauss (Orthoptera: Acrididae sub family Oedipodinae) plague in Rajasthan. 13829

Natural enemies of the desert locust (Schistocerca gregaria). 13830

Campaign against Citrus psylla in Kangra District (Himachal Pradesh). 13831

Section II.--DISEASE control. 13832

Protection of polythene rain-guards from damage by crickets in rubber plantations in South India. 13835

Appreciation of the efficacy of certain granulated insecticides in the control of the maize pyralid (Ostrinia nubilalis Hbn.) III. 13840

Biology and control of citrus psylla Diaphorina citri Kuw. 13847

Trials with pesticides against red mites--Raoliella indica Hirst in Kerala. 13852

1965 turf insects. 13853

Observations on Lygaeus pandurus Scopli in West Rajasthan. 13854

Prophylactic treatment of storage receptacles for the control of Pulse bettle, Pachymerus chinensis Linn. 13855

Studies on protection of pulses againt Pachymerus chinensis Linnaeus. 13856

Trials for the control of brinjal fruit and shoot borer. 13857

Desert locust situation and control in India during 1962-63. 13858

California fights dramatic war against pink bollworm on cotton. 13862

Section I.--Insect control. 14062

Effect of population density on the larval coloration and development of larva and pupa in the larger pellucid hawk moth, Cephonodes hylas L. (Lepidoptera' Sphingidae). 14121

Identification list. 5. 14165

Essentials in pest control. 14196

Insects Vs man. (Lep. Notodontidae). 14210

Observations of the insect pests of the old shrine and the Buddhist temple wooden buildings and a few trypoxylonid wasps. 14244

A study of the appearance of the cleonus of beets, Temnorrhinus (Cleonus) mendicus Gyll. 14273

Studies on the possibilities of using blowflies (Dipt.) as medicolegal indicators in Finland. I. Report of four indoor cases from the city of Helsinki. 14299

The Tea Research Institute of Ceylon. Annual Report for the year 1966. Part II. 14304

Pests of legume covers. characteristic cocoon production. 14479

Factors affecting the infestation of aphids on potato plants. 14481

Influence of pesticides on russeting of Golden Delicious apples. 14487

Hard-to-kill pests of fruit trees;the mites. 14488

On the appearance and the control of the red-currant leaf-gall fly. 14489

Tanymecus dilaticollis Gyll. (Curculionidae, Coleoptera) as a pest of cultivated plants and the pre-sowing treatment of the seed with insecticides as a control measure. 14494

Occurrence and control of Haplodiplosis equestris in Holland. 14496

Insecticidal experiments for the control of mustard aphid. 14497

Recommendations for chemical control of pests of rubber plantations. 14498

Neotetranychus rubicola Bagd. on the raspberry bush in Serbia. 14501

A contribution to the study of olive Cecidomyiidae: Lasioptera berlesiana (paoli). 14502

Know your enemy: The so-called 'cornfly'. 14503

First records of eye-frequenting Lepidoptera from India. 14624

Asuntol and Neguvon in the fight against dog fleas. 14626

Fine structure of the intestinal epithelium of Dirofilaria immitis and changes occurring after vermicidal treatment with caparsolate sodium. 14637

Susceptibility of 'tapioca macaroni' to insect attack. 14647

Ministry of Overseas Development, Tropical Pesticides Research Unit, annual report. 14708

Anastrepha ocresia (Walker) (Diptera: Tephritidae). 14782

The standardization of Bacillus thuringiensis: Tests on three candidate reference materials. 14799

A contribution to the understanding of the biology of Sesamia cretica Led. (Lepidoptera Agrotidae) in Tripolitania. 14809

Phalaenopsis mite, Tenuipalpus pacificus Baker. 14813

The biologics of the Pseudohylesinus tsugae and P. grandis (Coleoptera: Scolytidae) in western hemlock. 14851

Studies on Panonychus ulmi (koch) in Lebanon. 14859

Pathogenicity studies of neoaplectanid nematodes and their use for insect control. 14864

Trends of mite populations in lower Rio Grande Valley citrus groves in 1962-63 and 1966-67. 14867

Injurious insects in 1968. 14870

Studies on bionomics and control measures of Cnaphalocrocis medinalis Guenee; preliminary report. 14872

Biological control of sugar cane aphid pests in the West Indies (Homoptera, Aphidoidea; Hymenoptera, Aphidiidae). Part II. 14883

A study of the bionomics of Lymantria ampla Wlk. (Lymantriidaei Lepidoptera). 14887

Biology of Thaumetopoea wilkinsoni Tams in Jordan. 14893

Development of the most important diseases and pests of crops grown in Poland in the year 1966 and forcast of their appearance in the year 1967. 14920

Characteristic of development and noxiousness of the most important diseases and pests of potatoes and sugar beets in the year 1967 in Poland and their forecast for 1968. 14980

Controlling the pink bollworm on cotton. 15001

Incidence of and losses caused by some pod-infesting insects in different varieties of pigeon-pea (Cajanus cajan (L.) Millsp.). 15003

Insects associated with citrus in Nigeria. 15004

Characteristic of development and noxiousness of most important pests and some diseases of fruit trees and small fruits in Poland in 1967 and their forecast in 1968. 15013

Characteristic of development and noxiousness of most important pests and some diseases of leguminous and vegetable plants in Poland in 1967 and their forecast for 1968. 15014

A case history - Control of the hemlock looper. 15016

Turf insects and insecticides. 15024

Greenhouse insects. 15026

Characteristic of development and noxiousness of the most important diseases and pests of industrial plants in Poland in the year 1967 and their forecast for 1968. 15032

Control of citrus aphids. 15033

Leaf injury and food consumption by larvae of Phaedon cochleariae (Coleoptera; Chrysomelidae) and Plutella maculipennis (Lepidoptera Plutellidae) feeding on turnip and radish. 15034

Report of the Seventh FAO Ad hoc Conference on the Control of Olive Pests and Diseases, Palermo, Italy, 2 to 9 May, 1967. 15036

Investigations on the biology and means for control of Neurotoma nemoralis L., Tenthredinidae, Thysanoptera. 15037

An improved laboratory method of evaluating insecticides for the protection of sheep against blowfly strike. 15195

Livestock and poultry insects. 15197

Insects on humans. 15200

Dispersion and transport of pestiferous insects: Hermetia illucens L. (Diptera, Stratiomyidae). 15326

Biological and morphological investigations of Brachycaudus spiraeae (Oestl.) C.B., an aphid pest of Spiraea (Homoptera: Aphididae): a contribution to the determination, to the specific morphology and chetotaxy of the aphid. 15380

Feasibility and outlook for results of granulated insecticide application against forest pests. 15416

Vegetable insects. 15582

The raspberry stem gall midge (Lasioptera rubi) a little known pest of raspberry. 15588

Mites, pests in gardens and living rooms. 15620

Attempts at treatment of the Atomaria of sugar-beets with insecticides. 15622

Pigmy mangold beetle (Atomaria linearis Steph.), biology and control. 15623

Corn insects. 15625

Insects on alfafa, clovers and grasses. 15627

Soybeans. 15628

Small grains insects. 15629

Sorghum. 15630

A new report on sugar-beet pests in the area of Baranja, soil Coleoptera taken into special consideration. 15632

Peach spray program. 15635

Blue grape spray program. 15636

Blackberry, dewberry and raspberry insects. 15638

Tree insects and mites. 15640

Dasanit insecticide for superior control of corn rootworm. 15645

The Trapezeule (Calymnia trapezina L.), an unusual parasite on apple trees. 15648

Microbiological control of pestiferous insects in the USSR. 15650

Certain minor crop pests hitherto unrecorded from the Gujarat State. 15656

The two spotted (carmine) spider mite (Tetranychus cinnabarinus Boisd.) on apple in Israel. 15657

Research into the actual yield reduction by attack on winter wheat and summer barley of the cereal leaf beetles (Lema cyanella L. and L. melanopus L.) and the wheat stem sawfly (Cephus pygmaeus L.). 15658

Tobacco insects. Plant beds. 15659

Cotton insects. 15660

Pecan insect and disease spray schedule. 15661

Lawn and turf pests. 15662

Tobacco insects. 15663

Cotton insects. General statewide control program. 15664

Flower and shrub insects. 15665

Greenhouse insects. 15666

Plant protection problems in Tunesia. 15667

Vegetable insects. 15668

What is plant protection. 15669

Resistance of varieties of Portuguese wheat, Triticum aestivum L. em. Thell., to the wheat stem sawfly. 15677

Blackberry, dewberry and raspberry insects. 15678

Livestock and poultry insects. 15812

Insects on humans. 15814

Storage insects. 15837

INSECT PHYSIOLOGY

Thaeniothrips vuilleti Bagnall 1933 and Thaeniothrips falsus Priesner 1936. 8061

Controlling wasps. 8071

The old house borer in Eastern States. 8076

Aggregation of Drosophila embryonic cells and effects of proteolytic enzymes. 8077

The connective tissues of insects. 8078

The response of a predator, Hypoaspis aculeifer (Canestrini) (Acarina:Laelapidae), to two species of prey. 8081

Effects of ecdysones on diapause in the European corn borer, Ostrinia nubilalis. 8083

Innervation and neural excitation of ventral muscle fibres of the larva of the waxmoth, Galleria mellonella. 8084

Changes in nitrogenous compounds during the metamorphosis of the blowfly, Lucilia cuprina. 8086

Influence of larval population density on the size of adults, duration of development, and diapause frequency in Pteromalus puparum L. (Hym., Chalcididae). 8088

Relationship between the proteins of the haemolymph and fat body during development of Pieris brassicae. 8097

The structure of the female genital ducts and of the spermatheca in Gryllus campestris L. 8101

Microtubules in the spermatids of the silkworm (Bombyx mori L.). 8102

The influence of Bacillus thuringiensis toxins on various physiological characters of Drosophila adults. 8104

Developmental changes in the protein constitution of a mosquito (Armigeres subalbatus) as revealed by disc electrophoresis. 8106

Endocrine control of reproduction in insects. 8113

Terminal respiration in minute mutations of Drosophila. 8114

Ecdysone titres in the last larva adult stages of the milkweed bug. 8115

The protein nature of the substance inducing female monogamy in Aedes aegypti. despommier, d d. 8118

Physiology of rice stem borers, including hibernation and diapause. 8120

Recent fundamental work on tsetse flies. 8124

Influence of light on diapause in the boll weevil. Ii. Dependence of diapause response on narrow bands of visible radiation and a broad band of infrared radiation used to extend the photoperiod. 8128

Neoplasms of insects. 8129

The length of larval stage in Pyrethroid-resistant and susceptible strains of the house fly, Musca domestica L. 8131

Immune responses of ligatured Galleria mellonella larvae. 8133

Bionomics and ecology of predaceous Coccinellidae. 8135

Toxicology and physiology of DDT resistance in the German cockroach. 8138

Investigations of the morphology and development of the scolopidia in the stick insect Carausius morosus Br. 8141

Observations on the functional anatomy of the reproductive organs of Sitophilus (Coleoptera: Curculionidae). 8145

Correlation of nucleolytic activities with the stage of growth of the silkworm. 8151

Variation-statistical research on the female of Formica lugubris Zett. 8153

Biological investigations on Pandemis heparana (Den. and Schiff.) with special consideration given to the factors inducing diapause and influencing egg laying. 8155

The role of the neurohormones in the sexual differentiation of Lampyris noctiluca. 8165

Acid phosphatase activity in the digestive system of the desert locust Schistocerca gregaria (Forskal). 8166

The role of the nervous system in insect morphogenesis and regeneration. 8168

The labium of Aphelocheirus aestivalis F. as compared with that of typical Naucoridae (Heteroptera). 8169

The alarm-defence system of the ant Lasius alienus. 8174

Spectrum analysis of the light emitted by Luciola lusitanica (Charp.). 8195

Formation of tumorlike lesions in the cockroach Leucophaea maderae after nerve severance. 8199

The role of short infra-red rays, on the egg laying workers of the ant Dolichoderus quadripunctatus L.. 8200

Photoperiod and temperature as factors controlling the diapause of the sunflower moth, Homoeosoma electellum. 8201

Gut absorption. 8207

Contrast perception in eye colour mutants of Drosophila melanogaster and Drosophila subobscura. 8211

Haemocyte activity in relation to epidermal cell growth, cuticle secretion, and cell death in a metamorphosing cyclorrhaphan pupa. 8212

Mechanical and physiological defense reactions of an aphid species (Aphididae) against ichneumonid wasps (Hymenoptera). 8213

The embryogenesis of the larval head of Simulium venustum Say (Diptera: Nematocera). 8225

Carnitine acetyltransferase in developing and mature sperm of wild-type and mutant Drosophila melanogaster. 8231

Ultrastructural study of hybrid sterility in Drosophila paulistrom. 8237

Developmental time of geographical populations of Tribolium castaneum. 8266

Genetic and physiological effects of ethylenimine in Habrobracon females. 8270

Mosquito control in and around homes and farmsteads. 8274

Corn borer outlook. 8321

The rice gall midge Pachydiplosis oryzae (Wood-Mason). 8371

Dietary efficiency of natural foods for the growth and development of stored grain insect pests. 8521

Microctonus glyptosceli n. sp., a parasite of Glyptoscelis pubescens (F.) in Wisconsin (Hymenoptera: Braconidae: Euphorinae and Coleoptera: Chrysomelidae). 8648

Neuromuscular synapses in the cockroach extensor tibiae muscle. 8700

Asynchronous ovarian development in the housefly, Musca domestica L. (diptera: Muscidae), caused by dietary gamma-aminobutyric acid (GABA). 8714

Study of different types of activities recorded with capillary microelectrodes in the last abdominal ganglion to the cockroach, Periplaneta americana L.. 8723

Endotoxins from several bacterial species as immunizing agents against Pseudomonas aeruginosa in Galleria mellonella. 8725

Integumental absorption versus oral ingestion of phosphate and other materials by common cattle grubs held in vitro. 8726

The production of cuticle wax by engorged females of the cattle tick, Boophilus microplus (Canestrini). 8730

Esterases and phosphatases in the gastric secretion of the cockroach, Periplaneta americana. 8733

Nerve-blocking effect of Bacillus thuringiensis protein toxin. 8734

Glutamic acid requirements of the saw-toothed grain beetle, Oryzaephilus surinamensis (L.) (Coleoptera, Silvanidae). 8741

Humoral and nervous pathways in photoperiodic induction of diapause in Leptinotarsa decemlineata. 8742

The existence of two optional diapauses in the biological cycle of Villa brunnea Beck. (Dipt., Bombyliidae). 8746

The natural control of the apple-grass aphid, Rhopalosiphum insertum, with remarks on the control of apple aphids in the Netherlands in general. 8752

Sexual difference in the activity of pars intercerebralis-corpus cardiacum-corpus allatum system of Bombyx mori. 8755

The action of actinomycin D on the pigmentation of albino mutants of the locust Locusta migratoria cinerascens L. (Orthop.). 8756

Mode of entry of contact insecticides. 8758

On the production of lipoproteic corpuscules by the Malpighian tubes in some insects. 8763

Bioassay, preliminary purification, and effect of age, crowding, and mating on the release of sex pheromone by female Tenebrio molitor. 8765

Stridulatory files as diffraction gratings in mutillid wasps. 8769

The action of the endocrine system and the ovary on the hemogram of Locusta migratoria L. (Orthoptera). The role of the ventral gland. 8771

Life history of the boll weevil in field cages. 8772

Time required for development of Voria ruralis and its host, the cabbage looper, at different temperatures. 8775

Etiella zinckenella Treit-a pod borer pest of Crotalaria anagyroides H.B.K. 8778

Developmental inhibition in Drosophila using dihydroxybenzoic acid isomers. 8793

Ascorbic acid and unsaturated fatty acids in the nutrition of the Egyptian cotton leafworm, Prodenia litura. 8795

Studies on larval development in Culicoides furens (Poey) (Diptera: Ceratopogonidae). I. Establishment of a standard rearing technique. 8797

Sexual characters of the instars of Blaberus discoidalis and an analysis of growth in this cockroach. 8802

Fatty acids, methyl esters and insect growth. 8809

Two juvenile hormones in Cecropia silk moth. 8810

Morphology of the larval and adult brains of the monarch butterfly, Danaus plexippus plexippus, L. 8821

Discrimination between movements of eye and object by visual interneurones of crickets. 8826

The effects of perfusion on the synthesis and release of blood proteins by diapausing pupae of the Cecropia silkworm. 8828

Haemoglobin of Anisops niveus (Notonectidae, Heteroptera). 8829

Effect of biotin on the fertility of the yellow fever mosquito, Aedes aegypti (L.). 8833

Tandem linkage in dichoptic and other Anisoptera (Odonata). 8834

An electron microscope study of nebenkern formation and differentiation in spermatids of Murgantia histrionica (Hemiptera, Pentatomidae). 8837

Selective toxicity of systemic insecticides. 8845

Bursicon mediation of tyrosine hydroxylation during tanning of the adult cuticle of the fly, Sarcophaga bullata. 8853

Organization of the giant axons of the cockroach Periplaneta americana. 8861

Seasonal history of a unisexual population of the pine needle scale, Phenacaspis pinifoliae. 8870

The adult cervicothoracic musculature of the cockroach, Nauphoeta cinerea (Olivier). 8871

Physico-chemical studies on the absorption of pesticides by the insect cuticle and peneration to the insect body. 8874

The formation of tumorlike lesions in the cockroach Leucophaea maderae after anal blockage. 8880

Chronological study of the function of the ovary in the Hypogastruridae. Cavern-living and epigeous Collembola: Typhlogastrura balazuci Delamare and Ceratophysella engadineusis Gisin. 8881

Ecological studies of the field cricket, Gryllus campestris L. . 8887

Homograft of the tarsus into the place of the eye in the phasmid Sipyloidea sipylus W. 8888

Rate of oxygen uptake of healthy and diseased larvae of the Japanese beetle. 8895

Add water-- instant Culicoides. 8900

A general method for estimating threshold concentrations of odorant molecules. 8901

An active reduction of water level in insect cuticle. 8902

Internal damage in an aquatic beetle exposed to sublethal concentrations of inorganic ions. 8905

Mode of action of natural insectides. 8906

Electrophysiological study of contact chemoreceptors in bloodsucking Diptera. 8907

Larval development of Mansonia mosquitoes in Central Florida. 9261

Rearing the forest tent caterpillar on an artificial diet. 9332

A study of the hibernation of bumblebees (Hymenoptera: Bombidae) in southern England. 9334

The problem of the ootheca secretion in orthopteroids in the light of the most recent acquisitions. 9340

Ammonium-induced termination of diapause in the European corn borer, Ostrinia nubilalis. 9348

A decade with the alfalfa weevil in Tennessee. 9349

A note on the comparative biology of some Italian Cassidae. (Col., Chrysomelidae). 9350

Hormonal inhibition of the prothoracic gland by the brain in locusts. 9355

The distribution of factor S in the cockroach, Periplaneta americana, and its role in stress paralysis. 9359

Population dynamics of the weevil Sitona regensteinensis (Hbst.) on broom. 9363

Changes in temperature tolerance during the life cycle of Calliphora erythrocephala. 9364

The recognition of nulliparous and parous Culicoides (Diptera: Ceratopogonidae) without dissection. 9371

Post-ecdysal setal development in the Aleyrodidae (Hemiptera). 9372

The neural control of cercal grooming behaviour in the cockroach, Periplaneta americana. 9373

Vitamin requirements in a sieve tube sucking aphid, Neomyzus circumflexus Buckt. (Homoptera, Insecta). 9376

Morphology of hemocytes of Rhynchosciara angelae Nonato and Pavan, 1951 (Diptera, Mycetophilidae). 9380

The influence of light and temperature on the pupal emergence activity of Chironomus nuditarsis Str. 9381

Parasitic changing in hosts and its ecological importance for the parasite. 9385

Propagation of a cerambycid borer on a meridic diet. 9394

Effect of mitomycin-C on the development of the eye-disks in Drosophila melanogaster. 9401

The action of the endocrine system and the ovaries on the hemogram of Locusta migratoria L. (Orthoptera). The role of the corpora cardiaca. 9402

Selection for generation time in Drosophila melanogaster. 9403

The intestine of a higher termite (Microcerotermes edentatus, Wasman, Amitermitinae). Histophysiology and symbiotic bacterial flora. 9411

The neurosecretory cells of the brain of Aedes aegypti in relation to larval molt, metamorphosis and ovarian development. 9413

Reproductive isolation and size variation in the Muscidifurax raptor complex. 9415

Preliminary studies on the effects of gamma irradiation of eggs and adults of the southern green stink bug, Nezara viridula (L.). 9421

An observation on the ileum of the European corn borer, Ostrinia nubilalis. 9422

Metabolism of 2,2-dimethyl-2,3-dihydrobenzofuranyl-7 Nmethylcarbamate (Furadan) in plants, insects, and mammals. 9424

A quantitative study of food consumption and growth of Podisus.maculiventris.(Hemiptera: Pentatomidae). 9434

Psallus ambiguus (Fall.) (Heteroptera, Miridae). Part II, Nutrition and role in the biocenosis of orchards. 9438

The determination of larval instars of the rice weevil Sitophilus oryzae (L.) (Coleoptera: Curculionidae) in wheat. 9441

Experimental studies on the regression of the ventral glands of the earwig, Anisolabis maritima, during metamorphosis. 9444

Diapause and reproduction in Nebria brevicollis (F.) (Coleoptera: Carabidae). 9449

Factor analysis as a multivariate statistical method in the study of the growth pattern of the antennae of Gerris Fluviorum F. (Hem. Gerridae). 9456

The fundamental schema of oogenesis in the firebrat Lepismodes inquilinus (Thysanura, Lepismatidae) and its periodisation in connection with imaginal moulting cycles. 9459

Hormonal control of turnover of tyrosine and tyrosine and tyrosine phosphate during tanning of the adult cuticle in the fly, Sarcophaga bullata. 9465

Toxicity and effects on motor coordination of some neurotropic drugs on the cockroach Nauphoeta cinerea. 9467

The assay of gonadotropic effect of juvenile hormone on Aedes aegypti ovaries. 9468

The pattern of pteridine accumulation in eggs of Pyrrhocoris apterus. 9473

Cyclic ovariole changes in Anopheles farauti Laveran (Diptera: Culicidae) in Papua-New Guinea. 9475

Diapause in Chrysopa carnea (Neuroptera: Chrysopidae. I. effect of photoperiod on reproductivity active adults. 9483

Laboratory rearing of pepper weevils on artificial diets. 9486

The influence of nutrition on the fertility and longevity of the bean weevil (Acanthoscelides obtectus Say). 9494

The use of mushroom enzymes for softening insect cuticle. 9497

Photoperiodic induction of diapause in larvae of the winter tick, Dermacentor albipictus. 9507

Studies on nicotinoids as an insecticide. Part VII. Cholinesterase inhibition by nicotinoids and pyridylalkylamines--its significance to mode of action. 9508

The effect of temperature on the number of eggs deposited and on the production of hatching larvae in versene-treated Drosophila melanogaster. 9511

New electronic conceptions on actography applied to the study of invertebrates. 9620

Pelecitus ceylonensis n.sp., from the chick and ash-dove experimentally infected with larvae from Mansonia crassipes, and from naturally-infected crows in Ceylon. 9767

Intracellular activity in cricket neurons during the generation of behaviour patterns. 9968

Sindbis virus multiplication and Calliphora erythrocephala (Meig.) metamorphosis. 9969

Notes on the biology of Diatraeophaga striatalis Townsend, tachinid parasite of Proceras sacchariphagus Boj. 9970

An integrated technique to study the effects of fumigants on respiration of insects. 9972

Studies on brood rearing activity of Indian honey bee Apis indica F. under Delhi conditions. 9974

Effect of temperature on the development of mustard sawfly, Athalia proxima Klug. (Hymenoptera: Tenthredinidae). 9976

Locust wind receptors. I. Transducer mechanics and sensory response. 9981

Locust wind receptors. III. Contribution to flight initiation and lift control. 9982

Locust wind receptors. ii. Interneurones in the cervical connective. 9983

The external morphogenesis of grasshopper embryos. 9987

Biochemical study of Plodia interpunctella (Hbn.) (Lepidoptera) I--Variations of body weight, water content, and dry matter content. 9993

The influence of the rearing temperature on larval and pupal mortality and the duration of development of Drosophila. 9995

Effect of temperature on water absorption, development, and hatching in eggs of the prairie grain wireworm, Ctenicera destructor. 9999

Deviate-ontogenies in the aphelinid male (Hymenoptera) associated with the ovipositional behavior of the parental female. 10006

Physico-organic chemical approach to the mode of action of organophosphorus insecticides. 10014

The behavior of newly emerged boll weevils. 10016

Spermatophores of the Blattaria. 10024

Development of Chrotogonus trachypterus (Blanch.) (Orthoptera: Pyrsgomorphidae) in relation to different levels of temperature and humidity. 10026

The influence of temperature on reproduction and development in four species of Glossina (Diptera: Muscidae). 10028

Laboratory demonstration of a chemical sex attractant in Costelytra zealandich (White) (Scarabacidae: Coleoptera). 10030

Temperature effects on embryonic development in insects. 10035

Studies on the susceptibility of different stages of Bagrada cruciferarum Kirkaldy to some organic insecticides. 10043

Experimental studies on diapause in stoneflies. III. Eggs of Brachyptera risi (Morton). 10051

Water vapor sorption and humidity relationships in Liposcelis (Insecta: Psocoptera). 10053

Radiation sensitivity of twelve species of arthropods. 10069

Starvation-induced activity in cockroach malpighian tubules. 10073

Water uptake and embryonic development in eggs of Chorthippus brunneus Thunberg (Saltatoria: Acrididae). 10079

Effect of different food plants on the larval and post-larval development on Diacrisia obliqua Walker. 10084

The artificial feeding of phosphamidon to Myzus persicae: ii. The effects of phosphamidon on liquid uptake through a parafilm membrane. 10086

Common inhibitory motorneurones in insects. 10089

Oenocytes: form and function. 10093

Studies on phosphohexoseisomerase (d-glucose-6-phosphate ketol isomerase) from the Indian honeybee, Apis indica Fabricius:. 10098

Comparison of effects of irradiation on the primary spermatogonia and mature sperm of three species of Diptera. 10102

Anatomical indicators for assessing age of mosquitoes: changes in ovarian follicles. 10107

KCl-induced spreading depression and ventilation in the cockroach. 10108

Retention of intra-cellular potassium by the housefly. 10113

Oviposition and hatching in two species of ticks in relation to moisture deficit. 10119

The effects of the removal of the parasite Xenos (insecta Strepsiptera) on the protocerebral neurosecretion of its host Polistes (Hym. Vespidae). 10121

Inhibition of the defense reaction of Drosophila melanogaster parasitized simultaneously by the wasps Pseudeucoila bochei and Pseudeucoila mellipes. 10122

Seasonal evolution of the honey bee thermogenesis. Oxygen consumption of the isolated bee at five different temperatures in summer and in winter. 10123

On the oviposition behaviour and development of Sitophilus oryzae Linn. in various natural foods. 10127

Experiments on larval diapause in the carabid Pterostichus vulgaris L. 10129

Effects of exogenous moulting hormones on puparium formation in Calliphora. 10130

Spectral efficiency as function of latency in the visual mechanism of insect (Tenebrio molitor L.). 10142

Sexual dimorphism in neutral lipid metabolism in the Indian-meal moth, Plodia interpunctella (Hubner). 10143

A new species of Aedes (Stegomyia) from Thailand (Diptera: Culicidae). 10164

Growers join forces to battle the boll weevil. 10233

The stem borer Sesamia botanephaga Tams and Bowden (Lep., Noctuidae) and the maize crop in central Ashanti, Ghana. 10243

Needle miner infestations in lodgepole pine east of the Sierra crest. 10267

Progeny suppression of Attagenus megatoma and Trogoderma parabile by dietary factors. 10521

The use of Daphnia pulex De Geer for the detection of insecticides extracted from plants. 10523

Leaterjackets. 10526

The eye of the firefly Photuris. 10535

A monoxenic relationship, Nocardia rhodnii Erikson in the gut of Rhodnius prolixus Stahl. (Hemiptera: Reduviidae). 10542

Experimental conditions for feminization of the gonads of triploid intersexes in Drosophila melanogaster. 10543

Chemical ecology: Fungus-growing ants. (abstract). 10547

Studies on the environmental factors for the breeding of grain mites. Part IX. The effect of relative humidity on the age composition of the population of Lardoglyphus konoi. 10549

The distribution of an oil, carbohydrate, and protein food source to members of the imported fire ant colony. 10571

Possible pleiotropism of a gene conferring resistance to DDT, DDT analogs, and pyrethrins in the house fly and Culex tarsalis. 10581

Drosophila lowei, a new American member of the obscura species group. 11146

The effect of radioactive phosphorus on the development of Aedes aegypti larvae. 11223

Arginine content of the neurosecretory cells of grasshopper, Acrida gigantea Hbst. 11225

The photoreceptors of the Collembola. New formations of the rhabdomeric structure belonging to the genus Tomocerus (Insecta, Collembola). 11228

Correlation of cellular activity in Weismann's ring with molting cycles in larvae of Musca autumnalis. 11231

The anatomy and histology of the maxillary palp of Schistocerca gregaria (Orthoptera, Acrididae). 11233

Sex pheromone of Trypobendron lineatum: Production in the female hindgut-malpighian tubule region. 11234

Fecal filaments produced by fungus infesting larvae of Platydema oregonense. 11235

Histology of the male auxillary glands of Schistocerca gregaria F. (Orthoptera). Effect of allatectomy on their structure and function. 11241

Recordings of the activity of three neurons in the cercal basiconica sensilla of Locusta migratoria L. (Orthoptera, Acrididae). 11243

Neurosecretion in the cave Coleoptera. Imago. 11254

Cellular response in the female gonads of Galleria mellonella L. (Lepidoptera) to the experimental disturbances in the normal supply of hormones. 11261

Influence of temperature inversion on development of spruce beetle, Dendroctonus obesus (Mannerheim) (Coleoptera: Scolytidae). 11263

The effect of some trace elements on growth, reproduction, and symbionts of artificially fed Neomyzus circumflexus Buckt. (Aphidae, Homoptera, Insecta). 11265

A laboratory investigation of maturation in the Cuban borrowing cockroach Byrsotria fomigata (Euerin). 11269

Pigment development in male integument transplanted onto females in the desert locust, Schistocerca gregaria. 11270

On the ability of the female imaginal corpora allata to induce supernumary molt in Bombyx mori L. 11275

Production of the protocephalic neurosecretion product in the axonal passage of the Insecta, Pterygota. 11276

Certain reactions in honey bees to the flow of electric current of different parameters. 11277

Interpretation of the structures called centrioles in the Hypermastigian symbiotes of termites and of Cryptocercus. 11290

Changes in gland volume during the post-diapause development in embryos of Aulocara elliotti (Thomas) (Orthoptera, Acrididae). 11291

The stimulating action of the spermatophore on oogenesis in Acanthoscelides obtectus Say (Insecta, Coleoptera). 11295

The spectral sensitivity and the components of the visual system in the stemmata of silkworm larvae, Bombyx mori L. (Lepidoptera: Bombycidae). 11296

In vitro culture of ovary of the plant bug, Iphita limbata Stal. 11297

Natural and synthetic materials with insect hormones activity. 8. Juvenile activity of the farnesane-type compounds on Galleria mellonella. 11298

Nutritional studies on excessive larval molting in the silkworm Bombyx mori. 11306

Larval density and adult fecundity in a natural population of the pine looper (Bupalus piniarius L.). 11312

The effect of corpora allata transplanted from Bombyx mori to other species of lepidoptera (Lepidoptera: Bombycidae and Saturniidae). 11314

The neuro-endocrinal basis of oviposition in Dermestes maculatus DeGeer --I. The neurosecretory system. 11324

Effects of allatectomy on the imaginal development of the female genital tract in Locusta migratoria migratorioides (Insecta, Orthoptera). 11328

Lipid composition of fat body and its contribution to the maturing oocytes in Pyrrhocoris apterus. 11340

The photoresponse to skyshine of the two-spotted spider mite, Tetranychus urticae K. (Acarina: Tetranychidae). 11346

The cockroach heart as a bioassay organ. 11353

Habitat selection of laboratory populations of Tribolium. 11355

Larval aggregation formation and population density interrelations in Aedes taeniorhynchus, their effects on pupal ecdysis and adult characteristics at emergence. 11358

Laboratory experiments on the sound of the wing beats of Culex pipiens Linnaeus during diapause. 11360

Absorption and metabolism of a 10 per cent glucose solution by mosquitoes Culex pipiens molestus Forsk. 11364

A method for determining the dosage-mortality curve of malathion against the pea aphid, Acyrthosiphon pisum (Harris) (Homoptera: Aphididae). 11365

Penetration of Keystone virus in artificially infected female Aedes infirmatus (Dyar and Knab). 11367

Sensitivity of Sitophilus zeamais Mots (0 oryzea L.) to ionizing radiations at different stages of its development. Radiographical study of the endogenous stages and actographical registration. 11368

Autogeny in the deerfly, Chrysops fuliginosus (Diptera: Tabanidae). 11380

Response of isolated pupal abdomens of silkworms, Bombyx mori L., to injected ponasterone A (Lepidoptera: Bombycidae). 11383

Results of organotypic cultures of the cerebral ganglion and the sub-esophagial ganglion of Aeschna cyanea Mull (Insecta, Odonata). Survival of the organs and development of the neurosecretory elements. 11384

Insecticide susceptibilities of Phlebotomus papatasi (Scopoli) from Egypt and the Sudan. 11387

Respiratory rates of green and black larvae of the armyworm, Leucania separata (Lepidoptera: Noctuidae). 11392

The influence of temperature on the development of armyworm, Leucania separata Walker (Lepidoptera: Noctuidae). 11394

Study of factors affecting the food uptake by the nymphs of Locusta migratoria migratorioides (Orthoptera, Acrididae). II. Internal factors. 11396

Phospholipid synthesis during flight muscle development in the American silkmoth, Hyalophora cecropia. 11405

The number and the relation between measurements of successive larval instars of the rice moth, Corcyra cephalonica Stainton (Galleridae, Lepidoptera). 11406

Hormonal effect on cultivated insect tissues. I. Effect of ecdysterone on cultivated testes of diapausing rice stem borer larvae (Lepidoptera: Pyralidae). 11417

Use of an actograph with electro-acoustical detector for the study of grain insects. Actography of the larval development of Sitophilus granarius. Detection of the primary effects of the ionizing radiations. 11538

Relative toxicity of certain fumigants to Trogoderma granarium Everts (coleoptera, Dermestidae). 11660

Mode of multiplication of the nuclear-polyhedrosis virus of the silkworm. 11773

On photoreceptive and photokinetic activity of wings in insects. 11775

Artificial parthenogenesis and experimental polyploidy in silkworm. 11778

Application of X-radiography to the estimation of larval size in Anobium punctatum (Deg.). 11779

Oviposition of Aedes aegypti L. on a dry surface and hygroreceptors. 11780

Observations with the electron microscope on the development of the virus of maladie de fuscaux of Coleoptera, Melolontha melolontha L. 11786

Permeability to water of the shell of the egg of Locusta migratoria migratoriodes, with observations on the egg of Teleogryllus commodus. 11793

Effects of light: Dark cycles on development in Drosophila melanogaster. 11800

Composition of the neutral lipids from termite queens. 11801

In vitro fatty acid oxidation by developing tissues in the adult of the blowfly, flucilia. 11803

Larval moulting cycle and DNA synthesis in Drosophila hydei salivary glands. 11804

Development and histolysis of the indirect flight muscles in Dysdercus intermedius. 11811

Liquid nitrogen fixation: A new method for hemocyte counts and mitotic indices in tissue sections. 11814

Hormone-mediated nutritional control of sexual behavior in male dung flies. 11815

Masonaphis maxima (Mason) (Homoptera: Aphididae), an aphid on thimbleberry with an unusual life history. 11816

Soldier-reproductive intercastes in a species of Tumulitermes (Isoptera: Termitidae). 11820

Some observations on the malpighian tubules and ovarioles in Myrmecia dispar (Clark) (Hymenoptera: Formicidae). 11822

Histopathology of lecithodendriid trematode infections in stonefly naiads. 11823

Growth pattern of Leishmania in Phlebotomus sandflies. 11829

Respiratory physiology of the larva of Donacia simplex, a root-piercing beetle. 11830

Contribution to the bionomics of Coptotermes formosanus, its laboratory breeding and applicability for testing the resistance of materials. 11831

The activity of spermatozoa of Periplaneta. 11832

Biological studies of Scythropus californicus on Monterey pine in northern California. 11836

Symbiosis of the Anobiidae with yeastlike fungi. 11838

Artificial feedstuff for silkworm larvae containing a hydroxyhenzaldehyde compound. Patent 3,425,838. 11840

Acarine molting-the migration of hemocytes through the epidermis of Caloglyphus berlesei. 11841

The life history and feeding habits of Opatroides punctulatus in Tiberias, Israel. 11842

Estimation of a total bacterial number in termite intestines. 11845

Migrations of Hippelates collusor larvae from moisture and trophic stimuli and their encounter by Tryhliographa para-. 11848

Programmed cell death. Activation of lysis by a mechanism involving the synthesis of protein. 11849

The influence of abiotic factors on the development cycle of the grape phylloxera (Dactylosphaera vitifolii Schim.) and on a population of jassids (Homoptera, Auchenorrhyncha, Jassidae). 11856

Experiments of in vitro cultures of larval epiderm of desert locust (Schistocerca gregaria Forsk). 11862

The occurrence of house crickets (Acheta domesticus (Linnaeus, 1758)) on mountain slopes. 11864

Function of the brain through nerve commissures on the suboesophageal ganglion in Bombyx mori L. 11865

19. Thysanoptera (Physopoda). 11870

Fig wasps: Mechanism of pollen transfer. 11872

Calcium, potassium, and sodium content of forest floor arthropods. 11874

The drumming of the Plecoptera (Insecta). 11875

Hormonale regulation of the metamorphosis-new aspects based on investigations in Formica polyctena Foerst. (Hym.). 11879

Amino-acid receptor in larvae of Pieris brassicae (Lepidoptera). 11881

Mimicry of Hymenoptera by beetles with unconventional flight. 11883

Failure of effective insemination of young female Aedes aegypti mosquitoes. 11885

Biology and immature stages of Eumetopiella rufipes. 11891

Three years of growth of a Sericomyrmex colony. 11896

Lysozyme action on the cockroach, Periplaneta americana, and its intracellular symbionts. 11898

Observations on the biology of six species of acarid mites. 11900

Difference in adsorption of dyes to the tissues between normal silkworm and transparent mutant. 11906

Galls and larvae of the European species of genera Phyllocolpa and Pontania (Hymenoptera, Tenthredinidae). 12052

The ecology of cold hardiness in different populations of the black currant gall mite, Cecidophyopsis ribis. 12086

The use of parasympathomimetic drugs to stimulate salivation in the tick Rhipicephalus appendiculatus, and the transmission of Theileria parva using saliva obtained by this method from infected ticks. 12187

Studies on the pH of the digestive tract of Aulacophora fovecollis Lucas and Epilachna dodecastigma Wied. 12406

The multiplication and spread of sacbrood virus of bees. 12408

The hymenopterous poison gland: Probable functions of the main glandular elements. 12416

Relationship between the physiological age and the behavior of mosquitoes. 12434

The effect of light on the circadian rhythm of locomotor activity in the house cricket (Acheta domesticus L.). 12439

The development of female gonads in pupae of Galleria mellonella L. (Lepidoptera). 12445

Relevance of methionine, cysteine, cystine and sulphate in artificial feeding of Neomyzus (Aulacorthum) circumflexus BUCKT. (Aphidae, Homoptera, Insecta). 12447

The problem of age determination in Anopheles melas Theo. 1903, by Polovodova's method. 12455

The sarcoplasmic reticulum and its association with the T system in an insect. 12460

Reproductive capacity of the green peach aphid on Maryland tobacco. 12461

Comparative effects of reserpine and serotonin creatine sulfate on oviposition in the house fly. 12463

Insect hormones: Their effects on diapause and development of Hymenoptera. 12465

Effects of temperature on Drosophila. IV. Adaptation of D. immigrans. 12466

Experimental transmission of Enterobacteriaceae by insects. I. Fate of Salmonella fed to the hide beetle Dermestes maculatus and a novel method for mounting insects. 12472

Electrophoretic studies of serum proteins obtained from radiofrequency-treated yellow mealworm larvae. 12473

Studies on the olfactory stimuli guiding the bark beetle Blastophagus piniperda L. (Coleoptera, Scolytidae) to its host tree. 12476

Larval development of Aedes aegypti (L.) in used auto tires. 12477

The causes of sexual differences in the size of Aphelinus asychis Walker (Hym., Aphelinidae). 12502

Growth, longevity, and the frequency of feeding of Glossina pallidipes Austen. 12504

Parasitism associated with brachypterous males in the sugarcane leafhopper, Perkinsiella vitiensis. 12506

Atrophy and developmental abnormality in insects exposed to dodecyl alcohol. 12511

Chemical factors of water in tree holes and related breeding of mosquitoes. 12512

Laboratory rearing of the spinach leaf miner Pegomyia hyoscyami Panz. 12518

Proteolytic enzymes in the salivary gland of Chironomus tentans. 12524

Inhibition of ovary development of the fruit-fly, Drosophila melanogaster by synthetic queen substance . 12528

Relationship of size of fecal pellets to larval molts in Lepidoptera. 12529

Histopathological and developmental effects of the chemosterilant apholate, on the mosquito Aedes aegypti. 12535

Influence of temperature and diet on attainment of firm diapause in the boll weevil. 12547

Sex pheromone of the eri-silkworm moth, Philosamia cynthia ricini Donovan (Lepidoptera: Staurniidae). 12548

Photoperiodism in relation to development and reproduction in the green stink bug. 12554

Experiments on selection for developmental rate in Drosophila melanogaster. 12576

The zygotoblast and sporocyst indices in the valley of the Ruzizi. 12593

A chemosterilant feeder for insects. 12934

Meromyza nigriventris (Diptera, Chloropidae): Its systematic status, development and harmful activity. 12954

The effect of radioactive phosphorus on the development of Aedes aegypti larvae. 13006

Development of Crambus trisectus at controlled constant temperatures in the laboratory. 13009

The response of a predator, Hypoaspis aculeifer (Canestrini) (Acarina:Laelapidae), to two species of prey. 13010

Pheromone concentrations required to elicit successive steps in the mating sequence of males of the light-brown apple moth, Epiphyas postvittana. 13013

Larval diapause in the tick Ixodes ricinus L. and its relation to external conditions. 7. On the sensitivity to photoperiodic stimuli during bloodsucking. 13018

Effects of plant growth regulators on locusts and cotton stainer bugs. 13028

Retardation of larval development of Aedes aegypti (L.) by the vital dye, Nile Blue Sulfate (A). 13031

A study of the citric acid cycle in the tick Hyalomma dromedarii. 13036

Population dynamics, growth, feeding and reproduction of Deroceras reticulatum in the Leningrad district. 13041

The effect of parental temperature upon filial egg period in Drosophila melanogaster. 13043

Antibiotics and infectious hybrid sterility in Drosophila paulistorum. 13045

Physiology of the large milkweed bug after laser irradiation. 13048

The rectal glands of Halosalda lateralis (Fallen) (Hemiptera: Saldidae) and Hydrometra stagnorum (L.) (Hemiptera: Hydrometridae). 13055

Note on the venemous gland of Apoidea (Hymenoptera). 13057

The temperature-sensitive period in the development of rolled hemizygotes of Drosophila melanogaster. 13062

Purine excretion in five scorpions, a uropygid and a centipede. 13064

Anion-induced potentiation of contraction in insect skeletal muscle. 13065

Laboratory experiments on the olfactory orientation of Blastophagus piniperda L. (Coleoptera, Scolytidae) to substances isolated from pine rind. 13069

Audition by Cerura larvae (Lepidoptera: Notodontidae). 13071

Effect of denervation on enzyme levels in indirect flight muscles of the desert locust. 13073

Effect of starvation on the sensitivity of tarsal and labellar contact chemoreceptors in Hybomitra lasiophthalma (Diptera: Tabanidae). 13075

Nerve regeneration in the cockroach, Leucophaea maderae: The effect of humoral substances in vitro. 13085

Freezing tolerance in an adult insect. 13090

Freezing tolerance in an adult insect. 13091

Immunological reactions in insects. II. Lysozyme as an antimicrobial agent in the digestive tracts of insects.
13094

The pupation rhythm in Aedes taeniorhynchus (Diptera: Culicidae). V. Physiology of growth and endogenous diurnal rhythm of pupation.
13102

Electron microscope study on the spermatozoon of the liphistiid spider, Heptathela kimurai.
13106

Hampea sp., host of the boll weevil. II. Laboratory antibiosis studies.
13107

Some effects of anoxia and hypoxia on the European red mite, Panonychus ulmi (Acarina: Tetranychidae).
13111

Lethal effects of gamma radiation on eggs and larvae of the bagworm, Thyridopteryx ephemeraeformis.
13114

Establishment of three diploid cell lines of Anopheles stephensi (Diptera: Culicidae).
13123

Some physiological peculiarities in Perillus bioculatus (Heteroptera, Pentatomidae).
13124

Effect of flavonoid pigments and gossypol on growth and development of the bollworm, tobacco budworm, and pink bollworm.
13127

Biochemical effects of apholate on mosquito ovarian tissue.
13137

Electrophoretic study of protein changes between several developmental stages of three species of Heliothis (Lepidoptera: Noctuidae).
13142

Immature stages of the flesh fly, Parasarcophaga (Thomsonea) argyrostoma (Robineau-Desvoidy).
13150

Physiological genetics of melanotic tumors in Drosophila melanogaster. IV. Gene-environment interactions of tu-bw with different third chromosome backgrounds.
13203

A new Parascotia (Hb., 1826) of the Guadarama mountain range, dedicated to his Excellency Prof. D. Manuel Lora Tomayo, Phd., Minister of Education and Science. (Lep. noctuidae). (Lam. i.).
13530

Notes on Aradidae from the Eastern Hemisphere, XX (Hem. Heteroptera).
13567

Contribution to the knowledge of the Italian Simuliidae. XV. A new Eusimulium of the group Annulum.
13586

Preliminary diagnosis of new species of Tricholabiodes Rad. (Hym. Mutillidae).
13590

The role of beta-alanyl-L-tyrosine (Sarcophagine) in puparium formation in the flesh fly Sarcophaga bullata.
13606

Observations on several cases of leg regeneration in Loxosceles rufescens (Dufour) (Araneae, Scytodidae).
13609

Comparative fine structure of acarine integument.
13610

Temperature acclimation of respiration in Culex pipiens pipiens (Diptera: Culicidae) and the influence of seasonal selection.
13611

Axonal outgrowth and cell migration in vitro from nervous system of cockroach embryos.
13617

Influence of photoperiod on development and larval diapause in the viceroy butterfly, Limenitis archippus.
13618

Effect of temperature on the endogenous activity of Periplaneta americana L. nerve cord.
13620

The influence of parental age on size of eggs, duration of development, and thoracic size of the progeny in Drosophila melanogaster.
13622

Function of insect compound eyes containing crystalline tracts.
13623

Research on the effect of the queen bee's substance on the development of the endocrine gland of the worker honeybee (Apis mellifica).
13628

Fertilization in Drosophila. III. A revaluation of the role of polyspermy in development of the mutant deep orange.
13633

Aliesterase activity and reproduction in Blattela germanica.
13635

Investigation on the variability of the thermic preferendum for chosen insects of the family Chrysomelidae (Coleoptera).
13639

Tetrahydrofolate cofactors in the house fly Musca domestica.
13654

Recovery after knockdown and non-contact toxicity of carbamates carbamult and arprocarb.
13662

Pheromone response in pine bark beetles: Influence of host volatiles.
13665

Free amino acids and derivatives in eggs of Tenebrio molitor during development.
13666

Mycotoxins of entomophthoraceous fungi.
13669

Some observations on Hoplocampa crataegi Klug (Hym., Tenthredinidae).
13672

Oviposition by Pieris rapae L. in the insectary.
13673

The acid gland of Nasonia vitripennis (Walker) (Pteromalidae: Hymenoptera).
13676

Emergence periods and population fluctuations of the frit fly Oscinella frit L. (Dipt.: Chloropidae) in Norway.
13693

Wave-making by whirligig beetles (Gyrindae).
13695

Acoustic synchronyi Two mechanisms in the snowy tree cricket.
13699

Selection for larval growth in Tribolium under two levels of nutrition.
13706

The electroretinogram of scorpion eyes.
13709

Biology and control of citrus psylla Diaphorina citri Kuw.
13847

Aliesterase activity and reproduction in Musca domestica: Effects of DDT and metepa.
13863

Revision of Indo--Pakistan Parisomias Faust (Coleoptera, Curculionidae) with some notes on Leptomias Faust.
14123

Notes on the genus Schyzops Spinola, 1837 (Phyllocephalinae, Pentatomoidea, Heteroptera). maritima (Guer.).
14139

Sleep in moths and its dependence on the frequency of stimulation in Anagasta kuehniella.
14177

The effect of sodium replacement on the electroretinogram recorded from the cockroach ocellus.
14179

Ultrastructural modifications of the secretion cells of the prothoracic gland to themselves during the last two larval stages. I. The chondriosome, and its relationship with the granular reticulum.
14181

DNA-MEASUREMENTS in insects and a hypothesis concerning retarded evolution and especially high DNA content in the animal kingdom.
14185

Insect visceral muscle: Neural relations of the proctodeal muscles of the cockroach.
14189

Physiological genetics of melanotic tumors in Drosophila melanogaster. VI. The tumorigenic effects of juvenile hormone-like substances.
14190

Histochemical data on the cardiac bodies of Antheraea pernyi Guer. (Lepidoptera, Attacidae) and of Rhodnius prolixus Stal. (Hemiptera, Reduviidae).
14191

Effect of the venom of the black widow spider, Latrodectus mactans tredecimguttatus, on evoked action potentials in the isolated nerve cord of Periplaneta americana.
14195

Insect hormones: Olive oil is not an inert vehicle for hormone injection into locusts.
14197

Development and diapause in insects.
14199

Ultrastructure of the ileum of the European corn borer, Ostrinia nubilalis.
14207

A study of free amino acids in rice moth larvae during mycotoxicosis.
14209

Insects Vs man. (Lep. Notodontidae).
14210

The phototactic push-pull-coupling between dorsal ocelli and compound eyes in the phototropotaxis of locusts and crickets (Saltatoptera: Lucusta migratoria and Gryllus bimaculatus).
14217

The effects of ligaturing Galleria mellonella larvae on total haemocyte counts and on mitotic indices among haemocytes.
14218

Observations on the ovulation and oviposition with reference to corpus luteum formation in Musca domestica nebulo Fabr. (Muscidae: Diptera).
14229

Hormonal control of imaginal disc regeneration in Galleria mellonella (Lepidoptera).
14236

The action of X-rays on the osmotic pressure and the pH of the hemolymph of Galleria mellonella L. (Insecta Lepidoptera).
14242

Characteristic order of the filiform hairs of Periplaneta americana.
14245

The details of endomitosis in the sericeous glands of Galleria mellonella (Insecta Lepidoptera).
14247

Study on the density of the adult of the brown planthopper Nilaparvata lugens Stal.
14251

A correlation between the ability to withstand high temperatures and radioresistance in Drosophila melanogaster.
14252

Special forms of amitotic nuclear division in striated muscle and other insect tissues.
14254

Diapause in the neuropteran Chrysopa oculata. by ultracentrifugation and identification of N- and Cterminal ends.
14256

Brain interneurons in noctuid moths: Differential suppression by high sound intensities. and grasses.
14258

Tension transients in glycerol-extracted fibres of insect fibrillar muscle (Lethocerus maximus). 14262

Body constraint and developmental arrest in Galleria mellonella L.: Further studies. 14265

Diversity of forms of physiological rest in insects as one of the causes of their biological progress. 14274

The ultrastructure and physiology of the abdominal air-guide retractor muscles in the giant water bug, Lethocerus. 14277

The mechnism of coupling of the locust Light oscillator to oscillatory inputs. 14278

Preliminary observations on moulting and limb regeneration in the mite Caloglyphus boharti. 14280

Recent advances in the studies of insect compound eyes. 14281

Sparrow mite Dermanyssus passerinus Berl. et Trouess, 1885. 14282

Damage caused by Lankesteria culicis (Ross) to Aedes aegypti (L.). 14297

The European corn borer; how to control it. 14301

Epidemiology of tea blister blight (Exobasidium vexans). the genus Graphelysia Hampson, 1911 (Lepidoptera -Heterocerca). 14384

Studies on the parasitsm and control of tea root disease fungi in Ceylon. Heteroptera. 14448

Pests of legume covers. characteristic cocoon production. 14479

Excretion of aflatoxin in a lactating cow. Drosophila melanogaster to anesthesia. 14660

Study of the infrastructure of the molting glands of Locusta migratoria migratorioides (R. and F.). I. Cyclic development during the larval stages and production of the secretion product, ecdysone. 14742

The maintenance and decline of the large populations of the African migrator locust, Locusta migratoria migratorioides (R. and F.): the role of the photoperiod in determinations of recessions. 14786

Research on nerve action in Antheraea pernyi Guer. (Lep.) with special consideration of the dorsolongitudinal flight muscles. 14788

Role of vegetation in sexual maturation of the desert locust (Schistocerca gregaria Forsk.). 14795

Infrastructural study of the molt glands of Locusta migratoria migratorioides (R. and F.). IV. Development of the molt glands in the course of sexual maturation and ovarian cycles in green solitary adults. 14802

The influence of the photoperiod on hemolymph protein variations in Pieris brassicae L. before the onset of diapause. 14806

A breeding method for Cardiasthetus nazarenus Reuter (Hemipt. Anthocoridae) fed on eggs of Anagasta kuehniella Z. (Lepidopt. Pyralidae). 14810

Description and location of the large nerve cells in Icerya purchasi (Insecta, Homoptera, Coccidae). 14812

Infrastructural study of the corpora allata of Locusta migratoria migratorioides (R. and F.), solitary phase, during sexual maturation and the ovarian cycle. 14818

Development of glycemia in the scorpion Androctonus australis L. subjected to cobalt 60 gamma rays. 14822

Report on the 28th Fall Assembly of the Netherlands Entomological Association combined with the 70th Meeting of the Division of Applied Entomology. 14827

The action of the endocrine system and the ovary on the hemogram of Locusta migratoria L. (Orthoptera). The role of the pars intercerebralis. 14828

Lipids of Culex pipiens fatigans during metamorphosis. 14833

The influence of the selective destruction of the microbial flora on the activity of two oxidases in the xylophagous insect Ips sexdentatus. 14838

An anomalous foreleg in a male of Dodonidia helmsii (Satyridae). 14854

Observations on the variations in amount of trehaldse during direct development and diapause in Pieris brassicae L. 14855

The action of different factors on the number of larval stages in the tomato night moth Helicoverpa armigera Hbn. 14865

Are honeybees deficient in phosphomannose isomerase . 14873

Occurrence of gynandromorphism in Tasar silkmoth (Antheraea mylitta Drury). 14876

Cholinesterase in the brain of the Cecropia silkmoth during metamorphosis and pupal diapause. 14878

Study of cold resistance and acclimatization capacity in Psylla buxi L. (Homoptera; Psyllidae). 14885

Study of the phenomena resulting from putting in competition the different regeneration areas of the antennae of the phasmid Sipyloidea sipylus Westwood. 14886

Defensive reaction of cells in wound infections caused by Mucor hiemalis Wehmer. 14889

Genetic control of pattern determination in Drosphila. II. Nonrandom distribution of mosaic tissues. 14897

Action of amine ovicides on Aedes aegypti mosquitoes. 14911

Croesus septentrionalis L. (Hymenoptera Tenthredinidae) a pest of the alder. 15038

Study of Neotropical Ctenuchidae -- II Revision of the genus Tipulodes Boisd., 1832 (Lepidoptera -Heteroptera. 15327

Contribution to the study of the family Arctiidae, on the genus Graphelysia Hampson, 1911 (Lepidoptera -Heterocerca). 15335

Growth of the dog tick Dermacentor variabilis Say (Acarina: Ixodidae). I. Growth pattern. 15345

Growth of the dog tick Dermacentor variabilis Say (Acarina: Ixodidae). II. The effect of starvation and host species on its growth and fecundity. 15346

Local conditions of the severance and of the regeneration of a foot in the insect Carausius morosus Br. 15350

Protein variations in the ovary of Locusta migratoria (L.) (Orthoptera) in the first phase of maturation. 15351

The influence of x-rays on tarsal regeneration in an insect. 15353

Cross-breeding in the silkworm Bombyx mori L., for characteristic cocoon production. 15354

Growth of the trehala and its neuroendocrine control in the migratory locust, Locusta migratoria migratorioides. 2. The role of the corpora cardiaca and the parasympathetic organs. 15355

Contributions to the study of one aspect of the resistance to insecticides. II. The shock effect multiple or discontinuance insect-insecticide contact. 15358

The effects of salt stress on the cerebral neurosecretory system of the grasshopper, Melanoplus sanguinipes (F.) Orthoptera). 15359

Sequelae of the delayed postdiapause development of the embryo of B. mori L. eggs. 15360

In vitro: Ending of egg diapause in some Tettigoniids. 15361

Action of reserpine on Dacus oleae Gmel. 15366

The coelomic vesicles of the intercalary segment (0premandibular) in the embryo of the collembole Anurida maritima (Guer.). 15367

Addition to the knowledge of Coleophoridae II. Study of the manlike genitalia of Coleophora hyssopi Toll (Lep. coleophoridae). 15370

The influence of the host plant or males on ovarian development or oviposition in the diamondback moth Plutella maculipennis (Curt.). 15373

Characterization of ribosomes isolated from posterior silkgland. 15374

Feeding habits of two Phylloxera species (Phylloxeridae, Aphidina) on oak leaves. 15387

Corpora allata and genetic instinct in Calotermes flavicollis Fabr. The release of sexual activity in young winged imagos of Calotermes flavicollis Fabr. necessitates the presence in the organism of an elevated amount of juvenile hormone. 15392

Developmental changes in the late larva of Calliphora stygia. II. Protein synthesis. 15397

The soluble proteins of developing Calliphora erythrocephala, particularly calliphorin, and similar proteins in other insects. 15404

Distribution of foodplant chemoreceptors on the female Florida queen butterfly, Danaus gilippus berenice (Nymphalidae). 15405

The proctodeal cuticle of insects: Evidence of epicuticular depressions from the sweep electron microscope. 15406

Data on oogenesis in a parthenogenic Collembola, Isotomidae. 15409

Osmotic regulation and rectal absorption in the blowfly, Calliphora erythrocephala. 15413

Mechanical properties of insect fibrillar muscle at large amplitudes of oscillation. 15417

Preliminary observations on the embryonic development of Pissodes notatus F. (Col., Curculionidae). 15422

The influence of temperature in the response of Drosophila melanogaster to anesthesia. 15426

Changes in some haemolymph dehydrogenase isozymes of the female honeybee, Apis millifera L., during caste development. 15429

Effect of photoperiod on patterns of oviposition of Anocentor nitens Neumann (Acarina: Ixodidae). 15434

The reaction of different Drosophila populations to treatment with pesticides. 15671

INSECT POLLINATORS

Bees as pests. 10244

Further studies on the pollination ecology of Ficus sycomorus L. (Hymenoptera, Chalcidoidea, Agaonidae). 12453

The pollinating activities of bumble bees and honeybees in relation to temperature, competing forage plants, and competition from other foragers. 12557

Mosquitoes and Habenaria obtusata (Orchidaceae). 13134

Insect answers; insecticide toxicity to honey bees. 13638

INSECT POPULATION

Displacement in the ratio between Clysia ambiguella and Polychrosis botrana vine moth populations in 1965-1966. 13330

INSECT POPULATIONS

Larval development of Mansonia mosquitoes in Central Florida. 9261

Preliminary results of a new seasonal investigation on brook Hydracarinae (Acari-Trombidiformes). 9341

Methods to investigate the population dynamics of aphids and aphid parasites in orchards. 9378

The effect of varying the initial numbers on the outcome of competition between two Tribolium species. 9416

The effect of cultural measures on the population density of harmful and beneficial organisms in orchards. 9453

The importance of the indifferent arthropods in fruit orchards. 9477

Homologous lines of chromosome polymorphism in the natural populations of Adirondack black fly (Diptera, Simulidae). 10150

Needle miner infestations in lodgepole pine east of the Sierra crest. 10267

Studies on the environmental factors for the breeding of grain mites. Part IX. The effect of relative humidity on the age composition of the population of Lardoglyphus konoi. 10549

Larval density and adult fecundity in a natural population of the pine looper (Bupalus piniarius L.). 11312

Some regulatory mechanism in populations of Tribolium confusum Duval and Tribolium castaneum Herbst. 11374

On the ecology of the fauna of stones in the current in a South African river supporting a very large Simulium (Diptera) population. 11798

Vectors of virus diseases of sugar beet and their economical importance in the Bydgoszcz voivodeship in the years 1957-1965. 12063

The ecology of cold hardiness in different populations of the black currant gall mite, Cecidophyopsis ribis. 12086

The age composition of Anopheles melas Theobald (1903) populations collected simultaneously by different methods in the Gambia, West Africa. 12352

Notes on the biology of Anopheles hargreavesi (Evans), 1927, and Anopheles paludis Theobald, 1900, in the south of Yaounde (Cameroon), along the Nyong river. 12508

Ecology of stored grain insect pests. 12876

Survey of species and number of gypsy moth egg parasites in some localities of Yugoslavia. 13072

Notes on Fustiger elegans Raffray (Coleoptera, Pselaphidae) in Uraguay and Argentina. 14772

Allomorphosis and geography in insect populations. 14844

A literature review of the spruce, western, and 2-year-cycle budworms Choristoneura fumiferana, C. occidentalis, and C. biennis (Lepidoptera: Tortricidae). 14852

A further field experiment regarding the effect of fentin acetate, maneb and copper oxychloride fungicides on the population density of the Colorado beetle (Leptinotarsa decemlineata Say.). 14858

Trends of mite populations in lower Rio Grande Valley citrus groves in 1962-63 and 1966-67. 14867

Report to the Government of Madagascar on locust control. 14871

INSECT PRESERVATION

The fluorescent particle spray droplet tracer method. 9230

A technique for removing appendages from small, dry-mounted insects for microscopic examination. 10538

Technique of preparing slides for Coccid (Homoptera, Coccoidea) determination. 10540

Dry preparation of small soft skinned animals particularly arthropods, and of plant parts with dichlormethane-glacial acetic acid-silica gel.. 12440

Experimental transmission of Enterobacteriaceae by insects. I. Fate of Salmonella fed to the hide beetle Dermestes maculatus and a novel method for mounting insects. 12472

Field preservation and storage of mosquitoes for laboratory studies. 13038

Instructions for sending insect specimens for identification. 15347

INSECT PROTECTIVE DEVICES

The alarm-defence system of the ant Lasius alienus. 8174

Air swallowing- an effective protection against drowning in larvae of Epistrophe balteata (Syrphidae Dipt.). 8185

Mechanical and physiological defense reactions of an aphid species (Aphididae) against ichneumonid wasps (Hymenoptera). 8213

Living doors. 8735

The hastate setae of certain dermestid larvae: an entangling defense mechanism. 8824

Mimicry: The deceptive way of life. 8843

The defensive behaviour of the stick insect Oncotophasma martini (Griffini) (Orthoptera: Phasmatidae). 10103

On the explosion chemistry of the bombardier beetle. Vi. On the chemistry of the smallest bombardier beetle Paussus favieri. XLIII. Communication on arthropod protective substances. 10111

Inhibition of the defense reaction of Drosophila melanogaster parasitized simultaneously by the wasps Pseudeucoila bochei and Pseudeucoila mellipes. 10122

Refined defensive mechanisms in Chrysomela scripta. 10139

Mimicry of Hymenoptera by beetles with unconventional flight. 11883

Stones, cement and guards in halictine nest architecture and defense. 12485

Identification of an alarm pheromone in the ant, Crematogaster peringueyi. 13035

Defensive use of a fecal shield by a beetle larva. 13047

Immunological reactions in insects. II. Lysozyme as an antimicrobial agent in the digestive tracts of insects. 13094

Chemical substances for defense of insects. 13136

Diffraction gratings in burying beetles (Nicrophorus). 13634

Behavioral adaptations of cryptic moths. II. Experimental studies on bark-like species. 13681

INSECT REARING

The rice stem borer forecasting system in Taiwan. 8045

Biology of Bracon mellitor, a parasite of the boll weevil. 8070

Experiments on the description of the environments of an insect form (model and field experiments with Drosophila). 8085

Studies on the behaviour of Lucilia illustris Meigen as a parasite of vertebrates under experimental conditions. 8103

A noninclusion virus of blow-fly larvae. 8105

Studies on the mating behaviour of the predaceous mite Amblyseius gossipi (Acarina, Phytoseiidae). 8112

Mass rearing of the rice stem borer. 8119

Selection for American foulbrood resistance in larval honey bees. 8134

Nutritional studies of the rice stem borer Chilo suppressalis Walker. 8140

Experiences in mass rearing of Prospaltella perniciosi Tow. in the transformed Stuttgart insectarium. 8167

Artificial diets for larvae of the oriental fruit moth. 8209

The productivity of four inbred strains of Drosophila melanogaster. 8221

New data on nondisjunction of the X chromosomes in females of Drosophila melanogaster. 8268

New perspectives in the control of Aonidiella aurantii of Morocco (Hom., Diaspididae). 8327

Fifty years of research on the pink bollworm in the United States. 8365

The possible control of rice stem borers by the use on natural enemies. 8379

Rearing Phryxe caudata Rond. (Larvaevoridae), a parasite of Thaumetopoaea pytocampa Schiff. on an alternate host: Galleria mellonella. 8744

Laboratory rearing of Spalangia nigroaenea (Hymenoptera: Pteromalidae). 8770

Studies on larval development in Culicoides furens (Poey) (Diptera: Ceratopogonidae). I. Establishment of a standard rearing technique. 8797

The incidence of parasitism and disease in some populations of the cabbage aphid,(Brevicoryne brassicae L.) in New Zealand. 8799

The method and role of vertical transmission of a nucleopolyhedrosis virus in the European spruce fly, Diprion hercyniae. 8818

A technique for rearing larvae of the bollworm and tobacco budworm in large numbers. 8840

A method of rearing the peach tree borer on artificial diet. 8858

Low-cost larval rearing medium for mass production of Oriental and Mediterranean fruit flies. 8879

Add water-- instant Culicoides. 8900

Rearing the forest tent caterpillar on an artificial diet. 9332

The breeding of Planococcus citri (Homoptera: Pseudococcidae) on sprouting potato. 9333

Preliminary results of the rearing of a hymenopterous chalcid (Pteromalus puparum L.) on the hemolymph of a lepidopteran. 9352

Aseptic rearing of coprophagous beetle: Aphodius constans Duft. (Col., Scarabaeidae). 9357

The recognition of nulliparous and parous Culicoides (Diptera: Ceratopogonidae) without dissection. 9371

Vitamin requirements in a sieve tube sucking aphid, Neomyzus circumflexus Buckt. (Homoptera, Insecta). 9376

Propagation of a cerambycid borer on a meridic diet. 9394

The laboratory breeding and embryonic development of Chorthippus brunneus Thunberg (Orthoptera: Acrididae). 9432

Biotic factors influencing populations of Dacus dorsalis in Hawaii. 9437

Psallus ambiguus (Fall.) (Heteroptera, Miridae). Part II, Nutrition and role in the biocenosis of orchards. 9438

Stimulation of two interacting species of Tribolium. 9439

Preliminary observations on the biology of Amblyseius tardi Lomb. (Acarina-Phytoseiidae) a predator of Tetranychus urticae Koch. 9455

Binomics of Enoclerus barri (Coleoptera: Cleridae). 9458

Biochemical and physiological studies of certain ticks (Ixodoidea). Experimental feeding of Argas (Persicargas) arboreus Kaiser, Hoogstraal and Kohls (Areasidae) through membranes. 9484

Laboratory rearing of pepper weevils on artificial diets. 9486

An improved cage for the mass rearing of the Trichogramma egg parasites (Hymenoptera, Chalcidoidea). 9490

Biology and morphology of Graphosoma semipunctata Fabricius, (Heteroptera, Pentatomidae). 9493

Photoperiodic induction of diapause in larvae of the winter tick, Dermacentor albipictus. 9507

Correlations between egg production and chromosomal- regions in Drosophila melanogaster. 9510

Drosophila melanogaster treated with LSD: Absence of mutation and chromosome breakage. 9512

A chromosome study on bisexual and parthenogenetic races of Scepticus insularis Roelofs (Curculionidae: Coleoptera). 9516

A chiasmate sex quadrivalent in the male of an alticid beetle, Cyrsylus volkameriae (F.). 9517

Acclimation of Prospaltella perniciosi Tow. in Yugoslavia. 9536

First observations of damage to olive trees, caused by a cecidomyde. Clinodiplosis oleisuga Targ.(Dipt. Cecidomydae). 9629

Studies on brood rearing activity of Indian honey bee Apis indica F. under Delhi conditions. 9974

Rearing of the maize stem borer, Chilo zonellus Swinhoe on artificial diet. 9988

The influence of the rearing temperature on larval and pupal mortality and the duration of development of Drosophila. 9995

In vitro colonization of the goat biting lice, Bovicola crassipes and B. limbata. 10034

Laboratory studies of Eucelatoria armigera, a tachinid parasite of Heliothis spp. 10040

Biology of Apanteles chilonis and A. flavipes (Hymenoptera: Braconidae), parasites of Chilo suppressalis. 10045

Substrate preferences and invasion behaviour exhibited by larvae of Nilodorum brevibucca Freeman (Chironomidae) under experimental conditions. 10066

The predatory and reproductive behaviour of Rhinocoris bicolor and R. tropicus (Hemiptera: Reduviidae). 10085

Inheritance of DDT-RESISTANCE in Musca domestica nebuld Fabr. 10096

Selection for lindane resistance in Dermestes maculatus de Geer (Coleoptera, Dermestidae). 10114

New approaches to the control of pest organisms. 10118

Continuous laboratory culture of the locust borer, Megacyllene robiniae. 10141

Experimental evidence for factors affecting the relative efficiency of indirect to direct selection in Tribolium castaneum. 10161

Studies on the diseases of aseptically reared silkworms, Bombyx mori L. V. Induction of nuclear polyhedroses by the feeding of certain chemicals to the silkworm after transfer from aseptic to normal rearing condition. 10548

Rearing stored-product insects for laboratory studies: Bean and cowpea weevils. 10562

Experiments with feeding sandflies (Phlebotominae) on great gerbils (Rhombomys opimus Licht) under conditions approaching natural. 10584

Laboratory study of Anocentor nitens (Neumann) (Acarina: Ixodidae). the tropical horse tick. 11259

Biology of the two-lined spittlebug, Prosapia bicincta, on Florida pastures (Homoptera, Cercopidae). 11268

Sterile culture of Musca sorbens. 11280

Studies on the utilization of natural enemies as biotic insecticides . Density effect in the mass culture of Pseudaphycus malinus Gahan. 11303

Studies on the utilization of natural enemies as biotic insecticides . Effect of physical factors on the culture of Pseudaphycus malinus Gahan. 11304

Sucessful laboratory mating of Apanteles congregatus, a parasite of the tobacco hornworm, Manduca sexta. 11347

Habitat selection of laboratory populations of Tribolium. 11355

A simple technique for hand-pairing Limenitis butterflies (Nymphalidae). 11371

The applicability of some population growth models to a single-species laboratory population. 11375

A simple method for rearing Drosophila melanogaster Mg. 11399

Selection for mating speed in Drosophila pavani. 11425

Studies of the Byron Bog in southwestern Ontario XXXV. Insects reared from galls from the wooded slopes of the bog. 11529

Three aphelinid parasites of Odonaspis secreta Cockerell from Japan (Hymenoptera: Chalcidoidea). 11761

Discovery of Marlattiella prima Howard, a parasite of the pear white scale, from Japan (Hymenoptera: Aphelinidae). 11762

Notes on parasites attacking the yellow-striped armyworm in Oklahoma. 11790

Biology of Bracon kirkpatricki and field releases of the parasite for control of the boll weevil. 11802

Contribution to the bionomics of Coptotermes formosanus, its laboratory breeding and applicability for testing the resistance of materials. 11831

Genetic homeostasis in Drosophila melanogaster. 11895

Some observations on the pentatomides of cereals and their parasitism in 1965. 11902

Further studies on the Plasmodium berghei-Anopheles stephensi- rodent system of mammalian malaria. 12190

Note on breeding of fruit flies Dacus ciliatus Loew and D. cucurbithe Coquillett in stem galls of Coccinia indica W. and A. 12413

The results of my breeding of Acanthobrahmaea europaea Hartig 1963. A contribution to the extent of variation of this species (Lep., Brahmaeidae). 12414

Continuous rearing of the apple maggot. 12419

Egg-yolk and olive juice as supplements to the yeast hydrolyzate-sucrose diet for adults of Dacus oleae. 12446

Formulation of a semisynthetic nutrient medium and methods of feeding of larvae of Agrotis segetum on it. 12481

A laboratory rearing of Parascotia fuliginaria L. (Lep., Noctuidae). 12510

Chemical factors of water in tree holes and related breeding of mosquitoes. 12512

Laboratory rearing of the spinach leaf miner Pegomyia hyoscyami Panz. 12518

Blood meals and egg production of Culiseta alaskaensis (Ludlow) in captivity (Diptera: Culicidae). 12538

Direct evidence for the specific distinctness of forms A, B and C of the Anopheles gambiae comples. (Abstract). 12570

Rare pseudoallelic crossover between two phenotypically identical alleles at a restricted sublocus of dumpy in Drosophila melanogaster. 12573

The ecology of selection in hybrid populations of Tribolium castaneum. 12575

Experiments on selection for developmental rate in Drosophila melanogaster. 12576

Development of Crambus trisectus at controlled constant temperatures in the laboratory. 13009

The productivity of four inbred strains of Drosophila melanogaster. 13027

Rearing technique for the granulate cutworm and some effects of temperature on its life cycle. 13078

The effect of population structure on the success of insect introductions. 13082

Notes on the biology of Ips pini in central Wisconsin Jack Pine Forests. 13119

Colonization of Culiseta melanura (Coquillett) in the laboratory. 13143

Persistence of a mutant gene in Drosophila populations of different genetic backgrounds. 13161

Measurement of effective generation length in Drosophila population cages. 13163

Mutagenesis at a complex locus in Drosophila with the monofunctional alkylating agent, ethyl methanesulfonate. 13179

An experimental examination of restricted selection index, using Tribolium castaneum. I. The results of two-way selection. 13195

Association between mating speed and fertility in Drosophila robusta. 13198

Single-locus modification of position-effect variegation in Drosophila melanogaster. I. White variegation. 13211

Selective modes associated with inversion karyotypes in Drosophila ananassae. I. Frequency-dependent selection. 13213

Viability of homokaryotypes in the tumorous-head strain of Drosophila melanogaster. 13217

Polydrusus confluens Steph. (Col., Curculionidae) recorded in error from oak. 13298

The relative susceptibility of the larvae of Spodoptera mauritia acronyctoides (Guenee) (Lepidoptera: Noctuidae) to several contact insecticides. 13300

Epilecta linogrisea Schiff. in Normandy, their pursuit today, their raising from eggs. 13580

Sex identification of live mosquito pupae in the laboratory. 13599

Biology of the trefoil seed chalcid, Bruchophagus kolobovae Fedoseeva (Hymenoptera: Eurytomidae). 13601

Distribution and ecology of Aedes bicristatus Thurman and Winkler. 13613

Methodology employed in the California mosquito larvicide resistance surveillance program. 13629

A short note on Papilio machaon L. (Lep., Papilionidae). 13648

Establishment and maintenance of a laboratory colony of Aedes nigromaculis (Ludlow) (Diptera: Culicidae) by induced mating. 13656

Experimental studies on hybridization and sexual isolation between some Aphytis species (Hymenoptera: Aphelinidae). I. Experimental hybridization and an interpretation of evolutionary relationships among the species. 13674

Experimental studies on hybridization and sexual isolation between some Aphytis species (Hymenoptera: Aphelinidae). II. Experiments on sexual isolation. 13675

Laboratory studies on the biology of Anopheles stephensi Liston. 13689

A laboratory study of larval competition between Aedes aegypti (L.) and Aedes triseriatus (Say). 13704

Selection for and against gregariousness in the choice of oviposition sites by Drosophila pseudoobscura. 13714

The genetics of the Xasta mutant of Drosophila melanogaster. 13721

Progeny: Sperm ratios and non-functional sperm in Drosophila melanogaster. 13728

Role of quarantine for the propagation of coccio-attacking Coccinellidae for the control of the date-palm scale (Parlatoria blanchardi Targ.) in the Adrar region of Mauritania. 13843

Studies on the biology and control of Sogatella furcifera Horv. (Delphacidae: Homoptera) in the Punjab. 14118

The genetics of Drosophila mating behavior. II. The genetic architecture of mating speed in Drosophila pseudoobscura. 14286

Pests of legume covers. characteristic cocoon production. 14479

The development of the citrus psylla, Trioza erytreae (Del Guercio) (Homoptera: Psyllidae), on Citrus limon and four indigenous host plants. 14491

Silkworm breedings influence concerning raw silk purity. 14796

A breeding method for Cardiasthetus nazarenus Reuter (Hemipt. Anthocoridae) fed on eggs of Anagasta kuehniella Z. (Lepidopt. Pyralidae). 14810

Mass rearing of Culex pipiens L. 14820

Artificial multiplication of anthills. 14824

Contribution to the biological study of Xanthandrus comtus Harr. (Diptera, Syrphidae). 14841

The action of different factors on the number of larval stages in the tomato night moth Helicoverpa armigera Hbn. 14865

Permanent rearing of Phorbia platura Meigen (Hylemyia cilicrura RONDANI) (Diptera Muscidae). I. Artificial egg laying site. 15348

Continuous breeding of the corn-seed maggot Phorbia platura Meigen (0 Hylemyia cilicrura rondani) (Diptera, Muscidae). II. Artificial breeding medium of larvae. 15349

Cross-breeding in the silkworm Bombyx mori L., for characteristic cocoon production. 15354

Mechanisms of population homeostasis in Anagasta ecosystems. 15364

Sexual forms of the pea aphid, Acyrthosiphon pisum, produced on an artificial diet. 15427

An experimental approach to the study of multiple peak epistasis in Drosophila melanogaster. 15437

Orientation and segregation of asynaptic multiple sex chromosomes in the male Omophoita clerica Erichson (Coleoptera: Alticidae). 15439

INSECT REARING EQUIPMENT

A Light mill for studies with the Mexican fruit fly. 8727

A technique for rearing larvae of the bollworm and tobacco budworm in large numbers. 8840

An inexpensive house fly pupae separator. 8898

A simple apparatus for dipping treatment of insects for varying periods of time. 10116

A technique for transferring newly hatched larvae. 13050

Biology of the trefoil seed chalcid, Bruchophagus kolobovae Fedoseeva (Hymenoptera: Eurytomidae). 13601

Use of a non-absorbent barrier in rearing pupae. 14180

Mass rearing of Culex pipiens L. 14820

INSECT REPELLENTS

Pesticide usage in relation to beekeeping. 8075

Activity of repellents employed in aerosol form. 8110

Mosquito control in and around homes and farmsteads. 8274

Brahman breeding as a factor affecting the attractiveness or repellency of cattle to the horn fly. 8886

Method for repelling bees. patent 3,456,056. 10099

Relative effectiveness of chemical repellents against Phlebotomus papatasi (Scopoli). 11386

The repellency of mature citrus leaves to probing aphids. 11549

Beta-dialkylaminoalkyl ethers and thioethers. Patent 3,446,843. 12912

Bioassay of the response of Tribolium castaneum to repellent substance excreted by Trogoderma granarium. 13708

The pesticide review, 1968. 14321

Repelling pheasants from sprouting corn with a carbamate insecticide. 14337

How to control rodents and other wildlife pests. 15155

Section VI.--ANIMAL control. 15758

INSECT REPRODUCTION

Resumption of yolk formation after the implantation of corpora allata in Pieris brassicae L. (Lepidoptera). 11305

Ovarian function and oviposition in virgin females and fertilized females of Drosophila melanogaster which have been submitted to an exclusively glucoside diet. 11349

The influence of colony density and other factors on the number of offspring in Blastophagus piniperda L. (Col., Scolytidae). 13046

INSECT RESPIRATION

Regulation of external respiration by the booklung spiracles of the spiders, Araneus diadematus Clerck and A. marmoreus Clerck. 8176

The adaptation to aquatic life of the larvae of Muansa clypealis (Homoptera, Cicadidae). 8717

On the action of Bracon venom. 9374

An integrated technique to study the effects of fumigants on respiration of insects. 9972

Oxygen consumption of the scorpion Centruroides sculpturatus. 11283

Respiratory physiology of the larva of Donacia simplex, a root-piercing beetle. 11830

The control of water loss in Locusta migratoria mays. Influence of high-temperature treatment before spiracles. 11850

Tryptophan is not assimilated in breathing by insects. 12531

INSECT STINGS

Report of the 69th meeting of the division of applied entomology. 14825

INSECT SURVEY

An annotated list of the Dermaptera, Dictyoptera, Phasmatoptera, and Orthoptera of Michigan. 11115

The nocturnal insect catches at predetermined time interval in the organic soil district of Ste. Clotilde, southwestern Quebec. Part II. 12972

INSECT TAXONOMY

Observations on brachypterism in Encyrtus rufulus Mercet (Hym. Chalcidoidea, Encyrtidae). 8021

A new Mythimna O. from East Turkey (Contribution to the knowledge of Noctuidae Trifinae 152). 8022

The type material of Pieris napi pseudorapae Verity. 8023

Three new species of subgenus Parasecia Loomis (genus Fonsecia) from northeastern Brazil and a key to the included species (Acarina: Trombiculidae). 8024

New lamiids from the stock of the state zoological collection in Munich (Coleoptera, Cerambycidae). 8025

A new species of Tetrastichus Haliday, 1844 (Hymenoptera: Eulophidae) parasitic nymphs of Payrocephala calodendri Moran (Homoptera: Psyllidae). 8026

Ixodes himalayensis sp. n. (Acarina: Ixodidae) parasitizing small mammals in Himachal Pradesh, India. 8027

A new genus and species of the family Lentulidae (Orthoptera: Acridoidea). 8028

Notes about Anobiidae. XXXI. Genera of the Dorcatominae of the Ethiopian fauna. 8029

A revision of Idiosystatus Berg (Homoptera: Fulgoroidea, Delphacidae). 8030

Notes on some new or little known Chalcididae (Hym.). 8031

Genus Opius Wesmael: New revision of the Neotropical species of the crassiceps group. 8033

A new Phanerotoma species from Syria (Hymenoptera, Braconidae). 8034

Three new species of Aleyrodidae from the Sudan (Hemiptera-Homoptera). 8035

Contribution to the knowledge of the Curculionidae from the western Mediterranean. VI. The genus Seidlitzia. 8036

Additions to the Cyrtosiinae (Bombyliidae) of South Africa. 8037

Observations on the type species of the four genera of Ichneumonidae (Hymenoptera). 8038

Revision of some species of the genera Mesostenus Gravenhorst, Agrothereutes Foerster, and Ischnus Gravenhorst (Hymenoptera, Ichneumonidae). 8039

Taxonomy of the rice stem borers. 8041

Ichneumonidae of Northwest Germany. (II. Part). 8043

Some new and little-known species of Pyrgomorphidae (Orthoptera: Acridoidea) from the Pacific and Far East. 8044

A contribution to the knowledge of the Scaphidiidae and Pselaphidae of Korea (Coleoptera). 8046

Notes on British Therevidae (Diptera). 8047

A new genus and several new species of aphid parasites (Hym. Aphidiidae). 8048

The types of tabanids in the zoological collection of the Bavarian States in Munich (Diptera, Tabanidae). 8049

A new species of gall-wasp (Hymenoptera: Cynipidae) from Scotland. 8050

Cytotaxonomy of Aphididae. 8051

New species of the Laspeyresia succedana Schiff. group (Lep. Tortricidae). 8052

The systematic position of Brahmaea europaea Hartig (Lepidoptera Brahmaeidae). 8053

Epichnopteryx pusilella Rbl. belongs to the genus Reisseronia Sied. (Lepidoptera, Psychidae). 8054

Paraholaspis ovivora n. sp. (Hym., Torymidae), a parasite of the eggs of the buprestid Sterapis speciosa Klug.. 8055

Two new Carambinae for Austria Metacrambus carectellus Zeller in lower Austria, and Chrysocrambus linetellus Fabricius in Karnten. 8056

Species of Lygus (Hahn) (Hemiptera: Miridae) in Scotland. 8057

New Pterostichinae (Coleopt. Carabid.). VIII. 8058

Notes on some species of Cavariella Del Guercio, 1911 (Homoptera: Aphidoidea). 8059

Thaeniothrips vuilleti Bagnall 1933 and Thaeniothrips falsus Priesner 1936. 8061

Investigations concerning the taxonomy of German Thysanoptera. 5. Thaeniotrips linariae Pr. 1928 and Thaeniotrips hildae Tck. 1956. 8062

Discovery of the female of Pemphigostola synemonistis Strand, 1909 (Lepidoptera Agaristidae). 8064

A new subfamily of blind beetle from Idaho ice caves with notes on its bionomics and evolution (Coleoptera: Leiodidae). 8065

The Old World species of the tribe Typopsilopini (Diptera: Ephydridae). 8066

A new subfamily of Lygaeidae (Hemiptera-Heteroptera) from Australia. 8067

A new species of Pseudoscymnus Chapin (Col., Coccinellidae) predaceous on scale insects in West Pakistan. 8072

New and little known species of the family Trioza Forst. (Homoptera, Psyllidae) from Korea. 8150

The labium of Aphelocheirus aestivalis F. as compared with that of typical Naucoridae (Heteroptera). 8169

Investigation into the morphology, taxonomy, and biology of the Podapolipidae (Acarina, Tarsonemini) (Under special consideration, the parallel evolution of the genera feutarsopolipus and Dorsipes with their hosts (Coleopt., Carabidae)). 8173

Sex pheromone specificity: Taxonomic and evolutionary aspects in Lepidoptera. 8179

Predators and parasites of Aphytis (Hym., Aphelinidae). 8206

Chromosomes of the tsetse fly, Glossina palpalis R.-D.. 8262

The presence in the vineyards of the Tessin of a nearctic cicadella, new for Switzerland, Scaphoideus littoralis Ball (Hom.Jassidae) a possible carrier of yellow flavescence. 8325

Rice leafhoppers. 8363

The rice gall midge Pachydiplosis oryzae (Wood-Mason). 8371

Description of new Arctiidae from Madagascar. (lep.) (15th note). 8616

Nasal Acarina of birds and mammals of Brazil. I. Rhinonyssidae of the Belem region (North Brazil). 8617

Fourteen new chrysomelid beetles from Jamaica. 8619

Crypturgus hispidulus also in Baden (Col., Scolytidae) (Contribution to the southwestern German coleoptern fauna). 8620

Studies of Queensland Tetranychidae. 7. Records of the genus Eotetranychus (Acarina: Tetranychidae). 8621

Oligonychus araneum sp. n. and Oligonychus digitatus Davis (Acarina: Tetranychidae) as pests of grasses in eastern Australia. 8622

Taxonomy of New Zealand Pseudococcidae, Part I (Homoptera: Coccoidea). 8623

Three new species of the genus Tripteroides, subgenus Tripteroides Giles (Diptera: Culicidae). 8624

The Baris lepidii group. 8625

Some Australian parthenogenetic Chironomidae (Diptera). 8626

Carphurinae or Carphuridae 43. Contribution to the knowledge of the Malachiidae. 8628

Three new species of Brachyhesma (Apoidea: Colletidea). 8629

Two new genera and five new species of Argaremini from New Zealand, with a key to the genera of Targaremini (Heteroptera: Lygaeidae). 8630

Contribution to the knowledge of the Staphylinidae. CIII. The Quedius oblitteratus Er.--nemoralis Baudi complex. 8631

Pyrganus a new genus (Coleoptera, Elateridae). 8633

Brentidae of Paraguay (Coleoptera). 8634

Studies of fruitflies associated with mistletoe in Australia and Pakistan with notes and descriptions on genera related to Perilampsis Bezzi Diptera: Tephritidae. 8635

A new Coptotermes (Isoptera, Rhinotermitidae) from Gabon. 8636

Two new species of Audre (Lep. Rhop. Riodinidae). 8637

New names for two genera of Lepidoptera. 8638

Four new satyrids from Ecuador. 8639

Two species of apple-feeding gelechiids new to science (Lepidoptera). 8640

A new stratiomyid pest of sugar cane in Australia (Diptera: Stratiomyidae). 8641

Addendum to the revision of the genus Thorictus Germ. 8642

The black bark beetle, Xylosandrus germanus Blandf., a newcomer to our domestic insect fauna. 8643

Taxonomic remarks about Staphylinidae. 8644

Palearctic species of egg parasites of the genus Telenomus haliday (Hymenoptera, Scelionidae, Telenominae). 8645

Studies of the Mexican Deltocephalinae II. Seven new species of Norvellina (Homoptera: Cicadellidae). 8646

Morphology and relationships of the Pentatomoidea (Heteroptera). III. Natalicolinae and some Tessaratomidae of uncertain position. 8647

Microctonus glyptosceli n. sp., a parasite of Glyptoscelis pubescens (F.) in Wisconsin (Hymenoptera: Braconidae: Euphorinae and Coleoptera: Chrysomelidae). 8648

Neolaxta monteithi gen. sp. n. from eastern Australia (Blattodea: Blaberidae). 8649

Polyphagidae (Blattodea) from eastern Australia. 8650

The mayfly genus Hexagenia in Mexico (Ephemeroptera: Ephemeridae). 8651

New South American genera and species of the tribe Bothynostethini (Hymenoptera; Sphecidae; Larrinae). 8652

The generic placement of Allodape grisea Alfken (Hymenoptera: Apoidea). 8653

Philonthus parcus Sharp (Coleoptera: Staphylinidae), a Japanese rove beetle established in Australian caves. 8654

New Exoprosopinae from Mexico and Central America (Diptera: Bombyliidae). 8655

The Aradidae of New Zealand (Hemiptera, Heteroptera). III. The Aradinae and Calisiinae. 8656

The natural foci of human transmissive diseases. 8657

Descriptions of new Neotropical Tabanidae and new records for Argentina. 8658

A revision of the genus Chlorocnemis Selys (Odonata). 8659

The Tettigoniidae (Orthoptera) of Oklahoma. 8660

A new Stenus from southern China: Stenus (Hypostenus) shaowuensis n. sp., including synonymy notes on other species (Coleoptera, Staphylinidae). 42. Contribution to the knowledge of the Steninae. 8661

The cavernicolous status of some species of Macropathinae (Orthoptera: Rhaphidophoridae). 8662

New records and new species of Australian Masaridae (Hymenoptera: Vespoidea). 8663

A new family of caddis-flies from Australia (Trichoptera: Tasimiidae). 8664

The new genus Fregatiella (Mallophaga: Menoponidae) for Menopon aurifasciatum from the frigate-bird. 8665

A review of the genus Eidmanniella (Mallophaga: Menoponidae) from the Pelecaniformes. 8666

The aquatic and semiaquatic Hemiptera in Oklahoma. 8667

Hebridae (Hemiptera) of Oklahoma. 8668

The Asilinae (Diptera, Asilidae) of Oklahoma. 8669

The genera Neurocyta Navas and Phryganopsyche Wiggins in India (Trichoptera, Phryganeidae, and Phryganopsychidae). 8670

Oklahoma leaf beetles of the subfamilies Donaciinae, Criocerinae, Clytrinae, Chlamisinae, Eumolpinae, and Chrysomelinae (Chrysomelidae, Coleoptera). 8671

Further studies on the Tarsonemidae, II (Acarina). 8672

The genus Craterocercus Rohwer (Hymenoptera: Tenthredinidae). 8673

Two new species of Idaho Trichoptera with distributional and taxonomic notes on other species. 8674

Notes on the systematics and dulosis of some western species of Formica, subgenus Raptiformica (Hymenoptera: Formicidae). 8675

Epuraea fussi Reitter equals Epuraea interjecta Sjoberg syn. nov. 8676

The postabodomen of Cinderella, with a new species from Argentina (Diptera: Heleomyzidae). 8678

Some African Fulgoroidea in the United States National Museum. 8679

Mallophaga from birds of the Oriental Region. Part IX. Sturnidoecus philippensis, n. sp. (Ischnocera: Philopteridae). 8680

Observations on the genital structures in several genera of Bruchidae (Coleoptera). 8681

Hispinae of Peru, collected by von W. Weyrauch. (228. Contribution to the knowledge of the Hispinae, Coleopt., Chrysomelidae). 8683

Previously unpublished nocturnals of Madagascar. (Lep.). 8684

Some mirids from central Siberia (Heteroptera). 8685

Systematics and acoustic behavior of United States crickets of the genus Orocharis (Orthoptera: Gryllidae). 8686

New species of chironomids from Costello Lake, Ontario (Diptera: Chironomidae). 8687

New genera of Neotropical Eumenidae (Hymenoptera). 8688

Seven new species and records of phytoseiid mites from Missouri (Acarina: Phytoseiidae). 8689

Two new Catopidae genera from Europe (analysis of the nigrita group in the genus Catops). 8690

How different are the eastern and western forms of the alfalfa weevil. 8740

Observations on the immature stages of Cordilura (Achaetella) deceptiva and C. (A.) varipes. 8817

Phthorimaea operculella Zell. 9250

The Scarabaeidae, Coleoptera of Pakistan. Part IV. Adoretint (Rutelinae) with descriptions of eight new species of Adoretus from West Pakistan. 9251

Neobledius karachiensis, a new genus and species of the Oxytelinae (Coleoptera: Staphylinidae) from West Pakistan. 9252

Ashrafia anwarullahi, a new genus and species of the Galerucinae (Coleoptera: Chrysomelidae) from West Pakistan. 9253

The dung-rollers of Pakistan with observations on the genus Anomala including the economic importance and descriptions of new species from Karachi (Coleoptera: Scarabaeidae). 9254

A new genus and species of of the Galerucinae (Coleoptera: Chrysomelidae) from pear tree in West Pakistan. 9255

Undescribed species of Nearctic Tipulidae (Diptera). X. 9256

New Scarabaeidae species. 129. Contribution to the Scarabaeoidea (Coleoptera). 9257

Materials concerning the knowledge of Syrphidae (Diptera) of Afghanistan. 9258

A new Falcuna species from western Nigeria (Lepidoptera: Lycaenidae). 9259

Studies of the Mexican Deltocephalinae: new species of Eutettix and two allied new genera (Homoptera: Cicadellidae). 9260

A hymenopterous primary parasite of morabine grasshoppers. 9262

A new Megaselia from Hawaii (Diptera: Phoridae). 9263

New records of chiggers from the West Indies. 9264

Rhynchosciara baschanti (Diptera, Nematocera, Sciaridae), a new Brazilian species. 9265

Aphanosperma, a new genus of Cerambycidae (Coleoptera) from woody fruits of Hakea spp. in Australia. 9266

A new subspecies of Callophrys fotis from the San Francisco Bay area (Lycaenidae). 9267

A new species of Pyrrhalta from Sable Island (Coleoptera: Chrysomelidae). 9268

International commission on zoological nomenclature. 9269

The mature female and male Gradungula woodwardi Forster (Araneae: Hypochilomorphae: Gradungulidae). 9270

A new species of Schizotetranychus (Acarina: Tetranychidae) from Queensland. 9271

A new genus and species of the tribe Hystrichonychini (Acarina: Tetranychidae) from Queensland. 9272

The soft scales (Homoptera: Coccidae) of South Africa. 1. 9273

Notes on Philippine black flies (Diptera: Simuliidae). 9274

Contribution to the study of Hymenoptera Proctotrupoidea (XII). With regard to Ceraphronidae Megaspilinae males with branching antennae. 9275

Results of the zoological research of Dr. Z. Kaszab in Mongolia. No. 163: Homoptera, Auchenorrhyncha. 9276

The spiders of Mississippi. 9277

A revised synonymic list of the Nearctic Melitaeinae with taxonomic notes (Nymphalidae). 9278

Descriptions of some new cheyletid mites from the United Arab Republic. (Acarina: Cheyletidae). 9279

The bees of Finland. 9280

On a Simulium of the group neavei captured in Ethiopia. (Preliminary report). 9281

Redescription of Opius scaevolae (Cameron) (Hymenoptera, Braconidae, Opiinae). 9282

New species and a revised key to the Hawaiian Cyrtopeltis Fieb. with notes on Cyrtopeltis (Engytatus) hawaiiensis Kirkaldy (Heteroptera: Miridae). 9283

Onychiurus severini Willem, 1902 (Collembola). 9285

Ectobius pallidus Olivier (Dictyoptera, Blattidae sensu lato) in Guernsey. 9286

Morphological criteria as indicators of species limits in spiders of the subfamily Araneinae. (Arachnida: Araneae: Araneidae). 9287

The taxonomic status of Dialectica soffneri (Gregor and Povolny) and Parectopa cupediella (Herrich-Schaffer) (Lepidoptera, Lithocolletidae). 9288

Centipeds (Chilopoda) of the Lodz plateau. 9289

A troglobitic staphylinid from Mexico (Coleoptera, Staphylinidae, Paederinae). 9290

Pictoral key of the ants of Hawaii based on the worker forms. 9292

Fleas of the subfamily Ctenophthalminae (Hystrichopsyllidae, Siphonaptera) in Taiwan. 9293

A new hornet, Vespula austriaca, for Denmark. 9294

The Donaciinae of North Africa (Col. Chrysomelidae). 9295

Scalponotatus, a new genus near Slaterocoris, with descriptions of new species (Heteroptera: Miridae). 9296

Results of the zoological research of Dr. Z. Kaszab in Mongolia. 115. Homoptera: Psyllodea of the III. Expedition. 9297

A new species of Batyle from Utah (Coleoptera: Cerambycidae). 9298

Studies of the Mexican Deltocephaline: Aligia and some new allied genera and species (Homoptera: Cicadellidae). 9299

Susa Audy and Nadchatram, a subgenus of Cheladonta Lipovsky et al., (new status). with descriptions of two new species of Cheladonta from Thailand. 9300

Heliconius hecale and Xanthocles in Venezuela (Nymphalidae). 9301

Several new Tachinidae of Melanesia (Dipt., Tachinidae). 9302

Detailed description of larva of Polydorus aristolochiae. 9303

A new subspecies of Pyrrhopyge creow (Hesperiidae) from Panama. 9304

A sawfly, Cephalcia reticulata (L.) (Hymenoptera: Pamphiliidae), new for Denmark. 9305

The Heteroptera of The Netherlands Antilles. VI. Notonectidae. 9306

Beetles new to fauna of Babia Gora mountains. (Coleoptera). III. 9307

Chalcidoid (Hymenoptera) parasites of the alfalfa leafcutter bee, Megachile rotundata, in Canada. 9308

Supplemental notes on the far eastern Biannularis group of Tabanus. 9311

Catalogue of New World Dermaptera (Insecta). Part 1: Introduction and pygidicranoidea. 9312

The Rhaphidophoridae (Orthoptera) of Australia. Part 5. The Rhaphidophoridae of Flinders Island. 9313

Drepanaphis pallida, a new aphid collected on Acer saccharum in Ontario (Homoptera: Aphididae). 9314

A new species of Tuberculatus from Turkey, with revisionary, descriptive notes on Tuberculoides (Homoptera: Aphididae). 9315

The problem of insect identification and the University of Arkansas Reference Collection. 9317

Note on the change of a specific name of New Guinea Culex (Lophoceraomyia) (Diptera: Culicidae). 9320

The Aedes mosquitoes of New England (Diptera: Culicidae). II. Larvae: Keys to instars, and to species exclusive of first instar. 9321

Parasarcophaga (Curranea) tibialis (Macquart, 1850) a new species for the Czechoslovak fauna (Diptera). 9322

Hawaiian Toxorhynchites (Diptera: Culicidae). 9323

Taxonomic and biological studies of Hawaiian Sphaeroceridae (Diptera). 9325

Two new species of Leptocera Olivier from Hawaii (diptera: Sphaeroceridae). 9326

Concordance and discordance of taxonomic characters in Drosophila classification. 9327

Systematic investigations on East-Indian and Australian Hemipepsis. VIII. On the species of the sub-genus Moropepsis Banks, 1934 (Hymenoptera Pompilidae, Pepsinae). 9329

Boloria polaris (Nymphalidae) in northern British Columbia. 9330

Systematic studies of the Central European species of the genus Austromenopon Bedf. (Mallophaga, Austromenoponinae). 9331

Taxonomic composition, trophic structure and seasonal occurrence in a grassland insect community. 9377

Insect parasites of the insect galls in Europe. 9386

Research on the ecological system of the forest. Series B: The mixed, calcicolous oaks of Virelles-Blaimont. Contribution no. 18. Coleoptera caught in 1965 and 1966. 9388

The comparative morphology of the dorsal vessel and accessory structures of the Lepioptera and its phylogenetic implications. 9399

Description of new social parasites of Leptothorax acervorum F. (Formicidae). 9412

Ecological observations on the species Smicromyrme septentrionalis Hffr. (Hym. Mutillidae). 9435

Wing coloration of Dendrothrips ornatus (Jablonowski). 9485

INSECT TAXONOMY

New species of crane flies from tropical America. V. (Diptera: Tipulidae). 9865

New or little-known species of exotic Tipulidae (Diptera). XVI. 9866

Gall-inhabiting Liothrips Uzel from India. 9867

A new sub-genus and species of the Eumeninae (Hymenoptera, Diploptera) from the Bulgarian fauna. 9868

A new genus of Noteridae (Coleoptera: Noteridae, Noterini). 9869

New species of Chrysobothris from the Pacific Northwest (Coleoptera: Buprestidae). 9870

Chloropidae (Diptera), unknown in the fauna of Bulgaria. 9871

The larvae of Odonata in the vascular territory of stagnant waters in Bulgaria. 9872

A new family Turanoniscidae fam. n. (Isopoda, Oniscoidea) from termitaria of Middle Asia. 9874

A new Polymixis HB. of Spain. Polymixis lajonquierei Brsn. (Supplemental description (1)) contribution to the study of Noctuidae trifinae 159(2). 9875

The identification and distribution of Quadraspidiotus species (Homoptera: Diaspididae) on pome and stone fruits in Australia. 9876

Cercyonis pegala abbotti, new subspecies (Lepid., Satyridae). 9877

Revision of the Nearctic moth genus Abagrotis Smith with descriptions of new species (Lepidoptera: Noctuidae). Part Vi The duanca and placida groups; checklist of the presently known species within the genus. 9879

Study of the world Gyponinae (Homoptera: Cicadellidae). A synopsis of the genus Clinonaria. 9883

Two new Palearctic Lithocolletis species. (Preliminary description). 9884

Description of Dendrocerus (tmacrostigma) noumeae sp. nov. from New Caledonia (Ceraphronoidea, Megaspilidae). 9885

A new species of Ephydrella Tonnoir and Malloch (Diptera: Ephydridae). 9887

New Simuliidae (Diptera) from New Caledonia and Norfolk Island. 9888

Characters for identification of some common plusiine caterpillars of the southeastern United States. 9889

Contribution to the knowledge of the Staphylinidae. CI. Diverse remarks on some Quedius from the eastern Mediterranean. 9890

Allomorphus franzi, n. gen., n. spec. (Coleoptera, Curculionidae), a new species and genus from Austria. 8. Contribution to the knowledge of the Palearctic Cossoninae. 9891

Contribution to the knowledge of the Coccidae from Brazil (Homoptera-Coccidea). 9892

Scymnus (Sidis) hiekei Fursch, as a foe of Pseudococcus citri Risso. 9893

Results of an Austrian Lepidoptera collecting trip to Syria and Lebanon. (Part V.: Epermeniidae). 9894

Thomisus onustus Walck. (Arachnida) recorded in error from Thursley Common Surrey. 9895

Cnemacantha illota (Loew) (Dipt., Lauxaniidae) recorded in error from Stanmore Common, Middx. 9896

Oriental species of Coesula Cameron (Hymenoptera: Ichneumonidae). 9897

A new Drosophila species from northern Fennoscandia (Diptera). 9898

The occurrence of Danis hymetus taygetus (Felder) at Bayview, New South Wales. 9899

A key to the species of Carcinops Marseul (Coleoptera, Histeridae) associated with stored products, including C. troglodytes (Paykull) new to this habitat. 9901

Three new species of genos Blaptica, Stal, 1874 (Dictyoptera, Blaberidae of the Republic of Argentina). 9903

Synonymy of Keiferia glochinella (Zeller) and related names (Lepidoptera: Gelechiidae). 9905

A new species of Trichacoides from India with a redescription of T. scutellaris Dodd (Hymenoptera: Platygasteridae). 9906

Palearctic species from the genus Phymata latreille, 1802 (Hem. Het. Reduviidae). 9907

The subgenus Persicargas (Ixodoidea, Argasidae, Argas). 7. A. (P.) walkerae, new species, a parasite of domestic fowl in southern Africa. 9908

A revision of the pseudomorphacridini (Orthoptera: Acridoidea: Pyrgomorphidae). 9909

A new species of Ficalbia (Ravenalites) from Cambodia (Diptera: Culicidae). 9910

A new species of Mesidia (Hymenoptera: Aphelinidae) from California. 9914

On Sergentomyia ruttledgei (Lewis Kirk) and S. schwetzi (Adler, Theodor Parrot) (Diptera: Psychodidae). 9915

New Mymaridae from Central Africa. (Hymenoptera: Chalcidoidea). 9916

A new species of Epidermoptes from a South Dakota pheasant (Acarina: Epidermoptidae). 9917

A new species of Chrysomela (Coleoptera, Chrysomelidae)-an important component of the Taimyr Peninsula biocoenoses. 9918

The genus Heteroconis Enderlein, 1905 (Neuroptera, Coniopterygidae). 9919

A new Danaus species from Central-Celebes. 9923

The structure of polymorphic species of the subgenus Autolethrus (Coleoptera, Scarabaeidae) from South Kazakhstan. 9924

Correction to the key of the European Gyrinus species. 9925

New mimarids of Argentina (Hymenoptera; mymaridae). 9926

The family Leptogastridae (Diptera). 9927

Bulgarian grasshoppers (Homoptera: Auchenorrhyncha). 9928

Three new species of Heteromenopon (Mallophaga: Menoponidae) from Brazilian and Australian parrots. 9930

A new north Palearctic Stenus: St. (Nestus) coriaceus n. sp. (Coleoptera, Staphylinidae) (58. Contribution to the knowledge of the stenids). 9931

A new genus and key to the species of Australian Stilbopterygidae (Neuroptera). 9933

Spiracles of adult Scarabaeoidea (Coleoptera) and their phylogenetic significance. I. The abdominal spiracles. 9934

Neotropical cockroaches of the Epilampra abdomennigrum complex; a clarification of their systematics (Dictyopeera, Blattaria). 9935

New species and records of Nasutitermitinae (Isoptera: Termitidae) from Africa. 9936

Lymantriidae--east versus west Africa. 9938

Limacodidae- east versus west Africa. 9939

New species of beetle mites of the family Chamdbatidae (Oribatei) from the USSR. 9940

Siphonaptera from Inari, Finland. 9942

Aphid fauna of Macedonia. 9943

A new Malayan species of the ant genus Epitritus and a related new genus from Singapore (Hymenoptera: Formicidae). 9944

Philonthus parcus Sharp (Col., Staphylinidae) in Britain. 9945

New Bulgarian fauna of phytophageous wasps (Symphyta, Hymenoptera). 9946

A new name for the genus Cyrtolabus van der Vecht (Hymenoptera, Eumenidae). 9947

Adelphocoris minor nov. spec. (Heteroptera, Miridae). 9949

Additions to the genus Alloeonotus Fieber, 1878 (Heteroptera, Miridae). 9950

New Orthotylus and Pachylops species (Heteroptera, Miridae). 9951

Several Globiceps-species (Heteroptera, Miridae). 9952

Keys to genera and some species of New Zealand Lathridiidae (Coleoptera). 9953

Description of immature stages of Coreidae. 3. Archimerus alternus. 9956

Description of immature stages of Coreidae. 1. Euthochtha galeator. 9957

On two new species of Terebrantian Thysanoptera with remarks on a new genus Pellothrips. 9958

A new Caradrina O. of Spain- Contributions to the study Noctuidae Trifinae, 158(1). 9977

Entomocoenological and biological studies in Rosa damascena Mill. plantations. II. Coleoptera. 10081

A new species of Aedes (Stegomyia) from Thailand (Diptera: Culicidae). 10164

Orthopteroid insects of east Nepal.	10487
New species of Gargara living on cola and cocoa trees in Central Africa.	10488
Culicoides marcleti n. sp. and new identifications of Culicoides (Diptera, Ceratopogonidae) of the Mediterranean region and especially of Algeria.	10489
Rhizotrogus maculicollis Villa (Coleoptera, Scarabaeidae) a new species for Czechoslovakia.	10490
Mites of the family Rhinonyssidae (Parasitiformes) parasites in the nasal cavity of birds of the genus Lanius L. from Rumania.	10491
A new species of Arenivaga from desert sand dunes in southern California (Dictyoptera: Polyphagidae).	10492
Chrysomelid beetles from the Papuan Subregion (Eumolpinae).	10493
The Bibionidae (Diptera) of the Philippines.	10494
The genus Evaza in the Philippines and the Australasian region (Diptera: Stratiomyidae).	10495
New records of two nasal mites from Japanese rodents (Acarina: Epidermoptidae and Ereynetidae).	10496
Systematics of the Cryptocephalinae (Coleoptera, Chrysomelidae) from Soviet Central Asia and kazakhstan.	10497
Three new species of Sarcosolomonia Baranov, 1938 (Diptera: Sarcophagidae).	10498
New and little known palearctic Cecidomyiidae of the tribe Porricondylini (Diptera, Cecidomyiidae).	10499
An investigation of the Culicidae of Charente-Maritime; The occurrence of the genus Mansonia Blanchard 1901: M. (Coquilletidia) richiardii (Ficalbi) 1896 and M. (C.) buxtoni (Edwards) 1923.	10500
Redescription of three species of Mealia Trouessart, 1897 (Acarina: Pyroglyphidae) from house dust in Japan.	10502
Contribution to the fauna of the Congo (Brazzaville). mission of A. villiers and A. Descarpentries. XLVI. Lepidoptera Attacidae. (2nd note).	10506
New species of mites from pine (Acarina: Tarsochelidae, Eupalopsellidae, Caligonellidae, Cryptognathidae, Raphignathidae, and Neophyllobiidae).	10507
Contribution to the fauna of the Congo (Brazzaville). Mission of A. Villiers and A. Descarpentries. XLVII. Homoptera Cercopidae and Fulgoroidea.	10508
Metallinella gen. n. of the family Megachilidae (Hymenoptera, Apoidea).	10510
The warble fly.Ochotonia lindneri Grunin, gen. et sp.n. (Diptera, Hypodermatidae), a parasite of the Afghan pika (Ochotona rufescens Gray).	10513
Two new genera of leafhoppers (Homoptera, Cicadellidae) from Mongolia.	10515
Taxonomy and phylogeny of the clothes moth family (Lepidoptera, Tineidae).	10516
The Chrysomelidae, Coleoptera of Pakistan. Part III. A key to the genera and species of the Galerucinae, with descriptions of new genera and species.	11101
A key to the species of the Anomalini (Rutelinae) of Pakistan with redescription of Mimela horsefieldi Hope (Coleoptera: Scarabaeidae).	11102
Undescribed species of Nearctic Tipulidae (Diptera), X.	11103
Syrphidae collected mostly in southern areas of the Okanagan Valley, British Columbia.	11104
Haemogamasid mites of eastern Asia and the western Pacific with a key to the species.	11105
Field notes and subspecific status of Oeneis melissa (Satyridae) in northern Quebec.	11106
Storage and retrieval of information from insect specimens.	11107
A new Tunga (Siphonaptera) from the Nearctic Region with description of all stages.	11108
The Buprestidae and Cleridae of the Nevada Test Site (Coleoptera).	11109
The concept of genus in the family Chironomidae.	11110
Studies on Indian mites (Acarina: Mesostigmata). 7. Six species found under bark in North East Frontier Agency.	11111
Liothrips priesneri sp. n., a serious pest of avocado in Guatemala.	11112
Nine new tropical species of the genus Pediasia Hbn. (Lepidoptera, Pyralidae) (Crambinae studies, Part 47).	11113
Cytotaxonomic studies of Sciomyzidae (Diptera: Acalyptratae).	11114
An annotated list of the Dermaptera, Dictyoptera, Phasmatoptera, and Orthoptera of Michigan.	11115
Pteronyssus monoplax, a new species of fowl mite (Avenzoariidae, Sarcoptiformes).	11116
Contribution to the study of Caeculidae. Sixth series. Microcaeculus sabulicola Franz, 1952. Redescription, taxonomy, and distribution.	11117
A synopsis of the Scatopsidae of the Palaearctic. Part. I. Rhegmoclematini.	11118
The nymph of Amphiagrion abbreviatum.	11119
New dermanyssid mites (Acari: Mesostigmata) from nests of Spalax ehrenbergi Nehring.	11120
Contribution to the knowledge of the genus Saprinus (Col., Histeridae) III.	11121
The carabid beetles of New Guinea Part III. Harpalinae (continued): Perigonini to Pseudomorphini.	11122
A note on cuticular lobes of Tetranychus marianac McGregor (Acarina: Tetranychidae) from Papua.	11123
Some type specimens of Philippine Diptera described by M. Bezzi in the Museo Civico di Storia Naturale, Milano.	11124
A new Eristalis species from east Slovakia. (Diptera, Syrphidae).	11125
The genus Steatonyssus Kolenati in Australia (Acari: Dermanyssidae).	11126
Revision of the central European species of the Stratiomyidae (Diptera) family with special consideration of the fauna of the CSSR, IV.	11128
A new species of the genus Tetranycopsis Canestrini from Japan (Acarina: Tetranychidae).	11129
A new species of Plegadiphilus (Mallophaga, Menoponidae) from the Cayenne Ibis.	11130
Revision of the genus Xanthesma Michener (Apoidea: Colletidae).	11131
Argohesma--a new genus of Australian bees (Apoidea: Colletidae).	11132
Destructive nest mites in Africa south of the Sahara. V. Description of the life cycle and two species of Acarina of the genus Rodentopus Fain, 1965 (Sarcoptiformes: Glycyphagidae).	11133
Studies of black flies of Panama (Biptera: Simuliidae). IV. a new species of Simuliidae.	11134
Final-instar larvae of two hymenopterous parasites of a wood-boring beetle, (Etropium velutinum LeConte (Coleoptera: Cerambycidae).	11135
Two new species of Lithophane from California (Noctuidae, Cuculliinae).	11136
Jamacerus and Optocerus, two new genera of Central American and Jamaican Idiocerinae.	11137
Amitermes pallidiceps, a new name for A. pallidus Gay (Isoptera: Termitidae).	11138
Neuroptera and Trichoptera from the Holtmuhle in Tegelen (Limb.).	11139
A new Eumerus (Syrphidae, Diptera) from Corsica.	11143
Some new species of the family Zerconidae from North America (Acarina: Mesostigmata).	11145
Drosophila lowei, a new American member of the obscura species group.	11146
Results of the Albanian 1961 Expedition of the German Entomological Institute. 64. Contribution. Hymenoptera: Tenthredinoidea.	11147
The status of Hemilecanium imbricans (Green) (Homoptera: Coccoidea) in Africa south of the Sahara.	11148
Hyalomma (Hyalommina) punt, n. sp., (Ixodoidea, Ixodidae), a relict parasite of domestic animals and gazelles in arid areas of northern Somali Republic.	11149
A list of the armoured scale insects (Diaspididae) and their hosts in Tasmania.	11150
Studies on Tabanus (Lophotabanus) importunus Wiedeman, 1828 (Diptera, Tabanidae).	11151
The genus Adoxomyia in America north of Mexico (Diptera: Stratiomyidae).	11152
A new genus and species of Ptilidae (Col.) from Tamana Cave, Trinidad.	11153
Two new Strumigenys ants from the Amazon Valley in Brazil.(Hymenoptera, Formicidae).	11154
Chrysomelidae of the Yaeyama group (Coleoptera) III.	11155
Notes on the Chrysomelidae from Taiwan II.	11156

Two new species of Ornithodoros from the Galapagos Islands (Acarina: Argasidae).
11157

Studies on the genus Abgrallaspis Balachowsky 1948, (Homoptera, Coccoidea, Diaspididae).
11158

Morphology and relationships of the Pentatomoidea (Heteroptera). IV. Oncomerinae (Tessaratomidae).
11159

Three species of Eylais (Acari: Eylaidae) parasitic on aquatic Hemiptera.
11161

The genus Anisops in Australia (Hemiptera--Heteroptera Notonectidae.
11162

Blood-sucking Stomoxyinae and Muscinae of the Democratic Republic of the Congo (Diptera, Muscidae).
11163

Tabanidae (Diptera) of Morocco. IV. Identification of Pangonius hassani n. sp..
11164

Morphological and phylogenic studies on the larvae and male genitalia of the East Asiatic Tingidae (Heteroptera).
11165

Neotypes for Phalaena orbona Hufnagel (Lep.).
11167

Modern systematics for the Notodontidae (Lep.).
11168

Millipeds from Jamaican caves.
11169

A re-description of Cryptognathus cucurbita Berlese 1916 (Acari, Prostigmata, Cryptognathidae).
11170

The Aphidiidae (Hymenoptera) of Finland.
11171

The Cyphomyia bicarinata species group (Diptera: Stratiomyidae).
11172

Notes on Laneella brunnipes (Surcouf, 1919) (Diptera, Calliphoridae).
11173

Neotropical Miridae: CVII: a description of five new species from Ecuador.
11174

Some stigmaeid mites from South Africa (Acari: Trombidiformes).
11175

African genera of allodapine bees (Hymenoptera: Anthophoridae: Ceratinini).
11176

New brazilian Hesperiinae (Lepidoptera, Hesperiidae).
11177

Description of a new species of the genus, Acanthachryson Bruch, 1921 (Coleoptera, Cerambycidae, achrysonini).
11178

A remarkable case of alary dimorphism in the Aradidae (Heniptera) with a generic synonymy and a new species.
11179

The conspicua species-group of Typhlodromina Muma 1961.
11180

Results of a study of the order Coleoptera in our country.
11181

The males of Tabanus spodopteroides.
11182

Three new Cephus species for the Netherlands (Hyn., Cephid.).
11183

Description of the males of Acyrthosiphon calvulus Oss. (Hem.: Hom.).
11185

A revision of the Neotropical genus Dasystole (Lepidoptera: Geometridae).
11186

Is Rhyacia simulans really so rare (Lep., Noctuidae).
11187

Three new species of Psittacobrosus from Brazilian parrots.
11188

A new species of Amyrsidea from an oriental patridge (Mallophaga: Menoponidae).
11189

Studies on the Indian species of the genus Coccophagus Westwood, 1883.
11191

A new species of the genus anisota (Lep., Saturniidae) in North America.
11192

A redescription of the Microthrombioiinae of Bolivia, originally described by J. Boshell and J. A. Kerr in 1942 (Acari, Thrombidiidae). (1st Part).
11193

Cicadulina bipunctella and C. chinai from India. (Hemiptera, Cicadellidae).
11195

New species and subspecies of the genus Chaetisothrips from the Caribbean and Central American region (Thysanoptera, Thripidae).
11196

A preliminary note on a review of the genus Neurisothrips, new genus (Thysanoptera: Thripidae).
11197

New species of subgenera Isothrips and Isochaetothrips from Oceania and Australia, with note on changes in nomenclature (Thysanoptera: Thripidae).
11198

Two new species of genus Amblyseius in the U. A. R. (Acarina--Phytoseiidae).
11200

A list of Longicornia of Ceara (Coleoptera, Cerambycidae).
11201

Morphology of spermatogenetic tubes as taxonomic character in Triatominae (Reduviidae, Hemiptera).
11202

Results of the zoological investigations of Dr. Z. Kaszab in Mongolia. 86. Staphylinidae. II. Subfamilies Paederinae, Xantholininae and Staphylininae (Coleoptera). 74. Contribution to the knowledge of the Staphylinidae.
11203

Observation of Chalcedectus sinaiticus (Ms.), and descriptions of C. balachowskyi sp. in (Hym., Chalcedectidae) and Oopristus safavii gen. n., sp. n. (Hym., Torymidae), two parasites of economic importance in Iran.
11205

A new genus and species of mosquito from Colombia, Galindomyia leei (Diptera, Culicidae, Culicini).
11206

Coniopteryx cerata Hagen, 1858, further description and lectotype designation (Neuroptera, Coniopterygidae).
11208

Comparison of enzymes of twelve species of mosquitoes.
11209

Drosophila migriventris Macquart, 1843, a new synonym of D. melanogaster Meigen, 1830 (Dipt. Drosophilidae).
11210

Coleopterous Cerambycidae of Arabia.
11211

A new and unusual species of Bolbomyia (Diptera: Rhagionidae).
11212

Some aspects of zoogeography and speciation in the genus Teldenia Moore (Drepanidae: Lepidoptera).
11213

A new Neotropical species of Mosillus (Diptera, Ephydridae).
11214

Distribution data of Western European Hymenoptera. VII. Family of the Cephidae (Symphyta).
11216

Distribution data of Western European Hymenoptera. VIII. Family of the Argidae (Symphyta).
11217

Three genera of family Tenuipalpidae (Acarina) in the U. A. R. with description of three new species.
11218

Contribution to the fauna of Longicornia in the state of Maranhao (Coleoptera, Cerambycidae).
11219

Studies of the Gyponinae: A new genus, Ponanella, and seven new species (Homoptera: Cicadellidae).
11255

Morphological, systematic, and biometric discussion on Agrion (Cercion) lindeni Selys, 1840. (Odonata Zygoptera).
11288

Psilococcus parvus Borchsenius (Homoptera, Coccoidea)-morphology, biology and taxonomy.
11315

Revision of the subgenus Xenohesma Michener (Apoidea: Colletidae).
11423

Salimuzzamania uniformis (Champion) gen. n. et sp. comb. nov. (Coleoptera: Anthicidae, Eurygeniinae) from Guatemala.
11715

Notes on some spider hunting wasps from the Netherlands (Hymenoptera, Pompilidae).
11719

The position of the Strepsiptera in the classification of insects.
11720

Agrilus cupripes (Carter) Comb. N. (Coleoptera: Buprestidae).
11722

A new species of armyworm belonging to the genus Faronta Smith from the western United States (Noctuidae).
11723

The question of applied terminology for development stages of mites of the suborder Sarcoptiformes.
11724

Early stages of Lycomorpha regulus Grinnell, with notes on the imago. (Lepidoptera: Amatidae).
11725

Studies in life histories of North American Lepidoptera California Annaphila III.
11726

Revision of the genus Enophosema (Lep., Geom.).
11728

New Palearctic leaf-hoppers of the tribe Opsiini (Homoptera, Cicadellidae, Deltocephalinae).
11729

The genera Apanesia and Dissomphalus in Argentina and Chile (Hymenoptera, Bethylidae).
11730

Revision of the genus Euryglossina Cockerell (Apoidea: Colletidae).
11731

A new North American species of Tephritis with some observations on its generic position.
11732

A new species of Nepticula on bur oak in Ontario (Nepticulidae).
11733

The description of pupae of Colymbetes paykulli Er. and C. dolabratus (Payk.) with a key to the identification of pupae of the European species of Colymbetes Ciairv. (Coleoptera, Dytiscidae).
11734

Coleoptera, Tenebrionidae, Erodiini, Tentyriini and Adesmiini collected by J. Mateu in the mountain mass of Ennedi.
11735

The family Xestocephalidae of Japan (Hemiptera). 11736

A new species of the genus Malthodes (Coleoptera, Cantharidae). 11737

The egg parasite complex of British Pentatomoidea (Hemiptera): Taxonomy of Telenominae (Hymenoptera: Scelionidae). 11739

Lasiorhynchites ophthalmicus (Steph.) (Col., Curculionidae): A new Irish record. 11743

New species of leaf-hoppers (Homoptera, Cicadinea) from Tien Shan and Karatau. 11744

The genus Horniolus Weise of Japan and the Ryukyu Islands (Coleoptera: Coccinellidae). 11745

A new species of the genus Heptaphylla from Shikoku, Japan (Coleoptera:-Melolonthidae). 11746

Descriptions of two new species of the genus Serangium from Japan (Coleoptera, Coccinellidae). 11747

A taxonomic revision of the Australian Aeolothripidae (Thysanoptera). 11749

A new species of the genus Miyatrombicula from Azerbaijan. 11750

New or little-known Elateridae from Japan. VI. (Coleoptera). 11753

The genera, Evippe and Stenolechia, of Japan, with the descriptions of two species of the latter (Lepidoptera: Gelechiidae). 11754

Contribution to the knowledge of the genera Mantis Linne and Paramantis, sp. nov. (Mantidae). 11756

A preliminary review of the genus Homochaetothrips gen-.n., with brief description of a new species (Thysanoptera: Thripidae). 11757

New entomophilous acari from China. 11758

New species of beetle mites of the subfamily Sphaerozetinae (Oribatei, Ceratozetidae). 11759

Discovery of Marlattiella prima Howard, a parasite of the pear white scale, from Japan (Hymenoptera: Aphelinidae). 11762

Scale insects of Shikoku, II (Homoptera: Coccoidea). 11763

On Callipteroma kiushiuense Ishii (Hymenoptera: Encyrtidae). 11764

New hosts of two tachinid flies (Diptera). 11765

Some species of Capitophorus of Japan (Homoptera: Aphididae). 11766

Key to genera and species of Greenideini of Japan, with descriptions of a new genus and three species (Homoptera: Aphididae). 11767

A previously unrecognized subspecies of Philotes speciosa. 11769

New or little known noctural Quadrifids of Madagascar, III (Lep. Noctuidae). 11770

A new pteromalid parasite of the eastern death watch beetle, Hadrobregmus carinatus (Say). 11771

Contribution to the morphology and phylogeny of the Reduvioidea. Part IV. The harpactoroid complex. 11805

Two Acmaeodera parasites of Acacia in Mauritania and in the Sahara (Col. Buprestidae). 11806

Ground beetles of the genus Lebia Latreille in Arkansas (Coleoptera: Carabidae): Ecology and geographical distribution. 11827

19. Thysanoptera (Physopoda). 11870

A record of Parlatoria pittospori Mask. (Hemiptera: Diaspididae) on apples. (Abstract). 12088

Revision of the genus Phlebotomus of Arica south of the Zambesi, key for the identification and description of: P. salisburiensis n. sp., P. zumpti n. sp. and P. haeselbarthi n. sp., (Diptera-Psychodidae). 12331

New and little-known Indian craneflies (Tipulidae, Diptera) I. 12333

Studies on the species of Xylaplothrips Priesner from India. 12334

On some species of Taeniothrips Serville and Thrips Linn with further notes on Hyalopterothrips roonnsali Bhatti from India. 12335

Tabanidae. 12336

The subspecies of Rhinocoris iracundus (Poda), 1761 (Heteroptera, Reduviidae). 12338

The Tryphactothrips-complex in India, with a key to the world genera (Thysanoptera: Thripidae). 12339

Studies on Indian crickets (Orthoptera: Insecta), Part 1. 12340

Contribution to the study of the Culex of the Ethiopian region belonging to the sub-genus Mochthogenes (Diptera, Culicidae), with a description of the males of five new species. 12342

Contribution to the study of the Culicidae of the Ethiopian region. Description of Culex (Barraudius) richeti n. sp. Supplemental notes on Culex (B) pusillus Macquart and Culex (B.) modestus Ficalbi. 12343

The Anopheles claviger complex in the Mediterranean subregion. 12346

On two mites of economic importance in Japan (Arachnida: Acarina). 12349

Tribal positions of Western Hemisphere green sweat bees, with comments on their nest architecture (Hymenoptera Halictidae). 12350

A new species of Megouroparsus (Homoptera: Aphididae) from Northeast India. 12351

Indian species of Scambus Hartig (Hymenoptera: Ichneumonidae). 12353

Race e, sixth race of the hessian fly, Mayetiola destructor, discovered in Georgia wheat fields. 12355

A new Idioceridae from Chile: Idiocerus hichinsi n. sp. (Homopt.). 12356

Three new aphid species of the subfam. Dactynotinae from the Crimea (Homoptera). 12357

Two new Malayan species of the genus Nephotettix (Hemiptera: Cicadellidae). 12360

The lectotype of Bruchus julianus. 12361

Report on some neotropical ant studies. 12362

Faunistic and ecological data on the fleas of Madagascar (Siphonaptera). 12363

Tabanidae (Diptera) of Morocco, III. description of Tabanus choumarae n. sp. 12364

Cisidae study IV. 12365

A new species of Kristotomus (Hymenoptera: Ichneumonidae) from India. 12367

The armored scale insects of Texas (Homoptera: Coccoidea: Diaspididae). 12368

A new Japanese species of Trioza from Machilus thunbergii, with descriptions of the immature stages and notes on biology (Hemiptera: Psyllidae). 12369

Contribution to the knowledge of the genus Epithrix Foudr. (Coleoptera, Chrysomelidae, Halticinae). 12370

Taxonomic review, ecological and biological aspects of Diptera (Culicidae) living in the forest of Manera (Province of Kaffa) Ethiopia. 12373

Tabanidae of Cameroon. I. Description of new species. 12374

A review of the genus Hyperalonia rondani (Bombyliidae, Diptera) from South America. 12375

Anoplura of rodents and insectivores in the Central African Republic. 12376

On the genitalia of Merodontina sikkimensis Enderl. (Asilidae, Diptera) with a description of a new species of Merodontina Enderl. from India. 12380

Some interesting Macrolepidoptera from the fauna of Frankfurt am Main. 12381

Phycitinae. Study VI (Lepidoptera, Pyralidae). 12382

Description of a new species of Bradysia (Diptera, Sciaridae). 12383

Notes on the morphology, taxonomy, and distribution of the Idiostolidae (Hemiptera-Heteroptera). 12384

New Microlepidoptera for the local fauna of Saarland from the collection of Fritz Hutten, Karlsbrunn (III). 12385

On a new species of the genus Perlodes (Plecoptera: Perlodidae) from India. 12386

A new genus and species of Tydeidae (Acari : Prostigmata) from New Zealand. 12388

The black flies of Alabama (Diptera: Simuliidae). 12389

The black flies of Alabama (Diptera: Simuliidae). 12390

Remarks on the taxonomy of mosquitoes. 12391

The discovery of a representative of the Ptomaphazinini in Cuba (with an outline of the systematics and the distribution of this tribe) (Coleoptera, Catopidae). 12392

A new Porolohmannella species from the Eustygon near Wiesbaden (Limnohalacaridae, Acarina). 12393

Phlebotomus moucheti (Diptera Psychodidae), a new species caught in the caves of Cameroon and in the Central African Republic. 12394

Several new sucking-insect species and subspecies from the Palearctic region. (196. Contribution to the knowledge of the Curculionidae). 12395

Systematics and acoustic behavior of United States crickets of the genus Cyrtoxipha (Orthoptera: Gryllidae). 12396

Middle East Lepidoptera--XXIV: Beihania, a new noctuid genus from southern Arabia with two new species from Arabia and Somaliland. 12397

The shore flies of the genus Canaceoides cresson (Diptera: Canaceidae). 12398

Two new South African machilids of the genus Machiloides (Microcoryphia, Insecta). 12399

Description of immature stages of Coreidae. 2. Acanthocephala terminalis. 12400

The first instar larvae of the genus Trixa Meigen and remarks on the systematics and nomenclature of this genus (Diptera, Larvaevoridae). 12401

Incompatibility tests in the Culex pipiens complex. Part I. African strains. Part II. Egyptian strains. 12566

New record of Eubrachis indica Bally (Chrysomelidae: Coleoptera) as a serious pest of apple in Himachal Pradesh. 12668

New forms of larvac from Stictochironomus (Diptera, Chironomidae) genus obtained from reservoirs. 12936

Some materials on the spider fauna of Tadjikistan. III. Mygalomorphae. 12937

The species of black flies found in Colombia (Diptera: Simuliidae). 12938

Study on a subfamily Scaptocorinae in the Neotropical Region (Hemiptera: Cydnidae). 12939

A generic diagnosis of Bodenheimera Bodenheimer (Homoptera: Coccidae) with a redescription of B. rachelae (Bodenheimer). 12940

New species of Argentine acalyptratae Diptera. 12941

Proposed additions to the list of common names of insects. 12942

The taxonomy of the larvae and pupae of the British Phryganeidae (Trichoptera). 12943

Review of the genus Leiparthrum in North America, with a description of one new species (Coleoptera: Scolytidae). 12944

Three new species of Pityophthorus from Canada (Coleoptera: Scolytidae). 12945

Revision of the tribe Chalepini of America north of Mexico. IV. Genus Sumitrosis Butte (Coleoptera: Chrysomelidae). 12946

The coleopteran soil fauna in virgin islands cultivated for cotton in the north of Tadjikistan. 12949

Two new species of chcyletid mites from milled wheat (Acarina: Cheyletidae). 12952

The genus Scleroderma in South America (Hymenoptera, Bethylidae). 12953

Meromyza nigriventris (Diptera, Chloropidae): Its systematic status, dcvelopment and harmful activity. 12954

Contribution to the knowledge of the Coccidae from Brazil (Homoptera-Coccoidea). 12955

A new species of the genus Panstrongylus Berg, 1879 (Reduviidae, Triatominae). 12956

Further contribution to the knowledge of the South African species of the genus Ceramius Latreille (Hymenoptera: Masaridae). 12958

New aphids from Northeast India (Homoptera). 12959

On Acanthagrion (Odonata, Coenagrionidae) and related genera. 12961

Some Torymidae (Hymenoptera: Chalcidoidea) new to Britain, with notes on other British species. 12962

Two new species of gamasid mites (Gamasoidea, Laelaptidae) from North Vietnam. III. 12963

Contribution to the study of the systematics of the scorpion, Isometrus maculatus (de Geer, 1778). 12966

Taxonomy, immature stages, and bionomics of the South American genera Perilimnia and Shannonia (Diptera: Sciomyzidae). 12970

Notes on Aradidae in the Naturhistoriska Riksmuseum, Stockholm. Hemiptera-Heteroptera. 12971

New species of Rivetina (Mantidae) from environs of Nurek (Tadjikistan). 12974

Two new Linognathus species from Mozambique. 12975

A new genus and two new species of eucerinc bees from South america. 12976

A new species of Aphids from Anoceia Koch (Homoptera, Anoceiidae) genus from the south of Tadjikistan. 12977

Descriptions of two new Zipanginia-species from Japan (Coleoptera: Chrysomelidae Alticinae). 12978

On a new species of Zizyphoides distant (Homoptera: Jassidae) from India. 12983

Cyrtogonatopus Kieffer (Himenoptera: Dryinidae), with the description of a new species from Cuba. 12984

A revision of the world fauna of Tuberculatus, with descriptions of two new species from China (Homoptera: Aphididae. 12985

Root maggots, Hylemya spp. (Diptera: Muscidae), enemies of the Quebec crucifers. I.--Bibliographical notes. 12986

Simuliidae of the Apennines. 12987

A preliminary note on a review of the genus Neurisothrips, new genus (Thysanoptera: Thripidae). 12988

Scolytidae and Platypodidae from the Naturhistoriska Riksmuseum in Stockholm. 235. Contribution to the morphology and systematics of the Scolytoidea. 12989

Pemphiginae associated with the roots of conifers in North America (Homoptera: Aphididae. 12990

Ixodid ticks (Ixodidae)--the parasites of some reptile species in Tadjikistan. 12991

Lomamyia latipennis (Neuroptera: Berothidae) life history and larval descriptions. 12994

Descriptions of new species of hystrichopsyllid fleas with notes on arched pronotal combs, convergent evolution and zoogeography (Siphonaptera). 12995

The genus Lophothygater Moure and Michener, 1955 (Hymenoptera-Apoidea). 12996

On Trechus pumilus Jeannel and Trechus sinuatus Schaum (Coleoptera, Carabidae). 12997

Description of the larvae of Zabrus orsinii (Dej.) (Coleoptera, Carabidae). 12998

The structure and affinities of Pentathemis membranulata Karsh (Odonata: Corduliidae). 12999

Coleopterous leaf-miners of Japan, VI. The larva of Mantura clavareaui Heikertinger (Chrysomelidae). 13000

Studies of the Coccoidea. 14. The genera Aspidiotus, Diaspidiotus and Hemiberlesia in Queensland. 13025

A new tribe, genus, and species of termitophilous aleocharinae (Coleoptera: Staphylinidae) from South-West Africa with a description of its integumentary glands. 13070

The relative susceptibility of the larvae of Spodoptera mauritia acronyctoides (Guenee) (Lepidoptera: Noctuidae) to several contact insecticides. 13300

A new Parascotia (Hb., 1826) of the Guadarama mountain range, dedicated to his Excellency Prof. D. Manuel Lora Tomayo, Phd., Minister of Education and Science. (Lep. noctuidae). (Lam. i.). 13530

Morphology and geographic distribution in Spain of the 'child of the milk vetch' Plebejus (Plebejus) pylaon (F.d.W., 1824). 13531

The scientific results of the Hungarian soil zoological expeditions to South America. 12. Acari: Oribatids from the materials of the second expedition. III. 13532

Aricia ramburi Verity in the central Pyrenees (Lep., Lycaenidae). 13534

Material for a revision of the genus Oreopsyche (Psychidae). 13536

Material for a revision of the Oreopsyche (Psychidae) genus (continuation and end). 13537

A new species of Vandex Burr (Dermaptera; Labiidae) from Africa. 13538

Review of recent literature on mosquitoes of North America. 13539

Presence in Italy of Leptoconops kerteszi Kieffer (Diptera, Ceratapogonidae). 13541

On some species of Aedes (Diptera, Culicidae) collected on the Apennines and on the Gargano Mountain. 13542

Revision of the genus Brachyderes Schonherr, with special reference to the study of its generative organs and its geographic distribution in the Iberian peninsula. 13543

Contributions to the study of African Melolonthidae. II. Notes on the Leucophilini and description of new species. 13544

Contribution to the study of Thysanoptera in Bulgaria. 13545

New Mordellidae from Europe, North Africa and the Near east. 59. Contribution to the knowledge of the Mordellidae. 13546

A new Hoshihananomia species from Ussuri (Coleoptera, Mordellidae). 63. Contribution to the knowledge of the Mordellidae.
13547

Notes on beetles (Coleoptera).
13548

Coenonympha oedippus Fab. in Sarthe and Maine-Loire.
13549

Neotropical species of Opius section C (Hymenoptera, Braconidae).
13550

On the knowledge of the genus Euopius Fischer Hym., Braconidae, Opiinae .
13551

Lepidoptera taken in 1967 by light traps near Sion abbey (gem. deep peat-soil).
13552

A taxonomic revision of the genus Asteromyia (Diptera: Cecidomyiidae).
13554

Supplement to the neuropteroid insects of Goeree-Overflakkee.
13555

List of Coccoidea from the Canary Isles (additions). (Hemiptera, Homoptera).
13556

Italian Syrphidae (Dipt.).
13557

Contribution to the systematic and faunistics of Buprestidae in Czechoslovakia.
13559

Some tineid moths (Lepidoptera) from Madagascar.
13560

On some Geometridae of Sardinia.
13561

Studies on some Indian Dermaptera.
13563

A note on Epilandex burri (Borelli) (Dermaptera: Carcinophorinae) and Pareparchus pelvimeter Hebard (Dermaptera: Opisthocosmiinae).
13564

Results of the zoological research in Mongolia of Dr. Z. Kaszab. 197. Tenebrionidae (Coleoptera) of the 6th expedition.
13565

Notes on Aradidae from the Eastern Hemisphere, XX (Hem. Heteroptera).
13567

Two new species of the Alticidae family from the Soviet Union. XIX. Contribrution to the knowledge of the Alticidae.
13568

Frende, Harde, lohse: The central European beetles, volume 4 staphylinidae 1.
13571

The scientific results of the Hungarian soil zoological expeditions to South America. 13. Acari: Pygmephoridae and Scutacaridae from the material of the second expedition (Brazil and Bolivia).
13573

Dragonflies of Anglesey.
13574

New and little known bees of the genus Ammobates (Hymenoptera Apoidea).
13575

Some new Oribatei from xerotherm soil of central Spain (Acarina).
13576

A systematic study of Ovaticoccus Kloet and its relatives, with a key to North American genera of Eriococcidae (Homoptera: Coccoidea: Eriococcidae).
13577

New Mesitius species (Hymenoptera: Bethylidae).
13578

On some butterflies from the Indo-Pacific region.
13579

A synopsis of the Phaenocarpa Forst. species of the Neotropic region (Hymenoptera: Braconidae, Alysiinae).
13581

Lethe eurydice (Johansson) and L. fumosus (Leussler), sibling species (Lepidoptera: Satyridae).
13582

The Lohmanniidae of Spain (Acari, Oribatei).
13583

Host associations and taxonomy of Nearctic conifer cone moths in the genus Eucosma (Lepidoptera: Tortricidae).
13584

Meligethes wankai Reitter (Col.) Nitidulidae): New species for Germany.
13585

Contribution to the knowledge of the Italian Simuliidae. XV. A new Eusimulium of the group Annulum.
13586

A new nearctic leafhopper of the genus Flexamia (Hemiptera: Cicadellidae).
13587

The taxonomic position of Scrolipalpa hungariae (Standinger, 1871) (Lepidoptera: Gelechiidae).
13588

On the systematics of the Bradycellus species from the harpalinus group Serv..
13589

Preliminary diagnosis of new species of Tricholabiodes Rad. (Hym. Mutillidae).
13590

Two new species of the genus Therioaphis Walk. (Homoptera: Aphididae) from Hungary.
13591

A Palaearctic representative of the genus Parahomalopoda Girault (Hymenoptera, Encyrtidae).
13592

Eupithecia szelenyii sp. nov. (Lepidoptera: Geometridae).
13593

Contributions to the elucidation of Palearctic Andrena species. (Hym. Apidae).
13594

New species and records of Galapagos Diptera.
13705

Revision of Indo--Pakistan Parisomias Faust (Coleoptera, Curculionidae) with some notes on Leptomias Faust.
14123

Raphidiidae (Insecta, Neuroptera). 154. Contribution to the series Results of the zoological investigations of Dr. Z. Kazab in Mongolia .
14124

Bruchid beetles (Coleoptera, Bruchidae) from the Megri district of Armenia.
14125

Contribution to the knowledge of the neotropical Oribatid fauna. 5. Archegozetes. (Arach., Acari).
14127

An index-catalogue of the genus-group names of Oriental and Australasian Tachinidae (Diptera) and their type-species.
14129

Contribution to the knowledge of the genus Saprinus (Col. Histeridae). II.
14130

Sphecidae of the Canary Islands (Hymenoptera).
14131

Quasihesma--a new genus of Australian bees (Apoidea: Colletidae).
14133

Revision of the genus Euryglossella Cockerell (Apoidea: Colletidae).
14134

Revision of the genus Euryglossula Michener (Apoidea: Colletidae).
14135

A note on the new species of Sphegigaster Spin. (Chalcidoidae, Pteromalidae).
14136

Notes on the genus Schyzops Spinola, 1837 (Phyllocephalinae, Pentatomoidea, Heteroptera). maritima (Guer.).
14139

Further notes on Icelandic Agromyzidae (Dipt.).
14140

Isoptera from Vietnam, Cambodia and Thailand.
14141

A note on the genus Pseudathyma Staudinger with description of a new species (Lepidoptera: Nymphalidae).
14143

A study of the population of insects emerging as adults from Spettigue's Pond at London, Ontario.
14144

Lamellarea, a new oribatid genus (Acari) from South Africa.
14147

Two new oribatid mites from South Africa (Oribatei, Acari).
14148

Leaf beetle larvae of the subfamily Eumolpinae and of Syneta betulae F. (Coleoptera, Chrysomelidae).
14149

A new sub-genus of Tetralobus (Coleoptera Elateridae).
14150

The Icelandic form of Carabus problematicus Hbst. (Col. Carabidae). A statistic treatment of subspecies.
14152

Contribution to the knowledge of Colombian fauna of the Cicadellidae.
14153

On the diagnostics of certain species of springtails of the genera Folsomia Willem and Pseudofolsomia Gen. Nov. (Collembola, Isotomidae) recorded in the middle Volga region.
14156

A new species of Acmaeodera (Coleoptera, Buprestidae).
14158

The Indo-Australian species of the ultor-group of Apanteles Forster (Hymenoptera: Braconidae).
14159

The Rhaphidophoridae (Orthoptera) of Australia. Part 7. Pallidotettix, a new genus from the Nullarbor Plain, south-western Australia.
14160

A new species of Tertiary water bug from the Bechlejovice diatomites (Heteroptera, Belostomatidae).
14161

Identity of instars of apterous viviparae of Rhopalosiphum fitchii (Sanderson) and Toxoptera graminum (Rondani), (Aphididae, Homoptera).
14163

Rhyparochrominae types in the British Museum (Natural History) (Hemiptera: Lygaeidae).
14164

Communication regarding the existence of Cidaria (subgen. Calostigia) multistrigaria Hw. on the Kaiserstuhl Mountain in Baden.
14166

A new species of the genus Heterothops Steph. from Czechoslovakia (Col., Staphylinidae).
14167

A second Cephalothrips specie in Germany (Ins., Thysanoptera, Phlaeothripidae).
14168

Contribution to the fauna of the Congo (Brazzaville). Mission A. Villiers and A. Descarpentries. XLVII. Homoptera Cercopidae and Fulgoroidea.
14169

Coniopteryx remota Banks, further description and lectotype designation (Neuroptera, Coniopterygidae).
14171

What is Dasyscytus sordidus Fieber 1864 (Hem. Het. Miridae).
14173

Some phase characteristics of the southern African form of the desert locust (Schistocerca gregaria (Forskal)). 14187

A troglobitic staphylinid from Mexico (Coleoptera, Staphylinidae, Paederinae). 14211

Cytology and cytochemistry of spermatogenesis in two millipedes Phyllogonostreptus nigrolabiatus and Gonoplectus malayas. 14219

Sparrow mite Dermanyssus passerinus Berl. et Trouess, 1885. 14282

Genetical relationship and isolating mechanisms in Ananassae species subgroup (Sophophora, Drosophila). III. Chromosome behaviour during meiosis in D. bipectinata, D. malerkotliana and their hybrid. 14290

Epidemiology of tea blister blight (Exobasidium vexans). the genus Graphelysia Hampson, 1911 (Lepidoptera -Heterocerca). 14384

Studies on the parasitsm and control of tea root disease fungi in Ceylon. Heteroptera. 14448

Serological response in cattle to East Coast fever (Theileria parva infection) as measured by the indirect fluorescent antibody test. 14588

The persistence of drug resistance in strains of Eimeria species in broiler chickens following a change of coccidiostat. 14621

A new Strepsiptera parasite of the Jassidae Hom, Auchen. : Halictophagus languedoci, n. sp. 14710

Tenebrionidae collected by Mr. L. Bigot in southwestern Madagascar. 14712

Psilogamasus hurlbutti, n. g., n. sp., a new gamasid from Tanzania (Acarina, Anatotriches, Parasitidae). 14713

Palearctic pselaphids. New species and notes on synonymies. III. 14714

Studies on some Indian Arctiidae: Lepidoptera. 14715

Descriptions of three new reared Eulophidae (Hymenoptera) from Europe and Africa. 14716

Thysanoptera of France IV. 14717

A new Conisania Hps. from Sining with synonym notes (contributions to the knowledge of Noctuidae-Trifinae 154). 14718

A new speices of Brachylabis Dohrn (Dermaptera; Carcinophoridae) from Malaysia. 14719

A case of authorship, Melitaea rubicunda (Nymphalidae). 14720

The sphinx moths (Lepidoptera: Sphingidae) of Oklahoma. 14721

First records of eye-frequenting Lepidoptera from Nepal. 14722

Three new species of the genus Coleopterocoris and one new species of the genus Heleocoris (Hemiptera, Naucoridae). 14723

Contributions to the knowledge of the Mutillidae of the Argentine republic. II. The males of Ephutini Ashmead (Hyymenoptera). 14724

The subgenus Culex (Aedinus) Bourroul, 1904, new for the Argentine entomofauna, with the description of a new species (Diptera, Culicidae). 14725

Results of zoological investigations of Dr. Z. Kaszab in Mongolia. No. 171. (Col. Buprestidae). 14726

Contribution to the study of Caeculidae, 7th series, Microcaelulus franzi sp. n., sand living Caeculidae from Corsica. 14727

Notes on Argentine tabanids (Insecta, Diptera). VII. The tabanids of the Parana River delta. 14728

Butterfly collections in 1968. 14729

Insects, Lepidoptera. Leaf roller moths, Tortricidae, tribe Laspeyresiini. 14730

The synonymy of Petromachilis longicornis Reilly 1915 (Thysanura). 14731

Chromosome numbers in the Lysandra coridon group (Lep., Lycaenidae). 14732

Contributions to the study of Eumastacidae of Madagascar (Orthoptera-Eumastacidae). I. Revision of Miraculinae. 14734

Contributions to the study of Eumastacidae of Madagascar (Orthoptera-Eumastacidae). II. Pseudoschmidtiinae: Biological notes and new species. 14735

Two new species of Cosmopsaltria Stal from New Guinea (Homoptera, Cicadidae). 14736

Two new species of Culex from Brazil (Diptera, Culicidae). 14737

Taxonomy, distribution and biology of the genus Cercyonis (Satyridae). I. Characteristics of the genus. 14738

A new subspecies in the Cercyonis meadi group (Satyridae). 14739

Notes on Anobiidae (Coleoptera). XXXII. Anobiidae of the Spanish territories of the Gulf of Guinea. 14740

Two Ascogaster species (Hymenoptera, Braconidae), parasites of leafrollers (Lepidoptera, Tortricidae) in apple orchards, with different host selection. 14741

Contribution to the study of Cerambycidae of Mosambique. 14743

Contributions to the study of Cerambycidae of Mosambique. Description of a new species of the genus Dichostathes Thoms. (Tribe Crossotini). 14744

Contribution to the study of Scarabaeidae of Mosambique. Description of a new species of sub-genus Scarabaeolus Balthasar (genus Scarabaeus L., subfamily Scarabaeinae). 14745

Seven species of Culicidae (Diptera) new for the Argentine entomofauna. 14746

Two new species of cave-dwelling Pseudosinella (Insecta: Collembola). 14748

Additions to Coccidae of Spain . VII. Note. (Hem. Homoptera). 14749

Twelve new Hemiptera for the fauna of Majorca. 14750

The Bombyliidae (Diptera) of northern Ethopia. 14751

Annotated key to the Plusiinae moths of Florida (Lepidoptera: Noctuidae). 14752

Chrysomelidae of the Debdou mountains of Morocco. (Coleoptera). 14753

Contribution to the fauna of Iran. 15. Coleoptera. Tenebrionidae, genus Lobodera. 14754

Further observations on Sagittacridini, Gymnohippini and Geloiini. (Orth.: Pyrgomorphidae). 14755

A new species of Allodiopsis Tuom. (Dipt., Mycetophilidae) taken in Berkshire. 14756

A review of Glaucopsyche, the silvery blues in California (Lycaenidae). 14757

A new genus in Aphididae from southern France (Hom., Aphidoidea). 14758

Contribution to the study of the blood sucking Diptera of Turkey. The occurrençe of Musca (Philaematomyia) crassirostris Stein. (Diptera Muscidae). 14759

A new taxonomic criterion for cockroaches: The insertion of the Malpighian tubules. 14760

Review of Holarctic tarsonemid mites (Acarina: Prostigmata)parasitizing eggs of pine bark beetles. 14761

Results of the Peris-Alvarez expedition to the island of Annobon. (12). Mantodea, Tettigonoidea and Acridoidea I. (Orthoptera). 14762

A contribution to the knowledge of Argentine Scorpions. Ii. Considerations on the genus Bothriurus in Patagonia and Tierra del Fuego with the description of a new species (Bothriuridae). 14763

A new species and subspecies of genus Dysaphis born (Aphidoidea) from Tadjikistan. 14764

The larva of Sigara hellensi (C. Sahlb.) (Hem. Corixidae). 14765

A study of Meloidae. XX. On the genus Gorrizia Pardo and a new Sudanese species of the group Brunnipes (Klug). 14768

The genus Tryssotmele Simon, 1902 (Araneae, Dipluridae). 14769

The Haematopota of the Iberian Peninsula. II. Description of the male of Haematopota lambi Villen. 14771

The Corixidae (Hemiptera) of Oklahoma. 14773

Lygaeidae (Hemiptera) of Oklahoma. 14775

The genus Achetopus Tullgren 1905 (Araneae, Dipluridae). 14776

Diaspididae of Taiwan based on material collected in connection with the Japan-U. S. Cooperative Science Programme, 1965 (Homoptera: Coccoidea). Part I. 14778

Revision of the genus Saphanodes (Col., Cerambycidae, Disteniinae). 14780

Faunistic remarks on the west palearctic bees of the genus Andreana F. (Hymenoptera Apoidea). 14781

Aleochara verna Say (Col., Staphylinidae) new to Britain. 14783

A note on the genus Drosophilella Duda (Diptera; Drosophilidae). 14784

Remarks on the nomenclature and fauna of some west-palearctic Haplothrips species. (Thys. Phlaeothripidae). 14785

Systematic oligophagy of the central-European species of the genus Lithocolletis Hbn. and Argyresthia Hbn. (Lep.) on Prunoideae. 14823

A literature review of the spruce, western, and 2-year-cycle budworms Choristoneura fumiferana, C. occidentalis, and C. biennis (Lepidoptera: Tortricidae). 14852

Chromosome number in Tasar silkworm Antheraca mylitta Drury. 14902

The true taxonomic identity of a moth known as Rosquilla negra , a most distructive plague on our crops which corresponds to the scientific name of Spodoptera littoralis (B., 1833) (Lep. Noctuidae) (Lam. V.). 15309

Lycia hirtaria (Cl., 1759, a Geometridae not yet identified on all Spanish black poplar trees. (Lep. Geometridae). (Part VIII.). 15310

Section of captures (Lepidoptera)(Part IV). 15311

New mesostigmatid mites from Pakistan with keys to genera and species. 15312

A taxonomic synopsis of the tribe Loricerini (Coleoptera: Carabidae). 15313

The new Hermonassa wlk-species from Dr. H. Hone's chinese-crop. 15314

Endoparasitic chiggers: V. New genera, species and records from Venezuela and Brazil (Acarina: Trombiculidae). 15315

Two new species of argasid ticks (Ixodoidea, Argasidae) from Cuba. 15316

A new tortricid injurious to cedar in France (Lepidoptera). 15317

Revision of the genus Brachyhesma Michener (Apoidea: Colletidae). 15318

Culiseta marchettei, a new species of the subgenus Climacura Howard, Dyar, and Knab from Malaysia, with notes on its biology (Diptera: Culicidae). 15319

Quilaphoetosus, Chillanella and Haywardella, new genera of Satyridae of the Andes (Lepidoptera). 15321

The Lixus of beans, Lixus algirus (L.) (Col., Curculionidae) (Parts VI-VII). 15322

Ichneumon sarcitorius L., a parasite of a lepidopteran Hydraecia xanthenes (Germ.) (Hym. Ichneumonidae). 15323

Ixodes taglei n. sp. (Acarina: Ixodidae) a parasite of the deer, Pudu pudu (Wol.) in Chile. 15324

Study of Neotropical Ctenuchidae -- II Revision of the genus Tipulodes Boisd., 1832 (Lepidoptera -Heteroptera. 15327

Contribution to the knowledge of the species of existing Mallophaga in Spain (Anop. Mallophaga). 15328

Coleoptera of the delta of the Llobregat River. VI Notes. 15329

An addition to the Psenini of Spain (Hym. Sphecidae). 15330

Three new species of Guntherana Womersley and Heaslip (Prostigmata: Trombiculidae) from east New Guinea. 15331

A new species and new record of chiggers from west Malaysia (Prostigmata: Trombiculidae). 15332

Aedes in Mexico. Description of a new species of the subgenus Howardina (Diptera: Culicidae). 15333

Embiidae--an order of insects little known in Bulgaria. 15334

Contribution to the study of the family Arctiidae, on the genus Graphelysia Hampson, 1911 (Lepidoptera -Heterocerca). 15335

Results of a zoological expedition to the islands of Pitiusas III. Neuroptera and Odonata. 15336

Eumenidae captured in the district of Canet de Mar, province of Barcelona (Hym. Eumenidae). 15337

Summary of Syrphidae in Albarracin, province of Teruel, during the summer of 1965. (Dipt. Syrphidae). 15339

Data for a Hymenoptera atlas of Western Europe. X. The Xiphydriidae (Symphyta) family. 15340

Biological and morphological investigations of Brachycaudus spiraeae (Oestl.) C.B., an aphid pest of Spiraea (Homoptera: Aphididae): a contribution to the determination, to the specific morphology and chetotaxy of the aphid. 15380

The protective effect of hexachlorophane against infection with Fasciola hepatica. 15822

The effect of simultaneous treatment with hexachlorophene and nitroxynil upon immature Fasciola hepatica in rats and rabbits. 15829

Precipitating antibodies to infection with Fasciola hepatica in rabbits. Geometridae). (Part VIII.). 15830

INSECT TEMPERATURE

Migratorioides R. and F. I. Cuticular water loss. The control of water loss in Locusta migratoria. 11851

Factors affecting the infestation of aphids on potato plants. 14481

INSECT TRAPS

Ecological research on arthropods of a sandy beach of the Mediterranean. II. The migrations of Talitrus saltator (Montagu) (Crustacea-Amphipoda). 8122

Color and natural products attracting the adult sugarbeet root maggot in Southcentral Idaho. 8197

Fifty years of research on the pink bollworm in the United States. 8365

Releases of unsexed gamma-irradiated codling moths for population suppression. 8378

Concerning the validity of the capture results of insect traps, together with an attitude toward the work of H. Peters, Heidelberg, on synanthropic flies. 8784

Alate aphids trapped over 8 years at two sites in Canterbury, New Zealand. 8798

Observations on bird tanglefoot traps as a direct method of apple maggot control. 9014

Research on the ecological system of the forest. Series B: The mixed, calcicolous oaks of Virelles-Blaimont. Contribution no. 18. Coleoptera caught in 1965 and 1966. 9388

A lightweight collapsible bait trap for Lepidoptera. 9451

Effectiveness of a light trap in the protection of the health and productivity of corn. 9639

The defense of a corn crop against noxious insects by means of a light trap. 9640

The life histories and drifting of the Plecoptera and Ephemeroptera in a dartmoor stream. 10001

Mediterranean fruit flies and melon flies trapped at various heights with synthetic lures. 10032

Marking and recapture of California red scale for field studies. 10101

Easy-to-kill pests of fruit trees...codling moth. 10253

Cockchafers. 10518

Pygmy mangel beetle, (Atomaria linearis). 10724

Review of classical malaria control measures. 11433

Movement and oviposition of wheat bulb flies. 11781

Research on the ecological system of the forest. Series C: Oaks of Mesnil-Eglise (Ferage) with Galeoblolon and Oxalis. Contribution no. 5. Insects collected in water jars. 11819

A simplified trap for collecting adult pecan weevils. 12379

Distribution of the corn earworm on St. Croix, U.S. Virgin Islands, and its relation to suppression programs. 12387

Application of ovitraps in the U. S. Aedes aegypti eradication program. 12468

An appraisal of adult mosquito trapping techniques used in Nigeria, West Africa. 12534

A device for protecting experimental huts from molestation. 12536

Oviposition traps and population sampling for the distribution of Aedes aegypti (L.). 12543

Apparatus for removing overwintering adult rice water weevils from brunch grass. 12960

The ramp-trap, an unbaited device for flight studies of mosquitoes. 13052

Suppression of populations of pink bollworms in field cages with traps baited with sex attractant. 13061

A subsurface light trap for sampling aquatic insect populations. 13738

Traps, male lures, and a warning system for Queensland fruit fly, Dacus tryoni (Frogg.) (Diptera, Trypetidae). 13849

A study of the appearance of the cleonus of beets, Temnorrhinus (Cleonus) mendicus Gyll. 14273

Population of Myzus persicae Sulz. in potato crop at Patna. 15021

An oviposition trap for detecting the presence of Aedes triseriatus (Say). 15396

INSECT VECTORS

Trans-stadial and transovarial development of disease agents in arthropods. 8095

Recent fundamental work on tsetse flies. 8124

Fungal-insect mutualism in trees and timber. 8125

Ticks in relation to human diseases caused by Rickettsia species. 8136

Bionomics of Siricidae. 8162

Anopheles moucheti in Cameroon. 8163

Practical importance of insecticide resistance for malaria eradication in tropical Africa. 8273

Mosquito control in and around homes and farmsteads. 8274

Technical problems of malaria eradication in Africa. 8275

Entomological factors in persisting transmission of malaria in eradication programs. 8276

Viruses-agents of disease. 8281

Evidence of transovarial passage of the sowthistle yellow vein virus in the aphid Hyperomyzus lactucae. 8317

The presence in the vineyards of the Tessin of a nearctic cicadella, new for Switzerland, Scaphoideus littoralis Ball (Hom.Jassidae) a possible carrier of yellow flavescence. 8325

Restricted local spread of curly top in tomatoes. 8332

Syncytia formation of mosquito cell cultures mediated by type 2 dengue virus. 8480

The natural foci of human transmissive diseases. 8657

Corn stunt vector leafhopper attractancy to and oviposition preference for hybrid dent corn. I. Dalbulus maidis. 8732

The fine structure of Babesia ovis (Piroplasmidea) in Rhipicephalus bursa (Ixodoidea): Transformation of spherical forms to vermicules. 8754

Susceptibility of Anopheles (Myzomyia) stephensi to Plasmodium cathemerium. 8819

Lack of multiplication of simian virus 40 (SV40) in experimentally infected mosquitoes. 8854

The Simulium control scheme at Abuja, Northern Nigeria, and its effect on the prevalence of onchocerciasis in the area. 8919

Eradication of malaria and mosquito control in Italy. 8921

An hypothesis for selection of strains of potato leaf roll virus by passage through Physalis floridana. 8940

Occurrence of virus particles in the phloem tissue of BYDV-infected barley. 8962

Transmission of strawberry mottle virus by juice and aphids to herbaceous hosts. 9007

Additional evidence of multiplication of the sowthistle yellow vein virus in an aphid vector-serial passage. 9024

Culicidae and Tabanidae as potential vectors of anaplasmosis in Mississippi. 9107

Infection experiments with the cotton rat filaria Litomosoides carinii in Mastomys natalensis (Smith, 1834). 9127

On the inefficiency of transmission of Wuchereria bancrofti from mosquito to human host. 9518

Parasitological and clinical investigations on infections with the VS Romanian strain of Plasmodium malariae transmitted by Anopheles labranchiae atroparvus. 9519

Artificial feeding of Simulium vectors of human and bovine onchocerciasis. 9520

Effects of ultra-low volume applications of malathion in Hale County, Texas. 1. Western encephalitis virus activity in treated and untreated towns. 9521

Studies on the yellow fever in Ethiopia. 4. Entomological research at the Manera station. 9522

Studies on yellow fever in Ethiopia. 5. Isolation of virus strains from arthropod vectors. 9524

Chromatographie purification of the oat blue dwarf virus. 9547

Corn virus tests in Georgia in 1968. 9572

Present knowledge on the aphids in their relationships with virus diseases transmission. 9579

Transmission intensity of stolbur virus by means of Hyalesthes obsoletus Sign. on some host plants. 9619

Vectors of hoja blanca virus. 9627

Transmission of dwarf, yellow dwarf, stripe, and black-streaked dwarf. 9631

Influence of high temperatures on the pathogenicity and survival of Western X-disease virus in leafhoppers. 9632

The mite Aceria tulipae (Eriophyidae)--vector of the onion mosaic virus. 9641

Comparative electron micrographs of sowthistle yellow vein and vesicular stomatitis viruses. 9645

A 10-year survey of Trinidadian arthropods for natural virus infections (1953--1963). 9758

Pelecitus ceylonensis n.sp., from the chick and ash-dove experimentally infected with larvae from Mansonia crassipes, and from naturally-infected crows in Ceylon. 9767

Cockroaches (Blattaria) as vectors of food poisoning and food infection organisms. 9779

Microscopical studies on the development of Babesia ovis in Rhipicephalus bursa (Ixodoidea). I. Development in female ticks after repletion. 10013

A new species of Aedes (Stegomyia) from Thailand (Diptera: Culicidae). 10164

Research on the synantropic flies in the Sofia area, in regard to their epidemiological importance. 10165

Local lesion host for grassy shoot virus of sugarcane. 10224

Common leafhopper-planthopper populations and incidence of tungro virus in diazinon-treated and untreated rice plots. 10234

Comparative efficiency of transmission of aster yellows by Elymana virescens and Macrosteles fascifrons and the relative concentration of the causal agent in the vectors. 10238

Efficiency of three colonies of melon aphids as transmitters of Tristeza virus. 10258

Arthropods of medical importance in Australia and the Pacific Islands. 10511

Methods of quantitative determination of Rickettsia in ticks. 10537

Experience of extermination of pasture ticks in a natural focus of tularemia on the Island of Biryuchy. 10583

Experiments with feeding sandflies (Phlebotominae) on great gerbils (Rhombomys opimus Licht) under conditions approaching natural. 10584

On results of control of a tick vector of spirochaetosis in village foci of the Central Asian Republics. 10585

Summer death--a new disease of beans. 10619

The recurrence of Dutch elm disease in Colorado. 10663

Reversion disease and gall mite of black currant. 10670

Desmodium paniculatum, a perennial host of bean pod mottle virus in nature. 10674

Relationship of the green peach aphid to incidence and severity of lettuce mosaic. 10717

Forest pest conditions in California- 1968. 10718

Control of small-fruit pests and diseases 1967. 10719

Watermelon mosaic virus transmission and probing behavior by the green peach aphid as affected by physical agitation. 10734

Inactivation of virus inhibitors in aphids. 10741

Tick-borne diseases of cattle. 10910

Review of classical malaria control measures. 11433

Medical and veterinary entomology in the USSR. 11435

Pathogenicity of Trypanosoma rangelli for Rhodnius prolixus Stal in nature (Hemiptera: Reduviidae) (Kinetoplastida: Trypanosomatidae). 11437

Incidence of arthropod-borne encephalitic diseases in Mexico. 11438

Investigations on mycoplasma-like microorganisms in the jassid vector and in the plants infected by yellow viruses. 11468

Acquisition of maize dwarf mosaic virus by the greenbug, Schizaphis graminum. 11490

Plant viruses. Their characteristics and identification. 11507

The importance of insects for the dispersal of infectious oak wilt. 11534

Aceria tulipae in North Dakota. 11546

Control of equine piroplasmosis in Florida. 11590

Masonaphis maxima (Mason) (Homoptera: Aphididae), an aphid on thimbleberry with an unusual life history. 11816

Bandicota indica and sylvatic plague in Vietnam. 11913

Plant pathology. 11941

A contribution to the knowledge of the viruses and virussuspect diseases of oaks (Quercus spp.). 11949

Yellow leaf roll virus on the move. 11959

Change in transmissibility of bean yellow mosaic virus by aphids. 11984

Virogeographical studies on the clover phyllody virus and its vectors. 12019

Transmission of barley yellow dwarf virus (BYDV) in cereals by two aphid species, Rhopalosiphum padi (L.) and Macrosiphum miscanthi (Tak.). 12024

Information on a sap transmissible, seed-, fungus- and insect-borne new virus of garden pea. 12032

Transmission of strawberry crinkle virus by the dark strawberry aphid Chaetosiphon jacobi. 12059

Vectors of virus diseases of sugar beet and their economical importance in the Bydgoszcz voivodeship in the years 1957-1965. 12063

Report of the symposium on virus diseases of rice. 12074

The use of parasympathomimetic drugs to stimulate salivation in the tick Rhipicephalus appendiculatus, and the transmission of Theileria parva using saliva obtained by this method from infected ticks. 12187

Massive pulmonary acariasis in the pig-tailed macaque. 12188

Further studies on the Plasmodium berghei-Anopheles stephensi- rodent system of mammalian malaria. 12190

Transmission of Theileria annulata by the crushed infected unfed Hyalomma dromedarii. 12198

Tabanidae. 12336

Announcement of a map showing the distribution of Glossina in Eastern Cameroon. 12371

A ten year survey of Trinidadian arthropods for natural virus infections (1953-1963).(Abstract). 12403

Experimental transmission of Enterobacteriaceae by insects. I. Fate of Salmonella fed to the hide beetle Dermestes maculatus and a novel method for mounting insects. 12472

Notes on the biology of Anopheles hargreavesi (Evans), 1927, and Anopheles paludis Theobald, 1900, in the south of Yaounde (Cameroon), along the Nyong river. 12508

Practical implications of insecticide resistance in culicine mosquitoes. 12509

An appraisal of adult mosquito trapping techniques used in Nigeria, West Africa. 12534

Stempellia scolyti (Weiser) comb. nov. and Nosema scolyti sp. n. microsporidan parasites of four species of Scolytus (Coleoptera). 12540

Arbovirus studies in south Florida, with emphasis on Venezuelan equine encephalomyelitis virus. 12579

Entomological studies on the transmission of human malaria in a dense, humid forest zone, Sassandra region, Ivory Coast. 12580

Epidemic role of ticks of the genera Dermacentor and Ixodes persulcatus P. Sch. in mountain foci of tick-borne encephalitis depending upon activity of their attacks on man. 12581

New ecological data on vectors of human malaria in Africa. 12584

Factors affecting the transmission of filariae: The effect of parasitization by Brugia malayi in laboratory populations of Aedes aegypti. 12586

Transmission of Bancroft filariasis in the Ethiopian region. 12588

Control of Oriental rat flea in Vietnam with diazinon dust. 12591

The transmission of Bancroft filariasis (subperiodic form) in the islands of the South Pacific. 12592

Vector-induced modifications in a plant virus. 12614

The feeding sites in Sonchus oleraceus of Hyperomyzus lactucae, the aphid vector of lettuce necrotic yellows virus. 12635

Studies on the bacterial diseases of Sudan crops. VIII. Survival and dissemination of Xanthomonas phaseoli (E.F.Sm.) Dowson. 12657

Entomology. 12688

Evidence of transovarial passage of the sowthistle yellow vein virus in the aphid Hyperomyzus lactucae. 12689

On trichinellosis of animals in the North-Eastern USSR. 12747

Ecological specificity of intermediate hosts of Thelazia in cattle and the relation of their infective larvae to some unusual hosts. 12864

Revision of the genus Nephotettix (Hemiptera: Deltocephalidae). 12967

Colonization of Culiseta melanura (Coquillett) in the laboratory. 13143

Field tests with bed nets treated with repellents to prevent mosquito bites. 13220

History of mosquito occurrence in Missouri. 13227

Epidemiology of leafhopper-transmitted viruses. 13239

Identification and characterization of tungro, a virus disease of rice in India. 13262

D.P.I. tick fever vaccine for reliability. 13368

A feeding association between Hippelates (Diptera: Chloropidae) and Tabanidae on cattle: Its possible role in transmission of anaplasmosis. 13406

Review of recent literature on mosquitoes of North America. 13539

Studies on the gut contents of a suctorial collembolan Friesea mirabilis (Tullberg) (Insecta). 13684

Some recent developments and trends in vector control aspects of malaria eradication. 13733

An improved mechanical method of aspirating insects. 13737

Myxomatosis: The introduction of the European rabbit flea Spilopsyllus cuniculi (Dale) into Australia. 13742

Development of young pear trees with different rootstocks in relation to Psylla infestation, pear decline, and leaf curl. 13778

Varietal differences in oat blue dwarf virus resistance and symptom expression. 13781

Effects of aphid-transmitted viruses on the strawberry cultivars Northwest and Columbia. 13813

Kernel red streak of dent corn. 13821

Bunchy top disease of bananas in the central highlands of South Vietnam. 13822

Transmission of pea leaf rolling virus by aphids. 13845

Reaction of dent corn inbreds and hybrids to Aceria tulipae and wheat streak mosaic virus. 13861

Investigations on the role of flies in the passive transmission of experimental mycosis in guinea pigs. 13960

DNA-MEASUREMENTS in insects and a hypothesis concerning retarded evolution and especially high DNA content in the animal kingdom. 14185

Isolation of viruses of the California encephalitis virus group from boreal Aedes mosquitoes. 14216

Lysozyme action in the cockroach--blood changes. while probing intercellularly. 14279

Studies on virus diseases of strawberrries in the Western Cape Province. I. Degeneration of locally bred strawberry cultivars. 14355

Lucerne bud mite recorded from New South Wales. 14364

A veinbanding virus of groundnuts, Arachis hypogaea L. 14387

An evidence for the multiplication of rice dwarf virus in the vector cell cultures inoculated in vitro. 14409

Greenhouse testing of sugar beets for resistance to curly top. 14446

Radish enation mosaic virus. 14465

Note on the transmission of northern cereal mosaic virus by Muellerianella fairmairei (Perris). 14484

Various problems on vectors of rice viruses. 14492

Transmission experiments with the latent Prunus-virus and the gall mite Vasates fockeui Nal. 14495

Further experiments regarding the clarification of the connection between the beet lacebug Piesma quadratum (Fieb) and the beet crinkle virus. 14499

Occurrence of tick-borne encephalitis virus neutralizing antibody in aquatic birds in central Europe. 14565

The prevalence of Babesia bovis (Babesia argentina) in the brains of slaughter cattle in Northern Nigeria. 14568

Furuncular Tumbu Fly Myiasis of man in Gabon, equatorial Africa. 14572

The protection of a small group of Nigerian trade cattle from trypanosomiasis using samorin. 14580

Kerato-conjunctivitis in cattle in the plateau area of Northern Nigeria. A study of Thelazia rhodesii as a possible aetiological agent. 14634

Contribution to the study of the blood sucking Diptera of Turkey. The occurrence of Musca (Philaematomyia) crassirostris Stein. (Diptera Muscidae). 14759

The isolation of the Calovo virus from the mosquitoes of the group Anopheles maculipennis in southern Moravia. 14881

Possible courses for the disappearance of malaria in the Netherlands. 14909

Note on the presence of the barley yellow dwarf in France. 14935

Discontinuous transmission of clover phyllody by Euscelis plebejus Fall. 14940

Comparison of the effect on beet seed production of spring and fall infestations of beet leafhoppers carrying curly top virus. 14955

Assessment of crop losses caused by rosette disease of groundnut. 14960

Studies on a mosaic disease of Tylophora indica (Burm. F.) Merr.. 14987

Note concerning a virus of Carthamus tinctorius . 14994

Identification of the causal agent of a Malva disease present in Italy. 15018

The use of systemic insecticides to reduce the incidence of curly top virus disease in sugarbeets. 15019

Role of the jassid Aphrodes bicinctus Schrk (Hom., Auchen) in the transmission of some white clover diseases. 15020

Erradication efforts against tropical bont tick, Amblyomma variegatum, in the Virgin Islands. 15199

Grain storage fungi associated with mites. 15228

Vegetable insects. 15668

Livestock and poultry insects. 15812

Insects on humans. 15814

Storage insects. 15836

Use of the torpil oranver granule applicator for placement of granular insecticides in coconut leaf axils. 15919

INSECTICIDE DECOMPOSITION

Degradation and anticarboxylesterase activity of disulfoton and phorate after 60Co gamma irradiation. 10465

INSECTICIDE RESIDUAL ACTIVITY

Mode of action, translocation, oxidation, and decomposition of insecticides within the rice plants. 8581

Mode of action of insecticides on the rice stem borer and development of resistance. 8884

INSECTICIDE RESIDUES

Azodrin for corn earworm and fall armyworm control and its persistance in sweet corn. 8069

Distribution of insecticides sprayed by airplane on an irrigated corn plot. in: Organic pesticides in the environment; symposium...American Chemical Society, Atlantic City, N.J., Sept. 13-15, 1965. robert J. gould, ed. 8350

Effects of pesticides on raw wastewater. 8524

Techniques and preliminary data of the movement of DDT and Zectran through a forest soil. 8525

Persistence of pesticides in orchards and orchard soils. 8531

Persistence of pesticides in orchards and orchard soils. in; Organic pesticides in the environment; symposium...American Chemical Society, Atlantic City, N.J., Sept. 13-is, 1965. robert J. gould, ed. 8532

Pesticide drift. I. High-clearance vs. aerial application of sprays. 8533

Residue tolerances set for DDT in milk. 8536

Chlorinated insecticides in the body fat of people in the United States. 8538

Co-distillation clean-up for DDT residues estimation. 8539

Distribution of insecticides sprayed by airplane on an irrigated corn plot. 8543

Rapid cleanup of dairy products for analysis of chlorinated insecticide residue by electron capture gas chromatography. 8546

DDT. in: Zweig, Analytical methods for pesticides, plant growth regulators, and food additives. vol. ii. insecticides. 8549

Note on improved extraction for chlorinated pesticide residues in oysters. 8551

DDT residues in Adelie penguins and a crabeater seal from Antarctica. 8552

Pesticide drift. II. Mist-blower vs. aerial application of sprays. 8555

Insecticide-resistant fishes: A potential hazard to consumers. 8562

Response of robins to DDT and methoxychlor. 8565

Distribution of pesticide residues in human body tissues from Montgomery County, Ohio. in: Organic pesticides in the environment; symposium...American Chemical Society Atlantic City, N.J., Sept. 13-15, 1965. robert J. Gould, ed. 8573

Role of intestinal microflora in the degradation of DDT by rainbow trout (Salmo gairdneri). 8575

Respiratory exposure of dairy animals to pesticides. in: Organic pesticides in the environment; symposium...American Chemical Society, Atlantic City, N.J., Sept. 13-15, 1965. robert J. gould, ed. 8576

GLC determination of residues of disulfoton, oxydemetonmethyl, and their metabolites in tobacco plants. 8596

Thin layer densitometric determination of rotenone and deguelin. 8597

Studies on the effect of sulfuric-fuming nitric acid treatment on the analytical characteristics of toxaphene. 8603

Comparison of four extraction and cleanup procedures for chlorinated pesticide residues in eggs. 8610

Chlorinated insecticides in the body fat of people in the United States. 9149

Response of robins to DDT and methoxychlor. 9152

Studies on the effect of sulfuric-fuming nitric acid treatment on the analytical characteristics of toxaphene. 9153

Residues of Thimet on green and on field-dried alfalfa. 9160

Improved gas chromatographic systems for determining organochlorine pesticide residues in wildlife. 9161

Parathion and lindane in the control of the spruce gall aphid. 9346

Legal aspects of crop spraying. 9398

Notice of withdrawal of petition regarding pesticides. 9794

Concentration of two 1,4-benzoxazinones in dent corn at various stages of development of the plant and its relation to resistance of the host plant to the European corn borer. 9796

Estimation and dissipation of parathion residue from the crop of Indian rape seed. 10048

Consequences of insecticide use of nontarget organisms. 10402

GLC determination of residues of disulfoton, oxydemetonmethyl, and their metabolites in tobacco plants. 10404

DDT in fats on Antarctic animals. 10405

Problems with DDT in fish culture operations. 10406

Uptake of dieldrin by isolated perfused gills of rainbow trout. 10408

Collaborative study of confirmative procedures by single sweep oscillographic polarography for the determination of organophosphorus pesticide residues in nonfatty foods. 10409

Industry's concern with pesticide residues. 10411

Peacock plasma, a useful cholinesterase source for inhibition residue analysis of insecticidal carbamates. 10419

Trapping of dieldrin lost from aqueous algae cultures. 10420

Chemistry of insecticides. 10463

Comparison of ten methods for the analysis of milk for residues of chlorinated pesticides. 10470

Rapid method for the extraction, cleanup, and GLC determination of toxic residues of temik. 10471

Collaborative, study of the sweep co-distillation cleanup for chlorinated pesticide residues in edible fats and oils. 10472

Evaluation of extraction and cleanup methods for analysis of DDT and DDE in green alfalfa. 10480

The use of Daphnia pulex De Geer for the detection of insecticides extracted from plants. 10523

Biological effects and persistence of dursban insecticide in a salt-marsh habitat. 10545

Notice of filing of petition regarding pesticide chemicals. 10930

Notice of filing of petition regarding pesticide chemicals. 10931

Rates of accumulation of C-14-dieldrin residues in tissues of goldfish exposed to a single sublethal dose of C-14-aldrin. 10938

The effect of some insecticides on the animal organism. A contribution to the study of the hygienic-sanitary problem of the residues of the organophosphorus insecticides. 10939

Dursban insecticide persistence in grass and corn forage. 10941

The effect of chlorophos upon the content of certain vitamins in the tissue of rats. 10942

A study of the toxicity of an organophosphorus insecticide and its residues. 10946

Residual insecticides for use against tsetse flies in Rhodesia. 11640

Occurrence and significance of pesticide residues in water. 11665

Carbofuran. Notice of establishment of temporary tolerances. 11671

Isopropyl 4,4`-dibromobenzilate. Notice of establishment of temporary tolerance for pesticide chemical. 11672

Significance of organochlorine insecticide residues in fresh plants as possible contaminants of milk and beef products. 11675

A carboxylesterase inhibition assay to estimate parathion, malathion and diazinon in lettuce extracts. 11676

Method for determining the fenthion residues in olives and olive oil. 12211

Crop seedling uptake of DDT, dieldrin, endrin, and heptachlor from soils. 12213

Fensulfothion and Bayer 37289 residues on pasture. 12214

Determination of organochlorine insecticides in soils and waters. 12220

Identification of metabolites of dieldrin (HEOD) in the faeces and urine of rats. 12221

Detrimental insects and fighting against them. IV. Tendencies to limit chemical warfare. 12225

Toxicity, control, and residue studies with DO-14 (2-(p-tert-Butylphenoxy) cyclohexyl 2-propynyl sulfite) as an acaridicide against the citrus red mite. 12673

Laboratory evaluation of malathion as a storage protectant for figs. 12879

Analysis of crops and soils for residues of chlorfenvinphos insecticide and its breakdown products. 12887

The effects of dieldrin on diatoms. 13436

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O-Ethyl S,S-dipropylphosphorodithioate. 13447

Residues of organochlorine insecticides in dead birds in the United Kingdom. 13464

Spectrophotofluorescent and spectrophotophosphorescent data on insecticidal carbamates and the analysis of five carbamates in milk by spectrophotofluorometry. 14045

Residue studies of fenthion (Baytex) and Dursban in Central California pastures. 14053

The metabolism of contact insecticides in stored grains. 14054

Screening methods for organochlorine and organophosphate insecticides in foods and feeds. 14055

A new flash injector for gas chromatography of organophosphorus insecticides. 14057

Organochlorine insecticide residues in complete prepared meals: A 12-month survey in S. E. England. geometrical isomers of chrysanthemic, pyrethric and related acids and optical isomers of cinerolone and allethrolone. 14657

Determination of insecticide residue in animal and plant tissues. iV: Determination of residual amount of Sumithion and some of its metabolites in fresh milk. 14659

Effect of temperature and humidity on the toxicity and persistence of parathion, malathion and endrin deposits. 15039

DDT in adipose tissue of animals and birds. 15237

The determination of DDT and its metabolites residues in egg products for export by means of gas chromatography. 15239

Determination of chlorinated hydrocarbons in fats of men not professionally in contact with pesticides. 15246

From studies on residues of DDT, lindane and DMDT in soil. 15250

Residues on the sugar beet leaves of DDT applied to control the leaf-eating pests. 15254

Effectiveness of insecticidal residues on U. S. Army. tenting against Anopheles ssp.. 15440

Comparison of larval bioassay and chemical analysis for assessing aerial spray deposits. 15452

Dasanit insecticide for superior control of corn rootworm. 15645

Diffusion of organophosphorus insecticides in soils. 15853

Degradation of commercial DDT in silage. 15854

Pesticyde residues in foodstuffs in Great Britain. XII. Organochlorine insecticide residues in hen's eggs from battery, deep-litter and free-range systems and from houses containing insecticide thermal vaporisers. 15856

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Food additives 2,2-dichlorovinyl dimethyl phosphate. 15858

Tolerances and exemptions from tolerances for pesticides chemicals in or on raw agricultural commodities. O,Odiethyl S-2-(ethylthio)ethyl phosphorodithioate. 15859

Notice of filing of petition regarding pesticide chemical. 15860

Notice of filing of petition regarding pesticides. 15861

Notice of filing of petition regarding pesticides. 15862

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O,O-Dimethyl S-(4-Oxo-1,2,3-Benzotriazin-3(4H)-ylmethyl) Phosphorodithioate. 15865

Notice of filing of petition regarding pesticide chemicals. 15866

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities, Malathion. 15868

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O-Odiethyl O-3-chloro-4-methyl-2-oxo-2H-1-benzopyran-7-yl phosphorothioate. 15869

Persistence and effectiveness of thionazin against potato aphids on three soils in southern England. 15872

INSECTICIDE RESISTANT INSECTS

The length of larval stage in Pyrethroid-resistant and susceptible strains of the house fly, Musca domestica L. 8131

The effect of larval density on mortality of Culex pipiens fatigans due to DDT and dieldrin. 8137

Toxicology and physiology of DDT resistance in the German cockroach. 8138

Persistence of resistant populations after the relaxation of the selection pressure. 8144

Absorption of DDT and metabolism of DDT and related compounds by DDT-RESISTANT codling moths. 8180

Dieldrin resistance in Lucilia sericata (Meig) from Co. Dublin, Eire. 8188

The susceptibility of Culex pipiens molestus forskal in Israel to several insecticides in 1958-1960 and in 1965. 8272

Practical importance of insecticide resistance for malaria eradication in tropical Africa. 8273

Technical problems of malaria eradication in Africa. 8275

Entomological factors in persisting transmission of malaria in eradication programs. 8276

Superflies beat dichlorodiphenyltrichloroethane. 8697

Resistance to Telodrin in the German cockroach, Blattella germanica. 8731

Effect of DDT on incorporation of C14-labeled glucose into protein and soluble intermediates of nymphal Triatoma infestans. 8743

Seed-corn maggot resistance to aldrin in Illinois. 8767

The group effect in the tests on insecticide resistance in Aedes aegypti. 8847

Antiresistant DDT continues to offer superior fly control. 8849

A laboratory testing programme for assessing field performance of acaricides against Tetranychus urticae (Koch). 8857

Mode of action of insecticides on the rice stem borer and development of resistance. 8884

Organising an eradication programme for Aedes aegypti in the USA. 8922

Changes in susceptibility of screw-worm flies to the chemosterilant N,N'-tetramethylenebis(1-aziridinecarboxamide), with time of administration. 9362

Inheritance of DDT-RESISTANCE in Musca domestica nebuld Fabr. 10096

Selection for lindane resistance in Dermestes maculatus de Geer (Coleoptera, Dermestidae). 10114

Toxicity of selected acaricides to susceptible and resistant strains of Tetranychus urticae Koch. 10128

On the determination of insect and mite resistance to pesticides. The influence of these products in sublethal doses on animals and in the trophic effect following biochemical repercussions on plants.
10149

Biochemical genetics of insecticide resistance in the housefly.
10163

An investigation of the Culicidae of Charente-Maritime; The occurrence of the genus Mansonia Blanchard 1901: M. (Coquillettidia) richiardii (Ficalbi) 1896 and M. (C.) buxtoni (Edwards) 1923.
10500

On the subject of certain limits noted in the control of the seed-corn maggot.
10519

Corn rootworm control in South Dakota with notes on wireworm and cutworm control.
10520

A survey of resistance to dieldrin-group in the German cockroach, Blattella germanica, collected from Kawasaki, japan.
10563

DDT-DEHYDROCHLORINASE activity in house fly strains resistant to various groups of insecticides.
10579

Possible pleiotropism of a gene conferring resistance to DDT, DDT analogs, and pyrethrins in the house fly and Culex tarsalis.
10581

The relative susceptibility of the larvae of Spodoptera mauritia acronyctoides (Guenee) (Lepidoptera: Noctuidae) to several contact insecticides.
11221

The appearance of resistance in the larva of the cotton rootborer weevil to the action of chlorinated hydrocarbons under laboratory conditions.
11348

Resistance to insecticides of three strains of Musca domestica L. from Brisbane, Queensland.
11351

The susceptibility to insecticides of Cydia pomonella (Linneaus) (Lepidoptera: Tortricidae) from Queensland.
11381

A practical trial of pyrethrins-in-oil surface sprays for the protection of bagged grain against infestation by Cadra cautella (Wlk.) (Lepidoptera, Phyctidae) in Kenya.
11659

The development of Pentac resistance in an outcrossing swarm of the two-spotted spider mite.
11860

The phenomenon of cross resistance in insects: Empirical, theoretical, and genetical considerations.
11907

Study of the stability of paper impregnated with oily solutions of OMS 33 (carbamate) and OMS 43 (oranophosphorous compound). Susceptibility of females of various species of African Culicidae to OMS 33 and OMS 43.
12420

The occurrence in Madagascar of resistance to dieldrin in the form B of the Anopheles gambiae complex.
12435

Failure of laboratory colonies of body lice to develop resistance to malathion.
12437

Mosquito control.
12457

Longevity, resistance to deprivation of food and water, and susceptibility to malathion and DDT of Oriental fruit flies, melon flies, and Mediterranean fruit flies sexually sterilized with tepa or radiation.
12479

Practical implications of insecticide resistance in culicine mosquitoes.
12509

Resistance to dieldrin of Culex pipiens fatigans in the city of Bobo-Dioulasso (Upper Volta). Methods of study and genetic determinism.
12563

Pear Psylla control studies.
12669

Variation in the response to endrin of progeny from pairs of bollworms.
13002

Metabolism of cholesterol-4-C14 in insecticide-resistant and susceptible strains of aseptically reared house flies, Musca domestica.
13014

The influence of age and concentration of fumigant on the susceptibility of pupae of Tribolium castaneum (Herbst) (Coleoptera, Tenebrionidae) to methyl bromide.
13019

Malathion resistance in Aedes sollicitans (Walker) from Langley Air Force Base, Virginia.
13096

Tests on susceptibility of Culex gelidus Theobald to DDT, dieldrin and BHC in Thailand.
13097

Susceptibility of six anopheline species from Thailand to insecticides.
13098

Resistance of Culex tritaeniorhynchus Giles and Culex quinquefasciatus Say to malathion on Okinawa with notes on susceptibility to other insecticides.
13196

Oil larvicides applied by aircraft in an area characterized by resistance to organophosphorus larvicides.
13223

Cockroaches.
13425

Methodology employed in the California mosquito larvicide resistance surveillance program.
13629

Aerial insecticidal sprays against resistant saltmarsh mosquitoes Aedes taeniorhynchus (Wiedemann) and Aedes sollicitans (Walker).
13736

The sheep blowfly's tolerance of insecticides (Lucilia cuprina).
14295

Hard-to-kill pests of fruit trees;the mites.
14488

Studies on the insecticide resistance of the tea red spider mite, Tetranychus kanzawai Kishida. II. The mite resistance to phenkapton, estox, and kelthane in the tea growing areas in Japan.
14493

Fine structure of leukocytes adhering to the cuticle of Ascaris suum larvae. II. Polymorphonuclear leukocytes.
14638

The toxicity of contact insecticides to seed-infesting insects. Tests with bromophos on maize.
14832

The problem of resistance against insecticides in connection with integrated methods for plant protection.
14884

Effects of insecticidal treatment on the biology of surviving insects.
15029

Research concerning secondary effects of chlorcholinchlorid (CCC).
15341

Contributions to the study of one aspect of the resistance to insecticides. II. The shock effect multiple or discontinuance insect-insecticide contact.
15358

Contribution to the study of one aspect of the resistance to insecticides. i. The schock effect.
15399

Attempts to combat the strains of carrot and onion flies resistant to organo-halogen insecticide products.
15401

A study of factors affecting the susceptibility of mosquito larvae to insecticides in laboratory resistance tests.
15450

Problems posed by Acarina to floriculture.
15637

INSECTICIDE SUSCEPTIBLE INSECTS

A laboratory testing programme for assessing field performance of acaricides against Tetranychus urticae (Koch).
8857

INSECTICIDE SYNERGISTS

Bi-modal effect of piperonyl butoxide on the o- and p-hydroxylations of biphenyl by mouse liver microsomes.
8566

Mode of action of insecticide synergists.
8569

Thin-layer chromatography of rat bile and urine following intravenous administration of pesticidal synergists.
9171

Spectra and analyses of insecticide synergists and related compounds containing the methylenedioxyphenyl group by spectrophotofluorometry (SPF) and spectrophotophosphorimetry (Ssp).
14105

Pyrethroid-like biological activity of compounds lacking cyclopropane and ester groupings.
15300

INSECTICIDE TRIALS

A laboratory testing programme for assessing field performance of acaricides against Tetranychus urticae (Koch).
8857

Laboratory evaluation of insecticides against white-fringed weevil (Graphognathus leucoloma (Boheman) (Coleoptera: Curculionidae)) larvae.
10131

INSECTICIDES

The selective control of simulium larvae by particulate insecticides and its significance in river management.
8020

Controlling wasps.
8071

The old house borer in Eastern States.
8076

Adult housefly control agents. Patent 3,454,638.
8111

Alkyl 2-methylpropenyl ketoxime carbamates. Patent 3,454,642.
8117

The effect of larval density on mortality of Culex pipiens fatigans due to DDT and dieldrin.
8137

Toxicology and physiology of DDT resistance in the German cockroach.
8138

Use of the multiple regression equation in the prediction of the insecticidal activity of anticholinesterase insecticides.
8143

Persistence of resistant populations after the relaxation of the selection pressure.
8144

On the effect of synthetic synergists upon the knockdown speed of pyrethroids against larvae of the common house mosquito, Culex pipiens pallens Coquillett.
8158

Anopheles moucheti in Cameroon.
8163

Dieldrin resistance in Lucilia sericata (Meig) from Co. Dublin, Eire.
8188

Effects of sub-lethal dosages of parathion and carbaryl on the biology of Dysdercus koenigii Fabricius.
8191

Insecticide-cytoplasmic interactions in insects and vertebrates.
8203

Pollen gathering of honey bees reduced by pesticide sprays. 8205

Mosquito control in and around homes and farmsteads. 8274

Entomological factors in persisting transmission of malaria in eradication programs. 8276

Control of bacterial spot of peach in New Jersey. 8288

Grain aphids in New brunswick. IV. Effects of malathion and 2,4-D amine on aphid populations and on yields of oats and barley. 8320

Corn borer outlook. 8321

Fire on fire ants . 8322

Double your cotton yield by spraying. 8324

Forest entomology. 8328

Chemical control of a species of the false chinchbug group on wheat and sugar beets. 8336

Greenbug control in grain sorghum. 8337

How to control insects on field tobacco. 8347

Experiments on the insecticidal control of Oxycanus fuscomaculatus Walker (Lepidoptera: Hepialidae). 8348

Developments in insecticide control of the rice stem borer in Japan. 8356

Fifty years of research on the pink bollworm in the United States. 8365

Insecticide treatment of seed, as a control method of the maize leaf weevil (Tanymecus dilaticollis Gyll.). 8369

Topical, fumigation, and residual toxicity of insecticides to rice stem borers. 8374

Impact of parasites, predators, and diseases on rice pests. 8380

Effect of gamma radiation on the insecticidal efficiency of malathion deposits on wheat and kraft paper. 8519

Dieldrin effects in two generations of penned hen pheasants. 8537

Tolerances of three species of anuran amphibians to five chlorinated hydrocarbon insecticides. 8541

Insecticide-resistant fishes: A potential hazard to consumers. 8562

Response of robins to DDT and methoxychlor. 8565

Hazards of insecticides and residue problems in rice cultivation. 8574

Insecticidal-germicidal compositions of quarternary ammonium ortho phenyl phanate halide complexes. Patent 3,458,629. 8593

GLC determination of residues of disulfoton, oxydemetonmethyl, and their metabolites in tobacco plants. 8596

Shell's versatile products Aldrite 4, Dieldrite 1.5 Vaponite 2 formulated for all P.C.O. business. 8613

Superflies beat dichlorodiphenyltrichloroethane. 8697

Mixtures of dichlorvos, pyrethrins and dimethrin in aerosols for controlling houseflies. 8708

Effect of DDT on incorporation of C14-labeled glucose into protein and soluble intermediates of nymphal Triatoma infestans. 8743

Lannate - a new insecticide for the control of the giant looper and other pests. 8751

Mode of entry of contact insecticides. 8758

Field evaluation of three granular systemic insecticides for control of the aphids Eulachnus agilis and Cinara pinea on scotch pine. 8782

Studies on chrysanthemic acid. Part XVIII. A new biologically active acid component related to chrysanthemic acid. 8806

Trithion-a new acaricide. 8814

Experiments with Beauveria bassiana (Bals) Vuill. against Blastophagus piniperda L. (Col., Scolytidae). 8822

A laboratory testing programme for assessing field performance of acaricides against Tetranychus urticae (Koch). 8857

Physico-chemical studies on the absorption of pesticides by the insect cuticle and peneration to the insect body. 8874

Mode of action of insecticides on the rice stem borer and development of resistance. 8884

Insecticide studies of the maize stalk borer, Busseola fusca (Fuller), in East Africa. 8893

Mode of action of natural insectides. 8906

Sugar-cane moth borers in the Caribbean. 8974

Current status of brown soft scale in citrus groves of the lower Rio Grande Valley. 9009

Effect of insecticides on ant and spider populations in Louisiana sugarcane fields. 9015

Chemical control of the juniper webworm on Irish juniper. 9016

Some ecological observations and results of the control of Argyresthia fundella F. R. 9022

Further evaluation of animal systemic insecticides, 1968. 9126

Notice of filing of petition regarding pesticide chemicals. 9150

Notice of filing of petition regarding pesticide chemicals. 9151

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. p-Chlorophenyl-2,4,5-trichlorophenyl sulfide. 9155

Improved gas chromatographic systems for determining organochlorine pesticide residues in wildlife. 9161

Survival of fish in 164 herbicides, insecticides, fungicides, wetting agents and miscellaneous substances. 9167

Comparative toxicites of insecticides to house fly larvae and Macrocheles muscaedomestica, a mite predator of the house fly. 9168

Radiotracer studies on metabolism, degradation, and mode of action of insecticide chemicals. 9169

Acute cutaneous toxicity of certain organophosphorous insecticides. I. Lebaycid. 9172

Susceptibility of male and female mice to the mephrotoxic and hepatotoxic properties of chlorinated hydrocarbons. 9174

Mortality of the earthworm Lumbricus terrestris L. following soil applications of insecticides to a tobacco field. 9175

Comparative mechanisms of insecticide binding with nerve components of insects and mammals. 9176

The effects of combinations of preemergence herbicides and systemic insecticides on cotton stands and yields. 9196

Gas chromatographic determination of ethyl O,O-dimethyl-dithiophosphoryl-l-phenyl acetate in technical grade cidial and its 50 percent liquid formulation. 9216

Report on chlorinated insecticides. 9219

On a spray reagent for thin-layer chromatographic detection of a cholinesterase inhibiting insecticide. 9223

Chemical industry produces insecticides as aid to growers in meeting demands of consumers, dr. Ferguson points out. 9225

The optinum size for insecticide spray droplets. 9231

Analysis of a single crop extract for substituted urea herbicides and metabolites, chlorinated insecticides, and amitrole. 9239

Organophosphorus insecticides. Patent 3,432,599. 9249

Capsule controls fire ant. 9336

Control of plant bug complex. 9368

Biological observations on Zeuzera pyrina L. in Sicily. (Lep. Cossidae). 9417

Esterase inhibition in malathion poisoning in the desert locust, Schistocerca gregaria Forskal. 9423

Metabolism of 2,2-dimethyl-2,3-dihydrobenzofuranyl-7 Nmethylcarbamate (Furadan) in plants, insects, and mammals. 9424

Comparison of systemic insecticides by dip treatments for control of the cottonwood leaf beetle. 9436

Metabolism of insecticides. Microsynthesis of 14C-betadihydroheptachcor. 9452

A comparison of the effect of diazinon, chlorfenvinphos and of Bayer 37289 against the cabbage fly. 9466

Causes of the varied behavior of the black bark beetle of olives (Hylesinus oleiperda Fabr.) in Dalmatia. 9488

Studies on nicotinoids as an insecticide. Part VII. Cholinesterase inhibition by nicotinoids and pyridylalkylamines--its significance to mode of action. 9508

Effects of ultra-low volume applications of malathion in Hale County, Texas. I. Western encephalitis virus activity in treated and untreated towns. 9521

Progress report of low-volume aerial spray tests against adults of Aedes taeniorhynchus (Weid.) and Culex nigripalpus Theob. 9523

Horticultural handbook. 9537

1968 cranberry insect and disease control chart. 9557

Pepper production in Kentucky. 9558

The chemical control of the diplopoda of beets. 9622

A current review of the use of insecticides in agriculture. 9625

Efficacy of disulfoton for control of the green peach aphid, Myzus persicae, on peppers. 9628

Next move against the grassgrub. 9630

Commercial vegetable insect control. 9633

Crop seedling uptake of DDT, dieldrin, endrin, and heptachlor from soils. 9663

Oxidation of methyl- and dimethylcarbamate insecticide chemicals by microsomal enzymes and anticholinesterase activity of metabolites. 9740

The effect of DDT on reproduction in mice. 9759

Studies on the safety of plastic dog collars containing dichlorvos. 9761

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 2-(p-tertbutylphenoxy)cyclohexyl 2-propynyl sulfite. 9791

Acute and subchronic toxicity of a new fluorine pesticide, N-methyl-N-(1-naphthyl) fluoroacetamide. 9810

Determination of hydrolytic metabolites of organophosphorus insecticides in cow urine using an improved thermionic detector. 9820

The influence of insecticides, acaricides and fungicides on the biocenosis of fruit cultures. 9844

Heterogeneity values of insecticide, fungicide or herbicide deposits and of their residues. 9853

The application of potentiostatic polarography with three electrodes to the dosage of insecticide and fungicide preparations. 9854

Syntheses of 14C-labeled pyrethrin I, allethrin, phthalthrin, and dimethrin on a submillimole scale. 9859

Studies on the susceptibility of different stages of Bagrada cruciferarum Kirkaldy to some organic insecticides. 10043

Estimation and dissipation of parathion residue from the crop of Indian rape seed. 10048

Biological interaction between plasticizers and insecticides. 10058

The absorption of p,p'-DDE by larvae of Aglais urticae (Lepidoptera: Nymphalidae). 10078

Selection for lindane resistance in Dermestes maculatus de Geer (Coleoptera, Dermestidae). 10114

Variability in insecticide tolerance of eighteen honey-bee colonies. 10125

Laboratory evaluation of insecticides against white-fringed weevil (Graphognathus leucoloma (Boheman) (Coleoptera: Curculionidae)) larvae. 10131

Beetle. 10137

Growers join forces to battle the boll weevil. 10233

A comparison of malathion, diazinon, fenitrothion and dichlorvos for control of Sitophilus oryzae (L.) and Rhyzopertha dominica (F.) in wheat. 10237

Biology and control of leopard moth on pear trees in the United Arab Republic. 10242

A review of the use of insecticides on the main agricultural crops of the world--3. Section 3: Cotton. 10245

Treatment of mustard and radish seeds for the control of mustard sawfly, Athalia proxima Klug. at seedling stage. 10251

Easy-to-kill pests of fruit trees...codling moth. 10253

Toxicity of eight insecticides to the coccinellid predator Chilomenes sexmaculata Fabr.. 10262

Chemical control of Drosicha mangiferae (Green), a serious pest of Citrus spp. in Madhya Pradesh. 10263

Studies on the control of the red hairy caterpillar, Amsacta moorei Butler. 10266

Control of Brachyrhinus cribricollis injuring ornamentals. 10269

Metabolism of organic pesticide chemicals in higher plants. 10278

Wharf borer. 10385

The control of insects in bagged grain by the injection of dichlorvos. 10387

Determination and measurement of insecticide dust particles in atmospheres adjacent to orchards. 10399

Consequences of insecticide use of nontarget organisms. 10402

Water florae as indicators of irrigation water contamination by DDT. 10403

DDT in fats on Antarctic animals. 10405

Uptake of dieldrin by isolated perfused gills of rainbow trout. 10408

Degradation and disappearance of ortho, para isomer of technical DDT in living and dead avian tissues. 10425

Effect of dichloro diphenyl trichloro-ethane (DDT) on leghemoglobin content of root nodules of Phaseolus aureus (green gram). 10438

Degradation of p32-bromophos by microorganisms and seedlings. 10449

Gas chromatographic determination of ethyl O,O-dimethyldithiophosphoryl-1-phenyl acetate in technical grade cidial and its 50 percent liquid formulation. 10457

Gas chromatographic characteristics of chlordane. I. Effect of an aqueous environment on the heptachlor component. 10458

Thin layer densitometric determination of rotenone and deguelin. 10461

Chemistry of insecticides. 10463

Degradation and anticarboxylesterase activity of disulfoton and phorate after 60Co gamma irradiation. 10465

Insecticides, how to use them safely and effectively. 10466

Comparison of ten methods for the analysis of milk for residues of chlorinated pesticides. 10470

Rapid method for the extraction, cleanup, and GLC determination of toxic residues of temik. 10471

The insecticides; chemistry, mode of action, and toxicity. 10474

Distribution ratio of some chlorinated hydrocarbon insecticides between hexane and water. 10479

Evaluation of extraction and cleanup methods for analysis of DDT and DDE in green alfalfa. 10480

Cockchafers. 10518

Corn rootworm control in South Dakota with notes on wireworm and cutworm control. 10520

The use of Daphnia pulex De Geer for the detection of insecticides extracted from plants. 10523

Leaterjackets. 10526

Interactions of DDT with the nervous system of the resistant and susceptible german cockroaches. 10532

Effects of the antifeeding compound AC-24055 (4'-(3,3-Dimethyl-1-triazeno)acetanilide) on the survival, development, and reproduction of some stored-products insects. 10544

Biological effects and persistence of dursban insecticide in a salt-marsh habitat. 10545

DDT-DEHYDROCHLORINASE activity in house fly strains resistant to various groups of insecticides. 10579

Tropical Pesticides Research Institute, annual report, 1966. 10611

Some suggestions for control of white ant damage on dadaps (Erythrina indica L.). 10710

The coffee root mealybug complex. 10711

Citrus scale insects. 10726

Research on integrated control of pests in the experimental orchard 'De Schuilenburg'. 10728

1967 Kansas insect control recommendations; livestock, major field crops. 10729

Investigations of the control of Lixus junci Boh. 10730

Arrestant-feeding stimulant as an additive to shell SD-8447 for control of corn earworm larvae in sweet corn. 10732

Chrysanthemum leaf miner. 10733

1969 suggested insecticide guide. Insect control for livestock and livestock barns. 10909

Degradation of insecticides by a soil fungus, Trichoderma viride. 10924

Dursban insecticide persistence in grass and corn forage. 10941

A study of the toxicity of an organophosphorus insecticide and its residues. 10946

Safety evaluation of the pesticide diazinon by a two-year feeding trial in Rhesus monkeys. (Abstract). 10955

Phytotoxic synergism with soil applied herbicide-insecticide combinations. (abstract). 11016

Pyrethrins and pyrethrum insecticides: The application and chemistry of pyrethrin insecticides. 11057

Arylimino chlorocarbonyl cyanides and preparation thereof. Patent 3,441,592. 11061

The relative susceptibility of the larvae of Spodoptera mauritia acronyctoides (Guenee) (Lepidoptera: Noctuidae) to several contact insecticides. 11221

Kojic acid as an insecticidal mycotoxin. 11229

Comparative toxicity (mammals, insects, mites) of new phosphorylate derivatives of aminoethylthiol. 11245

The appearance of resistance in the larva of the cotton rootborer weevil to the action of chlorinated hydrocarbons under laboratory conditions. 11348

Resistance to insecticides of three strains of Musca domestica L. from Brisbane, Queensland. 11351

A method for determining the dosage-mortality curve of malathion against the pea aphid, Acyrthosiphon pisum (Harris) (Homoptera: Aphididae). 11365

The susceptibility to insecticides of Cydia pomonella (Linneaus) (Lepidoptera: Tortricidae) from Queensland. 11381

Insecticide susceptibilities of Phlebotomus papatasi (Scopoli) from Egypt and the Sudan. 11387

The effect of other new insecticides in the control of black grubs of citrus. 11523

Shot-hole borer control recommendations--1969. 11525

Status and control of the corn stem weevil in the Florida Everglades. 11527

A note on the incompatibility of two pre-blossom aphicides (demeton-S-methyl and dimethoate) with lime-sulphur. 11533

New South Wales Department of Agriculture, Entomology. 11541

Current studies on Atherigona indica--a pest of wheat. 11543

Chemical control of the white potato grub Premnotrypes vorax (Hustache). 11548

Control of equine piroplasmosis in Florida. 11590

The control of tsetse and trypanosomiasis in the north-eastern districts of Rhodesia. 11634

Observations on the repopulation by amoeba of a pond largely polluted with insecticides (Protozoa, Rhizopoda, testacea). 11663

Isopropyl 4,4'-dibromobenzilate. Notice of establishment of temporary tolerance for pesticide chemical. 11672

Chlorinated hydrocarbons as residues in foods. 11673

Gas chromatographic analysis of phorate and five metabolites in monkey liver homogenates. 11674

A carboxylesterase inhibition assay to estimate parathion, malathion and diazinon in lettuce extracts. 11676

The effect of parathion on quail embryonic development. 11687

Effect of insecticides, acaricides and fungicides on Mormoniella vitripennis Walker (Hymenoptera Pteromalidae). 11777

The cockroach learns to avoid insecticides. 11810

A review of the use of insecticides on the main agricultural crops of the world-2. Section 2: Deciduous fruit trees. 11825

Microbial insecticides for control of grape leaf folder. 11837

Activity of Fosfotion and Metathion against Acyrthosiphon onobrychis Boyer. 11844

Locusts march on 40 countries. Millions emerge from desert sands. 11867

The cluster fly. 11871

Newer insecticides for the control of grape insect and spider mite pests. 11886

The phenomenon of cross resistance in insects: Empirical, theoretical, and genetical considerations. 11907

The International Rice Research Institute Annual Report, 1967. 11916

Progress in the field of systemic insecticides and hopes for the future. 11926

What's new in farm chemicals. 11975

The toxicity of organophosphorus insecticides to miner moths. 12045

Losses of active insecticidal elements of the dried roots of Derris elliptica Benth. under the influence of predators and especially of Trogoxylon aequale Woll. 12071

Report of the symposium on virus diseases of rice. 12074

Chemical control of pink bollworm in Imperial Valley. 12078

Comparison tests of insecticides in the control of Sesamia nonagrioides Lef., (Lepidoptera: Noctuidae) on corn. 12081

A 'phoracide' powder insecticide for use in mushroom houses. 12084

Trials with insecticides for control of black beetle (Heteronychus arator Blanchard) larvae and adults in pasture. 12189

Subterranean termites: Their prevention and control in buildings. 12206

The effect of high levels of dietary DDT on egg production, mortality, fertility, hatchability and pesticide content of yolks in Japanese quail. 12210

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Insecticide mixture. 12217

N'-(4-chloro-o-tolyl)-N,N-dimethylformamidine. Notice of establishment of temporary tolerance for pesticide chemicals. 12218

Determination of organochlorine insecticides in soils and waters. 12220

Detrimental insects and fighting against them. IV. Tendencies to limit chemical warfare. 12225

Acute cutaneous toxicity of certain organophosphorous insecticides. II - Phosphamidon. 12226

Establishment and maintenance of ladino white clover in the black belt,. 12263

Pesticides. 12305

This LV rig fights winds. 12327

Four methods of sampling to measure populations of alfalfa weevil larvae. 12341

The toxicity of alpha-dihydroheptachlor and related compounds to the housefly (M. domestica L.) and their metabolism by housefly and pig liver microsomes. 12422

Laboratory insecticide tests against the Fall webworm. 12429

The occurrence in Madagascar of resistance to dieldrin in the form B of the Anopheles gambiae complex. 12435

Mosquito control. 12457

The potentiation between thanite and arprocarb in their action on houseflies. 12464

Toxicity of certain pyrethroids and carbamates to the CS strain of Oncopeltus fasciatus. 12469

DDT-DEHYDROCHLORINASE and aldrin-epoxidase activity in corn earworm and polyphemus moth larvae, and house fly adults. 12480

Effect of insecticidal sprays on the longevity and fecundity of Eublemma amabilis Moore and Holcocera pulverea Meyr. 12493

Organophosphorus compounds. VI. -Structure and activity of certain 4-(diethoxyphosphinohioylthiomethyl)4H-1,3,4-oxadiazoline-5-thiones, of certain 4-diethoxyphosphinohioylthiomethyl-thiazoles, and related compounds. 12514

Deformation of puparia of the housefly (Musca domestica L.) on treatment with organophosphorus insectisides. 12541

Control of acarids with triphenyl tin compounds. patent 3,445,575. 12545

Absorption and metabolism of fenthion in bloodsucking arthropods. 12558

Promising chemicals for control of adult mosquitoes. 12583

Control of adult mosquitoes in Alaska with malathion. 12589

New insecticides evaluated as nonthermal aerosols against Aedes taeniorhynchus (Wiedemann). 12590

Pear Psylla control studies. 12669

The control of Aphis fabae Scop. on spring-sown field beans (Vicia faba L.). 12670

Laboratory and field tests in 1966--67 on chemical control of wireworms (Agriotes spp.). 12671

Efficacy of different insecticides against tobacco ground beetles in the field. 12674

Insecticides for control of Sphenophorus venatus confluens, Rhopalosiphum padi, and Rhipidothrips brunneus in orchardgrass. 12676

Insecticidal control of citrus pests in coastal central Queensland. 12684

Entomology. 12688

Insect control studies on the new hybrid sorghum CSH-1 in India. 12691

Insecticide trials in tobacco seedbeds, 1962--1965. 12715

Fly control in cage layer houses. 12813

Treating pine lumber with insecticide and preservative prevents tubing by subterranean termites. 12875

Laboratory evaluation of malathion as a storage protectant for figs. 12879

Tetraethylammonium chloride as an antidote for certain insecticides in mice. 12893

Beta-dialkylaminoalkyl ethers and thioethers. Patent 3,446,843. 12912

Dimer of 2,2,3,4,5,6-hexachlorocyclohexadienone. Patent 3,444,207. 12915

Novel process for the preparation of transchrysanthemumic acid. Patent 3,445,499. 12922

A device for the drip application of insecticide concentrates. 12930

Variation in the response to endrin of progeny from pairs of bollworms. 13002

Sleeve tests of insecticidal powders for control of body lice. 13032

Control trials against the Black Parlatoria scale in Tripolitania. 13037

Laboratory evaluation of some organophosphorus compounds against the larvae of Aedes (O.) detritus (Haliday), Aedes (O.) caspius (Pallas) and Culex pipiens pipiens (L.).. 13060

Malathion resistance in Aedes sollicitans (Walker) from Langley Air Force Base, Virginia. 13096

Tests on susceptibility of Culex gelidus Theobald to DDT, dieldrin and BHC in Thailand. 13097

Susceptibility of six anopheline species from Thailand to insecticides. 13098

The use of micro-organisms for the control of insect pests. 13105

Quarantine hearings reveal Formosan termite may cause 62 million dollar damage yearly; is now found in South Carolina. 13112

Abate and Dursban against Aedes aegypti (L.) breeding in concrete water jars in Bangkok, Thailand. 13219

Evaluation of Dursban as a larvicide in septic ditches. 13222

Drip application of three organophosphorus insecticides for mosquito control. 13225

Spray schedule for diseases and insects of cane fruits. 13233

The Japanese beetle, Popillia japonica Newm. (Coleoptera: Scarabaeidae) in southern Quebec. 13244

Grain aphids in New Brunswick. IV. Effects of malathion and 2,4-D amine on aphid populations and on yields of oats and barley. 13297

The relative susceptibility of the larvae of Spodoptera mauritia acronyctoides (Guenee) (Lepidoptera: Noctuidae) to several contact insecticides. 13300

Investigations on the control of pasture cockchafers, Aphodius pseudotasmaniae, given in Tasmania. 13313

Developments in control of ectoparasites of livestock. 13421

Ants indoors. 13424

Cockroaches. 13425

Effect of DDT, dieldrin, and heptachlor on the growth of selected bacteria. 13459

Adenosine triphosphatase sensitive to DDT in synapses of rat brain. 13461

Adenosine triphosphatase sensitive to DDT in synapses of. 13462

Combinations . 13504

The high resolution NMR spectra of pesticides. II. The DDT-TYPE compounds. 13508

A new 8-row ground sprayer with auxiliary air for ULY application of pesticides to cotton. 13522

They want to ban DDT. 13523

Insecticides and acaracides. Common names directory. Part I. Manufacturers. Part II. Other designations. 13524

Chemical control of Chrotogonus trachypterus Blanchard. 13615

Relative susceptibility of Psorophora confinnis (Lynch-Arribalzaga) larvae in the rice producing area of southern Louisiana to selected insecticides. 13619

Insect answers; insecticide toxicity to honey bees. 13638

On the comparative study of some new insecticides for the control of jute semi-looper (Cosmophila sabulifera). 13641

Preliminary toxicity studies on the yellowjacket Vespula pensylvanica (Saussure) in California. 13644

Some observations on Hoplocampa crataegi Klug (Hym., Tenthredinidae). 13672

Laboratory investigations on the effect of aphicides available in Poland on the most important natural enemies of aphids. 13702

Mosquito control and survey in Jefferson County Kentucky. 13731

Evaluation of smoke from insecticidal coils against mosquitos. 13732

Some recent developments and trends in vector control aspects of malaria eradication. 13733

Experiences with aerial dusting in the Kern mosquito abatement district--1967. 13734

Aerial application of a chemical fog for the control of mosquito larvae and adults. 13739

A bait station system for controlling the ground nesting yellowjacket Vespula pensylvanica (Saussure). 13741

Control of mosquito adults and larvae using Baytex and Baygon in a SiO2 chemical fog. 13743

Influence of fungicides and insecticides on the occurrence of Aspergillus on peanut seedlings. I. Investigations in vitro. 13767

Effects of aphid-transmitted viruses on the strawberry cultivars Northwest and Columbia. 13813

New double-duty insecticide. 13825

Food plants, bionomics and control of flea beetles. 13828

Campaign against Citrus psylla in Kangra District (Himachal Pradesh). 13831

Section II.--DISEASE control. 13832

Protection of polythene rain-guards from damage by crickets in rubber plantations in South India. 13835

DDT-DEHYDROCHLORINASE--I. Purification and characterization. 13836

Appreciation of the efficacy of certain granulated insecticides in the control of the maize pyralid (Ostrinia nubilalis Hbn.) III. 13840

Observations on the effect of insecticides on coleopterous predators of Erioischia brassicae (Diptera: Anthomyiidae). 13842

Biology and control of citrus psylla Diaphorina citri Kuw. 13847

Traps, male lures, and a warning system for Queensland fruit fly, Dacus tryoni (Frogg.) (Diptera, Trypetidae). 13849

1965 turf insects. 13853

Prophylactic treatment of storage receptacles for the control of Pulse bettle, Pachymerus chinensis Linn. 13855

Trials for the control of brinjal fruit and shoot borer. 13857

Aliesterase activity and reproduction in Musca domestica: Effects of DDT and metepa. 13863

Section I.--Insect control. 14062

Alkenyl and alkynyl biphenylyl sulfides. Patent 3,442,955. 14109

Relative efficacy of different insecticides, as contact poisons, to the larvae of the diamond-black moth, Plutella maculipennis Curtis (Lepidoptera: Plutellidae). 14122

Essentials in pest control. 14196

The European corn borer; how to control it. 14301

Effect of silvicultural practices upon arthropod, annelid, and nematode populations in coniferous forest soil. 14317

The pesticide review, 1968. 14321

Repelling pheasants from sprouting corn with a carbamate insecticide. 14337

Pesticide spraying during the rains. 14433

Influence of pesticides on russeting of Golden Delicious apples. 14487

Hard-to-kill pests of fruit trees;the mites. 14488

On the appearance and the control of the red-currant leaf-gall fly. 14489

Studies on the insecticide resistance of the tea red spider mite, Tetranychus kanzawai Kishida. II. The mite resistance to phenkapton, estox, and kelthane in the tea growing areas in Japan. 14493

Tanymecus dilaticollis Gyll. (Curculionidae, Coleoptera) as a pest of cultivated plants and the pre-sowing treatment of the seed with insecticides as a control measure. 14494

Occurrence and control of Haplodiplosis equestris in Holland. 14496

Asuntol and Neguvon in the fight against dog fleas. 14626

Warble fly larvae control study. 14631

Notice of withdrawal of petition regarding pesticides. 14654

5,6-Dichloro-1-phenoxycarbonyl-2-trifluoromethylbenzimidazole. Notice of extension of temporary tolerance. 14655

Systemic activity of zectran, matacil and bidrin injected into conifer trunks. 14656

Organochlorine insecticide residues in complete prepared meals: A 12-month survey in S. E. England. geometrical isomers of chrysanthemic, pyrethric and related acids and optical isomers of cinerolone and allethrolone. 14657

Effect of carbaryl on the neuroendocrine system of rats. foodstuffs: a multi-detection scheme for gas chromatography of solvent extracts. 14662

Methyl bromide can be dangerous. 14663

Kinetic evidence of reversible iso-cholinesterases based on inhibition by organophosphates. (Abstract). 14700

Ministry of Overseas Development, Tropical Pesticides Research Unit, annual report. 14708

Further chemical control tests against Paranthrene tabaniformis Rott. 14811

The toxicity of contact insecticides to seed-infesting insects. Tests with bromophos on maize. 14832

A technique for ULV insecticide application from high altitudes. 14906

Evaluation of the ultra-low volume aerial spray technique by use of caged adult mosquitoes. 14907

Chemical control of mango hoppers (Idiocerus spp.). 15006

Peach spray program. 15007

Insecticidal trials against jowar pests. 15009

Grasshopper control in South Dakota, 1969. 15015

Control campaign against Heliothis armigera in Mysore State. 15023

Turf insects and insecticides. 15024

Flower and shrub insects. 15027

Effects of sub-lethal dosages of parathion and carbaryl on the biology of Dysdercus koenigii Fabricius. 15028

Effects of insecticidal treatment on the biology of surviving insects. 15029

Organic insecticides and some recent trends in pest control. 15030

Relative efficacy of endrin and parathion as prophylactic sprays in the control of jute apion, Apion corchori Marshall (Coleoptera: Curculionidae). 15035

Investigations on the biology and means for control of Neurotoma nemoralis L., Tenthredinidae, Thysanoptera. 15037

Croesus septentrionalis L. (Hymenoptera Tenthredinidae) a pest of the alder. 15038

An improved laboratory method of evaluating insecticides for the protection of sheep against blowfly strike. 15195

DDT and DDE in human milk. 15238

Degradation of DDT and DDE by cheese microorganisms. 15252

Electron capture detector with the use of 90 Sr intended for the determination of some pesticides in gas--liquid chromatography. 15256

Toxicity of six organophosphorus insecticides to fish. 15272

Trithion spotting of grapefruit. 15294

Research concerning secondary effects of chlorcholinchlorid (CCC). 15341

Effectiveness of insecticidal residues on U. S. Army. tenting against Anopheles ssp.. 15440

Laboratory tests of the susceptibility of mosquito larvae to insecticides in Florida, 1968. 15442

A study of factors affecting the susceptibility of mosquito larvae to insecticides in laboratory resistance tests. 15450

Esterase activity in organophosphorus- tolerant strains of Aepes aegypti. 15454

Influence of fungicides and insecticides on the occurence of Aspergillus on peanut seedlings. II. Seed treatments. 15498

Vegetable insects. 15582

Tests on the dissemination of the tulip streak virus. 15613

Infection and corrosion tests with Ustilago hordei (pers.) lagerm. 15621

Attempts at treatment of the Atomaria of sugar-beets with insecticides. 15622

Pigmy mangold beetle (Atomaria linearis Steph.), biology and control. 15623

Peanut insects. Seasonal control of thrips, leaf-hoppers, southern corn rootworm and wireworms. 15624

Corn insects. 15625

Peanut insects. Seasonal control of thrips, leaf-hoppers, Southern corn rootworm and wireworm. 15626

Insects on alfafa, clovers and grasses. 15627

Soybeans. 15628

Insects on alfalfa, clovers and grasses. 15631

Apple spray program. 15634

Peach spray program. 15635

Blue grape spray program. 15636

Tree insects and mites. 15639

Tree insects and mites. 15640

Dasanit insecticide for superior control of corn rootworm. 15645

Insecticidal activity of substituted phenyl N-methylcarbamates. 15651

Termites and powder-post beetles. 15653

Tobacco insects. Plant beds. 15659

Cotton insects. 15660

Pecan insect and disease spray schedule. 15661

Lawn and turf pests. 15662

Cotton insects. General statewide control program. 15664

Flower and shrub insects. 15665

Greenhouse insects. 15666

Vegetable insects. 15668

Adsorption and desorption of lindane and dieldrin by yeast. 15676

Blackberry, dewberry and raspberry insects. 15678

Livestock and poultry insects. 15812

The use of chlorophos with prolongator for antitick treatment of cattle in a focus of Crimean hemorrhagic fever. 15813

Insects on humans. 15814

Storage insects. 15836

Storage insects. 15837

Household pests. 15840

Toxicity of insecticides and fumigants to mammals. 15875

Dietary protein and DDT toxicity. 15877

Insecticidal activity of pyrethrins and related compounds. II. Relative toxicity of esters from optical and geometrical isomers of chrysanthemic, pyrethric and related acids and optical isomers of cinerolone and allethrolone. 15879

Chemicals for control of plant diseases. 15881

DDT: Inhibition of an ATP-ASE in the rat brain. 15886

The method for the inhibition of cholinesterases as applied to the determination of agricultural pesticide residues. 15912

Isolation and identification of the components of a commercial chlordane formulation. 15914

INSECTIVORA

The common shrew (Sorex araneus) as a predator of the winter moth (Operophtera brumata) near Oxford, England. 11794

INSECTIVORES

Contribution to the study of ectoparasites of vertebrates in the Central African Republic. 12544

INSECTS
Acoustical communication in arthropods.
8073
The connective tissues of insects.
8078
Estimating temperatures and heat flux in insect environments in stubbed cotton fields in the winter.
8121
Mixtures of dichlorvos, pyrethrins and dimethrin in aerosols for controlling houseflies.
8708
Report on analytical entomology of food and drugs.
9141
Comparison of white gasoline and n-heptane for recovery of insect fragments and rodent hairs from food products.
9142
Comparative mechanisms of insecticide binding with nerve components of insects and mammals.
9176
The fluorescent particle spray droplet tracer method.
9230
Metabolism of insecticides. Microsynthesis of 14C-betadihydroheptachcor.
9452
Recent introductions for biological control in Hawaii-XIII.
9623
Recent introductions for biological control in Hawaii-XII.
9624
Pests and diseases of the date palm. Part I. Mites, insects and nematodes.
9626
Allergic responses to insects.
10166
Specificity and mechanism in the action of saligenin cyclic phosphorus esters.
10424
Second supplement to the Contribution to the lepidopteran fauna of the middle Rhine and adjacent territory .
11160
Production of the protocephalic neurosecretion product in the axonal passage of the Insecta, Pterygota.
11276
Studies of the Byron Bog in southwestern Ontario XXXV. Insects reared from galls from the wooded slopes of the bog.
11529
Some remarks on the parasitism of insects.
11785
Arthropods in the diet of the cattle egret, Bubulcus ibis, in southern Louisiana.
12812
Bromodifluoronitromethane for the control of insects, fungi and nematodes. Patent 3,445,576.
12917
Conversion of a therapy X-ray unit for insect irradiations.
12933
Proposed additions to the list of common names of insects.
12942
List of nocturnal trifids of France and Belgium (continuation and end) and appendix (species of german fauna not in France and Belgium).
13558
Principal trends of phylogenetic changes in terrestrial arthropods.
13718
Insects attracted to argon light traps in California wineries.
14034
A report of canthariasis and allergy caused by Trogoderma (Coleoptera: Dermestidae).
14039
Hydrolysis of acetylthiocholine and butyrylthiocholine by cholinesterases of insects and a mite.
14261
Enhancement of infectivity of a mammalian virus preparation after injection into insects.
14268
Diversity of forms of physiological rest in insects as one of the causes of their biological progress.
14274
Insects of the season 1966 related to fruit, vegetables and ornamentals.
14483
On the classification of the insect parasitic nematodes of the Sphaerulariidae Lubbock, 1861 (Tylenchoidea: Nematoda).
14860
Insects on alfalfa, clovers and grasses.
15631

INSEMINATION
Failure of effective insemination of young female Aedes aegypti mosquitoes.
11885

INSPECTION (AGRICULTURAL PRODUCTS)
A decade of seed potato inspection at Madras Port.
14117

INSULIN
Taenia crassiceps: Insulin and carbohydrate metabolism in larval forms.
13415

INTEGRATED CONTROL (INSECTS)
Integrated chemical control of insects and biological control of mites on apple in Washington.
9010
Integrated control of insects. A challenge for scientists.
10265
Preliminary studies on the integrated control of the pest complex on cowpea, Vigwa unguiculata Walp., in Nigeria.
10268
Ecology and integrated control of spider mites in San Joaquin vineyards.
12058
The influence of UC-21149 and the aphidiid parasite Aphidius smithi on populations of the pea aphid.
12690
Integrated control of insects.
13325
Plant resistance to aphids induced by chemicals.
13329
Trends in studies on insect natural enemies and the future problems concerned.
14271
The European corn borer; how to control it.
14301
Studies on Panonychus ulmi (koch) in Lebanon.
14859
The problem of resistance against insecticides in connection with integrated methods for plant protection.
14884
On plant protection in special cultures with particular regard to the Bavarian conditions.
14913
Report of the Seventh FAO Ad hoc Conference on the Control of Olive Pests and Diseases, Palermo, Italy, 2 to 9 May, 1967.
15036

INTEGRATED CONTROL (PESTS)
Research on integrated control of pests in the experimental orchard 'De Schuilenburg'.
10728
Effect of insecticides, acaricides and fungicides on Mormoniella vitripennis Walker (Hymenoptera Pteromalidae).
11777
Problems of integrated pest control in practical plant protection.
14315
On plant protection in special cultures with particular regard to the Bavarian conditions.
14913
Animal control suggestions and bait formulations.
15757

INTEGRATED CONTROL (WEEDS)
Compatibility of chemical and mechanical weed control methods.
12746

INTERFERENCE PHENOMENON
Interference between vaccinal virus and rabies virus.
9122
Importance of irregular local and systemic infections for the interference of tobacco mosaic virus strains.
9550
Interference by transmissible gastroenteritis in the immunization of pigs against hog cholera with crystal violet glycerol vaccine.
10899
Attenuation of the hog cholera virus by continuous cell-virus propagation. III. Growth interference of Newcastle disease virus by attenuated hog cholera virus and its application to virus titration and the neutralization test.
12790
Cross protection test with four strains of potato virus Y in Nicotiana tabacum L. cv. Samsun.
15523

INTERFERON
Anti-malarial effect of interferon inducers at different stages of development of Plasmodium berghei in the mouse.
9714
Role of interferon in experimental mouse malaria.
9749
Analysis of the production of interferon in cell culture with chick embryo fibroblasts under the influence of living or inactivated Newcastle disease virus. Comparison with production in the egg.
10863
The temperature requirements for interferon production in cells stimulated by Newcastle disease virus or microbial agents in vitro.
14585
Role of interferon in enhanced replication of Newcastle disease virus in swine cells infected with hog cholera virus.
15807

INTERNATIONAL COOPERATION
Report of the Anti-locust Research Centre 1965.
10552
Report of the Anti-locust Research Centre for 1966.
10553

INTERSEXUALITY
Experimental conditions for feminization of the gonads of triploid intersexes in Drosophila melanogaster.
10543
Intersex of Culicoides circumscriptus Kieffer (Ceratopogonidae: Diptera).
12372

INTERSTATE COMMERCE
Interstate transportation of animals and poultry. Scabies in sheep.
12116
Interstate transportation of animals and poultry. cysticercosis. revocation of regulations.
15764
Interstate transportation of animals and poultry. Cysticerosis. Change in areas quarantined.
15818

INTESTINES
The influence of dietary methionine on the amino acid pool of Hymenolepis diminuta in the rat's intestine.
8498
The ultrastructure of the intestinal epithelium of Metastrongylus sp. (Nematoda: Strongyloidea).
8501
Binding of 60-co-vitamin B12 by Ascaris suum intestine.
8517
Role of intestinal microflora in the degradation of DDT by rainbow trout (Salmo gairdneri).
8575

Meadow vole used in hay research.
9052

Electron microscopical observations on Mycobacterium johnei.
9115

Fine structure of the intestine of the nematodes, Ancylostoma caninum and Phocanema decipiens.
9130

Some unusual cell inclusions in the mid-gut of a moth bug, Gyarina nigritarsis Karsch (Homoptera: Flatidae), and their possible significance in nutrition.
9391

The intestine of a higher termite (Microcerotermes edentatus, Wasman, Amitermitinae). Histophysiology and symbiotic bacterial flora.
9411

Parbendazole in treatment of intestinal nematodes of dogs and monkeys.
9775

Tablet dosage-form for the immunization of the intestinal tract with live virus preparations. Patent 3,458,621.
10359

On the environment of Polymorphus minutus (Acanthocephala) in ducks.
10373

Ancylostoma caninum: Fine structure of intestinal epithelium.
10377

The effect of the rimino phenazene B663 (G30320) on preclinical M. johnei infections in sheep.
10864

Ecological conditions for occurrence of cilia in intestines of nematodes.
10917

Sex pheromone of Trypobendron lineatum: Production in the female hindgut-malpighian tubule region.
11234

Electron microscopy of the striated border of the midgut cells of Javesella pellucida (F.) (Homoptera, Delphacidae).
11238

Report of a glucose diminishing process in the gut of the cockroach, Blaberus craniifer Budweister.
11863

The effect of dibromoxyquinoline and iodochloroxyquinoline of Salmonellosis in mice.
12164

Intradermal tests and serological reactions with antigens of Trichinella spiralis in persons infested by different forms of parasites.
12814

The activity of alkaline phosphatase in the duck intestine during experimental echinostomatosis.
12823

Specificity of the intestinal stage in the development of Trichinella spiralis.
12844

Immunity to parasites.
12863

Intestinal parasitism in swine in the northern department.
13414

Significance of the asexual stages in assessing Eimerian infections of goats.
13936

Life cycle, pathogenicity and immunogenicity of Chabertia ovina.
14022

The presence of an adult Linguatula serrata (Froelich, 1789) in Felis catus domesticus.
15202

Observations of a source of Strongyloides ransomi in the pig, dog and man, and of Strongyloides Westeri in the pig.
15204

Treatment of intestinal strongyloids of the horse using thiabendazole (2-(4'thiazolyl)-benzimizole).
15222

A kill of brook trout (Salvelinus fontinalis) involving the acanthocephalan Echinorhynchus lateralis.
15224

Eimeria saitamae n. sp.: a new cause of coccidiosis in domestic ducks (Anas platyrhyncha var. domestica).
15820

INVERTEBRATES

The fluorescent particle spray droplet tracer method.
9230

Macroinvertebrates in the Green River below Flaming Gorge Dam, 1964-65 and 1967.
12980

Distribution, standing crops, and drift of benthic invertebrates in a small Wisconsin stream.
12982

The turnover ratio in production ecology of freshwater invertebrates.
13145

IODIDES

Anion-induced potentiation of contraction in insect skeletal muscle.
13065

IODINE

Surface sterilization and dissection of termites as related to their enteric microflora study.
13682

Mites, pests in gardens and living rooms.
15620

IODINE COMPOUNDS

Aspergillosis of ducklings.
15776

IODOACETIC ACID

Metabolism of iodoacetic acid by orange leaves.
9830

IODOCHLORHYDROXYQUIN

The effect of dibromoxyquinoline and iodochloroxyquinoline of Salmonellosis in mice.
12164

ION EXCHANGE

Influence of soil properties on phytotoxicity of 4-amino-3, 5,6-trichloropicolinic acid (picloram).
13479

IONIZATION

Research with ionizing irradiation on the sterilization and radiosensitivity of Chrysomela decemlineata Say.
8096

Studies on nicotinoids as an insecticide. Part VII. Cholinesterase inhibition by nicotinoids and pyridylalkylamines--its significance to mode of action.
9508

A new flash injector for gas chromatography of organophosphorus insecticides.
14057

Comparison of mutagenic effects of ethyleneimine and ionizing radiations on rice.
14086

IONIZING RADIATION

Sensitivity of Sitophilus zeamais Mots (0 oryzea L.) to ionizing radiations at different stages of its development. Radiographical study of the endogenous stages and actographical registration.
11368

Use of an actograph with electro-acoustical detector for the study of grain insects. Actography of the larval development of Sitophilus granarius. Detection of the primary effects of the ionizing radiations.
11538

Evaluation of some abiotic factors influencing captures of the codling moths by black-light traps.
13670

IONS

Gut absorption.
8207

Internal damage in an aquatic beetle exposed to sublethal concentrations of inorganic ions.
8905

The utilization of the calcium sensitivity test in the investigation of the rennet activity.
9138

Studies on nicotinoids as an insecticide. Part VII. Cholinesterase inhibition by nicotinoids and pyridylalkylamines--its significance to mode of action.
9508

Magnesium deficiency and tissue ions. (Abstract).
10905

Effects of hydrophilic-lipophilic balance (HBL) of nonionic surfactants on phytotoxicity of linuron and prometryne to carrots. (Abstract).
11045

Specific activity increase of a Balbiani ring by Mg2 plus in isolated nuclei of Chironomus.
11334

Effects of magnesium and calcium ions on the adenosinetriphosphatase activity of insect actomyosin at low ionic strength.
11342

Internal perfusion of crayfish giant axons: Action of tannic acid, DDT, and TEA.
11393

Secretion by the malpighian tubules of Rhodnius. The movements of ions and water.
11855

Balances of Nat and Kt in normal and bluecomb diseased turkeys.
12132

The effect of linuron on ion uptake in corn, soybean, and crabgrass.
12732

Enhancement and inhibition of avian sarcoma viruses by polycations and polyanions.
12806

Anion-induced potentiation of contraction in insect skeletal muscle.
13065

Aerobic and anaerobic metabolism of larval and adult Taenia taeniaeformis. III. Influence of some cations on glucose uptake, glucose leakage, and tissue glucose.
15203

DDT: Inhibition of an ATP-ASE in the rat brain.
15886

IOXYNIL

Formulation studies with ioxynil and bromoxynil. (abstract).
8409

The response of fumitory to various herbicides.
10293

Effects of ioxynil on respiration. (Abstract).
10982

Three years of tests with cycocel and its miscibility with herbicides.
11019

Chemical weed control in wheat: Comparison among various time periods of application and among old and new herbicides.
13345

Effects of herbicides on rna and protein syntheses.
15887

IPC

Selective grass control with siduron.
10294

The use of herbicides in the mass production technology of the sugarbeet. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966.
12097

IPHITA LIMBATA

In vitro culture of ovary of the plant bug, Iphita limbata Stal.
11297

IPOMOEA

Selectivity of chloroxuron against soybean and morning glory. (Abstract).
10779

Developmental anatomy of a coralloid gall on Ipomoca pes-tigridis Linn..
11452

IPS
Notes on biology of clerid beetles that attack Ips spp. in upper South Carolina.
8783

IPS ACUMINATUS
Field and laboratory studies on sex ratio in Ips acuminatus (Coleoptera: Scolytidae) in Norway.
13008

IPS CONFUSUS
Responses of Ips confusus to synthetic sex pheromones in nature.
12424

IPS PINI
Notes on the biology of Ips pini in central Wisconsin Jack Pine Forests.
13119

IPS SEXDENTATUS
A study of the oxidases in the xylophagous insect, Ips sexdentatus and in its microbial flora.
11331

The influence of the selective destruction of the microbial flora on the activity of two oxidases in the xylophagous insect Ips sexdentatus.
14838

IRIDESCENT VIRUS
Purification and some properties of Chilo iridescent virus.
8883

Iridescent virus from blackfly Simulium ornatum Meigen in Czechoslovakia.
8896

IRIDOMYRMEX HUMILIS
Experiments on the effects of radiation on ants.
13685

IRON
Plant treatment in relation to the rhizosphere effect. III. Foliar application of certain trace elements and metallic chelates in relation to the rhizosphere microflora of rice (Oryza sativa L.).
8588

The use of ferromyn (Ferrous succinate) in iron deficiency anemia.
9102

The effect of Zn on yield and chemical composition of sweet corn in the Willamette Valley.
10997

The effect of some trace elements on growth, reproduction, and symbionts of artificially fed Neomyzus circumflexus Buckt. (Aphidae, Homoptera, Insecta).
11265

Effect of iron and manganese deficiency on the chlorophyll, amino acid and organic acid status of leaves of macadamia.
12255

Abscission of citrus fruits induced by ethylene-producing chemicals.
12281

Foliar absorption of iron by chrysanthemum as influenced by lime-induced chlorosis.
12286

Leaf symptoms of Manganese deficiency in avocado trees.
12298

Studies on the anemiogenic properties of trimethylamine oxide, an etiological factor in fish-induced anemia in mink.
13377

A study of the antianemic and zootechnic efficacy of a complex iron-dextrin vitamin.
13979

Hyposiderosis and its specific therapeutics.
13982

Practical aspects in the application of iron-dextrin.
13985

Studies on a new intramuscular haematinic for piglet anaemia.
14573

IRON COMPOUNDS
Amine cyanoferrates and methods for preparing same. Patent 3,429,907.
12320

Hyposiderosis and its specific therapeutics.
13982

IRON OXIDES
The use of ferromyn (Ferrous succinate) in iron deficiency anemia.
9102

IRON SULFATES
The use of ferromyn (Ferrous succinate) in iron deficiency anemia.
9102

IRPEX FLAVUS
Effect of pH on the cultural behaviour of isolated strains of Irpex flavus Lk.
12235

IRRADIATION
Research with ionizing irradiation on the sterilization and radiosensitivity of Chrysomela decemlineata Say.
8096

Neoplasms of insects.
8129

On the mechanization of radiosensitization by 5-bromouracil. Studies on 60Co-gamma irradiated phage phi X-174 and its single-stranded infectious DNA.
8599

Big codling moth control project in Canada.
9338

Some consequences of irradiating the gypsy moth eggs with radioactive cobalt 60.
9491

Higher survival rate of highly irradiated barley in a pot test, after fertilization with (2-chloroethyl) trimethylammonium chloride (CCC) and ammonium sulfate.
11021

Genetic effect of irradiation by X-rays on seeds of Zea mays. finfluence of high-temperature treatment before the irradiation on the immediate effect.
11924

Total-body irradiation of canine lymphoma.
12150

Cytotoxic effects of extracts from gamma-irradiated pineapples.
12204

Research on the effectiveness of cobalt 60 irradiation for the control of Sitophilus granarius and Tribolium confusum Duv.
12205

Physiological studies of gamma-irradiated tomato fruits. III. Effects on ascorbic acid content, acidity and texture.
12229

Conversion of a therapy X-ray unit for insect irradiations.
12933

Physiology of the large milkweed bug after laser irradiation.
13048

Influence of selection on the viability of irradiated experimental populations of Drosophila melanogaster.
13204

Control of diseases of fruits and vegetables by postharvest treatment.
13248

Comparative studies of mutation frequencies induced by 32P treatment and gamma-irradiation in the silkworm.
13722

Vaccination against syngamosis in chicks, young pheasants and turkey-poults.
14028

Comparison of mutagenic effects of ethyleneimine and ionizing radiations on rice.
14086

Influence of Co60 gamma radiation on the water regime and drought resistance of peppermint plants.
14094

Relative radiosensitivities of three developmental stages, i.e., floral development, gametogenesis and embryogenesis under chronic gamma irradiation.
14101

A correlation between the ability to withstand high temperatures and radioresistance in Drosophila melanogaster.
14252

On the longevity of Conidia of cucumber downy mildew fungus, with special reference to the influence of sunlight.
14382

Dark reactivation of UV-IRRADIATED tobacco necrosis virus.
15529

IRRIGATION
Bacterial top and stalk rot disease of corn in Wisconsin.
8297

Distribution of insecticides sprayed by airplane on an irrigated corn plot. in: Organic pesticides in the environment; symposium...American Chemical Society, Atlantic City, N.J., Sept. 13-15, 1965. robert J. gould, ed.
8350

Distribution of insecticides sprayed by airplane on an irrigated corn plot.
8543

Irrigated sugar-cane in Rhodesia.
8925

Evaluation of herbicides applied to the soil for weed control in irrigated sugar beets.
9039

Turfgrass research by the California Agriculture Extension Service.
9527

The influence of irrigation on the occurrence of diseases and pests of agricultural crops. (Review).
9577

Water florae as indicators of irrigation water contamination by DDT.
10403

Second year trials of Peronospora control on onions. (Peronospora schleideni Unger).
10653

Soil-incorporated herbicides in furrow-irrigated onions. (Abstract).
10797

Effect of tooth-shape, rotor speed, forward speed, and depth on performance of incorporated herbicides. (Abstract).
11089

National Vegetable Research Station: Seventeenth Annual Report, 1966.
11914

Antitranspirants: Uses and effects on plant life.
12248

Establishment and maintenance of ladino white clover in the black belt,.
12263

Ecology of the mosquitoes in artificially irrigated meadows of Southern Moravia.
12503

Studies on Botrytis allii Munn.. The cause of neck rot of onion bulbs in U.A.R.. III. Relation of some culture practices to subsequent incidence of neck rot on storage.
14030

Contribution to the knowledge of Stauronematus compressicornis (F.). (Hymenoptera-Tenthredinidae).
14804

Efficacy, persistence and safety range of herbicides in irrigated cotton.
15091

Effect of herbicides on control of wild cane in irrigated corn.
15126

IRRIGATION DITCHES
Breeding places of blood-sucking Culicidae mosquitoes and recommendations for preventing of their appearance in lands of new irrigation in the Golodnaya Steppe.
10524

Submersed aquatic weed control in an irrigation system with acrolein. (Abstract).
10770

Control of reed canarygrass along irrigation canals. (Abstract).
10783

Suggestions for weed control with chemicals.
12106

Studies on atrazine and 2,4-D used in defense of maize in the area of Russe irrigation system.
15715

ISOBENZAN
Trials with insecticides for control of black beetle (Heteronychus arator Blanchard) larvae and adults in pasture.
12189

Efficacy of different insecticides against tobacco ground beetles in the field.
12674

Insecticide trials in tobacco seedbeds, 1962--1965.
12715

ISODRIN
Insecticide studies of the maize stalk borer, Busseola fusca (Fuller), in East Africa.
8893

ISOGENUS HASTATUS
Histopathology of lecithodendriid trematode infections in stonefly naiads.
11823

ISOLATES
Mitorubrinic acid and related compounds from a strain of Penicillium funiculosum Thom.
10601

Host specificity of isolates of Cercosporella herpotrichoides.
10635

Isolation, purification and toxicity of a thermostable exotoxin from the strain of Bacillus gelechiae Auct.
14874

A selective medium for isolation of Helicobasidium mompa Tanaka.
14917

Isolation of securinin from the herb of Securinega suffruticosa (Pall.) Rehd. cultivated in Poland. Polymorphism of securinin.
14919

Cow-parsnip (Heracleum sphondylum) mosaic virus in Finland.
14981

ISOMERASES
Studies on phosphohexoseisomerase (d-glucose-6-phosphate ketol isomerase) from the Indian honeybee, Apis indica Fabricius:.
10098

Trypanosoma gambiense, T. rhodesiense, T. brucei, t. equiperdum, and T. lewisii Purification and properties of phosphohexose isomerases.
13400

Are honeybees deficient in phosphomannose isomerase .
14873

ISOMERIZATION
Cyclodiene chemistry. II. Identification of the derivatives employed in the confirmation of heptachlor, heptachlor epoxide, cis-Chlordane, and trans-Chlordane residues.
13438

ISOMERS
Developmental inhibition in Drosophila using dihydroxybenzoic acid isomers.
8793

Pyrethin II and related esters obtained by reconstitution.
9192

Degradation and disappearance of ortho, para isomer of technical DDT in living and dead avian tissues.
10425

Reaction of aflatoxin B1 with acetic acid-thionyl chloride.
10481

Plant growth regulator activity of optical isomers of DMPA.
12900

ISOMETAMIDIUM CHLORIDE
The protection of a small group of Nigerian trade cattle from trypanosomiasis using samorin.
14580

ISOMETRUS MACULATUS
Contribution to the study of the systematics of the scorpion, Isometrus maculatus (de Geer, 1778).
12966

ISONIAZID
INH chemoprophylaxis in calves in the process of the eradication of bovine tuberculosis under the conditions of large-scale production.
11625

ISOPHRICTIS SIMILIELLA
Synonymy of Keiferia glochinella (Zeller) and related names (Lepidoptera: Gelechiidae).
9905

ISOPODA
A new family Turanoniscidae fam. n. (Isopoda, Oniscoidea) from termitaria of Middle Asia.
9874

ISOPROPOXYPHENYL METHYLCARBAMATE, O
Cockroach control in Chicago's Lincoln park zoo.
8839

Control of plant bug complex.
9368

Influence of the quantity of insecticide per seed and per hectare on seed treatments for cereal leaf beetle larvae control on oats.
12080

Insecticides for control of Sphenophorus venatus confluens, Rhopalosiphum padi, and Rhipidothrips brunneus in orchardgrass.
12676

Unique problems in insect and pest control of NASA'S Mississippi test facility.
13221

Ants indoors.
13424

Aerial application of a chemical fog for the control of mosquito larvae and adults.
13739

Control of mosquito adults and larvae using Baytex and Baygon in a SiO2 chemical fog.
13743

ISOPROPOXYPHENYL N-METHYLCARBAMATE, 2-
The potentiation between thanite and arprocarb in their action on houseflies.
12464

Cockroaches.
13425

ISOPROPYL ALCOHOL
Extraction procedures for DDT residues in firm fruits and in hay: Colorimetric method.
14059

ISOPROPYL N-(3-CHLOROPHENYL)CARBAMATE
Release rates and herbicidal activity of slow release granular formulations. (abstract).
10459

ISOPROPYL N-PHENYLCARBAMATE
Wild oats.
13350

ISOPROPYL 4,4'-DIBROMOBENZILATE
Isopropyl 4,4'-dibromobenzilate. Notice of establishment of temporary tolerance for pesticide chemical.
11672

ISOPROPYL-3-METHYLPYRAZOL-5-YL DIMETHYLCARBAMATE, I-
DDT-DEHYDROCHLORINASE activity in house fly strains resistant to various groups of insecticides.
10579

ISOPTERA
Juvenile hormone and the formation of warriors in the yellow necked termite, Calotermes flavicollis Fabr..
11332

ISOTOMIDAE
On the diagnostics of certain species of springtails of the genera Folsomia Willem and Pseudofolsomia Gen. Nov. (Collembola, Isotomidae) recorded in the middle Volga region.
14156

ISOTOPES
Stimulation of porcine splenic cultures by a radiationinduced lymphoid leukemia filtrate: a preliminary report.
9078

Absorption and metabolism of antimycin administered with a rat diet.
9746

Studies on labeled animal poisons. II. Distribution of the venoms of various spiders labeled with Se75 and P32 in the guinea pig.
9812

A kinetic isotope effect in the photoreactivation of u. v.-inactivated tobacco mosaic virus RNA.
13250

Comparative studies of mutation frequencies induced by 32P treatment and gamma-irradiation in the silkworm.
13722

Induction of mutants in sweet potato by absorption of 32P.
14092

Use of high speed centrifugation to obtain extracts from cuttings treated by terminal applications of indoleacetic acid-3 (IAA-2-14C). (Abstract).
14323

ISSUS
Results of the zoological research of Dr. Z. Kaszab in Mongolia. No. 163: Homoptera, Auchenorrhyncha.
9276

ITOPLECTIS CONQUISITOR
A new record for a parasite of the alfalfa weevil in Eastern United States, Eriplanus micator (Gravenhorst) (Hymenoptera: Ichneumonidae).
8716

Bionomics of the juniper webworm.
9440

IXODES
Ixodes himalayensis sp. n. (Acarina: Ixodidae) parasitizing small mammals in Himachal Pradesh, India.
8027

Host-parasite interactions and the feeding of blood-sucking arthropods.
8490

Ixodes pacificus Cooley and Kohls, 1943: Its life-history and occurrence.
9962

Ixodes taglei n. sp. (Acarina: Ixodidae) a parasite of the deer, Pudu pudu (Wol.) in Chile.
15324

IXODES ANGUSTUS
Some records for Ixodidae of Nova Scotia.
11858

IXODES COOKEI
Some records for Ixodidae of Nova Scotia.
11858

IXODES MURIS
Some records for Ixodidae of Nova Scotia.
11858

IXODES PERSULCATUS
The distribution of Ixodes persulcatus in the USSR.
11741

Epidemic role of ticks of the genera Dermacentor and Ixodes persulcatus P. Sch. in mountain foci of tick-borne encephalitis depending upon activity of their attacks on man.
12581

IXODES RICINUS
Tick-borne diseases of cattle.
10910

Larval diapause in the tick Ixodes ricinus L. and its relation to external conditions. 7. On the sensitivity to photoperiodic stimuli during blood-sucking.
13018

The prevalence of Babesia bovis (Babesia argentina) in the brains of slaughter cattle in Northern Nigeria. 14568

IXODES TEXANUS
Observations on the relation of light to the dropping of the tick Ixodes texanus Banks. 11250

IXODES VESPERTILIONIS
Further notes on Argas (Argas) reflexus (Fabr.), Argas (Carios) vespertilionis (Latreille) and Ixodes vespertilionis Koch (Ixodoidea). 11768

IXODIDAE
The fine structure of Babesia ovis (Piroplasmidea) in Rhipicephalus bursa (Ixodoidea): Transformation of spherical forms to vermicules. 8754
The larvae of Australian Ixodidae (Acarina: Ixodoidea). 9316
Cytogenetics of ticks (Acari: Ixidoidea). 5. Comparative survival of three species of Dermacentor (Ixodidae) following etherization. 9514
Laboratory study of Anocentor nitens (Neumann) (Acarina: Ixodidae). the tropical horse tick. 11259
Further notes on Argas (Argas) reflexus (Fabr.), Argas (Carios) vespertilionis (Latreille) and Ixodes vespertilionis Koch (Ixodoidea). 11768
Growth, longevity, and the frequency of feeding of Glossina pallidipes Austen. 12504
Ixodid ticks (Ixodidae)--the parasites of some reptile species in Tadjikistan. 12991
Two new species of argasid ticks (Ixodoidea, Argasidae) from Cuba. 15316

IXODIDES
Ticks in relation to human diseases caused by Rickettsia species. 8136
The fine structure of Babesia ovis (Piroplasmidea) in Rhipicephalus bursa (Ixodoidea): Transformation of spherical forms to vermicules. 8754
The PCO market in tick control. 8859
Arbovirus focus in the east Kootenays. (abstract). 9730
Methods of quantitative determination of Rickettsia in ticks. 10537
Distribution of rickettsia Dermacentroxenus sibiricus in the organisms of ticks Ornithodoros lahorensis Neumann, Alveonasus canestrinii Bir. (Argasidae, Ixoidea). 10561
Experience of extermination of pasture ticks in a natural focus of tularemia on the Island of Biryuchy. 10583
On results of control of a tick vector of spirochaetosis in village foci of the Central Asian Republics. 10585
Tick-borne diseases of cattle. 10910
Tick-host relationships. I. The existence of a circadian rhythm of drop-off of engorged ticks from their hosts. 11282
A cytochemical study on merozoites of Babesia ovis and Babesia bigemina (Piroplasmidea) in the hemolymph of ticks. 11409
Ticks from waterbuck and warthog in the Queen Elizabeth National Park, Uganda. 11721
The distribution of Ixodes persulcatus in the USSR. 11741
Ticks of wild animals of the Antilles (Acarina, Ixodoidea). 11748
Ecology of the American dog tick, Dermacentor variabilis (Say), in Nova Scotia. 11808
Some records for Ixodidae of Nova Scotia. 11858
The utilization of amino acids and sugars by tick cells cultivated in vitro. 11873
Transmission of Theileria annulata by the crushed infected unfed Hyalomma dromedarii. 12198
Peculiarities of the fauna, ecology and geographic distribution of blood-sucking Arthropoda in Vietnam. 12964
Larval diapause in the tick Ixodes ricinus L. and its relation to external conditions. 7. On the sensitivity to photoperiodic stimuli during blood-sucking. 13018
A study of the citric acid cycle in the tick Hyalomma dromedarii. 13036
D.P.I. tick fever vaccine for reliability. 13368
Developments in control of ectoparasites of livestock. 13421
Equine piroplasmosis in the United States-- a review. 14009
Occurrence of tick-borne encephalitis virus neutralizing antibody in aquatic birds in central Europe. 14565
Two new species of argasid ticks (Ixodoidea, Argasidae) from Cuba. 15316
Mixed natural focus of Q-rickettsiosis and of tick-borne encephalitis in the eastern-european south-taiga forests. 15800
The use of chlorophos with prolongator for antitick treatment of cattle in a focus of Crimean hemorrhagic fever. 15813

IXODOIDEA
Biochemical and physiological studies of certain ticks (Ixodoidea). Experimental feeding of Argas (Persicargas) arboreus Kaiser, Hoogstraal and Kohls (Areasidae) through membranes. 9484
Ticks (Ixodoidea) of domestics animals in Iraq. Part 7. Seasonal incidence on cattle, sheep and goats in the Tigris-Euphrates valley plain. 9760
Ticks (Ixodoidea) of domestic animals in Iraq. Part 5. Infestations in the Liwas of Diwaniya and Nasiriya (spring), Karbala (winter), and Hilla (autumn and winter). 11638
Ticks (Ixodoidea) of domestic animals in Iraq. Part 6. Distribution. 11639

IZIPHYA
Observations on the biology of Mesidia nigra, a parasite of Iziphya punctata. 12488

JAPANESE B ENCEPHALITIS VIRUS
Japanese encephalitis virus in Taiwan: Preliminary evidence for Culex annulus Theob. as a vector. 15443

JASSIDAE
On a new species of Zizyphoides distant (Homoptera: Jassidae) from India. 12983

JAUNDICE
Some aspects of the etiology of enzootic icterus (geelsiekte) and tribulosis ovis (geeldikkop). 14589
Chronic cholangiohepatitis in a dairy cow. A case report. 15194

JAVESELLA PELLUCIDA
Electron microscopy of the striated border of the midgut cells of Javesella pellucida (F.) (Homoptera, Delphacidae). 11238

JOHNE'S DISEASE
The pathological study of paratuberculosis in goats, centered around the formation of remote lesions. 13977

JORDAN
Contribution to the knowledge of the genus Epithrix Foudr. (Coleoptera, Chrysomelidae, Halticinae). 12370

JUGLANS
Attempts at fighting the bacterial growth of the walnuttree. 15516

JUJUBE
On a new species of Zizyphoides distant (Homoptera: Jassidae) from India. 12983
Role of vegetation in sexual maturation of the desert locust (Schistocerca gregaria Forsk.). 14795

JUNCUS EFFUSUS
Control of soft rush (Juncus effusus). 10805

JUNIPERUS
Plant-parasitic nematodes in marginal Pinus ponderosa stands in central New Mexico. 8390
Bionomics of the juniper webworm. 9440
Rooting of narrowleaf evergreen cuttings as influenced by various hormone treatments. (Abstract). 14318
The saprophytic fungus Hysterographium mori (Schw.) Rehm, growing on Juniperus, a new species for Czechoslovakia. 15456

JUNIPERUS CHINENSIS
Rooting of narrowleaf evergreen cuttings as influenced by various hormone treatments. (Abstract). 14318

JUNIPERUS COMMUNIS
Chemical control of the juniper webworm on Irish juniper. 9016

JUNIPERUS VIRGINIANA
N,n-dinitroethylenediamine retards growth of red cedar and American arborbitae. 12908

JURISPRUDENCE
Studies on the possibilities of using blowflies (Dipt.) as medicolegal indicators in Finland. I. Report of four indoor cases from the city of Helsinki. 14299

JUTE
Differential response,of a few improved and local varieties as well as a hybrid line of jute to stem-rot (Macrophomina phaseoli) and anthracnose (Collectotrichum corchori). diseases. 12619
Relative efficacy of endrin and parathion as prophylactic sprays in the control of jute apion, Apion corchori Marshall (Coleoptera: Curculionidae). 15035

JUVENILE HORMONE
Natural and synthetic materials with insect hormones activity. 8. Juvenile activity of the farnesane-type compounds on Galleria mellonella. 11298

Juvenile hormone and the formation of warriors in the yellow necked termite, Calotermes flavicollis Fabr.. 11332

Growth promotion in pea stem sections. III. By alkyl nitriles, alkyl acetylenes and insect juvenile hormones. 11701

Juvenile hormone: Effects on a higher Dipteran. 11912

Compounds related to juvenile hormone. III. 12533

Compounds related to juvenile hormone. II. 12539

Natural and synthetic materials with insect hormone activity--VI. Juvenile hormone effects of some alkyl-ethers derived from aliphatic beta-hydroxy acids. 13113

Corpora allata and genetic instinct in Calotermes flavicollis Fabr. The release of sexual activity in young winged imagos of Calotermes flavicollis Fabr. necessitates the presence in the organism of an elevated amount of juvenile hormone. 15392

KAKI PERSIMMONS
Biological observations on Zeuzera pyrina L. in Sicily. (Lep. Cossidae). 9417

KALAFUNGIN
Kalafungin, a new antibiotic produced by Streptomyces tanashiensis strain Kala. 9716

KALANCHOE
Interaction of triiodobenzoic acid and indoleacetic acid in development and flowering of Kalanchoe. 12301

KALE
Gas chromatographic determination of residues of dimethoate and its oxygen analog in field-sprayed kale. 9162

Weed control in kale and swedes. 10820

Kale anaemia in ruminants. II. Observations on kalefed sheep. 13380

KALOTERMITIDAE
Influences of physical factors on termites. 11783

KAOLIN
A hemagglutination-inhibition test for parainfluenza 3 virus antibodies. 10859

Effects of spraying plants with suspensions of inert dusts. 13477

KEIFERIA GLOCHINELLA
Synonymy of Keiferia glochinella (Zeller) and related names (Lepidoptera: Gelechiidae). 9905

KEIFERIA INCONSPICUELLA
Synonymy of Keiferia glochinella (Zeller) and related names (Lepidoptera: Gelechiidae). 9905

KENAF
A leafspot disease of kenaf in Maryland associated with Cristulariella pyramidalis. 14431

Oat yields one year after trifluralin applications. 15055

KER LANCEOLATUS
Descriptions of some new cheyletid mites from the United Arab Republic. (Acarina: Cheyletidae). 9279

KERATINIZATION
Survey of yeastlike fungi and tissue changes in esophagogastric region of stomachs of swine. 10339

KERATITIS
Ulcerative keratitis in the cat. 10869

Infectious bovine kerato-conjunctivitis: A review. 14018

KERATOCONJUNCTIVITIS
Infectious bovine kerato-conjunctivitis: A review. 14018

Kerato-conjunctivitis in cattle in the plateau area of Northern Nigeria. A study of Thelazia rhodesii as a possible aetiological agent. 14634

KEROGENS
Identity of sporopollenin with older kerogen and new evidence for the possible biological source of chemicals in sedimentary rocks. 9525

KEROSINE
Ants indoors. 13424

KETONE BODIES
Methodology employed in the California mosquito larvicide resistance surveillance program. 13629

KETONES
Comparative effectiveness of aliphatic ketones in eliciting alarm behavior in Pogonomyrmex barbatus and P. comanche. 11407

Sex pheromone of the queen butterfly: Chemistry. 11861

KETOSIS
The effect of diet on the incidence of induced ketosis in the lactating dairy cow. 12775

KIDNEY BEANS
Preliminary studies of the effects of cacodylic acid on the activity of 2,4-D and picloram in bean plants. (abstract). 8438

Stimulation of plant growth. Patent 3,454,391. 8592

Effect of cytokinins on tobacco mosaic virus production in local-lesion and systemic hosts. 10204

Rearing stored-product insects for laboratory studies: Bean and cowpea weevils. 10562

Summer death--a new disease of beans. 10619

Desmodium paniculatum, a perennial host of bean pod mottle virus in nature. 10674

Further studies on root exudation of exogenous growth regulators in Phaseolus vulgaris L. (Abstract). 10984

Research on the metabolism of virus-infected plants. V. Influence on the changes in metabolism in Phaseolus vulgaris L. after infection with tobacco necrosis virus by light deficiency. 11979

Effect of activated carbon on the phytotoxicity of herbicides in a tropical soil. 12709

A kinetic isotope effect in the photoreactivation of u. v.-inactivated tobacco mosaic virus RNA. 13250

Peroxidase isozymes in virus-infected plants. 14418

Effect of fusaric acid on in vitro cultures of embryos of Phaseolus volgaris L.. 14979

Use of pre-emergence herbicides in navy beans. 15730

KIDNEYS
Relative hypertrophy of the mouse's right kidney. 8460

Observations on the nephridial system of the cestode Moniezia expansa (Rud., 1805). 8499

The fine structure of the protonephridial system in the miracidium of Fasciola hepatica. 8515

Actinobacillus lignieresii infection in a dog. 9067

Arsenic poisoning of cattle and other domestic animals. 9096

Susceptibility of male and female mice to the mephrotoxic and hepatotoxic properties of chlorinated hydrocarbons. 9174

Electron microscopic observation of crystalline arrays of virus-like particles in tissues of mink with Aleutian disease. 9611

Effect of o,p'-DDD and metyrapone (SU-4885) on development of renal hypertension in rats. 9807

Action of honey bee venom on development of epithelial cellular cultures of monkey's kidneys. 9997

Appearance of Cx-reactive protein in plasma of rabbits with corresponding decrease in liver catalase following 3-aminol,2,4-triazole administration. (Abstract). 10833

Growth curves in pig kidney cells of three porcine adenoviruses. 12774

Chemically characterized media for study of foot-and-mouth disease virus in baby hamster kidney cells. 13397

The detection of autoantibodies to kidney tissue in a dog experimentally infected with Leptospira canicola. 14010

Attenuation of hog cholera virus in the carrier cell strains established from kidneys of pigs experimentally infected with the virulent virus. 14576

Nairobi sheep disease: A study of it's pathogenesis in sheep, goats and suckling mice. 14597

Lead poisoning and aspergillosis in an Andean condor. 15789

KINASES
Studies on the 5'-terminus of turnip yellow mosaic virus RNA. 8316

Effect of 5-fluorouacil and 5-bromo-2'-deoxyuridine on the induction of thymidine kinase in polyoma virusinfected mouse embryo cells. 8488

Sequence studies of satellite tobacco necrosis virus RNA; isolation and characterization of a 5'-terminal trinucleotide. 9615

Synthesis of uridilic nucleotides and TMP in bone marrow of chicks infected with the avian myeloblastosis virus. 9706

Pyruvate kinase and phosphoenolpyruvate carboxykinase activities of Ascaris muscle, Hymenolepis diminuta and Schistosoma mansoni. 10369

Deoxyribonucleoside monophosphokinases of silkworm pupae infected and uninfected with nuclear polyhedrosis virus. 15408

KINETICS
Studies on the 5'-terminus of turnip yellow mosaic virus RNA. 8316

Site difference for solid tumor growth. 8455

Effect of 5-fluorouacil and 5-bromo-2'-deoxyuridine on the induction of thymidine kinase in polyoma virusinfected mouse embryo cells. 8488

Effect of aflatoxin and benzopyrene pretreatment upon the kinetics of benzopyrene hydroxylase. 12310

A kinetic isotope effect in the photoreactivation of u. v.-inactivated tobacco mosaic virus RNA. 13250

Kinetic evidence of reversible iso-cholinesterases based on inhibition by organophosphates. (Abstract). 14700

KINETIN

Expression of sexual characteristics in annual mercurials. 8580

Some factors affecting the in vitro development of strawberry fruits. 12234

Growth retardants in relation to the germination of seeds. VI. Germination and growth of cauliflower as affected by Coumarin, CCC, Phosfon D and kinetin. 12265

The action of indoleacetic acid and kinetin on the mitotic cycle of proliferative and stationary phase excised root meristems. 12297

The effects of DMSO alone and when combined with various growth regulators on the growth and metabolic products of Datura spp. 13489

KOCHIA

Herbicidal control of weeds in sugarbeets. 15141

Competition between Kochia and sugarbeets. 15746

KOCHIA SCOPARIA

Herbicide evaluation studies on sugar beets, 1967. 15148

Effect of pyrazon and dalapon with various surfactants on sugar beets and weeds. 15152

KOHLRABI

Weed control in crucifer cultures with 2-chlor-N-isopropylacetanilide. 11571

KYNURENINE

Enzymatic studies on the hydroxylation of kynurenine in Drosophila melanogaster. 13051

L-GLUTAMIC ACID

Nutritional requirements of Xanthomonas phaseoli var. fuscans. 11514

LABELING

Marking adult boll weevils with dyes fed in a cottonseed oil bait. 8739

Use of a genetically marked strain to evaluate the retention of marking dyes by released screwworm flies. 8768

The fluorescent particle spray droplet tracer method. 9230

Furaspor liquid veterinary. Drugs for veterinary use, drug efficacy study implementation. 13388

The pesticide problem in developing countries. 13526

LABIA MINORA

Investigations of the wing mechanism of Dermaptera. 9409

LABIIDAE

A new species of Vandex Burr (Dermaptera; Labiidae) from Africa. 13538

Studies on some Indian Dermaptera. 13563

LABOR PRODUCTIVITY

Indian field crops. 11443

Herbicides in forestry. 15701

LABORATORIES

Contribution to the bionomics of Coptotermes formosanus, its laboratory breeding and applicability for testing the resistance of materials. 11831

The size effect of sample blocks on decay rate of beech wood (Fagus crenata) in laboratory tests. 12035

Alphitobius diaperinus Pz. (Col., Tenebrionidae) in broiler houses. 13044

Chemical control of Chrotogonus trachypterus Blanchard. 13615

Establishment and maintenance of a laboratory colony of Aedes nigromaculis (Ludlow) (Diptera: Culicidae) by induced mating. 13656

Growth and production of aflatoxins by Aspergillus flavus on red pepper (Capsicum frutescens L.). 13810

EDTA titration of calcium and magnesium: Determination of calcium in canned vegetables. 14029

A report of canthariasis and allergy caused by Trogoderma (Coleoptera: Dermestidae). 14039

Zebra fish eggs and larvae as aflatoxin bioassay test organisms. 14060

Fluorodensitometric measurements of aflatoxins on TLC plates. 14110

Studies on the biology and control of Sogatella furcifera Horv. (Delphacidae: Homoptera) in the Punjab. 14118

Relative efficacy of different insecticides, as contact poisons, to the larvae of the diamond-black moth, Plutella maculipennis Curtis (Lepidoptera: Plutellidae). 14122

Six cases of human rabies. Clinical and virological studies. 15804

Endrin induced trace metal alterations following acute exposure. 15849

LABORATORY ANIMALS

Glomerular response in human and experimental rickettsial disease (Rocky Mountain spotted fever group). A light and electron microscopy study. 8450

Site difference for solid tumor growth. 8455

Meadow vole used in hay research. 9052

On the merit of simple pricking with R2B (Mukteswar strain) for effective vaccination against New Castle (Ranikhet) disease. 9092

Control of chronic respiratory disease by Spiramycin antibiotic therapy. 9103

The trend in the evolution of the poultry vaccines and the channels of administration. 9104

The fine structure of Nosema sp. Sprague, 1965 (Microsporida, Nosematidae) with particular reference to stages in sporogony. 9118

Infection experiments with the cotton rat filaria Litomosoides carinii in Mastomys natalensis (Smith, 1834). 9127

Periodicity in the proportions of haemocyte categories in the giant cockroach, Blaberus giganteus. 9339

Electron microscopic observation of crystalline arrays of virus-like particles in tissues of mink with Aleutian disease. 9611

Anti-malarial effect of interferon inducers at different stages of development of Plasmodium berghei in the mouse. 9714

Virus induced cataracts. 9715

Role of interferon in experimental mouse malaria. 9749

Electro-cardiogram in a cardiac disorder in cattle. 9753

Effect of o,p'-DDD and metyrapone (SU-4885) on development of renal hypertension in rats. 9807

Acute and subchronic toxicity of a new fluorine pesticide, N-methyl-N-(1-naphthyl) fluoroacetamide. 9810

Nucleic acid content in small samples and individual spinal cord cells at different functional states. 10832

Clinical and pathological aspects of pulmonary adenomatosis in sheep. 10883

The effect of some insecticides on the animal organism. A contribution to the study of the hygienic-sanitary problem of the residues of the organophosphorus insecticides. 10939

Trichophytosis of laboratory mice. 12129

Acute cutaneous toxicity of certain organophosphorous insecticides. II - Phosphamidon. 12226

Use of Fintrol-5 to control undesirable fishes in shrimp-oyster ponds. 12227

The effect of blockade and stimulation of the reticulo-endothelial system on the development of experimental tuberculosis. A histochemical study. II. Studies on Mycobacterium tuberculosis (BCG). 12778

The effect of blockade and stimulation of the reticulo-endothelial system on the development of experimental tuberculosis. A histochemical study. I. Mycobacterium tuberculosis avium. 12779

Synthesis and experimental investigation of a new anthelminthic, monopar. 12896

Viruses transmissible from laboratory animals to man. 13402

Microbial contamination control facilities. 13423

Patterns of puffing activity in the salivary gland chromosomes of Drosophila. I. Autosomal puffing patterns in a laboratory stock of Drosophila melanogaster. 13711

Malignant transformation of hamster cells by cell-free extracts of bovine papillomas (in vitro). 13948

Increased yields of stomatitis virus from hamster cells injected with Mycoplasma. 14002

Pseudomonas infections in mink with special reference to Pseudomonas vasculitis in pulmonary lesions. 14598

Experiments for testing the activity of vaccines against leptospirosis. 15187

LABORATORY EQUIPMENT

Alkaline pre-column for use in gas chromatographic pesticide residue analysis. 9156

Microcoulometric gas chromatography: Improvements in instrumentation.
9227

An improved cage for the mass rearing of the Trichogramma egg parasites (Hymenoptera, Chalcidoidea).
9490

New electronic conceptions on actography applied to the study of invertebrates.
9620

An isolation cabinet system for avian disease research.
9699

Controlled soil perfusion with a multi-channel peristactic pump.
11712

Polystyrene beakers for eelworm culture.
13866

A Y shaped through for use in nematode behavioural studies.
13872

A simplified method for testing infestivity of Heterodera rostochiensis.
13899

Effects of ultraviolet radiation on adults of Aedes aegypti (L.) (Diptera: Culicidae).
15451

An incubator useful for culturing Olpidium brassicae for transmission of plant viruses.
15521

LABORATORY INSECTS
Nosema sp. infecting a laboratory colony of the alfalfa weevil.
8109

LACCARIA LACCATA
The influence of ectotrophic mycorrhizal fungi on the resistance of pine roots to pathogenic infections. I. antagonism of mycorrhizal fungi to root pathogenic fungi and soil bacteria.
9583

LACCIFERIDAE
A supplementary list of the host-plants of lac insects.
10135

LACTAMIDES
Facet-inhibitory effect of certain chemicals on the compound eyes of Drosophila melanogaster.
11839

LACTARIUS DELICIOSUS
The influence of ectotrophic mycorrhizal fungi on the resistance of pine roots to pathogenic infections. I. antagonism of mycorrhizal fungi to root pathogenic fungi and soil bacteria.
9583

LACTATE DEHYDROGENASE
Lactic dehydrogenase isozymes in the grasshopper.
9961

LACTATION
Response on lactating cow to corn silage and concentrates of three nitrogen levels with and without urea.
9678

The effect of diet on the incidence of induced ketosis in the lactating dairy cow.
12775

A histological study of the effects of enzootic abortion of ewes virus in the lactating bovine mammary gland.
14559

Excretion of aflatoxin in a lactating cow. Drosophila melanogaster to anesthesia.
14660

LACTIC ACID
Morphology and significance of laticifer rupture in lettuce tipburn.
10686

Malarial parasite metabolism: The lactic acid dehydrogenase of Plasmodium berghei.
15182

LACTIC ACID BACTERIA
Studies on a new intramuscular haematinic for piglet anaemia.
14573

LACTONES
Structure of capitasterone, a novel C29 insect-moulting substance from Cyathula capitata.
10565

Circular dichroism of gibberellins and the application of the lactone chromophore to their structural elucidation.
12315

LACTOSE
Enhanced recovery of Salmonella montevideo from onion powder by the addition of potassium sulfite to lactose broth.
13381

Recommended changes in the method for detection and identification of salmonella in egg products.
14040

LAELAPIDAE
Haemogamasid mites of eastern Asia and the western Pacific with a key to the species.
11105

The response of a predator, Hypoaspis aculeifer (Canestrini) (Acarina:Laelapidae), to two species of prey.
13010

LAELAPTIDAE
Two new species of gamasid mites (Gamasoidea, Laelaptidae) from North Vietnam. III.
12963

LAMBDINA ATHASARIA
A case history - Control of the hemlock looper.
15016

LAMBS
Sequence in the abortive and teratogenic effects of locoweed fed to sheep.
9080

Serum enzyme and serum electrolyte values of lambs fed a magnesium-deficient ration.
9085

Further experiments with low-level feeding of Thiabendazole to lambs.
9135

Prenatal immunization of the lamb to Brucella: Dissociation of immunocompetence and reactivity.
12788

Spongy changes in the brains of sheep poisoned by excess dietary copper.
12894

Kale anaemia in ruminants. II. Observations on kalefed sheep.
13380

Grazing management in relation to trichostrongylid infestation in lambs. I. Influence of stocking rate on the level of infestation.
13413

Anaplasmosis in East-Friesan lambs.
13930

Comparative anthelmintic efficiencies of parbendazole, thiabendazole, and phenothiazine in lambs.
14630

Efficacy of coumaphos and naphthalophos against nematodes of lambs.
15833

LAMBSQUARTERS
A study of the activity of diphenamid and three analogs. (abstract).
8582

LAMELLAREA
Lamellarea, a new oribatid genus (Acari) from South Africa.
14147

LAMENESS
Foot lameness in pigs.
10332

LAMIIDAE
A new record of borer Celosterna scabrator Fbr. (Lamiidae, Coleoptera) as a pest of grape vine, Vitis vinifera L. in Maharashtra.
12692

Allomorphosis and geography in insect populations.
14844

LAMPROCHERNES NODOSUS
Phoresia of Damalinia (C.) meyeri (Mallophaga) and Lamprochernes nodosus (Pseudoscorpionidea) on mosquitoes Aedes sticticus (Culicidae).
15400

LAMPYRIDAE
The role of the neurohormones in the sexual differentiation of Lampyris noctiluca.
8165

Spectrum analysis of the light emitted by Luciola lusitanica (Charp.).
8195

The excited state products of firefly bioluminescence: properties and mechanism of formation. (Abstract).
10534

Colors of firefly bioluminescence: Invariability of intraspecies emission spectra.
15352

LAND
Aerial spraying of forests: Notes for landowners.
9034

Rhinoncus bruchoides (Herbst) (Col., Curculionidae) in West Kent.
13095

Dawn and dusk activity periods and orientation to forest and field of the Drosophila subobscura and Drosophila obscura.
14225

Cost of effective plant protection in the field, the garden, and the vineyard.
14307

Economic losses from water erosion on agricultural land.
14928

The frequency of Fusaria in soils of fields either with or without maize in crop rotation.
15568

LANKESTERIA CULICIS
Damage caused by Lankesteria culicis (Ross) to Aedes aegypti (L.).
14297

LANTANA CAMARA
Propagation of a cerambycid borer on a meridic diet.
9394

An outbreak of photosensitisation in Karamojong sheep at Entebbe.
14557

LARIX
A review of lepidopterous pests of coniferous forests in the Baykal Region.
9019

Nursery investigations. Weed control.
11565

Host trees and breeding sites of native North American Pissodes bark weevils, with a note on synonymy.
11884

LARIX LEPTOLEPIS
Pelleted fenuron for conversion of low-quality hardwood stands to Japanese larch.
8433

Pelleted herbicides for conversion of low-quality hardwood sites to Japanese larch (Larix leptolepis). (Abstract).
10813

LARIX OCCIDENTALIS
A shoot-blight disease of western larch in British Columbia.
15365

LARVAE
The selective control of simulium larvae by particulate insecticides and its significance in river management.
8020

Effects of ecdysones on diapause in the European corn borer, Ostrinia nubilalis.
8083

Innervation and neural excitation of ventral muscle fibres of the larva of the waxmoth, Galleria mellonelia.
8084

Influence of larval population density on the size of adults, duration of development, and diapause frequency in Pteromalus puparum L. (Hym., Chalcididae). 8088

Cuticular pigments of tobacco hornworm (Manduca sexta) larvae: Effects of diet and genetic differences. 8100

A noninclusion virus of blow-fly larvae. 8105

Ecdysone titres in the last larva adult stages of the milkweed bug. 8115

Laboratory study of the ecological conditions favoring the development of the fungus Beauveria tenella on cockchafer larvae. 8116

The length of larval stage in Pyrethroid-resistant and susceptible strains of the house fly, Musca domestica L. 8131

Immune responses of ligatured Galleria mellonella larvae. 8133

Selection for American foulbrood resistance in larval honey bees. 8134

The effect of larval density on mortality of Culex pipiens fatigans due to DDT and dieldrin. 8137

Nutritional studies of the rice stem borer Chilo suppressalis Walker. 8140

Biological investigations on Pandemis heparana (Den. and Schiff.) with special consideration given to the factors inducing diapause and influencing egg laying. 8155

In vitro synthesis of injury protein and a companion protein in organs of prepupa of Galleria mellonella L.. 8156

On the effect of synthetic synergists upon the knockdown speed of pyrethroids against larvae of the common house mosquito, Culex pipiens pallens Coquillett. 8158

Air swallowing- an effective protection against drowning in larvae of Epistrophe balteata (Syrphidae Dipt.). 8185

P32-labeling of common malaria mosquitoes: assimilation by larvae and retention and transfer during mating. 8193

Photoperiod and temperature as factors controlling the diapause of the sunflower moth, Homoeosoma electellum. 8201

Artificial diets for larvae of the oriental fruit moth. 8209

An epizootic disease of Tarichium (Entomophthoraceae) on the larvae of Ocnogyna parasita Hbn. (Lepidoptera, Arctiidae). 8215

Pit construction by myrmeleontid larvae. 8217

The embryogenesis of the larval head of Simulium venustum Say (Diptera: Nematocera). 8225

Genetic and environmental variability for bristles in Drosophila. 8227

Evidence of transovarial passage of the sowthistle yellow vein virus in the aphid Hyperomyzus lactucae. 8317

How to distinguish attacks by the black turpentine beetle and Dioryctria amatella on southern pines. 8339

Assessment of rice loss caused by the rice stem borer. 8353

Recent developments in and future prospects for the chemical control of the rice stem borer at IRRI. 8366

Recent developments in and future prospects for the chemical control of the rice stem borer in India. 8370

Topical, fumigation, and residual toxicity of insecticides to rice stem borers. 8374

The development of Haemonchus contortus in vitro. I. The effect of pH and pCO2 on the rate of development to the fourth-stage larva. 8505

Morphological and histochemical studies on the larval stages of Metastrongylus spp. (lungworms of swine) in the earthworm intermediate host, Eisenia foetida, Savigny 1826. 8506

Gardona as a mothproofer of woolen fabric. 8518

Microctonus glyptosceli n. sp., a parasite of Glyptoscelis pubescens (F.) in Wisconsin (Hymenoptera: Braconidae: Euphorinae and Coleoptera: Chrysomelidae). 8648

Entomophthora aquatica sp. n. infecting larvae and pupae of floodwater mosquitoes. 8695

The lepidopterous stalk borers of rice and their life cycles in the Tropics. 8702

Analysis of the structure of the pore ducts in the favorable case offered by the tegument of Galleria mellonella nymphs. 8703

Occult viruses in insects. (Abstract). 8710

Naturally occurring low-molecular-weight peptides from the blowfly Phormia regina. 8713

The adaptation to aquatic life of the larvae of Muansa clypealis (Homoptera, Cicadidae). 8717

Feeding behavior of larvae of the western corn rootworm: Normal larvae and larvae maxillectomized with laser radiation. 8718

The development and larval behavior of Stigmella malella Stainton. (Lep. Stigmellidae). 8728

Free and peptide-bound amino acids during the larval and pupal stages of the yellow-fever mosquito, Aedes aegypti. 8729

Cytopathology of a nucleopolyhedrosis of the beet armyworm, Spodoptera exigua. 8773

Pathogenicity of a nuclear-polyhedrosis virus of the beet armyworm, Spodoptera exigua. 8774

Simultaneous infection with the nucleopolyhedrosis and granulosis viruses of Trichoplusia ni. 8800

A red, fluorescent protein from silkworm. 8813

Observations on the immature stages of Cordilura (Achaetella) deceptiva and C. (A.) varipes. 8817

Morphology of the larval and adult brains of the monarch butterfly, Danaus plexippus plexippus, L. 8821

Description of immature stages of Noctuiseius treati Prasad (Acarina: Phytoseiidae). 8836

A technique for rearing larvae of the bollworm and tobacco budworm in large numbers. 8840

Sigma virus multiplication in whole-animal culture of Drosophila. 8852

A laboratory testing programme for assessing field performance of acaricides against Tetranychus urticae (Koch). 8857

Mating propensity, chromosomal polymorphism, and dependent conditions in drosophila persimilis. ii. factors between larvae and between adults. 8860

Hypnoidus riparius (Fabricius), a possible agricultural pest from Europe (Coleoptera: Elateridae). 8868

New symphoriont intranstylum - species (Peritricha, Ciliata) on larvae of Chironomous plumosus. 8869

Study of the corpus allatum in living larvae of the blow fly Calliphora erythrocephala MG. (Diptera, Calliphoridae). 8877

Low-cost larval rearing medium for mass production of Oriental and Mediterranean fruit flies. 8879

Feeding habits of larvae of seven Rhyacophila (Trichoptera: Rhyacophilidae) species with notes on other life-history features. 8882

Purification and some properties of Chilo iridescent virus. 8883

Mode of action of insecticides on the rice stem borer and development of resistance. 8884

Rate of oxygen uptake of healthy and diseased larvae of the Japanese beetle. 8895

Iridescent virus from blackfly Simulium ornatum Meigen in Czechoslovakia. 8896

Corn earworm infestation in ripe strawberries. 9017

Seasonal history and response to insecticides of Heliothis species on cotton. 9032

Evaluation of Arzama densa as an aid in the control of water hyacinth in Louisiana. 9049

Studies on the biosynthesis and degradation of phosphatidylbeta-methylcholine by housefly larvae. (Abstract). 9060

Utilization of tricarboxylic acid cycle intermediates by Haemonchus contortus larvae. 9133

Further experiments with low-level feeding of Thiabendazole to lambs. 9135

Comparative toxicites of insecticides to house fly larvae and Macrocheles muscaedomestica, a mite predator of the house fly. 9168

Larval development of Mansonia mosquitoes in Central Florida. 9261

Rhynchosciara baschanti (Diptera, Nematocera, Sciaridae), a new Brazilian species. 9265

Detailed description of larva of Polydorus aristolochiae. 9303

The larvae of Australian Ixodidae (Acarina: Ixodoidea). 9316

The Aedes mosquitoes of New England (Diptera: Culicidae). II. Larvae: Keys to instars, and to species exclusive of first instar. 9321

Biological examination of Psylliodes chrysocephala L. 9335

Alkali bees: Response of adults to pathogenic fungi in brood cells. 9344

The light threshold controlling the periodicity of invertebrate drift. 9358

The proliferation of aquatic plants in Lake Trasimeno and its consequences on the diffusion of Phytochironomus severini Goetgh. 9367

Parasitization of worker bumble bees of Mississippi by Physocephala larvae. 9387

Tests on the control of Prays citri Mill. by means of Bacillus thuringiensis. (preliminary report). 9389

The coccid Saccharicoccus sacchari (Cockerell) (Hemiptera Pseudococcidae) of sugar cane in Mozambique. 9390

Notes on parasites of immature Tabanidae (Diptera) and descriptions of the larva and puparium of Carinosillus pravus (Diptera: Tachinidae). 9392

Propagation of a cerambycid borer on a meridic diet. 9394

The diel pattern of feeding activity of larval Pseudosarcophaga affinis (Diptera: Sarcophagidae). 9404

The neurosecretory cells of the brain of Aedes aegypti in relation to larval molt, metamorphosis and ovarian development. 9413

Biological observations on Zeuzera pyrina L. in Sicily. (Lep. Cossidae). 9417

Note on a parasitic Aspergillus on larvae of Amsacta moorei Butler. 9420

A large experiment on artificial biological control of the olive fruit fly (Dacus oleae G.) by means of Opius c. Sz. siculus Mon. in Sicily. (Palermo July-October 1966). 9431

Psallus ambiguus (Fall.) (Heteroptera, Miridae). Part II, Nutrition and role in the biocenosis of orchards. 9438

The determination of larval instars of the rice weevil Sitophilus oryzae (L.) (Coleoptera: Curculionidae) in wheat. 9441

A study of the cashew borer,Mecocorynus loripes Ches. (Coleoptera, Curculionidae) I. The anatomy of the principal organs. 9450

The fundamental schema of oogenesis in the firebrat Lepismodes inquilinus (Thysanura, Lepismatidae) and its periodisation in connection with imaginal moulting cycles. 9459

The myoblastic masses and neural tissue associated with the proventriculus of larvae of Aedes triseriatus, A. aegypti, and Anopheles quadrimaculatus. 9460

Study of a biting midge, Forcipomyia (Lasiohelea) taiwana (Shiraki) (Diptera: Ceratopogonidae)I. Description of the complete life cycle of the midge reared in the laboratory. 9479

Photoperiodic induction of diapause in larvae of the winter tick, Dermacentor albipictus. 9507

The solar-day activity rhythm of Myrmeleontid larvae. 9509

The effect of temperature on the number of eggs deposited and on the production of hatching larvae in versene-treated Drosophila melanogaster. 9511

Fly pests affect some crops in Northland. 9644

Pelecitus ceylonensis n.sp., from the chick and ash-dove experimentally infected with larvae from Mansonia crassipes, and from naturally-infected crows in Ceylon. 9767

A comparative study of the effectiveness of chemical ovicides on the survival of the soil-transmitted intestinal nematodes. 9768

The larvae of Odonata in the vascular territory of stagnant waters in Bulgaria. 9872

Characters for identification of some common plusiine caterpillars of the southeastern United States. 9889

Caddis larvae. 9904

Description of the male, pupa, and larval habitat of Nilobezzia brevicornis (Diptera: Ceratopogonidae). 9963

Biochemical study of Plodia interpunctella (Hbn.) (Lepidoptera) I--Variations of body weight, water content, and dry matter content. 9993

Variations in free amino acids in the larvae and pupae of Chilo zonellus. 9994

The influence of the rearing temperature on larval and pupal mortality and the duration of development of Drosophila. 9995

Studies on the ecology of larval Tipulinae (Diptera, Tipulidae). 10011

Lethargy, a new virus of Melolontha melolontha L. larvae (Coleoptera, Scarabaeidae). 10036

Biology of the billbug Sphenophorus venatus confluens, a new pest of orchardgrass. 10047

Substrate preferences and invasion behaviour exhibited by larvae of Nilodorum brevibucca Freeman (Chironomidae) under experimental conditions. 10066

The absorption of p,p'-DDE by larvae of Aglais urticae (Lepidoptera: Nymphalidae). 10078

Biology and description of immature stages of Orthacheta hirtipes, a predator of Cordilura spp. 10080

Effect of different food plants on the larval and post-larval development on Diacrisia obliqua Walker. 10084

Sterol and water-soluble requirements for larvae of the red-banded leaf roller, Argyrotaenia velutinana. 10104

Experiments on larval diapause in the carabid Pterostichus vulgaris L. 10129

Laboratory evaluation of insecticides against white-fringed weevil (Graphognathus leucoloma (Boheman) (Coleoptera: Curculionidae)) larvae. 10131

The histopathology of a nuclear polyhedrosis in larvae of the cabbage looper, Trichoplusia ni, related to symptoms and mortality. 10134

Refined defensive mechanisms in Chrysomela scripta. 10139

A new species of Aedes (Stegomyia) from Thailand (Diptera: Culicidae). 10164

Distribution of larval and pupal instars of Plusia argentifera Guen. on tobacco plants. 10240

Pneumostrongylus tenuis in moose on a deer-free island. 10375

The course of naturally acquired helminth infections of horses given regular anthelmintic treatment. 10380

An investigation of the Culicidae of Charente-Maritime; The occurrence of the genus Mansonia Blanchard 1901: M. (Coquilletidia) richiardii (Ficalbi) 1896 and M. (C.) buxtoni (Edwards) 1923. 10500

Breeding places of blood-sucking Culicidae mosquitoes and recommendations for preventing of their appearance in lands of new irrigation in the Golodnaya Steppe. 10524

Central European larval forms of Chlaenius Bon. (Coleoptera, Carabidae). 10536

Natural infection of chigger mites with Rickettsia tsutsugamushi on the Primorsky Territory. 10541

Difference of larval period observed between males and females of Culex pipiens pallens. 10567

The distribution of an oil, carbohydrate, and protein food source to members of the imported fire ant colony. 10571

Arrestant-feeding stimulant as an additive to shell SD-8447 for control of corn earworm larvae in sweet corn. 10732

Some data on bioenergetics of the larvae of Trichinella spiralis. 10846

Uncoupling effect of cytoplasmic fraction of Trichinella spiralis larvae on bioenergetics of rat muscle mitochondria. 10878

Final-instar larvae of two hymenopterous parasites of a wood-boring beetle, (Etropium velutinum LeConte (Coleoptera: Cerambycidae). 11135

Two new species of Ornithodoros from the Galapagos Islands (Acarina: Argasidae). 11157

Morphological and phylogenic studies on the larvae and male genitalia of the East Asiatic Tingidae (Heteroptera). 11165

The relative susceptibility of the larvae of Spodoptera mauritia acronyctoides (Guenee) (Lepidoptera: Noctuidae) to several contact insecticides. 11221

The effect of radioactive phosphorus on the development of Aedes aegypti larvae. 11223

Fecal filaments produced by fungus infesting larvae of Platydema oregonense. 11235

Method for the detection and registration of weak sounds, such as the gnawing of insect larvae. 11237

Biochemical and autoradiographic studies of DNA synthesis in the salivary gland of the melonfly, Dacus cucurbitae. 11278

Oviposition characteristics and early larvae mortality of Saperda inornata and Oberea schaumii in Michigan aspen. 11281

The spectral sensitivity and the components of the visual system in the stemmata of silkworm larvae, Bombyx mori L. (Lepidoptera: Bombycidae). 11296

Nutritional studies on excessive larval molting in the silkworm Bombyx mori. 11306

Fatty acid metabolism in Drosophila melanogaster: Interaction between dietary fatty acids and de novo synthesis. 11307

The digestive enzymes of the larva of Utetheisa pulchella Linnaeus (Lepidopterai Arctiidae).
11308

Larval density and adult fecundity in a natural population of the pine looper (Bupalus piniarius L.).
11312

Some behavioral and serological observations on the response of larvae of Bombyx mori and Malacosoma disstria to Bacillus thuringiensis.
11319

Effects of allatectomy on the imaginal development of the female genital tract in Locusta migratoria migratorioides (Insecta, Orthoptera).
11328

The sensory equipment of the first-stage Locusta migratoria L. larvae mandibles.
11330

A coccidian pathogen of the dermestid Trogoderma parabile.
11336

A candidiasis in larvae of the Douglas-fir tussock moth, Hemerocampa pseudotsugata.
11339

The appearance of resistance in the larva of the cotton rootborer weevil to the action of chlorinated hydrocarbons under laboratory conditions.
11348

Immature stages of a chalcidoid parasite tended by allodapine bees. (Hymenoptera: Perilampidae and Anthophoridae).
11350

Larval aggregation formation and population density interrelations in Aedes taeniorhynchus, their effects on pupal ecdysis and adult characteristics at emergence.
11358

Protein synthesis and nucleic acid metabolism in the fat body of the larva of the blowfly, Calliphora erythrocephala.
11372

Compensation of the back drift of caddis fly larvae (Insecta, Trichoptera).
11388

Respiratory rates of green and black larvae of the armyworm, Leucania separata (Lepidoptera: Noctuidae).
11392

Studies on acid phosphatase in the silk gland of the silkworm. I. Electrophoretic analyses of acid phosphatase in the silk gland of Samia cynthia ricini.
11402

Excision of gonads from immature Diatraea.
11408

Hormonal effect on cultivated insect tissues. I. Effect of ecdysterone on cultivated testes of diapausing rice stem borer larvae (Lepidoptera: Pyralidae).
11417

Immature stages of the flesh fly, Parasarcophaga (Thomsonea) argyrostoma (Robineau-Desvoidy).
11418

The morphology of the scent glands of Dysdercus intermedius Distant (Hemiptera: Pyrrhocoridae) and a preliminary analysis of the scent gland secretions of the fifth instar larvae.
11419

Virus-cell studies of Tipula iridescent virus in Galleria mellonella (L.). I. Electron microscopy of infection and synthesis of Tipula iridescent virus in hemocytes.
11420

Further experiments with Saturnia pavonia L. (Lep., Saturniidae).
11421

The importance of insects for the dispersal of infectious oak wilt.
11534

Use of an actograph with electro-acoustical detector for the study of grain insects. Actography of the larval development of Sitophilus granarius. Detection of the primary effects of the ionizing radiations.
11538

Morphogenesis and migration of Ascaris suum larvae developing to fourth stage in swine.
11645

Relative toxicity of certain fumigants to Trogoderma granarium Everts (coleoptera, Dermestidae).
11660

Studies in life histories of North American Lepidoptera California Annaphila III.
11726

Notes on Culiseta (Culicella) atra (Lee) (Diptera: Culicidae) in western Australia.
11727

Occurrence of Agriotypus armatus Walk. (Hymenoptera, Ichneumonidae) in West Pomerania.
11738

Artificial parthenogenesis and experimental polyploidy in silkworm.
11778

Application of X-radiography to the estimation of larval size in Anobium punctatum (Deg.).
11779

Some remarks on the parasitism of insects.
11785

Notes on parasites attacking the yellow-striped armyworm in Oklahoma.
11790

Immature stages of Australian Anthophorinae (Hymenoptera: Apoidea).
11795

Biology of Bracon kirkpatricki and field releases of the parasite for control of the boll weevil.
11802

Larval moulting cycle and DNA synthesis in Drosophila hydei salivary glands.
11804

Field investigations preliminary to life history studies on the lithosina-miona-casta complex of the genus Annaphila (Noctuidae).
11828

Respiratory physiology of the larva of Donacia simplex, a root-piercing beetle.
11830

Artificial feedstuff for silkworm larvae containing a hydroxybenzaldehyde compound. Patent 3,425,838.
11840

Migrations of Hippelates collusor larvae from moisture and trophic stimuli and their encounter by Trybliographa para-.
11848

Experiments of in vitro cultures of larval epiderm of desert locust (Schistocerca gregaria Forsk).
11862

The synthesis in vitro of the protein calliphorin by fat body from the larva of the blowfly, Calliphora erythrocephala.
11866

Development of Foleyella philistinae Schacher and Khalil, 1967 (Nematoda: Filarioidea) in Culex pipiens molestus with notes on pathology in the arthropod.
11877

Amino-acid receptor in larvae of Pieris brassicae (Lepidoptera).
11881

Electron-microscope studies of a granulosis virus of Pygaera anastomosis.
11882

An investigation of haemolymph protein economy during the fifth instar of Locusta migratoria migratorioides.
11889

Biology and immature stages of Eumetopiella rufipes.
11891

Protein changes in the haemolymph of Pieris brassicae during the last larval instars and the beginning of the pupal stage.
11892

Observations on the biology of six species of acarid mites.
11900

Galls and larvae of the European species of genera Phyllocolpa and Pontania (Hymenoptera, Tenthredinidae).
12052

Biological studies of Argyresthia franciscella and A. cupressella on ornamental Cupressaceae.
12079

Influence of the quantity of insecticide per seed and per hectare on seed treatments for cereal leaf beetle larvae control on oats.
12080

The phyllophagous larvae of the family Noctuidae (Lepidoptera), collected on corn in Northern Greece.
12082

Four methods of sampling to measure populations of alfalfa weevil larvae.
12341

Conversion of results of concentrated samples to density estimates of egg and larval populations of the Northern corn rootworm.
12345

Distribution of the corn earworm on St. Croix, U.S. Virgin Islands, and its relation to suppression programs.
12387

The first instar larvae of the genus Trixa Meigen and remarks on the systematics and nomenclature of this genus (Diptera, Larvaevoridae).
12401

Contribution to the study of the Culicidae of Madagascar. Description of larvae and nymphs of Culex (C.) giganteus Ventrillon and Culex (C.) argenteopunctatus argenteopunctatus Ventrillon. Comparative notes on the adults of the two species.
12425

Sarcophagous habits of Trichoptera larvae on dead fish.
12426

Trail laying by larvae of Chlosyne lacinia.
12430

A new parasite of the vegetable weevil in southern California.
12436

Morphological study on the instars of the alfalfa caterpillar , Colias lesbia (F.) (Lep., Pieridae).
12441

Electrophoretic studies of serum proteins obtained from radiofrequency-treated yellow mealworm larvae.
12473

Larval development of Aedes aegypti (L.) in used auto tires.
12477

Formulation of a semisynthetic nutrient medium and methods of feeding of larvae of Agrotis segetum on it.
12481

Responses of spotted cutworm larvae to various intesities and wavelengths of light.
12505

DNA synthesis in the gaint salivary chromosomes of Drosophila virilis proir to pupation.
12513

On a new species of Agamermis (Mermithidae) of a bug in Poland.
12525

Relationship of size of fecal pellets to larval molts in Lepidoptera.
12529

Competition and survival among the corn earworm, the tobacco budworm, and the Fall armyworm.
12555

Treatment of corn rootworm larvae and adults with Bacillus thuringiensis and B. popilliae.
12687

On trichinellosis of animals in the North-Eastern USSR.
12747

LARVAE

The development of Amidostomum anseris (Zeder, 1800) in the organism of Columba livia domi. 12838

Paratenic parasitism as an indicator of the specificity of the definite host in some trematodes. 12852

Studies on immunity of calves to Dictyocaulus viviparus reinfection. V. Serological studies on experimental dictyocaulosis caused by normal and X-ray inactivated larvae. 12861

Ecological specificity of intermediate hosts of Thelazia in cattle and the relation of their infective larvae to some unusual hosts. 12864

The evaluation of fractionated antigens of Trichinella spiralis in complement fixation and ring precipitation tests. 12867

Influence of temperature on the effectiveness of paradichlorobenzene fumigation of black carpet beetle larvae. 12874

Laboratory evaluation of malathion as a storage protectant for figs. 12879

New forms of larvae from Stictochironomus (Diptera, Chironomidae) genus obtained from reservoirs. 12936

A generic diagnosis of Bodenheimera Bodenheimer (Homoptera: Coccidae) with a redescription of B. rachelae (Bodenheimer). 12940

The taxonomy of the larvae and pupae of the British Phryganeidae (Trichoptera). 12943

The immature stages of the flea beetles Psylliodes cuprea (Koch) and Psylliodes chrysocephala (L.) (Col., Chrysomelidae). 12951

Lepidopterous larval-mining of an oak ( ) leaf from the Latah Formation (Miocene) of eastern Washington. 12973

Milky disease bacteria. 12992

Lomamyia latipennis (Neuroptera: Berothidae) life history and larval descriptions. 12994

Description of the larvae of Zabrus orsinii (Dej.) (Coleoptera, Carabidae). 12998

The effect of radioactive phosphorus on the development of Aedes aegypti larvae. 13006

Larval diapause in the tick Ixodes ricinus L. and its relation to external conditions. 7. On the sensitivity to photoperiodic stimuli during bloodsucking. 13018

Influence of climatic conditions on the effectiveness of treatments against Cryptorrhynchus lapathi L. larvae. 13029

Retardation of larval development of Aedes aegypti (L.) by the vital dye, Nile Blue Sulfate (A). 13031

Defensive use of a fecal shield by a beetle larva. 13047

A technique for transferring newly hatched larvae. 13050

Laboratory evaluation of some organophosphorus compounds against the larvae of Aedes (O.) detritus (Haliday), Aedes (O.) caspius (Pallas) and Culex pipiens pipiens (L.).. 13060

Audition by Cerura larvae (Lepidoptera: Notodontidae). 13071

Lethal effects of gamma radiation on eggs and larvae of the bagworm, Thyridopteryx ephemeraeformis. 13114

Larval behavior of Eupsilia morrisoni. 13115

An experimental study of the mortality factors of larval Musca autumnalis DeGreer. 13139

Tabanid larval habitats and population densities in an alluvial area in southern Louisiana. 13146

Immature stages of the flesh fly, Parasarcophaga (Thomsonea) argyrostoma (Robineau-Desvoidy). 13150

An experimental examination of restricted selection index, using Tribolium castaneum. I. The results of two-way selection. 13195

DNA replication in salivary gland nuclei of Drosophila melanogaster at successive larval and prepupal stages. 13201

Incidence of genetic mutations in Culex pipiens. 13215

Abate and Dursban against Aedes aegypti (L.) breeding in concrete water jars in Bangkok, Thailand. 13219

Mosquito studies in northern Wisconsin. I. Larval studies. 13224

Tree plantings for mosquito control. 13226

The relative susceptibility of the larvae of Spodoptera mauritia acronyctoides (Guenee) (Lepidoptera: Noctuidae) to several contact insecticides. 13300

The role of parasites in decrease of numbers of Pissodes piceae (Curculionidae). 13309

Grazing management in relation to trichostrongylid infestation in lambs. 1. Influence of stocking rate on the level of infestation. 13413

Taenia crassiceps: Insulin and carbohydrate metabolism in larval forms. 13415

Gel filtration and disc electrophoresis of a somatic extract and excretions and secretions of Haemonchus contortus larvae. 13417

Detection of toxicity of aflatoxins, sterigmatocystin, and other fungal toxins by lethal action on zebra fish larvae. 13455

Epilecta linogrisea Schiff. in Normandy, their pursuit today, their raising from eggs. 13580

Contribution to the knowledge of the Italian Simuliidae. XV. A new Eusimulium of the group Annulum. 13586

Distribution of alkaline phosphatase in the castes of the termite Odontotermes redemanni (Wasmann) and its role in caste formation. 13598

Distribution and ecology of Aedes bicristatus Thurman and Winkler. 13613

Influence of photoperiod on development and larval diapause in the viceroy butterfly, Limenitis archippus. 13618

A simple separator for mosquito larvae and pupae. 13625

Methodology employed in the California mosquito larvicide resistance surveillance program. 13629

The use of helicopters in Florida for rapid inspection for salt marsh Aedes larvae. 13637

On the comparative study of some new insecticides for the control of jute semi-looper (Cosmophila sabulifera). 13641

A short note on Papilio machaon L. (Lep., Papilionidae). 13648

The larval behavior of Trypoxylon figulus L. (Hym., Sphecidae). 13659

Mycotoxins of entomophthoraceous fungi. 13669

The utilization of glycine for protein sythesis in th silk gland by fifth-stage Bombyx mori larvae. 13671

Phyto-ecological basis of mosquito control: Cartography of larval biotypes. 13678

A laboratory study of larval competition between Aedes aegypti (L.) and Aedes triseriatus (Say). 13704

Selection for larval growth in Tribolium under two levels of nutrition. 13706

Aerial application of a chemical fog for the control of mosquito larvae and adults. 13739

Control of mosquito adults and larvae using Baytex and Baygon in a SiO2 chemical fog. 13743

Brown rot of stone fruits on the Murrumbidge irrigation areas. I. Aetiology of the disease in canning peaches. 13789

Natural enemies of the carob moth Ectomyelois ceratoniae (Zeller). 13839

1965 turf insects. 13853

The behaviour of second-stage Heterodera rostochiensis larvae leading to their emergence from the egg. 13877

Life cycle, pathogenicity and immunogenicity of Chabertia ovina. 14022

Earthworms, Eutypheus waltoni and Pheretima sp. as transport-hosts of swine kidney worm, Stephanurus dentatus in Bihar, India. 14025

Transmammary passage of nematode larval infestation. 14027

Vaccination against syngamosis in chicks, young pheasants and turkey-poults. 14028

Uric acid as an index of insect infestation in flour. 14032

Fly larval migration from residential refuse containers in the city of Fresno. 14033

A report of canthariasis and allergy caused by Trogoderma (Coleoptera: Dermestidae). 14039

Zebra fish eggs and larvae as aflatoxin bioassay test organisms. 14060

A study of the population of insects emerging as adults from Spettigue's Pond at London, Ontario. 14144

Leaf beetle larvae of the subfamily Eumolpinae and of Syneta betulae F. (Coleoptera, Chrysomelidae). 14149

Identity of instars of apterous viviparae of Rhopalosiphum fitchii (Sanderson) and Toxoptera graminum (Rondani), (Aphididae, Homoptera). 14163

A comparative study of gastric caeca in adult and larval stages of bark beetles (Coleoptera: Scolytidae).
14170

The ultrastructure and electrophysiology of the membranous lobe of the antenna in Speophyes lucidulus larvae (Coleoptera).
14192

Experiments on nuclear transplantation in Drosophila melanogaster. Preliminary report.
14200

On the cross-inoculation of Chilo iridescent virus. CIV.
14206

A study of free amino acids in rice moth larvae during mycotoxicosis.
14209

Insects Vs man. (Lep. Notodontidae).
14210

The effects of ligaturing Galleria mellonella larvae on total haemocyte counts and on mitotic indices among haemocytes.
14218

Caterpillar polymorphism of Pergesa elpenor L.
14221

Effect of Loxosceles reclusa Gertsch and Mulaik venom on Heliothis virescens (F.) larvae. oosterhof, g.
14248

Diapause in the neuropteran Chrysopa oculata. by ultracentrifugation and identification of N- and Cterminal ends.
14256

Brachymeria femorata Panzer (Hymenoptera Chalcididae).
14267

Sparrow mite Dermanyssus passerinus Berl. et Trouess, 1885.
14282

The European corn borer; how to control it.
14301

Economic effect and control of wood-boring insects in fruit trees.
14329

A contribution to the study of olive Cecidomyiidae: Lasioptera berlesiana (paoli).
14502

Mites.
14531

Warble fly larvae control study.
14631

Fine structure of leukocytes adhering to the cuticle of Ascaris suum larvae. II. Polymorphonuclear leukocytes.
14638

Study of the infrastructure of the molting glands of Locusta migratoria migratorioides (R. and F.). I. Cyclic development during the larval stages and production of the secretion product, ecdysone.
14742

The larva of Sigara hellensi (C. Sahlb.) (Hem. Corixidae).
14765

The effect of temperature on the pathogenicity of the fungus, Ascosphaera apis, for larvae of the honey bee, Apis mellifera.
14787

Occurrence of Sphaerolecanium prunastri (Fonscolombe) in Israel and description of its hitherto unknown larval instar.
14791

The anatomy and histology of the digestive tract of Hypoderma bovis larvae (Diptera: Oestriformes).
14797

Further chemical control tests against Paranthrene tabaniformis Rott.
14811

The action of different factors on the number of larval stages in the tomato night moth Helicoverpa armigera Hbn.
14865

Making tests by radioactive phosphorous P32 for the absolute estimations of larval populations of culicids (Diptera-Culicidae).
14869

Parasites on the galls of Dasyneura laricis (F. Loew.); Diptera, Itonididae.
14880

The effect of acclimation and glycerol injection on mortality and pupation in larvae of Ephestia kuehniella after exposures at low temperatures.
14882

Defensive reaction of cells in wound infections caused by Mucor hiemalis Wehmer.
14889

Three estuarine killifish as fresh water mosquito larvivores.
14905

Resistance of maize inbreds and hybrids to noctuid. Sesamia nonagrioides Lef.
15002

Hylobius weevil larvae attack roots of young slash pines.
15010

Localization of Trichinella spiralis larvae.
15209

Effects of cold storage on the infectivity of third-stage larvae of the intestinal worm, Trichostrongylus colubriformis (Giles, 1892) Ransom, 1911.
15213

On adults of the subulurid infective larva from tenebrionid beetle with remarks on the validity of Subulura minetti Bhalerao.
15220

Modification of parathion toxicity to wax moth larvae by chlorcyclizine, aminopyrine or phenobarbital.
15260

Two new species of argasid ticks (Ixodoidea, Argasidae) from Cuba.
15316

Continuous breeding of the corn-seed maggot Phorbia platura Meigen (0 Hylemyia cilicrura rondani) (Diptera, Muscidae). II. Artificial breeding medium of larvae.
15349

Viruses of the mealy bug larvae, Tenebrio molitor. of granular insecticides in coconut leaf axils.
15379

Biological and morphological investigations of Brachycaudus spiraeae (Oestl.) C.B., an aphid pest of Spiraea (Homoptera: Aphididae): a contribution to the determination, to the specific morphology and chetotaxy of the aphid.
15380

Contribution to the biology and ecology of the carnation fly, Phorbia brunnescens Zett (Diptera, Anthomyiidae).
15395

Developmental changes in the late larva of Calliphora stygia. II. Protein synthesis.
15397

Interactions between larvae of Aedes aegypti (L.)and Culex pipiens L. in mixed experimental populations.
15410

The transitory nature of Aedes aegypti larval habitats in an urban situation.
15433

The effectiveness of FLIT MLO against Aedes taeniorhynchus larvae on Grand Cayman, British West Indies.
15441

Laboratory tests of the susceptibility of mosquito larvae to insecticides in Florida, 1968.
15442

Some observations on Hydra americana hymen as a predator of Culex peus Speiser mosquito larvae.
15449

A study of factors affecting the susceptibility of mosquito larvae to insecticides in laboratory resistance tests.
15450

Comparison of larval bioassay and chemical analysis for assessing aerial spray deposits.
15452

The raspberry stem gall midge (Lasioptera rubi) a little known pest of raspberry.
15588

Mites, pests in gardens and living rooms.
15620

The Trapezeule (Calymnia trapezina L.), an unusual parasite on apple trees.
15648

Sugar solution feeding and its effect on the retention of infective Dirofilaria immitis larvae in Anopheles quadrimaculatus.
15811

LARVICIDES

The Simulium control scheme at Abuja, Northern Nigeria, and its effect on the prevalence of onchocerciasis in the area.
8919

Ovicidal and larvicidal actions of Petkolin against red spider mites (Acarina: Tetranychidae).
9618

Breeding places of blood-sucking Culicidae mosquitoes and recommendations for preventing of their appearance in lands of new irrigation in the Golodnaya Steppe.
10524

Mosquito control.
12457

Evaluation of Dursban as a larvicide in septic ditches.
13222

Oil larvicides applied by aircraft in an area characterized by resistance to organophosphorus larvicides.
13223

Methodology employed in the California mosquito larvicide resistance surveillance program.
13629

Tests of larvicides for control of salt-marsh sand flies (Culicoides), 1967.
13729

An evaluation of the mosquito control program in a small midwestern urban community.
15447

LARYNGOTRACHEITIS

Preliminary observations on possible synergism between infectious laryngotracheitis virus and Hemophilus gallinarum.
9732

LASERS

Physiology of the large milkweed bug after laser irradiation.
13048

LASIACIS DIVARICATA

Uromyces costaricensis - A new report for the continental United States.
12629

LASIOCAMPIDAE

Comparative ecology of some hymenopterous egg parasites of the pine moth, Dendrolimus spectabilis Butler (Lepidoptera: Lasiocampidae), with special reference to the factors affecting their efficiency as natural enemies.
11289

LASIODERMA SERRICORNE

Symbiosis of the Anobiidae with yeastlike fungi.
11838

LASIOGLOSSUM OENOTHERAE

Bionomic notes on the solitary Evylaeus oenotherae (Stevens) (Hymenoptera: Halictinae), a matinal summer bee visiting cultivated Onagraceae.
8785

LASIOPTERA BERLESIANA

A contribution to the study of olive Cecidomyiidae: Lasioptera berlesiana (paoli).
14502

LASIOPTERA RUBI

The raspberry stem gall midge (Lasioptera rubi) a little known pest of raspberry.
15588

LASIORHYNCHITES OPHTHALMICUS
Lasiorhynchites ophthalmicus (Steph.) (Col., Curculionidae): A new Irish record.
11743

LASIUS FULIGINOSUS
On the components of secretion of mandibular glands of the ant Lasius (Dendrolasius) fuliginosus.
13020

LASIUS NIGER
Ants indoors.
13424

LASPEYRESIA
New species of the Laspeyresia succedana Schiff. group (Lep. Tortricidae).
8052

Records of parasites of sunnhemp shoot-borer, Laspeyresia tricentra Meyr. (Tortricidae: Lepidoptera) in Uttar Pradesh.
12682

Details on the codling plum moth (Laspeyresia funebrana Tr.) in Lot-et-Garonne on Plum-tree grafts.
14272

LASPEYRESIA POMONELLA
Absorption of DDT and metabolism of DDT and related compounds by DDT-RESISTANT codling moths.
8180

Preliminary laboratory study of the effect of X rays on the fertility of Carpocapsa pomonella (Laspeyresia pomonella L.).
8229

Natural enemies of Laspeyresia pomonella L. (Lepidoptera, Tortricidae) and the effect of chemical treatment on their useful activity.
8342

Releases of unsexed gamma-irradiated codling moths for population suppression.
8378

Characteristics of the stopped and scarred damages due to the coddling moth (Laspeyresia pomonella L.) with a method of interpretation of the various forms of damages observed on apples.
9002

Easy-to-kill pests of fruit trees...codling moth.
10253

The susceptibility to insecticides of Cydia pomonella (Linneaus) (Lepidoptera: Tortricidae) from Queensland.
11381

LASPEYRESIA SUCCEDANA
New species of the Laspeyresia succedana Schiff. group (Lep. Tortricidae).
8052

LATE BLIGHT
Save your potato crop from fungal and bacterial diseases.
8286

Tests of the control of potato mildew in the Trentino region.
10647

Control of blight diseases of potato in West Bengal Plains by various spray fungicides.
11990

Controlling late blight of potato with some fungicides.
12654

Control of late blight of potato with maneb in Nilgiri hills.
13750

Isolation of rishitin from tubers of interspecific potato varieties containing different late-blight resistance genes.
14443

A further field experiment regarding the effect of fentin acetate, maneb and copper oxychloride fungicides on the population density of the Colorado beetle (Leptinotarsa decemlineata Say.).
14858

LATENT VIRUS (APPLES)
Dark green epinasty of Chenopodium quinoa, a syndrome induced by a virus latent in apple and pear.
8998

The problem of sowbane mosaic virus contamination.
14354

LATENT VIRUS (BLACK RASPBERRIES)
The occurrence and some properties of black raspberry latent virus.
8941

LATENT VIRUS (PEARS)
Dark green epinasty of Chenopodium quinoa, a syndrome induced by a virus latent in apple and pear.
8998

LATEX
Recent techniques for serodiagnosis of hydatidosis. V. The importance of tests of bentonite, latex and indirect hemagglutination in the field sanitation of hidatioosis.
10372

Morphology and significance of laticifer rupture in lettuce tipburn.
10686

The latex test for the serological diagnosis of bovine leucosis.
13996

LATHRIDIIDAE
Lathridius bifasciatus Reitt. (Col., Lathridiidae) habitats.
9878

Keys to genera and some species of New Zealand Lathridiidae (Coleoptera).
9953

LATRODECTUS MACTANS
Studies on labeled animal poisons. II. Distribution of the venoms of various spiders labeled with Se75 and P32 in the guinea pig.
9812

Effect of the venom of the black widow spider, Latrodectus mactans tredecimguttatus, on evoked action potentials in the isolated nerve cord of Periplaneta americana.
14195

LAUXANIIDAE
A case of partially reduplicated antenna in Minettia obscura (Loew) (Diptera: Lauxaniidae).
8867

Cnemacantha illota (Loew) (Dipt., Lauxaniidae) recorded in error from Stanmore Common, Middx.
9896

LAWNS
Effectiveness of preemergence crabgrass herbicides for lawns and putting-green turf.
8417

Control of dandelion and spotted-spurge in lawn turf with herbicides.
8423

Lawn weed control.
12103

Distribution of Surattha indentalla Kearfott on Buffalograss.
13327

Diseases--lawns and turf.
14999

Diseases--lawns and turf.
15609

Lawn and turf pests.
15662

Chemical weed control in lawns and turf.
15716

Chemical weed control in lawns and turf.
15720

LEACHING
Phytotoxicity, leachability, and site of uptake of 2-chloro-2',6'-diethyl-n-(methoxymethyl) acetanilide.
15704

LEAD
Calcium disodium edetate injection. Drugs for veterinary use - drug efficacy study implementation.
12228

Atomic absorption analysis of copper and lead in meat and meat products.
13440

LEAD ARSENATE
Contribution to the knowledge of Stauronematus compressicornis (F.). (Hymenoptera-Tenthredinidae).
14804

LEAD POISONING
Studies with calcium ethylenediaminetetraacetate in calves; toxicity and use in bovine lead poisoning.
9803

Lead poisoning and aspergillosis in an Andean condor.
15789

LEAF BLIGHT
Southern corn leaf blight on sweet corn ears in transit.
13243

LEAF BLIGHT (COTTON)
Helminthosporium leaf blight- a new disease of cotton in the Punjab and Haryana.
9609

LEAF CURL
Interrelationship of root-knot nematode leaf curl virus in tomato.
11445

Development of young pear trees with different rootstocks in relation to Psylla infestation, pear decline, and leaf curl.
13778

Peach leaf curl (Taphrina).
14413

Chlorotic leaf-curl in apricot trees and necrosis of the phloem. Contribution to the study of apricot wilt diseases.
14973

Peach spray program.
15007

LEAF DISEASES
Susceptibility of Hevea rubber clones to leaf disease caused by two species of Phytophthora.
11497

LEAF ENATION
Symptoms of rasp leaf virus disease on peach.
11983

LEAF MINERS
Lannate - a new insecticide for the control of the giant looper and other pests.
8751

Alternative host plants of tobacco leaf-miner (Phthorimaea operculella (Zell.)).
10239

Leaf mining moths are again occuring more often.
10714

Lepidopterous larval-mining of an oak ( ) leaf from the Latah Formation (Miocene) of eastern Washington.
12973

Problems regarding the protection of fruit trees against infestations by leaf mining Microlepidoptera.
14480

LEAF ROLL
Genetic studies of pea leaf-roll (top-yellows) virus resistance in Pisum sativum.
8942

Yellow leaf roll virus on the move.
11959

Information on a sap transmissible, seed-, fungus- and insect-borne new virus of garden pea.
12032

Grapevine leafroll virus--history and anatomic effects.
13784

The significance in the diagnosis of virus diseases of the length and affinity for dyes of sieve tubes in healthy and virus-infected potato tubers. 13811

Transmission of pea leaf rolling virus by aphids. 13845

Ultrastructure of the ileum of the European corn borer, Ostrinia nubilalis. 14207

The influence of the aphid forage plant on the vector capacity of aphids. 15520

Purification and electron microscopy of potato leafroll virus. 15531

LEAF ROLL (POTATOES)

An hypothesis for selection of strains of potato leaf roll virus by passage through Physalis floridana. 8940

LEAF RUST

Inheritance of resistance to three races of leaf rust in wheat variety Bowie. 9582

Occurrence of paddy virus and viruslike symptoms in India. 9598

The epiphytotic of yellow orange leaf disease of rice in 1966 in Thailand. 10197

Leaf rust resistance of some European varities of wheat. 11451

Control of leaf and stem rusts of wheat by combinations of soil application of an 1,4-oxathiin derivative with foliage sprays. 13234

Effect of leaf rust infection on the conversion of glucose-u-14C into amino acids in excised leaves of ponca wheat. 13763

LEAF RUST (WHEAT)

Levels of shikimate and folate in primary leaves of wheat and in uredospores of leaf rust. 14372

LEAF SCORCH

Resistance of strawberry varieties to leaf scorch disease. 8314

Research concerning leaf scorch (species Aphelenchoides fragariae(infecting strawberries. 15591

LEAF SPOT

A foliar disease of tuberose caused by Aphelenchoides besseyi. 9031

A contribution to the study of Alternaria tenuis Nees causer of the leaf spot of tomato. 9581

A leaf spot disease of Cyamopsis tetragonoloba caused by Curvularia lunata in India. 10177

Post-infection changes in the sugar content of leaf-spot infected barley. 10178

Mercury-resistant Pyrenophora avenae in New Zealand seed oats: a comparison of six different compounds as seed disinfectants. 10223

A Stemphylium leaf spot of Vicia faba in the United Arab Republic. 10612

Various formulations of products for the control of leaf spot on olives. 10638

Frogeye leafspot and apple black rot control by fungicide spray treatment in New Hampshire. 10657

Algal leaf spot disease on various hosts in Tamilnad, Madras State, India. 10676

Determination of leaf spot races in southern Illinois strawberry plantings. 10677

Anthracnose of papaya leaves caused by Collectotrichum gloeosporioides. 10706

Inheritance of resistance in carrot, Daucus carota var. Sativa, to the leaf spot fungus, Cercospora carotae. 11936

Penalty for spot . 12029

Isolation of cercosporin from Cercospora personata. 12037

Illustration of a turf grass disease study helminthosporium leaf spot of creeping bentgrass. 12616

Field trials for the control of Stemphylium botryosum f. lycopersici. 12653

A Phyllosticta leaf spot disease of Kagzi lime. 13269

Fungicides for the control of leaf spot (Pseudopeziza ribis) of black currants. 13281

Investigations of the efficacy of some fungicides in the control of Mycosphaerella sentina-causer of the leaf spot of pears. 13293

Mercury tolerance in leaf spot of oats. 13751

Male sterility cytoplasm conditioning susceptibility of resistant inbred lines of maize to yellow leaf blight caused by Phyllosticta zeae. 13809

A new leaf spot of Chinese chestnut in Mississippi. 13824

Effects of Cercospora leaf spot and dates of harvest on sugar beet varieties with or without Maneb treatment. 14358

Alternaria leaf spot of loliondo (Olea welwitschii (Knobl.) Gilg. and Schellenb.). 14371

A new bacterial leaf spot of Antirrhinum seedlings caused by a subspecies of Pseudomonas fluorescens Migula, 1895. 14410

Bacterial leaf spot of cape gooseberry in Queensland. 14411

Leafspot of Cucurbita pepo caused by Alternaria cucumerina. 14415

Helminthosporium leafspot of buffalograss in Japan. 14416

A leafspot disease of kenaf in Maryland associated with Cristulariella pyramidalis. 14431

Occurrence of Phyllosticta leaf spot on Florida cigar-wrapper tobacco. 14456

Some factors affecting incidence of leaf spot of turmeric by Taphrina maculans butler. 14468

Indication in the apricot species of intraspecific incompatibility due to the presence of a chlorotic leaf spot type virus. 14966

Effect of different dates of sowing of groundnut on the development and intensity of leaf-spot disease by Cercospora ssp.. 14977

Wellman's leaf and fruit spot of Arabica coffee in New Guinea. 14992

Chemical control of Cercospora leaf spot of sugarbeets in Nebraska, 1965. 15000

New or uncommon plant diseases or pests. 15525

Observations on epidomology and experiments to decrease damage of the alfalfa leaf-spot disease. 15575

Peanut diseases. 15605

Peanut diseases. Leafspot control. 15608

LEAF SPOT (SUGAR BEETS)

The therapeutic effect of Thiabendazole, 2-(4-thiazolyl) benzimidazole, against Cercospora leaf spot on sugar beets when applied as a soil drench. 8991

LEAFSPOT

Occurrence of gray leafspot on peppers in Florida. 12597

Parsley spot in U.A.R. 13769

A new leaf spot disease of Gardenia jasminoides from India. 14406

Blueberry spray program. 15548

LEAVES

Tobacco mosaic virus in dividing mesophyll cells of Nicotiana. 8290

An electron microscopy study of the penetration of tobacco mosaic virus into leaves following experimental inoculation. 8292

Fluorescent antibody staining of tobacco mosaic virus antigen in tobacco mesophyll protoplasts. 8307

An interesting mode of spore liberation by Georgefischeria riveae Thirum. and Naras. 8310

Pea enation mosaic virus: Glucose catabolism in leaves and pods of infected peas. 8938

The occurrence of inclusion bodies in leaf epidermis cells of sandal affected with spike disease. 8945

Effect of TMV multiplication on RNA and protein synthesis in tobacco chloroplasts. 8956

Occurrence of virus particles in the phloem tissue of BYDV-infected barley. 8962

A leaf disorder of cacao in Costa Rica. 8982

The metabolism of carhon-14 specifically labelled glucose in leaves showing tobacco mosaic virus induced local necrotic lesions. 9205

The fluorescent particle spray droplet tracer method. 9230

Pycnidial production by Diaporthe vexans (Sacc. and Syd.) Gratz and the pathological histology of infected stems and leaves of eggplant. 9559

Relationship of living and dead cells to spread of Colletotrichum graminicola in sorghum stalk tissue. 9574

A study of the biology of Stemphylium botryosum Wall. -Pleospora herbarum (Pers.) Rabenh.- the causer of brown spots on alfalfa leaves. 9591

Blastemomrphous stage of formation of galls caused by Ustilago maydis (DC.) CDA on corn leaves. 9605

Blastemomorphous stage of formation of galls caused by infection by Ustilago maydis (D. C.) Cda on leaves of Zea mays L. 9606

Metabolism of iodoacetic acid by orange leaves. 9830

Effect of cytokinins on tobacco mosaic virus production in local-lesion and systemic hosts. 10204

Spray droplet size in the control of spruce budworm, boll weevil, bollworm and cabbage looper.
10247

Cell physiology investigations of the action of new triazine derivitives on petiole epidermis of Solanum tuberosum L.
10431

Morphological studies of laticifer rupture and leaf development in lettuce, Lactuca sativa L.
10685

Morphology and significance of laticifer rupture in lettuce tipburn.
10686

Biochemical composition of plants of Cucurbita foetidissima HBK, and Cucumis melo L. as related to cucumber beetle feeding.
10712

Contribution to the study of the morphology of Leucoptera scitella Zell.
10742

Influence of adjuvants on the phytoxicity and foliar absorption of pyrazon. (Abstract).
10817

The distribution, content, and movement of picloram after foliar and soil applications on huisache. (Abstract).
10961

Uptake and tolerance of lithium chloride by tung trees.
11022

Metabolism of amitrole-C14 in excised bean and Canada thistle leaves. (Abstract).
11034

Artificial diet for the adult froghopper.
11284

Forest microfungi. I. Ampulliferina persimplex n. gen., n. sp. on leaves of labrador tea.
11510

The methbolism of glucose uniformly marked with rhdioactive carbon in the leaves of healthy melons compared with those attacked by anthracnose.
11689

Effects of road dust on spider mites.
11818

Studies on hypertrophic disease of cherry (genus Prunus), so-called witch's broom caused by Taphrina wiesneri. Ii On the phenolic acids and their related compounds, especially on melilotic acid in infected Japanese flowering cherry leaves.
11968

The anatomy of tumors induced on citrus by citrus vein-enation virus.
11980

Yellow virus effects on macro- and micro-elements in 'Montmorency' sour cherry leaves.
11989

Relationship between citrus leaf-miner (Phyllocnistis citrella Stainton) injury and citrus canker (Xanthomonas citri (Hasse) Dowson) incidence on citrus leaves.
12025

Information on a sap transmissible, seed-, fungus- and insect-borne new virus of garden pea.
12032

Water-soluble factors in Melilotus leaves which influence feeding by the sweetclover weevil.
12044

Biochemical composition of host plants of Brassica oleracea var. capitata L. as related to resistance to Trichoplusia ni Hubner and Pieris rapae Linne.
12051

The phyllophagous larvae of the family Noctuidae (Lepidoptera), collected on corn in Northern Greece.
12082

The relationship of glandular hairs on tomatoes to spider mite resistance.
12085

Effect of iron and manganese deficiency on the chlorophyll, amino acid and organic acid status of leaves of macadamia.
12255

Leaf symptoms of Manganese deficiency in avocado trees.
12298

Permeability alterations induced in apple leaves by virulent and avirulent strains of Erwinia amylovora.
12600

On the occurrence of leaf nematodes on weeds and other wild plants.
13334

Attempts to induce frost-resistance in vines by leaf spray of drugs.
13797

Studies on the brown-eye-spot disease (Cercospora coffeicola B. and cke.) of coffee (Coffea arabica L.) I. Emanation of ethylene from infected leaves.
13819

The effect of short heat treatment on the susceptibility of poplar leaves to rust infection.
13823

Leaf characters of tall and short lines of rice and their response to Gibberelin.
14074

Detoxification of 2,4-D in plants depending upon the peculiarities of its application.
14089

The effect of sodium replacement on the electroretinogram recorded from the cockroach ocellus.
14179

The European corn borer; how to control it.
14301

Stimulation of flower bud abscission and concentration of fruit set in tomato, (Abstract).
14312

In vivo and in vitro reactions of 1,1-dimethylamino succinamic acid (B-9, Alar) and related substances.
14328

Narrow leaves reduce ooll rot.
14341

Interactive effects of gibberellic acid and Alar on bush bean growth. (Abstract).
14344

Removal of pseudomonads from plant leaves and measurement of their in vivo beta-glucosidase synthesis.
14369

Soil-borne wheat mosaic virus from Poa annua L., a new host.
14377

Computation of results of crop protection experiments by the method of Townsend and Heuberger.
14392

Interaction between two races of Piricularia oryzae in lesion-formation in rice plants and accumulation of fluorescent compounds associated with infection.
14420

Preliminary report on the amino acid composition of TMV-C protein.
14422

A study of the biology of Pseudopeziza jonesii nannf (Pyrenopeziza medicaginis Fuck) the cause of yellow blotches on leaves of alfalfa.
14429

Evidence of phenotypic mixing between two strains of tobacco mosaic virus.
14441

Effect of beta-acylphenylhydrazine derivatives on blast fungus upon leaves and in tissues of rice plants.
14459

Studies on dwarf disease of mulberry tree. XVI. On two strains.
14461

Radish enation mosaic virus.
14465

Virus A as a cause of streak on secondary infected eyestecklings of the potato.
14471

Nutritional effects connected with sheepnosing, a disorder of grapefruit. (Abstract).
14475

Mites.
14531

Microsomal N-demethylation, by a cotton leaf oxidase system, of 3-(4'-chlorophenyl)-1,1-dimethylurea (monuron).
14675

On the occurrence of periderm in the leaves of Welwitschia mirabilis.
14687

Inhibitory effect of pentachlorobenzyl alcohol (PCBA) on sporulation of Piricularia oryzae cavara.
14691

Investigations into the cause of leaf tumors of tea seedlings.
14991

Residues on the sugar beet leaves of DDT applied to control the leaf-eating pests.
15254

Some effects of the growth regulators CCC and Alar (B-995) on the tomato (Lycopersicum esculentum, Mill.). I. Effects on leaf area, plant spread, dry weight, height and leaf numbers.
15290

The effect of ZnSO4 on the chemical composition of maize leaves.
15291

Feeding habits of two Phylloxera species (Phylloxeridae, Aphidina) on oak leaves.
15387

RNA synthesis in tobacco leaves infected with tobacco mosaic virus.
15470

A rapid method of identification of prunus necrotic ring spot.
15494

Inhibitory effect of red-pepper leaves (Capsicum annuum L.) on the infection of some viruses of their ultra-susceptible hosts.
15542

The shot-hole disease of the melon. Preliminary study of a new viral disease of the glass-house-grown melon.
15543

A virus disease distinct from the chlorotic leaf-roll disease: The rosette of the apricot-tree, var. (Luizet).
15550

Broken leaf, a new coconut disease in the Caribbean area.
15556

The incidence of tobacco mosaic virus in plastids of etiolated tobacco leaves.
15564

Combined application of leaf fertilizers and fungicides.
15576

The incoporatins on 14C uridinc in fragments of barley laves infected with bromegrass mosaic virus.
15584

Note on the migration rate of the virus (S) from the potato leaves to the tubers.
15590

The role of gibberellins in phytochrome mediated responses.
15900

LEBIA

Ground beetles of the genus Lebia Latreille in Arkansas (Coleoptera: Carabidae): Ecology and geographical distribution.
11827

LECANIUM CORNI

Leucopis alticeps Czerny as a predator scale insect (Parthenolecanium corni Bouche) and European peach scale (Parthenolecanium persicae F.) in Tadjikistan.
13007

LECANIUM PERSICAE
Leucopis alticeps Czerny as a predator scale insect (Parthenolecanium corni Bouche) and European peach scale (Parthenolecanium persicae F.) in Tadjikistan. 13007

LECITHINS
Studies on the biosynthesis and degradation of phosphatidylbeta-methylcholine by housefly larvae. (Abstract). 9060
The pathogenicity of staphylococci and their sensitivity to 2,4-dinitrophenol. 12319
Bacterial toxins. 14842

LEGISLATION
Report on the current and planned local noxious weed control programs in New Jersey. 8414
International commission on zoological nomenclature. 9269
Plant protection under strict controls. 9529
Hydrochlorothiazide. Drugs for veterinary use; drug efficacy study implementation. 9726
The bacteriological supervision of egg production in the Federal Republic of Germany. 9862
The classification of slaughter animals in wich salmonella have been found, from the legal meat inspection point of view. 9863
Hog cholera and other communicable swine diseases. Miscellaneous amendments. 10328
Plant protection service in Jordan. 10608
Pollutional aspects of pesticides in natural streams. 10926
The pest control officer, past and present. 11098
N'-(4-chloro-o-tolyl)-N,N-dimethylformamidine. Notice of establishment of temporary tolerance for pesticide chemicals. 12218
Proposed additions to the list of common names of insects. 12942
Common Market approaches to harmonization of food laws in the field of pesticide residues. 14046
Brucellosis vaccination is now compulsory. 14578
New plant protection law is in force. 14704
Plant protection chemical residues and food consumption. 14706

LEGS
Investigations of the morphology and development of the scolopidia in the stick insect Carausius morosus Br. 8141
The subcoxa of the aphid hind leg (Homoptera: Aphididae). 8711
Homograft of the tarsus into the place of the eye in the phasmid Sipyloidea sipylus W. 8888
Prevention of leg defects in zinc-deficient chicks by antiarthritic agents. (Abstract). 10881
Cell lineage, growth, and determination in the imaginal leg discs of Drosophila melanogaster. 12427
Nerve regeneration in the cockroach, Leucophaea maderae: The effect of humoral substances in vitro. 13085
Observations on several cases of leg regeneration in Loxosceles rufescens (Dufour) (Araneae, Scytodidae). 13609
Preliminary observations on moulting and limb regeneration in the mite Caloglyphus boharti. 14280
An anomalous foreleg in a male of Dodonidia helmsii (Satyridae). 14854
Separation of the females of Aedes hendersoni Cockerell and Aedes triseriatus (Say) Diptera: Culicidae by the tarsal claws. 15320

LEGUMES
Sensitivity of Rhizobium species to certain fungicides. 8933
Bloat on Dolichos lablab. 10335
Plant pathology. 10672
Invasion of the Hedysareae by Heterodera trifolii. 10760
Selective herbicides in guar (Cyamopsis tetragonoloba, Taub.) (Abstract). 10791
Influence of peroxidase and catalases on mycelial growth and pycnidium production by Plenodomus meliloti in light and darkness. 11702
Weed control in Sericea lespedeza. 12710
Studies on protection of pulses againt Pachymerus chinensis Linnaeus. 13856
Pests of legume covers. characteristic cocoon production. 14479
Characteristic of development and noxiousness of most important pests and some diseases of leguminous and vegetable plants in Poland in 1967 and their forecast for 1968. 15014
Paraquat for weed control prior to establishing legumes. 15722

LEGUMINOSAE
Host-parasite relationships of various plants and the hop cyst nematode, Heterodera humuli. 8391
The effect of post-emergence herbicides on the vegetative and reproductive growth of Centrosema pubescens Benth. in Queensland. 11566
Staminal and functional male sterility induced by chemical treatment in Papilionaceous plants. 15280
Morphology, biology, and ecology of Dasychira selenitica Esp. (Lepidopt., Lymantriidae). 15369

LEIODIDAE
A new subfamily of blind beetle from Idaho ice caves with notes on its bionomics and evolution (Coleoptera: Leiodidae). 8065

LEIPARTHRUM
Review of the genus Leiparthrum in North America, with a description of one new species (Coleoptera: Scolytidae). 12944

LEISHMANIA
Growth pattern of Leishmania in Phlebotomus sandflies. 11829

LEISHMANIASIS
Experiments with feeding sandflies (Phlebotominae) on great gerbils (Rhombomys opimus Licht) under conditions approaching natural. 10584

LEMA LICHENSIS
Research into the actual yield reduction by attack on winter wheat and summer barley of the cereal leaf beetles (Lema cyanella L. and L. melanopus L.) and the wheat stem sawfly (Cephus pygmaeus L.). 15658

LEMNA GIBBA
Effect of inhibitors of nucleic acid and protein synthesis on the reappearance of light interruption rhythm in a long-day duckweep, Lemna gibba G3. 9838
Gibberellin and CCC effects on flowering and growth in the long-day plant Lemna gibba G3. 13472

LEMNA MINOR
Toxicity of surfactant-herbicide combinations to Lemna minor (L.). (Abstract). 11032

LEMONS
Comparative production of pheromone by the California red scale reared on lemons and potatoes. 8841
Physoderma citri in citrus albedo and callus tissue. 9552
Relationship between citrus leaf-miner (Phyllocnistis citrella Stainton) injury and citrus canker (Xanthomonas citri (Hasse) Dowson) incidence on citrus leaves. 12025
Toxicity, control, and residue studies with DO-14 (2-(p-tert-Butylphenoxy) cyclohexyl 2-propynyl sulfite) as an acaridicide against the citrus red mite. 12673
Scales on lemon trees. 13328
Susceptibility of two citrus rootstocks to Pratylenchus spp. 13879
Effect of retardant CCC on growth and morphogenesis of fruit tree saplings. 14084
A color test for citrus exocortis in Japan. 14462

LENZITES TRABEA
Distribution and reuse of nitrogen in wood-destroying fungi. 12246
Amount and distribution of nitrogen in wood and its influence on wood deterioration. 12274

LEPIDIUM VIRGINICUM
Weed control in horticultural crops: Fruits. Weed control in strawberries. 15070

LEPIDOPTERA
A critical review of Bacillus thuringiensis var. Thuringiensis berliner and other crystalliferous bacteria. 8132
Sex pheromone specificity: Taxonomic and evolutionary aspects in Lepidoptera. 8179
The evolution and genetics of insect behaviour. 8228
New names for two genera of Lepidoptera. 8638
A laboratory testing programme for assessing field performance of acaricides against Tetranychus urticae (Koch.). 8857
On the tetrapyrrolic pigments of Lepidoptera,. 8892
A review of lepidopterous pests of coniferous forests in the Baykal Region. 9019
Preliminary studies on the isolation of pterins from the wings of Heliconiid butterflies. 9347
Insect parasites of the insect galls in Europe. 9386

The comparative morphology of the dorsal vessel and accessory structures of the Lepioptera and its phylogenetic implications. 9399

Alkyl and aryl 4-(methylcarbamoyloxy) carbanilates. Patent 3,450,745. 9447

A lightweight collapsible bait trap for Lepidoptera. 9451

Effectiveness of a light trap in the protection of the health and productivity of corn. 9639

The defense of a corn crop against noxious insects by means of a light trap. 9640

Butterflies ht Collobrieres, var. Alpes Maures, Provence in July and August 1967. 9880

A change in the Lepidoptera of Hampstead after four decades. 9881

The butterflies of Lord Howe Island. 9929

Some new records of butterflies from Nepal. 9948

Recent records of migrant Lepidoptera in Taranaki. 10008

Migrating butterflies in 1967 (Twentieth Annual Report). 10056

Preliminary studies on the integrated control of the pest complex on cowpea, Vigwa unguiculata Walp., in Nigeria. 10268

Materials concerning the knowledge of the palearctic Momphidae (Lepidoptera). Part VIII. Distribution of the Momphidae in Poland. 10504

Contribution to the fauna of the Congo (Brazzaville). mission of A. villiers and A. Descarpentries. XLVI. Lepidoptera Attacidae. (2nd note). 10506

Some Lepidoptera of economic importance in Commonwealth countries. 10715

On problems with weather conditions in light trap use. 11166

Macrolepidoptera in 1967. 11215

British Lepidoptera collecting, 1968. 11253

Problems with mercury vapor light traps. 11413

A previously unrecognized subspecies of Philotes speciosa. 11769

New or little known noctural Quadrifids of Madagascar, III (Lep. Noctuidae). 11770

Some interesting Macrolepidoptera from the fauna of Frankfurt am Main. 12381

New Microlepidoptera for the local fauna of Saarland from the collection of Fritz Hutten, Karlsbrunn (III). 12385

Relationship of size of fecal pellets to larval molts in Lepidoptera. 12529

Iconography of the eggs of the Lepidotera fauna of Belgium. 12530

Unnamed and little-known insects attacking cottonwood in southern California. 12667

Lepidopterous larval-mining of an oak ( ) leaf from the Latah Formation (Miocene) of eastern Washington. 12973

Macroinvertebrates in the Green River below Flaming Gorge Dam, 1964-65 and 1967. 12980

A technique for transferring newly hatched larvae. 13050

Not all diurnal butterflies have become rare. 13535

Lepidoptera taken in 1967 by light traps near Sion abbey (gem. deep peat-soil). 13552

Function of insect compound eyes containing crystalline tracts. 13623

Trials for the control of brinjal fruit and shoot borer. 13857

The existence of bark borers in Berlin (Lepid.). 14132

The occurence of Ectoedemia libwerdella Zimm. in Western Germany (Lepidoptera, Nepticulidae). 14151

Hawk moths with mites. (Lep. Sphingidae). 14222

Key to the adult hymenopterous parasites of Pulicalvaria piceaella (Kearfoot), (Lepidoptera: Gelichiidae) of Quebec. 14231

Preliminary report about my breeding attempts with Micropteryx calthella L. (Lep., Micr.). 14234

Fruit-piercing moths and their control in Japan. 14246

Special forms of amitotic nuclear division in striated muscle and other insect tissues. 14254

The scientific name for the fruit cup leaf roller.(Lep. Tortricidae). (A contribution to Organoxenia). 14285

The persistence of drug resistance in strains of Eimeria species in broiler chickens following a change of coccidiostat. 14621

First records of eye-frequenting Lepidoptera from Nepal. 14722

Butterfly collections in 1968. 14729

Further chemical control tests against Paranthrene tabaniformis Rott. 14811

Lepidoptera associated with pig carrion. 14863

The action of different factors on the number of larval stages in the tomato night moth Helicoverpa armigera Hbn. 14865

Chloridea. 14866

Section of captures (Lepidoptera)(Part IV). 15311

Ichneumon sarcitorius L., a parasite of a lepidopteran Hydraecia xanthenes (Germ.) (Hym. Ichneumonidae). 15323

The large invasion of lepidoptera occurring in Madrid during the third week of May,1966. (Part I). 15342

Preliminary research on Drosophila sigma virus multiplication in insects belonging to different orders. 15383

Certain minor crop pests hitherto unrecorded from the Gujarat State. 15656

LEPISMATIDAE

The mode of feeding in the silverfish Acrotelsa collaris (F.) (Thysanura: Lepismatidae). 9428

The fundamental schema of oogenesis in the firebrat Lepismodes inquilinus (Thysanura, Lepismatidae) and its periodisation in connection with imaginal moulting cycles. 9459

LEPISMODES

The fundamental schema of oogenesis in the firebrat Lepismodes inquilinus (Thysanura, Lepismatidae) and its periodisation in connection with imaginal moulting cycles. 9459

LEPOMIS

Feeding response of Lepomis cyanellus to blister beetles (Meloidae). 9481

Degradation of organophosphates by fish liver phosphatases. 15265

LEPTADENIA

Observations on Lygaeus pandurus Scopli in West Rajasthan. 13854

LEPTINOTARSA DECEMLINEATA

Research with ionizing irradiation on the sterilization and radiosensitivity of Chrysomela decemlineata Say. 8096

Humoral and nervous pathways in photoperiodic induction of diapause in Leptinotarsa decemlineata. 8742

Estimated food consumption by the Colorado beetle (Leptinotarsa decemlineata Say) under conditions of natural reduction. 9489

Notes on the male germ cells of a beetle, Leptinotarsa decemlincata. 10115

The effect of Perillus bioculatus (Fabr.) (Het., Pentatomidae) on the population dynamics of the potato beetle. 10124

Reactions of bioindicators to haemolymph and excreta of Colorado beetle larvae--Leptinotarsa decemlineata Say (Col. Chrysomelidae) treated with preparation dieldrin. 11787

Properties of leptinotarsin, a toxic hemolymph protein from the Colorado potato beetle. 14212

Investigations on the use of the parasitic fungus Beauveria bassiana in the control of pests on field and forest crops in Czechoslovakia. 14419

Problems of resistance of the Colorado beetle in Austria. 14790

A further field experiment regarding the effect of fentin acetate, maneb and copper oxychloride fungicides on the population density of the Colorado beetle (Leptinotarsa decemlineata Say.). 14858

Insecticidal activity of substituted phenyl N-methylcarbamates. 15651

LEPTOCONOPS

Epidemiological notes: Two hluetongue epizootics. 15382

LEPTOCONOPS KERTESZI

Presence in Italy of Leptoconops kerteszi Kieffer (Diptera, Ceratapogonidae). 13541

LEPTOCORISA VARICORNIS

Ecology of common insect pests of rice. 8368

On the odour components of the stink of two heteropteran bugs of India. 9989

Bionomics of the rice gundhy bug, Leptocorisa varicornis Fabr. (Hemiptera, Heteroptera; Coreidae). 14490

Population dynamics of rice stink-bug (Leptocorisa varicornis Fabr.) in relation to weather factors. 14879

LEPTODIRIDAE
Two new Catopidae genera from Europe (analysis of the nigrita group in the genus Catops).
8690
The discovery of a representative of the Ptomaphazinini in Cuba (with an outline of the systematics and the distribution of this tribe) (Coleoptera, Catopidae).
12392

LEPTOGASTER
The family Leptogastridae (Diptera).
9927

LEPTOGLOSSUS OCCIDENTALIS
Effect of cone feeding by Leptoglossus occidentalis on ponderosa pine seed development.
11531

LEPTOGLOSSUS PHYLLOPUS
A new pimiento fruit disorder associated with the feeding of the leaf-footed bug, Leptoglossus phyllopus L.
12056

LEPTOSPHAERIA CONIOTHYRIUM
Moldy carpels in delicious apples on the greater New York market.
10627

LEPTOSPHAERIA LINDQUISTI
Leptosphaeria lindquistii n. sp., as causal of (black stem) in sunflowers.
13251

LEPTOSPHAERULINA
Leptosphaerulina trifolii on Passiflora leschenaultii and Marsilea quadrifoliata--two new host records for india.
14982

LEPTOSPIRA
An attempt at an objective evaluation of the oxidase reaction in Leptospira cultures.
11614
Growth of pathogenic Leptospira in chemically defined media.
12791
Antibodies to Leptospiral serotypes in sera of North Queensland cattle.
14590

LEPTOSPIRA CANICOLA
The detection of autoantibodies to kidney tissue in a dog experimentally infected with Leptospira canicola.
14010
Fibrinogen content and fibrinolytic activity of plasma from dogs infected with Leptospira canicola.
14566
Leptospirosis among the workers of the Engels meat plant.
15843

LEPTOSPIRA GRIPPOTYPHOSA
Leptospirosis among the workers of the Engels meat plant.
15843

LEPTOSPIRA HARDJO
The isolation of a strain of Leptospira, serotype hardjo, from cattle in Queensland.
10358

LEPTOSPIRA HYOS
Leptospirosis.
12137

LEPTOSPIRA MITIS
Experiments for testing the activity of vaccines against leptospirosis.
15187

LEPTOSPIRA POMONA
Leptospirosis.
12137
Experimental pathogenesis of Leptospiral abortion in cattle.
12158
Bovine Leptospira pomona infection: Environmental contamination and the spread of the disease in a susceptible herd.
13373
Vaccination against leptospirosis: Protection of hamsters and swine against renal leptospirosis by killed but intact gamma-irradiated or dihydrostreptomycin-exposed Leptospira pomona.
14617
Experiments for testing the activity of vaccines against leptospirosis.
15187
Leptospirosis among the workers of the Engels meat plant.
15843

LEPTOSPIROSIS
Leptospirosis.
12137
Serological study on Brucellosis and Leptospirosis in swine of the Oriental Republic of Uruguay.
14938
Experiments for testing the activity of vaccines against leptospirosis.
15187
Leptospirosis among the workers of the Engels meat plant.
15843

LEPTOTHORAX ACERVORUM
Description of new social parasites of Leptothorax acervorum F. (Formicidae).
9412

LEPUS
Characteristic of development and noxiousness of the most important polyphagous pests present in Poland in the year 1967 and their forecast for 1968.
15022

LESIONS
The effect of the rimino phenazene B663 (G30320) on preclinical M. johnei infections in sheep.
10864
Esopheagal--gastric lesions in the pig.
10870
Minor causes of damage to pelts.
12181
Nairobi sheep disease: A study of it's pathogenesis in sheep, goats and suckling mice.
14597

LESPEDEZA
Yields of timothy and lespedeza after reducing competition from goldenrod with herbicides. (Abstract).
10808
Post emergence herbicides for control of ragweeds in lespedeza.
15133

LESPEDEZA CUNEATA
Structure, stability, and energy flow in plants and arthropods in a sericea Lespedeza stand.
10255
Weed control in Sericea lespedeza.
12710

LESPESIA ARCHIPPIVORA
Effect of temperature on the progeny production and longevity of Lespesia archippivora in the laboratory.
8093

LESTIDAE
Studies of the Byron Bog in southwestern Ontario XXXII. Observations on the seasonal distribution on Odonata in the bog.
13068

LETHAL DOSE
Acute cutaneous toxicity of certain organophosphorous insecticides. II - Phosphamidon.
12226
Section I.--Insect control.
14062
On the chronic action of tetramethylthiuramidesulphide (TMTD) in hens and the quality of the eggs produced by them.
15268
Chemicals for control of plant diseases.
15881

LETHAL FACTOR
Chromosome aberrations associated with recessive sex-linked lethals induced by two alkylating chemicals in mature spermatozoa of Drosophila.
8245
Studies on the action of high concentrations of alkylpolyglycol ethers on fish.
9808
The acute toxicity of ochratoxin A to rats.
9817
Position effect on DNA transcription and replication.
10160
On the locus of 'White lethal egg' gene in the silkworm.
10580
Comparative effects of chemosterilants on spermatogenic stages in the house fly. I. Induction of dominant lethal mutations in mature sperm and gonial cell death.
11847
Interaction in fitness between lethal genes in heterozygous condition in Drosophila melanogaster.
13183
Recessive lethals in second chromosomes of Drosophila melanogaster with radiation histories.
13202
A thymidine-induced sex-linked, sex-limited temperature-sensitive lethal and the significance of modifier genes in Drosophila melanogaster.
14292

LETHAL YELLOWING (COCONUTS)
Mechanical transmission of coconut lethal yellowing.
9594

LETHOCERUS
The ultrastructure and physiology of the abdominal air-guide retractor muscles in the giant water bug, Lethocerus.
14277
Mechanical properties of insect fibrillar muscle at large amplitudes of oscillation.
15417

LETHOCERUS MAXIMUS
Effects of magnesium and calcium ions on the adenosinetriphosphatase activity of insect actomyosin at low ionic strength.
11342
Tension transients in glycerol-extracted fibres of insect fibrillar muscle (Lethocerus maximus).
14262

LETTUCE
Preliminary note concerning tests in progress on the control of collar rot of lettuce.
10650
Morphological studies of laticifer rupture and leaf development in lettuce, Lactuca sativa L.
10685
Morphology and significance of laticifer rupture in lettuce tipburn.
10686
Relationship of the green peach aphid to incidence and severity of lettuce mosaic.
10717
Root knot eelworm, (Meloidogyne species).
10747
A carboxylesterase inhibition assay to estimate parathion, malathion and diazinon in lettuce extracts.
11676
Inhibition of the action of phytochrome by the herbicide CIPC.
11697
Light intensity and duration in the development of lettuce tipburn.
12033
Automated differential screening method for organophosphorus pesticides.
12268
The feeding sites in Sonchus oleraceus of Hyperomyzus lactucae, the aphid vector of lettuce necrotic yellows virus.
12635
Preplant soil fumigation for California head lettuce.
13341
Effects of N-dimethylamino succinamic acid (Alar), (2-chloroethyl trimethylammonium

chloride (CCC), gibberellic acid (GA), and maleic hydrazide (MH) on bolting in lettuce. (Abstract).
14305

Method for testing the health condition of lettuce seeds.
15544

LEUCANIA L-ALBUM
The phyllophagous larvae of the family Noctuidae (Lepidoptera), collected on corn in Northern Greece.
12082

LEUCANIA LOREYI
The phyllophagous larvae of the family Noctuidae (Lepidoptera), collected on corn in Northern Greece.
12082

LEUCANIA SEPARATA
Respiratory rates of green and black larvae of the armyworm, Leucania separata (Lepidoptera: Noctuidae).
11392

The influence of temperature on the development of armyworm, Leucania separata Walker (Lepidoptera: Noctuidae).
11394

LEUCINE
Operator constitutive mutations in the leucine operon of Salmonella typhimurium.
10329

LEUCOCYTOZOON CAULLERYI
Further studies on Leucocytozoon caulleryi in domestic fowls in the Philippines.
9685

LEUCOCYTOZOON DISEASE
Survival of sporozoites of Leucocytozoon in birds for 11 days.
8462

LEUCOCYTOZOON DUBREUILI
Survival of sporozoites of Leucocytozoon in birds for 11 days.
8462

Survival of sporzoites of Leucocytozoon in birds for eleven days.
13383

LEUCOCYTOZOON SIMONDI
Survival of sporozoites of Leucocytozoon in birds for 11 days.
8462

Survival of sporzoites of Leucocytozoon in birds for eleven days.
13383

LEUCOPAXILLUS CEREALIS
The influence of ectotrophic mycorrhizal fungi on the resistance of pine roots to pathogenic infections. I. antagonism of mycorrhizal fungi to root pathogenic fungi and soil bacteria.
9583

LEUCOPHAEA MADERAE
Formation of tumorlike lesions in the cockroach Leucophaea maderae after nerve severance.
8199

The maturation of the oocytes in the isolated abdomen of Leucophaea maderae.
8719

Female specific protein: Biosynthesis controlled by corpus allatum in Leucophaea maderae.
8750

The formation of tumorlike lesions in the cockroach Leucophaea maderae after anal blockage.
8880

Female specific protein: Biosynthesis controlled by corpus allatum in Leucophaea maderae.
10002

Haemolymph proteins and water uptake in female Leucophaea maderae during the sexual cycle.
11385

Haemolymph proteins and yolk formation in the cockroach, Leucophaea maderae.
11878

The sarcoplasmic reticulum and its association with the T system in an insect.
12460

Nerve regeneration in the cockroach, Leucophaea maderae: The effect of humoral substances in vitro.
13085

LEUCOPIS
Leucopis alticeps Czerny as a predator scale insect (Parthenolecanium corni Bouche) and European peach scale (Parthenolecanium persicae F.) in Tadjikistan.
13007

LEUCOPTERA SCITELLA
Contribution to the study of the morphology of Leucoptera scitella Zell.
10742

LEUCOSTOMA SIMPLEX
Parasitization of Nabis alternatus by Leucostoma simplex in eastern South Dakota.
12072

LEUKEMIA
Attempt to detect fowl leukemia virus in living virus vaccines prepared in eggs.
8465

Stimulation of porcine splenic cultures by a radiationinduced lymphoid leukemia filtrate: a preliminary report.
9078

The scientific basis for the control of bovine leucosis.
13967

Nuclear measurements of lymph-node puncture cells from dogs with lymphademosis.
13978

The latex test for the serological diagnosis of bovine leucosis.
13996

Persisting lymphocytosis and its relation to the etiology of bovine leukosis.
14006

Cytological studies in bovine leucosis.
14011

Cancer virus of animals and men.
14013

Official measures for the control of bovine leucosis.
14116

LEUKOCYTES
Leukocyte system of rabbits receiving repeated injections of staphylococcal leukocidin.
8482

The reactivity of the white blood picture in the horse.
11594

The temperature requirements for interferon production in cells stimulated by Newcastle disease virus or microbial agents in vitro.
14585

Nairobi sheep disease: A study of it's pathogenesis in sheep, goats and suckling mice.
14597

Pseudomonas infections in mink with special reference to Pseudomonas vasculitis in pulmonary lesions.
14598

Fine structure of leukocytes adhering to the cuticle of Ascaris suum larvae. II. Polymorphonuclear leukocytes.
14638

Stimulation of DNA synthesis in bovine leukocyte cultures by Trypanosoma theileri antigen.
15775

LEUKOCYTOSIS
The reactivity of the white blood picture in the horse.
11594

Studies on clinical symptoms and haematological changes in foreign body syndrome in buffaloes.
14003

LEUKOPENIA
The reactivity of the white blood picture in the horse.
11594

Immunologic response with reference to the humoral changes in surra.
13993

LEUKOSARCOMATOSIS
Structural relationships between the RNA of mammary tumor virus and those of other RNA tumor viruses.
9700

LEUKOSIS
Influence of host genotype on mortality from lymphoid leukosis and marek's disease after artificial and natural exposure.
9695

Observations on the occurrence of neoplasms in the domestic birds.
13931

Comparative consideration of the morphology and genesis of new growths.
13944

Genetic resistance of chickens to leucosis.
13973

The morphological part of a study of the hematological key for the diagnosing of leukosis in red-spotted cattle in Czechoslovakia.
13987

On the problem of leukoses (hemoblastoses) of the reticular order in animals for slaughter.
14014

The formal genesis of leucosis and RNA tumours in the ox, dog and cat.
14017

LEVORIN
Method for extracting the antibiotic levorin from a culture medium. Patent 3,439,090.
12313

LIBELLULIDAE
Studies of the Byron Bog in southwestern Ontario XXXII. Observations on the seasonal distribution on Odonata in the bog.
13068

LICENSES
Legal aspects of crop spraying.
9398

LICHENES
Potential interferences in certain pesticide residue analyses from organochlorine compounds occurring naturally in plants.
11694

Early stages of Lycomorpha regulus Grinnell, with notes on the imago. (Lepidoptera: Amatidae).
11725

Epizoic symbiosis.
14203

LIFE CYCLE
The biology and life cycle of Chilo suppressalis (Walker) and Tryporyza (Schoenobius) incertulas (Walker) in temperature-climate areas.
8149

The lepidopterous stalk borers of rice and their life cycles in the Tropics.
8702

The existence of two optional diapauses in the biological cycle of Villa brunnea Beck. (Dipt., Bombyliidae).
8746

Life history of Upis ceramboides at Fairbanks, Alaska.
8780

Life history and some factors affecting the population of Arzama densa in Louisiana.
8891

The breeding of Planococcus citri (Homoptera: Pseudococcidae) on sprouting potato.
9333

Ixodes pacificus Cooley and Kohls, 1943: Its life-history and occurrence.
9962

Life history and damage of the pine root tip weevil, Hylobius rhizophagus, in Wisconsin.
10049

Taxonomy and phylogeny of the clothes moth family (Lepidoptera, Tineidae).
10516

Laboratory study of Anocentor nitens (Neumann) (Acarina: Ixodidae). the tropical horse tick.
11259

Psilococcus parvus Borchsenius (Homoptera, Coccoidea)-morphology, biology and taxonomy.
11315

Life history and biology of Caloglyphus anomalus Neshitt (Acarina: Acaridae).
11370

Influence of temperature on development of the lesser mealworm, Alphitohius diaperinus (Coleoptera: Tenebrionidae).
11412

Physical methods of pest control.
11921

Observations on hatching and penetration of the small larvae of the false pink ballworm Sacadodes pyralis Dyar. into the balls of cotton.
12046

Biology of the Coreidae in Wisconsin.
13001

Some population parameters for the grain mite, Acarus siro.
13039

Worms in pigs.
13411

Ants indoors.
13424

Field studies on the life-histories of some British Staphylinidae (Coleoptera).
14220

On the life cycle of Coelorabro ambiguus (Hym., Sphecidae).
14241

Details on the codling plum moth (Laspeyresia funebrana Tr.) in Lot-et-Garonne on Plum-tree grafts.
14272

Bionomics of the rice gundhy bug, Leptocorisa varicornis Fabr. (Hemiptera, Heteroptera; Corcidae).
14490

Equine piroplasmosis: Intraerythrocytic development of Bahesia cahalli (Nuttall) and Babesia equi (Laveran).
14574

Controlling external parasites of sheep.
14628

Biology and external morphology of forage pests. I. Tussock caterpillars, Euproctis spp. (Lymantriidae: Lepidoptera).
14836

LIGHT

Influence of light on diapause in the boll weevil. Ii. Dependence of diapause response on narrow bands of visible radiation and a broad band of infrared radiation used to extend the photoperiod.
8128

Spectrum analysis of the light emitted by Luciola lusitanica (Charp.).
8195

Glomerular response in human and experimental rickettsial disease (Rocky Mountain spotted fever group). A light and electron microscopy study.
8450

Stridulatory files as diffraction gratings in mutillid wasps.
8769

Humidity preference of the alfalfa weevil, Hypera postica, as affected by microenvironmental and physiological conditions.
8863

The relation of climatic factors to the duration of the development of Heterodera schachtii in Slovakia (CSSR).
9028

The influence of environment on the phytotoxicity of dicamba, picloram, bromoxynil and 2,4-D ester.
9041

Larval development of Mansonia mosquitoes in Central Florida.
9261

Periodicity in the proportions of haemocyte categories in the giant cockroach, Blaberus giganteus.
9339

The light threshold controlling the periodicity of invertebrate drift.
9358

The influence of light and temperature on the pupal emergence activity of Chironomus nuditarsis Str.
9381

An electron microscope study of the diffraction gratings of some carabid beetles.
9400

Artificial feeding of Simulium vectors of human and bovine onchocerciasis.
9520

Studies and suggestions on the behaviour of moths at light.
10033

Experiments on larval diapause in the carabid Pterostichus vulgaris L.
10129

Spectral efficiency as function of latency in the visual mechanism of insect (Tenebrio molitor L.).
10142

Influence of light on sporulation by Helminthosporium stenospilum.
10183

Biochemical basis for plant competition.
10274

Seed dormancy and germination in ecotypes of johnsongrass.
10309

Competition between flax and wild buckwheat.
10440

Photocontrol of rough cinquefoil seed germination and its enhancement by temperature manipulation and KNO3.
10451

Behaviour of Alternaria poonensis inciting blight of coriander in artificial culture.
10606

Intercellular movement of C14 in Chara vulgaris, a nonvascular aquatic plant. (Abstract).
10778

Interaction of gibberellic acid and light on the germination and growth of seedlings of Gossypium herbaceum L. var. Digvijay.
10968

Ethylene, light, and stress in the growth and development of Pisum sativum L. cv. Alaska.
10986

The action of gibberillic acid on rhizogenesis in stem pieces of peas (Pisum sativum L.) cultivated in vitro in presence of auxin in darkness or in light.
11005

Photolysis of amiben. (Abstract).
11071

Observations on the relation of light to the dropping of the tick Ixodes texanus Banks.
11250

The spectral sensitivity and the components of the visual system in the stemmata of silkworm larvae, Bombyx mori L. (Lepidoptera: Bombycidae).
11296

Studies on the utilization of natural enemies as biotic insecticides . Effect of physical factors on the culture of Pseudaphycus malinus Gahan.
11304

Attraction of the Nantucket pine tip moth, Rhyacionia frustrana, to incandescent light and blacklight, and to virgin females.
11337

On photoreceptive and photokinetic activity of wings in insects.
11775

Effects of light: Dark cycles on development in Drosophila melanogaster.
11800

Orientation and biorhythms in jumping spiders (Arancida: Salticidae).
11869

Physical methods of pest control.
11921

Research on the metabolism of virus-infected plants. V. Influence on the changes in metabolism in Phaseolus vulgaris L. after infection with tobacco necrosis virus by light deficiency.
11979

Some factors affecting the in vitro development of strawberry fruits.
12234

Circular dichroism of gibberellins and the application of the lactone chromophore to their structural elucidation.
12315

The effect of light on the circadian rhythm of locomotor activity in the house cricket (Acheta domesticus L.).
12439

A nonlinear model for transient responses from light-adapted wolf spider eyes.
12442

Nonlinear transient responses from light-adapted wolf spider eyes to changes in background illumination.
12443

Responses of spotted cutworm larvae to various intesities and wavelengths of light.
12505

Ecology of submersed aquatic weeds in south Florida canals.
12706

Environmental influence on bentgrass treated with silvex.
12712

Effects of two environmental factors on removal of 2,4-DB from forage.
12728

Effects of temperature and light on dispersal of the pea aphid, Acyrthosiphon pisum, and a braconid parasite, Aphidius pisivorus, in the field.
13021

Effects of temperature and light on takeoff of Rhopalosiphum maidis and Schizaphis graminum in the field (Homoptera: Aphididae).
13022

Effect of mating with males reared in continuous light or in light--dark cycles on fecundity in Plodia interpunctella Hubner (Lepidoptera: Phycitidae).
13083

Patterns of flight activity in livestock insects. I. Preliminary testing of a system for recording flight activity of the stable fly.
13089

The quantitative effect of light and moisture on carrot seed infections in blotter medium.
13289

Biology of the trefoil seed chalcid, Bruchophagus kolobovae Fedoseeva (Hymenoptera: Eurytomidae).
13601

Influence of photoperiod on development and larval diapause in the viceroy butterfly, Limenitis archippus.
13618

A technique for rapid standardization of conidial suspensions of Ceratocystis ulmi.
13783

Studies on Botrytis allii Munn.. The cause of neck rot of onion bulbs in U.A.R.. 1.The disease and the causal organism.
13792

Studies on Botrytis allii Munn.. The cause of neck rot of onion bulbs in U.A.R.. III. Relation of some culture practices to subsequent incidence of neck rot on storage.
14030

The ability of colour distinction in the wood-ant Formica polyctena Forster.
14223

Characteristic order of the filiform hairs of Periplaneta americana.
14245

Diapause in the neuropteran Chrysopa oculata. by ultracentrifugation and identification of N- and Cterminal ends.
14256

The mechnism of coupling of the locust Light oscillator to oscillatory inputs.
14278

On the longevity of Conidia of cucumber downy mildew fungus, with special reference to the influence of sunlight.
14382

The influence of the photoperiod on hemolymph protein variations in Pieris brassicae L. before the onset of diapause.
14806

On the knowledge of the biologic valence of Onychiurus carvernicolus and O. vornatscheri Collembola, Insecta apterygota . On temperature, humidity, and light reactions.
14843

The action of different factors on the number of larval stages in the tomato night moth Helicoverpa armigera Hbn.
14865

Biological determination of the cucumber mosaic virus (CMV) on Vigna sinensis L. I.--Influence of different factors on the susceptibility of the plant to the virus.
14967

Some effects of the growth regulators CCC and Alar (B-995) on the tomato (Lycopersicum esculentum, Mill.). I. Effects on leaf area, plant spread, dry weight, height and leaf numbers.
15290

Light and circadian rhythms.
15414

Orientation of Myzus persicae (Sulz.) to light.
15415

Daily flight activity of male Tabanus lineola var. hinellus Philip (Diptera: Tabanidae) in the estuarine area of Louisiana.
15423

Maturation of sclerotia produced by Sclerotium rolfsii.
15462

Effect of light on the herbicidal activity of some amiben derivatives.
15710

The role of gibberellins in phytochrome mediated responses.
15900

Photoinhibition of auxin and its bearing on phototropism.
15903

LIGHT TRAPS

Assessment of the field population of the rice stem borer moth by light trap.
8040

A summary of the forecasting program for rice stem borer control in Japan.
8068

The rice gall midge Pachydiplosis oryzae (Wood-Mason).
8371

A control unit for the automatic operation of a portable 115 volt 60 cycle A.C. power plant for insect light traps.
9418

Effectiveness of a light trap in the protection of the health and productivity of corn.
9639

The defense of a corn crop against noxious insects by means of a light trap.
9640

A killing agent for use in light traps.
10090

Adult hornworm populations and degree of infestation on tobacco in relation to community-wide grower use of blacklight traps.
10752

On problems with weather conditions in light trap use.
11166

Problems with mercury vapor light traps.
11413

A light-trap bag for collecting live insects.
12378

House fly response to fluorescent lamps: Influenced by fly age and nutrition, air temperature, and position of lamps.
12515

The nocturnal insect catches at predetermined time interval in the organic soil district of Ste. Clotilde, southwestern Quebec. Part II.
12972

Notes on the occurrence of abnormal scale patterns in adult female Aedes vexans (Meigen).
13034

Mosquito collections by CDC miniature light traps and livestock-baited stable traps at Callao, Utah.
13660

Evaluation of some abiotic factors influencing captures of the codling moths by black-light traps.
13670

A subsurface light trap for sampling aquatic insect populations.
13738

Insects attracted to argon light traps in California wineries.
14034

Contributions to the knowledge of the Heleide fauna (Dipt. Nemat.) of Berlin.
14157

Lest white grubs visit your sugarcane...and find you unprepared.
14486

Nuisance mosquitoes in two Wisconsin parks; occurrence and correlation between biting and light trap catches.
15371

A comparsion of mosquito catches with miniature light traps and CO-2-BAITED traps.
15403

LIGHTING

Orchard illumination as a counter to the fruit piercing moth.
12089

Blue light promotes symptom formation and virus multiplication in plants.
14669

LIGNIFICATION

Micro-morphological changes of lignified cell walls produced by Basidiomycetes (brown rot fungi).
11958

Biochemistry of lignin.
12276

LIGNIN

Lignicolous fungi of freshly felled timber in tropical Africa.
11967

The influence of white rot fungi on the ultrastructure of outer cell wall layers.
12006

Biochemistry of lignin.
12276

Lignolytic activity of white-rot fungi.
12293

Exoenzymes in fungi degrading lignin. III. The effect of peroxidase on veratric acid.
13495

LIGUSTRUM

The systematic position of Brahmaea europaea Hartig (Lepidoptera Brahmaeidae).
8053

Chemical control of growth and flowering of woody ornamental plants in the landscape and nursery: Tests with maleic hydrazide and Alar.
11026

LIMACODIDAE

Limacodidae- east versus west Africa.
9939

Outline life histories of some west African Lepidoptera. Part II Limacodidae.
12491

LIME

Effects of lime on potato blight.
10690

The effect of Zn on yield and chemical composition of sweet corn in the Willamette Valley.
10997

A note on the incompatibility of two pre-blossom aphicides (demeton-S-methyl and dimethoate) with lime-sulphur.
11533

Foliar absorption of iron by chrysanthemum as influenced by lime-induced chlorosis.
12286

LIME-SULFUR

Comparison of the effect of old and new, individual and mixed, anti coccoidea preparations used against the San Jose scale.
10527

Tests on the control of the white peach scale (Pseudaulacaspis pentagona Targ.).
10529

Reversion disease and gall mite of black currant.
10670

Control of grape leaf blister mite (Eriophyes vitis (Pag.)) in the Stanthrope District, Queensland.
12680

Insecticidal control of citrus pests in coastal central Queensland.
12684

Peach spray program.
15007

Dewberry and raspberry fungicidal spray programs.
15509

LIMES

A Phyllosticta leaf spot disease of Kagzi lime.
13269

A mild strain of tristeza virus in Hassaku trees (Citrus hassaku Hort. et Y. Tanaka) in Hiroshima prefecture.
14442

LIMING

Factors affecting trace and minor elements in hill sheep pastures.
10589

Experiments on the control of whiptail in cauliflower.
13242

LIMNOLOGY

The limnology of Playa Lakes on the Llano Estacado, New Mexico and Texas.
8872

LINA TREMULAE

Investigation on the variability of the thermic preferendum for chosen insects of the family Chrysomelidae (Coleoptera).
13639

LINDANE

The old house borer in Eastern States.
8076

Dieldrin resistance in Lucilia sericata (Meig) from Co. Dublin, Eire.
8188

The susceptibility of Culex pipiens molestus forskal in Israel to several insecticides in 1958-1960 and in 1965.
8272

Practical importance of insecticide resistance for malaria eradication in tropical Africa.
8273

Insecticide treatment of seed, as a control method of the maize leaf weevil (Tanymecus dilaticollis Gyll.).
8369

Investigations on the biology and control of Melolontha melolontha in hazelnut plantations.
8377

Seed dressings and game birds.
8444

Identification and measurement of chlorinated organic pesticides in water by electron-capture gas chromatography.
8527

Identification and measurement of chlorinated organic pesticides in water by electron-capture gas chromatography.
8528

Pesticide residues in food. 8535

Rapid cleanup of dairy products for analysis of chlorinated insecticide residue by electron capture gas chromatography. 8546

Residuals of pesticides in cultivated mushrooms. 8556

Seed-corn maggot resistance to aldrin in Illinois. 8767

Comparative toxicites of insecticides to house fly larvae and Macrocheles muscaedomestica, a mite predator of the house fly. 9168

Parathion and lindane in the control of the spruce gall aphid. 9346

Mediterranean fruit flies and melon flies trapped at various heights with synthetic lures. 10032

Selection for lindane resistance in Dermestes maculatus de Geer (Coleoptera, Dermestidae). 10114

Laboratory evaluation of insecticides against white-fringed weevil (Graphognathus leucoloma (Boheman) (Coleoptera: Curculionidae)) larvae. 10131

On the determination of insect and mite resistance to pesticides. The influence of these products in sublethal doses on animals and in the trophic effect following biochemical repercussions on plants. 10149

Treatment of mustard and radish seeds for the control of mustard sawfly, Athalia proxima Klug. at seedling stage. 10251

Preliminary studies on the integrated control of the pest complex on cowpea, Vigwa unguiculata Walp., in Nigeria. 10268

Research on pollution of crops, soil and shallow bodies of water in Liguria, through residues of some organochlorinated pesticides. 10395

Distribution ratio of some chlorinated hydrocarbon insecticides between hexane and water. 10479

On the subject of certain limits noted in the control of the seed-corn maggot. 10519

Resistance to insecticides of three strains of Musca domestica L. from Brisbane, Queensland. 11351

Current studies on Atherigona indica--a pest of wheat. 11543

Control of equine piroplasmosis in Florida. 11590

Chlorinated hydrocarbons as residues in foods. 11673

Bioassay determination of gamma-BHC absorbed from soil and translocated in potted rice plants. 12266

Laboratory and field tests in 1966--67 on chemical control of wireworms (Agriotes spp.). 12671

The effects of synergized pyrethrins and lindane on pre-emergence mortality of Acanthoscelides obtectus (Say.) (Coleoptera: Bruchidae). 13314

Ants indoors. 13424

Equine piroplasmosis in the United States-- a review. 14009

Insects on humans. 15200

From studies on residues of DDT, lindane and DMDT in soil. 15250

Plant protection problems in Tunesia. 15667

Adsorption and desorption of lindane and dieldrin by yeast. 15676

Insects on humans. 15814

Termites and powder-post beetles. 15838

Household pests. 15840

LINGUATULA SERRATA

The presence of an adult Linguatula serrata (Froelich, 1789) in Felis catus domesticus. 15202

LINOGNATHUS

Two new Linognathus species from Mozambique. 12975

LINOGNATHUS VITULI

Can you afford cattle lice . 14625

LINOLEIC ACID

Raillietina cesticillus: Fatty acid composition. 12751

LINURON

The effects of phytobland oils and spray volume on postemergence activity of atrazine and combinations of atrazine with linuron in corn. 8440

Are herbicides doing their job . 9035

Basis for selectivity of linuron on carrot and common ragweed. 10295

Release rates and herbicidal activity of slow release granular formulations. (abstract). 10459

New tests of chemical weed control in grapes in friuli. 10774

Selectivity of linuron on parsnip and tomato. (Abstract). 10994

A comparison of the effects of linuron on photosynthesis and respiration of carrot and common ragweed. (Abstract). 11003

Effects of hydrophilic-lipophilic balance (HBL) of nonionic surfactants on phytotoxicity of linuron and prometryne to carrots. (Abstract). 11045

The adsorption of four herbicides by different types of organic matter and a bentonite clay. 11669

The influence of herbicides upon the antagonism between Bacillus sp. and Pseudomonas phaseoli. 11677

Soybeans: What to do after pre-emergence. 12099

Herbicides and sprinkler irrigation in vegetable crops. 12101

The effect of linuron on 32P and 45Ca uptake in tomato and parsnip. 12724

The effect of linuron on ion uptake in corn, soybean, and crabgrass. 12732

Effect of soil and climate on herbicide dissipation. 12888

The determination of some substituted urea herbicide residues in soil by electron-capture gas chromatography. 14658

Postdirected applications of herbicides for weed control in corn. 15052

Control of weeds in corn with herbicides. 15115

Use of pre-emergence herbicides in navy beans. 15730

LIOTHRIPS

Liothrips priesneri sp. n., a serious pest of avocado in Guatemala. 11112

LIPAPHIS ERYSIMI

Studies on Lipapaphis erysimi (Kalt.) with special reference to insect-plant relationship. III. Effect of age of plants on susceptibility. 12677

A note on the compatibility of endrin with parachlorophenoxy acetic acid and boron in relation to mustard aphid infestation. 12685

Insecticidal experiments for the control of mustard aphid. 14497

LIPARA LUCENS

Acoustical communication by Lipara lucens (Diptera, Chloropidae). 11354

LIPASES

The action of some divalent metals over the inhibition of pancreatic lipase by tetracycline and 4-epi-tetracycline. 15158

LIPIDS

Nutritional studies of the rice stem borer Chilo suppressalis Walker. 8140

Gut absorption. 8207

Quantitative aspects of lipid utilization during embryogenesis of Ascaris suum eggs. 8503

Cytochemical studies on a coccidian, Chagasella ganapatii from a termite, Odontotermes obesus (Rambur). 8724

Control of haemolymph lipid concentration during locust flight: An adipokinetic hormone from the corpora cardiaca. 8808

Some features of the physiology of dormancy in black currant plants in connection with the effect of gibberellin. 9199

Lipid metabolism in the fruit of Persea americana Mill. I. Studies on the chemical composition of lipids and their changes during fruit development and storage. 9201

Comparative action of an oligo-infection of Bacillus thuringiensis and of total starvation on the water, lipid, and nitrogen contents of a lepidopteran. 9345

Turkey lipid characteristics: Influence of sex, age and estradiol-17 beta-monopalmitate. 9683

The neutral lipids from various organs of the termite Macrotermes goliath. 9991

Sexual dimorphism in neutral lipid metabolism in the Indian-meal moth, Plodia interpunctella (Hubner). 10143

Studies on lipid metabolism of Ascaris during starvation. 10368

Incorporation of 1-C14-sodium palmitate into lipids of the ovariole of Galleria mellonella. 10525

Absence of interaction between cyclopropenoid fatty acids and aflatoxin in rats. (Abstract). 10860

Estrogenic action of DDT and its analogs. (Abstract). 10949

Lipids of fowlpox virus and the host cell. (Abstract). 11081

Artificial diet for the adult froghopper. 11284

Lipid composition of fat body and its contribution to the maturing oocytes in Pyrrhocoris apterus. 11340

Analysis of total lipids and fatty acids of plant-parasitic nematodes and host tissues. 11553

Composition of the neutral lipids from termite queens. 11801

Incorporation of glucose-U-C14 into lipids of the blowfly during flight. 11859

Lipids in the haemolymph of the cricket, Acheta domesticus. 12551

Lipids of the mutant bronze mosquito, Aedes aegypti (L.). 12559

Lipid metabolism in helminth parasites. VII. Triglyceride synthesis in Hymenolepis diminuta (cestoda). 12821

On some alterations in the composition of wheat grain damaged by wheat bugs (Eurygaster and Aelia). 13826

Effect of Loxosceles reclusa Gertsch and Mulaik venom on Heliothis virescens (F.) larvae. oosterhof, g. 14248

In vivo demonstration of lability of hog cholera virus to lipolytic agents. 14593

The fine structure of hyphae of Helminthosporium oryzae Ito et Kurib. and Pyricularia oryzae Cavara. 14679

Lipids of Culex pipiens fatigans during metamorphosis. 14833

Lipid content and composition of the tsetse fly, Glossina moritans Westwood. 15357

LIPOIC ACID

Lipoic acid requirement of Mycoplasma species avian strain J. 13971

LIPOPROTEINS

On the production of lipoproteic corpuscules by the Malpighian tubes in some insects. 8763

Investigation of corking disorders of apples. III. Biochemical changes during the development of cork spot of 'York Imperial' apples. 11965

LIPOPTENA

On a species of Lipoptena (Diptera, Hippoboscidae, Melophaginae) from Indian spotted deer and hog deer. 11635

LIPOSCELIDAE

Water vapor sorption and humidity relationships in Liposcelis (Insecta: Psocoptera). 10053

LIQUID FERTILIZERS

Combinations. 13504

LIRIODENDRON TULIPIFERA

Calcium, potassium, and sodium content of forest floor arthropods. 11874

Criconemoides grassator n. sp. from yellow poplar (Liriodendron tulipifera) in West Virginia. 13864

LIRIOMYZA

Further notes on Icelandic Agromyzidae (Dipt.). 14140

LIROMYZA SOLANI

Grave damage to greenhouse tomatoes by Liriomyza-solani Macquart. 13304

LISSORHOPTRUS ORYZOPHILUS

Ecology of common insect pests of rice. 8368

Apparatus for removing overwintering adult rice water weevils from brunch grass. 12960

LISTERIA MONOCYTOGENES

The inhibition of Listeria monocytogenes by an organism, resembling Bacillus mycoides, present in normal silage. 9079

Titration of Salmonella abortus-ovis strains with chick embryos and white mice. 14561

LISTRODERES COSTIROSTRIS OBLIQUUS

A new parasite of the vegetable weevil in southern California. 12436

LITERATURE

The unnatural history of the ant lion. 8789

Biochemical basis for plant competition. 10274

Plant growth regulators. 10436

A contribution concerning the documentation in an entomological library. 11100

Storage and retrieval of information from insect specimens. 11107

Complete list of the monographs in the Trotter study of cecidology. 11257

Micro-organisms in the root regions of wheat. Literature review. 11971

Story or the cicada and ant lion (Part IX). 15344

How to collect, prepare and ship plant material for disease identification. 15467

Chemicals for control of plant diseases. 15881

LITHIUM

Uptake and tolerance of lithium chloride by tung trees. 11022

LITHIUM CHLORIDE

Uptake and tolerance of lithium chloride by tung trees. 11022

LITHOCOLLETIS

Systematic oligophagy of the central-European species of the genus Lithocolletis Hbn. and Argyresthia Hbn. (Lep.) on Prunoideae. 14823

LITHOCOLLETIS BLANCARDELLA

Leaf mining moths are again occuring more often. 10714

Another species of Lithocolletis is spread over Italian fruit orchards. 13303

LITHOCOLLETIS POMONELLA

Another species of Lithocolletis is spread over Italian fruit orchards. 13303

LITHOCOLLETIS PYRIFOLIELLA

The toxicity of organophosphorus insecticides to miner moths. 12045

LITHOPHANE

Two new species of Lithophane from California (Noctuidae, Cuculliinae). 11136

LITOMOSOIDES CARINII

Infection experiments with the cotton rat filaria Litomosoides carinii in Mastomys natalensis (Smith, 1834). 9127

LITTORAL INSECTS

An investigation of the Culicidae of Charente-Maritime; The occurrence of the genus Mansonia Blanchard 1901: M. (Coquilletidia) richiardii (Ficalbi) 1896 and M. (C.) buxtoni (Edwards) 1923. 10500

LIVER

Survival of sporozoites of Leucocytozoon in birds for 11 days. 8462

Evidence for conversion of DDT to TDE in rat liver: I. Liver/body fat ratios of TDE. 8472

DDT residues in Adelie penguins and a crabeater seal from Antarctica. 8552

Aldrin epoxidase activity of rat liver and rat liver microsomes under various conditions of storage. 8560

Bi-modal effect of piperonyl butoxide on the o- and p-hydroxylations of biphenyl by mouse liver microsomes. 8566

Degradation of parathion in the rat. 8570

Biochemical changes in rat liver in response to treatment with drugs and other agents--II. effects of halothane, DDT, other chlorinated hydrocarbons, thioacetamide, dimethylnitrosamine and ethionine. 8571

Actinobacillus lignieresii infection in a dog. 9067

Synergism in the chemotherapy of Fascioliasis. 9084

Susceptibility of male and female mice to the mephrotoxic and hepatotoxic properties of chlorinated hydrocarbons. 9174

Studies of warfarin resistance in the rat. (Abstract). 9179

Oxidation of methyl- and dimethylcarbamate insecticide chemicals by microsomal enzymes and anticholinesterase activity of metabolites. 9740

Inhibition of beef liver hydrolytic enzymes by organophosphorus pesticides. Quantal inhibition characteristics of several organophosphorus compounds, using o-nitrophenyl butyrate as substrate. 9801

Schistosomal cirrhosis in pigs in Jabalpur, M. P.. 10381

Appearance of Cx-reactive protein in plasma of rabbits with corresponding decrease in liver catalase following 3-amino1,2,4-triazole administration. (Abstract). 10833

An electron microscopic study of equine abortion virus infection in hamsters. (Abstract). 10847

Effects of dietary protein level on acute toxicity and metabolism of heptachlor in the laboratory rat. (Abstract). 10849

Age and sensitivity of trout to aflatoxin B1. (Abstract). 10865

Growth of Aleutian disease virus in mink. (Abstract). 10885

Early stages of aflatoxin carcinogenesis in normal and lipotrope-deficient rats. (Abstract). 10888

The effect of low copper on collagen formation in the chick. (Abstract). 10889

Possible route of toxicity of rat pups injected with cycasin. (Abstract). 10906

Recent advances in knowledge of pathogenesis and treatment of fascioliasis. 10916

Hydrolysis of malathion by chicken and rat liver carboxyesterase. (Abstract). 10950

Pathomorphological, histological and functional changes in liver in sheep dicroceliasis. 11657

The toxicity of alpha-dihydroheptachlor and related compounds to the housefly (M. domestica L.) and their metabolism by housefly and pig liver microsomes. 12422

The metabolism of dihydrochlordene and related compounds by housefly (M. domestica L.) and pig liver microsomes. 12423

Histochemical analysis of alkaline phosphatase in the liver of goats infected with foot-and-mouth disease virus. 13369

Survival of sporzoites of Leucocytozoon in birds for eleven days. 13383

A case of toxoplasmosis in a dog. 13965

Blood changes associated with locoweed poisoning. 14577

Some aspects of the etiology of enzootic icterus (geelsiekte) and tribulosis ovis (geeldikkop). 14589

Nairobi sheep disease: A study of it's pathogenesis in sheep, goats and suckling mice. 14597

Histopathologic and hematologic changes in moribund stages of chicks infected with T-virus. 14600

Effects of fat body fatty acids on ovarian and liver metabolism of Ambystoma tigrinum. 15176

Structural and biochemical changes in tissues isolated from the cantharidin-poisoned rat with special emphasis upon hepatic subcellular particles. 15261

Degradation of organophosphates by fish liver phosphatases. 15265

Reduction of dieldrin storage in rat liver: Factors affecting in situ. 15398

Physiologic and endocrinologic effects of the insecticide Kepone in the Japanese quail. 15791

Salmonellosis incidence in gastro-enteropneumopathies in cattle. 15803

The pharmacokinetics of HEOD (Dieldrin) in the rat. 15815

LIVER DISEASES

Arsenic poisoning of cattle and other domestic animals. 9096

Minor causes of damage to pelts. 12181

The activity of ornithine-carbamyl transferase in the blood serum of calves and its diagnostic importance in the case of hepatic disturbances. 13983

LIVER EXTRACTS

Gas chromatographic analysis of phorate and five metabolites in monkey liver homogenates. 11674

LIVER GLYCOGEN

Utilization of glucose in chicken liver and muscle and effect of alloxan on it. 15795

LIVESTOCK

Residues of DDT and it's derivatives in the fat tissues of some market animals. 8554

The inhibition of Listeria monocytogenes by an organism, resembling Bacillus mycoides, present in normal silage. 9079

Charcoal diet for cattle. 9146

Shearing by drug. 9676

White spine in domestic zebu, the cattle of Azerbaijan. 9684

Ticks (Ixodoidea) of domestics animals in Iraq. Part 7. Seasonal incidence on cattle, sheep and goats in the Tigris-Euphrates valley plain. 9760

A comparative study of the effectiveness of chemical ovicides on the survival of the soil-transmitted intestinal nematodes. 9768

Metabolism of strychnine nitrate applied for the control of the bear. 10318

Rabies diagnosis. Observations on strains of virus with low pathogenicity. 10349

Proceedings seventieth annual meeting of the United States Livestock Sanitary Association. 10837

Prevention of littering in animals with dehydroepiandrosterone 3-(2'-tetrahydropyranyl)ether. Patent 3,428,733. 10842

1969 suggested insecticide guide. Insect control for livestock and livestock barns. 10909

Hyalomma (Hyalommina) punt, n. sp., (Ixodoidea, Ixodidae), a relict parasite of domestic animals and gazelles in arid areas of northern Somali Republic. 11149

Ticks (Ixodoidea) of domestic animals in Iraq. Part 5. Infestations in the Liwas of Diwaniya and Nasiriya (spring), Karbala (winter), and Hilla (autumn and winter). 11638

Ticks (Ixodoidea) of domestic animals in Iraq. Part 6. Distribution. 11639

Toxic effects of Phytolacca thyrsiflora caruru bravo . 12117

Innervation of heart of domesticated animals: Pig. 12157

Search for natural nidality of influenza and parainfluenza viruses in Illinois. 12184

Calcium disodium edetate injection. Drugs for veterinary use - drug efficacy study implementation. 12228

Biological studies of Tabanidae: A preliminary study of female tabanids attracted to a bait animal. 13116

Corpophagous insects in soil-biological processes. 13151

Cultivation of the cricket bat willow. 13231

'Pelipita', an ABB Bluggoe-type plantain resistant to bacterial and fusarial wilts. 13288

Application of luminescent microscopy for the immediate discovery of blood-parasites of domestic and wild animals. 13418

Developments in control of ectoparasites of livestock. 13421

Microbial contamination control facilities. 13423

Faunatrol, a new chemical livestock repellent. 13507

Mosquito collections by CDC miniature light traps and livestock-baited stable traps at Callao, Utah. 13660

The isolation of foot-and-mouth disease virus from African buffalo (Syncerus caffer). 13954

Essentials in pest control. 14196

First records of eye-frequenting Lepidoptera from India. 14624

What the sanitarian should know about Staphylococci and salmonellae in non-dairy products. Ii. Salmonellae. 14649

The evolution of the anti-rabies vaccines for domestic animals. 15166

Livestock and poultry insects. 15197

Food additives permitted in the feed and drinking water of animals or for the treatment of food-producing animals. Drugs. Antibiotic drugs; exemptions from labeling and certification requirements. Chlortetracycline, Sulfamethazine. 15787

Livestock and poultry insects. 15812

LIVESTOCK DISEASES

Recent fundamental work on tsetse flies. 8124

RNA synthesis in chick embryo cells infected with defferent strains of NDV. 8449

The demonstration of a single species of an unclassified bacterium in five cases of bovine lymphosarcoma. 8469

Identification of Brucella abortus: Oxidative metabolism and phage typing. 8474

Bovine vibriosis. 8478

Preventing and controlling internal parasites of hogs. 8510

Mycoplasma infections with emphasis on the control of M. gallisepticum. 9061

Colitis X (exhaustion shock) in a pregnant mare. 9076

The pathogenesis of the glomerulopathy in Aleutian disease. (Abstract). 9077

Stimulation of porcine splenic cultures by a radiationinduced lymphoid leukemia filtrate: a preliminary report. 9078

Sequence in the abortive and teratogenic effects of locoweed fed to sheep. 9080

Serum enzyme and serum electrolyte values of lambs fed a magnesium-deficient ration. 9085

Etiologic factors of gastric ulcers in swine. 9086

Balance cows' minerals to defeat milk fever. 9089

Polioencephalomalacia (cerebrocortical necrosis). 9090

Intoxification of swine with noxious gases. 9095

Bovine horn cancer: therapeutic experiments with autogenous vaccine. 9098

A common source epizootic of bovine salmonellosis in Manitoba. 9120

Artificial feeding of Simulium vectors of human and bovine onchocerciasis. 9520

Hazard of the high country. 9694

Bovine mycotic placentitis in New York State. 9710

Colic of the horse and autonomic nervous disturbances. Patho-morphological investigations. 9711

Tetracycline hydrochloride powder with benzocaine for topical use. Drugs for veterinary use; drug efficacy study implementation. 9718

A study of the immunological relationship of Anaplasma marginale and Anaplasma centrale. 9724

Hydrochlorothiazide. Drugs for veterinary use; drug efficacy study implementation. 9726

The foot and mouth epidemic. 9735

Studies on colibacillosis of calves. VII. Advisability of re-vaccination. 9748

Electro-cardiogram in a cardiac disorder in cattle. 9753

Studies on two fluke infections of the intestinal tract in buffalo-calves (below two years of age) with further observations on histopathology. 9770

Studies on stephanofilariasis in Orissa. II. Dermatitis due to Stephanofilaria assamensis Pande, 1936, in the Murrah buffalo (Bos bubalis) and the beetal buck (Capra hircus) with remarks on the morphology of the parasite. 9771

Studies on geographical distribution and ecology of Lymnaea auricularia Var. Rufescens, the intermediate host of Fasciola gigantica in Orissa. 9772

Brucellosis. Subpart D. Designation of modified certified brucellosis areas, public stockyards, specifically approved stockyards and slaughtering establishments. 9864

Incidence of bluetongue reported calendar year 1967. 10325

Hog cholera and other communicable swine diseases. Miscellaneous amendments. 10328

Vaccinated cattle.....can harbor foot and mouth disease. 10331

Foot lameness in pigs. 10332

Survey of yeastlike fungi and tissue changes in esophagogastric region of stomachs of swine. 10339

Rubber--vine (Cryptostegia grandiflora) toxicity for ruminants. 10346

Pests and diseases. 10671

Proceedings seventieth annual meeting of the United States Livestock Sanitary Association. 10837

Ram epididymitis vaccination. 10853

Fluorescent antibody as an aid in Vibrio fetus identification. 10857

Research on diseases of neonatal calves. 10862

The effect of the rimino phenazene B663 (G30320) on preclinical M. johnei infections in sheep. 10864

Esopheagal--gastric lesions in the pig. 10870

Tuberculous spondylitis in a horse. 10882

Clinical and pathological aspects of pulmonary adenomatosis in sheep. 10883

An improvement of the indirect Coons' test for detecting antibodies against intraerythrocytic protozoa, with special reference to the genus Theileria. 10890

Comparative protection tests of different commerical anti-hog cholera serums against regular and variant hog cholera viruses. 10898

Interference by transmissible gastroenteritis in the immunization of pigs against hog cholera with crystal violet glycerol vaccine. 10899

The Capillary Tube Agglutination Test in the control of anaplasmosis. 10904

Tick-borne diseases of cattle. 10910

Preliminary observations on the control of Fasciola hepatica with the molluscicide N-tritylmorpholine. 10911

On the meaning of trichostrongylid egg counts in cattle. 10915

Laboratory techniques in brucellosis. 11588

Control of equine piroplasmosis in Florida. 11590

Results of research on the etiology of hepatic necrosis in sheep. 11603

Bovine mastitis due to Pseudomonas pyocyanea. 11616

INH chemoprophylaxis in calves in the process of the eradication of bovine tuberculosis under the conditions of large-scale production. 11625

A preliminary study of the pigment of Corynebacterium ovis. 11632

Toxic effects of Phytolacca thyrsiflora caruru bravo. 12117

Controlling cobalt deficiency in sheep. 12118

Foot and mouth disease: The importance of reporting suspected cases. 12120

Mastitis in cattle and its control. 12128

Investigations on the viruses of the Orphan type occurring in pigs in Poland. VI. Serological comparison of pig enteroviruses L1, R3, R16, R24, R36, R59 and C, and of the viruses of human origin REO (ECHO10), AD2, ECHO1 and ECHO2. 12148

Total-body irradiation of canine lymphoma. 12150

Fungicidal action of thiabendazole. Its providential efficacy against Pyphomyces charteron, the causal agent of enzootic facial eczema of sheep in New Zealand. 12175

Foot-and-mouth disease: Britain strives to curb epidemic. 12182

Bovine babesiosis: The immunity of calves to Babesia bigemina infection. 12773

Dermatophytes in veterinary practice. 12795

Affecting the quality of wool in merino-sheep by artificial infestation with some gastro-intestinal nematodes, namely trichostrongyliodes. 12835

Specificity of the intestinal stage in the development of Trichinella spiralis. 12844

Relation among liver fluke populations in cattle and the results of coprological examinations. 12849

Immunity to parasites. 12863

Fascioliasis of ruminants in Japan. 12865

D.P.I. tick fever vaccine for reliability. 13368

Histochemical analysis of alkaline phosphatase in the liver of goats infected with foot-and-mouth disease virus. 13369

Oedema disease in pigs. 13370

Contribution to the knowledge of primitive tumors of the heart in domestic animals: Globomyeloma in a cow. 13372

Bovine Leptospira pomona infection: Environmental contamination and the spread of the disease in a susceptible herd. 13373

Kale anaemia in ruminants. II. Observations on kalefed sheep. 13380

On giant cimerian schizonts from two cases of coccidiosis in kid. 13394

Application of T.K.T. medium for screening bulk milk samples for Streptococcus agalactiae. 13398

Studies on the effects of feeds deficient in trace elements, vitamin A, protein, calcium and phosphorus on the natural resistance of sheep to common liverfluke, Fasciola gigantica Cobbold, 1885. 13412

Anaplasmosis in East-Friesan lambs. 13930

Observations on bovine urethral calculosis. 13932

Muscular dystrophy in the horse. 13933

Prevention of abortions in dairy cattle due to a psittacosis-lymphogranuloma venereum (bedsonia) agent by treatment with tetracycline (a field trial). 13934

New hope in the battle against calf scours. 13935

Significance of the asexual stages in assessing Eimerian infections of goats. 13936

Dermaphos a phosphoro-organic preparation in the treatment of the skin mycosis in cows and horses. 13938

Umbilical infections in fetal calves. 13939

Farm buildings and the Brucellosis (Accredited Herd) Scheme. 13941

Pseudomonas aeruginosa contamination of a warm water system used for pre-milking udder washing. 13943

Preliminary enquiry on the frequency of neutralizing antibodies of mucous disease virus in bovine serum from some French departments. 13950

Effect of starvation on the cellulolytic activity of sheep and goat rumen inoculum and in-vitro comparison of potency of rumen liquor samples from fistulated and normal animals. 13952

Bovine diarrhea virus. II. END phenomenon: Exaltation of Newcastle disease virus in bovine cells infected with bovine diarrhea virus. 13957

Report on five Ovine neoplasms. 13958

Rhabdomyoma in pigs. 13961

The investigation on the susceptibility of E. coli strains isolated from the areal cases of calf colibacteriosis to antibiotics and nitrofuran preparations. II. The susceptibility to nitrofuran preparations in vitro. 13966

The scientific basis for the control of bovine leucosis. 13967

Study of the genital pathology of cattle (female) killed in the slaughter houses of the center of the country. 13969

Hyposiderosis and its specific therapeutics. 13982

Practical aspects in the application of iron-dextrin. 13985

Skin mycosis in cattle and its treatment. 13986

The morphological part of a study of the hematological key for the diagnosing of leukosis in red-spotted cattle in Czechoslovakia. 13987

Studies on mastitis in cattle. 13988

Mycoplasma infection in a Wisconsin dairy herd. 13989

Isolation of Corynebacterium haemolyticum from a case of ovine pneumonia. 13990

Prevention and treatment of bovine papillomatosis. 13991

The latex test for the serological diagnosis of bovine leucosis. 13996

Study of mastitis in Venezuela. 13998

The presence of Ehrlichia ovina-like organisms in the mononuclear cells of sheep in Ceylon. 13999

Possibilities of preparation of an oil adjuvant vaccine against haemorrhagic septicaemia of cattle using a medium papain digest of beef. 14000

Studies on clinical symptoms and haematological changes in foreign body syndrome in buffaloes. 14003

Persisting lymphocytosis and its relation to the etiology of bovine leukosis. 14006

Bovine adenovirus. I. Recovery of a serotype, nagano, from Japanese cattle. 14008

Equine piroplasmosis in the United States-- a review. 14009

Cytological studies in bovine leucosis. 14011

A case of equine lymphosarcoma. 14012

Infectious bovine kerato-conjunctivitis: A review. 14018

Lysogeny in Corynebacterium renale. 14020

Official measures for the control of bovine leucosis. 14116

Developmental genetic studies of aminopeptidases in Drosophila melanogaster. 14294

Observations on the tolerance and susceptibility of tea clones to shot-hole borer investigation-- 1969. 14500

A study of contagious caprine pleuropneumonia. 14552

Identification of hog-cholera virus in frozen pork imported from China. 14556

Isolation of Toxoplasma gondii from swine and cattle. following pesticide treatments. 14558

A histological study of the effects of enzootic abortion of ewes virus in the lactating bovine mammary gland. 14559

The prevalence of Babesia hovis (Babesia argentina) in the brains of slaughter cattle in Northern Nigeria. 14568

Studies on a new intramuscular haematinic for piglet anaemia. 14573

Geographical distribution maps of animal diseases in Africa, 1966. 14575

The protection of a small group of Nigerian trade cattle from trypanosomiasis using samorin. 14580

An immunity test in cattle to compare two contagious bovine pleuropneumonia vaccines. 14587

Study of the practicability of various diagnostic methods in the demonstration of swine fever virus of high and low virulence in organs of experimentally infected pigs. 14595

Nairobi sheep disease: A study of it's pathogenesis in sheep, goats and suckling mice. 14597

Antibody in experimentally infected sheep and antifoot-and-mouth disease vaccines. 14605

A comparison of the haemagglutination-inhibition and neutralisation test in the assay of rinderpest antibodies in cattle. 14607

Variations in isolations of pathogenic bacteria from the udders of cows during a six-month period. 14618

Kerato-conjunctivitis in cattle in the plateau area of Northern Nigeria. A study of Thelazia rhodesii as a possible aetiological agent. 14634

Field trials on the efficacy of thiabendazole against Haemonchus contortus in West African dwarf forest sheep and goats. 14635

Pulmonary disease in Kenya sheep. 14639

Contribution to the study of the blood sucking Diptera of Turkey. The occurrence of Musca (Philaematomyia) crassirostris Stein. (Diptera Muscidae). 14759

Serological study on Brucellosis and Leptospirosis in swine of the Oriental Republic of Uruguay. 14938

Fluorescent-antibody studies of muscle larvae Trichinella spiralis (Owen, 1835). II. The indirect fluorescent-antibody method. 15167

Diagnostic importance of Taylor's tests used in pigs diseased by swine plague. 15169

Myxovirus parainfluenza-3 in the respiratory disease in calves in Bulgaria. 15171

Intraarticular application of oxytetracycline and tetracycline in horses and cattle. 15174

Resistance of the Coli bacteria, isolated from calves affected with dyspepsia, to antibiotics and chemical therapeutical preparations. 15178

An outbreak of polioencephalomalacia in calves. 15180

Tuberculosis-mycobacteriosis. 15186

The development of glycemia in calves in the postnatal period of ontogenesis in defined conditions of feeding. 15188

The identification, in France, of necrosis of the cerebral cortex (N.C.C.) in different types of ruminants. 15189

On Esch. coli strains in suckling piglets which have died of gastroenteritis. 15190

Chronic cholangiohepatitis in a dairy cow. A case report. 15194

The intravital detection of trichinellosis by means of myopsia. 15208

The invasion-ability of Trichinella larvae from putrefying muscles of Felis silvestris and artificially invaded Felis domestica. 15211

Treatment of Schistosoma mattheei infestation in sheep. 15218

Cattle mastitis breakthrough. 15464

Bovine brucellosis in the state of Sao Paulo. Incidence in the region of Ribeirao Preto. 15766

Techniques for the detection of enzootic leukosis in cattle. Value of the blood test. Possible errors. 15769

On etiology and spread of atrophic rhinitis in swine at swine farms in Bosnia and Herzegovina. 15772

Pathologic orgin and morphology of tuberculosis in cattle today. 15773

End-of-season mastitis control. 15774

Contribution to the knowledge of control of epizootic disease of sheep hoofs. 15778

The role and importance of mold in the occurrence of alimentary intoxications in swine. (I.Experimental toxication of piglets with mold feed). 15802

Salmonellosis incidence in gastro-enteropneumopathies in cattle. 15803

Control and eradication of animal infections in army in contemporary war. 15808

Investigations on Q fever in the Republic of Mexico. 15809

The use of chlorophos with prolongator for antitick treatment of cattle in a focus of Crimean hemorrhagic fever. 15813

Epidemiological considerations on Teniasis in the Birlad District. 15828

LIXUS JUNCI
Investigations of the control of Lixus junci Boh. 10730

LIZARDS
Rat-control procedures on the Pacific Islands, with special reference to the efficiency of biological control agents. I. Appraisal of the monitor lizard, Varanus indicus (Daudin), as a rat-control agent on Ifaluk, Western Caroline Islands. 13923

LLAMAS
New parasitic nematodes reported in alpacas (Lama pacos) from Peru, with a description of Spiculopteragia peruvianus n. sp. 12193

LOAM
A comparison of the behavior of two pea pathogens in cut-away peat and loam. 13286

LOCOMOTION
Motion and flagellation of Clostridium brevifaciens. 8094

Morphogenesis and migration of Ascaris suum larvae developing to fourth stage in swine. 11645

The effect of light on the circadian rhythm of locomotor activity in the house cricket (Acheta domesticus L.).
12439

The mechanism of orientation in nematodes.
13870

Importance and causes of Nematode movement in the soil and research on the migration of 'Ditylenchus myceliophagus'.
14506

LOCUSTA MIGRATORIA

The action of actinomycin D on the pigmentation of albino mutants of the locust Locusta migratoria cinerascens L. (Orthop.).
8756

The action of the endocrine system and the ovary on the hemogram of Locusta migratoria L. (Orthoptera). The role of the ventral gland.
8771

An active reduction of water level in insect cuticle.
8902

The action of the endocrine system and the ovaries on the hemogram of Locusta migratoria L. (Orthoptera). The role of the corpora cardiaca.
9402

Common inhibitory motorneurones in insects.
10089

Growth of the trehala and its neuro-endrocrinc control in the migratory locust, Locusta migratoria migratorioides, The identification of trehalose in the hemolymph.
11242

Recordings of the activity of three neurons in the cercal basiconica sensilla of Locusta migratoria L. (Orthoptera, Acrididae).
11243

Proteolytic enzymes of the crop fluid from Locusta migratoria L.
11274

The sensory equipment of the first-stage Locusta migratoria L. larvae mandibles.
11330

A critical study of the evidence for peripheral inhibitory axons in insects.
11890

Effects of plant growth regulators on locusts and cotton stainer bugs.
13028

Lampbrush chromosomes and multiple nuclei in Orthoptera.
13725

The phototactic push-pull-coupling between dorsal ocelli and compound eyes in the phototropotaxis of locusts and crickets (Saltatoptera: Lucusta migratoria and Gryllus bimaculatus).
14217

Study of the infrastructure of the molting glands of Locusta migratoria migratorioides (R. and F.). I. Cyclic development during the larval stages and production of the secretion product, ecdysone.
14742

The maintenance and decline of the large populations of the African migrator locust, Locusta migratoria migratorioides (R. and F.): the role of the photoperiod in determinations of recessions.
14786

Infrastructural study of the molt glands of Locusta migratoria migratorioides (R. and F.). IV. Development of the molt glands in the course of sexual maturation and ovarian cycles in green solitary adults.
14802

Infrastructural study of the molt glands in Locusta migratoria migratorioides (R. and F.). III. On the presence or degeneration of the ventral glands in solitary imagos.
14803

Infrastructural study of the corpora allata of Locusta migratoria migratorioides (R. and F.), solitary phase, during sexual maturation and the ovarian cycle.
14818

The action of the endocrine system and the ovary on the hemogram of Locusta migratoria L. (Orthoptera). The role of the pars intercerebralis.
14828

Report to the Government of Madagascar on locust control.
14871

Protein variations in the ovary of Locusta migratoria (L.) (Orthoptera) in the first phase of maturation.
15351

Growth of the trehala and its neuroendocrine control in the migratory locust, Locusta migratoria migratorioides. 2. The role of the corpora cardiaca and the parasympathetic organs.
15355

Remarks on the ultrastructure of the ventral gland in Locusta migratoria L. (Orthoptera) in dense populations.
15381

LOCUSTA MIGRATORIA MIGRATORIOIDES

On the phosphagen isolated from eggs of insects.
8108

Hormonal inhibition of the prothoracic gland by the brain in locusts.
9355

Effects of allatectomy on the imaginal development of the female genital tract in Locusta migratoria migratorioides (Insecta, Orthoptera).
11328

Study of factors affecting the food uptake by the nymphs of Locusta migratoria migratorioides (Orthoptera, Acrididae). II. Internal factors.
11396

Permeability to water of the shell of the egg of Locusta migratoria migratoriodcs, with observations on the egg of Teleogryllus commodus.
11793

The control of water loss in Locusta migratoria mays. Influence of high-temperature treatment before spiracles.
11850

Migratorioides R. and F. I. Cuticular water loss. The control of water loss in Locusta migratoria.
11851

An investigation of haemolymph protein economy during the fifth instar of Locusta migratoria migratorioides.
11889

LOCUSTANA PARDALINA

The viability of brown locust eggs (Locustana pardalina (Walker)).
14188

LODGING

Effect of cycocel on foot and root rots, lodging and yield of spring wheat.
10973

The effect of (2-chloroethyl) trimethylammonium chloride (CCC) on the grain yield and quality of rye in field trials.
13487

The influence of CCC on lodging and development of grain.
14680

LOGS

Seasonal changes in the distribution of the millipede Cylindroiulus punctatus (Leach) in decaying logs and soil.
9966

Studies on the succession of higher fungi on felled beech logs (Fagus crenata) in Japan.
12036

LOLIUM

From weeds to pasture in one year.
8431

The detection of Helminthosporium and Fusarium spp. in ryegrass and meadow fescue seed samples.
13290

Action of thiabendazole compared to that of ethylparathion on rye-grass crown rust.
15514

LOLIUM MULTIFLORUM

Uredospore storage in breeding for crown rust resistant annual ryegrass.
11946

The influence of phosphate on the phytotoxicity of 3-amino-1,2,4-triazole.
13497

LOLIUM PERENNE

Control of the biennial thistle, Onopordum, by amitrole and five perennial grasses.
10798

Phytotoxicity of sporidesmin.
14069

Witches' broom of Berberis.
14395

LOMAMYIA

Lomamyia-latipennis (Neuroptera: Berothidae) life history and larval descriptions.
12994

LONCHOCARPUS

Thin layer densitometric determination of rotenone and deguelin.
10461

LONGEVITY

Biology of Bracon mellitor, a parasite of the boll weevil.
8070

Effect of temperature on the progeny production and longevity of Lespesia archippivora in the laboratory.
8093

Mortality, longevity, and fecundity of spider mites on cotton treated with systemic acaricides.
8692

Life history and some factors affecting the population of Arzama densa in Louisiana.
8891

Effect of food intake on growth and survival of salmonellas and Escherichia coli in the bovine rumen.
9064

Studies on longevity of adult Eretmapodites chrysogaster, Aedes togoi and Aedes (Stegomyia) Albopictus females Diptera: Culicidae).
9406

The effect of two host species on the longevity and fertility of Nasonia vitripennis.
9472

Some factors influencing the reproduction and longevity of Coccinclla septempunctata Linnaeus (Coleoptera: Coccinellidae).
9480

The influence of nutrition on the fertility and longevity of the bean weevil (Acanthoscelides obtectus Say).
9494

Evidence for longevity of seeds.
9563

The role of Hampea sp. in the migration of the cotton leafworm to the United States.
9635

Studies on an Israel strain of Anagyrus pseudococci (Girault) (Hym., Encyrtidae). II. Some biological aspects.
9964

The influence of ecological and genetic factors on the birth and death of Macrocheles robustulus (Berlese,1904).
10005

Lethal temperatures for puparia of Glossina morsitans orientalis.
10092

Survival of lyophilized Bacillus popilliae in soil.
10415

Longevity and role of Verticillium-and Fusarium-diseased plant materials in infection of new cotton crops.
10614

Effects of N-dimethyl amino succinamic acid (B-Nine) on flower longevity and vegetative growth of pot chrysanthemums (Chrysanthemum morifolium Ramat).
10966

Survival of Myzus persicae (Aphididae) treated with heat and then exposed to different temperatures.
11252

Oviposition characteristics and early larvae mortality of Saperda inornata and Obcrea schaumii in Michigan aspen.
11281

Effects of desiccation and temperature on survival of Cyperus esculentus tubers and Cynodon dactylon rhizomes.
11580

Effect of temperature on survival of airborne Mycoplasma pneumoniae.
11631

Observations on tandem-running, tenacity and aggression in the Indian red ant, Oecophylla smaragdina Fabr..
12458

Longevity, resistance to deprivation of food and water, and susceptibility to malathion and DDT of Oriental fruit flies, melon flies, and Mediterranean fruit flies sexually sterilized with tepa or radiation.
12479

Effect of insecticidal sprays on the longevity and fecundity of Eublemma amabilis Moore and Holcocera pulverea Meyr.
12493

Growth, longevity, and the frequency of feeding of Glossina pallidipes Austen.
12504

Metepa as a chemosterilant for adult female pink bollworms.
12507

Studies on the bacterial diseases of Sudan crops. VIII. Survival and dissemination of Xanthomonas phaseoli (E.F.Sm.) Dowson.
12657

Host specificity as evidenced by species of Fasciola.
12841

The effect of population structure on the success of insect introductions.
13082

Grain aphids in New Brunswick. IV. Effects of malathion and 2,4-D amine on aphid populations and on yields of oats and barley.
13297

The resistance of Rhabditis sp. and Anguina tritici (Nematoda) to drying and action of low and superlow temperatures.
13416

Studies on the brown-eye-spot disease (cercospora coffeicola B. and Cke) of coffee (Coffea arabica L.). IV. Longevity and viability studies.
13816

A new method of estimating population size, survivorship, and birth rate from capture-recapture data.
14237

Effects of sub-lethal dosages of parathion and carbaryl on the biology of Dysdercus koenigii Fabricius.
15028

Effects of insecticidal treatment on the biology of surviving insects.
15029

LONGIDORUS

Virus vector nematodes.
10750

Present knowledge on Phytophagous nematodes and their relations with virus diseases.
14514

On the transmission of tomato black ring virus by Longidorus attenuatus (Nematoda).
15518

LONGIDORUS ATTENUATUS

The effect of soil fumigation on the growth of sugar beet.
9193

LONGIDORUS ELONGATUS

Transmission of strains of raspberry ringspot and tomato black ring viruses by Longidorus elongatus (de Man).
12662

Nematode problems in areas of strawberry cultivation in Hessen-Nassau.
13337

LONGIDORUS MACROSOMA

Contribution to the migratory behavior of Xiphinema diversicaudum (Mikoletzky) Thorne, X. coxi Tarjan and Longidorus macrosoma Hooper, as well as the diffusion of rhubarb mosaic virus in the field.
8382

LONGITARSUS

A contribution to the knowledge of the Halticinae of Northern Persia.
10514

LONGIUNGUIS DONACIS

Natural mortality of overwintering eggs of Longiunguis donacis (Pass.).
14266

LOOSE SMUT

Control of barley loose smut in Wisconsin in 1966 and 1967.
10171

Chemical control of loose smut in barley in Minnesota.
10174

Chemotherapy of loose smut of barley in Canada.
10179

A systemic oxathiin fungicide to control loose smuts, covering smuts, seed rots, and seedling blights of wheat, barley, oats, and sorghum.
10189

Effect of chemical treatments on the control of.
10191

Control of loose smut of wheat and barley in Arkansas with fungicides.
10192

Chemical control of wheat and barley loose smut.
10194

Effect of two systemic fungicides on control of loose smut in wheat.
10195

Effectiveness of fungicides in controlling barley loose smut.
10196

Chemical control of loose smut in barley.
10214

The systemic fungicide 2,3-dihydro-5-carboxanilido-6-methyl1,4-oxathiin.
10222

Control of barley loose smut (Ustilago nuda) by a derivative of 1,4-oxathiin in South Carolina.
10661

Evaluation of nine fungicides in controlling flag smut of wheat.
13800

LOPHODERMIUM PINASTRI

Fungicides in forestry in Great Britain.
15559

LOPHOLEUCASPIS JAPONICA

Discovery of Marlattiella prima Howard, a parasite of the pear white scale, from Japan (Hymenoptera: Aphelinidae).
11762

LORANTHACEAE

Studies of fruitflies associated with mistletoe in Australia and Pakistan with notes and descriptions on genera related to Perilampsis Bezzi Diptera: Tephritidae.
8635

LORANTHUS

The phytophagous fauna of a mistletoe (Loranthus longiflorus Desr.: Loranthaceae) in West Pakistan.
11520

Biochemical aspects of parasitism by the angiosperm parasites. 1. Phosphate fractions in the leaves of loranthus and hosts.
13354

LOSSES

Fish losses after forest sprayings with insecticides in New Brunswick, 1952-62, as shown by caged specimens and other observations.
8567

Studies on effects of forest sprayings with insecticides, 1952-63, on fish and aquatic invertebrates in New Brunswick streams: Introduction and summary.
9144

LOXOSCELES RECLUSA

The brown recluse spider and loxoscelism in Tennessee.
9457

Preliminary studies on venom from the brown recluse spider Loxosceles reclusa.
9816

A brief review of necrotic arachnidism or North American loxoscelism.
13640

Effect of Loxosceles reclusa Gertsch and Mulaik venom on Heliothis virescens (F.) larvae. oosterhof, g.
14248

LOXOSCELES UNICOLOR

Experimental necrotic arachnidism on rabbits caused by the bites of Loxosceles unicolor (Araneae: Scytodidae).
11436

LSD

Drosophila melanogaster treated with LSD: Absence of mutation and chromosome breakage.
9512

LUCANIDAE

Spiracles of adult Scarabaeoidea (Coleoptera) and their phylogenetic significance. 1. The abdominal spiracles.
9934

A new spindle virus observed in a Lucanid (Coleoptera) of Madagascar.
12326

LUCIFERINS

Mechanism of oxidation of luciferin in firefly bioluminescence.
15376

LUCILIA CUPRINA

Dieldrin resistance in Lucilia sericata (Meig) from Co. Dublin, Eire.
8188

LUCIOLA LUSITANICA

Spectrum analysis of the light emitted by Luciola lusitanica (Charp.).
8195

LUMBER

Treating pine lumber with insecticide and preservative prevents tubing by subterranean termites.
12875

LUMBER PRESERVATIVES

Treating pine lumber with insecticide and preservative prevents tubing by subterranean termites.
12875

A new technique for the comparative evaluation of some organo-metallic wood preservatives.
13515

The causes of sapstain in red beech.
14350

LUMINESCENCE

Spectrum analysis of the light emitted by Luciola lusitanica (Charp.).
8195

The excited state products of firefly bioluminescence: properties and mechanism of formation. (Abstract).
10534

Natural infection of chigger mites with Rickettsia tsutsugamushi on the Primorsky Territory.
10541

Measuring the effect of air pollutants on bacterial luminescence: A simplified procedure.
12323

Colors of firefly bioluminescence: Invariability of intraspecies emission spectra.
15352

Mechanism of oxidation of luciferin in firefly bioluminescence.
15376

LUMPY SKIN DISEASE
Geographical distribution maps of animal diseases in Africa, 1966. 14575

LUNGS
Prostaglandins: Enzymatic analysis. 9687
Massive pulmonary acariasis in the pig-tailed macaque. 12188
Contribution to the knowledge of primitive tumors of the heart in domestic animals: Globomyeloma in a cow. 13372
Pleural haemangioma as a cause of transient ascites in the dog. 13945
A case of toxoplasmosis in a dog. 13965
Warfarin treatment of mice bearing autochthonous tumors: Effect on spontaneous metastases. 14608
Pulmonary disease in Kenya sheep. 14639
Lead poisoning and aspergillosis in an Andean condor. 15789

LUPINE
Evidence for longevity of seeds. 9563
Crooked calf disease. 12163

LUPINUS ANGUSTIFOLIUS
Fungal pathogenicity to sound and mechanically damaged blue lupine seed in anexic culture at two temperatures. 14470

LUPINUS LUTEUS
Effect of spraying and defoliation on flower shedding in yellow lupine (Lupinus luteus L). 12240

LYCAENIDAE
A new Falcuna species from western Nigeria (Lepidoptera: Lycaenidae). 9259
A new subspecies of Callophrys fotis from the San Francisco Bay area (Lycaenidae). 9267
A notable intergeneric mating (Lycaenidae). 9382
The occurrence of Danis hymetus taygetus (Felder) at Bayview, New South Wales. 9899
Aricia ramburi Verity in the central Pyrenees (Lep., Lycaenidae). 13534
On the voltinism of Polyommatus icarus Rott. (Lep., Lycaenidae) in Great Britain. 13642
Chromosome numbers in the Lysandra coridon group (Lep., Lycaenidae). 14732
A review of Glaucopsyche, the silvery blues in California (Lycaenidae). 14757
Uncommon butterflies of northeastern Indiana. 14770

LYCHNIS ALBA
Control of yellow rocket (Barbarea vulgaris) and other broadleaf weeds associated with established alfalfa. 8402

LYCOMORPHA
Early stages of Lycomorpha regulus Grinnell, with notes on the imago. (Lepidoptera: Amatidae). 11725

LYCOPERSICON
Lycopersicon an Solanum spp. resistant to the carmine and the two-spotted spider mite. 8343

LYCOSA
A nonlinear model for transient responses from light-adapted wolf spider eyes. 12442
Nonlinear transient responses from light-adapted wolf spider eyes to changes in background illumination. 12443

LYCOSA MIAMI
Envenomization by the spider Lycosa miami Wallace. 11434

LYCOSIDAE
Life history and behavior of Pardosa lapidicina Emerton (Araneae: Lycosidae). 11264

LYCTIDAE
Termites and powder-post beetles. 15653
Termites and powder-post beetles. 15838

LYCTOCORIS BENEFICUS
On the bionomics of Lyctocoris beneficus (Hiura) and Xylocoris galactinus (Fieber) (Anthocoridae, Heteroptera). 9003

LYCTUS
Experiments with Lyctus. 12057

LYCTUS AFRICANUS
Experiments with Lyctus. 12057

LYCTUS BRUNNEUS
Experiments with Lyctus. 12057

LYGAEIDAE
A new subfamily of Lygaeidae (Hemiptera-Heteroptera) from Australia. 8067
Chemical control of a species of the false chinch-bug group on wheat and sugar beets. 8336
Two new genera and five new species of Argaremini from New Zealand, with a key to the genera of Targaremini (Heteroptera: Lygaeidae). 8630
New record of Chanliops fallax Scott. (Hemiptera: Lygaeidae) on moong and urid (Phaseolus spp.). 10097
Observations on Rhypodes chiwai Usinger (Hemiptera: Lygaeidae). 12553
Chromosomal fragments transmitted through three generations in Oncopeltus (Hemiptera). 13185
Rhyparochrominae types in the British Museum (Natural History) (Hemiptera: Lygaeidae). 14164
Lygaeidae (Hemiptera) of Oklahoma. 14775

LYGUS
Species of Lygus (Hahn) (Hemiptera: Miridae) in Scotland. 8057

LYGUS BUGS
Lygus bug control in cotton through alfalfa interplanting. 12083

LYMAENON
New Mymaridae from Central Africa. (Hymenoptera: Chalcidoidea). 9916

LYMANTRIA
A study of the bionomics of Lymantria ampla Wlk. (Lymantriidaei Lepidoptera). 14887

LYMANTRIIDAE
Lymantriidae--east versus west Africa. 9938
Biology of Agrothereutes tunethnus Haber. (Hym., Ichneumonidae) an ectoparasite of Orgyia dubia Tausch. (Lep., Lymantriidae). 10054
The gypsy moth, Porthetria dispar L., a threat to Ontario horticulture and forestry. 10716
Factors influencing the development of a polyhedral cytoplasmic intestinal virus in Mamestra brassicae L. (Lepidoptera). 11322
Molecular organization in the polyhedra of Porthetria dispar nuclear-polyhedrosis. 11812
Biology and external morphology of forage pests. I. Tussock caterpillars, Euproctis spp. (Lymantriidae: Lepidoptera). 14836
Morphology, biology, and ecology of Dasychira selenitica Esp. (Lepidopt., Lymantriidae). 15369

LYMPH
Cancer virus of animals and men. 14013

LYMPH NODES
The demonstration of a single species of an unclassified bacterium in five cases of bovine lymphosarcoma. 8469
Actinobacillus lignieresii infection in a dog. 9067
Growth of Aleutian disease virus in mink. (Abstract). 10885
Observations on the ultrastructure of the spinal cord, spleen and lymph nodes of mice inoculated with scrapie. 12755
Contribution to the knowledge of primitive tumors of the heart in domestic animals: Globomyeloma in a cow. 13372
Nuclear measurements of lymph-node puncture cells from dogs with lymphademosis. 13978
The latex test for the serological diagnosis of bovine leucosis. 13996

LYMPHATIC SYSTEM
Nuclear measurements of lymph-node puncture cells from dogs with lymphademosis. 13978
Cytological studies in bovine leucosis. 14011
A case of equine lymphosarcoma. 14012
Malignant mammary tumours to the bitch with special reference to prognosis. 14015
The formal genesis of leucosis and RNA tumours in the ox, dog and cat. 14017

LYMPHOCYTES
Stimulation of porcine splenic cultures by a radiationinduced lymphoid leukemia filtrate: a preliminary report. 9078
Polymethacrylic acid: Effects on lymphocyte output of the thoracic duct in rats. 9741

LYMPHOCYTOSIS
The reactivity of the white blood picture in the horse. 11594
The scientific basis for the control of bovine leucosis. 13967
The morphological part of a study of the hematological key for the diagnosing of leukosis in red-spotted cattle in Czechoslovakia. 13987
Persisting lymphocytosis and its relation to the etiology of bovine leukosis. 14006
Cytological studies in bovine leucosis. 14011

LYMPHOMA
Total-body irradiation of canine lymphoma. 12150

LYMPHOSARCOMA

The demonstration of a single species of an unclassified bacterium in five cases of bovine lymphosarcoma.
8469

Comparative consideration of the morphology and genesis of new growths.
13944

Nuclear measurements of lymph-node puncture cells from dogs with lymphademosis.
13978

A case of equine lymphosarcoma.
14012

On the problem of leukoses (hemoblastoses) of the reticular order in animals for slaughter.
14014

The formal genesis of leucosis and RNA tumours in the ox, dog and cat.
14017

LYONETIA CLERKELLA

Leaf mining moths are again occuring more often.
10714

LYOPHILIZATION

Survival of lyophilized Bacillus popilliae in soil.
10415

Purification and conservation of infective sugar beet mosaic virus.
13245

Antirabies vaccines inactivated by beta-propiolactone prepared from new-born kid and mouse brains.
13379

Lyophilizing foot-and-mouth disease virus at low drying temperature.
14604

Stabilization of purified potato virus X by dextran T-10 during lyophilization.
15526

LYSANDRA CORIDON

Chromosome numbers in the Lysandra coridon group (Lep., Lycaenidae).
14732

LYSATES

Effect of antiserum to E. coli DNA polymerase on synthesis of phi chi 174 DNA extracts of phi chi infected cells.
9848

LYSIMETERS

Soil water measured.
8923

LYSINE

RNA and protein in nucleolar structures of dragonfly oocytes.
14826

LYSINE DECARBOXYLASE

Behavior of salmonellae causing specific animal paratyphoid in Lysine-decarboxylase test.
14007

LYSIS

Immune lysis of rabies virus-infected cells.
10361

Establishment of a rhizosphere microflora on carnations as a means of plant protection in steamed greenhouse soils.
10662

Photolysis of amiben. (Abstract).
11071

Electron microscopy of the lysis of Salmonella by Bdellovibrio bacteriovirus.
11606

Programmed cell death. Activation of lysis by a mechanism involving the synthesis of protein.
11849

LYSOSOMES

The existence of lysosomic inclusions in the adipose cells of Periplaneta americana (Blattidae).
8759

An observation on the ileum of the European corn borer, Ostrinia nubilalis.
9422

The disruption of lysosome-like particles of Solanum tuberosum cells during infection by Phytophthora erythroseptica Pethybr.
12011

Hypervitaminosis A and bone deformities in turkeys and chickens. (Abstract).
12176

LYTTA VIRIDANA

The embryology of Lytta viridana Le Conte (Coleoptera: Meloidae). IV. Chromatin elimination.
8261

MACADAMIA TETRAPHYLLA

Effect of iron and manganese deficiency on the chlorophyll, amino acid and organic acid status of leaves of macadamia.
12255

MACARONI

Susceptibility of 'tapioca macaroni' to insect attack.
14647

MACHILIDAE

Two new South African machilids of the genus Machiloides (Microcoryphia, Insecta).
12399

MACHILOIDES

Two new South African machilids of the genus Machiloides (Microcoryphia, Insecta).
12399

MACRACANTHORHYNCHUS HIRUDINACEUS

Worms in pigs.
13411

MACROCHELES

The influence of ecological and genetic factors on the birth and death of Macrocheles robustulus (Berlese,1904).
10005

MACROCHELES MUSCAEDOMESTICAE

Comparative toxicites of insecticides to house fly larvae and Macrocheles muscaedomestica, a mite predator of the house fly.
9168

MACROCHELIDAE

Contribution to the knowledge of the genus Holostaspella Berlese 1903 (Acari: Mesostigmata: Macrochelidae).
8032

MACRONUTRIENTS

The effect of diphenamid on the uptake and distribution of macronutrient elements in cabbage.
8305

MACROPHAGES

The inactivation of Erysipelothrix rhusiopathiae in macrophages from normal and immune mice.
12804

Mycobacterium tuberculosis in macrophages: Effect of certain surfactants and other membrane-active compounds.
14671

MACROPHOMA PINEA

Pinus sabiniana and Pinus muricata as hosts for Diplodia pinea in California.
11476

Necrosis and die-back in conifers caused by Diplodia pinea.
13270

Pinus sabiniana and Pinus muricata as hosts for Diplodia pinea in California.
13786

MACROPHOMA TUMEFACIENS

Reactions of poplars to infection by Septoria musiva and Diplodia tumefaciens and to injury by frost in Manitoba and Saskatchewan.
13296

MACROPHOMINA PHASEOLI

A note on paper disk method for laboratory fungicidal bioassay.
9241

Comparison of mycelial and Sclerotial inoculum of Macrophomina phaseoli in the mortality of pine seedlings under varying soil conditions.
10225

Studies on the pycnidial formation by Macrophomina phaseoli (Maubl.) Ashby size of pycnidia, ostiole and pycnidiospores and its significance.
10600

Differential response,of a few improved and local varieties as well as a hybrid line of jute to stem-rot (Macrophomina phaseoli) and anthracnose (Collectotrichum corchori). diseases.
12619

Corn stalk rot fungi in North Carolina.
12626

Carthamus oxyacantha, a new host of Macrophomina phaseoli.
13908

Incidence of Macrophomina phaseoli (Maubl.) Ash., (Rhizoctonia bataticola Taub.) in French beans (Phaseolis vulgaris L.) and other cultivated plants.
15474

MACROPOSTHONIA

Eelworms-a progress report on a few more groups found in North-East Indian tea soils.
9025

MACROSIPHONIELLA SANBORNI

Competition and other factors influencing the population dynamics of Aphis gossypii and Macrosiphoniella sanborni on greenhouse chrysanthemums.
13687

MACROSIPHUM

Transmission of barley yellow dwarf virus (BYDV) in cereals by two aphid species, Rhopalosiphum padi (L.) and Macrosiphum miscanthi (Tak.).
12024

A preliminary account of Macrosiphum miscanthi Takahashi on grasses and cereals in New Zealand.
12678

MACROSIPHUM ALBIFRONS

Change in transmissibility of bean yellow mosaic virus by aphids.
11984

MACROSIPHUM AVENAE

Grain aphids in New brunswick. IV. Effects of malathion and 2,4-D amine on aphid populations and on yields of oats and barley.
8320

Grain aphids in New Brunswick. IV. Effects of malathion and 2,4-D amine on aphid populations and on yields of oats and barley.
13297

Effects of three species of aphids on barley, wheat or oats at various stages of plant growth.
13301

Development of Caenorhabditis briggsae and Hymenolepis nana in interchanged media. France.
14633

Estimation of damage on wheat by the aphid Macrosiphum avenae Fab.
15616

An exceptional outbreak of the aphid Macrosiphum (Sitobion) avenae Fabricius on wheat in southwestern France.
15649

Stimulation of DNA synthesis in bovine leukocyte cultures by Trypanosoma theileri antigen.
15775

MACROSIPHUM EUPHORBIAE

Control of aphids in seed potato production.
13322

Factors affecting the infestation of aphids on potato plants.
14481

MACROSIPHUM SMILACICOLA SIKKIMENSIS

New aphids from Northeast India (Homoptera).
12959

MACROSTELES FASCIFRONS

Chromatographic purification of the oat blue dwarf virus.
9547

Comparative efficiency of transmission of aster yellows by Elymana virescens and Macrosteles fascifrons and the relative concentration of the causal agent in the vectors.
10238

Varietal differences in oat blue dwarf virus resistance and symptom expression.
13781

Mycoplasma-like bodies in the saliva of the leafhopper Macrosteles fascifrons (Stal) (Homoptera: Cicadellidae).
15419

MACROTERMES
New experiments with Mueller termites (Macrotermes muelleri) and considerations of the stigmergy theory.
13631

MACROTERMES MUELLERI
New experiments with Mueller termites (Macrotermes muelleri) and considerations of the stigmergy theory.
13631

MADIA SATIVA
Sunflower, a new host of Coleosporium madia.
11517

MAGGOTS
Commercial vegetable insect control.
9633

Developments in control of ectoparasites of livestock.
13421

MAGNESIUM
Movement of calcium and magnesium across the midgut epithelium of the American cockroach.
8183

Serum enzyme and serum electrolyte values of lambs fed a magnesium-deficient ration.
9085

Factors affecting trace and minor elements in hill sheep pastures.
10589

Magnesium deficiency and tissue ions. (Abstract).
10905

The influence of magnesium on the toxicity of atrazine. (Abstract).
10962

Uptake and tolerance of lithium chloride by tung trees.
11022

Specific activity increase of a Balbiani ring by Mg2 plus in isolated nuclei of Chironomus.
11334

Effects of magnesium and calcium ions on the adenosinetriphosphatase activity of insect actomyosin at low ionic strength.
11342

Yellow virus effects on macro- and micro-elements in 'Montmorency' sour cherry leaves.
11989

Phosphorus and magnesium fertilizer studies with pepper.
12277

EDTA titration of calcium and magnesium: Determination of calcium in canned vegetables.
14029

Effect of soil type on uptake of magnesium by pasture plants.
14082

MAGNESIUM ALLOYS
Magnesium alloy bullets for suckling calves.
13955

MAGNESIUM OXIDE
Progress report of low-volume aerial spray tests against adults of Aedes taeniorhynchus (Weid.) and Culex nigripalpus Theob.
9523

MAGNESIUM SILICATE
Inactivation of virus inhibitors in aphids.
10741

MAGNESIUM SULFATE
Equi-Thesin, general anesthetic. Drugs for veterinary use; drug efficacy study implementation.
9813

MAINTENANCE
Section IV.--AGRICULTURAL engineering.
13838

Selection, adjustment, and care of spraying and dusting equipment.
15922

MALACHITE GREEN
The effect of malachite green as a fungicide.
12156

MALACOSOMA
Ovicidal efficiency of parathion and diazion for quarantine treatment of the Western tent caterpillar.
8376

MALACOSOMA DISSTRIA
Rearing the forest tent caterpillar on an artificial diet.
9332

Some behavioral and serological observations on the response of larvae of Bombyx mori and Malacosoma disstria to Bacillus thuringiensis.
11319

Serological investigations of insect viruses. I. Comparison of three highly purified cytoplasmic-polyhedrosis viruses.
11846

MALACOSOMA PLUVIALE
Ovicidal efficiency of parathion and diazion for quarantine treatment of the Western tent caterpillar.
8376

Susceptibility of several forest insects of British Columbia to commercially produced Bacillus thuringiensis. II. Laboratory and field pathogenicity tests.
10257

MALAGASY REPUBLIC
Contribution to the study of the Culicidae of Madagascar. Description of larvae and nymphs of Culex (C.) giganteus Ventrillon and Culex (C.) argenteopunctatus argenteopunctatus Ventrillon. Comparative notes on the adults of the two species.
12425

MALARIA
Anopheles moucheti in Cameroon.
8163

Practical importance of insecticide resistance for malaria eradication in tropical Africa.
8273

Technical problems of malaria eradication in Africa.
8275

Entomological factors in persisting transmission of malaria in eradication programs.
8276

Eradication of malaria and mosquito control in Italy.
8921

Parasitological and clinical investigations on infections with the VS Romanian strain of Plasmodium malariae transmitted by Anopheles labranchiae atroparvus.
9519

A filterable, proliferating factor simulating autoimmunity in malarious and nonmalarious ducklings.
9729

Role of interferon in experimental mouse malaria.
9749

Medical and veterinary chemicals. Vol.1,parts I and II.
10355

Review of classical malaria control measures.
11433

Further studies on the Plasmodium berghei-Anopheles stephensi- rodent system of mammalian malaria.
12190

Notes on the biology of Anopheles hargreavesi (Evans), 1927, and Anopheles paludis Theobald, 1900, in the south of Yaounde (Cameroon), along the Nyong river.
12508

An appraisal of adult mosquito trapping techniques used in Nigeria, West Africa.
12534

Entomological studies on the transmission of human malaria in a dense, humid forest zone, Sassandra region, Ivory Coast.
12580

New ecological data on vectors of human malaria in Africa.
12584

The zygotoblast and sporocyst indices in the valley of the Ruzizi.
12593

History of mosquito occurrence in Missouri.
13227

Some recent developments and trends in vector control aspects of malaria eradication.
13733

Global eradication of malaria: Changes of strategy and future outlook.
14298

Report of the 69th meeting of the division of applied entomology.
14825

Possible courses for the disappearance of malaria in the Netherlands.
14909

MALARIA CONTROL
Eradication of malaria and mosquito control in Italy.
8921

Anti-malarial effect of interferon inducers at different stages of development of Plasmodium berghei in the mouse.
9714

Preliminary studies on the anti-malarial activity of SDDS (2-sulfamoyl-4, 4'-diaminodiphenylsulfone) against Plasmodium berghei and Plasmodium gallinaceum.
14065

MALATHION
Practical importance of resistance to insecticides in Anopheles.
8099

The susceptibility of Culex pipiens molestus forskal in Israel to several insecticides in 1958-1960 and in 1965.
8272

Mosquito control in and around homes and farmsteads.
8274

Grain aphids in New brunswick. IV. Effects of malathion and 2,4-D amine on aphid populations and on yields of oats and barley.
8320

Double your cotton yield by spraying.
8324

Forest entomology.
8328

Chemicals that take care of the mango hopper.
8329

Chemical control of a species of the false chinch-bug group on wheat and sugar beets.
8336

Rice leafhoppers.
8363

Some recommendations for the control of perforators of seeds of Anonaccae (Bephrata sp. order Hymenoptera).
8372

Apple chalcid, Torymus varians (Wlk.), (Hymenoptera: Torymidae), in Quebec.
8373

Ovicidal efficiency of parathion and diazion for quarantine treatment of the Western tent caterpillar.
8376

Effect of gamma radiation on the insecticidal efficiency of malathion deposits on wheat and kraft paper.
8519

Malathion-induced teratisms in the developing chick.
8564

Fish losses after forest sprayings with insecticides in New Brunswick, 1952-62, as shown by caged specimens and other observations.
8567

Control of mites and aphids on and in bulbs.
8850

A leaf disorder of cacao in Costa Rica.
8982

The leaf snout weevil of the avocado.
9018

Pesticide residues in foods in relation to human health.
9170

Esterase inhibition in malathion poisoning in the desert locust, Schistocerca gregaria Forskal.
9423

Effects of ultra-low volume applications of malathion in Hale County, Texas. I. Western encephalitis virus activity in treated and untreated towns.
9521

Fly pests affect some crops in Northland.
9644

A comparison of malathion, diazinon, fenitrothion and dichlorvos for control of Sitophilus oryzae (L.) and Rhyzopertha dominica (F.) in wheat.
10237

Biology and control of leopard moth on pear trees in the United Arab Republic.
10242

Chemical control of Drosicha mangiferae (Green), a serious pest of Citrus spp. in Madhya Pradesh.
10263

Collaborative study of confirmative procedures by single sweep oscillographic polarography for the determination of organophosphorus pesticide residues in nonfatty foods.
10409

Hydrolysis of malathion by chicken and rat liver carboxyesterase. (Abstract).
10950

The relative susceptibility of the larvae of Spodoptera mauritia acronyctoides (Guenee) (Lepidoptera: Noctuidae) to several contact insecticides.
11221

Resistance to insecticides of three strains of Musca domestica L. from Brisbane, Queensland.
11351

A method for determining the dosage-mortality curve of malathion against the pea aphid, Acyrthosiphon pisum (Harris) (Homoptera: Aphididae).
11365

A carboxylesterase inhibition assay to estimate parathion, malathion and diazinon in lettuce extracts.
11676

Activity of Fosfotion and Metathion against Acyrthosiphon onobrychis Boyer.
11844

Automated differential screening method for organophosphorus pesticides.
12268

Failure of laboratory colonies of body lice to develop resistance to malathion.
12437

Longevity, resistance to deprivation of food and water, and susceptibility to malathion and DDT of Oriental fruit flies, melon flies, and Mediterranean fruit flies sexually sterilized with tepa or radiation.
12479

Efficacy of malathion on wheat grains against Trogoderma granarium Everts at constant temperatures.
12527

Deformation of puparia of the housefly (Musca domestica L.) on treatment with organophosphorus insectisides.
12541

Control of adult mosquitoes in Alaska with malathion.
12589

Laboratory evaluation of malathion as a storage protectant for figs.
12879

Malathion resistance in Aedes sollicitans (Walker) from Langley Air Force Base, Virginia.
13096

The brine fly problem on the great salt lake beaches.
13104

Resistance of Culex tritaeniorhynchus Giles and Culex quinquefasciatus Say to malathion on Okinawa with notes on susceptibility to other insecticides.
13196

Grain aphids in New Brunswick. IV. Effects of malathion and 2,4-D amine on aphid populations and on yields of oats and barley.
13297

The relative susceptibility of the larvae of Spodoptera mauritia acronyctoides (Guence) (Lepidoptera: Noctuidae) to several contact insecticides.
13300

Identification of organophosphate pesticides by gas chromatography with the flame photometric detector.
13517

Laboratory investigations on the effect of aphicides available in Poland on the most important natural enemies of aphids.
13702

Experiences with aerial dusting in the Kern mosquito abatement district--1967.
13734

Aerial insecticidal sprays against resistant saltmarsh mosquitoes Aedes taeniorhynchus (Wiedemann) and Aedes sollicitans (Walker).
13736

Traps, male lures, and a warning system for Queensland fruit fly, Dacus tryoni (Frogg.) (Diptera, Trypetidae).
13849

Evaluation of the ultra-low volume aerial spray technique by use of caged adult mosquitoes.
14907

ULV spray application of pesticides-- a step towards economical plant protection.
14910

Insecticidal trials against jowar pests.
15009

A case history - Control of the hemlock looper.
15016

Effect of temperature and humidity on the toxicity and persistence of parathion, malathion and endrin deposits.
15039

Campaign against stored grain pests in villages of IADP district Ludhiana.
15229

Toxicity of six organophosphorus insecticides to fish.
15272

Effectiveness of insecticidal residues on U. S. Army. tenting against Anopheles ssp..
15440

Laboratory tests of the susceptibility of mosquito larvae to insecticides in Florida, 1968.
15442

A study of factors affecting the susceptibility of mosquito larvae to insecticides in laboratory resistance tests.
15450

Esterase activity in organophosphorus- tolerant strains of Aepcs aegypti.
15454

Pest and disease control schedules.
15455

Studies on the behaviour of Plusia orichalcea Fabr. (Lepidoptera: Noctuidae) and an assessment of the foliar loss caused by it and the control measures.
15617

Mites, pests in gardens and living rooms.
15620

Small grains insects.
15629

Sorghum.
15630

Blackberry, dewberry and raspberry insects.
15638

Household pests.
15840

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities, Malathion.
15868

MALEIC HYDRAZIDE

Herbicidal activity of some pyridazine derivates. Part III. 3-phenoxypyridazines and related compounds.
9042

Fate of C14-maleic hydrazide in rats.
9798

The mode of action of maleic hydrazide: Inhibition of growth.
10444

Chemistry of fungicides.
10476

Chemical control of growth and flowering of woody ornamental plants in the landscape and nursery: Tests with maleic hydrazide and Alar.
11026

Effect of some growth substances on Tricholoma giganteum Massee.
12275

Maleic hydrazide inhibits growth of young tung trees (Aleurites fordii, Hemsl.).
12300

Effects of maleic hydrazide in purple nutsedge (Cyperus rotundus L.).
12898

Study on the fatty acid composition during germination of peanuts treated with growth regulators.
13498

Effects of N-dimethylamino succinamic acid (Alar), (2-chloroethyl trimethylammonium chloride (CCC), gibberellic acid (GA), and maleic hydrazide (MH) on bolting in lettuce. (Abstract).
14305

Staminal and functional male sterility induced by chemical treatment in Papilionaceous plants.
15280

Effects of some growth-regulators with gametocidal properties on Cajanus cajan (L.) Millsp..
15281

Induction of dormancy in groundnut by pre-harvest foliar application of maleic hydrazide.
15285

MALLOPHAGA

The new genus Fregatiella (Mallophaga: Menoponidae) for Menopon aurifasciatum from the frigate-bird.
8665

A review of the genus Eidmanniella (Mallophaga: Menoponidae) from the Pelecaniformes.
8666

Mallophaga from birds of the Oriental Region. Part IX. Sturnidoecus philippensis, n. sp. (Ischnocera: Philopteridae).
8680

Systematic studies of the Central European species of the genus Austromenopon Bedf. (Mallophaga, Austromenoponinae).
9331

In vitro colonization of the goat biting lice, Bovicola crassipes and B. limbata.
10034

A new species of Plegadiphilus (Mallophaga, Menoponidae) from the Cayenne Ibis.
11130

Contemporary literature--Mallophaga. (i).
11266

Ecology of lice on sheep. VI. The influence of shearing and solar radiation on populations and transmission of Damalinia ovis.
12186

Contribution to the knowledge of the species of existing Mallophaga in Spain (Anop. Mallophaga).
15328

Phoresia of Damalinia (C.) meyeri (Mallophaga) and Lamprochernes nodosus (Pseudoscorpio-

nidea) on mosquitoes Aedes sticticus (Culicidae).
15400

The effect of simultaneous treatment with hexachlorophene and nitroxynil upon immature Fasciola hepatica in rats and rabbits.
15829

MALPIGHIAN TUBES

Occurrence of an alkaline phosphomondesterase associated with the brochosomes in the malpighian tubules of Cicadella viridis Lin. (Homoptera).
8762

On the production of lipoproteic corpuscules by the Malpighian tubes in some insects.
8763

Starvation-induced activity in cockroach malpighian tubules.
10073

Sex pheromone of Trypobendron lineatum: Production in the female hindgut-malpighian tubule region.
11234

Some observations on the malpighian tubules and ovarioles in Myrmecia dispar (Clark) (Hymenoptera: Formicidae).
11822

Secretion by the malpighian tubules of Rhodnius. The movements of ions and water.
11855

Anatomical and histological changes in internal organs of adult Trypodendron lineatum, Gnathotrichus retusus and G. sulcatus (Coleoptera: Scolytidae).
12532

Damage caused by Lankesteria culicis (Ross) to Aedes aegypti (L.).
14297

A new taxonomic criterion for cockroaches: The insertion of the Malpighian tubules.
14760

MALTING BARLEY

A result of ethylene imine treatment in malting barley.
14083

MALUS

Transmission of apple viruses by leaf tissue implantation.
8992

MALVA PARVIFLORA

Identification of the causal agent of a Malva disease present in Italy.
15018

MAMMALS

Studies on the behaviour of Lucilia illustris Meigen as a parasite of vertebrates under experimental conditions.
8103

Avian and mammalian predators of forest insects.
8330

Biology and economic importance of the chigger Neoschongastia americana on turkeys.
8489

Nasal Acarina of birds and mammals of Brazil. I. Rhinonyssidae of the Belem region (North Brazil).
8617

The role of gamma-aminobutyric acid in mosquito-host interactions: A hypothesis.
8779

Some ectoparasites from West Virginia mammals, II.
9128

Comparative mechanisms of insecticide binding with nerve components of insects and mammals.
9176

Metabolism of insecticides. Microsynthesis of 14C-betadihydroheptachcor.
9452

Studies on the role of mammals in the natural history of western encephalitis in Hale County Texas.
9691

Arbovirus focus in the east Kootenays. (abstract).
9730

Oxidative degradation of aromatic hydrocarbons by microorganisms. II. Metabolism of halogenated aromatic hydrocarbons.
9831

Mites of the super-family Gamasoidea on micromammalia in the western Balkan Range.
9911

The effect of pupal predators on a population of winter moth, Operophtera brumata (L.) (Hydriomenidae).
10010

Research on the effect of the entomophagous fungi Beauveria bassiana (bals.) Vuill. and Metarrhizium anisopliae (Metsch.) Sorok. on warm-blooded animals.
10353

A study of the mites of the Gamasoidea superfamily (Parasitiformes) infesting small mammals on the Vitosha Mountain.
10364

Haemogamasid mites of eastern Asia and the western Pacific with a key to the species.
11105

Early development of Taenia crassiceps in the intermediate host,with a note on primitive cell types.
11642

Ticks of wild animals of the Antilles (Acarina, Ixodoidea).
11748

Toxoplasmosis in the marmot.
12126

Adaptation of some mammalian helminths in the light of helminthocoenoses.
12850

Section I.--Insect control.
14062

The interaction of pesticides with other factors.
14063

The metabolism of pesticides in mammals.
14064

Enhancement of infectivity of a mammalian virus preparation after injection into insects.
14268

How to control rodents and other wildlife pests.
15155

Considerations of the results of tests run on wild animals living free and in captivity.
15162

Some aspects of mange in man and domestic animals.
15196

Toxicity of insecticides and fumigants to mammals.
15875

Chemicals for control of plant diseases.
15881

Weed control.
15884

Studies on the mechanisms of the monofluoroacetanilides poisoning to mammals. VIII. Organophosphorus compounds as a specific inhibitor to fluoroacetanilide amidohydrolase.
15888

MAMMARY GLANDS

The structure of the mammary tumor virus.
9066

Structural relationships between the RNA of mammary tumor virus and those of other RNA tumor viruses.
9700

Mammary development in alloxan diabetic rabbits injected with oestrone and progesterone.
9734

Malignant mammary tumours to the bitch with special reference to prognosis.
14015

Diffusion in the udder of dyes and antibiotics dissolved in dimethyl sulfoxide (DMSO).
14021

Transmammary passage of nematode larval infestation.
14027

A histological study of the effects of enzootic abortion of ewes virus in the lactating bovine mammary gland.
14559

Effects of humoral and cellular phases of acute inflammation in the bovine mammary gland on Aerobacter aerogenes introduced en masse and on leukocytes in milk.
14610

MAMMILLARIA

Cactus cyst nematode, Heterodera cacti, in Florida, with host list.
10754

MANAGEMENT

Administration of aquatic nuisance control in Ontario.
8534

The silent supervisor (a functional organization chart).
14114

MANDARIN ORANGES

A color test for citrus exocortis in Japan.
14462

A survey and causal organisms of twig blight disease of mandarin oranges in Darjeeling District, West Bengal, India.
15473

MANDELIC ACID

3,4-dihydroxy-mandelic acid in the mushroom gland of cockroaches.
11220

MANDIBULAR GLANDS

The alarm-defence system of the ant Lasius alienus.
8174

On the components of secretion of mandibular glands of the ant Lasius (Dendrolasius) fuliginosus.
13020

MANDUCA SEXTA

Cuticular pigments of tobacco hornworm (Manduca sexta) larvae: Effects of diet and genetic differences.
8100

House sparrows and a field infestation of tobacco hornworm larvae.
9023

Adult hornworm populations and degree of infestation on tobacco in relation to community-wide grower use of blacklight traps.
10752

Sucessful laboratory mating of Apanteles congregatus, a parasite of the tobacco hornworm, Manduca sexta.
11347

MANEB

A fungus of the onion, new for italy: Botrytis squamosa Walker.
9562

A contribution to the study of Alternaria tenuis Nees causer of the leaf spot of tomato.
9581

Results of three years of the control of Marssonina brunnea in poplars.
10626

Comparison between products effective against both powdery mildew and oidium.
10641

Some aspects of the chemical control of tobacco Peronospora.
10642

Second year trials of Peronospora control on onions. (Peronospora schleideni Unger).
10653

Study on the determination of the moisture content in the fungicides with a dithiocarbamic base.
12309

Didymella stem and fruit rot of tomato.
13273

Control of late blight of potato with maneb in Nilgiri hills.
13750

The etiology, including nutritional considerations, of passion fruit brown spot in Hawaii. 14342

Effects of Cercospora leaf spot and dates of harvest on sugar beet varieties with or without Maneb treatment. 14358

Is an early infection by Peronospora tabacina Adam controlable in the field . 14397

Evaluation and use of fungicides in commercial cultivation of barley in Colombia. 14436

Secondary effects of fungicides on barley. 14517

A further field experiment regarding the effect of fentin acetate, maneb and copper oxychloride fungicides on the population density of the Colorado beetle (Leptinotarsa decemlineata Say.). 14858

Tobacco--blue mold and anthracnose control, asheville. 15597

MANEB (ZINC ION)

Neck rot in onions. 8296

Results of three years of the control of Marssonina brunnea in poplars. 10626

Basic tests concerning the control of Marssonina brunnea in poplars. 10631

Comparison between products effective against both powdery mildew and oidium. 10641

Some important turf diseases. 12599

Fungicides for the control of leaf spot (Pseudopeziza ribis) of black currants. 13281

MANGANESE

Plant treatment in relation to the rhizosphere effect. III. Foliar application of certain trace elements and metallic chelates in relation to the rhizosphere microflora of rice (Oryza sativa L.). 8588

Factors affecting trace and minor elements in hill sheep pastures. 10589

Effects of lime on potato blight. 10690

Manganese supplementation for commercial egg production. (Abstract). 10852

The effect of some trace elements on growth, reproduction, and symbionts of artificially fed Neomyzus circumflexus Buckt. (Aphidae, Homoptera, Insecta). 11265

Effect of iron and manganese deficiency on the chlorophyll, amino acid and organic acid status of leaves of macadamia. 12255

Leaf symptoms of Manganese deficiency in avocado trees. 12298

Organic manuring for potato scab control and its relation to soil manganese. 12652

The action of some divalent metals over the inhibition of pancreatic lipase by tetracycline and 4-epi-tetracycline. 15158

MANGANESE CHLORIDE

Effect of manganese and cobalt on ascorbic acid metabolism in rats. 10352

MANGE

Developments in control of ectoparasites of livestock. 13421

Skin diseases of horses. 14592

Report of the 69th meeting of the division of applied entomology. 14825

Some aspects of mange in man and domestic animals. 15196

MANGEL-WURZEL

Root nematode (Meloidogyne naasi Franklin) in Serbia (preliminary communication). 9654

MANGOES

Chemicals that take care of the mango hopper. 8329

Effect of simulated rainfall on herbicide performance. 12708

Control of mango anthracnose by fungicides. 12873

Chemical control of mango hoppers (Idiocerus spp.). 15006

MANNITOL

Metabolism of glucose-14C, pyruvate-14C, and mannitol-14C by Melampsora lini. II. Conversion to soluble products. 14684

MANNOSE

Are honeybees deficient in phosphomannose isomerase . 14873

MANOMETRY

Comparison of assay methods for studying O,O-diethyl, O-p-nitrophenyl phosphate (paraoxon) detoxification in vitro. 8568

MANSONIA

Larval development of Mansonia mosquitoes in Central Florida. 9261

An investigation of the Culicidae of Charente-Maritime; The occurrence of the genus Mansonia Blanchard 1901: M. (Coquilletidia) richiardii (Ficalbi) 1896 and M. (C.) buxtoni (Edwards) 1923. 10500

Transmission of Bancroft filariasis in the Ethiopian region. 12588

Isolation of Bunyamwera-group viruses from Wisconsin mosquitoes. 14553

MANSONIA CRASSIPES

Pelecitus ceylonensis n.sp., from the chick and ash-dove experimentally infected with larvae from Mansonia crassipes, and from naturally-infected crows in Ceylon. 9767

MANTIDAE

Contribution to the knowledge of the genera Mantis Linne and Paramantis, sp. nov. (Mantidae). 11756

New species of Rivetina (Mantidae) from environs of Nurek (Tadjikistan). 12974

Results of the Peris-Alvarez expedition to the island of Annobon. (12). Mantodea, Tettigonoidea and Acridoidea I. (Orthoptera). 14762

MANTURA

Coleopterous leaf-miners of Japan, VI. The larva of Mantura clavareaui Heikertinger (Chrysomelidae). 13000

MANUFACTURING COSTS

Trithion-a new acaricide. 8814

MANURES

Indian field crops. 11443

MAPS

Iridium-192 as a tag for carpenter ants of the genus Camponotus (Hymenoptera: Formicidae). 9464

Ultrastructure of the polytene chromosome in Drosophila melanogaster with special reference to electron microscopic mapping of chromosome 3 R. 13210

Development of the most important diseases and pests of crops grown in Poland in the year 1966 and forcast of their appearance in the year 1967. 14920

MARASMIUS OREADES

Control of fairy ring disease of the cultivated cranberry. 12042

MARGARODIDAE

Studies on the biology of Margarodes vitium, a ground pearl (Homoptera: Margarodidae) on roots of grapevines. 13011

MARINE BIOLOGY

DDT reduces photosynthesis by marine phytoplankton. 8557

DDT residues in a East Coast estuary, a case of biological concentration of a persistent insecticide. 9145

The distribution of benthic invertebrates on substrata in fast-flowing streams. 9375

Compensation of the back drift of caddis fly larvae (Insecta, Trichoptera). 11388

Some chronic effects of diuron on bluegills. 15723

MARKETING

Residues of DDT and it's derivatives in the fat tissues of some market animals. 8554

Should Michigan forget about peaches . 8928

Disease status of various tropical and subtropical fruits on the Paris market in summer. 9561

The comprehensive regulation of pesticides. 11713

Sheep measles. 15831

MARKETING RESEARCH

The Gold Crest Pest Control Program for the pest control industry. 8614

MARKOV CHAINS

Analysis of sequences of matings in Drosophila mating chamber experiments. 8184

MARLATTIELLA PRIMA

Discovery of Marlattiella prima Howard, a parasite of the pear white scale, from Japan (Hymenoptera: Aphelinidae). 11762

MARMOTS

Toxoplasmosis in the marmot. 12126

MARSHES

Occurrence and control of Haplodiplosis equestris in Holland. 14496

Corn daisies and their control. 14527

Improved method for weed control in potatoes on extremely marshy soil. (Test experiences in upper Bavaria 1965-67). 14528

MARSILEA

On Phaeotrichoconis crotalariae occurring on Marsilea quadrifoliata in India. 12649

MASONAPHIS MAXIMA

Masonaphis maxima (Mason) (Homoptera: Aphididae), an aphid on thimbleberry with an unusual life history. 11816

Aphidius rubifolii n. sp. (Hymenoptera: Aphidiidae), a parasitoid of Masonaphis maxima from British Columbia.
11854

MASS SPECTRA
The pheromone of the queen of the Oriental hornet, Vespa orientalis.
14214
Synthesis and reactions of a proposed DDT metabolite, 2,2-bis(p-chlorophenyl)acetaldehyde.
14701
Isolation and identification of the components of a commercial chlordane formulation.
15914

MASS SPECTROMETERS
Further investigations of gibberellins in Phaseolus multiflorus by combined gas chromatography-mass spectrometry - The occurrence of gibberellin A20 (Pharbitis gibberellin) and the structure of compound b.
13484

MASTITIS
Survey observations on ovine mastitis in New Zealand stud Romney flocks. 2. The bacteriology of ovine mastitis.
9100
Survey observations on ovine mastitis in New Zealand stud Romney flocks. 1. The incidence of ovine mastitis.
9101
Occurrence of staphylococci in cases of bovine mastitis.
11607
Bovine mastitis due to Pseudomonas pyocyanea.
11616
Mastitis in cattle and its control.
12128
Comparison in normal and leukopenic cows of experimental mastitis due to Aerobacter aerogenes or Escherichia coli endotoxin.
12146
Serologic response of cows to Mycoplasma under experimental and field conditions.
12147
Application of T.K.T. medium for screening bulk milk samples for Streptococcus agalactiae.
13398
Pseudomonas aeruginosa contamination of a warm water system used for pre-milking udder washing.
13943
Studies on mastitis in cattle.
13988
Study of mastitis in Venezuela.
13998
Diffusion in the udder of dyes and antibiotics dissolved in dimethyl sulfoxide (DMSO).
14021
Developmental genetic studies of aminopeptidases in Drosophila melanogaster.
14294
A histological study of the effects of enzootic abortion of ewes virus in the lactating bovine mammary gland.
14559
Variable resistance of cows to Streptococcus agalactiae mastitis.
14602
Effects of humoral and cellular phases of acute inflammation in the bovine mammary gland on Aerobacter aerogenes introduced en masse and on leukocytes in milk.
14610
Variations in isolations of pathogenic bacteria from the udders of cows during a six-month period.
14618
Cattle mastitis breakthrough.
15464
End-of-season mastitis control.
15774
Notice of filing of petition for food additives.
15779

MATHEMATICAL ANALYSIS
Analysis of sequences of matings in Drosophila mating chamber experiments.
8184
Logarithmic regression as an index of responses to population density.
9433
The toxicity to Tribolium castaneum (Herbst) (Coleoptera, Tenebrionidae) of mixtures of pyrethrins and piperonyl butoxide: Fitting a mathematical model.
10031
The correlation between physiological activity and physiocochemical property of the substituted phenols.
10437
Efficiency of selection for increased or decreased recombination.
14291
Importance and causes of Nematode movement in the soil and research on the migration of 'Ditylenchus myceliophagus'.
14506

MATHIOLA
Flea beetles Phyllotreta cruciferae Goeze. (Coleoptera, Chrysomelidae) a new pest of stock flower Mathiola sp. in Rajasthan.
10110

MATRICARIA
Selective control of Matricaria maritima var. agrestic (false chamomile) by different herbicides.
15066

MATRICARIA INODORA
Chemical control of scentless chamomile.
15118

MATTESIA GRANDIS
Development of the bait principle for boll weevil control. IV. Field tests with a bait containing a feeding stimulant and the sporozoans Glugea gasti and Mattesia grandis.
10068

MATURATION
A laboratory investigation of maturation in the Cuban borrowing cockroach Byrsotria fomigata (Euerin).
11269

MAYETIOLA DESTRUCTOR
Race e, sixth race of the hessian fly, Mayetiola destructor, discovered in Georgia wheat fields.
12355
Genetic evidence of elimination of chromosomes in the Hessian fly.
13171

MAZZARD CHERRIES
Fruit symptoms of the white spot disease on sweet cherries.
11985
Gibberellin-like substances in after-ripening seeds of Prunus avium L. and their possible role in dormancy.
12279
Field evaluations in spray programs for control of the fruit-tree leaf roller on sweet cherry.
12694
The influence of N-dimethylamino succinamic acid (Alar) on growth of the sweet cherry, Prunus avium. (Abstract).
14303

MEASUREMENT
A technique for studying inhibition of the parasitic activity of Ophiobolus graminis (Sacc.) Sacc. in field soils.
8969
The determination of larval instars of the rice weevil Sitophilus oryzae (L.) (Coleoptera: Curculionidae) in wheat.
9441
Comparison of radioisotopic and gas chromatographic methods for measuring absorption and translocation of 2,4,5-T by mesquite. (Abstract).
11015
The number and the relation between measurements of successive larval instars of the rice moth, Corcyra cephalonica Stainton (Galleridae, Lepidoptera).
11406
Nuclear measurements of lymph-node puncture cells from dogs with lymphademosis.
13978
An apparatus for dispensing house fly eggs mechanically.
14119
Observations on the diapausal and post-diapausal, proterandric developmental events in caterpillars of Sparganothis pilleriana Schiff. (Lepidoptera: Tortricidae).
14259

MEAT
Notice of filing of petition regarding pesticide chemicals.
9151
Aflatoxin-producing potential of fungi isolated from cured and aged meats.
9782
Notice of filing of petition for food additive buquinolate.
9792
Antibiotics: Transfer of resistance, effectiveness, and current usage.
10940
The life history and feeding habits of Opatroides punctulatus in Tiberias, Israel.
11842
Foot-and-mouth disease: Britain strives to curb epidemic.
12182
Thermal resistance of Salmonella senftenberg 775W in dry animal feeds.
12780
Atomic absorption analysis of copper and lead in meat and meat products.
13440
A new method for clean-up of chlorinated pesticide residues in meat, meat products, fats and oils.
15248
Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O,O-Dimethyl S-(4-Oxo-1,2,3-Benzotriazin-3(4H)-ylmethyl) Phosphorodithioate.
15865
Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O-Odiethyl O-3-chloro-4-methyl-2-oxo-2H-1-benzopyran-7-yl phosphorothioate.
15869

MEAT INSPECTION
The classification of slaughter animals in wich salmonella have been found, from the legal meat inspection point of view.
9863

MEAT PACKING INDUSTRY
Survival of aerobic and anaerobic bacteria in chicken heat during freeze-dehydration, rehydration, and storage.
13430
Leptospirosis among the workers of the Engels meat plant.
15843

MECARBAM
Experiments on the control of root pests of Brassicae.
9021
The effect of other new insecticides in the control of black grubs of citrus.
11523

MECHANIZATION
Fruit spraying machines.
13521
An apparatus for dispensing house fly eggs mechanically.
14119
An automatic output regulator for exact deliveries of plant protective agents.
15303
Results of serial tests with spraying machines used in field.
15305
Present situation and tendencies of development in the technique of plant protection.
15306

Possibilities of checking jets of field spray lines.
15307

Critical considerations concerning the present status of the advisory service for machinery in agriculture.
15308

Chemical versus mechanical fallow of abandoned croplands.
15705

MECHANORECEPTORS
Modification of electric activity of the dentocerebron by tactile stimulations of antenna in the ant Camponotus zigniperda Latr..
11343

MECHLORETHAMINE OXIDE HYDROCHLORIDE
Facet-inhibitory effect of certain chemicals on the compound eyes of Drosophila melanogaster.
11839

MECOCORYNUS LORIPES
A study of the cashew borer,Mecocorynus loripes Ches. (Coleoptera, Curculionidae) 1. The anatomy of the principal organs.
9450

MECOPROP
Coltsfoot control with 2,4-DP on the stubble.
14521

Selective control of Matricaria maritima var. agrestic (false chamomile) by different herbicides.
15066

MECOPTERA
Neuroptera, Mecoptera and Trichoptera.
11140

MEDICAL ENTOMOLOGY
Practical importance of resistance to insecticides in Anopheles.
8099

Anopheles mouchcti in Cameroon.
8163

Practical importance of insecticide resistance for malaria eradication in tropical Africa.
8273

Technical problems of malaria eradication in Africa.
8275

Entomological factors in persisting transmission of malaria in eradication programs.
8276

Arthropods of medical importance in Australia and the Pacific Islands.
10511

A new Tunga (Siphonaptera) from the Nearctic Region with description of all stages.
11108

Two new species of Ornithodoros from the Galapagos Islands (Acarina: Argasidae).
11157

The natural invasion of artificial Cliff Swallow nests by Oeciacus vicarius (Hemiptera: Cimicidae) and Ceratophyllus petrochelidon: (Siphonaptera: Ceratophyllidae).
11272

Penetration of Keystone virus in artificially infected female Aedes infirmatus (Dyar and Knab).
11367

Relative effectiveness of chemical repellents against Phlebotomus papatasi (Scopoli).
11386

Insecticide susceptibilities of Phlebotomus papatasi (Scopoli) from Egypt and the Sudan.
11387

Review of classical malaria control measures.
11433

Envenomization by the spider Lycosa miami Wallace.
11434

Medical and veterinary entomology in the USSR.
11435

Experimental necrotic arachnidism on rabbits caused by the bites of Loxosceles unicolor (Araneae: Scytodidae).
11436

Pathogenicity of Trypanosoma rangelli for Rhodnius prolixus Stal in nature (Hemiptera: Reduviidae) (Kinetoplastida: Trypanosomatidae).
11437

Revision of the genus Phlebotomus of Arica south of the Zambesi, key for the identification and description of: P. salisburiensis n. sp., P. zumpti n. sp. and P. haeselbarthi n. sp., (Diptera-Psychodidae).
12331

Geographic distribution of Anopheles in the Republic of Congo (Brazzaville).
12332

Tabanidae.
12336

Contribution to the study of the Culex of the Ethiopian region belonging to the sub-genus Mochthogenes (Diptera, Culicidae), with a description of the males of five new species.
12342

Contribution to the study of the Culicidae of the Ethiopian region. Description of Culex (Barraudius) richeti n. sp. Supplemental notes on Culex (B) pusillus Macquart and Culex (B.) modestus Ficalbi.
12343

The Anopheles claviger complex in the Mediterranean subregion.
12346

The age composition of Anopheles melas Theobald (1903) populations collected simultaneously by different methods in the Gambia, West Africa.
12352

Contribution to the study of the distribution of Anopheles in West Africa.
12354

Faunistic and ecological data on the fleas of Madagascar (Siphonaptera).
12363

Tabanidae (Diptera) of Morocco, III. description of Tabanus choumarae n. sp.
12364

Notes on the subject of South American Culicidae. the distribution of the genus Haemagogus Williston, 1896, in South America.
12366

Announcement of a map showing the distribution of Glossina in Eastern Cameroon.
12371

Taxonomic review, ecological and biological aspects of Diptera (Culicidae) living in the forest of Manera (Province of Kaffa) Ethiopia.
12373

Tabanidae of Cameroon. I. Description of new species.
12374

Anoplura of rodents and insectivores in the Central African Republic.
12376

Remarks on the taxonomy of mosquitoes.
12391

Phlebotomus moucheti (Diptera Psychodidae), a new species caught in the caves of Cameroon and in the Central African Republic.
12394

A ten year survey of Trinidadian arthropods for natural virus infections (1953-1963).(Abstract).
12403

Study of the stability of paper impregnated with oily solutions of OMS 33 (carbamate) and OMS 43 (oranophosphorous compound). Susceptibility of females of various species of African Culicidae to OMS 33 and OMS 43.
12420

Contribution to the study of the Culicidae of Madagascar. Description of larvae and nymphs of Culex (C.) giganteus Ventrillon and Culex (C.) argenteopunctatus argenteopunctatus Ventrillon. Comparative notes on the adults of the two species.
12425

Relationship between the physiological age and the behavior of mosquitoes.
12434

The occurrence in Madagascar of resistance to dieldrin in the form B of the Anopheles gambiae complex.
12435

Biological observations on the Anopheles gambiae complex. (Abstract).
12438

Description of the male, the larva and the nymph of Ficalbia (Etorleptiomyia) xanthozona van Someren, 1948 (Diptera, Culicidae).
12450

The problem of age determination in Anopheles melas Theo. 1903, by Polovodova's method.
12455

Mosquito control.
12457

Ecological and biological data on Synopsyllus fonquerniei Wagner and Roubaud, 1932 (Siphonaptera), a flea of the domestic rat in the region of Tananarive.
12484

On the effect of mating and nutrition on the reproduction of Culex pipiens fatigans Wiedemann.
12487

The peritrophic membranes in arthropods, their role in digestion and their intervention in the development of parasitic organisms.
12489

Intercurrent resting, a neglected aspect of mosquito behavior. (Abstract).
12494

Ecology of the mosquitoes in artificially irrigated meadows of Southern Moravia.
12503

Notes on the biology of Anopheles hargreavesi (Evans), 1927, and Anopheles paludis Theobald, 1900, in the south of Yaounde (Cameroon), along the Nyong river.
12508

Practical implications of insecticide resistance in culicine mosquitoes.
12509

An appraisal of adult mosquito trapping techniques used in Nigeria, West Africa.
12534

Contribution to the study of ectoparasites of vertebrates in the Central African Republic.
12544

Study of the morphological and anatomical characteristics of female Glossina and their relationship to physiological age.
12550

Resistance to dieldrin of Culex pipiens fatigans in the city of Bobo-Dioulasso (Upper Volta). Methods of study and genetic determinism.
12563

The causes of male sterility in A. gambiae A-B group crosses. (Abstract).
12568

Direct evidence for the specific distinctness of forms A, B and C of the Anopheles gambiae comples. (Abstract).
12570

Entomological studies on the transmission of human malaria in a dense, humid forest zone, Sassandra region, Ivory Coast.
12580

Epidemic role of ticks of the genera Dermacentor and Ixodes persulcatus P. Sch. in mountain foci of tick-borne encephalitis depending upon activity of their attacks on man.
12581

New ecological data on vectors of human malaria in Africa.
12584

Factors affecting the transmission of filariae: The effect of parasitization by Brugia malayi in laboratory populations of Aedes aegypti.
12586

The zygotoblast and sporocyst indices in the valley of the Ruzizi.
12593

Myxomatosis: The introduction of the European rabbit flea Spilopsyllus cuniculi (Dale) into Australia.
13742

Essentials in pest control.
14196

Ministry of Overseas Development, Tropical Pesticides Research Unit, annual report.
14708

MEDICINE

Studies on the possibilities of using blowflies (Dipt.) as medicolegal indicators in Finland. I. Report of four indoor cases from the city of Helsinki.
14299

Entomology in forensic medicine.
14839

MEDITERRANEAN AREA

Contribution to the knowledge of the Curculionidae from the western Mediterranean. VI. The genus Seidlitzia.
8036

MEGACHILE

Note on salivary glands in Megachile (MegachilidaeApoidea).
13056

MEGACHILE ROTUNDATA

Chalcidoid (Hymenoptera) parasites of the alfalfa leafcutter bee, Megachile rotundata, in Canada.
9308

Mechanisms of orientation in the leaf-cutter bee Megachile rotundata (Fabricius).
9443

Insect hormones: Their effects on diapause and development of Hymenoptera.
12465

MEGACHILIDAE

Metallinella gen. n. of the family Megachilidae (Hymenoptera, Apoidea).
10510

MEGACYLLENE ROBINIAE

Continuous laboratory culture of the locust borer, Megacyllene robiniae.
10141

MEGARRHIZA CALIFORNICA

Induction of coiling in tendrils by auxin and carbon dioxide.
12282

MEGASELIA

A new Megaselia from Hawaii (Diptera: Phoridae).
9263

MEIOSIS

The synaptomere-zygosome-recombinase hypothesis of meiotic crossing over in Drosophila.
8238

Lampbrush chromosomes and multiple nucleoli of Orthoptera.
8239

X-ray induced reversal of heterochromatization in male mealy bugs.
8256

Spermiogenesis without chromosomes in Drosophila melanogaster.
8915

Similarity between phytokinins and herbicidal phenylurethanes.
9043

The role of the amphinucleolus in meiosis and pole plasm development of Aedes aegypti.
9515

Meiosis in the grasshopper: Chiasma frequency after elevated temperature and X-rays.
10151

The effect of X-irradiation on male meiosis in Schistocerca gregaria (Forskal). II. The induction of chromosome mutations.
11430

An unusual chromosome system in a leafhopper (Homoptera, Auchenorrhyncha).
11432

Uncoupling of DNA and histone synthesis prior to prophase I of meiosis in the cricket Grillus (Acheta) domesticus L.
12417

Tetraploid females in Mormoniella.
12567

Lack of effect of a previous meiotic exchange on somatic crossing over in Drosophila.
13155

Deviant sex ratio associated with segregation distortion in Drosophila melanogaster.
13176

The initiation of nonhomologous chromosome pairing before exchange in female Drosophila melanogaster.
13191

Antinomycin D induced chromosome breakage and suppression of meiosis in the locust, Schistocerca gregaria.
13723

Genetical relationship and isolating mechanisms in Ananassae species subgroup (Sophophora, Drosophila). III. Chromosome behaviour during meiosis in D. bipectinata, D. malerkotliana and their hybrid.
14290

The meiotic origin of spontaneous crossovers in Drosophila ananassae males.
14898

MELAMPSORA LINI

Electron microscopy of uredospores of Melampsora lini and of rust-infected flax.
14399

Metabolism of glucose-14C, pyruvate-14C, and mannitol-14C by Melampsora lini. II. Conversion to soluble products.
14684

MELANAGROMYZA

Biological control of Cuscuta spp. II. Biology and host-plant range of Melanagromyza cuscutae Hering (Dipt. Agromyzidae).
10272

MELANAGROMYZA OBTUSA

Incidence of and losses caused by some pod-infesting insects in different varieties of pigeon-pea (Cajanus cajan (L.) Millsp.).
15003

MELANINS

Maturation of sclerotia produced by Sclerotium rolfsii.
15462

MELANOLOPHIA IMITATA

Susceptibility of several forest insects of British Columbia to commercially produced Bacillus thuringiensis. II. Laboratory and field pathogenicity tests.
10257

MELANOPLUS

Meiosis in the grasshopper: Chiasma frequency after elevated temperature and X-rays.
10151

A histological and biometrical study of wing development in the grasshopper Melanoplus lakinus.
11232

MELANOPLUS DIFFERENTIALIS

Lactic dehydrogenase isozymes in the grasshopper.
9961

MELANOPLUS SANGUINIPES

Twenty-six varieties of forage crops evaluated for resistance to feeding by Melanoplus sanguinipes.
10246

The effects of salt stress on the cerebral neurosecretory system of the grasshopper, Melanoplus sanguinipes (F.) Orthoptera).
15359

MELANOSE

Fungicidal sprays and their influence on disease, quality, and blemish in Valencia oranges at Mangrove Mountain.
10660

MELDANE

Effectiveness of Maretin and Meldane as treatments for Capillariasis in bobwhites.
12825

MELENGESTROL ACETATE

How beneficial are feed additives
9059

MELICHARES

Biology of Melichares tarsalis in association with Plodia interpunctella.
8738

MELIGETHES

Further experience obtained in studies on dispersal flights of Meligethes aeneus F., marked with P32 (Coleoptera).
11401

Meligethes wankai Reitter (Col.) Nitidulidae): New species for Germany.
13585

MELILOTUS INFESTA

Water-soluble factors in Melilotus leaves which influence feeding by the sweetclover weevil.
12044

MELIOLA PETIOLARIS

Alternaria leaf spot of loliondo (Olea welwitschii (Knobl.) Gilg. and Schellenb.).
14371

MELOCACTUS

Cactus cyst nematode, Heterodera cacti, in Florida, with host list.
10754

MELOIDAE

The embryology of Lytta viridana Le Conte (Coleoptera: Meloidae). IV. Chromatin elimination.
8261

Feeding response of Lepomis cyanellus to blister beetles (Meloidae).
9481

A study of Meloidae. XX. On the genus Gorrizia Pardo and a new Sudanese species of the group Brunnipes (Klug).
14768

MELOIDODERA

Eelworms-a progress report on a few more groups found in North-East Indian tea soils.
9025

MELOIDOGYNE

Contributions to the knowledge of the Italian nematode fauna. I. Genus Meloidgyne Goeldi, 1887.
8388

The distribution of the family Heteroderidae (Filipjev, 1934) in South Africa and some host records of Meloidogyne species.
9026

Root knot eelworm, (Meloidogyne species).
10747

Interesting perineal patterns in species of the genus Meloidogyne Goeldi,1887.
11653

Meloidogyne naasi on sorghum in Kansas.
12695

A survey of the coffee tree nematode, Meloidogyne coffeicola, in the State of Sao Paulo.
12698

Tests on the control of nematodes of the genus Meloidogyne on tobacco.
13343

Additions to host records of Meloidogyne sp., Helicotylenchus multicinctus and Rotylenchulus reniformis.
13897

Observations on parasitic protozoa in plant-parasitic and free-living nematodes.
13900

MELOIDOGYNE ARDENENSIS

Effect of root extract of Asparagus racemosus Tagetes erecta on hatching of eggs of Meloidogyne javanica Meloidogyne arenaria.
11559

MELOIDOGYNE ARENARIA
Contributions to the knowledge of the Italian nematode fauna. I. Genus Meloidgyne Goeldi, 1887.
8388

MELOIDOGYNE ARENARIA THAMESI
Chemical control of nematodes in sugarcane.
15694

MELOIDOGYNE CAROLINENSIS
Biological studies of the blueberry root-knot nematode (Meloidogyne carolinensis n. sp.).
12092

MELOIDOGYNE HAPLA
Multiple applications of 1,2-dibromo-3-chloropropane for control of nematodes in established rose plantings.
8384

Contributions to the knowledge of the Italian nematode fauna. I. Genus Meloidgyne Goeldi, 1887.
8388

Effect of trifluralin and Meloidogyne hapla Chitwood on growth of Vinca major L.
12253

Preplant soil fumigation for California head lettuce.
13341

MELOIDOGYNE INCOGNITA
Contributions to the knowledge of the Italian nematode fauna. I. Genus Meloidgyne Goeldi, 1887.
8388

Control of Meloidogyne incognita on boxwood with nematicidal drenches.
10753

Interrelationship of root-knot nematode leaf curl virus in tomato.
11445

A comparison of genetic resistance and fumigation for rootknot nematode control in pole beans.
12093

Nematode control lifts ginger yields.
13335

Influence of environment on development and sex differentiation of root-knot nematodes. II. Effect of host nutrition.
13873

Influence of the environment on development and sex differentiation of root-knot nematodes. I. Effect of infection density, age of host plant and soil temperature.
13874

Some weed hosts of the southern root-knot nematode, Meloidogyne incognita.
13875

Breeding for disease resistance and yield improvement in flue-Cured tobacco.
14394

Pathogenicity and identity of root-knot nematodes on five varieties of banana.
14507

Ring nematode disease of rice in Louisiana. (Abstract).
14510

Note on effects of nematicides and heat treatment on the control of root-knot nematode in tobacco nurseries.
15686

MELOIDOGYNE JAVANICA
Contributions to the knowledge of the Italian nematode fauna. I. Genus Meloidgyne Goeldi, 1887.
8388

A survey of pawpaw debility in Tanzania.
11496

Plant parasitic nematodes associated with sugarcane production in Rhodesia.
11554

Effect of root extract of Asparagus racemosus Tagetes erecta on hatching of eggs of Meloidogyne javanica Meloidogyne arenaria.
11559

Nematode control lifts ginger yields.
13335

Influence of the environment on development and sex differentiation of root-knot nematodes. I. Effect of infection density, age of host plant and soil temperature.
13874

MELOIDOGYNE NAASI
Root nematode (Meloidogyne naasi Franklin) in Serbia (preliminary communication).
9654

MELOLONTHA MELOLONTHA
Laboratory study of the ecological conditions favoring the development of the fungus Beauveria tenella on cockchafer larvae.
8116

Research on the pathogenesis of Nosema melolonthae Krieg..
8146

Investigations on the biology and control of Melolontha melolontha in hazelnut plantations.
8377

Lethargy, a new virus of Melolontha melolontha L. larvae (Coleoptera, Scarabaeidae).
10036

A new type of invertebrate virus shown in Coleoptera.
10570

Observations with the electron microscope on the development of the virus of maladie de fuseaux of Coleoptera, Melolontha melolontha L.
11786

On the specificity of Vagoiavirus melolonthae.
12467

Demonstration of the vagoiavirus by the electron microscope after the dissolution of the inclusion bodies.
14793

MELONS
Differentiation of parasitized and unparasitized pupae of the melon fly and Oriental and Mediterranean fruit flies.
8816

Notice of filing of petition regarding pesticides.
15862

MELOPHAGUS OVINUS
The effect of trichlorphone (Soldep, Hypodermin) on some ectoparasites or mycoses in cattle and sheep.
11636

Developments in control of ectoparasites of livestock.
13421

Controlling external parasites of sheep.
14628

MELUSINA ORNATA
Iridescent virus from blackfly Simulium ornatum Meigen in Czechoslovakia.
8896

MELYRIDAE
Carphurinae or Carphuridae 43. Contribution to the knowledge of the Malachiidae.
8628

MEMBRACIDAE
On the production of lipoproteic corpuscules by the Malpighian tubes in some insects.
8763

New species of Gargara living on cola and cocoa trees in Central Africa.
10488

The effects of oil treatments on egg hatching in the buffalo tree hopper, Stictocephala bubalus (F.) (Homoptera: Membracidae), in the apple orchards of southwest Quebec.
13318

A new treehopper (Homoptera: Membracidae) record for Oklahoma.
14733

MEMBRANES
Studies on membrane transport--VI. Absorption of amino acids by fascioliid trematodes.
15214

MENAZON
Persistent toxicity of some systemic insecticides to little honey bees.
14260

Experiments on the control of carrot-willow aphid in south-west England 1961-1964.
15675

MENOPONIDAE
The new genus Fregatiella (Mallophaga: Menoponidae) for Menopon aurifasciatum from the frigate-bird.
8665

A review of the genus Eidmanniella (Mallophaga: Menoponidae) from the Pelecaniformes.
8666

Systematic studies of the Central European species of the genus Austromenopon Bedf. (Mallophaga, Austromenoponinae).
9331

Three new species of Heteromenopon (Mallophaga: Menoponidae) from Brazilian and Australian parrots.
9930

A new species of Amyrsidea from an oriental patridge (Mallophaga: Menoponidae).
11189

MENTHA PIPERITA
Influence of Co60 gamma radiation on the water regime and drought resistance of peppermint plants.
14094

Present problems of plant protection in peppermint.
14915

MENTHA SPICATA
Control of rust in spearmint established with transplants.
10651

MERCAPTO COMPOUNDS
Mercaptocaine creme. Drugs for veterinary use; drug efficacy study implementation.
11684

Product of catalyzing polyurethane formation by means of 2-mercaptobenzothiazoles,thiazoles, oxazoles, imidazoles and imidazolines. Patent 3,446,779.
12914

The toxicity of contact insecticides to seed-infesting insects. Tests with bromophos on maize.
14832

MERCURIALIS
Expression of sexual characteristics in annual mercurials.
8580

MERCURY
Review of methods for mercury in pesticide formulations.
10469

Problems with mercury vapor light traps.
11413

Observations on associated complexes nematodes-fungi in connection with damages to flower growing and horticulture and means of control.
11923

Sweet potato storage house sterilization.
15511

Infection and corrosion tests with Ustilago hordei (pers.) lagerm.
15621

Sweet potato storage house sterilization.
15834

MERCURY CHLORIDE
Save your potato crop from fungal and bacterial diseases.
8286

Rhizoctonia leaf rot of colocasia in India.
10188

MERCURY COMPOUNDS
Seed dressings and game birds.
8444

Behavior of belladonna mottle virus in serological tests in the presence of organic mercury compounds.
8966

Fungicidal control of rice diseases.
10170

Mercury-resistant Pyrenophora avenae in New Zealand seed oats: a comparison of six different compounds as seed disinfectants.
10223

The fight against Gloeosporium in the winter. Results of tests conducted in the period 1964-1966.
10705

Pesticide residues in wildlife.
10934

Method of controlling pests with mercury compounds. Patent 3,443,013.
11059

Studies on the fungicidal control of rice blast.
11499

Pesticide regulations and residue problems in Japan.
11670

Microbial decomposition of methylmercury dicyandiamide.
11960

Halovinyl mercurials as plant defoliants. Patent 3,433,621.
12239

White root disease of Hevea in Africa, especially in the Ivory Coast.
12598

Pesticides residues in foodstuffs in Great Britain. VI. - Mercury residues in rice.
12892

Mercury tolerance in leaf spot of oats.
13751

Influence of fungicides and insecticides on the occurrence of Aspergillus on peanut seedlings. I. Investigations in vitro.
13767

Some results from allium tests with organic mercury halogenides.
14674

How to collect, prepare and ship plant material for disease identification.
15467

Vegetable seed treatment.
15508

Identification and determination of organomercurial fungicide residues by thin-layer and gas chromatography.
15594

MERIDIC DIETS

Propagation of a cerambycid borer on a meridic diet.
9394

MERMITHIDAE

On a new species of Agamermis (Mermithidae) of a bug in Poland.
12525

Fifteen species of mosquitoes as potential hosts of a mermithid nematode Romanomermis sp..
13109

MESIDIA NIGRA

Observations on the biology of Mesidia nigra, a parasite of Iziphya punctata.
12488

MESOSTIGMATA

Contribution to the knowledge of the genus Holostaspella Berlese 1903 (Acari: Mesostigmata: Macrochelidae).
8032

Ear mites of the genus Dicrocheles (Acarina: Mesostigmata) found on noctuids in Hawkes Bay.
9882

Haemogamasid mites of eastern Asia and the western Pacific with a key to the species.
11105

Studies on Indian mites (Acarina: Mesostigmata). 7. Six species found under bark in North East Frontier Agency.
11[illegible]11

Some new species of the family Zerconidae from North America (Acarina: Mesostigmata).
11145

Contribution to the study of ectoparasites of vertebrates in the Central African Republic.
12544

New mesostigmatid mites from Pakistan with keys to genera and species.
15312

MESSOR

Research on Messor of the Basin of Aquitaine: Ecology and biology.
9366

METABOLISM

Phenoxazinone synthesis in Drosophila melanogaster.
8170

Activities in unfertilized and fertilized Drosophila eggs of enzymes in the nucleic acid biosynthetic pathway.
8194

Identification of Brucella abortus: Oxidative metabolism and phage typing.
8474

The influence of dietary methionine on the amino acid pool of Hymenolepis diminuta in the rat's intestine.
8498

Quantitative aspects of lipid utilization during embryogenesis of Ascaris suum eggs.
8503

Degradation of parathion in the rat.
8570

Biochemical changes in rat liver in response to treatment with drugs and other agents--II. effects of halothane, DDT, other chlorinated hydrocarbons, thioacetamide, dimethylnitrosamine and ethionine.
8571

Structure-activity and metabolism studies on organophosphate teratogens and their alleviating agents in developing hen eggs with special emphasis on Bidrin.
8572

Role of intestinal microflora in the degradation of DDT by rainbow trout (Salmo gairdneri).
8575

Effect of dichlobenil on anthocyanin development in Vaccinium macrocarpon (var. early black).
8578

Pea enation mosaic virus: Glucose catabolism in leaves and pods of infected peas.
8938

Effect of 2-deoxy-D-glucose on the respiration of tropical anthracnose fungi.
8952

Pentachlorobenzyl alcohol, a rice blast control agent.
8960

3-methylene-androstan-17beta-ols and 17-alkyl derivatives thereof. Patent 3,427,386.
9063

Radiotracer studies on metabolism, degradation, and mode of action of insecticide chemicals.
9169

Mechanisms of pesticide interactions in vertebrates.
9177

The metabolism of carbon-14 specifically labelled glucose in leaves showing tobacco mosaic virus induced local necrotic lesions.
9205

Metabolism of 2,2-dimethyl-2,3-dihydrobenzofuranyl-7 Nmethylcarbamate (Furadan) in plants, insects, and mammals.
9424

Metabolism of insecticides. Microsynthesis of 14C-betadihydroheptachcor.
9452

Metabolism of linear alkylate sulfonate and alkyl benzene sulfonate in albino rats.
9731

Absorption and metabolism of antimycin administered with a rat diet.
9746

Studies with calcium ethylenediaminetetraacetate in calves; toxicity and use in bovine lead poisoning.
9803

Stimulation of hepatic microsomal drug-metabolizing enzymes by alpha,alpha-bis-(p-chlorophenyl)-3-pyridinemethanol and a method for determining no-effect levels in rats.
9811

Oxidative degradation of aromatic hydrocarbons by microorganisms. II. Metabolism of halogenated aromatic hydrocarbons.
9831

Metabolism of beta-dihydroheptachlor-14C in soil and by microorganisms.
9840

Vitamin A metabolism in protein deficiency.
10324

Effect of manganese and cobalt on ascorbic acid metabolism in rats.
10352

Studies on lipid metabolism of Ascaris during starvation.
10368

Arginine metabolism in Ascaris lumbricoides. Activity of arginine carboxylase and arginase.
10379

Biodegradation of pesticides.
10422

Biochemical studies on the terpene metabolism in sweet potato root tissue with black rot. Effect of C1o- and C15-terpenols on acetate-2-14C incorporation into ipomeamarone.
10446

Some data on bioenergetics of the larvae of Trichinella spiralis.
10846

Effects of dietary protein level on acute toxicity and metabolism of heptachlor in the laboratory rat. (Abstract).
10849

Maternal-fetal sulfur utilization in the bovine. (Abstract).
10866

Early stages of aflatoxin carcinogenesis in normal and lipotrope-deficient rats. (Abstract).
10888

Possible route of toxicity of rat pups injected with cycasin. (Abstract).
10906

Metabolism of monosodium methane arsonic acid by soil microorganisms. (Abstract).
10927

Rates of accumulation of C-14-dieldrin residues in tissues of goldfish exposed to a single sublethal dose of C-14-aldrin.
10938

Estrogenic action of DDT and its analogs. (Abstract).
10949

Aspects of the physiology of herbicidal action of dicamba in purple nutsedge (Cyperus rotundus L.). (Abstract).
11008

The oxidase systems of Moniezia expansa (Cestoda).
11644

The influence of herbicides upon the antagonism between Bacillus sp. and Pseudomonas phaseoli.
11677

Research on the metabolism of virus-infected plants. V. Influence on the changes in metabolism in Phaseolus vulgaris L. after infection with tobacco necrosis virus by light deficiency.
11979

The physiology of wood fungi. A survey on recent research results.
12238

The toxicity of alpha-dihydroheptachlor and related compounds to the housefly (M. domestica L.) and their metabolism by housefly and pig liver microsomes.
12422

The metabolism of dihydrochlordene and related compounds by housefly (M. domestica L.) and pig liver microsomes. 12423

Raillietina cesticillus: Fatty acid composition. 12751

Plasmodium lophurae: (U-C14)-glucose catabolism by free plasmodia and duckling host erythrocytes. 12792

Lipid metabolism in helminth parasites. VII. Triglyceride synthesis in Hymenolepis diminuta (cestoda). 12821

The activity of alkaline phosphatase in the duck intestine during experimental echinostomatosis. 12823

Glucose uptake in Haematoloechus medioplexus and Gorgoderina trematodes. 12853

Metabolism of cholesterol-4-C14 in insecticide-resistant and susceptible strains of aseptically reared house flies, Musca domestica. 13014

Retardation of larval development of Aedes aegypti (L.) by the vital dye, Nile Blue Sulfate (A). 13031

Coupling of anaerobic metabolism to anaerobic sodium transport: a high energy intermediate. 13366

Trypanosoma gambiense, T. rhodesiense, T. brucei, t. equiperdum, and T. lewisii Purification and properties of phosphohexose isomerases. 13400

Taenia crassiceps: Insulin and carbohydrate metabolism in larval forms. 13415

The action of plant growth retardants on terpenoid biosynthesis. Inhibition of gibberellic-acid production in Fusarium moniliforme by CCC and AMO-1618; action of these retardants on sterol biosynthesis. 13469

Atrazine metabolism and herbicidal selectivity. 13492

On certain peculiarities of the parasitism of the tobacco broom rape. 13749

The toxic products of fungi causing mycotoxicosis. 13801

The action of 4-hydroxy-17-alpha-methyl-testosterone on the metabolism of broilers. 13924

Comparative consideration of the morphology and genesis of new growths. 13944

Effect of starvation on the cellulolytic activity of sheep and goat rumen inoculum and in-vitro comparison of potency of rumen liquor samples from fistulated and normal animals. 13952

Lipoic acid requirement of Mycoplasma species avian strain J. 13971

The tumor problem from the point of view of the virologist. 13974

The metabolism of contact insecticides in stored grains. 14054

The interaction of pesticides with other factors. 14063

The metabolism of pesticides in mammals. 14064

Utilization of various forms of nitrogen by Drechslera sorokiniana, the pathogen causing foot rot disease in wheat. 14458

Fibrinogen content and fibrinolytic activity of plasma from dogs infected with Leptospira canicola. 14566

Respiratory activity of Trypanosoma lewisi during several phases of infection in the rat. 14643

Trypanosoma lewisi: Creatine phosphokinase, ornithine carbamyl transferase, ATPases, Pi, and glucose levels in the rat host. 14644

Blue light promotes symptom formation and virus multiplication in plants. 14669

Metabolism of aromatic compounds in healthy and rust-infected primary leaves of wheat. Ii. Studies with l-phenylalanine-U-14C, l-tyrosine-U-14C, and ferulate-U-14C. 14676

Metabolism of glucose-14C, pyruvate-14C, and mannitol-14C by Melampsora lini. II. Conversion to soluble products. 14684

Effects of fat body fatty acids on ovarian and liver metabolism of Ambystoma tigrinum. 15176

Malarial parasite metabolism: The lactic acid dehydrogenase of Plasmodium berghei. 15182

Aerobic and anaerobic metabolism of larval and adult Taenia taeniaeformis. III. Influence of some cations on glucose uptake, glucose leakage, and tissue glucose. 15203

Studies on membrane transport--VI. Absorption of amino acids by fascioliid trematodes. 15214

Studies of parasite metabolism. I. In vitro examination of the vitamin A metabolism of Ascaris suum. 15215

Studies on membrane transport--VII. Transport of histidine through two distinct systems in the tapeworm Hymenolepis diminuta. 15226

The herbicides from an urea derivatives group, problems of metabolism and residues of those compounds and their toxicological importance. 15242

Degradation of organophosphates by fish liver phosphatases. 15265

Analyticial restraint of research on the respiratory metabolism of infectious virus on healthy potato nodules and sprouts. 15580

On etiology and spread of atrophic rhinitis in swine at swine farms in Bosnia and Herzegovina. 15772

Temperature and the synthesis of viral protein material in Nicotiana Xanthi n. c. infected with tobacco mosaic. 15894

METABOLITES

Toxicology and physiology of DDT resistance in the German cockroach. 8138

Absorption of DDT and metabolism of DDT and related compounds by DDT-RESISTANT codling moths. 8180

Persistence of pesticides in orchards and orchard soils. in; Organic pesticides in the environment; symposium...American Chemical Society, Atlantic City, N.J., Sept. 13-is, 1965. robert J. gould, ed. 8532

Chlorinated insecticides in the body fat of people in the United States. 8538

Insecticide-resistant fishes: A potential hazard to consumers. 8562

Role of intestinal microflora in the degradation of DDT by rainbow trout (Salmo gairdneri). 8575

Translocation patterns of simazine in Potamogeton crispus l. 8591

GLC determination of residues of disulfoton, oxydemetonmethyl, and their metabolites in tobacco plants. 8596

DDT residues in a East Coast estuary, a case of biological concentration of a persistent insecticide. 9145

Chlorinated insecticides in the body fat of people in the United States. 9149

The metabolism of Bayer 9017 in calves. 9184

Metabolism of linear alkylate sulfonate and alkyl benzene sulfonate in albino rats. 9731

Oxidation of methyl- and dimethylcarbamate insecticide chemicals by microsomal enzymes and anticholinesterase activity of metabolites. 9740

Effect of 2,4-D on incorporation of 14C into urinary metabolites from rats receiving 14C-labeled acetate. 9799

Determination of hydrolytic metabolites of organophosphorus insecticides in cow urine using an improved thermionic detector. 9820

Structure determination of some metabolites of Fusarium culmorum. 9842

DDT-DEHYDROCHLORINASE activity in house fly strains resistant to various groups of insecticides. 10579

Notice of filing of petition regarding pesticide chemicals. 10930

Notice of filing of petition regarding pesticide chemicals. 10933

The metabolic fate of propanil. I. (Abstract). 11038

The metabolic fate of propanil, Ii. (Abstract). 11039

Studies on the hypertrophic disease of cherry (genus Prunus), so-called witch's broom caused by Taphrina wiesneri. I. On the metabolites of T. wiesneri. 11969

Identification of metabolites of dieldrin (HEOD) in the faeces and urine of rats. 12221

DDT-DEHYDROCHLORINASE and aldrin-epoxidase activity in corn earworm and polyphemus moth larvae, and house fly adults. 12480

Absorption and metabolism of fenthion in blood-sucking arthropods. 12558

The influence of UC-21149 and the aphidiid parasite Aphidius smithi on populations of the pea aphid. 12690

Aromatic compounds in the host-parasite interaction. 13282

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 2-chloro2',6'-diethyl-N-(methoxymethyl) acetanilide. 13446

A new fungal tetrahydrofuran. 13502

The circular dichroism and the stereochemistry of a new fungal tetrahydrofuran. 13512

Determination of insecticide residue in animal and plant tissues. iV: Determination of residual amount of Sumithion and some of its metabolites in fresh milk. 14659

Synthesis and reactions of a proposed DDT metabolite, 2,2-bis(p-chlorophenyl)acetaldehyde. 14701

3-(N-formylamino)-salicylic acid - a new metabolite of Streptomyces antibioticus. 14702

Bacterial toxins. 14842

Initiation of pinheads in Psilocybe panaeoliformis caused by certain bacteria. 14927

The determination of DDT and its metabolites residues in egg products for export by means of gas chromatography. 15239

Research on o-aminophenol in the rumen liquor from cattle with and without incubation with l-tryptophan. 15267

METALDEHYDE

Use of metaldehyde as dusts and sprays to control the giant African snail Achatina fulica Bowdich. 10319

Observations on the control of Achatina fulica Bowdich, the giant African snail with methldehyde. 10320

METALLINELLA

Metallinella gen. n. of the family Megachilidae (Hymenoptera, Apoidea). 10510

METALS

Determination and measurement of insecticide dust particles in atmospheres adjacent to orchards. 10399

Metal chelates of bicyclononanedione. Patent 3,429,906. 12325

New tin complex compounds as plant protection fungicides. 14445

METAMORPHOSIS

Changes in nitrogenous compounds during the metamorphosis of the blowfly, Lucilia cuprina. 8086

Research with ionizing irradiation on the sterilization and radiosensitivity of Chrysomela decemlineata Say. 8096

Relationship between the proteins of the haemolymph and fat body during development of Pieris brassicae. 8097

Photoperiod and temperature as factors controlling the diapause of the sunflower moth, Homoeosoma electellum. 8201

Haemocyte activity in relation to epidermal cell growth, cuticle secretion, and cell death in a metamorphosing cyclorrhaphan pupa. 8212

Occult viruses in insects. (Abstract). 8710

The existence of two optional diapauses in the biological cycle of Villa brunnea Beck. (Dipt., Bombyliidae). 8746

Sexual characters of the instars of Blaberus discoidalis and an analysis of growth in this cockroach. 8802

On the action of Bracon venom. 9374

The neurosecretory cells of the brain of Aedes aegypti in relation to larval molt, metamorphosis and ovarian development. 9413

Experimental studies on the regression of the ventral glands of the earwig, Anisolabis maritima, during metamorphosis. 9444

Sindbis virus multiplication and Calliphora erythrocephala (Meig.) metamorphosis. 9969

Puparial duration in Glossina morsitans orientalis under conditions of constant temperature. 10091

Experiments on larval diapause in the carabid Pterostichus vulgaris L. 10129

Easy-to-kill pests of fruit trees...codling moth. 10253

A histological and biometrical study of wing development in the grasshopper Melanoplus lakinus. 11232

Variations of pH and osmotic pressure of the hemolymph in Galleria mellonella L.. 11329

The life history and habits of Chlosyne fulvia (Nymphalidae). 11389

The number and the relation between measurements of successive larval instars of the rice moth, Corcyra cephalonica Stainton (Galleridae, Lepidoptera). 11406

The phosphorylase system of the silkmoth, Hyalophora cercropia. 11411

Immature stages of Australian Anthophorinae (Hymenoptera: Apoidea). 11795

Larval moulting cycle and DNA synthesis in Drosophila hydei salivary glands. 11804

Hormonale regulation of the metamorphosis-new aspects based on investigations in Formica polyctena Foerst. (Hym.). 11879

Juvenile hormone: Effects on a higher Dipteran. 11912

Morphological study on the instars of the alfalfa caterpillar , Colias lesbia (F.) (Lep., Pieridae). 12441

The development of female gonads in pupae of Galleria mellonella L. (Lepidoptera). 12445

Insect neurometamorphis. IV. Effects of the brain and synthetic alpha-ecdysone upon interganglionic connective shortening in Galleria mellonella (L.) (Lepidoptera). 12516

Electrophoretic study of protein changes between several developmental stages of three species of Heliothis (Lepidoptera: Noctuidae). 13142

A taxonomic revision of the genus Asteromyia (Diptera: Cecidomyiidae). 13554

Hymenoptera associated with elm bark beetles in Wytham Wood, Berks. 13602

Respiratory metabolism during metamorphosis: Respiration in vitro of the ovaries of Bombyx mori. 13627

Some observations on Hoplocampa crataegi Klug (Hym., Tenthredinidae). 13672

The polytene chromosomes of the bristle-forming cells of Calliphora erythrocephala, with special regard for the sex-linked heterozygote structure of the puff types during metamorphosis. 13726

Development and diapause in insects. 14199

Hormonal control of imaginal disc regeneration in Galleria mellonella (Lepidoptera). 14236

Some aspects of adaptation in the life cycle of insects. 14238

Observations on the diapausal and post-diapausal, proterandric developmental events in caterpillars of Sparganothis pilleriana Schiff. (Lepidoptera: Tortricidae). 14259

Body constraint and developmental arrest in Galleria mellonella L.: Further studies. 14265

Infrastructural study of the corpora allata of Locusta migratoria migratorioides (R. and F.), solitary phase, during sexual maturation and the ovarian cycle. 14818

Lipids of Culex pipiens fatigans during metamorphosis. 14833

The action of different factors on the number of larval stages in the tomato night moth Helicoverpa armigera Hbn. 14865

Cholinesterase in the brain of the Cercropia silkmoth during metamorphosis and pupal diapause. 14878

Biology of Thaumetopoea wilkinsoni Tams in Jordan. 14893

Croesus septentrionalis L. (Hymenoptera Tenthredinidae) a pest of the alder. 15038

Sequelae of the delayed postdiapause development of the embryo of B. mori L. eggs. 15360

METANASTES VULGIVAGUS

A comparative study of gastric caeca in adult and larval stages of bark beetles (Coleoptera: Scolytidae). 14170

METAPHYCUS

The establishment of Metaphycus helvolus (Compere) (Hym. Encyrtidae) on Saissetia oleae (Bern.) (Hom. Coccidae) in olive groves in Greece. 9621

METARRHIZIUM ANISOPLIAE

Research on the effect of the entomophagous fungi Beauveria bassiana (bals.) Vuill. and Metarrhizium anisopliae (Metsch.) Sorok. on warm-blooded animals. 10353

Toxins from the entomogenous fungus Metarrhizium anisopliae: Isolation of destruxins from submerged cultures. 11379

METASTASIS

Contribution to the knowledge of primitive tumors of the heart in domestic animals: Globomyeloma in a cow. 13372

Malignant mammary tumours to the bitch with special reference to prognosis. 14015

Warfarin treatment of mice bearing autochthonous tumors: Effect on spontaneous metastases. 14608

METASTRONGYLUS

The ultrastructure of the intestinal epithelium of Metastrongylus sp. (Nematoda: Strongyloidea). 8501

Morphological and histochemical studies on the larval stages of Metastrongylus spp. (lungworms of swine) in the earthworm intermediate host, Eisenia foetida, Savigny 1826. 8506

Metastrongylosis of swine originating from the Lublin Palatinate. 12860

Worms in pigs. 13411

METEOROLOGY

The air pollution menace of ragweed pollen. 8526

Influence of meterology upon the nutrition of ladybugs (Coccinellidae). 11833

METEPA

Mutagenic effects of TEPA and METEPA in mice. 10333

Metepa as a chemosterilant for adult female pink bollworms. 12507

Aliesterase activity and reproduction in Musca domestica: Effects of DDT and metepa. 13863

Chemosterilants for control of reproduction in the eye gnat (Hippelates collusor) and the mosquito (Culex quinquefasciatus). 15448

METHACRYLIC ACID

Polymethacrylic acid: Effects on lymphocyte output of the thoracic duct in rats. 9741

METHALLIBURE

The effects of ICI 33828 and oxytocin on milk ejection and milk production in the lactating sow. 9074

Diet consumption, bodyweight change, estrus inhibition and reproductive performance in gilts fed a dithiocarbamoylhydrazine (ICI 33828). 10896

METHANEARSONIC ACID COMPOUNDS

Movement and persistence of methanearsonates in soil. (Abstract). 10922

METHANOL

Uric acid as an index of insect infestation in flour. 14032

METHIONINE

The influence of dietary methionine on the amino acid pool of Hymenolepis diminuta in the rat's intestine. 8498

Two juvenile hormones in Cecropia silk moth. 8810

Biochemical composition of plants of Cucurbita foetidissima HBK, and Cucumis melo L. as related to cucumber beetle feeding. 10712

Biochemical studies of plants of Cucurbita pepo L. varieties as related to feeding response of squash bug Anasa tristis DeGeer. 10713

Relevance of methionine, cysteine, cystine and sulphate in artificial feeding of Neomyzus (Aulacorthum) circumflexus BUCKT. (Aphidae, Homoptera, Insecta). 12447

METHODOLOGY

Biochemistry and taxonomy. 8060

A method for the recovery of nematode eggs from faeces. 8513

Laboratory rearing of Spalangia nigroaenea (Hymenoptera: Pteromalidae). 8770

Concerning the validity of the capture results of insect traps, together with an attitude toward the work of H. Peters, Heidelberg, on synanthropic flies. 8784

Studies on larval development in Culicoides furens (Poey) (Diptera: Ceratopogonidae). I. Establishment of a standard rearing technique. 8797

A differential staining technique for a mosquito iridescent virus. 8807

A new technique to observe the activity of cambium miners. 8855

Method of killing pests by application of a phosphoro derivative of alpha-(methylthio) cresol. Patent 3,427,384. 8875

A technique for studying inhibition of the parasitic activity of Ophiobolus graminis (Sacc.) Sacc. in field soils. 8969

Characteristics of the stopped and scarred damages due to the codling moth (Laspeyresia pomonella L.) with a method of interpretation of the various forms of damages observed on apples. 9002

Nutritional requirements for reproduction of a temperature sensitive nematode, reared in axenic culture. 9030

The preservation of fruit. 9139

Report on analytical entomology of food and drugs. 9141

Improved gas chromatographic systems for determining organochlorine pesticide residues in wildlife. 9161

On a spray reagent for thin-layer chromatographic detection of a cholinesterase inhibiting insecticide. 9223

Report on multiple residue methods. 9233

Report on herbicides and plant growth regulators. 9245

Concordance and discordance of taxonomic characters in Drosophila classification. 9327

Aseptic rearing of coprophagous beetle: Aphodius constans Duft. (Col., Scarabaeidae). 9357

Methods to investigate the population dynamics of aphids and aphid parasites in orchards. 9378

A photometric technique for quantitative evaluation of feeding preferences of phytophagous insects. 9410

A lightweight collapsible bait trap for Lepidoptera. 9451

A method for mass collection of wasp venoms. 9471

An improved cage for the mass rearing of the Trichogramma egg parasites (Hymenoptera, Chalcidoidea). 9490

About assumptions of the complex-center biological method of forest protection. 9533

DNA base composition and taxonomy of phytopathogenic and other enterobacteria. 9608

A new method of cabbage root fly control. 9637

Agglutinating antigen from an ornithosis agent. II. modification of antigen preparation and test procedure. 9709

A simple bioassay for detection of aflatoxin in milk. 9815

Recommended analytical methods for pesticides. 38. Test for emulsion characteristics of emulsifiable concentrates. 9846

An integrated technique to study the effects of fumigants on respiration of insects. 9972

Quantitative determination of uric acid in insect feces by lithium carbonate extraction and the enzymatic-spectrophotometric method. 9973

Recovery of mites from peat and mineral soils using a new floatation method. 9975

Hexalure, an insect sex attractant discovered by empirical screening. 10025

Marking and recapture of California red scale for field studies. 10101

A simple apparatus for dipping treatment of insects for varying periods of time. 10116

Identification of hydrocarbons from Novomessor cockerelli. 10138

Continuous laboratory culture of the locust borer, Megacyllene robiniae. 10141

Methods of determination of the systemic and fungitoxic properties of chemicals applied to plants with emphasis on control of Verticillium wilt with Thiabendazole and Benlate. 10181

A method for spraying individual trees. 10282

A sprayer for application of small amounts of herbicides to flats. 10314

Control method of inactivated vaccines against the Newcastle disease by means of the titulation of neutralizing antibodies. 10334

Collaborative study of confirmative procedures by single sweep oscillographic polarography for the determination of organophosphorus pesticide residues in nonfatty foods. 10409

Modifications of the micromethod of sample cleanup for thin-layer and gas chromatographic separation and determination of common organic pesticide residues. 10413

Activation and standardization of purified silica gel for column chromatographic cleanup of pesticide residue extracts. 10414

Analysis of grains for multiple residues of organic fumigants. 10416

Methods of determining pesticides in food products. (JPRS 34,946). 10418

Peacock plasma, a useful cholinesterase source for inhibition residue analysis of insecticidal carbamates. 10419

Review of methods for mercury in pesticide formulations. 10469

Comparison of ten methods for the analysis of milk for residues of chlorinated pesticides. 10470

Rapid method for the extraction, cleanup, and GLC determination of toxic residues of temik. 10471

Collaborative, study of the sweep co-distillation cleanup for chlorinated pesticide residues in edible fats and oils. 10472

Analysis of multiple pesticide residues--chemical identity and confirmation of results. 10473

Note on versatility of silicone Dow Corning 11 substrate for gas chromatography of pesticides. 10482

Technique of preparing slides for Coccid (Homoptera, Coccoidea) determination. 10540

Weed problems and their solution in rice crops in Italy. 10773

Trouble in wild oat control. 10796

Cyanide as a poison in opossum control. 10831

Method for the detection and registration of weak sounds, such as the gnawing of insect larvae. 11237

Sterile culture of Musca sorbens. 11280

METHODOLOGY

In vitro culture of ovary of the plant bug, Iphita limbata Stal. 11297

H thermistor thermometer for physiological preparations. 11352

The cockroach heart as a bioassay organ. 11353

A simple technique for hand-pairing Limenitis butterflies (Nymphalidae). 11371

A guide for the application of dark field microscopy for routine diagnosis in insect pathology. 11397

Excision of gonads from immature Diatraea. 11408

Polyurethane coating: A new technique for the preservation of diseased plant material. 11439

Procedures and media for obtaining tissue cultures of 12 conifer species. 11441

A technique for rapid standardization of conidial suspensions of Ceratocystis ulmi. 11474

Application of immunoprecipitation in agar gel for the serological typing of soybean root-nodules. 11504

Inoculation. 11515

Laboratory techniques in brucellosis. 11588

A comparison of the tube agglutination, supplemental, and brucellosis ring tests in selected dairy herds in New York. 11611

The use of the hemolytic activity of Newcastle disease virus as a means of strain typing. 11619

Purification of Eimeria tenella sporozoites with glass bead columns. 11630

A specific gas chromatographic method for residues of organic nitrogen pesticides. 11667

Rapid methods of extraction and cleanup in pesticide residue analysis. 11668

Recommended analytical methods for pesticides. 40. Methods of analysis for technical and formulated endothion. 11704

Recommended analytical methods for pesticides. 39. Methods of analysis for technical and formulated trichlorfon. 11705

Expanded utility of the Beilstein flame test for organically bound halogens as a sensitive and specific flame photometric detector in the gas chromatographic determination of R-X compounds as illustrated with organochlorine pesticides. 11709

Liquid nitrogen fixation: A new method for hemocyte counts and mitotic indices in tissue sections. 11814

Estimation of a total bacterial number in termite intestines. 11845

The development of Pentac resistance in an outcrossing swarm of the two-spotted spider mite. 11860

150 years of crop pest control. 11868

Method of destroying fungi with nitrophenyl sulfonylethylene. Patent 3,436,464. 11996

Technique of artificial innoculation of seed-corn with fungi Fusarium. 12004

Douglas-fir beetle brood densities and infestation trends on a New Mexico study area. 12055

Herbicidal mixture and method of use. Patent 3,429,687. 12108

Compositions and a method for the prevention and control of histomoniasis which employ a 5-nitroimidazole and a benzenearsonic acid. Patent 3,439,097. 12179

Isolation of two antigenic fractions from hydatic fluid of Echinococcus granulosus. 12192

Method for determining the fenthion residues in olives and olive oil. 12211

Determination of organochlorine insecticides in soils and waters. 12220

Method of treating avian lymphomatosis induced by ES4 strain of lymphomatosis virus. Patent 3,429,971. 12303

Pesticides. 12305

Study on the determination of the moisture content in the fungicides with a dithiocarbamic base. 12309

Method for extracting the antibiotic levorin from a culture medium. Patent 3,439,090. 12313

Amine cyanoferrates and methods for preparing same. Patent 3,429,907. 12320

Dry preparation of small soft skinned animals particularly arthropods, and of plant parts with dichlormethane-glacial acetic acid-silica gel.. 12440

Application of ovitraps in the U. S. Aedes aegypti eradication program. 12468

An appraisal of adult mosquito trapping techniques used in Nigeria, West Africa. 12534

A device for protecting experimental huts from molestation. 12536

A method for the injection of chemicals into trees. 12660

Plant resistance to Myzus persicae induced by a plant regulator and measured by aphid relative growth rate. 12693

Compatibility of chemical and mechanical weed control methods. 12746

Diagnosis of classical swine plague and titration of antisera by passive hemagglutination. 12768

Colorimetric determination of 2,6-dichlord-4-nitroaniline (dichloran) residues in foods. 12890

Aflatoxins: Improved resolution by thin layer chromatography. 12907

A device for the drip application of insecticide concentrates. 12930

Ground application of pesticides. 12931

A technique for transferring newly hatched larvae. 13050

Age grading of mosquitoes from parasitic mites. 13058

Holding technique for the manipulation and excision of adult anopheline mouthparts. 13128

Recommendations for weed control in cereal crops. 13347

Antirabies vaccines inactivated by beta-propiolactone prepared from new-born kid and mouse brains. 13379

Enhanced recovery of Salmonella montevideo from onion powder by the addition of potassium sulfite to lactose broth. 13381

Dry ashing method for the determination of total arsenic in poultry tissues. 13450

Report of the Joint AOAC-AOCS Aflatoxin Committee. 13460

Note on adsorption of aflatoxin standards to glass. 13465

Thin-layer chromatographic identification of the active ingredients of mixed herbicide formulations. 13499

Recommended analytical methods for pesticides. 41. Ferbam in mixed formulations. 13500

Methodology employed in the California mosquito larvicide resistance surveillance program. 13629

Mosquito collections by CDC miniature light traps and livestock-baited stable traps at Callao, Utah. 13660

A note on fog application. 13690

A suction apparatus for collecting mosquitoes and other insects. 13692

An improved mechanical method of aspirating insects. 13737

Aerial application of a chemical fog for the control of mosquito larvae and adults. 13739

Pest and disease control is more than simply putting on a spray. 13748

Monoxenic culturing of Dolichodorus heterocephalus on corn root callus. 13891

A simplified method for testing infestivity of Heterodera rostochiensis. 13899

Possibilities of preparation of an oil adjuvant vaccine against haemorrhagic septicaemia of cattle using a medium papain digest of beef. 14000

Comparative studies on the sensitivity of some of .the methods of complement fixation test commonly used for typing of foot-and-mouth disease virus. 14001

Recommended changes in the method for detection and identification of salmonella in egg products. 14040

Investigation of natural auxins and growth inhibitors. 14079

The silent supervisor (a functional organization chart). 14114

Xerox transparencies as a training aid. 14115

A note on the genus Pseudathyma Staudinger with description of a new species (Lepidoptera: Nymphalidae). 14143

Insect visceral muscle: Neural relations of the proctodeal muscles of the cockroach. 14189

Physiological genetics of melanotic tumors in Drosophila melanogaster. VI. The tumorigenic effects of juvenile hormone-like substances. 14190

Effect of the venom of the black widow spider, Latrodectus mactans tredecimguttatus, on evoked action potentials in the isolated nerve cord of Periplaneta americana. 14195

Effect of Loxosceles reclusa Gertsch and Mulaik venom on Heliothis virescens (F.) larvae. oosterhof, g. 14248

Puff forming ability as a function of chromosomal position in Drosophila melanogaster . 14284

Problems of integrated pest control in practical plant protection. 14315

Evidence for the release of 28 S RNA from turnip yellow mosaic virus heated in vitro. 14370

Pesticide spraying during the rains. 14433

Greenhouse testing of sugar beets for resistance to curly top. 14446

Two important bacterial diseases on beans. 14454

Recommendations for chemical control of pests of rubber plantations. 14498

Improved method for weed control in potatoes on extremely marshy soil. (Test experiences in upper Bavaria 1965-67). 14528

Plaque characteristics of four classes of bovine viruses. 14570

Use of sodium alginate adjuvant in immunization against equine influenza. 14612

The chromosome numbers of Oesophagostomum columbianum Cutice and Chabertia ovina Fabricius (Nematoda, Strongylata). 14636

Preparation of dehydrated tomato powder samples for Howard mold count. 14650

Effect of carbaryl on the neuroendocrine system of rats. foodstuffs: a multi-detection scheme for gas chromatography of solvent extracts. 14662

The standardization of Bacillus thuringiensis: Tests on three candidate reference materials. 14799

A breeding method for Cardiasthetus nazarenus Reuter (Hemipt. Anthocoridae) fed on eggs of Anagasta kuehniella Z. (Lepidopt. Pyralidae). 14810

Mass rearing of Culex pipiens L. 14820

On mass cultivation, determination of effectiveness, and standardization of insect pathogenic fungi. 14857

Making tests by radioactive phosphorous P32 for the absolute estimations of larval populations of culicids (Diptera-Culicidae). 14869

Isolation, purification and toxicity of a thermostable exotoxin from the strain of Bacillus gelechiae Auct. 14874

Problems of storing plant disease data for retrieval by automatic data processing machines. 14922

Control of potato blight by means of spraying machinery used on the ground, airplanes and helicopters. 14951

Evaluating soil samples for fungus pathogens of sugarbeet seedlings. 14975

Methods, techniques and equipment for weed research. 15056

Comparison of different methods of applying TCA for the control of Agropyron repens (quackgrass). 15063

Application of granulated herbicides in shelter plantations. 15111

Sandalwood (Eremophila mitchellii) control in gidyea country. 15135

Cultivation of the turkey coccidium, Eimeria meleagrimitis Tyzzer, 1929, in mammalian kidney cell cultures. 15168

Utilization of various cell culture systems for propagation of certain feline viruses and canine herpesvirus. 15175

Rodent trapping. 15232

The determination of DDT and its metabolites residues in egg products for export by means of gas chromatography. 15239

A new method for clean-up of chlorinated pesticide residues in meat, meat products, fats and oils. 15248

Results of serial tests with spraying machines used in field. 15305

Possibilities of checking jets of field spray lines. 15307

Critical considerations concerning the present status of the advisory service for machinery in agriculture. 15308

Mycoplasma-like bodies in the saliva of the leafhopper Macrosteles fascifrons (Stal) (Homoptera: Cicadellidae). 15419

Method for determining Bacillus thuringiensis var. thuringiensis Berliner in soil. 15425

Methods of application for the use of liquid products in soil fumigation. 15457

The application technique of granulated soil fumigants. 15458

Economic application of pesticides in glasshouses. 15461

A rapid method of identification of prunus necrotic ring spot. 15494

Further experiments on the glass tube method to control degeneration of potatoes. 15593

Experiments to obtain court-noue virus first part extracts from tissues of grape leaves. 15604

What is plant protection. 15669

New method of injecting herbicides for weed control in corn and soybeans. 15731

Application of granulated herbicides in special cultures, presented with the product DBN. oosterhof, g. 15742

The concentration of foot-and-mouth virus by polyethylene glycol. 15771

Determination of fumigant residues in cereals and other foodstuffs: a multi-detection scheme for gas chromatography of solvent extracts. 15855

The method for the inhibition of cholinesterases as applied to the determination of agricultural pesticide residues. 15912

The TAS-METHOD for rapid separation of pesticides and preservatives. 15916

METHOXY-2-BENZOXAZOLINONE, 6-
Concentration of two 1,4-benzoxazinones in dent corn at various stages of development of the plant and its relation to resistance of the host plant to the European corn borer. 9796

METHOXY-5-OXO-DELTA2-1,3,4-THIADIAZOLIN-4-YL)METHYL, O,O-DIMETHYL PHOSPHORODITHIOATE, S-((2-
Field evaluations in spray programs for control of the fruit-tree leaf roller on sweet cherry. 12694

METHOXYCHLOR
Mosquito control in and around homes and farmsteads. 8274

Pesticide drift. I. High-clearance vs. aerial application of sprays. 8533

Pesticide drift. II. Mist-blower vs. aerial application of sprays. 8555

Response of robins to DDT and methoxychlor. 8565

Response of robins to DDT and methoxychlor. 9152

Residue analysis in the dairy industry. in Zwig, Analytical methods for pesticides, plant growth regulators, and food additives. vol. 1. principles, methods, and general application. 9157

Dutch elm disease - threat to Colorado. 9555

Estrogenic action of DDT and its analogs. (Abstract). 10949

Campaign against stored grain pests in villages of IADP district Ludhiana. 15229

Studies on some chlorinated hydrocarbon residues in potato tubers harvested in 1965--1966. 15249

From studies on residues of DDT, lindane and DMDT in soil. 15250

Practical remarks on the methods of extraction and determination of DDT, BHC and methoxychlor residues in biological material. 15255

Blackberry, dewberry and raspberry insects. 15638

METHOXYETHYL MERCURIC CHLORIDE
Effect of storage treatments and fungicides on sprouting, flowering and gladiolus corm production. 8947

METHOXYETHYLMERCURY CHLORIDE, 2-
Some results from allium tests with organic mercury halogenides. 14674

METHOXYETHYLPYRIDINE, 2-BETA
Some pharmalogical actions of 2-(Beta-methoxyethyl) pyridine (active product of the anthelmintic for ruminants Promintic (ICI)). 15241

METHOXYMETHYL)-5-NITROFURAN, 2-(
Furaspor liquid veterinary. Drugs for veterinary use, drug efficacy study implementation. 13388

METHYL BROMIDE
Effect of carbon dioxide on toxicity of hydrocyanic acid and methyl bromide to adults of the confused flour beetle and granary weevil at two different temperatures. 8074

Control of dodder in home gardens. 9665

Analysis of grains for multiple residues of organic fumigants. 10416

Differential sensitivity of various phytopathogenus soil fungi to methyl bromide. 10668

Effect of soil fumigation on disease control and yield of gladiolus in southwestern North Carolina.
10669

Experimental tests in the control of Heterodera schachtii Schm.
10762

Experiment in soil disinfection against Phialophora cinerescens (Wr.) v. Beyma in the Pescia district.
11935

Remarks on the practice of grafting and soil disinfection with methyl bromide and with di-trapex in the control of verticillium wilt of greenhouse tomato plants.
11947

Remarks on the efficiency of soil disinfection, using steam and various fumigants, in the control of verticillium wilt of greenhouse tomato plants.
11948

Studies on the decontamination of soil with methyl bromide.
11962

The influence of age and concentration of fumigant on the susceptibility of pupae of Tribolium castaneum (Herbst) (Coleoptera, Tenebrionidae) to methyl bromide.
13019

Studies on the parasitsm and control of tea root disease fungi in Ceylon. Heteroptera.
14448

Methyl bromide can be dangerous.
14663

On the spread and control of Anguina agrostis.
15045

Soil treatment for control of nematodes and certain soil-borne diseases.
15680

A simple device for injecting methyl bromide into a replant site.
15688

Phytotoxicity of methyl bromide to some plant hosts of San Jose scale.
15882

METHYL CHLORIDE

Some results from allium tests with organic mercury halogenides.
14674

METHYL DEMETON

A laboratory testing programme for assessing field performance of acaricides against Tetranychus urticae (Koch).
8857

Organophosphorus poisoning. Diagnosis of poisoning in pheasants owing to a number of common pesticides.
9806

A note on the incompatibility of two pre-blossom aphicides (demeton-S-methyl and dimethoate) with lime-sulphur.
11533

The control of Aphis fabae Scop. on spring-sown field beans (Vicia faba L.).
12670

Control of grape leaf blister mite (Eriophyes vitis (Pag.)) in the Stanthrope District, Queensland.
12680

Control of aphids in seed potato production.
13322

Laboratory investigations on the effect of aphicides available in Poland on the most important natural enemies of aphids.
13702

Phalaenopsis mite, Tenuipalpus pacificus Baker.
14813

Experiments on the control of carrot-willow aphid in south-west England 1961-1964.
15675

METHYL ISOTHIOCYANATE

Effect of soil fumigation on disease control and yield of gladiolus in southwestern North Carolina.
10669

Experimental tests in the control of Heterodera schachtii Schm.
10762

Characteristics of the use of the fumigant Di-Trapex, a fungicide and nematocide.
11922

Remarks on the practice of grafting and soil disinfection with methyl bromide and with di-trapex in the control of verticillium wilt of greenhouse tomato plants.
11947

Remarks on the efficiency of soil disinfection, using steam and various fumigants, in the control of verticillium wilt of greenhouse tomato plants.
11948

Yorlex for plastic greenhouse soil fumigation.
14929

METHYL M-HYDROXYCARBANILATE

Developmental trends in the chemical control of weeds in beets.
14536

METHYL METHANESULFONATE

The rate of breakdown of methyl methanesulphonate, dimethyl sulphate and N-methyl-N-nitrosourea in the rat.
9754

Genetical sensitivity of the different stages of spermatogenesis to methylmethanesulphonate (MMS) in Drosophila melanogaster. I. Crossing-over, deletions, fertility.
11422

METHYL N-((METHYLCARBAMOYL)OXY)THIOACETIMIDATE, S

Lannate - a new insecticide for the control of the giant looper and other pests.
8751

METHYL O-(METHYLCARBAMYL)THIOLACETOHYDROXAMATE

Hydroxamate carbamates as nematocides. patent 3,459,866.
8285

METHYL PARATHION

Greenbug control in grain sorghum.
8337

Current status of brown soft scale in citrus groves of the lower Rio Grande Valley.
9009

The optinum size for insecticide spray droplets.
9231

Fly pests affect some crops in Northland.
9644

Spray droplet size in the control of spruce budworm, boll weevil, bollworm and cabbage looper.
10247

Collaborative study of confirmative procedures by single sweep oscillographic polarography for the determination of organophosphorus pesticide residues in nonfatty foods.
10409

Studies on the anticholinesterase effects of methyl parathion, guthion, dichlorovos, and Gardona in human subjects. (Abstract).
10952

Identification of organophosphate pesticides by gas chromatography with the flame photometric detector.
13517

Experiences with aerial dusting in the Kern mosquito abatement district--1967.
13734

METHYL TESTOSTERONE

Reproduction in dogs chronically fed methyl testosterone (MT) or 6-chloro-17-acetoxy progesterone (CAP) with dieldrin. (Abstract).
10891

METHYL-1-NITROSOUREA, 1-

The rate of breakdown of methyl methanesulphonate, dimethyl sulphate and N-methyl-N-nitrosourea in the rat.
9754

METHYL-2-PROPYNYL M-CHLOROCARBANILATE, 1-

The use of herbicides in the mass production technology of the sugarbeet. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966.
12097

METHYL-2,3,5,6-TETRACHLORO-N-METHOXY-N-METHYLTEREPHTHALAMATE

Weed control in upland rice at the University of the Philippines College of Agriculture.
13360

METHYL-4-CHLOROPHENOXY)BUTYRIC ACID, 4-(2-

Evaluation of post-emergence herbicides in the greenhouse. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966.
12295

Chemicals that show--crops' co-existence with weeds is not necessary.
14530

Developments in pasture weed control.
15049

Use of Butyrics.
15096

Chemical weed control in pasture, range and hayland.
15129

METHYL-4-CHLOROPHENOXYACETIC ACID, 2-

Note on the determination of some chlorophenoxy herbicides and their esters in water.
9143

Control of soft rush (Juncus effusus).
10805

Observations in long-term experiments with weeds and herbicides.
10810

Direct detection of ionizable herbicides by electrophoresis.
11710

Recommendations for weed control in cereal crops.
13347

How you can control weeds in rapeseed.
13362

Effect of selective herbicides to liquorice plant growing in cereal fields.
14519

Development of corn-growing along the Rhein through use of growth producing herbicides.
14523

Corn daisies and their control.
14527

The problem of finding a precise application method for the herbicides MCPA and 2,4-D on summer barley.
15101

Chemical control of scentless chamomile.
15118

The influence of dikotex on the content of some free amino acids and all of the nitrogen in summer barley plants.
15283

Results from use of 2,4-D and 2M-4X in grain maize crop.
15728

METHYLBUTYL)PHENYL METHYLCARBAMATE, M-(1-

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Insecticide mixture.
12217

METHYLDIPHENYLACETAMIDE, N

A study of the activity of diphenamid and three analogs. (abstract).
8582

METHYLENEBIS(3,4,6-TRICHLOROPHENOL), 2,2'

Synergism in the chemotherapy of Fascioliasis.
9084

Distribution and fate of C14-Hexachlorophene in liver flukes (Fasciola hepatica L.). 13420

The protective effect of hexachlorophane against infection with Fasciola hepatica. 15822

The effect of simultaneous treatment with hexachlorophene and nitroxynil upon immature Fasciola hepatica in rats and rabbits. 15829

METHYLENEDIOXYPHENYLS
Spectra and analyses of insecticide synergists and related compounds containing the methylenedioxyphenyl group by spectrophotofluorometry (SPF) and spectrophotophosphorimetry (Ssp). 14105

METHYLMALONIC ACID
The excretion of methylmalonic and formiminoglutamic acids during the induction and remission of vitamin B12 deficiency in sheep. 12136

METHYLSULFONYL)-2,6-DINITRO-N,N-DIPROPYLANILINE, 4-(
Nursery investigations: Weed control. 11563
Herbicides and sprinkler irrigation in vegetable crops. 12101
Leaching of trifluralin, benefin, and nitralin in soil columns. 12703
Gross morphological and cytological effects of nitralin on corn roots. 12721
Weed control in upland rice at the University of the Philippines College of Agriculture. 13360
Weed control in cucurbits. 13914

METHYLSULFONYL)-2,6-DINITRO-N,N-DIPROPYLANILINE,4-(
Comparison of three soil-incorporated herbicides, trifluralin, benefin, and SD-11831, on the growth of cotton seedlings. (Abstract). 10956

METHYLSULFONYL-2,6-DINITRO-N,N-DIPROPYLANILINE, 4-
Herbicidal mixture and method of controlling undesirable plant growth therewith. Patent 3,443,927. 12926

METHYLTHIO)-3,5-XYLYL METHYLCARBAMATE, 4-(
Repelling pheasants from sprouting corn with a carbamate insecticide. 14337

METHYLTHIO)CRESOL, ALPHA-(
Method of killing pests by application of a phosphoro derivative of alpha-(methylthio) cresol. Patent 3,427,384. 8875

METICLORPINDOL
Drug withdrawal as a tool in coccidiostat floor pen trails. (Abstract). 10848

METOBROMURON
Experiences with Patoran (metabromuron) on weed control in bean shrubs. 14526

METOSERPATE HYDROCHLORIDE
Notice of filing of petition for food additive metoserpate hydrochloride. 9677

METRITIS
Relationship of viruses to reproductive problems. 9094
Chlorhexidine dihydrochloride. Drugs for veterinary use, drug efficacy study implementation. 13386

METYRAPONE
Effect of o,p'-DDD and metyrapone (SU-4885) on development of renal hypertension in rats. 9807

MEVALONATE KINASE
Two juvenile hormones in Cecropia silk moth. 8810

MEVINPHOS
Automated differential screening method for organophosphorus pesticides. 12268

MICE
Site difference for solid tumor growth. 8455
Demonstration with indirect immunofluorescence of a cellular epsilon-antigen of the mouse. 8459
Relative hypertrophy of the mouse's right kidney. 8460
Studies on mouse leukemia viruses. I. Isolation and characterization of a group-specific antigen. 8477
Effect of 5-fluorouacil and 5-bromo-2'-deoxyuridine on the induction of thymidine kinase in polyoma virusinfected mouse embryo cells. 8488
Activity of parbendazole upon Trichinella spiralis in mice. 8508
The significance of DDT in household and structural pest control - 1969. 8523
Dynamics of arsenic cumulation in hairless mice after peroral administration. 8559
Bi-modal effect of piperonyl butoxide on the o- and p-hydroxylations of biphenyl by mouse liver microsomes. 8566
The structure of the mammary tumor virus. 9066
Electron microscopical observations on Mycobacterium johnei. 9115
Infection experiments with the cotton rat filaria Litomosoides carinii in Mastomys natalensis (Smith, 1834). 9127
Host-parasite relationships of Fasciola hepatica in the white mouse. III. Worm transfer. 9131
Susceptibility of male and female mice to the mephrotoxic and hepatotoxic properties of chlorinated hydrocarbons. 9174
Metabolism of 2,2-dimethyl-2,3-dihydrobenzofuranyl-7 Nmethylcarbamate (Furadan) in plants, insects, and mammals. 9424
Value of immune mouse ascitic fluid in plant virus serology. 9603
Home orchard pest control. 9643
Anti-malarial effect of interferon inducers at different stages of development of Plasmodium berghei in the mouse. 9714
Role of interferon in experimental mouse malaria. 9749
The effect of DDT on reproduction in mice. 9759
The effect of the tapeworm Hymenolepis nana on immunity to tuberculosis in mice. 9769
Preliminary studies on venom from the brown recluse spider Loxosceles reclusa. 9816
Mutagenic effects of TEPA and METEPA in mice. 10333
Rabies diagnosis. Observations on strains of virus with low pathogenicity. 10349
Immunogenicity of concentrated and purified rabies vaccine of tissue culture origin. 10360
Researches on Galega species regarding their content of toxins by means of biological methods. I. Toxicity of goats-rue (Galega officinalis L.) for warmblooded animals. 10428
Appearance of Cx-reactive protein in plasma of rabbits with corresponding decrease in liver catalase following 3-aminol,2,4-triazole administration. (Abstract). 10833
Observations on the effect in mice of concurrent infections with migratory Ascaris columnaris larvae and certain neurotropic arboviruses. 10912
Comparative toxicity (mammals, insects, mites) of new phosphorylate derivatives of aminoethylthiol. 11245
Bovine epizootic fever. III. Loss of virus pathogeneicity and immunogenicity for the calf during serial passage in various host systems. 11600
Rabiesvirus neuronitis. 11601
Studies on delayed (cellular) hypersensitivity in mice infected with Trichinella spiralis. IV. Artificial sensitization of donors. 11651
Cholinolytics in the treatment of anticholinesterase poisoning. V. The effectiveness of Parpanit with oximes in the treatment of organophosphorus poisoning. 11678
Trichophytosis of laboratory mice. 12129
The effect of dibromoxyquinoline and iodochloroxyquinoline of Salmonellosis in mice. 12164
A scorpion attacking a pygmy mouse. 12486
Gumbo Limbo, a new Group C arbovirus from the Florida Everglades. 12585
Observations on the ultrastructure of the spinal cord, spleen and lymph nodes of mice inoculated with scrapie. 12755
Trichinella spiralis: Establishment in Gnotobiotic mice affected by Bacillus mesentericus, B. subtilis. 12785
PAM 1392 (2,4-diamino-6-(3,4-dichlorobenzylamino) Quinazoline) as a Chemotherapeutic agent: Plasmodium berghei, P. cynomolgi, P. knowlesi, and Trypanosoma cruzi. 12803
The inactivation of Erysipelothrix rhusiopathiae in macrophages from normal and immune mice. 12804
On the evidence of infestation ability of ascarid eggs (Ascaris suum Goeze,1782) in strange hosts. 12820
Protective action of passively transferred immune serum and immunoglobulin fractions against tissue invasive stages of the dwarf tapeworm, Hymenolepis nana. 12827
Rats and mice enemies of production, hazard to health. 12880
Tetraethylammonium chloride as an antidote for certain insecticides in mice. 12893
Studies on the peritoneal exudate of animals experimentally infected with Toxoplasma gondii. I. Effect of heat on activity. 13994
Preliminary studies on the anti-malarial activity of SDDS (2-sulfamoyl-4, 4'-diaminodiphenylsul-

fone) against Plasmodium berghei and Plasmodium gallinaceum. 14065

Isolation of Bunyamwera-group viruses from Wisconsin mosquitoes. 14553

Titration of Salmonella abortus-ovis strains with chick embryos and white mice. 14561

The temperature requirements for interferon production in cells stimulated by Newcastle disease virus or microbial agents in vitro. 14585

Nairobi sheep disease: A study of it's pathogenesis in sheep, goats and suckling mice. 14597

Warfarin treatment of mice bearing autochthonous tumors: Effect on spontaneous metastases. 14608

2-Amino-5-(1-methyl-5-nitro-2-imidazolyl)-1,3,4-thiadiazole A new antimicrobial agent. 15163

Prophylactic effect of aminoethylisothiouronium bromide hydrobromide (AET) in combination with bee milk in acute experimental radiation sickness. (JPRS 43,628) Transl. 16961. 15165

Considerations of the pharmacology and toxicology of the poison of Bufo paracnemis Lutz. 15269

Research concerning secondary effects of chlorcholinchlorid (CCC). 15341

Immunity to Salmonella infection (experimental investigation). Report I. Dynamics of 19S and 7S antibody formation and specific resistance in immunization with cellular components of typhoid bacillus. 15806

Reduction of arbovirus plaque numbers by suspensions of normal mosquitoes. 15810

MICROBIAL CONTAMINATION

Rearing the forest tent caterpillar on an artificial diet. 9332

On the problem of contamination with salmonellae foodstuffs and feeds. 9784

MICROBIAL INSECTICIDES

Microbial control in Hawaii. 11545

MICROBIOLOGICAL DEGRADATION

Degradation of p32-bromophos by microorganisms and seedlings. 10449

MICROBIOLOGY

Motion and flagellation of Clostridium brevifaciens. 8094

Agricultural microbiology. 8980

Studies on the tuberculate mycorrhizae of Douglas fir (Pseudotsuga taxifolia Britton). 9560

Antennopsis gallica Heim and Buchli (hyphomycetes: Gloeohaustoriales), an entomogenous fungus on subterranean termites in Florida. 10022

Microbiological decontamination of aflatoxin-contaminated edibles. Patent 3,428,458. 10920

Chemical vs. microbial degradation of amitrole in soil. (Abstract). 10923

Microbiological properties of captan. 11472

A comparison of the behavior of two pea pathogens in cut-away peat and loam. 13286

Application of luminescent microscopy for the immediate discovery of blood-parasites of domestic and wild animals. 13418

Microbial contamination control facilities. 13423

Degradation of pure aflatoxin by Tetrahymena pyriformis. 14333

Five years' research with a hatchery sanitation program in Maine. 14545

The temperature requirements for interferon production in cells stimulated by Newcastle disease virus or microbial agents in vitro. 14585

Kerato-conjunctivitis in cattle in the plateau area of Northern Nigeria. A study of Thelazia rhodesii as a possible aetiological agent. 14634

What the sanitarian should know about Staphylococci and salmonellae in non-dairy products. Ii. Salmonellae. 14649

The fine structure of hyphae of Helminthosporium oryzae Ito et Kurib. and Pyricularia oryzae Cavara. 14679

Nucleus of fusion body and infection structure produced by uredospores of three rust fungi. 14685

The effect of temperature on the pathogenicity of the fungus, Ascosphaera apis, for larvae of the honey bee, Apis mellifera. 14787

Tuberculosis-mycobacteriosis. 15186

Investigation on growth media for mycoplasma: Evaluation of infusions, peptones, sera, yeast extracts and other supplements. 15797

MICROCEROTERMES EDENTATUS

The intestine of a higher termite (Microcerotermes edentatus, Wasman, Amitermitinae). Histophysiology and symbiotic bacterial flora. 9411

MICROCLIMATE

The influence of irrigation on the occurrence of diseases and pests of agricultural crops. (Review). 9577

Research concerning leaf scorch (species Aphelenchoides fragariae(infecting strawberries. 15591

MICROCOCCACEAE

Delayed lethal effect of 2,4-dichlorophenoxyacetic acid on bacteria. 10429

Degradation of DDT and DDE by cheese microorganisms. 15252

MICROCTONUS AETHIOPS

Biological control of the Egyptian alfalfa weevil in California and Arizona. 11799

MICROCTONUS GLYPTOSCELI

Microctonus glyptosceli n. sp., a parasite of Glyptoscelis pubescens (F.) in Wisconsin (Hymenoptera: Braconidae: Euphorinae and Coleoptera: Chrysomelidae). 8648

MICROFILARIAE

Research on the resistance of microfilariae of Dirofilaria repens at different temperatures. 12162

The protection of a small group of Nigerian trade cattle from trypanosomiasis using samorin. 14580

MICROFILARIAL INFESTATIONS

On the inefficiency of transmission of Wuchereria bancrofti from mosquito to human host. 9518

MICROLEPIDOPTERA

Problems regarding the protection of fruit trees against infestations by leaf mining Microlepidoptera. 14480

MICROMONOSPORA CHALCEA

Antibiotics 460 and methods for their production. Patent 3,454,696. 8485

MICRONUTRIENTS

Factors affecting trace and minor elements in hill sheep pastures. 10589

The effect of some trace elements on growth, reproduction, and symbionts of artificially fed Neomyzus circumflexus Buckt. (Aphidae, Homoptera, Insecta). 11265

Micronutrients essential for tree health and high yield of quality citrus. 11993

Influence of maize dwarf mosaic virus and trace levels of atrazine on weight and foliar element accumulation by two single cross maize hybrids in the greenhouse. 13757

Studies on the molybdenum availability. Part II. The effect of molybdenum and calcium treatment on the uptake of molybdenum by plants. 14091

The effect of ZnSO4 on the chemical composition of maize leaves. 15291

The effect of molybdenum on the amino acid content in beans. 15293

Notice of filing of petition for food additive Disodium EDTA. 15785

MICROORGANISMS

The possible control of rice stem borers by the use on natural enemies. 8379

Role of intestinal microflora in the degradation of DDT by rainbow trout (Salmo gairdneri). 8575

(R2B) the Mukteswar virus vaccine and its characters. 9105

A common source epizootic of bovine salmonellosis in Manitoba. 9120

Functional characteristics of the alimentary canal of the cockroach, Blaberus craniifer Burmeister. 9427

Boll-rot potential, organisms involved, and actual boll rot in seven cotton varieties. 9545

Activity of myxin against Ceratocystis ulmi. 9592

The isolation of Bacterium anitratum (Acinetobacter anitratus) and Mima polymorpha (Acinetobacter iwoffi) from animals in Uganda. 9747

Oxidative degradation of aromatic hydrocarbons by microorganisms. II. Metabolism of halogenated aromatic hydrocarbons. 9831

Metabolism of beta-dihydroheptachlor-14C in soil and by microorganisms. 9840

Verticillium wilt of tobacco. VII. Pathogenicity of isolates of Verticillium dahliae Kleb. on New Zealand tobacco. 10231

Method for combating micro-organisms. Patent 3,458,636. 10362

Observations on the decline of water milfoil and other aquatic plants, Maryland, 1962-1967. 10393

Biodegradation of pesticides. 10422

A monoxenic relationship, Nocardia rhodnii Erikson in the gut of Rhodnius prolixus Stahl. (Hemiptera: Reduviidae). 10542

Particle shape of southern sannhemp mosaic virus. 10615

Ram epididymitis vaccination. 10853

The inactivation of genus Miyagawanellae microorganisms with the use of chloramine group chemicals. I. (JPRS 45275) 10858

Modes of action of 3-amino-1,2,4-triazole (amitrole). (Abstract). 10991

Control of pathogenic organisms with halogenated phenoxycyclopentenones. Patent 3,443,016. 11079

A study of the oxidases in the xylophagous insect, Ips sexdentatus and in its microbial flora. 11331

Symbiontic interrelationships between microbes and ambrosia beetles. III. Ergosterol as the source of sterol to the insect. 11359

Forest microfungi. I. Ampulliferina persimplex n. gen., n. sp. on leaves of labrador tea. 11510

Bovine mastitis due to Pseudomonas pyocyanea. 11616

Microbial decomposition of methylmercury dicyandiamide. 11960

On the relationship between animals and microorganisms in wood. 12110

Chemotherapy of experimental Anaplasma marginale infections: Trials with an experimental dithiosemicarbazone (alpha-ethoxyethylglyoxal dithiosemicarbazone). 12224

Immunological reactions in insects. II. Lysozyme as an antimicrobial agent in the digestive tracts of insects. 13094

The use of micro-organisms for the control of insect pests. 13105

Southern corn leaf blight on sweet corn ears in transit. 13243

On giant eimerian schizonts from two cases of coccidiosis in kid. 13394

The growth of Candida albicans and Salmonella typhimurium in mixed cultures. 13399

Application of luminescent microscopy for the immediate discovery of blood-parasites of domestic and wild animals. 13418

Epidemiological studies on Salmonella senftenberg. I. Relations between animal foodstuff, animal and human isolations. 13431

Salmonella senftenberg in the Sunderland area. 13432

Transport of microorganisms (Phi particles) by the female germinal cells in the Homoptera Typhlocyba douglasi Edw. 13649

Studies on the brown-eye-spot disease (cercospora coffeicola B. and Cke) of coffee (Coffea arabica L.). IV. Longevity and viability studies. 13816

Isolation of Corynebacterium haemolyticum from a case of ovine pneumonia. 13990

Life cycle, pathogenicity and immunogenicity of Chabertia ovina. 14022

Behavior of some germs and bacterial toxins pathogenic to man in food and its destruction through heat treatment of the food. I. Salmonella. 14042

Inheritance of resistance in tomato (Lycopersicon spp.) to the anthracnose pathogen Colletotrichum coccodes. 14437

Five years' research with a hatchery sanitation program in Maine. 14545

Kerato-conjunctivitis in cattle in the plateau area of Northern Nigeria. A study of Thelazia rhodesii as a possible aetiological agent. 14634

Two cases of urea poisoning in dairy herds. 14661

Stability and effects of some pesticides in soil. 14697

The influence of the selective destruction of the microbial flora on the activity of two oxidases in the xylophagous insect Ips sexdentatus. 14838

Resistance against pesticides. 14850

2-Amino-5-(1-methyl-5-nitro-2-imidazolyl)-1,3,4-thiadiazole A new antimicrobial agent. 15163

Research on cranefly populations. The effect of certain ecological factors on Tipula paludosa Meig. 15424

Erosion and its subsequent lesion in fowl air sacs. 15777

MICROPOLYSPORA FAENI

Farmers lung. 10925

MICROPTERYGIDAE

Preliminary report about my breeding attempts with Micropteryx calthella L. (Lep., Micr.). 14234

MICROSCOPY

Teliospore morphology of some smut fungi. II. Light microscopy. 8300

Study of the corpus allatum in living larvae of the blow fly Calliphora erythrocephala MG. (Diptera, Calliphoridae). 8877

Agricultural microbiology. 8980

Virus-like particles in galls on sugarcane plants affected by Fiji disease. 8994

Histopathologic changes induced with duck hepatitis virus in the developing chicken embryo. 9705

Microscopical studies on the development of Babesia ovis in Rhipicephalus bursa (Ixodoidea). I. Development in female ticks after repletion. 10013

A technique for removing appendages from small, dry-mounted insects for microscopic examination. 10538

A guide for the application of dark field microscopy for routine diagnosis in insect pathology. 11397

Root surface fungi of Crotalaria. 11503

An ultrastructural analysis of microsomal preparations from Musca domestica and Prodenia eridania. 11797

Decay patterns produced by Chaetomium globosum in beechwood fibers. A chemical and microscopic study. 12270

Cornicles of the pea aphid, Acyrthosiphon pisum; their structure and function. A light and electron microscope study. 13081

Application of luminescent microscopy for the immediate discovery of blood-parasites of domestic and wild animals. 13418

A comparative study on the pathological picture of transmissible gastro-enteritis (TGE) and E. coli gastroenteritis in newborn piglets with special reference to the gastro-intestinal tract. 13951

A viral disease of goslings. II. Microscopic lesions. 13976

Characteristic order of the filiform hairs of Periplaneta americana. 14245

Studies on the pathological anatomy of rice plants infected by Helminthosporium oryzae, I. Behavior of the causal fungus on the coleoptile of rice seedlings and its ultrafine structure. 14373

Pertinant use of histochemical methods of curing floral plants injured by bacteria. 15536

MICROSOMES

Insecticide-cytoplasmic interactions in insects and vertebrates. 8203

Aldrin epoxidase activity of rat liver and rat liver microsomes under various conditions of storage. 8560

Bi-modal effect of piperonyl butoxide on the o- and p-hydroxylations of biphenyl by mouse liver microsomes. 8566

Degradation of parathion in the rat. 8570

Biochemical changes in rat liver in response to treatment with drugs and other agents--II. effects of halothane, DDT, other chlorinated hydrocarbons, thioacetamide, dimethylnitrosamine and ethionine. 8571

Oxidation of methyl- and dimethylcarbamate insecticide chemicals by microsomal enzymes and anticholinesterase activity of metabolites. 9740

DDT-DEHYDROCHLORINASE activity in house fly strains resistant to various groups of insecticides. 10579

An ultrastructural analysis of microsomal preparations from Musca domestica and Prodenia eridania. 11797

The toxicity of alpha-dihydroheptachlor and related compounds to the housefly (M. domestica L.) and their metabolism by housefly and pig liver microsomes. 12422

The metabolism of dihydrochlordene and related compounds by housefly (M. domestica L.) and pig liver microsomes. 12423

MICROSPORIDIA

Ineffectiveness of a microsporidian and a granulosis virus in activating a cytoplasmic polyhedrosis virus in the alfalfa caterpillar, Colias eurytheme. 8198

Some effects of sublethal heat on spores of Nosema apis. 8890

Development of the bait principle for boll weevil control. IV. Field tests with a bait containing a feeding stimulant and the sporozoans Glugea gasti and Mattesia grandis. 10068

MICROSPORUM

Dermatophytes in veterinary practice. 12795

MICROSPORUM CANIS

Equine ringworm caused by Trichophyton tonsurans var sulfureum. 9087

MICROSPORUM GYPSEUM

Equine ringworm caused by Trichophyton tonsurans var sulfureum. 9087

Microsporum gypscum isolated from feline ringworm. 15827

MICROTECHNIQUE
Preparation of fresh frozen sections of free-living and plant parasitic nematodes with a cold microtome. 13876

MICROTOMY
Preparation of fresh frozen sections of free-living and plant parasitic nematodes with a cold microtome. 13876

MIKIOLA FAGI
Dimorphism in galls caused by Mikiola fagi Hartig. (Dipt. Cecid.) on Fagus silvatica L. Androcecidy and gynocecidy. 11459

MILDEW
Tests for the control of mildew of the tomato. 10625
Tests of the control of potato mildew in the Trentino region. 10647
The resistance of anti-mildew products to washing off. 10694
A new contribution to the use of damp sulphur against the mildew of grapes: Experimental results. 11484
Some black mildew sooty mold and fly speck fungi and their hyperparasites from Dominica. 12594
Fungicidal activity and chemical constitution. xvi. The use of partition data for an analysis of the activities of alkyldinitrophenol fungicides against apple mildew. 12603
Grey mildew of cotton in Rajasthan. 12628
Research on the acaricide effect of some anti mildew products. 13138
A contribution to studies on the biology and control of apple mildew (Podosphaera leucotricha (Ell. and Ev.) Salm.). 14383
Preparation of the new fungicide heximide. 14703

MILDEW (PLANTS)
Mildews that might mar your opium poppy. 14390

MILK
Residue tolerances set for DDT in milk. 8536
Secretion of DDT by lactating cows fed thyroprotein. 8553
The effects of ICI 33828 and oxytocin on milk ejection and milk production in the lactating sow. 9074
The pathogenesis of the glomerulopathy in Aleutian disease. (Abstract). 9077
The utilization of the calcium sensitivity test in the investigation of the rennet activity. 9138
Gas chromatographic analysis of ciba C-9491 (O-(2,5-dichloro-4-iodophenyl)O,O-dimethyl phosphorothioate), its oxygen analog, and its phenolic hydrolysis product in sweet corn and milk. 9785
A simple bioassay for detection of aflatoxin in milk. 9815
Comparison of ten methods for the analysis of milk for residues of chlorinated pesticides. 10470
Notice of filing of petition regarding pesticide chemicals. 10930
Carbofuran. Notice of establishment of temporary tolerances. 11671
Significance of organochlorine insecticide residues in fresh plants as possible contaminants of milk and beef products. 11675
Investigation into the culturing of Salmonella and Shigella organisms from milk and milk product mediums of enrichment procedures. 1. The inhibitory activity of the enrichment substrate on the milk organisms. 12884
Application of T.K.T. medium for screening bulk milk samples for Streptococcus agalactiae. 13398
Pseudomonas aeruginosa contamination of a warm water system used for pre-milking udder washing. 13943
Studies on mastitis in cattle. 13988
Coagulation positive Staphylococcus from cow's milk. III. Comparison with a strain pathogenic to man. 14036
Bacteriological control of ice cream manufacture. Part 1. Introduction and raw materials. 14037
Spectrophotofluorescent and spectrophotophosphorescent data on insecticidal carbamates and the analysis of five carbamates in milk by spectrophotofluorometry. 14045
Determination of insecticide residue in animal and plant tissues. iV: Determination of residual amount of Sumithion and some of its metabolites in fresh milk. 14659
Excretion of aflatoxin in a lactating cow. Drosophila melanogaster to anesthesia. 14660
DDT and DDE in human milk. 15238
Pesticides residues control. 15247
The significance of pesticide residues on human life. 15253
Control of mosaic of tobacco, peppers, and tomatoes with milk. 15538
Control of mosaic of tobacco, peppers, and tomatoes with milk. 15539
Investigations on Q fever in the Republic of Mexico. 15809
Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O,O-Dimethyl S-(4-Oxo-1,2,3-Benzotriazin-3(4H)-ylmethyl) Phosphorodithioate. 15865
Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O-Odiethyl O-3-chloro-4-methyl-2-oxo-2H-1-benzopyran-7-yl phosphorothioate. 15869
Improved extraction procedure for 2,3,5-triiodobenzoic acid from milk and milk products. 15913

MILK ANALYSIS
The effects of ICI 33828 and oxytocin on milk ejection and milk production in the lactating sow. 9074
Diagnosis, incidence and treatment of sub-clinical mastitis in dairy buffaloes. 11621
The occurrence of Coxiella burnetii in north-western England and north Wales. A report from five laboratories of the Public Health Laboratory Service. 13396
Application of T.K.T. medium for screening bulk milk samples for Streptococcus agalactiae. 13398
Study of mastitis in Venezuela. 13998
Diffusion in the udder of dyes and antibiotics dissolved in dimethyl sulfoxide (DMSO). 14021
Salmonellosis incidence in gastro-enteropneumopathies in cattle. 15803

MILK FAT
Respiratory exposure of dairy animals to pesticides. in: Organic pesticides in the environment; symposium...American Chemical Society, Atlantic City, N.J., Sept. 13-15, 1965. robert J. gould, ed. 8576

MILK FEVER
Balance cows' minerals to defeat milk fever. 9089

MILK PRODUCTION
The effects of ICI 33828 and oxytocin on milk ejection and milk production in the lactating sow. 9074

MILKING
Pseudomonas aeruginosa contamination of a warm water system used for pre-milking udder washing. 13943

MILKY DISEASE
Milky disease bacteria. 12992

MILLET
Bacterial burning of leaves, a new disease in millet in Brazil. 12610
How you can control weeds in rapeseed. 13362

MILLING
Waldron, a new high-yielding HRS wheat. 11930

MIMICRY
Mimicry: The deceptive way of life. 8843
Mimicry of Hymenoptera by beetles with unconventional flight. 11883
Behavioral adaptations of cryptic moths. II. Experimental studies on bark-like species. 13681

MIMOSA
Presence of two tree vascular diseases confirmed in Arkansas. 9000

MINERAL OIL
Ovicidal efficiency of parathion and diazion for quarantine treatment of the Western tent caterpillar. 8376
Fungicidal sprays and their influence on disease, quality, and blemish in Valencia oranges at Mangrove Mountain. 10660
Insecticidal control of citrus pests in coastal central Queensland. 12684
Field evaluations in spray programs for control of the fruit-tree leaf roller on sweet cherry. 12694

MINERALIZATION (NUTRIENTS)
Effect of root fungus on mineral nutrition of the pine tree. 13774

MINERALS
Effects of dietary protein source upon nutrient balance in the baby pig. (Abstract). 10879
Magnesium deficiency and tissue ions. (Abstract). 10905
Effect of mineral nutrition on the fusarium brown foot-rot of wheat. 11494

Chemical factors of water in tree holes and related breeding of mosquitoes. 12512

Notice of filing of petition for food additive Disodium EDTA. 15785

MINETTIA OBSCURA

A case of partially reduplicated antenna in Minettia obscura (Loew) (Diptera: Lauxaniidae). 8867

MINKS

Diseases of mink. 8466

The pathogenesis of the glomerulopathy in Aleutian disease. (Abstract). 9077

Aleutian disease of mink: Infectious virus-antibody complexes in the serum. 9099

Electron microscopic observation of crystalline arrays of virus-like particles in tissues of mink with Aleutian disease. 9611

Growth of Aleutian disease virus in mink. (Abstract). 10885

Studies on the anemiogenic properties of trimethylamine oxide, an etiological factor in fish-induced anemia in mink. 13377

An outbreak of anthrax in mink. 14562

Pseudomonas infections in mink with special reference to Pseudomonas vasculitis in pulmonary lesions. 14598

MIREX

Fire on fire ants . 8322

Capsule controls fire ant. 9336

MIRIDAE

Some mirids from central Siberia (Heteroptera). 8685

New species and a revised key to the Hawaiian Cyrtopeltis Fieb. with notes on Cyrtopeltis (Engytatus) hawaiiensis Kirkaldy (Heteroptera: Miridae). 9283

Scalponotatus, a new genus near Slaterocoris, with descriptions of new species (Heteroptera: Miridae). 9296

Control of plant bug complex. 9368

Psallus ambiguus (Fall.) (Heteroptera, Miridae). Part II, Nutrition and role in the biocenosis of orchards. 9438

Adelphocoris minor nov. spec. (Heteroptera, Miridae). 9949

Additions to the genus Alloeonotus Fieber, 1878 (Heteroptera, Miridae). 9950

New Orthotylus and Pachylops species (Heteroptera, Miridae). 9951

Several Globiceps-species (Heteroptera, Miridae). 9952

Neotropical Miridae: CVII: a description of five new species from Ecuador. 11174

What is Dasyscytus sordidus Fieber 1864 (Hem. Het. Miridae). 14173

Record of Apollodotus praefectus distant (Heteroptera: Miridae), predacious on Stephanitis typicus distant (Heteroptera: Tingidae), a pest of coconut palm. 14848

MIST BLOWERS

Pesticide drift. II. Mist-blower vs. aerial application of sprays. 8555

Low volume fog and mist for ground use. 13228

MITES

Contribution to the knowledge of the genus Holostaspella Berlese 1903 (Acari: Mesostigmata: Macrochelidae). 8032

The response of a predator, Hypoaspis aculeifer (Canestrini) (Acarina:Laelapidae), to two species of prey. 8081

Effects of introduced irradiated male grain mites on population development. 8091

Feeding and reproduction of the grain and the mushroom mite on wood-inhabiting hymenomycetes. 8192

Lycopersicon an Solanum spp. resistant to the carmine and the two-spotted spider mite. 8343

Further studies on the Tarsonemidae, II (Acarina). 8672

Trithion-a new acaricide. 8814

Description of immature stages of Noctuiseius treati Prasad (Acarina: Phytoseiidae). 8836

Control of mites and aphids on and in bulbs. 8850

Esters of benzimidazolecarbamic acid as mite ovicides. Patent 3,427,388. 8851

A laboratory testing programme for assessing field performance of acaricides against Tetranychus urticae (Koch). 8857

Method of killing pests by application of a phosphoro derivative of alpha-(methylthio) cresol. Patent 3,427,384. 8875

Integrated chemical control of insects and biological control of mites on apple in Washington. 9010

Infection experiments with the cotton rat filaria Litomosoides carinii in Mastomys natalensis (Smith, 1834). 9127

Comparative toxicites of insecticides to house fly larvae and Macrocheles muscaedomestica, a mite predator of the house fly. 9168

Descriptions of some new cheyletid mites from the United Arab Republic. (Acarina: Cheyletidae). 9279

Preliminary results of a new seasonal investigation on brook Hydracarinae (Acari-Trombidi formes). 9341

The enemies of the predaceous mites as a reducing factor of spider mites. 9369

Some aspects of assessing efficiency of natural enemies. 9405

Preliminary observations on the biology of Amblyseius tardi Lomb. (Acarina-Phytoseiidae) a predator of Tetranychus urticae Koch. 9455

Bionomics of Androlaelaps casalis (Berlese) (Acarina: Laelapidae) a predator of mite pests of stored cereals. 9778

Ear mites of the genus Dicrocheles (Acarina: Mesostigmata) found on noctuids in Hawkes Bay. 9882

New species of beetle mites of the family Chamdbatidae (Oribatei) from the USSR. 9940

Recovery of mites from peat and mineral soils using a new floatation method. 9975

A model accounting for sympatry in water mites. 10076

The parasitism of gamasid mites (Gamasoidea) on birds. 10145

European red mite and two-spotted spider mite control on apples in California. 10236

Organophosphorus acaricides for controlling the two-spotted spider mite on strawberries. 10248

The incidence of demodectic mites in the eyelids of various mammalian hosts. 10363

New records of two nasal mites from Japanese rodents (Acarina: Epidermoptidae and Ereynetidae). 10496

Redescription of three species of Mealia Trouessart, 1897 (Acarina: Pyroglyphidae) from house dust in Japan. 10502

New species of mites from pine (Acarina: Tarsochelidae, Eupalopsellidae, Caligonellidae, Cryptognathidae, Raphignathidae, and Neophyllobiidae). 10507

Methods of quantitative determination of Rickettsia in ticks. 10537

Natural infection of chigger mites with Rickettsia tsutsugamushi on the Primorsky Territory. 10541

Studies on the environmental factors for the breeding of grain mites. Part IX. The effect of relative humidity on the age composition of the population of Lardoglyphus konoi. 10549

Acaraben miticide, brand of chlorobenzilate, for better rust mite control on Florida citrus. 10725

New dermanyssid mites (Acari: Mesostigmata) from nests of Spalax ehrenbergi Nehring. 11120

Some new species of the family Zerconidae from North America (Acarina: Mesostigmata). 11145

Three species of Eylais (Acari: Eylaidae) parasitic on aquatic Hemiptera. 11161

A re-description of Cryptognathus cucurbita Berlese 1916 (Acari, Prostigmata, Cryptognathidae). 11170

The conspicua species-group of Typhlodromina Muma 1961. 11180

A redescription of the Microthrombioiinae of Bolivia, originally described by J. Boshell and J. A. Kerr in 1942 (Acari, Thrombidiidae). (1st Part). 11193

Three genera of family Tenuipalpidae (Acarina) in the U. A. R. with description of three new species. 11218

Comparative toxicity (mammals, insects, mites) of new phosphorylate derivatives of aminoethylthiol. 11245

Concerning evolution by stages in certain arthropods. 11271

Overwintering phytoseiid mites in central Utah apple orchards. 11333

Life history and biology of Caloglyphus anomalus Nesbitt (Acarina: Acaridae). 11370

Aceria tulipae in North Dakota. 11546

Observations on the morphology and the histocytology of the virescent products of Eriophyes cladophthirus Nal. on Solanum dulcamara L.. 11547

Synthesis and pesticidal activity of phenazines II.--ALKYL, alkoxy, alkylthio and alkylsulphonyl phenazines. 11707

The question of applied terminology for development stages of mites of the suborder Sarcoptiformes. 11724

A new species of the genus Miyatrombicula from Azerbaijan. 11750

New entomophilous acari from China. 11758

New species of beetle mites of the subfamily Sphaerozetinae (Oribatei, Ceratozetidae). 11759

Acarine molting-the migration of hemocytes through the epidermis of Caloglyphus berlesei. 11841

Panonychus elongatus Manson (Acarina: Tetranychidae)-a description and comparison with P. citri (McG.). 11857

Newer insecticides for the control of grape insect and spider mite pests. 11886

Mites or red spiders on ornamentals. 11893

Observations on the biology of six species of acarid mites. 11900

The influence of spray programs on the fauna of apple orchards in Nova Scotia. XIX. Apple rust mite, Vasates schlechtendali, a food source for predators. 11925

Acarina associated with Michigan Bombinae. 12359

Observations on Rhypodes chiwai Usinger (Hemiptera: Lygaeidae). 12553

Toxicity, control, and residue studies with DO-14 (2-(p-tert-Butylphenoxy) cyclohexyl 2-propynyl sulfite) as an acaridicide against the citrus red mite. 12673

Insecticidal control of citrus pests in coastal central Queensland. 12684

Two new species of cheyletid mites from milled wheat (Acarina: Cheyletidae). 12952

Two new species of gamasid mites (Gamasoidea, Laelaptidae) from North Vietnam. III. 12963

Peculiarities of the fauna, ecology and geographic distribution of blood-sucking Arthropoda in Vietnam. 12964

The response of a predator, Hypoaspis aculeifer (Canestrini) (Acarina:Laelapidae), to two species of prey. 13010

Age grading of mosquitoes from parasitic mites. 13058

Some effects of anoxia and hypoxia on the European red mite, Panonychus ulmi (Acarina: Tetranychidae). 13111

Arthropoda associated with a nest of the Hawaiian crow. 13135

Dispersal of Bryobia spp. and Typhlodromus mcgregori Chant within apple trees in Central Utah. 13316

The scientific results of the Hungarian soil zoological expeditions to South America. 13. Acari: Pygmephoridae and Scutacaridae from the material of the second expedition (Brazil and Bolivia). 13573

Some new Oribatei from xerotherm soil of central Spain (Acarina). 13576

The Lohmanniidae of Spain (Acari, Oribatei). 13583

Kernel red streak of dent corn. 13821

Reaction of dent corn inbreds and hybrids to Aceria tulipae and wheat streak mosaic virus. 13861

Oribatid mite fauna in Sarobetsu Moor in northern Hokkaido, Japan. 14138

Plictran miticide-New approach to mite control. 14202

Hawk moths with mites. (Lep. Sphingidae). 14222

Structural peculiarities of the mouth parts in certain gamasid mites (Parasitiformes, Gamasoidea) in relation to their transition to haematophagy. 14230

Hydrolysis of acetylthiocholine and butyrylthiocholine by cholinesterases of insects and a mite. 14261

Sparrow mite Dermanyssus passerinus Berl. et Trouess, 1885. 14282

Influence of pesticides on russeting of Golden Delicious apples. 14487

Hard-to-kill pests of fruit trees;the mites. 14488

Studies on the insecticide resistance of the tea red spider mite, Tetranychus kanzawai Kishida. II. The mite resistance to phenkapton, estox, and kelthane in the tea growing areas in Japan. 14493

Transmission experiments with the latent Prunus-virus and the gall mite Vasates fockeui Nal. 14495

Some aspects of mange in man and domestic animals. 15196

A mite infestation in squirrel monkeys (Saimiri sciureus). 15198

Grain storage fungi associated with mites. 15228

On the transmission of fig mosaic virus by the gall mite Aceria ficus Cotte. 15565

Mites, pests in gardens and living rooms. 15620

Tree insects and mites. 15639

Tree insects and mites. 15640

The two spotted (carmine) spider mite (Tetranychus cinnabarinus Boisd.) on apple in Israel. 15657

MITOCHONDRIA

Relative hypertrophy of the mouse's right kidney. 8460

An electron microscope study of nebenkern formation and differentiation in spermatids of Murgantia histrionica (Hemiptera, Pentatomidae). 8837

Ancylostoma caninum: Fine structure of intestinal epithelium. 10377

Substrates oxidation of tricarboxylic acid cycle in hepatopancreas mitochondria of Astacus leptodactylus (ESCHZ). 10835

Some data on bioenergetics of the larvae of Trichinella spiralis. 10846

Uncoupling effect of cytoplasmic fraction of Trichinella spiralis larvae on bioenergetics of rat muscle mitochondria. 10878

Effect of trifluralin on oxygen uptake and oxidative phosphorylation in isolated mitrochondria. (Abstract). 11018

Comparison of binding and inhibitory properties of piericidin A and rotenone in submitochondrial particles. (Abstract). 11064

Association of pepper ringspot virus (Brazilian tobacco rattle virus) and host cell mitochondria. 11479

The energy-dependent accumulation of phosphate by blowfly mitochondria and its effect on the rate of pyruvate oxidation. 11826

Some properties of mitochondria and ribosomes of infected plant tissues. 11932

Soybean mitochondrial response to prometryne and fluometuron. 12731

Effects of 2,4-D and other herbicides on oxidative phosphorylation in mitochondria from cabbage. 12902

Mitochondrial oxidations of fatty acids in the blowfly, Lucilia. 13621

Biochemistry of malignant growth. 13997

Ultrastructural modifications of the secretion cells of the prothoracic gland to themselves during the last two larval stages. I. The chondriosome, and its relationship with the granular reticulum. 14181

The fine structure of hyphae of Helminthosporium oryzae Ito et Kurib. and Pyricularia oryzae Cavara. 14679

Association of tobacco rattle virus with mitochondria. 15517

MITOMYCIN C

Facet-inhibitory effect of certain chemicals on the compound eyes of Drosophila melanogaster. 11839

MITOMYCIN-C

Effect of mitomycin-C on the development of the eye-disks in Drosophila melanogaster. 9401

Influence by mitomycin on the bristle differentiation and pattern structure in Drosphila melanogaster. 9487

MITOSIS

Investigations of the morphology and development of the scolopidia in the stick insect Carausius morosus Br. 8141

Tobacco mosaic virus in dividing mesophyll cells of Nicotiana. 8290

Autoradiographic study of the effect of Newcastle disease virus on the mitotic cycle of cells. 8456

The physical action of viruses on the plant cell. 9564

The effects of hydroxyurea on cultured somatic cells of the Chinese hamster, Cricetulus griseus. 9733

The mode of action of maleic hydrazide: Inhibition of growth. 10444

Early stages of aflatoxin carcinogenesis in normal and lipotrope-deficient rats. (Abstract). 10888

A histological and biometrical study of wing development in the grasshopper Melanoplus lakinus. 11232

Liquid nitrogen fixation: A new method for hemocyte counts and mitotic indices in tissue sections.
11814

The action of indoleacetic acid and kinetin on the mitotic cycle of proliferative and stationary phase excised root meristems.
12297

Tobacco mosaic virus in dividing mesophyll cells of Nicotiana.
12607

The pupation rhythm in Aedes taeniorhynchus (Diptera: Culicidae). V. Physiology of growth and endogenous diurnal rhythm of pupation.
13102

Karyotypes and sex determination in spider mites (Tetranychidae).
13719

The effects of ligaturing Galleria mellonella larvae on total haemocyte counts and on mitotic indices among haemocytes.
14218

The details of endomitosis in the sericeous glands of Galleria mellonella (Insecta Lepidoptera).
14247

The regulatory effect of gibberellic acid and cytokinins on fruit maturation and ripening. (Abstract).
14300

Genetic control of pattern determination in Drosphila. II. Nonrandom distribution of mosaic tissues.
14897

MIYAGAWANELLA GROUP VIRUSES

The inactivation of genus Miyagawanellae microorganisms with the use of chloramine group chemicals. I. (JPRS 45275)
10858

Partial purification of the organism of psittacosis grown in chicken embryo yolk sac.
13374

Prevention of abortions in dairy cattle due to a psittacosis-lymphogranuloma venereum (bedsonia) agent by treatment with tetracycline (a field trial).
13934

MOBAM

Effectiveness of insecticidal residues on U. S. Army. tenting against Anopheles ssp..
15440

MODELS

Parasites as biological models.
8507

The appraisal of delayed and direct density-independence.
9395

Some aspects of assessing efficiency of natural enemies.
9405

Logarithmic regression as an index of responses to population density.
9433

The toxicity to Tribolium castaneum (Herbst) (Coleoptera, Tenebrionidae) of mixtures of pyrethrins and piperonyl butoxide: Fitting a mathematical model.
10031

The influence of gamma-irradiation upon the population dynamics and sex ratio in model populations of Drosophila melanogaster.
11888

Genetic homeostasis in Drosophila melanogaster.
11895

Systems analysis of a host-parasite interaction.
12201

MOISTURE CONTENT

Study on the determination of the moisture content in the fungicides with a dithiocarbamic base.
12309

MOLDS

Survey uncovers promising antibiotic.
9069

Propargyl 2-bromodecanoate. Patent 3,427,333.
9195

Moldy carpels in delicious apples on the greater New York market.
10627

Mycology.
10664

Control of Byssochlamys and related heat-resistant fungi in grape products.
11662

Now is the time to control brown rot.
12012

The growth of storage fungi and aflatoxin production in corn as related to moisture and temperature.(Abstract).
12203

Some black mildew sooty mold and fly speck fungi and their hyperparasites from Dominica.
12594

Preparation of dehydrated tomato powder samples for Howard mold count.
14650

The role and importance of mold in the occurrence of alimentary intoxications in swine. (1.Experimental toxication of piglets with mold feed).
15802

MOLECULAR WEIGHT

Naturally occurring low-molecular-weight peptides from the blowfly Phormia regina.
8713

The N-terminal amino acid of an avian leukosis group-specific antigen from avian myeloblastosis virus.
9057

MOLECULES

Molecular structure and pH effects on the adsorption of 13 s-triazine compounds on montmorillonite clay. (Abstract).
11078

MOLINATE

Factors affecting the performance of molinate for control of weeds in rice. (Abstract).
10815

MOLLUSCACIDES

Nitrophenyl carbamic acid esters as molluscicides. Patent 3,458,639.
8442

Use of metaldehyde as dusts and sprays to control the giant African snail Achatina fulica Bowdich.
10319

Observations on the control of Achatina fulica Bowdich, the giant African snail with methldehyde.
10320

Tropical Pesticides Research Institute, annual report, 1966.
10611

Preliminary observations on the control of Fasciola hepatica with the molluscicide N-tritylmorpholine.
10911

Tributyltin molluscicides. Patent 3,439,098.
11817

Studies on the control of Galba truncatula in large pastures. II. The effect of snail control on the extensiveness of infection in cattle.
12862

MOLLUSKS

Tributyltin molluscicides. Patent 3,439,098.
11817

Host specificity as evidenced by species of Fasciola.
12841

MOLTING (INSECTS)

Post-ecdysal setal development in the Aleyrodidae (Hemiptera).
9372

The neurosecretory cells of the brain of Aedes aegypti in relation to larval molt, metamorphosis and ovarian development.
9413

The fundamental schema of oogenesis in the firebrat Lepismodes inquilinus (Thysanura, Lepismatidae) and its periodisation in connection with imaginal moulting cycles.
9459

Biochemical and physiological studies of certain ticks (Ixodoidea). Experimental feeding of Argas (Persicargas) arboreus Kaiser, Hoogstraal and Kohls (Arcasidae) through membranes.
9484

Oenocytes: form and function.
10093

Effects of exogenous moulting hormones on puparium formation in Calliphora.
10130

Structure of capitasterone, a novel C29 insect-moulting substance from Cyathula capitata.
10565

Occurrence of the non-moulting tiny silkworms caused by inoculation of the flacherie (F) virus.
10573

Correlation of cellular activity in Weismann's ring with molting cycles in larvae of Musca autumnalis.
11231

Changes in haemolymph and cuticle proteins during the molting process in the American cockroach.
11273

On the ability of the female imaginal corpora allata to induce supernumary molt in Bombyx mori L.
11275

Nutritional studies on excessive larval molting in the silkworm Bombyx mori.
11306

Larval aggregation formation and population density interrelations in Aedes taeniorhynchus, their effects on pupal ecdysis and adult characteristics at emergence.
11358

Larval moulting cycle and DNA synthesis in Drosophila hydei salivary glands.
11804

Acarine molting-the migration of hemocytes through the epidermis of Caloglyphus berlesei.
11841

Relationship of size of fecal pellets to larval molts in Lepidoptera.
12529

Phosphomonoesterase activity in the life-cycle stages of Schistocerca gregaria.
13100

The pupation rhythm in Aedes taeniorhynchus (Diptera: Culicidae). V. Physiology of growth and endogenous diurnal rhythm of pupation.
13102

Study of the infrastructure of the molting glands of Locusta migratoria migratorioides (R. and F.). I. Cyclic development during the larval stages and production of the secretion product, ecdysone.
14742

MOLYBDENUM

Plant treatment in relation to the rhizosphere effect. III. Foliar application of certain trace elements and metallic chelates in relation to the rhizosphere microflora of rice (Oryza sativa L.).
8588

Factors affecting trace and minor elements in hill sheep pastures.
10589

Experiments on the control of whiptail in cauliflower.
13242

Studies on the molybdenum availability. Part II. The effect of molybdenum and calcium treatment on the uptake of molybdenum by plants.
14091

Effect of different forms and levels of phosphorus in presence and absence of molybdenum on growth and yield of berseem.
15282

The effect of molybdenum on the amino acid content in beans.
15293

MOLYBDENUM POISONING

Hematopoiesis and epiphyseal growth zones in rabbits with molybdenosis.
9183

MOMPHIDAE
Materials concerning the knowledge of the palearctic Momphidae (Lepidoptera). Part VIII. Distribution of the Momphidae in Poland. 10504

MONIEZIA EXPANSA
Observations on the nephridial system of the cestode Moniezia expansa (Rud., 1805). 8499
The oxidase systems of Moniezia expansa (Cestoda). 11644

MONILIA LAXA
Monilia laxa as an important factor reducing the yield of some plum varieties (Monilia laxa (Ehrenb.) Aderh. et Rubl.). 9596

MONILIALES
Emendation of the genus Streptoverticillium Baldacci (1958) and revision of some species. 10590
A survey of pawpaw debility in Tanzania. 11496
Fundamental studies on ergotial fungi, (6). Fungi ediphytic and parasitic on ergot and honeydew. 14926

MONILIASIS
A candidiasis in larvae of the Douglas-fir tussock moth, Hemerocampa pseudotsugata. 11339
Studies on the monilia disease of the apple caused by Monilinia mali (Tak.) Nhetzel. 14386

MONILINIA FRUCTICOLA
Brown rot of stone fruits on the Murrumbidge irrigation areas. II. Aetiology of the disease in Trevatt apricot trees. 13788
Brown rot of stone fruits on the Murrumbidge irrigation areas. I. Aetiology of the disease in canning peaches. 13789

MONKEYS
Vesicular stomatitis virus infections in Panamanian primates and other vertebrates. 9119
Parbendazole in treatment of intestinal nematodes of dogs and monkeys. 9775
Action of honey bee venom on development of epithelial cellular cultures of monkey's kidneys. 9997
Formation of tobacco mosaic virus in an animal cell culture. 10616
Effects of chronic endrin administration on brain electrical activity in the squirrel monkey. (Abstract). 10951
Safety evaluation of the pesticide diazinon by a two-year feeding trial in Rhesus monkeys. (Abstract). 10955
Gas chromatographic analysis of phorate and five metabolites in monkey liver homogenates. 11674
Massive pulmonary acariasis in the pig-tailed macaque. 12188
A device for protecting experimental huts from molestation. 12536
PAM 1392 (2,4-diamino-6-(3,4-dichlorobenzylamino) Quinazoline) as a Chemotherapeutic agent: Plasmodium berghei, P. cynomolgi, P. knowlesi, and Trypanosoma cruzi. 12803
Experimental aerosal transmission of yaba virus in monkeys. 14623
A mite infestation in squirrel monkeys (Saimiri sciureus). 15198

MONOAMINE OXIDASE
Treatment of infectious canine hepatitis with a monoamine oxidase inhibiting drug. 9693

MONOCHAETIA KANSENSIS
A new leaf spot of Chinese chestnut in Mississippi. 13824

MONOCTONUS
The natural control of the apple-grass aphid, Rhopalosiphum insertum, with remarks on the control of apple aphids in the Netherlands in general. 8752

MONOLINURON
Monolinuron in increase of grain. 14520
Experiments on the behavior of Monolinuron III. Influence on the biological activity of soil in comparison with other soil herbicides. 15050

MONOMETHYL 2,3,5,6-TETRACHLOROTEREPHTHALATE
Notice of filing of petition regarding pesticide chemicals. 12215

MONOMORIUM PHARAONIS
Ants indoors. 13424

MONONCHUS
Eelworms-a progress report on a few more groups found in North-East Indian tea soils. 9025

MONOSODIUM ACID METHANEARSONATE
Repeated, foliar applications of herbicides on johnsongrass. 10291
Control of johnsongrass on drainage ditchbanks in sugarcane. 10297
Metabolism of monosodium methane arsonic acid by soil microorganisms. (Abstract). 10927
Wild oats control in wheat. 15120
Plant and soil arsenic analyses. 15750

MONTMORILLONITE
Molecular structure and pH effects on the adsorption of 13 s-triazine compounds on montmorillonite clay. (Abstract). 11078

MONURON
African feather grass--a weed worth watching. 10279
Vegetative stimulation of concord grapes following weed control with diuron, monuron, and simazine. (Abstract). 10975
Monuron degradation and recovery of monuron-inhibited photosynthetic activity. (Abstract). 11042
Weed control in a winter wheat-fallow rotation. 12711
Metabolic fate of monuron and diuron in isolated leaf discs. 12909
Translocation of eight C14-labeled amino acids and three herbicides in two varieties of barley. 13921
Microsomal N-demethylation, by a cotton leaf oxidase system, of 3-(4'-chlorophenyl)-1,1-dimethylurea (monuron). 14675

MOORS
Oribatid mite fauna in Sarobetsu Moor in northern Hokkaido, Japan. 14138

MOOSE
Pneumostrongylus tenuis in moose on a deer-free island. 10375

MORACEAE
Host-parasite relationships of various plants and the hop cyst nematode, Heterodera humuli. 8391

MORAXELLA BOVIS
Infectious bovine kerato-conjunctivitis: A review. 14018
Kerato-conjunctivitis in cattle in the plateau area of Northern Nigeria. A study of Thelazia rhodesii as a possible aetiological agent. 14634

MORDELLIDAE
Mordellistena pumila group in Finland (Coleoptera, Mordellidae). 9941
New Mordellidae from Europe, North Africa and the Near east. 59. Contribution to the knowledge of the Mordellidae. 13546
A new Hoshihananomia species from Ussuri (Coleoptera, Mordellidae). 63. Contribution to the knowledge of the Mordellidae. 13547

MORGANIA HISTRIO TRANSVAALENSIS
Biological notes on the bee Tetralonia minuta and its cleptoparasite, Morgania histrio transvaalensis (Hymenoptera: Anthophoridae). 10109

MORPHOLOGY
New species of Ceratocystis associated with bark injuries on deciduous fruit trees. 8289
Teliospore morphology of some smut fungi. II. Light microscopy. 8300
The structure of the respiratory syncytial virus. 8461
Ultrastructural studies on the sporozoite of Eimeria tenella. 8476
The vulvar region of Haemonchus contortus (Nematoda Trichostrongylidae) in Spanish sheep, with the description supporting possible subspecies, H. contortus hispanicus. 8496
Observations on the nephridial system of the cestode Moniezia expansa (Rud., 1805). 8499
The ultrastructure of the intestinal epithelium of Metastrongylus sp. (Nematoda: Strongyloidea). 8501
Morphological and histochemical studies on the larval stages of Metastrongylus spp. (lungworms of swine) in the earthworm intermediate host, Eisenia foetida, Savigny 1826. 8506
The excretory system of the kidney worm Stephanurus dentatus (Nematoda). 8512
Serological and morphological studies on the inter- and intraspecific differences of the plant-parasitic nematodes Hetcrodera and Ditylenchus. 8514
The fine structure of the protonephridial system in the miracidium of Fasciola hepatica. 8515
The toxicity and sublethal effects of p p'-DDT and dieldrin to Aglais urticae (L.) (Lepidoptera: Nymphalidae) and Chorthippus brunneus (Thunberg) (Saltatoria:Acrididae). 8550
The fine structure of Babesia ovis (Piroplasmidea) in Rhipicephalus bursa (Ixodoidea): Transformation of spherical forms to vermicules. 8754
On the Schizophyta-like appearance of the flagella of termite symbionts. 8790
A new virus of Drosophila melanogaster, virus P1. 8835

The relation of climatic factors to the duration of the development of Heterodera schachtii in Slovakia (CSSR). 9028

Study of the thermosensitive mutants of the vesicular stomatitis virus. Evidence from a complement test. 9071

Morphology, physiology, and serology of a Pasteurella species pathogenic for white perch (Roccus americanus). 9081

Effect of mitomycin-C on the development of the eye-disks in Drosophila melanogaster. 9401

Influence by mitomycin on the bristle differentiation and pattern structure in Drosphila melanogaster. 9487

Identity of sporopollenin with older kerogen and new evidence for the possible biological source of chemicals in sedimentary rocks. 9525

Further studies on Leucocytozoon caulleryi in domestic fowls in the Philippines. 9685

Colic of the horse and autonomic nervous disturbances. Patho-morphological investigations. 9711

The effect of time and season on the constancy of morphology in Haemonchus contortus cayugensis infections. 9766

Studies on stephanofilariasis in Orissa. II. Dermatitis due to Stephanofilaria assamensis Pande, 1936, in the Murrah buffalo (Bos bubalis) and the beetal buck (Capra hircus) with remarks on the morphology of the parasite. 9771

Studies on eight morphological variant females of Haemonchus similis Travassos, 1914 (Nematoda, Trichostrongylidae) from Indian cattle (Bos indicus). 9773

Experimental infections with Bacillus larvae. I. A strain with a morphological marker. 10020

Eimeria tenella schizonts and merozoites in macrophages as shown by electron microscopy. 10354

The development of the body wall of Polymorphus minutus (Acanthocephala) in its intermediate host Gammarus pulex. 10370

The fine structure and method of feeding of the tissue parasitizing stages of Histomonas meleagridis. 10378

Spirurata of animals and humans and the diseases. 10382

Particle shape of southern sannhemp mosaic virus. 10615

A tentative arrangement of the genera in Actinomycetales. 10617

Streptomyces avellaneus and Streptomyces libani: Two new species characterized by a hazelnut brown (avellaneus) aerial mycelium. 10618

The nucleic acid type and effect of pH and hydroxylamine on canine distemper virus. 10873

Changes in gland volume during the post-diapause development in embryos of Aulocara elliotti (Thomas) (Orthoptera, Acrididae). 11291

Stylet-bearing nematodes associated with plants in Iowa prairies. 11558

Pasteurellosis: Pasteurella multocida and Pasteurella hemolytica. 11592

The morphological and biological status of two enteric protozoa investigated in domestic ducks and geese in Egypt. 11598

Morphogenesis and migration of Ascaris suum larvae developing to fourth stage in swine. 11645

Critical studies on the incidence and biological peculiarities of hydatid pathogens, Echinococcus granucosus and Echinococcus multilocularis in West Pakistan. 11649

The influence of some physical factors on the exogenous development of the eggs of Trichocephalus trichiurus and Ascaris lumbricoides under laboratory conditions. 11652

Excitatory and inhibitory motoneurons in the central nervous system of the leech. 11655

Development of Foleyella philistinae Schacher and Khalil, 1967 (Nematoda: Filarioidea) in Culex pipiens molestus with notes on pathology in the arthropod. 11877

Calonectria uniseptata n. sp., the hitherto unknown perfect stage of Cylindrocladium scoparium Morgan. 11974

Fusarium oxysporum (Schlecht.) Snyd. et Hans.- A dominant fungus species on the root-surface of woody plant seedlings. 11988

Micromorphological changes of wood through the decomposition caused by fungi. 11995

Light intensity and duration in the development of lettuce tipburn. 12033

The effect of hydrochloric acid and gastric juice on some morphological changes of Trichomonas intestinalis. 12771

Spirurata of animals and humans and their diseases. 12858

Research and observations on the texture and structure of Donacia cocoons. 13120

Ultrastructure of fungi. 13241

Rapid transformation of cells by Rous sarcoma virus. 13382

Morphological observations on Fasciola gigantica Cobbold, 1855, with remarks on the validity of Fasciola indica Varma, 1953. 13392

The citrus nematode, Tylenchulus semipenetrans. 13881

Comparative consideration of the morphology and genesis of new growths. 13944

Characteristics of Corynebacterium renale phage. 14019

Earthworms, Eutyphcus waltoni and Pheretima sp. as transport-hosts of swine kidney worm, Stephanurus dentatus in Bihar, India. 14025

Oviposition sites and the viability of eggs of Thymelicus lineola (Ochs.) (Lepidoptera: Hesperiidae). 14253

The regulatory effect of gibberellic acid and cytokinins on fruit maturation and ripening. (Abstract). 14300

Fruiting response of the highbush blueberry to applied gibberellic acid under field conditions. (Abstract). 14308

Regulation of growth, flowering and fruit abscission of apples and peaches with Amchem 66-329. (Abstract). 14309

Effects of N-dimethylamino succinamic acid on the size of potatoes. (Abstract). 14311

Effects of CIPC applications to individual eyes of potato tubers on type and pattern of sprout development. 14320

The effects of Alar on red tart cherries (Prunus cerasus). 14335

Investigations concerning a root rot on Phalaenopsis hybrids and its causative agent (Fusarium oxysporum). 14363

The sugar beet nematode. 14504

A morphological and biological concept of the species Ceratocystis fimbriata. 14696

Occurrence of Hirsutella versicolor Petch on mango leaf hopper (Idiocerus sp.) in India. 14805

Additional nematophagous fungi from Delhi soils. 15044

The salivary gland chromosomes of Prosimulium multidentatum Twinn and three forms included in Prosimulium magnum (Dyar and Shannon) (Diptera: Simuliidae). 15438

Contribution to the study of soybean bacterial disease in western Serbia. 15471

The current status of the knowledge of the X group of potato viruses. 15476

Identification, purification and immuno-electrophoretic analysis of the carnation mottle and ringspot viruses. 15490

Techniques for the detection of enzootic leukosis in cattle. Value of the blood test. Possible errors. 15769

Studies on avian malaria in Japan. I. Life cycle, especially exoerythrocytic growth of the parasite. 15821

Experimental studies on ancylostomiasis in cats. III. Egg culture of Ancylostoma tubaeforme Zeder, 1800 and Ancylostoma caninum Ercolani, 1859. 15826

MORTALITY

Research with ionizing irradiation on the sterilization and radiosensitivity of Chrysomela decemlineata Say. 8096

Laboratory study of the ecological conditions favoring the development of the fungus Beauveria tenella on cockchafer larvae. 8116

Biological investigations on Pandemis heparana (Den. and Schiff.) with special consideration given to the factors inducing diapause and influencing egg laying. 8155

Effects of sub-lethal dosages of parathion and carbaryl on the biology of Dysdercus koenigii Fabricius. 8191

Sterility, lethality and segregation ratios in XYY males of Drosophila melanogaster. 8233

Grain aphids in New brunswick. IV. Effects of malathion and 2,4-D amine on aphid populations and on yields of oats and barley. 8320

A nucleopolyhedrosis virus in populations of the Douglas-fir tussock moth, Hemerocampa pseudotsugata, in California. 8335

MORTALITY

Dieldrin effects in two generations of penned hen pheasants.
8537

Malathion-induced teratisms in the developing chick.
8564

Response of robins to DDT and methoxychlor.
8565

Mortality, longevity, and fecundity of spider mites on cotton treated with systemic acaricides.
8692

The action of Tepa on the adults of Dacus oleac Gmel. (Diptera: Tephritidae) as a function of the quantity of the chemosterilant used.
8757

Toxicity of ouabain (G-Strophanthin) to adult house flies.
8764

Simultaneous infection with the nucleopolyhedrosis and granulosis viruses of Trichoplusia ni.
8800

Experiments with Beauveria bassiana (Bals) Vuill. against Blastophagus piniperda L. (Col., Scolytidae).
8822

The group effect in the tests on insecticide resistance in Aedes aegypti.
8847

Pattern of cell death in sorghum stalk tissue as a measure of the susceptibility to spread of Colletotrichum graminicola in fifty-five sorghum varieties.
8965

Additional evidence of multiplication of the sowthistle yellow vein virus in an aphid vector-serial passage.
9024

Response of robins to DDT and methoxychlor.
9152

Mortality of the earthworm Lumbricus terrestris L. following soil applications of insecticides to a tobacco field.
9175

Rearing the forest tent caterpillar on an artificial diet.
9332

Population dynamics of the weevil Sitona regensteinensis (Hbst.) on broom.
9363

Tests on the control of Prays citri Mill. by means of Bacillus thuringiensis. (preliminary report).
9389

Biotic factors influencing populations of Dacus dorsalis in Hawaii.
9437

Population studies on two species of Psyllidae (Homoptera, Sternorhyncha) on broom (Sarothamnus scoparius (L.) Wimmer).
9495

Cytogenetics of ticks (Acari: Ixidoidea). 5. Comparative survival of three species of Dermacentor (Ixodidae) following etherization.
9514

Duck plague virus distribution in embryonating chicken and duck eggs.
9692

Effect on mortality of semipurified diets versus natural feedstuffs fed to chickens infected with Eimeria tenella.
9722

B parathiphosis of young pheasants.
9744

The influence of the rearing temperature on larval and pupal mortality and the duration of development of Drosophila.
9995

The influence of ecological and genetic factors on the birth and death of Macrocheles robustulus (Berlese,1904).
10005

The effect of pupal predators on a population of winter moth, Operophtera brumata (L.) (Hydriomenidae).
10010

Diplogasterid nematodes (Diplogasteridae: Rhabditida) and their relationship to insect disease.
10094

Oviposition and hatching in two species of ticks in relation to moisture deficit.
10119

The histopathology of a nuclear polyhedrosis in larvae of the cabbage looper, Trichoplusia ni, related to symptoms and mortality.
10134

Comparison of mycelial and Sclerotial inoculum of Macrophomina phaseoli in the mortality of pine seedlings under varying soil conditions.
10225

Susceptibility of several forest insects of British Columbia to commercially produced Bacillus thuringiensis. II. Laboratory and field pathogenicity tests.
10257

Arrestant-feeding stimulant as an additive to shell SD-8447 for control of corn earworm larvae in sweet corn.
10732

Prophylactic efficacy of nifursol against histomoniasis in turkeys 4-9, 8-13, and 13-18 weeks of age. (Abstract).
10897

Observations on the effect in mice of concurrent infections with migratory Ascaris columnaris larvae and certain neurotropic arboviruses.
10912

Artificial diet for the adult froghopper.
11284

A disease of the honey bee causing behavioral changes and mortality.
11321

A method for determining the dosage-mortality curve of malathion against the pea aphid, Acyrthosiphon pisum (Harris) (Homoptera: Aphididae).
11365

Further experiments with Saturnia pavonia L. (Lep., Saturniidae).
11421

Factors influencing the ratio of males to females in the genus Heterodera. II. Minimum living space--selective rate of mortality of sexes--sex ratio (Heterodera schachtii).
11552

Effects of feeding provitamin A, stabilized vitamin A and furazolidone on production and quality of eggs.
11681

Migrations of Hippelates collusor larvae from moisture and trophic stimuli and their encounter by Trybliographa para-.
11848

Experiments to control wheat bulb fly with a flame thrower.
12070

Leptospirosis.
12137

Research on the resistance of microfilariae of Dirofilaria repens at different temperatures.
12162

The effect of high levels of dietary DDT on egg production, mortality, fertility, hatchability and pesticide content of yolks in Japanese quail.
12210

Poisons that hit and run.
12223

The regulation of population density in the bark beetle Scolytus scolytus (F.).
12411

A study of the mortality factors acting upon Cyzenis albicans (Fall.), a tachinid parasite of the winter moth (Operophtera Brumata (L.)).
12462

Toxicity of certain pyrethroids and carbamates to the CS strain of Oncopeltus fasciatus.
12469

X-ray radiation effects on survival and sterility of adults of the cereal leaf beetle.
12500

Observations on Rhypodes chiwai Usinger (Hemiptera: Lygaeidae).
12553

Competition and survival among the corn earworm, the tobacco budworm, and the Fall armyworm.
12555

Variation in the response to endrin of progeny from pairs of bollworms.
13002

Some population parameters for the grain mite, Acarus siro.
13039

Preliminary studies on the effects of gamma irradiation of eggs and adults of the southern green stink bug, Nezara viridula (L.).
13087

Some effects of anoxia and hypoxia on the European red mite, Panonychus ulmi (Acarina: Tetranychidae).
13111

An experimental study of the mortality factors of larval Musca autumnalis DeGreer.
13139

The relative susceptibility of the larvae of Spodoptera mauritia acronyctoides (Guenee) (Lepidoptera: Noctuidae) to several contact insecticides.
13300

The effects of synergized pyrethrins and lindane on pre-emergence mortality of Acanthoscelides obtectus (Say.) (Coleoptera: Bruchidae).
13314

Use of growth retardants on chrysanthemums: Effect on pest populations.
13331

A procedure for collecting all of the Formica polyctena rejections from the nest.
13616

Fertilization in Drosophila. III. A revaluation of the role of polyspermy in development of the mutant deep orange.
13633

Preliminary toxicity studies on the yellowjacket Vespula pensylvanica (Saussure) in California.
13644

Campaign against Citrus psylla in Kangra District (Himachal Pradesh).
13831

Biology and control of citrus psylla Diaphorina citri Kuw.
13847

Prophylactic treatment of storage receptacles for the control of Pulse bettle, Pachymerus chinensis Linn.
13855

Rabies in bats in the south-eastern United States.
13942

A study of the antianemic and zootechnic efficacy of a complex iron-dextrin vitamin.
13979

Zebra fish eggs and larvae as aflatoxin bioassay test organisms.
14060

Temperature dose relationships with aflatoxin on the brine shrimp, Artemia salina.
14061

Effect of population density on the larval coloration and development of larva and pupa in the larger pellucid hawk moth, Cephonodes hylas L. (Lepidoptera' Sphingidae).
14121

Use of a non-absorbent barrier in rearing pupae.
14180

The viability of brown locust eggs (Locustana pardalina (Walker)).
14188

Natural mortality of overwintering eggs of Longiunguis donacis (Pass.).
14266

Effects of gamma irradiation on prickly pear cactus.
14325

Sex differences in embryonic response to Eimeria tenella infection. 14579

Histopathologic and hematologic changes in moribund stages of chicks infected with T-virus. 14600

Warfarin treatment of mice bearing autochthonous tumors: Effect on spontaneous metastases. 14608

The effect of temperature on the pathogenicity of the fungus, Ascosphaera apis, for larvae of the honey bee, Apis mellifera. 14787

The effect of acclimation and glycerol injection on mortality and pupation in larvae of Ephestia kuehniella after exposures at low temperatures. 14882

Bird mortality by chlorinated hydrocarbon pesticides. 15240

Contributions to the study of one aspect of the resistance to insecticides. II. The shock effect multiple or discontinuance insect-insecticide contact. 15358

Effects of ultraviolet radiation on adults of Aedes aegypti (L.) (Diptera: Culicidae). 15451

Aspergillosis of ducklings. 15776

MORUS

Soil condition and the violet and white root rot diseases of fruit trees. 14343

Studies on dwarf disease of mulberry tree. XVI. On two strains. 14461

A combination of poultry-raising with mulberry-tree-growing and sericulture. 15362

MORUS ALBA

Observations on the occurrence of pests of white mulberry (Morus alba L.) in Poland. 10727

MOSAIC

Tobacco mosaic virus in dividing mesophyll cells of Nicotiana. 8290

An electron microscopy study of the penetration of tobacco mosaic virus into leaves following experimental inoculation. 8292

Identification of viruses isolated from cowpeas in Alabama. 8295

Degradation of turnip yellow mosaic virus by freezing and thawing in vitro: a new method for studies on the internal organization of the viral components and for isolating native RNA. 8299

Fluorescent antibody staining of tobacco mosaic virus antigen in tobacco mesophyll protoplasts. 8307

Contribution to the migratory behavior of Xiphinema diversicaudum (Mikoletzky) Thorne, X. coxi Tarjan and Longidorus macrosoma Hooper, as well as the diffusion of rhubarb mosaic virus in the field. 8382

Distribution of wheat streak mosaic virus-like particles in Aceria tulipae. 8876

The pitch of tobacco mosaic virus. 8948

Effect of TMV multiplication on RNA and protein synthesis in tobacco chloroplasts. 8956

Purification of soybean mosaic virus. 8958

Reversible dissociation of cucumber mosaic virus (strain S). 8964

The disassociation and reassociation of the proteins of the RNA in the lucerne mosiac virus. 8968

The production of new types of symptoms by mixtures of different components of two strains of alfalfa mosaic virus. 8970

Partial reconstitution of tobacco mosaic virus. 8993

Suppression of ozone toxicity symptoms in virus-infected tobacco. 9551

Specific inhibition of TMV-RNA synthesis by blasticidin S. 9569

Intracellular appearance of turnip mosaic and bean yellow mosaic particles. 9573

Dicarbamate derivatives of alkyladamantanes. Patent 3,450,744. 9585

Disruption of watermelon mosaic virus-induced inclusions by phosphotungstate. 9595

Sowbane mosaic virus infecting Chenopodium trigonon in Queensland. 9610

The mite Aceria tulipae (Eriophyidae)--vector of the onion mosaic virus. 9641

Properties of single- and double-stranded ribonucleic acid from barley plants infected with bromegrass mosaic virus. 9834

Interaction between chilli mosaic and powdery mildew in tobacco. 10176

Effect of cytokinins on tobacco mosaic virus production in local-lesion and systemic hosts. 10204

Studies on the biosynthesis of TMV. I. A system approaching a synchronized virus synthesis in a tobacco leaf. 10210

A necrotic type virus occurring on a weed in Germany. 10227

Particle shape of southern sannhemp mosaic virus. 10615

Formation of tobacco mosaic virus in an animal cell culture. 10616

Incidence of mosaic on yields of sugar cane varieties. 10693

Predisposition of virus-infected plants to fungus root-diseases. 10703

Relationship of the green peach aphid to incidence and severity of lettuce mosaic. 10717

Watermelon mosaic virus transmission and probing behavior by the green peach aphid as affected by physical agitation. 10734

Inactivation of virus inhibitors in aphids. 10741

Identification of tobacco mosaic coat protein after the injection of tobacco mosaic virus RNA into the common slime mold. (Abstract). 10995

Spermidine-RNA complexes in cowpea mosaic virus (CPMV). (Abstract). 11058

Effect of planting dates on the incidence and severity of corn virus diseases. 11478

Acquisition of maize dwarf mosaic virus by the greenbug, Schizaphis graminum. 11490

Electron microscopic studies on the replicative form of alfalfa mosaic virus RNA. 11492

The structure of tobacco mosaic virus from base analogue treated tobacco leaves. 11493

Stimulation of biosynthesis of tobacco mosaic virus by antimetabolites. 11498

Root surface fungi of Crotalaria. 11503

Reaction of dent corn inbreds and hybrids to Aceria tulipae and wheat streak mosaic virus. 11512

Freeze-etching observations on tobacco leaves infected with tobacco mosaic virus. 11516

Virus diseases of deciduous fruit trees: Apple mosaic. 11940

A contribution to the knowledge of the viruses and virussuspect diseases of oaks (Quercus spp.). 11949

Unusual strains of phytopathogenic viruses. 11986

Phloem and bud transmission of chrome mosaic and fanleaf viruses of grapevine. 11992

Sowbane mosaic virus infecting Chenopodium trigonon in Queensland. 12031

Influence of quaternary structure on antigenic configuration of tobacco mosaic virus. (Abstract). 12321

A note on barley mosaic in India. 12604

Tobacco mosaic virus in dividing mesophyll cells of Nicotiana. 12607

Relation of tobacco mosaic virus to the host cells. 12608

Inhibition of tobacco mosaic virus infectivity by the fungus Thielaviopsis basicola (Berk. Br.) Ferr.. 12615

A kinetic isotope effect in the photoreactivation of u. v.-inactivated tobacco mosaic virus RNA. 13250

Electrophoretic examination of the arabis mosaic virus and the yellow mosaic and fanleaf viruses of grapevines. 13752

Influence of maize dwarf mosaic virus and trace levels of atrazine on weight and foliar element accumulation by two single cross maize hybrids in the greenhouse. 13757

Studies on the necrosis of peach trees. 13766

Some viruses affecting tomatoes and peppers in Argentina. 13776

Nature and inheritance of resistance to red clover vein mosaic virus in Pisum sativum. (Abstract). 14345

Ten years of investigations with potato virus in Hannover. 14347

The problem of sowbane mosaic virus contamination. 14354

The effect of inoculum concentration on virus multiplication in cucumber cotyledons. II. Cucumber mosaic and tobacco mosaic viruses. 14367

An apparently two-factor dose-response dependence in lucerne mosaic virus assay. 14368

Soil-borne wheat mosaic virus from Poa annua L., a new host. 14377

Strains of tobacco mosaic virus contained in cigarettes, with especial reference to the infection source for mosaic disease of tomato. 14389

Peroxidase isozymes in virus-infected plants. 14418

Preliminary report on the amino acid composition of TMV-C protein. 14422

Morphology of cauliflower mosaic virus. 14464

Radish enation mosaic virus. 14465

Virus diseases of cereals in South Africa. II. Identification of two elongated plant viruses as strains of sugar cane mosaic virus. 14469

Note on the transmission of northern cereal mosaic virus by Muellerianella fairmairei (Perris). 14484

Contribution to the serological study of plant viruses by the agar double diffusion technique. II.--RELATIONSHIPS between the French broad bean mosaic virus (MF) and the red clover mottle virus (RCMV). 14941

Measurement of the synthesis of plant viruses through the incorporation of radioactive precursors of ribonucleic acid. 14962

Biological determination of the cucumber mosaic virus (CMV) on Vigna sinensis L. I.--Influence of different factors on the susceptibility of the plant to the virus. 14967

Cow-parsnip (Heracleum sphondylum) mosaic virus in Finland. 14981

Studies on a mosaic disease of Tylophora indica (Burm. F.) Merr.. 14987

Synthesis of RNA in extracts of leaf-cells infected by photoviruses. 14990

Serological and infectious properties of some virus isolates obtained from grapes; relationship with the fanleaf virus and the Arabis mosaic virus. 14997

Preference of the leaf-hopper Empoasca kerri Pruthi (Homoptera: Jassidae) to pigeon pea (Cajanus cajan (L.) Millsp.) plants infected with sterility mosaic virus. 15012

The current status of the knowledge of the X group of potato viruses. 15476

Chrysanthemum aspermy virus, symptoms and diagnostic. 15495

Possibilities of freeing chrysanthemums from mosaic and aspermy viruses. 15496

Effect of maize dwarf mosaic virus infection on invasion of corn plants by Fusarium moniliforme. 15500

Viruses infecting cucurbits in Queensland. 15515

Photoreactivation spectrum of tobacco mosaic virus-ribonucleic acid inactivated by ultraviolet radiation. 15519

The influence of the aphid forage plant on the vector capacity of aphids. 15520

Fine structure of zinnia leaf tissues infected with dahlia mosaic virus. 15528

Control of mosaic of tobacco, peppers, and tomatoes with milk. 15538

Control of mosaic of tobacco, peppers, and tomatoes with milk. 15539

Bromegrass mosaic virus in Yugoslavia. 15549

Infection through cell lesions and investigation into the infectious dilution curves of tobacco mosaic virus. 15554

On the transmission of fig mosaic virus by the gall mite Aceria ficus Cotte. 15565

Lycium halimifolium Mill. a potential resevoir of cucumber mosaic virus. 15573

Investigation into a spot and streak formation on hemp (Cannabis sativa L.). 15574

The incoporatins on 14C uridine in fragments of barley laves infected with bromegrass mosaic virus. 15584

Considerations on chemotherapeutics research in plant virology. 15585

Contribution to the serological survey of plant viruses by the micro-electrophoretic technique applied to agar-agar media. 15589

Importance of the plant virus-vector relationships for the inhibition of aphid transmission with oil sprays. 15674

MOSAIC (ALFALFA)
Frecing alfalfa clones from alfalfa mosaic virus by heat treatment. 10185

MOSAIC (BEAN YELLOW)
The relationship between bean yellow mosaic virus and pea mosaic virus. 12030
Particle size of the severe strain of bean yellow mosaic virus. Electron microscope investigations. 13256

MOSAIC (BEANS)
Peroxidase isozymes in virus-infected plants. 14418

MOSAIC (PEAS)
The relationship between bean yellow mosaic virus and pea mosaic virus. 12030

MOSAIC (SUGAR BEETS)
Purification and conservation of infective sugar beet mosaic virus. 13245

MOSAIC (TOBACCO)
Importance of irregular local and systemic infections for the interference of tobacco mosaic virus strains. 9550
Peroxidase isozymes in virus-infected plants. 14418

MOSAIC (TURNIPS)
Evidence for the release of 28 S RNA from turnip yellow mosaic virus heated in vitro. 14370

MOSQUITO IRIDESCENT VIRUS
A differential staining technique for a mosquito iridescent virus. 8807

MOTHS
Description of immature stages of Noctuiseius treati Prasad (Acarina: Phytoseiidae). 8836
Sugar-cane moth borers in the Caribbean. 8974
Studies and suggestions on the behaviour of moths at light. 10033
A study of free amino acids in rice moth larvae during mycotoxicosis. 14209
Hawk moths with mites. (Lep. Sphingidae). 14222
Fruit-piercing moths and their control in Japan. 14246
The new Hermonassa wlk-species from Dr. H. Honc's chinese-crop. 15314
Moths--pest in dwelling places and national economy. 15839

MOTION PICTURES
The development and life history of the false root-knot nematode, Nacobbus serendipiticus. 13869

MOTTLE
Identification of viruses isolated from cowpeas in Alabama. 8295
Behavior of belladonna mottle virus in serological tests in the presence of organic mercury compounds. 8966
Transmission of strawberry mottle virus by juice and aphids to herbaceous hosts. 9007
Effects of aphid-transmitted viruses on the strawberry cultivars Northwest and Columbia. 11500
Epidemiology of cocksfoot mottle virus. 12664
The separation of the proteins of wheat by acrylamide gel electrophoresis, with special reference to mottled and unmottled wheat. 14667
Identification, purification and immuno-electrophoretic analysis of the carnation mottle and ringspot viruses. 15490
Utilization of the serological reaction in immunodiffusion for the carnation mottle virus as a diagnostic test. 15491

MOTTLE (CARNATIONS)
Utilization of the serological reaction in immunodiffusion for the carnation mottle virus as a diagnostic test. 15491

MOUNTAINS
A contribution to the composition and origin of alpine faunas of Coleoptera. 13569

MOUSE LEUKEMIA COMPLEX VIRUSES
Studies on mouse leukemia viruses. I. Isolation and characterization of a group-specific antigen. 8477

MOUTH
Integumental absorption versus oral ingestion of phosphate and other materials by common cattle grubs held in vitro. 8726
Structural peculiarities of the mouth parts in certain gamasid mites (Parasitiformes, Gamasoidea) in relation to their transition to haematophagy. 14230

MOUTH PARTS
Feeding behavior of larvae of the western corn rootworm: Normal larvae and larvae maxillectomized with laser radiation. 8718
The mode of feeding in the silverfish Acrotelsa collaris (F.) (Thysanura: Lepismatidae). 9428
The anatomy and histology of the maxillary palp of Schistocerca gregaria (Orthoptera, Acrididae). 11233
The sensory equipment of the first-stage Locusta migratoria L. larvae mandibles. 11330
Stylet-bearing nematodes associated with plants in Iowa prairies. 11558
The labium of Aphelocheirus aestivalis F. as compared with that of typical Navcoridae (Heteroptera). 12979
Holding technique for the manipulation and excision of adult anopheline mouthparts. 13128
The mandibles of two South American grasshoppers. 14233

MOWING

Response of ironweed and huckbrush to herbicides and to herbicides in combinations with mowing, nitrogen fertilizer, and surfactants. 10303

Chemical weed control in pasture, range and hayland. 15129

MUCINS

The development of Haemonchus contortus in vitro. I. The effect of pH and pCO2 on the rate of development to the fourth-stage larva. 8505

MUCOR

Alkali bees: Response of adults to pathogenic fungi in brood cells. 9344

Defensive reaction of cells in wound infections caused by Mucor hiemalis Wehmer. 14889

The role and importance of mold in the occurrence of alimentary intoxications in swine. (1.Experimental toxication of piglets with mold feed). 15802

MUCORALES

The occurrence of Piptocephalis in soils and its isolation. 8929

MUCOSAL DISEASE

Preliminary enquiry on the frequency of neutralizing antibodies of mucous disease virus in bovine serum from some French departments. 13950

A study of experimentally induced bovine viral diarrhea-mucosal disease in pregnant cows and their progeny. 15193

MUCOUS MEMBRANE

Prevention and treatment of bovine papillomatosis. 13991

MUELLERIANELLA FAIRMAIREI

Note on the transmission of northern cereal mosaic virus by Muellerianella fairmairei (Perris). 14484

MUELLERIUS CAPILLARIS

Pulmonary disease in Kenya sheep. 14639

MULCHES

Licorice-root - dichlobenil mulch combination for control of weeds in boxwood plantings. 8406

In your garden - weeds: Robbers, hut not always bad. 10168

The effects of soil management and fungicides on the development of grey mould (Botrytis cinerea) of strawberries. 10658

Weed control under clear plastic mulch for transplanted muskmelons (Cucumis melo L.). (Abstract). 10775

Soil-incorporated herbicides in furrow-irrigated onions. (Abstract). 10797

The persistence of simazine in soil. (Abstract). 10921

Some aspects of utilization of water hyacinth (Eichhornia crassipes). 11562

Effects of simazine alone and in combination with hay or plastic mulch on McIntosh apple trees and accumulation of simazine residues. 12219

Incorporation of dychlobenil in mulches. 12726

Growth and production of pickling cucumbers as influenced by petroleum mulch and chemical treatments at planting. 13494

The I. I. S. R. weeder-mulcher is ideal for sugarcane. 15128

Growth of onions and weeds with herbicides and a mulch. 15289

MULTICEPS MULTICEPS

Viability of eggs of Echinococcus granulosis and Multiceps multiceps in ensilaged fodder. 15223

MUNG BEANS

Notice of filing of petition regarding pesticide chemicals. 9787

Effect of dichloro diphenyl trichloro-ethane (DDT) on leghemoglobin content of root nodules of Phaseolus aureus (green gram). 10438

Peroxidase isozymes in virus-infected plants. 14418

MURAMIDASE

Immune reaction in insects. I. Lysozyme as the fundamental antibacterial factor in the humoral preventive mechanism of the insects. 10077

Lysozyme action on the cockroach, Periplaneta americana, and its intracellular symbionts. 11898

Immunological reactions in insects. II. Lysozyme as an antimicrobial agent in the digestive tracts of insects. 13094

Lysozyme action in the cockroach--blood changes. while probing intercellularly. 14279

MURGANTIA HISTRIONICA

An electron microscope study of nebenkern formation and differentiation in spermatids of Murgantia histrionica (Hemiptera, Pentatomidae). 8837

MUSCA

Sterile culture of Musca sorbens. 11280

Ecological specificity of intermediate hosts of Thelazia in cattle and the relation of their infective larvae to some unusual hosts. 12864

MUSCA AUTUMNALIS

Nematode parasites of the face fly and the onion maggot in France and Denmark. 10120

Correlation of cellular activity in Weismann's ring with molting cycles in larvae of Musca autumnalis. 11231

Laboratory studies of the mating habits of the face fly. 12482

An experimental study of the mortality factors of larval Musca autumnalis DeGreer. 13139

MUSCA DOMESTICA

The incorporation of amino-alcohols into the phospholipids of the adult housefly, Musca domestica. 8090

On the phosphagen isolated from eggs of insects. 8108

Adult housefly control agents. Patent 3,454,638. 8111

Alkyl 2-methylpropenyl ketoxime carbamates. Patent 3,454,642. 8117

The length of larval stage in Pyrethroid-resistant and susceptible strains of the house fly, Musca domestica L. 8131

Use of the multiple regression equation in the prediction of the insecticidal activity of anticholinesterase insecticides. 8143

Persistence of resistant populations after the relaxation of the selection pressure. 8144

Detection and partial characterization of a crossover suppressor on chromosome V of the house fly. 8248

Male determining factors found on 3 autosomes in the house fly, Musca domestica L.. 8271

Mixtures of dichlorvos, pyrethrins and dimethrin in aerosols for controlling houseflies. 8708

Asynchronous ovarian development in the housefly, Musca domestica L. (diptera: Muscidae), caused by dietary gamma-aminobutyric acid (GABA). 8714

Toxicity of ouabain (G-Strophanthin) to adult house flies. 8764

Hydrocarbon metabolism in insects: Oxidation of hexadecane-1-C14 in the boll weevil and the house fly. 8777

Studies on chrysanthemic acid. Part XVIII. A new biologically active acid component related to chrysanthemic acid. 8806

Gel electrophoresis of some dehydrogenases from flight muscles of tsetse flies (Glossina morsitans) and houseflies (Musca domestica). 8815

Effect of male accessory material on oviposition and mating by female house flies. 8842

Antiresistant DDT continues to offer superior fly control. 8849

An inexpensive house fly pupae separator. 8898

House fly pupae as food for poultry. 9053

Studies on the biosynthesis and degradation of phosphatidylbeta-methylcholine by housefly larvae. (Abstract). 9060

Comparative toxicites of insecticides to house fly larvae and Macrocheles muscaedomestica, a mite predator of the house fly. 9168

A suction-electrode study of the house fly heart. 9343

The distribution of factor S in the cockroach, Periplaneta americana, and its role in stress paralysis. 9359

Arthropod predators of immature diptera developing in poultry droppings in northern California. Part II. Laboratory studies on feeding behavior and predation potential of selected species. 9448

The effect of two host species on the longevity and fertility of Nasonia vitripennis. 9472

Studies on nicotinoids as an insecticide. Part VII. Cholinesterase inhibition by nicotinoids and pyridylalkylamines--its significance to mode of action. 9508

The utilization of C14-labelled adenosine diphosphate during the in vitro respiration of housefly sarcosomes. 9984

Biological interaction between plasticizers and insecticides. 10058

Inheritance of DDT-RESISTANCE in Musca domestica nebuld Fabr. 10096

Comparison of effects of irradiation on the primary spermatogonia and mature sperm of three species of Diptera. 10102

Retention of intra-cellular potassium by the housefly. 10113

Biochemical genetics of insecticide resistance in the housefly. 10163

DDT-DEHYDROCHLORINASE activity in house fly strains resistant to various groups of insecticides. 10579

Possible pleiotropism of a gene conferring resistance to DDT, DDT analogs, and pyrethrins in the house fly and Culex tarsalis. 10581

Kojic acid as an insecticidal mycotoxin. 11229

Nucleic acid, amino acid, and carbohydrate metabolism of nurse cell nucleoli in Musca domestica. 11267

Resistance to insecticides of three strains of Musca domestica L. from Brisbane, Queensland. 11351

Arthropod prepators of immature diptera developing in poultry droppings in northern California. Part I. Determination, seasonal abundance and natural cohabitation with prey. 11366

An ultrastructural analysis of microsomal preparations from Musca domestica and Prodenia eridania. 11797

Hormone-mediated nutritional control of sexual behavior in male dung flies. 11815

Comparative effects of chemosterilants on spermatogenic stages in the house fly. 1. Induction of dominant lethal mutations in mature sperm and gonial cell death. 11847

Histological changes in the gonads of house flies fed nmethyl p,p-bis(1-aziridinyl) phosphinic amide and p,p-bis(1-aziridinyl)-n-(3-methoxypropyl) phosphinothioic amide. 11899

The toxicity of alpha-dihydroheptachlor and related compounds to the housefly (M. domestica L.) and their metabolism by housefly and pig liver microsomes. 12422

The metabolism of dihydrochlordene and related compounds by housefly (M. domestica L.) and pig liver microsomes. 12423

Comparative effects of reserpine and serotonin creatine sulfate on oviposition in the house fly. 12463

The potentiation between thanite and arprocarb in their action on houseflies. 12464

DDT-DEHYDROCHLORINASE and aldrin-epoxidase activity in corn earworm and polyphemus moth larvae, and house fly adults. 12480

Initial studies on the extraction of the active substance inducing monocoitic behavior in house flies, black bow flies, and screw-worm flies. 12501

Organophosphorus compounds. VI. -Structure and activity of certain 4-(diethoxyphosphino hioylthiomethyl)4H-1,3,4-oxadiazoline-5-thiones, of certain 4-diethoxyphosphino hioylthiomethyl-thiazoles, and related compounds. 12514

House fly response to fluorescent lamps: Influenced by fly age and nutrition, air temperature, and position of lamps. 12515

Deformation of puparia of the housefly (Musca domestica L.) on treatment with organophosphorus insectisides. 12541

Fly control in cage layer houses. 12813

Metabolism of cholesterol-4-C14 in insecticide-resistant and susceptible strains of aseptically reared house flies, Musca domestica. 13014

Evolution and population ecology of parasite-host systems. 13110

Tetrahydrofolate cofactors in the house fly Musca domestica. 13654

On visual orientation of the house fly (Musca domestica) to colours. 13667

DDT-DEHYDROCHLORINASE--I. Purification and characterization. 13836

Aliesterase activity and reproduction in Musca domestica: Effects of DDT and metepa. 13863

An apparatus for dispensing house fly eggs mechanically. 14119

Aziridinyl chemosterilants for house flies. 14186

Properties of leptinotarsin, a toxic hemolymph protein from the Colorado potato beetle. 14212

Observations on the ovulation and oviposition with reference to corpus luteum formation in Musca domestica nebulo Fabr. (Muscidae: Diptera). 14229

Kerato-conjunctivitis in cattle in the plateau area of Northern Nigeria. A study of Thelazia rhodesii as a possible aetiological agent. 14634

Organochlorine insecticide residues in complete prepared meals: A 12-month survey in S. E. England. geometrical isomers of chrysanthemic, pyrethric and related acids and optical isomers of cinerolone and allethrolone. 14657

On the insecticidal properties of the d-trans ethanochrysanthamate of benzyl-5-furylmethyl-3. 14840

The ruby eye-color mutant in the house fly, Musca domestica L., a case of duplicate genes. 14903

Linkage group-karyotype correlation in the house fly, Musca domestica L., confirmed by cytological analysis of X-ray induced Y-autosomal translocations. 14904

Research concerning secondary effects of chlorcholinchlorid (CCC). 15341

Insecticidal activity of substituted phenyl N-methylcarbamates. 15651

Insecticidal activity of pyrethrins and related compounds. II. Relative toxicity of esters from optical and geometrical isomers of chrysanthemic, pyrethric and related acids and optical isomers of cinerolone and allethrolone. 15879

MUSCA DOMESTICA VICINA

On the sterilizing effect of Hempa on the common housefly, Musca domestica vicina. II. A field test in Sei Island. 10550

MUSCARINE

Hormones from the fly agaric (Amanita). 14673

MUSCI

Pseudoscorpions and spiders from moss, fungi, Rhododendron leaf litter, and other microcommunities in the Highlands area of western North Carolina. 11144

MUSCIDAE

Acetylcholinesterase polymorphism in the face fly (Diptera: Muscidae). 8786

Blood-sucking Stomoxyinae and Muscinae of the Democratic Republic of the Congo (Diptera, Muscidae). 11163

Contribution to the study of the blood sucking Diptera of Turkey. The occurrence of Musca (Philaematomyia) crassirostris Stein. (Diptera Muscidae). 14759

MUSCIDIFURAX RAPTOR

Reproductive isolation and size variation in the Muscidifurax raptor complex. 9415

MUSCLES

Innervation and neural excitation of ventral muscle fibres of the larva of the waxmoth, Galleria mellonella. 8084

The role of the nervous system in insect morphogenesis and regeneration. 8168

Neuromuscular synapses in the cockroach extensor tibiae muscle. 8700

Gel electrophoresis of some dehydrogenases from flight muscles of tsetse flies (Glossina morsitans) and houseflies (Musca domestica). 8815

The adult cervicothoracic musculature of the cockroach, Nauphoeta cinerea (Olivier). 8871

The fine structure of Nosema sp. Sprague, 1965 (Microsporida, Nosematidae) with particular reference to stages in sporogony. 9118

Pharmacologic action of pure venom fractions of Naja nigricollis and liberation of calcium in the striated muscles. 9181

The myoblastic masses and neural tissue associated with the proventriculus of larvae of Aedes triseriatus, A. aegypti, and Anopheles quadrimaculatus. 9460

Blood concentration of chloramphenicol in horses after intramuscular or oral administration. 9736

Lactic dehydrogenase isozymes in the grasshopper. 9961

Common inhibitory motorneurones in insects. 10089

Pyruvate kinase and phosphoenolpyruvate carboxykinase activities of Ascaris muscle, Hymenolepis diminuta and Schistosoma mansoni. 10369

Magnesium deficiency and tissue ions. (Abstract). 10905

Notes on the muscles closing the anal and genital opening and on the reproductive structure in mature Oribatei. 11279

Phospholipid synthesis during flight muscle development in the American silkmoth, Hyalophora cecropia. 11405

Ultrastructure of dyads in muscle fibers of Ascaris lumbricoides. 11654

Development and histolysis of the indirect flight muscles in Dysdercus intermedius. 11811

Programmed cell death. Activation of lysis by a mechanism involving the synthesis of protein. 11849

A critical study of the evidence for peripheral inhibitory axons in insects. 11890

Investigation into the possibility of the survival of Toxoplasma in raw sausage and ham. 12207

A comparative study on the fine structure of the basalar muscle of the wing and the tibial extensor muscle of the leg of the lepidopteran Achalarus lyciades. 12522

Contribution to an improved diagnostic (test) for bovine Cysticercosis.
12756

Local and regional application of hydrogen peroxide in the control of clostridial myositis in rabbits.
12770

Invasion experiments with trichinella spiralis in fowls.
12851

Anion-induced potentiation of contraction in insect skeletal muscle.
13065

Effect of denervation on enzyme levels in indirect flight muscles of the desert locust.
13073

Caffeine-induced activation of contraction in stick insect skeletal muscle.
13636

The fine structure of mosquito midgut muscle.
13683

Muscular dystrophy in the horse.
13933

Rhabdomyoma in pigs.
13961

A case of rhabdomyoma in poultry.
13992

Obliquely straited muscle. III. Contraction mechanism of Ascaris body muscle.
14024

Insect visceral muscle: Neural relations of the proctodeal muscles of the cockroach.
14189

Effect of Loxosceles reclusa Gertsch and Mulaik venom on Heliothis virescens (F.) larvae. oosterhof, g.
14248

Special forms of amitotic nuclear division in striated muscle and other insect tissues.
14254

Tension transients in glycerol-extracted fibres of insect fibrillar muscle (Lethocerus maximus).
14262

The ultrastructure and physiology of the abdominal air-guide retractor muscles in the giant water bug, Lethocerus.
14277

Isolation of Toxoplasma gondii from swine and cattle. following pesticide treatments.
14558

Studies on a new intramuscular haematinic for piglet anaemia.
14573

Anatomic studies on the hypopharynx of Forficula auricularia L. (Insecta, Dermaptera): Teguments, musculature, sense organs, and innervations. Morphologic interpretation.
14856

Localization of Trichinella spiralis larvae.
15209

Larval location of the Trichinella spiralis.
15210

The invasion-ability of Trichinella larvae from putrefying muscles of Felis silvestris and artificially invaded Felis domestica.
15211

Mechanical properties of insect fibrillar muscle at large amplitudes of oscillation.
15417

Gumboro disease in chickens.
15761

Utilization of glucose in chicken liver and muscle and effect of alloxan on it.
15795

MUSCULAR DYSTROPHY

Muscular dystrophy in the Cornish chicken. (Abstract).
10903

Muscular dystrophy in the horse.
13933

MUSEUMS

Rhyparochrominae types in the British Museum (Natural History) (Hemiptera: Lygaeidae).
14164

MUSHROOMS

Residuals of pesticides in cultivated mushrooms.
8556

The use of mushroom enzymes for softening insect cuticle.
9497

Other nematode investigations.
10748

The bad news for mushroom growers.
12008

A 'phoracide' powder insecticide for use in mushroom houses.
12084

Effect of some growth substances on Tricholoma giganteum Massee.
12275

Growth regulation in fruit bodies of Agaricus bisporus.
14914

Proceedings of the first scientific Symposium on the Cultivated Mushroom and the Sixth International Congress on Mushroom Science, Amsterdam.
14918

Initiation of pinheads in Psilocybe panaeoliformis caused by certain bacteria.
14927

Experiments with soil disinfectants for casing material and their effect on yield.
14934

Contribution to the study of Diehliomyces microsporus.
14989

The present state of knowledge concerning viruses on mushrooms.
14993

Eelworm control: A practical method for the sterilization of casing soils.
15042

Growth promoting effect of certain amino acids on the Agaricus fruit body.
15284

MUSKMELONS

Inheritance of resistance to Mycosphaerella citrullina in muskmelon.
10687

Biochemical composition of plants of Cucurbita foetidissima HBK, and Cucumis melo L. as related to cucumber beetle feeding.
10712

Weed control under clear plastic mulch for transplanted muskmelons (Cucumis melo L.). (Abstract).
10775

Relationships between boron toxicity and resistance to two types of crown blight and to powdery mildew in muskmelon.
13753

The shot-hole disease of the melon. Preliminary study of a new viral disease of the glass-house-grown melon.
15543

MUSKRATS

Musk, brown rats and harvest mice as pests in maize.
14541

MUSSELS

OECD study of organochlorine pesticide residues in terrestrial and aquatic wildlife.
10935

MUSTARD

Phytotoxicity of sporidesmin.
14069

MUTAGENS

The complementation map of mutations in a small region of the X-chromosome of Drosophila melanogaster.
8235

Chromosome aberrations associated with recessive sex-linked lethals induced by two alkylating chemicals in mature spermatozoa of Drosophila.
8245

Caffeine and radiation induced mutations in Drosophila melanogaster.
8250

Cytogenetic effects of hydrogen fluoride on Drosophila melanogaster.
8251

Genetic and physiological effects of ethylenimine in Habrobracon females.
8270

Ethylene dibromide: a potent pesticide with high motagenic activity.
8302

Drosophila melanogaster treated with LSD: Absence of mutation and chromosome breakage.
9512

Mutations of the western equine encephalomyelitis virus (WEE) induced by chemical mutagens.
9757

Comparative effects of tretamine, tepa, apholate and their structural analogs on human chromosomes in vitro.
10948

Isolation of polyhedral pre-viral deoxyribonucleic acid from healthy silkworms.
11901

Mutation induction by EMS in autotetraploid barley.
14319

MUTATION

Isolation of the novel regulatory mutants of the tryptophan biosynthetic system in Eschericia coli.
8602

Mosaicism in Habrobracon juglandis associated with the ebony locus.
8910

Genetic aspects of pteridines in mosquitoes.
10577

Male gonadal dysgenesis in a female-sterile mutant of Drosophila melanogaster.
11909

Change in transmissibility of bean yellow mosaic virus by aphids.
11984

Mutation induction in Melilotus alba annua by chemical mutagens.
12264

A deviant sex ratio in Drosophila melanogaster.
12564

Components of the sterility induced in late-stage male pupae of the sugarcane gray borer, Eucosma schistaceana (Lepidoptera: Olethreutidae), with gamma radiation.
13030

Minority advantage in interpopulational matings of Drosophila persimilis.
13131

The regional effects of two mutants in Drosophila analyzed by means of mosaics.
13154

Evidence favoring a frame shift mechanism for ICR-170 induced mutations in Drosophila melanogaster.
13159

Sterility, chromosomal breakage, X-ray-induced mutation rates and detected mutation frequencies in Drosophila melanogaster.
13187

The genetics of the Xasta mutant of Drosophila melanogaster.
13721

Comparative studies of mutation frequencies induced by 32P treatment and gamma-irradiation in the silkworm.
13722

Chemical mutagenesis in higher animals.
13929

Gamma field symposia. Number 5. Mutations induced by RI and chemicals. July 27-28, 1966. Ohmiya-machi, Ibarakiken, Japan.
14107

Mutation induction by EMS in autotetraploid barley.
14319

MUTATIONS

Study of the thermosensitive mutants of the vesicular stomatitis virus. Evidence from a complement test. 9071

A study of the thermosensitive mutants of the vesicular stomatitis virus (VSV). The classification of several mutants by the criteria of function. 9088

Mutations of the western equine encephalomyelitis virus (WEE) induced by chemical mutagens. 9757

Induction of morphological aberrations by enzyme inhibition in Drosophila melanogaster. 11236

Mosaic mutations induced in Drosophila by ethylenimine. 13152

Incidence of genetic mutations in Culex pipiens. 13215

MUTILLIDAE

Stridulatory files as diffraction gratings in mutillid wasps. 8769

Ecological observations on the species Smicromyrme septentrionalis Hffr. (Hym. Mutillidae). 9435

Preliminary diagnosis of new species of Tricholabiodes Rad. (Hym. Mutillidae). 13590

Contributions to the knowledge of the Mutillidae of the Argentine republic. II. The males of Ephutini Ashmead (Hyymenoptera). 14724

MUTTON

Pesticide residues in food. 8535

MYCELIA STERILIA

Contribution to the investigation of chemoendotherapy of sugar beet infected by Cercospora beticola Sacc. 14408

MYCELIUM

A black mildew, of the genus Diporotheca, found on roots of Nicotiana tabacum in Connecticut. 8278

Alternaria seed infection of wheat. 8283

On the primary stages of orthophosphate absorbtion by mycelium of Penicillium chrysogenum. 9202

The coffee root mealybug complex. 10711

MYCETOPHILIDAE

Morphology of hemocytes of Rhynchosciara angelae Nonato and Pavan, 1951 (Diptera, Mycetophilidae). 9380

A new species of Allodiopsis Tuom. (Dipt., Mycetophilidae) taken in Berkshire. 14756

MYCOBACTERIUM

Electron microscopical observations on Mycobacterium johnei. 9115

Micro-organisms in the root regions of wheat. Literature review. 11971

A study on kansasin, fortuitin, swischin and johnin activity in cattle naturally infected with M. bovis. 15185

Tuberculosis-mycobacteriosis. 15186

MYCOBACTERIUM AVIUM

Distinguishing of M. avium and M. bovis infection in poultry by means of simultaneous tuberculination. 13984

Diagnosis of mixed infections with M. bovis and M. avium in cattle. 15181

MYCOBACTERIUM BOVIS

The electrical resistivity of suspensions of mycobacteria. Comparative study on various species. Taxonomic applications. 8611

Distinguishing of M. avium and M. bovis infection in poultry by means of simultaneous tuberculination. 13984

Diagnosis of mixed infections with M. bovis and M. avium in cattle. 15181

A study on kansasin, fortuitin, swischin and johnin activity in cattle naturally infected with M. bovis. 15185

MYCOBACTERIUM FORTUITUM

A study on kansasin, fortuitin, swischin and johnin activity in cattle naturally infected with M. bovis. 15185

MYCOBACTERIUM JOHNEI

The effect of the rimino phenazene B663 (G30320) on preclinical M. johnei infections in sheep. 10864

The pathological study of paratuberculosis in goats, centered around the formation of remote lesions. 13977

MYCOBACTERIUM PARATUBERCULOSIS

A study on kansasin, fortuitin, swischin and johnin activity in cattle naturally infected with M. bovis. 15185

MYCOBACTERIUM TUBERCULOSIS

The electrical resistivity of suspensions of mycobacteria. Comparative study on various species. Taxonomic applications. 8611

Synthesis of benzothiazolylguanidines as antituberculars and antibacterials. 9847

The effect of blockade and stimulation of the reticulo-endothelial system on the development of experimental tuberculosis. A histochemical study. II. Studies on Mycobacterium tuberculosis (BCG). 12778

The effect of blockade and stimulation of the reticulo-endothelial system on the development of experimental tuberculosis. A histochemical study. I. Mycobacterium tuberculosis avium. 12779

MYCOFLORA

Mycoflora research in the surroundings of the community of Albae. 11511

MYCOGONE

Experiments with soil disinfectants for casing material and their effect on yield. 14934

MYCOLOGY

An epizootic disease of Tarichium (Entomophthoraceae) on the larvae of Ocnogyna parasita Hbn. (Lepidoptera, Arctiidae). 8215

Notes on fungi responsible for the decay of hickory nuts. 8284

New species of Ceratocystis associated with bark injuries on deciduous fruit trees. 8289

Teliospore morphology of some smut fungi. II. Light microscopy. 8300

Studies on the nutrition and development of Gaeumannomyces graminis (Sacc.) von Arx et Olivier, the causal organism of the take-all disease of cereals. 8951

New or uncommon plant diseases and pests; smut (Entyloma compositarum) of Gaillardia aristata Pursh. 8985

Annual report of the Indian Institute of Sugarcane Research, Lucknow, 1964-65. (Mycology, by K. Singh; Research project on investigation and control of virus diseases of sugarcane, by K. Singh; Entomology, by A. N. Kalra). 10609

Mycology. 10664

A technique for rapid standardization of conidial suspensions of Ceratocystis ulmi. 11474

Uromyces minor Schroet. var. armoricana nov. var. on Trifolium patens Schreb. 11998

Virus diseases of cereals. 13814

Studies on the pathological anatomy of rice plants infected by Helminthosporium oryzae, I. Behavior of the causal fungus on the coleoptile of rice seedlings and its ultrafine structure. 14373

On the longevity of Conidia of cucumber downy mildew fungus, with special reference to the influence of sunlight. 14382

An electron microscopic observation of the surface structure of conidia of Erysiphe graminis hordei. 14393

Utilization of various forms of nitrogen by Drechslera sorokiniana, the pathogen causing foot rot disease in wheat. 14458

Experimental studies on Aspergillosis (1). 14599

Nucleus of fusion body and infection structure produced by uredospores of three rust fungi. 14685

Incidence of Macrophomina phaseoli (Maubl.) Ash., (Rhizoctonia bataticola Taub.) in French beans (Phaseolis vulgaris L.) and other cultivated plants. 15474

Cryptococcosis in a cat. 15799

MYCOPLASMA

Investigations on mycoplasma-like microorganisms in the jassid vector and in the plants infected by yellow viruses. 11468

Investigations on the incidence of mycoplasma in swine and their significance in enzootic pneumonia and atrophic rhinitis. 11623

Biosynthesis of glucosyl diglycerides by Mycoplasma laidlawii strain B. 11624

Serologic response of cows to Mycoplasma under experimental and field conditions. 12147

Antigenic properties of Mycoplasma organisms and membranes. 12748

Severe coccidiosis in a breeder flock following high-level medication for Mycoplasma and coccidia control. 12786

Growth inhibition test for identification of Mycoplasma species utilizing dried antiserum-impregnated paper discs. 12796

Effect of diethylaminoethyl dextran on the growth of Mycoplasma in agar. 12802

Lipoic acid requirement of Mycoplasma species avian strain J. 13971

Mycoplasma infection in a Wisconsin dairy herd. 13989

Increased yields of stomatitis virus from hamster cells injected with Mycoplasma. 14002

Differential responses of single cells and aggregates of Mycoplasmas to ultraviolet irradiation.
14035

Isolation and characterization of Mycoplasma arginini: spec. nov.
14555

Immunological response in cows to Mycoplasma bovigenitalium, strain 1836.
14606

Investigation on growth media for mycoplasma: Evaluation of infusions, peptones, sera, yeast extracts and other supplements.
15797

MYCOPLASMA ARGININI
Isolation and characterization of Mycoplasma arginini: spec. nov.
14555

MYCOPLASMA GALLINARUM
Avian mycoplasma serotypes.
10887

MYCOPLASMA GALLISEPTICUM
Mycoplasma infections with emphasis on the control of M. gallisepticum.
9061

A report on the use of a serum plate antigen for the detection of antibodies to Mycoplasma gallisepticum.
9725

Avian mycoplasma serotypes.
10887

Further studies on respiratory infections of poultry in Egypt.
11586

A milestone in MG control.
12174

Effect of dextrose in medium for the preparation of Mycoplasma gallisepticum plate antigens.
13367

MYCOPLASMA GALLISEPTICUM ANTIGENS
Use of formalinized Mycoplasma gallisepticum antigens and chicken erythrocytes in hemagglutination and hemagglutination-inhibition studies.
13408

MYCOPLASMA MELEAGRIDIS
Studies on the control of Mycoplasma meleagridis in turkeys.
12784

Experimentally induced Mycoplasma meleagridis infection of turkey reproductive tracts.
12787

MYCOPLASMA MYCOIDES
The persistence of Mycoplasma mycoides in the host after vaccination with T1 broth vaccine.
12761

A study of contagious caprine pleuropneumonia.
14552

An immunity test in cattle to compare two contagious bovine pleuropneumonia vaccines.
14587

Contagious bovine pleuropneumonia in wildlife.
14613

MYCOPLASMA PNEUMONIAE
Effect of temperature on survival of airborne Mycoplasma pneumoniae.
11631

MYCOPLASMA PULMONIS
Characterization of Mycoplasma pulmonis variants isolated from rabbits. I. Identification and properties of isolates.
12762

Characterization of Mycoplasma pulmanis variants isolated from rabbits. II. Basis for differentiation of antigenic subtypes.
12763

MYCOPLASMA SYNOVIAE
Experiences with Mycoplasma synoviae test program. (Abstract).
10884

Preparation of Mycoplasma synoviae hemagglutination-inhibition.
12807

MYCORRHIZA
Influence of soil sterilization measures on the Mycorrhiza of forest plants. (I.).
8279

The influence of ectotrophic mycorrhizal fungi on the resistance of pine roots to pathogenic infections. I. antagonism of mycorrhizal fungi to root pathogenic fungi and soil bacteria.
9583

MYCORRHIZAE
Studies on the tuberculate mycorrhizae of Douglas fir (Pseudotsuga taxifolia Britton).
9560

MYCOSIS
Cutaneous streptothricosis in a bull.
9113

Bovine mycotic placentitis in New York State.
9710

Survey of yeastlike fungi and tissue changes in esophagogastric region of stomachs of swine.
10339

On the effect of molds on various animal species. Part 2.
10343

Problems in raising ducks.
10357

Esopheagal gastric lesions in the pig.
10870

Farmers lung.
10925

The effect of trichlorphone (Soldep, Hypodermin) on some ectoparasites or mycoses in cattle and sheep.
11636

Dermatophytes in veterinary practice.
12795

Manner of action of Aspergillus parasites in insect wounds.
13698

Dermaphos a phosphoro-organic preparation in the treatment of the skin mycosis in cows and horses.
13938

The investigation on the effectiveness of copper sulphate (CuSO4) in the treatment of aspergillosis in ducklings.
13940

Investigations on the role of flies in the passive transmission of experimental mycosis in guinea pigs.
13960

A note on successful treatment of an unusual equine ringworm due to Trichophyton tonsurans var. sulfureum.
13968

Skin mycosis in cattle and its treatment.
13986

Experimental studies on Aspergillosis (I).
14599

Aspergillosis of ducklings.
15776

Cryptococcosis in a cat.
15799

The role and importance of mold in the occurrence of alimentary intoxications in swine. (1.Experimental toxication of piglets with mold feed).
15802

Microsporum gypseum isolated from feline ringworm.
15827

MYCOSPHAERELLA AREOLA
Grey mildew of cotton in Rajasthan.
12628

MYCOSPHAERELLA CITRULLINA
Inheritance of resistance to Mycosphaerella citrullina in muskmelon.
10687

MYCOSPHAERELLA FRAGARIAE
Determination of leaf spot races in southern Illinois strawberry plantings.
10677

MYCOSPHAERELLA MELONIS
A new symptom of gummy stem blight (Mycosphaerella melonis) on cucumber fruit.
8315

MYCOSPHAERELLA MUSICOLA
The effect of benomyl on Mycosphaerella musicola.
14457

MYCOSPHAERELLA PINODES
A comparison of the behavior of two pea pathogens in cut-away peat and loam.
13286

MYCOSPHAERELLA SENTINA
Investigations of the efficacy of some fungicides in the control of Mycosphaerella sentina-causer of the leaf spot of pears.
13293

MYCOTOXICOSIS
Mycotoxicosis associated with hemorrhagic enterocolitis and abortion in swine.
9062

Mycotoxicosis: Toxicity to chicks of Alternaria longipes isolated from tobacco.
13375

The toxic products of fungi causing mycotoxicosis.
13801

A study of free amino acids in rice moth larvae during mycotoxicosis.
14209

MYCOTOXINS
Report on mycotoxins.
13422

MYELOIS CERATONIAE
Biology of Myelois ceratoniae Zeller and research on the control methods.
10568

MYIASIS
Studies on the behaviour of Lucilia illustris Meigen as a parasite of vertebrates under experimental conditions.
8103

Furuncular Tumbu Fly Myiasis of man in Gabon, equatorial Africa.
14572

MYMARIDAE
New Mymaridae from Central Africa. (Hymenoptera: Chalcidoidea).
9916

New mimarids of Argentina (Hymenoptera; mymaridae).
9926

The structure of the female reproductive system in the Mymaridae (Chalcidoidea: Hymenoptera).
11310

MYOBIIDAE
Two myobiid mite species (Acarina: Myobiidae) from shrews of Hokkaido, Japan.
10501

MYOGLOBIN
Hyposiderosis and its specific therapeutics.
13982

MYRIOPHYLLUM
A survey of the chemical composition of Potamdgeton and Myriophyllum in New Jersey.
10448

Absorption and translocation of simazine in parrotfeather.
15740

MYRIOPHYLLUM SPICATUM
The proliferation of aquatic plants in Lake Trasimeno and its consequences on the diffusion of Phytochironomus severini Goetgh.
9367

Observations on the decline of water milfoil and other aquatic plants, Maryland, 1962-1967.
10393

Control of Eurasian watermilfoil in Chesapeake Bay. (Abstract).
10816

MYRMECIA DISPAR
Some observations on the malpighian tubules and ovarioles in Myrmecia dispar (Clark) (Hymenoptera: Formicidae). 11822

MYRMECOCYSTUS LUGUBRIS
Variation-statistical research on the female of Formica lugubris Zett. 8153
The importance of the transplantation of Formica lugubris in Italy. 9445
On the transplantation of ants of the group Formica rufa in Italy. 9461

MYRMECOPHILOUS INSECTS
Allelopathy by myrmecophytes: The ant Azteca as an allelopathic agent of Cecropia. 11835
Host finding by odor in the myrmecophilic beetle Atemeles pubicollis Bris. (Staphylinidae). 15375

MYRMELEONTIDAE
Pit construction by myrmeleontid larvae. 8217
The unnatural history of the ant lion. 8789
The solar-day activity rhythm of Myrmeleontid larvae. 9509
Story or the cicada and ant lion (Part IX). 15344

MYRMICA
Host finding by odor in the myrmecophilic beetle Atemeles pubicollis Bris. (Staphylinidae). 15375

MYROTHECIUM
Secondary mechanisms of antifungal action of substituted 8-quinolinols. II. Substituted quinolines. 11467

MYXIN
Activity of myxin against Ceratocystis ulmi. 9592

MYXOMATOSIS
The rabbit. 13365
Myxomatosis: The introduction of the European rabbit flea Spilopsyllus euniculi (Dale) into Australia. 13742
Rabbit survey in West Wales (1961-67). 13846

MYXOMYCETES
Myxomycetes as food for other organisms. 10038
Dictyostelium discoideum: A gamma-ray resistant organism. 10976
Identification of tobacco mosaic coat protein after the injection of tobacco mosaic virus RNA into the common slime mold. (Abstract). 10995
Comatricha nodulifera, a new myxomycete from Texas. 14474

MYXOVIRUSES
The structure of the respiratory syncytial virus. 8461
Relationship of viruses to reproductive problems. 9094
Coronaviruses. 9688
Occurrence of influenza A/equi-2 infection of horses in Hungary. 11593
Search for natural nidality of influenza and parainfluenza viruses in Illinois. 12184
Bovine diarrhea virus. II. END phenomenon: Exaltation of Newcastle disease virus in bovine cells infected with bovine diarrhea virus. 13957
Neuraminidase in avian influenza A virus antigenically related to that of human A0 and a1 subtypes. 13995
A comparison of the haemagglutination-inhibition and neutralisation test in the assay of rinderpest antibodies in cattle. 14607
Feline viruses. XI. Isolation of a virus similar to a myxovirus from cats in which urolithiasis was experimentally induced. 15170

MYZUS
Identification of the causal agent of a Malva disease present in Italy. 15018

MYZUS ASCALONICUS
The pheromone of the queen of the Oriental hornet, Vespa orientalis. 14214
Shallot aphid in south-east England. 15644

MYZUS PERSICAE
How to control insects on field tobacco. 8347
Efficacy of disulfoton for control of the green peach aphid, Myzus persicae, on peppers. 9628
Meteorological aspects of insect migrations. 10037
Insect parasites of the green peach aphid, Myzus persicae Sulz. and their control potential. 10059
The artificial feeding of phosphamidon to Myzus persicae: ii. The effects of phosphamidon on liquid uptake through a parafilm membrane. 10086
Bands on peach trees as shelters for predators of the green peach aphid. 10566
Relationship of the green peach aphid to incidence and severity of lettuce mosaic. 10717
Watermelon mosaic virus transmission and probing behavior by the green peach aphid as affected by physical agitation. 10734
Inactivation of virus inhibitors in aphids. 10741
Survival of Myzus persicae (Aphididae) treated with heat and then exposed to different temperatures. 11252
Effect of fertilizers on the reproduction of Tetranychus telarius (L.), Myzus persieae (Sulz.) and Acyrthosiphon pisum Harris. 11338
Studies on the morphology of the principle salivary gland of Myzus persicae. 11410
The repellency of mature citrus leaves to probing aphids. 11549
Influence of some genes on the development of winged forms such as the green peach aphid (Myzus persicae Sulz.). 11910
Change in transmissibility of bean yellow mosaic virus by aphids. 11984
Reproductive capacity of the green peach aphid on Maryland tobacco. 12461
Entomology. 12688
Plant resistance to Myzus persicae induced by a plant regulator and measured by aphid relative growth rate. 12693
Control of aphids in seed potato production. 13322
Use of growth retardants on chrysanthemums: Effect on pest populations. 13331
Transmission of pea leaf rolling virus [illegible] .ds. 13845
Lysozyme action in the cockroach--blood changes. while probing intercellularly. 14279
Radish enation mosaic virus. 14465
Factors affecting the infestation of aphids on potato plants. 14481
Insecticidal experiments for the control of mustard aphid. 14497
Note concerning a virus of Carthamus tinctorius 14994
Population of Myzus persicae Sulz. in potato crop at Patna. 15021
Orientation of Myzus persicae (Sulz.) to light. 15415
Persistence of the inhibitory effect of mineral oil in regard to the transmission of beet yellows virus by aphids. 15497
The influence of the aphid forage plant on the vector capacity of aphids. 15520
Aphids may not acquire and transmit stylet-borne viruses while probing intercellularly. 15537
Lycium halimifolium Mill. a potential resevoir of cucumber mosaic virus. 15573
Persistence and effectiveness of thionazin against potato aphids on three soils in southern England. 15872

NABAM
Some aspects of the chemical control of tobacco Peronospora. 10642

NABIDAE
Parasitization of Nabis alternatus by Leucostoma simplex in eastern South Dakota. 12072

NABIS ALTERNATUS
Parasitization of Nabis alternatus by Leucostoma simplex in eastern South Dakota. 12072

NACERDES MELANURA
Wharf borer. 10385

NACOBBUS
The development and life history of the false root-knot nematode, Nacobbus serendipiticus. 13869
Effect of temperature on the rate of development of Nacobbus serendipiticus in excised tomato roots. 13892

NAIROBI SHEEP DISEASE VIRUS
Nairobi sheep disease: A study of it's pathogenesis in sheep, goats and suckling mice. 14597

NAJAS GUADALUPENSIS
Ecology of submersed aquatic weeds in south Florida canals. 12706

NALED
Pollen gathering of honey bees reduced by pesticide sprays. 8205
Comparative toxicites of insecticides to house fly larvae and Macrocheles muscaedomestica, a mite predator of the house fly. 9168
Progress report of low-volume aerial spray tests against adults of Aedes taeniorhynchus (Weid.) and Culex nigripalpus Theob. 9523
Mediterranean fruit flies and melon flies trapped at various heights with synthetic lures. 10032

Evaluation of multi-engine aircraft in the ULV application of dibrom.
12587

Unique problems in insect and pest control of NASA'S Mississippi test facility.
13221

Aerial insecticidal sprays against resistant salt-marsh mosquitoes Aedes taeniorhynchus (Wiedemann) and Aedes sollicitans (Walker).
13736

A technique for ULV insecticide application from high altitudes.
14906

Evaluation of the ultra-low volume aerial spray technique by use of caged adult mosquitoes.
14907

An improved laboratory method of evaluating insecticides for the protection of sheep against blowfly strike.
15195

Laboratory tests of the susceptibility of mosquito larvae to insecticides in Florida, 1968.
15442

A study of factors affecting the susceptibility of mosquito larvae to insecticides in laboratory resistance tests.
15450

NAPHTHALENE
DDT-DEHYDROCHLORINASE activity in house fly strains resistant to various groups of insecticides.
10579

Speed the key to preserving hides.
14551

NAPHTHALENEACETIC ACID
Production of yeast variants by auxin and effects of plant growth regulators on these variants.
9214

SNA sprays to improve weight and size of spring fruit of pineapples in Taitung.
9836

Some factors affecting the in vitro development of strawberry fruits.
12234

Orange fruit-stem separation: Chemical influences.
12262

Effect of some growth substances on Tricholoma giganteum Massee.
12275

Tests on induced disturbances of plant regulators on the fruit of the tomato plant cv. 'Super-Marmamde'.
14072

Studies on the effect of plant growth regulators on the rooting of air layers of Darcaena roseaferrea L.
15279

NAPHTHALENEACETIC ACID, 1-
Effect of pre-harvest spray of alpha-naphthalene acetic acid and para-chloro phenoxyacetic acid on control of berry drop in Anab-e-Shahi grapes (Vitis vinifera Linn.).
14088

NAPHTHALOPHOS
Efficacy of coumaphos and naphthalophos against nematodes of lambs.
15833

NAPHTHONITRILE COMPOUNDS
Control of powdery mildew with nitronaphthonitriles. Patent 3,432,601.
9587

NAPHTHOQUINONE COMPOUNDS
2-methylenenaphtho(2,3-d)-1,3-dithiole-4,9-diones. Patent 3,429,895.
12316

NAPHTHYLPHTHALAMIC ACID, N-1-
Herbicide combinations. (Abstract).
11094

NAPTALAM
Response of weeds and soybeans to amiben and naptalam individually and in mixtures with dinoseb.
15708

NARCOTICS
Use of narcotic baits.
10587

NASONIA
Tetraploid females in Mormoniella.
12567

NASONIA VITRIPENNIS
The effect of two host species on the longevity and fertility of Nasonia vitripennis.
9472

The applicability of some population growth models to a single-species laboratory population.
11375

Effect of insecticides, acaricides and fungicides on Mormoniella vitripennis Walker (Hymenoptera Pteromalidae).
11777

Accessory nuclei and annulate lamellae in hymenopteran oocytes.
12483

Evolution and population ecology of parasite-host systems.
13110

Linkage in Mormoniella.
13205

The acid gland of Nasonia vitripennis (Walker) (Pteromalidae: Hymenoptera).
13676

NATURAL CONTROL (INSECTS)
Insect parasite complex berseem armyworm Spodoptera exigua (Hubn.) (Lepidoptera, Noctuidae).
8082

Impact of pathogens, parasites, and predators on aphids.
8126

Avian and mammalian predators of forest insects.
8330

Natural enemies of Laspeyresia pomonella L. (Lepidoptera, Tortricidae) and the effect of chemical treatment on their useful activity.
8342

The natural enemies of the chaff scale, Parlatoria pergandii Comstock, in Israel.
8344

Impact of parasites, predators, and diseases on rice pests.
8380

Factors influencing egg survival of Scolypopa australis Walker (Hemiptera-Homoptera: Ricaniidae) in the Sydney area (N. S. W. Australia).
9005

Insect parasites in the natural control of species of rice stem borers on Luzon Island, Philippines.
9012

Effect of insecticides on ant and spider populations in Louisiana sugarcane fields.
9015

House sparrows and a field infestation of tobacco hornworm larvae.
9023

Bionomics of the juniper webworm.
9440

Note on Trichogramma japonicum Ashm., an egg parasite of internode-borer (Proceras indicus Kapur) of sugarcane in Madras State.
9649

Meteorus versicolor Wesm. var. decoloratus Ruthe (Hym., Braconidae), a new parasite of Thaumetopoea pityocampa Schiff. (Lep., Thaumetopoeidae).
9980

An interesting case of adaptation to various hosts on the part of an egg parasite.
9985

The Ephippigerinae (Orthoptera, Tettigoniidae) occasional but important predators of Thaumetopoea pityocampa Schiff.
9996

New parasite records on Hymenia recurvalis (Fabricius) (Lepidoptera: Pyralidae).
10087

A new record, Dorylus labiatus Shuck. (Hymenoptera: Formicidae) as a predator of Microtermes mycophagus Desn. (Isoptera: Termitidae).
10112

Contribution to the knowledge of the natural enemies of Bissetia steniellus (Hampson) (Lep.: Pyralidae).
10254

New record of hymenopterous parasites of Phytomyza atricornis (Meigen), a serious pest of pea.
10259

The common shrew (Sorex araneus) as a predator of the winter moth (Operophtera brumata) near Oxford, England.
11794

Records of parasites of sunnhemp shoot-borer, Laspeyresia tricentra Meyr. (Tortricidae: Lepidoptera) in Uttar Pradesh.
12682

Arthropods in the diet of the cattle egret, Bubulcus ibis, in southern Louisiana.
12812

Devourers.
13066

The role of parasites in decrease of numbers of Pissodes piceae (Curculionidae).
13309

Woodpecker predation on insect borers in living hardwoods.
13326

Trends in studies on insect natural enemies and the future problems concerned.
14271

NATURAL SELECTION
Natural selection on the degree of dominance of viability polygenes in Drosophila melanogaster.
8254

NAUCORIDAE
The labium of Aphelocheirus aestivalis F. as compared with that of typical Naucoridae (Heteroptera).
8169

The labium of Aphelocheirus aestivalis F. as compared with that of typical Navcoridae (Heteroptera).
12979

Three new species of the genus Coleopterocoris and one new species of the genus Heleocoris (Hemiptera, Naucoridae).
14723

NAUPHOETA CINEREA
The adult cervicothoracic musculature of the cockroach, Nauphoeta cinerea (Olivier).
8871

Toxicity and effects on motor coordination of some neurotropic drugs on the cockroach Nauphoeta cinerea.
9467

NDGA
Quantitative evaluation of the effectiveness of some antioxidants used for fat stabilization.
15301

NEAMINE
Studies of antibiotics and related substances. XXXII. Syntheses of neamine and its analogue.
13519

NEARCTIC REGION
A new Tunga (Siphonaptera) from the Nearctic Region with description of all stages.
11108

NECK ROT
Neck rot in onions.
8296

NECROBIOSIS
Entomology in forensic medicine.
14839

NECROSIS
Use of cacao pod for recovering Phytophthora species pathogenic to Hevea brasiliensis.
8287

Blastemomorphous stage of formation of galls caused by infection by Ustilago maydis (D. C.) Cda on leaves of Zea mays L.
9606

Sequence studies of satellite tobacco necrosis virus RNA; isolation and characterization of a 5'-terminal trinucleotide.
9615

Studies on the infection of cucumber mosaic virus. V. the observation of epidermal cell in the local lesion.
10180

A necrotic type virus occurring on a weed in Germany.
10227

Morphological studies of laticifer rupture and leaf development in lettuce, Lactuca sativa L.
10685

Uptake and tolerance of lithium chloride by tung trees.
11022

Form and mechanism of transmission of plant viruses. Transmission of viruses by fungi.
11466

Alternaria tenuis Nees, probable cause of pink belly in wheat.
11956

Research on the metabolism of virus-infected plants. V. Influence on the changes in metabolism in Phaseolus vulgaris L. after infection with tobacco necrosis virus by light deficiency.
11979

Necrosis and die-back in conifers caused by Diplodia pinea.
13270

Studies on the necrosis of peach trees.
13766

An apparently two-factor dose-response dependence in lucerne mosaic virus assay.
14368

Preliminary report on the amino acid composition of TMV-C protein.
14422

Isolation of Toxoplasma gondii from swine and cattle. following pesticide treatments.
14558

A histological study of the effects of enzootic abortion of ewes virus in the lactating bovine mammary gland.
14559

Occurrence of zebra-necrosis in Sorghum.
14972

The identification, in France, of necrosis of the cerebral cortex (N.C.C.) in different types of ruminants.
15189

Observations on the Gladiolus necrotic disease.
15463

Dark reactivation of UV-IRRADIATED tobacco necrosis virus.
15529

A barley necrosis-producing virus.
15563

Winter necrosis of peach twigs. Experimental reproduction following pesticide treatments.
15641

NECROTIC RING SPOT
A rapid method of identification of prunus necrotic ring spot.
15494

NECROTIC RINGSPOT VIRUS
The propagation of Stecklenberg disease in a sour cherry tree.
10699

Virus disease problems in Ontario fruit orchards and vineyards.
14931

NECROTIC SHOCK
Occurrence of necrotic shock virus in strawberries in the Pacific Northwest.
13759

NECROTIC YELLOWS
The feeding sites in Sonchus oleraceus of Hyperomyzus lactucae, the aphid vector of lettuce necrotic yellows virus.
12635

NECTAR
Autogeny in the deerfly, Chrysops fuliginosus (Diptera: Tabanidae).
11380

NECTARINES
Yellow leaf roll virus on the move.
11959

Effect of pruning on silver-leaf disease (Stereum purpureum (Pers.) Fr.) and yield of peach and nectarine trees.
11963

NECTRIA GALLIGENA
Nectria galligena and Ceratocystis fimbriata cankers of aspen in Minnesota.
14965

NELUMBIUM
Evidence for longevity of seeds.
9563

NEMATOCIDES
Hydroxamate carbamates as nematocides. patent 3,459,866.
8285

Multiple applications of 1,2-dibromo-3-chloropropane for control of nematodes in established rose plantings.
8384

The eelworm problem in glasshouse tomatoes.
9651

Dynamics of the permeation of nematodes by water, nematocides and other substances.
9656

Bromodichloroacetanilides as fungicides and nematocides. Patent 3,450,822.
9849

Nematocides. Patent 3,457,353.
10271

The fate of phenyl N,N'-dimethylphosphordiamidate in soil.
10401

Control of Meloidogyne incognita on boxwood with nematicidal drenches.
10753

Process for the preparation of imino-dithiolanes. Patent 3,442,907.
11062

Sulfite nematocides. Patent 3,428,734.
11074

Nematocidal methods employing 2-perfluoroalklbenzimidazoles. Patent 3,443,015.
11076

Effect of root extract of Asparagus racemosus Tagetes erecta on hatching of eggs of Meloidogyne javanica Meloidogyne arenaria.
11559

Characteristics of the use of the fumigant Di-Trapex, a fungicide and nematocide.
11922

Meloidogyne naasi on sorghum in Kansas.
12695

Effect of nematocides on nematode-trapping fungi associated with the citrus nematode.
13339

The soybean cyst nematode in Florida.
13340

New double-duty insecticide.
13825

Control of the sugarbeet nematode, Heterodera schachtii, on sugarbeets with organophosphate and carbamate nematicides.
13883

The effects of chemical treatment on Tylenchulus semipenetrans and citrus tree response during 8 years.
13890

The relationships between population increase and population density in plant parasitic nematodes. III. Definition of the terms host, host status and resistance. IV. The influence of external conditions on the regulation of population density.
13893

Influence of planting time on phytotoxicity of dichloropropenes to sugarbeets.
14077

Studies on the parasitsm and control [illegible] .oot disease fungi in Ceylon. Heteroptera.
14448

Ornamental and floral crops disease control.
15469

Strawberry disease control.
15484

Peanut diseases. Southern stem rot.
15606

Note on effects of nematicides and heat treatment on the control of root-knot nematode in tobacco nurseries.
15686

Fumigant nematocides for tobacco.
15690

Nematode control in woody ornamentals.
15693

Chemical control of nematodes in sugarcane.
15694

NEMATODE CONTROL
Investigations on the migratory root nematode Pratylenchus neglectus on fodder grasses.
9033

The eelworm problem in glasshouse tomatoes.
9651

The importance of nematological problems in view of the industrialization of agriculture.
12094

Worms in pigs.
13411

Nematode control in woody ornamentals.
15046

NEMATODE CONTROLLING FUNGI
A new nematode-destroying Harposporium.
14508

NEMATODE INFESTATION
Tuber rot eelworm, (Ditylenchus destructor).
10744

Other nematode investigations.
10748

Stem and bulb eelworm, (Ditylenchus dipsaci).
10749

Leaf and bud eelworm, (Aphelenchdides sp.).
10751

Beet cyst eelworm, (Heterodera schachtii).
10756

Factors affecting the transmission of filariae: The effect of parasitization by Brugia malayi in laboratory populations of Aedes aegypti.
12586

Fascioliasis of ruminants in Japan.
12865

Grazing management in relation to trichostrongylid infestation in lambs. I. Influence of stocking rate on the level of infestation.
13413

Observations of a source of Strongyloides ransomi in the pig, dog and man, and of Strongyloides Westeri in the pig.
15204

The intravital detection of trichinellosis by means of myopsia.
15208

Localization of Trichinella spiralis larvae.
15209

Larval location of the Trichinella spiralis.
15210

The invasion-ability of Trichinella larvae from putrefying muscles of Felis silvestris and artificially invaded Felis domestica.
15211

Wild hogs as a source of trichinellosis epidemic in Vojvodina.
15212

Effects of cold storage on the infectivity of third-stage larvae of the intestinal worm, Trichostrongylus colubriformis (Giles, 1892) Ransom, 1911.
15213

The dynamism of Cysticercus bovis regression in spontaneously invaded cattle.
15217

Some pathological aspects of animal schistosomiasis in the Sudan.
15221

Treatment of intestinal strongyloids of the horse using thiabendazole (2-(4'thiazolyl)-benzimizole). 15222

Viability of eggs of Echinococcus granulosis and Multiceps multiceps in ensilaged fodder. 15223

NEMATODE MORPHOLOGY

Ecological conditions for occurrence of cilia in intestines of nematodes. 10917

Studies of plant and soil nematodes. 13. Tylenchulus clavicaudatus n. sp. (Nematoda: Tylenchulidae), a parasite of the liana Deeringia arhorescens (R. Br.) Druce. 13336

NEMATODE POPULATION

First observations on the resistance of a hybrid potato variety to some Italian populations of Heterodera rostochiensis Woll. 8381

NEMATODE POPULATIONS

Phytopathogenic nematodes in Hessen forest tree nurseries. 10758

Occurrence of Trichodorus species in West Germany. 10761

NEMATODE VECTORS

Transmission of tobacco ringspot virus to the roots of a conifer by a nematode. 9652

Translocation of tobacco ringspot virus in cucumber and zinnia. 10206

Occurrence of Trichodorus species in West Germany. 10761

The importance of nematological problems in view of the industrialization of agriculture. 12094

Research concerning leaf scorch (species Aphelenchoides fragariae(infecting strawberries. 15591

NEMATODES

Powdery mildew of hydrangeas. 8303

Gastrointestinal nematodes of Venezuelan carnivora. 8492

Population studies on the infective stage of some nematode parasites of sheep. II. The distribution of faecal deposits on fields grazed by sheep. 8494

Effect of heterologous antibody on Haenonchus contortus development in vitro. 8500

A method for the recovery of nematode eggs from faeces. 8513

Redescription of Ornithobilharzia canaliculata (Rud.) Odhner, with notes on classification of the genus Ornithobilharzia and the subfamily Schistosomatinae (Trematoda). 8516

The asexual cycle of a filarial (worm), Saurositus agamae hamoni n. ssp. (Eufilariinae) in Anopheles stephensi. 8701

Wetanema hula n. gen. et sp., a nematode from the weta Hemideina thoracica (White). 8737

The fine structure of Babesia ovis (Piroplasmidea) in Rhipicephalus hursa (Ixodoidea): Transformation of spherical forms to vermicules. 8754

Nematodes of the family Tetradonematidae, parasitizing in members of the family Simuliidae (Diptera). 8844

Irrigated sugar-cane in Rhodesia. 8925

Eelworms-a progress report on a few more groups found in North-East Indian tea soils. 9025

Fine structure of the intestine of the nematodes, Ancylostoma caninum and Phocanema decipiens. 9130

Possible effects of the harbour seal bounty on codworm infestations of Atlantic cod in the Gulf of St. Lawrence, the Strait of Belle Isle, and the Labrador Sea. 9136

On the inefficiency of transmission of Wuchereria bancrofti from mosquito to human host. 9518

Pests and diseases of the date palm. Part I. Mites, insects and nematodes. 9626

Nematodes associated with declining coconut palms. 9655

Dynamics of the permeation of nematodes by water, nematocides and other substances. 9656

The effect of time and season on the constancy of morphology in Haemonchus contortus cayugensis infections. 9766

A comparative study of the effectiveness of chemical ovicides on the survival of the soil-transmitted intestinal nematodes. 9768

Studies on eight morphological variant females of Haemonchus similis Travassos, 1914 (Nematoda, Trichostrongylidae) from Indian cattle (Bos indicus). 9773

Parbendazole in treatment of intestinal nematodes of dogs and monkeys. 9775

Description, biology, and importance of a new species of Allantonematidae (Nematoda), parasite of the aphidiphagous Coccinellidae: Parasitylenchus coccinellinae, n. sp. 10039

Nematode parasites of the face fly and the onion maggot in France and Denmark. 10120

Pneumostrongylus tenuis in moose on a deer-free island. 10375

Spirurata of animals and humans and the diseases. 10382

Some data on bioenergetics of the larvae of Trichinella spiralis. 10846

Uncoupling effect of cytoplasmic fraction of Trichinella spiralis larvae on bioenergetics of rat muscle mitochondria. 10878

On the meaning of trichostrongylid egg counts in cattle. 10915

Flavianic acid as a hatching agent for Heterodera cruciferae Franklin and other cyst nematodes. 11550

Propionic acid better than acetic acid for killing nematodes. 11557

Investigations of nematode-destroying fungi in central Iowa. 11561

Development of Foleyella philistinae Schacher and Khalil, 1967 (Nematoda: Filarioidea) in Culex pipiens molestus with notes on pathology in the arthropod. 11877

Effect of temperature and host on Paratylenchus neoamblycephalus and effect of the nematode on the host. 12091

Biological studies of the blueberry root-knot nematode (Meloidogyne carolinensis n. sp.). 12092

New parasitic nematodes reported in alpacas (Lama pacos) from Peru, with a description of Spiculopteragia peruvianus n. sp. 12193

Some observations on the worm burdens of calves infected daily with Ostertagia ostertagi. 12200

Systems analysis of a host-parasite interaction. 12201

Inhibition of Ostertagia ostertagi at the early fourth larval stage. I. The seasonal incidence. 12816

On the evidence of infestation ability of ascarid eggs (Ascaris suum Goeze,1782) in strange hosts. 12820

On the focus of trichinellosis of swine with epidemiologic implications. 12822

An effective anthelmintic in treatment of quail infected with Capillaria contorta. 12824

Specificity of the intestinal stage in the development of Trichinella spiralis. 12844

Invasion experiments with trichinella spiralis in fowls. 12851

Spirurata of animals and humans and their diseases. 12858

Critical trials on the efficacy of thiabendazole against Ostertagia ostertagi, Cooperia oncophora, and Nematodirus helvetianus. 12859

Bromodifluoronitromethane for the control of insects, fungi and nematodes. Patent 3,445,576. 12917

Fifteen species of mosquitoes as potential hosts of a mermithid nematode Romanomermis sp.. 13109

Field control of the Nantucket pine tip moth by the nematode DD-136. 13315

Inhibition of Ostertagia ostertagi at the early fourth larval stage. II. The influence of environment on host or parasite. 13409

Intestinal parasitism in swine in the northern department. 13414

The resistance of Rhabditis sp. and Anguina tritici (Nematoda) to drying and action of low and superlow temperatures. 13416

Natural enemies of the desert locust (Schistocerca gregaria). 13830

The mechanism of orientation in nematodes. 13870

Acclimatization in the eccritic thermal response of Ditylenchus dipsaci. 13871

Transmammary passage of nematode larval infestation. 14027

Vaccination against syngamosis in chicks, young pheasants and turkey-poults. 14028

DD--136: The worm that makes short work of insect pests. 14215

Effect of silvicultural practices upon arthropod, annelid, and nematode populations in coniferous forest soil. 14317

A new nematode-destroying Harposporium. 14508

Present knowledge on Phytophagous nematodes and their relations with virus diseases. 14514

Economically important nematodes in Ontario--1966.
14516

Field trials on the efficacy of thiabendazole against Haemonchus contortus in West African dwarf forest sheep and goats.
14635

On the classification of the insect parasitic nematodes of the Sphaerulariidae Lubbock, 1861 (Tylenchoidea: Nematoda).
14860

Pathogenicity studies of neoaplectanid nematodes and their use for insect control.
14864

Yorlex for plastic greenhouse soil fumigation.
14929

Strawberry disease control.
14939

Additional nematophagous fungi from Delhi soils.
15044

Influence of soil-treatment and application of herbicide on the soil-fauna in fruit-cultures.
15047

Fluorescent-antibody studies of muscle larvae Trichinella spiralis (Owen, 1835). II. The indirect fluorescent-antibody method.
15167

The presence of an adult Linguatula serrata (Froelich, 1789) in Felis catus domesticus.
15202

On adults of the subulurid infective larva from tenebrionid beetle with remarks on the validity of Subulura minetti Bhalerao.
15220

A comparative study of Haemonchus contortus of sheep and goats.
15225

Peanut diseases.
15605

Soil treatment for control of nematodes and certain soil-borne diseases.
15680

Studies of plant and soil nematodes. 14. Five new species of Tylenchorhynchus Cobb, Paratylenchus Micoletzky, Morulaimus Sauer and Hemicycliophora De Man (Nematoda: Tylenchoidea.
15682

Soil fumigants for nematode in cotton.
15683

Soil fumigants for control of nematode diseases of tobacco.
15692

Species of gastro-intestinal nematodes in sheep within the District of Southern Backa and Northern Banat. I. Intensity and dynamics of occurrence.
15819

Experimental studies on Ancylostomiasis in cats IV. Experimental infection of Ancylostoma tubaeforme and A. caninum to cat.
15823

Experimental studies on Toxascaris leonina. II. Diagnosis and treatment of Toxascariasis in dogs and cats.
15824

Experimental studies on Toxascaris leonina. I. Incidence of T. leonina among dogs and cats in Japan.
15825

Experimental studies on ancylostomiasis in cats. III. Egg culture of Ancylostoma tubaeforme Zeder, 1800 and Ancylostoma caninum Ercolani, 1859.
15826

Efficacy of coumaphos and naphthalophos against nematodes of lambs.
15833

NEMATODIASIS
The endoparasite burden of cattle in the Kimberley region of North-Western Australia.
13410

Nematodirosis in sheep and its present treatment.
15205

Effects of cold storage on the infectivity of third-stage larvae of the intestinal worm, Trichostrongylus colubriformis (Giles, 1892) Ransom, 1911.
15213

NEMATODIRUS
A method for the recovery of nematode eggs from faeces.
8513

Grazing management in relation to trichostrongylid infestation in lambs. 1. Influence of stocking rate on the level of infestation.
13413

Comparative anthelmintic efficiencies of parbendazole, thiabendazole, and phenothiazine in lambs.
14630

Nematodirosis in sheep and its present treatment.
15205

NEMATODIRUS BATTUS
Further experiments with low-level feeding of Thiabendazole to lambs.
9135

NEMATODIRUS FILICOLLIS
Nematodirosis in sheep and its present treatment.
15205

NEMATODIRUS HELVETIANUS
Critical trials on the efficacy of thiabendazole against Ostertagia ostertagi, Cooperia oncophora, and Nematodirus helvetianus.
12859

Nematodirosis in sheep and its present treatment.
15205

NEMATOLOGY
The importance of nematological problems in view of the industrialization of agriculture.
12094

NEOAPLECTANA
Field control of the Nantucket pine tip moth by the nematode DD-136.
13315

Pathogenicity studies of neoaplectanid nematodes and their use for insect control.
14864

NEODIPRION
Neodiprion taedae linearis: A sawfly pest of loblolly and shortleaf pines.
8334

NEOFERM
Performance of layers fed amprolium and NeoFerm. (Abstract).
14005

NEOMYCIN SULFATE
Neomycin sulfate with vitamins A and D for ophthalmic use. Drugs for veterinary use; drug efficacy study implementation.
12154

NEOMYZUS
Relevance of methionine, cysteine, cystine and sulphate in artificial feeding of Neomyzus (Aulacorthum) circumflexus BUCKT. (Aphidae, Homoptera, Insecta).
12447

NEOMYZUS CIRCUMFLEXUS
Vitamin requirements in a sieve tube sucking aphid, Neomyzus circumflexus Buckt. (Homoptera, Insecta).
9376

The effect of some trace elements on growth, reproduction, and symbionts of artificially fed Neomyzus circumflexus Buckt. (Aphidae, Homoptera, Insecta).
11265

Four aphids new for Chile. (Homoptera, Aphididae).
11772

NEOPLASMS
Neoplasms of insects.
8129

Immunologic reactions in animals with tumors.
8446

Site difference for solid tumor growth.
8455

Demonstration with indirect immunofluorescence of a cellular epsilon-antigen of the mouse.
8459

Attempt to detect fowl leukemia virus in living virus vaccines prepared in eggs.
8465

The demonstration of a single species of an unclassified bacterium in five cases of bovine lymphosarcoma.
8469

The formation of tumorlike lesions in the cockroach Leucophaea maderae after anal blockage.
8880

The structure of the mammary tumor virus.
9066

Antibiotic SL 2266. Patent 3,432,598.
9604

Blastemomrphous stage of formation of galls caused by Ustilago maydis (DC.) CDA on corn leaves.
9605

Structural relationships between the RNA of mammary tumor virus and those of other RNA tumor viruses.
9700

Effect of Triton WR-1339 on Rous virus-induced tumors in chickens.
9728

An animal tumor registry as a source of morbidity information.
10854

Absence of interaction between cyclopropenoid fatty acids and aflatoxin in rats. (Abstract).
10860

Growth of Aleutian disease virus in mink. (Abstract).
10885

Early stages of aflatoxin carcinogenesis in normal and lipotrope-deficient rats. (Abstract).
10888

Transmissible venereal tumour in a Boxer bitch.
10901

Total-body irradiation of canine lymphoma.
12150

Attempts to relate bovine papilloma virus to the cause of equine sarcoid: Equidae inoculated intradermally with bovine papilloma virus.
12161

Physiological genetics of melanotic tumors in Drosophila melanogaster. IV. Gene-environment interactions of tu-bw with different third chromosome backgrounds.
13203

Contribution to the knowledge of primitive tumors of the heart in domestic animals: Globomyeloma in a cow.
13372

Strain MC29 avian leukosis virus: Immunologic relationships to other avian tumor viruses.
13378

Observations on the occurrence of neoplasms in the domestic birds.
13931

Osteosarcoma in the dog.
13937

Comparative consideration of the morphology and genesis of new growths.
13944

Pleural haemangioma as a cause of transient ascites in the dog.
13945

Undifferentiated, serous, papillary, ovarian cystoadenocarcinoma in a bitch. Clinical and therapeutic aspects.
13946

Malignant transformation of hamster cells by cell-free extracts of bovine papillomas (in vitro).
13948

Immunity to tumors.
13953

Report on five Ovine neoplasms.
13958

Rhabdomyoma in pigs.
13961

Characteristics in tissue culture of infectious canine hepatitis virus-induced hamster tumor cells.
13962

Oncogenicity of infectious canine hepatitis virus in hamsters.
13963

Tumors in birds. III. Carcinoma.
13972

The tumor problem from the point of view of the virologist.
13974

Prevention and treatment of bovine papillomatosis.
13991

A case of rhabdomyoma in poultry.
13992

Biochemistry of malignant growth.
13997

A case of equine lymphosarcoma.
14012

Cancer virus of animals and men.
14013

Malignant mammary tumours to the bitch with special reference to prognosis.
14015

The formal genesis of leucosis and RNA tumours in the ox, dog and cat.
14017

Warfarin treatment of mice bearing autochthonous tumors: Effect on spontaneous metastases.
14608

Experimental aerosal transmission of yaba virus in monkeys.
14623

The toxicology and pharmacodynamics of dieldrin (HEOD): Two-year oral exposures of rats and dogs.
15273

NEOPLASTIC DISEASES

The scientific basis for the control of bovine leucosis.
13967

Genetic resistance of chickens to leucosis.
13973

On the problem of leukoses (hemoblastoses) of the reticular order in animals for slaughter.
14014

NEOSCHONGASTIA AMERICANA

Biology and economic importance of the chigger Neoschongastia americana on turkeys.
8489

NEOTETRANYCHUS RUBICOLA

Neotetranychus rubicola Bagd. on the raspberry bush in Serbia.
14501

NEOTROPICAL REGION

Neotropical cockroaches of the Epilampra abdomennigrum complex; a clarification of their systematics (Dictyopeera, Blattaria).
9935

Studies on Tabanus (Lophotabanus) importunus Wiedeman, 1828 (Diptera, Tabanidae).
11151

NEOVOSSIA BRACHYPODII

Teliospore morphology of some smut fungi. II. Light microscopy.
8300

NEOVOSSIA HORRIDA

Teliospore morphology of some smut fungi. II. Light microscopy.
8300

NEOVOSSIA INDICA

Teliospore morphology of some smut fungi. II. Light microscopy.
8300

NEPHOTETTIX

Transmission of dwarf, yellow dwarf, stripe, and black-streaked dwarf.
9631

Anatomical studies of the ovipositional site of plant hoppers and leaf hoppers on rice.
10075

Common leafhopper-planthopper populations and incidence of tungro virus in diazinon-treated and untreated rice plots.
10234

Two new Malayan species of the genus Nephotettix (Hemiptera: Cicadellidae).
12360

Revision of the genus Nephotettix (Hemiptera: Deltocephalidae).
12967

NEPHOTETTIX APICALIS

Identification and characterization of tungro, a virus disease of rice in India.
13262

NEPHOTETTIX CINCTICEPS

Revision of the genus Nephotettix (Hemiptera: Deltocephalidae).
12967

An evidence for the multiplication of rice dwarf virus in the vector cell cultures inoculated in vitro.
14409

NEPHOTETTIX IMPICTICEPS

Plant pathology.
11941

Identification and characterization of tungro, a virus disease of rice in India.
13262

NEPHRITIS

The detection of autoantibodies to kidney tissue in a dog experimentally infected with Leptospira canicola.
14010

NEPIDAE

The aquatic and semiaquatic Hemiptera in Oklahoma.
8667

NEPTICULA MACROCARPAE

A new species of Nepticula on bur oak in Ontario (Nepticulidae).
11733

NEPTICULA MALELLA

Leaf mining moths are again occuring more often.
10714

NEPTICULIDAE

A new species of Nepticula on bur oak in Ontario (Nepticulidae).
11733

The occurence of Ectoedemia libwerdella Zimm. in Western Germany (Lepidoptera, Nepticulidae).
14151

NERVES

Neoplasms of insects.
8129

Investigations of the morphology and development of the scolopidia in the stick insect Carausius morosus Br.
8141

Formation of tumorlike lesions in the cockroach Leucophaea maderae after nerve severance.
8199

A general method for estimating threshold concentrations of odorant molecules.
8901

Mode of action of DDT and allethrin on nerve: Cellular and molecular mechanisms.
9178

The neurosecretory cells of the brain of Aedes aegypti in relation to larval molt, metamorphosis and ovarian development.
9413

Colic of the horse and autonomic nervous disturbances. Patho-morphological investigations.
9711

KCl-induced spreading depression and ventilation in the cockroach.
10108

A critical study of the evidence for peripheral inhibitory axons in insects.
11890

Insect neurometamorphis. IV. Effects of the brain and synthetic alpha-ecdysone upon interganglionic connective shortening in Galleria mellonella (L.) (Lepidoptera).
12516

Effect of temperature on the endogenous activity of Periplaneta americana L. nerve cord.
13620

The effect of sodium replacement on the electroretinogram recorded from the cockroach ocellus.
14179

Insect visceral muscle: Neural relations of the proctodeal muscles of the cockroach.
14189

Effect of the venom of the black widow spider, Latrodectus mactans tredecimguttatus, on evoked action potentials in the isolated nerve cord of Periplaneta americana.
14195

Brain interneurons in noctuid moths: Differential suppression by high sound intensities. and grasses.
14258

Anatomic studies on the hypopharynx of Forficula auricularia L. (Insecta, Dermaptera): Teguments, musculature, sense organs, and innervations. Morphologic interpretation.
14856

NERVOUS SYSTEM

Innervation and neural excitation of ventral muscle fibres of the larva of the waxmoth, Galleria mellonella.
8084

The role of the nervous system in insect morphogenesis and regeneration.
8168

Acoustic interneurons in the brain of noctuid moths.
8177

The effects of an acute DDT exposure on the spontaneous electrical activity of goldfish cerebellum.
8558

Neuromuscular synapses in the cockroach extensor tibiae muscle.
8700

Study of different types of activities recorded with capillary microelectrodes in the last abdominal ganglion to the cockroach, Periplaneta americana L..
8723

Nerve-blocking effect of Bacillus thuringiensis protein toxin.
8734

Humoral and nervous pathways in photoperiodic induction of diapause in Leptinotarsa decemlineata.
8742

Mode of entry of contact insecticides.
8758

Discrimination between movements of eye and object by visual interneurones of crickets.
8826

Non-homogeneous conduction in giant axons of the nerve cord of Periplaneta americana.
8827

Organization of the giant axons of the cockroach Periplaneta americana.
8861

Histological and electrophysiological studies on the giant axons of the cockroach Periplaneta americana.
8862

The formation of tumorlike lesions in the cockroach Leucophaea maderae after anal blockage.
8880

Comparative mechanisms of insecticide binding with nerve components of insects and mammals.
9176

The distribution of factor S in the cockroach, Periplaneta americana, and its role in stress paralysis. 9359

The neural control of cercal grooming behaviour in the cockroach, Periplaneta americana. 9373

The myoblastic masses and neural tissue associated with the proventriculus of larvae of Aedes triseriatus, A. aegypti, and Anopheles quadrimaculatus. 9460

Intracellular activity in cricket neurons during the generation of behaviour patterns. 9968

Locust wind receptors. ii. Interneurones in the cervical connective. 9983

Morphology of the nervous system of adult Prodenia litura. 10064

Cockroach heart response to cardio-accelerators. 10074

Common inhibitory motorneurones in insects. 10089

Evidence, in Dictyoptera, of a fourth pair of Nervi corporis cardiaci. 10522

Interactions of DDT with the nervous system of the resistant and susceptible german cockroaches. 10532

Arginine content of the neurosecretory cells of grasshopper, Acrida gigantea Hbst. 11225

The anatomy and histology of the maxillary palp of Schistocerca gregaria (Orthoptera, Acrididae). 11233

Recordings of the activity of three neurons in the cercal basiconica sensilla of Locusta migratoria L. (Orthoptera, Acrididae). 11243

Neurosecretion in the cave Coleoptera. Imago. 11254

Production of the protocephalic neurosecretion product in the axonal passage of the Insecta, Pterygota. 11276

The neuro-endocrinal basis of oviposition in Dermestes maculatus DeGeer --I. The neurosecretory system. 11324

The sensory equipment of the first-stage Locusta migratoria L. larvae mandibles. 11330

The cockroach heart as a bioassay organ. 11353

Results of organotypic cultures of the cerebral ganglion and the sub-esophagial ganglion of Aeschna cyanea Mull (Insecta, Odonata). Survival of the organs and development of the neurosecretory elements. 11384

Internal perfusion of crayfish giant axons: Action of tannic acid, DDT, and TEA. 11393

Excitatory and inhibitory motoneurons in the central nervous system of the leech. 11655

Spinal nematodosis in a horse. 11656

On photoreceptive and photokinetic activity of wings in insects. 11775

Programmed cell death. Activation of lysis by a mechanism involving the synthesis of protein. 11849

The role played by the neurons of the brain in the circadian behavior rhythm of Gryllus domesticus L. 12407

Effect of denervation on enzyme levels in indirect flight muscles of the desert locust. 13073

Nerve regeneration in the cockroach, Leucophaea maderae: The effect of humoral substances in vitro. 13085

Adenosine triphosphatase sensitive to DDT in synapses of. 13462

The electroretinogram of scorpion eyes. 13709

Research on nerve action in Antheraea pernyi Guer. (Lep.) with special consideration of the dorsolongitudinal flight muscles. 14788

Description and location of the large nerve cells in Icerya purchasi (Insecta, Homoptera, Coccidae). 14812

The redistribution of stored DDT in cockerels under the influence of food deprivation. 15264

The effects of salt stress on the cerebral neurosecretory system of the grasshopper, Melanoplus sanguinipes (F.) Orthoptera). 15359

NERVOUS SYSTEM DISEASES

Polioencephalomalacia (cerebrocortical necrosis). 9090

Rabiesvirus neuronitis. 11601

An outbreak of polioencephalomalacia in calves. 15180

Masking of the aggregation phermone in Dendroctonus pseudotsugae Hopk. 15805

NESTING HABITS

The natural invasion of artificial Cliff Swallow nests by Oeciacus vicarius (Hemiptera: Cimicidae) and Ceratophyllus petrochelidon: (Siphonaptera: Ceratophyllidae). 11272

The nesting activities of the vespoid potter wasp Eumenes campaniformis esuriens (Fabr.) compared with the ecologically similar sphecoid Sceliphron madraspatanum (Fabr.) (Hymenoptera). 12470

NEURAMINIDASE

Neuraminidase in avian influenza A virus antigenically related to that of human A0 and a1 subtypes. 13995

NEURISOTHRIPS

A preliminary note on a review of the genus Neurisothrips, new genus (Thysanoptera: Thripidae). 12988

NEUROENDOCRINES

The role of the neurohormones in the sexual differentiation of Lampyris noctiluca. 8165

Body constraint and developmental arrest in Galleria mellonella L.: Further studies. 14265

Effect of carbaryl on the neuroendocrine system of rats. foodstuffs: a multi-detection scheme for gas chromatography of solvent extracts. 14662

The effects of salt stress on the cerebral neurosecretory system of the grasshopper, Melanoplus sanguinipes (F.) Orthoptera). 15359

NEUROPTERA

Catalog of Neuroptera of Argentina and Uruguay. 8677

A new genus and key to the species of Australian Stilbopterygidae (Neuroptera). 9933

Neuroptera and Trichoptera from the Holtmuhle in Tegelen (Limb.). 11139

Neuroptera, Mecoptera and Trichoptera. 11140

Lomamyia latipennis (Neuroptera: Berothidae) life history and larval descriptions. 12994

Supplement to the neuropteroid insects of Goeree-Overflakkee. 13555

Raphidiidae (Insecta, Neuroptera). 154. Contribution to the series Results of the zoological investigations of Dr. Z. Kazab in Mongolia . 14124

Genetical relationship and isolating mechanisms in Ananassae species subgroup (Sophophora, Drosophila). III. Chromosome behaviour during meiosis in D. bipectinata, D. malerkotliana and their hybrid. 14290

Results of a zoological expedition to the islands of Pitiusas III. Neuroptera and Odonata. 15336

NEUROSECRETION

The neurosecretory cells of the brain of Aedes aegypti in relation to larval molt, metamorphosis and ovarian development. 9413

NEUROSPORA CRASSA

Ethylene dibromide: a potent pesticide with high motagenic activity. 8302

NEUROTROPIC VIRUSES

Some physical properties of purified neurotropic foot-and-mouth disease virus. 14586

NEUTRALIZATION TEST

Isolation of Bunyamwera-group viruses from Wisconsin mosquitoes. 14553

A comparison of the haemagglutination-inhibition and neutralisation test in the assay of rinderpest antibodies in cattle. 14607

A study of experimentally induced bovine viral diarrhea-mucosal disease in pregnant cows and their progeny. 15193

NEUTRON ACTIVATION ANALYSIS

Plant and soil arsenic analyses. 15750

NEUTROPHILS

Studies on clinical symptoms and haematological changes in foreign body syndrome in buffaloes. 14003

Life cycle, pathogenicity and immunogenicity of Chabertia ovina. 14022

NEW YORK

Aerial spray tests against gypsy moth. Porthetria dispar in New York. 9004

NEW ZEALAND

Some factors affecting the disappearance of tordon in soil. 14533

NEWCASTLE DISEASE

On the merit of simple pricking with R2B (Mukteswar strain) for effective vaccination against New Castle (Ranikhet) disease. 9092

The trend in the evolution of the poultry vaccines and the channels of administration. 9104

(R2B) the Mukteswar virus vaccine and its characters. 9105

NEWCASTLE DISEASE VACCINES

Control method of inactivated vaccines against the Newcastle disease by means of the titulation of neutralizing antibodies. 10334

Varification of antibodies of Newcastle virus in rats inoculated with different types of experimental vaccines. 14609

NEWCASTLE DISEASE VIRUS

RNA synthesis in chick embryo cells infected with defferent strains of NDV.
8449

Recombination in Newcastle disease virus (NDV): the problem of complementing heterozygotes.
8453

Histone-mediated clumping of Newcastle disease virus (NDV).
8454

Autoradiographic study of the effect of Newcastle disease virus on the mitotic cycle of cells.
8456

The egg-bit technique for measuring Newcastle disease virus and its neutralizing antibodies.
9689

Congo red and trypan blue as stains for plaque assay of New castle disease virus.
9703

Anti-malarial effect of interferon inducers at different stages of development of Plasmodium berghei in the mouse.
9714

Role of interferon in experimental mouse malaria.
9749

Analysis of the production of interferon in cell culture with chick embryo fibroblasts under the influence of living or inactivated Newcastle disease virus. Comparison with production in the egg.
10863

Degradation of cellular ribonucleic acid in Newcastle disease virus infected cells.
11599

The use of the hemolytic activity of Newcastle disease virus as a means of strain typing.
11619

Attenuation of the hog cholera virus by continuous cell-virus propagation. III. Growth interference of Newcastle disease virus by attenuated hog cholera virus and its application to virus titration and the neutralization test.
12790

Immunization of chickens against Newcastle disease with beta-propiolactone-killed virus antigen administered in drinking water.
12797

Alkaline phosphatase changes in chicken tissues during Newcastle disease virus infection.
13390

Bovine diarrhea virus. II. END phenomenon: Exaltation of Newcastle disease virus in bovine cells infected with bovine diarrhea virus.
13957

The temperature requirements for interferon production in cells stimulated by Newcastle disease virus or microbial agents in vitro.
14585

Varification of antibodies of Newcastle virus in rats inoculated with different types of experimental vaccines.
14609

Relationship of plaque size and virulence for chickens of 14 representative Newcastle disease virus stains.
14611

Hemagglutination and hemolysis of erythrocytes of unrelated species of animals by the Blacksburg strain of Newcastle disease virus.
14615

Inhibition of host-cell protein and ribonucleic acid synthesis by newcastle disease virus.
14622

Role of interferon in enhanced replication of Newcastle disease virus in swine cells infected with hog cholera virus.
15807

NEXOVAL

Results of herbicide application to Coriandrum sativum L. cultures and analysis of herbicidal residues in the fruit.
15243

NEZARA VIRIDULA

Preliminary studies on the effects of gamma irradiation of eggs and adults of the southern green stink bug, Nezara viridula (L.).
9421

Preliminary studies on the effects of gamma irradiation of eggs and adults of the southern green stink bug, Nezara viridula (L.).
13087

NIA 10242

The use of systemic insecticides to reduce the incidence of curly top virus disease in sugarbeets.
15019

NIALAMIDE

Treatment of infectious canine hepatitis with a monoamine oxidase inhibiting drug.
9693

NICARBAZIN

Drug withdrawal as a tool in coccidiostat floor pen trails. (Abstract).
10848

NICKEL

Evaluation and use of fungicides in commercial cultivation of barley in Colombia.
14436

The action of some divalent metals over the inhibition of pancreatic lipase by tetracycline and 4-epi-tetracycline.
15158

NICLOSAMIDE

Efficacy of niclosamide in the treatment of Taenia taeniaeformis infections in cats.
14646

Trials with Yomesan and other selected chemicals against Thysanosoma actinioides, the fringed tapeworm of sheep.
15201

NICOTIANA FORGETIANA

Colchicine-induced mutations in a trispecific Nicotiana hybrid.
9826

NICOTIANA GLAUCA

Colchicine-induced mutations in a trispecific Nicotiana hybrid.
9826

NICOTIANA GLUTINOSA

Importance of irregular local and systemic infections for the interference of tobacco mosaic virus strains.
9550

On the inhibitory effect of yeast ribonucleic acid on the infection of Nicotiana glutinosa by tobacco mosaic virus.
10443

Contribution to the study of soybean bacterial disease in western Serbia.
15471

NICOTIANA LONGIFLORA

Colchicine-induced mutations in a trispecific Nicotiana hybrid.
9826

NICOTINAMIDE

Structure-activity and metabolism studies on organophosphate teratogens and their alleviating agents in developing hen eggs with special emphasis on Bidrin.
8572

Microsomal N-demethylation, by a cotton leaf oxidase system, of 3-(4'-chlorophenyl)-1,1-dimethylurea (monuron).
14675

Research on the effects of gradual doses of pyridoxine on xanthurenury caused by massive doses of nicotinamide.
15271

NICOTINE

Non-homogeneous conduction in giant axons of the nerve cord of Periplaneta americana.
8827

Control of mites and aphids on and in bulbs.
8850

Organization of the giant axons of the cockroach Periplaneta americana.
8861

Mode of action of natural insectides.
8906

Fly pests affect some crops in Northland.
9644

Tetraethylammonium chloride as an antidote for certain insecticides in mice.
12893

Studies on bionomics and control measures of Cnaphalocrocis medinalis Guenee; preliminary report.
14872

Insecticidal trials against jowar pests.
15009

NICOTINIC ACID

Structure-activity and metabolism studies on organophosphate teratogens and their alleviating agents in developing hen eggs with special emphasis on Bidrin.
8572

NIFURSOL

Prophylactic efficacy of nifursol against histomoniasis in turkeys 4-9, 8-13, and 13-18 weeks of age. (Abstract).
10897

NIGROSPORA ORYZAE

Factors affecting severity of seedling blight of corn in the United Arab Republic.
8976

Fungi causing seedling blight of corn in the United Arab Republic.
8977

Corn stalk rot fungi in North Carolina.
12626

New disease agent of wheat, Khuskia oryzae Hudson.
15553

NILAPARVATA LUGENS

Anatomical studies of the ovipositional site of plant hoppers and leaf hoppers on rice.
10075

Common leafhopper-planthopper populations and incidence of tungro virus in diazinon-treated and untreated rice plots.
10234

Study on the density of the adult of the brown planthopper Nilaparvata lugens Stal.
14251

NINHYDRIN REACTION

Biochemical studies of plants of Cucurbita pepo L. varieties as related to feeding response of squash bug Anasa tristis DeGeer.
10713

Biochemical composition of host plants of Brassica oleracea var. capitata L. as related to resistance to Trichoplusia ni Hubner and Pieris rapae Linne.
12051

Fungitoxic action of higher alkyl compounds. I. Mechanism of fungitoxic action of alkylphenols.
14665

NIPPOSTRONGYLUS BRASILIENSIS

Synthesis and experimental investigation of a new anthelminthic, monopar.
12896

NITIDULIDAE

Epuraea fussi Reitter equals Epuraea interjecta Sjoberg syn. nov.
8676

Bionomics of Carpophilus foveicollis Murr. in pineapple.
12542

Meligethes wankai Reitter (Col.) Nitidulidae): New species for Germany.
13585

NITRALIN

The effects of combinations of preemergence herbicides and systemic insecticides on cotton stands and yields.
9196

NITRATE REDUCTASE

The effect of simazine concentration on nitrate reductase levels in several plant species. (Abstract).
10969

The influence of simazine on growth and nitrogen metabolism of corn. (Abstract).
11044

Effect of simazine on nitrate reductase activity in corn.
13359

NITRATED PHENOLS
A laboratory testing programme for assessing field performance of acaricides against Tetranychus urticae (Koch).
8857

Dinitrophenylpropanols having herbicidal properties. Patent 3,444,244.
12923

Postdirected applications of herbicides for weed control in soybeans.
15053

NITRATES
Requirements and functions of vitamin A in ruminants.
10840

Influence of atrazine on the nitrate content of corn. (Abstract).
10977

Anion-induced potentiation of contraction in insect skeletal muscle.
13065

Forage nitrate poisoning.
15270

NITRIC ACID
Studies on the effect of sulfuric-fuming nitric acid treatment on the analytical characteristics of toxaphene.
8603

Studies on the effect of sulfuric-fuming nitric acid treatment on the analytical characteristics of toxaphene.
9153

NITRIFICATION
Stability and effects of some pesticides in soil.
13434

Effect of the herbicide trifluralin on nitrogen-fixation in Rhizobium and Azotobacter and on nitrification.
14049

Stability and effects of some pesticides in soil.
14697

The influence of variations in the microflora of a sterilized soil on the genesis of certain plant diseases. II. Study of the behaviour of microorganisms introduced into steam-sterilized soil.
15567

Bromacil interactions in plant bioassay, fungi culture, and nitrification.
15726

NITRILES
N-(substituted-benzoyl) aminoaceto- and aminopropionitriles. Patent 3,457,294.
10460

Growth promotion in pea stem sections. III. By alkyl nitriles, alkyl acetylenes and insect juvenile hormones.
11701

NITRITES
Experimental production of Heinz bodies in the pig.
9819

NITROANISOLE, P
Stimulation of hepatic microsomal drug-metabolizing enzymes by alpha,alpha-bis-(p-chlorophenyl)-3-pyridinemethanol and a method for determining no-effect levels in rats.
9811

NITROFURANS
Electronic aspect of the antibacterial activity of nitrofuran derivatives.
13506

The investigation on the susceptibility of E. coli strains isolated from the areal cases of calf colibacteriosis to antibiotics and nitrofuran preparations. II. The susceptibility to nitrofuran preparations in vitro.
13966

Resistance of the Coli bacteria, isolated from calves affected with dyspepsia, to antibiotics and chemical therapeutical preparations.
15178

NITROGEN
Piricularia oryzae, a problem common to rice growing countries.
8282

Effect of organic and inorganic nitrogen on nematode populations on turf.
8383

Influence of 2,4-D and streptomycin on the nitrogen metabolism of buckwheat seedlings and its relation to the anthocyanin biosynthesis.
8587

The influence of nutrition on susceptibility of peach foilage to water congestion and infection by Xanthomonas pruni.
8972

Fight stalk rot with right fertility.
8978

The utilization of the calcium sensitivity test in the investigation of the rennet activity.
9138

Comparative action of an oligo-infection of Bacillus thuringiensis and of total starvation on the water, lipid, and nitrogen contents of a lepidopteran.
9345

Response on lactating cow to corn silage and concentrates of three nitrogen levels with and without urea.
9678

Effect of chlorocholine chloride on the growth characteristics, lodging and yield of rice.
9828

Response of ironweed and buckbrush to herbicides and to herbicides in combinations with mowing, nitrogen fertilizer, and surfactants.
10303

Analytical studies on extracts of Litomosoides carinii.
10341

Eyespot and take-all disease trends in continuous malting barley growing trials.
10636

Effects of fertilization schedules on flower production, keeping quality, disease susceptibility, and chemical composition at different growth stages of Chrysanthemum morifolium.
10707

Biochemical studies of plants of Cucurbita pepo L. varieties as related to feeding response of squash bug Anasa tristis DeGeer.
10713

Effects of dietary protein source upon nutrient balance in the baby pig. (Abstract).
10879

Effect of simazine on quality and composition of tree fruit. (Abstract).
10947

Growth and control of Johnsongrass ecotypes. (Abstract).
11011

Studies on the growth regulator CCC (2 chloroethyl trimethyl ammonium chloride) on wheat.
11017

Possibilities and limits of an optimum or maximum nitrogen fertilization.
11025

The influence of simazine on growth and nitrogen metabolism of corn. (Abstract).
11044

Effect of fertilizers on the reproduction of Tetranychus telarius (L.), Myzus persicae (Sulz.) and Acyrthosiphon pisum Harris.
11338

Biochemical composition of host plants of Brassica oleracea var. capitata L. as related to resistance to Trichoplusia ni Hubner and Pieris rapae Linne.
12051

Juvenility as related to chemical content and rooting of stem cuttings of Pyrus species.
12230

Distribution and reuse of nitrogen in wood-destroying fungi.
12246

Amount and distribution of nitrogen in wood and its influence on wood deterioration.
12274

Interrelation of stem borer incidence and certain agronomic traits in Jaunpur variety of maize under different levels of nitrogen.
12686

Studies of cereal nematode populations and cereal yields under continuous or intensive culture.
12699

Ecology of submersed aquatic weeds in south Florida canals.
12706

Some effects of anoxia and hypoxia on the European red mite, Panonychus ulmi (Acarina: Tetranychidae).
13111

Plant resistance to aphids induced by chemicals.
13329

Growth and production of pickling cucumbers as influenced by petroleum mulch and chemical treatments at planting.
13494

Studies on Botrytis allii Munn.. The cause of neck rot of onion bulbs in U.A.R.. II. Cultural conditions in relation to mycelial growth and pectinase activity.
13793

Influence of environment on development and sex differentiation of root-knot nematodes. II. Effect of host nutrition.
13873

Are fertilizers polluting our water .
14043

Radiation sensitivity of Drosophila embryos in relation to age, in air and in nitrogen.
14208

Lysozyme action in the cockroach--blood changes. while probing intercellularly.
14279

Cryopreservation and pathogenicity of selected isolates of Colletotrichum, Rhizoctonia, and Phytophthora.
14374

Utilization of various forms of nitrogen by Drechslera sorokiniana, the pathogen causing foot rot disease in wheat.
14458

Isolation of Toxoplasma gondii from swine and cattle. following pesticide treatments.
14558

Two cases of urea poisoning in dairy herds.
14661

Physiological effects of pentachlorobenzylalcohol on rice plants.
14690

Study on the etiology of girdle scruf of beets.
14953

The importance of guttation fluid on turf diseases.
14954

Developments in pasture weed control.
15049

TCA, tillage and nitrogen for the control of Agropyron repens (quackgrass).
15065

Electron capture detector with the use of 90 Sr intended for the determination of some pesticides in gas--liquid chromatography.
15256

The influence of dikotex on the content of some free amino acids and all of the nitrogen in summer barley plants.
15283

The effect of ZnSO4 on the chemical composition of maize leaves.
15291

Winter necrosis of peach twigs. Experimental reproduction following pesticide treatments. 15641

Tests with the regulator CCC as a means of effective utilization of large doses of artificial nitrogen fertilizer. 15893

NITROGEN COMPOUNDS

Changes in nitrogenous compounds during the metamorphosis of the blowfly, Lucilia cuprina. 8086

Nitrogenous compounds in the haemolymph of the cricket. Acheta domesticus. 8894

Inhibition of beef liver hydrolytic enzymes by organophosphorus pesticides. Quantal inhibition characteristics of several organophosphorus compounds, using o-nitrophenyl butyrate as substrate. 9801

Biochemical composition of plants of Cucurbita foetidissima HBK, and Cucumis melo L. as related to cucumber beetle feeding. 10712

A specific gas chromatographic method for residues of organic nitrogen pesticides. 11667

Growth promoting effect of certain amino acids on the Agaricus fruit body. 15284

NITROGEN-FIXATION

Liquid nitrogen fixation: A new method for hemocyte counts and mitotic indices in tissue sections. 11814

NITROIMIDAZOLE, 5-

Compositions and a method for the prevention and control of histomoniasis which employ a 5-nitroimidazole and a benzenearsonic acid. Patent 3,439,097. 12179

NITROPHENOL

Synergism in the chemotherapy of Fascioliasis. 9084

NITROPHENOL, P

Acid phosphatase activity in the digestive system of the desert locust Schistocerca gregaria (Forskal). 8166

NITROPHENYL BUTYRATE, O

Inhibition of beef liver hydrolytic enzymes by organophosphorus pesticides. Quantal inhibition characteristics of several organophosphorus compounds, using o-nitrophenyl butyrate as substrate. 9801

NITROPHENYL-2-NITRO-4-(TRIFLUOROMETHYL)PHENYLETHER, P

Notice of filing of petition regarding pesticide chemicals. 10933

NITROPHENYLARSONIC ACID, 4-

Histostat. Drugs for veterinary use; drug efficacy study implementation. 13389

NITROPROPANE-1,3-DIOL DERIVATIVES, 2-

Determination of 2-Nitropropanol residues in cottonseed. 13441

NITROSO COMPOUNDS

The action of 1-alkyl-1-nitrosoureas and 1-alkyl-3-nitro-1-nitrosoguanidines on the Mi generation of barley and Aradidopsis thaliana (L.) Heynh. 14098

NITROSODIMETHYLAMINE, N

Biochemical changes in rat liver in response to treatment with drugs and other agents--II. effects of halothane, DDT, other chlorinated hydrocarbons, thioacetamide, dimethylnitrosamine and ethionine. 8571

Glomerular lesions induced in Pekin ducks by dietary administration of dimethylnitrosamine. 15262

NITROSOMETHYLUREA, N

Mutations of the western equine encephalomyelitis virus (WEE) induced by chemical mutagens. 9757

NITROXINIL

The effect of simultaneous treatment with hexachlorophene and nitroxynil upon immature Fasciola hepatica in rats and rabbits. 15829

NOCARDIA RHODNII

A monoxenic relationship, Nocardia rhodnii Erikson in the gut of Rhodnius prolixus Stahl. (Hemiptera: Reduviidae). 10542

NOCTUIDAE

A new Mythimna O. from East Turkey (Contribution to the knowledge of Noctuidae Trifinae 152). 8022

Taxonomy of the rice stem borers. 8041

Acoustic interneurons in the brain of noctuid moths. 8177

Control of paddy stem borers by cultural practices. 8319

How to control insects on field tobacco. 8347

Varietal resistance to rice stem borers in India. 8355

Varietal resistance to rice stem borers at IRRI. 8367

Ecology of common insect pests of rice. 8368

The possible control of rice stem borers by the use on natural enemies. 8379

Response of flying bollworm moths and other tympanate moths to pulsed ultrasound. 8693

Cytopathology of a nucleopolyhedrosis of the beet armyworm, Spodoptera exigua. 8773

Pathogenicity of a nuclear-polyhedrosis virus of the beet armyworm, Spodoptera exigua. 8774

A contribution to the study of the Greek species injurious to corn, of the genus Sesamia (Lepidoptera-Noctuidae). 8865

Life history and some factors affecting the population of Arzama densa in Louisiana. 8891

Note on the effects of certain wild plants, temperature and insecticides on the growth and development of Agrotis segetum Schiffer-Mueller (Lepidoptera: Noctuidae). 9638

A new Polymixis HB. of Spain. Polymixis lajonquierei Brsn. (Supplemental description (1)) contribution to the study of Noctuidae trifinae 159(2). 9875

Revision of the Nearctic moth genus Abagrotis Smith with descriptions of new species (Lepidoptera: Noctuidae). Part Vi The duanca and placida groups; checklist of the presently known species within the genus. 9879

Ear mites of the genus Dicrocheles (Acarina: Mesostigmata) found on noctuids in Hawkes Bay. 9882

A note: Some records of Australian Noctuidae in New Zealand. 9886

A new Caradrina O. of Spain- Contributions to the study Noctuidae Trifinae, 158(1). 9977

A killing agent for use in light traps. 10090

Distribution of larval and pupal instars of Plusia argentifera Guen. on tobacco plants. 10240

The stem borer Sesamia botanephaga Tams and Bowden (Lep., Noctuidae) and the maize crop in central Ashanti, Ghana. 10243

Corn rootworm control in South Dakota with notes on wireworm and cutworm control. 10520

Some ecological studies on Agrotis segetum Schiff. (Lepidoptera, Noctuidae). 10531

Neotypes for Phalaena orbona Hufnagel (Lep.). 11167

Is Rhyacia simulans really so rare (Lep., Noctuidae). 11187

Hydraecia petasitis in mountainous country, (Lep., Noctuidae). 11311

Respiratory rates of green and black larvae of the armyworm, Leucania separata (Lepidoptera: Noctuidae). 11392

The influence of temperature on the development of armyworm, Leucania separata Walker (Lepidoptera: Noctuidae). 11394

Profit by pest control in CSH-1 and CSH-2 sorghums. 11532

The present status of biological control of Xanthium (Compositae). 11567

A new species of armyworm belonging to the genus Faronta Smith from the western United States (Noctuidae). 11723

New or little known noctural Quadrifids of Madagascar, III (Lep. Noctuidae). 11770

Notes on parasites attacking the yellow-striped armyworm in Oklahoma. 11790

Field investigations preliminary to life history studies on the lithosina-miona-casta complex of the genus Annaphila (Noctuidae). 11828

Observations on hatching and penetration of the small larvae of the false pink ballworm Sacadodes pyralis Dyar. into the balls of cotton. 12046

Comparison tests of insecticides in the control of Sesamia nonagrioides Lef., (Lepidoptera: Noctuidae) on corn. 12081

The phyllophagous larvae of the family Noctuidae (Lepidoptera), collected on corn in Northern Greece. 12082

Middle East Lepidoptera--XXIV: Beihania, a new noctuid genus from southern Arabia with two new species from Arabia and Somaliland. 12397

Responses of spotted cutworm larvae to various intesities and wavelengths of light. 12505

A laboratory rearing of Parascotia fuliginaria L. (Lep., Noctuidae). 12510

Rearing technique for the granulate cutworm and some effects of temperature on its life cycle. 13078

Larval behavior of Eupsilia morrisoni. 13115

Electrophoretic study of protein changes between several developmental stages of three species of Heliothis (Lepidoptera: Noctuidae). 13142

Some observations on Anthix puta (Grote and Robinson) (Lepidopterai Noctuidae) found on aspens in the Province of Quebec. 13324

Apropriateness of a method of pursuing and capturing Hydraecia petasitis (Noctuidae).
13529

A new Parascotia (Hb., 1826) of the Guadarama mountain range, dedicated to his Excellency Prof. D. Manuel Lora Tomayo, Phd., Minister of Education and Science. (Lep. noctuidae). (Lam. i.).
13530

On the comparative study of some new insecticides for the control of jute semi-looper (Cosmophila sabulifera).
13641

Behavioral adaptations of cryptic moths. V. Preliminary studies on an anthophilous species, Schinia florida (Noctuidae).
13680

Behavioral adaptations of cryptic moths. II. Experimental studies on bark-like species.
13681

Mating and ovary studies on Cerapteryx grammis L. (Lep. Noctuidae), collected from a light trap.
14228

Brain interneurons in noctuid moths: Differential suppression by high sound intensities. and grasses.
14258

First records of eye-frequenting Lepidoptera from India.
14624

A new Conisania Hps. from Sining with synonym notes (contributions to the knowledge of Noctuidae-Trifinae 154).
14718

The new Hermonassa wlk-species from Dr. H. Hone's chinese-crop.
15314

Studies on the behaviour of Plusia orichalcea Fabr. (Lepidoptera: Noctuidae) and an assessment of the foliar loss caused by it and the control measures.
15617

NOCTUISEIUS TREATI
Description of immature stages of Noctuiseius treati Prasad (Acarina: Phytoseiidae).
8836

NODELE PHILIPPINENSIS
Descriptions of some new cheyletid mites from the United Arab Republic. (Acarina: Cheyletidae).
9279

NODULES (PLANTS)
Studies on the tuberculate mycorrhizae of Douglas fir (Pseudotsuga taxifolia Britton).
9560

Effect of chlorocholine chloride on the growth characteristics, lodging and yield of rice.
9828

Organic matter--amiben interaction on nodulation and growth of soybeans.
12736

Effects of (2-chloroethyl) trimethyl ammonium chloride (CCC) on Hyoscyamus albus plants.
14070

Isolation of rishitin from tubers of interspecific potato varieties containing different late-blight resistance genes.
14443

Effect of thiamine on growth of roots of Dolichos biflorus and Eleusine coracana.
15297

Study of the first stages of the infection of (Vinca rosea) L. by (clover,phyllody) virus from it inoculated point by means of grafting.
15487

Analytical restraint of research on the respiratory metabolism of infectious virus on healthy potato nodules and sprouts.
15580

NOMADACRIS SEPTEMFASCIATA
Report to the Government of Madagascar on locust control.
14871

NOMENCLATURE
An epizootic disease of Tarichium (Entomophthoraceae) on the larvae of Oenogyna parasita Hbn. (Lepidoptera, Arctiidae).
8215

New names for two genera of Lepidoptera.
8638

Materials for identification of parasites of some noxious forest insects.
9469

A new name for the genus Cyrtolabus van der Vecht (Hymenoptera, Eumenidae).
9947

Pieris virginiensis Edwards in Ontario (Lepidoptera: Pieridae).
10505

A contribution to the nomenclature of the Piesmatidae (Heteroptera).
11190

List of intercepted plant pests, 1966. (Pests recorded from July 1, 1965, through June 30, 1966.).
11535

The first instar larvae of the genus Trixa Meigen and remarks on the systematics and nomenclature of this genus (Diptera, Larvaevoridae).
12401

Specificity of the parasites from the ecological point of view.
12868

Proposed additions to the list of common names of insects.
12942

Note on nomenclature of dieldrin and related compounds.
13501

The scientific name for the fruit cup leaf roller.(Lep. Tortricidae). (A contribution to Organoxenia).
14285

A case of authorship, Melitaea rubicunda (Nymphalidae).
14720

Remarks on the nomenclature and fauna of some west-palearctic Haplothrips species. (Thys. Phlaeothripidae).
14785

Weed control.
15884

NOMIA MELANDERI
Alkali bees: Response of adults to pathogenic fungi in brood cells.
9344

Insect hormones: Their effects on diapause and development of Hymenoptera.
12465

NONANES
Amino substituted tricyclo (3.2.2.02,4)nonanes. Patent 3,444,199.
12927

NORBORMIDE
Thieves in the poultry house.
13927

NOREA
Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Norea.
9789

Tolerance of cotton to diuron, fluometuron, norea, and prometryne.
15880

NORWAY
Faunistic data on aquatic Heteroptera III. Various localities in Europe.
14766

NOSEMA
Nosema sp. infecting a laboratory colony of the alfalfa weevil.
8109

Research on the pathogenesis of Nosema melolonthae Krieg..
8146

The fine structure of Nosema sp. Sprague, 1965 (Microsporida, Nosematidae) with particular reference to stages in sporogony.
9118

Stempellia scolyti (Weiser) comb. nov. and Nosema scolyti sp. n. microsporidan parasites of four species of Scolytus (Coleoptera).
12540

The relative susceptibility of the larvae of Spodoptera mauritia acronyctoides (Guenee) (Lepidoptera: Noctuidae) to several contact insecticides.
13300

Some observations on Anthix puta (Grote and Robinson) (Lepidopterai Noctuidae) found on aspens in the Province of Quebec.
13324

Spontaneous Nosema cuniculi infection in laboratory rabbits.
15173

NOSEMA APIS
Some effects of sublethal heat on spores of Nosema apis.
8890

NOSEMA DISEASE
Compounds tested for control of Nosema in honey bees.
8160

NOSEMA LOCUSTAE
Extension of the host range of Nosema locustae in Orthoptera.
11286

NOSOPSYLLUS FASCIATUS
The fine-structure of the epimastigote forms of Trypanosoma lewisi in the rectum of the flea, Nosopsyllus fasciatus.
8161

NOTERIDAE
A new genus of Noteridae (Coleoptera: Noteridae, Noterini).
9869

NOTODONTIDAE
Meteorus versicolor Wesm. var. decoloratus Ruthe (Hym., Braconidae), a new parasite of Thaumetopoea pityocampa Schiff. (Lep., Thaumetopoeidae).
9980

Modern systematics for the Notodontidae (Lep.).
11168

Electron-microscope studies of a granulosis virus of Pygaera anastomosis.
11882

Audition by Cerura larvae (Lepidoptera: Notodontidae).
13071

Insects Vs man. (Lep. Notodontidae).
14210

Plant geography of Dicranura iberica Templ. and Ort. (Lep. Notodontidae).
15338

NOTONECTA
The ultrastructure of the brain of the insect Notonecta glauca L.
10042

NOTONECTIDAE
The aquatic and semiaquatic Hemiptera in Oklahoma.
8667

Haemoglobin of Anisops niveus (Notonectidae, Heteroptera).
8829

The Heteroptera of The Netherlands Antilles. VI. Notonectidae.
9306

The genus Anisops in Australia (Hemiptera--Heteroptera Notonectidae.
11162

NOVOMESSOR
Identification of hydrocarbons from Novomessor cockerelli.
10138

NOZZLES
The spray deposit patterns of several types of nozzles used for low volume application. (Abstract). 11085
Spray droplet sizes obtained from several types of nozzles used for low volume application. (Abstract). 11088
Section IV.--AGRICULTURAL engineering. 13838
Chemical weed control 1967 handbook. 15124
Sprayer calibration and nozzle selection charts. 15921

NUCIDOL
Controlling lice in beef herds--is it economic . 10908

NUCLEAR MAGNETIC RESONANCE
A new fungal tetrahydrofuran. 13502
The high resolution NMR spectra of pesticides. II. The DDT-TYPE compounds. 13508

NUCLEAR POLYHEDROSIS VIRUS
New ultracytological findings in insect nuclear polyhedroses. 8152
A nucleopolyhedrosis virus in populations of the Douglas-fir tussock moth, Hemerocampa pseudotsugata, in California. 8335
The application of a polyhedral nuclear virus for the control of Lymantria dispar L. larvae. 8358
Cytopathology of a nucleopolyhedrosis of the beet armyworm, Spodoptera exigua. 8773
Pathogenicity of a nuclear-polyhedrosis virus of the beet armyworm, Spodoptera exigua. 8774
Simultaneous infection with the nucleopolyhedrosis and granulosis viruses of Trichoplusia ni. 8800
Leaching of the nuclear-polyhedrosis virus of Trichoplusia ni from soil. 10041
Laboratory and field experiments on the effectiveness of purified and non-purified nuclear polyhedral virus of Lymantria dispar L.. 10061
The histopathology of a nuclear polyhedrosis in larvae of the cabbage looper, Trichoplusia ni, related to symptoms and mortality. 10134
Deoxyribonucleoside monophosphokinases of silkworm pupae infected and uninfected with nuclear polyhedrosis virus. 15408

NUCLEIC ACIDS
Activities in unfertilized and fertilized Drosophila eggs of enzymes in the nucleic acid biosynthetic pathway. 8194
Nucleic acid synthesis in nurse cells of Rhynchosciara angelae Nonato and Pavan, 1951. 8705
The role of the amphinucleolus in meiosis and pole plasm development of Aedes aegypti. 9515
Stable intermediate aggregates formed by the polymerization of barley stripe mosaic virus protein. 9540
Mechanisms of action of herbicides. 10299
Potato spindle tuber virus: A plant virus with properties of a free nucleic acid. 10640
Nucleic acid content in small samples and individual spinal cord cells at different functional states. 10832
Absence of interaction between cyclopropenoid fatty acids and aflatoxin in rats. (Abstract). 10860
The effects of trifluralin on the nucleic acids and carbohydrates content of sweet potatoes and peanuts. (Abstract). 10979
The effect of trifluralin on nucleic acids and protein of corn roots. (Abstract). 11028
Nucleic acid, amino acid, and carbohydrate metabolism of nurse cell nucleoli in Musca domestica. 11267
Protein synthesis and nucleic acid metabolism in the fat body of the larva of the blowfly, Calliphora erythrocephala. 11372
The development of female gonads in pupae of Galleria mellonella L. (Lepidoptera). 12445
DNA replication in salivary gland nuclei of Drosophila melanogaster at successive larval and prepupal stages. 13201
Biochemical aspects of parasitism by the angiosperm parasites: Changes in nucleic acid content of infected hosts. 13491
Studies on the brown-eye-spot disease (cercospora coffeicola b. and CKE.) of coffee (Coffea arabica L.). II. Effect of foliar application of chemicals on disease incidence. 13818
Cancer virus of animals and men. 14013
Use of the nucleic acid hybridization method for the demonstration of DNA homologous to Rous virus RNA in RSV--TRANSFORMED mammalian cells. 15184
Histochemical observation on periodic-acid-schiff positive substances and nucleic acids in the normal and degenerated ovary of the lady beetle, Epilachna vigintioctomaculata Motschulsky. 15389
Modification of nuclear structure in tobacco, Nicotiana tabacum var. Samsun, infected at 32 degrees C by tobacco mosaic virus. 15901

NUCLEOPROTEINS
Effect of TMV multiplication on RNA and protein synthesis in tobacco chloroplasts. 8956
Partial reconstitution of tobacco mosaic virus. 8993

NUCLEOSIDES
RNA and protein in nucleolar structures of dragonfly oocytes. 14826

NUCLEOTIDASES
Sequence studies of satellite tobacco necrosis virus RNA; isolation and characterization of a 5'-terminal trinucleotide. 9615

NUCLEOTIDES
Synthesis of uridilic nucleotides and TMP in bone marrow of chicks infected with the avian myeloblastosis virus. 9706

NURSERIES
Should Michigan forget about peaches . 8928
Dissemination of waterborne Erwinia amylovora by wind in nursery plantings. 10621
Cactus cyst nematode, Heterodera cacti, in Florida, with host list. 10754
Pyrethrum. 11013
Size control of nursery trees with N-dimethylaminosuccinamic acid. 11036
Mycoflora research in the surroundings of the community of Albac. 11511
Phytophthora cinnamomi causing a basal rot of Chamaecyparis lawsoniana and its varieties. 11964
Fusarium oxysporum (Schlecht.) Snyd. et Hans.- A dominant fungus species on the root-surface of woody plant seedlings. 11988
Further chemical control tests against Paranthrene tabaniformis Rott. 14811

NURSERY STOCK (FORESTRY)
Nursery investigations: Weed control. 11563

NURSERY STOCK (HORTICULTURE)
Chemical control of growth and flowering of woody ornamental plants in the landscape and nursery: Tests with maleic hydrazide and Alar. 11026
Chemical weed control in woody ornamentals. 15145

NURSING
Diaplacentarian immunity to foot-and-mouth virus in nursing rats: correlation and regression. 14594

NUTRIENT SOLUTIONS (PLANTS)
Toxicity of tall fescue to rape and birdfoot trefoil seeds and seedlings. 9210
Biochemical studies of plants of Cucurbita pepo L. varieties as related to feeding response of squash bug Anasa tristis DeGeer. 10713
Ecology of wood-destroying and wood-inhabiting fungi. 11966
Interaction of nutrients and four antifungal antibiotics in their effects of Pythium species in vitro and in soil. 12910
Effect of root fungus on mineral nutrition of the pine tree. 13774
Effect of gibberellin on the growth, development, crop yield and some aspects of metabolism of summel vetch, field bean, pea and soya under various nutrient conditions. 14071

NUTRITION
Nutritional requirements for reproduction of a temperature sensitive nematode, reared in axenic culture. 9030
The fine structure and method of feeding of the tissue parasitizing stages of Histomonas meleagridis. 10378
Nutritional requirements of Xanthomonas phaseoli var. fuscans. 11514
Effect of diethylaminoethyl dextran on the growth of Mycoplasma in agar. 12802
Hymenolepis diminuta: Effect of quality of host dietary carbohydrate on growth. 12829
Lipoic acid requirement of Mycoplasma species avian strain J. 13971
An interaction of dieldrin with thiamine. 14664

NUTS
Notes on fungi responsible for the decay of hickory nuts. 8284
The economic and horticultural aspects of growing macadamia nuts commercially in Hawaii. 9530
Bacteriological control of ice cream manufacture. Part 1. Introduction and raw materials. 14037

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Trifluralin.
15870

NYMPHALIDAE
The toxicity and sublethal effects of p p'-DDT and dieldrin to Aglais urticae (L.) (Lepidoptera: Nymphalidae) and Chorthippus brunneus (Thunberg) (Saltatoria:Acrididae).
8550

A natural hybrid butterfly of the genus Vanessa in New Zealand.
8825

A revised synonymic list of the Nearctic Melitacinae with taxonomic notes (Nymphalidae).
9278

Heliconius hecale and Xanthocles in Venezuela (Nymphalidae).
9301

Boloria polaris (Nymphalidae) in northern British Columbia.
9330

Observations on polymorphism in two species of heliconiine butterflies from Trinidad, West Indies.
9360

The absorption of p,p'-DDE by larvae of Aglais urticae (Lepidoptera: Nymphalidae).
10078

A simple technique for hand-pairing Limenitis butterflies (Nymphalidae).
11371

The life history and habits of Chlosyne fulvia (Nymphalidae).
11389

Trail laying by larvae of Chlosyne lacinia.
12430

A large migration of the Australian painted lady butterfly, Vanessa kershawi (McCoy), to New Zealand.
12454

A note on Vanessa kershawi (McCoy) in Auckland. Presenting evidence of an unusual host plant.
12519

Influence of photoperiod on development and larval diapause in the viceroy butterfly, Limenitis archippus.
13618

A note on the genus Pseudathyma Staudinger with description of a new species (Lepidoptera: Nymphalidae).
14143

Morphology, geographical distribution and bionomics in Spain of Charaxes jasius (L., 1767) (Lep. Nymphalidae).
14711

A case of authorship, Melitaea rubicunda (Nymphalidae).
14720

On the ecology of natural dispersal; Dione moneta poeyii in Texas (Nymphalidae).
14747

Uncommon butterflies of northeastern Indiana.
14770

A note on Heliconius antiochus salvinii (Nymphalidae).
14847

Attempt at reacclimatization of the butterfly of madrona (Lep. Nymphalidae) in Madrid (Parts II-III).
15343

Distribution of foodplant chemoreceptors on the female Florida queen butterfly, Danaus gilippus berenice (Nymphalidae).
15405

NYMPHS
Effect of DDT on incorporation of C14-labeled glucose into protein and soluble intermediates of nymphal Triatoma infestans.
8743

Description of immature stages of Noctuiseius treati Prasad (Acarina: Phytoseiidae).
8836

The adult cervicothoracic musculature of the cockroach, Nauphoeta cinerea (Olivier).
8871

The proliferation of aquatic plants in Lake Trasimeno and its consequences on the diffusion of Phytochironomus severini Goetgh.
9367

The coccid Saccharicoccus sacchari (Cockerell) (Hemiptera Pseudococcidae) of sugar cane in Mozambique.
9390

Functional characteristics of the alimentary canal of the cockroach, Blaberus craniifer Burmeister.
9427

Description of immature stages of Coreidae. 3. Archimerus alternus.
9956

Description of immature stages of Coreidae. 1. Euthochtha galeator.
9957

The nutrition of desert locust (Schistocerca gregaria Forks.) nymphs and developmental differences of the nymphs caused by nutrition.
10569

The nymph of Amphiagrion abbreviatum.
11119

Study of factors affecting the food uptake by the nymphs of Locusta migratoria migratorioides (Orthoptera, Acrididae). II. Internal factors.
11396

Description of immature stages of Coreidae. 2. Acanthocephala terminalis.
12400

Phosphomonoesterase activity in the life-cycle stages of Schistocerca gregaria.
13100

Epilecta linogrisea Schiff. in Normandy, their pursuit today, their raising from eggs.
13580

The post-embryonic ontogeny of Acridomorpha. (Orthoptera).
14814

Two new species of argasid ticks (Ixodoidea, Argasidae) from Cuba.
15316

Ecological and biological studies on Empoasca spp. (jassidae) in the Cairo area, U.A.R.
15377

NYSIUS ERICAE
Chemical control of a species of the false chinch-bug group on wheat and sugar beets.
8336

NYSSA
New hosts, distribution, and biological notes on an imported ambrosia beetle, Xylosandrus germanus (Coleoptera: Scolytidae).
9642

OAT STRAW
Oat yields subsequent to selective wild cane control in soybeans with herbicides.
15058

OATS
Grain aphids in New brunswick. IV. Effects of malathion and 2,4-D amine on aphid populations and on yields of oats and barley.
8320

Recognition of a greenbug biotype injurious to sorghum.
8349

A three year summary of weed control for establishment of legume seedings.
8397

Chromatographic purification of the oat blue dwarf virus.
9547

The nature and effect of adult plant resistance to crown rust in several commercial oat varieties.
9567

Races of crown rust in South Africa.
9599

A systemic oxathiin fungicide to control loose smuts, covering smuts, seed rots, and seedling blights of wheat, barley, oats, and sorghum.
10189

Mercury-resistant Pyrenophora avenae in New Zealand seed oats: a comparison of six different compounds as seed disinfectants.
10223

Seed treatment trial, 1967.
10229

Stem rust of oats in Canada in 1968.
10667

The influence of magnesium on the toxicity of atrazine. (Abstract).
10962

Phytotoxic synergism with soil applied herbicide-insecticide combinations. (abstract).
11016

Site of uptake of pre-emergence herbicides. (Abstract).
11020

Varietal differences in oat blue dwarf virus resistance and symptom expression.
11473

Inheritance in the oat strain C.I. 3034 of adult plant resistance to race C 10 of stem rust.
11999

Influence of the quantity of insecticide per seed and per hectare on seed treatments for cereal leaf beetle larvae control on oats.
12080

Studies of cereal nematode populations and cereal yields under continuous or intensive culture.
12699

Effect of activated carbon on the phytotoxicity of herbicides in a tropical soil.
12709

The influence of soil characteristics on the adsorption and phytotoxicity of simazine.
12716

Leaching of seven s-Triazines.
12737

Grain aphids in New Brunswick. IV. Effects of malathion and 2,4-D amine on aphid populations and on yields of oats and barley.
13297

Effects of three species of aphids on barley, wheat or oats at various stages of plant growth.
13301

Reproduction of stored-grain insects on varieties of wheat, oats, and barley.
13323

Action of plant growth regulators. IV. ADSORPTION of unsubstituted and 2,6-dichloro-aromatic acids to oat monolayers.
13470

Mercury tolerance in leaf spot of oats.
13751

Varietal differences in oat blue dwarf virus resistance and symptom expression.
13781

Investigation of the harmful effect of the residue from some herbicides on oats.
14052

Moisture corrosion, a new corrosive method.
14330

Virulence of uredial and aecial isolates of Puccinia coronata Corda f.sp. avenae identified in Canada from 1952 to 1966.
14359

Possibilities of weed control in corn with atrazine, taking special note of the control of couch-grass, wild oats and older weeds.
14524

The influence of CCC on lodging and development of grain.
14680

Oat yields one year after trifluralin applications.
15055

Effect of herbicides used for wild cane control in corn on subsequent oat yields.
15057

Oat yields subsequent to selective wild cane control in soybeans with herbicides.
15058

Herbicides for annual weed control in oats.
15073

Effect of simulated atrazine residues on oat yields.
15235

Plant response to herbicide placement in soil.
15724

Some quantitative aspects of the phytotoxicity of monoterpenes.
15876

Photoinhibition of auxin and its bearing on phototropism.
15903

OBELISCOIDES CUNICULI
Hemoglobins of parasitic nematodes. II. Electrophoretic analysis of the multiple hemoglobins of adults and developmental stages of the rabbit stomach worm, Obeliscoides cuniculi.
8495

OCCUPATIONAL DISEASES
Farmers lung.
10925

OCELLI
The effect of sodium replacement on the electroretinogram recorded from the cockroach ocellus.
14179

The phototactic push-pull-coupling between dorsal ocelli and compound eyes in the phototropotaxis of locusts and crickets (Saltatoptera: Locusta migratoria and Gryllus himaculatus).
14217

OCHODAEINAE
Ochodaeinae and Acanthocerinae from the faunistic region of Ethiopia and Madagascar. (Coleoptera Scarabaeidae).
9310

OCHOTONIA LINDNERI
The warble fly.Ochotonia lindneri Grunin, gen. et sp.n. (Diptera, Hypodermatidae), a parasite of the Afghan pika (Ochotona rufescens Gray).
10513

OCHRATOXIN
The acute toxicity of ochratoxin A to rats.
9817

Isolation and purification of ochratoxins A and B and preparation of their methyl and ethyl esters.
13513

OCNOGYNA
An epizootic disease of Tarichium (Entomophthoraceae) on the larvae of Ocnogyna parasita Hhn. (Lepidoptera, Arctiidae).
8215

OCTANOIC ACID
Possible factor responsible for the specific growth of Xylaria nigripes in the fungus gardens of the mounds of the termite, Odontotermes redemanni.
13679

ODONASPIS SECRETA
Three aphelinid parasites of Odonaspis secreta Cockerell from Japan (Hymenoptera: Chalcidoidea).
11761

ODONATA
A revision of the genus Chlorocnemis Selys (Odonata).
8659

Tandem linkage in dichoptic and other Anisoptera (Odonata).
8834

Sex chromosomes and sex determining mechanisms in Odonata, with a review of the cytological conditions in the family Gomphidae, and references to the karyotypic evolution in the order.
8913

Catalogue of the types in the collections of the German Entomological Institute--I. Ephemeroptera, Odonata, Plecoptera.
9309

The nymphal liabial gland of damselflies (Zygoptera: Odonata).
9503

The spiracular morphology of the Hawaiian damselfly Megalagrion blackhurni (Odonata).
9504

The larvae of Odonata in the vascular territory of stagnant waters in Bulgaria.
9872

Autosomal fragmentations and fusions in Odonata and their evolutionary implications.
10157

The nymph of Amphiagrion abbreviatum.
11119

Morphological, systematic, and biometric discussion on Agrion (Cercion) lindeni Selys, 1840. (Odonata Zygoptera).
11288

Comparative notes on the distribution, ecology and behaviour of some damselflies (Odonata: Coenagriidae).
11363

Results of organotypic cultures of the cerebral ganglion and the sub-esophagial ganglion of Aeschna cyanea Mull (Insecta, Odonata). Survival of the organs and development of the neurosecretory elements.
11384

Observations on certain dragonflies (Odonata) in central Scotland.
12492

Studies of the Byron Bog in southwestern Ontario XXXII. Observations on the seasonal distribution on Odonata in the bog.
13068

Supplement to the neuropteroid insects of Goeree-Overflakkee.
13555

Dragonflies of Anglesey.
13574

Dragonfly catches from the Gifhorn area (A contribution to the Odonata fauna of Lower Saxony).
14145

Hemianax ephippiger (Burm.) (Odonata) carried to Iceland from the eastern Mediterranean by an aircurrent .
14243

Genetical relationship and isolating mechanisms in Ananassae species subgroup (Sophophora, Drosophila). III. Chromosome behaviour during meiosis in D. bipectinata, D. malerkotliana and their hybrid.
14290

Results of a zoological expedition to the islands of Pitiusas III. Neuroptera and Odonata.
15336

ODONTOTERMES OBESUS
Cytochemical studies on a coccidian, Chagasella ganapatii from a termite, Odontotermes obesus (Rambur).
8724

ODONTOTERMES REDEMANNI
Possible factor responsible for the specific growth of Xylaria nigripes in the fungus gardens of the mounds of the termite, Odontotermes redemanni.
13679

ODORS
A general method for estimating threshold concentrations of odorant molecules.
8901

Now is the time to control brown rot.
12012

OECANTHUS
Acoustic synchrony: Two mechanisms in the snowy tree cricket.
13700

OECANTHUS NIVEUS
Acoustic synchronyi Two mechanisms in the snowy tree cricket.
13699

OECOPHORIDAE
Host relationships in North American fungus-feeding moths (Oecophoridae, Oinophilidae, Tineidae).
13077

OEDALEUS SENEGALENSIS
Oedaleus senegalensis Krauss (Orthoptera: Acrididae sub family Oedipodinae) plague in Rajasthan.
13829

OESOPHAGOSTOMUM
Parbendazole in treatment of intestinal nematodes of dogs and monkeys.
9775

Anthelmintic efficacy and toxicity studies of l-tetramisole in feedlot cattle.
9821

Anthelmintic activity of parbendazole in swine.
12191

The chromosome numbers of Oesophagostomum columbianum Curtice and Chabertia ovina Fabricius (Nematoda, Strongylata).
14636

OESTRIDAE
The warble fly.Ochotonia lindneri Grunin, gen. et sp.n. (Diptera, Hypodermatidae), a parasite of the Afghan pika (Ochotona rufescens Gray).
10513

Warble fly larvae control study.
14631

The anatomy and histology of the digestive tract of Hypoderma bovis larvae (Diptera: Oestriformes).
14797

OESTRONE
Mammary development in alloxan diabetic rabbits injected with oestrone and progesterone.
9734

OIDIUM
Comparison between products effective against both powdery mildew and oidium.
10641

The economics of disease control in Hevea.
12646

Studies on powdery mildews affecting two umbelliferous plants.
13771

Three years of tests with new anti-peronosporic preparations.
14400

Powdery mildew of rubber in Papua.
14449

OIDIUM HEVEAE
Review of the plant pathology department.
13804

OIL INSECTICIDE COMBINATIONS
Study of the stability of paper impregnated with oily solutions of OMS 33 (carbamate) and OMS 43 (oranophosphorous compound). Susceptibility of females of various species of African Culicidae to OMS 33 and OMS 43.
12420

OIL SPRAYS
Oil larvicides applied by aircraft in an area characterized by resistance to organophosphorus larvicides.
13223

Scales on lemon trees.
13328

Test for protecting melon and marrow plants against the cucumber mosaic virus.
15545

Importance of the plant virus-vector relationships for the inhibition of aphid transmission with oil sprays.
15674

OILS
Effects of oil and surfactant on residues of atrazine in field grown corn.
8540

The distribution of an oil, carbohydrate, and protein food source to members of the imported fire ant colony.
10571

Effects of several oils and surfactants on the enhancement of atrazine for weed control in corn. (Abstract).
10767

Biological study of Phoracantha semipunctata F. (Coleoptera; Cerambycidae, Xy lophage) specific to the Eucalyptus in Tunisia, and research on the vitality and adaptation of its (Eucalyptus') oils.
11524

Weed control in the forest.
11564

Possibilities of preparation of an oil adjuvant vaccine against haemorrhagic septicaemia of cattle using a medium papain digest of beef.
14000

Bacteriological control of ice cream manufacture. Part 1. Introduction and raw materials.
14037

Hard-to-kill pests of fruit trees;the mites.
14488

'Reduced volume' by how much Why Actual state of affairs.
14699

Evaluation of some spray oils used on citrus in Texas.
14868

Postdirected applications of atrazine and oil for weed control in corn.
15089

Control of weeds in corn with herbicides.
15115

Postemergence weed control in corn.
15123

Atrazine-oil mixtures for postemergence weed control in corn at several locations in Michigan.
15139

Quelea control-Farmer devises effective spraying technique.
15154

A new method for clean-up of chlorinated pesticide residues in meat, meat products, fats and oils.
15248

Quantitative evaluation of the effectiveness of some antioxidants used for fat stabilization.
15301

The effectiveness of FLIT MLO against Aedes taeniorhynchus larvae on Grand Cayman, British West Indies.
15441

Persistence of the inhibitory effect of mineral oil in regard to the transmission of beet yellows virus by aphids.
15497

Postemergence herbicide applications for corn.
15713

Response of turkey oak to 2,4,5-T as a function of final formulation oil content.
15744

OINTMENTS
A note on successful treatment of an unusual equine ringworm due to Trichophyton tonsurans var. sulfureum.
13968

OLEA WELTWITSCHII
Alternaria leaf spot of loliondo (Olea welwitschii (Knobl.) Gilg. and Schellenb.).
14371

OLEACEAE
The systematic position of Brahmaea europaea Hartig (Lepidoptera Brahmaeidae).
8053

Diseases of Annual Oleaceae in Colombia.
14427

OLEORESINS
Photochemical oxidant injury and bark beetle (Coleoptera: Scolytidae) infestation of ponderosa pine. II. Effect of injury upon physical properties of oleoresin, moisture content, and phloem thickness.
13833

OLETHREUTIDAE
Preliminary laboratory study of the effect of X rays on the fertility of Carpocapsa pomonella (Laspeyresia pomonella L.).
8229

Characteristics of the stopped and scarred damages due to the coddling moth (Laspeyresia pomonella L.) with a method of interpretation of the various forms of damages observed on apples.
9002

Easy-to-kill pests of fruit trees...codling moth.
10253

Components of the sterility induced in late-stage male pupae of the sugarcane gray borer, Eucosma schistaceana (Lepidoptera: Olethreutidae), with gamma radiation.
13030

Life history, habits, and damage of a gall midge, Oligotrophus papyriferae (Diptera: Cecidomyiidae), injurious to paper birch in Michigan.
13147

Details on the codling plum moth (Laspeyresia funebrana Tr.) in Lot-et-Garonne on Plum-tree grafts.
14272

OLFACTORY RESPONSE
Pheromone-mediated behaviour leading to group oviposition in the blowfly Lucilia cuprina.
9354

Studies on the olfactory stimuli guiding the bark beetle Blastophagus piniperda L. (Coleoptera, Scolytidae) to its host tree.
12476

Behavioral adaptations of cryptic moths. V. Preliminary studies on an anthophilous species, Schinia florida (Noctuidae).
13680

OLIGONYCHUS
Oligonychus araneum sp. n. and Oligonychus digitatus Davis (Acarina: Tetranychidae) as pests of grasses in eastern Australia.
8622

OLIGOTOMIDAE
Observations on the life history and bionomics of Oligotoma ceylonica ceylonica Enderlein (Oligotomidae, Embioptera), commensal in the nest of the social spider Stegodyphus sarasinorum Karsch.
9978

OLIGOTROPHUS PAPYRIFERAE
Life history, habits, and damage of a gall midge, Oligotrophus papyriferae (Diptera: Cecidomyiidae), injurious to paper birch in Michigan.
13147

OLIVE OIL
Method for determining the fenthion residues in olives and olive oil.
12211

Egg-yolk and olive juice as supplements to the yeast hydrolyzate-sucrose diet for adults of Dacus oleae.
12446

Insect hormones: Olive oil is not an inert vehicle for hormone injection into locusts.
14197

OLIVES
Preliminary studies of the release in 1965 on the island of Chalki, of Opius concolor Szepl. (Hymen, Braconidae) a parasite of Dacus oleae Gmel. (Dipt. Trypetidae).
8864

A large experiment on artificial biological control of the olive fruit fly (Dacus oleae G.) by means of Opius c. Sz. siculus Mon. in Sicily. (Palermo July-October 1966).
9431

Causes of the varied behavior of the black bark beetle of olives (Hylesinus oleiperda Fabr.) in Dalmatia.
9488

The establishment of Metaphycus helvolus (Compere) (Hym. Encyrtidae) on Saissetia oleae (Bern.) (Hom. Coccidae) in olive groves in Greece.
9621

First observations of damage to olive trees, caused by a cecidomyde. Clinodiplosis oleisuga Targ.(Dipt. Cecidomydae).
9629

Various formulations of products for the control of leaf spot on olives.
10638

The scales of olive trees occuring in Greece and their entomophagous insects.
12048

Method for determining the fenthion residues in olives and olive oil.
12211

A contribution to the study of olive Cecidomyiidae: Lasioptera berlesiana (paoli).
14502

Report of the Seventh FAO Ad hoc Conference on the Control of Olive Pests and Diseases, Palermo, Italy, 2 to 9 May, 1967.
15036

Plant protection problems in Tunesia.
15667

OLPIDIUM
Polymyxa infection of Bermuda grass.
10639

Form and mechanism of transmission of plant viruses. Transmission of viruses by fungi.
11466

OLPIDIUM BRASSICAE
An incubator useful for culturing Olpidium brassicae for transmission of plant viruses.
15521

OMOPHOITA CLERICA
Orientation and segregation of asynaptic multiple sex chromosomes in the male Omophoita clerica Erichson (Coleoptera: Alticidae).
15439

ONAGRACEAE
Bionomic notes on the solitary Evylaeus oenotherae (Stevens) (Hymenoptera: Halictinae), a matinal summer bee visiting cultivated Onagraceae.
8785

ONCHOCERCA GIBSONI
Anthelmintic efficacy and toxicity studies of l-tetramisole in feedlot cattle.
9821

ONCHOCERCA VOLVULUS
Artificial feeding of Simulium vectors of human and bovine onchocerciasis.
9520

ONCHOCERCIASIS
The Simulium control scheme at Ahuja, Northern Nigeria, and its effect on the prevalence of onchocerciasis in the area.
8919

Artificial feeding of Simulium vectors of human and bovine onchocerciasis.
9520

DNA-MEASUREMENTS in insects and a hypothesis concerning retarded evolution and especially high DNA content in the animal kingdom.
14185

ONCOGENIC VIRUSES
Susceptibility of various strains of chicken to the oncogenicity of Yaba virus.
12798

Characteristics in tissue culture of infectious canine hepatitis virus-induced hamster tumor cells.
13962

Oncogenicity of infectious canine hepatitis virus in hamsters.
13963

Cancer virus of animals and men.
14013

ONCOPELTUS FASCIATUS
Ecdysone titres in the last larva adult stages of the milkweed bug.
8115

Inheritance of semi-sterility and transmission of chromosome rearrangements and fragments for 3 generations in the large milkweed bug.
8241

Kojic acid as an insecticidal mycotoxin.
11229

Some observations on flight in Oncopeltus fasciatus (Hemiptera. Lygaeidae).
11287

Liquid nitrogen fixation: A new method for hemocyte counts and mitotic indices in tissue sections.
11814

Toxicity of certain pyrethroids and carbamates to the CS strain of Oncopeltus fasciatus.
12469

Physiology of the large milkweed bug after laser irradiation.
13048

Chromosomal fragments transmitted through three generations in Oncopeltus (Hemiptera).
13185

Host specificity with Oncopeltus fasciatus (Heteroptera: Lygaeidae).
13608

Concentration of insect hemolymph proteins under various experimental conditions.
13626

ONIONS

Neck rot in onions.
8296

A fungus of the onion, new for italy: Botrytis squamosa Walker.
9562

The mite Aceria tulipae (Eriophyidae)--vector of the onion mosaic virus.
9641

Toxic metabolite of Aspergillus niger and its role in onion rot disease.
10208

Second year trials of Peronospora control on onions. (Peronospora schleideni Unger).
10653

Soil-incorporated herbicides in furrow-irrigated onions. (Abstract).
10797

Control of weeds in direct-seeded onions. (Abstract).
10814

Estimation of dichlofluanid residues.
10936

White rot of onion in Lucknow.
11489

Weed control in crucifer cultures with 2-chlor-N-isopropylacetanilide.
11571

Enhanced recovery of Salmonella montevideo from onion powder by the addition of potassium sulfite to lactose broth.
13381

Studies on Botrytis allii Munn.. The cause of neck rot of onion bulbs in U.A.R.. 1.The disease and the causal organism.
13792

Studies on Botrytis allii Munn.. The cause of neck rot of onion bulbs in U.A.R.. II. Cultural conditions in relation to mycelial growth and pectinase activity.
13793

Studies on Botrytis allii Munn.. The cause of neck rot of onion bulbs in U.A.R.. III. Relation of some culture practices to subsequent incidence of neck rot on storage.
14030

Onion weed control on Mallee soils.
14518

Some results from allium tests with organic mercury halogenides.
14674

Growth of onions and weeds with herbicides and a mulch.
15289

In vitro infection and pathogenesis of plants from several genera by the specific soilborne pathogen Sclerotium cepivorum.
15610

ONOPORDUM ACANTHIUM

Control of the biennial thistle, Onopordum, by amitrole and five perennial grasses.
10798

Cotton thistle.
13348

ONOPORDUM ILLYRICUM

Control of the biennial thistle, Onopordum, by amitrole and five perennial grasses.
10798

ONTOGENY

The post-embryonic ontogeny of Acridomorpha. (Orthoptera).
14814

ONYCHIURIDAE

On the knowledge of the biologic valence of Onychiurus earvernicolus and O. vornatscheri Collembola, Insecta apterygota . On temperature, humidity, and light reactions.
14843

OOENCYRTUS KUWANAI

Survey of species and number of gypsy moth egg parasites in some localities of Yugoslavia.
13072

OOGENESIS

The maturation of the oocytes in the isolated abdomen of Leucophaea maderae.
8719

The production of cuticle wax by engorged females of the cattle tick, Boophilus microplus (Canestrini).
8730

Egg maturation in mosquitoes not regulated by the corpora allata.
8792

The fundamental schema of oogenesis in the firebrat Lepismodes inquilinus (Thysanura, Lepismatidae) and its periodisation in connection with imaginal moulting cycles.
9459

Female specific protein: Biosynthesis controlled by corpus allatum in Leucophaea maderae.
10002

Vitellogenic blood protein synthesis by insect fat body.
10083

The stimulating action of the spermatophore on oogenesis in Acanthoscelides obtectus Say (Insecta, Coleoptera).
11295

Resumption of yolk formation after the implantation of corpora allata in Pieris brassicae L. (Lepidoptera).
11305

Lipid composition of fat body and its contribution to the maturing oocytes in Pyrrhocoris apterus.
11340

Inhibition of ovary development of the fruit-fly, Drosophila melanogaster by synthetic queen substance .
12528

Blood meals and egg production of Culiseta alaskaensis (Ludlow) in captivity (Diptera: Culicidae).
12538

Revision of Indo--Pakistan Parisomias Faust (Coleoptera, Curculionidae) with some notes on Leptomias Faust.
14123

Continuous and rhythmic reproductive cycle observed in Periplaneta americana (L.).
14182

Histochemical observation on periodic-acid-schiff positive substances and nucleic acids in the normal and degenerated ovary of the lady beetle, Epilachna vigintioctomaculata Motschulsky.
15389

Data on oogenesis in a parthenogenic Collembola, Isotomidae.
15409

OPATROIDES PUNCTULATUS

The life history and feeding habits of Opatroides punctulatus in Tiberias, Israel.
11842

OPEROPHTERA BRUMATA

The insect predators of the pupal stage of the winter moth, Operophtera brumata (L.) (Lepidoptera: Hydriomenidae).
10009

The effect of pupal predators on a population of winter moth, Operophtera brumata (L.) (Hydriomenidae).
10010

The common shrew (Sorex araneus) as a predator of the winter moth (Operophtera brumata) near Oxford, England.
11794

A study of the mortality factors acting upon Cyzenis albicans (Fall.), a tachinid parasite of the winter moth (Operophtera Brumata (L.)).
12462

OPHIOBOLUS

Influence of successive cereal crops on fluctuations in the gravity of the disease of white heads of wheat (Ophiobolus graminis Sacc.).
14963

OPHIOBOLUS GRAMINIS

Studies on the nutrition and development of Gaeumannomyces graminis (Sacc.) von Arx et Olivier, the causal organism of the take-all disease of cereals.
8951

A technique for studying inhibition of the parasitic activity of Ophiobolus graminis (Sacc.) Sacc. in field soils.
8969

Establishing overall plant protection.
15685

OPHTHALMOLOGY

Neomycin sulfate with vitamins A and D for ophthalmic use. Drugs for veterinary use; drug efficacy study implementation.
12154

OPISTHORCHIS

Relation among liver fluke populations in cattle and the results of coprological examinations.
12849

OPIUS

Genus Opius Wesmael: New revision of the Neotropical species of the crassiceps group.
8033

Differentiation of parasitized and unparasitized pupae of the melon fly and Oriental and Mediterranean fruit flies.
8816

Redescription of Opius scaevolae (Cameron) (Hymenoptera, Braconidae, Opiinae).
9282

New record of hymenopterous parasites of Phytomyza atricornis (Meigen), a serious pest of pea.
10259

Neotropical species of Opius section C (Hymenoptera, Braconidae).
13550

OPIUS CONCOLOR

Preliminary studies of the release in 1965 on the island of Chalki, of Opius concolor Szepl. (Hymen, Braconidae) a parasite of Dacus oleae Gmel. (Dipt. Trypetidae).
8864

Artificial biological control of the olive fruit fly (Dacus oleae Gmel.) by means of Opius concolor Sz. siculus Mon. on the Lipari Islands (Sicily). July-September 1965.
9429

Artificial biological control of Dacus oleae Gmel. by means of Opius concolor Szep. siculus Mon.
9430

A large experiment on artificial biological control of the olive fruit fly (Dacus oleae G.) by means of Opius c. Sz. siculus Mon. in Sicily. (Palermo July-October 1966).
9431

New large-scale experimentation in biological control of the olive fly (Dacus olea Gmel.) by means of Opius concolor siculus Mon. in Sicily in 1967.
9636

The first large-scale experimentation with the biological control of the olive fly (Dacus oleae Gmel.) by means of Opius concolor Szepl. siculus Mon. in Sicily.
10256

OPOSSUMS

Cyanide as a poison in opossum control.
10831

The poisoner's primer. caused by a cytoplasmic virus Smithiavirus pithyocampae Vag..
15759

OPTIC NERVE
- Recent advances in the studies of insect compound eyes. 14281

OPTICS
- Function of insect compound eyes containing crystalline tracts. 13623
- The optical orientation to black and white patterns in different size groups of Cataglyphis bicolor Fab. (Formicidae, Hymenoptera). 14892

OPUNTIA
- Biological control of prickly pear cacti on Santa Cruz Island, California. 13909
- Effects of gamma irradiation on prickly pear cactus. 14325
- Selective control of plains pricklypear in rangeland with herbicides. 15749

ORANGES
- Effect of crinkle-scurf of citrus on tree growth, productivity, and fruit quality. 8312
- Metabolism of iodoacetic acid by orange leaves. 9830
- Efficiency of three colonies of melon aphids as transmitters of Tristeza virus. 10258
- Fungicidal sprays and their influence on disease, quality, and blemish in Valencia oranges at Mangrove Mountain. 10660
- The effects of accumulated fluoride on yields and fruit quality of 'Washington' navel oranges. 10929
- Effect of gibberellic acid on color changes in the rind of three sweet orange cultivars (Citrus sinensis Blanco). 10996
- Orange fruit-stem separation: Chemical influences. 12262
- Effects of four herbicides on growth and yield of orange trees. 12287
- Campaign against Citrus psylla in Kangra District (Himachal Pradesh). 13831
- Residue behavior of polynuclear hydrocarbons on and in oranges. 14048
- Effect of gibberellic acid on fruit setting of Washington navel oranges. 14073
- Effect of different micronutrient sprays on chlorosis, granulation, fruit fall, yield and fruit quality of sweet oranges var. blood red. 14398
- Comparison of absorbed biphenyl in oranges and biphenyl vapor in controlling decay, mycelial growth, and sporulation by Penicillium digitatum. 14417
- A study on the correlation of citrus nematode population with decline of citrus. 14505

ORCHARDS
- Note on the efficiency of Prospaltella perniciosi Tow. in France. 8326
- Persistence of pesticides in orchards and orchard soils. 8531
- Methods to investigate the population dynamics of aphids and aphid parasites in orchards. 9378
- Psallus ambiguus (Fall.) (Heteroptera, Miridae). Part II, Nutrition and role in the biocenosis of orchards. 9438
- The effect of cultural measures on the population density of harmful and beneficial organisms in orchards. 9453
- Home orchard pest control. 9643
- Influence of pesticides and fertilizers on the behaviour of phytophagous mites in orchards and under laboratory conditions. 10065
- Biological control of olive scale, Parlatoria oleae (Colvee), in a deciduous fruit orchard in California. 10252
- Determination and measurement of insecticide dust particles in atmospheres adjacent to orchards. 10399
- Fire blight research and control measures in the United States. 10624
- Overwintering phytoseiid mites in central Utah apple orchards. 11333
- The influence of spray programs on the fauna of apple orchards in Nova Scotia. XIX. Apple rust mite, Vasates schlechtendali, a food source for predators. 11925
- Some remarks on the corky triangle abnormality of the peach tree. 12018
- Orchard illumination as a counter to the fruit piercing moth. 12089
- Dispersal of Bryobia spp. and Typhlodromus mcgregori Chant within apple trees in Central Utah. 13316
- Apple spray program. 15485
- A dangerous disease on fruit-trees has appeared in the European continent. 15611
- On the migration of some leafhoppers--foes to fruit trees. 15642

ORCHIDACEAE
- Mosquitoes and Habenaria obtusata (Orchidaceae). 13134
- Campaign against Citrus psylla in Kangra District (Himachal Pradesh). 13831
- Influence of pesticides on russeting of Golden Delicious apples. 14487
- Phalaenopsis mite, Tenuipalpus pacificus Baker. 14813

OREOPSYCHE
- Material for a revision of the genus Oreopsyche (Psychidae). 13536
- Material for a revision of the Oreopsyche (Psychidae) genus (continuation and end). 13537
- A virosis with ovoid inclusions in Lepidoptera. 14853

ORGANIC COMPOUNDS
- Effect of organic and inorganic nitrogen on nematode populations on turf. 8383
- Behavior of belladonna mottle virus in serological tests in the presence of organic mercury compounds. 8966
- The use of ferromyn (Ferrous succinate) in iron deficiency anemia. 9102
- Identity of sporopollenin with older kerogen and new evidence for the possible biological source of chemicals in sedimentary rocks. 9525
- Dioxane and dioxaspiro derivatives as attractants for male yellow-fever mosquitoes. 10023
- Studies on the susceptibility of different stages of Bagrada cruciferarum Kirkaldy to some organic insecticides. 10043
- Method for repelling bees. patent 3,456,056. 10099
- Metabolism of organic pesticide chemicals in higher plants. 10278
- Research on pollution of crops, soil and shallow bodies of water in Liguria, through residues of some organochlorinated pesticides. 10395
- Modifications' of the micromethod of sample cleanup for thin-layer and gas chromatographic separation and determination of common organic pesticide residues. 10413
- Methods of determining pesticides in food products. (JPRS 34,946). 10418
- An economical control method for vegetation in drainage canals. (Abstract). 10788
- The use of Tetrahymena pyriformis Ehren. for the detection of residues of organic fungicides. 10937
- Variations in acidity of cell constituants as influenced by application of herbicides and organic acids. (Abstract). 11035
- Comparative effectiveness of aliphatic ketones in eliciting alarm behavior in Pogonomyrmex barbatus and P. comanche. 11407
- A specific gas chromatographic method for residues of organic nitrogen pesticides. 11667
- Significance of organochlorine insecticide residues in fresh plants as possible contaminants of milk and beef products. 11675
- Preliminary laboratory tests on the action of two synthetic fungicides to prevent the finger stalk rot of bananas. 11690
- Observations on associated complexes nematodes-fungi in connection with damages to flower growing and horticulture and means of control. 11923
- Tolerance of fungi to organic fungicides. 13253
- The relationship between chemical structure, fungicide properties and toxicity for mammals of some arsenic organic compounds. 14067
- Fungitoxic action of higher alkyl compounds. I. Mechanism of fungitoxic action of alkylphenols. 14665
- Some results from allium tests with organic mercury halogenides. 14674
- Organic insecticides and some recent trends in pest control. 15030
- Attempts to combat the strains of carrot and onion flies resistant to organo-halogen insecticide products. 15401
- How to collect, prepare and ship plant material for disease identification. 15467
- Identification and determination of organomercurial fungicide residues by thin-layer and gas chromatography. 15594

ORGANIC SOILS
- The adsorption of four herbicides by different types of organic matter and a bentonite clay. 11669

Organic matter--amiben interaction on nodulation and growth of soybeans. 12736

ORGANIZATIONS

Organising an eradication programme for Aedes aegypti in the USA. 8922

ORGANOMETALLIC COMPOUNDS

A new technique for the comparative evaluation of some organo-metallic wood preservatives. 13515

ORGANOPHOSPHORUS COMPOUNDS

Pesticide usage in relation to beekeeping. 8075

Effects of sub-lethal dosages of parathion and carbaryl on the biology of Dysdercus koenigii Fabricius. 8191

Insecticide-cytoplasmic interactions in insects and vertebrates. 8203

Pollen gathering of honey bees reduced by pesticide sprays. 8205

Comparison tests between various active ingredients employed during 1966 in the control of the flea beetle of the beet (Chaetocnema tibialis). 8208

Mosquito control in and around homes and farmsteads. 8274

Piricularia oryzae, a problem common to rice growing countries. 8282

Phospho-acid esters as fungitoxic agents. Patent 3,459,857. 8313

Grain aphids in New brunswick. IV. Effects of malathion and 2,4-D amine on aphid populations and on yields of oats and barley. 8320

Corn borer outlook. 8321

Double your cotton yield by spraying. 8324

Forest entomology. 8328

Control of the boll weevil by mechanically destroying fallen infested cotton squares. 8331

Chemical control of a species of the false chinch-bug group on wheat and sugar beets. 8336

Greenbug control in grain sorghum. 8337

Cabbage looper control in Florida - a cooperative program. 8345

Residues of diazinon on field corn treated with granular, capsular, and ULV formulations for control of the European corn borer. 8346

How to control insects on field tobacco. 8347

Experiments on the insecticidal control of Oxycanus fuscomaculatus Walker (Lepidoptera: Hepialidae). 8348

Developments in insecticide control of the rice stem borer in Japan. 8356

Rice leafhoppers. 8363

Fifty years of research on the pink bollworm in the United States. 8365

Recent developments in and future prospects for the chemical control of the rice stem borer at IRRI. 8366

Insecticide treatment of seed, as a control method of the maize leaf weevil (Tanymecus dilaticollis Gyll.). 8369

Topical, fumigation, and residual toxicity of insecticides to rice stem borers. 8374

Ovicidal efficiency of parathion and diazion for quarantine treatment of the Western tent caterpillar. 8376

Releases of unsexed gamma-irradiated codling moths for population suppression. 8378

Complexes of phosphorus pentafluoride oximes as herbicides. Patent 3,455,674. 8399

Aminophosphonate herbicides. Patent 3,455,675. 8415

Gardona as a mothproofer of woolen fabric. 8518

Effect of gamma radiation on the insecticidal efficiency of malathion deposits on wheat and kraft paper. 8519

Determination of pesticides in water by microcoulometric gas chromatography after liquid-liquid extraction. 8530

Residuals of pesticides in cultivated mushrooms. 8556

Malathion-induced teratisms in the developing chick. 8564

Mode of action of insecticide synergists. 8569

Degradation of parathion in the rat. 8570

Structure-activity and metabolism studies on organophosphate teratogens and their alleviating agents in developing hen eggs with special emphasis on Bidrin. 8572

Hazards of insecticides and residue problems in rice cultivation. 8574

Mode of action, translocation, oxidation, and decomposition of insecticides within the rice plants. 8581

Fungicidal compositions and methods using mesomeric phosphonium compounds. Patent 3,458,630. 8595

Indoxyl acetate spray reagent for fluorogenic detection of cholinesterase inhibitors in environmental samples. 8607

Shell's versatile products Aldrite 4, Dieldrite 1.5 Vaponite 2 formulated for all P.C.O. business. 8613

Seed-corn maggot resistance to aldrin in Illinois. 8767

Trithion-a new acaricide. 8814

Method of killing pests by application of a phosphoro derivative of alpha-(methylthio) cresol. Patent 3,427,384. 8875

Mode of action of insecticides on the rice stem borer and development of resistance. 8884

Fungicidal action of organophosphorus compounds. 8963

Current status of brown soft scale in citrus groves of the lower Rio Grande Valley. 9009

Effect of insecticides on ant and spider populations in Louisiana sugarcane fields. 9015

Further evaluation of animal systemic insecticides, 1968. 9126

The gas chromatographic examination of organophosphorus pesticides. IV. The effect of cooking on organophosphorus pesticide residues. 9147

Recovery of 65 organophosphorus pesticides from Florisil with a new solvent elution system. 9148

Residue analysis in the dairy industry. in Zwig, Analytical methods for pesticides, plant growth regulators, and food additives. vol. 1. principles, methods, and general application. 9157

Residues of Thimet on green and on field-dried alfalfa. 9160

Charcoal column cleanup method for many organophosphorus pesticide residues in crop extracts. 9163

Acute cutaneous toxicity of certain organophosphorous insecticides. I. Lebaycid. 9172

Mortality of the earthworm Lumbricus terrestris L. following soil applications of insecticides to a tobacco field. 9175

Mechanisms of pesticide interactions in vertebrates. 9177

The metabolism of Bayer 9017 in calves. 9184

The effects of combinations of preemergence herbicides and systemic insecticides on cotton stands and yields. 9196

The optinum size for insecticide spray droplets. 9231

Gas chromatography of organophosphorus pesticides: Retention times and response data on three columns. 9244

Organophosphorus insecticides. Patent 3,432,599. 9249

Control of plant bug complex. 9368

Biological observations on Zeuzera pyrina L. in Sicily. (Lep. Cossidae). 9417

Esterase inhibition in malathion poisoning in the desert locust, Schistocerca gregaria Forskal. 9423

Effects of ultra-low volume applications of malathion in Hale County, Texas. I. Western encephalitis virus activity in treated and untreated towns. 9521

Progress report of low-volume aerial spray tests against adults of Aedes taeniorhynchus (Weid.) and Culex nigripalpus Theob. 9523

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O,O-diethyl O-(2-isopropyl-4-methyl-6-pyrimidinyl) phosphorothioate. 9532

Vectors of hoja blanca virus. 9627

A new method of cabbage root fly control. 9637

Home orchard pest control. 9643

Studies on the safety of plastic dog collars containing dichlorvos. 9761

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O,O-dimethyl S-(4-oxo-1,2,3-benzotriazin-3(4H)-ylmethyl) phosphorodithioate. 9790

Inhibition of beef liver hydrolytic enzymes by organophosphorus pesticides. Quantal inhibition characteristics of several organophosphorus compounds, using o-nitrophenyl butyrate as substrate. 9801

Organophosphorus poisoning. Some properties of avian esterases. 9805

Organophosphorus poisoning. Diagnosis of poisoning in pheasants owing to a number of common pesticides. 9806

Stimulation of hepatic microsomal drug-metabolizing enzymes by alpha,alpha-bis-(p-chlorophenyl)-3-pyridinemethanol and a method for determining no-effect levels in rats. 9811

Determination of hydrolytic metabolites of organophosphorus insecticides in cow urine using an improved thermionic detector. 9820

Physico-organic chemical approach to the mode of action of organophosphorus insecticides. 10014

Mediterranean fruit flies and melon flies trapped at various heights with synthetic lures. 10032

Studies on the susceptibility of different stages of Bagrada cruciferarum Kirkaldy to some organic insecticides. 10043

A simple starch-gel electrophoretic method to investigate esterase inhibition by common organic insecticides. 10044

Estimation and dissipation of parathion residue from the crop of Indian rape seed. 10048

Inheritance of DDT-RESISTANCE in Musca domestica nebuld Fabr. 10096

Variability in insecticide tolerance of eighteen honey-bee colonies. 10125

Toxicity of selected acaricides to susceptible and resistant strains of Tetranychus urticae Koch. 10128

Beetle. 10137

On the determination of insect and mite resistance to pesticides. The influence of these products in sublethal doses on animals and in the trophic effect following biochemical repercussions on plants. 10149

Growers join forces to battle the boll weevil. 10233

Common leafhopper-planthopper populations and incidence of tungro virus in diazinon-treated and untreated rice plots. 10234

The biology, mode of attack and damage caused by the thrips, (Haplothrips tritici Kurd) to wheat crops. 10235

European red mite and two-spotted spider mite control on apples in California. 10236

A comparison of malathion, diazinon, fenitrothion and dichlorvos for control of Sitophilus oryzae (L.) and Rhyzopertha dominica (F.) in wheat. 10237

Organophosphorus acaricides for controlling the two-spotted spider mite on strawberries. 10248

Treatment of mustard and radish seeds for the control of mustard sawfly, Athalia proxima Klug. at seedling stage. 10251

Easy-to-kill pests of fruit trees...codling moth. 10253

Toxicity of eight insecticides to the coccinellid predator Chilomenes sexmaculata Fabr.. 10262

Chemical control of Drosicha mangiferae (Green), a serious pest of Citrus spp. in Madhya Pradesh. 10263

Studies on the control of the red hairy caterpillar, Amsacta moorei Butler. 10266

Control of Brachyrhinus cribricollis injuring ornamentals. 10269

Chemical stimulation of ethylene evolution and bud growth. 10300

The control of insects in bagged grain by the injection of dichlorvos. 10387

Pesticides and clay minerals. 10397

Collaborative study of confirmative procedures by single sweep oscillographic polarography for the determination of organophosphorus pesticide residues in nonfatty foods. 10409

Methods of determining pesticides in food products. (JPRS 34,946). 10418

Specificity and mechanism in the action of saligenin cyclic phosphorus esters. 10424

The in vitro metabolism of organophosphorus insecticides by tissue homogenates from mammal and insect. 10426

Chemistry of insecticides. 10463

Degradation and anticarboxylesterase activity of disulfoton and phorate after 60Co gamma irradiation. 10465

Insecticides, how to use them safely and effectively. 10466

Note on versatility of silicone Dow Corning 11 substrate for gas chromatography of pesticides. 10482

On the subject of certain limits noted in the control of the seed-corn maggot. 10519

The use of Daphnia pulex De Geer for the detection of insecticides extracted from plants. 10523

Leaterjackets. 10526

Comparison of the effect of old and new, individual and mixed, anti coccoidea preparations used against the San Jose scale. 10527

A survey of resistance to dieldrin-group in the German cockroach, Blattella germanica, collected from Kawasaki, japan. 10563

Biology of Myelois ceratoniae Zeller and research on the control methods. 10568

DDT-DEHYDROCHLORINASE activity in house fly strains resistant to various groups of insecticides. 10579

Some suggestions for control of white ant damage on dadaps (Erythrina indica L.). 10710

Leaf mining moths are again occuring more often. 10714

Citrus scale insects. 10726

Arrestant-feeding stimulant as an additive to shell SD-8447 for control of corn earworm larvae in sweet corn. 10732

1969 suggested insecticide guide. Insect control for livestock and livestock barns. 10909

Degradation of insecticides by a soil fungus, Trichoderma viride. 10924

The effect of some insecticides on the animal organism. A contribution to the study of the hygienic-sanitary problem of the residues of the organophosphorus insecticides. 10939

Dursban insecticide persistence in grass and corn forage. 10941

A study of the toxicity of an organophosphorus insecticide and its residues. 10946

Hydrolysis of malathion by chicken and rat liver carboxyesterase. (Abstract). 10950

Studies on the anticholinesterase effects of methyl parathion, guthion, dichlorovos, and Gardona in human subjects. (Abstract). 10952

Safety evaluation of the pesticide diazinon by a two-year feeding trial in Rhesus monkeys. (Abstract). 10955

Some principles of the selection of the synergists for organophosphorous pesticides. 11072

O-alkyl S-(substituted benzyl) benzene thiophosphonates for controlling fungi. Patent 3,443,011. 11075

Comparative toxicity (mammals, insects, mites) of new phosphorylate derivatives of aminoethylthiol. 11245

The appearance of resistance in the larva of the cotton rootborer weevil to the action of chlorinated hydrocarbons under laboratory conditions. 11348

A method for determining the dosage-mortality curve of malathion against the pea aphid, Acyrthosiphon pisum (Harris) (Homoptera: Aphididae). 11365

The susceptibility to insecticides of Cydia pomonella (Linneaus) (Lepidoptera: Tortricidae) from Queensland. 11381

Profit by pest control in CSH-1 and CSH-2 sorghums. 11532

Current studies on Atherigona indica--a pest of wheat. 11543

Observations on the repopulation by amoeba of a pond largely polluted with insecticides (Protozoa, Rhizopoda, testacea). 11663

Occurrence and significance of pesticide residues in water. 11665

Determination of organophosphorus pesticides in water. 11666

Gas chromatographic analysis of phorate and five metabolites in monkey liver homogenates. 11674

A carboxylesterase inhibition assay to estimate parathion, malathion and diazinon in lettuce extracts. 11676

Cholinolytics in the treatment of anticholinesterase poisoning. V. The effectiveness of Parpanit with oximes in the treatment of organophosphorus poisoning. 11678

The effect of parathion on quail embryonic development. 11687

Activity of Fosfotion and Metathion against Acyrthosiphon onobrychis Boyer. 11844

The cluster fly. 11871

Hormonale regulation of the metamorphosis-new aspects based on investigations in Formica polyctena Foerst. (Hym.). 11879

Mites or red spiders on ornamentals. 11893

The toxicity of organophosphorus insecticides to miner moths. 12045

A 'phoracide' powder insecticide for use in mushroom houses. 12084

Soybeans: What to do after pre-emergence. 12099

Trials with insecticides for control of black beetle (Heteronychus arator Blanchard) larvae and adults in pasture. 12189

Method for determining the fenthion residues in olives and olive oil. 12211

Acute cutaneous toxicity of certain organophosphorous insecticides. II - Phosphamidon. 12226

Control of fungi with O,O-dimethyl-S-trichloromethylphosphorodithioate. Patent 3,439,092. 12252

Automated differential screening method for organophosphorus pesticides. 12268

This LV rig fights winds. 12327

Four methods of sampling to measure populations of alfalfa weevil larvae. 12341

Study of the stability of paper impregnated with oily solutions of OMS 33 (carbamate) and OMS 43 (oranophosphorous compound). Susceptibility of females of various species of African Culicidae to OMS 33 and OMS 43. 12420

Laboratory insecticide tests against the Fall webworm. 12429

Failure of laboratory colonies of body lice to develop resistance to malathion. 12437

Longevity, resistance to deprivation of food and water, and susceptibility to malathion and DDT of Oriental fruit flies, melon flies, and Mediterranean fruit flies sexually sterilized with tepa or radiation. 12479

Practical implications of insecticide resistance in culicine mosquitoes. 12509

Organophosphorus compounds. VI. -Structure and activity of certain 4-(diethoxyphosphinohioylthiomethyl)4H-1,3,4-oxadiazoline-5-thiones, of certain 4-diethoxyphosphinohioylthiomethyl-thiazoles, and related compounds. 12514

Efficacy of malathion on wheat grains against Trogoderma granarium Everts at constant temperatures. 12527

Deformation of puparia of the housefly (Musca domestica L.) on treatment with organophosphorus insectisides. 12541

Absorption and metabolism of fenthion in blood-sucking arthropods. 12558

Promising chemicals for control of adult mosquitoes. 12583

Evaluation of multi-engine aircraft in the ULV application of dibrom. 12587

Control of adult mosquitoes in Alaska with malathion. 12589

New insecticides evaluated as nonthermal aerosols against Aedes taeniorhynchus (Wiedemann). 12590

Control of Oriental rat flea in Vietnam with diazinon dust. 12591

Pear Psylla control studies. 12669

The control of Aphis fabae Scop. on spring-sown field beans (Vicia faba L.). 12670

Laboratory and field tests in 1966--67 on chemical control of wireworms (Agriotes spp.). 12671

Insecticides for control of Sphenophorus venatus confluens, Rhopalosiphum padi, and Rhipidothrips brunneus in orchardgrass. 12676

Summer control of grape--vine scale (Eulecanium persicae (F.)) in the Stanthrope District, Queensland. 12679

Control of grape leaf blister mite (Eriophyes vitis (Pag.)) in the Stanthrope District, Queensland. 12680

Insect control studies on the new hybrid sorghum CSH-1 in India. 12691

Field evaluations in spray programs for control of the fruit-tree leaf roller on sweet cherry. 12694

Insecticide trials in tobacco seedbeds, 1962--1965. 12715

Nonstaining phenylenedimethylene-bis-(triphenylphosphonium) salt - inactivated hog cholera virus vaccine. Patent 3,455,782. 12753

Fly control in cage layer houses. 12813

Laboratory evaluation of malathion as a storage protectant for figs. 12879

Tetraethylammonium chloride as an antidote for certain insecticides in mice. 12893

Influence of climatic conditions on the effectiveness of treatments against Cryptorrhynchus lapathi L. larvae. 13029

Laboratory evaluation of some organophosphorus compounds against the larvae of Aedes (O.) detritus (Haliday), Aedes (O.) caspius (Pallas) and Culex pipiens pipiens (L.).. 13060

Malathion resistance in Aedes sollicitans (Walker) from Langley Air Force Base, Virginia. 13096

Resistance of Culex tritaeniorhynchus Giles and Culex quinquefasciatus Say to malathion on Okinawa with notes on susceptibility to other insecticides. 13196

Abate and Dursban against Aedes aegypti (L.) breeding in concrete water jars in Bangkok, Thailand. 13219

Evaluation of Dursban as a larvicide in septic ditches. 13222

Oil larvicides applied by aircraft in an area characterized by resistance to organophosphorus larvicides. 13223

Drip application of three organophosphorus insecticides for mosquito control. 13225

Grain aphids in New Brunswick. IV. Effects of malathion and 2,4-D amine on aphid populations and on yields of oats and barley. 13297

The relative susceptibility of the larvae of Spodoptera mauritia acronyctoides (Guenee) (Lepidoptera: Noctuidae) to several contact insecticides. 13300

The use of cidial to control certain poplar borers. 13302

Investigations on the control of pasture cockchafers, Aphodius pseudotasmaniae, given in Tasmania. 13313

The biology and chemical control of the maize borer, Ostrinia salentialis, Snellen, in west Malaysia. 13332

Trials with Neguvon in the control of Hypoderma lineatum. 13404

Developments in control of ectoparasites of livestock. 13421

Pesticide quest: residue surveys and tolerances. 13442

Gas-liquid chromatography of pesticides on OV-17 stationary phase. 13449

Cholinesterase inhibition autoanalysis of insecticidal organophosphates and carbamates. 13453

The enhancement of penetration of an organophosphorus anticholinesterase through guinea pig skin by dimethyl sulfoxide. 13463

Combinations . 13504

Antidotes for organophosphate poisoning. I. Synthesis of 1-(quaternary ammonium)-3-(hydroxyiminomethylpyridinium)propane dibromides. 13514

Identification of organophosphate pesticides by gas chromatography with the flame photometric detector. 13517

A new 8-row ground sprayer with auxiliary air for ULY application of pesticides to cotton. 13522

Preliminary toxicity studies on the yellowjacket Vespula pensylvanica (Saussure) in California. 13644

Laboratory investigations on the effect of aphicides available in Poland on the most important natural enemies of aphids. 13702

Experiences with aerial dusting in the Kern mosquito abatement district--1967. 13734

Aerial insecticidal sprays against resistant salt-marsh mosquitoes Aedes taeniorhynchus (Wiedemann) and Aedes sollicitans (Walker). 13736

Aerial application of a chemical fog for the control of mosquito larvae and adults. 13739

Control of mosquito adults and larvae using Baytex and Baygon in a SiO2 chemical fog. 13743

Effects of aphid-transmitted viruses on the strawberry cultivars Northwest and Columbia. 13813

Observations on the effect of insecticides on coleopterous predators of Erioischia brassicae (Diptera: Anthomyiidae). 13842

Traps, male lures, and a warning system for Queensland fruit fly, Dacus tryoni (Frogg.) (Diptera, Trypetidae). 13849

Control of the sugarbeet nematode, Heterodera schachtii, on sugarbeets with organophosphate and carbamate nematicides. 13883

Dermaphos a phosphoro-organic preparation in the treatment of the skin mycosis in cows and horses. 13938

Residue studies of fenthion (Baytex) and Dursban in Central California pastures. 14053

The metabolism of contact insecticides in stored grains. 14054

Screening methods for organochlorine and organophosphate insecticides in foods and feeds. 14055

A new flash injector for gas chromatography of organophosphorus insecticides. 14057

The interaction of pesticides with other factors. 14063

The metabolism of pesticides in mammals. 14064

Chromogenic spray reagents for the organophosphate pesticides. 14111

Genetical studies on the resistance to parathion in Drosophila melanogaster. III. Induction of a susceptible gene from its resistance allele. 14287

The sheep blowfly's tolerance of insecticides (Lucilia cuprina). 14295

Problems regarding the protection of fruit trees against infestations by leaf mining Microlepidoptera. 14480

On the appearance and the control of the red-currant leaf-gall fly. 14489

Studies on the insecticide resistance of the tea red spider mite, Tetranychus kanzawai Kishida. II. The mite resistance to phenkapton, estox, and kelthane in the tea growing areas in Japan. 14493

Insecticidal experiments for the control of mustard aphid. 14497

Asuntol and Neguvon in the fight against dog fleas. 14626

Systemic activity of zectran, matacil and bidrin injected into conifer trunks. 14656

Determination of insecticide residue in animal and plant tissues. IV: Determination of residual amount of Sumithion and some of its metabolites in fresh milk. 14659

The influence of CCC on lodging and development of grain. 14680

Kinetic evidence of reversible iso-cholinesterases based on inhibition by organophosphates. (Abstract). 14700

Contribution to the knowledge of Stauronematus compressicornis (F.). (Hymenoptera-Tenthredinidae). 14804

Further chemical control tests against Paranthrene tabaniformis Rott. 14811

Phalaenopsis mite, Tenuipalpus pacificus Baker. 14813

Spotting of grapefruit as associated with false spider mites. 15008

A case history - Control of the hemlock looper. 15016

Organic insecticides and some recent trends in pest control. 15030

Investigations on the biology and means for control of Neurotoma nemoralis L., Tenthredinidae, Thysanoptera. 15037

An improved laboratory method of evaluating insecticides for the protection of sheep against blowfly strike. 15195

Studies upon the residues of di-systone in potato tubers and some vegetables. 15259

Degradation of organophosphates by fish liver phosphatases. 15265

Toxicity of six organophosphorus insecticides to fish. 15272

Trithion spotting of grapefruit. 15294

Action of thiabendazole compared to that of ethylparathion on rye-grass crown rust. 15514

Tests on the dissemination of the tulip streak virus. 15613

Dasanit insecticide for superior control of corn rootworm. 15645

The reaction of different Drosophila populations to treatment with pesticides. 15671

Chemical control of nematodes in sugarcane. 15694

Notice of withdrawal of petition for food additive Diethylcarbamazine. 15786

The use of chlorophos with prolongator for antitick treatment of cattle in a focus of Crimean hemorrhagic fever. 15813

Diffusion of organophosphorus insecticides in soils. 15853

Azinphos-ethyl residues on field grown tomatoes. 15857

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Food additives 2,2-dichlorovinyl dimethyl phosphate. 15858

Tolerances and exemptions from tolerances for pesticides chemicals in or on raw agricultural commodities. O,Odiethyl S-2-(ethylthio)ethyl phosphorodithioate. 15859

Notice of filing of petition regarding pesticide chemicals. 15866

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities, Malathion. 15868

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O-Odiethyl O-3-chloro-4-methyl-2-oxo-2H-1-benzopyran-7-yl phosphorothioate. 15869

Studies on the mechanisms of the monofluoroacetanilides poisoning to mammals. VIII. Organophosphorus compounds as a specific inhibitor to fluoroacetanilide amidohydrolase. 15888

The method for the inhibition of cholinesterases as applied to the determination of agricultural pesticide residues. 15912

ORGANOPHOSPHORUS INSECTICIDES
A current review of the use of insecticides in agriculture. 9625

ORGANOTIN COMPOUNDS
Studies on the fungicidal control of rice blast. 11499

Organotin-, arsenic and antimony 1,1-ethylene dithiolates. Patent 3,429,905. 12317

Compositions containing organotin metal carboxylate antimicrobials. 12921

ORGYIA LEUCOSTIGMA
Serological investigations of insect viruses. I. Comparison of three highly purified cytoplasmic-polyhedrosis viruses. 11846

ORIBATEI
New species of beetle mites of the family Chamdbatidae (Oribatei) from the USSR. 9940

Autoecological-zoogeographical analysis of moss mites (Acari, Oribatei) on the basis of fauna in the Poznan environs. Part I. 10557

Concerning evolution by stages in certain arthropods. 11271

Notes on the muscles closing the anal and genital opening and on the reproductive structure in mature Oribatei. 11279

The question of applied terminology for development stages of mites of the suborder Sarcoptiformes. 11724

New species of beetle mites of the subfamily Sphaerozetinae (Oribatei, Ceratozetidae). 11759

Some new Oribatei from xerotherm soil of central Spain (Acarina). 13576

The Lohmanniidae of Spain (Acari, Oribatei). 13583

Contribution to the knowledge of the neotropical Oribatid fauna. 5. Archegozetes. (Arach., Acari). 14127

Oribatid mite fauna in Sarobetsu Moor in northern Hokkaido, Japan. 14138

Lamellarea, a new oribatid genus (Acari) from South Africa. 14147

Two new oribatid mites from South Africa (Oribatei, Acari). 14148

The second All-Union Symposium on soil-forming mites (Oribatei). 14816

ORIBATIDAE
The scientific results of the Hungarian soil zoological expeditions to South America. 12. Acari: Oribatids from the materials of the second expedition. III. 13532

ORIENTAL REGION
On some butterflies from the Indo-Pacific region. 13579

ORIUS MINUTUS
The enemics of the predaceous mites as a reducing factor of spider mites. 9369

ORIUS TRISTICOLOR
A model outbreak of the mite Tetranychus mcdanieli McGregor in Ontario. 10721

ORNAMENTAL PLANT CULTURE
Ethylene-its effect on flower crops. 12259

Fine structure of leukocytes adhering to the cuticle of Ascaris suum larvae. II. Polymorphonuclear leukocytes. 14638

Problems posed by Acarina to floriculture. 15637

ORNAMENTAL PLANTS
A foliar disease of tuberose caused by Aphelenchoides hesscyi. 9031

Control of Brachyrhinus cribricollis injuring ornamentals. 10269

Plant protection. Bulletin of the plant disease control station of Geneva. July. 10610

Effects of herbicides and application methods on weeds in nursery containers and phytotoxicity to ornamental plants. (Abstract).
10776

The isolation of the toxic principle of Daphne.
10945

Phytotoxicity of certain herbicides to several woody ornamentals.
10960

Mites or red spiders on ornamentals.
11893

Characteristics of the use of the fumigant Di-Trapex, a fungicide and nematocide.
11922

Biological studies of Argyresthia franciscella and A. cupressella on ornamental Cupressaceae.
12079

Enhancing the activity of chemical growth retardants. Part one of a discussion of UNI-F529 as it compares with B995 as a chemical growth retardant.
12241

Response of some ornamental plants to synthetic abscisic acid.
12243

Effect of foliar applications of 3-indolebutyric acid on rooting of cuttings of ornamental plants.
12273

Uromyces costaricensis - A new report for the continental United States.
12629

Influence of growing marigolds, weeds, two cover crops and fumigation on subsequent populations of parasitic nematodes and plant growth.
13889

Insects of the season 1966 related to fruit, vegetables and ornamentals.
14483

Ornamental and floral crops disease control.
14933

Flower and shrub insects.
15027

Nematode control in woody ornamentals.
15046

Chemical weed control in floral crops.
15097

Chemical weed control in woody ornamentals.
15145

Ornamental and floral crops disease control.
15469

Nematode control in woody ornamentals.
15693

Chemical weed control in woody ornamentals.
15734

ORNAMENTAL TREES

The respiration and flower development of evergreen azaleas as influenced by gibberellin, scale removal, and 2,4-dinitrophenol.
14666

ORNITHINE

The activity of ornithine-carbamyl transferase in the blood serum of calves and its diagnostic importance in the case of hepatic disturbances.
13983

ORNITHOBILHARZIA

Redescription of Ornithobilharzia canaliculata (Rud.) Odhner, with notes on classification of the genus Ornithobilharzia and the subfamily Schistosomatinae (Trematoda).
8516

ORNITHODOROS

Two new species of Ornithodoros from the Galapagos Islands (Acarina: Argasidae).
11157

Two new species of argasid ticks (Ixodoidea, Argasidae) from Cuba.
15316

ORNITHODOROS LAHORENSIS

Distribution of rickettsia Dermacentroxenus sibiricus in the organisms of ticks Ornithodoros lahorensis Neumann, Alveonasus canestrinii Bir. (Argasidae, Ixoidea).
10561

ORNITHONYSSUS BACOTI

Infection experiments with the cotton rat filaria Litomosoides carinii in Mastomys natalensis (Smith, 1834).
9127

ORNITHONYSSUS SYLVIARUM

Chemical control of the Northern Fowl Mite on the laying hen. (Abstract).
10907

ORNITHOSIS

Agglutinating antigen from an ornithosis agent. II. modification of antigen preparation and test procedure.
9709

OROBANCHE

Occurrence of Orobanche cernua on Pluchea lanceolata, an obnoxious weed in Rajasthan, India.
8411

Biochemical aspects of parasitism by the angiosperm parasites: Host-parasite interrelationship in phosphatase activity.
9044

Control of broomrape in peas and carrot crops.
12733

Biochemical aspects of parasitism by the angiosperm parasites: Changes in nucleic acid content of infected hosts.
13491

On certain peculiarities of the parasitism of the tobacco broom rape.
13749

OROBANCHE CERNUA

Occurrence of Orobanche cernua on Pluchea lanceolata, an obnoxious weed in Rajasthan, India.
8411

ORTHOCIDE

Sensitivity of Rhizobium species to certain fungicides.
8933

ORTHOPODOMYIA

Observations of a mermithid nematodes parasitic in Orthopodomyia signifera (Coquillett) (Diptera: Culicidae).
15412

ORTHOPTERA

The structure of the female genital ducts and of the spermatheca in Gryllus campestris L.
8101

Lampbrush chromosomes and multiple nucleoli of Orthoptera.
8239

The cavernicolous status of some species of Macropathinae (Orthoptera: Rhaphidophoridae).
8662

Wetanema hula n. gen. et sp., a nematode from the weta Hemideina thoracica (White).
8737

The mandibles of two South American grasshoppers.
8796

The problem of the ootheca secretion in orthopteroids in the light of the most recent acquisitions.
9340

Histological data on the cuticular acidic mucopolysaccharides in Orthoptera.
9419

A revision of the pseudomorphacridini (Orthoptera: Acridoidea: Pyrgomorphidae).
9909

Orthopteroid insects of east Nepal.
10487

A new species of Arenivaga from desert sand dunes in southern California (Dictyoptera: Polyphagidae).
10492

Evidence, in Dictyoptera, of a fourth pair of Nervi corporis cardiaci.
10522

An annotated list of the Dermaptera, Dictyoptera, Phasmatoptera, and Orthoptera of Michigan.
11115

New photoreceptors placed in evidence in the Dictyoptera: The paraocellar organs.
11239

Gregarinidae: New Orthopteran parasites.
11246

Extension of the host range of Nosema locustae in Orthoptera.
11286

Arthropods in the diet of the cattle egret, Bubulcus ibis, in southern Louisiana.
12812

Lampbrush chromosomes and multiple nuclei in Orthoptera.
13725

The Rhaphidophoridae (Orthoptera) of Australia. Part 7. Pallidotettix, a new genus from the Nullarbor Plain, south-western Australia.
14160

Records of the orthopteroid insects in Ontario.
14276

The post-embryonic ontogeny of Acridomorpha. (Orthoptera).
14814

An intense electron microscope study of the pars stridens of the ensiform Orthoptera.
14875

In vitro: Ending of egg diapause in some Tettigoniids.
15361

Preliminary research on Drosophila sigma virus multiplication in insects belonging to different orders.
15383

ORYZAEPHILUS

Houshold pests in Hamburg through three imported beetles.
15230

ORYZAEPHILUS MERCATOR

Effects of the antifeeding compound AC-24055 (4'-(3,3-Dimethyl-1-triazeno)acetanilide) on the survival, development, and reproduction of some stored-products insects.
10544

Laboratory evaluation of malathion as a storage protectant for figs.
12879

ORYZAEPHILUS SURINAMENSIS

Glutamic acid requirements of the saw-toothed grain beetle, Oryzaephilus surinamensis (L.) (Coleoptera, Silvanidae).
8741

The control of insects in bagged grain by the injection of dichlorvos.
10387

Effects of the antifeeding compound AC-24055 (4'-(3,3-Dimethyl-1-triazeno)acetanilide) on the survival, development, and reproduction of some stored-products insects.
10544

Laboratory evaluation of malathion as a storage protectant for figs.
12879

A comparison of three strains of Oryzaephilus surinamensis (L.) (Col., Silvanidae) on a temperature--moisture gradient.
13005

OSCILLATION

The mechnism of coupling of the locust Light oscillator to oscillatory inputs.
14278

Mechanical properties of insect fibrillar muscle at large amplitudes of oscillation.
15417

OSCINELLA CARBONARIA

Biology and immature stages of Eumetopiella rufipes.
11891

OSCINELLA FRIT
Emergence periods and population fluctuations of the frit fly Oscinella frit L. (Dipt.: Chloropidae) in Norway. 13693

OSMOSIS
The effects of salt stress on the cerebral neurosecretory system of the grasshopper, Melanoplus sanguinipes (F.) Orthoptera). 15359

OSMOTIC PRESSURE
The contraction of the roots of Arum italicum. 8583

Water uptake and embryonic development in eggs of Chorthippus brunneus Thunberg (Saltatoria: Acrididae). 10079

Variations of pH and osmotic pressure of the hemolymph in Galleria mellonella L.. 11329

The action of X-rays on the osmotic pressure and the pH of the hemolymph of Galleria mellonella L. (Insecta Lepidoptera). 14242

Variations in the vitality and osmotic pressure of several Eucalyptus, as a function of ecological conditions and the role of the xylophagous Phoracantha semipunctata Fabr. (Coleoptera, Cerambycidae). 15005

Osmotic regulation and rectal absorption in the blowfly, Calliphora erythrocephala. 15413

OSTEOPETROSIS
Etiology of avian osteopetrosis. (Abstract). 10855

OSTEOSARCOMA
Osteosarcoma in the dog. 13937

OSTERTAGIA
Further experiments with low-level feeding of Thiabendazole to lambs. 9135

OSTERTAGIA LYRATA
New parasitic nematodes reported in alpacas (Lama pacos) from Peru, with a description of Spiculopteragia peruvianus n. sp. 12193

OSTERTAGIA OSTERTAGI
On the meaning of trichostrongylid egg counts in cattle. 10915

Some observations on the worm burdens of calves infected daily with Ostertagia ostertagi. 12200

Inhibition of Ostertagia ostertagi at the early fourth larval stage. I. The seasonal incidence. 12816

Critical trials on the efficacy of thiabendazole against Ostertagia ostertagi, Cooperia oncophora, and Nematodirus helvetianus. 12859

Inhibition of Ostertagia ostertagi at the early fourth larval stage. II. The influence of environment on host or parasite. 13409

OSTRINIA
The biology and chemical control of the maize borer, Ostrinia salentialis, Snellen, in west Malaysia. 13332

OSTRINIA NUBILALIS
Effects of ecdysones on diapause in the European corn borer, Ostrinia nubilalis. 8083

The biology of the European corn horer, Ostrinia nubilalis (Hubner), in Manitoba. 8127

Corn borer outlook. 8321

Residues of diazinon on field corn treated with granular, capsular, and ULV formulations for control of the European corn borer. 8346

A contribution to the study of the Greek species injurious to corn, of the genus Sesamia (Lepidoptera-Noctuidae). 8865

Fight stalk rot with right fertility. 8978

Battle against the corn borer. 9337

Ammonium-induced termination of diapause in the European corn borer, Ostrinia nubilalis. 9348

An observation on the ileum of the European corn borer, Ostrinia nubilalis. 9422

The defense of a corn crop against noxious insects by means of a light trap. 9640

Concentration of two 1,4-henzoxazinones in dent corn at various stages of development of the plant and its relation to resistance of the host plant to the European corn borer. 9796

Resistance discovered to maize borer. 11915

Maternal age as an ecological factor in the population dynamics of the European corn borer, Ostrinia nuhilalis. 12520

Appreciation of the efficacy of certain granulated insecticides in the control of the maize pyralid (Ostrinia nubilalis Hbn.) III. 13840

Ultrastructure of the ileum of the European corn borer, Ostrinia nuhilalis. 14207

The European corn borer; how to control it. 14301

OTIORHYNCHUS
Observations on Strophosomus melanogrammus (Forst.), Polydrosus marginatus Steph. and Otiorrhynchus armadillo (Rossi) (Coleoptera Curculionidae), pests of Pseudotsuga douglasii Carr. in Tuscany. 8333

OTITIDAE
Biology and immature stages of Eumetopiella rufipes. 11891

OTOBIUS MEGNINI
Oral famphur for treatment of cattle lice, and against scabies mites and ear ticks of cattle and sheep. 11637

OUABAIN
Toxicity of ouabain (G-Strophanthin) to adult house flies. 8764

OULEMA MELANOPUS
Predators pitted against cereal leaf beetle. 8696

Hyalomyodes triangulifer parasitizing the cereal leaf beetle, Oulema melanopus. 8897

Influence of the quantity of insecticide per seed and per hectare on seed treatments for cereal leaf beetle larvae control on oats. 12080

X-ray radiation effects on survival and sterility of adults of the cereal leaf beetle. 12500

Research into the actual yield reduction hy attack on winter wheat and summer barley of the cereal leaf beetles (Lema cyanella L. and L. melanopus L.) and the wheat stem sawfly (Cephus pygmaeus L.). 15658

OVA
Effects of fat body fatty acids on ovarian and liver metabolism of Ambystoma tigrinum. 15176

OVARIES
Asynchronous ovarian development in the housefly, Musca domestica L. (diptera: Muscidae), caused by dietary gamma-aminohutyric acid (GABA). 8714

The fine structure of Babesia ovis (Piroplasmidea) in Rhipicephalus bursa (Ixodoidea): Transformation of spherical forms to vermicules. 8754

The action of the endocrine system and the ovary on the hemogram of Locusta migratoria L. (Orthoptera). The role of the ventral gland. 8771

Chronological study of the function of the ovary in the Hypogastruridae. Cavern-living and epigeous Collembola: Typhlogastrura halazuci Delamare and Ceratophysella engadineusis Gisin. 8881

Ultrastructure of the trophic hands in the ovaries of several homopteran Auchenorrhyncha. 9393

The action of the endocrine system and the ovaries on the hemogram of Locusta migratoria L. (Orthoptera). The role of the corpora cardiaca. 9402

The assay of gonadotropic effect of juvenile hormone on Aedes aegypti ovaries. 9468

Cyclic ovariole changes in Anopheles farauti Laveran (Diptera: Culicidae) in Papua-New Guinea. 9475

The role of the amphinucleolus in meiosis and pole plasm development of Aedes aegypti. 9515

Fine structures of merozoites of Babesia bigemina in the ovaries of Boophilus microplus and Boophilus decoloratus. 10012

Anatomical indicators for assessing age of mosquitoes: changes in ovarian follicles. 10107

Estrogenic action of DDT and its analogs. (Abstract). 10949

Cellular response in the female gonads of Galleria mellonella L. (Lepidoptera) to the experimental disturbances in the normal supply of hormones. 11261

Nucleic acid. amino acid. and carbohydrate metabolism of nurse cell nucleoli in Musca domestica. 11267

In vitro culture of ovary of the plant bug, Iphita limbata Stal. 11297

In vitro culture of the nymphal ovary of Tenebrio molitor (Coleoptera) in the presence of ecdysone. 11327

Ovarian function and oviposition in virgin females and fertilized females of Drosophila melanogaster which have been submitted to an exclusively glucoside diet. 11349

Haemolymph proteins and yolk formation in the cockroach, Leucophaea maderae. 11878

X-Ray-induced multiple aberrations among oocytes of Drosophila melanogaster. 11911

Inhibition of ovary development of the fruit-fly, Drosophila melanogaster by synthetic queen substance. 12528

Evidence of transovarial passage of the sowthistle yellow vein virus in the aphid Hyperomyzus lactucae. 12689

Salmonella infections of the ovary and peritoneum of chickens. 12794

Biochemical effects of apholate on mosquito ovarian tissue.
13137

Respiratory metabolism during metamorphosis: Respiration in vitro of the ovaries of Bombyx mori.
13627

Undifferentiated, serous, papillary, ovarian cystoadenocarcinoma in a bitch. Clinical and therapeutic aspects.
13946

Mating and ovary studies on Cerapteryx grammis L. (Lep. Noctuidae), collected from a light trap.
14228

The action of the endocrine system and the ovary on the hemogram of Locusta migratoria L. (Orthoptera). The role of the pars intercerebralis.
14828

Protein variations in the ovary of Locusta migratoria (L.) (Orthoptera) in the first phase of maturation.
15351

Action of reserpine on Dacus oleae Gmel.
15366

The influence of the host plant or males on ovarian development or oviposition in the diamondback moth Plutella maculipennis (Curt.).
15373

Histochemical observation on periodic-acid-schiff positive substances and nucleic acids in the normal and degenerated ovary of the lady beetle, Epilachna vigintioctomaculata Motschulsky.
15389

OVARIOLES

Incorporation of 1-C14-sodium palmitate into lipids of the ovariole of Galleria mellonella.
10525

Some observations on the malpighian tubules and ovarioles in Myrmecia dispar (Clark) (Hymenoptera: Formicidae).
11822

OVICIDES

Ovicidal efficiency of parathion and diazion for quarantine treatment of the Western tent caterpillar.
8376

Esters of benzimidazolecarbamic acid as mite ovicides. Patent 3,427,388.
8851

Ovicidal and larvicidal actions of Petkolin against red spider mites (Acarina: Tetranychidae).
9618

A comparative study of the effectiveness of chemical ovicides on the survival of the soil-transmitted intestinal nematodes.
9768

Italian experiences with a new acaricide product: C 8514 or Galecron.
11256

Two formulations effective in the laboratory as ovicides for Aedes aegypti (L.).
13744

Action of amine ovicides on Aedes aegypti mosquitoes.
14911

Simulated field tests with ovicides against Aedes aegypti eggs in tires and cans.
15446

OVIDUCTS

The problem of the ootheca secretion in orthopteroids in the light of the most recent acquisitions.
9340

OVIPOSITION

The response of a predator, Hypoaspis aculeifer (Canestrini) (Acarina:Laelapidae), to two species of prey.
8081

The role of short infra-red rays, on the egg laying workers of the ant Dolichoderus quadripunctatus L..
8200

The production of cuticle wax by engorged females of the cattle tick, Boophilus microplus (Canestrini).
8730

Corn stunt vector leafhopper attractancy to and oviposition preference for hybrid dent corn. I. Dalbulus maidis.
8732

Biology of Melichares tarsalis in association with Plodia interpunctella.
8738

Biology of the spider mite, Tetranychus evansi.
8838

Effect of male accessory material on oviposition and mating by female house flies.
8842

Biological examination of Psylliodes chrysocephala L.
9335

Pheromone-mediated behaviour leading to group oviposition in the blowfly Lucilia cuprina.
9354

Height preferences for oviposition of aphidophagous Syrphidae (Diptera).
9356

On the weight decline of eggs in one oviposition batch of Bombyx mori.
9414

Notes on the biology and hostplant associations of Ornithoptera priamus urvilleanus and O. victoriae (Papilionidae).
9478

Oviposition behaviour of the desert locust (Schistocerca gregaria Forsk.).
9971

Corn stunt vector leafhopper attractancy to and oviposition preference for hybrid dent corn. II. Graminella nigrifrons.
9992

Deviate-ontogenies in the aphelinid male (Hymenoptera) associated with the ovipositional behavior of the parental female.
10006

Development of Chrotogonus trachypterus (Blanch.) (Orthoptera: Pyrsgomorphidae) in relation to different levels of temperature and humidity.
10026

Field observations on periodicity and site preference in oviposition by Aedes aegypti (L.) and related mosquitoes (Diptera: Culicidae) in Kenya.
10072

Anatomical studies of the ovipositional site of plant hoppers and leaf hoppers on rice.
10075

Oviposition and hatching in two species of ticks in relation to moisture deficit.
10119

On the oviposition behaviour and development of Sitophilus oryzae Linn. in various natural foods.
10127

Oviposition characteristics and early larvae mortality of Saperda inornata and Oberea schaumii in Michigan aspen.
11281

Egg production by the Engelmann spruce beetle, Dendroctonus obesus, in relation to status of infestation.
11313

The neuro-endocrinal basis of oviposition in Dermestes maculatus DeGeer --I. The neurosecretory system.
11324

Further data on the oviposition by the genus Stylogaster Macquart (Diptera: Conopidae, Stylogasterinae) upon adult calyptrate Diptera associated with ants and animal dung.
11398

The influence of grains of corn as stimulation for oviposition in Sitotroga cerealella Oliv. (Lep., Gelechiidae).
11400

Oviposition of Aedes aegypti L. on a dry surface and hygroreceptors.
11780

Movement and oviposition of wheat bulb flies.
11781

Field investigations preliminary to life history studies on the lithosina-miona-casta complex of the genus Annaphila (Noctuidae).
11828

Galls and larvae of the European species of genera Phyllocolpa and Pontania (Hymenoptera, Tenthredinidae).
12052

The relationship of glandular hairs on tomatoes to spider mite resistance.
12085

Note on breeding of fruit flies Dacus ciliatus Loew and D. cucurbithe Coquillett in stem galls of Coccinia indica W. and A.
12413

Factors influencing Aedes aegypti occurrence in containers.
12418

Further studies on the pollination ecology of Ficus sycomorus L. (Hymenoptera, Chalcidoidea, Agaonidae).
12453

Comparative effects of reserpine and serotonin creatine sulfate on oviposition in the house fly.
12463

Notes on the biology of Culex territans Walker.
12496

The exploitation and conservation of resources by populations of insects.
12498

Oviposition traps and population sampling for the distribution of Aedes aegypti (L.).
12543

Response of Heliothis spp. (Lepidoptera: Noctuidae) to ultrasound when resting, feeding, courting, mating, or ovipositing.
13003

Oviposition by Pieris rapae L. in the insectary.
13673

Selection for and against gregariousness in the choice of oviposition sites by Drosophila pseudoobscura.
13714

Observations on the ovulation and oviposition with reference to corpus luteum formation in Musca domestica nebulo Fabr. (Muscidae: Diptera).
14229

The female genital apparatus of Ranatra (Hemiptera, Ranatridae).
14801

Measurement of field populations of Aedes aegypti with the ovitraps in 1968.
14817

Interspecific inhibitions released by fertilized females of the ant parasites Plaziolepis xene St. and Plaziolepis grassei Le Mas. Pas..
14862

Effects of sub-lethal dosages of parathion and carbaryl on the biology of Dysdercus koenigii Fabricius.
15028

Effects of insecticidal treatment on the biology of surviving insects.
15029

Action of reserpine on Dacus oleae Gmel.
15366

The influence of the host plant or males on ovarian development or oviposition in the diamondback moth Plutella maculipennis (Curt.).
15373

An oviposition trap for detecting the presence of Aedes triseriatus (Say).
15396

Oviposition response of Aedes sollicitans, Aedes taeniorhynchus, and Psorophora confinnis to seven inorganic salts.
15411

Effect of photoperiod on patterns of oviposition of Anocentor nitens Neumann (Acarina: Ixodidae). 15434

OVIPOSITORS

Fire on fire ants. 8322

Function and properties in an assembling scent in the Khapra beetle, Trogoderma granarium. 13643

Determination of females of Calliphorini and Pollenini (Diptera, Calliphoridae) by ovipositors. 13647

Study on the density of the adult of the brown planthopper Nilaparvata lugens Stal. 14251

Oviposition sites and the viability of eggs of Thymelicus lineola (Ochs.) (Lepidoptera: Hesperiidae). 14253

OVULATION

Effect of temperature on the progeny production and longevity of Lespesia archippivora in the laboratory. 8093

An artificial diet for the adult Japanese beetle. 8761

Parasitization of worker humble bees of Mississippi by Physocephala larvae. 9387

The influence of temperature on reproduction and development in four species of Glossina (Diptera: Muscidae). 10028

Biology of the billbug Sphenophorus venatus confluens, a new pest of orchardgrass. 10047

Ovarian function and oviposition in virgin females and fertilized females of Drosophila melanogaster which have been submitted to an exclusively glucoside diet. 11349

Effects of feeding provitamin A, stabilized vitamin A and furazolidone on production and quality of eggs. 11681

Effects of light: Dark cycles on development in Drosophila melanogaster. 11800

Purification of the male factor increasing egg deposition in D. melanogaster. 12490

The effect of radioactive phosphorus on the development of Aedes aegypti larvae. 13006

The response of a predator, Hypoaspis aculeifer (Canestrini) (Acarina:Laelapidae), to two species of prey. 13010

Oviposition by the boll weevil in the field. 13092

Observations on the ovulation and oviposition with reference to corpus luteum formation in Musca domestica nebulo Fabr. (Muscidae: Diptera). 14229

Field trials on the efficacy of thiabendazole against Haemonchus contortus in West African dwarf forest sheep and goats. 14635

OXALIS

Research on the ecological system of the forest. Series C: Oaks of Mesnil-Eglise (Ferage) with Galeoblolon and Oxalis. Contribution no. 5. Insects collected in water jars. 11819

OXALIS ACETOSELLA

Oxalis acetosella, a new host of the coffee root-lesion nematode in south India. 8397

OXATHIIN, 1,4-

Control of barley loose smut (Ustilago nuda) by a derivative of 1,4-oxathiin in South Carolina. 10661

OXATHIINS

A systemic oxathiin fungicide to control loose smuts, covering smuts, seed rots, and seedling blights of wheat, barley, oats, and sorghum. 10189

Chemical control of wheat and barley loose smut. 10194

OXATHIINS, 1,4-

Systemic control of Exobasidium vexans on tea with 1,4-oxathiin derivatives. 9613

Chemical control of the cereal rusts. 10697

OXIDASES

A study of the oxidases in the xylophagous insect, Ips sexdentatus and in its microbial flora. 11331

An attempt at an objective evaluation of the oxidase reaction in Leptospira cultures. 11614

On the function of the phenol oxydases of wood-rotting fungi. 12284

DDT-DEHYDROCHLORINASE and aldrin-epoxidase activity in corn earworm and polyphemus moth larvae, and house fly adults. 12480

The effect of gibberellin and auxin on IAA oxidase and peroxidase activity in mesocotyl cuttings of corn. 14087

Microsomal N-demethylation, by a cotton leaf oxidase system, of 3-(4'-chlorophenyl)-1,1-dimethylurea (monuron). 14675

The influence of the selective destruction of the microbial flora on the activity of two oxidases in the xylophagous insect Ips sexdentatus. 14838

OXIDATION

Identification of Brucella abortus: Oxidative metabolism and phage typing. 8474

Mode of action, translocation, oxidation, and decomposition of insecticides within the rice plants. 8581

Oxidative enzymes of Ceratocystis fimbriata isolates differing in host specificity. 9204

Oxidation of methyl- and dimethylcarbamate insecticide chemicals by microsomal enzymes and anticholinesterase activity of metabolites. 9740

Oxidative degradation of aromatic hydrocarbons by microorganisms. II. Metabolism of halogenated aromatic hydrocarbons. 9831

Conversion of heptachlor to its epoxide. 10478

Substrates oxidation of tricarboxylic acid cycle in hepatopancreas mitochondria of Astacus leptodactylus (ESCHZ). 10835

Some data on bioenergetics of the larvae of Trichinella spiralis. 10846

Uncoupling effect of cytoplasmic fraction of Trichinella spiralis larvae on bioenergetics of rat muscle mitochondria. 10878

In vitro fatty acid oxidation by developing tissues in the adult of the blowfly, flucilia. 11803

Mitochondrial oxidations of fatty acids in the blowfly, Lucilia. 13621

Mechanism of oxidation of luciferin in firefly bioluminescence. 15376

OXIDATION-REDUCTION POTENTIAL

The energy-dependent accumulation of phosphate by blowfly mitochondria and its effect on the rate of pyruvate oxidation. 11826

Biochemistry of malignant growth. 13997

OXIDES

Studies on the anemiogenic properties of trimethylamine oxide, an etiological factor in fish-induced anemia in mink. 13377

OXIMES

Complexes of phosphorus pentafluoride oximes as herbicides. Patent 3,455,674. 8399

Cholinolytics in the treatment of anticholinesterase poisoning. V. The effectiveness of Parpanit with oximes in the treatment of organophosphorus poisoning. 11678

OXYCLOZANIDE

Recent advances in knowledge of pathogenesis and treatment of fascioliasis. 10916

OXYDEMETONMETHYL

GLC determination of residues of disulfoton, oxydemetonmethyl, and their metabolites in tobacco plants. 8596

Control of Brachyrhinus cribricollis injuring ornamentals. 10269

GLC determination of residues of disulfoton, oxydemetonmethyl, and their metabolites in tobacco plants. 10404

Effects of aphid-transmitted viruses on the strawberry cultivars Northwest and Columbia. 13813

OXYGEN

Regulation of external respiration by the book-lung spiracles of the spiders, Araneus diadematus Clerck and A. marmoreus Clerck. 8176

Rate of oxygen uptake of healthy and diseased larvae of the Japanese beetle. 8895

Oxygen consumption of the western horse lubber grasshopper. 8899

Investigations on the susceptibility of potato tubers to Fusarium caeruleum (Lib.) Sacc., the fungus causing dry rot. 9602

Hazard of the high country. 9694

Gas chromatographic analysis of ciba C-9491 (O-(2,5-dichloro-4-iodophenyl)O,O-dimethyl phosphorothioate), its oxygen analog, and its phenolic hydrolysis product in sweet corn and milk. 9785

Seasonal evolution of the honey bee thermogenesis. Oxygen consumption of the isolated bee at five different temperatures in summer and in winter. 10123

Analysis of grain storage problems in India. 10390

Effect of trifluralin on oxygen uptake and oxidative phosphorylation in isolated mitrochondria. (Abstract). 11018

Effect of quinones on Chlorella pyrenoidosa. (Abstract). 11055

Oxygen consumption of the scorpion Centruroides sculpturatus. 11283

Effect of dicamba on oxygen uptake and cell membrane permeability in leaf tissue of Cyperus rotundus L. 11696

Respiratory physiology of the larva of Donacia simplex, a root-piercing beetle. 11830

Some effects of anoxia and hypoxia on the European red mite, Panonychus ulmi (Acarina: Tetranychidae). 13111

Regulation of external respiration by the book-lung spiracles of the spiders, Araneus diadematus Clerck and A. marmoreus Clerck.
13117

Maturation of sclerotia produced by Sclerotium rolfsii.
15462

Analyticial restraint of research on the respiratory metabolism of infectious virus on healthy potato nodules and sprouts.
15580

OXYOPES SALTICUS
Life history and predatory importance of the striped lynx spider (Araneida: Oxyopidae).
9499

OXYOPIDAE
Life history and predatory importance of the striped lynx spider (Araneida: Oxyopidae).
9499

OXYTETRACYCLINE
Control of European foulbrood disease of the honey bee.
8189

Control of bacterial spot of peach in New Jersey.
8288

The presence of Ehrlichia ovina-like organisms in the mononuclear cells of sheep in Ceylon.
13999

Intraarticular application of oxytetracycline and tetracycline in horses and cattle.
15174

Attempts at fighting the bacterial growth of the walnuttree.
15516

Food additives. Proposed revocations regarding Amprolium, Oxytetracycline, Zoalene.
15782

OXYTOCIN
The effects of ICI 33828 and oxytocin on milk ejection and milk production in the lactating sow.
9074

OXYTROPIS
Locoweed (Astragalus lentiginosus) poisoning in cattle and horses.
11683

OXYURIASIS
Oxyurata of the central elevated plain on the genus strongyluris Mueller, 1894 with description of two new species.
11641

Spinal nematodosis in a horse.
11656

OYSTERS
Note on improved extraction for chlorinated pesticide residues in oysters.
8551

Use of Fintrol-5 to control undesirable fishes in shrimp-oyster ponds.
12227

OZONE
Suppression of ozone toxicity symptoms in virus-infected tobacco.
9551

Ozone. Effect on apparent photosynthesis, rate of transpiration, and stomatal closure in plants.
9833

Photochemical oxidant injury and bark beetle (Coleoptera: Scolytidae) infestation of ponderosa pine. IV. Theory on the relationships between oxidant injury and bark beetle infestation.
13834

Photochemical oxidant injury and bark beetle (Coleoptera: Scolytidae) infestation of ponderosa pine. III. Effect of injury upon oleoresin composition, phloem carbohydrates, and phloem pH.
13848

Photochemical oxidant injury and bark beetle (Coleoptera: Scolytidae) infestation of ponderosa pine. I. Incidence of bark beetle infestation in injured trees.
13859

PACHYDIPLOSIS ORYZAE
The rice gall midge Pachydiplosis oryzae (Wood-Mason).
8371

PACIFIC NORTHWEST
New species of Chrysobothris from the Pacific Northwest (Coleoptera: Buprestidae).
9870

PAECILOMYCES
Relationship between citrus leaf-miner (Phyllocnistis citrella Stainton) injury and citrus canker (Xanthomonas citri (Hasse) Dowson) incidence on citrus leaves.
12025

On the decomposition of particle boards by soft rot fungi.
12039

PAEDERINAE
Results of the zoological investigations of Dr. Z. Kaszab in Mongolia. 86. Staphylinidae. II. Subfamilies Paederinae, Xantholininae and Staphylininae (Coleoptera). 74. Contribution to the knowledge of the Staphylinidae.
11203

PAINTS
Marking and recapture of California red scale for field studies.
10101

Compositions containing organotin metal carboxylate antimicrobials.
12921

Reduction of sorption in ethylene dibromide fumigation chambers.
12928

PAIRINGS
The initiation of nonhomologous chromosome pairing before exchange in female Drosophila melanogaster.
13191

PAKISTAN
Problem of avian leukosis in Lahore.
12171

PALEARCTIC REGION
The Old World species of the tribe Typopsilopini (Diptera: Ephydridae).
8066

Palearctic species of egg parasites of the genus Telenomus haliday (Hymenoptera, Scelionidae, Telenominae).
8645

Remarks on the morphology of some rare palearctic Opilonids (Opilionidea).
9470

New and little known palearctic Cecidomyiidae of the tribe Porricondylini (Diptera, Cecidomyiidae).
10499

PALEOENTOMOLOGY
Lepidopterous larval-mining of an oak ( ) leaf from the Latah Formation (Miocene) of eastern Washington.
12973

A new species of Tertiary water bug from the Bechlejovice diatomites (Heteroptera, Belostomatidae).
14161

PALMAE
Trials with pesticides against red mites--Raoliella indica Hirst in Kerala.
13852

The palm seed weevil , Caryobruchus gleditsiae (L.), in Florida (Coleoptera: Bruchidae).
15040

PALMITIC ACID
Incorporation of 1-C14-sodium palmitate into lipids of the ovariole of Galleria mellonella.
10525

PALMITIC ACID COMPOUNDS
Notice of withdrawal of petition for food additive estradiol monopalmitate.
10874

PALYNOLOGY
Pollens collected by species of Andrena (Hymenoptera: Apidae).
9986

PANAGRELLUS
The mechanism of orientation in nematodes.
13870

A Y shaped through for use in nematode behavioural studies.
13872

PANAMA
Vesicular stomatitis virus infections in Panamanian primates and other vertebrates.
9119

PANCREAS
Pancreatic dornase. Drugs for veterinary use; drug efficacy study implementation.
10877

The action of some divalent metals over the inhibition of pancreatic lipase by tetracycline and 4-epi-tetracycline.
15158

Diagnostic importance of Taylor's tests used in pigs diseased by swine plague.
15169

PANDEMIS HEPARANA
Biological investigations on Pandemis heparana (Den. and Schiff.) with special consideration given to the factors inducing diapause and influencing egg laying.
8155

PANICUM
Atrazine versus atrazine plus oil.
12719

Musk, brown rats and harvest mice as pests in maize.
14541

Preplant herbicides for control of weeds in red clover.
15132

PANISUS MICHAELI
Preliminary results of a new seasonal investigation on brook Hydracarinae (Acari-Trombidi formes).
9341

PANONYCHUS CITRI
Panonychus elongatus Manson (Acarina: Tetranychidae)-a description and comparison with P. citri (McG.).
11857

Toxicity, control, and residue studies with DO-14 (2-(p-tert-Butylphenoxy) cyclohexyl 2-propynyl sulfite) as an acaridicide against the citrus red mite.
12673

PANONYCHUS ELONGATUS
Panonychus elongatus Manson (Acarina: Tetranychidae)-a description and comparison with P. citri (McG.).
11857

PANONYCHUS ULMI
Winter control of the European red mite, Panonychus ulmi, and certain fruit insects by M-2060 (2-fluoroethyl(4-hiphenylyl)acetate) in Italy.
8691

Integrated chemical control of insects and biological control of mites on apple in Washington.
9010

The enemies of the predaceous mites as a reducing factor of spider mites.
9369

The effect of cultural measures on the population density of harmful and beneficial organisms in orchards.
9453

European red mite and two-spotted spider mite control on apples in California.
10236

Some problems regarding the protection of apples against some species of Acaridae.
10739

Italian experiences with a new acaricide product: C 8514 or Galecron.
11256

The influence of spray programs on the fauna of apple orchards in Nova Scotia. XIX. Apple rust mite, Vasates schlechtendali, a food source for predators. 11925

The inhibitory action of 2,4,6-trichlorophenoxy ethanol on females of red spider mite (Metatetranychus ulmi Koch). 12064

Some effects of anoxia and hypoxia on the European red mite, Panonychus ulmi (Acarina: Tetranychidae). 13111

Influence of pesticides on russeting of Golden Delicious apples. 14487

Studies on Panonychus ulmi (koch) in Lebanon. 14859

The two spotted (carmine) spider mite (Tetranychus cinnabarinus Boisd.) on apple in Israel. 15657

PANSTRONGYLUS
A new species of the genus Panstrongylus Berg, 1879 (Reduviidae, Triatominae). 12956

A comparative morphology of Panstrongylus geniculatus (Latreille, 1811) and Panstrongylus megistus (Burmeister, 1835) and their external genitalia (Hemiptera, Reduviidae, Triatominae). 13080

PAPAIN
Possibilities of preparation of an oil adjuvant vaccine against haemorrhagic septicaemia of cattle using a medium papain digest of beef. 14000

PAPAVER SOMNIFERUM
Mildews that might mar your opium poppy. 14390

PAPAYAS
Volatile metaholites from dimethyldithiocarbamate fungicide residues. 10441

Anthracnose of papaya leaves caused by Collectotrichum gloeosporioides. 10706

PAPER
Effect of gamma radiation on the insecticidal efficiency of malathion deposits on wheat and kraft paper. 8519

PAPER MATERIALS
Utility of arecanut husk in horticulture. . 8927

PAPILIONIDAE
Detailed description of larva of Polydorus aristolochiae. 9303

Notes on the biology and hostplant associations of Ornithoptera priamus urvilleanus and O. victoriac (Papilionidae). 9478

On the biology of some species of Papilionidae from the island of Celebes (East-Indonesia). 11207

A short note on Papilio machaon L. (Lep., Papilionidae). 13648

PAPILIONOIDEAE
Staminal and functional male sterility induced by chemical treatment in Papilionaceous plants. 15280

PAPILLOMA
Report on five Ovine neoplasms. 13958

PAPOVAVIRUSES
Prevention and treatment of bovine papillomatosis. 13991

PARA-CHLOROPHENOXYACETIC ACID
A note on the compatibility of endrin with parachlorophenoxy acetic acid and boron in relation to mustard aphid infestation. 12685

PARABIOSIS
The role of the neurohormones in the sexual differentiation of Lampyris noctiluca. 8165

PARACHEYLETIA CITRI
Descriptions of some new cheyletid mites from the United Arab Republic. (Acarina: Cheyletidae). 9279

PARACOLOBACTRUM ARIZONAE
Notice of withdrawal of petition for food additive spectinomycin. 12151

PARADICHLOROBENZENE
Control of mites and aphids on and in bulbs. 8850

Influence of temperature on the effectiveness of paradichlorobenzene fumigation of black carpet beetle larvae. 12874

PARAFFIN WAX
A new idea from California--lollipop bait cube. 14648

PARAFFINS
Weed control in the forest. 11564

PARAINFLUENZA
A combined bovine parainfluenza and adenovirus vaccine. 12177

Search for natural nidality of influenza and parainfluenza viruses in Illinois. 12184

PARAINFLUENZA-3
An electron microscopic comparison of three strains of bovine parainfluenza-3 virus. 9717

The propagation and cytomorphological effects of bovine parainfluenza type 3 virus in organ cultures of bovine fetal tissues. 9720

PARAINFLUENZA-3 VIRUS
A hemagglutination-inhibition test for parainfluenza 3 virus antibodies. 10859

Plaque characteristics of four classes of bovine viruses. 14570

Myxovirus parainfluenza-3 in the respiratory disease in calves in Bulgaria. 15171

Experimental infection of calves with myxovirus parainfluenza-3 and Pasteurella haenolytica. 15767

PARALYSIS
On the action of Bracon venom. 9374

Some effects of anoxia and hypoxia on the European red mite, Panonychus ulmi (Acarina: Tetranychidae). 13111

PARAMETERS
Endrin induced trace metal alterations following acute exposure. 15849

PARAMPHISTOMUM EXPLANATUM
Studies on two fluke infections of the intestinal tract in buffalo-calves (below two years of age) with further observations on histopathology. 9770

PARAMYXOVIRUSES
RNA synthesis in chick embryo cells infected with defferent strains of NDV. 8449

Recombination in Newcastle disease virus (NDV): the problem of complementing heterozygotes. 8453

Histone-mediated clumping of Newcastle disease virus (NDV). 8454

Autoradiographic study of the effect of Newcastle disease virus on the mitotic cycle of cells. 8456

PARAOXON
Comparison of assay methods for studying O,O-diethyl, O-p-nitrophenyl phosphate (paraoxon) detoxification in vitro. 8568

Degradation of parathion in the rat. 8570

PARAQUAT
Effect of paraquat in the establishment of alfalfa. 8392

Bispyridinium compounds as herbicides. Patent 3,458,305. 8405

From weeds to pasture in one year. 8431

Effect of herbicides on the valuations of made tea. 9212

Effects of growth regulators and herbicides on germination of Hydrilla turions. 10306

Paraquat reduces barley grass in lucerne pasture. 10786

Tests on the control of Phragmites communis and other emerging aquatic weeds. 10793

Trouble in wild oat control. 10796

Aquatic weed control. 10802

Cooperative research on the control of tropical and subtropical woody plants. (Abstract). 10823

Investigation of the interaction between weed control and fertilization of vineyards. 11024

Nursery investigations. Weed control. 11565

The effects of shoot removal on the rhizome carbohydrate reserves of couch grass (Agropyron repens (L.) Beauv.). 11581

The use of diuron for weed control in mature low-grown tea. 11582

Poisons that hit and run. 12223

Effect of introducing a sulphur bridge on the herbicidal activity of diquat. 12324

Effect of simulated rainfall on herbicide performance. 12708

Wild oats. 13350

The influence of size of spray droplets on the herbicidal activity of diquat and paraquat. 13503

Use of minimum tillage and herbicide for establishing legumes in Kentucky hluegrass (Poa pratensis L.) swards. 13917

Systematic weed control in grape culture. Results of a first four year period of experimentation. 14538

Bromacil-paraquat mixture for spot eradication of Agropyron repens (quackgrass). 15061

Paraquat for weed control prior to establishing legumes. 15722

Use of bipyridyl herbicides in forestry. 15751

PARASARCOPHAGA
Parasarcophaga (Curranea) tibialis (Macquart, 1850) a new species for the Czechoslovak fauna (Diptera). 9322

Immature stages of the flesh fly, Parasarcophaga (Thomsonea) argyrostoma (Robineau-Desvoidy). 11418

PARASCARIS EQUORUM
Spinal nematodosis in a horse. 11656

PARASCOTIA LORAI
A new Parascotia (Hb., 1826) of the Guadarama mountain range, dedicated to his Excellency Prof. D. Manuel Lora Tomayo, Phd., Minister of Education and Science. (Lep. noctuidae). (Lam. i.). 13530

PARASITES
Palearctic species of egg parasites of the genus Telenomus haliday (Hymenoptera, Scelionidae, Telenominae). 8645

Effects of dietary amino acids, salts, and protein starvation on fecundity of the parasitoid Exeristes comstockii (Hymenoptera: Ichneumonidae). 9353

Some aspects of assessing efficiency of natural enemies. 9405

A new nematode-destroying Harposporium. 12090

Analysis of annual epidemic of fungus parasites. I. The attack curve and its relationship to some environmental factors. 13795

The European corn borer; how to control it. 14301

PARASITIC BRONCHITIS
Pulmonary disease in Kenya sheep. 14639

PARASITIC INSECTS
Biology of Bracon mellitor, a parasite of the boll weevil. 8070

The old house borer in Eastern States. 8076

Effect of temperature on the progeny production and longevity of Lespesia archippivora in the laboratory. 8093

Mass rearing of the rice stem borer. 8119

Investigation into the morphology, taxonomy, and biology of the Podapolipidae (Aearina, Tarsonemini) (Under special consideration, the parallel evolution of the genera feutarsopolipus and Dorsipes with their hosts (Coleopt., Carabidae)). 8173

Fifty years of research on the pink bollworm in the United States. 8365

The possible control of rice stem borers by the use on natural enemies. 8379

Nasal Aearina of birds and mammals of Brazil. I. Rhinonyssidae of the Belem region (North Brazil). 8617

Microctonus glyptosceli n. sp., a parasite of Glyptoscelis pubescens (F.) in Wisconsin (Hymenoptera: Braconidae: Euphorinae and Coleoptera: Chrysomelidae). 8648

Further studies on the Tarsonemidae, II (Aearina). 8672

Mallophaga from birds of the Oriental Region. Part IX. Sturnidoecus philippensis, n. sp. (Ischnocera: Philopteridae). 8680

A new record for a parasite of the alfalfa weevil in Eastern United States, Eriplanus micator (Gravenhorst) (Hymenoptera: Ichneumonidae). 8716

Rearing Phryxe eaudata Rond. (Larvaevoridae), a parasite of Thaumetopoaea pytocampa Schiff. on an alternate host: Galleria mellonella. 8744

The natural control of the apple-grass aphid, Rhopalosiphum insertum, with remarks on the control of apple aphids in the Netherlands in general. 8752

The incidence of parasitism and disease in some populations of the cabbage aphid,(Brevicoryne brassicae L.) in New Zealand. 8799

Differentiation of parasitized and unparasitized pupae of the melon fly and Oriental and Mediterranean fruit flies. 8816

Description of immature stages of Noctuiseius treati Prasad (Acarina: Phytoseiidae). 8836

Hyalomyodes triangulifer parasitizing the cereal leaf beetle, Oulema melanopus. 8897

Factors influencing egg survival of Scolypopa australis Walker (Hemiptera-Homoptera: Ricaniidae) in the Sydney area (N. S. W. Australia). 9005

Insect parasites in the natural control of species of rice stem borers on Luzon Island, Philippines. 9012

Some ecological observations and results of the control of Argyresthia fundella F. R. 9022

A hymenopterous primary parasite of morabine grasshoppers. 9262

Chalcidoid (Hymenoptera) parasites of the alfalfa leafcutter bee, Megachile rotundata, in Canada. 9308

Systematic studies of the Central European species of the genus Austromenopon Bedf. (Mallophaga, Austromenoponinae). 9331

A thesis by G. Strebler on the gall midge of alfalfa. 9351

Height preferences for oviposition of aphidophagous Syrphidae (Diptera). 9356

Insect parasites of the insect galls in Europe. 9386

Parasitization of worker bumble bees of Mississippi by Physocephala larvae. 9387

Notes on parasites of immature Tabanidae (Diptera) and descriptions of the larva and puparium of Carinosillus pravus (Diptera: Tachinidae). 9392

Biological observations on Zeuzera pyrina L. in Sicily. (Lep. Cossidae). 9417

New predaceous insects of Pray citri Mill. (citrus flower moth) found in Sicily. 9425

A large experiment on artificial biological control of the olive fruit fly (Dacus oleae G.) by means of Opius c. Sz. siculus Mon. in Sicily. (Palermo July-October 1966). 9431

Materials for identification of parasites of some noxious forest insects. 9469

The effect of two host species on the longevity and fertility of Nasonia vitripennis. 9472

Biology of Cheilonevrus noxius, with emphasis on host relationships and oviposition behavior. 9498

The biology of Pipunculidae (Diptera) parasitising some British Cercopidae (Homoptera). 9501

Note on Trichogramma japonicum Ashm., an egg parasite of internode-borer (Proceras indicus Kapur) of sugarcane in Madras State. 9649

Ear mites of the genus Dicrocheles (Acarina: Mesostigmata) found on noctuids in Hawkes Bay. 9882

The subgenus Persicargas (Ixodoidea, Argasidae, Argas). 7. A. (P.) walkerae, new species, a parasite of domestic fowl in southern Africa. 9908

First record of Aewasius advena Compere (Encytridae: Hymenoptera) from India as a parasite of Ferrisia virgata Ckll.. 9932

The influence of ecological and genetic factors on the birth and death of Macrocheles robustulus (Berlese,1904). 10005

Morphology and biology of a nest-producing mite, Bakericheyla chanayi (Acarina: Cheyletidae). 10015

Laboratory studies of Eucelatoria armigera, a tachinid parasite of Heliothis spp. 10040

A model accounting for sympatry in water mites. 10076

New parasite records on Hymenia recurvalis (Fabricius) (Lepidoptera: Pyralidae). 10087

New records of parasites of Plutella maculipennis Curt. in Gujarat, India. 10088

Biological notes on the bee Tetralonia minuta and its cleptoparasite, Morgania histrio transvaalensis (Hymenoptera: Anthophoridae). 10109

Observations on the biology of Lathromeroides sp. (Trichogrammatidae: Hymenoptera) egg parasite of the leaf rolling weevil, Apoderus sissu Marshall (Curculionidae: Coleoptera) with notes on the host weevil. 10117

Etology as the determining factor of the numerical distribution of the species in the fauna. 10144

The parasitism of gamasid mites (Gamasoidea) on birds. 10145

New record of hymenopterous parasites of Phytomyza atricornis (Meigen), a serious pest of pea. 10259

Control of Florida red scale in Florida with the parasite Aphytis holoxanthus. 10264

Problems in raising ducks. 10357

Records of pupiparous Diptera (Hippoboscidae) on birds in India--III. 10365

The warble fly.Ochotonia lindneri Grunin, gen. et sp.n. (Diptera, Hypodermatidae), a parasite of the Afghan pika (Ochotona rufescens Gray). 10513

Cockchafers. 10518

Parasitization of imported cabbageworm and cabbage looper eggs on cabbage in Southern California, with notes on the colonization of Trichogramma evanescens. 10556

Experiments with feeding sandflies (Phlebotominae) on great gerbils (Rhombomys opimus Licht) under conditions approaching natural. 10584

Chemical control of the Northern Fowl Mite on the laying hen (Abstract). 10907

New dermanyssid mites (Acari: Mesostigmata) from nests of Spalax ehrenbergi Nehring. 11120

Final-instar larvae of two hymenopterous parasites of a wood-boring beetle, (Etropium velutinum LeConte (Coleoptera: Cerambycidae). 11135

Three species of Eylais (Acari: Eylaidae) parasitic on aquatic Hemiptera. 11161

A new species of Amyrsidea from an oriental patridge (Mallophaga: Menoponidae). 11189

Observation of Chalcedectus sinaiticus (Ms.), and descriptions of C. balachowskyi sp. in (Hym., Chalcedectidae) and Oopristus safavii gen. n., sp. n. (Hym., Torymidae), two parasites of economic importance in Iran. 11205

Parasites of the larch casebearer, Coleophora laricella (Hbn.), in British Columbia (Leidoptera: Coleophoridae). 11222

Studies on the utilization of natural enemies as biotic insecticides . Density effect in the mass culture of Pseudaphycus malinus Gahan. 11303

Studies on the utilization of natural enemies as biotic insecticides . Effect of physical factors on the culture of Pseudaphycus malinus Gahan. 11304

Immature stages of a chalcidoid parasite tended by allodapine bees. (Hymenoptera: Perilampidae and Anthophoridae). 11350

Investigations into the population dynamics of parasites and hyperparasites of Brevicoryne brassicae (L.) (Homoptera, Aphididae). 11362

Further data on the oviposition by the genus Stylogaster Macquart (Diptera: Conopidae, Stylogasterinae) upon adult calyptrate Diptera associated with ants and animal dung. 11398

Blankaartia acuscutellaris (Acarina, Trombiculidae) and its extension to the African continent. 11404

Ticks from waterbuck and warthog in the Queen Elizabeth National Park, Uganda. 11721

Occurrence of Agriotypus armatus Walk. (Hymenoptera, Ichneumonidae) in West Pomerania. 11738

Ticks of wild animals of the Antilles (Acarina, Ixodoidea). 11748

Three aphelinid parasites of Odonaspis secreta Cockerell from Japan (Hymenoptera: Chalcidoidea). 11761

Discovery of Marlattiella prima Howard, a parasite of the pear white scale, from Japan (Hymenoptera: Aphelinidae). 11762

Notes on parasites attacking the yellow-striped armyworm in Oklahoma. 11790

Parasites and other organisms associated with nests of Amegilla Friese (Hymenoptera: Anthophorinae). 11796

Biology of Bracon kirkpatricki and field releases of the parasite for control of the boll weevil. 11802

Hormone-mediated nutritional control of sexual behavior in male dung flies. 11815

Migrations of Hippelates collusor larvae from moisture and trophic stimuli and their encounter by Trybliographa para-. 11848

Aphidius rubifolii n. sp. (Hymenoptera: Aphidiidae), a parasitoid of Masonaphis maxima from British Columbia. 11854

Some observations on the pentatomides of cereals and their parasitism in 1965. 11902

The scales of olive trees occuring in Greece and their entomophagous insects. 12048

Parasitization of Nabis alternatus by Leucostoma simplex in eastern South Dakota. 12072

Biological studies of Argyresthia franciscella and A. cupressella on ornamental Cupressaceae. 12079

Parasites of Rhyacionia buoliana and their occurrence at different crown levels of red pine in Wisconsin. 12087

The regulation of population density in the bark beetle Scolytus scolytus (F.). 12411

A new parasite of the vegetable weevil in southern California. 12436

A study of the mortality factors acting upon Cyzenis albicans (Fall.), a tachinid parasite of the winter moth (Operophtera Brumata (L.)). 12462

Observations on the biology of Mesidia nigra, a parasite of Iziphya punctata. 12488

The causes of sexual differences in the size of Aphelinus asychis Walker (Hym., Aphelinidae). 12502

Parasitism associated with brachypterous males in the sugarcane leafhopper, Perkinsiella vitiensis. 12506

Observations on Rhypodes chiwai Usinger (Hemiptera: Lygaeidae). 12553

Records of parasites of sunnhemp shoot-borer, Laspeyresia tricentra Meyr. (Tortricidae: Lepidoptera) in Uttar Pradesh. 12682

Bionomics of Hellula undalis Fb., the cabbage borer (Pyralidae: Lepidoptera) at Jabalpur. 12683

The influence of UC-21149 and the aphidiid parasite Aphidius smithi on populations of the pea aphid. 12690

Ixodid ticks (Ixodidae)--the parasites of some reptile species in Tadjikistan. 12991

Age grading of mosquitoes from parasitic mites. 13058

Evolution and population ecology of parasite-host systems. 13110

Hyperparasitism of the pea aphid parasite Aphelinus semiflavus by Asaphes vulgaris in a greenhouse. 13130

The influence of abiotic factors upon the distribution and abundance of egg parasites of the Eurygaster integriceps (Hymenoptera, Scelionidae). 13141

Recent introductions for biological control in Hawaii. XII. 13230

Distribution and importance of Heterolaccus grandis as a parasite of the boll weevil. 13306

Ecological relationships of plant communities and ectoparasites of rodents in the Great Salt Lake Desert. 13364

Developments in control of ectoparasites of livestock. 13421

Further knowledge on the biology of 'peacock eye' in accounts of the first attack. (Spring infection). 13528

New records and notes on streblid flies in California (Diptera: Pupipara). 13533

Hymenoptera associated with elm bark beetles in Wytham Wood, Berks. 13602

Contributions to the morphological and biological study of Aphomia sociella L. (Lepidoptera, Heteroneura, Pyralidoidea, Pyralididae), a parasite of beehives (Hymenoptera, Apoidea, Bomhus Latr.). 13668

Experimental studies on hybridization and sexual isolation between some Aphytis species (Hymenoptera: Aphelinidae). I. Experimental hybridization and an interpretation of evolutionary relationships among the species. 13674

Experimental studies on hybridization and sexual isolation between some Aphytis species (Hymenoptera: Aphelinidae). II. Experiments on sexual isolation. 13675

Laboratory investigations on the effect of aphicides available in Poland on the most important natural enemies of aphids. 13702

Bioecology of Saissetia oleae Bernard and its biological control. 13837

Natural enemies of the carob moth Ectomyelois ceratoniae (Zeller). 13839

Identification list. 5. 14165

Key to the adult hymenopterous parasites of Pulicalvaria piceaella (Kearfoot), (Lepidoptera: Gelichiidae) of Quebec. 14231

Sparrow mite Dermanyssus passerinus Berl. et Trouess, 1885. 14282

The persistence of drug resistance in strains of Eimeria species in broiler chickens following a change of coccidiostat. 14621

A new Strepsiptera parasite of the Jassidae Hom, Auchen. : Halictophagus languedoci, n. sp. 14710

Descriptions of three new reared Eulophidae (Hymenoptera) from Europe and Africa. 14716

Two Ascogaster species (Hymenoptera, Braconidae), parasites of leafrollers (Lepidoptera, Tortricidae) in apple orchards, with different host selection. 14741

Review of Holarctic tarsonemid mites (Acarina: Prostigmata)parasitizing eggs of pine bark beetles. 14761

The parasitism of various species of coccids of the Leucapis genus in the Alpes-Maritime Department of France and Corsica. I. Inventory and distribution of Leucapis genus and their parasites (Hymenoptera, Chalcidoidea). 14792

Two new species of argasid ticks (Ixodoidea, Argasidae) from Cuba. 15316

Ichneumon sarcitorius L., a parasite of a lepidopteran Hydraecia xanthenes (Germ.) (Hym. Ichneumonidae). 15323

Tachinid parasites of the horned passalus beetle. 15363

Phoresia of Damalinia (C.) meyeri (Mallophaga) and Lamprochernes nodosus (Pseudoscorpionidea) on mosquitoes Aedes sticticus (Culicidae). 15400

The raspberry stem gall midge (Lasioptera rubi) a little known pest of raspberry. 15588

PARASITIC PLANTS

Occurrence of Orobanche cernua on Pluchea lanceolata, an obnoxious weed in Rajasthan, India. 8411

Biochemical aspects of parasitism by the angiosperm parasites: Host-parasite interrelationship in phosphatase activity. 9044

Records of the higher fungi of Minnesota. 9050

Notes on Wisconsin parasitic fungi. XXXIII. 13255

Biochemical aspects of parasitism by the angiosperm parasites. I. Phosphate fractions in the leaves of loranthus and hosts. 13354

Biochemical aspects of parasitism by the angiosperm parasites: Changes in nucleic acid content of infected hosts. 13491

Rapid intensification and upward spread of dwarf mistletoe in inoculated digger pines. 13780

PARASITIDAE

Psilogamasus hurlbutti, n. g., n. sp., a new gamasid from Tanzania (Acarina, Anatotriches, Parasitidae). 14713

PARASITISM

An epizootic disease of Tarichium (Entomophthoraceae) on the larvae of Ocnogyna parasita Hbn. (Lepidoptera, Arctiidae). 8215

The ineffectiveness of cycloheximide and phytoactin as chemical controls of the blister rust disease. 8301

Neodiprion taedae linearis: A sawfly pest of loblolly and shortleaf pines. 8334

Pathogenicity of Hemicriconemoides species to coffee. 8386

Oxalis acetosella, a new host of the coffee root-lesion nematode in south India. 8387

Nematodes associated with soybeans in Alabama, Florida, and Georgia. 8389

Plant-parasitic nematodes in marginal Pinus ponderosa stands in central New Mexico. 8390

Survival of sporozoites of Leucocytozoon in birds for 11 days. 8462

Gastrointestinal nematodes of Venezuelan carnivora. 8492

Preventing and controlling internal parasites of hogs. 8510

Redescription of Ornithobilharzia canaliculata (Rud.) Odhner, with notes on classification of the genus Ornithobilharzia and the subfamily Schistosomatinae (Trematoda). 8516

Cytochemical studies on a coccidian, Chagasella ganapatii from a termite, Odontotermes obesus (Ramhur). 8724

A new species of the genus Pegosomum Ratz, 1903 (Trematoda: Echinostomatidae). 8747

The fine structure of Babesia ovis (Piroplasmidea) in Rhipicephalus hursa (Ixodoidea): Transformation of spherical forms to vermicules. 8754

Experiments with Beauveria hassiana (Bals) Vuill. against Blastophagus piniperda L. (Col., Scolytidae). 8822

The infestation of timber by bark beetles (Col., Scolytidae) and their enemies in different zones of the Finnish southwestern archipecago. 8823

Nematodes of the family Tetradonematidae, parasitizing in members of the family Simuliidae (Diptera). 8844

Preliminary studies of the release in 1965 on the island of Chalki, of Opius concolor Szepl. (Hymen, Braconidae) a parasite of Dacus oleae Gmel. (Dipt. Trypetidae). 8864

New symphoriont intranstylum - species (Peritricha, Ciliata) on larvae of Chironomous plumosus. 8869

Factors affecting the sex ratio of Aphytis proclia Wlk. (Hymenoptera, Aphelinidae), external parasite on the San Jose scale. 8873

The occurrence of Piptocephalis in soils and its isolation. 8929

A technique for studying inhibition of the parasitic activity of Ophiobolus graminis (Sacc.) Sacc. in field soils. 8969

Isolation of Toxoplasma gondii from naturally infected chickens. 9072

Postmortem pulmonary arteriography in canine dirofilariasis. 9132

The inhibitory effect of a dithiosemicarbazone on acute infections of Anaplasma marginale. 9134

Further experiments with low-level feeding of Thiabendazole to lambs. 9135

Possible effects of the harbour seal bounty on codworm infestations of Atlantic cod in the Gulf of St. Lawrence, the Strait of Belle Isle, and the Lahrador Sea. 9136

Methods to investigate the population dynamics of aphids and aphid parasites in orchards. 9378

Parasitic changing in hosts and its ecological importance for the parasite. 9385

Description of new social parasites of Leptothorax acervorum F. (Formicidae). 9412

Artificial biological control of the olive fruit fly (Dacus oleae Gmel.) by means of Opius concolor Sz. siculus Mon. on the Lipari Islands (Sicily). July-September 1965. 9429

A large experiment on artificial biological control of the olive fruit fly (Dacus oleae G.) by means of Opius c. Sz. siculus Mon. in Sicily. (Palermo July-October 1966). 9431

Logarithmic regression as an index of responses to population density. 9433

Causes of the varied behavior of the black bark beetle of olives (Hylesinus oleiperda Fahr.) in Dalmatia. 9488

Biology and morphology of Graphosoma semipunctata Fabricius, (Heteroptera, Pentatomidae). 9493

On the inefficiency of transmission of Wuchereria bancrofti from mosquito to human host. 9518

Influence of Botrytis cinerea infection on ribosomal properties and functions in cabbage tissues. 9539

Pycnidial production by Diaporthe vexans (Sacc. and Syd.) Gratz and the pathological histology of infected stems and leaves of eggplant. 9559

Disease status of various tropical and subtropical fruits on the Paris market in summer. 9561

A study of the biology of Stemphylium hotryosum Wall. -Pleospora herbarum (Pers.) Rabenh.- the causer of brown spots on alfalfa leaves. 9591

Root nematode (Meloidogyne naasi Franklin) in Serbia (preliminary communication). 9654

Anti-malarial effect of interferon inducers at different stages of development of Plasmodium berghei in the mouse. 9714

Role of interferon in experimental mouse malaria. 9749

Studies on two fluke infections of the intestinal tract in buffalo-calves (below two years of age) with further observations on histopathology. 9770

Studies on stephanofilariasis in Orissa. II. Dermatitis due to Stephanofilaria assamensis Pande, 1936, in the Murrah buffalo (Bos bubalis) and the beetal buck (Capra hircus) with remarks on the morphology of the parasite. 9771

Parbendazole in treatment of intestinal nematodes of dogs and monkeys. 9775

Anthelmintic efficacy and toxicity studies of l-tetramisole in feedlot cattle. 9821

Cyclic dicarboximido-substituted phosphonothioates. Patent 3,450,713. 9856

A comparative biological study of three ceroplastes species (Hem. Coccideae) and their natural enemies. 9990

On the environment of Polymorphus minutus (Acanthocephala) in ducks. 10373

Natural infection of chigger mites with Rickettsia tsutsugamushi on the Primorsky Territory. 10541

A monoxenic relationship, Nocardia rhodnii Erikson in the gut of Rhodnius prolixus Stahl. (Hemiptera: Reduviidae). 10542

Ethology as the determining factor in the distribution of species and fauna. 10576

Some suggestions for control of white ant damage on dadaps (Erythrina indica L.). 10710

Preliminary observations on the control of Fasciola hepatica with the molluscicide N-tritylmorpholine. 10911

On the meaning of trichostrongylid egg counts in cattle. 10915

Recent advances in knowledge of pathogenesis and treatment of fascioliasis. 10916

A new species of the genus Dissurus verma, 1936 (Trematoda: Echinostomatidae). 11262

Arthropod prepators of immature diptera developing in poultry droppings in northern California. Part I. Determination, seasonal abundance and natural cohabitation with prey. 11366

A note on Leptomastix nigrocoxalis Comp. as a parasite of Centrococcus insolitus Green. 11376

Pathogenicity of Trypanosoma rangelli for Rhodnius prolixus Stal in nature (Hemiptera: Reduviidae) (Kinetoplastida: Trypanosomatidae). 11437

Plant pathology. 11446

Notice of withdrawal of petition for food additive ruelene. 11584

On a species of Lipoptena (Diptera, Hippoboscidae, Melophaginae) from Indian spotted deer and hog deer. 11635

Pathomorphological, histological and functional changes in liver in sheep dicroceliasis. 11657

PARASITISM

A study of the eugregarines of the grass-grub (larva of Costelytra zealandica (White), Melolonthinae), with a description of three new species. 11776

Some remarks on the parasitism of insects. 11785

Biological control of the Egyptian alfalfa weevil in California and Arizona. 11799

Two Acmaeodera parasites of Acacia in Mauritania and in the Sahara (Col. Buprestidae). 11806

Parasites for control of grape leaf folder. 11809

Histopathology of lecithodendriid trematode infections in stonefly naiads. 11823

The occurrence of house crickets (Acheta domesticus (Linnaeus, 1758)) on mountain slopes. 11864

Development of Foleyella philistinae Schacher and Khalil, 1967 (Nematoda: Filarioidea) in Culex pipiens molestus with notes on pathology in the arthropod. 11877

Pathogens as organisms out of place. 12041

Research on the modifications of the husks of Bromus inermis. L. (Gramineae) provoked by the Aceria tenuis (Nal.) (Acarina eriophyidae). 12050

Parasitism of Chrysis shanghaiensis Smith on Cnidocampa flavescens Walker in Kagawa, Japan (Hymenoptera: Chrysididae). 12062

A record of natural enemies of Ferrisia virgata Ckll. in Madhya Pradesh (India). 12077

Evaluation of parbendazole as an anthelmintic in cattle. 12121

Equine piroplasmosis: Complement-fixation titers of horses infected with Babesia caballi. 12134

Babesiosoma anseris (n.sp.) investigated in the goose. Cygnopsis cygnoides in Egypt. 12138

Some haematological studies on Babesiosoma anseris (Haiba and El-Shabrawy, 1967) in the goose, Cygnopsis cygnoides in Egypt. 12139

Massive pulmonary acariasis in the pig-tailed macaque. 12188

New parasitic nematodes reported in alpacas (Lama pacos) from Peru, with a description of Spiculopteragia peruvianus n. sp. 12193

Clover's imperial dog capsules. Drugs for veterinary use; drug efficacy study implementation. 12194

Anthol. Drugs for veterinary use - drug efficacy study implementation. 12195

Ringet. Drugs for veterinary use; drug efficacy study implementation announcement. 12196

Wormal granules and wormal tablets. Drugs for veterinary use - drug efficacy study implementation. 12197

Chemotherapy of experimental Anaplasma marginale infections: Trials with an experimental dithiosemicarbazone (alpha-ethoxyethylglyoxal dithiosemicarbazone). 12224

The enzymes hydrolysing carbohydrates of xylophagous insects parasitic of softwoods and some other forest trees. 12245

Tabanidae. 12336

On two mites of economic importance in Japan (Arachnida: Acarina). 12349

Faunistic and ecological data on the fleas of Madagascar (Siphonaptera). 12363

A new Japanese species of Trioza from Machilus thunbergii, with descriptions of the immature stages and notes on biology (Hemiptera: Psyllidae). 12369

Shot-hole borer of tea plant in Japan. 12475

Ecological and biological data on Synopsyllus fonquerniei Wagner and Roubaud, 1932 (Siphonaptera), a flea of the domestic rat in the region of Tananarive. 12484

The peritrophic membranes in arthropods, their role in digestion and their intervention in the development of parasitic organisms. 12489

Stempellia scolyti (Weiser) comb. nov. and Nosema scolyti sp. n. microsporidan parasites of four species of Scolytus (Coleoptera). 12540

Parasites of mosquitoes in southwestern Wyoming and northern Utah. 12549

Transmission of Hamosporidiorida by cave-dwelling Anopheles in the grottos of the Congo. 12577

Factors affecting the transmission of filariae: The effect of parasitization by Brugia malayi in laboratory populations of Aedes aegypti. 12586

Transmission of Bancroft filariasis in the Ethiopian region. 12588

The transmission of Bancroft filariasis (subperiodic form) in the islands of the South Pacific. 12592

The zygotoblast and sporocyst indices in the valley of the Ruzizi. 12593

On the host specificity of ascarids of human and pig origin. 12847

On the specificity of the nematode Trichocephalus suis Schrank, 1788. 12848

Adaptation of some mammalian helminths in the light of helminthocoenoses. 12850

Paratenic parasitism as an indicator of the specificity of the definite host in some trematodes. 12852

The homeostasis of the host and the development of the parasite. 12854

Parasite specificity as the result of ecological parasite-host relations. 12855

The specificity of helminths from an ecological aspect. 12857

Immunity to parasites. 12863

Fascioliasis of ruminants in Japan. 12865

Specificity of the parasites from the ecological point of view. 12868

Survey of species and number of gypsy moth egg parasites in some localities of Yugoslavia. 13072

Aromatic compounds in the host-parasite interaction. 13282

Another species of Lithocolletis is spread over Italian fruit orchards. 13303

Worms in pigs. 13411

Grazing management in relation to trichostrongylid infestation in lambs. 1. Influence of stocking rate on the level of infestation. 13413

Cynipoidea and Ichneumonidae Hym. as parasites of Boriomyia subnebulosa (Steph. Neur. Hemerobiidae . 13646

Tetrahymenid ciliates as parasites of the gray garden slug. 13922

Significance of the asexual stages in assessing Eimerian infections of goats. 13936

Isolation of Corynebacterium haemolyticum from a case of ovine pneumonia. 13990

Life cycle, pathogenicity and immunogenicity of Chabertia ovina. 14022

Earthworms, Eutypheus waltoni and Pheretima sp. as transport-hosts of swine kidney worm, Stephanurus dentatus in Bihar, India. 14025

Transmammary passage of nematode larval infestation. 14027

Vaccination against syngamosis in chicks, young pheasants and turkey-poults. 14028

Contributions to the knowledge of the Heleide fauna (Dipt. Nemat.) of Berlin. 14157

Hawk moths with mites. (Lep. Sphingidae). 14222

Parasitization of social Halictine bees in southern Ontario. 14224

The mode of life of the borer moth parasite Adelius erythronotus Forst.(Hym., Brac.). 14264

Brachymeria femorata Panzer (Hymenoptera Chalcididae). 14267

Living haustoria and hyphae of Erysiphe graminis f.sp. hordei with intact and partly dissected host cells of Hordeum vulgare. 14349

Removal of pseudomonads from plant leaves and measurement of their in vivo beta-glucosidase synthesis. 14369

Studies on the parasitsm and control of tea root disease fungi in Ceylon. Heteroptera. 14448

Erratum 49: A pleomorphic parasite on cereal seeds, Pyrenophora semeniperda. 14451

Kerato-conjunctivitis in cattle in the plateau area of Northern Nigeria. A study of Thelazia rhodesii as a possible aetiological agent. 14634

Field trials on the efficacy of thiabendazole against Haemonchus contortus in West African dwarf forest sheep and goats. 14635

Pulmonary disease in Kenya sheep. 14639

Contributions to the study of Eumastacidae of Madagascar (Orthoptera-Eumastacidae). II. Pseudoschmidtiinae: Biological notes and new species. 14735

On the classification of the insect parasitic nematodes of the Sphaerulariidae Lubbock, 1861 (Tylenchoidea: Nematoda). 14860

Parasites on the galls of Dasyneura laricis (F. Loew.); Diptera, Itonididae. 14880

Biological control of sugar cane aphid pests in the West Indies (Homoptera, Aphidoidea; Hymenoptera, Aphidiidae). Part II. 14883

On the mode of action of Aspergillus, parasites of insect wounds. 14888

Fundamental studies on ergotial fungi, (6). Fungi ediphytic and parasitic on ergot and honeydew. 14926

Insects associated with citrus in Nigeria. 15004

Croesus septentrionalis L. (Hymenoptera Tenthredinidae) a pest of the alder. 15038

Survey report: Biology and pathology of wildlife as a problem of veterinary medicine and agriculture in tropical and subtropical countries. 15157

2-Amino-5-(1-methyl-5-nitro-2-imidazolyl)-1,3,4-thiadiazole A new antimicrobial agent. 15163

A mite infestation in squirrel monkeys (Saimiri sciureus). 15198

Observations of a source of Strongyloides ransomi in the pig, dog and man, and of Strongyloides Westeri in the pig. 15204

Larval location of the Trichinella spiralis. 15210

Treatment of Schistosoma mattheei infestation in sheep. 15218

Infection by Brachylaema fuscata (Rudolphi, 1819) in the domestic pigeon. 15219

On adults of the subulurid infective larva from tenebrionid beetle with remarks on the validity of Subulura minetti Bhalerao. 15220

Some pathological aspects of animal schistosomiasis in the Sudan. 15221

Viability of eggs of Echinococcus granulosis and Multiceps multiceps in ensilaged fodder. 15223

Mechanisms of population homeostasis in Anagasta ecosystems. 15364

Chemical control of nematodes in sugarcane. 15694

Interstate transportation of animals and poultry. cysticercosis. revocation of regulations. 15764

Toxoplasmosis pathogenesis in dogs (Experimental investigation). 15788

Interstate transportation of animals and poultry. Cysticerosis. Change in areas quarantined. 15818

Species of gastro-intestinal nematodes in sheep within the District of Southern Backa and Northern Banat. I. Intensity and dynamics of occurrence. 15819

Eimeria saitamae n. sp.: a new cause of coccidiosis in domestic ducks (Anas platyrhyncha var. domestica). 15820

Studies on avian malaria in Japan. I. Life cycle, especially exoerythrocytic growth of the parasite. 15821

Experimental studies on Ancylostomiasis in cats IV. Experimental infection of Ancylostoma tubaeforme and A. caninum to cat. 15823

Experimental studies on Toxascaris leonina. II. Diagnosis and treatment of Toxascariasis in dogs and cats. 15824

Experimental studies on Toxascaris leonina. I. Incidence of T. leonina among dogs and cats in Japan. 15825

Experimental studies on ancylostomiasis in cats. III. Egg culture of Ancylostoma tubaeforme Zeder, 1800 and Ancylostoma caninum Ercolani, 1859. 15826

Microsporum gypseum isolated from feline ringworm. 15827

Epidemiological considerations on Teniasis in the Birlad District. 15828

Chytids and algae. II. Factors influencing parasitism of Rhizophydium sphaerocarpum on Spirogyra. 15891

PARASITOLOGY
- A filterable, proliferating factor simulating autoimmunity in malarious and nonmalarious ducklings. 9729
- Studies of parasite metabolism. I. In vitro examination of the vitamin A metabolism of Ascaris suum. 15215
- Studies on avian malaria in Japan. I. Life cycle, especially exoerythrocytic growth of the parasite. 15821

PARATHION
- The biology of the European corn borer, Ostrinia nubilalis (Hubner), in Manitoba. 8127
- Effects of sub-lethal dosages of parathion and carbaryl on the biology of Dysdercus koenigii Fabricius. 8191
- Chemical control of a species of the false chinch-bug group on wheat and sugar beets. 8336
- Developments in insecticide control of the rice stem borer in Japan. 8356
- Rice leafhoppers. 8363
- Ovicidal efficiency of parathion and diazion for quarantine treatment of the Western tent caterpillar. 8376
- Releases of unsexed gamma-irradiated codling moths for population suppression. 8378
- Determination of pesticides in water by microcoulometric gas chromatography after liquid-liquid extraction. 8530
- Residuals of pesticides in cultivated mushrooms. 8556
- Degradation of parathion in the rat. 8570
- Hazards of insecticides and residue problems in rice cultivation. 8574
- Control of the lesser cornstalk borer attacking peanuts. 9008
- The leaf snout weevil of the avocado. 9018
- Pesticide residues in foods in relation to human health. 9170
- Parathion and lindane in the control of the spruce gall aphid. 9346
- Biological observations on Zeuzera pyrina L. in Sicily. (Lep. Cossidae). 9417
- The chemical control of the diplopoda of beets. 9622
- Studies on the susceptibility of different stages of Bagrada cruciferarum Kirkaldy to some organic insecticides. 10043
- Estimation and dissipation of parathion residue from the crop of Indian rape seed. 10048
- On the determination of insect and mite resistance to pesticides. The influence of these products in sublethal doses on animals and in the trophic effect following biochemical repercussions on plants. 10149
- Chemical control of Drosicha mangiferae (Green), a serious pest of Citrus spp. in Madhya Pradesh. 10263
- Studies on the control of the red hairy caterpillar, Amsacta moorei Butler. 10266
- Collaborative study of confirmative procedures by single sweep oscillographic polarography for the determination of organophosphorus pesticide residues in nonfatty foods. 10409
- The difference in sensitivity to the sterilizing action of O,O-diethyl-O-paranitrophenyl thiophosphate of the embryonic testicles of quails and chickens in in vitro culture. 10430
- Comparison of the effect of old and new, individual and mixed, anti coccoidea preparations used against the San Jose scale. 10527
- Some suggestions for control of white ant damage on dadaps (Erythrina indica L.). 10710
- Leaf mining moths are again occuring more often. 10714
- The effect of some insecticides on the animal organism. A contribution to the study of the hygienic-sanitary problem of the residues of the organophosphorus insecticides. 10939
- The appearance of resistance in the larva of the cotton rootborer weevil to the action of chlorinated hydrocarbons under laboratory conditions. 11348
- Chrysanthemum eelworm. 11556
- Observations on the repopulation by amoeba of a pond largely polluted with insecticides (Protozoa, Rhizopoda, testacea). 11663
- Determination of organophosphorus pesticides in water. 11666
- A carboxylesterase inhibition assay to estimate parathion, malathion and diazinon in lettuce extracts. 11676
- The effect of parathion on quail embryonic development. 11687
- Method for determining the fenthion residues in olives and olive oil. 12211
- Automated differential screening method for organophosphorus pesticides. 12268
- Control of grape leaf blister mite (Eriophyes vitis (Pag.)) in the Stanthrope District, Queensland. 12680
- Field evaluations in spray programs for control of the fruit-tree leaf roller on sweet cherry. 12694
- Influence of climatic conditions on the effectiveness of treatments against Cryptorrhynchus lapathi L. larvae. 13029
- The use of cidial to control certain poplar borers. 13302

Grave damage to greenhouse tomatoes by Liriomyza-solani Macquart. 13304

Identification of organophosphate pesticides by gas chromatography with the flame photometric detector. 13517

Genetical studies on the resistance to parathion in Drosophila melanogaster. III. Induction of a susceptible gene from its resistance allele. 14287

Insecticidal experiments for the control of mustard aphid. 14497

Ridding rice fields of rats. 14542

Contribution to the knowledge of Stauronematus compressicornis (F.). (Hymenoptera-Tenthredinidae). 14804

Effects of sub-lethal dosages of parathion and carbaryl on the biology of Dysdercus koenigii Fabricius. 15028

Relative efficacy of endrin and parathion as prophylactic sprays in the control of jute apion, Apion corchori Marshall (Coleoptera: Curculionidae). 15035

Effect of temperature and humidity on the toxicity and persistence of parathion, malathion and endrin deposits. 15039

Modification of parathion toxicity to wax moth larvae by chlorcyclizine, aminopyrine or phenobarbital. 15260

Toxicity of six organophosphorus insecticides to fish. 15272

Esterase activity in organophosphorus- tolerant strains of Aepes aegypti. 15454

Small grains insects. 15629

Pecan insect and disease spray schedule. 15661

Plant protection problems in Tunesia. 15667

The reaction of different Drosophila populations to treatment with pesticides. 15671

PARATYLENCHUS NEOAMBLYCEPHALUS
Effect of temperature and host on Paratylenchus neoamblycephalus and effect of the nematode on the host. 12091

PARBENDAZOLE
Evaluation of parbendazole, a new broad spectrum anthelmintic for swine and sheep. 9762

Parbendazole in treatment of intestinal nematodes of dogs and monkeys. 9775

Evaluation of parbendazole as an anthelmintic in cattle. 12121

Anthelmintic activity of parbendazole in swine. 12191

PARDOSA
Observations on predation by the wasp Anoplius ithaca (Pompilidae) on the wolf spider, Dardosa groenlandica (Lycosidae). 12523

PARECTOPA CUPEDIELLA
The taxonomic status of Dialectica soffneri (Gregor and Povolny) and Parectopa cupediella (Herrich-Schaffer) (Lepidoptera, Lithocolletidae). 9288

PARENCHYMA TISSUE
Tobacco mosaic virus in dividing mesophyll cells of Nicotiana. 8290

Fluorescent antibody staining of tobacco mosaic virus antigen in tobacco mesophyll protoplasts. 8307

The contraction of the roots of Arum italicum. 8583

PARLATORIA BLANCHARDII
Survey and distribution of common lady beetles (Col. Coccinellidae) on date palm trees in Israel. 8042

Role of quarantine for the propagation of coccio-attacking Coccinellidae for the control of the date-palm scale (Parlatoria blanchardi Targ.) in the Adrar region of Mauritania. 13843

PARLATORIA OLEAE
Biological control of olive scale, Parlatoria oleae (Colvee), in a deciduous fruit orchard in California. 10252

PARLATORIA PERGANDII
The comparative biologies of two hymenopterous parasites of the chaff scale, Parlatoria pergandii. 8123

The natural enemies of the chaff scale, Parlatoria pergandii Comstock, in Israel. 8344

PARLATORIA PITTOSPORI
A record of Parlatoria pittospori Mask. (Hemiptera: Diaspididae) on apples. (Abstract). 12088

PARLATORIA ZIZYPHUS
Control trials against the Black Parlatoria scale in Tripolitania. 13037

PARROTS
Three new species of Heteromenopon (Mallophaga: Menoponidae) from Brazilian and Australian parrots. 9930

Three new species of Psittacobrosus from Brazilian parrots. 11188

PARSLEY
Physiological investigations on spring parsley. (Abstract). 11052

Parsley spot in U.A.R. 13769

Studies on powdery mildews affecting two umbelliferous plants. 13771

PARSNIPS
Selectivity of linuron on parsnip and tomato. (Abstract). 10994

Physiological investigations on spring parsley. (Abstract). 11052

The effect of linuron on 32P and 45Ca uptake in tomato and parsnip. 12724

PARTHENOGENESIS
Triploidy in natural populations of black flies Prosimulium macropyga Lundstr (Simuliidae, Diptera). 8223

Some Australian parthenogenetic Chironomidae (Diptera). 8626

A chromosome study on bisexual and parthenogenetic races of Scepticus insularis Roelofs (Curculionidae: Coleoptera). 9516

Artificial parthenogenesis and experimental polyploidy in silkworm. 11778

On the host specificity of parthenogenetic stages of Fasciola hepatica under laboratory conditions. 12866

Selection for parthenogenesis in Drosophila mercaptorum. 13160

Karyotypes and sex determination in spider mites (Tetranychidae). 13719

Revision of Indo--Pakistan Parisomias Faust (Coleoptera, Curculionidae) with some notes on Leptomias Faust. 14123

Data on oogenesis in a parthenogenic Collembola, Isotomidae. 15409

PARTICLE SIZE DETERMINATION
The fluorescent particle spray droplet tracer method. 9230

The optinum size for insecticide spray droplets. 9231

The egg-bit technique for measuring Newcastle disease virus and its neutralizing antibodies. 9689

Relationship of particle size to coccidiostatic efficacy of buquinolate. 9702

Spray droplet size in the control of spruce budworm, boll weevil, bollworm and cabbage looper. 10247

The spray deposit patterns of several types of nozzles used for low volume application. (Abstract). 11085

Spray droplet sizes obtained from several types of nozzles used for low volume application. (Abstract). 11088

The influence of size of spray droplets on the herbicidal activity of diquat and paraquat. 13503

Enhancement of tobacco rattle virus stable form infection by heterologous short particles. 14447

PASSALIDAE
Spiracles of adult Scarabaeoidea (Coleoptera) and their phylogenetic significance. I. The abdominal spiracles. 9934

Tachinid parasites of the horned passalus beetle. 15363

PASTEURELLA
Morphology, physiology, and serology of a Pasteurella species pathogenic for white perch (Roccus americanus). 9081

Survey observations on ovine mastitis in New Zealand stud Romney flocks. 2. The bacteriology of ovine mastitis. 9100

PASTEURELLA AVICIDA
Continuous use of a live vaccine in the drinking water against fowl cholera infection in turkeys. (Abstract). 10845

PASTEURELLA BACTERINS
Toxicity and antigenicity of shipping fever vaccines in calves. 11604

PASTEURELLA HAEMOLYTICA
Pasteurellosis: Pasteurella multocida and Pasteurella hemolytica. 11592

PASTEURELLA HEMOLYTICA
Experimental infection of calves with myxovirus parainfluenza-3 and Pasteurella haenolytica. 15767

PASTEURELLA MULTOCIDA
Pasteurellosis: Pasteurella multocida and Pasteurella hemolytica. 11592

Possibilities of preparation of an oil adjuvant vaccine against haemorrhagic septicaemia of cattle using a medium papain digest of beef. 14000

Infections coryza of poultry. 15762

PASTEURELLA PESTIS
Bandicota indica and sylvatic plague in Vietnam. 11913

PASTEURELLA TULARENSIS
Tularemia in the wildlife of Arkansas. 9742

PASTEURELLOSIS
Pasteurellosis: Pasteurella multocida and Pasteurella hemolytica. 11592
Epizootiological observations on weather and local factor effect on the incidence of outbreaks of avian pasteurellosis. 15794

PASTEURIZATION
The bacteriological supervision of egg production in the Federal Republic of Germany. 9862
Number of salmonellae in unpasteurized liquid egg. (Abstract). 10861
Number of Salmonellae in commercially broken eggs before pasteurization. 12135
The additional factor increasing the number of bacteria in pasteurized hams. 14038

PASTURE MANAGEMENT
Some ecological benefits of woody plant control with herbicides. 8395
From weeds to pasture in one year. 8431
Preventing and controlling internal parasites of hogs. 8510
Round worm infestation in calves. 12842

PASTURES
Some ecological benefits of woody plant control with herbicides. 8396
From weeds to pasture in one year. 8431
Oligonychas araneum sp. n. and Oligonychus digitatus Davis (Acarina: Tetranychidae) as pests of grasses in eastern Australia. 8622
Colitis X (exhaustion shock) in a pregnant mare. 9076
The influence of the steppes inundation and enlargement of the area of cultivation upon distribution and numbers of harmful rodents of Azerbaijan. 9666
Factors affecting trace and minor elements in hill sheep pastures. 10589
Effect of density and control of Canada thistle on production and utilization of alfalfa pasture. (Abstract). 10812
Leafhopper populations (Homoptera: Cicadellidae) on five pasture grasses in the Florida Everglades. 11141
Biology of the two-lined spittlebug, Prosapia bicincta, on Florida pastures (Homoptera, Cercopidae). 11268
Trials with insecticides for control of black beetle (Heteronychus arator Blanchard) larvae and adults in pasture. 12189
Fensulfothion and Bayer 37289 residues on pasture. 12214
Inhibition of Ostertagia ostertagi at the early fourth larval stage. I. The seasonal incidence. 12816
Studies on the control of Galba truncatula in large pastures. II. The effect of snail control on the extensiveness of infection in cattle. 12862
Investigations on the control of pasture cockchafers, Aphodius pseudotasmaniae, given in Tasmania. 13313
Oedaleus senegalensis Krauss (Orthoptera: Acrididae sub family Oedipodinae) plague in Rajasthan. 13829
Bushes in natural grasslands can be controlled. 13915
Residue studies of fenthion (Baytex) and Durshan in Central California pastures. 14053
Effect of soil type on uptake of magnesium by pasture plants. 14082
Spiny burr grass--a serious and increasing problem. 14571
Developments in pasture weed control. 15049
Weed control in field crops: Pastures and forages. 15110
Chemical weed control in pasture, range and hayland. 15129
Chemical weed control in hay crops and pastures. 15718
Chemical weed control in hay crops and pastures. 15719
Movement and persistence of picloram in pasture soils of Nebraska. 15732

PATENTS
Adult housefly control agents. Patent 3,454,638. 8111
Alkyl 2-methylpropenyl ketoxime carbamates. Patent 3,454,642. 8117
Methods of controlling bacteria, fungi, nematodes and weed pests with tetrahalohydroxybenzamides. Patent 3,459,534. 8277
Hydroxamate carbamates as nematocides. patent 3,459,866. 8285
Control of vascular tree diseases with trichlorophenyl acetic acids. Patent 3,458,640. 8306
Phospho-acid esters as fungitoxic agents. Patent 3,459,857. 8313
Herbicidal composition and method employing thioalkylthiobenzothiazoles. Patent 3,455,676. 8393
Complexes of phosphorus pentafluoride oximes as herbicides. Patent 3,455,674. 8399
Bispyridinium compounds as herbicides. Patent 3,458,305. 8405
Aminophosphonate herbicides. Patent 3,455,675. 8415
Dihalophenyl-p-nitrophenyl ethers as herbicides. Patent 3,454,392. 8419
Methods of controlling weeds with derivatives of aminooxy lower alkanoic acids. Patent 3,457,063. 8426
Process for desiccating plants. Patent 3,454,390. 8434
N-(hydrocarbylthioalkyl)halophenoxyacylamides as herbicides. Patent 3,459,533. 8439
Nitrophenyl carbamic acid esters as molluscicides. Patent 3,458,639. 8442
Method of treating influenza viral infection. patent 3,459,861. 8445
Methods of treating coccidiosis with 4-sulfanilamido-2,6-dimethoxypyrimidine. Patent 3,458,631. 8448
Preparation of nitroimidazole carbamates. patent 3,459,764. 8463
Antibiotics 460 and methods for their production. Patent 3,454,696. 8485
Antibiotics 15 and methods for their production. Patent 3,348,626. 8486
Anthelmintic compositions and methods employing 2-(2'-oxazolin-2'-yl)-benzimidazoles. Patent 3,457,351. 8497
Stimulation of plant growth. Patent 3,454,391. 8592
Insecticidal-germicidal compositions of quarternary ammonium ortho phenyl phanate halide complexes. Patent 3,458,629. 8593
Fungicidal compositions and methods using mesomeric phosphonium compounds. Patent 3,458,630. 8595
Methods for stabilizing pesticidal compositions of 2-alkoxycarbonylaminobenzimidazolecarboxylic esters. Patent 3,454,700. 8600
Aryl alkoxythioureas. Patent 3,457,292. 8601
Nortricyclic-3-ureas and their herbicidal compositions and methods of use. Patent 3,454,393. 8606
Process for the manufacture of a pesticide from petroleum hydrocarbons. Patent 3,454,664. 8609
Esters of benzimidazolecarbamic acid as mite ovicides. Patent 3,427,388. 8851
Method of killing pests by application of a phosphoro derivative of alpha-(methylthio) cresol. Patent 3,427,384. 8875
Certain 2-alkanoylamino-5-halothiazoles. Patent 3,427,318. 9036
Iminodioxolanes as herbicides. Patent 3,427,147. 9040
Phenoxypyridazines as herbicides. Patent 3,427,146. 9047
3-methylene-androstan-17beta-ols and 17-alkyl derivatives thereof. Patent 3,427,386. 9063
Propargyl 2-bromodecanoate. Patent 3,427,333. 9195
Antibacterial composition containing 5-nitro-2-furyl-1,2,4-triazoles. Patent 3,427,387. 9218
Long-chain bisphenol esters. Patent 3,427,345. 9232
Organophosphorus insecticides. Patent 3,432,599. 9249
Alkyl and aryl 4-(methylcarbamoyloxy) carbanilates. Patent 3,450,745. 9447
Dicarbamate derivatives of alkyladamantanes. Patent 3,450,744. 9585
Control of powdery mildew with nitronaphthonitriles. Patent 3,432,601. 9587
Antibiotic SL 2266. Patent 3,432,598. 9604
Herbicidal ether. Patent 3,450,522. 9669
Herbicidal N-halo-alpha-haloacetanilides. Patent 3,450,521. 9671

Bromodichloroacetanilides as fungicides and nematocides. Patent 3,450,822.
9849

Pharmacologically active new substituted benzamides. Patent 3,432,549.
9852

Cyclic dicarboximido-substituted phosphonothioates. Patent 3,450,713.
9856

Process for the preparation of nitroimidazole carbamates. Patent 3,450,710.
9857

N-dialkylaminoalkyl-naphthalene-dicarboximides. Patent 3,450,714.
9858

Compositions and methods for regulating the growth of plants. Patent 3,455,673.
10021

Method for repelling bees. patent 3,456,056.
10099

Fungicidal composition containing zinc dithiocarbazate. Patent 3,458,638.
10190

Nematocides. Patent 3,457,353.
10271

Control of aquatic plants with dithiodiundecanoic acid. Patent 3,432,286.
10281

Inactivated hog cholera virus vaccine. Patent 3,456,053.
10330

Tetracycline antibiotic compositions for oral use. Patent 3,454,697.
10337

Tablet dosage-form for the immunization of the intestinal tract with live virus preparations. Patent 3,458,621.
10359

Method for combating micro-organisms. Patent 3,458,636.
10362

N-(substituted-benzoyl) aminoaceto- and aminopropionitriles. Patent 3,457,294.
10460

Prevention of littering in animals with dehydroepiandrosterone 3-(2'-tetrahydropyranyl)ether. Patent 3,428,733.
10842

Microbiological decontamination of aflatoxin-contaminated edibles. Patent 3,428,458.
10920

Method of controlling pests with mercury compounds. Patent 3,443,013.
11059

Arylimino chlorocarbonyl cyanides and preparation thereof. Patent 3,441,592.
11061

Process for the preparation of imino-dithiolanes. Patent 3,442,907.
11062

Composition and methods for rendering absorbent materials fungicidal comprising an aqueous solution of borax/and the bis(tri-n-propyltin) diammonium chloride of a tri-polyoxyethylated N-alkyl trimethylene diamine. Patent 3,443,010.
11066

Novel 7-oxo-7-desacetylamino-colchicine compounds. Patent 3,442,953.
11068

Process for preparing S-(2-chloroethyl)thiocarbamates from S-(2-chloroethyl)isothiocarbamyl chlorides. Patent 3,441,590.
11069

Sulfite nematocides. Patent 3,428,734.
11074

O-alkyl S-(substituted benzyl) benzene thiophosphonates for controlling fungi. Patent 3,443,011.
11075

Nematocidal methods employing 2-perfluoroalklbenzimidazoles. Patent 3,443,015.
11076

Antibacterial mixture of O-carbamyl-D-serine and D-4-amino-3-isooxazolidone.
11077

Control of pathogenic organisms with halogenated phenoxycyclopentenones. Patent 3,443,016.
11079

Process for the purification of crude 2,5-dichloro-3-nitrobenzoic acid (Dinoben). Patent 3,441,603.
11080

Ammonia complex of the zinc salt of ethylene bis-dithiocarbamic acid. Patent 3,441,581.
11082

Methods of destroying weeds with substituted tetralins. Patent 3,442,640.
11083

Tributyltin molluscicides. Patent 3,439,098.
11817

Artificial feedstuff for silkworm larvae containing a hydroxybenzaldehyde compound. Patent 3,425,838.
11840

Herbicidal mixture and method of use. Patent 3,429,687.
12108

S-benzoyloxymethyl-thiamine esters. Patent 3,429,883.
12111

Avian pox virus vaccine and process of preparing same. Patent 3,429,965.
12113

Increasing egg production in poultry by administering poultry feeding thiamine derivatives and poultry feed compositions containing said derivatives. Patent 3,439,095.
12114

Preventing influenza infections with bicyclo(2.2.2)octane-2-methylamine. Patent 3,439,100.
12123

Preventing influenza infection with amino-bicyclo(3.2.2)nonanes. Patent 3,439,102.
12124

Bicyclo(3.2.1)octane amines as anti-influenza agents. Patent 3,439,101.
12125

Compositions and methods for controlling coccidiosis in poultry with 2,4-disubstituted benzamide. Patent 3,429,969.
12165

Compositions and a method for the prevention and control of histomoniasis which employ a 5-nitroimidazole and a benzenearsonic acid. Patent 3,439,097.
12179

N1-acetyl-N1-(cyclopropyl-2-pyrimidinyl)-sulphanilamides. Patent 3,438,980.
12185

Control of fungi with O,O-dimethyl-S-trichloromethylphosphorodithioate. Patent 3,439,092.
12252

Method of treating avian lymphomatosis induced by ES4 strain of lymphomatosis virus. Patent 3,429,971.
12303

N,N'-alkylenebis(2-nitro-(lower-alkanamides)). Patent 3,429,918.
12306

Phenoxy pyridines as herbicides. Patent 3,429,689.
12307

1-halo-1-nitro disulfides. Patent 3,429,931.
12308

Method for extracting the antibiotic levorin from a culture medium. Patent 3,439,090.
12313

2-methylenenaphtho(2,3-d)-1,3-dithiole-4,9-diones. Patent 3,429,895.
12316

Organotin-, arsenic and antimony 1,1-ethylene dithiolates. Patent 3,429,905.
12317

Herbicidal alpha-halo-n-cyclohexyl-acetamides. Patent 3,429,690.
12318

Amine cyanoferrates and methods for preparing same. Patent 3,429,907.
12320

Secondary aminoalcohol-boric acid reaction product and production thereof. Patent 3,429,909.
12322

Metal chelates of bicyclononanedione. Patent 3,429,906.
12325

Control of acarids with triphenyl tin compounds. patent 3,445,575.
12545

Nonstaining phenylenedimethylene-bis-(triphenylphosphonium) salt - inactivated hog cholera virus vaccine. Patent 3,455,782.
12753

N-alkanoyloxyphenoxyalkanamides as herbicides. Patent 3,446,613.
12911

Beta-dialkylaminoalkyl ethers and thioethers. Patent 3,446,843.
12912

Product of catalyzing polyurethane formation by means of 2-mercaptobenzothiazoles,thiazoles, oxazoles, imidazoles and imidazolines. Patent 3,446,779.
12914

Dimer of 2,2,3,4,5,6-hexachlorocyclohexadienone. Patent 3,444,207.
12915

2-tri- (mixed) halomethyl benzimidazoles-Patent 3,448,115.
12916

Bromodifluoronitromethane for the control of insects, fungi and nematodes. Patent 3,445,576.
12917

N-polyhaloalkylthio compounds as fungicidal agents. Patent 3,444,300.
12918

Process for producing an antifungal and antiprotozoal substance. Patent 3,458,402.
12919

Method of preventing influenza viral infections. Patent 3,444,302.
12920

Compositions containing organotin metal carboxylate antimicrobials.
12921

Novel process for the preparation of transchrysanthemumic acid. Patent 3,445,499.
12922

Dinitrophenylpropanols having herbicidal properties. Patent 3,444,244.
12923

Methods of manufacturing 2,6-dichlorobenzamide. Patent 3,444,166 (United States).
12924

Herbicidal mixture and method of controlling undesirable plant growth therewith. Patent 3,443,927.
12926

Amino substituted tricyclo (3.2.2.02,4)nonanes. Patent 3,444,199.
12927

Herbicidal composition and method employing 3-Benzyl hydantoins. Patent 3,443,926.
13509

Method of controlling weed growth. Patent 3,443,925.
13510

Carbamic acid (fluoroacetoamido-trichloro)ethyl esters. Patent 3,442,932.
14106

Alkenyl and alkynyl biphenylyl sulfides. Patent 3,442,955.
14109

PATHOGENESIS

Worms in pigs.
13411

Nairobi sheep disease: A study of it's pathogenesis in sheep, goats and suckling mice.
14597

PATHOGENIC BACTERIA

The protection of apple tissue against infection by Erwinia amylovora afforded by avirulent strains of E. amylovora, a saprophytic bacterium and other bacterial plant pathogens. 9565

PATHOGENICITY

Effect of tannic acid and ellagic acid on the infectivity of potato virus X in tissue culture. 12038

An anthracnose of celery caused by Colletotrichum orbiculare (Berk. and Mont.) Arx. 15481

PATHOLOGY

The propagation and cytomorphological effects of bovine parainfluenza type 3 virus in organ cultures of bovine fetal tissues. 9720

Studies on the bacterial diseases of Sudan crops. VIII. Survival and dissemination of Xanthomonas phaseoli (E.F.Sm.) Dowson. 12657

Pathomorphological and histochemical studies of livers of sheep experimentally infected with the liver fluke. 12856

Metastrongylosis of swine originating from the Lublin Palatinate. 12860

A case of toxoplasmosis in a dog. 13965

Liver fluke disease appears to be spreading. 14023

PAVEMENTS

Controlling bermudagrass in asphalt pavements. (Abstract). 10795

PEACHES

Sex attraction and mating of lesser peach tree borer moths. 8214

Control of bacterial spot of peach in New Jersey. 8288

Should Michigan forget about peaches . 8928

Factors involved in the development of peach seedling cankers induced by chilling. 8943

The influence of nutrition on susceptibility of peach foilage to water congestion and infection by Xanthomonas pruni. 8972

Role of Pythium in damping-off of peach. 8975

Calonectria floridana sp. nov., the perfect stage of Cylindrocladium floridanum. 8990

Infestation of peaches by Rhagoletis suavis. 9006

Monilia laxa as an important factor reducing the yield of some plum varieties (Monilia laxa (Ehrenb.) Aderh. et Rubl.). 9596

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 2-(p-tertbutylphenoxy)cyclohexyl 2-propynyl sulfite. 9791

Bands on peach trees as shelters for predators of the green peach aphid. 10566

Peach rosette in the M. I. A.. 10679

A model outbreak of the mite Tetranychus medanieli McGregor in Ontario. 10721

Stem pitting of yellow bud mosaic virus--infected peaches. 11505

Stem pitting of peach. 11944

Yellow leaf roll virus on the move. 11959

Effect of pruning on silver-leaf disease (Stereum purpureum (Pers.) Fr.) and yield of peach and nectarine trees. 11963

Symptoms of rasp leaf virus disease on peach. 11983

Cytospora leucostoma spore germination. I: Environmental and carbohydrate requirements. II: Carbohydrate availability in peach tree bark. 12015

Seasonal changes in sugar alcohols and sugars in peach bark: A possible relationship to Cytospora canker susceptibility. 12016

Some remarks on the corky triangle abnormality of the peach tree. 12018

Orchard illumination as a counter to the fruit piercing moth. 12089

Growth of young peach trees as affected by preplant fumigant treatments. 12260

Reactions of two precocious peach varieties to the elimination of ring spot viruses. 12659

San Jose scale (Quadraspidiotus perniciosus). 13311

Studies on the necrosis of peach trees. 13766

Brown rot of stone fruits on the Murrumbidgee irrigation areas. II. Aetiology of the disease in Trevatt apricot trees. 13788

Brown rot of stone fruits on the Murrumbidgee irrigation areas. I. Aetiology of the disease in canning peaches. 13789

Stem pitting of yellow bud mosaic virus-infected peaches. 13815

Effect of retardant CCC on growth and morphogenesis of fruit tree saplings. 14084

Regulation of growth, flowering and fruit abscission of apples and peaches with Amchem 66-329. (Abstract). 14309

Effects of N-dimethylamino succinamic acid (Alar) on yield, size, maturation, and quality of peaches with reference to its use in adapting fruit for mechanical harvesting. (Abstract). 14362

Peach leaf curl (Taphrina). 14413

Isolation of Toxoplasma gondii from swine and cattle. following pesticide treatments. 14558

Rust, Tranzschelia discolor (Fckl.) Tranz. and Litv., on peach, Prunus persica (L.) Batsch. 14937

Peach spray program. 15007

Chemical weed control in fruit crops. 15143

A rapid method of identification of prunus necrotic ring spot. 15494

Peach spray program. 15635

Winter necrosis of peach twigs. Experimental reproduction following pesticide treatments. 15641

PEANUTS

Stimulation of plant growth. Patent 3,454,391. 8592

Quantitative method for the estimation of aflatoxins in peanuts and peanut products. 8605

Control of the lesser cornstalk borer attacking peanuts. 9008

Mwitunde groundnuts and their reaction to virus infection in South Africa. 9576

Metabolism of trifluralin in peanuts and sweet potatoes. 10273

The effects of trifluralin on the nucleic acids and carbohydrates content of sweet potatoes and peanuts. (Abstract). 10979

The metabolism of trifluralin by peanuts and sweet potatoes. (Abstract). 10988

An examination of fungi associated with groundnut pods. 11469

Bacterial wilt in Malaya. 11470

Isolation of cereosporin from Cercospora personata. 12037

Evaluation of peanut (Arachis hypogaea) varieties for Verticillium wilt resistance. 12609

Alternaria blight of groundnuts. 13237

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 2-chloro2',6'-diethyl-N-(methoxymethyl) acetanilide. 13446

Report of the Joint AOAC-AOCS Aflatoxin Committee. 13460

Aflatoxin-producing potential of isolates of the Aspergillus flavus-oryzae group from peanuts (Arachis hypoghea). 13493

The influence of phosphate on the phytotoxicity of 3-amino-1,2,4-triazole. 13497

Study on the fatty acid composition during germination of peanuts treated with growth regulators. 13498

Host specificity with Oncopeltus fasciatus (Heteroptera: Lygaeidae). 13608

Bacterial wilt in Malaya. 13777

Groundnut pod diseases. 13799

Cultural factors in relation to collar rot control of groundnut. 14351

A veinbanding virus of groundnuts, Arachis hypogaea L. 14387

Effect of phytotoxins from the decomposition of organic matter upon peanut seedling emergence. (Abstract). 14668

Assessment of crop losses caused by rosette disease of groundnut. 14960

Effect of different dates of sowing of groundnut on the development and intensity of leaf-spot disease by Cercospora ssp.. 14977

Induction of dormancy in groundnut by pre-harvest foliar application of maleic hydrazide. 15285

Influence of fungicides and insecticides on the occurence of Aspergillus on peanut seedlings. II. Seed treatments. 15498

Peanut diseases. 15605

Peanut diseases. Southern stem rot. 15606

Peanut diseases. Leafspot control. 15608

Peanut insects. Seasonal control of thrips, leafhoppers, southern corn rootworm and wireworms.
15624

Peanut insects. Seasonal control of thrips, leafhoppers, Southern corn rootworm and wireworm.
15626

Effect of thiometon on the chemical composition and the growth of groundnut crop.
15898

PEARLMILLET

Studies on physiology of Helminthosporium australiense the causal agent of a leaf spot disease of bajra.
10226

Effect of relative humidity and length of storage period upon fungal invasion and germination percentage of bajra seeds.
12869

Oedaleus senegalensis Krauss (Orthoptera: Acrididae sub family Oedipodinae) plague in Rajasthan.
13829

PEARS

Releases of unsexed gamma-irradiated codling moths for population suppression.
8378

Persistence of pesticides in orchards and orchard soils. in; Organic pesticides in the environment; symposium...American Chemical Society, Atlantic City, N.J., Sept. 13-is, 1965. robert J. gould, ed.
8532

Dark green epinasty of Chenopodium quinoa, a syndrome induced by a virus latent in apple and pear.
8998

The preservation of fruit.
9139

A new genus and species of of the Galerucinae (Coleoptera: Chrysomelidae) from pear tree in West Pakistan.
9255

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 2-(p-tertbutylphenoxy)cyclohexyl 2-propynyl sulfite.
9791

Biology and control of leopard moth on pear trees in the United Arab Republic.
10242

Dissemination of waterborne Erwinia amylovora by wind in nursery plantings.
10621

A model outbreak of the mite Tetranychus mcdanieli McGregor in Ontario.
10721

Contribution to the study of the morphology of Leucoptera scitella Zell.
10742

Tests of chemical weed control in pear orchards.
10826

Size control of nursery trees with N-dimethylaminosuccinamic acid.
11036

Erwinia amylovora (Burr.) Winsl. in Poland.
11953

Growth and flowering responses of apple and pear seedlings to growth retardants and scoring.
12249

Growth and fruiting response of young apple and pear trees to annual applications of succinic acid 2,2,dimethyl hydrazide.
12283

Yuzuhada, a physiological disorder of oriental pear, and its possible relation to black-end and hard-end of Bartlett.
12656

Pear Psylla control studies.
12669

Postharvest heat treatment to control storage rots of Spadona pears.
13238

Chemical control of superficial scald on Anjou pears.
13258

Investigations of the efficacy of some fungicides in the control of Mycosphaerella sentina-causer of the leaf spot of pears.
13293

Development of young pear trees with different rootstocks in relation to Psylla infestation, pear decline, and leaf curl.
13778

Physiological studies on pear canker disease in Egypt and its control.
13790

The pear Phylloxera aphanostigma piri Cholod. et Mokrz. (Phylloxeridae).
13844

The influence of alar (N-dimethylaminosuccinamic acid) on maturation of apples and pears.
14076

Economic effect and control of wood-boring insects in fruit trees.
14329

Soil condition and the violet and white root rot diseases of fruit trees.
14343

Chenopodium as host to viruses transmitted from apple, pear and grapevine.
14356

Chemical treatment the answer to fruit scald.
14466

Several years' research on the investigations of virus in pears.
14473

The fungal diseases of pears and apples during storage. I. General aspects.
15835

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Streptomycin.
15871

Phytotoxicity of methyl bromide to some plant hosts of San Jose scale.
15882

PEAS

Pea enation mosaic virus: Glucose catabolism in leaves and pods of infected peas.
8938

Genetic studies of pea leaf-roll (top-yellows) virus resistance in Pisum sativum.
8942

Chemical control of pea root rot by soil-incorporation and in-furrow treatments with 1-chloro-2-nitropropane.
8954

Temperature response of seeds during the early phases of germination and its relation to injury by Rhizoctonia solani.
8983

Cell-wall deposition and the distribution of cytoplasmic elements after treatment of pea internodes with the auxin analog 2,3,5-triiodobenzoic acid.
9188

Clover yellow vein virus in North America.
9593

Research concerning the effectiveness of some herbicides in controlling the weeds from pea crops in the western areas of the country.
9673

Isolation of gibberellin A20 from pea pods.
9835

New record of hymenopterous parasites of Phytomyza atricornis (Meigen), a serious pest of pea.
10259

Prevention of wood-pigeon damage.
10596

Ethylene, light, and stress in the growth and development of Pisum sativum L. cv. Alaska.
10986

Dealkylation of atrazine in higher plants and its significance. (Abstract).
11030

The metabolic fate of propanil. I. (Abstract).
11038

The metabolic fate of propanil, Ii. (Abstract).
11039

Unusual strains of phytopathogenic viruses.
11986

The relationship between bean yellow mosaic virus and pea mosaic virus.
12030

Information on a sap transmissible, seed-, fungus- and insect-borne new virus of garden pea.
12032

Control of broomrape in peas and carrot crops.
12733

Effect of gibberellin A3 on concentration of DNA, RNA, and protein in pea plant (Pisum sativum L.).
12906

Some properties of pea enation mosaic virus isolated from field pea and broad bean plants in Bohemia.
13274

A comparison of the behavior of two pea pathogens in cut-away peat and loam.
13286

Phytochrome controlled C14-sucrose uptake into etiolated pea buds: Effects of gibberellic acid and other substances.
13478

Transmission of pea leaf rolling virus by aphids.
13845

Effect of gibberellin on the growth, development, crop yield and some aspects of metabolism of summel vetch, field bean, pea and soya under various nutrient conditions.
14071

On some features of the effect of heteroauxin on the growth of cells in the elongation phase. yakushkina, n i.
14081

The ultrastructure and physiology of the abdominal air-guide retractor muscles in the giant water bug, Lethocerus.
14277

In vivo and in vitro reactions of 1,1-dimethylamino succinamic acid (B-9, Alar) and related substances.
14328

The importance of preceeding crop-dependent shifts in the micro flora of the soil. I. The influence of soil fungi on the root development of wheat, peas, and rape.
14353

Yellow dwarf of pea and broadbean caused by milk-vetch dwarf virus.
14378

Effect of soil fumigants on control of pea root rot pathogens.
14391

Underpopulation in plant parasitic nematodes.
14515

Use of Butyrics.
15096

Infection of bean root- meristems by tobacco ringspot virus.
15488

Influence of the herbicides arctit, prometrin and chloroxuron on the yield and some physiological processes in peas.
15745

Influence of some herbicides on the tuber formation in garden peas.
15908

PEAT

Recovery of mites from peat and mineral soils using a new floatation method.
9975

A comparison of the behavior of two pea pathogens in cut-away peat and loam.
13286

PEBULATE

Evaluation of herbicides applied to the soil for weed control in irrigated sugar beets.
9039

Adsorption, volatility, and migration of Thiocarbamate herbicides in soils.
12886

Weed control in sugarbeets with herbicides and cultivation.
15748

PECANS
Pecan insect and disease spray schedule.
15025

Utilization of carbohydrate compounds by the pecan scab fungus, Fusicladium effusum Wint..
15278

Pecan insect and disease spray schedule.
15661

PECTASE
Calcium localization in Hypomyces-infected squash hypocotyls and effect of calcium on pectase lyase and tissue maceration.
14677

PECTINASE
The surface localization of polygalacturonase in spores of Geotrichum candidum.
8937

Studies on Botrytis allii Munn.. The cause of neck rot of onion bulbs in U.A.R.. II. Cultural conditions in relation to mycelial growth and pectinase activity.
13793

Pectinases in Ditylenchus dipsaci.
13887

Research concerning the appearance and activity of pectolytic and cellulolytic enzymes of phytopathogenic bacteria.
15530

PECTINOPHORA GOSSYPIELLA
Fifty years of research on the pink bollworm in the United States.
8365

Hexalure, an insect sex attractant discovered by empirical screening.
10025

Chemical control of pink bollworm in Imperial Valley.
12078

Isolation of N, N-diethyl-m-toluamide (deet) from female pink bollworm moths.
12471

Metepa as a chemosterilant for adult female pink bollworms.
12507

Suppression of populations of pink bollworms in field cages with traps baited with sex attractant.
13061

Effect of flavonoid pigments and gossypol on growth and development of the bollworm, tobacco budworm, and pink bollworm.
13127

California fights dramatic war against pink bollworm on cotton.
13862

Controlling the pink bollworm on cotton.
15001

Light and circadian rhythms.
15414

PECTINS
Production of toxins and pectolytc enzymes by two isolates of Sclerotium bataticola Taub. and their role in pathogenesis.
14401

The influence of variations in the microflora of a sterilized soil on the genesis of certain plant diseases. II. Study of the behaviour of microorganisms introduced into steam-sterilized soil.
15567

PECTOBACTERIUM PARTHENII DIANTHICOLA
Investigations on the stain bacterias of carnations due to Pectobacterium parthenii var. Dianthicola Hellmers.
15547

PEDICULUS HUMANUS
Antennal tuft organs of Pediculus humanus Linn. and Phthirus pubis (Linn.) (Anoplura: Pediculidae).
13653

PEDICULUS HUMANUS HUMANUS
Failure of laboratory colonies of body lice to develop resistance to malathion.
12437

Sleeve tests of insecticidal powders for control of body lice.
13032

PEGOMYA HYOSCYAMI
Laboratory rearing of the spinach leaf miner Pegomyia hyoscyami Panz.
12518

PEKIN DUCKS
Glomerular lesions induced in Pekin ducks by dietary administration of dimethylnitrosamine.
15262

PELECITUS CEYLONENSIS
Pelecitus ceylonensis n.sp., from the chick and ash-dove experimentally infected with larvae from Mansonia crassipes, and from naturally-infected crows in Ceylon.
9767

PELLICULARIA
Fungicidal control of rice diseases.
10170

PEMPHIGOSTOLA SYNEMONISTIS
Discovery of the female of Pemphigostola synemonistis Strand, 1909 (Lepidoptera Agaristidae).
8064

PENETRATION
Absorption and penetration of picloram in potato tuber discs.
10308

Physico-chemical and biophysical factors affecting the activity of pesticides.
10462

An electron microscopy study of the penetration of tobacco mosaic virus into leaves following experimental inoculation.
12611

The enhancement of penetration of an organophosphorus anticholinesterase through guinea pig skin by dimethyl sulfoxide.
13463

Penetration and feeding by Aphelenchus avenae.
13880

The metabolism of contact insecticides in stored grains.
14054

PENGUINS
DDT residues in Adelie penguins and a crabeater seal from Antarctica.
8552

PENICILLIN
The penicillin pearl test in the differential diagnosis of Bacillus anthracis and Bacillus cereus.
11615

Diplococcus pneumoniae. A comparative study on the antibiotics effectiveness in vitro and in vivo.
14016

PENICILLIUM
Notes on fungi responsible for the decay of hickory nuts.
8284

Occurrence of fungi antagonistic to Poria weirii in a Douglas-fir forest soil in western Oregon.
11491

Decay of wood and wood fiberboards by common fungi imperfecti.
12003

The effects of moisture and temperature on growth and spore germination in some fungi.
13468

Effect of a varietal mixture on sugarcane root rot susceptibility and on the rhizosphere microflora.
14455

Study of the antifungal properties of 8-Hydroxyquinoline tartrate.
14651

The role and importance of mold in the occurrence of alimentary intoxications in swine. (1.Experimental toxication of piglets with mold feed).
15802

PENICILLIUM CHRYSOZENUM
On the primary stages of orthophosphate absorbtion by mycelium of Penicillium chrysogenum.
9202

Exocellular deoxyribonuclease I of Penicillium chrysozenum Part I. Partial purification and properties of the enzyme.
14694

PENICILLIUM DIGITATUM
Comparison of absorbed biphenyl in oranges and biphenyl vapor in controlling decay, mycelial growth, and sporulation by Penicillium digitatum.
14417

PENICILLIUM EXPANSUM
Postharvest heat treatment to control storage rots of Spadona pears.
13238

PENICILLIUM FUNICULOSUM
Mitorubrinic acid and related compounds from a strain of Penicillium funiculosum Thom.
10601

PENICILLIUM OXALICUM
Factors affecting severity of seedling blight of corn in the United Arab Republic.
8976

Fungi causing seedling blight of corn in the United Arab Republic.
8977

The growth and activity of cellulose decomposing fungi as influenced by culture conditions.
9845

PENICILLIUM RUBRUM
Mycotoxicosis associated with hemorrhagic enterocolitis and abortion in swine.
9062

PENICILLIUM URTICAE
Metabolism of beta-dihydroheptachlor-14C in soil and by microorganisms.
9840

PENIOPHORA GIGANTEA
Ecology of slash pine stumps: Fungal colonization and infection by Fomes annosus.
11463

PENNISETUM MACROURUM
African feather grass--a weed worth watching.
10279

PENTAC
Histological, behavioral, and symptomatic effects of Pentac on Tetranychus urticae.
10018

PENTACHLOROBENZYL ALCOHOL
Pentachlorobenzyl alcohol, a rice blast control agent.
8960

Physiological effects of pentachlorobenzylalcohol on rice plants.
14690

Inhibitory effect of pentachlorobenzyl alcohol (PCBA) on sporulation of Piricularia oryzae cavara.
14691

Controlling effect of pentachlorobenzyl alcohol on rice blast.
14692

PENTACHLORONITROBENZENE
Chemistry of fungicides.
10476

Preliminary note concerning tests in progress on the control of collar rot of lettuce.
10650

Observations on associated complexes nematodes-fungi in connection with damages to flower growing and horticulture and means of control.
11923

Selection for resistance and chemical control of Rhizoctonia root rot disease of sugarbeets.
11931

More on the control of collar rot of chicory plants.
11933

Evaluation of Terraclor and Terraclor Super-X for the control of rhizoctonia on potato in British Columbia. 12040
Establishment and maintenance of ladino white clover in the black belt,. 12263
Peanut diseases. Southern stem rot. 15606

PENTACHLOROPHENOL
Photochemical degradation products of pentachlorophenol. 9237
Effect of simulated rainfall on herbicide performance. 12708
Treating pine lumber with insecticide and preservative prevents tubing by subterranean termites. 12875
Fungitoxic action of higher alkyl compounds. I. Mechanism of fungitoxic action of alkylphenols. 14665

PENTATOMIDAE
Biological and ecological study of the hymenopterous parasites of the eggs of cereal bugs. 8182
An electron microscope study of nebenkern formation and differentiation in spermatids of Murgantia histrionica (Hemiptera, Pentatomidae). 8837
Biology and morphology of Graphosoma semipunctata Fabricius, (Heteroptera, Pentatomidae). 9493
On the odour components of the stink of two heteropteran bugs of India. 9989
Studies on the susceptibility of different stages of Bagrada cruciferarum Kirkaldy to some organic insecticides. 10043
Studies on the anatomy of Cyclopelta siccifolio (Westw.) (Hemiptera, Pentatomidae, Dinidorinae). 11395
Some observations on the pentatomides of cereals and their parasitism in 1965. 11902
On some alterations in the composition of wheat grain damaged by wheat bugs (Eurygaster and Aelia). 13826
Notes on the genus Schyzops Spinola, 1837 (Phyllocephalinae, Pentatomoidea, Heteroptera). maritima (Guer.). 14139

PENTOBARBITAL
Equi-Thesin, general anesthetic. Drugs for veterinary use; drug efficacy study implementation. 9813

PENTOSES
Pentose phosphate pathway enzyme studies of the lz allele of Drosophila melanogaster. 11427
Analyticial restraint of research on the respiratory metabolism of infectious virus on healthy potato nodules and sprouts. 15580

PEPPER
Efficacy of disulfoton for control of the green peach aphid, Myzus persicae, on peppers. 9628

PEPPER (SPICE)
The occurrence of a Phytophthora root and leaf disease of black pepper in Jamaica. 9578

PEPPERS
Occurrence of gray leafspot on peppers in Florida. 12597
Some viruses affecting tomatoes and peppers in Argentina. 13776
Control of mosaic of tobacco, peppers, and tomatoes with milk. 15538
Control of mosaic of tobacco, peppers, and tomatoes with milk. 15539

PEPSIN
Study of gastric function in swine with gastroenteritis. 11629

PEPTIDES
The polypeptides of adenovirus. III. Synthesis in infected cells. 8487
Naturally occurring low-molecular-weight peptides from the blowfly Phormia regina. 8713
MCD-PEPTIDE from bee venom: Isolation, biochemical and pharmacological properties. 9804
Influence of quaternary structure on antigenic configuration of tobacco mosaic virus. (Abstract). 12321

PEPTONES
Investigation on growth media for mycoplasma: Evaluation of infusions, peptones, sera, yeast extracts and other supplements. 15797

PERENNIAL PLANTS
Occurrence of Orobanche cernua on Pluchea lanceolata, an obnoxious weed in Rajasthan, India. 8411
Alteration of plant growth habit as a means of controlling rhizomatous species. 9037
Effects of crown rust on rye grass. 10681
Control of the biennial thistle, Onopordum, by amitrole and five perennial grasses. 10798
Onion weed control on Mallee soils. 14518
Control of perennial grass weeds. 15103
Control of perennial broadleaved weeds. 15116
Control of Sonchus arvensis (perennial sowthistle). 15142

PERICARDITIS
Perforation of the esophagus in a cat. 8479
Studies on clinical symptoms and haematological changes in foreign body syndrome in buffaloes. 14003

PERIDERMIUM
Limb rust of pine: The causal fungi. 14430
On the occurrence of periderm in the leaves of Welwitschia mirabilis. 14687

PERIDERMIUM FILAMENTOSUM
Limb rust of pine: The causal fungi. 14430

PERIDERMIUM HARKNESSII
The range of western gall rust in Wisconsin. 13272

PERIDERMIUM STALACTIFORME
Limb rust of pine: The causal fungi. 14430

PERILAMPIDAE
Notes on some new or little known Chalcididae (Hym.). 8031
Immature stages of a chalcidoid parasite tended by allodapine bees. (Hymenoptera: Perilampidae and Anthophoridae). 11350

PERILAMPSIS
Studies of fruitflies associated with mistletoe in Australia and Pakistan with notes and descriptions on genera related to Perilampsis Bezzi Diptera: Tephritidae. 8635

PERILLUS BIOCULATUS
The effect of Perillus bioculatus (Fabr.) (Het., Pentatomidae) on the population dynamics of the potato beetle. 10124
Some physiological peculiarities in Perillus bioculatus (Heteroptera, Pentatomidae). 13124

PERIPLANETA AMERICANA
On the phosphagen isolated from eggs of insects. 8108
Movement of calcium and magnesium across the midgut epithelium of the American cockroach. 8183
Neuromuscular synapses in the cockroach extensor tibiae muscle. 8700
Cycloheximide, amino acid incorporation and learning in the isolated cockroach ganglion. 8720
Study of different types of activities recorded with capillary microelectrodes in the last abdominal ganglion to the cockroach, Periplaneta americana L.. 8723
Esterases and phosphatases in the gastric secretion of the cockroach, Periplaneta americana. 8733
The existence of lysosomic inclusions in the adipose cells of Periplaneta americana (Blattidae). 8759
Non-homogeneous conduction in giant axons of the nerve cord of Periplaneta americana. 8827
Organization of the giant axons of the cockroach Periplaneta americana. 8861
Histological and electrophysiological studies on the giant axons of the cockroach Periplaneta americana. 8862
The adult cervicothoracic musculature of the cockroach, Nauphoeta cinerea (Olivier). 8871
An active reduction of water level in insect cuticle. 8902
The distribution of factor S in the cockroach, Periplaneta americana, and its role in stress paralysis. 9359
The neural control of cercal grooming behaviour in the cockroach, Periplaneta americana. 9373
The cockroach integument: Pas-positive granules and their possible relationship with phenol storage. 9492
Abundance and habitat of five species of cockroaches on a permanent military base. 9506
Cockroaches (Blattaria) as vectors of food poisoning and food infection organisms. 9779
An integrated technique to study the effects of fumigants on respiration of insects. 9972
Radiation sensitivity of twelve species of arthropods. 10069
Starvation-induced activity in cockroach malpighian tubules. 10073
Cockroach heart response to cardio-accelerators. 10074
Vitellogenic blood protein synthesis by insect fat body. 10083

Common inhibitory motorneurones in insects.
10089

Isolation and biological properties of the juvenile hormone.
10106

KCl-induced spreading depression and ventilation in the cockroach.
10108

Immunological response of male cockroaches to injection of Tetrahymena pyriformis.
10559

3,4-dihydroxy-mandelic acid in the mushroom gland of cockroaches.
11220

The major hydrocarbon of a cockroach cuticular wax.
11230

New photoreceptors placed in evidence in the Dictyoptera: The paraocellar organs.
11239

Changes in haemolymph and cuticle proteins during the molting process in the American cockroach.
11273

Juvenile hormone and the formation of warriors in the yellow necked termite, Calotermes flavicollis Fabr..
11332

H thermistor thermometer for physiological preparations.
11352

The cockroach heart as a bioassay organ.
11353

Control of the circadian rhythm of activity in the cockroach. Iii. A possible role of the blood-electrolytes.
11792

The activity of spermatozoa of Periplaneta.
11832

Movement of potassium and sodium across the midgut epithelium of the American cockroach.
11876

Lysozyme action on the cockroach, Periplaneta americana, and its intracellular symbionts.
11898

Cockroaches.
13425

Axonal outgrowth and cell migration in vitro from nervous system of cockroach embryos.
13617

Effect of temperature on the endogenous activity of Periplaneta americana L. nerve cord.
13620

Continuous and rhythmic reproductive cycle observed in Periplaneta americana (L.).
14182

Insect visceral muscle: Neural relations of the proctodeal muscles of the cockroach.
14189

Effect of the venom of the black widow spider, Latrodectus mactans tredecimguttatus, on evoked action potentials in the isolated nerve cord of Periplaneta americana.
14195

Characteristic order of the filiform hairs of Periplaneta americana.
14245

Lysozyme action in the cockroach--blood changes. while probing intercellularly.
14279

PERIPLANETA BRUNNEA
Note on the brown cockroach, Periplaneta brunnea, in Texas.
12348

PERIPLANETA FULIGINOSA
An epizootic of Serratia marcescens (Enterobacteriaceae) in Periplaneta fuliginosa (Blattaria) and a suggested method for control.
9462

Abundance and habitat of five species of cockroaches on a permanent military base.
9506

PERITONEUM
Salmonella infections of the ovary and peritoneum of chickens.
12794

PERITROPHIC MEMBRANE
The peritrophic membranes in arthropods, their role in digestion and their intervention in the development of parasitic organisms.
12489

PERKINSIELLA SACCHARICIDA
Parasitism associated with brachypterous males in the sugarcane leafhopper, Perkinsiella vitiensis.
12506

PERLIDAE
Histopathology of lecithodendriid trematode infections in stonefly naiads.
11823

The drumming of the Plecoptera (Insecta).
11875

PERMEABILITY
Dynamics of the permeation of nematodes by water, nematocides and other substances.
9656

MCD-PEPTIDE from bee venom: Isolation, biochemical and pharmacological properties.
9804

Effect of dicamba on oxygen uptake and cell membrane permeability in leaf tissue of Cyperus rotundus L.
11696

Permeability to water of the shell of the egg of Locusta migratoria migratoriodes, with observations on the egg of Teleogryllus commodus.
11793

Mycobacterium tuberculosis in macrophages: Effect of certain surfactants and other membrane-active compounds.
14671

PERONOSPORA
Incubation calendar for Peronospora and pest control guide for grape culture.
10591

Computation of results of crop protection experiments by the method of Townsend and Heuberger.
14392

Is it possible to draw any conclusions from the red epidemic of 1967, in regard to the appearance of the disease during this year .
14678

PERONOSPORA DESTRUCTOR
Second year trials of Peronospora control on onions. (Peronospora schleideni Unger).
10653

PERONOSPORA FARINOSA
Resistance of the red beet cultivar Avonearly to infection by Peronospora farinosa f.sp. betae.
15482

PERONOSPORA TABACINA
Some aspects of the chemical control of tobacco Peronospora.
10642

Is an early infection by Peronospora tabacina Adam controlable in the field .
14397

Test for fungicidal activity against blue mold on tobacco using cotyledons.
14961

PERONOSPORALES
Tests of the control of potato mildew in the Trentino region.
10647

Three years of tests with new anti-peronosporic preparations.
14400

PEROXIDASES
Antifungal effects of peroxidase systems.
11605

Influence of peroxidase and catalases on mycelial growth and pycnidium production by Plenodomus meliloti in light and darkness.
11702

Some properties of mitochondria and ribosomes of infected plant tissues.
11932

The effect of gibberellin and auxin on IAA oxidase and peroxidase activity in mesocotyl cuttings of corn.
14087

Peroxidase isozymes in virus-infected plants.
14418

PERSIAN CLOVER
Chemical control of stem nematodes in red clover.
13342

PERSIMMONS
Presence of two tree vascular diseases confirmed in Arkansas.
9000

Woody plant shoot management and response to herbicidal treatment.
12745

PERSISTENCE
Persistence of pesticides in orchards and orchard soils.
8531

PEST CONTROL
The Gold Crest Pest Control Program for the pest control industry.
8614

Superflies beat dichlorodiphenyltrichloroethane.
8697

Sugar-cane moth borers in the Caribbean.
8974

Control of thar (Hemitragus jemlahicus): Evaluation of a poisoning technique.
9051

Plant protection under strict controls.
9529

Occurrence and distribution of diseases and pests of rice and their control in Thailand.
9531

Mid-state of Nebraska: There's no magic in pest control .
9861

Metabolism of strychnine nitrate applied for the control of the bear.
10318

Research and education needs in the use of pesticides.
10486

Incubation calendar for Peronospora and pest control guide for grape culture.
10591

Control of small-fruit pests and diseases 1967.
10719

Cyanide as a poison in opossum control.
10831

Preliminary observations on the control of Fasciola hepatica with the molluscicide N-tritylmorpholine.
10911

Pollutional aspects of pesticides in natural streams.
10926

Construction and operation of the electric rat fence.
11091

The pest control officer, past and present.
11098

Mammals and birds.
11583

150 years of crop pest control.
11868

Physical methods of pest control.
11921

Control of fairy ring disease of the cultivated cranberry.
12042

Antitranspirants: Uses and effects on plant life.
12248

Delsea of Camden, N. J.--mouth-to-mouth pest control.
12330

A device for protecting experimental huts from molestation. 12536

Studies on the control of Galba truncatula in large pastures. II. The effect of snail control on the extensiveness of infection in cattle. 12862

Rats and mice enemies of production, hazard to health. 12880

Bromodifluoronitromethane for the control of insects, fungi and nematodes. Patent 3,445,576. 12917

Pest control machinery in Japan. 12932

The rabbit. 13365

Fruit spraying machines. 13521

Insecticides and acaracides. Common names directory. Part I. Manufacturers. Part II. Other designations. 13524

Laboratory investigations on the effect of aphicides available in Poland on the most important natural enemies of aphids. 13702

Pest and disease control is more than simply putting on a spray. 13748

World review of pest control supplement. Guide to new compounds. 14103

The economic incidence of field vole control in France. 14540

Comments on rat-free towns. 14544

History of Coachella Valley Pest Control District. 14916

Pest and disease control schedules. 15455

What is plant protection. 15669

German forest-protection literature 1965/66. III. Defensive mass protection against animal pests. 15760

PEST CONTROL OPERATORS

Regulatory activities of the Connecticut State Board of Pesticide Control. 8529

Shell's versatile products Aldrite 4, Dieldrite 1.5 Vaponite 2 formulated for all P.C.O. business. 8613

The PCO market in tick control. 8859

PESTALOTIA PSIDII

Postharvest diseases of guava in India. 9607

PESTALOTIOPSIS

A new record of Pestalotiopsis palmarum (Cooke) Steyaert on chillies (Capsicum annuum. L). 11502

PESTICIDE ANALYSIS

Techniques and preliminary data of the movement of DDT and Zectran through a forest soil. 8525

Effect of forage processing on dalapon residue. 8548

GLC determination of residues of disulfoton, oxydemetonmethyl, and their metabolites in tobacco plants. 8596

Thin layer densitometric determination of rotenone and deguelin. 8597

Note on the determination of some chlorophenoxy herbicides and their esters in water. 8598

Studies on the effect of sulfuric-fuming nitric acid treatment on the analytical characteristics of toxaphene. 8603

Modification of the carbon disulfide evolution method for dithiocarbamate residues. 8604

Indoxyl acetate spray reagent for fluorogenic detection of cholinesterase inhibitors in environmental samples. 8607

Comparison of four extraction and cleanup procedures for chlorinated pesticide residues in eggs. 8610

Fluorometric determination of pesticides. 9229

It's tough to pinpoint residue content. 9242

Notice of filing of petition regarding pesticide chemicals. 9786

Recommended analytical methods for pesticides. 38. Test for emulsion characteristics of emulsifiable concentrates. 9846

Surface hydrology and pesticides. 10392

Potentials for removing pesticides from water. 10396

Extraction and gas-liquid chromatographic determination of vernolate in soil. 10467

Acetonitrile extraction and determination of carbaryl in fruits and vegetables. 10475

Recommended analytical methods for pesticides. 40. Methods of analysis for technical and formulated endothion. 11704

Recommended analytical methods for pesticides. 39. Methods of analysis for technical and formulated trichlorfon. 11705

A screening method for organochlorine pesticide residues using thin-layer chromatography. 12302

Gas chromatographic characteristics of chlordane. II. Observed compositional changes of the pesticide in aqueous and non-aqueous environments. 12304

Residues of organochlorine insecticides in dead birds in the United Kingdom. 13464

Polarographic analysis of s-triazine herbicides. 13505

PESTICIDE APPLICATION

Plant diseases and their chemical control. 8291

Control of vascular tree diseases with trichlorophenyl acetic acids. Patent 3,458,640. 8306

Multiple applications of 1,2-dibromo-3-chloropropane for control of nematodes in established rose plantings. 8384

Some ecological benefits of woody plant control with herbicides. 8396

Control of annual weeds in spring-seeded alfalfa with preplant, preemergence, and postemergence herbicides. 8413

Regulatory activities of the Connecticut State Board of Pesticide Control. 8529

Residuals of pesticides in cultivated mushrooms. 8556

Broadcast spraying. 8612

The fluorescent particle spray droplet tracer method. 9230

Home orchard pest control. 9643

Heterogeneity values of insecticide, fungicide or herbicide deposits and of their residues. 9853

A method for spraying individual trees. 10282

Response of ironweed and buckbrush to herbicides and to herbicides in combinations with mowing, nitrogen fertilizer, and surfactants. 10303

A sprayer for application of small amounts of herbicides to flats. 10314

Pesticide residues in the ecosystem. 10407

Spray gel agent solves drift problem. 10456

An evaluation of herbicide incorporation equipment. 10484

The use of chloropicrin for soil disinfection. 10592

Second year trials of Peronospora control on onions. (Peronospora schleideni Unger). 10653

Effects of herbicides and application methods on weeds in nursery containers and phytotoxicity to ornamental plants. (Abstract). 10776

A new plot technique for aquatic weed control studies. (Abstract). 10784

Control of winged elm (Ulmus alata Michx.). (Abstract). 10789

Soil-incorporated herbicides in furrow-irrigated onions. (Abstract). 10797

The tolerance of several fruit crops to applications of terbacil. (Abstract). 10809

Pelleted herbicides for conversion of low-quality hardwood sites to Japanese larch (Larix leptolepis). (Abstract). 10813

Cooperative research on the control of tropical and subtropical woody plants. (Abstract). 10823

The distribution, content, and movement of picloram after foliar and soil applications on huisache. (Abstract). 10961

Effect of time of postemergence applications of pyrazon and dalapon on sugar beets. (Abstract). 11029

Soil sub-surface applications of selective thiocarbamate herbicides. (Abstract). 11084

The spray deposit patterns of several types of nozzles used for low volume application. (Abstract). 11085

A granular herbicide spreader for gradient or constant rate use. (Abstract). 11086

Inexpensive modifications of the log sprayer for small plot field evaluation of pesticides. (Abstract). 11087

Spray droplet sizes obtained from several types of nozzles used for low volume application. (Abstract). 11088

Effect of tooth-shape, rotor speed, forward speed, and depth on performance of incorporated herbicides. (Abstract). 11089

The distribution of trifluralin in the soil when incorporated with the disk harrow and power rotary cultivator. (Abstract). 11092

Will the ground effect machine work in herbicide application (Abstract). 11093

Herbicide combinations. (Abstract). 11094

Herbicide combinations. (Abstract). 11095

Legislating custom spraying. (Abstract). 11097

Regulations by the mile - the railroad contract applicator's dilemma. (Abstract). 11099

Weed control for vegetable crops. 12102

Suggestions for weed control with chemicals. 12106

The influence of application techniques and environment on the activity and persistence of trifluralin. (Abstract). 12107

Horticulturists study - effects of long-term exposure to 2,4-D. 12232

Growth of young peach trees as affected by preplant fumigant treatments. 12260

Maleic hydrazide inhibits growth of young tung trees (Aleurites fordii, Hemsl.). 12300

Ground application of pesticides. 12931

Spray schedule for diseases and insects of cane fruits. 13233

Sidedress applications of union carbide UC-21149 for control of overwintered boll weevils. 13305

Treating individual trees with Dybar. 13474

Some effects of annual applications of N-dimethylaminosuccinamic acid (Alar) to apples. 13481

Combinations . 13504

Pest and disease control is more than simply putting on a spray. 13748

Ways to kill more weeds when you plant. 13903

Weed control in seed alfalfa. 13904

Application of the herbicide 2,4-D in summer wheat crops. rakitin, y v mikhailova, t p. 13905

Detoxification of 2,4-D in plants depending upon the peculiarities of its application. 14089

Cessna introduces Agwagon-A. 14113

Physiological genetics of melanotic tumors in Drosophila melanogaster. VI. The tumorigenic effects of juvenile hormone-like substances. 14190

Effect of the venom of the black widow spider, Latrodectus mactans tredecimguttatus, on evoked action potentials in the isolated nerve cord of Periplaneta americana. 14195

Puff forming ability as a function of chromosomal position in Drosophila melanogaster . 14284

Developmental trends in the chemical control of weeds in beets. 14536

Guidelines for evaluating the properties of pesticides for safe use in the wildlife environment. 14652

Selection, adjustment, and care of spraying and dusting equipment. 14943

Tests with certain herbicides against weeds in field beans. 15102

Application of granulated herbicides in shelter plantations. 15111

Competition between Coriandrum sativum seedlings and weeds under prometrin application at two different NPK and pH levels. 15137

Quelea control-Farmer devises effective spraying technique. 15154

Results of herbicide application to Coriandrum sativum L. cultures and analysis of herbicidal residues in the fruit. 15243

Major step toward zero chemical drift. 15302

Sprayer calibration and nozzle selection charts. 15304

Present situation and tendencies of development in the technique of plant protection. 15306

Methods of application for the use of liquid products in soil fumigation. 15457

The application technique of granulated soil fumigants. 15458

Economic application of pesticides in glasshouses. 15461

Ornamental and floral crops disease control. 15469

Strawberry disease control. 15484

Vegetable seed treatment. 15502

Vegetable crop spray and dust schedule for disease control. 15504

Combined application of leaf fertilizers and fungicides. 15576

Vorlex for plastic greenhouse soil fumigation. 15607

Peanut diseases. Leafspot control. 15608

Apple spray program. 15634

Nematode control in woody ornamentals. 15693

The poisoner's primer. caused by a cytoplasmic virus Smithiavirus pithyocampae Vag.. 15759

Sweet potato storage house sterilization. 15834

PESTICIDE MIXTURES

Control of dandelion and spotted-spurge in lawn turf with herbicides. 8423

The response of brush to picloram, dicamba, 2,3,6-TBA and phenoxy herbicides. 8435

Weed control in sugar beets with preemergence herbicides. 8436

Effect of several herbicides on flower production, growth and weed control in marigolds. 8590

PESTICIDE MONITORING PROGRAM

Report on pesticide formulations. 9220

Pesticides residues control. 15247

Some aspects of marketing pesticides in Gujarat state. 15655

PESTICIDE RESIDUAL ACTIVITY

New possibilities for the control of parasitic plant nematodes with fensulfothion. 13338

PESTICIDE RESIDUES

Pesticide usage in relation to beekeeping. 8075

Determination of pesticides in water by microcoulometric gas chromatography after liquid-liquid extraction. 8530

Pesticide residues in food. 8535

Tolerances of three species of anuran amphibians to five chlorinated hydrocarbon insecticides. 8541

Pesticide residues in a marine population of double-crested cormorants. 8545

Improved extraction of chlorinated hydrocarbon pesticides from animal tissues. 8547

Residues of DDT and it's derivatives in the fat tissues of some market animals. 8554

Residuals of pesticides in cultivated mushrooms. 8556

DDT reduces photosynthesis by marine phytoplankton. 8557

Structure-activity and metabolism studies on organophosphate teratogens and their alleviating agents in developing hen eggs with special emphasis on Bidrin. 8572

Modification of the carbon disulfide evolution method for dithiocarbamate residues. 8604

Indoxyl acetate spray reagent for fluorogenic detection of cholinesterase inhibitors in environmental samples. 8607

The control of technology. solandt, o m. 8615

An appraisal of high, medium and low volume methods of spray application. 8722

Trithion-a new acaricide. 8814

Charcoal diet for cattle. 9146

The gas chromatographic examination of organophosphorus pesticides. IV. The effect of cooking on organophosphorus pesticide residues. 9147

Recovery of 65 organophosphorus pesticides from Florisil with a new solvent elution system. 9148

Notice of filing of petition regarding pesticide chemicals. 9150

Notice of filing of petition regarding pesticide chemicals. 9151

Modification of the carbon disulfide evolution method for dithiocarbamate residues. 9154

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. p-Chlorophenyl-2,4,5-trichlorophenyl sulfide. 9155

Alkaline pre-column for use in gas chromatographic pesticide residue analysis. 9156

Residue analysis in the dairy industry. in Zwig, Analytical methods for pesticides, plant growth regulators, and food additives. vol. 1. principles, methods, and general application. 9157

Acetonitrile extraction and determination of carbaryl in fruits and vegetables. 9158

Indoxyl acetate spray reagent for fluorogenic detection of cholinesterase inhibitors in environmental samples. 9159

Gas chromatographic determination of residues of dimethoate and its oxygen analog in field-sprayed kale. 9162

Charcoal column cleanup method for many organophosphorus pesticide residues in crop extracts. 9163

Comparison of four extraction and cleanup procedures for chlorinated pesticide residues in eggs. 9164

Respiratory exposure of dairy animals to pesticides. 9165

DDT residues and declining reproduction in Bermuda petrel. 9166

Pesticide residues in foods in relation to human health. 9170

Report on carbamate pesticides. 9217

IUPAC commission on the development, improvement, and standardization of methods of pesticide residue analysis. 9224

Report on multiple residue methods. 9233

Bratton-Marshall reagent for the detection of substituted urea herbicides and metabolites on TLC plates. 9240

It's tough to pinpoint residue content. 9242

A comparison of the effect of diazinon, chlorfenvinphos and of Bayer 37289 against the cabbage fly. 9466

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O,O-diethyl O-(2-isopropyl-4-methyl-6-pyrimidinyl) phosphorothioate. 9532

Crop seedling uptake of DDT, dieldrin, endrin, and heptachlor from soils. 9663

Gas chromatographic analysis of ciba C-9491 (O-(2,5-dichloro-4-iodophenyl)O,O-dimethyl phosphorothioate), its oxygen analog, and its phenolic hydrolysis product in sweet corn and milk. 9785

Notice of filing of petition regarding pesticide chemicals. 9786

Notice of filing of petition regarding pesticide chemicals. 9787

Notice of filing of petition regarding pesticide chemicals. 9788

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Norea. 9789

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O,O-dimethyl S-(4-oxo-1,2,3-benzotriazin-3(4H)-ylmethyl) phosphorodithioate. 9790

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 2-(p-tertbutylphenoxy)cyclohexyl 2-propynyl sulfite. 9791

Notice of filing of petition for food additive buquinolate. 9792

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 2-ethylamino-4-isopropylamino-6-methylthio-s-triazine. 9795

Colorimetric methods for determination of simazine and related chloro-s-triazines. 9800

Inhibition of beef liver hydrolytic enzymes by organophosphorus pesticides. Quantal inhibition characteristics of several organophosphorus compounds, using o-nitrophenyl butyrate as substrate. 9801

Chromatographic determination of 4-trifluoromethyl-2,4-dinitrodiphenyl ether residues in soybeans. 9802

Heterogeneity values of insecticide, fungicide or herbicide deposits and of their residues. 9853

Determination of terbacil residues using microcoulometric gas chromatography. 9855

Spray droplet size in the control of spruce budworm, boll weevil, bollworm and cabbage looper. 10247

Surface hydrology and pesticides. 10392

Research on pollution of crops, soil and shallow bodies of water in Liguria, through residues of some organochlorinated pesticides. 10395

Potentials for removing pesticides from water. 10396

Pesticides and clay minerals. 10397

Movement of pesticides in the soil. 10398

Influence of pesticides on soil microbes and soil properties. 10400

Pesticide residues in the ecosystem. 10407

Industry's concern with pesticide residues. 10411

Modifications of the micromethod of sample cleanup for thin-layer and gas chromatographic separation and determination of common organic pesticide residues. 10413

Activation and standardization of purified silica gel for column chromatographic cleanup of pesticide residue extracts. 10414

Analysis of grains for multiple residues of organic fumigants. 10416

Methods of determining pesticides in food products. (JPRS 34,946). 10418

Structure of pesticides and decomposition by soil microorganisms. 10427

Volatile metabolites from dimethyldithiocarbamate fungicide residues. 10441

Extraction and gas-liquid chromatographic determination of vernolate in soil. 10467

Reactions of pesticides in soils. 10468

Analysis of multiple pesticide residues--chemical identity and confirmation of results. 10473

Acetonitrile extraction and determination of carbaryl in fruits and vegetables. 10475

Control of small-fruit pests and diseases 1967. 10719

Pesticide residues in human tissue. 10928

Notice of filing of petition regarding pesticide chemicals. 10933

Pesticide residues in wildlife. 10934

OECD study of organochlorine pesticide residues in terrestrial and aquatic wildlife. 10935

Estimation of dichlofluanid residues. 10936

The use of Tetrahymena pyriformis Ehren. for the detection of residues of organic fungicides. 10937

Occurrence and significance of pesticide residues in water. 11665

A specific gas chromatographic method for residues of organic nitrogen pesticides. 11667

Rapid methods of extraction and cleanup in pesticide residue analysis. 11668

Pesticide regulations and residue problems in Japan. 11670

Chlorinated hydrocarbons as residues in foods. 11673

Potential interferences in certain pesticide residue analyses from organochlorine compounds occurring naturally in plants. 11694

A screening method for organochlorine pesticide residues using thin-layer chromatography. 11703

Expanded utility of the Beilstein flame test for organically bound halogens as a sensitive and specific flame photometric detector in the gas chromatographic determination of R-X compounds as illustrated with organochlorine pesticides. 11709

Pesticides removed from water with activated carbon. 12208

Notice of filing of petition regarding pesticide chemicals. 12215

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Insecticide mixture. 12217

N'-(4-chloro-o-tolyl)-N,N-dimethylformamidine. Notice of establishment of temporary tolerance for pesticide chemicals. 12218

Effects of simazine alone and in combination with hay or plastic mulch on McIntosh apple trees and accumulation of simazine residues. 12219

Persistence of dichlobenil an SD-7961 in soil. 12739

Pesticides residues in foodstuffs in Great Britain. VI. - Mercury residues in rice. 12892

Mosquito control by predator fish. 13015

Physical aspects of soil in relation to the action of soil fungicides. 13254

Stability and effects of some pesticides in soil. 13434

Statistical examination of a rapid method for the determination of chlorinated hydrocarbon residues in human blood. 13435

Cyclodiene chemistry. I. Derivative formation for the identification of heptachlor, heptachlor epoxide, cis-Chlordane, trans-Chlordane, and aldrin pesticide residues by gas chromatography. 13437

Cyclodiene chemistry. II. Identification of the derivatives employed in the confirmation of heptachlor, heptachlor epoxide, cis-Chlordane, and trans-Chlordane residues. 13438

Infrared, ultraviolet, and visible spectrophotometric determination Imidan in animal dips and sprays. 13439

Determination of 2-Nitropropanol residues in cottonseed. 13441

Pesticide quest: residue surveys and tolerances. 13442

Determination of ethylene chlorohydrin, ethylene dibromide and other volatile fumigant residues in flour and whole wheat. 13443

Note on a two-dimensional thin layer chromatographic technique for identification of pesticide residues in troublesome samples.
13445

Gas-liquid chromatography of pesticides on OV-17 stationary phase.
13449

Dry ashing method for the determination of total arsenic in poultry tissues.
13450

GLC determination of DDVP extracted or vacuum-trapped from PVC resin formulations.
13451

Cholinesterase inhibition autoanalysis of insecticidal organophosphates and carbamates.
13453

Ultraviolet determination of strychnine in commercial bait formulations.
13454

Bases for the toxicological evaluation of pesticide residues and establishment of tolerances in food.
13456

Polarographic analysis of s-triazine herbicides.
13505

The pesticide problem in developing countries.
13526

Common Market approaches to harmonization of food laws in the field of pesticide residues.
14046

Determination of dicofol (Kelthane) residues in fruits and vegetables.
14047

Extraction procedures for DDT residues in firm fruits and in hay: Colorimetric method.
14059

Advances in gas chromatographic detectors illustrated from applications to pesticide residue evaluations.
14112

Plictran miticide-New approach to mite control.
14202

Economic effect and control of wood-boring insects in fruit trees.
14329

Guidelines for evaluating the properties of pesticides for safe use in the wildlife environment.
14652

Notice of withdrawal of petition regarding pesticides.
14654

Systemic activity of zectran, matacil and bidrin injected into conifer trunks.
14656

2,4-D,to ripen tobacco may be detriment to producer and industry.
14688

The Regulation of Pesticides in the United States.
14705

Plant protection chemical residues and food consumption.
14706

Experiments on chemical weep control in spice and pharmaceutical plants.
15105

Herbicide residues in plants and soils.
15234

Possibilities of application of the ring-oven technique in the determination of pesticides residues.
15236

DDT and DDE in human milk.
15238

Bird mortality by chlorinated hydrocarbon pesticides.
15240

Pesticides residues control.
15247

A new method for clean-up of chlorinated pesticide residues in meat, meat products, fats and oils.
15248

Studies on some chlorinated hydrocarbon residues in potato tubers harvested in 1965--1966.
15249

Speed disappearance of DDVP/DICHLORVOS/ in dependence from the pesticide formulation.
15251

The significance of pesticide residues on human life.
15253

Practical remarks on the methods of extraction and determination of DDT, BHC and methoxychlor residues in biological material.
15255

Electron capture detector with the use of 90 Sr intended for the determination of some pesticides in gas--liquid chromatography.
15256

Influence of relative soil moisture upon evolution of chemical soil fumigants.
15257

Results of determinations of chlorinated hydrocarbons residues in apples.
15258

Studies upon the residues of di-systone in potato tubers and some vegetables.
15259

Identification and determination of organomercurial fungicide residues by thin-layer and gas chromatography.
15594

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 2-Chloroally Diethyldithiocarbamate.
15647

Some chronic effects of diuron on bluegills.
15723

Degradation of atrazine in four Hawaiian soils.
15725

Movement and persistence of picloram in pasture soils of Nebraska.
15732

Azinphos-ethyl residues on field grown tomatoes.
15857

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Certain surfactants in pesticide formulations; extension of time for filing comments on proposal to exempt from requirement of tolerances.
15863

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Streptomycin.
15871

Weed control.
15884

The method for the inhibition of cholinesterases as applied to the determination of agricultural pesticide residues.
15912

PESTICIDE SAFETY
The control of technology. solandt, o m.
8615

PESTICIDE SYNERGISTS
Phytotoxic synergism with soil applied herbicide-insecticide combinations. (abstract).
11016

The need for pesticides. II.
13457

PESTICIDES
Pesticide usage in relation to beekeeping.
8075

Methods of controlling bacteria, fungi, nematodes and weed pests with tetrahalohydroxybenzamides. Patent 3,459,534.
8277

Ethylene dibromide: a potent pesticide with high motagenic activity.
8302

Improved extraction of chlorinated hydrocarbon pesticides from animal tissues.
8547

Methods for stabilizing pesticidal compositions of 2-alkoxycarbonylaminobenzimidazolecarboxylic esters. Patent 3,454,700.
8600

Process for the manufacture of a pesticide from petroleum hydrocarbons. Patent 3,454,664.
8609

The Gold Crest Pest Control Program for the pest control industry.
8614

Control of equine piroplasmosis in Florida.
9065

Charcoal diet for cattle.
9146

Mechanisms of pesticide interactions in vertebrates.
9177

Growth response of turfgrasses to several herbicides.
9211

Report on carbamate pesticides.
9217

Report on pesticide formulations.
9220

Experimental approaches to pesticide photodecomposition.
9221

Rubidium sulfate flame detector: Effect of design of alkali source and anode on sensitivity and stability.
9222

Fluorometric determination of pesticides.
9229

Report on phosphated pesticides.
9236

Photochemical degradation products of pentachlorophenol.
9237

Gas chromatography of organophosphorus pesticides: Retention times and response data on three columns.
9244

An experimental pesticide dust-metering unit.
9246

Plant protection under strict controls.
9529

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O,O-diethyl O-(2-isopropyl-4-methyl-6-pyrimidinyl) phosphorothioate.
9532

Commercial vegetable insect control.
9633

Home orchard pest control.
9643

Notice of filing of petition regarding pesticide chemicals.
9787

Notice of filing of petition regarding pesticide chemicals.
9788

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Norea.
9789

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O,O-dimethyl S-(4-oxo-1,2,3-benzotriazin-3(4H)-ylmethyl) phosphorodithioate.
9790

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 2-(p-tertbutylphenoxy)cyclohexyl 2-propynyl sulfite.
9791

Notice of withdrawal of petition regarding pesticides.
9794

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 2-ethylamino-4-isopropylamino-6-methylthio-s-triazine.
9795

Food additives permitted in food for human consumption. Adjuvants for pesticide use dilutions.
9797

Organophosphorus poisoning. Diagnosis of poisoning in pheasants owing to a number of common pesticides.
9806

Degradation of organochlorine pesticides with special reference to 1,1-bis(4-Chlorophenyl)-2, 2-dichloroethylene. (abstract).
9850

Cyclic dicarboximido-substituted phosphonothioates. Patent 3,450,713.
9856

Influence of pesticides and fertilizers on the behaviour of phytophagous mites in orchards and under laboratory conditions.
10065

Pesticides and plows.
10167

Chemical preparations in the services of agriculture and forestry.
10169

Surface hydrology and pesticides.
10392

Potentials for removing pesticides from water.
10396

Pesticides and clay minerals.
10397

Biodegradation of pesticides.
10422

Endrin induced alterations in bound carbohydrates in rat serum.
10423

Pesticide effect on phosphorus absorption from fertilizer-pesticide mixture applied to a tropical soil with low available phosphorus value.
10445

Physico-chemical and biophysical factors affecting the activity of pesticides.
10462

Reactions of pesticides in soils.
10468

Review of methods for mercury in pesticide formulations.
10469

Note on versatility of silicone Dow Corning 11 substrate for gas chromatography of pesticides.
10482

Research and education needs in the use of pesticides.
10486

Plant sciences and crop husbandry, research report, 1967.
10586

The use of chloropicrin for soil disinfection.
10592

Control of small-fruit pests and diseases 1967.
10719

Pollutional aspects of pesticides in natural streams.
10926

OECD study of organochlorine pesticide residues in terrestrial and aquatic wildlife.
10935

Estrogenic action of DDT and its analogs. (Abstract).
10949

Studies on the anticholinesterase effects of methyl parathion, guthion, dichlorovos, and Gardona in human subjects. (Abstract).
10952

Interaction effects of pesticide combinations on four plants. (Abstract).
10972

Analysis of commercial pesticides.
11056

Method of controlling pests with mercury compounds. Patent 3,443,013.
11059

A contribution to the knowledge of the characteristics of barium polysulfide.
11070

Some principles of the selection of the synergists for organophosphorous pesticides.
11072

Control of pathogenic organisms with halogenated phenoxycyclopentenones. Patent 3,443,016.
11079

Forest pathology.
11455

Some rodenticidal properties of coomatetralyl.
11661

Determination of organophosphorus pesticides in water.
11666

Rapid methods of extraction and cleanup in pesticide residue analysis.
11668

Synthesis and pesticidal activity of phenazines II.--ALKYL, alkoxy, alkylthio and alkylsulphonyl phenazines.
11707

Locusts march on 40 countries. Millions emerge from desert sands.
11867

Now is the time to control brown rot.
12012

Gonadotropic hormones in hens treated with ethylene dibromide.
12222

Automated differential screening method for organophosphorus pesticides.
12268

A screening method for organochlorine pesticide residues using thin-layer chromatography.
12302

Pesticides.
12305

Persistance of CIPC in soil treated with methylcarbamate pesticides. (Abstract).
12312

Compositions containing organotin metal carboxylate antimicrobials.
12921

Ground application of pesticides.
12931

Be alert to pesticide use changes.
12935

Integrated control of insects.
13325

Distribution and fate of C14-Hexachlorophene in liver flukes (Fasciola hepatica L.).
13420

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 2-chloro2',6'-diethyl-N-(methoxymethyl) acetanilide.
13446

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O-Ethyl S,S-dipropylphosphorodithioate.
13447

Biological concentration of pesticides by algae.
13452

The need for pesticides. II.
13457

Recommended analytical methods for pesticides. 41. Ferbam in mixed formulations.
13500

Note on nomenclature of dieldrin and related compounds.
13501

Bibliography of paper and thin-layer chromatography 1961--1965 and survey of applications.
13511

Identification of organophosphate pesticides by gas chromatography with the flame photometric detector.
13517

The pesticide problem in developing countries.
13526

Protection of apples against diseases and pests, and the value of some pesticides.
13747

Trials with pesticides against red mites--Raoliella indica Hirst in Kerala.
13852

Zebra fish eggs and larvae as aflatoxin bioassay test organisms.
14060

The interaction of pesticides with other factors.
14063

Trends in studies on insect natural enemies and the future problems concerned.
14271

Cost of effective plant protection in the field, the garden, and the vineyard.
14307

The pesticide review, 1968.
14321

Isolation of Toxoplasma gondii from swine and cattle. following pesticide treatments.
14558

Guidelines for evaluating the properties of pesticides for safe use in the wildlife environment.
14652

Discoloration of chlorella cells treated with several pesticides- utilization of chlorella cells for the study of pesticides.
14693

Stability and effects of some pesticides in soil.
14697

'Reduced volume' by how much Why Actual state of affairs.
14699

The Regulation of Pesticides in the United States.
14705

Ministry of Overseas Development, Tropical Pesticides Research Unit, annual report.
14708

Ecology of plant protection products, a most important task of environmental research on the international level.
14912

Arsenic: Science or superstition.
15156

Determination of chlorinated hydrocarbons in fats of men not professionally in contact with pesticides.
15246

Speed disappearance of DDVP/DICHLORVOS/ in dependence from the pesticide formulation.
15251

Degradation of organophosphates by fish liver phosphatases.
15265

Influence of some pesticides on various sources of yeast.
15477

Winter necrosis of peach twigs. Experimental reproduction following pesticide treatments.
15641

The reaction of different Drosophila populations to treatment with pesticides.
15671

German forest-protection literature 1965/66. III. Defensive mass protection against animal pests.
15760

Pesticide levels in fish of the Northeast Pacific stout, v f.
15850

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Food additives 2,2-dichlorovinyl dimethyl phosphate.
15858

Tolerances and exemptions from tolerances for pesticides chemicals in or on raw agricultural commodities. O,Odiethyl S-2-(ethylthio)ethyl phosphorodithioate.
15859

Notice of filing of petition regarding pesticide chemical.
15860

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Certain surfactants in pesticide formulations; extension of time for filing comments on proposal to exempt from requirement of tolerances. 15863

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O,O-Dimethyl S-(4-Oxo-1,2,3-Benzotriazin-3(4H)-ylmethyl) Phosphorodithioate. 15865

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities, Malathion. 15868

Automation of pesticide analysis. 15909

Rapid microdetection of organochlorine pesticides in submilligram fish tissue samples. 15915

The TAS-METHOD for rapid separation of pesticides and preservatives. 15916

Regulations for the enforcement of the federal insecticde, fungicide, and rodenticide act. Pesticides containing sodium arsenite and arsenic trioxide compounds. 15923

PETALIUM

Notes on heetles (Coleoptera). 13548

PETKOLIN

Ovicidal and larvicidal actions of Petkolin against red spider mites (Acarina: Tetranychidae). 9618

PETROBIA LATENS

Further records of the distribution of Petrobia latens (Muller) (Acarina: Tetranychidae), a pest of wheat in India together with the description of a new species of predatory mites on the same. 9920

PETROLATUM

White root disease of Hevea in Africa, especially in the Ivory Coast. 12598

Stem canker. I. Observations on knobby second growth. 15478

PETROLEUM

Fish losses after forest sprayings with insecticides in New Brunswick, 1952-62, as shown by caged specimens and other observations. 8567

Process for the manufacture of a pesticide from petroleum hydrocarbons. Patent 3,454,664. 8609

Comparison of white gasoline and n-heptane for recovery of insect fragments and rodent hairs from food products. 9142

Studies on effects of forest sprayings with insecticides, 1952-63, on fish and aquatic invertebrates in New Brunswick streams: Introduction and summary. 9144

Comparison of the effect of old and new, individual and mixed, anti coccoidea preparations used against the San Jose scale. 10527

Tests on the control of the white peach scale (P-seudaulacaspis pentagona Targ.). 10529

Growth and production of pickling cucumbers as influenced by petroleum mulch and chemical treatments at planting. 13494

PETS

Dermatophytes in veterinary practice. 12795

The evolution of the anti-rabies vaccines for domestic animals. 15166

PETUNIA

Possibilities of freeing chrysanthemums from mosaic and aspermy viruses. 15496

PETUNIA HYBRIDA

Chrysanthemum aspermy virus, symptoms and diagnostic. 15495

PHACIDIOPYCNIS FURFURACEA

The fungal diseases of pears and apples during storage. I. General aspects. 15835

PHAENICIA

Studies on the behaviour of Lucilia illustris Meigen as a parasite of vertebrates under experimental conditions. 8103

Fly and economic evaluation of urban refuse systems. I. Control of green blow flies (Phaenicia) by improved methods of residential refuse storage and collection. 14031

Fly larval migration from residential refuse containers in the city of Fresno. 14033

PHAENICIA CUPRINA

Changes in nitrogenous compounds during the metamorphosis of the blowfly, Lucilia cuprina. 8086

Pheromone-mediated behaviour leading to group oviposition in the blowfly Lucilia cuprina. 9354

In vitro fatty acid oxidation by developing tissues in the adult of the blowfly, flucilia. 11803

Mitochondrial oxidations of fatty acids in the blowfly, Lucilia. 13621

New record of Entomophthora sp. parasitic on Rhopalosiphum maidis (Fitch) and Lucilia cuprina (Widemann). 14849

PHAENICIA SERICATA

Dieldrin resistance in Lucilia sericata (Meig) from Co. Dublin, Eire. 8188

The effect of two host species on the longevity and fertility of Nasonia vitripennis. 9472

Incorporation of glucose-U-C14 into lipids of the blowfly during flight. 11859

PHAEOTRICHOCONIS CROTALARIAE

On Phaeotrichoconis crotalariae occurring on Marsilea quadrifoliata in India. 12649

PHAGOCYTES

Behavior of Brucella abortus in phagocytes. 13959

PHAGOCYTOSIS

Acarine molting-the migration of hemocytes through the epidermis of Caloglyphus berlesei. 11841

PHALAENOIDES GLYCINAE

Pests of the grapevine. 14485

PHALAENOPSIS

Investigations concerning a root rot on Phalaenopsis hybrids and its causative agent (Fusarium oxysporum). 14363

PHALANGIDA

Remarks on the morphology of some rare palearctic Opilonids (Opilionidea). 9470

PHALARIS ARUNDINACEA

Control of reed canarygrass along irrigation canals. (Abstract). 10783

The drumming of the Plecoptera (Insecta). 11875

PHALARIS TUBEROSA

Control of the biennial thistle, Onopordum, by amitrole and five perennial grasses. 10798

PHANEROTOMA

A new Phanerotoma species from Syria (Hymenoptera, Braconidae). 8034

PHARMACOLOGY

Antibacterial composition containing 5-nitro-2-furyl-1,2,4-triazoles. Patent 3,427,387. 9218

MCD-PEPTIDE from bee venom: Isolation, biochemical and pharmacological properties. 9804

Pharmacologically active new substituted benzamides. Patent 3,432,549. 9852

Some pharmalogical actions of 2-(Beta-methoxyethyl) pyridine (active product of the anthelmintic for ruminants Promintic (ICI)). 15241

Considerations of the pharmacology and toxicology of the poison of Bufo paracnemis Lutz. 15269

The pharmacokinetics of HEOD (Dieldrin) in the rat. 15815

PHARYNGEAL GLANDS

The contents of the pharyngeal glands of the ant Messor capitatus Latr. (Insecta, Hymenoptera, Formicidae). 11226

PHARYNX

Vaccinated cattle.....can harbor foot and mouth disease. 10331

The sensory cells of the hypopharyngeal organ of Blabera craniifer Burm. (Insecta, Dictyoptera). Study of the ciliary segment and the connected structures. 10554

Anatomic studies on the hypopharynx of Forficula auricularia L. (Insecta, Dermaptera): Teguments, musculature, sense organs, and innervations. Morphologic interpretation. 14856

PHASE-CONTRAST MICROSCOPY

Characterization of Mycoplasma pulmonis variants isolated from rabbits. I. Identification and properties of isolates. 12762

Further description of a subline of Grace's mosquito (Aedes aegypti L.) cells adapted to hemolymph-free medium. 15378

PHASMATIDAE

Homograft of the tarsus into the place of the eye in the phasmid Sipyloidea sipylus W. 8888

The defensive behaviour of the stick insect Oncotophasma martini (Griffini) (Orthoptera: Phasmatidae). 10103

Caffeine-induced activation of contraction in stick insect skeletal muscle. 13636

Study of the phenomena resulting from putting in competition the different regeneration areas of the antennae of the phasmid Sipyloidea sipylus Westwood. 14886

PHEASANTS

Repelling pheasants from sprouting corn with a carbamate insecticide. 8443

Seed dressings and game birds. 8444

Dieldrin effects in two generations of penned hen pheasants. 8537

B parathiphosis of young pheasants. 9744

Organophosphorus poisoning. Some properties of avian esterases. 9805

Organophosphorus poisoning. Diagnosis of poisoning in pheasants owing to a number of common pesticides. 9806

Vaccination against syngamosis in chicks, young pheasants and turkey-poults.
14028

Repelling pheasants from sprouting corn with a carbamate insecticide.
14337

PHEIDOLE MEGACEPHALA
The coffee root mealybug complex.
10711

PHENACASPIS PINIFOLIAE
Seasonal history of a unisexual population of the pine needle scale, Phenacaspis pinifoliae.
8870

PHENOLASES
Polyphenoloxidase activity in bacterially induced graywall of tomato fruit.
11978

Phenol oxidase characteristics in mutants of Drosophila melanogaster.
13093

Further experiments on the glass tube method to control degeneration of potatoes.
15593

PHENOLS
Long-chain bisphenol esters. Patent 3,427,345.
9232

Metabolism of 2,2-dimethyl-2,3-dihydrobenzofuranyl-7 Nmethylcarbamate (Furadan) in plants, insects, and mammals.
9424

The cockroach integument: Pas-positive granules and their possible relationship with phenol storage.
9492

Gas chromatographic analysis of ciba C-9491 (O-(2,5-dichloro-4-iodophenyl)O,O-dimethyl phosphorothioate), its oxygen analog, and its phenolic hydrolysis product in sweet corn and milk.
9785

The correlation between physiological activity and physiocochemical property of the substituted phenols.
10437

Endogenous growth regulating factors in bark of EM IX and XVI apple trees.
11009

Studies on hypertrophic disease of cherry (genus Prunus), so-called witch's broom caused by Taphrina wiesneri. Ii On the phenolic acids and their related compounds, especially on melilotic acid in infected Japanese flowering cherry leaves.
11968

On the function of the phenol oxydases of wood-rotting fungi.
12284

Phenoxy pyridines as herbicides. Patent 3,429,689.
12307

Factors affecting the systemic antifungal activity of some chemically related compounds.
13252

Polyphenols and discoloration in the elm disease investigated by histochemical techniques.
14361

Fungitoxic action of higher alkyl compounds. I. Mechanism of fungitoxic action of alkylphenols.
14665

Qualitative development of certain phenolic substances during a decrease in the phenomenon of hypersensitivity to tobacco mosaic virus in Nicotiana Xanthi n. c.
15907

PHENOTHIAZINE
Wormal granules and wormal tablets. Drugs for veterinary use - drug efficacy study implementation.
12197

Comparative anthelmintic efficiencies of parbendazole, thiabendazole, and phenothiazine in lambs.
14630

Nematodirosis in sheep and its present treatment.
15205

Activity of three anthelmintics against mixed infections of two Trichostrongylus species in gerbils, sheep, and goats.
15216

PHENOXY ACID
Pre-emergence application of 2,4-D-ester to wheat (Triticum vulgare).
14534

PHENOXY ACID COMPOUNDS
Grain aphids in New brunswick. IV. Effects of malathion and 2,4-D amine on aphid populations and on yields of oats and barley.
8320

Control and elimination of noxious weeds.
8404

Chemical weed control in crops.
8427

Note on the determination of some chlorophenoxy herbicides and their esters in water.
8598

Legal aspects of crop spraying.
9398

The economic and horticultural aspects of growing macadamia nuts commercially in Hawaii.
9530

Toxicologico-hygienic characteristics of the amine salt of 2,4-D (Literature survey).
9818

Response of ironweed and buckbrush to herbicides and to herbicides in combinations with mowing, nitrogen fertilizer, and surfactants.
10303

Winged elm control with picloram and 2,4,5-T with additives (Abstract).
10777

Intercellular movement of C14 in Chara vulgaris, a nonvascular aquatic plant. (Abstract).
10778

Greenhouse studies with hygroscopic compounds as additives to phenoxy herbicides for control of saltcedar (Tamarix pentandra Pall.). (Abstract).
10785

An economical control method for vegetation in drainage canals. (Abstract).
10788

Control of winged elm (Ulmus alata Michx.). (Abstract).
10789

Aquatic weed control.
10802

Control of broad-leaf dock (Rumex obtusifolius).
10803

Control of soft rush (Juncus effusus).
10805

Absorption and translocation of 2,4-D-2-C14 by wolftail (Carex cherokeensis Schwein). (Abstract).
10965

Comparison of radioisotopic and gas chromatographic methods for measuring absorption and translocation of 2,4,5-T by mesquite. (Abstract).
11015

Control of pathogenic organisms with halogenated phenoxycyclopentenones. Patent 3,443,016.
11079

Herbicide combinations. (Abstract).
11094

What's new in farm chemicals.
11975

New cactus weed danger in Natal.
12095

Soybeans: What to do after pre-emergence.
12099

Herbicides have little effect on plant-animal relationships.
12212

Horticulturists study - effects of long-term exposure to 2,4-D.
12232

Evaluation of post-emergence herbicides in the greenhouse. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966.
12295

Practical implications of insecticide resistance in culicine mosquitoes.
12509

Woody plant shoot management and response to herbicidal treatment.
12745

Grain aphids in New Brunswick. IV. Effects of malathion and 2,4-D amine on aphid populations and on yields of oats and barley.
13297

Degradation of 2,4,5-trichlorophenoxyacetic acid in woody plants.
13344

Recommendations for weed control in cereal crops.
13347

How you can control weeds in rapeseed.
13362

Application of the herbicide 2,4-D in summer wheat crops. rakitin, y v mikhailova, t p.
13905

Detoxification of 2,4-D in plants depending upon the peculiarities of its application.
14089

Role of 2,4-dichlorophenoxyacetic acid and of myo-inositol in the formation of the callus on excised roots of Solanum laciniatum Ait.
14090

Development of corn-growing along the Rhein through use of growth producing herbicides.
14523

Corn daisies and their control.
14527

Effect of herbicides used for wild cane control in corn on subsequent oat yields.
15057

Chemical and mechanical control of wild cane in corn.
15060

Selective control of Matricaria maritima var. agrestic (false chamomile) by different herbicides.
15066

Use of Butyrics.
15096

The problem of finding a precise application method for the herbicides MCPA and 2,4-D on summer barley.
15101

Control of plumeless thistle.
15107

Time of herbicide and fertilizer applications in relation to herbicide-induced damage to smooth bromegrass.
15108

Leafy spurge control demonstrations in North Dakota.
15117

Chemical control of scentless chamomile.
15118

Picloram, dicamba and 2,4-D to control field bindweed.
15119

Effect of herbicides on control of wild cane in irrigated corn.
15126

Chemical weed control in pasture, range and hayland.
15129

Control of Sonchus arvensis (perennial sowthistle).
15142

Studies on the effect of plant growth regulators on the rooting of air layers of Dareaena rosca-ferrea L.
15279

The influence of dikotex on the content of some free amino acids and all of the nitrogen in summer barley plants. 15283

Absorption and translocation of 2,4D by wolftail (Carex cherokeensis Schwein). 15702

New method of injecting herbicides for weed control in corn and soybeans. 15731

PHENOXYACETIC ACID
Evaluation of post-emergence herbicides in the greenhouse. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 12295

Note concerning several new herbicides from the German Democratic Republic. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 12314

PHENOXYACETIC ACID COMPOUNDS
Comparison of the movement and vascular differentiation effects of the endogenous auxin and of phenoxyacetic weedkillers in stems and petioles of Colens and Phaseolus. 9197

PHENOXYACETIC ACIDS
The strategy of finding fungicides. 8959

PHENOXYALKANOIC ACIDS
Thin-layer chromatographic identification of the active ingredients of mixed herbicide formulations. 13499

PHENOXYBUTYRIC ACID
Note concerning several new herbicides from the German Democratic Republic. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 12314

PHENOXYPROPIONIC ACID
Note concerning several new herbicides from the German Democratic Republic. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 12314

PHENTHOATE
Gas chromatographic determination of ethyl O,O-dimethyl-dithiophosphoryl-l-phenyl acetate in technical grade cidial and its 50 percent liquid formulation. 9216

Gas chromatographic determination of ethyl O,O-dimethyldithiophosphoryl-1-phenyl acetate in technical grade cidial and its 50 percent liquid formulation. 10457

Further chemical control tests against Paranthrene tabaniformis Rott. 14811

PHENYL N,N'-DIMETHYLPHOSPHORODIAMIDATE
The fate of phenyl N,N'-dimethylphosphordiamidate in soil. 10401

PHENYL-4-AMINO-5-CHLOROPHYRIDAZONE-6, 1-
The effect of the herbicide burex on the total nitrogen content and on the technological quality of sugar beet. 11053

PHENYLALANINE
Phenylalanine induced enhancement of drosopterin formation in the eye color mutant or66k (orange) of Drosophila melanogaster. 8187

Biochemical composition of plants of Cucurbita foetidissima HBK. and Cucumis melo L. as related to cucumber beetle feeding. 10712

Metabolism of aromatic compounds in healthy and rust-infected primary leaves of wheat. II. Studies with l-phenylalanine-U-14C, l-tyrosine-U-14C, and ferulate-U-14C. 14676

PHENYLCARBAMATES
Insecticidal activity of substituted phenyl N-methylcarbamates. 15651

PHENYLHYDRAZINE
Controlling effect of phenylhydrazine derivatives on rice blast in relation to the structural modifications. 14402

PHENYLMERCURIC ACETATE
Piricularia oryzae, a problem common to rice growing countries. 8282

Sensitivity of Rhizobium species to certain fungicides. 8933

The control of black rot cankers on apple trees in New Hampshire. 10656

Antitranspirants: Uses and effects on plant life. 12248

Controlling effect of pentachlorobenzyl alcohol on rice blast. 14692

PHENYLMERCURIC COMPOUNDS
On the fungicidal action of phenylmercuric compounds. 8961

Sweet potato plant treatment. 15560

Sweet potato plant treatment. 15561

PHENYLUREA COMPOUNDS
The reaction of different Drosophila populations to treatment with pesticides. 15671

PHENYLURETHANE
Similarity between phytokinins and herbicidal phenylurethanes. 9043

PHERMONES
Evidence of sex attractant in female Dysdercus cingulatus Fabr. 11361

Evidence of an alarm phermone in the ant Odontomachus haematodes (Hym. Form. Ponerinae). 14807

PHEROMONE
Sex pheromone of the queen butterfly: Biology. 11807

Sex pheromone of the queen butterfly: Chemistry. 11861

Sex pheromone of the queen butterfly: Electroantennogram responses. 11880

Bioassay of the response of Tribolium castaneum to repellent substance excreted by Trogoderma granarium. 13708

PHEROMONES
A continously recording flight mill for investigating the effect of volatile substances on the flight of teathered insects. 8087

Sex pheromone specificity: Taxonomic and evolutionary aspects in Lepidoptera. 8178

Sex pheromone specificity: Taxonomic and evolutionary aspects in Lepidoptera. 8179

Bioassay, preliminary purification, and effect of age, crowding, and mating on the release of sex pheromone by female Tenebrio molitor. 8765

Trails of the leafcutters. 8812

Comparative production of pheromone by the California red scale reared on lemons and potatoes. 8841

Pheromone-mediated behaviour leading to group oviposition in the blowfly Lucilia cuprina. 9354

Comparative response of two strains of California red scale, Aonidiella aurantii, males to pheromone extract and to females of the reciprocal strain. 9482

Sex attractant of female dermestid beetle Trogoderma inclusum Le Conte. 10105

Pheromones. III. Identification of trans, trans-10-hydroxy-3,7-dimethyl-2,6-decadienoic acid as a major component in hairpencil secretion of the male monarch butterfly. 10551

Sex pheromone of Trypobendron lineatum: Production in the female hindgut-malpighian tubule region. 11234

Attraction of Apis mellifera drones by the odours of the queens of two other species of honeybees. 11240

Comparative effectiveness of aliphatic ketones in eliciting alarm behavior in Pogonomyrmex barbatus and P. comanche. 11407

Aggregation behaviour of Dendroctonus brevicomis in response to synthetic pheromones. 11894

Sex pheromone gland in the potato tuberworm moth, Phthorimaea operculella. 12402

Responses of Ips confusus to synthetic sex pheromones in nature. 12424

Isolation of N, N-diethyl-m-toluamide (deet) from female pink bollworm moths. 12471

Inhibition of ovary development of the fruit-fly, Drosophila melanogaster by synthetic queen substance. 12528

Sex pheromone of the eri-silkworm moth, Philosamia cynthia ricini Donovan (Lepidoptera: Staurniidae). 12548

Pheromone concentrations required to elicit successive steps in the mating sequence of males of the light-brown apple moth, Epiphyas postvittana. 13013

Sex pheromone of Trypodendron lineatum (Coleoptera: Scolytidae): Production, bio-assay, and partial isolation. 13023

Sex pheromone of Dendroctonus pseudotsugae (Coleoptera: Scolytidae): Production, bio-assay, and partial isolation. 13024

Identification of an alarm pheromone in the ant, Crematogaster peringueyi. 13035

Effect of age and previous mating on the response of Khapra beetle males to female sex pheromone. 13595

Pheromone response in pine bark beetles: Influence of host volatiles. 13665

Pheromone response in pine bark beetles: Influence of host volatiles. 13851

The pheromone of the queen of the Oriental hornet, Vespa orientalis. 14214

PHIALOPHORA
Studies on the decontamination of soil with methyl bromide. 11962

PHIALOPHORA CINERESCENS
Experiment in soil disinfection against Phialophora cinerescens (Wr.) v. Beyma in the Pescia district. 11935

PHILAENUS SPUMARIUS
Polymorphism of Philaenus spumarius (L.) (Homoptera, Cercopidae) in England.
9500

PHILAEOTHRIPIDAE
Postembryonic development of the male and female reproductive systems of Frankliniella fusca (Hinds) (Thripidae) and Haplothrips verbasci (Osborn) (Philaeothripidae) (Thysanoptera).
9397

PHILANTHUS
The hunt of the wasps at Jackson Hole.
8627

PHILOMIDES HOGGARIENSIS
Notes on some new or little known Chalcididae (Hym.).
8031

PHILOPTERIDAE
Mallophaga from birds of the Oriental Region. Part IX. Sturnidoecus philippensis, n. sp. (Ischnocera: Philopteridae).
8680

PHILOTES SPECIOSA
A previously unrecognized subspecies of Philotes speciosa.
11769

PHLAEOTHRIPIDAE
A second Cephalothrips specie in Germany (Ins., Thysanoptera, Phlaeothripidae).
14168

Remarks on the nomenclature and fauna of some west-palearctic Haplothrips species. (Thys. Phlaeothripidae).
14785

PHLEBOTOMUS
Experiments with feeding sandflies (Phlebotominae) on great gerbils (Rhombomys opimus Licht) under conditions approaching natural.
10584

Relative effectiveness of chemical repellents against Phlebotomus papatasi (Scopoli).
11386

Insecticide susceptibilities of Phlebotomus papatasi (Scopoli) from Egypt and the Sudan.
11387

Growth pattern of Leishmania in Phlebotomus sandflies.
11829

Revision of the genus Phlebotomus of Arica south of the Zambesi, key for the identification and description of: P. salisburiensis n. sp., P. zumpti n. sp. and P. haeselbarthi n. sp., (Diptera-Psychodidae).
12331

Phlebotomus moucheti (Diptera Psychodidae), a new species caught in the caves of Cameroon and in the Central African Republic.
12394

PHLEUM
A three year summary of weed control for establishment of legume seedings.
8397

Yields of timothy and lespedeza after reducing competition from goldenrod with herbicides. (Abstract).
10808

Accumulation of fluoride by forage crops.
11664

Gains in timothy forage from goldenrod control with 2,4-D, 2,4-DB, and picloram.
15727

PHLOEM
Occurrence of virus particles in the phloem tissue of BYDV-infected barley.
8962

Evidence for restriction of a plant virus to phloem cells.
10219

Phloem and bud transmission of chrome mosaic and fanleaf viruses of grapevine.
11992

On the symbiosis of xylo-mycetophagous and phloeophagous Scolytoidea with wood-inhabiting fungi.
12112

Studies on the olfactory stimuli guiding the bark beetle Blastophagus piniperda L. (Coleoptera, Scolytidae) to its host tree.
12476

Virus particles in phloem exudate from Cucumis sativus L. after infection by Cucumis Virus 2 A.
12623

The feeding sites in Sonchus oleraceus of Hyperomyzus lactucae, the aphid vector of lettuce necrotic yellows virus.
12635

Laboratory experiments on the olfactory orientation of Blastophagus piniperda L. (Coleoptera, Scolytidae) to substances isolated from pine rind.
13069

Photochemical oxidant injury and bark beetle (Coleoptera: Scolytidae) infestation of ponderosa pine. II. Effect of injury upon physical properties of oleoresin, moisture content, and phloem thickness.
13833

Photochemical oxidant injury and bark beetle (Coleoptera: Scolytidae) infestation of ponderosa pine. III. Effect of injury upon oleoresin composition, phloem carbohydrates, and phloem pH.
13848

Mechanism of feeding of some virus-vector leafhoppers. histological studies of the tracks.
15654

PHLORIZIN
Endogenous growth regulating factors in bark of EM IX and XVI apple trees.
11009

PHOMA
On the seed germination of Phoma species of Valerianella.
11952

PHOMA BETAE
Experiments with tetrasyston and granular VUAGT-I-4 for sugar beet protection, in 1965-1966.
10736

PHOMA LINGAM
Leptosphaeria lindquistii n. sp., as causal of (black stem) in sunflowers.
13251

PHOMA PSIDII
Postharvest diseases of guava in India.
9607

PHOMOPSIS
Susceptibility of tea clones to collar and branch canker disease (Phomopsis theae).
11501

Epidemic decline of breadfruit in the Pacific Islands.
11518

How to control dieback in azaleas and rhododendrons.
11945

PHOMOPSIS PSIDII
Postharvest diseases of guava in India.
9607

PHOMOPSIS SCLEROTIOIDES
Preliminary observations on moulting and limb regeneration in the mite Caloglyphus boharti.
14280

PHORATE
Seed-corn maggot resistance to aldrin in Illinois.
8767

Residues of Thimet on green and on field-dried alfalfa.
9160

The effects of combinations of preemergence herbicides and systemic insecticides on cotton stands and yields.
9196

A new method of cabbage root fly control.
9637

Organophosphorus poisoning. Some properties of avian esterases.
9805

Organophosphorus acaricides for controlling the two-spotted spider mite on strawberries.
10248

Treatment of mustard and radish seeds for the control of mustard sawfly, Athalia proxima Klug. at seedling stage.
10251

Degradation and anticarboxylesterase activity of disulfoton and phorate after 60Co gamma irradiation.
10465

Phytotoxic synergism with soil applied herbicide-insecticide combinations. (abstract).
11016

Profit by pest control in CSH-1 and CSH-2 sorghums.
11532

Current studies on Atherigona indica--a pest of wheat.
11543

Gas chromatographic analysis of phorate and five metabolites in monkey liver homogenates.
11674

The control of Aphis fabae Scop. on spring-sown field beans (Vicia faba L.).
12670

Insect control studies on the new hybrid sorghum CSH-1 in India.
12691

The use of systemic insecticides to reduce the incidence of curly top virus disease in sugarbeets.
15019

Small grains insects.
15629

PHORESY
Phoresia of Damalinia (C.) meyeri (Mallophaga) and Lamprochernes nodosus (Pseudoscorpionidea) on mosquitoes Aedes sticticus (Culicidae).
15400

PHORIDAE
A new Megaselia from Hawaii (Diptera: Phoridae).
9263

PHORMIA
A noninclusion virus of blow-fly larvae.
8105

PHORMIA REGINA
Naturally occurring low-molecular-weight peptides from the blowfly Phormia regina.
8713

Further evaluation of animal systemic insecticides, 1968.
9126

Comparison of effects of irradiation on the primary spermatogonia and mature sperm of three species of Diptera.
10102

Initial studies on the extraction of the active substance inducing monocoitic behavior in house flies, black bow flies, and screw-worm flies.
12501

PHOSALONE
Field evaluations in spray programs for control of the fruit-tree leaf roller on sweet cherry.
12694

PHOSPHAGEN
On the phosphagen isolated from eggs of insects.
8108

PHOSPHAMIDON
Fish losses after forest sprayings with insecticides in New Brunswick, 1952-62, as shown by caged specimens and other observations.
8567

The artificial feeding of phosphamidon to Myzus persicae: ii. The effects of phosphamidon on liquid uptake through a parafilm membrane.
10086

Treatment of mustard and radish seeds for the control of mustard sawfly, Athalia proxima Klug. at seedling stage.
10251

Investigations of the control of Lixus junci Boh. 10730

Comparison tests of insecticides in the control of Sesamia nonagrioides Lef., (Lepidoptera: Noctuidae) on corn. 12081

Acute cutaneous toxicity of certain organophosphorous insecticides. II - Phosphamidon. 12226

The use of cidial to control certain poplar borers. 13302

Persistent toxicity of some systemic insecticides to little honey bees. 14260

Neotetranychus rubicola Bagd. on the raspberry bush in Serbia. 14501

Toxicity of six organophosphorus insecticides to fish. 15272

PHOSPHATASES
Esterases and phosphatases in the gastric secretion of the cockroach, Periplaneta americana. 8733

Occurrence of an alkaline phosphomondesterase associated with the brochosomes in the malpighian tubules of Cicadella viridis Lin. (Homoptera). 8762

Biochemical aspects of parasitism by the angiosperm parasites: Host-parasite interrelationship in phosphatase activity. 9044

Ultrastructural localization of phosphatases in the midgut of the silkworm, Bombyx mori. 11774

The disruption of lysosome-like particles of Solanum tuberosum cells during infection by Phytophthora erythroseptica Pethybr. 12011

Phosphomonoesterase activity in the life-cycle stages of Schistocerca gregaria. 13100

Degradation of organophosphates by fish liver phosphatases. 15265

PHOSPHATES
Studies on the 5'-terminus of turnip yellow mosaic virus RNA. 8316

Integumental absorption versus oral ingestion of phosphate and other materials by common cattle grubs held in vitro. 8726

On the primary stages of orthophosphate absorbtion by mycelium of Penicillium chrysogenum. 9202

Report on phosphated pesticides. 9236

Pentose phosphate pathway enzyme studies of the lz allele of Drosophila melanogaster. 11427

Status and control of the corn stem weevil in the Florida Everglades. 11527

The energy-dependent accumulation of phosphate by blowfly mitochondria and its effect on the rate of pyruvate oxidation. 11826

Plasmodium gallinaceum: Chicken erythrocyte survival as determined by sodium radiochromate and Di-isopropylfluorophosphate labeling. 12810

Crop-weed competition for phosphate nutrition. 13351

Biochemical aspects of parasitism by the angiosperm parasites. I. Phosphate fractions in the leaves of loranthus and hosts. 13354

The influence of phosphate on the phytotoxicity of 3-amino-1,2,4-triazole. 13497

Analyticial restraint of research on the respiratory metabolism of infectious virus on healthy potato nodules and sprouts. 15580

PHOSPHINE
The biology and control of the rice field mole rat of Ceylon, Gunomys gracilis. 9674

Factors influencing the tolerances of seeds to fumigants. 13426

PHOSPHOLIPASE
On the positional specificity of phospholipase A of certain species of mosquitoes. 8172

A phosphatidase produced by Sclerotium rolfsii. 8995

Studies on the biosynthesis and degradation of phosphatidylbeta-methylcholine by housefly larvae. (Abstract). 9060

PHOSPHOLIPIDS
The incorporation of amino-alcohols into the phospholipids of the adult housefly, Musca domestica. 8090

A role for phospholipid hydrolysis in the lysis of Escherichia coli infected with bacteriophage T4. 9068

Phospholipid synthesis during flight muscle development in the American silkmoth, Hyalophora cereropia. 11405

Biochemical aspects of parasitism by the angiosperm parasites. I. Phosphate fractions in the leaves of loranthus and hosts. 13354

Biochemical aspects of parasitism by the angiosperm parasites: Changes in nucleic acid content of infected hosts. 13491

Lipids of Culex pipiens fatigans during metamorphosis. 14833

Lipid content and composition of the tsetse fly, Glossina moritans Westwood. 15357

PHOSPHONIC ACIDS
Cucumber sex expression modified by 2-chloroethanephosphonic acid. 15288

PHOSPHOPROTEINS
Biochemical aspects of parasitism by the angiosperm parasites. I. Phosphate fractions in the leaves of loranthus and hosts. 13354

Biochemical aspects of parasitism by the angiosperm parasites: Changes in nucleic acid content of infected hosts. 13491

PHOSPHORODITHIOATES
Effect of thiometon on the chemical composition and the growth of groundnut crop. 15898

PHOSPHOROTHIOIC ACID ESTERS
Determination of pesticides in water by microcoulometric gas chromatography after liquid-liquid extraction. 8530

PHOSPHORUS
Fight stalk rot with right fertility. 8978

Studies on labeled animal poisons. II. Distribution of the venoms of various spiders labeled with Se75 and P32 in the guinea pig. 9812

Pesticide effect on phosphorus absorption from fertilizer-pesticide mixture applied to a tropical soil with low available phosphorus value. 10445

Effects of fertilization schedules on flower production, keeping quality, disease susceptibility, and chemical composition at different growth stages of Chrysanthemum morifolium. 10707

Effects of phosphorus fertilizer, herbicides and seed-bed preparation on the establishment of alfalfa and birdsfoot trefoil. (Abstract). 10827

Requirements and functions of vitamin A in ruminants. 10840

The effect of Zn on yield and chemical composition of sweet corn in the Willamette Valley. 10997

The effect of radioactive phosphorus on the development of Aedes aegypti larvae. 11223

Effect of fertilizers on the reproduction of Tetranychus telarius (L.), Myzus persicae (Sulz.) and Acyrthosiphon pisum Harris. 11338

Yellow virus effects on macro- and micro-elements in 'Montmorency' sour cherry leaves. 11989

After-effects of phosphorus deficiency. 12180

Phosphorus and magnesium fertilizer studies with pepper. 12277

The effect of linuron on 32P and 45Ca uptake in tomato and parsnip. 12724

Studies on the effects of feeds deficient in trace elements, vitamin A, protein, calcium and phosphorus on the natural resistance of sheep to common liverfluke, Fasciola gigantica Cobbold, 1885. 13412

Growth and production of pickling cucumbers as influenced by petroleum mulch and chemical treatments at planting. 13494

Comparative studies of mutation frequencies induced by 32P treatment and gamma-irradiation in the silkworm. 13722

Effect of root fungus on mineral nutrition of the pine tree. 13774

Induction of mutants in sweet potato by absorption of 32P. 14092

Are scarecrows useful against bird damage . 14550

Making tests by radioactive phosphorous P32 for the absolute estimations of larval populations of culicids (Diptera-Culicidae). 14869

Effect of different forms and levels of phosphorus in presence and absence of molybdenum on growth and yield of berseem. 15282

The effect of ZnSO4 on the chemical composition of maize leaves. 15291

Improved re-ignition technique for flame photometric detectors. 15848

PHOSPHORUS COMPOUNDS
Method of killing pests by application of a phosphoro derivative of alpha-(methylthio) cresol. Patent 3,427,384. 8875

Indoxyl acetate spray reagent for fluorogenic detection of cholinesterase inhibitors in environmental samples. 9159

Are honeybees deficient in phosphomannose isomerase . 14873

PHOSPHORUS ISOTOPES
P32-labeling of common malaria mosquitoes: assimilation by larvae and retention and transfer during mating. 8193

Further experience obtained in studies on dispersal flights of Meligethes aeneus F., marked with P32 (Coleoptera). 11401

Distribution of the corn earworm on St. Croix, U.S. Virgin Islands, and its relation to suppression programs. 12387

The effect of radioactive phosphorus on the development of Aedes aegypti larvae. 13006

PHOSPHORUS 32

Phosphorus-32 for marking Tabanidae (Diptera). 13604

PHOSPHORYLASES

The phosphorylase system of the silkmoth, Hyalophora cercropia. 11411

Purine catabolism in Drosophila melanogaster. II. Guanine deaminase, inosine phosphorylase and adenosine deaminase activities in mutants with altered xanthine dehydrogenase activities. 13177

PHOSPHORYLATION

Sequence studies of satellite tobacco necrosis virus RNA; isolation and characterization of a 5'-terminal trinucleotide. 9615

Substrates oxidation of tricarboxylic acid cycle in hepatopancreas mitochondria of Astacus leptodactylus (ESCHZ). 10835

Some data on bioenergetics of the larvae of Trichinella spiralis. 10846

Uncoupling effect of cytoplasmic fraction of Trichinella spiralis larvae on bioenergetics of rat muscle mitochondria. 10878

Effect of trifluralin on oxygen uptake and oxidative phosphorylation in isolated mitrochondria. (Abstract). 11018

On some features of the effect of heteroauxin on the growth of cells in the elongation phase. yakushkina, n i. 14081

PHOSPHOTUNGSTIC ACID

Disruption of watermelon mosaic virus-induced inclusions by phosphotungstate. 9595

PHOTINUS

Mechanism of oxidation of luciferin in firefly bioluminescence. 15376

PHOTINUS PYRALIS

The excited state products of firefly bioluminescence: properties and mechanism of formation. (Abstract). 10534

PHOTOCHEMISTRY

Effects of light and 2,4-dichlorophenoxyacetic acid on the glutathione reductase and other NADP-UTILIZING enzymes of excised cotton cotyledons. 9187

Experimental approaches to pesticide photodecomposition. 9221

Activation and inactivation of herbicides by higher plants. 9235

Photochemical degradation products of pentachlorophenol. 9237

Mechanisms of breakdown of amitrole in soils: Photolytic and free radical reactions. (Abstract). 11065

Photolysis of amiben. (Abstract). 11071

Photochemical degradation of diquat. 12925

A kinetic isotope effect in the photoreactivation of u. v.-inactivated tobacco mosaic virus RNA. 13250

Properties and effects on WL-9385-D on rice and some weed species. 13467

Mechanism of photoreactivation of plant viruses. 15483

Photoreactivation spectrum of tobacco mosaic virus-ribonucleic acid inactivated by ultraviolet radiation. 15519

Dark reactivation of UV-IRRADIATED tobacco necrosis virus. 15529

Effect of light on the herbicidal activity of some amiben derivatives. 15710

PHOTOMETRY

A photometric technique for quantitative evaluation of feeding preferences of phytophagous insects. 9410

Expanded utility of the Beilstein flame test for organically bound halogens as a sensitive and specific flame photometric detector in the gas chromatographic determination of R-X compounds as illustrated with organochlorine pesticides. 11709

Improved re-ignition technique for flame photometric detectors. 15848

PHOTOMICROGRAPHY

The embryology of Lytta viridana Le Conte (Coleoptera: Meloidae). IV. Chromatin elimination. 8261

Cytology and cytochemistry of spermatogenesis in two millipedes Phyllogonostreptus nigrolabiatus and Gonoplectus malayas. 14219

A mite infestation in squirrel monkeys (Saimiri sciureus). 15198

PHOTOPERIODISM

Influence of light on diapause in the boll weevil. Ii. Dependence of diapause response on narrow bands of visible radiation and a broad band of infrared radiation used to extend the photoperiod. 8128

Photoperiod and temperature as factors controlling the diapause of the sunflower moth, Homoeosoma electellum. 8201

Experimental research concerning the circumstances and modalities of the return of inflorescence towards the vegetative stage in Salvia glutinosa L. 8577

Humoral and nervous pathways in photoperiodic induction of diapause in Leptinotarsa decemlineata. 8742

Periodicity in the proportions of haemocyte categories in the giant cockroach, Blaberus giganteus. 9339

The diel pattern of feeding activity of larval Pseudosarcophaga affinis (Diptera: Sarcophagidae). 9404

Diapause in Chrysopa carnea (Neuroptera: Chrysopidae. I. effect of photoperiod on reproductivity active adults. 9483

Photoperiodic induction of diapause in larvae of the winter tick, Dermacentor albipictus. 9507

Effect of inhibitors of nucleic acid and protein synthesis on the reappearance of light interruption rhythm in a long-day duckweed, Lemna gibba G3. 9838

Comparative pathogenicity of Cephalosporium acremonium Cords, and Fusarium moniliforme Sheldon, (Emend Snyder and Hansen (Gibberella fujikuroi) (Saw.)Wr.) on maize. 10645

Observations on the relation of light to the dropping of the tick Ixodes texanus Banks. 11250

Circadian rhythms in female ants, and loss after mating flight. 11345

Hour-glass dusk and rhythmic dawn timers control diapause in the codling moth. 11824

Light intensity and duration in the development of lettuce tipburn. 12033

Response of some ornamental plants to synthetic abscisic acid. 12243

Photoperiodism after 50 years. 12261

Interaction of photoperiod and auxin metabolism in rooting of Chrysanthemum morifolium cuttings. 12269

Interaction of triiodobenzoic acid and indoleacetic acid in development and flowering of Kalanchoe. 12301

The effect of light on the circadian rhythm of locomotor activity in the house cricket (Acheta domesticus L.). 12439

Photoperiodism in relation to development and reproduction in the green stink bug. 12554

Larval diapause in the tick Ixodes ricinus L. and its relation to external conditions. 7. On the sensitivity to photoperiodic stimuli during bloodsucking. 13018

Effect of mating with males reared in continuous light or in light--dark cycles on fecundity in Plodia interpunctella Hubner (Lepidoptera: Phycitidae). 13083

Influence of photoperiod on development and larval diapause in the viceroy butterfly, Limenitis archippus. 13618

Dawn and dusk activity periods and orientation to forest and field of the Drosophila subobscura and Drosophila obscura. 14225

The maintenance and decline of the large populations of the African migrator locust, Locusta migratoria migratorioides (R. and F.): the role of the photoperiod in determinations of recessions. 14786

The influence of the photoperiod on hemolymph protein variations in Pieris brassicae L. before the onset of diapause. 14806

Insect photoperiodism. 15394

Light and circadian rhythms. 15414

Effect of photoperiod on patterns of oviposition of Anocentor nitens Neumann (Acarina: Ixodidae). 15434

Investigation into the influence of day length on the reproduction of potato-X and tobacco mosaic virus in Solanaceae of differing photoperiodic sensitivity. 15579

PHOTOSENSITIZATION

Physiological investigations on spring parsley. (Abstract). 11052

On photoreceptive and photokinetic activity of wings in insects. 11775

A nonlinear model for transient responses from light-adapted wolf spider eyes. 12442

Nonlinear transient responses from light-adapted wolf spider eyes to changes in background illumination. 12443

An outbreak of photosensitisation in Karamojong sheep at Entebbe. 14557

Skin diseases of horses. 14592

PHOTOSYNTHESIS
DDT reduces photosynthesis by marine phytoplankton. 8557
Effect of simazine on photosynthetic pigments of green algae. 9209
Mode-of-action of photosynthesis inhibtor herbicides. 9215
Ozone. Effect on apparent photosynthesis, rate of transpiration, and stomatal closure in plants. 9833
Response to parasites. 10232
Biochemical basis for plant competition. 10274
Effects of pyrazon on growth, photosynthesis, and respiration. 10288
Mechanisms of action of herbicides. 10299
Effects of ammonium thiocyanate on carbohydrate metabolism in the cotton plant. 10455
Two types of post-emergence activity of ClPC. (Abstract). 10981
A comparison of the effects of linuron on photosynthesis and respiration of carrot and common ragweed. (Abstract). 11003
Monuron degradation and recovery of monuron-inhibited photosynthetic activity. (Abstract). 11042
Reaction of CCCP in photosynthesis on an intermediate between chlorophyll-all and water. 11699
Response of American elm seedlings to treatment with captan and cycloheximide. 11700
Light intensity and duration in the development of lettuce tipburn. 12033
Herbicidal activity of 1-(3-chloro-4-methylphenyl)-3-methyl2-pyrrolidinone. (Abstract). 12251
Some physiological effects of cotoran on unicellular Algae. (Abstract). 14689

PHOTOTROPISM
2,3,6-trichlorobenzoic and 2,6-dichlorobenzoic acid interference with phototropic and geotropic responses of seedlings. 9213
New photoreceptors placed in evidence in the Dictyoptera: The paraocellar organs. 11239
The photoresponse to skyshine of the two-spotted spider mite, Tetranychus urticae K. (Acarina: Tetranychidae). 11346
Investigation into the orientation of the alate Sacchiphantes (Chermes) abietis (L.) in relation to galls and shoots. 11526
Responses of spotted cutworm larvae to various intesities and wavelengths of light. 12505
The mechanism of orientation in nematodes. 13870
The phototactic push-pull-coupling between dorsal ocelli and compound eyes in the phototropotaxis of locusts and crickets (Saltatoptera: Lucusta migratoria and Gryllus bimaculatus). 14217
Photoinhibition of auxin and its bearing on phototropism. 15903

PHOTURIS
The eye of the firefly Photuris. 10535

PHRAGMITES
Air swallowing- an effective protection against drowning in larvae of Epistrophe balteata (Syrphidae Dipt.). 8185

PHRAGMITES COMMUNIS
Tests on the control of Phragmites communis and other emerging aquatic weeds. 10793
Studies on Claviceps purpurea (Fr.) Tul. parasitic on Phragmites communis Trin.. 12627

PHRYGANEIDAE
The taxonomy of the larvae and pupae of the British Phryganeidae (Trichoptera). 12943

PHTHALTHRIN
Syntheses of 14C-labeled pyrethrin I, allethrin, phthalthrin, and dimethrin on a submillimole scale. 9859

PHTHIRUS PUBIS
Antennal tuft organs of Pediculus humanus Linn. and Phthirus pubis (Linn.) (Anoplura: Pediculidae). 13653

PHTHORIMAEA OPERCULELLA
Phthorimaea operculella Zell. 9250
Alternative host plants of tobacco leaf-miner (Phthorimaea operculella (Zell.)). 10239
Sex pheromone gland in the potato tuberworm moth, Phthorimaea operculella. 12402

PHYCITIDAE
How to distinguish attacks by the black turpentine beetle and Dioryctria amatella on southern pines. 8339
A practical trial of pyrethrins-in-oil surface sprays for the protection of bagged grain against infestation by Cadra cautella (Wlk.) (Lepidoptera, Phyctidae) in Kenya. 11659
Notes on insects infesting pine cones in Mississippi. 12681
Sex determination of pupae of Vogtia malloi (Lepidoptera: Phycitidae). 13084
Biological control of prickly pear cacti on Santa Cruz Island, California. 13909
Phycitinae from Turkey and Greece (Lep., Pyralidae). 14162

PHYCOMYCETES
Contribution to the study of the fungi flora of the soils of Katanga. 14921
A new parasite of Culex pipiens L., Entomophthora destruens sp.n. (Phycomycetes, Entomophthoraceae). 15432

PHYLLACHORA MAYDIS
Tar spot on the leaf of corn. 13755

PHYLLACTINIA
Six powdery mildews from Jammu and Kashmir State. 9590

PHYLLOCNISTIS CITRELLA
Relationship between citrus leaf-miner (Phyllocnistis citrella Stainton) injury and citrus canker (Xanthomonas citri (Hasse) Dowson) incidence on citrus leaves. 12025

PHYLLOCOLPA
Galls and larvae of the European species of genera Phyllocolpa and Pontania (Hymenoptera, Tenthredinidae). 12052

PHYLLOCOPTRUTA OLEIVORA
Trends of mite populations in lower Rio Grande Valley citrus groves in 1962-63 and 1966-67. 14867

PHYLLODECTA VITELLINAE
Investigation on the variability of the thermic preferendum for chosen insects of the family Chrysomelidae (Coleoptera). 13639

PHYLLODY
The presence of mycoplasma-like particles in the phloem of plants infected with three European yellow diseases: tomato stolhur, gladiola aster yellow, and clover phyllody. Cytological and ultrastructural studies. Preliminary remarks on chemical control. 10633
Clover phyllody. 10682
Investigations on mycoplasma-like microorganisms in the jassid vector and in the plants infected by yellow viruses. 11468
Virogeographical studies on the clover phyllody virus and its vectors. 12019
Identification of the virus causing papaw yellow crinkle with tomato big bud virus by transmission tests. 14365
Discontinuous transmission of clover phyllody by Euscelis plebejus Fall. 14940
Role of the jassid Aphrodes bicinctus Schrk. (Hom., Auchen) in the transmission of some white clover diseases. 15020
Study of the first stages of the infection of (Vinca rosea) L. by (clover,phyllody) virus from it inoculated point by means of grafting. 15487
Comparated study on (Vinca rosea) L. of 3 virus diseases: (western aster yellow) isolated from (gladiolus,) (clover phyllody) and (tomato stolbur). 15612

PHYLLOSTICTA
A Phyllosticta leaf spot disease of Kagzi lime. 13269
Fungal foes that menace ginger crop. 14366
A new leaf spot disease of Gardenia jasminoides from India. 14406
Occurrence of Phyllosticta leaf spot on Florida cigar-wrapper tobacco. 14456

PHYLLOSTICTA ZEAE
Male sterility cytoplasm conditioning susceptibility of resistant inbred lines of maize to yellow leaf blight caused by Phyllosticta zeae. 13809

PHYLLOTRETA
Flea beetles Phyllotreta cruciferae Goeze. (Coleoptera, Chrysomelidae) a new pest of stock flower Mathiola sp. in Rajasthan. 10110
Flea beetles in sugar beet fields. 10735

PHYLLOTRETA STRIOLATA
Radish enation mosaic virus. 14465

PHYLLOXERA
Effect of gamma-radiation on callus growth of Phylloxera gall and normal grape stem tissues in culture. 14932
Differential sensitivities to gamma radiation of Phylloxera gall and normal grape stem cells in tissue culture. 15890

PHYLLOXERA COCCINEA
Feeding habits of two Phylloxera species (Phylloxeridae, Aphidina) on oak leaves. 15387

PHYLLOXERA GLABRA

Feeding habits of two Phylloxera species (Phylloxeridae, Aphidina) on oak leaves.
15387

PHYLLOXERA VITIFOLIAE

The influence of abiotic factors on the development cycle of the grape phylloxera (Dactylosphaera vitifolii Schim.) and on a population of jassids (Homoptera, Auchenorrhyncha, Jassidae).
11856

PHYLLOXERIDAE

The influence of abiotic factors on the development cycle of the grape phylloxera (Dactylosphaera vitifolii Schim.) and on a population of jassids (Homoptera, Auchenorrhyncha, Jassidae).
11856

The pear Phylloxera aphanostigma piri Cholod. et Mokrz. (Phylloxeridae).
13844

Feeding habits of two Phylloxera species (Phylloxeridae, Aphidina) on oak leaves.
15387

PHYSALOPTERA

Parbendazole in treatment of intestinal nematodes of dogs and monkeys.
9775

PHYSALOSPORA OBTUSA

The control of black rot cankers on apple trees in New Hampshire.
10656

Frogeye leafspot and apple black rot control by fungicide spray treatment in New Hampshire.
10657

PHYSALOSPORA RHODINA

Postharvest diseases of guava in India.
9607

Preliminary laboratory tests on the action of two synthetic fungicides to prevent the finger stalk rot of bananas.
11690

Lignicolous fungi of freshly felled timber in tropical Africa.
11967

Influence of temperature on Botryodiplodia rot of citrus and sapodilla.
12872

PHYSICAL CHEMISTRY

Physico-chemical and biophysical factors affecting the activity of pesticides.
10462

Physical and biological attributes of several amiben derivatives. (Abstract).
11010

Influence of quaternary structure on antigenic configuration of tobacco mosaic virus. (Abstract).
12321

PHYSICS

Wave-making by whirligig beetles (Gyrinidae).
13694

PHYSIOLOGY

The fine-structure of the epimastigote forms of Trypanosoma lewisi in the rectum of the flea, Nosopsyllus fasciatus.
8161

Site difference for solid tumor growth.
8455

Hemoglobins of parasitic nematodes. II. Electrophoretic analysis of the multiple hemoglobins of adults and developmental stages of the rabbit stomach worm, Obeliscoides cuniculi.
8495

Effect of heterologous antibody on Haemonchus contortus development in vitro.
8500

Chitinase activity in developmental stages of Ascaris suum and its inhibition by antibody.
8504

The development of Haemonchus contortus in vitro. I. The effect of pH and pCO2 on the rate of development to the fourth-stage larva.
8505

Parasites as biological models.
8507

The excretory system of the kidney worm Stephanurus dentatus (Nematoda).
8512

Structure-activity and metabolism studies on organophosphate teratogens and their alleviating agents in developing hen eggs with special emphasis on Bidrin.
8572

Morphology and development of an occuluded virus from the black-soil scarab, Othnonius batesi.
8760

Pentachlorobenzyl alcohol, a rice blast control agent.
8960

On the fungicidal action of phenylmercuric compounds.
8961

Fungicidal action of organophosphorus compounds.
8963

Morphology, physiology, and serology of a Pasteurella species pathogenic for white perch (Roccus americanus).
9081

A study of the thermosensitive mutants of the vesicular stomatitis virus (VSV). The classification of several mutants by the criteria of function.
9088

Comparative mechanisms of insecticide binding with nerve components of insects and mammals.
9176

Functions of the two particles of tobacco rattle virus.
9601

Tissue distribution of sulfadimethoxine and sulfamonomethoxine in horses after intravenous injection.
9737

Gnathostomulida from America.
9774

Studies on labeled animal poisons. II. Distribution of the venoms of various spiders labeled with Se75 and P32 in the guinea pig.
9812

Description, biology, and importance of a new species of Allantonematidae (Nematoda), parasite of the aphidiphagous Coccinellidae: Parasitylenchus coccinellinae, n. sp.
10039

The fungitoxic mechanisms in quinoline compounds and their chelates.
10202

The development of the body wall of Polymorphus minutus (Acanthocephala) in its intermediate host Gammarus pulex.
10370

The effect of gastro-intestinal secretions on taeniid egg membranes.
10374

Specificity and mechanism in the action of saligenin cyclic phosphorus esters.
10424

Internal perfusion of crayfish giant axons: Action of tannic acid, DDT, and TEA.
11393

Effect of seed and root exudates on the growth of Xanthomonas phaseoli var. fuscans.
11513

Nutritional requirements of Xanthomonas phaseoli var. fuscans.
11514

The oxidase systems of Moniezia expansa (Cestoda).
11644

Fine structure and electron cytochemical studies of Sclerotium rolfsii Sacc.
12631

Trypanosoma cruzi: Effects of gamma radiation on growth and infectivity.
12781

Eimeria tenella: Temperature and asexual development in cell culture.
12799

Inhibition of Ostertagia ostertagi at the early fourth larval stage. I. The seasonal incidence.
12816

Experimental fascioliasis in small mammals: Apparent effects of bithionol on Fasciola hepatica in rats.
12826

Protective action of passively transferred immune serum and immunoglobulin fractions against tissue invasive stages of the dwarf tapeworm, Hymenolepis nana.
12827

Growth rate of two Taenia crassiceps strains.
12828

Hymenolepis diminuta: Effect of quality of host dietary carbohydrate on growth.
12829

Specificity in Angiostronylus vasorum (Baillet,1866).
12833

Basic factors conditioning the specificity of the helminth invasion cycle.
12836

The development of Amidostomum anseris (Zeder, 1800) in the organism of Columba livia domi.
12838

Specificity of the intestinal stage in the development of Trichinella spiralis.
12844

On the specificity of the nematode Trichocephalus suis Schrank,1788.
12848

Glucose uptake in Haematoloechus medioplexus and Gorgoderina trematodes.
12853

Regulation of external respiration by the booklung spiracles of the spiders, Araneus diadematus Clerck and A. marmoreus Clerck.
13117

Inhibition of Ostertagia ostertagi at the early fourth larval stage. II. The influence of environment on host or parasite.
13409

Distribution and fate of C14-Hexachlorophene in liver flukes (Fasciola hepatica L.).
13420

The transformation of the Plasmodium gallinaceum oocyst in Aedes aegypti mosquitoes.
13688

Study of the life cycle of Aphelenchoides composticola.
13868

The development and life history of the false root-knot nematode, Nacobbus serendipiticus.
13869

The mechanism of orientation in nematodes.
13870

Influence of environment on development and sex differentiation of root-knot nematodes. II. Effect of host nutrition.
13873

Influence of the environment on development and sex differentiation of root-knot nematodes. I. Effect of infection density, age of host plant and soil temperature.
13874

The behaviour of second-stage Heterodera rostochiensis larvae leading to their emergence from the egg.
13877

Effect of temperature on the rate of development of Nacobbus serendipiticus in excised tomato roots.
13892

Some biochemical changes in the contents of the cyst of Heterodera rostochiensis during its maturation.
13896

Significance of the asexual stages in assessing Eimerian infections of goats.
13936

Obliquely straited muscle. III. Contraction mechanism of Ascaris body muscle.
14024

The effect of herbicides on soil microflora. VI. The effect of pH on susceptibility of some bacteria to herbicides.
14044

Effect of the herbicide trifluralin on nitrogen-fixation in Rhizobium and Azotobacter and on nitrification.
14049

The effect of herbicides on soil microflora. V. Growth and activity of cellulolytic microorganisms.
14056

DNA-MEASUREMENTS in insects and a hypothesis concerning retarded evolution and especially high DNA content in the animal kingdom.
14185

Hilaria sartor Becker, the fly with the little veil and its dance (Diptera).
14204

Hilaria sartor Becker, the fly with the little veil and its dance (Diptera).
14205

Enhancement of infectivity of a mammalian virus preparation after injection into insects.
14268

The influence of N-dimethylamino succinamic acid (Alar) on growth of the sweet cherry, Prunus avium. (Abstract).
14303

Effects of N-dimethylamino succinamic acid on the size of potatoes. (Abstract).
14311

Effects of CIPC applications to individual eyes of potato tubers on type and pattern of sprout development.
14320

Vegetative and fruiting responses of pecan (Carya illinoensis Koch) to heading hack and N-dimethylamino succinamic acid. (Abstract).
14332

Degradation of pure aflatoxin by Tetrahymena pyriformis.
14333

The effects of Alar on red tart cherries (Prunus cereasus).
14335

Nature and inheritance of resistance to red clover vein mosaic virus in Pisum sativum. (Abstract).
14345

Isolation and characterization of Mycoplasma arginini: spec. nov.
14555

Some physical properties of purified neurotropic foot-and-mouth disease virus.
14586

Inhibition of host-cell protein and ribonucleic acid synthesis by newcastle disease virus.
14622

Development of Caenorhabditis briggsae and Hymenolepis nana in interchanged media. France.
14633

The basic cellular pattern for undifferentiated oncospheres of Hymenolepis diminuta.
14641

An interaction of dieldrin with thiamine.
14664

Mycobacterium tuberculosis in macrophages: Effect of certain surfactants and other membrane-active compounds.
14671

The current status of the knowledge of the X group of potato viruses.
15476

PHYSOCEPHALA
Parasitization of worker bumble bees of Mississippi by Physocephala larvae.
9387

PHYSODERMA CITRI
Physoderma citri in citrus albedo and callus tissue.
9552

PHYTEUMAS PURPURASCENS
Experiments on aggregations of Phymateus purpurascens (Orthoptera, Acrididae, Pyrgomorphinae).
13118

PHYTOACTIN
The ineffectiveness of cycloheximide and phytoactin as chemical controls of the blister rust disease.
8301

PHYTOALEXIN
Aromatic compounds in the host-parasite interaction.
13282

Isolation of rishitin from tubers of interspecific potato varieties containing different late-blight resistance genes.
14443

PHYTOCHIRONOMUS SEVERINI
The proliferation of aquatic plants in Lake Trasimeno and its consequences on the diffusion of Phytochironomus severini Goetgh.
9367

PHYTOMETRA BILOBA
Meteorological aspects of insect migrations.
10037

PHYTOMYZA
Further notes on Icelandic Agromyzidae (Dipt.).
14140

PHYTOMYZA ATRICORNIS
New record of hymenopterous parasites of Phytomyza atricornis (Meigen), a serious pest of pea.
10259

Chrysanthemum leaf miner.
10733

PHYTOPATHOLOGY
Exclusive hypovirulence, an original phenomenon in vegetable pathology.
8953

Peach leaf curl (Taphrina).
14413

Assessment of crop losses caused by rosette disease of groundnut.
14960

Nectria galligena and Ceratocystis fimbriata cankers of aspen in Minnesota.
14965

Factors affecting survival of Poria weirii in small buried cubes of Douglas-fir heartwood.
14978

Investigations into the cause of leaf tumors of tea seedlings.
14991

PHYTOPHAGOUS INSECTS
Chemosensory bases of host plant selection.
8186

Phytophagous ground beetles.
8776

A photometric technique for quantitative evaluation of feeding preferences of phytophagous insects.
9410

New Bulgarian fauna of phytophageous wasps (Symphyta, Hymenoptera).
9946

Ecological research in the Lamto Savannah (Ivory Coast): Annual cycle of the population size and biomasses of arthropods in the herbaceous stratum.
10017

Biological control of Cuscuta spp. II. Biology and host-plant range of Melanagromyza cuscutae Hering (Dipt. Agromyzidae).
10272

The phytophagous fauna of a mistletoe (Loranthus longiflorus Desr.: Loranthaceae) in West Pakistan.
11520

Laboratory rearing of the spinach leaf miner Pegomyia hyoscyami Panz.
12518

Cultivation of the cricket bat willow.
13231

Some observations on Anthix puta (Grote and Robinson) (Lepidopterai Noctuidae) found on aspens in the Province of Quebec.
13324

Hylobius weevil larvae attack roots of young slash pines.
15010

PHYTOPHAGOUS MITES
The effect of cultural measures on the population density of harmful and beneficial organisms in orchards.
9453

Influence of pesticides and fertilizers on the behaviour of phytophagous mites in orchards and under laboratory conditions.
10065

The phytophagous fauna of a mistletoe (Loranthus longiflorus Desr.: Loranthaceae) in West Pakistan.
11520

PHYTOPHTHORA
A serological comparison of six heterothallic species of Phytophthora.
8973

A modified soil percolator zoospore production and infection in studies on zoosporic root pathogens.
9543

Study on the pathogenicity of Pythium vexans De Bary, Phytophthora spp. and Phytophthora cactorum.
9544

The occurrence of a Phytophthora root and leaf disease of black pepper in Jamaica.
9578

Recent advances in the control of soil fungi.
9616

Forest pathology.
11455

Release of hydrolytic enzymes from cytoplasmic particles of Solanum tuber tissues during infection by tuber-rotting fungi.
11698

Now is the time to control brown rot.
12012

The economics of disease control in Hevea.
12646

Interactions between steroids in the growth of Phytophthora.
13476

Review of the plant pathology department.
13804

Vegetable dry rot and phytoprog- service in North-Hanover 1968.
14380

Phytophthora-prognosis and -control in theory and practice.
14381

Phytophthora diseases of rubber in Ceylon and India.
14438

Stem canker. I. Observations on knobby second growth.
15478

PHYTOPHTHORA CACTORUM
Study on the pathogenicity of Pythium vexans De Bary, Phytophthora spp. and Phytophthora cactorum.
9544

How to control dieback in azaleas and rhododendrons.
11945

Resistance to Phytophthora cactorum among open-pollinated seedlings of apple varieties and species.
12002

The influence of an application of herbicide on antibiotic-working micro-organisms of the soil.
13820

PHYTOPHTHORA CINNAMOMI
The influence of ectotrophic mycorrhizal fungi on the resistance of pine roots to pathogenic infections. I. antagonism of mycorrhizal fungi to root pathogenic fungi and soil bacteria.
9583

Phytophthora cinnamomi causing a basal rot of Chamaecyparis lawsoniana and its varieties. 11964

Saponins in relation to the control of avocado root rot with alfalfa meal. 12666

PHYTOPHTHORA CITROPHTHORA

A serological comparison of six heterothallic species of Phytophthora. 8973

The incubation period of Phytophthora citrophthora in citrus fruits stored at different temperatures. 9777

Citrus brown rot in Queensland. 15557

PHYTOPHTHORA ERYTHROSEPTICA

A root rot of red raspberry caused by Phytophthora erythroseptica. 11957

The disruption of lysosome-like particles of Solanum tuberosum cells during infection by Phytophthora erythroseptica Pethybr. 12011

PHYTOPHTHORA FRAGARIAE

Development of controlled conditions for the study of red stele disease on strawberries. 8216

Susceptibility of strawberry varieties to red stele disease. 10648

Cryopreservation and pathogenicity of selected isolates of Colletotrichum, Rhizoctonia, and Phytophthora. 14374

The induction of stelar reddening in strawberry roots. 14423

PHYTOPHTHORA INFESTANS

Save your potato crop from fungal and bacterial diseases. 8286

Determination of the critical injury threshold for potato blight (Phytophthora infestans). 9588

Tests for the control of mildew of the tomato. 10625

Investigations on the susceptibility of some potato varieties to infection by Phytophthora infestans (Mont.) de Bary when using staggered planting dates. 10708

Release of hydrolytic enzymes from cytoplasmic particles of Solanum tuber tissues during infection by tuber-rotting fungi. 11698

Control of blight diseases of potato in West Bengal Plains by various spray fungicides. 11990

Control of late blight of potato with maneb in Nilgiri hills. 13750

Breeding for disease resistance in the potato. 13765

Isolation of rishitin from tubers of interspecific potato varieties containing different late-blight resistance genes. 14443

New tin complex compounds as plant protection fungicides. 14445

Control of potato blight by means of spraying machinery used on the ground, airplanes and helicopters. 14951

Combined application of leaf fertilizers and fungicides. 15576

Nuclei in haustoria of Phytophthora infestans. 15904

PHYTOPHTHORA MEADII

Use of cacao pod for recovering Phytophthora species pathogenic to Hevea brasiliensis. 8287

Susceptibility of Hevea rubber clones to leaf disease caused by two species of Phytophthora. 11497

PHYTOPHTHORA MEGASPERMA

Phytophthora root rot of alfalfa in the upper midwest. 11465

Inheritance of reaction to phytophthora rot in the soybean. 12140

Phytophthora root rot of alfalfa in the upper Midwest. 13775

PHYTOPHTHORA PALMIVORA

Use of cacao pod for recovering Phytophthora species pathogenic to Hevea brasiliensis. 8287

Phytophthora leaf fall and pod rot of Hevea brasiliensis in Thailand. 8939

Susceptibility of Hevea rubber clones to leaf disease caused by two species of Phytophthora. 11497

PHYTOPHTHORA PARASITICA

Prophylactic treatment for raising a pest and disease free crop of 'pan' vineyards. 13782

PHYTOPHTHORA PARASITICA NICOTIANAE

Calcium nutrition and black shank of tobacco. 8999

Citrus brown rot in Queensland. 15557

PHYTOSEIIDAE

Studies on the mating behaviour of the predaceous mite Amblyseius gossipi (Acarina, Phytoseiidae). 8112

Biological studies on Amblyseius aleyrodis a predator of the cotton whitefly (Acarina, Phytoseiidae). 8338

Seven new species and records of phytoseiid mites from Missouri (Acarina: Phytoseiidae). 8689

Preliminary observations on the biology of Amblyseius tardi Lomb. (Acarina-Phytoseiidae) a predator of Tetranychus urticae Koch. 9455

Two new species of genus Amblyseius in the U. A. R. (Acarina--Phytoseiidae). 11200

Overwintering phytoseiid mites in central Utah apple orchards. 11333

PHYTOSEIULUS RIEGELI

Mass-rearing of Phytoseiulus riegeli Dosse for use in commercial horticulture. 11714

PHYTOTOXICITY

Systemic insecticides in trees. 8585

Trithion-a new acaricide. 8814

Biological activity of a phytotoxic glycopeptide produced by Corynebacterium sepedonicum. 9180

Phytotoxicity of bemethylated analogs of diphenamid. 10290

Basis for selectivity of linuron on carrot and common ragweed. 10295

Effects of growth regulators and herbicides on germination of Hydrilla turions. 10306

The correlation between physiological activity and physiocochemical property of the substituted phenols. 10437

Some remarks on tests and several applications during the year, conducted with a new preparation against Cryptogamia, on numerous cultures. 10629

Chrysanthemum leaf miner. 10733

Further tests on the use of dichlorothiobenzamide against weed infestation in vineyards. 10765

Experiences with the use of herbicides in cabbage cultures. In: collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 12105

Herbicidal mixture and method of use. Patent 3,429,687. 12108

Halovinyl mercurials as plant defoliants. Patent 3,433,621. 12239

Results of the research work concerning the use of herbicides in vegetable cultures in the Peoples Republic of Bulgaria. In: collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 12294

Effect of simulated rainfall on herbicide performance. 12708

Effect of activated carbon on the phytotoxicity of herbicides in a tropical soil. 12709

Importance of root, shoot, and seed exposure on the herbicidal activity of EPTC. 12722

Phytotoxicity and movement of amiben derivatives in soil. 12729

Response of oak and red maple to herbicides applied with an injector. 12742

Foliar and root absorption of atrazine applied postemergence to giant foxtail. 12744

Phytotoxicity of dithiocarbamate fungicides on Worcester Pearmain. 12871

Effects of 2,4-D and other herbicides on oxidative phosphorylation in mitochondria from cabbage. 12902

Control of scotch grass (Agropyron repens) in sugar beet. 13918

Turf insects and insecticides. 15024

Plant resistance depending on protective surface layers occurring naturally. 15277

Phytotoxicity, leachability, and site of uptake of 2-chloro-2',6'-diethyl-n-(methoxymethyl) acetanilide. 15704

Plant response to herbicide placement in soil. 15724

Bromacil interactions in plant bioassay, fungi culture, and nitrification. 15726

Use of pre-emergence herbicides in navy beans. 15730

Some quantitative aspects of the phytotoxicity of monoterpenes. 15876

Tolerance of cotton to diuron, fluometuron, norea, and prometryne. 15880

Phytotoxicity of methyl bromide to some plant hosts of San Jose scale. 15882

PICEA

A review of lepidopterous pests of coniferous forests in the Baykal Region. 9019

Records of the higher fungi of Minnesota. 9050

Parathion and lindane in the control of the spruce gall aphid. 9346

Investigation into the orientation of the alate Sacchiphantes (Chermes) abietis (L.) in relation to galls and shoots. 11526

Host trees and breeding sites of native North American Pissodes bark weevils, with a note on synonymy. 11884

Micro-morphological changes of lignified cell walls produced by Basidiomycetes (brown rot fungi). 11958

Biochemistry of lignin. 12276

Separation of growth regulators from Picea abies Karst. on Sephadex LH-20. 14095

PICEA ABIES
Physiological and biochemical contribution to fume damage research, 8. Physiological investigations of the action of SO2 on the metabolism of conifer needles in winter. 10432

Where blister rust is a problem. 10695

PICEA GLAUCA
Forest character and vulnerability of balsam fir to spruce budworm in Minnesota. 11521

PICEA MARIANA
Forest character and vulnerability of balsam fir to spruce budworm in Minnesota. 11521

PICEA OMORIKA
Physiological and biochemical contribution to fume damage research, 8. Physiological investigations of the action of SO2 on the metabolism of conifer needles in winter. 10432

PICHIA
The bioecology of Corthylus columbianus Hopkins. 11821

PICLORAM
Some ecological benefits of woody plant control with herbicides. 8396

The response of brush to picloram, dicamba, 2,3,6-TBA and phenoxy herbicides. 8435

Preliminary studies of the effects of cacodylic acid on the activity of 2,4-D and picloram in bean plants. (abstract). 8438

The influence of environment on the phytotoxicity of dicamba, picloram, bromoxynil and 2,4-D ester. 9041

Response of tropical vegetation to herbicides. 10275

Response of ironweed and buckbrush to herbicides and to herbicides in combinations with mowing, nitrogen fertilizer, and surfactants. 10303

Absorption and penetration of picloram in potato tuber discs. 10308

Control of green rabbitbrush and big sagebrush with 2,4-D and picloram. 10310

Response of soybeans to 2,4-D, dicamba, and picloram. 10312

Winged elm control with picloram and 2,4,5-T with additives (Abstract). 10777

An economical control method for vegetation in drainage canals. (Abstract). 10788

Control of winged elm (Ulmus alata Michx.). (Abstract). 10789

Control of broad-leaf dock (Rumex obtusifolius). 10803

Control of bracken fern (Pteridium aquilinum). 10804

Increasing the effectiveness of some herbicides with picloram for control of corn chamomile in barley. (Abstract). 10811

Cooperative research on the control of tropical and subtropical woody plants. (Abstract). 10823

The distribution, content, and movement of picloram after foliar and soil applications on huisache. (Abstract). 10961

Effect of moisture stress on the absorption and transport of herbicides in woody plants. (Abstract). 10974

Further studies on root exudation of exogenous growth regulators in Phaseolus vulgaris L. (Abstract). 10984

Translocation and persistence of dicamba and picloram in Canada thistle. (Abstract). 11047

Direct detection of ionizable herbicides by electrophoresis. 11710

Herbicides have little effect on plant-animal relationships. 12212

Control of live oak by herbicides applied at various rates and dates. 12707

Effect of simulated rainfall on herbicide performance. 12708

Effect of activated carbon on the phytotoxicity of herbicides in a tropical soil. 12709

A cucumber bioassay test for the soil residues of certain herbicides. 12718

Winged elm control with picloram and 2,4,5-T with and without additives. 12720

Response of oak and red maple to herbicides applied with an injector. 12742

✗ Influence of soil properties on phytotoxicity of 4-amino-3, 5,6-trichloropicolinic acid (picloram). 13479

✗ Some factors affecting the disappearance of tordon in soil. 14533

Selective control of Matricaria maritima var. agrestic (false chamomile) by different herbicides. 15066

Control of plumeless thistle. 15107

Time of herbicide and fertilizer applications in relation to herbicide-induced damage to smooth bromegrass. 15108

Leafy spurge control demonstrations in North Dakota. 15117

Chemical control of scentless chamomile. 15118

Picloram, dicamba and 2,4-D to control field bindweed. 15119

Control of Sonchus arvensis (perennial sowthistle). 15142

Uptake of picloram in smooth bromegrass. 15298

Effect of stage of growth of field bindweed on absorption and translocation of C-14-labeled 2,4-D and picloram. 15695

Herbicide concentrations in live oak treated with mixtures of picloram and 2,4,5-T. 15697

Distribution of root-absorbed picloram. 15698

Granular herbicides for woody plant control. 15700

Gains in timothy forage from goldenrod control with 2,4-D, 2,4-DB, and picloram. 15727

✓ Movement and persistence of picloram in pasture soils of Nebraska. 15732

Selective control of plains pricklypear in rangeland with herbicides. 15749

PICORNAVIRUSES
Characterization of avian encephalomyelitis virus (an avian enterovirus). 11591

Properties of the attenuated vaccine strain of duck hepatitis. 11627

Viral diseases of the cat. 12160

Comparative studies on the sensitivity of some of the methods of complement fixation test commonly used for typing of foot-and-mouth disease virus. 14001

Some physical properties of purified neurotropic foot-and-mouth disease virus. 14586

Diaplacentarian immunity to foot-and-mouth virus in nursing rats: correlation and regression. 14594

A study of the physical properties of the immunizing antigen of foot-and-mouth disease virus and the effect of various inactivating agents on its structure. 14620

PICRIC ACID
Flavianic acid as a hatching agent for Heterodera cruciferae Franklin and other cyst nematodes. 11550

PIERICIDIN A
Comparison of binding and inhibitory properties of piericidin A and rotenone in submitochondrial particles. (Abstract). 11064

PIERIDAE
Pieris virginiensis Edwards in Ontario (Lepidoptera: Pieridae). 10505

Eurema salome in Texas (Pieridae). 14767

Uncommon butterflies of northeastern Indiana. 14770

PIERIS
An extreme phenotype of Pieris protodice)Pieridae). 14877

PIERIS BRASSICAE
Relationship between the proteins of the haemolymph and fat body during development of Pieris brassicae. 8097

Preliminary results of the rearing of a hymenopterous chalcid (Pteromalus puparum L.) on the hemolymph of a lepidopteran. 9352

Formaldehyde as an antiviral agent against a granulosis virus of Pieris brassicae. 11251

Resumption of yolk formation after the implantation of corpora allata in Pieris brassicae L. (Lepidoptera). 11305

Amino-acid receptor in larvae of Pieris brassicae (Lepidoptera). 11881

Protein changes in the haemolymph of Pieris brassicae during the last larval instars and the beginning of the pupal stage. 11892

A serological comparison of some iridescent non-occluded insect viruses. 14193

The influence of the photoperiod on hemolymph protein variations in Pieris brassicae L. before the onset of diapause.
14806

Observations on the variations in amount of trehaldse during direct development and diapause in Pieris brassicae L.
14855

Insecticidal activity of substituted phenyl N-methylcarbamates.
15651

PIERIS NAPI
Pieris virginiensis Edwards in Ontario (Lepidoptera: Pieridae).
10505

PIERIS NAPI PSEUDORAPAE
The type material of Pieris napi pseudorapae Verity.
8023

PIERIS RAPAE
Parasitization of imported cabbageworm and cabbage looper eggs on cabbage in Southern California, with notes on the colonization of Trichogramma evanescens.
10556

Effects of environmental factors on the markings of Pieris rapae (Pieridae).
11843

Biochemical composition of host plants of Brassica oleracea var. capitata L. as related to resistance to Trichoplusia ni Hubner and Pieris rapae Linne.
12051

Oviposition by Pieris rapae L. in the insectary.
13673

PIERIS RAPAE CRUCIVORA
On the cross-inoculation of Chilo iridescent virus. CIV.
14206

PIERIS VIRGINIENSIS
Pieris virginiensis Edwards in Ontario (Lepidoptera: Pieridae).
10505

PIESMA
Further experiments regarding the clarification of the connection between the beet lacebug Piesma quadratum (Fieb) and the beet crinkle virus.
14499

PIESMA QUADRATUM
Vectors of virus diseases of sugar beet and their economical importance in the Bydgoszcz voivodeship in the years 1957-1965.
12063

PIESMIDAE
A contribution to the nomenclature of the Piesmatidae (Heteroptera).
11190

PIGEONPEAS
Studies on preemergence screening and mode of selectivity of experimental herbicide 1-(3,4-dichlorophenyl)-3-methyl-2-pyrrolidinone.
12098

Incidence of and losses caused by some pod-infesting insects in different varieties of pigeon-pea (Cajanus cajan (L.) Millsp.).
15003

Preference of the leaf-hopper Empoasca kerri Pruthi (Homoptera: Jassidae) to pigeon pea (Cajanus cajan (L.) Millsp.) plants infected with sterility mosaic virus.
15012

Control campaign against Heliothis armigera in Mysore State.
15023

Effects of some growth-regulators with gametocidal properties on Cajanus cajan (L.) Millsp..
15281

Comparative effectiveness of some modern insecticides against the blossom thrips of red-gram (Cajanus cajan (L.) Millsp.).
15673

PIGEONS
Tylan very effective in treating pigeons.
9173

Pelecitus ceylonensis n.sp., from the chick and ash-dove experimentally infected with larvae from Mansonia crassipes, and from naturally-infected crows in Ceylon.
9767

Organophosphorus poisoning. Some properties of avian esterases.
9805

Prevention of wood-pigeon damage.
10596

Pigeon failure as vector of fowl cholera in turkeys.
12752

On a new cestode, Raillietina (Raillietina) streptopeliae sp. n. from red turtle dove, Streptopelia tranquebarica tranquebarica.
12834

The development of Amidostomum anseris (Zeder, 1800) in the organism of Columba livia domi.
12838

A Herpes virus infection of pigeons.
13371

Infection by Brachylaema fuscata (Rudolphi, 1819) in the domestic pigeon.
15219

PIGMENTS
Cuticular pigments of tobacco hornworm (Manduca sexta) larvae: Effects of diet and genetic differences.
8100

Phenoxazinone synthesis in Drosophila melanogaster.
8170

Phenylalanine induced enhancement of drosopterin formation in the eye color mutant or66k (orange) of Drosophila melanogaster.
8187

Effect of simazine on photosynthetic pigments of green algae.
9209

A preliminary study of the pigment of Corynebacterium ovis.
11632

2-methylenenaphtho(2,3-d)-1,3-dithiole-4,9-diones. Patent 3,429,895.
12316

Some biochemical changes in the contents of the cyst of Heterodera rostochiensis during its maturation.
13896

Evidence of blue and green pigments in the Lepidoptera. Systematic research on pterobiline in various Rhopalocerus.
14891

PIGMENTS (INSECT)
The action of actinomycin D on the pigmentation of albino mutants of the locust Locusta migratoria cinerascens L. (Orthop.).
8756

On the tetrapyrrolic pigments of Lepidoptera,.
8892

Spectral sensitivity of scorpion eyes and the possible role of shielding pigment effect.
11853

PIGMENTS (PLANT)
Effect of flavonoid pigments and gossypol on growth and development of the bollworm, tobacco budworm, and pink bollworm.
13127

Discoloration of chlorella cells treated with several pesticides- utilization of chlorella cells for the study of pesticides.
14693

Maturation of sclerotia produced by Sclerotium rolfsii.
15462

PIGWEED
A study of the activity of diphenamid and three analogs. (abstract).
8582

PIMIENTOS
A new pimiento fruit disorder associated with the feeding of the leaf-footed bug, Leptoglossus phyllopus L.
12056

PINDONE
A new idea from California--lollipop bait cube.
14648

PINE CONES
Effect of cone feeding by Leptoglossus occidentalis on ponderosa pine seed development.
11531

A light-trap bag for collecting live insects.
12378

Notes on insects infesting pine cones in Mississippi.
12681

PINE NEEDLES
Some ecological observations and results of the control of Argyresthia fundella F. R.
9022

Physiological and biochemical contribution to fume damage research, 8. Physiological investigations of the action of SO2 on the metabolism of conifer needles in winter. ,
10432

Studies on the needle rust of the five-needled pines.
13284

Effect of root fungus on mineral nutrition of the pine tree.
13774

PINEAPPLES
Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 2-ethylamino-4-isopropylamino-6-methylthio-s-triazine.
9795

SNA sprays to improve weight and size of spring fruit of pineapples in Taitung.
9836

Cytotoxic effects of extracts from gamma-irradiated pineapples.
12204

Bionomics of Carpophilus foveicollis Murr. in pineapple.
12542

PINUS
How to distinguish attacks by the black turpentine beetle and Dioryctria amatella on southern pines.
8339

Plant-parasitic nematodes in marginal Pinus ponderosa stands in central New Mexico.
8390

Dispersion of released white-pine weevils in intrastand growth types.
8766

A review of lepidopterous pests of coniferous forests in the Baykal Region.
9019

The influence of ectotrophic mycorrhizal fungi on the resistance of pine roots to pathogenic infections. I. antagonism of mycorrhizal fungi to root pathogenic fungi and soil bacteria.
9583

Life history and damage of the pine root tip weevil, Hylobius rhizophagus, in Wisconsin.
10049

Comparison of mycelial and Sclerotial inoculum of Macrophomina phaseoli in the mortality of pine seedlings under varying soil conditions.
10225

Chemical control of growth and flowering of woody ornamental plants in the landscape and nursery: Tests with maleic hydrazide and Alar.
11026

Nursery investigations. Weed control.
11565

Host trees and breeding sites of native North American Pissodes bark weevils, with a note on synonymy.
11884

Biochemistry of lignin.
12276

A light-trap bag for collecting live insects.
12378

Studies on the olfactory stimuli guiding the bark beetle Blastophagus piniperda L. (Coleoptera, Scolytidae) to its host tree.
12476

Treating pine lumber with insecticide and preservative prevents tubing by subterranean termites.
12875

Studies on the needle rust of the five-needled pines.
13284

A study in the use of Dybar for planting site preparation.
13475

Pheromone response in pine bark beetles: Influence of host volatiles.
13665

Effect of root fungus on mineral nutrition of the pine tree.
13774

Pheromone response in pine bark beetles: Influence of host volatiles.
13851

Evidence of hyphal growth of Cronartium quercuum in the pine-host cambium.
14379

Limb rust of pine: The causal fungi.
14430

Overwintering of Tuberculina maxima on white pine blister rust cankers.
14472

The insect ecology of old-field red pine plantations in central Ontario, I. Description of the study area. III. Soil-surface fauna as indicators of stand change.
14548

Biology of Thaumetopoea wilkinsoni Tams in Jordan.
14893

Contribution to the hiology of Brunchorstia pinea (Karst.) Hohn., the cause of a die-back in Austrian and Corsican pine.
14949

PINUS ALBICAULIS
Three new species of Pityophthorus from Canada (Coleoptera: Scolytidae).
12945

PINUS BANKSIANA
Plant-parasitic nematodes of jack and red pine stands in Wisconsin.
13886

PINUS CONTORTA
Needle miner infestations in lodgepole pine east of the Sierra crest.
10267

PINUS CONTORTA LATIFOLIA
Cronartium comandrae in the Rocky Mountain States.
12625

PINUS ECHINATA
Neodiprion taedae linearis: A sawfly pest of lohlolly and shortleaf pines.
8334

PINUS ELLIOTTII
How to distinguish attacks by the black turpentine beetle and Dioryctria amatella on southern pines.
8339

Ecology of slash pine stumps: Fungal colonization and infection by Fomes annosus.
11463

Hylobius weevil larvae attack roots of young slash pines.
15010

PINUS FLEXILIS
Where blister rust is a problem.
10695

PINUS HALEPENSIS
A blight of Aleppo pine (Pinus halepensis).
12655

PINUS KORAIENSIS
Where blister rust is a problem.
10695

PINUS LAMBERTIANA
Where blister rust is a problem.
10695

The sugar pine cone beetle.
11784

PINUS MONTICOLA
The ineffectiveness of cycloheximide and phytoactin as chemical controls of the blister rust disease.
8301

Where blister rust is a problem.
10695

PINUS MURICATA
Pinus sabiniana and Pinus muricata as hosts for Diplodia pinea in California.
11476

Pinus sabiniana and Pinus muricata as hosts for Diplodia pinea in California.
13786

PINUS NIGRA
Brunchorstia die-back of Corsican pine.
12013

Contribution to the biology of Brunchorstia pinea (Karst.) Hohn., the cause of a die-back in Austrian and Corsican pine.
14949

PINUS NIGRA POIRETIANA
Contribution to the biology of Brunchorstia pinea (Karst.) Hohn., the cause of a die-back in Austrian and Corsican pine.
14949

PINUS PALUSTRIS
Light intensity and the ahsorption and translocation of 2,4,5-T by woody plants.
10276

PINUS PARVIFLORA
Where blister rust is a problem.
10695

PINUS PEUCE
Where blister rust is a problem.
10695

PINUS PINEA
Necrosis and die-back in conifers caused hy Diplodia pinea.
13270

PINUS PONDEROSA
Plant-parasitic nematodes in marginal Pinus ponderosa stands in central New Mexico.
8390

Bud characteristics of ponderosa pine related to potential damage by the European pine shoot moth.
10720

Effect of cone feeding by Leptoglossus occidentalis on ponderosa pine seed development.
11531

Photochemical oxidant injury and bark beetle (Coleoptera: Scolytidae) infestation of ponderosa pine. II. Effect of injury upon physical properties of oleoresin, moisture content, and phloem thickness.
13833

Photochemical oxidant injury and bark heetle (Coleoptera: Scolytidae) infestation of ponderosa pine. IV. Theory on the relationships between oxidant injury and bark beetle infestation.
13834

Photochemical oxidant injury and bark beetle (Coleoptera: Scolytidae) infestation of ponderosa pine. III. Effect of injury upon oleoresin composition, phloem carhohydrates, and phloem pH.
13848

Photochemical oxidant injury and bark beetle (Coleoptera: Scolytidae) infestation of ponderosa pine. I. Incidence of bark beetle infestation in injured trees.
13859

PINUS RADIATA
Principal diseases affecting Pinus radiata in Chile.
11449

Sunflower, a new host of Coleosporium madia.
11517

Chlorthal degradation in soils and its uptake by pine seedlings.
11695

Biological studies of Scythropus californicus on Monterey pine in northern California.
11836

Necrosis and die-back in conifers caused by Diplodia pinea.
13270

PINUS RESINOSA
Parasites of Rhyacionia buoliana and their occurrence at different crown levels of red pine in Wisconsin.
12087

Fluctuations of Schizolachnus piniradiatae (Davidson) (Aphididae-Homoptera) populations in the East Cantons in 1967.
13125

Weeds as a factor depressing forest growth.
13361

Plant-parasitic nematodes of jack and red pine stands in Wisconsin.
13886

PINUS SABINIANA
Pinus sabiniana and Pinus muricata as hosts for Diplodia pinea in California.
11476

Rapid intensification and upward spread of dwarf mistletoe in inoculated digger pines.
13780

Pinus sabiniana and Pinus muricata as hosts for Diplodia pinea in California.
13786

PINUS STROBUS
Where blister rust is a problem.
10695

Basal canker of white pine.
11475

PINUS SYLVESTRIS
Field evaluation of three granular systemic insecticides for control of the aphids Eulachnus agilis and Cinara pinea on scotch pine.
8782

Physiological and biochemical contribution to fume damage research, 8. Physiological investigations of the action of SO2 on the metabolism of conifer needles in winter.
10432

Where blister rust is a problem.
10695

On the knowledge of the relationship of the Coccinellidae to pine groves (Pinus silvestris L.).
11530

The effect of bacterial action on some wood cubes in shake culture.
11976

On the question of occurrence of indole-3-acetic acid in Pinus sylvestris.
12299

Laboratory experiments on the olfactory orientation of Blastophagus piniperda L. (Coleoptera, Scolytidae) to substances isolated from pine rind.
13069

A new technique for the comparative evaluation of some organo-metallic wood preservatives.
13515

PINUS TAEDA
New species of mites from pine (Acarina: Tarsochelidae, Eupalopsellidae, Caligonellidae, Cryptognathidae, Raphignathidae, and Neophyllobiidae).
10507

Field control of the Nantucket pine tip moth by the nematode DD-136.
13315

PINUS VIRGINIANA
The function of the endodermis in resistance of Virginia pine seedlings to damping-off.
14956

PIPECOLIC ACID
Biochemical composition of host plants of Brassica oleracea var. capitata L. as related to resistance to Trichoplusia ni Hubner and Pieris rapae Linne.
12051

PIPER BETLE
Prophylactic treatment for raising a pest and disease free crop of 'pan' vineyards. 13782

PIPER NIGRUM
Transmission intensity of stolbur virus by means of Hyalesthes obsoletus Sign. on some host plants. 9619

Phosphorus and magnesium fertilizer studies with pepper. 12277

PIPERAZINE
Wormal granules and wormal tablets. Drugs for veterinary use - drug efficacy study implementation. 12197

Chemoprophylactic sanitation of enterobes. 12840

Piperazine-carbon disulfide complex. Drugs for veterinary use; drug efficacy study implementation. 14547

PIPERONAL BIS(2-(2-BUTOXYETHOXY)ETHYL) ACETAL
Thin-layer chromatography of rat bile and urine following intravenous administration of pesticidal synergists. 9171

PIPERONYL BUTOXIDE
Bi-modal effect of piperonyl butoxide on the o- and p-hydroxylations of biphenyl by mouse liver microsomes. 8566

Thin-layer chromatography of rat bile and urine following intravenous administration of pesticidal synergists. 9171

The toxicity to Tribolium castaneum (Herbst) (Coleoptera, Tenebrionidae) of mixtures of pyrethrins and piperonyl butoxide: Fitting a mathematical model. 10031

Pyrethroid-like biological activity of compounds lacking cyclopropane and ester groupings. 15300

PIPTOCEPHALIS
The occurrence of Piptocephalis in soils and its isolation. 8929

PIPUNCULIDAE
The biology of Pipunculidae (Diptera) parasitising some British Cercopidae (Homoptera). 9501

PIRICULARIA
The problems of plant disease control. 13279

The present state of rice research in India--diseases. 14425

PIRICULARIA ORYZAE
Piricularia oryzae, a problem common to rice growing countries. 8282

Standardization of the international race numbers of Pyricularia oryzae. 10198

Screening for padi blast disease resistance in West Malaysia. 12661

Influence of hydrostatic pressure upon germinability of the spores of some rice-parasitic fungi effects of physical factors upon plant diseases. III. 14376

Interaction between two races of Piricularia oryzae in lesion-formation in rice plants and accumulation of fluorescent compounds associated with infection. 14420

Fungitoxic action of higher alkyl compounds. I. Mechanism of fungitoxic action of alkylphenols. 14665

Physiological effects of pentachlorobenzylalcohol on rice plants. 14690

Inhibitory effect of pentachlorobenzyl alcohol (PCBA) on sporulation of Piricularia oryzae cavara. 14691

PIROPLASMOSIS
The fine structure of Babesia ovis (Piroplasmidea) in Rhipicephalus bursa (Ixodoidea): Transformation of spherical forms to vermicules. 8754

Control of equine piroplasmosis in Florida. 9065

A cytochemical study on merozoites of Babesia ovis and Babesia bigemina (Piroplasmidea) in the hemolymph of ticks. 11409

Control of equine piroplasmosis in Florida. 11590

Equine piroplasmosis: Complement-fixation titers of horses infected with Babesia caballi. 12134

Babesiosoma anseris (n.sp.) investigated in the goose. Cygnopsis cygnoides in Egypt. 12138

Equine babesiosis: diagnosis by bentonite agglutination and passive hemagglutination tests. 12172

Bovine babesiosis: The immunity of calves to Babesia bigemina infection. 12773

D.P.I. tick fever vaccine for reliability. 13368

Equine piroplasmosis in the United States-- a review. 14009

The prevalence of Babesia bovis (Babesia argentina) in the brains of slaughter cattle in Northern Nigeria. 14568

Equine piroplasmosis: Intraerythrocytic development of Babesia caballi (Nuttall) and Babesia equi (Laveran). 14574

The protection of a small group of Nigerian trade cattle from trypanosomiasis using samorin. 14580

Comparative morphologic features of Babesia caballi and Babesia equi. 14614

PISOLITHUS TINCTORIUS
The influence of ectotrophic mycorrhizal fungi on the resistance of pine roots to pathogenic infections. I. antagonism of mycorrhizal fungi to root pathogenic fungi and soil bacteria. 9583

PISSODES
Host trees and breeding sites of native North American Pissodes bark weevils, with a note on synonymy. 11884

PISSODES STROBI
Dispersion of released white-pine weevils in intrastand growth types. 8766

PISSODES TERMINALIS
Host trees and breeding sites of native North American Pissodes bark weevils, with a note on synonymy. 11884

PISTACIA LENTISCUS
A contribution to the study of olive Cecidomyiidae: Lasioptera berlesiana (paoli). 14502

PISTACIA TEREBINTHUS
A contribution to the study of olive Cecidomyiidae: Lasioptera berlesiana (paoli). 14502

PISTIA STRATIOTES
Aquatic weeds. 15709

PISUM SATIVUM
Genetic studies of pea leaf-roll (top-yellows) virus resistance in Pisum sativum. 8942

Invasion of plant tissue by bacteria under in vitro conditions. 8997

The action of gibberillic acid on rhizogenesis in stem pieces of peas (Pisum sativum L.) cultivated in vitro in presence of auxin in darkness or in light. 11005

Growth promotion in pea stem sections. III. By alkyl nitriles, alkyl acetylenes and insect juvenile hormones. 11701

Information on a sap transmissible, seed-, fungus- and insect-borne new virus of garden pea. 12032

Nature and inheritance of resistance to red clover vein mosaic virus in Pisum sativum. (Abstract). 14345

PITCH
How to distinguish attacks by the black turpentine beetle and Dioryctria amatella on southern pines. 8339

The pitch of tobacco mosaic virus. 8948

PITHOMYCES CHARTARUM
Biosynthesis of sporidesmin from amino acids. 14097

PITYOGENES
Field and laboratory studies on sex ratio in Ips acuminatus (Coleoptera: Scolytidae) in Norway. 13008

PITYOGENES CHALCOGRAPHUS
The infestation of timber by bark beetles (Col., Scolytidae) and their enemies in different zones of the Finnish southwestern archipecago. 8823

PITYOGENES QUADRIDENS
The infestation of timber by bark beetles (Col., Scolytidae) and their enemies in different zones of the Finnish southwestern archipecago. 8823

PITYOPHTHORUS
Three new species of Pityophthorus from Canada (Coleoptera: Scolytidae). 12945

PLACENTA
Maternal-fetal sulfur utilization in the bovine. (Abstract). 10866

Diaplacentarian immunity to foot-and-mouth virus in nursing rats: correlation and regression. 14594

PLAGIOHAMMUS SPINIPENNIS
Propagation of a cerambycid borer on a meridic diet. 9394

PLAGUE
Bandicota indica and sylvatic plague in Vietnam. 11913

Control of Oriental rat flea in Vietnam with diazinon dust. 12591

Rat-flea indices, rainfall, and plague outbreaks in Vietnam, with emphasis on the Pleiku area. 15407

Abundance of rodents and fleas as related to plague in Lava Beds National Monument, California. 15817

PLANKTON
DDT reduces photosynthesis by marine phytoplankton. 8557

DDT residues in a East Coast estuary, a case of biological concentration of a persistent insecticide. 9145

The potential role of fishery management in the reduction of Chaoborid midge populations and water quality enhancement.
13730

PLANOCOCCUS CITRI

The breeding of Planococcus citri (Homoptera: Pseudococcidae) on sprouting potato.
9333

Scymnus (Sidis) biekei Fursch, as a foe of Pseudococcus citri Risso.
9893

Studies on an Israel strain of Anagyrus pseudococci (Girault) (Hym., Encyrtidae). II. Some biological aspects.
9964

The coffee root mealybug complex.
10711

Reversal of heterochromatization and the activity of the paternal chromosome set in the male mealy bug.
13193

PLANOCOCCUS KENYAE

The coffee root mealybug complex.
10711

PLANT ABNORMALITIES

Effect of crinkle-scurf of citrus on tree growth, productivity, and fruit quality.
8312

Character expressions and casual genes of some mutants in rice plant. Genetical studies on rice plant, XXXIII.
8930

Colchicine-induced tetraploid azaleas.
10447

Morphological studies of laticifer rupture and leaf development in lettuce, Lactuca sativa L.
10685

Investigation of corking disorders of apples. III. Biochemical changes during the development of cork spot of 'York Imperial' apples.
11965

Some remarks on the corky triangle abnormality of the peach tree.
12018

A new pimiento fruit disorder associated with the feeding of the leaf-footed bug, Leptoglossus phyllopus L.
12056

A result of ethylene imine treatment in malting barley.
14083

Comparison of mutagenic effects of ethylene-imine and ionizing radiations on rice.
14086

Induction of mutants in sweet potato by absorption of 32P.
14092

Induction of mutations in rice by some chemicals.
14093

Mutagenic effects of several alkylating substances in rice with reference to the method of treatment.
14100

Staminal and functional male sterility induced by chemical treatment in Papilionaceous plants.
15280

Double and multiple eared winter rye as a result of abnormal effects of weed controllers containing calcium cyanamide.
15892

PLANT ADAPTATION

Turfgrass research by the California Agriculture Extension Service.
9527

PLANT ANALYSIS

Some aspects of utilization of water hyacinth (Eichhornia crassipes).
11562

PLANT ANATOMY

Honey mesquite stem structure and seasonal growth cycle. (Abstract).
11012

Dormancy and anatomical development of bulbs of wild garlic during the summer and fall after formation. (Abstract).
11041

Research on the modifications of the husks of Bromus inermis. L. (Gramineae) provoked by the Aceria tenuis (Nal.) (Acarina eriophyidae).
12050

The effect of succinic acid 2,2-dimethyl hydrazide on stem and leaf tissues of Chrysanthemum morifolium Bright Golden Anne. (Abstract).
14324

Effect of N-dimenthylamino succinamic acid (Alar) on vegetable growth of chile pepper (Capsicum frutescens) plants. (Abstract).
14338

Studies on the pathological anatomy of rice plants infected by Helminthosporium oryzae, I. Behavior of the causal fungus on the coleoptile of rice seedlings and its ultrafine structure.
14373

Anatomical studies of rice plant infected with bacterial leaf blight, with special reference to wilt symptom.
14460

Effect of D-galaltose on the ultrastructure of bentgrass root apices.
14672

PLANT BIOCHEMISTRY

Experimental research concerning the circumstances and modalities of the return of inflorescence towards the vegetative stage in Salvia glutinosa L.
8577

The contraction of the roots of Arum italicum.
8583

Plant treatment in relation to the rhizosphere effect. III. Foliar application of certain trace elements and metallic chelates in relation to the rhizosphere microflora of rice (Oryza sativa L.).
8588

Effects of light and 2,4-dichlorophenoxyacetic acid on the glutathione reductase and other NADP-UTILIZING enzymes of excised cotton cotyledons.
9187

The effects of combinations of preemergence herbicides and systemic insecticides on cotton stands and yields.
9196

Lipid metabolism in the fruit of Persea americana Mill. I. Studies on the chemical composition of lipids and their changes during fruit development and storage.
9201

Chemical growth retardants for bedding plants.
9203

Oxidative enzymes of Ceratocystis fimbriata isolates differing in host specificity.
9204

The metabolism of carbon-14 specifically labelled glucose in leaves showing tobacco mosaic virus induced local necrotic lesions.
9205

Growth response of turfgrasses to several herbicides.
9211

Battle against the corn borer.
9337

Effect of infection of corn by the fungus Ustilago zeae on the properties of the chlorophyll-protein complex.
9600

DNA base composition and taxonomy of phytopathogenic and other enterobacteria.
9608

Effect of chlorocholine chloride on the growth characteristics, lodging and yield of rice.
9828

Properties of single- and double-stranded ribonucleic acid from barley plants infected with bromegrass mosaic virus.
9834

Effect of inhibitors of nucleic acid and protein synthesis on the reappearance of light interruption rhythm in a long-day duckweep, Lemna gibba G3.
9838

Effect of time of application of gibberellic acid and parachlorophenoxyacetic acid on berry and bunch weight, yield and seedlessness in grape (var. Anab-e-Shahi).
9839

Post-infection changes in the sugar content of leaf-spot infected barley.
10178

Studies on physiology of Helminthosporium australiense the causal agent of a leaf spot disease of bajra.
10226

Biochemical basis for plant competition.
10274

Effects of pyrazon on growth, photosynthesis, and respiration.
10288

EPTC effects on sicklepod petiolar fatty acids.
10315

Physiological and biochemical contribution to fume damage research, 8. Physiological investigations of the action of SO2 on the metabolism of conifer needles in winter.
10432

Discovery of sinigrin as a phagostinmulant by Athalia proxima Klug. (Hymenoptera: Tenthredinidae).
10433

Influence of atrazine (2-chloro-4-ethylamino-6-isopropylamino-5-triazine) on auxin metabolism of plants.
10434

The correlation between physiological activity and physiocochemical property of the substituted phenols.
10437

Effect of dichloro diphenyl trichloro-ethane (DDT) on leghemoglobin content of root nodules of Phaseolus aureus (green gram).
10438

Cytokinins and transfer ribonucleic acids. II. Presence of cytokinins in different amino-acid specific transfer ribonucleic acids of brewer's yeast as revealed by the growth response of tobacco-pith callus tissue and Scorzonera crown-gall tissue.
10439

The mode of action of maleic hydrazide: Inhibition of growth.
10444

Pesticide effect on phosphorus absorption from fertilizer-pesticide mixture applied to a tropical soil with low available phosphorus value.
10445

A survey of the chemical composition of Potamdgeton and Myriophyllum in New Jersey.
10448

Plant sciences and crop husbandry, research report, 1967.
10586

Annual report 1966-67.
10605

Effects of fertilization schedules on flower production, keeping quality, disease susceptibility, and chemical composition at different growth stages of Chrysanthemum morifolium.
10707

Biochemical composition of plants of Cucurbita foetidissima HBK, and Cucumis melo L. as related to cucumber beetle feeding.
10712

Biochemical studies of plants of Cucurbita pepo L. varieties as related to feeding response of squash bug Anasa tristis DeGeer.
10713

Greenhouse studies with hygroscopic compounds as additives to phenoxy herbicides for control of saltcedar (Tamarix pentandra Pall.). (Abstract).
10785

PLANT BIOCHEMISTRY

Weed control in Crambe absynnica. 10821

Persistance of pyrazon in sugar beets in Michigan. (Abstract). 10944

Effect of simazine on quality and composition of tree fruit. (Abstract). 10947

The influence of endothal, dichlobenil, and bromoxynil, on proteolytic activity in the cotyledons of squash seedlings. (Abstract). 10958

The distribution, content, and movement of picloram after foliar and soil applications on huisache. (Abstract). 10961

The influence of magnesium on the toxicity of atrazine. (Abstract). 10962

The effect of 3-amino-1,2,4-triazole on the incorporation of certain amino acids into the soluble protein of bean plants. (Abstract). 10963

Absorption and translocation of 2,4-D-2-C14 by wolftail (Carex cherokeensis Schwein). (Abstract). 10965

The effect of simazine concentration on nitrate reductase levels in several plant species. (Abstract). 10969

Effect of activated carbon and other adsorbents on the biological activity of certain herbicides. (Abstract). 10970

Amiben glucoside formation as a possible mechanism of herbicidal tolerance in plants. (Abstract). 10971

Interaction effects of pesticide combinations on four plants. (Abstract). 10972

Effect of cycocel on foot and root rots, lodging and yield of spring wheat. 10973

Vegetative stimulation of concord grapes following weed control with diuron, monuron, and simazine. (Abstract). 10975

Influence of atrazine on the nitrate content of corn. (Abstract). 10977

Studies on the mode of action of 2-chloro-N-isopropylacetanilide. (Abstract). 10978

The effects of trifluralin on the nucleic acids and carbohydrates content of sweet potatoes and peanuts. (Abstract). 10979

Absorption, translocation and accumulation of labeled N-dimethylaminosuccinamic acid in apple tissues. 10980

Two types of post-emergence activity of CIPC. (Abstract). 10981

Effects of ioxynil on respiration. (Abstract). 10982

Further studies on root exudation of exogenous growth regulators in Phaseolus vulgaris L. (Abstract). 10984

The effect of bromoxynil and dicamba on the water use of barley and tartary buckwheat grown alone and together. (Abstract). 10985

Ethylene, light, and stress in the growth and development of Pisum sativum L. cv. Alaska. 10986

The metabolism of trifluralin by peanuts and sweet potatoes. (Abstract). 10988

Atrazine induced ultrastructural changes of barnyardgrass chloroplasts. (Abstract). 10990

Modes of action of 3-amino-1,2,4-triazole (amitrole). (Abstract). 10991

Some effects of environment and species on absorption and metabolism of amiben in plants. (Abstract). 10992

Absorption, translocation, and metabolism of CIPC in plants. (Abstract). 10993

Selectivity of linuron on parsnip and tomato. (Abstract). 10994

Effect of gibberellic acid on color changes in the rind of three sweet orange cultivars (Citrus sinensis Blanco). 10996

The effect of Zn on yield and chemical composition of sweet corn in the Willamette Valley. 10997

Herbicide resistance in Avena fatua L. (wild oat). (Abstract). 10998

The mode of action of diphenamid in plants. (Abstract). 10999

Soil incorporation and site of uptake for preemergence herbicides. (Abstract). 11001

Adsorption, leaching and lateral diffusion of four thiolcarbamate herbicides in soil. (Abstract). 11002

A comparison of the effects of linuron on photosynthesis and respiration of carrot and common ragweed. (Abstract). 11003

Physical and biological attributes of several amiben derivatives. (Abstract). 11010

Growth and control of Johnsongrass ecotypes. (Abstract). 11011

Pyrethrum. 11013

Influence of butyl ether 2,4-D and ammonium sulphamate preparate on the grass stand of brush steppe in the flood plain of the River Belaya. 11014

Comparison of radioisotopic and gas chromatographic methods for measuring absorption and translocation of 2,4,5-T by mesquite. (Abstract). 11015

Phytotoxic synergism with soil applied herbicide-insecticide combinations. (abstract). 11016

Studies on the growth regulator CCC (2 chloroethyl trimethyl ammonium chloride) on wheat. 11017

Effect of trifluralin on oxygen uptake and oxidative phosphorylation in isolated mitrochondria. (Abstract). 11018

Site of uptake of pre-emergence herbicides. (Abstract). 11020

Higher survival rate of highly irradiated barley in a pot test, after fertilization with (2-chloroethyl) trimethylammonium chloride (CCC) and ammonium sulfate. 11021

The metabolism of pyrazon in red beets. (Abstract). 11023

Effect of herbicides on growth of established Midway and Surecrop strawberry plants given replant treatments of activated charcoal. (Abstract). 11027

The effect of trifluralin on nucleic acids and protein of corn roots. (Abstract). 11028

Dealkylation of atrazine in higher plants and its significance. (Abstract). 11030

Toxicity of surfactant-herbicide combinations to Lemna minor (L.). (Abstract). 11032

The effects of CIPC vapors on the control of dodder seedlings. (Abstract). 11033

Metabolism of amitrole-C14 in excised bean and Canada thistle leaves. (Abstract). 11034

Variations in acidity of cell constituants as influenced by application of herbicides and organic acids. (Abstract). 11035

The metabolic fate of propanil. I. (Abstract). 11038

The metabolic fate of propanil, II. (Abstract). 11039

Monuron degradation and recovery of monuron-inhibited photosynthetic activity. (Abstract). 11042

Studies on the selective action of trifluralin between soybeans and sorghum. (Abstract). 11043

The influence of simazine on growth and nitrogen metabolism of corn. (Abstract). 11044

Effects of hydrophilic-lipophilic balance (HBL) of nonionic surfactants on phytotoxicity of linuron and prometryne to carrots. (Abstract). 11045

Translocation and persistence of dicamba and picloram in Canada thistle. (Abstract). 11047

Biological studies of barnyardgrass. (Abstract). 11048

Root temperature and transpiration influences on atrazine absorption and translocation. (Abstract). 11049

Effect of quinones on Chlorella pyrenoidosa. (Abstract). 11055

Sorption of diuron and propanil to proteins. (Abstract). 11060

Variation in tricarboxylic acid cycle enzymes during pathogenesis in cotton plant. 11450

The structure of tobacco mosaic virus from base analogue treated tobacco leaves. 11493

Histochemical evidence of the abundance of soluble amine products in the nutrient tissues of galls. 11522

Preference studies with hosts and nonhosts of the boll weevil, Anthonomus grandis. 11536

Amino acids in hosts and nonhosts of the boll weevil, Anthonomus grandis. 11537

Influence of maize dwarf mosaic virus and trace levels of atrazine on weight and foliar element accumulation by two single cross maize hybrids in the greenhouse. 11569

Potential interferences in certain pesticide residue analyses from organochlorine compounds occurring naturally in plants. 11694

Chlorthal degradation in soils and its uptake by pine seedlings. 11695

Reaction of CCCP in photosynthesis on an intermediate between chlorophyll-all and water. 11699

Influence of peroxidase and catalases on mycelial growth and pycnidium production by Plenodomus meliloti in light and darkness. 11702

Some properties of mitochondria and ribosomes of infected plant tissues. 11932

Investigation of corking disorders of apples. III. Biochemical changes during the development of cork spot of 'York Imperial' apples.
11965

Yellow virus effects on macro- and micro-elements in 'Montmorency' sour cherry leaves.
11989

The disruption of lysosome-like particles of Solanum tuberosum cells during infection by Phytophthora erythroseptica Pethybr.
12011

Biochemical composition of host plants of Brassica oleracea var. capitata L. as related to resistance to Trichoplusia ni Hubner and Pieris rapae Linne.
12051

Juvenility as related to chemical content and rooting of stem cuttings of Pyrus species.
12230

Horticulturists study - effects of long-term exposure to 2,4-D.
12232

The effect of 3-amino-1,2,4,-triazole on the ultrastructure of plastids of Triticum vulgare seedlings.
12237

The physiology of wood fungi. A survey on recent research results.
12238

Enhancing the activity of chemical growth retardants. Part one of a discussion of UNI-F529 as it compares with B995 as a chemical growth retardant.
12241

The enzymes hydrolysing carbohydrates of xylophagous insects parasitic of softwoods and some other forest trees.
12245

Distribution and reuse of nitrogen in wood-destroying fungi.
12246

Chemical modification of wood during microbial deterioration.
12247

Herbicidal activity of 1-(3-chloro-4-methylphenyl)-3-methyl2-pyrrolidinone. (Abstract).
12251

Effect of iron and manganese deficiency on the chlorophyll, amino acid and organic acid status of leaves of macadamia.
12255

Size differences of nuclei in meristem of Elodea treated with various concentrations of monochloroacetic acid, dichloroacetic acid, and trichloroacetic acid.
12256

Bioassay determination of gamma-BHC absorbed from soil and translocated in potted rice plants.
12266

Decay patterns produced by Chaetomium globosum in beechwood fibers. A chemical and microscopic study.
12270

Amount and distribution of nitrogen in wood and its influence on wood deterioration.
12274

Effect of some growth substances on Tricholoma giganteum Massee.
12275

Biochemistry of lignin.
12276

Gibberellin-like substances in after-ripening seeds of Prunus avium L. and their possible role in dormancy.
12279

On the function of the phenol oxydases of wood-rotting fungi.
12284

The causes of variations in the natural durability of wood: Inherent factors and ageing and their effects on resistance to biological attack.
12285

On the decomposition of wood cellulose by organisms.
12290

Lignolytic activity of white-rot fungi.
12293

Leaf symptoms of Manganese deficiency in avocado trees.
12298

On the question of occurrence of indole-3-acetic acid in Pinus sylvestris.
12299

Degradation of turnip yellow mosaic virus by freezing and thawing in vitroi A new method for studies on the internal organization of the viral components and for isolating native RNA.
12620

Relation between the beta-glucosidases and fungus infection in corn.
12630

In situ breakage of turnip yellow mosaic virus RNA and in situ aggregation of the fragments. Analysis of successive stages.
12648

Effect of several herbicides on proteolytic activity of squash seedlings.
12704

Environmental influence on bentgrass treated with silvex.
12712

The effect of linuron on ion uptake in corn, soybean, and crabgrass.
12732

Superficial scald, a functional disorder of stored apples. IV. - Effect of variety, maturity, oil wraps and diphenylamine on the concentration of alpha-farnesene in the fruit.
12870

Analysis of crops and soils for residues of chlorfenvinphos insecticide and its breakdown products.
12887

A note on boron toxicity in young replantings.
12901

Identification of ethylene in gibberellic-acid-treated potatoes.
12904

Effect of gibberellin A3 on concentration of DNA, RNA, and protein in pea plant (Pisum sativum L.).
12906

Aflatoxins: Improved resolution by thin layer chromatography.
12907

Laboratory experiments on the olfactory orientation of Blastophagus piniperda L. (Coleoptera, Scolytidae) to substances isolated from pine rind.
13069

Aromatic compounds in the host-parasite interaction.
13282

Biochemical aspects of parasitism by the angiosperm parasites. I. Phosphate fractions in the leaves of loranthus and hosts.
13354

On the use of herbicides in Vietnam; A statement by the board of directors of the American Association for the Advancement of Science.
13355

Effect of simazine on nitrate reductase activity in corn.
13359

Properties and effects on WL-9385-D on rice and some weed species.
13467

The effects of moisture and temperature on growth and spore germination in some fungi.
13468

Interactions between steroids in the growth of Phytophthora.
13476

Kinetics of growth retardant and hormone interactions in affecting cucumber hypocotyl elongation.
13485

The effect of (2-chloroethyl) trimethylammonium chloride (CCC) on the grain yield and quality of rye in field trials.
13487

Opposing effects of gibberellin and ethylene.
13490

Biochemical aspects of parasitism by the angiosperm parasites: Changes in nucleic acid content of infected hosts.
13491

Aflatoxin-producing potential of isolates of the Aspergillus flavus-oryzae group from peanuts (Arachis hypoghea).
13493

Effect of ethylene and gibberellic acid on auxin synthesis in plant tissues.
13496

The influence of phosphate on the phytotoxicity of 3-amino-1,2,4-triazole.
13497

Study on the fatty acid composition during germination of peanuts treated with growth regulators.
13498

On certain peculiarities of the parasitism of the tobacco broom rape.
13749

Influence of maize dwarf mosaic virus and trace levels of atrazine on weight and foliar element accumulation by two single cross maize hybrids in the greenhouse.
13757

Comparative study on reducing sugars and sucrose contents of two types of cotton and some of their synthesized strains containing some blackarm resistance genes.
13779

Studies on the brown-eye-spot disease (Cercospora coffeicola B. and Cke.) of coffee (Coffea arabica L.) I. Emanation of ethylene from infected leaves.
13819

On some alterations in the composition of wheat grain damaged by wheat bugs (Eurygaster and Aelia).
13826

Photochemical oxidant injury and bark beetle (Coleoptera: Scolytidae) infestation of ponderosa pine. II. Effect of injury upon physical properties of oleoresin, moisture content, and phloem thickness.
13833

Photochemical oxidant injury and bark beetle (Coleoptera: Scolytidae) infestation of ponderosa pine. III. Effect of injury upon oleoresin composition, phloem carbohydrates, and phloem pH.
13848

Translocation of eight C14-labeled amino acids and three herbicides in two varieties of barley.
13921

Effects of (2-chloroethyl) trimethyl ammonium chloride (CCC) on Hyoscyamus albus plants.
14070

Gibberellin response of dwarf mutants of rice.
14075

The influence of alar (N-dimethylaminosuccinamic acid) on maturation of apples and pears.
14076

Cytokinin activity and chemical structure of certain derivatives of N-allyl-N'-phenylthiourea.
14078

Investigation of natural auxins and growth inhibitors.
14079

Effect of soil type on uptake of magnesium by pasture plants.
14082

A result of ethylene imine treatment in malting barley.
14083

Efficiency of mutation induced by the absorption of beta emitting radioisotopes in plants.
14085

Comparison of mutagenic effects of ethyleneimine and ionizing radiations on rice. 14086

The effect of gibberellin and auxin on IAA oxidase and peroxidase activity in mesocotyl cuttings of corn. 14087

Detoxification of 2,4-D in plants depending upon the peculiarities of its application. 14089

Studies on the molybdenum availability. Part II. The effect of molybdenum and calcium treatment on the uptake of molybdenum by plants. 14091

Induction of mutants in sweet potato by absorption of 32P. 14092

Induction of mutations in rice by some chemicals. 14093

Influence of Co60 gamma radiation on the water regime and drought resistance of peppermint plants. 14094

Effect of (2-chloroethyl) trimethylammonium chloride (CCC) and gibberellic acid (GA3) on the flowering of Chenopodium rubrum L. 14096

The action of 1-alkyl-1-nitrosoureas and 1-alkyl-3-nitro-1-nitrosoguanidines on the Mi generation of barley and Aradidopsis thaliana (L.) Heynh. 14098

Mutagenic effects of several alkylating substances in rice with reference to the method of treatment. 14100

Effect of cell poisons on the colloid-chemical properties of the cell. 14102

The Tea Research Institute of Ceylon. Annual Report for the year 1966. Part II. 14304

Effects of Cercospora leaf spot and dates of harvest on sugar beet varieties with or without Maneb treatment. 14358

Removal of pseudomonads from plant leaves and measurement of their in vivo beta-glucosidase synthesis. 14369

Levels of shikimate and folate in primary leaves of wheat and in uredospores of leaf rust. 14372

Strains of tobacco mosaic virus contained in cigarettes, with especial reference to the infection source for mosaic disease of tomato. 14389

Controlling effect of phenylhydrazine derivatives on rice blast in relation to the structural modifications. 14402

Contribution to the investigation of chemoendotherapy of sugar beet infected by Cercospora beticola Sacc. 14408

Interaction between two races of Piricularia oryzae in lesion-formation in rice plants and accumulation of fluorescent compounds associated with infection. 14420

Isolation of rishitin from tubers of interspecific potato varieties containing different late-blight resistance genes. 14443

An approach to the elucidation of host-parasite interaction. 14450

The effect of cycloheximide on the resistance of potato tuber discs to invasion by a fluorescent Pseudomonas sp. 14477

Experiences with Patoran (metabromuron) on weed control in bean shrubs. 14526

The influence of CCC on lodging and development of grain. 14680

Biological activity and dissipation of IPC and Cipc. (Abstract). 14686

Physiological effects of pentachlorobenzylalcohol on rice plants. 14690

Inhibitory effect of pentachlorobenzyl alcohol (PCBA) on sporulation of Piricularia oryzae cavara. 14691

Controlling effect of pentachlorobenzyl alcohol on rice blast. 14692

Discoloration of chlorella cells treated with several pesticides- utilization of chlorella cells for the study of pesticides. 14693

Exocellular deoxyribonuclease I of Penicillium chrysozenum Part I. Partial purification and properties of the enzyme. 14694

Isolation of securinin from the herb of Securinega suffruticosa (Pall.) Rehd. cultivated in Poland. Polymorphism of securinin. 14919

Changes in concentration of free amino acids by selection from yellows infected sugarbeet leaves. 14944

The importance of guttation fluid on turf diseases. 14954

Measurement of the synthesis of plant viruses through the incorporation of radioactive precursors of ribonucleic acid. 14962

Synthesis of RNA in extracts of leaf-cells infected by photoviruses. 14990

Effect of different forms and levels of phosphorus in presence and absence of molybdenum on growth and yield of berseem. 15282

Growth promoting effect of certain amino acids on the Agaricus fruit body. 15284

Simple carboline alkaloids III. Chromatographic investigations of harman alkaloids in the plants: Amsonia tabernaemontana Walt., Apocynum cannabinum L. and Hippophae rhamnoides L.. 15287

Cucumber sex expression modified by 2-chloroethanephosphonic acid. 15288

The effect of molybdenum on the amino acid content in beans. 15293

Emergence of velvetleaf (Abutilon theophrasti) and of wild cane (Sorghum bicolor) from different seed depths and site of uptake of various chemicals. 15295

Determination of indole derivatives in plant material. VIII. The content of glucobrassicine in various races of Brassica oleracea var. sabauda and Brassica oleracea var. capitata L. and its relation to the growth in these plants. 15459

Determining the indole derivatives in the natural material. VII. Fluorimetric determination of the indole-3-acetic acid, indole-3-propionic acid and indole-3-butyric acid. 15460

RNA synthesis in tobacco leaves infected with tobacco mosaic virus. 15470

Method for testing the health condition of lettuce seeds. 15544

Differenciation of biochemical types of sources of Pseudomonas solanacearum (Smith) Smith. 15566

The incoporatins on 14C uridine in fragments of barley laves infected with bromegrass mosaic virus. 15584

Adsorption and desorption of lindane and dieldrin by yeast. 15676

Effect of stage of growth of field bindweed on absorption and translocation of C-14-labeled 2,4-D and picloram. 15695

Absorption and translocation of 2,4D by wolftail (Carex cherokeensis Schwein). 15702

Effects and cultural compatibility of cabbage herbicides. 15712

Bromacil interactions in plant bioassay, fungi culture, and nitrification. 15726

Translocation and metabolism of MAA-C14 in johnsongrass and cotton. 15733

Absorption and translocation of simazine in parrotfeather. 15740

Response of turkey oak to 2,4,5-T as a function of final formulation oil content. 15744

Plant and soil arsenic analyses. 15750

Tolerances and exemptions from tolerances for pesticides chemicals in or on raw agricultural commodities. O,Odiethyl S-2-(ethylthio)ethyl phosphorodithioate. 15859

Notice of filing of petition regarding pesticide chemical. 15860

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O,O-Dimethyl S-(4-Oxo-1,2,3-Benzotriazin-3(4H)-ylmethyl) Phosphorodithioate. 15865

Temperature and the synthesis of viral protein material in Nicotiana Xanthi n. c. infected with tobacco mosaic. 15894

The role of gibberellins in phytochrome mediated responses. 15900

Photoinhibition of auxin and its bearing on phototropism. 15903

PLANT BREEDING

Varietal resistance to rice stem borers in India. 8355

Studies in polyploid varieties of sugar beets. X. Chromosomal variation in progeny of crosses involving diploid, triploid and tetraploid plants. 8931

The relative efficiency of ear-to-row and convergent improvement in increasing disease resistance of Zea mays. 8996

Vivipary in Zea mays induced by Diplodia maydis. 9554

Introduced seed-borne pathogens endanger crop breeding and plant introduction. 9580

Colchicine-induced mutations in a trispecific Nicotiana hybrid. 9826

Breeding for rust resistance. Advances in genetics give hope for total immunity. 10211

Bees as pests. 10244

Plant sciences and crop husbandry, research report, 1967. 10586

Gibberellin induced heterostyly in the tomato and its implications for hybrid seed production. 10593

General breeding, breeding for resistance to blight and potato root eelworm. 10599

Plant breeding. 10603

Annual report 1966-67. 10605

Breeding for resistance to downy mildew. 10665

Inheritance of resistance to Mycosphaerella citrullina in muskmelon. 10687

Field response of a new line of cotton (Gossypium hirsutum L.) to Fusarium wilt (Fusarium oxysporum f. vasinfectum (Atk.) Snyder and Hansen-- data from 1967/68. 10702

The relationship of silk balling, husk length, husk tightness and blank tip to earworm and sap beetle resistance in maize. 10737

Moderate tolerance of bean varieties to brown spot bacterium (Pseudomonas syringae). 11460

Reaction of dent corn inbreds and hybrids to Aceria tulipae and wheat streak mosaic virus. 11512

National Vegetable Research Station: Seventeenth Annual Report, 1966. 11914

Growing trellised tomatoes in western North Carolina. 11917

Selection for resistance and chemical control of Rhizoctonia root rot disease of sugarbeets. 11931

Inheritance of resistance in carrot, Daucus carota var. Sativa, to the leaf spot fungus, Cercospora carotae. 11936

Breeding studies of Verticillium wilt resistance in X Fragaria ananassa Duch. 11954

Breeding for Rhizoctonia resistance in sugarbeet. 11972

Inheritance of resistance to powdery mildew in the cultivated strawberry. 11981

Differential response,of a few improved and local varieties as well as a hybrid line of jute to stem-rot (Macrophomina phaseoli) and anthracnose (Collectotrichum corchori). diseases. 12619

Yuzuhada, a physiological disorder of oriental pear, and its possible relation to black-end and hard-end of Bartlett. 12656

Tree planting guide for rural South Australia. 13229

Breeding for disease resistance in the potato. 13765

Efficiency of mutation induced by the absorption of beta emitting radioisotopes in plants. 14085

Narrow leaves reduce boll rot. 14341

Breeding for disease resistance and yield improvement in flue-Cured tobacco. 14394

Greenhouse testing of sugar beets for resistance to curly top. 14446

Observations on the tolerance and susceptibility of tea clones to shot-hole borer investigation-- 1969. 14500

Problems of storing plant disease data for retrieval by automatic data processing machines. 14922

Short note on varietal resistance of Indian linseed to wilt (Fusarium oxysporum F. Lini). 14970

Occurrence of physiologic races of wheat and barley rusts in India during 1962--64 and their sources of resistance. 14983

Resistance of maize inbreds and hybrids to noctuid. Sesamia nonagrioides Lef. 15002

The breeding of Lucerne Medicago sativa L. for resistance to Verticillium albo-atrum Rke. et Berth. III. Transgressive segregation in F3 and the effect on resistance of certain systems of inbreeding. 15558

Production of vegetable varieties resistant to diseases. 15586

Resistance of varieties of Portuguese wheat, Triticum aestivum L. em. Thell., to the wheat stem sawfly. 15677

PLANT BUDDING

Effect of several herbicides on flower production, growth and weed control in marigolds. 8590

Plant hormones and flowering in coffee. 9824

Bud characteristics of ponderosa pine related to potential damage by the European pine shoot moth. 10720

Symptoms of rasp leaf virus disease on peach. 11983

Influence of apical dominance on bud dormancy in western ironweed. 14924

Sprouting of western ironweed buds as affected by their age and position of the rhizome. 14925

Cucumber sex expression modified by 2-chloroethanephosphonic acid. 15288

PLANT COLLOIDS

Effect of cell poisons on the colloid-chemical properties of the cell. 14102

PLANT COMPOSITION

Effect of simazine on quality and composition of tree fruit. (Abstract). 10947

PLANT CONTAMINATION

The method and role of vertical transmission of a nucleopolyhedrosis virus in the European spruce fly, Diprion hercyniae. 8818

PLANT CUTTINGS

The effect of environment on root suckering in Robinia pseudoacacia L. (Abstract). 11037

Biological studies of barnyardgrass. (Abstract). 11048

Experiments with the propagation of Polyantha and hybrid tea roses by softwood cuttings. 11691

Juvenility as related to chemical content and rooting of stem cuttings of Pyrus species. 12230

Cytological and morphological evidence for the single-cell origin of vegetatively propagated shoots in thirteen species of Saintpaulia treated with colchicine. 12233

Interaction of photoperiod and auxin metabolism in rooting of Chrysanthemum morifolium cuttings. 12269

Effect of foliar applications of 3-indolebutyric acid on rooting of cuttings of ornamental plants. 12273

The effect of gibberellin and auxin on IAA oxidase and peroxidase activity in mesocotyl cuttings of corn. 14087

Rooting of narrowleaf evergreen cuttings as influenced by various hormone treatments. (Abstract). 14318

Use of high speed centrifugation to obtain extracts from cuttings treated by terminal applications of indoleacetic acid-3 (IAA-2-14C). (Abstract). 14323

Stimulation and retardation of adventitious root formation by application of B-Nine and Cycocel. 14327

Control of Agropyron repens (quackgrass) by rotavator. 15068

PLANT CYTOLOGY

The elongation of stamen filaments in Graminaceae. 8589

Cell-wall deposition and the distribution of cytoplasmic elements after treatment of pea internodes with the auxin analog 2,3,5-triiodobenzoic acid. 9188

Atrazine induced ultrastructural changes of barnyardgrass chloroplasts. (Abstract). 10990

Contribution to the cytology of Hymenomycetes: VII. Karyological studies in Polyporus agariceus Berk. 11918

Cytological and morphological evidence for the single-cell origin of vegetatively propagated shoots in thirteen species of Saintpaulia treated with colchicine. 12233

Gross morphological and cytological effects of nitralin on corn roots. 12721

Ultrastructure of fungi. 13241

Anatomy of plant virus infections. 13249

Sites of virus synthesis within cells. 13285

The effect of sodium replacement on the electroretinogram recorded from the cockroach ocellus. 14179

The ultrastructure and physiology of the abdominal air-guide retractor muscles in the giant water bug, Lethocerus. 14277

Studies on the pathological anatomy of rice plants infected by Helminthosporium oryzae, I. Behavior of the causal fungus on the coleoptile of rice seedlings and its ultrafine structure. 14373

The fine structure of hyphae of Helminthosporium oryzae Ito et Kurib. and Pyricularia oryzae Cavara. 14679

Infection of bean root- meristems by tobacco ringspot virus. 15488

Interaction between viral RNA and cellular components in tobacco leaves infected with tobacco mosaic virus. 15527

Fine structure of zinnia leaf tissues infected with dahlia mosaic virus. 15528

The incidence of tobacco mosaic virus in plastids of etiolated tobacco leaves. 15564

Modification in the nuclear structure of tobacco infested with tobacco mosaic virus at 32 degrees C. 15571

On the presence of a pathogenic gradient of action in the cytological development of tumors caused by Eriosoma lanigerum Hausm. on Pyrus malus L. cult. Calville blanc. 15646

PLANT DISEASE CONTROL

Save your potato crop from fungal and bacterial diseases.
8286

Contribution to the etiologic study and control of beet germ rotting.
8311

Turfgrass research by the California Agriculture Extension Service.
9527

Soil treatment by microwave energy to destroy plant pathogens.
9546

Pepper production in Kentucky.
9558

Value of immune mouse ascitic fluid in plant virus serology.
9603

Elements for the differentiated application of quarantine and control measures of potato canker.
10221

Plant protection. Bulletin of the plant disease control station of Geneva. July.
10610

Fire blight research and control measures in the United States.
10624

Anthracnose of french bean.
10680

Inhibition of tobacco mosaic virus infectivity by the fungus Thielaviopsis basicola (Berk. Br.) Ferr..
12615

The economics of disease control in Hevea.
12646

Postharvest heat treatment to control storage rots of Spadona pears.
13238

The problems of plant disease control.
13279

The work of a plant pathologist.
13806

Fruiting response of the highbush blueberry to applied gibberellic acid under field conditions. (Abstract).
14308

Internal brown spot--a condition in yams in Barbados.
14352

Investigations concerning a root rot on Phalaenopsis hybrids and its causative agent (Fusarium oxysporum).
14363

A contribution to studies on the biology and control of apple mildew (Podosphaera leucotricha (Ell. and Ev.) Salm.).
14383

Potato wart in Sweden and National measures for its control.
14707

On plant protection in special cultures with particular regard to the Bavarian conditions.
14913

Virus disease problems in Ontario fruit orchards and vineyards.
14931

Brown rot of stone fruits.
14964

Integrated control of hop wilt II. Protection by methods of soil hygiene.
14988

Pest and disease control schedules.
15455

Ornamental and floral crops disease control.
15469

Strawberry disease control.
15484

Pertinant use of histochemical methods of curing floral plants injured by bacteria.
15536

Control of mosaic of tobacco, peppers, and tomatoes with milk.
15538

Control of mosaic of tobacco, peppers, and tomatoes with milk.
15539

Observations on epidomology and experiments to decrease damage of the alfalfa leaf-spot disease.
15575

Tobacco--wildfire control in burley plant beds.
15596

PLANT DISEASE RESISTANCE

Development of controlled conditions for the study of red stele disease on strawberries.
8216

Resistance of strawberry varieties to leaf scorch disease.
8314

Corn stunt vector leafhopper attractancy to and oviposition preference for hybrid dent corn. I. Dalbulus maidis.
8732

Team alfalfa scores high.
8926

Genetic studies of pea leaf-roll (top-yellows) virus resistance in Pisum sativum.
8942

The development of resistance in Cladosporium cucumerinum against 6-azauracil, a chemotherapeutant of cucumber scab, and its relation to biosynthesis of RNA-PRECURSORS.
8944

Pattern of cell death in sorghum stalk tissue as a measure of the susceptibility to spread of Colletotrichum graminicola in fifty-five sorghum varieties.
8965

The relative efficiency of ear-to-row and convergent improvement in increasing disease resistance of Zea mays.
8996

Boll-rot potential, organisms involved, and actual boll rot in seven cotton varieties.
9545

The protection of apple tissue against infection by Erwinia amylovora afforded by avirulent strains of E. amylovora, a saprophytic bacterium and other bacterial plant pathogens.
9565

The nature and effect of adult plant resistance to crown rust in several commercial oat varieties.
9567

Susceptibility of potato varieties to powdery scab. (Spongospora subterranea(Wallr.) John).
9571

Relationship of living and dead cells to spread of Colletotrichum graminicola in sorghum stalk tissue.
9574

Mwitunde groundnuts and their reaction to virus infection in South Africa.
9576

Inheritance of resistance to three races of leaf rust in wheat variety Bowie.
9582

The influence of ectotrophic mycorrhizal fungi on the resistance of pine roots to pathogenic infections. I. antagonism of mycorrhizal fungi to root pathogenic fungi and soil bacteria.
9583

Monilia laxa as an important factor reducing the yield of some plum varieties (Monilia laxa (Ehrenb.) Aderh. et Rubl.).
9596

Helminthosporium leaf blight- a new disease of cotton in the Punjab and Haryana.
9609

Recent advances in the control of soil fungi.
9616

Corn stunt vector leafhopper attractancy to and oviposition preference for hybrid dent corn. II. Graminella nigrifrons.
9992

Verticillium wilt of tobacco. VI. The influence of roots and stems on Verticillium wilt symptoms in tobacco.
10186

Breeding for rust resistance. Advances in genetics give hope for total immunity.
10211

Verticillium wilt of tobacco. VIII. Movement of conidia of Verticillium dahliae Kleb. in tobacco plants.
10230

General breeding, breeding for resistance to blight and potato root eelworm.
10599

Annual report 1966-67.
10605

Degree of resistance of some watermelon (Citrullus vulgaris Schrad.) varieties to the Fusarium wilt (Fusarium oxysporum (Schlecht.) F. niveum (E. F. SM) tsnyder Hansen.
10620

A new race of stripe rust pathogenic on the wheat variety Moro, CI 13740.
10622

Resistance of barley varieties to Cercosporella herpotrichoides.
10634

Comparison between products effective against both powdery mildew and oidium.
10641

Breeding for resistance to downy mildew.
10665

Inheritance of resistance to Mycosphaerella citrullina in muskmelon.
10687

Resistance to Rhizoctonia solani in Phaseolus vulgaris (snap bean).
10688

Effects of lime on potato blight.
10690

Downy mildew of sugar beet.
10691

Where blister rust is a problem.
10695

A severe form of Verticillium albo-atrum in Gossypium barbadense in Peru.
10698

Seed infection and transmission of bacterial leaf streak of rice.
10701

Field response of a new line of cotton (Gossypium hirsutum L.) to Fusarium wilt (Fusarium oxysporum f. vasinfectum (Atk.) Snyder and Hansen-- data from 1967/68.
10702

Predisposition of virus-infected plants to fungus root-diseases.
10703

Effects of fertilization schedules on flower production, keeping quality, disease susceptibility, and chemical composition at different growth stages of Chrysanthemum morifolium.
10707

Cereal cyst eelworm, (Heterodera avenae).
10745

Three years of tests with cycocel and its miscibility with herbicides.
11019

Plant pathology.
11446

Variation in tricarboxylic acid cycle enzymes during pathogenesis in cotton plant.
11450

Leaf rust resistance of some European varities of wheat.
11451

Moderate tolerance of bean varieties to brown spot bacterium (Pseudomonas syringae).
11460

Pests and diseases of the date palm. Part II. Diseases.
11464

Varietal differences in oat blue dwarf virus resistance and symptom expression. **11473**

Studies on losses in wheat yield due to artificial epidemic of black rust of wheat at different stages of growth. **11488**

Susceptibility of tea clones to collar and branch canker disease (Phomopsis theae). **11501**

PLANT DISEASE TRANSMISSION

Evidence of transovarial passage of the sowthistle yellow vein virus in the aphid Hyperomyzus lactucae.
8317

Contribution to the migratory behavior of Xiphinema diversicaudum (Mikoletzky) Thorne, X. coxi Tarjan and Longidorus macrosoma Hooper, as well as the diffusion of rhubarb mosaic virus in the field.
8382

Occurrence of virus particles in the phloem tissue of BYDV-infected barley.
8962

Transmission of apple viruses by leaf tissue implantation.
8992

Transmission of strawberry mottle virus by juice and aphids to herbaceous hosts.
9007

Additional evidence of multiplication of the sowthistle yellow vein virus in an aphid vector-serial passage.
9024

Chromatographic purification of the oat blue dwarf virus.
9547

The impietratura disease of citrus fruits.
9548

Occurence of tomato ringspot virus in red raspberries in the eastern United States.
9556

Potato blackleg and tuber soft rot.
9566

A contribution to the study of Alternaria tenuis Nees causer of the leaf spot of tomato.
9581

Mechanical transmission of coconut lethal yellowing.
9594

Transmission intensity of stolbur virus by means of Hyalesthes obsoletus Sign. on some host plants.
9619

Transmission of dwarf, yellow dwarf, stripe, and black-streaked dwarf.
9631

Transmission of tobacco ringspot virus to the roots of a conifer by a nematode.
9652

Translocation of tobacco ringspot virus in cucumber and zinnia.
10206

Verticillium wilt of tobacco. VIII. Movement of conidia of Verticillium dahliae Kleb. in tobacco plants.
10230

Common leafhopper-planthopper populations and incidence of tungro virus in diazinon-treated and untreated rice plots.
10234

Comparative efficiency of transmission of aster yellows by Elymana virescens and Macrosteles fascifrons and the relative concentration of the causal agent in the vectors.
10238

Efficiency of three colonies of melon aphids as transmitters of Tristeza virus.
10258

Longevity and role of Verticillium-and Fusarium-diseased plant materials in infection of new cotton crops.
10614

Summer death--a new disease of beans.
10619

Dissemination of waterborne Erwinia amylovora by wind in nursery plantings.
10621

The presence of mycoplasma-like particles in the phloem of plants infected with three European yellow diseases: tomato stolbur, gladiola aster yellow, and clover phyllody. Cytological and ultrastructural studies. Preliminary remarks on chemical control.
10633

Citrus exocortis virus--Chemical inactivation on tools, tolerance to heat and separation of isolates.
10696

The propagation of Stecklenberg disease in a sour cherry tree.
10699

Seed infection and transmission of bacterial leaf streak of rice.
10701

Relationship of the green peach aphid to incidence and severity of lettuce mosaic.
10717

Watermelon mosaic virus transmission and probing behavior by the green peach aphid as affected by physical agitation.
10734

Inactivation of virus inhibitors in aphids.
10741

Occurrence of Trichodorus species in West Germany.
10761

Form and mechanism of transmission of plant viruses. Transmission of viruses by fungi.
11466

From the clover to the strawberry plant: Transmission of a virus disease by Cicadellidae.
11483

Plant viruses. Their characteristics and identification.
11507

The effect of low doses of gamma rays upon the rate of infection of plants with grass mildew (Erysiphe geaminis DC). I.
11508

A contribution to the knowledge of the viruses and virussuspect diseases of oaks (Quercus spp.).
11949

Symptoms of rasp leaf virus disease on peach.
11983

Change in transmissibility of bean yellow mosaic virus by aphids.
11984

Some remarks on the corky triangle abnormality of the peach tree.
12018

Report of the symposium on virus diseases of rice.
12074

Dispersal of conidia of Dothidella ulei from Hevea brasiliensis.
12617

Protect your maize from head smut.
12624

Cronartium comandrae in the Rocky Mountain States.
12625

Transmission of the disease Brazilian tomato ringspot through the soil.
12658

Transmission of strains of raspberry ringspot and tomato black ring viruses by Longidorus elongatus (de Man).
12662

Evidence of transovarial passage of the sowthistle yellow vein virus in the aphid Hyperomyzus lactucae.
12689

A contribution to the study of the parasite Cercosporella herpotrichoides on the wheat.
13247

The world situation of the cereal rusts.
13263

A contribution to the knowledge of speed of expansion of plum pox virus in natural conditions.
13264

A strain of Holmes' ribgrass virus occurring in Yugoslavia.
13265

Didymella stem and fruit rot of tomato.
13273

Some properties of pea enation mosaic virus isolated from field pea and broad bean plants in Bohemia.
13274

Varietal differences in oat blue dwarf virus resistance and symptom expression.
13781

Brown rot of stone fruits on the Murrumbidgee irrigation areas. II. Aetiology of the disease in Trevatt apricot trees.
13788

Virus diseases of cereals.
13814

Studies on the brown-eye-spot disease (Cercospora coffeicola B. and CKE.) of coffee (coffea arabica L.) III. Mode of survival of the pathogen.
13817

Transmission of pea leaf rolling virus by aphids.
13845

Lysozyme action in the cockroach--blood changes. while probing intercellularly.
14279

Internal brown spot--a condition in yams in Barbados.
14352

The problem of sowbane mosaic virus contamination.
14354

A transmissible disorder of gladiolus flowers.
14360

Soil-borne wheat mosaic virus from Poa annua L., a new host.
14377

Yellow dwarf of pea and broadbean caused by milk-vetch dwarf virus.
14378

Epidemiology of tea blister blight (Exobasidium vexans). the genus Graphelysia Hampson, 1911 (Lepidoptera-Heterocerea).
14384

A mild strain of tristeza virus in Hassaku trees (Citrus hassaku Hort. et Y. Tanaka) in Hiroshima prefecture.
14442

Radish enation mosaic virus.
14465

Transmission experiments with the latent Prunus-virus and the gall mite Vasates fockeui Nal.
14495

Further experiments regarding the clarification of the connection between the beet lacebug Piesma quadratum (Fieb) and the beet crinkle virus.
14499

Virus disease problems in Ontario fruit orchards and vineyards.
14931

Discontinuous transmission of clover phyllody by Euscelis plebejus Fall.
14940

Application of artificial hibernation to the mechanical transmission of fruit-tree viruses to herbaceous plants.
14974

Studies on a mosaic disease of Tylophora indica (Burm. F.) Merr..
14987

Wellman's leaf and fruit spot of Arabica coffee in New Guinea.
14992

Identification of the causal agent of a Malva disease present in Italy.
15018

Role of the jassid Aphrodes bicinctus Schrk (Hom., Auchen) in the transmission of some white clover diseases.
15020

Study of the first stages of the infection of (Vinca rosea) L. by (clover,phyllody) virus from it inoculated point by means of grafting.
15487

On the transmission of tomato black ring virus by Longidorus attenuatus (Nematoda).
15518

The influence of the aphid forage plant on the vector capacity of aphids.
15520

An incubator useful for culturing Olpidium brassicae for transmission of plant viruses.
15521

Fine structure of zinnia leaf tissues infected with dahlia mosaic virus.
15528

Aphids may not acquire and transmit stylet-borne viruses while probing intercellularly.
15537

On the stolbur virus in red pepper (Capsicum annum) L.
15541

The shot-hole disease of the melon. Preliminary study of a new viral disease of the glass-house-grown melon.
15543

Method for testing the health condition of lettuce seeds.
15544

A virus disease distinct from the chlorotic leaf-roll disease: The rosette of the apricot-tree, var. (Luizet).
15550

Infection through cell lesions and investigation into the infectious dilution curves of tobacco mosaic virus.
15554

On the transmission of fig mosaic virus by the gall mite Aceria ficus Cotte.
15565

Investigation into a spot and streak formation on hemp (Cannabis sativa L.).
15574

Note on the migration rate of the virus (S) from the potato leaves to the tubers.
15590

A virus disease of African hemp Sparmannia africana L. f.
15601

In vitro infection and pathogenesis of plants from several genera by the specific soilborne pathogen Sclerotium cepivorum.
15610

Comparated study on (Vinca rosea) L. of 3 virus diseases: (western aster yellow) isolated from (gladiolus,) (clover phyllody) and (tomato stolbur).
15612

Tests on the dissemination of the tulip streak virus.
15613

Investigations about possible vectors of golden flavescence of the vine.
15633

Virulence on various solanaceae of three strains of the stolbur virus and a virus infecting tomato plants in Tunisia.
15652

Importance of the plant virus-vector relationships for the inhibition of aphid transmission with oil sprays.
15674

ANT DISEASES

Piricularia oryzae, a problem common to rice growing countries.
8282

Save your potato crop from fungal and bacterial diseases.
8286

New species of Ceratocystis associated with bark injuries on deciduous fruit trees.
8289

Plant diseases and their chemical control.
8291

Neck rot in onions.
8296

Banana diseases in the Pacific area.
8924

Team alfalfa scores high.
8926

Genetic studies of pea leaf-roll (top-yellows) virus resistance in Pisum sativum.
8942

Exclusive hypovirulence, an original phenomenon in vegetable pathology.
8953

Effect of TMV multiplication on RNA and protein synthesis in tobacco chloroplasts.
8956

Purification of soybean mosaic virus.
8958

Occurrence of virus particles in the phloem tissue of BYDV-infected barley.
8962

The production of new types of symptoms by mixtures of different components of two strains of alfalfa mosaic virus.
8970

Agricultural microbiology.
8980

A leaf disorder of cacao in Costa Rica.
8982

New or uncommon plant diseases and pests; smut (Entyloma compositarum) of Gaillardia aristata Pursh.
8985

Partial reconstitution of tobacco mosaic virus.
8993

A foliar disease of tuberose caused by Aphelenchoides besseyi.
9031

Records of the higher fungi of Minnesota.
9050

The preservation of fruit.
9139

Weather, development of vines, diseases, pests and damages in the wine-growing areas of the Federal Republic of Germany in 1967.
9528

Horticultural handbook.
9537

Dutch elm disease - threat to Colorado.
9555

Field observations on root rot of teak in Tanzania.
9570

The influence of irrigation on the occurrence of diseases and pests of agricultural crops. (Review).
9577

The occurrence of a Phytophthora root and leaf disease of black pepper in Jamaica.
9578

Pests and diseases of the date palm. Part I. Mites, insects and nematodes.
9626

Fungicidal control of rice diseases.
10170

Nutrition of the silver-leaf pathogen Stereum purpureum (Pers.) Fri.
10175

Interaction between chilli mosaic and powdery mildew in tobacco.
10176

Post-infection changes in the sugar content of leaf-spot infected barley.
10178

Verticillium wilt of tobacco. VI. The influence of roots and stems on Verticillium wilt symptoms in tobacco.
10186

Some observations on Cynips quercus folii L. galls on Quercus robur L. in Bydgoszcz province.
10203

Effect of cytokinins on tobacco mosaic virus production in local-lesion and systemic hosts.
10204

Toxic metabolite of Aspergillus niger and its role in onion rot disease.
10208

Heterobasidion annosum.
10215

Phellinus igniarius.
10216

Phellinus pomaceus.
10217

Inonotus hispidus.
10218

Evidence for restriction of a plant virus to phloem cells.
10219

Studies on physiology of Helminthosporium australiense the causal agent of a leaf spot disease of bajra.
10226

A necrotic type virus occurring on a weed in Germany.
10227

Preliminary note on the occurrence of black point disease of wheat in India.
10228

Verticillium wilt of tobacco. VIII. Movement of conidia of Verticillium dahliae Kleb. in tobacco plants.
10230

Verticillium wilt of tobacco. VII. Pathogenicity of isolates of Verticillium dahliae Kleb. on New Zealand tobacco.
10231

Etiology of some bacterial diseases of poplar in Poland. I. Bacteriosis caused by Pseudomonas Migula and Erwinia Winslow. 13246

Chemical control of superficial scald on Anjou pears. 13258

Occurrence in Cochliobolus heterostrophus of capacities to blight gramineous hosts. 13276

Phytopathology in a hungry world. 13278

Further investigations on an abnormality of potato tubers. 13280

Production and stability of heterokaryons of the phytopathogenic fungus Fusarium vasinfectum. 13292

Protection of apples against diseases and pests, and the value of some pesticides. 13747

The presence of Curvularia in corn in the valley of Medellin. 13754

Tar spot on the leaf of corn. 13755

Studies on the necrosis of peach trees. 13766

Parsley spot in U.A.R. 13769

Effect of fungal infection in tomato fruits on seed germination. II.--ALTERNARIA tenuis. 13770

Studies on powdery mildews affecting two umbelliferous plants. 13771

Effect of fungal infection to tomato fruits on seed germination. I.--Rhizopus nigricans. 13772

Prophylactic treatment for raising a pest and disease free crop of 'pan' vineyards. 13782

Significant specimens of Elsinoe and Sphaceloma taken by U. S. Plant Quarantine inspectors. II. 13787

Bean yellow mosaic virus in Bulgaria. 13794

Groundnut pod diseases. 13799

The toxic products of fungi causing mycotoxicosis. 13801

A brief descriptive catalog of the principle diseases of sugarcane, Saccharum officinam. 13802

List of plant diseases in Mauritius. 13803

Review of the plant pathology department. 13804

The work of a plant pathologist. 13806

The effect of short heat treatment on the susceptibility of poplar leaves to rust infection. 13823

Section II.--DISEASE control. 13832

The Tea Research Institute of Ceylon. Annual Report for the year 1966. Part II. 14304

Effects of CIPC applications to individual eyes of potato tubers on type and pattern of sprout development. 14320

Narrow leaves reduce boll rot. 14341

The etiology, including nutritional considerations, of passion fruit brown spot in Hawaii. 14342

On the tolerance of wheat against Septoria nodorum Berk. 14348

Polyphenols and discoloration in the elm disease investigated by histochemical techniques. 14361

Yellow dwarf of pea and broadbean caused by milk-vetch dwarf virus. 14378

A new leaf spot disease of Gardenia jasminoides from India. 14406

Tobacco diseases in Venezuela, Costa Rico and Nicaragua. 14407

Diseases of Annual Oleaceae in Colombia. 14427

Sugarcane diseases in the Punjab--A survey report. 14440

Evidence of phenotypic mixing between two strains of tobacco mosaic virus. 14441

Comatricha nodulifera, a new myxomycete from Texas. 14474

Further experiments regarding the clarification of the connection between the beet lacebug Piesma quadratum (Fieb) and the beet crinkle virus. 14499

The fine structure of hyphae of Helminthosporium oryzae Ito et Kurib. and Pyricularia oryzae Cavara. 14679

New plant protection law is in force. 14704

Report on the 28th Fall Assembly of the Netherlands Entomological Association combined with the 70th Meeting of the Division of Applied Entomology. 14827

Development of the most important diseases and pests of crops grown in Poland in the year 1966 and forecast of their appearance in the year 1967. 14920

Problems of storing plant disease data for retrieval by automatic data processing machines. 14922

Ornamental and floral crops disease control. 14933

Histological and histochemical study of the tumor of sugar cane affected by the Fidji disease. 14946

Fungicide trials for the control of sore shin of tobacco. 14952

Characteristic of development and noxieusness of the most important diseases and pests of potatoes and sugar beets in the year 1967 in Poland and their forecast for 1968. 14980

Wellman's leaf and fruit spot of Arabica coffee in New Guinea. 14992

Diseases--lawns and turf. 14999

Characteristic of development and noxiousness of most important pests and some diseases of fruit trees and small fruits in Poland in 1967 and their forecast in 1968. 15013

Characteristic of development and noxiousness of most important pests and some diseases of leguminous and vegetable plants in Poland in 1967 and their forecast for 1968. 15014

Characteristic of development and noxiousness of the most important diseases and pests of industrial plants in Poland in the year 1967 and their forecast for 1968. 15032

How to collect, prepare and ship plant material for disease identification. 15467

How to collect, prepare and ship plant material for disease identification. 15468

Stem canker. I. Observations on knobby second growth. 15478

Physiological diseases in potatoes (Solanum tuberosum L.). I. Observations on knobby second growth. 15479

In-row fungicides for seedling disease control in cotton. 15501

Vegetable seed treatment. 15502

Field crop seed treatment. 15505

Chemicals for control of plant diseases. 15507

Broken leaf, a new coconut disease in the Caribbean area. 15556

The influence of variations in the microflora of a sterilized soil on the genesis of certain plant diseases. II. Study of the behaviour of microorganisms introduced into steam-sterilized soil. 15567

Considerations on chemotherapeutics research in plant virology. 15585

Production of vegetable varieties resistant to diseases. 15586

A ring-spot disease of Allamanda cathartica Linn. and some physical properties of its causal agent. 15587

Intensity of presence and economical importance of more important diseases and pests of small grains in the year of 1967 in Poland. 15592

Tobacco--blue mold and anthracnose control, asheville. 15597

Peanut diseases. 15605

Diseases--lawns and turf. 15609

Multipurpose disease control soil fumigants for tobacco. Nemotodes, black shank and black root rot. 15691

PLANT DISSEMINATION

Preliminary studies on the incidence of shootfly (Atherigona indica) on hybrid jowar under differential sowings. 9647

Investigations on the stain bacterias of carnations due to Pectobacterium parthenii var. Dianthicola Hellmers. 15547

PLANT DORMANCY

Some features of the physiology of dormancy in black currant plants in connection with the effect of gibberellin. 9199

Plant hormones and flowering in coffee. 9824

Effects of 2,4,5-T during the approach of woody plant dormancy. 10311

Some factors affecting dormancy and the investigation of endogenous auxins and inhibitors in the hardshell bulbs of wild garlic. (Abstract). 11040

Dormancy and anatomical development of bulbs of wild garlic during the summer and fall after formation. (Abstract). 11041

The effect of gibberellic acid on dormancy in some wood species. 12289

Influence of apical dominance on bud dormancy in western ironweed. 14924

Induction of dormancy in groundnut by pre-harvest foliar application of maleic hydrazide. 15285

PLANT DWARFING

An hypothesis for selection of strains of potato leaf roll virus by passage through Physalis floridana. 8940

PLANT ECOLOGY

Intrafloral ecology. 8080

The influence of environment on the phytotoxicity of dicamba, picloram, bromoxynil and 2,4-D ester. 9041

Cocoa dieback- A review of present knowledge. 9612

Biochemical basis for plant competition. 10274

Influence of weed competition on sorghum growth. 10277

Seed dormancy and germination in ecotypes of johnsongrass. 10309

Competition between flax and wild buckwheat. 10440

Investigations on the insect pests in the different types of oak forest of the Strandja range (Abstract). 10743

Yields of timothy and lespedeza after reducing competition from goldenrod with herbicides. (Abstract). 10808

Studies on soybean-weed competition. (Abstract). 10828

Soil moisture on competitive ability of weeds. (Abstract). 11051

Research on the forest ecosystem. Series C. The Galeobdolon oaks and Mesnil-Eglise wood sorrel (Ferage). Contribution no. 8. Diptera collected in water jars. 11318

Some aspects of the summer and winter ecology of wheat rust fungi. 11456

Ecology of slash pine stumps: Fungal colonization and infection by Fomes annosus. 11463

Sunflower, a new host of Coleosporium madia. 11517

Composition of weed flora in spring cereals in Finland. 11575

Weeds in the district of Tirana. 11577

Herbicides have little effect on plant-animal relationships. 12212

Ecology of submersed aquatic weeds in south Florida canals. 12706

Crop-weed competition for phosphate nutrition. 13351

Ecological relationships of plant communities and ectoparasites of rodents in the Great Salt Lake Desert. 13364

Pinus sabiniana and Pinus muricata as hosts for Diplodia pinea in California. 13786

Soil condition and the violet and white root rot diseases of fruit trees. 14343

Ecological studies on the soft-rot bacteria of vegetables. III. Application of immunofluorescent staining for the detection and the counting of Erwinia aroideae in soil. 14385

Physiological and ecological studies on the oversummering and overwintering of the stripe rust of wheat and barley, Puccinia striiformis Westend. 14424

Effect of a varietal mixture on sugarcane root rot susceptibility and on the rhizosphere microflora. 14455

Some factors affecting incidence of leaf spot of turmeric by Taphrina maculans butler. 14468

Ecology of plant protection products, a most important task of environmental research on the international level. 14912

Variations in the vitality and osmotic pressure of several Eucalyptus, as a function of ecological conditions and the role of the xylophagous Phoracantha semipunctata Fabr. (Coleoptera, Cerambycidae). 15005

Botanical, ecological and physiological studies. 15275

A rapid method of identification of prunus necrotic ring spot. 15494

The significance of alleleopathy for the synthesis of vegetation. 15897

PLANT EMBRYOS

A study of the development of the giberellin content of embryos of Evonymus europaeus L., in the course of the stratification of seeds. 8584

Physiological effects of gibberellic acid. X. The release of gibberellin-like substances by germinating barley embryos. 13473

PLANT ENZYMES

Studies on Botrytis allii Munn.. The cause of neck rot of onion bulbs in U.A.R.. II. Cultural conditions in relation to mycelial growth and pectinase activity. 13793

Research concerning the appearance and activity of pectolytic and cellulolytic enzymes of phytopathogenic bacteria. 15530

PLANT EXTRACTS

Color and natural products attracting the adult sugarbeet root maggot in Southcentral Idaho. 8197

Charcoal column cleanup method for many organophosphorus pesticide residues in crop extracts. 9163

Occurrence of plant growth inhibitors in tropical and subtropical vegetation. 9189

Analysis of a single crop extract for substituted urea herbicides and metabolites, chlorinated insecticides, and amitrole. 9239

Disruption of watermelon mosaic virus-induced inclusions by phosphotungstate. 9595

Ribonuclease isozymes in Chinese cabbage systemically infected with turnip yellow mosaic virus. 9597

Isolation of gibberellin A20 from pea pods. 9835

Alterations of the host wall surrounding the infection peg of powdery mildew fungi. 9837

Gas chromatographic determination of residues of Dalapon in several substrates. 10410

Researches on Galega species regarding their content of toxins by means of biological methods. I. Toxicity of goats-rue (Galega officinalis L.) for warmblooded animals. 10428

Some observations on the shape and localization of different viruses in experimentally infected plants, and on the fine structure of the host cells. IIII:TURNIP yellow mosaic virus in Brassica chinensis L. 10646

Some factors affecting dormancy and the investigation of endogenous auxins and inhibitors in the hardshell bulbs of wild garlic. (Abstract). 11040

Preference studies with hosts and nonhosts of the boll weevil, Anthonomus grandis. 11536

Effect of root extract of Asparagus racemosus Tagetes erecta on hatching of eggs of Meloidogyne javanica Meloidogyne arenaria. 11559

A carboxylesterase inhibition assay to estimate parathion, malathion and diazinon in lettuce extracts. 11676

The influence of certain wood extractives on the competition between wood-rotting fungi and the soil microflora. 12272

On the question of occurrence of indole-3-acetic acid in Pinus sylvestris. 12299

Feeding response of larvae of the corn earworm (Lepidoptera: Noctuidae) to water extracts of 16 host plants. 12556

Laboratory experiments on the olfactory orientation of Blastophagus piniperda L. (Coleoptera, Scolytidae) to substances isolated from pine rind. 13069

Pheromone response in pine bark beetles: Influence of host volatiles. 13851

Adenine and related substances as potent feeding stimulants for the alfalfa weevil, Hypera postica. 14213

Production of toxins and pectolyte enzymes by two isolates of Sclerotium bataticola Taub. and their role in pathogenesis. 14401

A selective medium for isolation of Helicobasidium mompa Tanaka. 14917

Isolation of securinin from the herb of Securinega suffruticosa (Pall.) Rehd. cultivated in Poland. Polymorphism of securinin. 14919

The importance of guttation fluid on turf diseases. 14954

Growth promoting effect of certain amino acids on the Agaricus fruit body. 15284

Simple carboline alkaloids III. Chromatographic investigations of harman alkaloids in the plants: Amsonia tabernaemontana Walt., Apocynum cannabinum L. and Hippophae rhamnoides L.. 15287

Determining the indole derivatives in the natural material. VII. Fluorimetric determination of the indole-3-acetic acid, indole-3-propionic acid and indole-3-butyric acid. 15460

A rapid method of identification of prunus necrotic ring spot. 15494

Chrysanthemum aspermy virus, symptoms and diagnostic. 15495

Interaction between viral RNA and cellular components in tobacco leaves infected with tobacco mosaic virus. 15527

Inhibitory effect of red-pepper leaves (Capsicum annuum L.) on the infection of some viruses of their ultra-susceptible hosts. 15542

Contribution to the serological survey of plant viruses by the micro-electrophoretic technique applied to agar-agar media. 15589

Properties and nature of inhibitors of potato virus X in four medicinal plant extracts. 15603

Experiments to obtain court-noue virus first part extracts from tissues of grape leaves. 15604

PLANT GALLS

A hitherto unrecorded midge gall of Myrsine australis (A. Rich.) Allan. 8323

Virus-like particles in galls on sugarcane plants affected by Fiji disease. 8994

Blastemomrphous stage of formation of galls caused by Ustilago maydis (DC.) CDA on corn leaves. 9605

A note on the occurrence of fruit fly maggots of Dacus cucurbitae Coq. in cecidomyiid galls of Coccinia indica in Andhra Pradesh. 9998

Some observations on Cynips quercus folii L. galls on Quercus robur L. in Bydgoszcz province. 10203

Reversion disease and gall mite of black currant. 10670

Developmental anatomy of a coralloid gall on Ipomoea pes-tigridis Linn.. 11452

Dimorphism in galls caused by Mikiola fagi Hartig. (Dipt. Cecid.) on Fagus silvatica L. Androcecidy and gynocecidy. 11459

Contribution to the etiology of some galls found in Israel. 11509

Investigation into the orientation of the alate Sacchiphantes (Chermes) abietis (L.) in relation to galls and shoots. 11526

Studies of the Byron Bog in southwestern Ontario XXXV. Insects reared from galls from the wooded slopes of the bog. 11529

Galls and larvae of the European species of genera Phyllocolpa and Pontania (Hymenoptera, Tenthredinidae). 12052

Note on breeding of fruit flies Dacus ciliatus Loew and D. cucurbithe Coquillett in stem galls of Coccinia indica W. and A. 12413

Life history, habits, and damage of a gall midge, Oligotrophus papyriferae (Diptera: Cecidomyiidae), injurious to paper birch in Michigan. 13147

A taxonomic revision of the genus Asteromyia (Diptera: Cecidomyiidae). 13554

Effect of temperature on the rate of development of Nacobbus serendipiticus in excised tomato roots. 13892

A transmissible disorder of gladiolus flowers. 14360

An apparently two-factor dose-response dependence in lucerne mosaic virus assay. 14368

Parasites on the galls of Dasyneura laricis (F. Loew.); Diptera, Itonididae. 14880

Histological and histochemical study of the tumor of sugar cane affected by the Fidji disease. 14946

Investigations into the cause of leaf tumors of tea seedlings. 14991

Some observations on the presence of Corynebacterium fascians (Tilford) Dowson in marketable and floral cultivation in France. 15499

On the presence of a pathogenic gradient of action in the cytological development of tumors caused by Eriosoma lanigerum Hausm. on Pyrus malus L. cult. Calville blanc. 15646

PLANT GENETICS

Effect of crinkle-scurf of citrus on tree growth, productivity, and fruit quality. 8312

Character expressions and casual genes of some mutants in rice plant. Genetical studies on rice plant, XXXIII. 8930

Studies in polyploid varieties of sugar beets. X. Chromosomal variation in progeny of crosses involving diploid, triploid and tetraploid plants. 8931

Genetic studies of pea leaf-roll (top-yellows) virus resistance in Pisum sativum. 8942

Production of yeast variants by auxin and effects of plant growth regulators on these variants. 9214

The nature and effect of adult plant resistance to crown rust in several commercial oat varieties. 9567

Inheritance of resistance to three races of leaf rust in wheat variety Bowie. 9582

Concentration of two 1,4-benzoxazinones in dent corn at various stages of development of the plant and its relation to resistance of the host plant to the European corn borer. 9796

Variations of the culture of Fusarium moniliforme induced by N-nitrosoethylurea and ethyl methanesulfonate. 10435

Plant breeding. 10603

Inheritance of resistance to Mycosphaerella citrullina in muskmelon. 10687

The dimorphism of germination of spores of Ustilago maydis (DC) Cda on the leaves of Zea mays L.. 10872

Pyrethrum. 11013

Production of new physiologic races in Puccinia striiformis (yellow rust) by heterokaryosis. 11442

Leaf rust resistance of some European varities of wheat. 11451

Genetic effect of irradiation by X-rays on seeds of Zea mays. finfluence of high-temperature treatment before the irradiation on the immediate effect. 11924

Inheritance of resistance to powdery mildew in the cultivated strawberry. 11981

A quantitative study of the inheritance of resistance to bacterial blight in Upland cotton. 11982

Inheritance in the oat strain C.I. 3034 of adult plant resistance to race C 10 of stem rust. 11999

End spotting and corking of avocado fruits. 12026

The inheritance of pathogenicity in races 111 and 29 of wheat stem rust. 12068

A comparison of genetic resistance and fumigation for rootknot nematode control in pole beans. 12093

Inheritance of reaction to phytophthora rot in the soybean. 12140

The genetics and expression of resistance in plants to rusts of the genus Puccinia. 13259

The world situation of the cereal rusts. 13263

Comparative study on reducing sugars and sucrose contents of two types of cotton and some of their synthesized strains containing some blackarm resistance genes. 13779

Mutagenic effects of several alkylating substances in rice with reference to the method of treatment. 14100

Pathogenic variability and the unit representing a single fertilization in Puccinia coronata var. avenae. 14306

Inheritance of split cotyledons in swede turnips (Brassica napus). 14326

Isolation of rishitin from tubers of interspecific potato varieties containing different late-blight resistance genes. 14443

Some results from allium tests with organic mercury halogenides. 14674

Occurrence of zebra-necrosis in Sorghum. 14972

The breeding of Lucerne Medicago sativa L. for resistance to Verticillium albo-atrum Rke. et Berth. III. Transgressive segregation in F3 and the effect on resistance of certain systems of inbreeding. 15558

PLANT GEOGRAPHY

Corn virus tests in Georgia in 1968. 9572

Sowbane mosaic virus infecting Chenopodium trigonon in Queensland. 9610

Tolerance. of Sorghum bicolor (L.) Moench to several herbicides. 9670

Heterobasidion annosum. 10215

Phellinus igniarius. 10216

Phellinus pomaceus. 10217

Inonotus hispidus. 10218

Some harmful plants of Southeast Asia. 10953

Ozark range and wildlife plants. 11440

Indian field crops. 11443

Crop disease review--cotton. 11471

Composition of weed flora in spring cereals in Finland. 11575

Weeds in the district of Tirana. 11577

On the biology of Trametes lactinea Berk. in culture. 11943

Uromyces minor Schroet. var. armoricana nov. var. on Trifolium patens Schreb. 11998

Some black mildew sooty mold and fly speck fungi and their hyperparasites from Dominica. 12594

Status of Dutch elm disease in Oklahoma. 12638

Rigidoporus lignosus. 12640

Phellinus robustus. 12641

Rigidoporus zonalis. 12642

Formitopsis rosea. 12643

Rigidoporus ulmarius. 12644

Phellinus noxius. 12645

Second investigation on the distribution of Marssonina brunnea (Ell. et Ev.) P. magn. in Central and Southern Italy. 13271

Cotton thistle. 13348

Biological control of prickly pear cacti on Santa Cruz Island, California. 13909

Insects Vs man. (Lep. Notodontidae). 14210

Phyllachora domingensis and Phyllachora simplex--new reports for the continental. 14403

Contribution to the study of the fungi flora of the soils of Katanga. 14921

Plant geography of Dicranura iberica Templ. and Ort. (Lep. Notodontidae). 15338

The saprophytic fungus Hysterographium mori (Schw.) Rehm, growing on Juniperus, a new species for Czechoslovakia. 15456

PLANT GRAFTING

Expression of sexual characteristics in annual mercurials. 8580

Symptoms of stubborn disease in citrus and Poncirus fruit grafted onto virus-infected seedlings. 9589

Verticillium wilt of tobacco. VI. The influence of roots and stems on Verticillium wilt symptoms in tobacco. 10186

Remarks on the practice of grafting and soil disinfection with methyl bromide and with di-trapex in the control of verticillium wilt of greenhouse tomato plants. 11947

Observations on crinkle disease of hops (Humulus lupulus L.). 11950

Some remarks on the corky triangle abnormality of the peach tree. 12018

On the possible correlation between the fanleaf virus complex and the enation disease of grapevines. 13807

A mild strain of tristeza virus in Hassaku trees (Citrus hassaku Hort. et Y. Tanaka) in Hiroshima prefecture. 14442

Study of the first stages of the infection of (Vinca rosea) L. by (clover,phyllody) virus from it inoculated point by means of grafting. 15487

A virus disease distinct from the chlorotic leafroll disease: The rosette of the apricot-tree, var. (Luizet). 15550

A virus disease of African hemp Sparmannia africana L. f. 15601

PLANT GROWTH INHIBITORS

Sensitivity of Rhizobium species to certain fungicides. 8933

Phenoxypyridazines as herbicides. Patent 3,427,146. 9047

Occurrence of plant growth inhibitors in tropical and subtropical vegetation. 9189

Auxin control of leaf abscission. I. Experiments with Ervatamia divaricata Burkill., var. floreplen o. 9190

Propargyl 2-bromodecanoate. Patent 3,427,333. 9195

Toxicity of tall fescue to rape and birdfoot trefoil seeds and seedlings. 9210

Ozone. Effect on apparent photosynthesis, rate of transpiration, and stomatal closure in plants. 9833

SNA sprays to improve weight and size of spring fruit of pineapples in Taitung. 9836

Effects of succinic acid 2,2-dimethyl hydrazide and (2-chloroethyl) trimethylammonium chloride on tomatoes (Lycopersicon esculentum Mill.) and on tuberous root formation in Dahlia pinnata Cav. 9841

Progress report on shade tree inhibition. (abstract). 10442

The mode of action of maleic hydrazide: Inhibition of growth. 10444

The effect of N-dimethyl amino succinamic acid (Alar) on size, shape and maturity of Delicious apples.
10450

Selectivity of chloroxuron against soybean and morning glory. (Abstract).
10779

Comparison of three soil-incorporated herbicides, trifluralin, benefin, and SD-11831, on the growth of cotton seedlings. (Abstract).
10956

Some data on the conditions for obtainine an epicotylary growth inhibition in Ginkgo biloba L. under the influence of gibberillic acid.
10964

Interaction of gibberellic acid and light on the germination and growth of seedlings of Gossypium herbaceum L. var. Digvijay.
10968

Absorption, translocation and accumulation of labeled N-dimethylaminosuccinamic acid in apple tissues.
10980

Acorn moisture content critical for cherrybark oak germination.
10983

Interaction of Alar and gibberellin on growth and flowering of the apple.
10987

Toxic effects of black fiber pots on tomato transplants.
11006

Endogenous growth regulating factors in bark of EM IX and XVI apple trees.
11009

Three years of tests with cycocel and its miscibility with herbicides.
11019

Effect of time of postemergence applications of pyrazon and dalapon on sugar beets. (Abstract).
11029

Size control of nursery trees with N-dimethylaminosuccinamic acid.
11036

Some factors affecting dormancy and the investigation of endogenous auxins and inhibitors in the hardshell bulbs of wild garlic. (Abstract).
11040

Inhibition of the action of phytochrome by the herbicide CIPC.
11697

About foot- and stem diseases of wheat with special consideration of (2-chloroethyl) trimethylammonium chloride.
11951

Effects of Alar on the growth and distribution of the growth increment in one year old apple trees.
12236

Enhancing the activity of chemical growth retardants. Part one of a discussion of UNI-F529 as it compares with B995 as a chemical growth retardant.
12241

Response of some ornamental plants to synthetic abscisic acid.
12243

Growth and flowering responses of apple and pear seedlings to growth retardants and scoring.
12249

Effect of trifluralin and Meloidogyne hapla Chitwood on growth of Vinca major L.
12253

Effects of Alar on morphology, chlorophyll content, and net CO2 assimilation rate of young apple trees.
12258

Growth retardants in relation to the germination of seeds. VI. Germination and growth of cauliflower as affected by Coumarin, CCC, Phosfon D and kinetin.
12265

Residual effect of Cycocel in poinsetta height control.
12267

Interaction of photoperiod and auxin metabolism in rooting of Chrysanthemum morifolium cuttings.
12269

Morphogenetic responses of tomato plants to combined and individual applications of gibberellic acid, Phosfon and B-nine.
12271

Effect of some growth substances on Tricholoma giganteum Massee.
12275

Growth and fruiting response of young apple and pear trees to annual applications of succinic acid 2,2,dimethyl hydrazide.
12283

Effect of some vitamins on growth of Fomes lividus Kalchbr. in culture.
12288

Fruiting and vegetative effects of N-dimethylaminosuccinamic acid on 'Concord' grapes, Vitis labrusca L.
12296

Maleic hydrazide inhibits growth of young tung trees (Aleurites fordii, Hemsl.).
12300

Bacterium yields new weed killer.
12717

Effects of maleic hydrazide in purple nutsedge (Cyperus rotundus L.).
12898

Controlling rhododendron flower bud initiation.
12899

Effect of succinic acid 2,2-dimethylhydrazide on flower bud formation of the 'Coville' highbush blueberry.
12905

N,n-dinitroethylenediamine retards growth of red cedar and American arborhitae.
12908

The action of plant growth retardants on terpenoid biosynthesis. Inhibition of gibberellic-acid production in Fusarium moniliforme by CCC and AMO-1618; action of these retardants on sterol biosynthesis.
13469

Gibberellin and CCC effects on flowering and growth in the long-day plant Lemna gibba G3.
13472

Some effects of annual applications of N-dimethylaminosuccinamic acid (Alar) to apples.
13481

Investigation of natural auxins and growth inhibitors.
14079

On some features of the effect of heteroauxin on the growth of cells in the elongation phase. yakushkina, n i.
14081

The effect of gibberellin and auxin on IAA oxidase and peroxidase activity in mesocotyl cuttings of corn.
14087

Influence of Co60 gamma radiation on the water regime and drought resistance of peppermint plants.
14094

Effect of (2-chloroethyl) trimethylammonium chloride (CCC) and gibberellic acid (GA3) on the flowering of Chenopodium rubrum L.
14096

Effect of N-dimenthylamino succinamic acid (Alar) on vegetable growth of chile pepper (Capsicum frutescens) plants. (Abstract).
14338

Effect of beta-acylphenylhydrazine derivatives on blast fungus upon leaves and in tissues of rice plants.
14459

Relationship between the number of suckers (tillers) and the number of adventidious roots during the developmental cycle of hard corn sensitive to radial tipping and a report concerning the treatment with auxin, gibberellin, activators and growth inhibitors of the CCC type.
14670

Effect of D-galaltose on the ultrastructure of bentgrass root apices.
14672

Inhibitory effect of pentachlorobenzyl alcohol (PCBA) on sporulation of Piricularia oryzae cavara.
14691

Initiation of pinheads in Psilocybe panaeoliformis caused by certain bacteria.
14927

Staminal and functional male sterility induced by chemical treatment in Papilionaceous plants.
15280

Effects of some growth-regulators with gametocidal properties on Cajanus cajan (L.) Millsp..
15281

Induction of dormancy in groundnut by pre-harvest foliar application of maleic hydrazide.
15285

Analyticial restraint of research on the respiratory metabolism of infectious virus on healthy potato nodules and sprouts.
15580

Isolation and structural elucidation of Fragin, a new plant growth inhibitor produced by a Pseudomonas.
15906

PLANT GROWTH REGULATOR

Progress in the knowledge of natural plant growth regulators.
9208

Report on herbicides and plant growth regulators.
9245

Effects of rate, time, and method of application of TIBA on soybean production.
9827

Effects of growth regulators and herbicides on germination of Hydrilla turions.
10306

Plant growth regulators.
10436

The action of gibberillic acid on rhizogenesis in stem pieces of peas (Pisum sativum L.) cultivated in vitro in presence of auxin in darkness or in light.
11005

Possibilities and limits of an optimum or maximum nitrogen fertilization.
11025

Effects of gibberellin treatment on the growth and dry weight of the rice plants.
11693

A note on the compatibility of endrin with parachlorophenoxy acetic acid and boron in relation to mustard aphid infestation.
12685

Plant growth regulator activity of optical isomers of DMPA.
12900

Effects of plant growth regulators on locusts and cotton stainer bugs.
13028

Performance of Aphis fabae and Brevicoryne brassicae on plants treated with growth regulators.
13310

Action of plant growth regulators. IV. ADSORPTION of unsubstituted and 2,6-dichloro-aromatic acids to oat monolayers.
13470

Physiological effects of gibberellic acid. X. The release of gibberellin-like substances by germinating barley embryos.
13473

Kinetics of growth retardant and hormone interactions in affecting cucumber hypocotyl elongation.
13485

The effects of DMSO alone and when combined with various growth regulators on the growth and metabolic products of Datura spp.
13489

Effect of pre-harvest spray of alpha-naphthalene acetic acid and para-chloro phenoxyacetic acid on control of berry drop in Anab-e-Shahi grapes (Vitis vinifera Linn.). 14088

Separation of growth regulators from Picea abies Karst. on Sephadex LH-20. 14095

Effects of N-dimethylamino succinamic acid (Alar) on maturity and size of Pocahontas strawberries. (Abstract). 14444

PLANT HARDINESS

Evidence for longevity of seeds. 9563

Physiological and biochemical contribution to fume damage research, 8. Physiological investigations of the action of SO2 on the metabolism of conifer needles in winter. 10432

On the relative durability of some broad-leaved woods to fungal attack. 10673

On the seed germination of Phoma species of Valerianella. 11952

A study in the use of Dybar for planting site preparation. 13475

Attempts to induce frost-resistance in vines by leaf spray of drugs. 13797

Studies on the pathological anatomy of rice plants infected by Helminthosporium oryzae, I. Behavior of the causal fungus on the coleoptile of rice seedlings and its ultrafine structure. 14373

Physiological and ecological studies on the oversummering and overwintering of the stripe rust of wheat and barley, Puccinia striiformis Westend. 14424

Testing the susceptibility of vine varieties to (Flavescence doree) by means of inoculation by (Scaphoideus littoralis) Ball. 15581

Dasanit insecticide for superior control of corn rootworm. 15645

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O,O-Dimethyl S-(4-Oxo-1,2,3-Benzotriazin-3(4H)-ylmethyl) Phosphorodithioate. 15865

PLANT HISTOLOGY

Comparison of the movement and vascular differentiation effects of the endogenous auxin and of phenoxyacetic weedkillers in stems and petioles of Colens and Phaseolus. 9197

Advances in morphogenesis. (Morphogenesis of crown gall, by S. Kupila-Ahvenniemi). 9538

Pycnidial production by Diaporthe vexans (Sacc. and Syd.) Gratz and the pathological histology of infected stems and leaves of eggplant. 9559

Studies on the infection of cucumher mosaic virus. V. the observation of epidermal cell in the local lesion. 10180

The presence of mycoplasma-like particles in the phloem of plants infected with three European yellow diseases: tomato stolbur, gladiola aster yellow, and clover phyllody. Cytological and ultrastructural studies. Preliminary remarks on chemical control. 10633

The effect of 3-amino-1,2,4,-triazole on the ultrastructure of plastids of Triticum vulgare seedlings. 12237

Relation of tobacco mosaic virus to the host cells. 12608

Pathological histology of corn and sorghum plants infected with maize dwarf mosaic virus and Sclerospora sorghi. 12632

Grapevine leafroll virus--history and anatomic effects. 13784

The effect of the herhicide Isopropyl-N-3-chlorophenyl carhamate (CIPC) on the horse bean plant. III.--HISTOLOGICAL effect of CIPC on the horse bean plant. 13907

Anatomical studies of rice plant infected with bacterial leaf blight, with special reference to wilt symptom. 14460

Structures of the X corpuscles in leaf tumor of Fidji diseased sugar-canes. 14945

Histological and histochemical study of the tumor of sugar cane affected by the Fidji disease. 14946

The function of the endodermis in resistance of Virginia pine seedlings to damping-off. 14956

PLANT HORMONES

Effect of CP31393 on auxin-induced growth. 8579

Expression of sexual characteristics in annual mercurials. 8580

The contraction of the roots of Arum italicum. 8583

Cell-wall deposition and the distribution of cytoplasmic elements after treatment of pea internodes with the auxin analog 2,3,5-triiodobenzoic acid. 9188

Progress in the knowledge of natural plant growth regulators. 9208

Production of yeast variants by auxin and effects of plant growth regulators on these variants. 9214

Plant hormones and flowering in coffee. 9824

Influence of atrazine (2-chloro-4-ethylamino-6-isopropylamino-5-triazine) on auxin metabolism of plants. 10434

The action of gibberillic acid on rhizogenesis in stem pieces of peas (Pisum sativum L.) cultivated in vitro in presence of auxin in darkness or in light. 11005

Some factors affecting dormancy and the investigation of endogenous auxins and inhibitors in the hardshell bulbs of wild garlic. (Abstract). 11040

Response of isolated pupal abdomens of silkworms, Bombyx mori L., to injected ponasterone A (Lepidoptera: Bombycidae). 11383

Photoperiodism after 50 years. 12261

Hormonal control of enzyme synthesis: On the mode of action of gibberellic acid and abscisin in aleurone layers of barley. 13471

Phytochrome controlled C14-sucrose uptake into etiolated pea huds: Effects of gibberellic acid and other substances. 13478

Kinetics of growth retardant and hormone interactions in affecting cucumber hypocotyl elongation. 13485

Effect of ethylene and gibberellic acid on auxin synthesis in plant tissues. 13496

Effect of gibberellin on the growth, development, crop yield and some aspects of metabolism of summel vetch, field bean, pea and soya under various nutrient conditions. 14071

Investigation of natural auxins and growth inhibitors. 14079

Delay of the yellowing of barley leaves on the plant by phytohormone treatment. 14080

On some features of the effect of heteroauxin on the growth of cells in the elongation phase. yakushkina, n i. 14081

The effect of gibberellin and auxin on IAA oxidase and peroxidase activity in mesocotyl cuttings of corn. 14087

Regulation of growth, flowering and fruit abscission of apples and peaches with Amchem 66-329. (Abstract). 14309

Rooting of narrowleaf evergreen cuttings as influenced by various hormone treatments. (Abstract). 14318

Growth promoting effect of certain amino acids on the Agaricus fruit body. 15284

Photoinhibition of auxin and its bearing on phototropism. 15903

PLANT HOSTS

The systematic position of Brahmaea europaea Hartig (Lepidoptera Brahmaeidae). 8053

Contributions to the knowledge of the Italian nematode fauna. I. Genus Meloidgyne Goeldi, 1887. 8388

The development and larval behavior of Stigmella malella Stainton. (Lep. Stigmellidae). 8728

Algal leaf spot disease on various hosts in Tamilnad, Madras State, India. 10676

Cactus cyst nematode, Heterodera cacti, in Florida, with host list. 10754

Biology and external morphology of forage pests. I. Tussock caterpillars, Euproctis spp. (Lymantriidae: Lepidoptera). 14836

PLANT INJURIES

Powdery mildew of hydrangeas. 8303

A hitherto unrecorded midge gall of Myrsine australis (A. Rich.) Allan. 8323

Neodiprion taedae linearis: A sawfly pest of loblolly and shortleaf pines. 8334

A three year summary of weed control for establishment of legume seedings. 8397

Herbicide evaluation in soybeans at Georgetown, Delaware, 1967. 8401

Control of yellow rocket (Barbarea vulgaris) and other broadleaf weeds associated with established alfalfa. 8402

Contribution to risk of damage in the practical use herbicides. 8418

Methods of weed control in sugar heets. 8432

Etiella zinckenella Treit-a pod borer pest of Crotalaria anagyroides H.B.K. 8778

Wound dressings for the prevention of silver-leaf in fruittrees caused by Stereum purpureum (Pers.) Fr. 8946

Characteristics of the stopped and scarred damages due to the coddling moth (Laspeyresia pomonella L.) with a method of interpretation of the various forms of damages observed on apples. 9002

Chemical control of the juniper webworm on Irish juniper. 9016

Experiments on the control of root pests of Brassicae. 9021

Biological activity of a phytotoxic glycopeptide produced by Corynebacterium sepedonicum. 9180

Weather, development of vines, diseases, pests and damages in the wine-growing areas of the Federal Republic of Germany in 1967. 9528

Horticultural handbook. 9537

Suppression of ozone toxicity symptoms in virus-infected tobacco. 9551

An unknown grape vine disease, spray damage or red burn epidemic . 9568

Relationship of living and dead cells to spread of Colletotrichum graminicola in sorghum stalk tissue. 9574

Determination of the critical injury threshold for potato blight (Phytophthora infestans). 9588

A study of the biology of Stemphylium botryosum Wall. -Pleospora herbarum (Pers.) Rabenh.- the causer of brown spots on alfalfa leaves. 9591

Investigations on the susceptibility of potato tubers to Fusarium caeruleum (Lib.) Sacc., the fungus causing dry rot. 9602

Life history and damage of the pine root tip weevil, Hylobius rhizophagus, in Wisconsin. 10049

Studies on the infection of cucumber mosaic virus. V. the observation of epidermal cell in the local lesion. 10180

Effect of cytokinins on tobacco mosaic virus production in local-lesion and systemic hosts. 10204

Local lesion host for grassy shoot virus of sugarcane. 10224

Response to parasites. 10232

The biology, mode of attack and damage caused by the thrips, (Haplothrips tritici Kurd) to wheat crops. 10235

A review of the use of insecticides on the main agricultural crops of the world--3. Section 3: Cotton. 10245

Atherigona sp. (Anthomyiidae: Diptera) as a pest of wheat in Rajasthan. 10250

The effects of two phytobland oils on the postemergence activity of bromoxynil and DNBP applied in two spray volumes in alfalfa. 10316

Effects of high rates of trifluralin and vernolate on soybean yield and growth. 10317

Physiological and biochemical contribution to fume damage research, 8. Physiological investigations of the action of SO2 on the metabolism of conifer needles in winter. 10432

Cockchafers. 10518

Leaterjackets. 10526

Specialist advisory and diagnostic service. 10598

Dissemination of waterborne Erwinia amylovora by wind in nursery plantings. 10621

Comparisons between Granny Smith apples from healthy and green crinkle virus infected trees. 10659

Prevention of damage from eyespot. 10666

Morphology and significance of laticifer rupture in lettuce tipburn. 10686

Some suggestions for control of white ant damage on dadaps (Erythrina indica L.). 10710

The gypsy moth, Porthetria dispar L., a threat to Ontario horticulture and forestry. 10716

Forest pest conditions in California- 1968. 10718

Investigations of the control of Lixus junci Boh. 10730

Chrysanthemum leaf miner. 10733

Sugarbeet nematodes found on garden red beet in Ohio. 10757

Effects of herbicides and application methods on weeds in nursery containers and phytotoxicity to ornamental plants. (Abstract). 10776

Stem pitting of yellow bud mosaic virus-infected peaches.
13815

Kernel red streak of dent corn.
13821

Photochemical oxidant injury and bark beetle (Coleoptera: Scolytidae) infestation of ponderosa pine. II. Effect of injury upon physical properties of oleoresin, moisture content, and phloem thickness.
13833

Photochemical oxidant injury and bark beetle (Coleoptera: Scolytidae) infestation of ponderosa pine. IV. Theory on the relationships between oxidant injury and bark beetle infestation.
13834

Photochemical oxidant injury and bark beetle (Coleoptera: Scolytidae) infestation of ponderosa pine. III. Effect of injury upon oleoresin composition, phloem carbohydrates, and phloem pH.
13848

1965 turf insects.
13853

Desert locust situation and control in India during 1962-63.
13858

Photochemical oxidant injury and bark beetle (Coleoptera: Scolytidae) infestation of ponderosa pine. I. Incidence of bark beetle infestation in injured trees.
13859

Reaction of dent corn inbreds and hybrids to Aceria tulipae and wheat streak mosaic virus.
13861

Influence of planting time on phytotoxicity of dichloropropenes to sugarbeets.
14077

How to obtain maximum benefits from use of alar explained by dr. Max W. Williams at horticultural association meet.
14099

The European corn borer; how to control it.
14301

Effects of gamma irradiation on prickly pear cactus.
14325

Bacterial rust on sour cherries and pears.
14340

Interaction between two races of Piricularia oryzae in lesion-formation in rice plants and accumulation of fluorescent compounds associated with infection.
14420

Damage and evolution disturbance through weather influence.
14426

Fungal pathogenicity to sound and mechanically damaged blue lupine seed in anexic culture at two temperatures.
14470

Insects of the season 1966 related to fruit, vegetables and ornamentals.
14483

On the appearance and the control of the redcurrant leaf-gall fly.
14489

Tanymecus dilaticollis Gyll. (Curculionidae, Coleoptera) as a pest of cultivated plants and the pre-sowing treatment of the seed with insecticides as a control measure.
14494

Know your enemy: The so-called 'cornfly'.
14503

The sugar beet nematode.
14504

Mites.
14531

The control of wild foxtail grass in winter wheat as well as the prevention of weather trodden grain.
14539

The economic incidence of field vole control in France.
14540

The biologics of the Pseudohylesinus tsugae and P. grandis (Coleoptera: Scolytidae) in western hemlock.
14851

Studies on bionomics and control measures of Cnaphalocrocis medinalis Guenee; preliminary report.
14872

Controlling the pink bollworm on cotton.
15001

Spotting of grapefruit as associated with false spider mites.
15008

Hylobius weevil larvae attack roots of young slash pines.
15010

Leaf injury and food consumption by larvae of Phaedon cochleariae (Coleoptera; Chrysomelidae) and Plutella maculipennis (Lepidoptera Plutellidae) feeding on turnip and radish.
15034

Postdirected applications of herbicides for weed control in corn.
15052

Preemergence treatments of several formulations of dicamba on corn.
15082

Time of herbicide and fertilizer applications in relation to herbicide-induced damage to smooth bromegrass.
15108

Post emergence herbicides on spring-sown alfalfa.
15130

Selective weed control with preplant herbicides in corn across Nebraska.
15136

Some effects of the growth regulators CCC and Alar (B-995) on the tomato (Lycopersicum esculentum, Mill.). I. Effects on leaf area, plant spread, dry weight, height and leaf numbers.
15290

Trithion spotting of grapefruit.
15294

A virus disease of Pieris rapae (L.) in Queensland.
15428

Pertinant use of histochemical methods of curing floral plants injured by bacteria.
15536

Observations on epidomology and experiments to decrease damage of the alfalfa leaf-spot disease.
15575

Pigmy mangold beetle (Atomaria linearis Steph.), biology and control.
15623

Plant protection problems in Tunesia.
15667

PLANT INSECT RESISTANCE

Fifty years of research on the pink bollworm in the United States.
8365

Correlation studies between leaf mid-rib structure and resistance to jassids (Empoasca devastans Dist.) in cotton.
15041

Plant resistance depending on protective surface layers occurring naturally.
15277

PLANT LAYERING

Studies on the effect of plant growth regulators on the rooting of air layers of Dareaena rosea-ferrea L.
15279

PLANT METABOLISM

Systemic insecticides in trees.
8585

Influence of 2,4-D and streptomycin on the nitrogen metabolism of buckwheat seedlings and its relation to the anthocyanin biosynthesis.
8587

Biochemical aspects of parasitism by the angiosperm parasites: Host-parasite interrelationship in phosphatase activity.

The metabolism of radiostrontium by plants. (Abstract).
9191

Role of RNA metabolism in the action of auxin-herbicides.
9194

Lipid metabolism in the fruit of Persea americana Mill. I. Studies on the chemical composition of lipids and their changes during fruit development and storage.
9201

Metabolism of iodoacetic acid by orange leaves.
9830

Structure determination of some metabolites of Fusarium culmorum.
9842

Toxic metabolite of Aspergillus niger and its role in onion rot disease.
10208

Response to parasites.
10232

Metabolism of trifluralin in peanuts and sweet potatoes.
10273

Metabolism of organic pesticide chemicals in higher plants.
10278

Translocation of assimilates and dalapon in established johnsongrass.
10292

Basis for selectivity of linuron on carrot and common ragweed.
10295

Mechanisms of action of herbicides.
10299

Physiological and biochemical contribution to fume damage research, 8. Physiological investigations of the action of SO2 on the metabolism of conifer needles in winter.
10432

Influence of atrazine (2-chloro-4-ethylamino-6-isopropylamino-5-triazine) on auxin metabolism of plants.
10434

Volatile metabolites from dimethyldithiocarbamate fungicide residues.
10441

Degradation of p32-bromophos by microorganisms and seedlings.
10449

Effects of ammonium thiocyanate on carbohydrate metabolism in the cotton plant.
10455

The metabolism of trifluralin by peanuts and sweet potatoes. (Abstract).
10988

Some effects of environment and species on absorption and metabolism of amiben in plants. (Abstract).
10992

Absorption, translocation, and metabolism of CIPC in plants. (Abstract).
10993

The metabolism of pyrazon in red beets. (Abstract).
11023

Dealkylation of atrazine in higher plants and its significance. (Abstract).
11030

Metabolism of amitrole-C14 in excised bean and Canada thistle leaves. (Abstract).
11034

The metabolic fate of propanil. I. (Abstract).
11038

The metabolic fate of propanil, Ii. (Abstract).
11039

Monuron degradation and recovery of monuron-inhibited photosynthetic activity. (Abstract).
11042

The influence of simazine on growth and nitrogen metabolism of corn. (Abstract). 11044

The effects of shoot removal on the rhizome carbohydrate reserves of couch grass (Agropyron repens (L.) Beauv.). 11581

The methbolism of glucose uniformly marked with rhdioactive carbon in the leaves of healthy melons compared with those attacked by anthracnose. 11689

The effects of 3-amino-1,2,4-triazole on the carbohydrate metabolism of plants. 11692

Effect of dicamba on oxygen uptake and cell membrane permeability in leaf tissue of Cyperus rotundus L. 11696

Response of American elm seedlings to treatment with captan and cycloheximide. 11700

Interaction of photoperiod and auxin metabolism in rooting of Chrysanthemum morifolium cuttings. 12269

Drought resistance of winter wheats in relation to their amino acid content. 12280

Soybean mitochondrial response to prometryne and fluometuron. 12731

Metabolism of pyrazon in sugar beets and soil. 12741

Effects of 2,4-D and other herbicides on oxidative phosphorylation in mitochondria from cabbage. 12902

Metabolic fate of monuron and diuron in isolated leaf discs. 12909

Study on the fatty acid composition during germination of peanuts treated with growth regulators. 13498

Changes in phenolic metabolism of spring-wheat infected with stem rust. 13756

Effect of leaf rust infection on the conversion of glucose-u-14C into amino acids in excised leaves of ponca wheat. 13763

Effect of root fungus on mineral nutrition of the pine tree. 13774

Effect of gibberellin on the growth, development, crop yield and some aspects of metabolism of summel vetch, field bean, pea and soya under various nutrient conditions. 14071

Influence of Co60 gamma radiation on the water regime and drought resistance of peppermint plants. 14094

Effect of cell poisons on the colloid-chemical properties of the cell. 14102

An approach to the elucidation of host-parasite interaction. 14450

Utilization of carbohydrate compounds by the pecan scab fungus, Fusicladium effusum Wint.. 15278

The influence of dikotex on the content of some free amino acids and all of the nitrogen in summer barley plants. 15283

Some examples of chlorcholinechloride (CCC) action on physiological processes in plants. 15292

Translocation and metabolism of MAA-C14 in johnsongrass and cotton. 15733

Effects of herbicides on rna and protein syntheses. 15887

The significance of allelopathy for the synthesis of vegetation. 15897

PLANT MORPHOLOGY

A hitherto unrecorded midge gall of Myrsine australis (A. Rich.) Allan. 8323

Character expressions and casual genes of some mutants in rice plant. Genetical studies on rice plant, XXXIII. 8930

Studies on the nutrition and development of Gaeumannomyces graminis (Sacc.) von Arx et Olivier, the causal organism of the take-all disease of cereals. 8951

Weather, development of vines, diseases, pests and damages in the wine-growing areas of the Federal Republic of Germany in 1967. 9528

A fungus of the onion, new for italy: Botrytis squamosa Walker. 9562

A contribution to the study of Alternaria tenuis Nees causer of the leaf spot of tomato. 9581

Concentration of two 1,4-benzoxazinones in dent corn at various stages of development of the plant and its relation to resistance of the host plant to the European corn borer. 9796

Colchicine-induced mutations in a trispecific Nicotiana hybrid. 9826

Effects of rate, time, and method of application of TIBA on soybean production. 9827

Effects of succinic acid 2,2-dimethyl hydrazide and (2-chloroethyl) trimethylammonium chloride on tomatoes (Lycopersicon esculentum Mill.) and on tuberous root formation in Dahlia pinnata Cav. 9841

Emendation of the genus Streptoverticillium Baldacci (1958) and revision of some species. 10590

Studies on the pycnidial formation by Macrophomina phaseoli (Maubl.) Ashby size of pycnidia, ostiole and pycnidiospores and its significance. 10600

Morphological studies of laticifer rupture and leaf development in lettuce, Lactuca sativa L. 10685

Morphology and significance of laticifer rupture in lettuce tipburn. 10686

Relationship of the green peach aphid to incidence and severity of lettuce mosaic. 10717

The relationship of silk balling, husk length, husk tightness and blank tip to earworm and sap beetle resistance in maize. 10737

Ethylene, light, and stress in the growth and development of Pisum sativum L. cv. Alaska. 10986

Developmental anatomy of a coralloid gall on Ipomoea pes-tigridis Linn.. 11452

Varietal differences in oat blue dwarf virus resistance and symptom expression. 11473

Stem pitting of yellow bud mosaic virus--infected peaches. 11505

Effects of gibberellin treatment on the growth and dry weight of the rice plants. 11693

Wood and organisms; International Symposium, Berlin-Dahlem, 1965. 11919

On the biology of Trametes lactinea Berk. in culture. 11943

Micro-morphological changes of lignified cell walls produced by Basidiomycetes (brown rot fungi). 11958

Electron microscopical observations on hyphae of wood fungi. 12020

A new nematode-destroying Harposporium. 12090

Cytological and morphological evidence for the single-cell origin of vegetatively propagated shoots in thirteen species of Saintpaulia treated with colchicine. 12233

Effects of Alar on morphology, chlorophyll content, and net CO2 assimilation rate of young apple trees. 12258

Morphogenetic responses of tomato plants to combined and individual applications of gibberellic acid, Phosfon and B-nine. 12271

Interaction of triiodobenzoic acid and indoleacetic acid in development and flowering of Kalanchoe. 12301

Studies on Claviceps purpurea (Fr.) Tul. parasitic on Phragmites communis Trin.. 12627

Insecticide trials in tobacco seedbeds, 1962--1965. 12715

Gross morphological and cytological effects of nitralin on corn roots. 12721

Notes on Wisconsin parasitic fungi.XXXIII. 13255

Photochemical oxidant injury and bark beetle (Coleoptera: Scolytidae) infestation of ponderosa pine. I. Incidence of bark beetle infestation in injured trees. 13859

Relative radiosensitivities of three developmental stages, i.e., floral development, gametogenesis and embryogenesis under chronic gamma irradiation. 14101

Inheritance of split cotyledons in swede turnips (Brassica napus). 14326

Cryopreservation and pathogenicity of selected isolates of Colletotrichum, Rhizoctonia, and Phytophthora. 14374

On Fusarium oxysporum f. sp. lagenariae n. f. causing wilt of Lagenaria vulgaris var. hispida. 14404

Occurrence of Phyllosticta leaf spot on Florida cigar-wrapper tobacco. 14456

Morphology of cauliflower mosaic virus. 14464

The respiration and flower development of evergreen azaleas as influenced by gibberellin, scale removal, and 2,4-dinitrophenol. 14666

Effect of D-galaltose on the ultrastructure of bentgrass root apices. 14672

Nucleus of fusion body and infection structure produced by uredospores of three rust fungi. 14685

Correlation studies between leaf mid-rib structure and resistance to jassids (Empoasca devastans Dist.) in cotton. 15041

Plant resistance depending on protective surface layers occurring naturally. 15277

Staminal and functional male sterility induced by chemical treatment in Papilionaceous plants. 15280

Influence of fungicides and insecticides on the occurence of Aspergillus on peanut seedlings. II. Seed treatments. 15498

Investigations on the stain bacterias of carnations due to Pectobacterium parthenii var. Dianthicola Hellmers. 15547

Variability of the germinal spores of some Ustilaginales limited by X-rays. 15570

Double and multiple eared winter rye as a result of abnormal effects of weed controllers containing calcium cyanamide. 15892

PLANT MUTATION

Production of yeast variants by auxin and effects of plant growth regulators on these variants. 9214

Colchicine-induced mutations in a trispecific Nicotiana hybrid. 9826

Studies on growth and mutation frequency in rice in treatments with dimethyl sulphoxide and ethyl methane sulphonate. 11031

A result of ethylene imine treatment in malting barley. 14083

Efficiency of mutation induced by the absorption of beta emitting radioisotopes in plants. 14085

Comparison of mutagenic effects of ethyleneimine and ionizing radiations on rice. 14086

Induction of mutants in sweet potato by absorption of 32P. 14092

Induction of mutations in rice by some chemicals. 14093

Mutagenic effects of several alkylating substances in rice with reference to the method of treatment. 14100

Effects of growth regulators on ear density mutants in barley. 15905

PLANT NEMATODE RESISTANCE

First observations on the resistance of a hybrid potato variety to some Italian populations of Heterodera rostochiensis Woll. 8381

Host-parasite relationships of various plants and the hop cyst nematode, Heterodera humuli. 8391

General breeding, breeding for resistance to blight and potato root eelworm. 10599

Cereal cyst eelworm, (Heterodera avenae). 10745

Potato cyst eelworm, (Heterodera rostochiensis). 10746

Chrysanthemum eelworm. 11556

A comparison of genetic resistance and fumigation for rootknot nematode control in pole beans. 12093

Chemical control of stem nematodes in red clover. 13342

Influence of Zygotylenchus guevarai (Tobar Jimenez, 1963) Braun and Loof, 1966, on some of its hosts. 14511

PLANT NEMATODES

A black mildew, of the genus Diporotheca, found on roots of Nicotiana tabacum in Connecticut. 8278

Assessment of rice loss caused by the rice stem borer. 8353

First observations on the resistance of a hybrid potato variety to some Italian populations of Heterodera rostochiensis Woll. 8381

Contribution to the migratory behavior of Xiphinema diversicaudum (Mikoletzky) Thorne, X. coxi Tarjan and Longidorus macrosoma Hooper, as well as the diffusion of rhubarb mosaic virus in the field. 8382

Effect of organic and inorganic nitrogen on nematode populations on turf. 8383

Multiple applications of 1,2-dibromo-3-chloropropane for control of nematodes in established rose plantings. 8384

New data on the distribution and biology of the couch grass nematode (Paranguina agropyri Kirjanova, 1955 (Nematoda: Tylenchida). 8385

Pathogenicity of Hemicriconemoides species to coffee. 8386

Oxalis acetosella, a new host of the coffee root-lesion nematode in south India. 8387

Contributions to the knowledge of the Italian nematode fauna. I. Genus Meloidgyne Goeldi, 1887. 8388

Nematodes associated with soybeans in Alabama, Florida, and Georgia. 8389

Plant-parasitic nematodes in marginal Pinus ponderosa stands in central New Mexico. 8390

Host-parasite relationships of various plants and the hop cyst nematode, Heterodera humuli. 8391

Serological and morphological studies on the inter- and intraspecific differences of the plant-parasitic nematodes Heterodera and Ditylenchus. 8514

The distribution of the family Heteroderidae (Filipjev, 1934) in South Africa and some host records of Meloidogyne species. 9026

On the knowledge of the seasonal dynamics of heterderosis in sugar beets in East-Slovakia (CSSR). 9027

The relation of climatic factors to the duration of the development of Heterodera schachtii in Slovakia (CSSR). 9028

Xiphinema americanum associated with maple decline in Massachusetts. 9029

Nutritional requirements for reproduction of a temperature sensitive nematode, reared in axenic culture. 9030

A foliar disease of tuberose caused by Aphelenchoides besseyi. 9031

Investigations on the migratory root nematode Pratylenchus neglectus on fodder grasses. 9033

The effect of soil fumigation on the growth of sugar beet. 9193

Occurrence and distribution of diseases and pests of rice and their control in Thailand. 9531

Horticultural handbook. 9537

Commercial vegetable insect control. 9633

The eelworm problem in glasshouse tomatoes. 9651

Transmission of tobacco ringspot virus to the roots of a conifer by a nematode. 9652

Assessment of crop losses caused by nematodes in the United States. 9653

Root nematode (Meloidogyne naasi Franklin) in Serbia (preliminary communication). 9654

Nematodes associated with declining coconut palms. 9655

Study of nematodes causers of root spot-Pratylenchus spp. 9657

Translocation of tobacco ringspot virus in cucumber and zinnia. 10206

Plant sciences and crop husbandry, research report, 1967. 10586

Some suggestions for control of white ant damage on dadaps (Erythrina indica L.). 10710

Root knot eelworm, (Meloidogyne species). 10747

Other nematode investigations. 10748

Virus vector nematodes. 10750

Control of Meloidogyne incognita on boxwood with nematicidal drenches. 10753

Cactus cyst nematode, Heterodera cacti, in Florida, with host list. 10754

Clover cyst eelworm, (Heterodera trifolii). 10755

Sugarbeet nematodes found on garden red beet in Ohio. 10757

Phytopathogenic nematodes in Hessen forest tree nurseries. 10758

New phytonematode for the fauna USSR. 10759

Invasion of the Hedysareae by Heterodera trifolii. 10760

Experimental tests in the control of Heterodera schachtii Schm. 10762

Interrelationship of root-knot nematode leaf curl virus in tomato. 11445

Plant pathology. 11446

List of intercepted plant pests, 1966. (Pests recorded from July 1, 1965, through June 30, 1966.). 11535

Susceptibility of two citrus rootstocks to Pratylenchus spp. 11551

Factors influencing the ratio of males to females in the genus Heterodera. II. Minimum living space--selective rate of mortality of sexes--sex ratio (Heterodera schachtii). 11552

Analysis of total lipids and fatty acids of plant-parasitic nematodes and host tissues. 11553

Plant parasitic nematodes associated with sugarcane production in Rhodesia. 11554

Influence of growing marigolds, weeds, two cover crops and fumigation on subsequent populations of parasitic nematodes and plant growth. 11555

Chrysanthemum eelworm. 11556

Stylet-bearing nematodes associated with plants in Iowa prairies. 11558

PLANT NEMATODES

Effect of root extract of Asparagus racemosus Tagetes erecta on hatching of eggs of Meloidogyne javanica Meloidogyne arenaria.
11559

Stubby roots of coffee seedlings caused by Rotylenchulus reniformis.
11560

Observations on associated complexes nematodes-fungi in connection with damages to flower growing and horticulture and means of control.
11923

What's new in farm chemicals .
11975

A new nematode-destroying Harposporium.
12090

A comparison of genetic resistance and fumigation for rootknot nematode control in pole beans.
12093

The importance of nematological problems in view of the industrialization of agriculture.
12094

Effect of trifluralin and Meloidogyne hapla Chitwood on growth of Vinca major L.
12253

Changes in a Heterodera rostochiensis population through the growing season.
12451

Meloidogyne naasi on sorghum in Kansas.
12695

Assessment of the damage caused to potatoes by potatoes cyst celworm, Heterodera rostochiensis Woll..
12696

The importance of the problems posed by the bulb and stem celworm, Ditylenchus dipsaci Kuhn, in western France.
12697

A survey of the coffee tree nematode, Meloidogyne coffeicola, in the State of Sao Paulo.
12698

Studies of cereal nematode populations and cereal yields under continuous or intensive culture.
12699

About the specificity of Tylenchulus semipenetrans Cobb (Nematoda; Tylenchida) to several species of citrus roots.
12700

Biological aspects of the carrot cyst nematode, Heterodera carotae Jones, 1950.
12701

Observations on meadow nematodes (Pratylenchus spp.) and their relation to declines of citrus in Florida.
12702

Taxonomic problems concerning the phytoparasitic nematodes.
13333

On the occurrence of leaf nematodes on weeds and other wild plants.
13334

Nematode control lifts ginger yields.
13335

Studies of plant and soil nematodes. 13. Tylenchulus clavicaudatus n. sp. (Nematoda: Tylenchulidae), a parasite of the liana Deeringia arborescens (R. Br.) Druce.
13336

Nematode problems in areas of strawberry cultivation in Hessen-Nassau.
13337

New possibilities for the control of parasitic plant nematodes with fensulfothion.
13338

The soybean cyst nematode in Florida.

Some weed hosts of the southern root-knot nematode, Meloidogyne incognita.
13875

Preparation of fresh frozen sections of free-living and plant parasitic nematodes with a cold microtome.
13876

The behaviour of second-stage Heterodera rostochiensis larvae leading to their emergence from the egg.
13877

A method for studying the influence of hydrogen ion concentration on the aggregation of Aphelenchus avenae.
13878

Susceptibility of two citrus rootstocks to Pratylenchus spp.
13879

Penetration and feeding by Aphelenchus avenae.
13880

The citrus nematode, Tylenchulus semipenetrans.
13881

Frequency of new females (cysts) in single-cyst cultures of Heterodera rostochiensis; their relevance to the inheritance of ability to overcome resistance and to the frequency of mating.
13882

Control of the sugarbeet nematode, Heterodera schachtii, on sugarbeets with organophosphate and carbamate nematicides.
13883

Notes on the host range, ecology and population dynamics of Pratylenchus brachyurus.
13884

Occurrence of Endotokia matricida in Paranguina agropyri with a note on the hibernation of this eelworm.
13885

Plant-parasitic nematodes of jack and red pine stands in Wisconsin.
13886

Pectinases in Ditylenchus dipsaci.
13887

Tissue culture and maintenance of the root-lesion nematode, Pratylenchus vulnus.
13888

Influence of growing marigolds, weeds, two cover crops and fumigation on subsequent populations of parasitic nematodes and plant growth.
13889

The effects of chemical treatment on Tylenchulus semipenetrans and citrus tree response during 8 years.
13890

Monoxenic culturing of Dolichodorus heterocephalus on corn root callus.
13891

Effect of temperature on the rate of development of Nacobbus serendipiticus in excised tomato roots.
13892

The relationships between population increase and population density in plant parasitic nematodes. III. Definition of the terms host, host status and resistance. IV. The influence of external conditions on the regulation of population density.
13893

The relationships between population increase and population density in plant parasitic nematodes. II. Sedentary nematodes.
13894

Some biochemical changes in the contents of the cyst of Heterodera rostochiensis during its maturation.
13896

Observations on the biology of Aphelenchoides fragariae in Lorraine begonia.
13898

A simplified method for testing infestivity of Heterodera rostochiensis.
13899

Observations on parasitic protozoa in plant-parasitic and free-living nematodes.
13900

Influence of planting time on phytotoxicity of dichloropropenes to sugarbeets.
14077

The Tea Research Institute of Ceylon. Annual Report for the year 1966. Part II.
14304

Breeding for disease resistance and yield improvement in flue-Cured tobacco.
14394

Pests of legume covers. characteristic cocoon production.
14479

The sugar beet nematode.
14504

Importance and causes of Nematode movement in the soil and research on the migration of 'Ditylenchus myceliophagus'.
14506

Pathogenicity and identity of root-knot nematodes on five varieties of banana.
14507

The occurrence of Heterodera glycines on Trifolium alexandrinum in United Arabic Republic.
14509

Ring nematode disease of rice in Louisiana. (Abstract).
14510

Influence of Zygotylenchus guevarai (Tobar Jimenez, 1963) Braun and Loof, 1966, on some of its hosts.
14511

Control of citrus nematode, Tylenchus semipenetrans, with DBCP in established cyprus citrus groves.
14512

Effect of Heterodera schachtii on sugar beet seedlings under monoxenic conditions.
14513

Underpopulation in plant parasitic nematodes.
14515

Present problems of plant protection in peppermint.
14915

Integrated control of hop wilt I. Protection by chemical treatment and breeding. 14959

Eelworm control: A practical method for the sterilization of casing soils. 15042

On the spread and control of Anguina agrostis. 15045

Nematode control in woody ornamentals. 15046

Ornamental and floral crops disease control. 15469

Strawberry disease control. 15484

On the transmission of tomato black ring virus by Longidorus attenuatus (Nematoda). 15518

Peanut diseases. Southern stem rot. 15606

Soil treatment for control of nematodes and certain soil-borne diseases. 15679

Lesion nematode, Pratylenchus brachyurus, attacking Cryptomeria japonica in Singpore. 15681

Studies of plant and soil nematodes. 14. Five new species of Tylenchorhynchus Cobb, Paratylenchus Micoletzky, Morulaimus Sauer and Hemicycliophora De Man (Nematoda: Tylenchoidea. 15682

Soil fumigants for nematode control in cotton. 15684

Establishing overall plant protection. 15685

Investigation of the infection of potato nematode (Heterodera rostochiensis Wollenweber) cysts by three insect pathogenic fungi. 15687

A simple device for injecting methyl bromide into a replant site. 15688

The effects of infection by Heterodera rostochiensis and Rhizoctonia solani on development and yield of potatoes in pots. 15689

Fumigant nematocides for tobacco. 15690

Multipurpose disease control soil fumigants for tobacco. Nemotodes, black shank and black root rot. 15691

Nematode control in woody ornamentals. 15693

Chemical control of nematodes in sugarcane. 15694

PLANT NUTRITION

Studies on the nutrition and development of Gaeumannomyces graminis (Sacc.) von Arx et Olivier, the causal organism of the take-all disease of cereals. 8951

The influence of nutrition on susceptibility of peach foilage to water congestion and infection by Xanthomonas pruni. 8972

Calcium nutrition and black shank of tobacco. 8999

Cocoa dieback- A review of present knowledge. 9612

In your garden - weeds: Robbers, but not always bad. 10168

Nutrition of the silver-leaf pathogen Stereum purpureum (Pers.) Fri. 10175

Research on integrated control of pests in the experimental orchard 'De Schuilenburg'. 10728

The influence of magnesium on the toxicity of atrazine. (Abstract). 10962

The effect of Zn on yield and chemical composition of sweet corn in the Willamette Valley. 10997

Possibilities and limits of an optimum or maximum nitrogen fertilization. 11025

Effect of mineral nutrition on the fusarium brown foot-rot of wheat. 11494

The diseases of alfalfa, Medicago sativa L. 11506

National Vegetable Research Station: Seventeenth Annual Report, 1966. 11914

Micronutrients essential for tree health and high yield of quality citrus. 11993

Interaction of nutrients and four antifungal antibiotics in their effects of Pythium species in vitro and in soil. 12910

The hypersensitive reaction to infection by bacterial plant pathogens. 13267

Plant resistance to aphids induced by chemicals. 13329

Crop-weed competition for phosphate nutrition. 13351

Effect of root fungus on mineral nutrition of the pine tree. 13774

Grapevine leafroll virus--history and anatomic effects. 13784

Influence of environment on development and sex differentiation of root-knot nematodes. II. Effect of host nutrition. 13873

Role of 2,4-dichlorophenoxyacetic acid and of myo-inositol in the formation of the callus on excised roots of Solanum laciniatum Ait. 14090

Studies on the molybdenum availability. Part II. The effect of molybdenum and calcium treatment on the uptake of molybdenum by plants. 14091

The etiology, including nutritional considerations, of passion fruit brown spot in Hawaii. 14342

Evidence of phenotypic mixing between two strains of tobacco mosaic virus. 14441

The effect of ZnSO4 on the chemical composition of maize leaves. 15291

The effect of molybdenum on the amino acid content in beans. 15293

Stem canker. I. Observations on knobby second growth. 15478

Physiological diseases in potatoes (Solanum tuberosum L.). I. Observations on knobby second growth. 15479

Broken leaf, a new coconut disease in the Caribbean area. 15556

Factors affecting growth of rooted aquatics in a river. 15899

PLANT NUTRITIONAL DEFICIENCIES

Pepper production in Kentucky. 9558

Micronutrients essential for tree health and high yield of quality citrus. 11993

Effect of iron and manganese deficiency on the chlorophyll, amino acid and organic acid status of leaves of macadamia. 12255

Leaf symptoms of Manganese deficiency in avocado trees. 12298

Experiments on the control of whiptail in cauliflower. 13242

Physiological studies on pear canker disease in Egypt and its control. 13790

Study on the etiology of girdle scruf of beets. 14953

PLANT ODOR

Plant care and bee care go hand in hand. 14478

PLANT PEST CONTROL

Releases of unsexed gamma-irradiated codling moths for population suppression. 8378

Oxalis acetosella, a new host of the coffee root-lesion nematode in south India. 8387

Observations on bird tanglefoot traps as a direct method of apple maggot control. 9014

Effect of herbicides on the valuations of made tea. 9212

The chemical control of the diplopoda of beets. 9622

Pesticides and plows. 10167

Chemical preparations in the services of agriculture and forestry. 10169

Role of hermit crabs in the biological control of Achatina fulica (Bowdich) on the Andamans. 10321

Tropical Pesticides Research Institute, annual report, 1966. 10611

Pests and diseases. 10671

Mass-rearing of Phytoseiulus riegeli Dosse for use in commercial horticulture. 11714

Control of wheat bulb fly by large area cropping restrictions. 12069

Experiments to control wheat bulb fly with a flame thrower. 12070

Bioassay determination of gamma-BHC absorbed from soil and translocated in potted rice plants. 12266

Recent introductions for biological control in Hawaii. XII. 13230

Prevention and treatment. 13236

The relative susceptibility of the larvae of Spodoptera mauritia acronyctoides (Guenee) (Lepidoptera: Noctuidae) to several contact insecticides. 13300

Biological methods are effective and hygienic. 13317

Integrated control of insects. 13325

Nematode control lifts ginger yields. 13335

The soybean cyst nematode in Florida. 13340

Protection of apples against diseases and pests, and the value of some pesticides. 13747

Traps, male lures, and a warning system for Queensland fruit fly, Dacus tryoni (Frogg.) (Diptera, Trypetidae). 13849

Essentials in pest control. 14196

The European corn borer; how to control it. 14301

Pests of the grapevine. 14485

Eelworm control: A practical method for the sterilization of casing soils.
15042

PLANT PEST RESISTANCE

Lycopersicon an Solanum spp. resistant to the carmine and the two-spotted spider mite.
8343

Recognition of a greenbug biotype injurious to sorghum.
8349

Varietal resistance to rice stem borers in India.
8355

Varietal resistance to rice stem borers in Japan.
8362

Varietal resistance to rice stem borers at IRRI.
8367

Team alfalfa scores high.
8926

Races of crown rust in South Africa.
9599

Concentration of two 1,4-benzoxazinones in dent corn at various stages of development of the plant and its relation to resistance of the host plant to the European corn borer.
9796

Twenty-six varieties of forage crops evaluated for resistance to feeding by Melanoplus sanguinipes.
10246

Investigations on the susceptibility of some potato varieties to infection by Phytophthora infestans (Mont.) de Bary when using staggered planting dates.
10708

Biochemical composition of plants of Cucurbita foetidissima HBK, and Cucumis melo L. as related to cucumber beetle feeding.
10712

Biochemical studies of plants of Cucurbita pepo L. varieties as related to feeding response of squash bug Anasa tristis DeGeer.
10713

Bud characteristics of ponderosa pine related to potential damage by the European pine shoot moth.
10720

The relationship of silk balling, husk length, husk tightness and blank tip to earworm and sap beetle resistance in maize.
10737

Resistance discovered to maize borer.
11915

Biochemical composition of host plants of Brassica oleracea var. capitata L. as related to resistance to Trichoplusia ni Hubner and Pieris rapae Linne.
12051

The relationship of glandular hairs on tomatoes to spider mite resistance.
12085

Studies on Lipapaphis erysimi (Kalt.) with special reference to insect-plant relationship. III. Effect of age of plants on susceptibility.
12677

Plant resistance to Myzus persicae induced by a plant regulator and measured by aphid relative growth rate.
12693

The differential resistance mechanism in female Hampea sp. Trees to the boll weevil.
12903

Effects of three species of aphids on barley, wheat or oats at various stages of plant growth.
13301

Performance of Aphis fabae and Brevicoryne brassicae on plants treated with growth regulators.
13310

Reproduction of stored-grain insects on varieties of wheat, oats, and barley.
13323

The soybean cyst nematode in Florida.
13340

Ascorbic acid impractical as a character for resistance in cotton to the boll weevil.
13480

Resistance of cotton stains with high gossypol content to Heliothis spp.
13483

The effect of (2-chloroethyl) trimethylammonium chloride (CCC) on the grain yield and quality of rye in field trials.
13487

The European corn borer; how to control it.
14301

The frequency of Sogata orizicola Muir and Sogata cubana Crawf. on rice and Echinochloa colonum in Colombia.
14482

New plant protection law is in force.
14704

Influence of successive cereal crops on fluctuations in the gravity of the disease of white heads of wheat (Ophiobolus graminis Sacc.).
14963

Resistance of maize inbreds and hybrids to noctuid. Sesamia nonagrioides Lef.
15002

Resistance of varieties of Portuguese wheat, Triticum aestivum L. em. Thell., to the wheat stem sawfly.
15677

PLANT PESTS

Weather, development of vines, diseases, pests and damages in the wine-growing areas of the Federal Republic of Germany in 1967.
9528

Observations on crop pests in the Sudan in 1966-67.
9648

Specialist advisory and diagnostic service.
10598

A new nematode-destroying Harposporium.
14508

Pattern of distribution of Stephanitis typicus Distant (Heteroptera: Tingidae), a pest of coconut palm, on its host plant.
15546

PLANT PHYSIOLOGICAL DISEASES

Effect of cycocel on foot and root rots, lodging and yield of spring wheat.
10973

Plant pathology.
11446

Blossom-end rot of 'Chico' and 'Chico Grande' tomatoes.
11973

End spotting and corking of avocado fruits.
12026

Yuzuhada, a physiological disorder of oriental pear, and its possible relation to black-end and hard-end of Bartlett.
12656

The effect of (2-chloroethyl) trimethylammonium chloride (CCC) on the grain yield and quality of rye in field trials.
13487

The influence of CCC on lodging and development of grain.
14680

PLANT PHYSIOLOGY

Plant diseases and their chemical control.
8291

Bacterial top and stalk rot disease of corn in Wisconsin.
8297

Effect of crinkle-scurf of citrus on tree growth, productivity, and fruit quality.
8312

Pathogenicity of Hemicriconemoides species to coffee.
8386

Experimental research concerning the circumstances and modalities of the return of inflorescence towards the vegetative stage in Salvia glutinosa L.
8577

Expression of sexual characteristics in annual mercurials.
8580

The contraction of the roots of Arum italicum.
8583

A study of the development of the giberellin content of embryos of Evonymus europaeus L., in the course of the stratification of seeds.
8584

Systemic insecticides in trees.
8585

The elongation of stamen filaments in Graminaceae.
8589

Effect of several herbicides on flower production, growth and weed control in marigolds.
8590

Character expressions and casual genes of some mutants in rice plant. Genetical studies on rice plant, XXXIII.
8930

Wound dressings for the prevention of silver-leaf in fruittrees caused by Stereum purpureum (Pers.) Fr.
8946

Studies on the nutrition and development of Gaeumannomyces graminis (Sacc.) von Arx et Olivier, the causal organism of the take-all disease of cereals.
8951

Effects of the fungus Erysiphe graminis f. sp. hordei Marchal on the transpiration of barley.
8979

Invasion of plant tissue by bacteria under in vitro conditions.
8997

Alteration of plant growth habit as a means of controlling rhizomatous species.
9037

Chemical mediation of growth movements in dodder.
9038

Iminodioxolanes as herbicides. Patent 3,427,147.
9040

Similarity between phytokinins and herbicidal phenylurethanes.
9043

Chemical weed control in cotton: I. Growth and yield response of cotton plants to some herbicides.
9045

Biological activity of a phytotoxic glycopeptide produced by Corynebacterium sepedonicum.
9180

Cell-wall deposition and the distribution of cytoplasmic elements after treatment of pea internodes with the auxin analog 2,3,5-triiodobenzoic acid.
9188

Auxin control of leaf abscission. I. Experiments with Ervatamia divaricata Burkill., var. floreplcno.
9190

The effect of soil fumigation on the growth of sugar beet.
9193

Role of RNA metabolism in the action of auxin-herbicides.
9194

The effects of combinations of preemergence herbicides and systemic insecticides on cotton stands and yields.
9196

Comparison of the movement and vascular differentiation effects of the endogenous auxin and of phenoxyacetic weedkillers in stems and petioles of Colens and Phaseolus.
9197

Yeast sporulation and RNA as affected by gibberellic acid.
9198

Some features of the physiology of dormancy in black currant plants in connection with the effect of gibberellin.
9199

On the mode of action of carbamate herbicides. 9200

Lipid metabolism in the fruit of Persea americana Mill. I. Studies on the chemical composition of lipids and their changes during fruit development and storage. 9201

Chemical growth retardants for bedding plants. 9203

Fine structure of healthy and TMV-INFECTED tobacco cells grown in tissue culture. 9206

Effect of sucrose and indole-3-acetic acid on extension growth of wheat coleoptile segments. 9207

Progress in the knowledge of natural plant growth regulators. 9208

Effect of simazine on photosynthetic pigments of green algae. 9209

Growth response of turfgrasses to several herbicides. 9211

Mode-of-action of photosynthesis inhibtor herbicides. 9215

Activation and inactivation of herbicides by higher plants. 9235

Metabolism of 2,2-dimethyl-2,3-dihydrobenzofuranyl-7 Nmethylcarbamate (Furadan) in plants, insects, and mammals. 9424

Influence of Botrytis cinerea infection on ribosomal properties and functions in cabbage tissues. 9539

Suppression of ozone toxicity symptoms in virus-infected tobacco. 9551

Etiological studies on root rot of wheat caused by Cercosporella heapotrichoides Fron. 9553

Vivipary in Zea mays induced by Diplodia maydis. 9554

Evidence for longevity of seeds. 9563

The physical action of viruses on the plant cell. 9564

A contribution to the study of Alternaria tenuis Nees causer of the leaf spot of tomato. 9581

Symptoms of stubborn disease in citrus and Poncirus fruit grafted onto virus-infected seedlings. 9589

Effect of infection of corn by the fungus Ustilago zeae on the properties of the chlorophyll-protein complex. 9600

Some herbicidal and physiological effects of 3,4-dichloropropionanilde (Stam F-34) on Ammannia baccifera L. 9672

Electron microscopy of rice transitory yellowing virus. 9751

Plant hormones and flowering in coffee. 9824

Effect of chlorocholine chloride on the growth characteristics, lodging and yield of rice. 9828

Infection structures from rust urediospores: Effect of RNA and protein synthesis inhibitors. 9829

Metabolism of iodoacetic acid by orange leaves. 9830

Oxidative degradation of aromatic hydrocarbons by microorganisms. II. Metabolism of halogenated aromatic hydrocarbons. 9831

Pathological changes in ultrastructure: False plasmolysis. 9832

Ozone. Effect on apparent photosynthesis, rate of transpiration, and stomatal closure in plants. 9833

SNA sprays to improve weight and size of spring fruit of pineapples in Taitung. 9836

Alterations of the host wall surrounding the infection peg of powdery mildew fungi. 9837

Effect of time of application of gibberellic acid and parachlorophenoxyacetic acid on berry and bunch weight, yield and seedlessness in grape (var. Anab-e-Shahi). 9839

Metabolism of beta-dihydroheptachlor-14C in soil and by microorganisms. 9840

The growth and activity of cellulose decomposing fungi as influenced by culture conditions. 9845

Anatomical studies of the ovipositional site of plant hoppers and leaf hoppers on rice. 10075

Some observations on Cynips quercus folii L. galls on Quercus robur L. in Bydgoszcz province. 10203

Mode of action of agricultural antibiotics developed in Japan. 10205

Evidence for restriction of a plant virus to phloem cells. 10219

Studies on physiology of Helminthosporium australiense the causal agent of a leaf spot disease of bajra. 10226

Biochemical basis for plant competition. 10274

Light intensity and the absorption and translocation of 2,4,5-T by woody plants. 10276

Influence of weed competition on sorghum growth. 10277

Absorption and translocation of pyrazon by plants. 10287

Effects of pyrazon on growth, photosynthesis, and respiration. 10288

Translocation of assimilates and dalapon in established johnsongrass. 10292

Effect of nitrogenous materials on the uptake of triazine herbicides. 10298

Chemical stimulation of ethylene evolution and bud growth. 10300

Effect of soil water stress and soil temperature on translocation of diuron. 10302

Translocation of the herbicide dicamba in purple nutsedge, Cyperus rotundus. 10304

Absorption and penetration of picloram in potato tuber discs. 10308

Response of soybeans to 2,4-D, dicamba, and picloram. 10312

EPTC effects on sicklepod petiolar fatty acids. 10315

Influence of pesticides on soil microbes and soil properties. 10400

Cell physiology investigations of the action of new triazine derivitives on petiole epidermis of Solanum tuberosum L. 10431

Physiological and biochemical contribution to fume damage research, 8. Physiological investigations of the action of SO2 on the metabolism of conifer needles in winter. 10432

Influence of atrazine (2-chloro-4-ethylamino-6-isopropylamino-5-triazine) on auxin metabolism of plants. 10434

Effect of dichloro diphenyl trichloro-ethane (DDT) on leghemoglobin content of root nodules of Phaseolus aureus (green gram). 10438

On the inhibitory effect of yeast ribonucleic acid on the infection of Nicotiana glutinosa by tobacco mosaic virus. 10443

Photocontrol of rough cinquefoil seed germination and its enhancement by temperature manipulation and KNO3. 10451

Reversion of senescence: Effects of 2,4-dichlorophenoxyacetic acid and indoleacetic acid on respiration, ethylene production, and ripening of banana fruit slices. 10452

Effects of gibberellin A3 on fruit shape and subsequent seed dormancy of apple. 10453

Distribution of miscrotoxin in varieties of Astragalus miser Dougl. ex Hook. 10454

Gibberellin induced heterostyly in the tomato and its implications for hybrid seed production. 10593

Behaviour of Alternaria poonensis inciting blight of coriander in artificial culture. 10606

Annual report of the Indian Institute of Sugarcane Research, Lucknow, 1964-65. (Mycology, by K. Singh; Research project on investigation and control of virus diseases of sugarcane, by K. Singh; Entomology, by A. N. Kalra). 10609

Application of soil moisture principles to the study of plant disease. 10632

Comparisons between Granny Smith apples from healthy and green crinkle virus infected trees. 10659

Morphology and significance of laticifer rupture in lettuce tipburn. 10686

Effects of fertilization schedules on flower production, keeping quality, disease susceptibility, and chemical composition at different growth stages of Chrysanthemum morifolium. 10707

Relationship of the green peach aphid to incidence and severity of lettuce mosaic. 10717

Bud characteristics of ponderosa pine related to potential damage by the European pine shoot moth. 10720

Reaction of leaf life Aphis fabae Scop. on the qualitative changes in the content of free amino acids present in the vegetative organs of Euonymus europea L. and seedy sugar-beet. 10740

Influence of herbicides on root development of bermudagrass. (Abstract). 10769

The activity of proteinase in potato tissues affected by Pectobacterium phytophthorum. 10886

The effects of accumulated fluoride on yields and fruit quality of 'Washington' navel oranges. 10929

Comparison of three soil-incorporated herbicides, trifluralin, benefin, and SD-11831, on the growth of cotton seedlings. (Abstract). 10956

The influence of endothal, dichlobenil, and bromoxynil, on proteolytic activity in the cotyledons of squash seedlings. (Abstract). 10958

Phytotoxicity of certain herbicides to several woody ornamentals. 10960

PLANT PHYSIOLOGY

The distribution, content, and movement of picloram after foliar and soil applications on huisache. (Abstract). 10961

The effect of 3-amino-1,2,4-triazole on the incorporation of certain amino acids into the soluble protein of bean plants. (Abstract). 10963

Some data on the conditions for obtainine an epicotylary growth inhibition in Ginkgo biloba L. under the influence of gibberillic acid. 10964

Absorption and translocation of 2,4-D-2-C14 by wolftail (Carex cherokeensis Schwein). (Abstract). 10965

Effects of N-dimethyl amino succinamic acid (B-Nine) on flower longevity and vegetative growth of pot chrysanthemums (Chrysanthemum morifolium Ramat). 10966

Interaction of gibberellic acid and light on the germination and growth of seedlings of Gossypium herbaceum L. var. Digvijay. 10968

Amiben glucoside formation as a possible mechanism of herbicidal tolerance in plants. (Abstract). 10971

Effect of cycocel on foot and root rots, lodging and yield of spring wheat. 10973

Effect of moisture stress on the absorption and transport of herbicides in woody plants. (Abstract). 10974

Vegetative stimulation of concord grapes following weed control with diuron, monuron, and simazine. (Abstract). 10975

Dictyostelium discoideum: A gamma-ray resistant organism. 10976

The effects of trifluralin on the nucleic acids and carbohydrates content of sweet potatoes and peanuts. (Abstract). 10979

Absorption, translocation and accumulation of labeled N-dimethylaminosuccinamic acid in apple tissues. 10980

Two types of post-emergence activity of CIPC. (Abstract). 10981

Effects of ioxynil on respiration. (Abstract). 10982

Acorn moisture content critical for cherrybark oak germination. 10983

Further studies on root exudation of exogenous growth regulators in Phaseolus vulgaris L. (Abstract). 10984

The effect of bromoxynil and dicamba on the water use of barley and tartary buckwheat grown alone and together. (Abstract). 10985

Ethylene, light, and stress in the growth and development of Pisum sativum L. cv. Alaska. 10986

Interaction of Alar and gibberellin on growth and flowering of the apple. 10987

The metabolism of trifluralin by peanuts and sweet potatoes. (Abstract). 10988

Effects of prolonged use of certain herbicides on soil microorganisms. (Abstract). 10989

Atrazine induced ultrastructural changes of barnyardgrass chloroplasts. (Abstract). 10990

Absorption, translocation, and metabolism of CIPC in plants. (Abstract). 10993

The effect of Zn on yield and chemical composition of sweet corn in the Willamette Valley. 10997

Herbicide resistance in Avena fatua L. (wild oat). (Abstract). 10998

Toxic effects of black fiber pots on tomato transplants. 11006

Effect of time and temperature of storage on viability of Botrytis convoluta conidia and sclerotia. 11007

Aspects of the physiology of herbicidal action of dicamba in purple nutsedge (Cyperus rotundus L.). (Abstract). 11008

Endogenous growth regulating factors in bark of EM IX and XVI apple trees. 11009

Growth and control of Johnsongrass ecotypes. (Abstract). 11011

Honey mesquite stem structure and seasonal growth cycle. (Abstract). 11012

Influence of butyl ether 2,4-D and ammonium sulphamate preparate on the grass stand of brush steppe in the flood plain of the River Belaya. 11014

Comparison of radioisotopic and gas chromatographic methods for measuring absorption and translocation of 2,4,5-T by mesquite. (Abstract). 11015

Studies on the growth regulator CCC (2 chloroethyl trimethyl ammonium chloride) on wheat. 11017

Effect of trifluralin on oxygen uptake and oxidative phosphorylation in isolated mitrochondria. (Abstract). 11018

Uptake and tolerance of lithium chloride by tung trees. 11022

The metabolism of pyrazon in red beets. (Abstract). 11023

Chemical control of growth and flowering of woody ornamental plants in the landscape and nursery: Tests with maleic hydrazide and Alar. 11026

Effect of herbicides on growth of established Midway and Surecrop strawberry plants given replant treatments of activated charcoal. (Abstract). 11027

The effect of trifluralin on nucleic acids and protein of corn roots. (Abstract). 11028

Dealkylation of atrazine in higher plants and its significance. (Abstract). 11030

Studies on growth and mutation frequency in rice in treatments with dimethyl sulphoxide and ethyl methane sulphonate. 11031

Size control of nursery trees with N-dimethylaminosuccinamic acid. 11036

The effect of environment on root suckering in Robinia pseudoacacia L. (Abstract). 11037

The metabolic fate of propanil. I. (Abstract). 11038

The metabolic fate of propanil, Ii. (Abstract). 11039

Some factors affecting dormancy and the investigation of endogenous auxins and inhibitors in the hardshell bulbs of wild garlic. (Abstract). 11040

Dormancy and anatomical development of bulbs of wild garlic during the summer and fall after formation. (Abstract). 11041

Monuron degradation and recovery of monuron-inhibited photosynthetic activity. (Abstract). 11042

The influence of simazine on growth and nitrogen metabolism of corn. (Abstract). 11044

Translocation and persistence of dicamba and picloram in Canada thistle. (Abstract). 11047

Biological studies of barnyardgrass. (Abstract). 11048

Root temperature and transpiration influences on atrazine absorption and translocation. (Abstract). 11049

Soil moisture on competitive ability of weeds. (Abstract). 11051

Physiological investigations on spring parsley. (Abstract). 11052

The effect of the herbicide burex on the total nitrogen content and on the technological quality of sugar beet. 11053

Effects of decenylsuccinic acid and subfreezing conditions on germination of citrus seed. 11054

Effect of quinones on Chlorella pyrenoidosa. (Abstract). 11055

Production of new physiologic races in Puccinia striiformis (yellow rust) hy heterokaryosis. 11442

Tissue culture from bulbil of Dioscorea sansibarenis. 11444

Interrelationship of root-knot nematode leaf curl virus in tomato. 11445

Developmental anatomy of a coralloid gall on Ipomoea pes-tigridis Linn.. 11452

Bacterial wilt in Malaya. 11470

Evaluation of nine fungicides in controlling flag smut of wheat. 11487

Studies on losses in wheat yield due to artificial epidemic of hlack rust of wheat at different stages of growth. 11488

Root surface fungi of Crotalaria. 11503

Plant viruses. Their characteristics and identification. 11507

Biological study of Phoracantha semipunctata F. (Coleoptera; Cerambycidae, Xy lophage) specific to the Eucalyptus in Tunisia, and research on the vitality and adaptation of its (Eucalyptus') oils. 11524

Observations on the morphology and the histocytology of the virescent products of Eriophyes cladophthirus Nal. on Solanum dulcamara L.. 11547

Influence of growing marigolds, weeds, two cover crops and fumigation on subsequent populations of parasitic nematodes and plant growth. 11555

Investigations of nematode-destroying fungi in central Iowa. 11561

The effect of post-emergence herbicides on the vegetative and reproductive growth of Centrosema pubescens Benth. in Queensland. 11566

Critical periods for weed competition. 11573

Effect of chemical and cultural methods of weed control on the yield and growth of maize. 11578

Study of the introduction of C. C. C. into cereal production techniques. First part: Winter wheat.	11579
The effects of shoot removal on the rhizome carbohydrate reserves of couch grass (Agropyron repens (L.) Beauv.).	11581
Experiments with the propagation of Polyantha and hybrid tea roses by softwood cuttings.	11691
The effects of 3-amino-1,2,4-triazole on the carbohydrate metabolism of plants.	11692
Effects of gibberellin treatment on the growth and dry weight of the rice plants.	11693
Effect of dicamba on oxygen uptake and cell membrane permeability in leaf tissue of Cyperus rotundus L.	11696
Inhibition of the action of phytochrome by the herbicide CIPC.	11697
Release of hydrolytic enzymes from cytoplasmic particles of Solanum tuber tissues during infection by tuber-rotting fungi.	11698
Response of American elm seedlings to treatment with captan and cycloheximide.	11700
Growth promotion in pea stem sections. III. By alkyl nitriles, alkyl acetylenes and insect juvenile hormones.	11701
National Vegetable Research Station: Seventeenth Annual Report, 1966.	11914
Resistance discovered to maize borer.	11915
The International Rice Research Institute Annual Report, 1967.	11916
Wood and organisms; International Symposium, Berlin-Dahlem, 1965.	11919
Preliminary studies on the effect of single and combined treatments of X-rays and gibberellic acid on the growth of rice and tomato seedlings.	11920
The complex of fungi essential to the growth and development of Xyleborus sharpi in wood.	11927
The effect of a temperature of 35 degrees C. on Vitis rupestris affected by courtnoue.	11970
Pathogens as organisms out of place.	12041
Galls and larvae of the European species of genera Phyllocolpa and Pontania (Hymenoptera, Tenthredinidae).	12052
Effects of simazine alone and in combination with hay or plastic mulch on McIntosh apple trees and accumulation of simazine residues.	12219
Physiological studies of gamma-irradiated tomato fruits. III. Effects on ascorbic acid content, acidity and texture.	12229
Juvenility as related to chemical content and rooting of stem cuttings of Pyrus species.	12230
Investigations on the decomposition capacity of wood decay fungi.	12231
Cytological and morphological evidence for the single-cell origin of vegetatively propagated shoots in thirteen species of Saintpaulia treated with colchicine.	12233
Some factors affecting the in vitro development of strawberry fruits.	12234
Effect of pH on the cultural behaviour of isolated strains of Irpex flavus Lk.	12235
Effects of Alar on the growth and distribution of the growth increment in one year old apple trees.	12236
The physiology of wood fungi. A survey on recent research results.	12238
Halovinyl mercurials as plant defoliants. Patent 3,433,621.	12239
Effect of spraying and defoliation on flower shedding in yellow lupine (Lupinus luteus L).	12240
Response of Dianthus caryophyllus L. (carnation) to synthetic abscisic acid.	12242
Growth and flowering responses of apple and pear seedlings to growth retardants and scoring.	12249
Effect of trifluralin and Meloidogyne hapla Chitwood on growth of Vinca major L.	12253
Preliminary investigation on water berry - another vine disease found in Maharashtra.	12254
Size differences of nuclei in meristem of Elodea treated with various concentrations of monochloroacetic acid, dichloroacetic acid, and trichloroacetic acid.	12256
Effects of Alar on morphology, chlorophyll content, and net CO2 assimilation rate of young apple trees.	12258
Ethylene-its effect on flower crops.	12259
Growth of young peach trees as affected by preplant fumigant treatments.	12260
Mutation induction in Melilotus alba annua by chemical mutagens.	12264
Growth retardants in relation to the germination of seeds. VI. Germination and growth of cauliflower as affected by Coumarin, CCC, Phosfon D and kinetin.	12265
Bioassay determination of gamma-BHC absorbed from soil and translocated in potted rice plants.	12266
Residual effect of Cycocel in poinsetta height control.	12267
Interaction of photoperiod and auxin metabolism in rooting of Chrysanthemum morifolium cuttings.	12269
The influence of certain wood extractives on the competition between wood-rotting fungi and the soil microflora.	12272
Effect of foliar applications of 3-indolebutyric acid on rooting of cuttings of ornamental plants.	12273
Phosphorus and magnesium fertilizer studies with pepper.	12277
The influence of temperatures on the growth of blue-staining fungi.	12278
Abscission of citrus fruits induced by ethylene-producing chemicals.	12281
Induction of coiling in tendrils by auxin and carbon dioxide.	12282
Growth and fruiting response of young apple and pear trees to annual applications of succinic acid 2,2,dimethyl hydrazide.	12283
The causes of variations in the natural durability of wood: Inherent factors and ageing and their effects on resistance to biological attack.	12285
Effects of four herbicides on growth and yield of orange trees.	12287
Effect of some vitamins on growth of Fomes lividus Kalchbr. in culture.	12288
The effect of gibberellic acid on dormancy in some wood species.	12289
Organism interactions in decay and discoloration in beech, birch, and maple.	12291
The effect of herbicides on quality of tomato and snap beans.	12292
Evaluation of post-emergence herbicides in the greenhouse. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966.	12295
Fruiting and vegetative effects of N-dimethylaminosuccinamic acid on 'Concord' grapes, Vitis labrusca L.	12296
The action of indoleacetic acid and kinetin on the mitotic cycle of proliferative and stationary phase excised root meristems.	12297
Maleic hydrazide inhibits growth of young tung trees (Aleurites fordii, Hemsl.).	12300
Interaction of triiodobenzoic acid and indoleacetic acid in development and flowering of Kalanchoe.	12301
Tobacco mosaic virus in dividing mesophyll cells of Nicotiana.	12607
Virus particles in phloem exudate from Cucumis sativus L. after infection by Cucumis Virus 2 A.	12623
The reactions of susceptible and resistant tomato cultivars to strains of Verticillium albo-atrum.	12639
Effects of the fungus Erysiphe graminis f. sp. hordei Marchal on the transpiration of barley.	12650
Studies on Lipapaphis erysimi (Kalt.) with special reference to insect-plant relationship. III. Effect of age of plants on susceptibility.	12677
Interrelation of stem borer incidence and certain agronomic traits in Jaunpur variety of maize under different levels of nitrogen.	12686
Translocation of dicamba in Canada thistle.	12713
Importance of root, shoot, and seed exposure on the herbicidal activity of EPTC.	12722
Translocation and fate of dicamba in purple nutsedge.	12730
Organic matter--amiben interaction on nodulation and growth of soybeans.	12736
Woody plant shoot management and response to herbicidal treatment.	12745
Growth inhibition test for identification of Mycoplasma species utilizing dried antiserum-impregnated paper discs.	12796
Effects of maleic hydrazide in purple nutsedge (Cyperus rotundus L.).	12898
Controlling rhododendron flower bud initiation.	12899

Plant growth regulator activity of optical isomers of DMPA. 12900

Effects of 2,4-D and other herbicides on oxidative phosphorylation in mitochondria from cabbage. 12902

The differential resistance mechanism in female Hampea sp. Trees to the boll weevil. 12903

Effect of succinic acid 2,2-dimethylhydrazide on flower bud formation of the 'Coville' highbush blueberry. 12905

Tree planting guide for rural South Australia. 13229

Fungicides in perspective. 13240

Ultrastructure of fungi. 13241

Anatomy of plant virus infections. 13249

Chemical control of superficial scald on Anjou pears. 13253

The genetics and expression of resistance in plants to rusts of the genus Puccinia. 13259

Speciation in verticillium. 13260

The hypersensitive reaction to infection by bacterial plant pathogens. 13267

Plant resistance to aphids induced by chemicals. 13329

Selectivity of 2,3,5-trichloro-4-pyridinol as a herbicide for direct-seeded, flooded rice. 13352

The changing population of viable weed seeds in an arable soil. 13357

Weed control in upland rice at the University of the Philippines College of Agriculture. 13360

Properties and effects on WL-9385-D on rice and some weed species. 13467

The action of plant growth retardants on terpenoid biosynthesis. Inhibition of gibberellic-acid production in Fusarium moniliforme by CCC and AMO-1618; action of these retardants on sterol biosynthesis. 13469

Action of plant growth regulators. IV. ADSORPTION of unsubstituted and 2,6-dichloro-aromatic acids to oat monolayers. 13470

Hormonal control of enzyme synthesis: On the mode of action of gibberellic acid and abscisin in aleurone layers of barley. 13471

Gibberellin and CCC effects on flowering and growth in the long-day plant Lemna gibba G3. 13472

Physiological effects of gibberellic acid. X. The release of gibberellin-like substances by germinating barley embryos. 13473

Treating individual trees with Dybar. 13474

A study in the use of Dybar for planting site preparation. 13475

Interactions between steroids in the growth of Phytophthora. 13476

Effects of spraying plants with suspensions of inert dusts. 13477

Some effects of annual applications of N-dimethylaminosuccinamic acid (Alar) to apples. 13481

The influence of N-dimethyl amino succinamic acid on flesh firmness and on some pre- and post-harvest physiological disorders of Delicious apples. 13482

Kinetics of growth retardant and hormone interactions in affecting cucumber hypocotyl elongation. 13485

Movement of water and solutes in sieve tubes of willow in response to puncture by aphid stylets. Evidence against a mass flow of solution. 13486

Growth regulator studies on soybeans, sweetclover, and alfalfa. 13488

The effects of DMSO alone and when combined with various growth regulators on the growth and metabolic products of Datura spp. 13489

Opposing effects of gibberellin and ethylene. 13490

Atrazine metabolism and herbicidal selectivity. 13492

Growth and production of pickling cucumbers as influenced by petroleum mulch and chemical treatments at planting. 13494

The influence of phosphate on the phytotoxicity of 3-amino-1,2,4-triazole. 13497

Influence of maize dwarf mosaic virus and trace levels of atrazine on weight and foliar element accumulation by two single cross maize hybrids in the greenhouse. 13757

Studies on the necrosis of peach trees. 13766

The effect of fumigation with hydrogen cyanide and carbon disulphide on the physical properties of rice seeds. 13768

Parsley spot in U.A.R. 13769

Effect of fungal infection in tomato fruits on seed germination. II.--ALTERNARIA tenuis. 13770

Effect of fungal infection to tomato fruits on seed germination. I.--Rhizopus nigricans. 13772

Development of young pear trees with different rootstocks in relation to Psylla infestation, pear decline, and leaf curl. 13778

Grapevine leafroll virus--history and anatomic effects. 13784

Physiological studies on pear canker disease in Egypt and its control. 13790

The effect of some vitamins upon Botrytis allii Munn. 13791

Studies on Botrytis allii Munn.. The cause of neck rot of onion bulbs in U.A.R.. 1.The disease and the causal organism. 13792

Studies on Botrytis allii Munn.. The cause of neck rot of onion bulbs in U.A.R.. II. Cultural conditions in relation to mycelial growth and pectinase activity. 13793

Growth and production of aflatoxins by Aspergillus flavus on red pepper (Capsicum frutescens L). 13810

The significance in the diagnosis of virus diseases of the length and affinity for dyes of sieve tubes in healthy and virus-infected potato tubers. 13811

Effects of aphid-transmitted viruses on the strawberry cultivars Northwest and Columbia. 13813

Photochemical oxidant injury and bark beetle (Coleoptera: Scolytidae) infestation of ponderosa pine. II. Effect of injury upon physical properties of oleoresin, moisture content, and phloem thickness. 13833

The effect of the herbicide Isopropyl-N-3-chlorophenyl carbamate (CIPC) on the horse bean plant. I.--The effect of different concentrations of CIPC on the horse bean plant seeded in pots at different levels. 13902

The effect of the herbicide Isopropyl-N-3-chlorophenyl carbamate (CIPC) on the horse bean plant. II.--THE effect of pre- and post emergence treatments of CIPC on the horse bean plant grown under field conditions. 13906

Influence of herbicides on plant growth and agronomic characteristics of soybean varieties. 13910

Phytotoxicity of sporidesmin. 14069

Effects of (2-chloroethyl) trimethyl ammonium chloride (CCC) on Hyoscyamus albus plants. 14070

Effect of gibberellin on the growth, development, crop yield and some aspects of metabolism of summel vetch, field bean, pea and soya under various nutrient conditions. 14071

Tests on induced disturbances of plant regulators on the fruit of the tomato plant cv. 'Super-Marmamde'. 14072

Leaf characters of tall and short lines of rice and their response to Gibberelin. 14074

Gibberellin response of dwarf mutants of rice. 14075

The influence of alar (N-dimethylaminosuccinamic acid) on maturation of apples and pears. 14076

Cytokinin activity and chemical structure of certain derivatives of N-allyl-N'-phenylthiourea. 14078

Investigation of natural auxins and growth inhibitors. 14079

Delay of the yellowing of barley leaves on the plant by phytohormone treatment. 14080

On some features of the effect of heteroauxin on the growth of cells in the elongation phase. yakushkina, n i. 14081

Effect of retardant CCC on growth and morphogenesis of fruit tree saplings. 14084

The effect of gibberellin and auxin on IAA oxidase and peroxidase activity in mesocotyl cuttings of corn. 14087

Role of 2,4-dichlorophenoxyacetic acid and of myo-inositol in the formation of the callus on excised roots of Solanum laciniatum Ait. 14090

Influence of Co60 gamma radiation on the water regime and drought resistance of peppermint plants. 14094

Effect of (2-chloroethyl) trimethylammonium chloride (CCC) and gibberellic acid (GA3) on the flowering of Chenopodium rubrum L. 14096

The action of 1-alkyl-1-nitrosoureas and 1-alky-3-nitro-1-nitrosoguanidines on the Mi generation of barley and Aradidopsis thaliana (L.) Heynh. 14098

How to obtain maximum benefits from use of alar explained by dr. Max W. Williams at horticultural association meet. 14099

Relative radiosensitivities of three developmental stages, i.e., floral development, gametogenesis and embryogenesis under chronic gamma irradiation. 14101

The effects of ligaturing Galleria mellonella larvae on total haemocyte counts and on mitotic indices among haemocytes. 14218

The ultrastructure and physiology of the abdominal air-guide retractor muscles in the giant water bug, Lethocerus. 14277

Preliminary observations on moulting and limb regeneration in the mite Caloglyphus boharti. 14280

The Tea Research Institute of Ceylon. Annual Report for the year 1966. Part II. 14304

Regulation of growth, flowering and fruit abscission of apples and peaches with Amchem 66-329. (Abstract). 14309

The low maximum temperature for growth of the psychrophile Sclerotinia borealis; evidence for the uncoupling of growth from respiration. 14336

Soil condition and the violet and white root rot diseases of fruit trees. 14343

Interactive effects of gibberellic acid and Alar on bush bean growth. (Abstract). 14344

On the tolerance of wheat against Septoria nodorum Berk. 14348

The importance of preceeding crop-dependent shifts in the micro flora of the soil. I. The influence of soil fungi on the root development of wheat, peas, and rape. 14353

Influence of hydrostatic pressure upon germinability of the spores of some rice-parasitic fungi effects of physical factors upon plant diseases. III. 14376

Evidence of hyphal growth of Cronartium quercuum in the pine-host cambium. 14379

An electron microscopic observation of the surface structure of conidia of Erysiphe graminis hordei. 14393

Controlling effect of phenylhydrazine derivatives on rice blast in relation to the structural modifications. 14402

Interaction between two races of Piricularia oryzae in lesion-formation in rice plants and accumulation of fluorescent compounds associated with infection. 14420

Preliminary report on the amino acid composition of TMV-C protein. 14422

Physiological and ecological studies on the oversummering and overwintering of the stripe rust of wheat and barley, Puccinia striiformis Westend. 14424

A study of the biology of Pseudopeziza jonesii nannf (Pyrenopeziza medicaginis Fuck) the cause of yellow blotches on leaves of alfalfa. 14429

The effect of benomyl on Mycosphaerella musicola. 14457

Studies on dwarf disease of mulberry tree. XVI. On two strains. 14461

Effect of Heterodera schachtii on sugar beet seedlings under monoxenic conditions. 14513

Secondary effects of fungicides on barley. 14517

Improved method for weed control in potatoes on extremely marshy soil. (Test experiences in upper Bavaria 1965-67). 14528

The insect ecology of old-field red pine plantations in central Ontario, I. Description of the study area. III. Soil-surface fauna as indicators of stand change. 14548

Isolation of Toxoplasma gondii from swine and cattle. following pesticide treatments. 14558

Fungitoxic action of higher alkyl compounds. I. Mechanism of fungitoxic action of alkylphenols. 14665

The separation of the proteins of wheat by acrylamide gel electrophoresis, with special reference to mottled and unmottled wheat. 14667

Effect of phytotoxins from the decomposition of organic matter upon peanut seedling emergence. (Abstract). 14668

Blue light promotes symptom formation and virus multiplication in plants. 14669

Relationship between the number of suckers (tillers) and the number of adventidious roots during the developmental cycle of hard corn sensitive to radial tipping and a report concerning the treatment with auxin, gibberellin, activators and growth inhibitors of the CCC type. 14670

Microsomal N-demethylation, by a cotton leaf oxidase system, of 3-(4'-chlorophenyl)-1,1-dimethylurea (monuron). 14675

Metabolism of aromatic compounds in healthy and rust-infected primary leaves of wheat. Ii. Studies with l-phenylalanine-U-14C, l-tyrosine-U-14C, and ferulate-U-14C. 14676

Calcium localization in Hypomyces-infected squash hypocotyls and effect of calcium on pectase lyase and tissue maceration. 14677

The fine structure of hyphae of Helminthosporium oryzae Ito et Kurib. and Pyricularia oryzae Cavara. 14679

The cytology of infection structure development in urediospore germ tubes of Uromyces phaseoli var. typica (Pers.) swint. 14681

The Erysiphe cichoracearum conidium. 14682

Cucumber sex expression modified by 2-chloroethanephosphonic acid. 14683

Metabolism of glucose-14C, pyruvate-14C, and mannitol-14C by Melampsora lini. II. Conversion to soluble products. 14684

Nucleus of fusion body and infection structure produced by uredospores of three rust fungi. 14685

On the occurrence of periderm in the leaves of Welwitschia mirabilis. 14687

2,4-D,to ripen tobacco may be detriment to producer and industry. 14688

Some physiological effects of cotoran on unicellular Algae. (Abstract). 14689

Physiological effects of pentachlorobenzylalcohol on rice plants. 14690

Inhibitory effect of pentachlorobenzyl alcohol (PCBA) on sporulation of Piricularia oryzae cavara. 14691

Discoloration of chlorella cells treated with several pesticides- utilization of chlorella cells for the study of pesticides. 14693

A morphological and biological concept of the species Ceratocystis fimbriata. 14696

Growth regulation in fruit bodies of Agaricus bisporus. 14914

Experiments summary beans: 1966. 14923

Influence of apical dominance on bud dormancy in western ironweed. 14924

Sprouting of western ironweed buds as affected by their age and position of the rhizome. 14925

Effect of gamma-radiation on callus growth of Phylloxera gall and normal grape stem tissues in culture. 14932

Contribution to the biology of Brunchorstia pinea (Karst.) Hohn., the cause of a die-back in Austrian and Corsican pine. 14949

The effect of infection with beet yellows virus on the growth of sugarbeets. 14957

Time course variations of the infectivity of the cucumber mosaic virus in different vegetable species. 14968

Effect of the tobacco mosaic virus on growth and fruiting of outdoor tomato culture in south-eastern France. 14971

Chlorotic leaf-curl in apricot trees and necrosis of the phloem. Contribution to the study of apricot wilt diseases. 14973

Effect of fusaric acid on in vitro cultures of embryos of Phaseolus volgaris L.. 14979

Effects of moist and dry chilling periods before germination of four thistle species. 15109

The action of gibberellic acid on grape fructification. 15274

Botanical, ecological and physiological studies. 15275

Utilization of polyethylene film to control evaporation in the loss in weight method for transpiration. 15276

Plant resistance depending on protective surface layers occurring naturally. 15277

Studies on the effect of plant growth regulators on the rooting of air layers of Darcaena roscaferrea L. 15279

Staminal and functional male sterility induced by chemical treatment in Papilionaceous plants. 15280

Effects of some growth-regulators with gametocidal properties on Cajanus cajan (L.) Millsp.. 15281

Induction of dormancy in groundnut by pre-harvest foliar application of maleic hydrazide. 15285

Effects of extreme s-triazine concentrations on corn, sorghum, and foxtail. 15286

Growth of onions and weeds with herbicides and a mulch. 15289

Some effects of the growth regulators CCC and Alar (B-995) on the tomato (Lycopersicum esculentum, Mill.). I. Effects on leaf area, plant spread, dry weight, height and leaf numbers. 15290

The effect of ZnSO4 on the chemical composition of maize leaves. 15291

Some examples of chlorcholinechloride (CCC) action on physiological processes in plants. 15292

Control of annual and biennial weeds. 15296

Effect of thiamine on growth of roots of Dolichos biflorus and Eleusine coracana. 15297

Uptake of picloram in smooth bromegrass. 15298

Response of warm- and cool-season grasses to several herbicides under greenhouse conditions. 15299

Determination of indole derivatives in plant material. VIII. The content of glucobrassicine in various races of Brassica oleracea var. sabauda and Brassica oleracea var. capitata L. and its relation to the growth in these plants. 15459

Maturation of sclerotia produced by Sclerotium rolfsii. 15462

Stem canker. I. Observations on knobby second growth. 15478

Physiological diseases in potatoes (Solanum tuberosum L.). I. Observations on knobby second growth. 15479

The raspberry ringspot virus and its cell inclusion bodies. 15480

Infection of bean root- meristems by tobacco ringspot virus. 15488

Changes in the reaction to powdery mildew of certain barley cultivars. 15493

The shot-hole disease of the melon. Preliminary study of a new viral disease of the glass-house-grown melon. 15543

Sclerophthora macrospora (Sacc.) Thirum. et al e8Syn.: sclerospora macrospora Sacc.) on sugarcane. 15569

Localization and migration of plum pox virus in plum trees. 15600

Tests on the dissemination of the tulip streak virus. 15613

Winter necrosis of peach twigs. Experimental reproduction following pesticide treatments. 15641

Virulence on various solanaceae of three strains of the stolbur virus and a virus infecting tomato plants in Tunisia. 15652

The effects of infection by Heterodera rostochiensis and Rhizoctonia solani on development and yield of potatoes in pots. 15689

Effect of stage of growth of field bindweed on absorption and translocation of C-14-labeled 2,4-D and picloram. 15695

Distribution of root-absorbed picloram. 15698

Absorption and translocation of 2,4D by wolftail (Carex cherokeensis Schwein). 15702

Phytotoxicity, leachability, and site of uptake of 2-chloro-2',6'-diethyl-n-(methoxymethyl) acetanilide. 15704

Response of weeds and soybeans to amiben and naptalam individually and in mixtures with dinoseb. 15708

Plant response to herbicide placement in soil. 15724

Effects of 2,4-D on seed production and embryo development of curly dock. 15743

Response of turkey oak to 2,4,5-T as a function of final formulation oil content. 15744

Influence of the herbicides aretit, prometrin and chloroxuron on the yield and some physiological processes in peas. 15745

Determination of aflatoxins in food by absorption spectrometry. 15874

Some quantitative aspects of the phytotoxicity of monoterpenes. 15876

Differential sensitivities to gamma radiation of Phylloxera gall and normal grape stem cells in tissue culture. 15890

Chytids and algae. II. Factors influencing parasitism of Rhizophydium sphaerocarpum on Spirogyra. 15891

Tests with the regulator CCC as a means of effective utilization of large doses of artificial nitrogen fertilizer. 15893

Physiology of thick-walled spores of soil-borne plant pathogenic fungi. I. Respiration and germination of Helminthosporium sativum and H. pedicellatum spores. 15896

Effect of thiometon on the chemical composition and the growth of groundnut crop. 15898

Factors affecting growth of rooted aquatics in a river. 15899

Dormancy of wild oat seed produced under various temperature and moisture conditions. 15902

Nuclei in haustoria of Phytophthora infestans. 15904

Effects of growth regulators on ear density mutants in barley. 15905

Isolation and structural elucidation of Fragin, a new plant growth inhibitor produced by a Pseudomonas. 15906

Influence of some herbicides on the tuber formation in garden peas. 15908

PLANT PROPAGATION

Varietal resistance to rice stem borers in India. 8355

Procedures and media for obtaining tissue cultures of 12 conifer species. 11441

The Tea Research Institute of Ceylon. Annual Report for the year 1966. Part II. 14304

PLANT PROTECTION

Influence of soil sterilization measures on the Mycorrhiza of forest plants. (I.). 8279

Wound dressings for the prevention of silver-leaf in fruittrees caused by Stereum purpureum (Pers.) Fr. 8946

Factors affecting severity of seedling blight of corn in the United Arab Republic. 8976

Experiments on the control of root pests of Brassicae. 9021

Plant protection under strict controls. 9529

Acclimation of Prospaltella perniciosi Tow. in Yugoslavia. 9536

Determination of the critical injury threshold for potato blight (Phytophthora infestans). 9588

Effectiveness of a light trap in the protection of the health and productivity of corn. 9639

The defense of a corn crop against noxious insects by means of a light trap. 9640

The influence of insecticides, acaricides and fungicides on the biocenosis of fruit cultures. 9844

Heterogeneity values of insecticide, fungicide or herbicide deposits and of their residues. 9853

In your garden - weeds: Robbers, but not always bad. 10168

Plant sciences and crop husbandry, research report, 1967. 10586

Research activities 1958-1961. 10588

Trapping of bullfinches. 10594

Bird damage to blueberries. 10595

Plant protection service in Jordan. 10608

Establishment of a rhizosphere microflora on carnations as a means of plant protection in steamed greenhouse soils. 10662

Prevention of damage from eyespot. 10666

The coffee root mealybug complex. 10711

Some Lepidoptera of economic importance in Commonwealth countries. 10715

Experiments with tetrasyston and granular VUAGT-I-4 for sugar beet protection, in 1965-1966. 10736

Higher survival rate of highly irradiated barley in a pot test, after fertilization with (2-chloroethyl) trimethylammonium chloride (CCC) and ammonium sulfate. 11021

Polyurethane coating: A new technique for the preservation of diseased plant material. 11439

Indian field crops. 11443

Mycoflora research in the surroundings of the community of Albac. 11511

A practical trial of pyrethrins-in-oil surface sprays for the protection of bagged grain against infestation by Cadra cautella (Wlk.) (Lepidoptera, Phycitidae) in Kenya. 11659

The sugar pine cone beetle. 11784

Microbial decomposition of methylmercury dicyandiamide. 11960

The problem of acute wilting of apricots in the Skopje region. 11961

Penalty for spot. 12029

Conferred resistance in the host. 12257

Ethylene-its effect on flower crops. 12259

Tree planting guide for rural South Australia. 13229

Prevention and treatment. 13236

Phytotoxicity of dithiocarbamate fungicides on Worcester Pearmain. 13266

Ancylis comptana, a new tortix moth on strawberries. 13308

Biological methods are effective and hygienic. 13317

Fruit spraying machines. 13521

Insect answers; insecticide toxicity to honey bees. 13638

Protection of apples against diseases and pests, and the value of some pesticides. 13747

Mercury tolerance in leaf spot of oats. 13751

Prophylactic treatment for raising a pest and disease free crop of 'pan' vineyards. 13782

Attempts to induce frost-resistance in vines by leaf spray of drugs. 13797

Natural enemies of the desert locust (Schistocerca gregaria). 13830

Campaign against Citrus psylla in Kangra District (Himachal Pradesh). 13831

Trials with pesticides against red mites--Raoliella indica Hirst in Kerala. 13852

Studies on protection of pulses againt Pachymerus chinensis Linnaeus. 13856

Desert locust situation and control in India during 1962-63. 13858

The genetics of Drosophila mating behavior. II. The genetic architecture of mating speed in Drosophila pseudoobscura. 14286

Cost of effective plant protection in the field, the garden, and the vineyard. 14307

Problems of integrated pest control in practical plant protection. 14315

Importance of industry and labor to plant care in farm management. 14331

New tin complex compounds as plant protection fungicides. 14445

Present knowledge on Phytophagous nematodes and their relations with virus diseases. 14514

The control of wild foxtail grass in winter wheat as well as the prevention of weather trodden grain. 14539

The economic incidence of field vole control in France. 14540

New plant protection law is in force. 14704

Evaluation of some spray oils used on citrus in Texas. 14868

Present problems of plant protection in peppermint. 14915

History of Coachella Valley Pest Control District. 14916

Experiments summary beans: 1966. 14923

Bean (Phaseolus mungo L.) cercosporiosis in Somalia. 14947

The present state of knowledge concerning viruses on mushrooms. 14993

A case history - Control of the hemlock looper. 15016

Central anti-locust organisation in India. 15031

Investigations on the biology and means for control of Neurotoma nemoralis L., Tenthredinidae, Thysanoptera. 15037

Croesus septentrionalis L. (Hymenoptera Tenthredinidae) a pest of the alder. 15038

Season-long weed control in corn with atrazine. 15090

Present situation and tendencies of development in the technique of plant protection. 15306

Preliminary results on the influence of wetting agents on the biological effect of fungicides. 15532

What is plant protection. 15669

German forest-protection literature 1965/66. III. Defensive mass protection against animal pests. 15760

PLANT PROTECTION EQUIPMENT

Effectiveness of a light trap in the protection of the health and productivity of corn. 9639

PLANT PROTECTIVE DEVICES

A short survey of the plant protection equipment, approved during 1966. 9860

Allelopathy by myrmecophytes: The ant Azteca as an allelopathic agent of Cecropia. 11835

The relationship of glandular hairs on tomatoes to spider mite resistance. . 12085

Plant care and bee care go hand in hand. 14478

PLANT PROTEINS

Losses of active insecticidal elements of the dried roots of Derris elliptica Benth. under the influence of predators and especially of Trogoxylon aequale Woll. 12071

Tests with the regulator CCC as a means of effective utilization of large doses of artificial nitrogen fertilizer. 15893

PLANT QUARANTINE

Bacterial spot of tomato in United Arab Republic. 8304

Ovicidal efficiency of parathion and diazion for quarantine treatment of the Western tent caterpillar. 8376

Introduced seed-borne pathogens endanger crop breeding and plant introduction. 9580

Elements for the differentiated application of quarantine and control measures of potato canker. 10221

Plant protection service in Jordan. 10608

Significant specimens of Elsinoe and Sphaceloma taken by U. S. plant quarantine inspectors Ii. 11477

List of intercepted plant pests, 1966. (Pests recorded from July 1, 1965, through June 30, 1966.). 11535

Forestry quarantine and its biological background. 12009

The problems of plant disease control. 13279

Plant and animal quarantine. 13525

Significant specimens of Elsinoe and Sphaceloma taken by U. S. Plant Quarantine inspectors. II. 13787

Role of quarantine for the propagation of coccio-attacking Coccinellidae for the control of the date-palm scale (Parlatoria blanchardi Targ.) in the Adrar region of Mauritania. 13843

A decade of seed potato inspection at Madras Port. 14117

Two important bacterial diseases on beans. 14454

Central anti-locust organisation in India. 15031

Domestic quarantine notices. European chafer. 15614

Domestic quarantine notices. European chafer. 15670

Domestic quarantine notices. Witchweed. Regulated areas. 15735

Domestic quarantine notices. White-fringed beetle. 15924

PLANT REGULATORS

Effect of CP31393 on auxin-induced growth. 8579

Expression of sexual characteristics in annual mercurials. 8580

Stimulation of plant growth. Patent 3,454,391. 8592

Invasion of plant tissue by bacteria under in vitro conditions. 8997

Auxin control of leaf abscission. I. Experiments with Ervatamia divaricata Burkill., var. floreplено. 9190

Role of RNA metabolism in the action of auxin-herbicides. 9194

Comparison of the movement and vascular differentiation effects of the endogenous auxin and of phenoxyacetic weedkillers in stems and petioles of Coleus and Phaseolus. 9197

Chemical growth retardants for bedding plants. 9203

Effect of sucrose and indole-3-acetic acid on extension growth of wheat coleoptile segments. 9207

Toxicity of tall fescue to rape and birdfoot trefoil seeds and seedlings. 9210

2,3,6-trichlorobenzoic and 2,6-dichlorobenzoic acid interference with phototropic and geotropic responses of seedlings. 9213

Production of yeast variants by auxin and effects of plant growth regulators on these variants. 9214

Preliminary research on the action of C. C. C. on grapes. 9664

Notice of filing of petition regarding pesticide chemicals. 9787

Plant hormones and flowering in coffee. 9824

Isolation of gibberellin A20 from pea pods. 9835

SNA sprays to improve weight and size of spring fruit of pineapples in Taitung. 9836

Effect of time of application of gibberellic acid and parachlorophenoxyacetic acid on berry and bunch weight, yield and seedlessness in grape (var. Anah-e-Shahi). 9839

Compositions and methods for regulating the growth of plants. Patent 3,455,673. 10021

Effects of gibberellin A3 on fruit shape and subsequent seed dormancy of apple. 10453

Effects of N-dimethyl amino succinamic acid (B-Nine) on flower longevity and vegetative growth of pot chrysanthemums (Chrysanthemum morifolium Ramat).
10966

Further studies on root exudation of exogenous growth regulators in Phaseolus vulgaris L. (Abstract).
10984

Endogenous growth regulating factors in bark of EM IX and XVI apple trees.
11009

Studies on the growth regulator CCC (2 chloroethyl trimethyl ammonium chloride) on wheat.
11017

Size control of nursery trees with N-dimethylaminosuccinamic acid.
11036

The effect of some growth promoting substances on the root system of summer barley.
11050

Experiments with the propagation of Polyantha and hybrid tea roses by softwood cuttings.
11691

Growth promotion in pea stem sections. III. By alkyl nitriles, alkyl acetylenes and insect juvenile hormones.
11701

Some factors affecting the in vitro development of strawberry fruits.
12234

Response of Dianthus caryophyllus L. (carnation) to synthetic abscisic acid.
12242

Antitranspirants: Uses and effects on plant life.
12248

Growth and flowering responses of apple and pear seedlings to growth retardants and scoring.
12249

Orange fruit-stem separation: Chemical influences.
12262

Interaction of photoperiod and auxin metabolism in rooting of Chrysanthemum morifolium cuttings.
12269

Phosphorus and magnesium fertilizer studies with pepper.
12277

Induction of coiling in tendrils by auxin and carbon dioxide.
12282

The effect of gibberellic acid on dormancy in some wood species.
12289

On the question of occurrence of indole-3-acetic acid in Pinus sylvestris.
12299

Plant resistance to Myzus persicae induced by a plant regulator and measured by aphid relative growth rate.
12693

Controlling rhododendron flower bud initiation.
12899

Identification of ethylene in gibberellic-acid-treated potatoes.
12904

How you can control weeds in rapeseed.
13362

Further investigations of gibberellins in Phaseolus multiflorus by combined gas chromatography-mass spectrometry - The occurrence of gibberellin A20 (Pharbitis gibberellin) and the structure of compound b.
13484

Growth regulator studies on soybeans, sweet-clover, and alfalfa.
13488

Study on the fatty acid composition during germination of peanuts treated with growth regulators.
13498

Influence of maize dwarf mosaic virus and trace levels of atrazine on weight and foliar element accumulation by two single cross maize hybrids in the greenhouse.
13757

Studies on the brown-eye-spot disease (cercospora coffeicola b. and CKE.) of coffee (Coffea arabica L.). II. Effect of foliar application of chemicals on disease incidence.
13818

Effect of gibberellin on the growth, development, crop yield and some aspects of metabolism of summel vetch, field bean, pea and soya under various nutrient conditions.
14071

Tests on induced disturbances of plant regulators on the fruit of the tomato plant cv. 'Super-Marmamde'.
14072

Effect of gibberellic acid on fruit setting of Washington navel oranges.
14073

Cytokinin activity and chemical structure of certain derivatives of N-allyl-N'-phenylthiourea.
14078

Investigation of natural auxins and growth inhibitors.
14079

Delay of the yellowing of barley leaves on the plant by phytohormone treatment.
14080

On some features of the effect of heteroauxin on the growth of cells in the elongation phase. yakushkina, n i.
14081

Effect of retardant CCC on growth and morphogenesis of fruit tree saplings.
14084

The effect of gibberellin and auxin on IAA oxidase and peroxidase activity in mesocotyl cuttings of corn.
14087

Effect of (2-chloroethyl) trimethylammonium chloride (CCC) and gibberellic acid (GA3) on the flowering of Chenopodium rubrum L.
14096

How to obtain maximum benefits from use of alar explained by dr. Max W. Williams at horticultural association meet.
14099

Stimulation of tomato ripening by Amchem 66-329. (Abstract.
14313

The pesticide review, 1968.
14321

Brussels sprouts growth and production as influenced by N-dimethylamino succinamic acid (Alar). (Abstract).
14334

Development of corn-growing along the Rhein through use of growth producing herbicides.
14523

Relationship between the number of suckers (tillers) and the number of adventidious roots during the developmental cycle of hard corn sensitive to radial tipping and a report concerning the treatment with auxin, gibberellin, activators and growth inhibitors of the CCC type.
14670

The influence of CCC on lodging and development of grain.
14680

2,4-D,to ripen tobacco may be detriment to producer and industry.
14688

Growth regulation in fruit bodies of Agaricus bisporus.
14914

The action of gibberellic acid on grape fructification.
15274

Studies on the effect of plant growth regulators on the rooting of air layers of Darcaena roseaferrea L.
15279

Effect of different forms and levels of phosphorus in presence and absence of molybdenum on growth and yield of berseem.
15282

Growth promoting effect of certain amino acids on the Agaricus fruit body.
15284

Cucumber sex expression modified by 2-chloroethanephosphonic acid.
15288

Some effects of the growth regulators CCC and Alar (B-995) on the tomato (Lycopersicum esculentum, Mill.). I. Effects on leaf area, plant spread, dry weight, height and leaf numbers.
15290

Determination of indole derivatives in plant material. VIII. The content of glucobrassicine in various races of Brassica oleracea var. sabauda and Brassica oleracea var. capitata L. and its relation to the growth in these plants.
15459

Establishing overall plant protection.
15685

Tests with the regulator CCC as a means of effective utilization of large doses of artificial nitrogen fertilizer.
15893

Effects of growth regulators on ear density mutants in barley.
15905

PLANT REPRODUCTION

Expression of sexual characteristics in annual mercurials.
8580

Alteration of plant growth habit as a means of controlling rhizomatous species.
9037

A modified soil percolator zoospore production and infection in studies on zoosporic root pathogens.
9543

Male sterility cytoplasm conditioning susceptibility of resistant inbred lines of maize to yellow leaf blight caused by Phyllosticta zeae.
13809

Inhibitory effect of pentachlorobenzyl alcohol (PCBA) on sporulation of Piricularia oryzae cavara.
14691

PLANT RESIDUES

Estimating temperatures and heat flux in insect environments in stubbed cotton fields in the winter.
8121

Effect of phytotoxins from the decomposition of organic matter upon peanut seedling emergence. (Abstract).
14668

PLANT RESISTANCE

Effect of (2-chloroethyl) trimethylammonium chloride (CCC) on frost resistance, yield, and seed quality indexes of winter rape.
12244

Plant resistance to aphids induced by chemicals.
13329

PLANT RESPIRATION

Response to parasites.
10232

Effects of pyrazon on growth, photosynthesis, and respiration.
10288

Reversion of senescence: Effects of 2,4-dichlorophenoxyacetic acid and indoleacetic acid on respiration, ethylene production, and ripening of banana fruit slices.
10452

Two types of post-emergence activity of CIPC. (Abstract).
10981

Effects of ioxynil on respiration. (Abstract).
10982

A comparison of the effects of linuron on photosynthesis and respiration of carrot and common ragweed. (Abstract).
11003

Effect of trifluralin on oxygen uptake and oxidative phosphorylation in isolated mitrochondria. (Abstract). 11018

Investigation of corking disorders of apples. III. Biochemical changes during the development of cork spot of 'York Imperial' apples. 11965

Effect of cell poisons on the colloid-chemical properties of the cell. 14102

The respiration and flower development of evergreen azaleas as influenced by gibberellin, scale removal, and 2,4-dinitrophenol. 14666

Some physiological effects of cotoran on unicellular Algae. (Abstract). 14689

Influence of the herbicides aretit, prometrin and chloroxuron on the yield and some physiological processes in peas. 15745

PLANT SENESCENCE

Sprouting of western ironweed buds as affected by their age and position of the rhizome. 14925

Sclerophthora macrospora (Sacc.) Thirum. et al e8Syn.: sclerospora macrospora Sacc.) on sugarcane. 15569

PLANT STORAGE

How to collect, prepare and ship plant material for disease identification. 15468

PLANT TAXONOMY

Intrafloral ecology. 8080

Plant diseases and their chemical control. 8291

New or uncommon plant diseases and pests; smut (Entyloma compositarum) of Gaillardia aristata Pursh. 8985

Emendation of the genus Streptoverticillium Baldacci (1958) and revision of some species. 10590

Ozark range and wildlife plants. 11440

Research on Fusarium disease. IV. Fusarium taxonomy. 11486

Phytopathological notes (24). Cuscuta (Cuscute, Cuscuta, Dodder, Seidenpflanze). 12096

Some black mildew sooty mold and fly speck fungi and their hyperparasites from Dominica. 12594

Rigidoporus lignosus. 12640

Phellinus robustus. 12641

Rigidoporus zonalis. 12642

Formitopsis rosea. 12643

Rigidoporus ulmarius. 12644

Phellinus noxius. 12645

Cultivation of the cricket bat willow. 13231

Speciation in verticillium. 13260

The world situation of the cereal rusts. 13263

Bruchid beetles (Coleoptera, Bruchidae) from the Megri district of Armenia. 14125

Radish enation mosaic virus. 14465

Contribution to the study of the fungi flora of the soils of Katanga. 14921

The saprophytic fungus Hysterographium mori (Schw.) Rehm, growing on Juniperus, a new species for Czechoslovakia. 15456

New disease agent of wheat, Khuskia oryzae Hudson. 15553

Biological characteristic features of several weed plants and the fight against them. 15714

PLANT TEMPERATURE

Etiological studies on root rot of wheat caused by Cercosporella heapotrichoides Fron. 9553

Effect of time and temperature of storage on viability of Botrytis convoluta conidia and sclerotia. 11007

PLANT TISSUES

Invasion of plant tissue by bacteria under in vitro conditions. 8997

Alterations of the host wall surrounding the infection peg of powdery mildew fungi. 9837

Some properties of mitochondria and ribosomes of infected plant tissues. 11932

Conferred resistance in the host. 12257

Growth regulation in fruit bodies of Agaricus bisporus. 14914

The function of the endodermis in resistance of Virginia pine seedlings to damping-off. 14956

Possibilities of application of the ring-oven technique in the determination of pesticides residues. 15236

Determination of indole derivatives in plant material. VIII. The content of glucobrassicine in various races of Brassica oleracea var. sabauda and Brassica oleracea var. capitata L. and its relation to the growth in these plants. 15459

PLANT TRANSLOCATION

Preliminary studies of the effects of cacodylic acid on the activity of 2,4-D and picloram in bean plants. (abstract). 8438

Mode of action, translocation, oxidation, and decomposition of insecticides within the rice plants. 8581

Translocation patterns of simazine in Potamogeton crispus l. 8591

The metabolism of radiostrontium by plants. (Abstract). 9191

Uptake of Vitavax (DCMO) by germinating cottonseed. 9825

Translocation of the herbicide dicamba in purple nutsedge, Cyperus rotundus. 10304

Intercellular movement of C14 in Chara vulgaris, a nonvascular aquatic plant. (Abstract). 10778

The distribution, content, and movement of picloram after foliar and soil applications on huisache. (Abstract). 10961

Absorption and translocation of 2,4-D-2-C14 by wolftail (Carex cherokeensis Schwein). (Abstract). 10965

Effect of moisture stress on the absorption and transport of herbicides in woody plants. (Abstract). 10974

Absorption, translocation and accumulation of labeled N-dimethylaminosuccinamic acid in apple tissues. 10980

Further studies on root exudation of exogenous growth regulators in Phaseolus vulgaris L. (Abstract). 10984

Absorption, translocation, and metabolism of CIPC in plants. (Abstract). 10993

Selectivity of linuron on parsnip and tomato. (Abstract). 10994

The mode of action of diphenamid in plants. (Abstract). 10999

Studies on altering transport and accumulation of 14C assimilates in plants. (Abstract). 11004

Aspects of the physiology of herbicidal action of dicamba in purple nutsedge (Cyperus rotundus L.). (Abstract). 11008

Comparison of radioisotopic and gas chromatographic methods for measuring absorption and translocation of 2,4,5-T by mesquite. (Abstract). 11015

Uptake and tolerance of lithium chloride by tung trees. 11022

Studies on the selective action of trifluralin between soybeans and sorghum. (Abstract). 11043

Translocation and persistence of dicamba and picloram in Canada thistle. (Abstract). 11047

Root temperature and transpiration influences on atrazine absorption and translocation. (Abstract). 11049

Effects of Alar on the growth and distribution of the growth increment in one year old apple trees. 12236

Distribution and reuse of nitrogen in wood-destroying fungi. 12246

Effects of Alar on morphology, chlorophyll content, and net CO2 assimilation rate of young apple trees. 12258

Bioassay determination of gamma-BHC absorbed from soil and translocated in potted rice plants. 12266

Amount and distribution of nitrogen in wood and its influence on wood deterioration. 12274

Translocation of dicamba in Canada thistle. 12713

The effect of linuron on 32P and 45Ca uptake in tomato and parsnip. 12724

Translocation and fate of dicamba in purple nutsedge. 12730

Anatomy of plant virus infections. 13249

Movement of water and solutes in sieve tubes of willow in response to puncture by aphid stylets. Evidence against a mass flow of solution. 13486

Chemical control of grass weeds in tea fields. 13920

Translocation of eight C14-labeled amino acids and three herbicides in two varieties of barley. 13921

Effect of soil type on uptake of magnesium by pasture plants. 14082

Fungitoxic action of higher alkyl compounds. I. Mechanism of fungitoxic action of alkylphenols. 14665

Aquatic weeds. 15709

Photoinhibition of auxin and its bearing on phototropism. 15903

PLANT TRANSPIRATION
Effects of the fungus Erysiphe graminis f. sp. hordei Marchal on the transpiration of barley.
8979
Ozone. Effect on apparent photosynthesis, rate of transpiration, and stomatal closure in plants.
9833
Phytotoxicity of certain herbicides to several woody ornamentals.
10960
Root temperature and transpiration influences on atrazine absorption and translocation. (Abstract).
11049
Blossom-end rot of 'Chico' and 'Chico Grande' tomatoes.
11973
Antitranspirants: Uses and effects on plant life.
12248
Effects of the fungus Erysiphe graminis f. sp. hordei Marchal on the transpiration of barley.
12650
Utilization of polyethylene film to control evaporation in the loss in weight method for transpiration.
15276
Influence of the herbicides aretit, prometrin and chloroxuron on the yield and some physiological processes in peas.
15745

PLANT WATER RELATIONS
SNA sprays to improve weight and size of spring fruit of pineapples in Taitung.
9836
Water florae as indicators of irrigation water contamination by DDT.
10403
Biochemical composition of plants of Cucurbita foetidissima HBK, and Cucumis melo L. as related to cucumber beetle feeding.
10712
Biochemical studies of plants of Cucurbita pepo L. varieties as related to feeding response of squash bug Anasa tristis DeGeer.
10713
Effect of moisture stress on the absorption and transport of herbicides in woody plants. (Abstract).
10974
The effect of bromoxynil and dicamba on the water use of barley and tartary buckwheat grown alone and together. (Abstract).
10985
Soil moisture on competitive ability of weeds. (Abstract).
11051
Photochemical oxidant injury and bark beetle (Coleoptera: Scolytidae) infestation of ponderosa pine. II. Effect of injury upon physical properties of oleoresin, moisture content, and phloem thickness.
13833
Influence of Co60 gamma radiation on the water regime and drought resistance of peppermint plants.
14094

PLANTAGO
'Pelipita', an ABB Bluggoe-type plantain resistant to bacterial and fusarial wilts.
13288

PLANTATIONS
Investigations on the biology and control of Melolontha melolontha in hazelnut plantations.
8377
Protection of polythene rain-guards from damage by crickets in rubber plantations in South India.
13835

PLANTING
Factors affecting severity of seedling blight of corn in the United Arab Republic.
8976
Studies on the control of Endothia canker of Japanese chestnut (Castanea crenata Sieb. et Zucc.). Influence of cultivation on the damage caused by Endothia canker. I. Influence of soil moisture and planting distance.
12034
Growth of young peach trees as affected by preplant fumigant treatments.
12260
Cultivation of the cricket bat willow.
13231
Control of leaf and stem rusts of wheat by combinations of soil application of an 1,4-oxathiin derivative with foliage sprays.
13234
A study in the use of Dybar for planting site preparation.
13475
Growth and production of pickling cucumbers as influenced by petroleum mulch and chemical treatments at planting.
13494
News: Crops.
13745
Ways to kill more weeds when you plant.
13903
Onion weed control on Mallee soils.
14518

PLANTING DATE
Investigations on the susceptibility of some potato varieties to infection by Phytophthora infestans (Mont.) de Bary when using staggered planting dates.
10708
Effect of planting dates on the incidence and severity of corn virus diseases.
11478
Selected list, 1969 vegetable varieties for South Dakota.
11928
Influence of planting time on phytotoxicity of dichloropropenes to sugarbeets.
14077
The frequency of Sogata orizicola Muir and Sogata cubana Crawf. on rice and Echinochloa colonum in Colombia.
14482

PLANTS
Chemosensory bases of host plant selection.
8186
Influence of soil sterilization measures on the Mycorrhiza of forest plants. (I.).
8279
On the rating of plants as sources of polyphagous species of plant lice (Homoptera: Aphididae).
8351
The influence of environment on the phytotoxicity of dicamba, picloram, bromoxynil and 2,4-D ester.
9041
2,3,6-trichlorobenzoic and 2,6-dichlorobenzoic acid interference with phototropic and geotropic responses of seedlings.
9213
Notes on the biology and hostplant associations of Ornithoptera priamus urvilleanus and O. victoriae (Papilionidae).
9478
Identity of sporopollenin with older kerogen and new evidence for the possible biological source of chemicals in sedimentary rocks.
9525
The role of Hampea sp. in the migration of the cotton leafworm to the United States.
9635
Some new host plants of the sunflower moth in Texas.
9646
Determination of terbacil residues using microcoulometric gas chromatography.
9855
A supplementary list of the host-plants of lac insects.
10135
On the determination of insect and mite resistance to pesticides. The influence of these products in sublethal doses on animals and in the trophic effect following biochemical repercussions on plants.
10149
Alternative host plants of tobacco leaf-miner (Phthorimaea operculella (Zell.)).
10239
Consequences of insecticide use of nontarget organisms.
10402
The use of Daphnia pulex De Geer for the detection of insecticides extracted from plants.
10523
Amiben glucoside formation as a possible mechanism of herbicidal tolerance in plants. (Abstract).
10971
Studies on the mode of action of 2-chloro-N-isopropylacetanilide. (Abstract).
10978
A list of the armoured scale insects (Diaspididae) and their hosts in Tasmania.
11150
Notes on the Thysanoptera collected during western and southern India Survey, 1962, with a review of the Thysanoptera complex of the hosts.
11325
Analysis of total lipids and fatty acids of plant-parasitic nematodes and host tissues.
11553
Significance of organochlorine insecticide residues in fresh plants as possible contaminants of milk and beef products.
11675
Potential interferences in certain pesticide residue analyses from organochlorine compounds occurring naturally in plants.
11694
Progress in the field of systemic insecticides and hopes for the future.
11926
Paper wasp in pitcher plant, Sarracenia purpurea L.
12412
Note on breeding of fruit flies Dacus ciliatus Loew and D. cucurbithe Coquillett in stem galls of Coccinia indica W. and A.
12413
Dry preparation of small soft skinned animals particularly arthropods, and of plant parts with dichlormethane-glacial acetic acid-silica gel..
12440
A revision of the world fauna of Tuberculatus, with descriptions of two new species from China (Homoptera: Aphididae.
12985
Phyto-ecological basis of mosquito control: Cartography of larval biotypes.
13678
Observations on Lygaeus pandurus Scopli in West Rajasthan.
13854
Additions to host records of Meloidogyne sp., Helicotylenchus multicinctus and Rotylenchulus reniformis.
13897
New host plants of Xiphinema basiri and X. indicum.
13901
Effects of (2-chloroethyl) trimethyl ammonium chloride (CCC) on Hyoscyamus albus plants.
14070
Efficiency of mutation induced by the absorption of beta emitting radioisotopes in plants.
14085
Plictran miticide-New approach to mite control.
14202
Plant care on the North Sea coast.
14375
Some aspects of the etiology of enzootic icterus (geelsiekte) and tribulosis ovis (geeldikkop).
14589

Determination of insecticide residue in animal and plant tissues. iV: Determination of residual amount of Sumithion and some of its metabolites in fresh milk.
14659

The importance of the site of food up-take of plant-sucking insects for use of systemic insecticides.
14835

On plant protection in special cultures with particular regard to the Bavarian conditions.
14913

Experiments on chemical weep control in spice and pharmaceutical plants.
15105

Mechanism of feeding of some virus-vector leafhoppers. histological studies of the tracks.
15654

Phyto-trichobezoars in the caecum of horses in the Northern Territory.
15790

PLAQUE

Congo red and trypan blue as stains for plaque assay of New castle disease virus.
9703

A plaque system for study of infectious laryngotracheitis virus in adult chicken kidney cultures.
9750

Characteristics of Corynebacterium renale phage.
14019

Serologic diagnosis of Colorado tick fever. A comparison of complement-fixation, immunofluorescence, and plaque-reduction methods.
14564

Reduction of arbovirus plaque numbers by suspensions of normal mosquitoes.
15810

PLAQUE ASSAY

Plaque characteristics of four classes of bovine viruses.
14570

PLASMA MEMBRANE

Electron microscopical observations on Mycobacterium johnei.
9115

PLASMODIUM

Susceptibility of Anopheles (Myzomyia) stephensi to Plasmodium cathemerium.
8819

Parasitological and clinical investigations on infections with the VS Romanian strain of Plasmodium malariae transmitted by Anopheles labranchiae atroparvus.
9519

Further studies on the Plasmodium berghei-Anopheles stephensi- rodent system of mammalian malaria.
12190

Transmission of Hamosporidiorida by cave-dwelling Anopheles in the grottos of the Congo.
12577

The zygotoblast and sporocyst indices in the valley of the Ruzizi.
12593

PAM 1392 (2,4-diamino-6-(3,4-dichlorobenzylamino) Quinazoline) as a Chemotherapeutic agent: Plasmodium berghei, P. cynomolgi, P. knowlesi, and Trypanosoma cruzi.
12803

Global eradication of malaria: Changes of strategy and future outlook.
14298

Studies on avian malaria in Japan. I. Life cycle, especially exocrythrocytic growth of the parasite.
15821

PLASMODIUM BERGHEI

Anti-malarial effect of interferon inducers at different stages of development of Plasmodium berghei in the mouse.
9714

Role of interferon in experimental mouse malaria.
9749

PAM 1392 (2,4-diamino-6-(3,4-dichlorobenzylamino) Quinazoline) as a Chemotherapeutic agent: Plasmodium berghei, P. cynomolgi, P. knowlesi, and Trypanosoma cruzi.
12803

Preliminary studies on the anti-malarial activity of SDDS (2-sulfamoyl-4, 4'-diaminodiphenylsulfone) against Plasmodium berghei and Plasmodium gallinaceum.
14065

Malarial parasite metabolism: The lactic acid dehydrogenase of Plasmodium berghei.
15182

PLASMODIUM GALLINACEUM

Autoimmune reactions of chickens infected by Plasmodium gallinaceum.
12801

Plasmodium gallinaceum: Chicken erythrocyte survival as determined by sodium radiochromate and Di-isopropylfluorophosphate labeling.
12810

The transformation of the Plasmodium gallinaceum oocyst in Aedes aegypti mosquitoes.
13688

Preliminary studies on the anti-malarial activity of SDDS (2-sulfamoyl-4, 4'-diaminodiphenylsulfone) against Plasmodium berghei and Plasmodium gallinaceum.
14065

PLASMODIUM KNOWLESI

PAM 1392 (2,4-diamino-6-(3,4-dichlorobenzylamino) Quinazoline) as a Chemotherapeutic agent: Plasmodium berghei, P. cynomolgi, P. knowlesi, and Trypanosoma cruzi.
12803

PLASMODIUM LOPHURAE

A filterable, proliferating factor simulating autoimmunity in malarious and nonmalarious ducklings.
9729

Plasmodium lophurae: (U-C14)-glucose catabolism by free plasmodia and duckling host erythrocytes.
12792

PLASMODIUM MALARIAE

Parasitological and clinical investigations on infections with the VS Romanian strain of Plasmodium malariae transmitted by Anopheles labranchiae atroparvus.
9519

PLASMOLYSIS

The contraction of the roots of Arum italicum.
8583

Pathological changes in ultrastructure: False plasmolysis.
9832

PLASTICS

Weed control under clear plastic mulch for transplanted muskmelons (Cucumis melo L.). (Abstract).
10775

The persistence of simazine in soil. (Abstract).
10921

Effects of simazine alone and in combination with hay or plastic mulch on McIntosh apple trees and accumulation of simazine residues.
12219

Influence of temperature on the effectiveness of paradichlorobenzene fumigation of black carpet beetle larvae.
12874

Compositions containing organotin metal carboxylate antimicrobials.
12921

Vorlex for plastic greenhouse soil fumigation.
15607

PLASTIDS

The effect of 3-amino-1,2,4,-triazole on the ultrastructure of plastids of Triticum vulgare seedlings.
12237

The effect of sodium replacement on the electroretinogram recorded from the cockroach ocellus.
14179

The incidence of tobacco mosaic virus in plastids of etiolated tobacco leaves.
15564

PLATYGASTERIDAE

A new species of Trichacoides from India with a redescription of T. scutellaris Dodd (Hymenoptera: Platygasteridae).
9906

PLATYPODIDAE

The complex of fungi essential to the growth and development of Xyleborus sharpi in wood.
11927

Shot-hole borer of tea plant in Japan.
12475

Scolytidae and Platypodidae from the Naturhistoriska Riksmuseum in Stockholm. 235. Contribution to the morphology and systematics of the Scolytoidea.
12989

PLATYPUS

Observations on Platypus flavicornis (Coleoptera: Platypodidae) in southern pine beetle infestations.
13033

PLEBEJUS PYLAON

Morphology and geographic distribution in Spain of the 'child of the milk vetch' Plebejus (Plebejus) pylaon (F.d.W., 1824).
13531

PLECOPTERA

Catalogue of the types in the collections of the German Entomological Institute--I. Ephemeroptera, Odonata, Plecoptera.
9309

The life histories and drifting of the Plecoptera and Ephemeroptera in a dartmoor stream.
10001

Experimental studies on diapause in stoneflies. III. Eggs of Brachyptera risi (Morton).
10051

The drumming of the Plecoptera (Insecta).
11875

On a new species of the genus Perlodes (Plecoptera: Perlodidae) from India.
12386

PLECTRIS ALIENA

An introduced pasture beetle, Plectris aliena Chapin (Scarabaeidae: Melolonthinae).
11755

PLEGADIPHILUS

A new species of Plegadiphilus (Mallophaga, Menoponidae) from the Cayenne Ibis.
11130

PLENODOMUS

Influence of peroxidase and catalases on mycelial growth and pycnidium production by Plenodomus meliloti in light and darkness.
11702

PLEOCHAETA

Six powdery mildews from Jammu and Kashmir State.
9590

PLEOSPORA HERBARUM

A study of the biology of Stemphylium botryosum Wall. -Pleospora herbarum (Pers.) Rabenh.- the causer of brown spots on alfalfa leaves.
9591

PLEURISY

Isolation of Corynebacterium haemolyticum from a case of ovine pneumonia.
13990

PLODIA INTERPUNCTELLA

Biology of Melichares tarsalis in association with Plodia interpunctella.
8738

Biochemical study of Plodia interpunctella (Hbn.) (Lepidoptera) I--Variations of body weight, water content, and dry matter content.
9993

Sexual dimorphism in neutral lipid metabolism in the Indian-meal moth, Plodia interpunctella (Hubner).
10143

Laboratory evaluation of malathion as a storage protectant for figs.
12879

Effect of mating with males reared in continuous light or in light--dark cycles on fecundity in Plodia interpunctella Hubner (Lepidoptera: Phycitidae).
13083

PLOWING
Vertical distribution of fungus suggests...rigolen plowing for control of Verticillium wilt in cotton.
10709

Effect of winter precipitation and temperature on overwintering eggs of Northern and Western corn rootworms.
12432

Lest white grubs visit your sugarcane...and find you unprepared.
14486

PLOWS
Pesticides and plows.
10167

PLUCHEA LANCEOLATA
Occurrence of Orobanche cernua on Pluchea lanceolata, an obnoxious weed in Rajasthan, India.
8411

PLUM POX (PLUMS)
Properties and serology of plum pox virus.
15572

PLUMS
Monilia laxa as an important factor reducing the yield of some plum varieties (Monilia laxa (Ehrenb.) Aderh. et Rubl.).
9596

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 2-(p-tertbutylphenoxy)cyclohexyl 2-propynyl sulfite.
9791

Phellinus pomaceus.
10217

Size control of nursery trees with N-dimethylaminosuccinamic acid.
11036

The response of potted apple and plum plants to bromacil and chlorthiamid.
11572

Control of four species of aphids on deciduous fruit and nut trees with carbofuran.
12076

A contribution to the knowledge of speed of expansion of plum pox virus in natural conditions.
13264

Occurrence of Sphaerolecanium prunastri (Fonscolombe) in Israel and description of its hitherto unknown larval instar.
14791

Properties and serology of plum pox virus.
15572

Localization and migration of plum pox virus in plum trees.
15600

Phytotoxicity of methyl bromide to some plant hosts of San Jose scale.
15882

PLUSIINAE
Characters for identification of some common plusiine caterpillars of the southeastern United States.
9889

Distribution of larval and pupal instars of Plusia argentifera Guen. on tobacco plants.
10240

Annotated key to the Plusiinae moths of Florida (Lepidoptera: Noctuidae).
14752

PLUTELLA MACULIPENNIS
Cabbage looper control in Florida - a cooperative program.
8345

New records of parasites of Plutella maculipennis Curt. in Gujarat, India.
10088

Organophosphorus compounds. VI. -Structure and activity of certain 4-(diethoxyphosphino hioylthiomethyl)4H-1,3,4-oxadiazoline-5-thiones, of certain 4-diethoxyphosphino hioylthiomethyl-thiazoles, and related compounds.
12514

Relative efficacy of different insecticides, as contact poisons, to the larvae of the diamond-black moth, Plutella maculipennis Curtis (Lepidoptera: Plutellidae).
14122

Leaf injury and food consumption by larvae of Phaedon cochleariae (Coleoptera; Chrysomelidae) and Plutella maculipennis (Lepidoptera Plutellidae) feeding on turnip and radish.
15034

The influence of the host plant or males on ovarian development or oviposition in the diamondback moth Plutella maculipennis (Curt.).
15373

PNEUMONIA
Perforation of the esophagus in a cat.
8479

Isolation of Corynebacterium haemolyticum from a case of ovine pneumonia.
13990

Pulmonary disease in Kenya sheep.
14639

PNEUMOSTRONGYLUS TENUIS
Pneumostrongylus tenuis in moose on a deer-free island.
10375

POA
Performance of preemergence herbicides in 1967 on Merion Kentucky bluegrass turf.
8407

Weed control in turf.
12740

POA ANNUA
Soil-borne wheat mosaic virus from Poa annua L., a new host.
14377

POA PRATENSIS
Infection of Merion bluegrass, Poa pratensis, by stripe smut, Ustilago striiformis.
8957

Growth response of turfgrasses to several herbicides.
9211

Use of minimum tillage and herbicide for establishing legumes in Kentucky bluegrass (Poa pratensis L.) swards.
13917

POD MOTTLE
Desmodium paniculatum, a perennial host of bean pod mottle virus in nature.
10674

POD ROT
Phytophthora leaf fall and pod rot of Hevea brasiliensis in Thailand.
8939

PODISUS MACULIVENTRIS
A quantitative study of food consumption and growth of Podisus.maculiventris.(Hemiptera: Pentatomidae).
9434

PODOSPHAERA LEUCOTRICHA
Fungicidal activity and chemical constitution. XV. The activity of 4-(1-substituted n-alkyl)-2,6-dinitrophenols.
12601

Fungicidal activity and chemical constitution. xvi. The use of partition data for an analysis of the activities of alkyldinitrophenol fungicides against apple mildew.
12603

Systemic activity of benzimidazoles as soil drenches against powdery mildew of apple and cherry.
12612

A contribution to studies on the biology and control of apple mildew (Podosphaera leucotricha (Ell. and Ev.) Salm.).
14383

PODOSPHAERA OXYACANTHAE
Systemic activity of benzimidazoles as soil drenches against powdery mildew of apple and cherry.
12612

POGONOMYRMEX
Comparative effectiveness of aliphatic ketones in eliciting alarm behavior in Pogonomyrmex barbatus and P. comanche.
11407

Loss of rhythmic activity in female ants caused by mating.
13652

POISON GLANDS
The hymenopterous poison gland: Probable functions of the main glandular elements.
12416

POISONING
Pesticide usage in relation to beekeeping.
8075

Pollen gathering of honey bees reduced by pesticide sprays.
8205

The effects of an acute DDT exposure on the spontaneous electrical activity of goldfish cerebellum.
8558

Hazards of insecticides and residue problems in rice cultivation.
8574

Arsenic poisoning of cattle and other domestic animals.
9096

Interactions of DDT with the nervous system of the resistant and susceptible german cockroaches.
10532

Age and sensitivity of trout to aflatoxin B1. (Abstract).
10865

Poisons that hit and run.
12223

Rats and mice enemies of production, hazard to health.
12880

Spongy changes in the brains of sheep poisoned by excess dietary copper.
12894

Antidotes for organophosphate poisoning. I. Synthesis of 1-(quaternary ammonium)-3-(hydroxyiminomethylpyridinium)propane dibromides.
13514

A brief review of necrotic arachnidism or North American loxoscelism.
13640

Persistent toxicity of some systemic insecticides to little honey bees.
14260

Forage nitrate poisoning.
15270

Studies on the mechanisms of the monofluoroacetanilides poisoning to mammals. VIII. Organophosphorus compounds as a specific inhibitor to fluoroacetanilide amidohydrolase.
15888

Acute superphosphate poisoning of cattle and sheep.
15889

POISONOUS GASES
Intoxification of swine with noxious gases.
9095

Accumulation of fluoride by forage crops.
11664

Ethylene-its effect on flower crops.
12259

POISONOUS PLANTS
Sequence in the abortive and teratogenic effects of locoweed fed to sheep.
9080

Rubber--vine (Cryptostegia grandiflora) toxicity for ruminants. 10346

Researches on Galega species regarding their content of toxins by means of biological methods. I. Toxicity of goats-rue (Galega officinalis L.) for warmblooded animals. 10428

Distribution of miserotoxin in varieties of Astragalus miser Dougl. ex Hook. 10454

The isolation of the toxic principle of Daphne. 10945

Some harmful plants of Southeast Asia. 10953

Locoweed (Astragalus lentiginosus) poisoning in cattle and horses. 11683

Toxic effects of Phytolacca thyrsiflora caruru bravo . 12117

Blood changes associated with locoweed poisoning. 14577

The significance of alleleopathy for the synthesis of vegetation. 15897

POISONS

Control of thar (Hemitragus jemlahicus): Evaluation of a poisoning technique. 9051

Legal aspects of crop spraying. 9398

Distribution of miserotoxin in varieties of Astragalus miser Dougl. ex Hook. 10454

Corn rootworm control in South Dakota with notes on wireworm and cutworm control. 10520

Pesticide regulations and residue problems in Japan. 11670

Effect of cell poisons on the colloid-chemical properties of the cell. 14102

Adsorption of drugs and poisons by activated charcoal. 15263

Regulations for the enforcement of the federal insecticide, fungicide, and rodenticide act. Pesticides containing sodium arsenite and arsenic trioxide compounds. 15923

POLAND

Characteristic of development and noxiousness of the most important diseases and pests of industrial plants in Poland in the year 1967 and their forecast for 1968. 15032

POLARIZATION

Circular dichroism of gibberellins and the application of the lactone chromophore to their structural elucidation. 12315

POLAROGRAPHY

Acetonitrile extraction and determination of carbaryl in fruits and vegetables. 9158

Report on carbamate pesticides. 9217

The application of potentiostatic polarography with three electrodes to the dosage of insecticide and fungicide preparations. 9854

Collaborative study of confirmative procedures by single sweep oscillographic polarography for the determination of organophosphorus pesticide residues in nonfatty foods. 10409

Polarographic analysis of s-triazine herbicides. 13505

POLIANTHES TUBEROSA

A foliar disease of tuberose caused by Aphelenchoides besseyi. 9031

POLICIES

Distribution of the corn earworm on St. Croix, U.S. Virgin Islands, and its relation to suppression programs. 12387

POLIOENCEPHALOMALACIA

Polioencephalomalacia (cerebrocortical necrosis). 9090

An outbreak of polioencephalomalacia in calves. 15180

POLIOMYELITIS

Dicarbamate derivatives of alkyladamantanes. Patent 3,450,744. 9585

POLISTES

Controlling wasps. 8071

The effects of the removal of the parasite Xenos (insecta Strepsiptera) on the protocerebral neurosecretion of its host Polistes (Hym. Vespidae). 10121

Paper wasp in pitcher plant, Sarracenia purpurea L. 12412

Unique problems in insect and pest control of NASA'S Mississippi test facility. 13221

Differential variation of males and females in Polistes exclamans. 13716

POLLEN

New or little known feeding habits in Empididae (Diptera). 9370

The propagation of Stecklenberg disease in a sour cherry tree. 10699

Fig wasps: Mechanism of pollen transfer. 11872

The multiplication and spread of sacbrood virus of bees. 12408

Studies on pollen gathering activity of the Indian honey bee Apis indica F. under Delhi conditions. 12415

Staminal and functional male sterility induced by chemical treatment in Papilionaceous plants. 15280

POLLENIA RUDIS

The cluster fly. 11871

POLLINATION

Intrafloral ecology. 8080

Effects of increased pollinator levels on production of the highbush blueberry, Vaccinium corymbosum. 8089

Pollen gathering of honey bees reduced by pesticide sprays. 8205

Mechanisms of orientation in the leaf-cutter bee Megachile rotundata (Fabricius). 9443

Gibberellin induced heterostyly in the tomato and its implications for hybrid seed production. 10593

Fig wasps: Mechanism of pollen transfer. 11872

Resistance to Phytophthora cactorum among open-pollinated seedlings of apple varieties and species. 12002

Further studies on the pollination ecology of Ficus sycomorus L. (Hymenoptera, Chalcidoidea, Agaonidae). 12453

Fruiting response of the highbush blueberry to applied gibberellic acid under field conditions. (Abstract). 14308

Stimulation of tomato ripening by Amchem 66-329. (Abstract. 14313

Plant care and bee care go hand in hand. 14478

POLYACRYLAMIDE

Proteins of vesicular stomatitis virus. I. Polyacrylamide gel analysis of viral antigens. 9083

POLYCHROSIS BOTRANA

Displacement in the ratio between Clysia ambiguella and Polychrosis botrana vine moth populations in 1965-1966. 13330

POLYDRUSUS

Observations on Strophosomus melanogrammus (Forst.), Polydrosus marginatus Steph. and Otiorrhynchus armadillo (Rossi) (Coleoptera Curculionidae), pests of Pseudotsuga douglasii Carr. in Tuscany. 8333

POLYDRUSUS CONFLUENS

Polydrusus confluens Steph. (Col., Curculionidae) recorded in error from oak. 13298

POLYETHYLENE

Protection of polythene rain-guards from damage by crickets in rubber plantations in South India. 13835

Utilization of polyethylene film to control evaporation in the loss in weight method for transpiration. 15276

Test for protecting melon and marrow plants against the cucumber mosaic virus. 15545

Further studies on rot of McIntosh apples handled in water. 15841

POLYETHYLENE GLYCOL

Chromatographic purification of the oat blue dwarf virus. 9547

A note on the genus Pseudathyma Staudinger with description of a new species (Lepidoptera: Nymphalidae). 14143

The concentration of foot-and-mouth virus by polyethylene glycol. 15771

POLYETHYLENE THIURAM SULFIDES

A contribution to the study of Alternaria tenuis Nees causer of the leaf spot of tomato. 9581

Second year trials of Peronospora control on onions. (Peronospora schleideni Unger). 10653

Is an early infection by Peronospora tabacina Adam controlable in the field . 14397

Combined application of leaf fertilizers and fungicides. 15576

POLYGONUM

Herbicides for annual weed control in oats. 15073

Fall vs. spring applications of atrazine for weed control in corn. 15074

Preemergence herbicides for corn in minnesota. 15075

Early postemergence herbicides for corn in minnesota. 15078

POLYGONUM CONVOLVULUS

Competition between flax and wild buckwheat. 10440

Weed control in horticultural crops: Fruits. Weed control in strawberries. 15070

Herbicides for annual weed control in oats. 15073

Herbicides for annual weed control in wheat and barley. 15079

Weed control in wheat. 15122

POLYGONUM PENSYLVANICUM
Selective weed control in corn. 15059
Herbicides for annual weed control in wheat and barley. 15079
Post emergence herbicides on spring-sown alfalfa. 15130
Preplant herbicides for control of weeds in red clover. 15132
Postemergence herbicide applications for corn. 15713

POLYHEDRA
Molecular organization in the polyhedra of Porthetria dispar nuclear-polyhedrosis. 11812

POLYHEDROSES
A polyhedrosis in Culex salinarius of Louisiana. 8098
Purification of a cytoplasmic-polyhedrosis virus of the silkworm, Bombyx mori. 8159
Ineffectiveness of a microsporidian and a granulosis virus in activating a cytoplasmic polyhedrosis virus in the alfalfa caterpillar, Colias eurytheme. 8198
The nucleopolyhedrosis virus of Heliothis: Quantitative in vivo estimates of virulence. 8694
Nucleic acid in intact nuclear polyhedral bodies isolated from virus-infected fall armyworm, Spodoptera frugiperda. 8745
Immunofluorescence studies on the multiplication of cytoplasmic-polyhedrosis virus of the silkworm, Bombyx mori. 8781
Heat effects on the infectivity of the nuclear polyhedrosis virus of Heliothis spp. 8801
The method and role of vertical transmission of a nucleopolyhedrosis virus in the European spruce fly, Diprion hercyniae. 8818
The influence of infections of nuclear-polyhedrosis virus on adult cabbage loopers and their progeny. 8889
Some consequences of irradiating the gypsy moth eggs with radioactive cobalt 60. 9491
Helicopter sprayers may rescue infested forests. 9959
A strain of nuclear-polyhedrosis virus causing extensive cellular hypertrophy. 10126
Studies on the diseases of aseptically reared silkworms, Bombyx mori L. V. Induction of nuclear polyhedroses by the feeding of certain chemicals to the silkworm after transfer from aseptic to normal rearing condition. 10548
Factors influencing the development of a polyhedral cytoplasmic intestinal virus in Mamestra brassicae L. (Lepidoptera). 11322
Mode of multiplication of the nuclear-polyhedrosis virus of the silkworm. 11773
Molecular organization in the polyhedra of Porthetria dispar nuclear-polyhedrosis. 11812
Serological investigations of insect viruses. I. Comparison of three highly purified cytoplasmic-polyhedrosis viruses. 11846
Isolation of polyhedral pre-viral deoxyribonucleic acid from healthy silkworms. 11901
Incidence of virus diseases in aseptically-grown silkworm, Bombyx mori L. (II. Effect of feeding of chemicals and irradiation of gamma-rays. 13074
Development of the virus with inclusion bodies, of the Lepidoptera Lymantria dispar in cell cultures. 14275
Sex differences in embryonic response to Eimeria tenella infection. 14579
Hemagglutination with cytoplasmic-polyhedrosis virus of the silkworm, Bombyx mori. 15402
Purification and serological reactions of four polyhedral viruses from Cruciferae. 15522

POLYMERIZATION
Stable intermediate aggregates formed by the polymerization of barley stripe mosaic virus protein. 9540
Serological study on barley stripe mosaic virus protein polymerization. II. Comparative antigenic analysis of intact virus and some stable protein intermediates. 9541
Serological study on barley stripe mosaic virus protein polymerization. I. Immunodiffusion, immunoelectrophoretic characteristics, and absorption experiments. 9542
Chemical modification of wood during microbial deterioration. 12247
Decay patterns produced by Chaetomium globosum in beechwood fibers. A chemical and microscopic study. 12270

POLYMERS
On the structure of the glycerol teichoic acid from the cell wall of Actinomyces antibioticus-39. zaretskaja, m s. 9238
Polymethacrylic acid: Effects on lymphocyte output of the thoracic duct in rats. 9741
Effect of antiserum to E. coli DNA polymerase on synthesis of phi chi 174 DNA extracts of phi chi infected cells. 9848

POLYMORPHISM
Phenotypic polymorphism in Aphidius smithi Sharma Subha Rao (Hymenoptera, Aphidiidae). 8247
Effects of controlled heterozygosis on viability in Drosophila melanogaster. 8252
Anomalous dimorphism in Aedes vexans. 8736
Acetylcholinesterase polymorphism in the face fly (Diptera: Muscidae). 8786
Mating propensity, chromosomal polymorphism, and dependent conditions in drosophila persimilis. ii. factors between larvae and between adults. 8860
Observations on polymorphism in two species of heliconiine butterflies from Trinidad, West Indies. 9360
Polymorphism of Philaenus spumarius (L.) (Homoptera, Cercopidae) in England. 9500
The structure of polymorphic species of the subgenus Autolethrus (Coleoptera, Scarabaeidae) from South Kazakhstan. 9924
Homologous lines of chromosome polymorphism in the natural populations of Adirondack black fly (Diptera, Simulidae). 10150
Chromosomal polymorphism and genetic load in Drosophila pseudoobscura. 10153
The dimorphism of germination of spores of Ustilago maydis (DC) Cda on the leaves of Zea mays L.. 10872
The genetics of east African Lepidoptera--X. Danus chrysippus L. (Lepidoptera, Danaidea). 11429
Dimorphism in galls caused by Mikiola fagi Hartig. (Dipt. Cecid.) on Fagus silvatica L. Androcecidy and gynocecidy. 11459
Drosophila andalusiaca, a polymorphic species new to Holland. 12337
The results of my breeding of Acanthobrahmaea europaea Hartig 1963. A contribution to the extent of variation of this species (Lep., Brahmacidae). 12414
Parallel polymorphisms in different species of Hawaiian Drosophila. 12562
Temperature induction of phenodeviants in Drosophila melanogaster mutants. 12565
Crossing-over between heterozygous inversions and its relation with polymorphism in Drosophila willistoni . 13170
Some interactions of crossveinless-like genes in Drosophila melanogaster. 13192
An analysis of gene-enzyme variability in natural populations of Drosophila melanogaster and D. simulans. 13194
Linkage in Mormoniella. 13205
The mode of selection at the polymorphic esterase 6 locus in cage populations of Drosophila melanogaster. 13218
On the problem of leukoses (hemoblastoses) of the reticular order in animals for slaughter. 14014
Caterpillar polymorphism of Pergesa elpenor L. 14221
Fine structure of leukocytes adhering to the cuticle of Ascaris suum larvae. II. Polymorphonuclear leukocytes. 14638
Isolation of securinin from the herb of Securinega suffruticosa (Pall.) Rehd. cultivated in Poland. Polymorphism of securinin. 14919
Eumenidae captured in the district of Canet de Mar, province of Barcelona (Hym. Eumenidae). 15337

POLYMORPHUS BOSCHADIS
The development of the body wall of Polymorphus minutus (Acanthocephala) in its intermediate host Gammarus pulex. 10370
On the environment of Polymorphus minutus (Acanthocephala) in ducks. 10373

POLYMYXA
Polymyxa infection of Bermuda grass. 10639

POLYMYXA GRAMINIS
Polymyxa infection of Bermuda grass. 10639
Form and mechanism of transmission of plant viruses. Transmission of viruses by fungi. 11466
Soil-borne wheat mosaic virus from Poa annua L., a new host. 14377

POLYMYXIN B SULFATE
In vivo susceptibility of Salmonella panama to polymyxin B sulfate and Comhistrep. 9756

POLYNEMA STRIATICORNE
The effects of oil treatments on egg hatching in the buffalo tree hopper, Stictocephala bubalus (F.) (Homoptera: Membracidae), in the apple orchards of southwest Quebec. 13318

POLYOMA VIRUS
Effect of 5-fluorouacil and 5-bromo-2'-deoxyuridine on the induction of thymidine kinase in polyoma virusinfected mouse embryo cells. 8488

POLYPLOIDY
Triploidy in natural populations of black flies Prosimulium macropyga Lundstr (Simuliidae, Diptera). 8223
Studies in polyploid varieties of sugar beets. X. Chromosomal variation in progeny of crosses involving diploid, triploid and tetraploid plants. 8931
Colchicine-induced tetraploid azaleas. 10447
Experimental conditions for feminization of the gonads of triploid intersexes in Drosophila melanogaster. 10543
Artificial parthenogenesis and experimental polyploidy in silkworm. 11778
Cytological and morphological evidence for the single-cell origin of vegetatively propagated shoots in thirteen species of Saintpaulia treated with colchicine. 12233
Mutation induction by EMS in autotetraploid barley. 14319

POLYPORACEAE
Pathological changes in the trunk of Prunus armeniaca L. and their relationship to the premature death of apricots. I. Investigations in the area of wood structure. 8308

POLYPORUS
Heterobasidion annosum. 10215
Phellinus igniarius. 10216
Phellinus pomaceus. 10217
Fecal filaments produced by fungus infesting larvae of Platydema oregonense. 11235
Wood rot of fruit trees. 11447
Contribution to the cytology of Hymenomycetes: VII. Karyological studies in Polyporus agariceus Berk. 11918
Rigidoporus lignosus. 12640
Phellinus robustus. 12641
Rigidoporus zonalis. 12642
Rigidoporus ulmarius. 12644

POLYPORUS BETULINUS
Association among species of infrequent occurrence: The insect and spider fauna of Polyporus betulinus (Bulliard) Fries. 8171
A population study of Cis bilamellatus Wood (Coleoptera, Ciidae). 9446

POLYPORUS COFFEAE
The coffee root mealybug complex. 10711

POLYPORUS HIRSUTUS
Biochemistry of lignin. 12276

POLYPORUS HISPIDUS
Inonotus hispidus. 10218

POLYPORUS VERSICOLOR
Wood rot of fruit trees. 11447
Distribution and reuse of nitrogen in wood-destroying fungi. 12246
Amount and distribution of nitrogen in wood and its influence on wood deterioration. 12274
Biochemistry of lignin. 12276

POLYRAM
Fungicidal control of late blight of potato in the Nilgiris. 14996
Tobacco--blue mold and anthracnose control, asheville. 15597

POLYSACCHARIDES
Histological data on the cuticular acidic mucopolysaccharides in Orthoptera. 9419
Nature of cuticle of the scorpion, Heterometrus scaber. 11323
Production of acid mucopolysaccharides in mammalian fibroblast tissue cultures transformed by Rous sarcoma virus. 11618
Amylopectin, the storage polysaccharide of the coccidia Eimeria brunetti and E. tenella. 11620
Use of disk electrophoresis for investigation of protective antigen of Bacillus anthracis isolated by the method of acid precipitation. 13391
Production of acid mucopolysaccharides in mammalian fibroblast tissue cultures transformed by Rous sarcoma virus. 15183

POLYVINYL ACETATE
Wound dressings for the prevention of silver-leaf in fruittrees caused by Stereum purpureum (Pers.) Fr. 8946

POLYVINYL CHLORIDE
The disappearance of atrazine when in contact with polyvinyl chloride tubing. (Abstract). 11067
GLC determination of DDVP extracted or vacuum-trapped from PVC resin formulations. 13451

POMPILIDAE
Systematic investigations on East-Indian and Australian Hemipepsis. VIII. On the species of the sub-genus Moropepsis Banks, 1934 (Hymenoptera Pompilidae, Pepsinae). 9329
Notes on some spider hunting wasps from the Netherlands (Hymenoptera, Pompilidae). 11719
Remarks concerning some species of spider wasps (Hym. Pompiloidae)(2.). 14174
Remarks concerning some species of wasps (Hym. Pompiloidae (3.). 14175

PONDS
Observations on the repopulation by amoeba of a pond largely polluted with insecticides (Protozoa, Rhizopoda, testacea). 11663
Effects of dichlobenil on two fishpond environments. 12889
The deletion of the Herefordshire record for Aphodius niger (Pz.) (Col., Scarabaeidae). 12968
Drip application of three organophosphorus insecticides for mosquito control. 13225

PONERINAE
Evidence of an alarm phermone in the ant Odontomachus haematodes (Hym. Form. Ponerinae). 14807

PONTANIA
Galls and larvae of the European species of genera Phyllocolpa and Pontania (Hymenoptera, Tenthredinidae). 12052

POPILLIA JAPONICA
An artificial diet for the adult Japanese beetle. 8761
Rate of oxygen uptake of healthy and diseased larvae of the Japanese beetle. 8895
Course of sporulation of Bacillus popilliae in liquid medium containing activated carbon. 10029
The Japanese beetle, Popillia japonica Newm. (Coleoptera: Scarabaeidae) in southern Quebec. 13244

POPULATION
Assessment of the field population of the rice stem borer moth by light trap. 8040
Survey and distribution of common lady beetles (Col. Coccinellidae) on date palm trees in Israel. 8042
Statistical methods in rice stem borer research. 8063
Insect parasite complex berseem armyworm Spodoptera exigua (Hubn.) (Lepidoptera, Noctuidae). 8082
Influence of larval population density on the size of adults, duration of development, and diapause frequency in Pteromalus puparum L. (Hym., Chalcididae). 8088
Effects of introduced irradiated male grain mites on population development. 8091
Age structure of insect populations of medical importance. 8107
The comparative biologies of two hymenopterous parasites of the chaff scale, Parlatoria pergandii. 8123
Recent fundamental work on tsetse flies. 8124
Impact of pathogens, parasites, and predators on aphids. 8126
Daily and seasonal density of four entomophagous predators on cotton in upper Egypt. 8130
Bionomics of Siricidae. 8162
Association among species of infrequent occurrence: The insect and spider fauna of Polyporus betulinus (Bulliard) Fries. 8171
Radiation induced increase in fitness in Drosophila simulans. 8219
Triploidy in natural populations of black flies Prosimulium macropyga Lundstr (Simuliidae, Diptera). 8223
Genetic and environmental variability for bristles in Drosophila. 8227
Heterozygosity in inbred lines of Tribolium castaneum. 8230
Reciprocal fertility among five populations of Anopheles albimanus. 8236
The semispecies and the transitional populations of Drosophila paulistorum. 8242
Effects of controlled heterozygosis on viability in Drosophila melanogaster. 8252
Natural selection on the degree of dominance of viability polygenes in Drosophila melanogaster. 8254
The population genetics of insect introduction. 8260

POPULATION

Developmental time of geographical populations of Tribolium castaneum. 8266

Note on the efficiency of Prospaltella perniciosi Tow. in France. 8326

A nucleopolyhedrosis virus in populations of the Douglas-fir tussock moth, Hemerocampa pseudotsugata, in California. 8335

The natural enemies of the chaff scale, Parlatoria pergandii Comstock, in Israel. 8344

Evaluation of forest insect infestations. 8357

Information gathered in the course of nine years of work with Prospaltella perniciosi Tow., parasite of the San Jose scale (Quadraspidiotus perniciosus Comst.). 8360

Ecology of common insect pests of rice. 8368

Population studies on the infective stage of some nematode parasites of sheep. III. The distribution of strongyloid egg output in flocks of sheep. 8493

Population studies on the infective stage of some nematode parasites of sheep. II. The distribution of faecal deposits on fields grazed by sheep. 8494

Preliminary observations of alpine grasshoppers in a habitat modified by deer and chamois. 8706

Effect of substrate types on aquatic insect distribution. 8707

Variation in behavior among obligate acacia-ants from the same colony (Pseudomyrmex nigrocincta). 8709

The natural control of the apple-grass aphid, Rhopalosiphum insertum, with remarks on the control of apple aphids in the Netherlands in general. 8752

Ecological research in the Lamto Savannah (Ivory Coast): Preliminary data on the populations of terrestrial ants. 8794

Alate aphids trapped over 8 years at two sites in Canterbury, New Zealand. 8798

The incidence of parasitism and disease in some populations of the cabbage aphid,(Brevicoryne brassicae L.) in New Zealand. 8799

Fluctuations in natural populations of Drosophila with special attention to sex ratio. 8804

Mating propensity, chromosomal polymorphism, and dependent conditions in drosophila persimilis. ii. factors between larvae and between adults. 8860

Life history and some factors affecting the population of Arzama densa in Louisiana. 8891

Genetic loads and cold temperature resistance in Drosophila pseudoobscura. 8916

Recessive mutants in a wild Drosophila melanogaster population. 8918

Current status of brown soft scale in citrus groves of the lower Rio Grande Valley. 9009

Population dynamics of the weevil Sitona regensteinensis (Hbst.) on broom. 9363

The proliferation of aquatic plants in Lake Trasimeno and its consequences on the diffusion of Phytochironomus severini Goetgh. 9367

Studies on the ecology of adult Tipulidae (Diptera) in southern England. 9383

The appraisal of delayed and direct density-independence. 9395

Some aspects of assessing efficiency of natural enemies. 9405

Logarithmic regression as an index of responses to population density. 9433

Biotic factors influencing populations of Dacus dorsalis in Hawaii. 9437

The biology and morphology of Eriophyes emarginatae, a Prunus finger gall mite, and notes on E. prunidemissae. 9442

The importance of the transplantation of Formica lugubris in Italy. 9445

A population study of Cis bilamellatus Wood (Coleoptera, Ciidae). 9446

Diapause and reproduction in Nebria brevicollis (F.) (Coleoptera: Carabidae). 9449

Food preference as a factor in distribution and abundance of Phoetaliotes nebrascensis. 9454

On the transplantation of ants of the group Formica rufa in Italy. 9461

The effect of two host species on the longevity and fertility of Nasonia vitripennis. 9472

Population studies on two species of Psyllidae (Homoptera, Sternorhyncha) on broom (Sarothamnus scoparius (L.) Wimmer). 9495

Polymorphism of Philaenus spumarius (L.) (Homoptera, Cercopidae) in England. 9500

Observations on the ecology of Thaia oryzivora, a leafhopper found on rice in Thailand. 9634

Changes in sex ratio in Haemonchus contortus cayugensis. 9765

Colonization of an island by the buffalo fly, Haematobia exigua. 10004

The influence of ecological and genetic factors on the birth and death of Macrocheles robustulus (Berlese,1904). 10005

The insect predators of the pupal stage of the winter moth, Operophtera brumata (L.) (Lepidoptera: Hydriomenidae). 10009

The effect of pupal predators on a population of winter moth, Operophtera brumata (L.) (Hydriomenidae). 10010

Ecological research in the Lamto Savannah (Ivory Coast): Annual cycle of the population size and biomasses of arthropods in the herbaceous stratum. 10017

A study of a pocket of scattered desert locust population in Rajasthan, India during 1966 with special reference to eye-stripes and biometrics. 10027

Studies and suggestions on the behaviour of moths at light. 10033

Spaced-out gregariousness in sycamore aphids Drepanosiphum platanoides (Schrank) (Hemiptera, Callaphididae). 10050

The ecology of the Simuliidae in a Scottish river. 10062

Age-distribution and abundance in populations of flour beetles. I. Experimental studies. 10071

A model accounting for sympatry in water mites. 10076

Entomocoenological and biological studies in Rosa damascena Mill. plantations. II. Coleoptera. 10081

The effect of Perillus bioculatus (Fabr.) (Het., Pentatomidae) on the population dynamics of the potato beetle. 10124

Etology as the determining factor of the numerical distribution of the species in the fauna. 10144

Evolution of fitness. IV. Genetic evolution of inter-specific competitive ability in Drosophila. 10146

On the determination of insect and mite resistance to pesticides. The influence of these products in sublethal doses on animals and in the trophic effect following biochemical repercussions on plants. 10149

Population genetics in the American tropics. IV. Temporal changes effected in natural populations of Drosophila melanogaster from Colombia. 10156

A molecular approach to the study of genic heterozygosity in natural populations. IV. Patterns of genic variation in central, marginal and isolated populations of Drosophila pseudoobscura. 10159

Structure, stability, and energy flow in plants and arthropods in a sericea Lespedeza stand. 10255

The effect of removal of arthropod predators on an infestation of Brevicoryne brassicae (Hemiptera, Aphididae) on brussels sprouts. 10260

Control of Florida red scale in Florida with the parasite Aphytis holoxanthus. 10264

Influence of weed competition on sorghum growth. 10277

Yellow foxtail competition in grain sorghum. 10284

Role of hermit crabs in the biological control of Achatina fulica (Bowdich) on the Andamans. 10321

A study of the mites of the Gamasoidea superfamily (Parasitiformes) infesting small mammals on the Vitosha Mountain. 10364

Competition between flax and wild buckwheat. 10440

Ethology as the determining factor in the distribution of species and fauna. 10576

On results of control of a tick vector of spirochaetosis in village foci of the Central Asian Republics. 10585

Investigations on the insect pests in the different types of oak forest of the Strandja range (Abstract). 10743

Adult hornworm populations and degree of infestation on tobacco in relation to community-wide grower use of blacklight traps. 10752

On the meaning of trichostrongylid egg counts in cattle. 10915

Leafhopper populations (Homoptera: Cicadellidae) on five pasture grasses in the Florida Everglades. 11141

Cicadulina bipunctella and C. chinai from India. (Hemiptera, Cicadellidae). 11195

Studies on the utilization of natural enemies as biotic insecticides. Density effect in the mass culture of Pseudaphycus malinus Gahan. 11303

Egg production by the Engelmann spruce beetle, Dendroctonus obesus, in relation to status of infestation. 11313

The density-related action of aphidophagous insects. 11320

Population differences in Tanytarsus gracilentus (Holmgr.) (Dipt., Chironomidae). 11335

Larval aggregation formation and population density interrelations in Aedes taeniorhynchus, their effects on pupal ecdysis and adult characteristics at emergence. 11358

Investigations into the population dynamics of parasites and hyperparasites of Brevicoryne brassicae (L.) (Homoptera, Aphididae). 11362

The applicability of some population growth models to a single-species laboratory population. 11375

Population increase of two species of Pseudopityophthorus in oak branches. 11378

Further experience obtained in studies on dispersal flights of Meligethes aeneus F., marked with P32 (Coleoptera). 11401

Cytogenetics of the Viatica group of morabine grasshoppers. II. Kangroos Island populations. 11431

On the knowledge of the relationship of the Coccinellidae to pine groves (Pinus silvestris L.). 11530

Factors influencing the ratio of males to females in the genus Heterodera. II. Minimum living space--selective rate of mortality of sexes--sex ratio (Heterodera schachtii). 11552

Influence of growing marigolds, weeds, two cover crops and fumigation on subsequent populations of parasitic nematodes and plant growth. 11555

Observations on the repopulation by amoeba of a pond largely polluted with insecticides (Protozoa, Rhizopoda, testacea). 11663

The bioecology of Corthylus columbianus Hopkins. 11821

The influence of abiotic factors on the development cycle of the grape phylloxera (Dactylosphaera vitifolii Schim.) and on a population of jassids (Homoptera, Auchenorrhyncha, Jassidae). 11856

The influence of gamma-irradiation upon the population dynamics and sex ratio in model populations of Drosophila melanogaster. 11888

Three years of growth of a Sericomyrmex colony. 11896

Chromosome number polymorphism in an Australian ponerine ant. 11905

Population densities and economic injury levels of grape leafhopper. 12065

Parasitization of Nabis alternatus by Leucostoma simplex in eastern South Dakota. 12072

Some observations on the worm burdens of calves infected daily with Ostertagia ostertagi. 12200

Four methods of sampling to measure populations of alfalfa weevil larvae. 12341

Conversion of results of concentrated samples to density estimates of egg and larval populations of the Northern corn rootworm. 12345

The regulation of population density in the bark beetle Scolytus scolytus (F.). 12411

Populations of the ant Tetramorium caespitum Latreille. 12421

Ecological studies on three pond midges (Diptera: Ceratopogonidae) in Quebec. 12433

Changes in a Heterodera rostochiensis population through the growing season. 12451

Genetically marked Aedes Aegypti in studies of field populations. 12452

Reproductive capacity of the green peach aphid on Maryland tobacco. 12461

A study of the mortality factors acting upon Cyzenis albicans (Fall.), a tachinid parasite of the winter moth (Operophtera Brumata (L.)). 12462

Stones, cement and guards in halictine nest architecture and defense. 12485

The exploitation and conservation of resources by populations of insects. 12498

Maternal age as an ecological factor in the population dynamics of the European corn borer, Ostrinia nubilalis. 12520

Oviposition traps and population sampling for the distribution of Aedes aegypti (L.). 12543

How physiological changes in the spring rape influence the distribution density of the cabbage aphid (Brevicoryne brassicae L.). 12552

Disruptive selection for sternopleural bristle number in Drosophila melanogaster. 12560

A deviant sex ratio in Drosophila melanogaster. 12564

Genic variation in a natural population of Drosophila persimilis. 12571

Karyoecology of simulids (Diptera, Simuliidae). Genome structure of karyopool in Odagmia ornata Mg. with accessory chromosomes. 12574

The ecology of selection in hybrid populations of Tribolium castaneum. 12575

Experiments on selection for developmental rate in Drosophila melanogaster. 12576

Interrelation of stem borer incidence and certain agronomic traits in Jaunpur variety of maize under different levels of nitrogen. 12686

Studies of cereal nematode populations and cereal yields under continuous or intensive culture. 12699

Biological aspects of the carrot cyst nematode, Heterodera carotae Jones, 1950. 12701

Growth rate of two Taenia crassiceps strains. 12828

Season dynamics of the infestation cycle of Cysticercus bovis in naturally infested cattle. 12843

Relation among liver fluke populations in cattle and the results of coprological examinations. 12849

Adaptation of some mammalian helminths in the light of helminthocoenoses. 12850

Distribution, standing crops, and drift of benthic invertebrates in a small Wisconsin stream. 12982

Some peculiarities and numbers in two species of Eurygaster. 13017

A system favoring the evolution of holometabolous development. 13026

Observations on Platypus flavicornis (Coleoptera: Platypodidae) in southern pine beetle infestations. 13033

Some population parameters for the grain mite, Acarus siro. 13039

Population dynamics, growth, feeding and reproduction of Deroceras reticulatum in the Leningrad district. 13041

The influence of colony density and other factors on the number of offspring in Blastophagus piniperda L. (Col., Scolytidae). 13046

Distribution of an endemic population of the gypsy moth. 13054

Bionomics and nest structure of Pogonomyrmex occidentalis (Hymenoptera: Formicidae). 13076

The effect of population structure on the success of insect introductions. 13082

The phenology of linyphiid spiders on heathland in Dorset. 13088

Evolution and population ecology of parasite-host systems. 13110

Fluctuations of Schizolachnus piniradiatae (Davidson) (Aphididae-Homoptera) populations in the East Cantons in 1967. 13125

Minority advantage in interpopulational matings of Drosophila persimilis. 13131

The turnover ratio in production ecology of freshwater invertebrates. 13145

Tabanid larval habitats and population densities in an alluvial area in southern Louisiana. 13146

Laboratory studies on the development period and feeding behavior of Aphidecta obliterata (L.) (Coleoptera: Coccinellidae), an introduced predator of the balsam woolly aphid. 13148

Measurement of effective generation length in Drosophila population cages. 13163

An abnormal sex ratio in Drosophila simulans. 13169

Genetic loads affecting fertility in natural populations of Drosophila pseudoobscura. 13189

Genetic loads affecting fecundity in natural populations of Drosophila pseudoobscura. 13190

An analysis of gene-enzyme variability in natural populations of Drosophila melanogaster and D. simulans. 13194

Influence of selection on the viability of irradiated experimental populations of Drosophila melanogaster. 13204

Stabilizing and disruptive selection on a mutant character in Drosophila. I. The phenotypic variance and its components. 13206

The mode of selection at the polymorphic esterase 6 locus in cage populations of Drosophila melanogaster. 13218

Mosquito studies in northern Wisconsin. I. Larval studies. 13224

Use of growth retardants on chrysanthemums: Effect on pest populations. 13331

The changing population of viable weed seeds in an arable soil. 13357

Residues of organochlorine insecticides in dead birds in the United Kingdom. 13464

On some species of Aedes (Diptera, Culicidae) collected on the Apennines and on the Gargano Mountain. 13542

Distribution and abundance of Hylotrupes bajulus L. (Col., Cerambycide) and Anobium punctatum de Geer (Col., Anobiidae) along the Sogneford in West Norway. 13566

A contribution to the composition and origin of alpine faunas of Coleoptera. 13569

Biology of the trefoil seed chalcid, Bruchophagus kolobovae Fedoseeva (Hymenoptera: Eurytomidae). 13601

Notes on the biology of Ctenophthalmus p. pseudagyrtes Baker in the Northeast (Siphonaptera: Hystrichopsyllidae). 13605

Distribution and ecology of Aedes bicristatus Thurman and Winkler. 13613

The effect of improved rice farming techniques on mosquito populations in central Taiwan. 13614

The use of helicopters in Florida for rapid inspection for salt marsh Aedes larvae. 13637

On the voltinism of Polyommatus icarus Rott. (Lep., Lycaenidae) in Great Britain. 13642

Seasonal abundance of mosquitoes in southeastern Massachusetts. 13650

Further observations on Aedes vexans (Meigen) in Utah. 13655

Establishment and maintenance of a laboratory colony of Aedes nigromaculis (Ludlow) (Diptera: Culicidae) by induced mating. 13656

A history of grasshopper abundance surveys and forecasts of outbreaks in Saskatchewan. 13677

Competition and other factors influencing the population dynamics of Aphis gossypii and Macrosiphoniella sanborni on greenhouse chrysanthemums. 13687

Emergence periods and population fluctuations of the frit fly Oscinella frit L. (Dipt.: Chloropidae) in Norway. 13693

Studies on factors affecting population density and phase of desert locust in India. 13696

Selection for larval growth in Tribolium under two levels of nutrition. 13706

Further evidence for coadaptation in crosses between geographic populations of Drosophila pseudoobscura. 13710

Transitional populations of Drosophila paulistorum. 13715

The effects of population size and selection intensity in selection for a quantitative character in Drosphila. I. Short-term response to selection. 13717

The effects of population size and selection intensity in selection for a quantitative character in Drosphila. II. Long-term response to selection. 13724

The potential role of fishery management in the reduction of Chaobrid midge populations and water quality enhancement. 13730

Mosquito control on Smith Mountain Reservoir by pumped storage water level management. 13735

A subsurface light trap for sampling aquatic insect populations. 13738

Investigations on the influence of crop rotation on the population density of free-living nematodes in connection with potato corky ringspot. II. Occurrence of the virus disease. 13808

Rabbit survey in West Wales (1961-67). 13846

Investigations on the occurrence and behaviour of Ditylenchus destructor in Sweden. 13865

Influence of the environment on development and sex differentiation of root-knot nematodes. I. Effect of infection density, age of host plant and soil temperature. 13874

A method for studying the influence of hydrogen ion concentration on the aggregation of Aphelenchus avenae. 13878

Notes on the host range, ecology and population dynamics of Pratylenchus brachyurus. 13884

The relationships between population increase and population density in plant parasitic nematodes. III. Definition of the terms host, host status and resistance. IV. The influence of external conditions on the regulation of population density. 13893

The relationships between population increase and population density in plant parasitic nematodes. II. Sedentary nematodes. 13894

Effect of population density on the larval coloration and development of larva and pupa in the larger pellucid hawk moth, Cephonodes hylas L. (Lepidoptera' Sphingidae). 14121

Oribatid mite fauna in Sarobetsu Moor in northern Hokkaido, Japan. 14138

A study of the population of insects emerging as adults from Spettigue's Pond at London, Ontario. 14144

The present distribution of Hylotrupes bajulus L. (Col., Cerambycidae) in Norway and its abundance in some districts. 14146

The viability of brown locust eggs (Locustana pardalina (Walker)). 14188

The pheromone of the queen of the Oriental hornet, Vespa orientalis. 14214

Parasitization of social Halictine bees in southern Ontario. 14224

A new method of estimating population size, survivorship, and birth rate from capture-recapture data. 14237

Study on the density of the adult of the brown planthopper Nilaparvata lugens Stal. 14251

Genetic variation in natural island populations of members of the Drosophila nasuta and Drosophila ananassae subgroups. 14296

Effect of silvicultural practices upon arthropod, annelid, and nematode populations in coniferous forest soil. 14317

Soil condition and the violet and white root rot diseases of fruit trees. 14343

A study on the correlation of citrus nematode population with decline of citrus. 14505

Underpopulation in plant parasitic nematodes. 14515

The causes and dynamics of population explosions of M. arvalis: A survey of current French research. 14543

Ecology of lice on sheep. VI. The influence of shearing and solar radiation on populations and transmission of Damalinia ovis. 14629

The maintenance and decline of the large populations of the African migrator locust, Locusta migratoria migratorioides (R. and F.): the role of the photoperiod in determinations of recessions. 14786

On some aspects of the biology of Acheta domesticus Insecta, Orthoptera with reference to the infestation of refuse tips. 14789

The influence of fire on the carabid populations in the Lamto Savannah (Ivory Coast). 14808

Measurement of field populations of Aedes aegypti with the ovitraps in 1968. 14817

The phenology of Pharoscymnus spp. and Chilocorus bipustulatus L. (Coccinellidae) in date palm plantations in Israel. 14834

The influence of citricultural practices on the composition of soil Acari and Collembola populations. 14861

Population dynamics of rice stink-bug (Leptocorisa varicornis Fabr.) in relation to weather factors. 14879

Possible courses for the disappearance of malaria in the Netherlands. 14909

Preference of the leaf-hopper Empoasca kerri Pruthi (Homoptera: Jassidae) to pigeon pea (Cajanus cajan (L.) Millsp.) plants infected with sterility mosaic virus. 15012

Population of Myzus persicae Sulz. in potato crop at Patna. 15021

Influence of soil-treatment and application of herbicide on the soil-fauna in fruit-cultures. 15047

Experiments on the behavior of Monolinuron III. Influence on the biological activity of soil in comparison with other soil herbicides. 15050

Mechanisms of population homeostasis in Anagasta ecosystems. 15364

Remarks on the ultrastructure of the ventral gland in Locusta migratoria L. (Orthoptera) in dense populations. 15381

Interactions between larvae of Aedes aegypti (L.)and Culex pipiens L. in mixed experimental populations. 15410

Research on cranefly populations. The effect of certain ecological factors on Tipula paludosa Meig. 15424

Japanese encephalitis virus in Taiwan: Preliminary evidence for Culex annulus Theob. as a vector. 15443

Seasonal distribution of mosquitoes of Hancock County, Mississippi, 1964--1968.
15445

Shallot aphid in south-east England.
15644

The reaction of different Drosophila populations to treatment with pesticides.
15671

Chemical control of nematodes in sugarcane.
15694

Some chronic effects of diuron on bluegills.
15723

Epidemiology of western encephalitis in Alberta: Response of natural populations of mosquitoes to avian host.
15816

DDT residue persistence in red-backed salamanders in a natural environment.
15847

POPULATION STATISTICS
Making tests by radioactive phosphorous P32 for the absolute estimations of larval populations of culicids (Diptera-Culicidae).
14869

POPULUS
An interesting case of adaptation to various hosts on the part of an egg parasite.
9985

Phellinus igniarius.
10216

Results of three years of the control of Marssonina brunnea in poplars.
10626

Basic tests concerning the control of Marssonina hrunnea in poplars.
10631

Oviposition characteristics and early larvae mortality of Saperda inornata and Oberea schaumii in Michigan aspen.
11281

Etiology of some bacterial diseases of poplar in Poland. I. Bacteriosis caused by Pseudomonas Migula and Erwinia Winslow.
13246

Second investigation on the distribution of Marssonina brunnea (Ell. et Ev.) P. magn. in Central and Southern Italy.
13271

The use of cidial to control certain poplar borers.
13302

The effect of short heat treatment on the susceptibility of poplar leaves to rust infection.
13823

Nectria galligena and Ceratocystis fimbriata cankers of aspen in Minnesota.
14965

POPULUS DELTOIDES
Comparison of systemic insecticides by dip treatments for control of the cottonwood leaf beetle.
9436

Reactions of poplars to infection by Septoria musiva and Diplodia tumefaciens and to injury by frost in Manitoba and Saskatchewan.
13296

POPULUS FREMONTII
Unnamed and little-known insects attacking cottonwood in southern California.
12667

POPULUS NIGRA
Determination of aflatoxins in food by absorption spectrometry.
15874

POPULUS TREMULOIDES
The role of glucose in stimulating germination of Fomes igniarius var. populinus basidiospores.
8971

Some observations on Anthix puta (Grote and Robinson) (Lepidopterai Noctuidae) found on aspens in the Province of Quebec.
13324

PORCINE ENTEROVIRUSES
Failure of chicken antisera against porcine enterovirus strain V13 to neutralize at low dilutions.
9070

Investigations on the viruses of the Orphan type occurring in pigs in Poland. VI. Serological comparison of pig enteroviruses L1, R3, R16, R24, R36, R59 and C, and of the viruses of human origin REO (ECHO10), AD2, ECHO1 and ECHO2.
12148

PORIA SUBACIDA
Biochemistry of lignin.
12276

PORIA WEIRII
Occurrence of fungi antagonistic to Poria weirii in a Douglas-fir forest soil in western Oregon.
11491

Factors affecting survival of Poria weirii in small buried cubes of Douglas-fir heartwood.
14978

PORK
Identification of hog-cholera virus in frozen pork imported from China.
14556

PORPHYRINS
Degradation of organochlorine pesticides with special reference to 1,1-bis(4-Chlorophenyl)-2, 2-dichloroethylene. (abstract).
9850

The influence of phosphate on the phytotoxicity of 3-amino-1,2,4-triazole.
13497

PORROCAECUM
Possible effects of the harbour seal bounty on codworm infestations of Atlantic cod in the Gulf of St. Lawrence, the Strait of Belle Isle, and the Labrador Sea.
9136

PORTHETRIA
Aerial spray tests against gypsy moth. Porthetria dispar in New York.
9004

PORTHETRIA DISPAR
New ultracytological findings in insect nuclear polyhedroses.
8152

The application of a polyhedral nuclear virus for the control of Lymantria dispar L. larvae.
8358

Some consequences of irradiating the gypsy moth eggs with radioactive cobalt 60.
9491

Laboratory and field experiments on the effectiveness of purified and non-purified nuclear polyhedral virus of Lymantria dispar L..
10061

Symposium on the principles of the application of microbiological preparations in nature.
10249

The gypsy moth, Porthetria dispar L., a threat to Ontario horticulture and forestry.
10716

Study of the hemolymph proteins of the gypsy moth (Lymantria dispar L.) by paper and starch gel electrophoresis. Results in normal animals and those exposed to various experimental conditions.
11326

Molecular organization in the polyhedra of Porthetria dispar nuclear-polyhedrosis.
11812

Distribution of an endemic population of the gypsy moth.
13054

Survey of species and number of gypsy moth egg parasites in some localities of Yugoslavia.
13072

A serological comparison of some iridescent non-occluded insect viruses.
14193

Development of the virus with inclusion bodies, of the Lepidoptera Lymantria dispar in cell cultures.
14275

POTAMOGETON
A survey of the chemical composition of Potamdgeton and Myriophyllum in New Jersey.
10448

POTAMOGETON CRISPUS
Translocation patterns of simazine in Potamogeton crispus I.
8591

Eradication of curlyleaf pondweed from mansion pond. (Abstract).
10782

POTAMOGETON FOLIOSUS
Submersed aquatic weed control in an irrigation system with acrolein. (Abstract).
10770

POTAMOGETON PECTINATUS
Submersed aquatic weed control in an irrigation system with acrolein. (Abstract).
10770

Response of sago pondweed to periodic removal of topgrowth.
12735

POTAMOGETON PERFOLIATUS
The proliferation of aquatic plants in Lake Trasimeno and its consequences on the diffusion of Phytochironomus severini Goetgh.
9367

POTASSIUM
The influence of nutrition on susceptibility of peach foilage to water congestion and infection by Xanthomonas pruni.
8972

Fight stalk rot with right fertility.
8978

Serum enzyme and serum electrolyte values of lambs fed a magnesium-deficient ration.
9085

Retention of intra-cellular potassium by the housefly.
10113

Effects of fertilization schedules on flower production, keeping quality, disease susceptibility, and chemical composition at different growth stages of Chrysanthemum morifolium.
10707

Effect of fertilizers on the reproduction of Tetranychus telarius (L.), Myzus persicae (Sulz.) and Acyrthosiphon pisum Harris.
11338

The use of the hemolytic activity of Newcastle disease virus as a means of strain typing.
11619

Calcium, potassium, and sodium content of forest floor arthropods.
11874

Movement of potassium and sodium across the midgut epithelium of the American cockroach.
11876

Blossom-end rot of 'Chico' and 'Chico Grande' tomatoes.
11973

Yellow virus effects on macro- and micro-elements in 'Montmorency' sour cherry leaves.
11989

Balances of Nat and Kt in normal and bluecomb diseased turkeys.
12132

Enhanced recovery of Salmonella montevideo from onion powder by the addition of potassium sulfite to lactose broth.
13381

Influence of environment on development and sex differentiation of root-knot nematodes. II. Effect of host nutrition.
13873

Nutritional effects connected with sheepnosing, a disorder of grapefruit. (Abstract).
14475

Effect of bovine coccidiosis on blood serum sodium and potassium levels of calves.
14567

The effect of ZnSO4 on the chemical composition of maize leaves.
15291

POTASSIUM AZIDE
Selection for resistance and chemical control of Rhizoctonia root rot disease of sugarbeets.
11931

POTASSIUM CHLORIDE

KCl-induced spreading depression and ventilation in the cockroach. 10108

POTASSIUM GIBBERELLATE

Interaction of Alar and gibberellin on growth and flowering of the apple. 10987

Growth regulator studies on soybeans, sweetclover, and alfalfa. 13488

POTASSIUM HYDROXIDE

Rhynchosciara baschanti (Diptera, Nematocera, Sciaridae), a new Brazilian species. 9265

POTASSIUM NITRATE

Effect of nitrogenous materials on the uptake of triazine herbicides. 10298

Seed dormancy and germination in ecotypes of johnsongrass. 10309

Photocontrol of rough cinquefoil seed germination and its enhancement by temperature manipulation and KNO3. 10451

POTASSIUM PERMANGANATE

Rhizoctonia leaf rot of colocasia in India. 10188

POTASSIUM SULFATE

A second three year period of the fight against Botrytis in the vineyards of friuli. 10630

POTATOES

Save your potato crop from fungal and bacterial diseases. 8286

First observations on the resistance of a hybrid potato variety to some Italian populations of Heterodera rostochiensis Woll. 8381

The control of wild radish in Katahdin potatoes (1967). 8398

Pre-harvest use of chemicals in potato production. 8403

Time of application of EPTC for nutgrass control in potatoes. 8421

Potato vine killing in Maine - 1966. 8425

Weed control in white potatoes with preemergence herbicides. 8437

Weed and crop responses to herbicides applied with various cultural practices and at different stages of potato growth. 8441

Analysis of potato for residue of C-3126 and of squash for residue of prometryne. 8544

Alate aphids trapped over 8 years at two sites in Canterbury, New Zealand. 8798

Comparative production of pheromone by the California red scale reared on lemons and potatoes. 8841

An hypothesis for selection of strains of potato leaf roll virus by passage through Physalis floridana. 8940

Are herbicides doing their job . 9035

Notice of filing of petition regarding pesticide chemicals. 9150

The breeding of Planococcus citri (Homoptera: Pseudococcidae) on sprouting potato. 9333

On Cryptolaemus montrouzieri Muls. (Morphobiological observations). 9426

Estimated food consumption by the Colorado beetle (Leptinotarsa decemlineata Say) under conditions of natural reduction. 9489

Potato blackleg and tuber soft rot. 9566

Susceptibility of potato varieties to powdery scab. (Spongospora subterranea(Wallr.) John). 9571

Determination of the critical injury threshold for potato blight (Phytophthora infestans). 9588

Investigations on the susceptibility of potato tubers to Fusarium caeruleum (Lib.) Sacc., the fungus causing dry rot. 9602

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 2-ethylamino-4-isopropylamino-6-methylthio-s-triazine. 9795

Elements for the differentiated application of quarantine and control measures of potato canker. 10221

1967 pre-emergence weed control in potatoes on Long Island. 10289

Absorption and penetration of picloram in potato tuber discs. 10308

Cell physiology investigations of the action of new triazine derivitives on petiole epidermis of Solanum tuberosum L. 10431

General breeding, breeding for resistance to blight and potato root eelworm. 10599

Comparison of fungicides for potato blight. 10613

Potato spindle tuber virus: A plant virus with properties of a free nucleic acid. 10640

Time of chemical haulm destruction. 10644

Tests of the control of potato mildew in the Trentino region. 10647

Plant pathology. 10672

Effects of lime on potato blight. 10690

Investigations on the susceptibility of some potato varieties to infection by Phytophthora infestans (Mont.) de Bary when using staggered planting dates. 10708

Tuber rot eelworm, (Ditylenchus destructor). 10744

Potato cyst eelworm, (Heterodera rostochiensis). 10746

Problems of the use of herbicides in potato cultures. 10771

The activity of proteinase in potato tissues affected by Pectobacterium phytophthorum. 10886

Ultrastructure of potato and Datura stramonium plant cells infected with potato virus X. 11480

Chemical control of the white potato grub Premnotrypes vorax (Hustache). 11548

Release of hydrolytic enzymes from cytoplasmic particles of Solanum tuber tissues during infection by tuber-rotting fungi. 11698

Control of blight diseases of potato in West Bengal Plains by various spray fungicides. 11990

The disruption of lysosome-like particles of Solanum tuberosum cells during infection by Phytophthora erythroseptica Pethybr. 12011

Effect of tannic acid and ellagic acid on the infectivity of potato virus X in tissue culture. 12038

Evaluation of Terraclor and Terraclor Super-X for the control of rhizoctonia on potato in British Columbia. 12040

Changes in a Heterodera rostochiensis population through the growing season. 12451

Organic manuring for potato scab control and its relation to soil manganese. 12652

Controlling late blight of potato with some fungicides. 12654

Laboratory and field tests in 1966--67 on chemical control of wireworms (Agriotes spp.). 12671

Entomology. 12688

Assessment of the damage caused to potatoes by potatoes cyst eelworm, Heterodera rostochiensis Woll.. 12696

Identification of ethylene in gibberellic-acid-treated potatoes. 12904

Further investigations on an abnormality of potato tubers. 13280

Control of late blight of potato with maneb in Nilgiri hills. 13750

Breeding for disease resistance in the potato. 13765

Investigations on the influence of crop rotation on the population density of free-living nematodes in connection with potato corky ringspot. II. Occurrence of the virus disease. 13808

The significance in the diagnosis of virus diseases of the length and affinity for dyes of sieve tubes in healthy and virus-infected potato tubers. 13811

Investigations on the occurrence and behaviour of Ditylenchus destructor in Sweden. 13865

Notes on the host range, ecology and population dynamics of Pratylenchus brachyurus. 13884

A simplified method for testing infestivity of Heterodera rostochiensis. 13899

Weed control in potatoes. 13919

A decade of seed potato inspection at Madras Port. 14117

Ultrastructure of the ileum of the European corn borer, Ostrinia nubilalis. 14207

A new contribution to the study of Leafhopper fauna (Homoptera, Auchenorrhyncha). 14270

Effects of N-dimethylamino succinamic acid on the size of potatoes. (Abstract). 14311

Effects of CIPC applications to individual eyes of potato tubers on type and pattern of sprout development. 14320

Importance of industry and labor to plant care in farm management. 14331

Verticillium spp. and associated fungi from certified potato seed tubers. 14346

Ten years of investigations with potato virus in Hannover. 14347

Vegetable dry rot and phytoprog- service in North-Hanover 1968. 14380

Isolation of rishitin from tubers of interspecific potato varieties containing different late-blight resistance genes. 14443

Virus A as a cause of streak on secondary infected eyestecklings of the potato. 14471

The effect of cycloheximide on the resistance of potato tuber discs to invasion by a fluorescent Pseudomonas sp. 14477

Factors affecting the infestation of aphids on potato plants. 14481

Improved method for weed control in potatoes on extremely marshy soil. (Test experiences in upper Bavaria 1965-67). 14528

Potato wart in Sweden and National measures for its control. 14707

A further field experiment regarding the effect of fentin acetate, maneb and copper oxychloride fungicides on the population density of the Colorado beetle (Leptinotarsa decemlineata Say.). 14858

A selective medium for isolation of Helicobasidium mompa Tanaka. 14917

Control of potato blight by means of spraying machinery used on the ground, airplanes and helicopters. 14951

Effect of buffer salt and H-ion concentration on potato virus X infection on Capsicum pendulum Willd.. 14976

Characteristic of development and noxiousness of the most important diseases and pests of potatoes and sugar beets in the year 1967 in Poland and their forecast for 1968. 14980

Experiments on the effect of sludge compost on the wart disease of potatoes. 14986

Fungicidal control of late blight of potato in the Nilgiris. 14996

Population of Myzus persicae Sulz. in potato crop at Patna. 15021

Weed control in horticultural crops: Vegetables; fruit. 15092

Studies on some chlorinated hydrocarbon residues in potato tubers harvested in 1965--1966. 15249

Studies upon the residues of di-systone in potato tubers and some vegetables. 15259

Efficiency of the serological micro-method applied to determination of the soundness of potato seedings. 15466

The current status of the knowledge of the X group of potato viruses. 15476

Stem canker. I. Observations on knobby second growth. 15478

Physiological diseases in potatoes (Solanum tuberosum L.). I. Observations on knobby second growth. 15479

Cross protection test with four strains of potato virus Y in Nicotiana tabacum L. cv. Samsun. 15523

Stabilization of purified potato virus X by dextran T-10 during lyophilization. 15526

Purification and electron microscopy of potato leafroll virus. 15531

Research on potato viruses in India. 15551

Production of disease-free seed potatoes in the Indo-Gangetic plains. 15552

Investigation into the influence of day length on the reproduction of potato-X and tobacco mosaic virus in Solanaceae of differing photoperiodic sensitivity. 15579

Analyticial restraint of research on the respiratory metabolism of infectious virus on healthy potato nodules and sprouts. 15580

Note on the migration rate of the virus (S) from the potato leaves to the tubers. 15590

Further experiments on the glass tube method to control degeneration of potatoes. 15593

Identification and determination of organomercurial fungicide residues by thin-layer and gas chromatography. 15594

Comparison of some potato witches' broom virus from Lower Saxony with European viruses of thes group. 15602

Properties and nature of inhibitors of potato virus X in four medicinal plant extracts. 15603

Investigation of the infection of potato nematode (Heterodera rostochiensis Wollenweber) cysts by three insect pathogenic fungi. 15687

The effects of infection by Heterodera rostochiensis and Rhizoctonia solani on development and yield of potatoes in pots. 15689

POTENTILLA

Photocontrol of rough cinquefoil seed germination and its enhancement by temperature manipulation and KNO3. 10451

POTENTIOMETRY

The potentiation between thanite and arprocarb in their action on houseflies. 12464

POULTRY

RNA synthesis in chick embryo cells infected with defferent strains of NDV. 8449

Automated determination of zoalene in feeds. 8452

The development of lesions in vitamin A-deficient adult fowl. 8458

Attempt to detect fowl leukemia virus in living virus vaccines prepared in eggs. 8465

Prevalence of salmonellae in Virginia poultry flocks and in feed. 8468

Enhancement and inhibition of avian sarcoma viruses by polycations and polyanions. 8484

Malathion-induced teratisms in the developing chick. 8564

Mycoplasma infections with emphasis on the control of M. gallisepticum. 9061

The trend in the evolution of the poultry vaccines and the channels of administration. 9104

Preliminary observations on possible synergism between infectious laryngotracheitis virus and Hemophilus gallinarum. 9732

The oral toxicity of dieldrin to the crowned guinea-fowl, Numida meleagris (L.). 9823

The subgenus Persicargas (Ixodoidea, Argasidae, Argas). 7. A. (P.) walkerae, new species, a parasite of domestic fowl in southern Africa. 9908

Notice of withdrawal of petition for food additive estradiol monopalmitate. 10874

Muscular dystrophy in the Cornish chicken. (Abstract). 10903

Notice of filing of petition regarding pesticide chemicals. 10930

Arthropod prepators of immature diptera developing in poultry droppings in northern California. Part I. Determination, seasonal abundance and natural cohabitation with prey. 11366

Further studies on respiratory infections of poultry in Egypt. 11586

Diseases of animals. 11610

Interstate transportation of animals and poultry. Scabies in sheep. 12116

Fly control in cage layer houses. 12813

The specificity of helminths from an ecological aspect. 12857

Dry ashing method for the determination of total arsenic in poultry tissues. 13450

Lebanon. 14549

Histopathologic and hematologic changes in moribund stages of chicks infected with T-virus. 14600

What the sanitarian should know about Staphylococci and salmonellae in non-dairy products. Ii. Salmonellae. 14649

Livestock and poultry insects. 15197

Residues of chlortetracycline in the tissues of poultry after additive feeding with this antibiotic substance. 15245

Pesticides residues control. 15247

A combination of poultry-raising with mulberry-tree-growing and sericulture. 15362

Interstate transportation of animals and poultry. cysticercosis. revocation of regulations. 15764

Interstate transportation of animals and poultry. Duck virus enteritis (duck plague). Approved source flocks. 15765

Erosion and its subsequent lesion in fowl air sacs. 15777

Notice of filing of petition for food additives carbarsone (not U.S.P.), zoalene, procaine penicillin, bacitracin methylene disalicylate, zinc bacitracin. 15781

Livestock and poultry insects. 15812

Interstate transportation of animals and poultry. Cysticrosis. Change in areas quarantined. 15818

Experimental studies on sulfadimethoxine in fowls. II. Plasma concentration in hens and chicks given a diet or drinking water containing the sulfa drug. 15883

POULTRY DISEASES

On the merit of simple pricking with R2B (Mukteswar strain) for effective vaccination against New Castle (Ranikhet) disease. 9092

Control of chronic respiratory disease by Spiramycin antibiotic therapy. 9103

The trend in the evolution of the poultry vaccines and the channels of administration. 9104

(R2B) the Mukteswar virus vaccine and its characters. 9105

Evaluation of techniques used in studies on efficacy of anticoccidial drugs in chickens. 9106

Further studies on Leucocytozoon caulleryi in domestic fowls in the Philippines. 9685

Duck plague virus distribution in embryonating chicken and duck eggs. 9692

Influence of host genotype on mortality from lymphoid leukosis and marek's disease after artificial and natural exposure. 9695

Histopathologic changes induced with duck hepatitis virus in the developing chicken embryo. 9705

A report on the use of a serum plate antigen for the detection of antibodies to Mycoplasma gallisepticum. 9725

Attempted experimental induction of amyloidosis in chickens. 9727

Preliminary observations on possible synergism between infectious laryngotracheitis virus and Hemophilus gallinarum. 9732

Comparison of commercial and autogenous bacterins for control of the cranial form of fowl cholera in turkeys. 9739

B parathiphosis of young pheasants. 9744

Characterization of five isolates of Marek's disease. 9745

Problems in raising ducks. 10357

On the environment of Polymorphus minutus (Acanthocephala) in ducks. 10373

Transmission of histomoniasis with male Heterakis gallinarum (Nematoda). 10383

Continuous use of a live vaccine in the drinking water against fowl cholera infection in turkeys. (Abstract). 10845

Drug withdrawal as a tool in coccidiostat floor pen trails. (Abstract). 10848

The carrier state of Erysipelothrix insidiosa in turkeys. (Abstract). 10851

Etiology of avian osteopetrosis. (Abstract). 10855

Number of salmonellae in unpasteurized liquid egg. (Abstract). 10861

Experiences with Mycoplasma synoviae test program. (Abstract). 10884

Avian mycoplasma serotypes. 10887

Prophylactic efficacy of nifursol against histomoniasis in turkeys 4-9, 8-13, and 13-18 weeks of age. (Abstract). 10897

Muscular dystrophy in the Cornish chicken. (Abstract). 10903

Amprol for the prevention of coccidiosis in growing turkeys. 11608

Tribromophenoxybutyric acid as an anthelmintic against poultry tapeworms. 11646

Dapsone and sulfabenz medicated premix. Drugs for veterinary use, drug efficacy study implementation. 11685

Force-feeding turkeys during bluecomb disease. 12131

Balances of Na+ and K+ in normal and bluecomb diseased turkeys. 12132

Babesiosoma anseris (n.sp.) investigated in the goose. Cygnopsis cygnoides in Egypt. 12138

Some haematological studies on Babesiosoma anseris (Haiba and El-Shabrawy, 1967) in the goose, Cygnopsis cygnoides in Egypt. 12139

Effects of six single species of Coccidia on egg production and culling rate of susceptible layers. 12141

Notice of withdrawal of petition for food additive spectinomycin. 12151

Compositions and methods for controlling coccidiosis in poultry with 2,4-disubstituted benzamide. Patent 3,429,969. 12165

Importance of the bursa of Fabricius in resistance to disease. 2. Resistance to two bacterial diseases. 12168

Problem of avian leukosis in Lahore. 12171

A milestone in MG control. 12174

Hypervitaminosis A and bone deformities in turkeys and chickens. (Abstract). 12176

Compositions and a method for the prevention and control of histomoniasis which employ a 5-nitroimidazole and a benzenearsonic acid. Patent 3,439,097. 12179

Chicken helminthoses and prospects of their eradication in the Lower Volga basin. 12202

Pigeon failure as vector of fowl cholera in turkeys. 12752

Intracellular avian infectious bronchitis virus: Detection by fluorescent antibody techniques in nonavian kidney cell cultures. 12757

Ultraviolet inactivation and photoreactivation of avian viruses. 12765

Chicken embryo lethal orphan virus: Virus localization and histopathology in chicken embryos. 12776

Titration of infectious bronchitis virus in tracheas of susceptible and immune chickens. 12777

Serum protein changes in chickens subsequent to infection with Histomonas meleagridis. 12782

Studies on the control of Mycoplasma meleagridis in turkeys. 12784

Experimentally induced Mycoplasma meleagridis infection of turkey reproductive tracts. 12787

Observations of systemic and localized infection associated with the isolation of staphylococcus in chickens in North Carolina. 12789

Two different type A influenza virus infections in turkeys in Wisconsin II. 1968 outbreak. 12793

Salmonella infections of the ovary and peritoneum of chickens. 12794

Immunization of chickens against Newcastle disease with beta-propiolactone-killed virus antigen administered in drinking water. 12797

Autoimmune reactions of chickens infected by Plasmodium gallinaceum. 12801

Chicken-embryo-adapted duck hepatitis virus growth curve in embryonated chicken eggs. 12805

Enhancement and inhibition of avian sarcoma viruses by polycations and polyanions. 12806

Preparation of Mycoplasma synoviae hemagglutination-inhibition. 12807

Diagnosis of spirochaetosis of poultry by slide agglutination and spirochaete immobilization tests. 12808

Immunity response to the infectious bursal agent. 12809

Sanitation of a fowl-flock from the geohelminth Heterakis gallinarum. 12818

Invasion experiments with trichinella spiralis in fowls. 12851

Dibutyltin dilaurate. Drugs for veterinary use, drug efficacy study implementation. 13385

Thieves in the poultry house. 13927

Observations on the occurrence of neoplasms in the domestic birds. 13931

Recent knowledge of avian Osteopetrosis gallinarum (marble bone, thick leg disease). 13947

Lipoic acid requirement of Mycoplasma species avian strain J. 13971

Genetic resistance of chickens to leucosis. 13973

Serological response of chickens infected artificially with Salmonella gallinarum and treated with tikofuran. 13975

A viral disease of goslings. II. Microscopic lesions. 13976

Effects of nutrition and E. colisepticemia on tissue and fluid changes in chicks. (Abstract). 13981

Distinguishing of M. avium and M. bovis infection in poultry by means of simultaneous tuberculination. 13984

A case of rhabdomyoma in poultry. 13992

Neuraminidase in avian influenza A virus antigenically related to that of human A0 and a1 subtypes. 13995

Vaccination against syngamosis in chicks, young pheasants and turkey-poults. 14028

Sex differences in embryonic response to Eimeria tenella infection. 14579

The persistence of drug resistance in strains of Eimeria species in broiler chickens following a change of coccidiostat. 14621

Interaction of Rous sarcoma virus with rat embryo fibroblasts of inbred Lewis strain in vitro. 15191

Some aspects of mange in man and domestic animals. 15196

Gumboro disease in chickens. 15761

Infections coryza of poultry. 15762

Aspergillosis of ducklings. 15776

Eimeria saitamae n. sp.: a new cause of coccidiosis in domestic ducks (Anas platyrhyncha var. domestica).
15820

POULTRY FARM MANAGEMENT
The trend in the evolution of the poultry vaccines and the channels of administration.
9104

Problems in raising ducks.
10357

Sanitation of a fowl-flock from the geohelminth Heterakis gallinarum.
12818

POULTRY HATCHERIES
Five years' research with a hatchery sanitation program in Maine.
14545

POULTRY HOUSES
Thieves in the poultry house.
13927

POULTRY INDUSTRY
Five years' research with a hatchery sanitation program in Maine.
14545

POULTRY PRODUCTS
Some thoughts concerning the salmonella problem.
9781

The bacteriological supervision of egg production in the Federal Republic of Germany.
9862

Increasing egg production in poultry by administering poultry feeding thiamine derivatives and poultry feed compositions containing said derivatives. Patent 3,439,095.
12114

Salmonellae associated with further-processed turkey products.
13429

POWASSAN VIRUS
Arbovirus focus in the east Kootenays. (abstract).
9730

POWDERY MILDEW
Powdery mildew of hydrangeas.
8303

Effects of the fungus Erysiphe graminis f. sp. hordei Marchal on the transpiration of barley.
8979

Control of powdery mildew with nitronaphthonitriles. Patent 3,432,601.
9587

Six powdery mildews from Jammu and Kashmir State.
9590

Alterations of the host wall surrounding the infection peg of powdery mildew fungi.
9837

Interaction between chilli mosaic and powdery mildew in tobacco.
10176

Comparison between products effective against both powdery mildew and oidium.
10641

Powdery mildew of the grapevine.
11939

Inheritance of resistance to powdery mildew in the cultivated strawberry.
11981

Cucumber diseases.
12000

Bunch grape diseases.
12001

Powdery mildew of strawberries.
12014

A new systemic fungicide.
12605

Systemic activity of benzimidazoles as soil drenches against powdery mildew of apple and cherry.
12612

Protection of apples against diseases and pests, and the value of some pesticides.
13747

Relationships between boron toxicity and resistance to two types of crown blight and to powdery mildew in muskmelon.
13753

Studies on powdery mildews affecting two umbelliferous plants.
13771

The effects of ligaturing Galleria mellonella larvae on total haemocyte counts and on mitotic indices among haemocytes.
14218

A system for screening of rare events in genes of Drosophila melanogaster.
14289

An electron microscopic observation of the surface structure of conidia of Erysiphe graminis hordei.
14393

Breeding for disease resistance and yield improvement in flue-Cured tobacco.
14394

Control of powdery mildew of cucurbits with systemic and nonsystemic fungicides.
14428

Powdery mildew of rubber in Papua.
14449

Changes in the reaction to powdery mildew of certain barley cultivars.
15493

POX
Localization and migration of plum pox virus in plum trees.
15600

POXVIRUSES
A contribution to the knowledge of speed of expansion of plum pox virus in natural conditions.
13264

Bovine virus diarrhea in Italy. II. Reproduction of the disease.
14554

PRATYLENCHUS
Eelworms-a progress report on a few more groups found in North-East Indian tea soils.
9025

Study of nematodes causers of root spot-Pratylenchus spp.
9657

Susceptibility of two citrus rootstocks to Pratylenchus spp.
11551

Observations on meadow nematodes (Pratylenchus spp.) and their relation to declines of citrus in Florida.
12702

The association of root-lesion nematodes with reduced growth of tobacco in the Nelson district.
13867

Susceptibility of two citrus rootstocks to Pratylenchus spp.
13879

The relationships between population increase and population density in plant parasitic nematodes. III. Definition of the terms host, host status and resistance. IV. The influence of external conditions on the regulation of population density.
13893

Studies of plant and soil nematodes. 14. Five new species of Tylenchorhynchus Cobb, Paratylenchus Micoletzky, Morulaimus Sauer and Hemicycliophora De Man (Nematoda: Tylenchoidea.
15682

PRATYLENCHUS BRACHYURUS
Notes on the host range, ecology and population dynamics of Pratylenchus brachyurus.
13884

Lesion nematode, Pratylenchus brachyurus, attacking Cryptomeria japonica in Singpore.
15681

PRATYLENCHUS COFFEAE
Oxalis acetosella, a new host of the coffee root-lesion nematode in south India.
8387

PRATYLENCHUS CRENATUS
Study of nematodes causers of root spot-Pratylenchus spp.
9657

PRATYLENCHUS NEGLECTUS
Investigations on the migratory root nematode Pratylenchus neglectus on fodder grasses.
9033

Study of nematodes causers of root spot-Pratylenchus spp.
9657

Studies of cereal nematode populations and cereal yields under continuous or intensive culture.
12699

PRATYLENCHUS PENETRANS
Phytopathogenic nematodes in Hessen forest tree nurseries.
10758

Analysis of total lipids and fatty acids of plant-parasitic nematodes and host tissues.
11553

Influence of growing marigolds, weeds, two cover crops and fumigation on subsequent populations of parasitic nematodes and plant growth.
11555

Influence of growing marigolds, weeds, two cover crops and fumigation on subsequent populations of parasitic nematodes and plant growth.
13889

Establishing overall plant protection.
15685

PRATYLENCHUS THORNEI
Study of nematodes causers of root spot-Pratylenchus spp.
9657

PRATYLENCHUS VULNUS
Tissue culture and maintenance of the root-lesion nematode, Pratylenchus vulnus.
13888

PRAYS CITRI
Tests on the control of Prays citri Mill. by means of Bacillus thuringiensis. (preliminary report).
9389

New predaceous insects of Pray citri Mill. (citrus flower moth) found in Sicily.
9425

PRAYS OLEELUS
Plant protection problems in Tunesia.
15667

PRECIPITATION
Second year trials of Peronospora control on onions. (Peronospora schleideni Unger).
10653

Effect of winter precipitation and temperature on overwintering eggs of Northern and Western corn rootworms.
12432

Pinus sabiniana and Pinus muricata as hosts for Diplodia pinea in California.
13786

PRECIPITIN TEST
Precipitins in Toxocara canis infections in rabbits.
10914

Application of the agar gel technique in the diagnosis of infectious bovine rhinotracheitis.
12133

The evaluation of fractionated antigens of Trichinella spiralis in complement fixation and ring precipitation tests.
12867

Haemagglutination test to detect tobacco mosaic virus antigens.
14985

Precipitating antibodies to infection with Fasciola hepatica in rabbits. Geometridae). (Part VIII.).
15830

PREDACEOUS FUNGI
Investigations of nematode-destroying fungi in central Iowa.
11561

PREDACEOUS INSECTS

A new species of Tetrastichus Haliday, 1844 (Hymenoptera: Eulophidae) parasitic nymphs of Payrocephala calodendri Moran (Homoptera: Psyllidae). 8026

Survey and distribution of common lady beetles (Col. Coccinellidae) on date palm trees in Israel. 8042

Paraholaspis ovivora n. sp. (Hym., Torymidae), a parasite of the eggs of the buprestid Sterapis speciosa Klug.. 8055

A new species of Pseudoscymnus Chapin (Col., Coccinellidae) predaceous on scale insects in West Pakistan. 8072

The old house borer in Eastern States. 8076

The response of a predator, Hypoaspis aculeifer (Canestrini) (Acarina:Laelapidae), to two species of prey. 8081

Insect parasite complex herseem armyworm Spodoptera exigua (Hubn.) (Lepidoptera, Noctuidae). 8082

The comparative biologies of two hymenopterous parasites of the chaff scale, Parlatoria pergandii. 8123

Impact of pathogens, parasites, and predators on aphids. 8126

Daily and seasonal density of four entomophagous predators on cotton in upper Egypt. 8130

Bionomics and ecology of predaceous Coccinellidae. 8135

Biological and ecological study of the hymenopterous parasites of the eggs of cereal bugs. 8182

Air swallowing- an effective protection against drowning in larvae of Epistrophe halteata (Syrphidae Dipt.). 8185

Influence of food on the fecundity of Chrysopa carnea Stephens (Neuroptera, Chrysopidae). 8196

Predators and parasites of Aphytis (Hym., Aphelinidae). 8206

Mechanical and physiological defense reactions of an aphid species (Aphididae) against ichneumonid wasps (Hymenoptera). 8213

Biological studies on Amblyseius aleyrodis a predator of the cotton whitefly (Acarina, Phytoseiidae). 8338

The natural enemies of the chaff scale, Parlatoria pergandii Comstock, in Israel. 8344

The possible role of biotic factors in an integrated program for rice stem borer control. 8364

Fifty years of research on the pink bollworm in the United States. 8365

Impact of parasites, predators, and diseases on rice pests. 8380

The hunt of the wasps at Jackson Hole. 8627

Predators pitted against cereal leaf beetle. 8696

The natural control of the apple-grass aphid, Rhopalosiphum insertum, with remarks on the control of apple aphids in the Netherlands in general. 8752

Notes on biology of clerid beetles that attack Ips spp. in upper South Carolina. 8783

On the bionomics of Lyctocoris beneficus (Hiura) and Xylocoris galactinus (Fieber) (Anthocoridae, Heteroptera). 9003

Effect of insecticides on ant and spider populations in Louisiana sugarcane fields. 9015

Comparative toxicites of insecticides to house fly larvae and Macrocheles muscaedomestica, a mite predator of the house fly. 9168

Observations on the parasites (Hymenoptera, Diptera) of Trichotaphe levisella Fyles (Gelechiidae, Lepidoptera) with nottes on the host. 9342

The enemies of the predaceous mites as a reducing factor of spider mites. 9369

New or little known feeding habits in Empididae (Diptera). 9370

Parasitic changing in hosts and its ecological importance for the parasite. 9385

Artificial biological control of the olive fruit fly (Dacus oleae Gmel.) by means of Opius concolor Sz. siculus Mon. on the Lipari Islands (Sicily). July-September 1965. 9429

Artificial biological control of Dacus oleae Gmel. by means of Opius concolor Szep. siculus Mon. 9430

Psallus ambiguus (Fall.) (Heteroptera, Miridae). Part II, Nutrition and role in the biocenosis of orchards. 9438

Arthropod predators of immature diptera developing in poultry droppings in northern California. Part II. Laboratory studies on feeding behavior and predation potential of selected species. 9448

Preliminary observations on the biology of Amblyseius tardi Lomb. (Acarina-Phytoseiidae) a predator of Tetranychus urticae Koch. 9455

On the transplantation of ants of the group Formica rufa in Italy. 9461

Aspects of the relationship between burying beetles, Necrophorus ssp. and the mite, Poecilochirus necrophori Vitz. 9476

Population studies on two species of Psyllidae (Homoptera, Sternorhyncha) on broom (Sarothamnus scoparius (L.) Wimmer). 9495

Life history and predatory importance of the striped lynx spider (Araneida: Oxyopidae). 9499

Bionomics of Androlaelaps casalis (Berlese) (Acarina: Laelapidae) a predator of mite pests of stored cereals. 9778

Scymnus (Sidis) hickei Fursch, as a foe of Pseudococcus citri Risso. 9893

Further records of the distribution of Petrohia latens (Muller) (Acarina: Tetranychidae), a pest of wheat in India together with the description of a new species of predatory mites on the same. 9920

Notes on the biology of Diatraeophaga striatalis Townsend, tachinid parasite of Proceras sacchariphagus Boj. 9970

Wasps attacking other insects. 9979

An interesting case of adaptation to various hosts on the part of an egg parasite. 9985

The Ephippigerinae (Orthoptera, Tettigoniidae) occasional but important predators of Thaumetopoea pityocampa Schiff. 9996

The insect predators of the pupal stage of the winter moth, Operophtera brumata (L.) (Lepidoptera: Hydriomenidae). 10009

The effect of pupal predators on a population of winter moth, Operophtera brumata (L.) (Hydriomenidae). 10010

Insect parasites of the green peach aphid, Myzus persicae Sulz. and their control potential. 10059

Eretmocerus corni Hald. (Hym., Aphelinidae), a parasite of Siphoninus phillyreae Halid. (Hom., Aleyrodidae). 10070

Biology and description of immature stages of Orthacheta hirtipes, a predator of Cordilura spp. 10080

The predatory and reproductive behaviour of Rhinocoris bicolor and R. tropicus (Hemiptera: Reduviidae). 10085

A new record, Dorylus labiatus Shuck. (Hymenoptera: Formicidae) as a predator of Microtermes mycophagus Desn. (Isoptera: Termitidae). 10112

The effect of Perillus bioculatus (Fahr.) (Het., Pentatomidae) on the population dynamics of the potato beetle. 10124

Contribution to the knowledge of the natural enemies of Bissetia steniellus (Hampson) (Lep.: Pyralidae). 10254

The effect of removal of arthropod predators on an infestation of Brevicoryne brassicae (Hemiptera, Aphididae) on brussels sprouts. 10260

Cockchafers. 10518

Bands on peach trees as shelters for predators of the green peach aphid. 10566

A model outbreak of the mite Tetranychus mcdanieli McGregor in Ontario. 10721

Studies on the incidence of mosquitoes in the food of Tetragnatha montana Simon and its food activity in the natural habitat. 11248

Prey and predator density and their reactions in the process of mosquito reduction by spiders in field experiments. 11249

Observations on the nests and behaviour of some Euryglossine bees (Hymenoptera: Colletidae). 11292

The role of spiders in the decrease of damages caused by Acridoidea on meadows - experimental investigations. 11301

The density-related action of aphidophagous insects. 11320

Some regulatory mechanism in populations of Tribolium confusum Duval and Tribolium castaneum Herbst. 11374

A note on Leptomastix nigrocoxalis Comp. as a parasite of Centrococcus insolitus Green. 11376

The campaign against the citrus blackfly. Aleurocanthus woglumi Ashby. 11528

A note on Nephus regularis Sic. (Coccinellidae: Coleoptera) as a predator of Ferrisia virgata Ckll.
11540

Notes on some spider hunting wasps from the Netherlands (Hymenoptera, Pompilidae).
11719

A new pteromalid parasite of the eastern death watch beetle, Hadrobregmus carinatus (Say).
11771

Hormone-mediated nutritional control of sexual behavior in male dung flies.
11815

Ground beetles of the genus Lebia Latreille in Arkansas (Coleoptera: Carabidae): Ecology and geographical distribution.
11827

Influence of meterology upon the nutrition of ladybugs (Coccinellidae).
11833

The influence of spray programs on the fauna of apple orchards in Nova Scotia. XIX. Apple rust mite, Vasates schlechtendali, a food source for predators.
11925

The scales of olive trees occuring in Greece and their entomophagous insects.
12048

Douglas-fir beetle brood densities and infestation trends on a New Mexico study area.
12055

Parasitization of Nabis alternatus by Leucostoma simplex in eastern South Dakota.
12072

A record of natural enemies of Ferrisia virgata Ckll. in Madhya Pradesh (India).
12077

Tabanidae.
12336

A new Japanese species of Trioza from Machilus thunbergii, with descriptions of the immature stages and notes on biology (Hemiptera: Psyllidae).
12369

Cannibalism and predation by aphids.
12409

Agistemus exsertus as a predator of two tetranichid mites.
12448

Life history studies on the predatory mite Agistemus exsertus.
12449

Studies on Nephus regularis (Coleoptera: Coccinellidae) as a predator of the striped mealybug in Madhya Pradesh (India).
12521

Observations on predation by the wasp Anoplius ithaca (Pompilidae) on the wolf spider, Dardosa groenlandica (Lycosidae).
12523

Amphibolus venator (Klug) (Hemiptera-Heteroptera)-a predator on insect pests of stored products.
12546

Notes on insects infesting pine cones in Mississippi.
12681

Protease production by species of Entomophthora.
12969

Leucopis alticeps Czerny as a predator scale insect (Parthenolecanium corni Bouche) and European peach scale (Parthenolecanium persicae F.) in Tadjikistan.
13007

The response of a predator, Hypoaspis aculeifer (Canestrini) (Acarina:Laelapidae), to two species of prey.
13010

Defensive use of a fecal shield by a beetle larva.
13047

Devourers.
13066

The hunting-web of the young spider Pisaura mirabilis.
13079

Arthropoda associated with a nest of the Hawaiian crow.
13135

Laboratory studies on the development period and feeding behavior of Aphidecta obliterata (L.) (Coleoptera: Coccinellidae), an introduced predator of the balsam woolly aphid.
13148

The ground beetle Anisodactylus signatus (Coleoptera, Carabidae)--maize pest in the Rostov district.
13320

Hymenoptera associated with elm bark beetles in Wytham Wood, Berks.
13602

Enemies of Acaridae.
13607

Bioecology of Saissetia oleae Bernard and its biological control.
13837

Observations on the effect of insecticides on coleopterous predators of Erioischia brassicae (Diptera: Anthomyiidae).
13842

Contributions to the study of Eumastacidae of Madagascar (Orthoptera-Eumastacidae). II. Pseudoschmidtiinae: Biological notes and new species.
14735

Biological notes on the genus Tinna Dohrn (Hemiptera, Reduviidae, Emesitae).
14777

A breeding method for Cardiasthetus nazarenus Reuter (Hemipt. Anthocoridae) fed on eggs of Anagasta kuehniella Z. (Lepidopt. Pyralidae).
14810

The phenology of Pharoscymnus spp. and Chilocorus bipustulatus L. (Coccinellidae) in date palm plantations in Israel.
14834

Contribution to the biological study of Xanthandrus comtus Harr. (Diptera, Syrphidae).
14841

Record of Apollodotus praefectus distant (Heteroptera: Miridae), predacious on Stephanitis typicus distant (Heteroptera: Tingidae), a pest of coconut palm.
14848

A literature review of the spruce, western, and 2-year-cycle budworms Choristoneura fumiferana, C. occidentalis, and C. biennis (Lepidoptera: Tortricidae).
14852

Studies on Panonychus ulmi (koch) in Lebanon.
14859

Parasites on the galls of Dasyneura laricis (F. Loew.); Diptera, Itonididae.
14880

Insects associated with citrus in Nigeria.
15004

Croesus septentrionalis L. (Hymenoptera Tenthredinidae) a pest of the alder.
15038

PREDACEOUS MITES
Honey bee pathology.
8079

PREDATORS
Some aspects of assessing efficiency of natural enemies.
9405

Some observations on Hydra americana hymen as a predator of Culex peus Speiser mosquito larvae.
15449

PREDATORY ANIMALS
Mosquito control by predator fish.
13015

PREDATORY BIRDS
Biology of Hyphantria cunea Drury (Lepidoptera: arctiidae in Japan. I. Notes on adult biology with references to the predation by birds.
14627

A literature review of the spruce, western, and 2-year-cycle budworms Choristoneura fumiferana, C. occidentalis, and C. biennis (Lepidoptera: Tortricidae).
14852

PREDNISOLONE
Ataraxoid tablets. Drugs for veterinary use; drug efficacy study implementation.
9680

PREEMERGENCE
The effects of combinations of preemergence herbicides and systemic insecticides on cotton stands and yields.
9196

2-chloro-2',6'-diethyl-N-(methoxymethyl)-acetanilide.
11570

Soil moisture and effectiveness of preemergence herbicides.
12743

The effects of synergized pyrethrins and lindane on pre-emergence mortality of Acanthoscelides obtectus (Say.) (Coleoptera: Bruchidae).
13314

Pre-emergence application of 2,4-D-ester to wheat (Triticum vulgare).
14534

Preemergence herbicides for corn in minnesota.
15075

Evaluation of preemergence herbicides on crop and weed species.
15100

Preemergence herbicides for weed control in corn at several locations in Michigan.
15138

PREGNANCY
Variations in body temperature associated with reproductive state in the female rabbit.
9055

Red blood cell count in relation to reproductive phases in the female rabbit.
9056

Colitis X (exhaustion shock) in a pregnant mare.
9076

Sequence in the abortive and teratogenic effects of locoweed fed to sheep.
9080

Studies on colibacillosis of calves. VII. Advisability of re-vaccination.
9748

Diet consumption, bodyweight change, estrus inhibition and reproductive performance in gilts fed a dithiocarbamoylhydrazine (ICI 33828).
10896

Prevention of abortions in dairy cattle due to a psittacosis-lymphogranuloma venereum (bedsonia) agent by treatment with tetracycline (a field trial).
13934

A study of experimentally induced bovine viral diarrhea-mucosal disease in pregnant cows and their progeny.
15193

PREMNOTRYPES VORAX
Chemical control of the white potato grub Premnotrypes vorax (Hustache).
11548

PREVENTIVE MEDICINE
Oedema disease in pigs.
13370

Gumboro disease in chickens.
15761

Contribution to the knowledge of control of epizootic disease of sheep hoofs.
15778

E. coli gastroenteritis in weaned piglets and attempts at the application of immunoprophylaxis.
15801

PROCAINE PENICILLIN
Cutaneous streptothricosis in a bull.
9113

Notice of filing of petition for food additives carbarsone (not U.S.P.), zoalene, procaine penicillin, bacitracin methylene disalicylate, zinc bacitracin.
15781

PROCERAS INDICUS
Note on Trichogramma japonicum Ashm., an egg parasite of internode-borer (Proceras indicus Kapur) of sugarcane in Madras State.
9649

PROCERAS SACCHARIPHAGUS
Notes on the biology of Diatraeopbaga striatalis Townsend, tachinid parasite of Proceras sacchariphagus Boj.
9970

PROCESSING
Design of honey houses--central and mobile.
14194

PROCTOTRUPOIDEA
Contribution to the study of Hymenoptera Proctotrupoidea (XII). With regard to Ceraphronidae Megaspilinae males with branching antennae.
9275

PRODENIA ERIDANIA
An ultrastructural analysis of microsomal preparations from Musca domestica and Prodenia eridania.
11797

PRODENIA LITURA
Ascorbic acid and unsaturated fatty acids in the nutrition of the Egyptian cotton leafworm, Prodenia litura.
8795

Morphology of the nervous system of adult Prodenia litura.
10064

PRODENIA ORNITHOGALLI
Notes on parasites attacking the yellow-striped armyworm in Oklahoma.
11790

PRODUCTION ECONOMICS
Shell's versatile products Aldrite 4, Dieldrite 1.5 Vaponite 2 formulated for all P.C.O. business.
8613

1968 costs to produce avocados in San Diego County.
12329

The economics of disease control in Hevea.
12646

Repelling pheasants from sprouting corn with a carbamate insecticide.
14337

Control of weed grass.
14525

PRODUCTIVITY
Effect of crinkle-scurf of citrus on tree growth, productivity, and fruit quality.
8312

Manganese supplementation for commercial egg production. (Abstract).
10852

PROGESTERONE
Mammary development in alloxan diabetic rabbits injected with oestrone and progesterone.
9734

PROGESTERONE COMPOUNDS
Reproduction in dogs chronically fed methyl testosterone (MT) or 6-chloro-17-acetoxy progesterone (CAP) with dieldrin. (Abstract).
10891

PROLINE
Effect of DDT on incorporation of C14-labeled glucose into protein and soluble intermediates of nymphal Triatoma infestans.
8743

Drought resistance of winter wheats in relation to their amino acid content.
12280

PROMETONE
A cucumber bioassay test for the soil residues of certain herbicides.
12718

PROMETRYNE
Analysis of potato for residue of C-3126 and of squash for residue of prometryne.
8544

Effects of hydrophilic-lipophilic balance (HBL) of nonionic surfactants on phytotoxicity of linuron and prometryne to carrots. (Abstract).
11045

The adsorption of four herbicides by different types of organic matter and a bentonite clay.
11669

The influence of herbicides upon the antagonism between Bacillus sp. and Pseudomonas phaseoli.
11677

Herbicides and sprinkler irrigation in vegetable crops.
12101

Experiences with the use of herbicides in cabbage cultures. In: collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966.
12105

Soybean mitochondrial response to prometryne and fluometuron.
12731

Possibilities for growing of chick-pea as a solid planted crop by use of herbicides.
13911

Efficacy, persistence and safety range of herbicides in irrigated cotton.
15091

Competition between Coriandrum sativum seedlings and weeds under prometrin application at two different NPK and pH levels.
15137

Results of herbicide application to Coriandrum sativum L. cultures and analysis of herbicidal residues in the fruit.
15243

Response of warm- and cool-season grasses to several herbicides under greenhouse conditions.
15299

Tolerance of cotton to diuron, fluometuron, norea, and prometryne.
15880

PROPANETHIOL, 1-
Extraction and gas-liquid chromatographic determination of vernolate in soil.
10467

PROPANIL
Activation and inactivation of herbicides by higher plants.
9235

Some herbicidal and physiological effects of 3,4-dichloropropionanilde (Stam F-34) on Ammannia baccifera L.
9672

The metabolic fate of propanil. I. (Abstract).
11038

The metabolic fate of propanil, Ii. (Abstract).
11039

Sorption of diuron and propanil to proteins. (Abstract).
11060

The present stage of weed chemical control in rice fields.
11574

Abscission of citrus fruits induced by ethylene-producing chemicals.
12281

Propanil and molinate for control of barnyardgrass in water-seeded rice.
12734

Herbicidal mixture and method of controlling undesirable plant growth therewith. Patent 3,443,927.
12926

Chemical treatment the answer to fruit scald.
14466

Effects of herbicides on rna and protein syntheses.
15887

PROPARGYL 2-BROMODECANOATE
Propargyl 2-bromodecanoate. Patent 3,427,333.
9195

PROPAZINE
Effect of herbicides on the valuations of made tea.
9212

Nursery investigations: Weed control.
11563

Effect of activated carbon on the phytotoxicity of herbicides in a tropical soil.
12709

Effect of soil and climate on herbicide dissipation.
12888

Chemicals that show--crops' co-existence with weeds is not necessary.
14530

Effects of extreme s-triazine concentrations on corn, sorghum, and foxtail.
15286

PROPERTIES
Organophosphorus poisoning. Some properties of avian esterases.
9805

Function and properties in an assembling scent in the Khapra beetle, Trogoderma granarium.
13643

Exocellular deoxyribonuclease I of Penicillium chrysozenum Part I. Partial purification and properties of the enzyme.
14694

PROPHAM
Biological activity and dissipation of IPC and Cipc. (Abstract).
14686

PROPIONIC ACID
Propionic acid better than acetic acid for killing nematodes.
11557

Determining the indole derivatives in the natural material. VII. Fluorimetric determination of the indole-3-acetic acid, indole-3-propionic acid and indole-3-butyric acid.
15460

PROPYL ALCOHOL
Dinitrophenylpropanols having herbicidal properties. Patent 3,444,244.
12923

PROPYL N,N-DIPROPYLTHIOLCARBAMATE
Effects of high rates of trifluralin and vernolate on soybean yield and growth.
10317

PROPYLURE
Suppression of populations of pink bollworms in field cages with traps baited with sex attractant.
13061

PROPYN-1-OL, 2-
Propargyl 2-bromodecanoate. Patent 3,427,333.
9195

PROPYNYL N-PHENYLCARBAMATE
Developmental trends in the chemical control of weeds in beets.
14536

PROSAPIA BICINCTA
Biology of the two-lined spittlebug, Prosapia bicincta, on Florida pastures (Homoptera, Cercopidae).
11268

PROSIMULIUM
Triploidy in natural populations of black flies Prosimulium macropyga Lundstr (Simuliidae, Diptera).
8223

The black flies of Alabama (Diptera: Simuliidae).
12390

The salivary gland chromosomes of Prosimulium multidentatum Twinn and three forms included in Prosimulium magnum (Dyar and Shannon) (Diptera: Simuliidae).
15438

PROSOPIS
Occurrence of plant growth inhibitors in tropical and subtropical vegetation.
9189

Effect of moisture stress on the absorption and transport of herbicides in woody plants. (Abstract).
10974

Comparison of radioisotopic and gas chromatographic methods for measuring absorption and translocation of 2,4,5-T by mesquite. (Abstract).
11015

Role of vegetation in sexual maturation of the desert locust (Schistocerca gregaria Forsk.). 14795

PROSOPIS GLANDULOSA
Honey mesquite stem structure and seasonal growth cycle. (Abstract). 11012

PROSOPIS JULIFLORA
Chemical stimulation of ethylene evolution and bud growth. 10300
Distribution of root-absorbed picloram. 15698
Granular herbicides for woody plant control. 15700

PROSPALTELLA AURANTII
Note on Prospaltella aurantii How. (Hym., Aphelinidae), parasite of Quadraspidiotus pyri Licht. in the Matitime Alps (Hom., Diaspidinae). 9967

PROSPALTELLA PERNICIOSI
Experiences in mass rearing of Prospaltella pernioiosi Tow. in the transformed Stuttgart insectarium. 8167
Note on the efficiency of Prospaltella perniciosi Tow. in France. 8326
Activity of the working groups: Working group on San Jose Scale . 8359
Information gathered in the course of nine years of work with Prospaltella perniciosi Tow., parasite of the San Jose scale (Quadraspidiotus perniciosus Comst.). 8360
Some aspects of biological control of the San Jose scale (Quadraspidiotus perniciosus Comst.) with the help of the aphelinid Prospaltella perniciosi Tow. 8361
Acclimation of Prospaltella perniciosi Tow. in Yugoslavia. 9536

PROSTAGLANDINS
Prostaglandins: Enzymatic analysis. 9687

PROTEIN FIBERS
Characterization of ribosomes isolated from posterior silkgland. 15374

PROTEIN SYNTHESIS
Semliki Forest virus temperature-sensitive mutants. isolation and characterization. 8318
The polypeptides of adenovirus. III. Synthesis in infected cells. 8487
Effect of TMV multiplication on RNA and protein synthesis in tobacco chloroplasts. 8956
Shearing by drug. 9676

PROTEINASES
The activity of proteinase in potato tissues affected by Pectobacterium phytophthorum. 10886
Proteolytic enzymes of the crop fluid from Locusta migratoria L. 11274
Degradation of cellular ribonucleic acid in Newcastle disease virus infected cells. 11599
Proteolytic enzymes in the salivary gland of Chironomus tentans. 12524
Protease production by species of Entomophthora. 12969
Bacterial toxins. 14842

PROTEINS
Biochemistry and taxonomy. 8060
Aggregation of Drosophila embryonic cells and effects of proteolytic enzymes. 8077
Relationship between the proteins of the haemolymph and fat body during development of Pieris brassicae. 8097
Developmental changes in the protein constitution of a mosquito (Armigeres subalbatus) as revealed by disc electrophoresis. 8106
The protein nature of the substance inducing female monogamy in Aedes aegypti. despommier, d d. 8118
Isolation and characterization of the ribosomal proteins of Drosophila melanogaster. 8147
In vitro synthesis of injury protein and a companion protein in organs of prepupa of Galleria mellonella L.. 8156
Degradation of turnip yellow mosaic virus by freezing and thawing in vitro: a new method for studies on the internal organization of the viral components and for isolating native RNA. 8299
On the common protein determinants of Enterobacteriaceae. 8594
On the mechanization of radiosensitization by 5-bromouracil. Studies on 60Co-gamma irradiated phage phi X-174 and its single-stranded infectious DNA. 8599
Cytochemical studies on a coccidian, Chagasella ganapatii from a termite, Odontotermes obesus (Rambur). 8724
Nerve-blocking effect of Bacillus thuringiensis protein toxin. 8734
Effect of DDT on incorporation of C14-labeled glucose into protein and soluble intermediates of nymphal Triatoma infestans. 8743
Female specific protein: Biosynthesis controlled by corpus allatum in Leucophaea maderae. 8750
Immunofluorescence studies on the multiplication of cytoplasmic-polyhedrosis virus of the silkworm, Bombyx mori. 8781
A red, fluorescent protein from silkworm. 8813
The disassociation and reassociation of the proteins of the RNA in the lucerne mosiac virus. 8968
House fly pupae as food for poultry. 9053
The N-terminal amino acid of an avian leukosis group-specific antigen from avian myeloblastosis virus. 9057
Proteins of vesicular stomatitis virus. I. Polyacrylamide gel analysis of viral antigens. 9083
Structural proteins of vesicular stomatitis viruses. 9123
The utilization of the calcium sensitivity test in the investigation of the rennet activity. 9138
Effects of dietary amino acids, salts, and protein starvation on fecundity of the parasitoid Exeristes comstockii (Hymenoptera: Ichneumonidae). 9353
The endocrine control of protein metabolism as related to reproduction in the fleshfly Sarcophaga bullata. 9502
Stable intermediate aggregates formed by the polymerization of barley stripe mosaic virus protein. 9540
Serological study on barley stripe mosaic virus protein polymerization. II. Comparative antigenic analysis of intact virus and some stable protein intermediates. 9541
Serological study on barley stripe mosaic virus protein polymerization. I. Immunodiffusion, immunoelectrophoretic characteristics, and absorption experiments. 9542
Specific inhibition of TMV-RNA synthesis by blasticidin S. 9569
Effect of infection of corn by the fungus Ustilago zeae on the properties of the chlorophyll-protein complex. 9600
Response on lactating cow to corn silage and concentrates of three nitrogen levels with and without urea. 9678
Structural relationships between the RNA of mammary tumor virus and those of other RNA tumor viruses. 9700
Protein in the blood serum of chicks experimentally infected with spirochaetosis. 9701
Cardiovasuclar studies on copper deficient swine. XII. Partial purification of a soluble protein resembling elastin. 9752
Infection structures from rust urediospores: Effect of RNA and protein synthesis inhibitors. 9829
Effect of inhibitors of nucleic acid and protein synthesis on the reappearance of light interruption rhythm in a long-day duckweep, Lemna gibba G3. 9838
Female specific protein: Biosynthesis controlled by corpus allatum in Leucophaea maderae. 10002
Proteins in the spermathecae and haemolymph of the queen bee (Apis mellifica L. var. ligustica Spin.). 10057
A molecular approach to the study of genic heterozygosity in natural populations. IV. Patterns of genic variation in central, marginal and isolated populations of Drosophila pseudoobscura. 10159
Mechanisms of action of herbicides. 10299
Vitamin A metabolism in protein deficiency. 10324
Analytical studies on extracts of Litomosoides carinii. 10341
Studies on amino acid composition of mulberry pyralid fiber. 10539
Immunological response of male cockroaches to injection of Tetrahymena pyriformis. 10559
The distribution of an oil, carbohydrate, and protein food source to members of the imported fire ant colony. 10571
Biochemical composition of plants of Cucurbita foetidissima HBK, and Cucumis melo L. as related to cucumber beetle feeding. 10712
Biochemical studies of plants of Cucurbita pepo L. varieties as related to feeding response of squash bug Anasa tristis DeGeer. 10713
Appearance of Cx-reactive protein in plasma of rabbits with corresponding decrease in liver

catalase following 3-amino1,2,4-triazole administration. (Abstract). 10833

Requirements and functions of vitamin A in ruminants. 10840

Folic acid in high fish meal diets for chicks and poults. 10843

Effects of dietary protein level on acute toxicity and metabolism of heptachlor in the laboratory rat. (Abstract). 10849

Absence of interaction between cyclopropenoid fatty acids and aflatoxin in rats. (Abstract). 10860

The effect of supplements of proteolytic preparations on the growth of suckling pigs. 10876

Effects of dietary protein source upon nutrient balance in the baby pig. (Abstract). 10879

Prevention of leg defects in zinc-deficient chicks by antiarthritic agents. (Abstract). 10881

Estrogenic action of DDT and its analogs. (Abstract). 10949

The effect of 3-amino-1,2,4-triazole on the incorporation of certain amino acids into the soluble protein of bean plants. (Abstract). 10963

Identification of tobacco mosaic coat protein after the injection of tobacco mosaic virus RNA into the common slime mold. (Abstract). 10995

The effect of trifluralin on nucleic acids and protein of corn roots. (Abstract). 11028

Spermidine-RNA complexes in cowpea mosaic virus (CPMV). (Abstract). 11058

Sorption of diuron and propanil to proteins. (Abstract). 11060

Comparison of binding and inhibitory properties of piericidin A and rotenone in submitochondrial particles. (Abstract). 11064

Changes in haemolymph and cuticle proteins during the molting process in the American cockroach. 11273

Study of the hemolymph proteins of the gypsy moth (Lymantria dispar L.) by paper and starch gel electrophoresis. Results in normal animals and those exposed to various experimental conditions. 11326

Protein synthesis and nucleic acid metabolism in the fat body of the larva of the blowfly, Calliphora erythrocephala. 11372

Toxins from the entomogenous fungus Metarrhizium anisopliae: Isolation of destruxins from submerged cultures. 11379

Haemolymph proteins and water uptake in female Leucophaea maderae during the sexual cycle. 11385

Programmed cell death. Activation of lysis by a mechanism involving the synthesis of protein. 11849

The synthesis in vitro of the protein calliphorin by fat body from the larva of the blowfly, Calliphora erythrocephala. 11866

Haemolymph proteins and yolk formation in the cockroach, Leucophaea maderae. 11878

An investigation of haemolymph protein economy during the fifth instar of Locusta migratoria migratorioides. 11889

Protein changes in the haemolymph of Pieris brassicae during the last larval instars and the beginning of the pupal stage. 11892

Some properties of mitochondria and ribosomes of infected plant tissues. 11932

Influence of quaternary structure on antigenic configuration of tobacco mosaic virus. (Abstract). 12321

The hymenopterous poison gland: Probable functions of the main glandular elements. 12416

Antigenic properties of Mycoplasma organisms and membranes. 12748

Immunochemical studies of foot-and-mouth disease. IV. Preparation and evaluation of antisera specific for virus, virus protein sub-unit and the infection-associated antigen. 12759

Effect of gibberellin A3 on concentration of DNA, RNA, and protein in pea plant (Pisum sativum L.). 12906

Phenol oxidase characteristics in mutants of Drosophila melanogaster. 13093

Electrophoretic study of protein changes between several developmental stages of three species of Heliothis (Lepidoptera: Noctuidae). 13142

Electrophoretic patterns in mosquitoes. 13144

Protein differences in Drosophila. III. Allelic differences and species differences in invitro hybrid enzyme formation. 13178

Use of disk electrophoresis for investigation of protective antigen of Bacillus anthracis isolated by the method of acid precipitation. 13391

Studies on the effects of feeds deficient in trace elements, vitamin A, protein, calcium and phosphorus on the natural resistance of sheep to common liverfluke, Fasciola gigantica Cobbold, 1885. 13412

Concentration of insect hemolymph proteins under various experimental conditions. 13626

The utilization of glycine for protein sythesis in th silk gland by fifth-stage Bombyx mori larvae. 13671

Purification of the proteinic brain hormone of the silkworm, Bombyx mori. 13707

Morphological variability of the chromosomal functional structure in the spermatocyte nucleus of Drosophila species. 13720

On some alterations in the composition of wheat grain damaged by wheat bugs (Eurygaster and Aelia). 13826

Continuous and rhythmic reproductive cycle observed in Periplaneta americana (L.). 14182

Studies on a trehalase from a symbiont of the tropical cockroach, Blaberus craniifer--a suggested analytical enzyme. 14198

Properties of leptinotarsin, a toxic hemolymph protein from the Colorado potato beetle. 14212

Effect of Loxosceles reclusa Gertsch and Mulaik venom on Heliothis virescens (F.) larvae. oosterhof, g. 14248

Preliminary report on the amino acid composition of TMV-C protein. 14422

Current status of in vitro synthesis of plant viruses. 14434

Evidence of phenotypic mixing between two strains of tobacco mosaic virus. 14441

The effect of cycloheximide on the resistance of potato tuber discs to invasion by a fluorescent Pseudomonas sp. 14477

Inhibition of host-cell protein and ribonucleic acid synthesis by newcastle disease virus. 14622

The separation of the proteins of wheat by acrylamide gel electrophoresis, with special reference to mottled and unmottled wheat. 14667

The influence of the photoperiod on hemolymph protein variations in Pieris brassicae L. before the onset of diapause. 14806

RNA and protein in nucleolar structures of dragonfly oocytes. 14826

Histological and histochemical study of the tumor of sugar cane affected by the Fidji disease. 14946

Protein variations in the ovary of Locusta migratoria (L.) (Orthoptera) in the first phase of maturation. 15351

Developmental changes in the late larva of Calliphora stygia. II. Protein synthesis. 15397

The soluble proteins of developing Calliphora erythrocephala, particularly calliphorin, and similar proteins in other insects. 15404

Observations on epidomology and experiments to decrease damage of the alfalfa leaf-spot disease. 15575

Contribution to the serological survey of plant viruses by the micro-electrophoretic technique applied to agar-agar media. 15589

Masking of the aggregation phermone in Dendroctonus pseudotsugae Hopk. 15805

Dietary protein and DDT toxicity. 15877

Effects of herbicides on rna and protein syntheses. 15887

Effect of thiometon on the chemical composition and the growth of groundnut crop. 15898

The role of gibberellins in phytochrome mediated responses. 15900

Hydrogen bonding of dalapon. 15911

PROTHORACIC GLANDS
Hormonal inhibition of the prothoracic gland by the brain in locusts. 9355

PROTOCATECHUALDEHYDE
3,4-dihydroxybenzaldehyde, a fungistatic substance from green Cavendish bananas. 9586

PROTOSTRONGYLUS
Pulmonary disease in Kenya sheep. 14639

PROTOZOA
Honey bee pathology. 8079

Survival of sporozoites of Leucocytozoon in birds for 11 days. 8462

Preventing and controlling internal parasites of hogs. 8510

Culicidae and Tabanidae as potential vectors of anaplasmosis in Mississippi. 9107

Kalafungin, a new antibiotic produced by Streptomyces tanashiensis strain Kala. 9716

Process for the preparation of nitroimidazole carbamates. Patent 3,450,710. 9857

The use of Tetrahymena pyriformis Ehren. for the detection of residues of organic fungicides. 10937

Interpretation of the structures called centrioles in the Hypermastigian symbiotes of termites and of Cryptocercus. 11290

A coccidian pathogen of the dermestid Trogoderma parabile. 11336

Microbial control in Hawaii. 11545

The morphological and biological status of two enteric protozoa investigated in domestic ducks and geese in Egypt. 11598

Parasitic reports of foreigners from warm climates. 11643

A study of the eugregarines of the grass-grub (larva of Costelytra zealandica (White), Melolonthinae), with a description of three new species. 11776

Stempellia scolyti (Weiser) comb. nov. and Nosema scolyti sp. n. microsporidan parasites of four species of Scolytus (Coleoptera). 12540

The effect of hydrochloric acid and gastric juice on some morphological changes of Trichomonas intestinalis. 12771

Serological and biological study on the toxoplasmic infection in chickens from the vicinity of Rome. 12811

Immunity to parasites. 12863

Diseases of the Clear Lake gnat Chaoborus astictopus (Diptera: Chaoboridae). 13129

Observations on parasitic protozoa in plant-parasitic and free-living nematodes. 13900

Anaplasmosis in East-Friesan lambs. 13930

Significance of the asexual stages in assessing Eimerian infections of goats. 13936

Damage caused by Lankesteria culicis (Ross) to Aedes aegypti (L.). 14297

The prevalence of Babesia bovis (Babesia argentina) in the brains of slaughter cattle in Northern Nigeria. 14568

PRUNES

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 2-(p-tertbutylphenoxy)cyclohexyl 2-propynyl sulfite. 9791

PRUNING

Progress report on shade tree inhibition. (abstract). 10442

Fire blight research and control measures in the United States. 10624

Effect of pruning on silver-leaf disease (Stereum purpureum (Pers.) Fr.) and yield of peach and nectarine trees. 11963

Post-year responses of Concord grape vines treated with N-dimethylamino succinamic acid. (Abstract). 14467

Influence of pruning citrus trees on the efficacy of control of black spot (Guignardia citricarpa Kiely). 15017

PRUNUS

Transmission experiments with the latent Prunus-virus and the gall mite Vasates fockeui Nal. 14495

Systematic oligophagy of the central-European species of the genus Lithocolletis Hbn. and Argyresthia Hbn. (Lep.) on Prunoideae. 14823

Indication in the apricot species of intraspecific incompatibility due to the presence of a chlorotic leaf spot type virus. 14966

A rapid method of identification of prunus necrotic ring spot. 15494

PRUNUS SEROTINA

New hosts, distribution, and biological notes on an imported ambrosia beetle, Xylosandrus germanus (Coleoptera: Scolytidae). 9642

PRUNUS SERRULATA

The propagation of Stecklenberg disease in a sour cherry tree. 10699

PRUNUS VIRGINIANA

The biology and morphology of Eriophyes emarginatae, a Prunus finger gall mite, and notes on E. prunidemissae. 9442

A change of feeding habit in Archips cerasivorana (Fitch) (Lepidoptera, Tortricidae). 14178

PSALLUS AMBIGUUS

Psallus ambiguus (Fall.) (Heteroptera, Miridae). Part II, Nutrition and role in the biocenosis of orchards. 9438

PSAMMOTETTIX

A new contribution to the study of Leafhopper fauna (Homoptera, Auchenorrhyncha). 14270

PSELAPHIDAE

A contribution to the knowledge of the Scaphidiidae and Pselaphidae of Korea (Coleoptera). 8046

Palearctic pselaphids. New species and notes on synonymies. III. 14714

Notes on Fustiger elegans Raffray (Coleoptera, Pselaphidae) in Uruguay and Argentina. 14772

PSEUDALETIA UNIPUNCTA

A strain of nuclear-polyhedrosis virus causing extensive cellular hypertrophy. 10126

The phyllophagous larvae of the family Noctuidae (Lepidoptera), collected on corn in Northern Greece. 12082

The European corn borer; how to control it. 14301

PSEUDAPHYCUS MALINUS

Studies on the utilization of natural enemies as biotic insecticides . Mating of Pseudaphycus malinus Gahan and sex of the progeny. 11302

Studies on the utilization of natural enemies as biotic insecticides . Density effect in the mass culture of Pseudaphycus malinus Gahan. 11303

Studies on the utilization of natural enemies as biotic insecticides . Effect of physical factors on the culture of Pseudaphycus malinus Gahan. 11304

PSEUDAULACASPIS PENTAGONA

Tests on the control of the white peach scale (Pseudaulacaspis pentagona Targ.). 10529

PSEUDEUCOILA BOCHEI

Inhibition of the defense reaction of Drosophila melanogaster parasitized simultaneously by the wasps Pseudeucoila bochei and Pseudeucoila mellipes. 10122

PSEUDEUCOILA MELLIPES

Inhibition of the defense reaction of Drosophila melanogaster parasitized simultaneously by the wasps Pseudeucoila bochei and Pseudeucoila mellipes. 10122

PSEUDOCOCCIDAE

X-ray induced reversal of heterochromatization in male mealy bugs. 8256

Taxonomy of New Zealand Pseudococcidae, Part I (Homoptera: Coccoidea). 8623

The coccid Saccharicoccus sacchari (Cockerell) (Hemiptera Pseudococcidae) of sugar cane in Mozambique. 9390

The coffee root mealybug complex. 10711

A record of natural enemies of Ferrisia virgata Ckll. in Madhya Pradesh (India). 12077

Studies on Nephus regularis (Coleoptera: Coccinellidae) as a predator of the striped mealybug in Madhya Pradesh (India). 12521

Importation and colonization of natural enemies of the striped mealybug, Ferrisia virgata, in California. 13040

Reversal of heterochromatization and the activity of the paternal chromosome set in the male mealy bug. 13193

Studies on biology of Ferrisia virgata Ckll. Pseudococcidae: Homoptera) in Madhya Pradesh. 15420

PSEUDOCOCCUS ADONIDUM

On Cryptolaemus montrouzieri Muls. (Morphobiological observations). 9426

PSEUDOCOCCUS CITRI

On Cryptolaemus montrouzieri Muls. (Morphobiological observations). 9426

PSEUDOCOCCUS MARITIMUS

Pests of the grapevine. 14485

PSEUDOMONADS

Decomposition of the herbicide trifluralin by a pseudomonad. 14050

PSEUDOMONAS

A boll rot of cotton caused by Erwinia aroideae. 8298

The downy mildew and stalk rot diseases of maize. 8987

The influence of herbicides upon the antagonism between Bacillus sp. and Pseudomonas phaseoli. 11677

Micro-organisms in the root regions of wheat. Literature review. 11971

Etiology of some bacterial diseases of poplar in Poland. I. Bacteriosis caused by Pseudomonas Migula and Erwinia Winslow. 13246

Bacterial rust on sour cherries and pears. 14340

A new bacterial leaf spot of Antirrhinum seedlings caused by a subspecies of Pseudomonas fluorescens Migula, 1895. 14410

The effect of cycloheximide on the resistance of potato tuber discs to invasion by a fluorescent Pseudomonas sp. 14477

Pseudomonas infections in mink with special reference to Pseudomonas vasculitis in pulmonary lesions. 14598

Research concerning the appearance and activity of pectolytic and cellulolytic enzymes of phytopathogenic bacteria. 15530

Isolation and structural elucidation of Fragin, a new plant growth inhibitor produced by a Pseudomonas.
15906

PSEUDOMONAS AERUGINOSA
Immune responses of ligatured Galleria mellonella larvae.
8133

Endotoxins from several bacterial species as immunizing agents against Pseudomonas aeruginosa in Galleria mellonella.
8725

Bovine mastitis due to Pseudomonas pyocyanea.
11616

Trichinella spiralis: Establishment in Gnotobiotic mice affected by Bacillus mesentericus, B. subtilis.
12785

Pseudomonas aeruginosa contamination of a warm water system used for pre-milking udder washing.
13943

Diffusion in the udder of dyes and antibiotics dissolved in dimethyl sulfoxide (DMSO).
14021

PSEUDOMONAS FLUORESCENS
Delayed lethal effect of 2,4-dichlorophenoxyacetic acid on bacteria.
10429

Effect of DDT, dieldrin, and heptachlor on the growth of selected bacteria.
13459

PSEUDOMONAS GLYCINEA
Contribution to the study of soybean bacterial disease in western Serbia.
15471

PSEUDOMONAS PHASEOLICOLA
The influence of variations in the microflora of a sterilized soil on the genesis of certain plant diseases. II. Study of the behaviour of microorganisms introduced into steam-sterilized soil.
15567

PSEUDOMONAS PUTIDA
Oxidative degradation of aromatic hydrocarbons by microorganisms. II. Metabolism of halogenated aromatic hydrocarbons.
9831

Removal of pseudomonads from plant leaves and measurement of their in vivo beta-glucosidase synthesis.
14369

PSEUDOMONAS SAVASTANOI
Removal of pseudomonads from plant leaves and measurement of their in vivo beta-glucosidase synthesis.
14369

PSEUDOMONAS SOLANACEARUM
Save your potato crop from fungal and bacterial diseases.
8286

Bacterial wilt in Malaya.
11470

'Pelipita', an ABB Bluggoe-type plantain resistant to bacterial and fusarial wilts.
13288

Bacterial wilt in Malaya.
13777

Control of the bacterial Makd in the plane and banana tree caused by Pseudomonas solanacearum.
13796

Identification of a bacterial strain Pseudomonas solanacearum E. F. Sm. of tobacco (Nicotiana tabacum L.) in Colombia.
14396

Recognition of the blotting bacteria of Solanum from the French West Indies.
15492

Differenciation of biochemical types of sources of Pseudomonas solanacearum (Smith) Smith.
15566

PSEUDOMONAS SYRINGAE
Moderate tolerance of bean varieties to brown spot bacterium (Pseudomonas syringae).
11460

Moderate tolerance of bean varieties to brown spot bacterium (Pseudomonas syringae).
13762

Removal of pseudomonads from plant leaves and measurement of their in vivo beta-glucosidase synthesis.
14369

PSEUDOMONAS TABACI
Contribution to the study of soybean bacterial disease in western Serbia.
15471

PSEUDOMYRMEX
Variation in behavior among obligate acacia-ants from the same colony (Pseudomyrmex nigrocincta).
8709

PSEUDOPERONOSPORA CUBENSIS
On the longevity of Conidia of cucumber downy mildew fungus, with special reference to the influence of sunlight.
14382

PSEUDOPERONOSPORA HUMULI
On the control of primary infections caused by Pseudoperonospora humuli.
14958

PSEUDOPEZIZA
Is it possible to draw any conclusions from the red epidemic of 1967, in regard to the appearance of the disease during this year .
14678

PSEUDOPEZIZA JONESII
A study of the biology of Pseudopeziza jonesii nannf (Pyrenopeziza medicaginis Fuck) the cause of yellow blotches on leaves of alfalfa.
14429

PSEUDOPEZIZA MEDICAGINIS
A study of the biology of Pseudopeziza jonesii nannf (Pyrenopeziza medicaginis Fuck) the cause of yellow blotches on leaves of alfalfa.
14429

Observations on epidomology and experiments to decrease damage of the alfalfa leaf-spot disease.
15575

PSEUDOPEZIZA RIBIS
Fungicides for the control of leaf spot (Pseudopeziza ribis) of black currants.
13281

PSEUDOPEZIZA TRACHEIPHILA
An unknown grape vine disease, spray damage or red burn epidemic .
9568

The possibility of reinfection by ascospores of the first generation of Pseudopeziza tracheiphila in late summer.
11991

PSEUDOPITYOPHTHORUS
Population increase of two species of Pseudopityophthorus in oak branches.
11378

PSEUDORABIES
A serologic study of pseudorabies in swine.
12143

PSEUDOSARCOPHAGA AFFINIS
The diel pattern of feeding activity of larval Pseudosarcophaga affinis (Diptera: Sarcophagidae).
9404

PSEUDOTELPHUSA INCANA
Two species of apple-feeding gelechiids new to science (Lepidoptera).
8640

PSEUDOTSUGA
Host trees and breeding sites of native North American Pissodes bark weevils, with a note on synonymy.
11884

PSEUDOTSUGA MENZIESII
Studies on the tuberculate mycorrhizae of Douglas fir (Pseudotsuga taxifolia Britton).
9560

Characteristics of Douglas-fir logs in relation to ambrosia beetle attack.
10967

Occurrence of fungi antagonistic to Poria weirii in a Douglas-fir forest soil in western Oregon.
11491

Douglas-fir beetle brood densities and infestation trends on a New Mexico study area.
12055

A study of insects attacking Douglas-fir cones in eastern Montana and Yellowstone National Park, 1967.
12444

Three new species of Pityophthorus from Canada (Coleoptera: Scolytidae).
12945

Systemic activity of zectran, matacil and bidrin injected into conifer trunks.
14656

Factors affecting survival of Poria weirii in small buried cubes of Douglas-fir heartwood.
14978

PSEUDOTSUGA TAXIFOLIA
Observations on Strophosomus melanogrammus (Forst.), Polydrosus marginatus Steph. and Otiorrhynchus armadillo (Rossi) (Coleoptera Curculionidae), pests of Pseudotsuga douglasii Carr. in Tuscany.
8333

Studies on the tuberculate mycorrhizae of Douglas fir (Pseudotsuga taxifolia Britton).
9560

PSILA ROSAE
Attempts to combat the strains of carrot and onion flies resistant to organo-halogen insecticide products.
15401

PSILOCYBE AGRARIELLA VACCINII
Control of fairy ring disease of the cultivated cranberry.
9001

PSITTACOBROSUS
Three new species of Psittacobrosus from Brazilian parrots.
11188

PSITTACOSIS
Partial purification of the organism of psittacosis grown in chicken embryo yolk sac.
13374

PSOCIDAE
Exceptions to the prevailing pattern of tubules (9 plus 9 plus 2) in the sperm flagella of certain insect species.
14255

PSOCOPTERA
Aerial dispersal of some British Psocoptera, as indicated by suction trap catches.
13103

PSOROPHORA CONFINNIS
Laboratory studies on the seasonal hatchability of egg batches of Aedes sollicitans, A. taeniorhynchus, and Psorophora confinnis.
13149

Relative susceptibility of Psorophora confinnis (Lynch-Arribalzaga) larvae in the rice producing area of southern Louisiana to selected insecticides.
13619

Flight capacity of blood-engorged mosquitoes.
14815

Oviposition response of Aedes sollicitans, Aedes taeniorhynchus, and Psorophora confinnis to seven inorganic salts.
15411

PSOROPTES COMMUNIS
Developments in control of ectoparasites of livestock.
13421

PSOROPTES OVIS
Oral famphur for treatment of cattle lice, and against scabies mites and ear ticks of cattle and sheep.
11637

PSOROSIS
Effect of crinkle-scurf of citrus on tree growth, productivity, and fruit quality.
8312

PSYCHIDAE

Epichnopteryx pusilella Rbl. belongs to the genus Reisseronia Sied. (Lepidoptera, Psychidae).
8054

Lethal effects of gamma radiation on eggs and larvae of the bagworm, Thyridopteryx ephemeraeformis.
13114

Material for a revision of the genus Oreopsyche (Psychidae).
13536

Material for a revision of the Oreopsyche (Psychidae) genus (continuation and end).
13537

A virosis with ovoid inclusions in Lepidoptera.
14853

PSYCHODIDAE

On Sergentomyia ruttledgei (Lewis Kirk) and S. schwetzi (Adler, Theodor Parrot) (Diptera: Psychodidae).
9915

Experiments with feeding sandflies (Phlebotominae) on great gerbils (Rhombomys opimus Licht) under conditions approaching natural.
10584

The cluster fly.
11871

Revision of the genus Phlebotomus of Arica south of the Zambesi, key for the identification and description of: P. salishuriensis n. sp., P. zumpti n. sp. and P. haeselbarthi n. sp., (Diptera-Psychodidae).
12331

Phlebotomus moucheti (Diptera Psychodidae), a new species caught in the caves of Cameroon and in the Central African Republic.
12394

PSYLLA

Development of young pear trees with different rootstocks in relation to Psylla infestation, pear decline, and leaf curl.
13778

PSYLLA PIRI

Winter control of the European red mite, Panonychus ulmi, and certain fruit insects by M-2060 (2-fluoroethyl(4-biphenylyl)acetate) in Italy.
8691

PSYLLA PYRICOLA

Pear Psylla control studies.
12669

PSYLLIDAE

A new species of Tetrastichus Haliday, 1844 (Hymenoptera: Eulophidae) parasitic nymphs of Payrocephala calodendri Moran (Homoptera: Psyllidae).
8026

New and little known species of the family Trioza Forst. (Homoptera, Psyllidae) from Korea.
8150

Results of the zoological research of Dr. Z. Kaszab in Mongolia. 115. Homoptera: Psyllodea of the III. Expedition.
9297

Population studies on two species of Psyllidae (Homoptera, Sternorhyncha) on broom (Sarothamnus scoparius (L.) Wimmer).
9495

A new Japanese species of Trioza from Machilus thunbergii, with descriptions of the immature stages and notes on biology (Hemiptera: Psyllidae).
12369

Campaign against Citrus psylla in Kangra District (Himachal Pradesh).
13831

Biology and control of citrus psylla Diaphorina citri Kuw.
13847

The development of the citrus psylla, Trioza erytreae (Del Guercio) (Homoptera: Psyllidae), on Citrus limon and four indigenous host plants.
14491

Study of cold resistance and acclimatization capacity in Psylla buxi L. (Homoptera; Psyllidae).
14885

On the migration of some leafhoppers--foes to fruit trees.
15642

PSYLLIODES

A contribution to the knowledge of the Halticinae of Northern Persia.
10514

PSYLLIODES CHRYSOCEPHALA

Biological examination of Psylliodes chrysocephala L.
9335

The immature stages of the flea beetles Psylliodes cuprea (Koch) and Psylliodes chrysocephala (L.) (Col., Chrysomelidae).
12951

PSYLLIODES CUPREA

The immature stages of the flea beetles Psylliodes cuprea (Koch) and Psylliodes chrysocephala (L.) (Col., Chrysomelidae).
12951

PTELEOBIUS VITTATUS

Hymenoptera associated with elm bark beetles in Wytham Wood, Berks.
13602

PTERIDINE

Chromatographic comparison of pteridine levels in four white locus alleles of Drosophila melanogaster.
8218

The pattern of pteridine accumulation in eggs of Pyrrhocoris apterus.
9473

Genetic aspects of pteridines in mosquitoes.
10577

PTERIDINE COMPOUNDS

Genetic aspects of pteridines in mosquitoes.
10577

PTERIDIUM AQUILINUM

Control of bracken fern (Pteridium aquilinum).
10804

Weed control in the forest.
11564

Nursery investigations. Weed control.
11565

PTEROMALIDAE

Influence of larval population density on the size of adults, duration of development, and diapause frequency in Pteromalus puparum L. (Hym., Chalcididae).
8088

Laboratory rearing of Spalangia nigroaenea (Hymenoptera: Pteromalidae).
8770

Observations on the parasites (Hymenoptera, Diptera) of Trichotaphe levisella Fyles (Gelechiidae, Lepidoptera) with nottes on the host.
9342

Preliminary results of the rearing of a hymenopterous chalcid (Pteromalus puparum L.) on the hemolymph of a lepidopteran.
9352

Reproductive isolation and size variation in the Muscidifurax raptor complex.
9415

The effect of two host species on the longevity and fertility of Nasonia vitripennis.
9472

Parasites of the larch casebearer, Coleophora laricella (Hbn.), in British Columbia (Leidoptera: Coleophoridae).
11222

Effect of insecticides, acaricides and fungicides on Mormoniella vitripennis Walker (Hymenoptera Pteromalidae).
11777

Evolution and population ecology of parasite-host systems.
13110

Hyperparasitism of the pea aphid parasite Aphelinus semiflavus by Asaphes vulgaris in a greenhouse.
13130

Distribution and importance of Heterolaccus grandis as a parasite of the boll weevil.
13306

Hymenoptera associated with elm bark beetles in Wytham Wood, Berks.
13602

The acid gland of Nasonia vitripennis (Walker) (Pteromalidae: Hymenoptera).
13676

A note on the new species of Sphegigaster Spin. (Chaleidoidae, Pteromalidae).
14136

PTEROPHORIDAE

Life on the sticky sundew.
8749

PTEROSTICHUS

Freezing tolerance in an adult insect.
13090

Freezing tolerance in an adult insect.
13091

PTILIIDAE

A new genus and species of Ptilidae (Col.) from Tamana Cave, Trinidad.
11153

PUBLIC HEALTH

Plant protection under strict controls.
9529

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 2-(p-tertbutylphenoxy)cyclohexyl 2-propynyl sulfite.
9791

Envenomation by the spiders Chiracanthium inclusum and Argiope aurantia.
9809

N'-(4-chloro-o-tolyl)-N,N-dimethylformamidine. Notice of establishment of temporary tolerance for pesticide chemicals.
12218

Problems of integrated pest control in practical plant protection.
14315

Comments on rat-free towns.
14544

New plant protection law is in force.
14704

The Regulation of Pesticides in the United States.
14705

Preventing hydatid disease in humans.
15832

PUBLIC HEALTH ENTOMOLOGY

Global eradication of malaria: Changes of strategy and future outlook.
14298

PUBLIC RELATIONS

Mid-state of Nebraska: There's no magic in pest control .
9861

PUCCINIA

The genetics and expression of resistance in plants to rusts of the genus Puccinia.
13259

Occurrence of physiologic races of wheat and barley rusts in India during 1962--64 and their sources of resistance.
14983

PUCCINIA CORONATA

The nature and effect of adult plant resistance to crown rust in several commercial oat varieties.
9567

Races of crown rust in South Africa.
9599

Effects of crown rust on rye grass.
10681

Uredospore storage in breeding for crown rust resistant annual ryegrass.
11946

Pathogenic variability and the unit representing a single fertilization in Puccinia coronata var. avenae. 14306

Virulence of uredial and aecial isolates of Puccinia coronata Corda f.sp. avenae identified in Canada from 1952 to 1966. 14359

Nucleus of fusion body and infection structure produced by uredospores of three rust fungi. 14685

PUCCINIA GLUMARUM STRIIFORMIS
Physiological and ecological studies on the oversummering and overwintering of the stripe rust of wheat and barley, Puccinia striiformis Westend. 14424

PUCCINIA GRAMINIS
Physiological strains of Puccinia graminis tritici in Colombia and its implications. 14421

PUCCINIA GRAMINIS AVENAE
Stem rust of oats in Canada in 1968. 10667

PUCCINIA GRAMINIS TRITICI
Infection structures from rust urediospores: Effect of RNA and protein synthesis inhibitors. 9829

Chemical control of the cereal rusts. 10697

Some aspects of the summer and winter ecology of wheat rust fungi. 11456

PUCCINIA GRAMMIS
Stem rust of wheat, barley, and rye in Canada in 1968. 11977

PUCCINIA GRAMMIS TRITICI
Stem rust of wheat, barley, and rye in Canada in 1968. 11977

PUCCINIA MENTHAE
Control of rust in spearmint established with transplants. 10651

Present problems of plant protection in peppermint. 14915

PUCCINIA RECONDITA
Leaf rust resistance of some European varities of wheat. 11451

Some aspects of the summer and winter ecology of wheat rust fungi. 11456

Alternaria tenuis Nees, probable cause of pink belly in wheat. 11956

Effect of leaf rust infection on the conversion of glucose-u-14C into amino acids in excised leaves of ponca wheat. 13763

PUCCINIA STRIIFORMIS
A new race of stripe rust pathogenic on the wheat variety Moro, CI 13740. 10622

Production of new physiologic races in Puccinia striiformis (yellow rust) by heterokaryosis. 11442

PULICALVARIA
Key to the adult hymenopterous parasites of Pulicalvaria piceaella (Kearfoot), (Lepidoptera: Gelichiidae) of Quebec. 14231

PULLORUM DISEASE
Serological catalogue of Salmonella gallinarum and pullorum in the agricultural zone of Argentina. 15793

PULMONARY ADENOMATOSIS
Clinical and pathological aspects of pulmonary adenomatosis in sheep. 10883

Pulmonary disease in Kenya sheep. 14639

PUMICE
Effect of soil type on uptake of magnesium by pasture plants. 14082

PUMPKINS
Acclimation of Prospaltella perniciosi Tow. in Yugoslavia. 9536

Biochemical studies of plants of Cucurbita pepo L. varieties as related to feeding response of squash bug Anasa tristis DeGeer. 10713

Leafspot of Cucurbita pepo caused by Alternaria cucumerina. 14415

Viruses infecting cucurbits in Queensland. 15515

Test for protecting melon and marrow plants against the cucumber mosaic virus. 15545

PUPAE
Three new species of Aleyrodidae from the Sudan (Hemiptera-Homoptera). 8035

Research with ionizing irradiation on the sterilization and radiosensitivity of Chrysomela decemlineata Say. 8096

Haemocyte activity in relation to epidermal cell growth, cuticle secretion, and cell death in a metamorphosing cyclorrhaphan pupa. 8212

Entomophthora aquatica sp. n. infecting larvae and pupae of floodwater mosquitoes. 8695

The lepidopterous stalk borers of rice and their life cycles in the Tropics. 8702

A new record for a parasite of the alfalfa weevil in Eastern United States, Eriplanus micator (Gravenhorst) (Hymenoptera: Ichneumonidae). 8716

Free and peptide-bound amino acids during the larval and pupal stages of the yellow-fever mosquito, Aedes aegypti. 8729

Characters for determining sex of pupae of the oakworms Anisota senatoria, A. stigma, and A. virginiensis, and the yellow-necked caterpillar, Datana ministra. 8748

Differentiation of parasitized and unparasitized pupae of the melon fly and Oriental and Mediterranean fruit flies. 8816

Observations on the immature stages of Cordilura (Achaetella) deceptiva and C. (A.) varipes. 8817

The effects of perfusion on the synthesis and release of blood proteins by diapausing pupae of the Cecropia silkworm. 8828

An inexpensive house fly pupae separator. 8898

House fly pupae as food for poultry. 9053

The influence of light and temperature on the pupal emergence activity of Chironomus nuditarsis Str. 9381

Notes on parasites of immature Tabanidae (Diptera) and descriptions of the larva and puparium of Carinosillus pravus (Diptera: Tachinidae). 9392

Artificial biological control of the olive fruit fly (Dacus oleae Gmel.) by means of Opius concolor Sz. siculus Mon. on the Lipari Islands (Sicily). July-September 1965. 9429

Description of the male, pupa, and larval habitat of Nilobezzia brevicornis (Diptera: Ceratopogonidae). 9963

Variations in free amino acids in the larvae and pupae of Chilo zonellus. 9994

The influence of the rearing temperature on larval and pupal mortality and the duration of development of Drosophila. 9995

The insect predators of the pupal stage of the winter moth, Operophtera brumata (L.) (Lepidoptera: Hydriomenidae). 10009

The effect of pupal predators on a population of winter moth, Operophtera brumata (L.) (Hydriomenidae). 10010

The influence of temperature on reproduction and development in four species of Glossina (Diptera: Muscidae). 10028

Biology of the billbug Sphenophorus venatus confluens, a new pest of orchardgrass. 10047

Biology and description of immature stages of Orthacheta hirtipes, a predator of Cordilura spp. 10080

Puparial duration in Glossina morsitans orientalis under conditions of constant temperature. 10091

Lethal temperatures for puparia of Glossina morsitans orientalis. 10092

Effects of exogenous moulting hormones on puparium formation in Calliphora. 10130

Refined defensive mechanisms in Chrysomela scripta. 10139

Position effect on DNA transcription and replication. 10160

A new species of Aedes (Stegomyia) from Thailand (Diptera: Culicidae). 10164

Distribution of larval and pupal instars of Plusia argentifera Guen. on tobacco plants. 10240

Records of pupiparous Diptera (Hippoboscidae) on birds in India--III. 10365

Influencing the metabolism in Tenebrio monitor (Coleoptera) during the pupal stages by farnesylmethyl-ether. 10528

A coccidian pathogen of the dermestid Trogoderma parabile. 11336

Response of isolated pupal abdomens of silkworms, Bombyx mori L., to injected ponasterone A (Lepidoptera: Bombycidae). 11383

Immature stages of the flesh fly, Parasarcophaga (Thomsonea) argyrostoma (Robineau-Desvoidy). 11418

The description of pupae of Colymbetes paykulli Er. and C. dolabratus (Payk.) with a key to the identification of pupae of the European species of Colymbetes Clairv. (Coleoptera, Dytiscidae). 11734

Immature stages of Australian Anthophorinae (Hymenoptera: Apoidea). 11795

Further studies on gradient-dependent diversification in the pupal cuticle of Galleria mellonella. 11887

Biology and immature stages of Eumetopiella rufipes. 11891

Protein changes in the haemolymph of Pieris brassicae during the last larval instars and the beginning of the pupal stage. 11892

The development of female gonads in pupae of Galleria mellonella L. (Lepidoptera). 12445

Insect neurometamorphis. IV. Effects of the brain and synthetic alpha-ecdysone upon inter-

ganglionic connective shortening in Galleria mellonella (L.) (Lepidoptera).
12516

The taxonomy of the larvae and pupae of the British Phryganeidae (Trichoptera).
12943

Development of Crambus trisectus at controlled constant temperatures in the laboratory.
13009

The influence of age and concentration of fumigant on the susceptibility of pupae of Tribolium castaneum (Herbst) (Coleoptera, Tenebrionidae) to methyl bromide.
13019

Components of the sterility induced in late-stage male pupae of the sugarcane gray borer, Eucosma schistaceana (Lepidoptera: Olethreutidae), with gamma radiation.
13030

Sex determination of pupae of Vogtia malloi (Lepidoptera: Phycitidae).
13084

The pupation rhythm in Aedes taeniorhynchus (Diptera: Culicidae). V. Physiology of growth and endogenous diurnal rhythm of pupation.
13102

Occurrence of a two-headed pupa in a population of Tribolium confusum (Coleoptera: Tenebrionidae).
13126

Immature stages of the flesh fly, Parasarcophaga (Thomsonea) argyrostoma (Robineau-Desvoidy).
13150

DNA replication in salivary gland nuclei of Drosophila melanogaster at successive larval and prepupal stages.
13201

The role of parasites in decrease of numbers of Pissodes piceae (Curculionidae).
13309

Contribution to the knowledge of the Italian Simuliidae. XV. A new Eusimulium of the group Annulum.
13586

Sex identification of live mosquito pupae in the laboratory.
13599

The role of beta-alanyl-L-tyrosine (Sarcophagine) in puparium formation in the flesh fly Sarcophaga bullata.
13606

A simple separator for mosquito larvae and pupae.
13625

The acid gland of Nasonia vitripennis (Walker) (Pteromalidae: Hymenoptera).
13676

Manner of action of Aspergillus parasites in insect wounds.
13698

Natural enemies of the carob moth Ectomyelois ceratoniae (Zeller).
13839

Uric acid as an index of insect infestation in flour.
14032

Deoxyribonucleoside monophosphokinases of silkworm pupae infected and uninfected with nuclear polyhedrosis virus.
15408

PUPAL CASES

Deformation of puparia of the housefly (Musca domestica L.) on treatment with organophosphorus insectisides.
12541

Research and observations on the texture and structure of Donacia cocoons.
13120

Pests of legume covers. characteristic cocoon production.
14479

Cross-breeding in the silkworm Bomhyx mori L., for characteristic cocoon production.
15354

PURIFICATION

Cardiovasuclar studies on copper deficient swine. XII. Partial purification of a soluble protein resembling elastin.
9752

Process for the purification of crude 2,5-dichloro-3-nitrobenzoic acid (Dinoben). Patent 3,441,603.
11080

Purification of Eimeria tenella sporozoites with glass bead columns.
11630

Exocellular deoxyribonuclease I of Penicillium chrysozenum Part I. Partial purification and properties of the enzyme.
14694

Purification and serological reactions of four polyhedral viruses from Cruciferae.
15522

On the partial purification of Chrysanthemum B-virus and production of a high titer antiserum.
15555

PURIFICATION PROCEDURES

Chromatographic purification of the oat blue dwarf virus.
9547

Isolation and purification of ochratoxins A and B and preparation of their methyl and ethyl esters.
13513

PURINES

Purine excretion in five scorpions, a uropygid and a centipede.
13064

Purine catabolism in Drosophila melanogaster. II. Guanine deaminase, inosine phosphorylase and adenosine deaminase activities in mutants with altered xanthine dehydrogenase activities.
13177

The influence of phosphate on the phytotoxicity of 3-amino-1,2,4-triazole.
13497

PUTRESCINE

Glutamic acid requirements of the saw-toothed grain beetle, Oryzaephilus surinamensis (L.) (Coleoptera, Silvanidae).
8741

PYCNIDIA

Pycnidial production by Diaporthe vexans (Sacc. and Syd.) Gratz and the pathological histology of infected stems and leaves of eggplant.
9559

Studies on the pycnidial formation by Macrophomina phaseoli (Maubl.) Ashby size of pycnidia, ostiole and pycnidiospores and its significance.
10600

A study of the biology of Pseudopeziza jonesii nannf (Pyrenopeziza medicaginis Fuck) the cause of yellow blotches on leaves of alfalfa.
14429

PYEMOTIDAE

Predators and parasites of Aphytis (Hym., Aphelinidae).
8206

PYGAERA ANASTOMOSIS

Electron-microscope studies of a granulosis virus of Pygaera anastomosis.
11882

PYGIDICRANOIDEA

Catalogue of New World Dermaptera (Insecta). Part I: Introduction and pygidicranoidea.
9312

PYRALIDAE

Taxonomy of the rice stem borers.
8041

Two new Carambinae for Austria Metacrambus carectellus Zeller in lower Austria, and Chrysocrambus linetellus Fabricius in Karnten.
8056

Control of paddy stem borers by cultural practices.
8319

Techniques for assessing crop losses caused by rice stem borers in tropical areas.
8354

Varietal resistance to rice stem borers in India.
8355

Developments in insecticide control of the rice stem borer in Japan.
8356

The possible role of biotic factors in an integrated program for rice stem borer control.
8364

Varietal resistance to rice stem borers at IRRI.
8367

Ecology of common insect pests of rice.
8368

Recent developments in and future prospects for the chemical control of the rice stem borer in India.
8370

The possible control of rice stem borers by the use on natural enemies.
8379

The lepidopterous stalk borers of rice and their life cycles in the Tropics.
8702

A new pyralid leaf roller, Phostria sp. on sugarcane.
10046

Contribution to the knowledge of the natural enemies of Bissetia steniellus (Hampson) (Lep.: Pyralidae).
10254

Studies on amino acid composition of mulberry pyralid fiber.
10539

Nine new tropical species of the genus Pediasia Hbn. (Lepidoptera, Pyralidae) (Crambinae studies, Part 47).
11113

Hormonal effect on cultivated insect tissues. I. Effect of ecdysterone on cultivated testes of diapausing rice stem borer larvae (Lepidoptera: Pyralidae).
11417

The present status of biological control of Xanthium (Compositae).
11567

Phycitinae. Study VI (Lepidoptera, Pyralidae).
12382

Contributions to the morphological and biological study of Aphomia sociella L. (Lepidoptera, Heteroneura, Pyralidoidea, Pyralididae), a parasite of beehives (Hymenoptera, Apoidea, Bombus Latr.).
13668

Appreciation of the efficacy of certain granulated insecticides in the control of the maize pyralid (Ostrinia nubilalis Hbn.) III.
13840

Trials for the control of brinjal fruit and shoot borer.
13857

First records of eye-frequenting Lepidoptera from India.
14624

A breeding method for Cardiasthetus nazarenus Reuter (Hemipt. Anthocoridae) fed on eggs of Anagasta kuehniella Z. (Lepidopt. Pyralidae).
14810

Moths--pest in dwelling places and national economy.
15839

PYRANTEL TARTRATE

Prophylactic efficacy of pyrantel against Ascaris suum in swine.
15207

PYRAUSTA AINSLIEI

The European corn borer; how to control it.
14301

PYRAUSTIDAE

Corn borer outlook.
8321

Douglas-fir beetle brood densities and infestation trends on a New Mexico study area.
12055

PYRAZON
Weed control in sugar beets with preemergence herbicides.
8436

Evaluation of herbicides applied to the soil for weed control in irrigated sugar beets.
9039

Behavior of pyrazon in soil.
10286

Absorption and translocation of pyrazon by plants.
10287

Effects of pyrazon on growth, photosynthesis, and respiration.
10288

Weed control in sugarbeets.
10296

Influence of adjuvants on the phytoxicity and foliar absorption of pyrazon. (Abstract).
10817

Persistance of pyrazon in sugar beets in Michigan. (Abstract).
10944

The metabolism of pyrazon in red beets. (Abstract).
11023

Effect of time of postemergence applications of pyrazon and dalapon on sugar beets. (Abstract).
11029

The adsorption of four herbicides by different types of organic matter and a bentonite clay.
11669

The use of herbicides in the mass production technology of the sugarbeet. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966.
12097

Evaluation of post-emergence herbicides in the greenhouse. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966.
12295

Metabolism of pyrazon in sugar beets and soil.
12741

Effect of postemergence applications of herbicides on sugarbeet development and weed control in central California.
15083

Herbicidal control of weeds in sugarbeets.
15141

Effect of pyrazon and dalapon with various surfactants on sugar beets and weeds.
15152

Weed control in sugarbeets with herbicides and cultivation.
15748

On decomposition of 1-phenyl-4-amino-5-chloro-pyridazone-6 (Pyrazone) in soil.
15852

PYRENE
Residue behavior of polynuclear hydrocarbons on and in oranges.
14048

PYRENOCHAETA LYCOPERSICI
Differential sensitivity of various phytopathogenus soil fungi to methyl bromide.
10668

PYRENOCHAETA TERRESTRIS
Analysis of total lipids and fatty acids of plant-parasitic nematodes and host tissues.
11553

PYRENOPHORA
Utilization of various forms of nitrogen by Drechslera sorokiniana, the pathogen causing foot rot disease in wheat.
14458

PYRENOPHORA AVENAE
Mercury-resistant Pyrenophora avenae in New Zealand seed oats: a comparison of six different compounds as seed disinfectants.
10223

Mercury tolerance in leaf spot of oats.
13751

PYRENOPHORA SEMENIPERDA
Erratum 49: A pleomorphic parasite on cereal seeds, Pyrenophora semeniperda.
14451

PYRETHRUM
The length of larval stage in Pyrethroid-resistant and susceptible strains of the house fly, Musca domestica L.
8131

On the effect of synthetic synergists upon the knockdown speed of pyrethroids against larvae of the common house mosquito, Culex pipiens pallens Coquillett.
8158

Insecticide-cytoplasmic interactions in insects and vertebrates.
8203

Mosquito control in and around homes and farmsteads.
8274

Mode of action of insecticide synergists.
8569

Mixtures of dichlorvos, pyrethrins and dimethrin in aerosols for controlling houseflies.
8708

Studies on chrysanthemic acid. Part XVIII. A new biologically active acid component related to chrysanthemic acid.
8806

Mode of action of natural insectides.
8906

Pyrethin II and related esters obtained by reconstitution.
9192

Syntheses of 14C-labeled pyrethrin I, allethrin, phthalthrin, and dimethrin on a submillimole scale.
9859

The toxicity to Tribolium castaneum (Herbst) (Coleoptera, Tenebrionidae) of mixtures of pyrethrins and piperonyl butoxide: Fitting a mathematical model.
10031

Spray droplet size in the control of spruce budworm, boll weevil, bollworm and cabbage looper.
10247

Chemistry of insecticides.
10463

Possible pleiotropism of a gene conferring resistance to DDT, DDT analogs, and pyrethrins in the house fly and Culex tarsalis.
10581

Pyrethrum.
11013

Pyrethrins and pyrethrum insecticides: The application and chemistry of pyrethrin insecticides.
11057

Review of classical malaria control measures.
11433

A practical trial of pyrethrins-in-oil surface sprays for the protection of bagged grain against infestation by Cadra cautella (Wlk.) (Lepidoptera, Phycitidae) in Kenya.
11659

Toxicity of certain pyrethroids and carbamates to the CS strain of Oncopeltus fasciatus.
12469

Novel process for the preparation of transchrysanthemumic acid. Patent 3,445,499.
12922

The effects of synergized pyrethrins and lindane on pre-emergence mortality of Acanthoscelides obtectus (Say.) (Coleoptera: Bruchidae).
13314

Evaluation of smoke from insecticidal coils against mosquitos.
13732

Organochlorine insecticide residues in complete prepared meals: A 12-month survey in S. E. England. geometrical isomers of chrysanthemic, pyrethric and related acids and optical isomers of cinerolone and allethrolone.
14657

The toxicity of contact insecticides to seed-infesting insects. Tests with bromophos on maize.
14832

Studies on bionomics and control measures of Cnaphalocrocis medinalis Guence; preliminary report.
14872

Pyrethroid-like biological activity of compounds lacking cyclopropane and ester groupings.
15300

Insecticidal activity of pyrethrins and related compounds. II. Relative toxicity of esters from optical and geometrical isomers of chrysanthemic, pyrethric and related acids and optical isomers of cinerolone and allethrolone.
15879

The TAS-METHOD for rapid separation of pesticides and preservatives.
15916

PYRGOMORPHIDAE
Some new and little-known species of Pyrgomorphidae (Orthoptera: Acridoidea) from the Pacific and Far East.
8044

A revision of the pseudomorphacridini (Orthoptera: Acridoidea: Pyrgomorphidae).
9909

Further observations on Sagittacridini, Gymnohippini and Geloiini. (Orth.: Pyrgomorphidae).
14755

PYRICLOR
Control of reed canarygrass along irrigation canals. (Abstract).
10783

Selectivity of 2,3,5-trichloro-4-pyridinol as a herbicide for direct-seeded, flooded rice.
13352

PYRICULARIA ORYZAE
Effect of beta-acylphenylhydrazine derivatives on blast fungus upon leaves and in tissues of rice plants.
14459

The fine structure of hyphae of Helminthosporium oryzae Ito et Kurih. and Pyricularia oryzae Cavara.
14679

PYRIDAZINE COMPOUNDS
Herbicidal activity of some pyridazine derivates. Part III. 3-phenoxypyridazines and related compounds.
9042

Phenoxypyridazines as herbicides. Patent 3,427,146.
9047

Syntheses of pyridazine derivatives as herbicides Part III. Preparation of 3- and 4-phenoxypyridazines.
9851

PYRIDINE
Determination of dicofol (Kelthane) residues in fruits and vegetables.
14047

PYRIDINE COMPOUNDS
Studies on nicotinoids as an insecticide. Part VII. Cholinesterase inhibition by nicotinoids and pyridylalkylamines--its significance to mode of action.
9508

Phenoxy pyridines as herbicides. Patent 3,429,689.
12307

PYRIDINE NUCLEOTIDES
Structure-activity and metabolism studies on organophosphate teratogens and their alleviating agents in developing hen eggs with special emphasis on Bidrin.
8572

PYRIDINIUM COMPOUNDS
Bispyridinium compounds as herbicides. Patent 3,458,305.
8405

PYRIMIDINES

Effect of 5-fluorouacil and 5-bromo-2'-deoxyuridine on the induction of thymidine kinase in polyoma virusinfected mouse embryo cells.
8488

On the mechanization of radiosensitization by 5-bromouracil. Studies on 60Co-gamma irradiated phage phi X-174 and its single-stranded infectious DNA.
8599

N1-acetyl-N1-(cyclopropyl-2-pyrimidinyl)-sulphanilamides. Patent 3,438,980.
12185

PYRRHALTA SABLENSIS

A new species of Pyrrhalta from Sable Island (Coleoptera: Chrysomelidae).
9268

PYRRHOCORIDAE

Effects of sub-lethal dosages of parathion and carbaryl on the biology of Dysdercus koenigii Fabricius.
8191

PYRRHOCORIS

Natural and synthetic materials with insect hormone activity--VI. Juvenile hormone effects of some alkyl-ethers derived from aliphatic beta-hydroxy acids.
13113

PYRRHOCORIS APTERUS

The pattern of pteridine accumulation in eggs of Pyrrhocoris apterus.
9473

Lipid composition of fat body and its contribution to the maturing oocytes in Pyrrhocoris apterus.
11340

PYRROLE

A simple rapid method for the multiple assay of tryptophan pyrpolase in Drosophila.
11357

PYRROLIDINO-SUCCINAMIC ACID, N

Enhancing the activity of chemical growth retardants. Part one of a discussion of UNI-F529 as it compares with B995 as a chemical growth retardant.
12241

PYRUS

Juvenility as related to chemical content and rooting of stem cuttings of Pyrus species.
12230

On the presence of a pathogenic gradient of action in the cytological development of tumors caused by Eriosoma lanigerum Hatsm. on Pyrus malus L. cult. Calville blanc.
15646

PYRUS PYRIFOLIA

Yuzuhada, a physiological disorder of oriental pear, and its possible relation to black-end and hard-end of Bartlett.
12656

PYRUVATE KINASE

Pyruvate kinase and phosphoenolpyruvate carboxykinase activities of Ascaris muscle, Hymenolepis diminuta and Schistosoma mansoni.
10369

PYRUVIC ACID

The energy-dependent accumulation of phosphate by blowfly mitochondria and its effect on the rate of pyruvate oxidation.
11826

Metabolism of glucose-14C, pyruvate-14C, and mannitol-14C by Melampsora lini. II. Conversion to soluble products.
14684

PYTHIUM

Contribution to the etiologic study and control of beet germ rotting.
8311

Chemical control of pea root rot by soil-incorporation and in-furrow treatments with 1-chloro-2-nitropropane.
8954

Role of Pythium in damping-off of peach.
8975

A survey of pawpaw debility in Tanzania.
11496

Epidemic decline of breadfruit in the Pacific Islands.
11518

Incidences of Pythium wilt of snap beans in Colorado.
12637

Interaction of nutrients and four antifungal antibiotics in their effects of Pythium species in vitro and in soil.
12910

Fungal foes that menace ginger crop.
14366

Stem canker. I. Observations on knobby second growth.
15478

PYTHIUM BUTLERI

The downy mildew and stalk rot diseases of maize.
8987

PYTHIUM DEBARYANUM

Effects of prolonged use of certain herbicides on soil microorganisms. (Abstract).
10989

Control of post-emergence damping off in vetch with dexon.
11934

The function of the endodermis in resistance of Virginia pine seedlings to damping-off.
14956

PYTHIUM GRAMINICOLA

Effect of a varietal mixture on sugarcane root rot susceptibility and on the rhizosphere microflora.
14455

PYTHIUM ULTIMUM

Selective vapor phase activity of chloronitro- and chlorobenzenes in soil.
14435

PYTHIUM VEXANS

Study on the pathogenicity of Pythium vexans De Bary, Phytophthora spp. and Phytophthora cactorum.
9544

Q FEVER

Mixed natural focus of Q-rickettsiosis and of tick-borne encephalitis in the eastern-european south-taiga forests.
15800

Investigations on Q fever in the Republic of Mexico.
15809

QUAIL

The difference in sensitivity to the sterilizing action of O,O-diethyl-O-paranitrophenyl thiophosphate of the embryonic testicles of quails and chickens in in vitro culture.
10430

The effect of parathion on quail embryonic development.
11687

The effect of high levels of dietary DDT on egg production, mortality, fertility, hatchability and pesticide content of yolks in Japanese quail.
12210

An effective anthelmintic in treatment of quail infected with Capillaria contorta.
12824

Effectiveness of Maretin and Meldane as treatments for Capillariasis in bobwhites.
12825

QUALITY CONTROL

Effect of crinkle-scurf of citrus on tree growth, productivity, and fruit quality.
8312

Effects of fertilization schedules on flower production, keeping quality, disease susceptibility, and chemical composition at different growth stages of Chrysanthemum morifolium.
10707

The effects of accumulated fluoride on yields and fruit quality of 'Washington' navel oranges.
10929

Effect of simazine on quality and composition of tree fruit. (Abstract).
10947

On the chronic action of tetramethylthiuramidesulphide (TMTD) in hens and the quality of the eggs produced by them.
15268

QUANTITATIVE ANALYSIS

Quantitative determination of DNA content during formation of one of the puffs and one of the Balbiani rings in Chironomus dorsalis.
8264

A quantitative study of food consumption and growth of Podisus.maculiventris.(Hemiptera: Pentatomidae).
9434

Quantitative determination of uric acid in insect feces by lithium carbonate extraction and the enzymatic-spectrophotometric method.
9973

Extraction, separation, and GLC detection of silvex and its propylene glycol ether ester in fish tissue.
10421

Rapid method for the extraction, cleanup, and GLC determination of toxic residues of temik.
10471

Methods of quantitative determination of Rickettsia in ticks.
10537

Development of a chemically defined diet for adults of the apple maggot based on amino acid analysis of honeydew.
11791

Biochemical composition of host plants of Brassica oleracea var. capitata L. as related to resistance to Trichoplusia ni Hubner and Pieris rapae Linne.
12051

Quantitative aspects of insect nutrition.
14201

Use of high speed centrifugation to obtain extracts from cuttings treated by terminal applications of indoleacetic acid-3 (IAA-2-14C). (Abstract).
14323

Quantitative evaluation of the effectiveness of some antioxidants used for fat stabilization.
15301

Some quantitative aspects of the phytotoxicity of monoterpenes.
15876

Automation of pesticide analysis.
15909

QUARANTINE

Domestic quarantine notices. Imported fire ant. Exemptions.
10738

Dermatophytes in veterinary practice.
12795

Quarantine hearings reveal Formosan termite may cause 62 million dollar damage yearly; is now found in South Carolina.
13112

Controlling the pink bollworm on cotton.
15001

QUATERNARY AMMONIUM COMPOUNDS

Insecticidal-germicidal compositions of quaternary ammonium ortho phenyl phanate halide complexes. Patent 3,458,629.
8593

Studies on the mode of action of inorganic nitrogenous amendments on Sclerotium rolfsii in soil.
8936

Antidotes for organophosphate poisoning. I. Synthesis of 1-(quaternary ammonium)-3-(hydroxyiminomethylpyridinium)propane dibromides.
13514

QUEDIUS

Contribution to the knowledge of the Staphylinidae. CIII. The Quedius oblitteratus Er.--nemoralis Baudi complex.
8631

Taxonomic remarks about Staphylinidae. 8644

Contribution to the knowledge of the Staphylinidae. CI. Diverse remarks on some Quedius from the eastern Mediterranean. 9890

Quedius (Microsaurus) scitus (Grav.) (Col., Staphylinidae) a teratological specimen. 9955

QUEEN ANT

The part queens play in the making and advent of gynes in the colonies of the ant Dolichoderus quadripunctatus. 8885

QUEEN BEES

Proteins in the spermathecae and haemolymph of the queen bee (Apis mellifica L. var. ligustica Spin.). 10057

Attraction of Apis mellifera drones by the odours of the queens of two other species of honeybees. 11240

Research on the effect of the queen bee's substance on the development of the endocrine gland of the worker honeybee (Apis mellifica). 13628

QUERCUS

The application of a polyhedral nuclear virus for the control of Lymantria dispar L. larvae. 8358

The genus Craterocercus Rohwer (Hymenoptera: Tenthredinidae). 8673

Research on the ecological system of the forest. Series B: The mixed, calcicolous oaks of Virelles-Blaimont. Contribution no. 18. Coleoptera caught in 1965 and 1966. 9388

Investigations on the insect pests in the different types of oak forest of the Strandja range (Abstract). 10743

Population increase of two species of Pseudopityophthorus in oak branches. 11378

Report of the 1965 West Virginia oak wilt program. 11462

Contribution to the etiology of some galls found in Israel. 11509

Histochemical evidence of the abundance of soluble amine products in the nutrient tissues of galls. 11522

The importance of insects for the dispersal of infectious oak wilt. 11534

Lasiorhynchites ophthalmicus (Steph.) (Col., Curculionidae): A new Irish record. 11743

Research on the ecological system of the forest. Series C: Oaks of Mesnil-Eglise (Ferage) with Galeoblolon and Oxalis. Contribution no. 5. Insects collected in water jars. 11819

A contribution to the knowledge of the viruses and virussuspect diseases of oaks (Quercus spp.). 11949

Phellinus robustus. 12641

Response of oak and red maple to herbicides applied with an injector. 12742

Lepidopterous larval-mining of an oak ( ) leaf from the Latah Formation (Miocene) of eastern Washington. 12973

Polydrusus confluens Steph. (Col., Curculionidae) recorded in error from oak. 13298

Research on the forest ecosystem. Series Bi The mixed calcicolous oak-crop of Virelles-Blaimont. Contribution no. 23. Diptera collected in water jars. 15386

Feeding habits of two Phylloxera species (Phylloxeridae, Aphidina) on oak leaves. 15387

QUERCUS FALCATA

Acorn moisture content critical for cherrybark oak germination. 10983

QUERCUS LAEVIS

Effects of 2,4,5-T during the approach of woody plant dormancy. 10311

Response of turkey oak to 2,4,5-T as a function of final formulation oil content. 15744

QUERCUS MACROCARPA

A new species of Nepticula on bur oak in Ontario (Nepticulidae). 11733

QUERCUS NIGRA

Light intensity and the absorption and translocation of 2,4,5-T by woody plants. 10276

QUERCUS PETRAEA

A contribution to the knowledge of the viruses and virussuspect diseases of oaks (Quercus spp.). 11949

QUERCUS ROBUR

Some observations on Cynips quercus folii L. galls on Quercus robur L. in Bydgoszcz province. 10203

A contribution to the knowledge of the viruses and virussuspect diseases of oaks (Quercus spp.). 11949

QUERCUS STELLATA

Light intensity and the absorption and translocation of 2,4,5-T by woody plants. 10276

QUERCUS VIRGINIANA

Control of live oak by herbicides applied at various rates and dates. 12707

Herbicide concentrations in live oak treated with mixtures of picloram and 2,4,5-T. 15697

Granular herbicides for woody plant control. 15700

QUINCES

Contribution to the study of the morphology of Leucoptera scitella Zell. 10742

QUINOLINE

The fungitoxic mechanisms in quinoline compounds and their chelates. 10202

QUINOLINE COMPOUNDS

Secondary mechanisms of antifungal action of substituted 8-quinolinols. I. 5- and 5,7-substituted 8-methoxyquinolines. 14108

QUINOLINOL COMPOUNDS, 8-

Secondary mechanisms of antifungal action of substituted 8-quinolinols. I. 5- and 5,7-substituted 8-methoxyquinolines. 14108

QUINOLINOL, 8-

Secondary mechanisms of antifungal action of substituted 8-quinolinols. II. Substituted quinolines. 11467

QUINONES

Effect of quinones on Chlorella pyrenoidosa. (Abstract). 11055

RABBITS

Demonstration with indirect immunofluorescence of a cellular epsilon-antigen of the mouse. 8459

Contribution to the study of the antigenic structure of some representatives of the Aspergillus family using specific precipitation in agar. 8475

Leukocyte system of rabbits receiving repeated injections of staphylococcal leukocidin. 8482

Does cottontail sex or age affect incidence of Taenia pisiformis cysticerci. 8511

Variations in body temperature associated with reproductive state in the female rabbit. 9055

Red blood cell count in relation to reproductive phases in the female rabbit. 9056

Hematopoiesis and epiphyseal growth zones in rabbits with molybdenosis. 9183

Seasonal distribution of some arthropod parasites of rabbits in Louisiana. 9379

Home orchard pest control. 9643

Studies on the role of mammals in the natural history of western encephalitis in Hale County Texas. 9691

Production of streptococcal M-typing antisera. I. Antigenic response in Different breeds of rabbits. 9704

Mammary development in alloxan diabetic rabbits injected with oestrone and progesterone. 9734

Preliminary studies on venom from the brown recluse spider Loxosceles reclusa. 9816

Abundance of cottontails and their fleas at Red Bluff Ranch, New Mexico. 10007

Appearance of Cx-reactive protein in plasma of rabbits with corresponding decrease in liver catalase following 3-amino1,2,4-triazole administration. (Abstract). 10833

Magnesium deficiency and tissue ions. (Abstract). 10905

Precipitins in Toxocara canis infections in rabbits. 10914

Experimental necrotic arachnidism on rabbits caused by the bites of Loxosceles unicolor (Araneae: Scytodidae). 11436

Cholinolytics in the treatment of anticholinesterase poisoning. V. The effectiveness of Parpanit with oximes in the treatment of organophosphorus poisoning. 11678

Application of the agar gel technique in the diagnosis of infectious bovine rhinotracheitis. 12133

A gel diffusion preciptin test for bovine papilloma virus. 12153

The use of parasympathomimetic drugs to stimulate salivation in the tick Rhipicephalus appendiculatus, and the transmission of Theileria parva using saliva obtained by this method from infected ticks. 12187

Antigenic properties of Mycoplasma organisms and membranes. 12748

Characterization of Mycoplasma pulmonis variants isolated from rabbits. I. Identification and properties of isolates. 12762

Characterization of Mycoplasma pulmanis variants isolated from rabbits. II. Basis for differentiation of antigenic subtypes. 12763

Antigenic relationship of Brucella ovis and Brucella melitensis. 12767

Local and regional application of hydrogen peroxide in the control of clostridial myositis in rabbits. 12770

Cultivation of the cricket bat willow. 13231

The rabbit. 13365

Myxomatosis: The introduction of the European rabbit flea Spilopsyllus cuniculi (Dale) into Australia. 13742

Rabbit survey in West Wales (1961-67). 13846

Immunologic response with reference to the humoral changes in surra. 13993

Fluorescent-antibody studies of muscle larvae Trichinella spiralis (Owen, 1835). II. The indirect fluorescent-antibody method. 15167

Spontaneous Nosema cuniculi infection in laboratory rabbits. 15173

Research on the effects of gradual doses of pyridoxine on xanthurenury caused by massive doses of nicotinamide. 15271

Agar gel immunodiffusion and immunoelectrophoresis studies with the extracts of male and female adult Culex tarsalis. 15356

The protective effect of hexachlorophane against infection with Fasciola hepatica. 15822

The effect of simultaneous treatment with hexachlorophene and nitroxynil upon immature Fasciola hepatica in rats and rabbits. 15829

Precipitating antibodies to infection with Fasciola hepatica in rabbits. Geometridae). (Part VIII.). 15830

RABIES

Case of rabies in guinea pig with long incubation period. 10348

Immune lysis of rabies virus-infected cells. 10361

A note on an outbreak of rabies in horses. 10875

Some observations on the present status of rabies in the Americas. 11585

Studies on the mechanism of action of the Semple antirabic vaccine produced by the State Vaccine and Serum Institute, Warsaw. 13393

Rabies and rabies control in Wisconsin. 13403

Adenine and related substances as potent feeding stimulants for the alfalfa weevil, Hypera postica. 14213

The evolution of the anti-rabies vaccines for domestic animals. 15166

Six cases of human rabies. Clinical and virological studies. 15804

RABIES VACCINES

Immunogenicity of concentrated and purified rabies vaccine of tissue culture origin. 10360

Antirabies vaccines inactivated by beta-propiolactone prepared from new-born kid and mouse brains. 13379

Dog vaccination in the control of rabies. 13384

RABIES VIRUS

Interference between vaccinal virus and rabies virus. 9122

Rabies diagnosis. Observations on strains of virus with low pathogenicity. 10349

Rabiesvirus neuronitis. 11601

Virus localization in rabies. 11622

Rabies in bats in the south-eastern United States. 13942

RACE HORSES

The regulatory and research efforts in response to the occurrence of equine infectious anemia at racetracks in 1965-1966. 10892

RADIATION

Research with ionizing irradiation on the sterilization and radiosensitivity of Chrysomela decemlineata Say. 8096

Radiation induced increase in fitness in Drosophila simulans. 8219

Preliminary laboratory study of the effect of X rays on the fertility of Carpocapsa pomonella (Laspeyresia pomonella L.). 8229

On the mechanization of radiosensitization by 5-bromouracil. Studies on 60Co-gamma irradiated phage phi X-174 and its single-stranded infectious DNA. 8599

Stimulation of porcine splenic cultures by a radiationinduced lymphoid leukemia filtrate: a preliminary report. 9078

Preliminary studies on the effects of gamma irradiation of eggs and adults of the southern green stink bug, Nezara viridula (L.). 9421

Acute radiotoxicity of 144Ce-144Pr after intravenous administration to sheep. 9822

Radiation sensitivity of twelve species of arthropods. 10069

Degradation and anticarboxylesterase activity of disulfoton and phorate after 60Co gamma irradiation. 10465

Non-random localization of lethals in Drosophila. 10578

The effect of radioactive phosphorus on the development of Aedes aegypti larvae. 11223

The effect of X-irradiation on male meiosis in Schistocerca gregaria (Forskal). II. The induction of chromosome mutations. 11430

Physical methods of pest control. 11921

Radiation induced tandem duplications in Drosophila melanogaster. 13157

An analysis of radiation-induced variation on body-weight of Habrobracon juglandis. 13164

Recessive lethals in second chromosomes of Drosophila melanogaster with radiation histories. 13202

Experiments on the effects of radiation on ants. 13685

Infectious bovine kerato-conjunctivitis: A review. 14018

Relative radiosensitivities of three developmental stages, i.e., floral development, gametogenesis and embryogenesis under chronic gamma irradiation. 14101

Mutation induction by EMS in autotetraploid barley. 14319

Prophylactic effect of aminoethylisothiouronium bromide hydrobromide (AET) in combination with bee milk in acute experimental radiation sickness. (JPRS 43,628) Transl. 16961. 15165

Photoreactivation spectrum of tobacco mosaic virus-ribonucleic acid inactivated by ultraviolet radiation. 15519

RADIOACTIVE CONTAMINATION

Contamination of cereals by radionuclides from fallout. 14058

RADIOACTIVE ISOTOPES

Integumental absorption versus oral ingestion of phosphate and other materials by common cattle grubs held in vitro. 8726

The methbolism of glucose uniformly marked with rhdioactive carbon in the leaves of healthy melons compared with those attacked by anthracnose. 11689

Influence of Co60 gamma radiation on the water regime and drought resistance of peppermint plants. 14094

RADIOACTIVE TRACERS

Toxicology and physiology of DDT resistance in the German cockroach. 8138

DNase as a component of multi-enzyme complexes in the blood of saturniid moths. 8175

Absorption of DDT and metabolism of DDT and related compounds by DDT-RESISTANT codling moths. 8180

P32-labeling of common malaria mosquitoes: assimilation by larvae and retention and transfer during mating. 8193

The influence of dietary methionine on the amino acid pool of Hymenolepis diminuta in the rat's intestine. 8498

Binding of 60-co-vitamin B12 by Ascaris suum intestine. 8517

Kinetics of Cl-36 DDT in wild waterfowl. 8561

Effect of DDT on incorporation of C14-labeled glucose into protein and soluble intermediates of nymphal Triatoma infestans. 8743

Hydrocarbon metabolism in insects: Oxidation of hexadecane-1-C14 in the boll weevil and the house fly. 8777

Utilization of tricarboxylic acid cycle intermediates by Haemonchus contortus larvae. 9133

Radiotracer studies on metabolism, degradation, and mode of action of insecticide chemicals. 9169

The metabolism of Bayer 9017 in calves. 9184

The metabolism of carbon-14 specifically labelled glucose in leaves showing tobacco mosaic virus induced local necrotic lesions. 9205

Experimental approaches to pesticide photodecomposition. 9221

Iridium-192 as a tag for carpenter ants of the genus Camponotus (Hymenoptera: Formicidae). 9464

Hormonal control of turnover of tyrosine and tyrosine and tyrosine phosphate during tanning of the adult cuticle in the fly, Sarcophaga bullata. 9465

Metabolism of iodoacetic acid by orange leaves. 9830

The utilization of C14-lahelled adenosine diphosphate during the in vitro respiration of housefly sarcosomes. 9984

The insect predators of the pupal stage of the winter moth, Operophtera brumata (L.) (Lepidoptera: Hydriomenidae). 10009

Vitellogenic blood protein synthesis by insect fat body. 10083

Translocation of assimilates and dalapon in established johnsongrass. 10292

Volatile metabolites from dimethyldithiocarbamate fungicide residues. 10441

Degradation of p32-bromophos by microorganisms and seedlings. 10449

Intercellular movement of C14 in Chara vulgaris, a nonvascular aquatic plant. (Abstract). 10778

Maternal-fetal sulfur utilization in the bovine. (Abstract). 10866

Early stages of aflatoxin carcinogenesis in normal and lipotrope-deficient rats. (Abstract). 10888

Rates of accumulation of C-14-dieldrin residues in tissues of goldfish exposed to a single sublethal dose of C-14-aldrin. 10938

Absorption, translocation and accumulation of labeled N-dimethylaminosuccinamic acid in apple tissues. 10980

Some effects of environment and species on absorption and metabolism of amiben in plants. (Abstract). 10992

Absorption, translocation, and metabolism of CIPC in plants. (Abstract). 10993

Studies on altering transport and accumulation of 14C assimilates in plants. (Abstract). 11004

Metabolism of amitrole-C14 in excised bean and Canada thistle leaves. (Abstract). 11034

Monuron degradation and recovery of monuron-inhibited photosynthetic activity. (Abstract). 11042

Root temperature and transpiration influences on atrazine absorption and translocation. (Abstract). 11049

Further experience obtained in studies on dispersal flights of Meligethes aeneus F., marked with P32 (Coleoptera). 11401

Chlorthal degradation in soils and its uptake by pine seedlings. 11695

Incorporation of glucose-U-C14 into lipids of the blowfly during flight. 11859

Distribution of the corn earworm on St. Croix, U.S. Virgin Islands, and its relation to suppression programs. 12387

Tryptophan is not assimilated in breathing by insects. 12531

Absorption and metabolism of fenthion in blood-sucking arthropods. 12558

Plasmodium gallinaceum: Chicken erythrocyte survival as determined by sodium radiochromate and Di-isopropylfluorophosphate labeling. 12810

Lipid metabolism in helminth parasites. VII. Triglyceride synthesis in Hymenolepis diminuta (cestoda). 12821

Metabolism of cholesterol-4-C14 in insecticide-resistant and susceptible strains of aseptically reared house flies, Musca domestica. 13014

Phytochrome controlled C14-sucrose uptake into etiolated pea buds: Effects of gibberellic acid and other substances. 13478

Movement of water and solutes in sieve tubes of willow in response to puncture by aphid stylets. Evidence against a mass flow of solution. 13486

Phosphorus-32 for marking Tabanidae (Diptera). 13604

Translocation of eight C14-labeled amino acids and three herbicides in two varieties of barley. 13921

Metabolism of aromatic compounds in healthy and rust-infected primary leaves of wheat. II. Studies with l-phenylalanine-U-14C, l-tyrosine-U-14C, and ferulate-U-14C. 14676

Making tests by radioactive phosphorous P32 for the absolute estimations of larval populations of culicids (Diptera-Culicidae). 14869

Measurement of the synthesis of plant viruses through the incorporation of radioactive precursors of ribonucleic acid. 14962

Considerations on chemotherapeutics research in plant virology. 15585

Absorption and translocation of 2,4D by wolftail (Carex cherokeensis Schwein). 15702

RADIOACTIVITY

On the primary stages of orthophosphate absorbtion by mycelium of Penicillium chrysogenum. 9202

Some consequences of irradiating the gypsy moth eggs with radioactive cobalt 60. 9491

Absorption and metabolism of antimycin administered with a rat diet. 9746

Studies on labeled animal poisons. II. Distribution of the venoms of various spiders labeled with Se75 and P32 in the guinea pig. 9812

Water movement in two termite mounds in Rhodesia. 13701

Gamma field symposia. Number 5. Mutations induced by RI and chemicals. July 27-28, 1966. Ohmiya-machi, Ibarakiken, Japan. 14107

RADIOBIOLOGY

The effect of radioactive phosphorus on the development of Aedes aegypti larvae. 13006

A correlation between the ability to withstand high temperatures and radioresistance in Drosophila melanogaster. 14252

RADIOGRAPHY

Sensitivity of Sitophilus zeamais Mots (0 oryzea L.) to ionizing radiations at different stages of its development. Radiographical study of the endogenous stages and actographical registration. 11368

Application of X-radiography to the estimation of larval size in Anobium punctatum (Deg.). 11779

Use of radiography in seed and grain technology. 12595

Pleural haemangioma as a cause of transient ascites in the dog. 13945

RADIOISOTOPES

Acute radiotoxicity of 144Ce-144Pr after intravenous administration to sheep. 9822

The fate of phenyl N,N'-dimethylphosphordiamidate in soil. 10401

Comparison of radioisotopic and gas chromatographic methods for measuring absorption and translocation of 2,4,5-T by mesquite. (Abstract). 11015

Fatty acid metabolism in Drosophila melanogaster: Interaction between dietary fatty acids and de novo synthesis. 11307

Phospholipid synthesis during flight muscle development in the American silkmoth, Hyalophora cercropia. 11405

Efficiency of mutation induced by the absorption of beta emitting radioisotopes in plants. 14085

Gamma field symposia. Number 5. Mutations induced by RI and chemicals. July 27-28, 1966. Ohmiya-machi, Ibarakiken, Japan. 14107

RADISHES

Treatment of mustard and radish seeds for the control of mustard sawfly, Athalia proxima Klug. at seedling stage. 10251

Flea beetles in sugar beet fields. 10735

Cryopreservation and pathogenicity of selected isolates of Colletotrichum, Rhizoctonia, and Phytophthora. 14374

Radish enation mosaic virus. 14465

Leaf injury and food consumption by larvae of Phaedon cochleariae (Coleoptera; Chrysomelidae) and Plutella maculipennis (Lepidoptera Plutellidae) feeding on turnip and radish. 15034

Some quantitative aspects of the phytotoxicity of monoterpenes. 15876

RADOPHOLUS SIMILIS

Banana diseases in the Pacific area. 8924

RAGIMILLET

Effect of thiamine on growth of roots of Dolichos biflorus and Eleusine coracana. 15297

RAILLIETINA

On a new cestode, Raillietina (Raillietina) streptopeliae sp. n. from red turtle dove, Streptopelia tranquebarica tranquebarica. 12834

The role of phylogeny and ecology of helminth and host in the formation of helminth fauna in animals. 12845

RAILLIETINA CESTICILLUS

Tribromophenoxybutyric acid as an anthelmintic against poultry tapeworms. 11646

Raillietina cesticillus: Fatty acid composition. 12751

RAILROADS

Regulations by the mile - the railroad contract applicator's dilemma. (Abstract). 11099

Herbicides - economic tools in railroad vegetation control. 12723

RAINFALL

Alternaria seed infection of wheat. 8283

The relation of climatic factors to the duration of the development of Heterodera schachtii in Slovakia (CSSR). 9028

Pesticides and clay minerals. 10397

Dissemination of waterborne Erwinia amylovora by wind in nursery plantings. 10621

The distribution of terbacil, DuPont herbicide 733 and amizine in two orchard soils, under two precipitation levels. (Abstract). 11073

The influence of abiotic factors on the development cycle of the grape phylloxera (Dactylosphaera vitifolii Schim.) and on a population of jassids (Homoptera, Auchenorrhyncha, Jassidae).
11856

Dispersal of conidia of Dothidella ulei from Hevea brasiliensis.
12617

Effect of simulated rainfall on herbicide performance.
12708

Effects of two environmental factors on removal of 2,4-DB from forage.
12728

Properties and effects on WL-9385-D on rice and some weed species.
13467

Effectiveness of an extended Agri-mycin-17 spray schedule against fireblight.
13812

Application of the herbicide 2,4-D in summer wheat crops. rakitin, y v mikhailova, t p.
13905

Bacterial rust on sour cherries and pears.
14340

Pesticide spraying during the rains.
14433

Factors affecting the infestation of aphids on potato plants.
14481

Some factors affecting the disappearance of tordon in soil.
14533

Is it possible to draw any conclusions from the red epidemic of 1967, in regard to the appearance of the disease during this year.
14678

Population dynamics of rice stink-bug (Leptocorisa varicornis Fabr.) in relation to weather factors.
14879

Rat-flea indices, rainfall, and plague outbreaks in Vietnam, with emphasis on the Pleiku area.
15407

RAMS

Ram epididymitis vaccination.
10853

Antigenic relationship of Brucella ovis and Brucella melitensis.
12767

Infectious Epydidimitis in rams by Brucella ovis. The first study in Uruguay.
15179

RANATRA

The female genital apparatus of Ranatra (Hemiptera, Ranatridae).
14801

RANGE MANAGEMENT

Wyoming range management.
10602

RANGES

Downy brome control by soil-active herbicides for revegetation of rangelands.
10283

Ozark range and wildlife plants.
11440

Life expectancy of a sagebrush control in central Wyoming.
13349

Chemical weed control in pasture, range and hayland.
15129

RANUNCULACEAE

The effects of soil treatments on anemone downy mildew infection.
13261

Rust, Tranzschelia discolor (Fckl.) Tranz. and Litv., on peach, Prunus persica (L.) Batsch.
14937

RAOLIELLA INDICA

Trials with pesticides against red mites--Raoliella indica Hirst in Kerala.
13852

RAPE

A study of the activity of diphenamid and three analogs. (abstract).
8582

Toxicity of tall fescue to rape and birdfoot trefoil seeds and seedlings.
9210

Phytotoxicity of bemethylated analogs of diphenamid.
10290

Flea beetles in sugar beet fields.
10735

Effect of (2-chloroethyl) trimethylammonium chloride (CCC) on frost resistance, yield, and seed quality indexes of winter rape.
12244

How physiological changes in the spring rape influence the distribution density of the cabbage aphid (Brevicoryne brassicae L.).
12552

Inheritance of split cotyledons in swede turnips (Brassica napus).
14326

Importance of industry and labor to plant care in farm management.
14331

The importance of preceeding crop-dependent shifts in the micro flora of the soil. I. The influence of soil fungi on the root development of wheat, peas, and rape.
14353

Characteristic of development and noxiousness of the most important diseases and pests of industrial plants in Poland in the year 1967 and their forecast for 1968.
15032

RAPESEED

How you can control weeds in rapeseed.
13362

RAPHANUS RAPHANISTRUM

The control of wild radish in Katahdin potatoes (1967).
8398

Detoxification of 2,4-D in plants depending upon the peculiarities of its application.
14089

RAPHIGNATHIDAE

New species of mites from pine (Acarina: Tarsochelidae, Eupalopsellidae, Caligonellidae, Cryptognathidae, Raphignathidae, and Neophyllobiidae).
10507

RASPBERRIES

The occurrence and some properties of black raspberry latent virus.
8941

Occurence of tomato ringspot virus in red raspberries in the eastern United States.
9556

A model outbreak of the mite Tetranychus mcdanieli McGregor in Ontario.
10721

A root rot of red raspberry caused by Phytophthora erythroseptica.
11957

Transmission of strains of raspberry ringspot and tomato black ring viruses by Longidorus elongatus (de Man).
12662

A contribution to the study of cicada (Cicadetta montana Scop.) as pest of raspberries (rubus idaeus L.) in the regions of Valjevo and Cacak.
13307

Neotetranychus rubicola Bagd. on the raspberry bush in Serbia.
14501

The raspberry ringspot virus and its cell inclusion bodies.
15480

Dewberry and raspberry fungicidal spray programs.
15503

The raspberry stem gall midge (Lasioptera rubi) a little known pest of raspberry.
15588

Blackberry, dewberry and raspberry insects.
15678

RATS

Immunologic reactions in animals with tumors.
8446

Fluorescent antibody staining of four Babesia species.
8467

Evidence for conversion of DDT to TDE in rat liver: I. Liver/body fat ratios of TDE.
8472

Effect of biotin deficiency on food intake and body and organ weights of male albino rats.
8473

The influence of dietary methionine on the amino acid pool of Hymenolepis diminuta in the rat's intestine.
8498

Aldrin epoxidase activity of rat liver and rat liver microsomes under various conditions of storage.
8560

Degradation of parathion in the rat.
8570

Biochemical changes in rat liver in response to treatment with drugs and other agents--II. effects of halothane, DDT, other chlorinated hydrocarbons, thioacetamide, dimethylnitrosamine and ethionine.
8571

Thin-layer chromatography of rat bile and urine following intravenous administration of pesticidal synergists.
9171

Acute cutaneous toxicity of certain organophosphorous insecticides. I. Lebaycid.
9172

Studies of warfarin resistance in the rat. (Abstract).
9179

The biology and control of the rice field mole rat of Ceylon, Gunomys gracilis.
9674

Virus induced cataracts.
9715

Metabolism of linear alkylate sulfonate and alkyl benzene sulfonate in albino rats.
9731

Oxidation of methyl- and dimethylcarbamate insecticide chemicals by microsomal enzymes and anticholinesterase activity of metabolites.
9740

Polymethacrylic acid: Effects on lymphocyte output of the thoracic duct in rats.
9741

Absorption and metabolism of antimycin administered with a rat diet.
9746

The rate of breakdown of methyl methanesulphonate, dimethyl sulphate and N-methyl-N-nitrosourea in the rat.
9754

Fate of C14-maleic hydrazide in rats.
9798

Effect of 2,4-D on incorporation of 14C into urinary metabolites from rats receiving 14C-labeled acetate.
9799

MCD-PEPTIDE from bee venom: Isolation, biochemical and pharmacological properties.
9804

Effect of o,p'-DDD and metyrapone (SU-4885) on development of renal hypertension in rats.
9807

Stimulation of hepatic microsomal drug-metabolizing enzymes by alpha,alpha-bis-(p-chlorophenyl)-3-pyridinemethanol and a method for determining no-effect levels in rats.
9811

Preliminary studies on venom from the brown recluse spider Loxosceles reclusa.
9816

The acute toxicity of ochratoxin A to rats.
9817

Vitamin A metabolism in protein deficiency.
10324

Effect of manganese and cobalt on ascorbic acid metabolism in rats.
10352

Endrin induced alterations in bound carbohydrates in rat serum.
10423

Nucleic acid content in small samples and individual spinal cord cells at different functional states.
10832

Effects of dietary protein level on acute toxicity and metabolism of heptachlor in the laboratory rat. (Abstract).
10849

Absence of interaction between cyclopropenoid fatty acids and aflatoxin in rats. (Abstract).
10860

Angiostrongylus cantonensis: Proof of direct transmission with its edidemiological implications.
10867

Uncoupling effect of cytoplasmic fraction of Trichinella spiralis larvae on bioenergetics of rat muscle mitochondria.
10878

Early stages of aflatoxin carcinogenesis in normal and lipotrope-deficient rats. (Abstract).
10888

Possible route of toxicity of rat pups injected with cycasin. (Abstract).
10906

The effect of chlorophos upon the content of certain vitamins in the tissue of rats.
10942

Estrogenic action of DDT and its analogs. (Abstract).
10949

Hydrolysis of malathion by chicken and rat liver carboxyesterase. (Abstract).
10950

New dermanyssid mites (Acari: Mesostigmata) from nests of Spalax ehrenbergi Nehring.
11120

Studies on wild reservoirs and vectors of Trypanosoma cruzı . XXXIV: Natural infection of the rat, Oryzomys capito laticeps (Lund, 1841).by T. Cruzi .
11597

Production of acid mucopolysaccharides in mammalian fibroblast tissue cultures transformed by Rous sarcoma virus.
11618

Some rodenticidal properties of coomatetralyl.
11661

Cholinolytics in the treatment of anticholinesterase poisoning. V. The effectiveness of Parpanit with oximes in the treatment of organophosphorus poisoning.
11678

Effects of aflatoxin B1 and other carcinogens upon nuclear RNA of various tissues in the rat.
11679

Effect of isomers of DDD on thyroid and adrenal function in rats.
11680

Bandicota indica and sylvatic plague in Vietnam.
11913

Inclusion bodies in hepatic cytoplasm of dogs and rats after administering endotoxin.
12142

Equine babesiosis: diagnosis by bentonite agglutination and passive hemagglutination tests.
12172

Identification of metabolites of dieldrin (HEOD) in the faeces and urine of rats.
12221

Acute cutaneous toxicity of certain organophosphorous insecticides. II - Phosphamidon
12226

Ecological and biological data on Synopsyllus fonquerniei Wagner and Roubaud, 1932 (Siphonaptera), a flea of the domestic rat in the region of Tananarive.
12484

Control of Oriental rat flea in Vietnam with diazinon dust.
12591

Experimental fascioliasis in small mammals: Apparent effects of bithionol on Fasciola hepatica in rats.
12826

Hymenolepis diminuta: Effect of quality of host dietary carbohydrate on growth.
12829

The homeostasis of the host and the development of the parasite.
12854

Rats and mice enemies of production, hazard to health.
12880

Hydroxy coumarins as rodenticide in warehouses.
12882

A preliminary study of the rodenticidal activity of some derivatives of 2-arylindandione-1,3 and 2-arylacylindandione-1,3.
12897

Studies on the mechanism of action of the Semple antirabic vaccine produced by the State Vaccine and Serum Institute, Warsaw.
13393

Adenosine triphosphatase sensitive to DDT in synapses of rat brain.
13461

Adenosine triphosphatase sensitive to DDT in synapses of.
13462

Rat-control procedures on the Pacific Islands, with special reference to the efficiency of biological control agents. I. Appraisal of the monitor lizard, Varanus indicus (Daudin), as a rat-control agent on Ifaluk, Western Caroline Islands.
13923

Thieves in the poultry house.
13927

Biochemistry of malignant growth.
13997

Section I.--Insect control.
14062

Musk, brown rats and harvest mice as pests in maize.
14541

Ridding rice fields of rats.
14542

Comments on rat-free towns.
14544

Diaplacentarian immunity to foot-and-mouth virus in nursing rats: correlation and regression.
14594

Varification of antibodies of Newcastle virus in rats inoculated with different types of experimental vaccines.
14609

Localization of glycogen in the cestode, Hymenolepis diminuta.
14642

Respiratory activity of Trypanosoma lewisi during several phases of infection in the rat.
14643

Trypanosoma lewisi: Creatine phosphokinase, ornithine carbamyl transferase, ATPases, Pi, and glucose levels in the rat host.
14644

A new idea from California--lollipop bait cube.
14648

Effect of carbaryl on the neuroendocrine system of rats. foodstuffs: a multi-detection scheme for gas chromatography of solvent extracts.
14662

An interaction of dieldrin with thiamine.
14664

Prophylactic effect of aminoethylisothiouronium bromide hydrobromide (AET) in combination with bee milk in acute experimental radiation sickness. (JPRS 43,628) Transl. 16961.
15165

Production of acid mucopolysaccharides in mammalian fibroblast tissue cultures transformed by Rous sarcoma virus.
15183

Use of the nucleic acid hybridization method for the demonstration of DNA homologous to Rous virus RNA in RSV--TRANSFORMED mammalian cells.
15184

Interaction of Rous sarcoma virus with rat embryo fibroblasts of inbred Lewis strain in vitro.
15191

Experimental destruction of rats, either temporary or uninterrupted, using grain poisoned with coumafene (warfarin).
15233

Structural and biochemical changes in tissues isolated from the cantharidin-poisoned rat with special emphasis upon hepatic subcellular particles.
15261

The toxicology and pharmacodynamics of dieldrin (HEOD): Two-year oral exposures of rats and dogs.
15273

Research concerning secondary effects of chlorcholinchlorid (CCC).
15341

Reduction of dieldrin storage in rat liver: Factors affecting in situ.
15398

Rat-flea indices, rainfall, and plague outbreaks in Vietnam, with emphasis on the Pleiku area.
15407

Utilization of glucose in chicken liver and muscle and effect of alloxan on it.
15795

The pharmacokinetics of HEOD (Dieldrin) in the rat.
15815

Abundance of rodents and fleas as related to plague in Lava Beds National Monument, California.
15817

The effect of simultaneous treatment with hexachlorophene and nitroxynil upon immature Fasciola hepatica in rats and rabbits.
15829

Endrin induced trace metal alterations following acute exposure.
15849

Dietary protein and DDT toxicity.
15877

DDT: Inhibition of an ATP-ASE in the rat brain.
15886

RATTLE DISEASE

Functions of the two particles of tobacco rattle virus.
9601

Unusual strains of phytopathogenic viruses.
11986

Investigations on the influence of crop rotation on the population density of free-living nematodes in connection with potato corky ringspot. II. Occurrence of the virus disease.
13808

Association of tobacco rattle virus with mitochondria.
15517

RATTLE DISEASE (TOBACCO)

Enhancement of tobacco rattle virus stable form infection by heterologous short particles.
14447

RAW MATERIALS

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O,O-diethyl O-(2-isopropyl-4-methyl-6-pyrimidinyl) phosphorothioate.
9532

Notice of filing of petition regarding pesticide chemicals.
9788

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Norea.
9789

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O,O-dimethyl S-(4-oxo-1,2,3-benzotriazin-3(4H)-ylmethyl) phosphorodithioate.
9790

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 2-(p-terthutylphenoxy)cyclohexyl 2-propynyl sulfite.
9791

Notice of withdrawal of petition regarding pesticides.
9794

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 2-ethylamino-4-isopropylamino-6-methylthio-s-triazine.
9795

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 2-chloro2',6'-diethyl-N-(methoxymethyl) acetanilide.
13446

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O-Ethyl S,S-dipropylphosphorodithioate.
13447

Bacteriological control of ice cream manufacture. Part 1. Introduction and raw materials.
14037

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Food additives 2,2-dichlorovinyl dimethyl phosphate.
15858

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Certain surfactants in pesticide formulations; extension of time for filing comments on proposal to exempt from requirement of tolerances.
15863

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O,O-Dimethyl S-(4-Oxo-1,2,3-Benzotriazin-3(4H)-ylmethyl) Phosphorodithioate.
15865

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Trifluralin.
15870

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Streptomycin.
15871

REARING

Polystyrene beakers for eelworm culture.
13866

Tissue culture and maintenance of the root-lesion nematode, Pratylenchus vulnus.
13888

Monoxenic culturing of Dolichodorus heterocephalus on corn root callus.
13891

Tetrahymenid ciliates as parasites of the gray garden slug.
13922

DD--136: The worm that makes short work of insect pests.
14215

Development of Caenorhabditis briggsae and Hymenolepis nana in interchanged media. France.
14633

On mass cultivation, determination of effectiveness, and standardization of insect pathogenic fungi.
14857

RECTUM

The rectal glands of Halosalda lateralis (Fallen) (Hemiptera: Saldidae) and Hydrometra stagnorum (L.) (Hemiptera: Hydrometridae).
13055

Osmotic regulation and rectal absorption in the blowfly, Calliphora erythrocephala.
15413

RECURVARIA LEUCATELLA

Apple moth (Recurvaria leucatella), a little known pest of fruit trees.
12049

RED CLOVER

Accumulation of fluoride by forage crops.
11664

Virogeographical studies on the clover phyllody virus and its vectors.
12019

The pollinating activities of bumble bees and honeybees in relation to temperature, competing forage plants, and competition from other foragers.
12557

Slaframine: A parasympathomimetric from Rhizoctonia leguminicola.
12750

Chemical control of stem nematodes in red clover.
13342

Phytotoxicity of sporidesmin.
14069

Preplant herbicides for control of weeds in red clover.
15132

RED CLOVER MOTTLE VIRUS

Contribution to the serological study of plant viruses by the agar double diffusion technique. II.--RELATIONSHIPS between the French broad bean mosaic virus (MF) and the red clover mottle virus (RCMV).
14941

RED STELE

Development of controlled conditions for the study of red stele disease on strawberries.
8216

Susceptibility of strawberry varieties to red stele disease.
10648

REDPEPPERS (VEGETABLE)

Characterization of a strain of Xanthomonas vesicatoria (Doidge) isolated from a commercial field of greenpepper (Capsicum annuum L.) in Campinas, Sao Paulo.
8950

Laboratory rearing of pepper weevils on artificial diets.
9486

Pepper production in Kentucky.
9558

Association of pepper ringspot virus (Brazilian tobacco rattle virus) and host cell mitochondria.
11479

Effect of buffer salt and H-ion concentration on potato virus X infection on Capsicum pendulum Willd..
14976

REDUVIIDAE

Breath lures bloodsucking bugs.
8920

Palearctic species from the genus Phymata latreille, 1802 (Hem. Het. Reduviidae).
9907

The predatory and reproductive behaviour of Rhinocoris bicolor and R. tropicus (Hemiptera: Reduviidae).
10085

A monoxenic relationship, Nocardia rhodnii Erikson in the gut of Rhodnius prolixus Stahl. (Hemiptera: Reduviidae).
10542

Morphology of spermatogenetic tubes as taxonomic character in Triatominae (Reduviidae, Hemiptera).
11202

Pathogenicity of Trypanosoma rangelli for Rhodnius prolixus Stal in nature (Hemiptera: Reduviidae) (Kinetoplastida: Trypanosomatidae).
11437

Contribution to the morphology and phylogeny of the Reduvioidea. Part IV. The harpactoroid complex.
11805

The subspecies of Rhinocoris iracundus (Poda), 1761 (Heteroptera, Reduviidae).
12338

A new species of the genus Panstrongylus Berg, 1879 (Reduviidae, Triatominae).
12956

A comparative morphology of Panstrongylus geniculatus (Latreille, 1811) and Panstrongylus megistus (Burmeister, 1835) and their external genitalia (Hemiptera, Reduviidae, Triatominae).
13080

Histochemical data on the cardiac bodies of Antheraea pernyi Guer. (Lepidoptera, Attacidae) and of Rhodnius prolixus Stal. (Hemiptera, Reduviidae).
14191

Biological notes on the genus Tinna Dohrn (Hemiptera, Reduviidae, Emesitae).
14777

REFORESTATION

Effect of silvicultural practices upon arthropod, annelid, and nematode populations in coniferous forest soil.
14317

REFRIGERATION

In vitro: Ending of egg diapause in some Tettigoniids.
15361

REFUSE DISPOSAL

Fly and economic evaluation of urban refuse systems. I. Control of green blow flies (Phaenicia) by improved methods of residential refuse storage and collection.
14031

Fly larval migration from residential refuse containers in the city of Fresno.
14033

REGENERATION

The role of the nervous system in insect morphogenesis and regeneration.
8168

Nerve regeneration in the cockroach, Leucophaea maderae: The effect of humoral substances in vitro.
13085

Observations on several cases of leg regeneration in Loxosceles rufescens (Dufour) (Araneae, Scytodidae).
13609

Hormonal control of imaginal disc regeneration in Galleria mellonella (Lepidoptera).
14236

Preliminary observations on moulting and limb regeneration in the mite Caloglyphus boharti.
14280

Study of the phenomena resulting from putting in competition the different regeneration areas of the antennae of the phasmid Sipyloidea sipylus Westwood.
14886

Local conditions of the severance and of the regeneration of a foot in the insect Carausius morosus Br.
15350

The influence of x-rays on tarsal regeneration in an insect.
15353

REGRESSION ANALYSIS

Estimating temperatures and heat flux in insect environments in stubbed cotton fields in the winter.
8121

Toxicology and physiology of DDT resistance in the German cockroach.
8138

Use of the multiple regression equation in the prediction of the insecticidal activity of anticholinesterase insecticides.
8143

The relative susceptibility of the larvae of Spodoptera mauritia acronyctoides (Guenee) (Lepidoptera: Noctuidae) to several contact insecticides.
13300

REGULATION (DRUGS)

Acetazolamide. Drugs for veterinary use; drug efficacy study implementation.
9719

Hydrochlorothiazide. Drugs for veterinary use; drug efficacy study implementation.
9726

Hemostop. Drugs for veterinary use - drug efficacy study implementation.
12115

Notice of withdrawal of petition for food additive spectinomycin.
12151

Anthol. Drugs for veterinary use - drug efficacy study implementation.
12195

Ringet. Drugs for veterinary use; drug efficacy study implementation announcement.
12196

Wormal granules and wormal tablets. Drugs for veterinary use - drug efficacy study implementation.
12197

Calcium disodium edetate injection. Drugs for veterinary use - drug efficacy study implementation.
12228

REGULATION (PESTICIDES)

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O,O-diethyl O-(2-isopropyl-4-methyl-6-pyrimidinyl) phosphorothioate.
9532

Notice of filing of petition regarding pesticide chemicals.
9787

Notice of withdrawal of petition regarding pesticides.
9794

Food additives permitted in food for human consumption. Adjuvants for pesticide use dilutions.
9797

Pesticide regulations and residue prohlems in Japan.
11670

The comprehensive regulation of pesticides.
11713

Notice of filing of petition regarding pesticide chemicals.
12215

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Insecticide mixture.
12217

N'-(4-chloro-o-tolyl)-N,N-dimethylformamidine. Notice of establishment of temporary tolerance for pesticide chemicals.
12218

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O-Ethyl S,S-dipropylphosphorodithioate.
13447

They want to ban DDT.
13523

REGULATIONS

Regulatory activities of the Connecticut State Board of Pesticide Control.
8529

Brucellosis. Subpart D. Designation of modified certified brucellosis areas, public stockyards, specifically approved stockyards and slaughtering establishments.
9864

The use of chloropicrin for soil disinfection.
10592

Domestic quarantine notices. Imported fire ant. Exemptions.
10738

Food additives permitted in feed and drinking water of animals or for the treatment of food producing animals. Food additives permitted in food for human consumption. Chlormadinone consumption.
10834

Notice of filing of petition for food additive nequinate.
10856

Notice of withdrawal of petition for food additive ruelene.
11584

Foot-and-mouth disease: Britain strives to curb epidemic.
12182

Dibutyltin dilaurate. Drugs for veterinary use, drug efficacy study implementation.
13385

Chlorhexidine dihydrochloride. Drugs for veterinary use, drug efficacy study implementation.
13386

Amphetamine sulfate. Drugs for veterinary use, drug efficacy study implementation.
13387

Furaspor liquid veterinary. Drugs for veterinary use, drug efficacy study implementation.
13388

Histostat. Drugs for veterinary use; drug efficacy study implementation.
13389

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 2-chloro2',6'-diethyl-N-(methoxymethyl) acetanilide.
13446

Official measures for the control of bovine leucosis.
14116

Grasshopper control in South Dakota, 1969.
15015

REOVIRUSES

Avian reoviruses II. Physicochemical characterization and classification.
9696

Avian reoviruses. I. Isolation and serological characterization.
9697

A viral disease of goslings. II. Microscopic lesions.
13976

REPELLENCY TESTS

Repelling pheasants from sprouting corn with a carbamate insecticide.
8443

Oviposition response of Aedes sollicitans, Aedes taeniorhynchus, and Psorophora confinnis to seven inorganic salts.
15411

REPORTS

Activity of the working groups: Working group on San Jose Scale .
8359

Report of the Anti-locust Research Centre 1965.
10552

Report of the Anti-locust Research Centre for 1966.
10553

Ninety-seventh annual report of the secretary of the State Horticultural Society of Michigan.
10604

Ruhber Research Institute of Malaya. Annual report 1966.
10607

Annual report of the Indian Institute of Sugarcane Research, Lucknow, 1964-65. (Mycology, by K. Singh; Research project on investigation and control of virus diseases of sugarcane, by K. Singh; Entomology, by A. N. Kalra).
10609

Report of the 1965 West Virginia oak wilt program.
11462

Report of the symposium on virus diseases of rice.
12074

Tea Research Association. Annual scientific report 1967-68.
12109

Rhinoncus bruchoides (Herbst) (Col., Curculionidae) in West Kent.
13095

Polydrusus confluens Steph. (Col., Curculionidae) recorded in error from oak.
13298

Report of the Joint AOAC-AOCS Aflatoxin Committee.
13460

A report of canthariasis and allergy caused by Trogoderma (Coleoptera: Dermestidae).
14039

Preliminary report about my breeding attempts with Micropteryx calthella L. (Lep., Micr.).
14234

The Tea Research Institute of Ceylon. Annual Report for the year 1966. Part II.
14304

Sugarcane diseases in the Punjab--A survey report.
14440

Ministry of Overseas Development, Tropical Pesticides Research Unit, annual report.
14708

Report to the Government of Madagascar on locust control.
14871

Report of the Seventh FAO Ad hoc Conference on the Control of Olive Pests and Diseases, Palermo, Italy, 2 to 9 May, 1967.
15036

North Central weed control conference. Twenty-fourth annual research report.
15127

REPRODUCTION

The response of a predator, Hypoaspis aculeifer (Canestrini) (Acarina:Laelapidae), to two species of prey.
8081

Effect of temperature on the progeny production and longevity of Lespesia archippivora in the laboratory.
8093

The protein nature of the substance inducing female monogamy in Aedes aegypti. despommier, d d.
8118

Observations on the functional anatomy of the reproductive organs of Sitophilus (Coleoptera: Curculionidae).
8145

Recent advances in bee communication and orientation.
8154

Effect of irradiation on mating preference and reproduction suppression of Drosophila melanogaster.
8157

Sex pheromone specificity: Taxonomic and evolutionary aspects in Lepidoptera.
8179

Analysis of sequences of matings in Drosophila mating chamber experiments.
8184

Feeding and reproduction of the grain and the mushroom mite on wood-inhabiting hymenomycetes.
8192

The productivity of four inhred strains of Drosophila melanogaster.
8221

Grain aphids in New brunswick. IV. Effects of malathion and 2,4-D amine on aphid populations and on yields of oats and barley.
8320

Effect of 5-fluorouacil and 5-bromo-2'-deoxyuridine on the induction of thymidine kinase in polyoma virusinfected mouse embryo cells.
8488

Dieldrin effects in two generations of penned hen pheasants. 8537

Pesticide residues in a marine population of double-crested cormorants. 8545

Female specific protein: Biosynthesis controlled by corpus allatum in Leucophaea maderae. 8750

Effect of biotin on the fertility of the yellow fever mosquito, Aedes aegypti (L.). 8833

Factors affecting the sex ratio of Aphytis proclia Wlk. (Hymenoptera, Aphelinidae), external parasite on the San Jose scale. 8873

Nutritional requirements for reproduction of a temperature sensitive nematode, reared in axenic culture. 9030

Variations in body temperature associated with reproductive state in the female rabbit. 9055

Red blood cell count in relation to reproductive phases in the female rabbit. 9056

Relationship of viruses to reproductive problems. 9094

DDT residues and declining reproduction in Bermuda petrel. 9166

The recognition of nulliparous and parous Culicoides (Diptera: Ceratopogonidae) without dissection. 9371

Selection for generation time in Drosophila melanogaster. 9403

Diapause and reproduction in Nebria brevicollis (F.) (Coleoptera: Carabidae). 9449

Cyclic ovariole changes in Anopheles farauti Laveran (Diptera: Culicidae) in Papua-New Guinea. 9475

Some factors influencing the reproduction and longevity of Coccinella septempunctata Linnaeus (Coleoptera: Coccinellidae). 9480

Diapause in Chrysopa carnea (Neuroptera: Chrysopidae. I. effect of photoperiod on reproductivity active adults. 9483

The endocrine control of protein metabolism as related to reproduction in the fleshfly Sarcophaga bullata. 9502

Vivipary in Zea mays induced by Diplodia maydis. 9554

The effect of DDT on reproduction in mice. 9759

Effect of antiserum to E. coli DNA polymerase on synthesis of phi chi 174 DNA extracts of phi chi infected cells. 9848

Studies on an Israel strain of Anagyrus pseudococci (Girault) (Hym., Encyrtidae). II. Some biological aspects. 9964

Deviate-ontogenies in the aphelinid male (Hymenoptera) associated with the ovipositional behavior of the parental female. 10006

Spermatophores of the Blattaria. 10024

The predatory and reproductive behaviour of Rhinocoris bicolor and R. tropicus (Hemiptera: Reduviidae). 10085

Effects of the antifeeding compound AC-24055 (4'-(3,3-Dimethyl-1-triazeno)acetanilide) on the survival, development, and reproduction of some stored-products insects. 10544

Studies on the environmental factors for the breeding of grain mites. Part IX. The effect of relative humidity on the age composition of the population of Lardoglyphus konoi. 10549

Mating of untreated and tepa-chemosterilized fall armyworm moths. 10575

Prevention of littering in animals with dehydroepiandrosterone 3-(2'-tetrahydropyranyl)ether. Patent 3,428,733. 10842

Reproduction in dogs chronically fed methyl testosterone (MT) or 6-chloro-17-acetoxy progesterone (CAP) with dieldrin. (Abstract). 10891

Diet consumption, bodyweight change, estrus inhibition and reproductive performance in gilts fed a dithiocarbamoylhydrazine (ICI 33828). 10896

Successful laboratory mating of two species of jackrabbit bot flies. 11224

The effect of some trace elements on growth, reproduction, and symbionts of artificially fed Neomyzus circumflexus Buckt. (Aphidae, Homoptera, Insecta). 11265

Studies on the utilization of natural enemies as biotic insecticides . Effect of physical factors on the culture of Pseudaphycus malinus Gahan. 11304

Haemolymph proteins and water uptake in female Leucophaea maderae during the sexual cycle. 11385

Replication and cytopathogenicity of avian infectious bronchitis virus in chicken embryo kidney cells. 11587

Augmentation of the pathogenicity of the ribonucleic acid of foot-and-mouth virus by addition of diethylaminoethyl-dextran. 11596

Failure of effective insemination of young female Aedes aegypti mosquitoes. 11885

Reproductive capacity of the green peach aphid on Maryland tobacco. 12461

Shot-hole borer of tea plant in Japan. 12475

On the effect of mating and nutrition on the reproduction of Culex pipiens fatigans Wiedemann. 12487

The exploitation and conservation of resources by populations of insects. 12498

X-ray radiation effects on survival and sterility of adults of the cereal leaf beetle. 12500

Metepa as a chemosterilant for adult female pink bollworms. 12507

Study of the morphological and anatomical characteristics of female Glossina and their relationship to physiological age. 12550

Photoperiodism in relation to development and reproduction in the green stink bug. 12554

Trypanosoma cruzi: Effects of gamma radiation on growth and infectivity. 12781

Growth rate of two Taenia crassiceps strains. 12828

A chemosterilant feeder for insects. 12934

Field and laboratory studies on sex ratio in Ips acuminatus (Coleoptera: Scolytidae) in Norway. 13008

The productivity of four inbred strains of Drosophila melanogaster. 13027

Population dynamics, growth, feeding and reproduction of Deroceras reticulatum in the Leningrad district. 13041

Effect of mating with males reared in continuous light or in light--dark cycles on fecundity in Plodia interpunctella Hubner (Lepidoptera: Phycitidae). 13083

Grain aphids in New Brunswick. IV. Effects of malathion and 2,4-D amine on aphid populations and on yields of oats and barley. 13297

Reproduction of stored-grain insects on varieties of wheat, oats, and barley. 13323

Epilecta linogrisea Schiff. in Normandy, their pursuit today, their raising from eggs. 13580

Coitus by Aedes aegypti males with unrotated and partially rotated terminalia. 13596

Monogyny in ant societies. 13600

Sexual receptivity in female Aedes aegypti. 13632

Fertilization in Drosophila. III. A revaluation of the role of polyspermy in development of the mutant deep orange. 13633

Aliesterase activity and reproduction in Blattela germanica. 13635

Establishment and maintenance of a laboratory colony of Aedes nigromaculis (Ludlow) (Diptera: Culicidae) by induced mating. 13656

Acoustic synchrony: Two mechanisms in the snowy tree cricket. 13700

Karyotypes and sex determination in spider mites (Tetranychidae). 13719

Progeny: Sperm ratios and non-functional sperm in Drosophila melanogaster. 13728

The pear Phylloxera aphanostigma piri Cholod. et Mokrz. (Phylloxeridae). 13844

Aliesterase activity and reproduction in Musca domestica: Effects of DDT and metepa. 13863

Infertility in copper-deficient guinea-pigs. 13956

Continuous and rhythmic reproductive cycle observed in Periplaneta americana (L.). 14182

Aziridinyl chemosterilants for house flies. 14186

The ultrastructure and electrophysiology of the membranous lobe of the antenna in Speophyes lucidulus larvae (Coleoptera). 14192

Sperm activation and migration in bed bugs. size in hypersensitive hosts in the presence of chloramphenicol. 14257

Pathogenic variability and the unit representing a single fertilization in Puccinia coronata var. avenae. 14306

Regulation of growth, flowering and fruit abscission of apples and peaches with Amchem 66-329. (Abstract). 14309

Vegetative and reproductive responses of highbush blueberry to succinic acid 2,2-dimethylhydrazide (Alar). 14314

Cucumber sex expression modified by 2-chloroethanephosphonic acid. 14683

A contribution to the understanding of the biology of Sesamia cretica Led. (Lepidoptera Agrotidae) in Tripolitania. 14809

Infrastructural study of the corpora allata of Locusta migratoria migratorioides (R. and F.), solitary phase, during sexual maturation and the ovarian cycle. 14818

Population of Myzus persicae Sulz. in potato crop at Patna. 15021

In vitro: Ending of egg diapause in some Tettigoniids. 15361

Autogeny in Culex peus Speiser. 15431

Orientation and segregation of asynaptic multiple sex chromosomes in the male Omophoita clerica Erichson (Coleoptera: Alticidae). 15439

Chemosterilants for control of reproduction in the eye gnat (Hippelates collusor) and the mosquito (Culex quinquefasciatus). 15448

REPRODUCTIVE ORGANS

The structure of the female genital ducts and of the spermatheca in Gryllus campestris L. 8101

Observations on the functional anatomy of the reproductive organs of Sitophilus (Coleoptera: Curculionidae). 8145

Observations on the genital structures in several genera of Bruchidae (Coleoptera). 8681

A natural hybrid butterfly of the genus Vanessa in New Zealand. 8825

Postembryonic development of the male and female reproductive systems of Frankliniella fusca (Hinds) (Thripidae) and Haplothrips verbasci (Osborn) (Philaeothripidae) (Thysanoptera). 9397

Notes on the male germ cells of a beetle, Leptinotarsa decemlineata. 10115

Progeny suppression of Attagenus megatoma and Trogoderma parabile by dietary factors. 10521

Morphology and relationships of the Pentatomoidea (Heteroptera). IV. Oncomerinae (Tessaratomidae). 11159

Morphological and phylogenic studies on the larvae and male genitalia of the East Asiatic Tingidae (Heteroptera). 11165

Morphology of spermatogenetic tubes as taxonomic character in Triatominae (Reduviidae, Hemiptera). 11202

Ultrastructure of the vas deferens of Apis mellifera L.. 11247

Morphology of the reproductive system of Strumeta tryoni (Froggatt) (Diptera: Trypetidae) with a method of distinguishing sexually mature adult males. 11258

Notes on the muscles closing the anal and genital opening and on the reproductive structure in mature Oribatei. 11279

The structure of the female reproductive system in the Mymaridae (Chalcidoidea: Hymenoptera). 11310

Effects of allatectomy on the imaginal development of the female genital tract in Locusta migratoria migratorioides (Insecta, Orthoptera). 11328

Hormone-mediated nutritional control of sexual behavior in male dung flies. 11815

Histological changes in the gonads of house flies fed nmethyl p,p-bis(1-aziridinyl) phosphinic amide and p,p-bis(1-aziridinyl)-n-(3-methoxypropyl) phosphinothioic amide. 11899

On the genitalia of Merodontina sikkimensis Enderl. (Asilidae, Diptera) with a description of a new species of Merodontina Enderl. from India. 12380

Anatomical and histological changes in internal organs of adult Trypodendron lineatum, Gnathotrichus retusus and G. sulcatus (Coleoptera: Scolytidae). 12532

Experimentally induced Mycoplasma meleagridis infection of turkey reproductive tracts. 12787

A comparative morphology of Panstrongylus geniculatus (Latreille, 1811) and Panstrongylus megistus (Burmeister, 1835) and their external genitalia (Hemiptera, Reduviidae, Triatominae). 13080

Revision of the genus Brachyderes Schonherr, with special reference to the study of its generative organs and its geographic distribution in the Iberian peninsula. 13543

Coitus by Aedes aegypti males with unrotated and partially rotated terminalia. 13596

Sugars and trehalase in the reproductive organs and hemolymph of the queen and drone honey bees (Apis mellifica l. var. ligustica spin.). 13597

Study of the life cycle of Aphelenchoides composticola. 13868

Study of the genital pathology of cattle (female) killed in the slaughter houses of the center of the country. 13969

Epidemiology of tea blister blight (Exobasidium vexans). the genus Graphelysia Hampson, 1911 (Lepidoptera -Heterocerca). 14384

Studies on the parasitsm and control of tea root disease fungi in Ceylon. Heteroptera. 14448

The female genital apparatus of Ranatra (Hemiptera, Ranatridae). 14801

Occurrence of gynandromorphism in Tasar silkmoth (Antheraea mylitta Drury). 14876

The new Hermonassa wlk-species from Dr. H. Hone's chinese-crop. 15314

Study of Neotropical Ctenuchidae -- II Revision of the genus Tipulodes Boisd., 1832 (Lepidoptera -Heteroptera. 15327

Contribution to the study of the family Arctiidae, on the genus Graphelysia Hampson, 1911 (Lepidoptera -Heterocerca). 15335

Addition to the knowledge of Coleophoridae II. Study of the manlike genitalia of Coleophora hyssopi Toll (Lep. coleophoridae). 15370

Studies on karyotypes of some Japanese mosquitoes. 15436

REPTILES

Biology and economic importance of the chigger Neoschongastia americana on turkeys. 8489

REPTILIA

Studies on the behaviour of Lucilia illustris Meigen as a parasite of vertebrates under experimental conditions. 8103

Ticks of wild animals of the Antilles (Acarina, Ixodoidea). 11748

Ixodid ticks (Ixodidae)--the parasites of some reptile species in Tadjikistan. 12991

RESEARCH

Statistical methods in rice stem borer research. 8063

Research with ionizing irradiation on the sterilization and radiosensitivity of Chrysomela decemlineata Say. 8096

Fifty years of research on the pink bollworm in the United States. 8365

The toxicity and sublethal effects of p p'-DDT and dieldrin to Aglais urticae (L.) (Lepidoptera: Nymphalidae) and Chorthippus brunneus (Thunberg) (Saltatoria:Acrididae). 8550

Experimental research concerning the circumstances and modalities of the return of inflorescence towards the vegetative stage in Salvia glutinosa L. 8577

Superflies beat dichlorodiphenyltrichloroethane. 8697

Cytochemical studies on a coccidian, Chagasella ganapatii from a termite, Odontotermes obesus (Rambur). 8724

Meadow vole used in hay research. 9052

The spiders of Mississippi. 9277

The problem of insect identification and the University of Arkansas Reference Collection. 9317

Mechanisms of orientation in the leaf-cutter bee Megachile rotundata (Fabricius). 9443

Turfgrass research by the California Agriculture Extension Service. 9527

Etiological studies on root rot of wheat caused by Cercosporella heapotrichoides Fron. 9553

The nature and effect of adult plant resistance to crown rust in several commercial oat varieties. 9567

Colic of the horse and autonomic nervous disturbances. Patho-morphological investigations. 9711

Hydrochlorothiazide. Drugs for veterinary use; drug efficacy study implementation. 9726

Research and education needs in the use of pesticides. 10486

Report of the Anti-locust Research Centre 1965. 10552

Report of the Anti-locust Research Centre for 1966. 10553

Research activities 1958-1961. 10588

Rubber Research Institute of Malaya. Annual report 1966. 10607

Symposium: Recent advances in veterinary research. 10838

An animal tumor registry as a source of morbidity information. 10854

Research on diseases of neonatal calves. 10862

The regulatory and research efforts in response to the occurrence of equine infectious anemia at racetracks in 1965-1966. 10892

Mass-rearing of Phytoseiulus riegeli Dosse for use in commercial horticulture.
11714

Movement and oviposition of wheat bulb flies.
11781

Studies on the hypertrophic disease of cherry (genus Prunus), so-called witch's broom caused by Taphrina wiesneri. I. On the metabolites of T. wiesneri.
11969

Research on the metabolism of virus-infected plants. V. Influence on the changes in metabolism in Phaseolus vulgaris L. after infection with tobacco necrosis virus by light deficiency.
11979

Virogeographical studies on the clover phyllody virus and its vectors.
12019

The size effect of sample blocks on decay rate of beech wood (Fagus crenata) in laboratory tests.
12035

Research on the modifications of the husks of Bromus inermis. L. (Gramineae) provoked by the Aceria tenuis (Nal.) (Acarina eriophyidae).
12050

Experiments with Lyctus.
12057

Research on the effectiveness of cobalt 60 irradiation for the control of Sitophilus granarius and Tribolium confusum Duv.
12205

Investigations on the decomposition capacity of wood decay fungi.
12231

The physiology of wood fungi. A survey on recent research results.
12238

Preliminary investigation on water berry - another vine disease found in Maharashtra.
12254

Photoperiodism after 50 years.
12261

Effect of aflatoxin and benzopyrene pretreatment upon the kinetics of benzopyrene hydroxylase.
12310

Sleeve tests of insecticidal powders for control of body lice.
13032

The brine fly problem on the great salt lake beaches.
13104

The influence of size of spray droplets on the herbicidal activity of diquat and paraquat.
13503

Research on the effect of the queen bee's substance on the development of the endocrine gland of the worker honeybee (Apis mellifica).
13628

Methodology employed in the California mosquito larvicide resistance surveillance program.
13629

Studies on the brown-eye-spot disease (Cercospora coffeicola B. and cke.) of coffee (Coffea arabica L.) I. Emanation of ethylene from infected leaves.
13819

An apparatus for dispensing house fly eggs mechanically.
14119

Important forest insects of Ontario in 1966.
14120

Effect of population density on the larval coloration and development of larva and pupa in the larger pellucid hawk moth, Cephonodes hylas L. (Lepidoptera' Sphingidae).
14121

Geotactic response of the two-spotted spider mite. Tetranychus urticae Koch (Acarina: Tetranychidae).
14137

A study of the population of insects emerging as adults from Spettigue's Pond at London, Ontario.
14144

Contributions to the knowledge of the Heleide fauna (Dipt. Nemat.) of Berlin.
14157

A new species of Acmaeodera (Coleoptera, Buprestidae).
14158

A comparative study of gastric caeca in adult and larval stages of bark beetles (Coleoptera: Scolytidae).
14170

A change of feeding habit in Archips cerasivorana (Fitch) (Lepidoptera, Tortricidae).
14178

Insect hormones: Olive oil is not an inert vehicle for hormone injection into locusts.
14197

Parasitization of social Halictine bees in southern Ontario.
14224

Oviposition sites and the viability of eggs of Thymelicus lineola (Ochs.) (Lepidoptera: Hesperiidae).
14253

Observations on the diapausal and post-diapausal, proterandric developmental events in caterpillars of Sparganothis pilleriana Schiff. (Lepidoptera: Tortricidae).
14259

Hydrolysis of acetylthiocholine and butyrylthiocholine by cholinesterases of insects and a mite.
14261

Records of the orthopteroid insects in Ontario.
14276

The regulatory effect of gibberellic acid and cytokinins on fruit maturation and ripening. (Abstract).
14300

The effect of Alar (N-dimethylamino succinamic acid) on yield and quality attributes of Concord grapes.
14302

The influence of N-dimethylamino succinamic acid (Alar) on growth of the sweet cherry, Prunus avium. (Abstract).
14303

Effects of N-dimethylamino succinamic acid (Alar), (2-chloroethyl trimethylammonium chloride (CCC), gibberellic acid (GA), and maleic hydrazide (MH) on bolting in lettuce. (Abstract).
14305

Pathogenic variability and the unit representing a single fertilization in Puccinia coronata var. avenae.
14306

Fruiting response of the highbush blueberry to applied gibberellic acid under field conditions. (Abstract).
14308

Regulation of growth, flowering and fruit abscission of apples and peaches with Amchem 66-329. (Abstract).
14309

Effects of N-dimethylamino succinamic acid on the size of potatoes. (Abstract).
14311

Stimulation of flower bud abscission and concentration of fruit set in tomato, (Abstract).
14312

Stimulation of tomato ripening by Amchem 66-329. (Abstract.
14313

Vegetative and reproductive responses of highbush blueberry to succinic acid 2,2-dimethylhydrazide (Alar).
14314

Problems of integrated pest control in practical plant protection.
14315

The effect of gibberellic acid on the highbush blueberry (Vaccinium corymbosum). (Abstract).
14316

Effects of CIPC applications to individual eyes of potato tubers on type and pattern of sprout development.
14320

Effects of succinic acid 2, 2-dimethyl hydrazide (Alar) on apples. (Abstract).
14322

Use of high speed centrifugation to obtain extracts from cuttings treated by terminal applications of indoleacetic acid-3 (IAA-2-14C). (Abstract).
14323

The effect of succinic acid 2,2-dimethyl hydrazide on stem and leaf tissues of Chrysanthemum morifolium Bright Golden Anne. (Abstract).
14324

Effects of gamma irradiation on prickly pear cactus.
14325

Stimulation and retardation of adventitious root formation by application of B-Nine and Cycocel.
14327

In vivo and in vitro reactions of 1,1-dimethylamino succinamic acid (B-9, Alar) and related substances.
14328

Vegetative and fruiting responses of pecan (Carya illinoensis Koch) to heading back and N-dimethylamino succinamic acid. (Abstract).
14332

Brussels sprouts growth and production as influenced by N-dimethylamino succinamic acid (Alar). (Abstract).
14334

The effects of Alar on red tart cherries (Prunus cerceasus).
14335

The low maximum temperature for growth of the psychrophile Sclerotinia borealis; evidence for the uncoupling of growth from respiration.
14336

Effect of N-dimenthylamino succinamic acid (Alar) on vegetable growth of chile pepper (Capsicum frutescens) plants. (Abstract).
14338

Interactive effects of gibberellic acid and Alar on bush bean growth. (Abstract).
14344

On the tolerance of wheat against Septoria nodorum Berk.
14348

Cultural factors in relation to collar rot control of groundnut.
14351

The importance of preceeding crop-dependent shifts in the micro flora of the soil. I. The influence of soil fungi on the root development of wheat, peas, and rape.
14353

Polyphenols and discoloration in the elm disease investigated by histochemical techniques.
14361

Effects of N-dimethylamino succinamic acid (Alar) on yield, size, maturation, and quality of peaches with reference to its use in adapting fruit for mechanical harvesting. (Abstract).
14362

Investigations concerning a root rot on Phalaenopsis hybrids and its causative agent (Fusarium oxysporum).
14363

Evidence for the release of 28 S RNA from turnip yellow mosaic virus heated in vitro.
14370

Effect of different micronutrient sprays on chlorosis, granulation, fruit fall, yield and fruit quality of sweet oranges var. blood red.
14398

A new leaf spot disease of Gardenia jasminoides from India.
14406

An evidence for the multiplication of rice dwarf virus in the vector cell cultures inoculated in vitro.
14409

Inheritance of resistance in tomato (Lycopersicon spp.) to the anthracnose pathogen Colletotrichum coccodes.
14437

Sugarcane diseases in the Punjab--A survey report.
14440

Effects of N-dimethylamino succinamic acid (Alar) on maturity and size of Pocahontas strawberries. (Abstract).
14444

New tin complex compounds as plant protection fungicides.
14445

Post-year responses of Concord grape vines treated with N-dimethylamino succinamic acid. (Abstract).
14467

Virus A as a cause of streak on secondary infected eyesteckling of the potato.
14471

Nutritional effects connected with sheepnosing, a disorder of grapefruit. (Abstract).
14475

Insects of the season 1966 related to fruit, vegetables and ornamentals.
14483

Note on the transmission of northern cereal mosaic virus by Muellerianella fairmairei (Perris).
14484

Transmission experiments with the latent Prunus-virus and the gall mite Vasates fockeui Nal.
14495

Further experiments regarding the clarification of the connection between the beet lacebug Piesma quadratum (Fieb) and the beet crinkle virus.
14499

A study on the correlation of citrus nematode population with decline of citrus.
14505

Economically important nematodes in Ontario--1966.
14516

Mites.
14531

The causes and dynamics of population explosions of M. arvalis: A survey of current French research.
14543

Comments on rat-free towns.
14544

Five years' research with a hatchery sanitation program in Maine.
14545

Tuberculosis in three herds with access to the same open sewer.
14546

Piperazine-carbon disulfide complex. Drugs for veterinary use; drug efficacy study implementation.
14547

The insect ecology of old-field red pine plantations in central Ontario, I. Description of the study area. III. Soil-surface fauna as indicators of stand change.
14548

Lebanon.
14549

An outbreak of anthrax in mink.
14562

Biology of Hyphantria cunea Drury (Lepidoptera: arctiidae in Japan. I. Notes on adult biology with references to the predation by birds.
14627

Warble fly larvae control study.
14631

Effect of D-galaltose on the ultrastructure of bentgrass root apices.
14672

Metabolism of aromatic compounds in healthy and rust-infected primary leaves of wheat. II. Studies with l-phenylalanine-U-14C, l-tyrosine-U-14C, and ferulate-U-14C.
14676

Reduction of dieldrin storage in rat liver: Factors affecting in situ.
15398

Comparated study on (Vinca rosea) L. of 3 virus diseases: (western aster yellow) isolated from (gladiolus,) (clover phyllody) and (tomato stolbur).
15612

South Australia Institute of Medical and Veterinary Science: 29th annual report of the Council of Medical and Veterinary Science.
15792

DDT residue persistence in red-backed salamanders in a natural environment.
15847

Improved re-ignition technique for flame photometric detectors.
15848

Endrin induced trace metal alterations following acute exposure.
15849

Automation of pesticide analysis.
15909

RESERPINE

Comparative effects of reserpine and serotonin creatine sulfate on oviposition in the house fly.
12463

Action of reserpine on Dacus oleae Gmel.
15366

RESERVOIRS

New forms of larvae from Stictochironomus (Diptera, Chironomidae) genus obtained from reservoirs.
12936

Mosquito control on Smith Mountain Reservoir by pumped storage water level management.
13735

RESIDUES

Topical, fumigation, and residual toxicity of insecticides to rice stem borers.
8374

Hazards of insecticides and residue problems in rice cultivation.
8574

Identification and quantitative evaluation of antibiotic residues in chickens fed on a spiramycin diet.
9793

Food additives permitted in food for human consumption. Adjuvants for pesticide use dilutions.
9797

The effects of accumulated fluoride on yields and fruit quality of 'Washington' navel oranges.
10929

Use of Fintrol-5 to control undesirable fishes in shrimp-oyster ponds.
12227

Residue behavior of polynuclear hydrocarbons on and in oranges.
14048

Solvent purification for residue analysis by non-distillation methods.
14104

Residues of chlortetracycline in eggs after additional feeding with this antibiotic substance.
15244

Residues of chlortetracycline in the tissues of poultry after additive feeding with this antibiotic substance.
15245

Weed control. General information.
15756

Decomposition of herbicides in the soil.
15851

Persistence of bhc (hexachlorocyclohexane) on tomato crop (Lycopersicon esculentum Mill.).
15873

RESISTANCE

Insecticide-resistant fishes: A potential hazard to consumers.
8562

Suppression of ozone toxicity symptoms in virus-infected tobacco.
9551

White spine in domestic zebu, the cattle of Azerbaijan.
9684

Dictyostelium discoideum: A gamma-ray resistant organism.
10976

Effect of insecticides, acaricides and fungicides on Mormoniella vitripennis Walker (Hymenoptera Pteromalidae).
11777

RESPIRATION

Terminal respiration in minute mutations of Drosophila.
8114

Respiration of blastospores of the fungus Beauveria bassiana during submersed cultivation in the presence of certain sugars.
8846

Respiratory rates of green and black larvae of the armyworm, Leucania separata (Lepidoptera: Noctuidae).
11392

In vitro fatty acid oxidation by developing tissues in the adult of the blowfly, flucilia.
11803

Regulation of external respiration by the book-lung spiracles of the spiders, Araneus diadematus Clerck and A. marmoreus Clerck.
13117

Temperature acclimation of respiration in Culex pipiens pipiens (Diptera: Culicidae) and the influence of seasonal selection.
13611

Respiratory metabolism during metamorphosis: Respiration in vitro of the ovaries of Bombyx mori.
13627

The effect of herbicides on soil microflora. VII. Respiration of bacteria isolated from maize rhizosphere.
14051

The low maximum temperature for growth of the psychrophilic Sclerotinia borealis; evidence for the uncoupling of growth from respiration.
14336

Respiratory activity of Trypanosoma lewisi during several phases of infection in the rat.
14643

Analyticial restraint of research on the respiratory metabolism of infectious virus on healthy potato nodules and sprouts.
15580

Erosion and its subsequent lesion in fowl air sacs.
15777

RESPIRATORS

An improved mechanical method of aspirating insects.
13737

RESPIRATORY DISEASES

Mycoplasma infections with emphasis on the control of M. gallisepticum.
9061

Cytology of equine nasal secretions.
9093

Control of chronic respiratory disease by Spiramycin antibiotic therapy.
9103

(R2B) the Mukteswar virus vaccine and its characters.
9105

Tylan very effective in treating pigeons.
9173

Preliminary observations on possible synergism between infectious laryngotracheitis virus and Hemophilus gallinarum.
9732

Problems in raising ducks.
10357

Avian mycoplasma serotypes. 10887

Further studies on respiratory infections of poultry in Egypt. 11586

Viral diseases of the cat. 12160

Myxovirus parainfluenza-3 in the respiratory disease in calves in Bulgaria. 15171

On etiology and spread of atrophic rhinitis in swine at swine farms in Bosnia and Herzegovina. 15772

Erosion and its subsequent lesion in fowl air sacs. 15777

RESPIRATORY SYNCYTIAL VIRUS

The structure of the respiratory syncytial virus. 8461

RESPIRATORY SYSTEM

Respiratory exposure of dairy animals to pesticides. 9165

Neonatal canine herpesvirus infection: A review of present knowledge. 10850

The sarcoplasmic reticulum and its association with the T system in an insect. 12460

Pleural haemangioma as a cause of transient ascites in the dog. 13945

RESPIROMETERS

Regulation of external respiration by the book-lung spiracles of the spiders, Araneus diadematus Clerck and A. marmoreus Clerck. 8176

RESTRAINING TABLE

Body constraint and developmental arrest in Galleria mellonella L.: Further studies. 14265

RETICULITERMES FLAVIPES

Feeding responses to sound wood by the eastern subterranean termite, Reticulitermes flavipes. 9474

Antennopsis gallica Heim and Buchli (hyphomycetes: Gloeohaustoriales), an entomogenous fungus on subterranean termites in Florida. 10022

RETICULOENDOTHELIAL SYSTEM

The effect of blockade and stimulation of the reticulo-endothelial system on the development of experimental tuberculosis. A histochemical study. II. Studies on Mycobacterium tuberculosis (BCG). 12778

The effect of blockade and stimulation of the reticulo-endothelial system on the development of experimental tuberculosis. A histochemical study. I. Mycobacterium tuberculosis avium. 12779

RETICULOSARCOMA

On the problem of leukoses (hemoblastoses) of the reticular order in animals for slaughter. 14014

RETINA

A nonlinear model for transient responses from light-adapted wolf spider eyes. 12442

Nonlinear transient responses from light-adapted wolf spider eyes to changes in background illumination. 12443

Recent advances in the studies of insect compound eyes. 14281

RETINOIC ACID

The development of lesions in vitamin A-deficient adult fowl. 8458

RETINYL PALMITATE

Hypervitaminosis A and bone deformities in turkeys and chickens. (Abstract). 12176

REVIEWS

Acoustical communication in arthropods. 8073

Insects and the problem of austral disjunctive distribution. 8092

Trans-stadial and transovarial development of disease agents in arthropods. 8095

Recent fundamental work on tsetse flies. 8124

Recent advances in bee communication and orientation. 8154

Biological and ecological study of the hymenopterous parasites of the eggs of cereal bugs. 8182

Host-parasite interactions and the feeding of blood-sucking arthropods. 8490

Mimicry: The deceptive way of life. 8843

On the bionomics of Lyctocoris beneficus (Hiura) and Xylocoris galactinus (Fieber) (Anthocoridae, Heteroptera). 9003

Some aspects of assessing efficiency of natural enemies. 9405

Cocoa dieback- A review of present knowledge. 9612

Recent introductions for biological control in Hawaii-XIII. 9623

Recent introductions for biological control in Hawaii-XII. 9624

A current review of the use of insecticides in agriculture. 9625

Pests and diseases of the date palm. Part I. Mites, insects and nematodes. 9626

Caddis larvae. 9904

Temperature effects on embryonic development in insects. 10035

Diplogasterid nematodes (Diplogasteridae: Rhabditida) and their relationship to insect disease. 10094

Allergic responses to insects. 10166

Response to parasites. 10232

A review of the use of insecticides on the main agricultural crops of the world--3. Section 3: Cotton. 10245

Integrated control of insects. A challenge for scientists. 10265

Metabolism of organic pesticide chemicals in higher plants. 10278

Mechanisms of action of herbicides. 10299

Some type specimens of Philippine Diptera described by M. Bezzi in the Museo Civico di Storia Naturale, Milano. 11124

Complete list of the monographs in the Trotter study of cecidology. 11257

Notes on the Thysanoptera collected during western and southern India Survey, 1962, with a review of the Thysanoptera complex of the hosts. 11325

Crop disease review--cotton. 11471

A review of the use of insecticides on the main agricultural crops of the world-2. Section 2: Deciduous fruit trees. 11825

Parasite specificity as the result of ecological parasite-host relations. 12855

Specificity of the parasites from the ecological point of view. 12868

Plant pathology and the plant pathologist. 13232

The hypersensitive reaction to infection by bacterial plant pathogens. 13267

Hereditary resistance to disease in tomato. 13294

Taxonomic problems concerning the phytoparasitic nematodes. 13333

Bibliography of paper and thin-layer chromatography 1961--1965 and survey of applications. 13511

Frende, Harde, lohse: The central European beetles, volume 4 staphylinidae 1. 13571

A brief review of necrotic arachnidism or North American loxoscelism. 13640

Equine piroplasmosis in the United States-- a review. 14009

Advances in gas chromatographic detectors illustrated from applications to pesticide residue evaluations. 14112

The pesticide review, 1968. 14321

Resistance against pesticides. 14850

Ecology of plant protection products, a most important task of environmental research on the international level. 14912

On plant protection in special cultures with particular regard to the Bavarian conditions. 14913

Present situation and tendencies of development in the technique of plant protection. 15306

The current status of the knowledge of the X group of potato viruses. 15476

RHABDITIS

Diplogasterid nematodes (Diplogasteridae: Rhabditida) and their relationship to insect disease. 10094

On the specificity of some species of the suborder Rhabditata. 12830

The resistance of Rhabditis sp. and Anguina tritici (Nematoda) to drying and action of low and superlow temperatures. 13416

Experimental studies on ancylostomiasis in cats. III. Egg culture of Ancylostoma tubaeforme Zeder, 1800 and Ancylostoma caninum Ercolani, 1859. 15826

RHABDOMYOMA

Rhabdomyoma in pigs. 13961

A case of rhabdomyoma in poultry. 13992

RHAGIO SCOLOPACEUS

First record of Rhagio scolopaceus (Linne) in North America (Diptera: Rhagionidae). 8682

RHAGIONIDAE

A new and unusual species of Bolbomyia (Diptera: Rhagionidae). 11212

RHAGOLETIS CINGULATA

A record of Rhagoletis indifferens Curran from Creston, British Columbia. 11716

RHAGOLETIS CINGULATA INDIFFERENS
A record of Rhagoletis indifferens Curran from Creston, British Columhia.
11716

RHAGOLETIS FAUSTA
A record of Rhagoletis indifferens Curran from Creston, British Columbia.
11716

RHAGOLETIS POMONELLA
A bloating disease of adults of the apple maggot.
8142

Observations on hird tanglefoot traps as a direct method of apple maggot control.
9014

Visual responses of apple maggot flies, Rhagoletis pomonella (Diptera: Tephritidae): Orchard studies.
11373

Development of a chemically defined diet for adults of the apple maggot hased on amino acid analysis of honeydew.
11791

Continuous rearing of the apple maggot.
12419

RHAGOLETIS SUAVIS
Infestation of peaches by Rhagoletis suavis.
9006

RHINONCUS BRUCHOIDES
Rhinoncus bruchoides (Herbst) (Col., Curculionidae) in West Kent.
13095

RHINOTERMITIDAE
A new Coptotermes (Isoptera, Rhinotermitidae) from Gabon.
8636

RHIPICEPHALUS APPENDICULATUS
The use of parasympathomimetic drugs to stimulate salivation in the tick Rhipicephalus appendiculatus, and the transmission of Theileria parva using saliva obtained by this method from infected ticks.
12187

RHIPICEPHALUS BURSA
The fine structure of Babesia ovis (Piroplasmidea) in Rhipicephalus bursa (Ixodoidea): Transformation of spherical forms to vermicules.
8754

Microscopical studies on the development of Babesia ovis in Rhipicephalus bursa (Ixodoidea). I. Development in female ticks after repletion.
10013

RHIPICEPHALUS SANGUINEUS
The utilization of amino acids and sugars by tick cells cultivated in vitro.
11873

RHIPIDANDRUS
A new species of the genus Heptaphylla from Shikoku, Japan (Coleoptera:-Melolonthidae).
11746

RHIPIDOTHRIPS BRUNNEUS
Insecticides for control of Sphenophorus venatus confluens, Rhopalosiphum padi, and Rhipidothrips brunneus in orchardgrass.
12676

RHIZOBIUM
Sensitivity of Rhizobium species to certain fungicides.
8933

Clover phyllody.
10682

Bacterium yields new weed killer.
12717

Effect of the herbicide trifluralin on nitrogen-fixation in Rhizobium and Azotobacter and on nitrification.
14049

RHIZOCTONIA
Rhizoctonia leaf rot of colocasia in India.
10188

Russet crack--a menace to the sweetpotato industry. III. Role of fungi in the root-lesion phase of russet crack.
10654

Selection for resistance and chemical control of Rhizoctonia root rot disease of sugarheets.
11931

Cryopreservation and pathogenicity of selected isolates of Colletotrichum, Rhizoctonia, and Phytophthora.
14374

Common scab and Rhizoctonia disease of potato.
14414

RHIZOCTONIA LEGUMINICOLA
Slaframine: A parasympathomimetric from Rhizoctonia leguminicola.
12750

RHIZOCTONIA SOLANI
Save your potato crop from fungal and bacterial diseases.
8286

Temperature response of seeds during the early phases of germination and its relation to injury by Rhizoctonia solani.
8983

Dynamics of the permeation of nematodes by water, nematocides and other substances.
9656

Uptake of Vitavax (DCMO) by germinating cottonseed.
9825

Differential sensitivity of various phytopathogenus soil fungi to methyl bromide.
10668

Resistance to Rhizoctonia solani in Phaseolus vulgaris (snap bean).
10688

Breeding for Rhizoctonia resistance in sugarbeet.
11972

A fruit rot of strawberries caused by Rhizoctonia solani.
12023

Evaluation of Terraclor and Terraclor Super-X for the control of rhizoctonia on potato in British Columbia.
12040

Cryopreservation and pathogenicity of selected isolates of Colletotrichum, Rhizoctonia, and Phytophthora.
14374

Selective vapor phase activity of chloronitro- and chlorobenzenes in soil.
14435

Fungicide trials for the control of sore shin of tobacco.
14952

The effects of infection by Heterodera rostochiensis and Rhizoctonia solani on development and yield of potatoes in pots.
15689

RHIZOGLYPHUS ECHINOPUS
Control of mites and aphids on and in hulbs.
8850

Fine structure of leukocytes adhering to the cuticle of Ascaris suum larvae. II. Polymorphonuclear leukocytes.
14638

Problems posed by Acarina to floriculture.
15637

RHIZOMES
The effects of shoot removal on the rhizome carbohydrate reserves of couch grass (Agropyron repens (L.) Beauv.).
11581

Influence of apical dominance on bud dormancy in western ironweed.
14924

Sprouting of western ironweed huds as affected by their age and position of the rhizome.
14925

RHIZOPERTHA DOMINICA
Studies on insect damage and germination of seeds. III. Germination of wheat jowar and maize seeds damaged by the developing grubs of Sitophilus oryzae L. and Rhizopertha dominica F..
10270

RHIZOPUS
Alkali bees: Response of adults to pathogenic fungi in hrood cells.
9344

Seed-mycoflora of musk-melon.
10193

RHIZOPUS NIGRICANS
Effect of fungal infection to tomato fruits on seed germination. I.--Rhizopus nigricans.
13772

RHIZOPUS STOLONIFER
Postharvest diseases of guava in India.
9607

Moldy carpels in delicious apples on the greater New York market.
10627

RHIZOSPHERE
Plant treatment in relation to the rhizosphere effect. III. Foliar application of certain trace elements and metallic chelates in relation to the rhizosphere microflora of rice (Oryza sativa L.).
8588

Establishment of a rhizosphere microflora on carnations as a means of plant protection in steamed greenhouse soils.
10662

The ground beetle Anisodactylus signatus (Coleoptera, Carabidae)--maize pest in the Rostov district.
13320

The effect of herbicides on soil microflora. VII. Respiration of bacteria isolated from maize rhizosphere.
14051

RHIZOTROGUS MACULICOLLIS
Rhizotrogus maculicollis Villa (Coleoptera, Scarabaeidae) a new species for Czechoslovakia.
10490

RHODNIUS PROLIXUS
A monoxenic relationship, Nocardia rhodnii Erikson in the gut of Rhodnius prolixus Stahl. (Hemiptera: Reduviidae).
10542

Pathogenicity of Trypanosoma rangelli for Rhodnius prolixus Stal in nature (Hemiptera: Reduviidae) (Kinetoplastida: Trypanosomatidae).
11437

Secretion hy the malpighian tuhules of Rhodnius. The movements of ions and water.
11855

RHODODENDRON
Weed control in the forest.
11564

Nursery investigations. Weed control.
11565

How to control dieback in azaleas and rhododendrons.
11945

Controlling rhododendron flower bud initiation.
12899

RHODOTORULA
Antifungal effects of peroxidase systems.
11605

RHOPALICUS GUTTATUS
The infestation of timber by bark heetles (Col., Scolytidae) and their enemies in different zones of the Finnish southwestern archipelago.
8823

RHOPALOSIPHUM FITCHII
Identity of instars of apterous viviparae of Rhopalosiphum fitchii (Sanderson) and Toxoptera graminum (Rondani), (Aphididae, Homoptera).
14163

RHOPALOSIPHUM INSERTUM
The natural control of the apple-grass aphid, Rhopalosiphum insertum, with remarks on the control of apple aphids in the Netherlands in general.
8752

Methods to investigate the population dynamics of aphids and aphid parasites in orchards.
9378

RHOPALOSIPHUM MAIDIS
Effects of temperature and light on takeoff of Rhopalosiphum maidis and Schizaphis graminum in the field (Homoptera: Aphididae). 13022
Effects of three species of aphids on barley, wheat or oats at various stages of plant growth. 13301
New record of Entomophthora sp. parasitic on Rhopalosiphum maidis (Fitch) and Lucilia cuprina (Widemann). 14849

RHOPALOSIPHUM PADI
Grain aphids in New brunswick. IV. Effects of malathion and 2,4-D amine on aphid populations and on yields of oats and barley. 8320
Four aphids new for Chile. (Homoptera, Aphididae). 11772
Transmission of barley yellow dwarf virus (BYDV) in cereals by two aphid species, Rhopalosiphum padi (L.) and Macrosiphum miscanthi (Tak.). 12024
Insecticides for control of Sphenophorus venatus confluens, Rhopalosiphum padi, and Rhipidothrips brunneus in orchardgrass. 12676
Grain aphids in New Brunswick. IV. Effects of malathion and 2,4-D amine on aphid populations and on yields of oats and barley. 13297

RHUBARB
Contribution to the migratory behavior of Xiphinema diversicaudum (Mikoletzky) Thorne, X. coxi Tarjan and Longidorus macrosoma Hooper, as well as the diffusion of rhubarb mosaic virus in the field. 8382

RHYACIA
Is Rhyacia simulans really so rare (Lep., Noctuidae). 11187

RHYACIONIA BUOLIANA
Bud characteristics of ponderosa pine related to potential damage by the European pine shoot moth. 10720
Parasites of Rhyacionia buoliana and their occurrence at different crown levels of red pine in Wisconsin. 12087

RHYACIONIA FRUSTRANA
Attraction of the Nantucket pine tip moth, Rhyacionia frustrana, to incandescent light and blacklight, and to virgin females. 11337
Field control of the Nantucket pine tip moth by the nematode DD-136. 13315

RHYNCHOPHORA
Epizoic symbiosis. 14203
Pests of the grapevine. 14485

RHYNCHOSCIARA
Nucleic acid synthesis in nurse cells of Rhynchosciara angelae Nonato and Pavan, 1951. 8705
Morphology of hemocytes of Rhynchosciara angelae Nonato and Pavan, 1951 (Diptera, Mycetophilidae). 9380
Changes in chromosomes induced by different DNA virus in cells of Rhynchosciara angelae. 10158

RHYNCHOSCIARA BASCHANTI
Rhynchosciara baschanti (Diptera, Nematocera, Sciaridae), a new Brazilian species. 9265

RHYZOPERTHA DOMINICA
Dietary efficiency of natural foods for the growth and development of stored grain insect pests. 8521
A comparison of malathion, diazinon, fenitrothion and dichlorvos for control of Sitophilus oryzae (L.) and Rhyzopertha dominica (F.) in wheat. 10237
The feeding and fecundity of Sitophilus granarius (L.), Sitophilus oryzae (L.) and Rhyzopertha dominica (F.) in wheat grain. 13053
Reproduction of stored-grain insects on varieties of wheat, oats, and barley. 13323

RIBONUCLEASE
Correlation of nucleolytic activities with the stage of growth of the silkworm. 8151
Ribonuclease isozymes in Chinese cabbage systemically infected with turnip yellow mosaic virus. 9597

RIBONUCLEIC ACID
On the arrangement of genes of 28s and 18s ribosomal RNA'S in Drosophila melanogaster. 8259
The sS RNA genes of Drosophila melanogaster. 8267
Genetic control of the iso-accepting forms of tyrosyl-tRna in a suppressor of Drosophila melanogaster. 8269
Degradation of turnip yellow mosaic virus by freezing and thawing in vitro: a new method for studies on the internal organization of the viral components and for isolating native RNA. 8299
In situ breakage of turnip yellow mosaic virus RNA and in situ aggregation of the fragments. Analysis of successive stages. 8309
Studies on the 5'-terminus of turnip yellow mosaic virus RNA. 8316
Semliki Forest virus temperature-sensitive mutants. isolation and characterization. 8318
RNA synthesis in chick embryo cells infected with defferent strains of NDV. 8449
Nucleic acid in intact nuclear polyhedral bodies isolated from virus-infected fall armyworm, Spodoptera frugiperda. 8745
The development of resistance in Cladosporium cucumerinum against 6-azauracil, a chemotherapeutant of cucumber scab, and its relation to biosynthesis of RNA-PRECURSORS. 8944
Effect of TMV multiplication on RNA and protein synthesis in tobacco chloroplasts. 8956
The disassociation and reassociation of the proteins of the RNA in the lucerne mosiac virus. 8968
Partial reconstitution of tobacco mosaic virus. 8993
Virus-like particles in galls on sugarcane plants affected by Fiji disease. 8994
Ribonucleic acid synthesis in chick embryo cells infected with fowl-plague virus. 9114
Role of RNA metabolism in the action of auxin-herbicides. 9194
Yeast sporulation and RNA as affected by gibberellic acid. 9198
Hormonal inhibition of the prothoracic gland by the brain in locusts. 9355
Specific inhibition of TMV-RNA synthesis by blasticidin S. 9569
Functions of the two particles of tobacco rattle virus. 9601
Sequence studies of satellite tobacco necrosis virus RNA; isolation and characterization of a 5'-terminal trinucleotide. 9615
Structural relationships between the RNA of mammary tumor virus and those of other RNA tumor viruses. 9700
Virus induced cataracts. 9715
The effects of hydroxyurea on cultured somatic cells of the Chinese hamster, Cricetulus griseus. 9733
Infection structures from rust urediospores: Effect of RNA and protein synthesis inhibitors. 9829
Properties of single- and double-stranded ribonucleic acid from barley plants infected with bromegrass mosaic virus. 9834
Cytokinins and transfer ribonucleic acids. II. Presence of cytokinins in different amino-acid specific transfer ribonucleic acids of brewer's yeast as revealed by the growth response of tobacco-pith callus tissue and Scorzonera crown-gall tissue. 10439
On the inhibitory effect of yeast ribonucleic acid on the infection of Nicotiana glutinosa by tobacco mosaic virus. 10443
The nucleic acid type and effect of pH and hydroxylamine on canine distemper virus. 10873
Estrogenic action of DDT and its analogs. (Abstract). 10949
Identification of tobacco mosaic coat protein after the injection of tobacco mosaic virus RNA into the common slime mold. (Abstract). 10995
Spermidine-RNA complexes in cowpea mosaic virus (CPMV). (Abstract). 11058
Specific activity increase of a Balbiani ring by Mg2 plus in isolated nuclei of Chironomus. 11334
Augmentation of the pathogenicity of the ribonucleic acid of foot-and-mouth virus by addition of diethylaminoethyl-dextran. 11596
Degradation of cellular ribonucleic acid in Newcastle disease virus infected cells. 11599
Use of the nucleic acid hybridization method for the demonstration of DNA homologous to Rous virus RNA in RSV-TRANSFORMED mammalian cells. 11617
Effects of aflatoxin B1 and other carcinogens upon nuclear RNA of various tissues in the rat. 11679
Inhibition of the action of phytochrome by the herbicide CIPC. 11697
Some properties of mitochondria and ribosomes of infected plant tissues. 11932
Degradation of turnip yellow mosaic virus by freezing and thawing in vitroi A new method for studies on the internal organization of the viral components and for isolating native RNA. 12620
In situ breakage of turnip yellow mosaic virus RNA and in situ aggregation of the fragments. Analysis of successive stages. 12648
The isolation of two enzyme-ribonucleic acid complexes involved in the synthesis of foot-and-mouth disease virus ribonucleic acid. 12749
Effect of gibberellin A3 on concentration of DNA, RNA, and protein in pea plant (Pisum sativum L.). 12906

A kinetic isotope effect in the photoreactivation of u. v.-inactivated tobacco mosaic virus RNA. 13250

Optical investigations on double stranded ribonucleic acid from turnip yellow mosaic virus. 13257

Biochemical aspects of parasitism by the angiosperm parasites. I. Phosphate fractions in the leaves of loranthus and hosts. 13354

Development and diapause in insects. 14199

Ecdysone and DNA synthesis in cultured wing disks of the wax moth, Galleria mellonella. 14250

Evidence for the release of 28 S RNA from turnip yellow mosaic virus heated in vitro. 14370

Current status of in vitro synthesis of plant viruses. 14434

Evidence of phenotypic mixing between two strains of tobacco mosaic virus. 14441

Inhibition of host-cell protein and ribonucleic acid synthesis by newcastle disease virus. 14622

RNA and protein in nucleolar structures of dragonfly oocytes. 14826

Measurement of the synthesis of plant viruses through the incorporation of radioactive precursors of ribonucleic acid. 14962

Synthesis of RNA in extracts of leaf-cells infected by photoviruses. 14990

Ribonucleic acid components of BAI strain A (myeloblastosis) avian tumor virus. 15164

Use of the nucleic acid hybridization method for the demonstration of DNA homologous to Rous virus RNA in RSV--TRANSFORMED mammalian cells. 15184

RNA synthesis in tobacco leaves infected with tobacco mosaic virus. 15470

Observation on negatively stained tobacco ringspot virus and its two RNA-DEFICIENT components. 15489

Photoreactivation spectrum of tobacco mosaic virus-ribonucleic acid inactivated by ultraviolet radiation. 15519

Interaction between viral RNA and cellular components in tobacco leaves infected with tobacco mosaic virus. 15527

Considerations on chemotherapeutics research in plant virology. 15585

Masking of the aggregation phermone in Dendroctonus pseudotsugae Hopk. 15805

Effects of herbicides on rna and protein syntheses. 15887

The role of gibberellins in phytochrome mediated responses. 15900

RIBOSOMES

Isolation and characterization of the ribosomal proteins of Drosophila melanogaster. 8147

On the arrangement of genes of 28s and 18s ribosomal RNA'S in Drosophila melanogaster. 8259

Effect of TMV multiplication on RNA and protein synthesis in tobacco chloroplasts. 8956

Ultrastructure of the trophic bands in the ovaries of several homopteran Auchenorrhyncha. 9393

Influence of Botrytis cinerea infection on ribosomal properties and functions in cabbage tissues. 9539

Possible route of toxicity of rat pups injected with cycasin. (Abstract). 10906

Some properties of mitochondria and ribosomes of infected plant tissues. 11932

Characterization of ribosomes isolated from posterior silkgland. 15374

Masking of the aggregation phermone in Dendroctonus pseudotsugae Hopk. 15805

RICE

Taxonomy of the rice stem borers. 8041

The rice stem borer forecasting system in Taiwan. 8045

A summary of the forecasting program for rice stem borer control in Japan. 8068

Mass rearing of the rice stem borer. 8119

Nutritional studies of the rice stem borer Chilo suppressalis Walker. 8140

The biology and life cycle of Chilo suppressalis (Walker) and Tryporyza (Schoenobius) incertulas (Walker) in temperature-climate areas. 8149

Piricularia oryzae, a problem common to rice growing countries. 8282

Phospho-acid esters as fungitoxic agents. Patent 3,459,857. 8313

Control of paddy stem borers by cultural practices. 8319

The major insect pests of the rice plant - proceedings of a Symposium of International Rice Research Institute, September, 1964. 8352

Assessment of rice loss caused by the rice stem borer. 8353

Techniques for assessing crop losses caused by rice stem borers in tropical areas. 8354

Varietal resistance to rice stem borers in India. 8355

Developments in insecticide control of the rice stem borer in Japan. 8356

Varietal resistance to rice stem borers in Japan. 8362

Rice leafhoppers. 8363

The possible role of biotic factors in an integrated program for rice stem borer control. 8364

Recent developments in and future prospects for the chemical control of the rice stem borer at IRRI. 8366

Varietal resistance to rice stem borers at IRRI. 8367

Ecology of common insect pests of rice. 8368

Recent developments in and future prospects for the chemical control of the rice stem borer in India. 8370

The rice gall midge Pachydiplosis oryzae (Wood-Mason). 8371

Topical, fumigation, and residual toxicity of insecticides to rice stem borers. 8374

The possible control of rice stem borers by the use on natural enemies. 8379

Impact of parasites, predators, and diseases on rice pests. 8380

Hazards of insecticides and residue problems in rice cultivation. 8574

Mode of action, translocation, oxidation, and decomposition of insecticides within the rice plants. 8581

Plant treatment in relation to the rhizosphere effect. III. Foliar application of certain trace elements and metallic chelates in relation to the rhizosphere microflora of rice (Oryza sativa L.). 8588

The lepidopterous stalk borers of rice and their life cycles in the Tropics. 8702

A red, fluorescent protein from silkworm. 8813

Isolation of fumaric acid from silkworm pupas as a causative agent to release reducing sugars in embryoless rice endosperms. 8878

Mode of action of insecticides on the rice stem borer and development of resistance. 8884

Character expressions and casual genes of some mutants in rice plant. Genetical studies on rice plant, XXXIII. 8930

Pentachlorobenzyl alcohol, a rice blast control agent. 8960

Fungicidal action of organophosphorus compounds. 8963

Insect parasites in the natural control of species of rice stem borers on Luzon Island, Philippines. 9012

Herbicidal activity of some pyridazine derivates. Part III. 3-phenoxypyridazines and related compounds. 9042

Occurrence and distribution of diseases and pests of rice and their control in Thailand. 9531

Occurrence of paddy virus and viruslike symptoms in India. 9598

Vectors of hoja blanca virus. 9627

Transmission of dwarf, yellow dwarf, stripe, and black-streaked dwarf. 9631

Observations on the ecology of Thaia oryzivora, a leafhopper found on rice in Thailand. 9634

Some herbicidal and physiological effects of 3,4-dichloropropionanilde (Stam F-34) on Ammania baccifera L. 9672

Electron microscopy of rice transitory yellowing virus. 9751

Effect of chlorocholine chloride on the growth characteristics, lodging and yield of rice. 9828

Anatomical studies of the ovipositional site of plant hoppers and leaf hoppers on rice. 10075

Fungicidal control of rice diseases. 10170

The epiphytotic of yellow orange leaf disease of rice in 1966 in Thailand. 10197

Standardization of the international race numbers of Pyricularia oryzae. 10198

Common leafhopper-planthopper populations and incidence of tungro virus in diazinon-treated and untreated rice plots. 10234

Industry's concern with pesticide residues. 10411

Seed infection and transmission of bacterial leaf streak of rice. 10701

Weed problems and their solution in rice crops in Italy. 10773

Factors affecting the performance of molinate for control of weeds in rice. (Abstract). 10815

Studies on growth and mutation frequency in rice in treatments with dimethyl sulphoxide and ethyl methane sulphonate. 11031

The metabolic fate of propanil. I. (Abstract). 11038

The metabolic fate of propanil, II. (Abstract). 11039

O-alkyl S-(substituted benzyl) benzene thiophosphonates for controlling fungi. Patent 3,443,011. 11075

Studies on the fungicidal control of rice blast. 11499

The present stage of weed chemical control in rice fields. 11574

Pesticide regulations and residue problems in Japan. 11670

Effects of gibberellin treatment on the growth and dry weight of the rice plants. 11693

The International Rice Research Institute Annual Report, 1967. 11916

Preliminary studies on the effect of single and combined treatments of X-rays and gibberellic acid on the growth of rice and tomato seedlings. 11920

Plant pathology. 11941

Studies on the bacteriostatic and bactericidal action of streptocycline on Xanthomonas oryzae. 12022

Report of the symposium on virus diseases of rice. 12074

Bioassay determination of gamma-BHC absorbed from soil and translocated in potted rice plants. 12266

Screening for padi blast disease resistance in West Malaysia. 12661

Propanil and molinate for control of barnyardgrass in water-seeded rice. 12734

Results of application of aluminum phosphide pellets to rice weevils in an open bin and to angoumois grain moths under air-tight conditions. 12878

Pesticides residues in foodstuffs in Great Britain. VI. - Mercury residues in rice. 12892

Apparatus for removing overwintering adult rice water weevils from brunch grass. 12960

Prevention and treatment. 13236

Identification and characterization of tungro, a virus disease of rice in India. 13262

Selectivity of 2,3,5-trichloro-4-pyridinol as a herbicide for direct-seeded, flooded rice. 13352

Weed competition in rice. 13358

Weed control in upland rice at the University of the Philippines College of Agriculture. 13360

Factors influencing the tolerances of seeds to fumigants. 13426

Properties and effects on WL-9385-D on rice and some weed species. 13467

The effect of improved rice farming techniques on mosquito populations in central Taiwan. 13614

The effect of fumigation with hydrogen cyanide and carbon disulphide on the physical properties of rice seeds. 13768

Leaf characters of tall and short lines of rice and their response to Gibberelin. 14074

Gibberellin response of dwarf mutants of rice. 14075

Comparison of mutagenic effects of ethyleneimine and ionizing radiations on rice. 14086

Induction of mutations in rice by some chemicals. 14093

Mutagenic effects of several alkylating substances in rice with reference to the method of treatment. 14100

Studies on the pathological anatomy of rice plants infected by Helminthosporium oryzae, I. Behavior of the causal fungus on the coleoptile of rice seedlings and its ultrafine structure. 14373

Influence of hydrostatic pressure upon germinability of the spores of some rice-parasitic fungi effects of physical factors upon plant diseases. III. 14376

Controlling effect of phenylhydrazine derivatives on rice blast in relation to the structural modifications. 14402

Interaction between two races of Piricularia oryzae in lesion-formation in rice plants and accumulation of fluorescent compounds associated with infection. 14420

The present state of rice research in India--diseases. 14425

Effect of beta-acylphenylhydrazine derivatives on blast fungus upon leaves and in tissues of rice plants. 14459

Anatomical studies of rice plant infected with bacterial leaf blight, with special reference to wilt symptom. 14460

The frequency of Sogata orizicola Muir and Sogata cubana Crawf. on rice and Echinochloa colonum in Colombia. 14482

Bionomics of the rice gundhy bug, Leptocorisa varicornis Fabr. (Hemiptera, Heteroptera; Coreidae). 14490

Various problems on vectors of rice viruses. 14492

Stam F-34 can kill the weeds of Gora paddies. 14537

Ridding rice fields of rats. 14542

Fungitoxic action of higher alkyl compounds. I. Mechanism of fungitoxic action of alkylphenols. 14665

Physiological effects of pentachlorobenzylalcohol on rice plants. 14690

Inhibitory effect of pentachlorobenzyl alcohol (PCBA) on sporulation of Piricularia oryzae cavara. 14691

Controlling effect of pentachlorobenzyl alcohol on rice blast. 14692

Studies on bionomics and control measures of Cnaphalocrocis medinalis Guenee; preliminary report. 14872

Possible occurrence of tungro and yellow dwarf viruses on rice in Mysore. 14948

Tylenchorhynchus palustris n. sp. (Nematoda: Tylenchinae) inhabitant of the rice fields of Ivory Coast. 15043

Infection and corrosion tests with Ustilago hordei (pers.) lagerm. 15621

RICE STEM BORER

The rice stem borer forecasting system in Taiwan. 8045

A summary of the forecasting program for rice stem borer control in Japan. 8068

RICKETTSIA

The presence of diaminopimelic acid in the Rickettsiae. 9097

Spermatocyte granules in Drosophila melanogaster. 10003

Methods of quantitative determination of Rickettsia in ticks. 10537

Erradication efforts against tropical bont tick, Amblyomma variegatum, in the Virgin Islands. 15199

RICKETTSIA PHAGOCYTOPHILA

Tick-borne diseases of cattle. 10910

RICKETTSIA TSUTSUGAMUSHI

Natural infection of chigger mites with Rickettsia tsutsugamushi on the Primorsky Territory. 10541

RICKETTSIAL DISEASES

Trans-stadial and transovarial development of disease agents in arthropods. 8095

Ticks in relation to human diseases caused by Rickettsia species. 8136

Glomerular response in human and experimental rickettsial disease (Rocky Mountain spotted fever group). A light and electron microscopy study. 8450

Natural infection of chigger mites with Rickettsia tsutsugamushi on the Primorsky Territory. 10541

Distribution of rickettsia Dermacentroxenus sibiricus in the organisms of ticks Ornithodoros lahorensis Neumann, Alveonasus canestrinii Bir. (Argasidae, Ixoidea). 10561

The occurrence of Coxiella burnetii in northwestern England and north Wales. A report from five laboratories of the Public Health Laboratory Service. 13396

Mixed natural focus of Q-rickettsiosis and of tick-borne encephalitis in the eastern-european south-taiga forests. 15800

Investigations on Q fever in the Republic of Mexico. 15809

RIFT VALLEY FEVER VIRUS

Growth of Rift Valley fever virus in human diploid (WI-38) cells. 9082

RINDERPEST

A comparison of the haemagglutination-inhibition and neutralisation test in the assay of rinderpest antibodies in cattle. 14607

RING SPOT
Problems of the month.
8932

Occurence of tomato ringspot virus in red raspberries in the eastern United States.
9556

Transmission of tobacco ringspot virus to the roots of a conifer by a nematode.
9652

Translocation of tobacco ringspot virus in cucumber and zinnia.
10206

Association of pepper ringspot virus (Brazilian tobacco rattle virus) and host cell mitochondria.
11479

Masonaphis maxima (Mason) (Homoptera: Aphididae), an aphid on thimbleberry with an unusual life history.
11816

Transmission of the disease Brazilian tomato ringspot through the soil.
12658

Reactions of two precocious peach varieties to the elimination of ring spot viruses.
12659

Transmission of strains of raspberry ringspot and tomato black ring viruses by Longidorus elongatus (de Man).
12662

Ecdysone and DNA synthesis in cultured wing disks of the wax moth, Galleria mellonella.
14250

The ultrastructure and physiology of the abdominal air-guide retractor muscles in the giant water bug, Lethocerus.
14277

Bean yellow mosaic and tobacco ringspot virus isolated from Crotalaria (Crotalaria spectabilis).
14388

Peroxidase isozymes in virus-infected plants.
14418

Several years' research on the investigations of virus in pears.
14473

Characteristics of a non-labile ringspot type virus associated with the grape fanleaf disease of the peachtree.
14998

The raspberry ringspot virus and its cell inclusion bodies.
15480

Infection of bean root- meristems by tobacco ringspot virus.
15488

Observation on negatively stained tobacco ringspot virus and its two RNA-DEFICIENT components.
15489

Identification, purification and immuno-electrophoretic analysis of the carnation mottle and ringspot viruses.
15490

A ring-spot disease of Allamanda cathartica Linn. and some physical properties of its causal agent.
15587

RINGWORM
Equine ringworm caused by Trichophyton tonsurans var sulfureum.
9087

Trichophytosis of laboratory mice.
12129

Minor causes of damage to pelts.
12181

Ringet. Drugs for veterinary use; drug efficacy study implementation announcement.
12196

Dermatophytes in veterinary practice.
12795

A note on successful treatment of an unusual equine ringworm due to Trichophyton tonsurans var. sulfureum.
13968

A case of ovine dermatomicosis produced by Trichophyton verrucosum.
14584

Skin diseases of horses.
14592

Microsporum gypseum isolated from feline ringworm.
15827

RIODINIDAE
Two new species of Audre (Lep. Rhop. Riodinidae).
8637

Uncommon butterflies of northeastern Indiana.
14770

RIPE ROT
3,4-dihydroxybenzaldehyde, a fungistatic substance from green Cavendish bananas.
9586

RISHITIN
Isolation of rishitin from tubers of interspecific potato varieties containing different late-blight resistance genes.
14443

RIVEA HYPOCRATERIFORMIS
An interesting mode of spore liberation by Gorgefischeria riveae Thirum. and Naras.
8310

RNA VIRUSES
Structural relationships between the RNA of mammary tumor virus and those of other RNA tumor viruses.
9700

Electron microscopic studies on the replicative form of alfalfa mosaic virus RNA.
11492

Increased yields of stomatitis virus from hamster cells injected with Mycoplasma.
14002

The formal genesis of leucosis and RNA tumours in the ox, dog and cat.
14017

ROADS
Chemical control of vegetation under highway guardrails (1967).
8400

ROBINIA PSEUDOACACIA
The effect of environment on root suckering in Robinia pseudoacacia L. (Abstract).
11037

ROBINS
Survival of sporozoites of Leucocytozoon in birds for 11 days.
8462

ROCKY MOUNTAIN SPOTTED FEVER
Glomerular response in human and experimental rickettsial disease (Rocky Mountain spotted fever group). A light and electron microscopy study.
8450

RODENT CONTROL
Is the meadow vole responsible for reports of an increasing state rat population .
12881

Gophacide. Latest findings from studies of this new rodenticide.
13427

Thieves in the poultry house.
13927

A new idea from California--lollipop bait cube.
14648

Tularemia focus in the Volga River delta and measures of its control.
15796

RODENTICIDES
Studies on rodents and their control. Part V. Some factors affecting lethal feeding period with warfarin.
8522

Studies of warfarin resistance in the rat. (Abstract).
9179

Determination of zinc phosphide and its stability in rodent baits.
9228

Some rodenticidal properties of coomatetralyl.
11661

Is the meadow vole responsible for reports of an increasing state rat population .
12881

Hydroxy coumarins as rodenticide in warehouses.
12882

A preliminary study of the rodenticidal activity of some derivatives of 2-arylindandione-1,3 and 2-arylacylindandione-1,3.
12897

Gophacide. Latest findings from studies of this new rodenticide.
13427

Ultraviolet determination of strychnine in commercial bait formulations.
13454

Thieves in the poultry house.
13927

Carbamic acid (fluoroacetoamidotrichloro)ethyl esters. Patent 3,442,932.
14106

The pesticide review, 1968.
14321

Musk, brown rats and harvest mice as pests in maize.
14541

Experimental destruction of rats, either temporary or uninterrupted, using grain poisoned with coumafene (warfarin).
15233

Section VI.--ANIMAL control.
15758

Regulations for the enforcement of the federal insecticde, fungicide, and rodenticide act. Pesticides containing sodium arsenite and arsenic trioxide compounds.
15923

RODENTS
Studies on rodents and their control. Part V. Some factors affecting lethal feeding period with warfarin.
8522

Meadow vole used in hay research.
9052

Infection experiments with the cotton rat filaria Litomosoides carinii in Mastomys natalensis (Smith, 1834).
9127

Comparison of white gasoline and n-heptane for recovery of insect fragments and rodent hairs from food products.
9142

Do anticoagulant concentrates contain excessive amounts of inert ingredients .
9234

Evidence for longevity of seeds.
9563

The influence of the steppes inundation and enlargement of the area of cultivation upon distribution and numbers of harmful rodents of Azerbaijan.
9666

Arbovirus focus in the east Kootenays. (abstract).
9730

Analytical studies on extracts of Litomosoides carinii.
10341

New records of two nasal mites from Japanese rodents (Acarina: Epidermoptidae and Ereynetidae).
10496

Two myobiid mite species (Acarina: Myobiidae) from shrews of Hokkaido, Japan.
10501

Natural infection of chigger mites with Rickettsia tsutsugamushi on the Primorsky Territory.
10541

Construction and operation of the electric rat fence.
11091

Blankaartia acuscutellaris (Acarina, Trombiculidae) and its extension to the African continent. 11404

Diseases of animals. 11610

Bandicota indica and sylvatic plague in Vietnam. 11913

Toxoplasmosis in the marmot. 12126

Further studies on the Plasmodium bergbei-Anopheles stephensi- rodent system of mammalian malaria. 12190

Investigation into the possibility of the survival of Toxoplasma in raw sausage and ham. 12207

Faunistic and ecological data on the fleas of Madagascar (Siphonaptera). 12363

Anoplura of rodents and insectivores in the Central African Republic. 12376

Cowbone ridge virus, a new Group B arbovirus from south Florida. 12578

Arbovirus studies in south Florida, with emphasis on Venezuelan equine encephalomyelitis virus. 12579

Ecological relationships of plant communities and ectoparasites of rodents in the Great Salt Lake Desert. 13364

Rabbit survey in West Wales (1961-67). 13846

Resistance against pesticides. 14850

How to control rodents and other wildlife pests. 15155

2-Amino-5-(1-methyl-5-nitro-2-imidazolyl)-1,3,4-thiadiazole A new antimicrobial agent. 15163

Rodent trapping. 15232

Animal control suggestions and bait formulations. 15757

Section VI.--ANIMAL control. 15758

Abundance of rodents and fleas as related to plague in Lava Beds National Monument, California. 15817

ROE
Problems with DDT in fish culture operations. 10406

Zebra fish eggs and larvae as aflatoxin bioassay test organisms. 14060

ROMALEA MICROPTERA
A critical study of the evidence for peripheral inhibitory axons in insects. 11890

RONIDAZOLE
Colorimetric determination of ronidazole in feeds. 8481

RONNEL
Comparative toxicites of insecticides to house fly larvae and Macrocheles muscaedomestica, a mite predator of the house fly. 9168

Preliminary studies on toxicity of Ronnel-Dow Et 57 in sheep. 9814

Variability in insecticide tolerance of eighteen honey-bee colonics. 10125

Fly control in cage layer houses. 12813

ROOT DISEASE
Predisposition of virus-infected plants to fungus root-diseases. 10703

ROOT EXCRETIONS
Gibberellin-like substances in root exudate of vitis vinifera. 9843

ROOT KNOT
Fumigant nematocides for tobacco. 15690

ROOT KNOT NEMATODE
Pathogenicity and identity of root-knot nematodes on five varieties of banana. 14507

ROOT ROT
Chemical control of pea root rot by soil-incorporation and in-furrow treatments with 1-chloro-2-nitropropane. 8954

Etiological studies on root rot of wheat caused by Cercosporella heapotrichoides Fron. 9553

Field observations on root rot of teak in Tanzania. 9570

Study of nematodes causers of root spot-Pratylenchus spp. 9657

Observations in long-term experiments with weeds and herbicides. 10810

Effect of cycocel on foot and root rots, lodging and yield of spring wheat. 10973

Influence of peroxidase and catalases on mycelial growth and pycnidium production by Plenodomus meliloti in light and darkness. 11702

Selection for resistance and chemical control of Rhizoctonia root rot disease of sugarbeets. 11931

A root rot of red raspberry caused by Phytophthora erythroseptica. 11957

Phytophthora cinnamomi causing a basal rot of Chamaecyparis lawsoniana and its varieties. 11964

Now is the time to control brown rot. 12012

Rigidoporus lignosus. 12640

Saponins in relation to the control of avocado root rot with alfalfa meal. 12666

Effect of root fungus on mineral nutrition of the pine tree. 13774

Phytophthora root rot of alfalfa in the upper Midwest. 13775

Carthamus oxyacantha, a new host of Macrophomina phaseoli. 13908

Preliminary observations on moulting and limb regeneration in the mite Caloglyphus boharti. 14280

Effect of soil fumigants on control of pea root rot pathogens. 14391

Effect of a varietal mixture on sugarcane root rot susceptibility and on the rhizosphere microflora. 14455

ROOT SPOT
Study of nematodes causers of root spot-Pratylenchus spp. 9657

ROOTS
Development of controlled conditions for the study of red stele disease on strawberries. 8216

A black mildew, of the genus Diporotheca, found on roots of Nicotiana tabacum in Connecticut. 8278

The effect of diphenamid on the uptake and distribution of macronutrient elements in cabbage. 8305

The contraction of the roots of Arum italicum. 8583

Plant treatment in relation to the rhizosphere effect. III. Foliar application of certain trace elements and metallic chelates in relation to the rhizosphere microflora of rice (Oryza sativa L.). 8588

Occurrence of virus particles in the phloem tissue of BYDV-infected barley. 8962

Control of fairy ring disease of the cultivated cranberry. 9001

Experiments on the control of root pests of Brassicae. 9021

A modified soil percolator zoospore production and infection in studies on zoosporic root pathogens. 9543

Relationship of living and dead cells to spread of Colletotrichum graminicola in sorghum stalk tissue. 9574

The influence of ectotrophic mycorrhizal fungi on the resistance of pine roots to pathogenic infections. I. antagonism of mycorrhizal fungi to root pathogenic fungi and soil bacteria. 9583

Transmission of tobacco ringspot virus to the roots of a conifer by a nematode. 9652

Root nematode (Meloidogyne naasi Franklin) in Serbia (preliminary communication). 9654

Verticillium wilt of tobacco. VI. The influence of roots and stems on Verticillium wilt symptoms in tobacco. 10186

Verticillium wilt of tobacco. VIII. Movement of conidia of Verticillium dahliae Kleb. in tobacco plants. 10230

Effect of dichloro diphenyl trichloro-ethane (DDT) on leghemoglobin content of root nodules of Phaseolus aureus (green gram). 10438

Application of soil moisture principles to the study of plant disease. 10632

Comparative pathogenicity of Cephalosporium acremonium Cords, and Fusarium moniliforme Sheldon, (Emend Snyder and Hansen (Gibberella fujikuroi) (Saw.)Wr.) on maize. 10645

Russet crack--a menace to the sweetpotato industry. III. Role of fungi in the root-lesion phase of russet crack. 10654

The coffee root mealybug complex. 10711

Influence of herbicides on root development of bermudagrass. (Abstract). 10769

The tolerance of several fruit crops to applications of terbacil. (Abstract). 10809

Further studies on root exudation of exogenous growth regulators in Phaseolus vulgaris L. (Abstract). 10984

The action of gibberillic acid on rhizogenesis in stem pieces of peas (Pisum sativum L.) cultivated in vitro in presence of auxin in darkness or in light. 11005

The effect of trifluralin on nucleic acids and protein of corn roots. (Abstract). 11028

The effect of environment on root suckering in Robinia pseudoacacia L. (Abstract). 11037

The metabolic fate of propanil. I. (Abstract). 11038

The metabolic fate of propanil, Ii. (Abstract). 11039

Root temperature and transpiration influences on atrazine absorption and translocation. (Abstract).
11049

The effect of some growth promoting substances on the root system of summer barley.
11050

The effect of the herbicide burex on the total nitrogen content and on the technological quality of sugar beet.
11053

Root surface fungi of Crotalaria.
11503

Effect of seed and root exudates on the growth of Xanthomonas phaseoli var. fuscans.
11513

Stubby roots of coffee seedlings caused by Rotylenchulus reniformis.
11560

The response of potted apple and plum plants to bromacil and chlorthiamid.
11572

Micro-organisms in the root regions of wheat. Literature review.
11971

Fusarium oxysporum (Schlecht.) Snyd. et Hans.- A dominant fungus species on the root-surface of woody plant seedlings.
11988

Losses of active insecticidal elements of the dried roots of Derris elliptica Benth. under the influence of predators and especially of Trogoxylon aequale Woll.
12071

Effect of foliar applications of 3-indolebutyric acid on rooting of cuttings of ornamental plants.
12273

The action of indoleacetic acid and kinetin on the mitotic cycle of proliferative and stationary phase excised root meristems.
12297

About the specificity of Tylenchulus semipenetrans Cobb (Nematoda; Tylenchida) to several species of citrus roots.
12700

Gross morphological and cytological effects of nitralin on corn roots.
12721

Importance of root, shoot, and seed exposure on the herbicidal activity of EPTC.
12722

Foliar and root absorption of atrazine applied postemergence to giant foxtail.
12744

Pemphiginae associated with the roots of conifers in North America (Homoptera: Aphididae.
12990

Studies on the biology of Margarodes vitium, a ground pearl (Homoptera: Margarodidae) on roots of grapevines.
13011

The ground beetle Anisodactylus signatus (Coleoptera, Carabidae)--maize pest in the Rostov district.
13320

Influence of soil properties on phytotoxicity of 4-amino-3, 5,6-trichloropicolinic acid (picloram).
13479

Studies on the necrosis of peach trees.
13766

Effect of temperature on the rate of development of Nacobbus serendipiticus in excised tomato roots.
13892

Detoxification of 2,4-D in plants depending upon the peculiarities of its application.
14089

Role of 2,4-dichlorophenoxyacetic acid and of myo-inositol in the formation of the callus on excised roots of Solanum laciniatum Ait.
14090

The ultrastructure and physiology of the abdominal air-guide retractor muscles in the giant water bug, Lethocerus.
14277

Rooting of narrowleaf evergreen cuttings as influenced by various hormone treatments. (Abstract).
14318

Stimulation and retardation of adventitious root formation by application of B-Nine and Cycocel.
14327

The importance of preceding crop-dependent shifts in the micro flora of the soil. I. The influence of soil fungi on the root development of wheat, peas, and rape.
14353

Damage and evolution disturbance through weather influence.
14426

Studies on the parasitsm and control of tea root disease fungi in Ceylon. Heteroptera.
14448

Effect of D-galaltose on the ultrastructure of hentgrass root apices.
14672

Studies on the effect of plant growth regulators on the rooting of air layers of Darcaena roseaferrea L.
15279

Effect of thiamine on growth of roots of Dolichos biflorus and Eleusine coracana.
15297

Resistance of the red beet cultivar Avonearly to infection by Peronospora farinosa f.sp. betae.
15482

Infection of bean root- meristems by tobacco ringspot virus.
15488

Distribution of root-absorbed picloram.
15698

ROOTSTOCKS
Susceptibility of two citrus rootstocks to Pratylenchus spp.
11551

Development of young pear trees with different rootstocks in relation to Psylla infestation, pear decline, and leaf curl.
13778

RORIPPA SYLVESTRIS
Preliminary report on the amino acid composition of TMV-C protein.
14422

ROSA
Powdery mildew of hydrangeas.
8303

Multiple applications of 1,2-dibromo-3-chloropropane for control of nematodes in established rose plantings.
8384

Entomocoenological and biological studies in Rosa damascena Mill. plantations. II. Coleoptera.
10081

Principal diseases of roses, Rosa spp.
11495

Experiments with the propagation of Polyantha and hybrid tea roses by softwood cuttings.
11691

The chemical control of red spider mite on glasshouse roses.
15619

Phytotoxicity of methyl bromide to some plant hosts of San Jose scale.
15882

ROSACEAE
Occurrence of rose streak virus in South africa.
9575

ROSELLINIA NECATRIX
Soil condition and the violet and white root rot diseases of fruit trees.
14343

ROSETTE
Peach rosette in the M. I. A..
10679

Assessment of crop losses caused by rosette disease of groundnut.
14960

A virus disease distinct from the chlorotic leafroll disease: The rosette of the apricot-tree, var. (Luizet).
15550

ROT
Bacterial top and stalk rot disease of corn in Wisconsin.
8297

Contribution to the etiologic study and control of beet germ rotting.
8311

Fungi causing seedling blight of corn in the United Arab Republic.
8977

Experiments on the control of Gloeosporium fruit rots by field sprays. With an Addendum on: Harvest residues of dichlofluanid.
9140

Rhizoctonia leaf rot of colocasia in India.
10188

A systemic oxathiin fungicide to control loose smuts, covering smuts, seed rots, and seedling blights of wheat, barley, oats, and sorghum.
10189

Phellinus igniarius.
10216

Phellinus pomaceus.
10217

Wood rot of fruit trees.
11447

Phytophthora root rot of alfalfa in the upper midwest.
11465

The disruption of lysosome-like particles of Solanum tuberosum cells during infection by Phytophthora erythroseptica Pethybr.
12011

A fruit rot of strawberries caused by Rhizoctonia solani.
12023

Inheritance of reaction to phytophthora rot in the soybean.
12140

On the function of the phenol oxydases of woodrotting fungi.
12284

Phellinus robustus.
12641

Rigidoporus zonalis.
12642

Rigidoporus ulmarius.
12644

Postharvest heat treatment to control storage rots of Spadona pears.
13238

Didymella stem and fruit rot of tomato.
13273

Research into blossom infection: II. Brown rot of sour cherries (Prunus cerasus L.). III. Fruit rot of the strawberry (Fragaria vesca). IV. Stone fruits.
15577

Further studies on rot of McIntosh apples handled in water.
15841

ROT (REDPEPPERS)
Fungicides can check fruit-rot and die-back of chilli.
14432

ROTENONE
Thin layer densitometric determination of rotenone and deguelin.
8597

Mode of action of natural insectides.
8906

Thin layer densitometric determination of rotenone and deguelin.
10461

Chemistry of insecticides.
10463

Comparison of binding and inhibitory properties of piericidin A and rotenone in submitochondrial particles. (Abstract). 11064

Losses of active insecticidal elements of the dried roots of Derris elliptica Benth. under the influence of predators and especially of Trogoxylon aequale Woll. 12071

Studies on bionomics and control measures of Cnaphalocrocis medinalis Guenee; preliminary report. 14872

Blackberry, dewberry and raspberry insects. 15638

ROTYLENCHULUS RENIFORMIS

Some suggestions for control of white ant damage on dadaps (Erythrina indica L.). 10710

Stubby roots of coffee seedlings caused by Rotylenchulus reniformis. 11560

Additions to host records of Meloidogyne sp., Helicotylenchus multicinctus and Rotylenchulus reniformis. 13897

ROTYLENCHUS

The relationships between population increase and population density in plant parasitic nematodes. III. Definition of the terms host, host status and resistance. IV. The influence of external conditions on the regulation of population density. 13893

Underpopulation in plant parasitic nematodes. 14515

ROTYLENCHUS ROBUTUS

Phytopathogenic nematodes in Hessen forest tree nurseries. 10758

ROUND CELL SARCOMA

Contribution to the knowledge of primitive tumors of the heart in domestic animals: Globomyeloma in a cow. 13372

ROUS SARCOMA VIRUS

Enhancement and inhibition of avian sarcoma viruses by polycations and polyanions. 8484

Effect of Triton WR-1339 on Rous virus-induced tumors in chickens. 9728

Etiology of avian osteopetrosis. (Abstract). 10855

Use of the nucleic acid hybridization method for the demonstration of DNA homologous to Rous virus RNA in RSV-TRANSFORMED mammalian cells. 11617

Production of acid mucopolysaccharides in mammalian fibroblast tissue cultures transformed by Rous sarcoma virus. 11618

The secretion in vitro of hyaluronic acid and collagen by embryonic human cells transformed in culture by Rous sarcoma virus. 11628

Antigenic analysis of soluble tissue antigens from chickens exposed to Marek's disease agents. 12122

Mixed hemadsorption technique for study of avian Leukosis-Sarcoma viruses: Standardization of the technique. 12166

Mixed hemadsorption technique for study of avian Leukosis-Sarcoma viruses: Studies with avian leukosis viruses. 12167

Rapid transformation of cells by Rous sarcoma virus. 13382

The tumor problem from the point of view of the virologist. 13974

Relationships between the Rous sarcoma virus and avian leucosis virus. 14004

Production of acid mucopolysaccharides in mammalian fibroblast tissue cultures transformed by Rous sarcoma virus. 15183

Use of the nucleic acid hybridization method for the demonstration of DNA homologous to Rous virus RNA in RSV--TRANSFORMED mammalian cells. 15184

Interaction of Rous sarcoma virus with rat embryo fibroblasts of inbred Lewis strain in vitro. 15191

ROYAL JELLY

Prophylactic effect of aminoethylisothiouronium bromide hydrobromide (AET) in combination with bee milk in acute experimental radiation sickness. (JPRS 43,628) Transl. 16961. 15165

RUBBER

Diseases of tea, coffee and rubber discussed at the First International Congress of Plant Pathology. 8280

Rubber Research Institute of Malaya. Annual report 1966. 10607

The economics of disease control in Hevea. 12646

Review of the plant pathology department. 13804

RUBIACEAE

Uredo hameliae--a new report for the continental United States. 11485

RUBIDIUM

Rubidium sulfate flame detector: Effect of design of alkali source and anode on sensitivity and stability. 9222

RUBUS PARVIFLORUS

Masonaphis maxima (Mason) (Homoptera: Aphididae), an aphid on thimbleberry with an unusual life history. 11816

Aphidius rubifolii n. sp. (Hymenoptera: Aphidiidae), a parasitoid of Masonaphis maxima from British Columbia. 11854

RUELENE

Notice of withdrawal of petition for food additive ruelene. 11584

Activity of three anthelmintics against mixed infections of two Trichostrongylus species in gerbils, sheep, and goats. 15216

RUGA VERRUCOSANS

Restricted local spread of curly top in tomatoes. 8332

RUMEN

Effect of food intake on growth and survival of salmonellas and Escherichia coli in the bovine rumen. 9064

In vitro research on indol-3-acetic acid. 5-hydroxy-indoleacetic acid, o-aminophenol and xanthurenic acid in the content of caecum from equine after addition of l-tryptophan. 15266

Research on o-aminophenol in the rumen liquor from cattle with and without incubation with l-tryptophan. 15267

RUMEN FISTULA

Effect of starvation on the cellulolytic activity of sheep and goat rumen inoculum and in-vitro comparison of potency of rumen liquor samples frpm fistulated and normal animals. 13952

RUMENOTOMY

Studies on clinical symptoms and haematological changes in foreign body syndrome in buffaloes. 14003

RUMEX CRISPUS

Control of weeds in dormant birdsfoot trefoil. 15131

Effects of 2,4-D on seed production and embryo development of curly dock. 15743

RUMEX OBTUSIFOLIUS

Control of broad-leaf dock (Rumex obtusifolius). 10803

RUMINANTS

Rubber--vine (Cryptostegia grandiflora) toxicity for ruminants. 10346

Requirements and functions of vitamin A in ruminants. 10840

Ticks from waterbuck and warthog in the Queen Elizabeth National Park, Uganda. 11721

Viral encephalitis of equines and domestic ruminants in the Near East. Part II. 12760

Fascioliasis of ruminants in Japan. 12865

Kale anaemia in ruminants. II. Observations on kalefed sheep. 13380

Effect of starvation on the cellulolytic activity of sheep and goat rumen inoculum and in-vitro comparison of potency of rumen liquor samples from fistulated and normal animals. 13952

Studies on clinical symptoms and haematological changes in foreign body syndrome in buffaloes. 14003

Two cases of urea poisoning in dairy herds. 14661

The identification, in France, of necrosis of the cerebral cortex (N.C.C.) in different types of ruminants. 15189

Some pharmalogical actions of 2-(Beta-methoxyethyl) pyridine (active product of the anthelmintic for ruminants Promintic (ICI)). 15241

RURAL DEVELOPMENT

Tree planting guide for rural South Australia. 13229

RUSSET CRACK

Russet crack--a menace to the sweetpotato industry. III. Role of fungi in the root-lesion phase of russet crack. 10654

RUSSETING

Influence of pesticides on russeting of Golden Delicious apples. 14487

RUST

Infection structures from rust urediospores: Effect of RNA and protein synthesis inhibitors. 9829

Breeding for rust resistance. Advances in genetics give hope for total immunity. 10211

Recognizing turfgrass diseases. 10643

Control of rust in spearmint established with transplants. 10651

Black stem rust of wheat. 10692

Chemical control of the cereal rusts. 10697

Some aspects of the summer and winter ecology of wheat rust fungi. 11456

Rust of stone fruits. 11937

Uromyces minor Schroet. var. armoricana nov. var. on Trifolium patens Schreb. 11998

Uromyces costaricensis - A new report for the continental United States. 12629

Studies on the needle rust of the five-needled pines.
13284

The effect of short heat treatment on the susceptibility of poplar leaves to rust infection.
13823

Limb rust of pine: The causal fungi.
14430

Present problems of plant protection in peppermint.
14915

Rust, Tranzschelia discolor (Fckl.) Tranz. and Litv., on peach, Prunus persica (L.) Batsch.
14937

Occurrence of physiologic races of wheat and barley rusts in India during 1962--64 and their sources of resistance.
14983

RUST (FLAX)
Electron microscopy of uredospores of Melampsora lini and of rust-infected flax.
14399

RUST (TREES)
Rust of stone fruits.
14412

RUST (WHEAT)
Witches' broom of Berberis.
14395

Metabolism of aromatic compounds in healthy and rust-infected primary leaves of wheat. Ii. Studies with l-phenylalanine-U-14C, l-tyrosine-U-14C, and ferulate-U-14C.
14676

RUTABAGAS
Weed control in kale and swedes.
10820

RUTACEAE
The development of the citrus psylla, Trioza erytreae (Del Guercio) (Homoptera: Psyllidae), on Citrus limon and four indigenous host plants.
14491

RYE
Recognition of a greenbug biotype injurious to sorghum.
8349

Effects of crown rust on rye grass.
10681

The effect of simazine concentration on nitrate reductase levels in several plant species. (Abstract).
10969

Stem rust of wheat, barley, and rye in Canada in 1968.
11977

Control of wheat bulb fly by large area cropping restrictions.
12069

The effect of (2-chloroethyl) trimethylammonium chloride (CCC) on the grain yield and quality of rye in field trials.
13487

Influence of growing marigolds, weeds, two cover crops and fumigation on subsequent populations of parasitic nematodes and plant growth.
13889

Moisture corrosion, a new corrosive method.
14330

The influence of CCC on lodging and development of grain.
14680

Double and multiple eared winter rye as a result of abnormal effects of weed controllers containing calcium cyanamide.
15892

SACADODES PYRALIS
Observations on hatching and penetration of the small larvae of the false pink ballworm Sacadodes pyralis Dyar. into the balls of cotton.
12046

SACBROOD
The multiplication and spread of sacbrood virus of bees.
12408

SACCHARICOCCUS SACCHARI
The coccid Saccharicoccus sacchari (Cockerell) (Hemiptera Pseudococcidae) of sugar cane in Mozambique.
9390

SACCHARIDES
Nutritional requirements of Xanthomonas phaseoli var. fuscans.
11514

SACCHAROMYCES
Yeast sporulation and RNA as affected by gibberellic acid.
9198

Antifungal effects of peroxidase systems.
11605

SAFETY DEVICES
Pest and disease control is more than simply putting on a spray.
13748

SAFETY EDUCATION
The need for pesticides. II.
13457

SAFFLOWER
Pollen gathering of honey bees reduced by pesticide sprays.
8205

Safflower introduction resistant to fusarium wilt.
11987

Note concerning a virus of Carthamus tinctorius .
14994

SAFFLOWER OIL
Absence of interaction between cyclopropenoid fatty acids and aflatoxin in rats. (Abstract).
10860

SAINFOIN
Invasion of the Hedysareae by Heterodera trifolii.
10760

SAINT LOUIS ENCEPHALITIS
Virus induced cataracts.
9715

Arbovirus focus in the east Kootenays. (abstract).
9730

SAINT LOUIS ENCEPHALITIS VIRUS
Cowbone ridge virus, a new Group B arbovirus from south Florida.
12578

SAINTPAULIA
Cytological and morphological evidence for the single-cell origin of vegetatively propagated shoots in thirteen species of Saintpaulia treated with colchicine.
12233

SAISSETIA OLEAE
The establishment of Metaphycus helvolus (Compere) (Hym. Encyrtidae) on Saissetia oleae (Bern.) (Hom. Coccidae) in olive groves in Greece.
9621

Scales on lemon trees.
13328

Bioecology of Saissetia oleae Bernard and its biological control.
13837

SALDIDAE
The rectal glands of Halosalda lateralis (Fallen) (Hemiptera: Saldidae) and Hydrometra stagnorum (L.) (Hemiptera: Hydrometridae).
13055

The aquatic and semiaquatic Hemiptera (Belostomatidae and Saldidae) of Oklahoma.
14774

SALES
Shell's versatile products Aldrite 4, Dieldrite 1.5 Vaponite 2 formulated for all P.C.O. business.
8613

SALICYLALDEHYDE
Refined defensive mechanisms in Chrysomela scripta.
10139

SALICYLIC ACID
3-(N-formylamino)-salicylic acid - a new metabolite of Streptomyces antibioticus.
14702

SALINE WATER
The distribution of two species of Cenocorixa in inland saline lakes of British columbia.
11390

SALIVA
Mycoplasma-like bodies in the saliva of the leafhopper Macrosteles fascifrons (Stal) (Homoptera: Cicadellidae).
15419

SALIVARY GLANDS
Biochemical and autoradiographic studies of DNA synthesis in the salivary gland of the melonfly, Dacus cucurbitae.
11278

The salivary gland chromosomes of Chironomus oppositus Walker (Diptera: Nematocera).
11426

Anatomical and histological changes in internal organs of adult Trypodendron lineatum, Gnathotrichus retusus and G. sulcatus (Coleoptera: Scolytidae).
12532

The salivary gland chromosomes of Anopheles atropos.
13184

DNA replication in salivary gland nuclei of Drosophila melanogaster at successive larval and prepupal stages.
13201

Drosophila salivary glands in vitro.
13727

The capacity of the fourth chromosome of Drosophila melanogaster to establish end-to-end contacts with the other chromosomes in salivary-gland cells.
14899

Mycoplasma-like bodies in the saliva of the leafhopper Macrosteles fascifrons (Stal) (Homoptera: Cicadellidae).
15419

The salivary gland chromosomes of Prosimulium multidentatum Twinn and three forms included in Prosimulium magnum (Dyar and Shannon) (Diptera: Simuliidae).
15438

SALIVARY GLANDS (INSECTS)
The labium of Aphelocheirus aestivalis F. as compared with that of typical Naucoridae (Heteroptera).
8169

The salivary gland chromosomes of Anopheles pulcherrimus Theobald.
8909

Studies on cytology and differentiation in Sciaridae. II. DNA redundancy in salivary gland cells of Hybosciara fragilis (Diptera, Sciaridae).
8911

The nymphal liabial gland of damselflies (Zygoptera: Odonata).
9503

The effect of temperature on the number of eggs deposited and on the production of hatching larvae in versene-treated Drosophila melanogaster.
9511

The salivary gland chromosomes of seven taxa in the subgenus Stegopterna (Diptera, Simuliidae, Cnephia).
10546

Specific activity increase of a Balbiani ring by Mg2 plus in isolated nuclei of Chironomus.
11334

Studies on the morphology of the principle salivary gland of Myzus persicae.
11410

Larval moulting cycle and DNA synthesis in Drosophila hydei salivary glands.
11804

The use of parasympathomimetic drugs to stimulate salivation in the tick Rhipicephalus appendiculatus, and the transmission of Theileria parva using saliva obtained by this method from infected ticks. 12187

DNA synthesis in the gaint salivary chromosomes of Drosophila virilis proir to pupation. 12513

Proteolytic enzymes in the salivary gland of Chironomus tentans. 12524

Note on salivary glands in Megachile (MegachilidaeApoidea). 13056

Patterns of puffing activity in the salivary gland chromosomes of Drosophila. I. Autosomal puffing patterns in a laboratory stock of Drosophila melanogaster. 13711

SALIX

Phellinus igniarius. 10216

Black rib of willows in Manitoba and Saskatchewan. 10704

SALIX ALBA

Cultivation of the cricket bat willow. 13231

SALIX CAPREA

Communication regarding the existence of Cidaria (subgen. Calostigia) multistrigaria Hw. on the Kaiserstuhl Mountain in Baden. 14166

SALIX VIMINALIS

Movement of water and solutes in sieve tubes of willow in response to puncture by aphid stylets. Evidence against a mass flow of solution. 13486

SALMONELLA

Supplement No. XI to Kaufmann-White scheme. 8464

Prevalence of salmonellae in Virginia poultry flocks and in feed. 8468

On the common protein determinants of Enterobacteriaceae. 8594

Effect of food intake on growth and survival of salmonellas and Escherichia coli in the bovine rumen. 9064

A common source epizootic of bovine salmonellosis in Manitoba. 9120

Cockroaches (Blattaria) as vectors of food poisoning and food infection organisms. 9779

Some thoughts concerning the salmonella problem. 9781

The sources and extent of Salmonella contamination in rendering plants. 9783

On the problem of contamination with salmonellae foodstuffs and feeds. 9784

The bacteriological supervision of egg production in the Federal Republic of Germany. 9862

The classification of slaughter animals in wich salmonella have been found, from the legal meat inspection point of view. 9863

The states' role in salmonella control. 10844

Number of salmonellae in unpasteurized liquid egg. (Abstract). 10861

Electron microscopy of the lysis of Salmonella by Bdellovibrio bacteriovirus. 11606

Number of Salmonellae in commercially broken eggs before pasteurization. 12135

Veterinary investigation diagnosis analysis: A system of information recording and retrieval for veterinary diagnostic laboratories in the ministry of agriculture, fisheries and food. 12144

Experimental transmission of Enterobacteriaceae by insects. I. Fate of Salmonella fed to the hide beetle Dermestes maculatus and a novel method for mounting insects. 12472

Investigation into the culturing of Salmonella and Shigella organisms from milk and milk product mediums of enrichment procedures. I. The inhibitory activity of the enrichment substrate on the milk organisms. 12884

Salmonellae associated with further-processed turkey products. 13429

Thieves in the poultry house. 13927

Behavior of salmonellae causing specific animal paratyphoid in Lysine-decarboxylase test. 14007

Recommended changes in the method for detection and identification of salmonella in egg products. 14040

Immunity to Salmonella infection (experimental investigation). Report I. Dynamics of 19S and 7S antibody formation and specific resistance in immunization with cellular components of typhoid bacillus. 15806

SALMONELLA ABORTIVOEQUINA

Salmonellosis. 10894

SALMONELLA ABORTUSOVIS

Titration of Salmonella abortus-ovis strains with chick embryos and white mice. 14561

SALMONELLA ANATUM

Salmonellae associated with further-processed turkey products. 13429

Clinical aspects on a food toxiinfection epidemic due to a Salmonella strain seldom reported in Romania. 15842

SALMONELLA BACTERINS

Behavior of some germs and bacterial toxins pathogenic to man in food and its destruction through heat treatment of the food. I. Salmonella. 14042

SALMONELLA CUBANA

Salmonellosis. 10894

SALMONELLA ENTERITIDIS

Salmonellosis incidence in gastro-enteropneumopathies in cattle. 15803

The epidemiologic aspects of salmonelloses in Bucharest. 15846

SALMONELLA ESSEN

Salmonellosis incidence in gastro-enteropneumopathies in cattle. 15803

SALMONELLA GALLINARUM

Salmonellosis. 10894

Serological response of chickens infected artificially with Salmonella gallinarum and treated with tikofuran. 13975

Serological catalogue of Salmonella gallinarum and pullorum in the agricultural zone of Argentina. 15793

SALMONELLA MONTEVIDEO

Enhanced recovery of Salmonella montevideo from onion powder by the addition of potassium sulfite to lactose broth. 13381

SALMONELLA PANAMA

In vivo susceptibility of Salmonella panama to polymyxin B sulfate and Combistrep. 9756

Clinical aspects on a food toxiinfection epidemic due to a Salmonella strain seldom reported in Romania. 15842

SALMONELLA PARATYPHI

What the sanitarian should know about Staphylococci and salmonellae in non-dairy products. Ii. Salmonellae. 14649

SALMONELLA PULLORUM

Isolation of Salmonella pullorum from a caseous nodular in the orbital region of a chick Arbor Acres breed. 10338

Salmonellosis. 10894

Investigation on the incidence of Salmonella in wild birds. 13926

Serological catalogue of Salmonella gallinarum and pullorum in the agricultural zone of Argentina. 15793

SALMONELLA SENFTENBERG

Thermal resistance of Salmonella senftenberg 775W in dry animal feeds. 12780

Epidemiological studies on Salmonella senftenberg. I. Relations between animal foodstuff, animal and human isolations. 13431

Salmonella senftenberg in the Sunderland area. 13432

SALMONELLA TYPHIMURIUM

Examination of antibodies and of hemagglutines, complete and incomplete for the diagnosis of Salmonella typhimurium infections. 8563

B parathiphosis of young pheasants. 9744

A Salmonella typhimurium involved in the regulation of isoleucine, valine and leucine biosynthesis. 10326

Operator constitutive mutations in the leucine operon of Salmonella typhimurium. 10329

Salmonellosis. 10894

Modes of action of 3-amino-1,2,4-triazole (amitrole). (Abstract). 10991

The effect of dibromoxyquinoline and iodochloroxyquinoline of Salmonellosis in mice. 12164

Importance of the bursa of Fabricius in resistance to disease. 2. Resistance to two bacterial diseases. 12168

Salmonella infection of cracked eggs. 12178

The growth of Candida albicans and Salmonella typhimurium in mixed cultures. 13399

Growth and destruction of Salmonella typhimurium in egg white foam products cooked by microwaves. 13428

Investigation on the incidence of Salmonella in wild birds. 13926

The temperature requirements for interferon production in cells stimulated by Newcastle disease virus or microbial agents in vitro. 14585

What the sanitarian should know about Staphylococci and salmonellae in non-dairy products. Ii. Salmonellae. 14649

Comments on an outbreak of food toxiinfection with Salmonella typhimurium in an open community.
15763

Clinical aspects on a food toxiinfection epidemic due to a Salmonella strain seldom reported in Romania.
15842

The epidemiologic aspects of salmonelloses in Bucharest.
15846

SALMONELLOSIS
Swine salmonellosis in a Hawaiian piggery.
8457

A common source epizootic of bovine salmonellosis in Manitoba.
9120

B parathiphosis of young pheasants.
9744

Problems in raising ducks.
10357

Salmonellosis.
10894

A survey on avian salmonellosis in U. A. R..
11595

The effect of dibromoxyquinoline and iodochloroxyquinoline of Salmonellosis in mice.
12164

Salmonella infections of the ovary and peritoneum of chickens.
12794

Salmonelloses in an Algerian pediatrics service.
13395

Behavior of salmonellae causing specific animal paratyphoid in Lysine-decarboxylase test.
14007

Geographical distribution maps of animal diseases in Africa, 1966.
14575

Salmonellosis incidence in gastro-enteropneumopathies in cattle.
15803

The epidemiologic aspects of salmonelloses in Bucharest.
15846

SALTICIDAE
Orientation and biorhythms in jumping spiders (Araneida: Salticidae).
11869

SALTS
Effects of dietary amino acids, salts, and protein starvation on fecundity of the parasitoid Exeristes comstockii (Hymenoptera: Ichneumonidae).
9353

Toxicologico-hygienic characteristics of the amine salt of 2,4-D (Literature survey).
9818

Factors affecting trace and minor elements in hill sheep pastures.
10589

Method of preventing influenza viral infections. Patent 3,444,302.
12920

Effect of buffer salt and H-ion concentration on potato virus X infection on Capsicum pendulum Willd..
14976

Oviposition response of Aedes sollicitans, Aedes taeniorhynchus, and Psorophora confinnis to seven inorganic salts.
15411

SALVIA GLUTINOSA
Experimental research concerning the circumstances and modalities of the return of inflorescence towards the vegetative stage in Salvia glutinosa L.
8577

SALVIA LEUCOPHYLLA
The significance of alleleopathy for the synthesis of vegetation.
15897

SALVINIA
Aquatic weeds.
15709

SAMIA CYNTHIA
Comparative toxicites of crystal serotypes of Bacillus thuringiensis for larvae of Philosamia cynthia var. ricini.
8830

Ecological significance of antibiotics of some varieties of Bacillus thuringiensis.
8831

Sex pheromone of the eri-silkworm moth, Philosamia cynthia ricini Donovan (Lepidoptera: Staurniidae).
12548

Cholinesterase in the brain of the Cercropia silkmoth during metamorphosis and pupal diapause.
14878

SAMIA CYNTHIA RICINI
Studies on acid phosphatase in the silk gland of the silkworm. I. Electrophoretic analyses of acid phosphatase in the silk gland of Samia cynthia ricini.
11402

SAMPLING (STATISTICS)
On the ecology of the fauna of stones in the current in a South African river supporting a very large Simulium (Diptera) population.
11798

Douglas-fir beetle brood densities and infestation trends on a New Mexico study area.
12055

Four methods of sampling to measure populations of alfalfa weevil larvae.
12341

Conversion of results of concentrated samples to density estimates of egg and larval populations of the Northern corn rootworm.
12345

Extraction procedures for DDT residues in firm fruits and in hay: Colorimetric method.
14059

Important forest insects of Ontario in 1966.
14120

Effects of N-dimethylamino succinamic acid (Alar) on maturity and size of Pocahontas strawberries. (Abstract).
14444

The insect ecology of old-field red pine plantations in central Ontario, I. Description of the study area. III. Soil-surface fauna as indicators of stand change.
14548

Techniques for the detection of enzootic leukosis in cattle. Value of the blood test. Possible errors.
15769

Pesticide levels in fish of the Northeast Pacific stout, v f.
15850

SAND
Ecological research on arthropods of a sandy beach of the Mediterranean. II. The migrations of Talitrus saltator (Montagu) (Crustacea-Amphipoda).
8122

SANDY SOILS
Color and natural products attracting the adult sugarbeet root maggot in Southcentral Idaho.
8197

Contribution to the migratory behavior of Xiphinema diversicaudum (Mikoletzky) Thorne, X. coxi Tarjan and Longidorus macrosoma Hooper, as well as the diffusion of rhubarb mosaic virus in the field.
8382

Leaching of seven s-Triazines.
12737

Occurrence and control of Haplodiplosis equestris in Holland.
14496

SANITATION
Preventing and controlling internal parasites of hogs.
8510

Mycoplasma infections with emphasis on the control of M. gallisepticum.
9061

Problems in raising ducks.
10357

Proceedings seventieth annual meeting of the United States Livestock Sanitary Association.
10837

The cluster fly.
11871

Mastitis in cattle and its control.
12128

A milestone in MG control.
12174

Dermatophytes in veterinary practice.
12795

Significance of coliforms and enterococci in fish products.
13433

Bacteriological control of ice cream manufacture. Part I. Introduction and raw materials.
14037

Five years' research with a hatchery sanitation program in Maine.
14545

End-of-season mastitis control.
15774

SANITATION CONTROL (INSECTS)
The campaign against the citrus blackfly. Aleurocanthus woglumi Ashby.
11528

Field tests with bed nets treated with repellents to prevent mosquito bites.
13220

SANITATION CONTROL (PESTS)
Recent techniques for serodiagnosis of hydatidosis. V. The importance of tests of bentonite, latex and indirect hemagglutination in the field sanitation of hidatioosis.
10372

Principal diseases of tomatoes, Licopersicum esculentum, L.
11448

Control of the bacterial Makd in the plane and banana tree caused by Pseudomonas solanacearum.
13796

Brown rot of stone fruits.
14964

How to control rodents and other wildlife pests.
15155

SANNINOIDEA EXITIOSA
A method of rearing the peach tree borer on artificial diet.
8858

SANTALUM
Sandalwood (Eremophila mitchellii) control in gidyea country.
15135

SANTALUM ALBUM
The occurrence of inclusion bodies in leaf epidermis cells of sandal affected with spike disease.
8945

SAP
Information on a sap transmissible, seed-, fungus- and insect-borne new virus of garden pea.
12032

Chenopodium as host to viruses transmitted from apple, pear and grapevine.
14356

Soil-borne wheat mosaic virus from Poa annua L., a new host.
14377

Identification of the causal agent of a Malva disease present in Italy.
15018

The shot-hole disease of the melon. Preliminary study of a new viral disease of the glass-house-grown melon.
15543

Mechanism of feeding of some virus-vector leafhoppers. histological studies of the tracks.
15654

SAP STAIN
The bioecology of Corthylus columbianus Hopkins. 11821
Micromorphological changes of wood through the decomposition caused by fungi. 11995

SAP STAIN (WOOD)
The causes of sapstain in red beech. 14350

SAPERDA CALCARATA
Comparison of systemic insecticides by dip treatments for control of the cottonwood leaf beetle. 9436

SAPERDA CARCHARIAS
An interesting case of adaptation to various hosts on the part of an egg parasite. 9985
The use of cidial to control certain poplar borers. 13302

SAPODILLA
Influence of temperature on Botryodiplodia rot of citrus and sapodilla. 12872
Anastrepha ocresia (Walker) (Diptera: Tephritidae). 14782

SAPONINS
Saponins in relation to the control of avocado root rot with alfalfa meal. 12666

SAPROPHYTIC FUNGI
The saprophytic fungus Hysterographium mori (Schw.) Rehm, growing on Juniperus, a new species for Czechoslovakia. 15456

SARCOMA
Enhancement and inhibition of avian sarcoma viruses by polycations and polyanions. 8484
Multiple antigenic components of the group-specific antigen of the avian leukosis-sarcoma viruses. 9109
Control of cell multiplication in uninfected chicken cells and chicken cells converted by avian sarcoma viruses. 11688
Malignant mammary tumours to the hitch with special reference to prognosis. 14015

SARCOPHAGA ARGYROSTOMA
Immature stages of the flesh fly, Parasarcophaga (Thomsonea) argyrostoma (Robineau-Desvoidy). 13150

SARCOPHAGA BULLATA
Haemocyte activity in relation to epidermal cell growth, cuticle secretion, and cell death in a metamorphosing cyclorrhaphan pupa. 8212
Bursicon mediation of tyrosine hydroxylation during tanning of the adult cuticle of the fly, Sarcophaga bullata. 8853
Hormonal control of turnover of tyrosine and tyrosine and tyrosine phosphate during tanning of the adult cuticle in the fly, Sarcophaga bullata. 9465
The endocrine control of protein metabolism as related to reproduction in the fleshfly Sarcophaga hullata. 9502
Juvenile hormone: Effects on a higher Dipteran. 11912
The role of beta-alanyl-L-tyrosine (Sarcophagine) in puparium formation in the flesh fly Sarcophaga bullata. 13606

SARCOPHAGIDAE
The problem of insect identification and the University of Arkansas Reference Collection. 9317
Parasarcophaga (Curranea) tibialis (Macquart, 1850) a new species for the Czechoslovak fauna (Diptera). 9322
Three new species of Sarcosolomonia Baranov, 1938 (Diptera: Sarcophagidae). 10498
The effects of pH on the labellar sugar receptor of the fleshfly. 10560

SARCOPTIFORMES
Pteronyssus monoplax, a new species of fowl mite (Avenzoariidae, Sarcoptiformes). 11116
Destructive nest mites in Africa south of the Sahara. V. Description of the life cycle and two species of Acarina of the genus Rodentopus Fain, 1965 (Sarcoptiformes: Glycyphagidae). 11133
The question of applied terminology for development stages of mites of the suborder Sarcoptiformes. 11724
Microarthropods from two Quebec woodland humus forms. III. The Sarcoptiformes (Acarina). 13086
Some aspects of mange in man and domestic animals. 15196

SARCOSOMES
The utilization of C14-labelled adenosine diphosphate during the in vitro respiration of housefly sarcosomes. 9984
The sarcoplasmic reticulum and its association with the T system in an insect. 12460
A comparative study on the fine structure of the basalar muscle of the wing and the tibial extensor muscle of the leg of the lepidopteran Achalarus lyciades. 12522

SATURNIIDAE
Contribution to the fauna of the Congo (Brazzaville). mission of A. villiers and A. Descarpentries. XLVI. Lepidoptera Attacidae. (2nd note). 10506
A new species of the genus anisota (Lep., Saturniidae) in North America. 11192
The effect of corpora allata transplanted from Bombyx mori to other species of lepidoptera (Lepidoptera: Bombycidae and Saturniidae). 11314
Further experiments with Saturnia pavonia L. (Lep., Saturniidae). 11421

SATYRIDAE
Four new satyrids from Ecuador. 8639
Cercyonis pegala abbotti, new subspecies (Lepid., Satyridae). 9877
Field notes and subspecific status of Oeneis melissa (Satyridae) in northern Quebec. 11106
Coenonympha oedippus Fab. in Sarthe and Maine-Loire. 13549
Lethe eurydice (Johansson) and L. fumosus (Leussler), sibling species (Lepidoptera: Satyridae). 13582
Taxonomy, distribution and biology of the genus Cercyonis (Satyridae). I. Characteristics of the genus. 14738
A new subspecies in the Cercyonis meadi group (Satyridae). 14739
Uncommon hutterflies of northeastern Indiana. 14770
Field observations on forest Oeneis (Satyridae). 14846
An anomalous foreleg in a male of Dodonidia helmsii (Satyridae). 14854
Quilaphoetosus, Chillanella and Haywardella, new genera of Satyridae of the Andes (Lepidoptera). 15321

SAUSAGES
Investigation into the possibility of the survival of Toxoplasma in raw sausage and ham. 12207
Wild hogs as a source of trichinellosis epidemic in Vojvodina. 15212

SCAB
The development of resistance in Cladosporium cucumerinum against 6-azauracil, a chemotherapeutant of cucumber scab, and its relation to biosynthesis of RNA-PRECURSORS. 8944
Susceptibility of potato varieties to powdery scab. (Spongospora subterranea(Wallr.) John). 9571
The effect of trichlorphone (Soldep, Hypodermin) on some ectoparasites or mycoses in cattle and sheep. 11636
Surveys of apple scab infection severity in crabapple selections 1961-1965. 11942
Cucumber diseases. 12000
Breeding for disease resistance in the potato. 13765
Preparation of the new fungicide heximide. 14703

SCAB (POTATOES)
Common scab and Rhizoctonia disease of potato. 14414

SCABIES
Interstate transportation of animals and poultry. Scabies in sheep. 12116

SCALD
Minor causes of damage to pelts. 12181
Superficial scald, a functional disorder of stored apples. IV. - Effect of variety, maturity, oil wraps and diphenylamine on the concentration of alpha-farnesene in the fruit. 12870
Chemical control of superficial scald on Anjou pears. 13258
The influence of N-dimethyl amino succinamic acid on flesh firmness and on some pre- and post-harvest physiological disorders of Delicious apples. 13482
Chemical treatment the answer to fruit scald. 14466

SCALES (INSECTS)
Notes on the occurrence of abnormal scale patterns in adult female Aedes vexans (Meigen). 13034

SCALP
Diiodohydroxyquin. Drugs for veterinary use; drug efficacy study implementation. 9681
Lipids of fowlpox virus and the host cell. (Abstract). 11081

SCALPONOTATUS
Scalponotatus, a new genus near Slaterocoris, with descriptions of new species (Heteroptera: Miridae). 9296

SCAPHIDIIDAE
A contribution to the knowledge of the Scaphidiidae and Pselaphidae of Korea (Coleoptera). 8046

SCAPHOIDEUS LITTORALIS

The presence in the vineyards of the Tessin of a nearctic cicadella, new for Switzerland, Scaphoideus littoralis Ball (Hom.Jassidae) a possible carrier of yellow flavescence.
8325

Testing the susceptibility of vine varieties to (Flavescence dorec) by means of inoculation by (Scaphoideus littoralis) Ball.
15581

Investigations about possible vectors of golden flavescence of the vine.
15633

SCARABAEIDAE

Morphology and development of an occluded virus from the black-soil scarab, Othnonius hatesi.
8760

Field notes on a feeding swarm of Cheiroplatys clunalis.
8908

The Scarabaeidae, Coleoptera of Pakistan. Part IV. Adoretint (Rutelinae) with descriptions of eight new species of Adoretus from West Pakistan.
9251

The dung-rollers of Pakistan with observations on the genus Anomala including the economic importance and descriptions of new species from Karachi (Coleoptera: Scarabaeidae).
9254

Ochodaeinae and Acanthocerinae from the faunistic region of Ethiopia and Madagascar. (Coleoptera Scarabaeidae).
9310

The structure of polymorphic species of the subgenus Autolethrus (Coleoptera, Scarabaeidae) from South Kazakhstan.
9924

Spiracles of adult Scarabaeoidea (Coleoptera) and their phylogenetic significance. I. The abdominal spiracles.
9934

Laboratory demonstration of a chemical sex attractant in Costelytra zealandich (White) (Scarabaeidae: Coleoptera).
10030

Fuseaux virus of a South American Scarabaeidae.
10133

Rhizotrogus maculicollis Villa (Coleoptera, Scarabaeidae) a new species for Czechoslovakia.
10490

Cockchafers.
10518

A key to the species of the Anomalini (Rutelinae) of Pakistan with redescription of Mimela horsefieldi Hope (Coleoptera: Scarahaeidae).
11102

A new species of the genus Heptaphylla from Shikoku, Japan (Coleoptera:-Melolonthidae).
11746

An introduced pasture heetle, Plectris aliena Chapin (Scarabaeidae: Melolonthinae).
11755

A study of the eugregarines of the grass-grub (larva of Costelytra zealandica (White), Melolonthinae), with a description of three new species.
11776

On the specificity of Vagoiavirus melolonthae.
12467

The deletion of the Herefordshire record for Aphodius niger (Pz.) (Col., Scarabaeidae).
12968

Milky disease bacteria.
12992

Corpophagous insects in soil-biological processes.
13151

Investigations on the control of pasture cockchafers, Aphodius pseudotasmaniae, given in Tasmania.
13313

Contributions to the study of African Melolonthidae. II. Notes on the Leucophilini and description of new species.
13544

Electron microscopy of spindle-shaped inclusion viruses of Coleoptera.
14184

Lest white grubs visit your sugarcane...and find you unprepared.
14486

Contribution to the study of Scarabaeidae of Mosambique. Description of a new species of sub-genus Scarabaeolus Balthasar (genus Scarabaeus L., subfamily Scarabaeinae).
14745

On the place of the first mating in the different sequences of imaginal activity of Oryctes rhinoceras (Coleoptera, Scarabaeidae).
14829

SCARLET RUNNER BEANS

Further investigations of gibberellins in Phaseolus multiflorus by combined gas chromatography-mass spectrometry - The occurrence of gibberellin A20 (Pharbitis gibberellin) and the structure of compound b.
13484

SCATOPHAGA STERCORARIA

Hormone-mediated nutritional control of sexual behavior in male dung flies.
11815

SCATOPSIDAE

A synopsis of the Scatopsidae of the Palaearctic. Part. I. Rhegmoclematini.
11118

SCELIONIDAE

The possible control of rice stem borers by the use on natural enemies.
8379

Impact of parasites, predators, and diseases on rice pests.
8380

Palearctic species of egg parasites of the genus Telenomus haliday (Hymenoptera, Scelionidae, Telenominae).
8645

Factors influencing egg survival of Scolypopa australis Walker (Hemiptera-Homoptera: Ricaniidae) in the Sydney area (N. S. W. Australia).
9005

The egg parasite complex of British Pentatomoidea (Hemiptera): Taxonomy of Telenominae (Hymenoptera: Scelionidae).
11739

The nesting activities of the vespoid potter wasp Eumenes campaniformis esuriens (Fabr.) compared with the ecologically similar sphecoid Sceliphron madraspatanum (Fabr.) (Hymenoptera).
12470

Some peculiarities and numbers in two species of Eurygaster.
13017

The influence of abiotic factors upon the distribution and abundance of egg parasites of the Eurygaster integriceps (Hymenoptera, Scelionidae).
13141

SCENT GLANDS

Trails of the leafcutters.
8812

Influence of temperature on development of the lesser mealworm, Alphitobius diaperinus (Coleoptera: Tenebrionidae).
11412

The morphology of the scent glands of Dysdercus intermedius Distant (Hemiptera: Pyrrhocoridae) and a preliminary analysis of the scent gland secretions of the fifth instar larvae.
11419

Chemical analysis of the scent fluid of Leptoglossus clypeatus.
12495

Function and properties in an assembling scent in the Khapra beetle, Trogoderma granarium.
13643

A study of the bionomics of Lymantria ampla Wlk. (Lymantriidaei Lepidoptera).
14887

SCEPTICUS INSULARIS

A chromosome study on bisexual and parthenogenetic races of Scepticus insularis Roelofs (Curculionidae: Coleoptera).
9516

SCHISTOCERCA GREGARIA

Acid phosphatase activity in the digestive system of the desert locust Schistocerca gregaria (Forskal).
8166

Alkaline phosphatase in the digestive system of the desert locust, Schistocerca gregaria (Forskal).
8699

Control of haemolymph lipid concentration during locust flight: An adipokinetic hormone from the corpora cardiaca.
8808

Hormonal inhibition of the prothoracic gland by the hrain in locusts.
9355

Esterase inhibition in malathion poisoning in the desert locust, Schistocerca gregaria Forskal.
9423

Oviposition behaviour of the desert locust (Schistocerca gregaria Forsk.).
9971

Locust wind receptors. I. Transducer mechanics and sensory response.
9981

Locust wind receptors. III. Contribution to flight initiation and lift control.
9982

Locust wind receptors. ii. Interneurones in the cervical connective.
9983

A study of a pocket of scattered desert locust population in Rajasthan, India during 1966 with special reference to eye-stripes and biometrics.
10027

Meteorological aspects of insect migrations.
10037

Common inhibitory motorneurones in insects.
10089

The nutrition of desert locust (Schistocerca gregaria Forks.) nymphs and developmental differences of the nymphs caused by nutrition.
10569

The anatomy and histology of the maxillary palp of Schistocerca gregaria (Orthoptera, Acrididae).
11233

Histology of the male auxillary glands of Schistocerca gregaria F. (Orthoptera). Effect of allatectomy on their structure and function.
11241

Pigment development in male integument transplanted onto females in the desert locust, Schistocerca gregaria.
11270

The effect of X-irradiation on male meiosis in Schistocerca gregaria (Forskal). II. The induction of chromosome mutations.
11430

No frontier in the fight against the desert locust.
11782

Experiments of in vitro cultures of larval epiderm of desert locust (Schistocerca gregaria Forsk).
11862

Locusts march on 40 countries. Millions emerge from desert sands.
11867

A critical study of the evidence for peripheral inhibitory axons in insects.
11890

Effects of plant growth regulators on locusts and cotton stainer bugs.
13028

Effect of denervation on enzyme levels in indirect flight muscles of the desert locust.
13073

Phosphomonoesterase activity in the life-cycle stages of Schistocerca gregaria.
13100

Effect of temperature on the endogenous activity of Periplaneta americana L. nerve cord.
13620

Studies on factors affecting population density and phase of desert locust in India.
13696

Antinomycin D induced chromosome breakage and suppression of meiosis in the locust, Schistocerca gregaria.
13723

Natural enemies of the desert locust (Schistocerca gregaria).
13830

Desert locust situation and control in India during 1962-63.
13858

Some phase characteristics of the southern African form of the desert locust (Schistocerca gregaria (Forskal)).
14187

Insect hormones: Olive oil is not an inert vehicle for hormone injection into locusts.
14197

Role of vegetation in sexual maturation of the desert locust (Schistocerca gregaria Forsk.).
14795

Central anti-locust organisation in India.
15031

SCHISTOSOMA MANSONI
Pyruvate kinase and phosphoenolpyruvate carboxykinase activities of Ascaris muscle, Hymenolepis diminuta and Schistosoma mansoni.
10369

SCHISTOSOMA SPINDALE
Studies on two fluke infections of the intestinal tract in buffalo-calves (below two years of age) with further observations on histopathology.
9770

SCHISTOSOMATIDAE
Redescription of Ornithobilharzia canaliculata (Rud.) Odhner, with notes on classification of the genus Ornithobilharzia and the subfamily Schistosomatinae (Trematoda).
8516

SCHISTOSOMIASIS
Schistosomal cirrhosis in pigs in Jahalpur, M. P..
10381

Some pathological aspects of animal schistosomiasis in the Sudan.
15221

SCHIZAPHIS GRAMINUM
Greenbug control in grain sorghum.
8337

Recognition of a greenbug biotype injurious to sorghum.
8349

Acquisition of maize dwarf mosaic virus by the greenbug, Schizaphis graminum.
11490

Effects of temperature and light on takeoff of Rhopalosiphum maidis and Schizaphis graminum in the field (Homoptera: Aphididae).
13022

Effects of three species of aphids on barley, wheat or oats at various stages of plant growth.
13301

SCHRADAN
Pesticide residues in foods in relation to human health.
9170

SCIARA ANNULATA
Fly pests affect some crops in Northland.
9644

SCIARIDAE
Studies on cytology and differentiation in Sciaridae. II. DNA redundancy in salivary gland cells of Hybosciara fragilis (Diptera, Sciaridae).
8911

Rhynchosciara haschanti (Diptera, Nematocera, Sciaridae), a new Brazilian species.
9265

Description of a new species of Bradysia (Diptera, Sciaridae).
12383

SCIENTISTS
The work of a plant pathologist.
13806

SCIOMYZIDAE
Cytotaxonomic studies of Sciomyzidae (Diptera: Acalyptratae).
11114

Taxonomy, immature stages, and bionomics of the South American genera Perilimnia and Shannonia (Diptera: Sciomyzidae).
12970

SCLERODERMA
The genus Scleroderma in South America (Hymenoptera, Bethylidae).
12953

SCLEROPHTHORA
The downy mildew and stalk rot diseases of maize.
8987

SCLEROPHTHORA MACROSPORA
The prevalence of crazy top of corn in 1968.
13291

Sclerophthora macrospora (Sacc.) Thirum. et al e8Syn.: sclerospora macrospora Sacc.) on sugarcane.
15569

SCLEROSPORA
The downy mildew and stalk rot diseases of maize.
8987

SCLEROSPORA MACROSPORA
Sclerophthora macrospora (Sacc.) Thirum. et al e8Syn.: sclerospora macrospora Sacc.) on sugarcane.
15569

SCLEROSPORA SORGHI
Pathological histology of corn and sorghum plants infected with maize dwarf mosaic virus and Sclerospora sorghi.
12632

Observations on downy mildew of Jowar (Sorghum vulgare).
14984

Evidence that downy mildew (Sclerospora sorghi) of sorghum is seedborne.
15472

SCLEROTIA
Effect of time and temperature of storage on viability of Botrytis convoluta conidia and sclerotia.
11007

SCLEROTINIA FRUCTICOLA
Brown rot of stone fruits.
14964

SCLEROTINIA FRUCTIGENA
The fungal diseases of pears and apples during storage. I. General aspects.
15835

SCLEROTINIA LAXA
Brown rot of stone fruits.
14964

SCLEROTINIA MALI
Studies on the monilia disease of the apple caused by Monilinia mali (Tak.) Nhetzel.
14386

SCLEROTINIA MINOR
Preliminary note concerning tests in progress on the control of collar rot of lettuce.
10650

More on the control of collar rot of chicory plants.
11933

SCLEROTINIA ROT
Sclerotinia rot (Sclerotinia sclerotiorum).
10678

SCLEROTINIA SCLEROTIORUM
Preliminary note concerning tests in progress on the control of collar rot of lettuce.
10650

Sclerotinia rot (Sclerotinia sclerotiorum).
10678

Studies on the decontamination of soil with methyl bromide.
11962

The control of Sclerotinia sclerotiorum in green beans.
12651

SCLEROTIUM BATATICOLA
Production of toxins and pectolytc enzymes by two isolates of Sclerotium bataticola Taub. and their role in pathogenesis.
14401

SCLEROTIUM CEPIVORUM
Differential sensitivity of various phytopathogenus soil fungi to methyl bromide.
10668

In vitro infection and pathogenesis of plants from several genera by the specific soilborne pathogen Sclerotium cepivorum.
15610

SCLEROTIUM ROLFSII
Studies on the mode of action of inorganic nitrogenous amendments on Sclerotium rolfsii in soil.
8936

A phosphatidase produced by Sclerotium rolfsii.
8995

Differential sensitivity of various phytopathogenus soil fungi to methyl bromide.
10668

The role of sclerotial rind in the germinability of sclerotia of Sclerotium rolfsii.
11457

White rot of onion in Lucknow.
11489

Fine structure and electron cytochemical studies of Sclerotium rolfsii Sacc.
12631

Maturation of sclerotia produced by Sclerotium rolfsii.
15462

SCOLYPOPA AUSTRALIS
Factors influencing egg survival of Scolypopa australis Walker (Hemiptera-Homoptera: Ricaniidae) in the Sydney area (N. S. W. Australia).
9005

SCOLYTIDAE
How to distinguish attacks by the black turpentine beetle and Dioryctria amatella on southern pines.
8339

Crypturgus hispidulus also in Baden (Col., Scolytidae) (Contribution to the southwestern German coleoptern fauna).
8620

Experiments with Beauveria hassiana (Bals) Vuill. against Blastophagus piniperda L. (Col., Scolytidae).
8822

The infestation of timber by bark beetles (Col., Scolytidae) and their enemies in different zones of the Finnish southwestern archipecago.
8823

New hosts, distribution, and biological notes on an imported ambrosia beetle, Xylosandrus germanus (Coleoptera: Scolytidae).
9642

Influence of temperature inversion on development of spruce beetle, Dendroctonus obesus (Mannerheim) (Coleoptera: Scolytidae).
11263

Symbiontic interrelationships between microbes and ambrosia beetles. III. Ergosterol as the source of sterol to the insect.
11359

Population increase of two species of Pseudopityophthorus in oak branches.
11378

Resistance discovered to maize borer.
11915

On the symbiosis of xylo-mycetophagous and phloeophagous Scolytoidea with wood-inhabiting fungi.
12112

Responses of Ips confusus to synthetic sex pheromones in nature.
12424

Studies on the olfactory stimuli guiding the bark beetle Blastophagus piniperda L. (Coleoptera, Scolytidae) to its host tree.
12476

Anatomical and histological changes in internal organs of adult Trypodendron lineatum, Gnathotrichus retusus and G. sulcatus (Coleoptera: Scolytidae).
12532

Review of the genus Leiparthrum in North America, with a description of one new species (Coleoptera: Scolytidae).
12944

Three new species of Pityophthorus from Canada (Coleoptera: Scolytidae).
12945

Scolytidae and Platypodidae from the Naturhistoriska Riksmuseum in Stockholm. 235. Contribution to the morphology and systematics of the Scolytoidea.
12989

Field and laboratory studies on sex ratio in Ips acuminatus (Coleoptera: Scolytidae) in Norway.
13008

Sex pheromone of Trypodendron lineatum (Coleoptera: Scolytidae): Production, bio-assay, and partial isolation.
13023

Sex pheromone of Dendroctonus pseudotsugae (Coleoptera: Scolytidae): Production, bio-assay, and partial isolation.
13024

The influence of colony density and other factors on the number of offspring in Blastophagus piniperda L. (Col., Scolytidae).
13046

Laboratory experiments on the olfactory orientation of Blastophagus piniperda L. (Coleoptera, Scolytidae) to substances isolated from pine rind.
13069

Review of Holarctic tarsonemid mites (Acarina: Prostigmata)parasitizing eggs of pine bark beetles.
14761

The biologies of the Pseudohylesinus tsugae and P. grandis (Coleoptera: Scolytidae) in western hemlock.
14851

SCOLYTUS
An evaluation of certain compounds as feeding deterrents against the smaller European elm bark beetle, Scolytus multistriatus.
9182

Stempellia scolyti (Weiser) comb. nov. and Nosema scolyti sp. n. microsporidan parasites of four species of Scolytus (Coleoptera).
12540

SCOLYTUS MULTISTRIATUS
An evaluation of certain compounds as feeding deterrents against the smaller European elm bark beetle, Scolytus multistriatus.
9182

The recurrence of Dutch elm disease in Colorado.
10663

Hymenoptera associated with elm bark beetles in Wytham Wood, Berks.
13602

SCOLYTUS RUGULOSUS
Observations on the tolerance and susceptibility of tea clones to shot-hole borer investigation--1969.
14500

SCOLYTUS SCOLYTUS
The regulation of population density in the bark beetle Scolytus scolytus (F.).
12411

Hymenoptera associated with elm bark beetles in Wytham Wood, Berks.
13602

SCORPIONIDA
Contribution to the knowledge of the scorpions of India. 2. Iomachus laeviceps Pocock, 1893 (Scorpionidae, Ischnurinae).
11204

Oxygen consumption of the scorpion Centruroides sculpturatus.
11283

Nature of cuticle of the scorpion, Heterometrus scaber.
11323

Scorpion collecting.
11382

Spectral sensitivity of scorpion eyes and the possible role of shielding pigment effect.
11853

A scorpion attacking a pygmy mouse.
12486

Contribution to the study of the systematics of the scorpion, Isometrus maculatus (de Geer, 1778).
12966

Purine excretion in five scorpions, a uropygid and a centipede.
13064

The electroretinogram of scorpion eyes.
13709

A contribution to the knowledge of Argentine Scorpions. Ii. Considerations on the genus Bothriurus in Patagonia and Tierra del Fuego with the description of a new species (Bothriuridae).
14763

Development of glycemia in the scorpion Androctonus australis L. subjected to cobalt 60 gamma rays.
14822

SCORZONERA
Cytokinins and transfer ribonucleic acids. II. Presence of cytokinins in different amino-acid specific transfer ribonucleic acids of brewer's yeast as revealed by the growth response of tobacco-pith callus tissue and Scorzonera crown-gall tissue.
10439

SCOURS
New hope in the battle against calf scours.
13935

SCRAPIE
Observations on the ultrastructure of the spinal cord, spleen and lymph nodes of mice inoculated with scrapie.
12755

SCURF
Effect of crinkle-scurf of citrus on tree growth, productivity, and fruit quality.
8312

Sweet potato plant treatment.
15561

SCUTELLERIDAE
On the ways of influence produced by the enzymes of Eurygaster integriceps Put. on the caryopsis of wheat.
10918

SCUTELLONEMA BRACHYURUM
Nematodes associated with soybeans in Alabama, Florida, and Georgia.
8389

SCYMNUS
Scymnus (Sidis) hickei Fursch, as a foe of Pseudococcus citri Risso.
9893

SCYTHROPUS CALIFORNICUS
Biological studies of Scythropus californicus on Monterey pine in northern California.
11836

SCYTODIDAE
Experimental necrotic arachnidism on rabbits caused by the bites of Loxosceles unicolor (Araneae: Scytodidae).
11436

SD-4402
Control of the lesser cornstalk borer attacking peanuts.
9008

SEALS (ANIMALS)
Possible effects of the harbour seal bounty on codworm infestations of Atlantic cod in the Gulf of St. Lawrence, the Strait of Belle Isle, and the Labrador Sea.
9136

SEASONAL VARIATION
Rice leafhoppers.
8363

Preliminary observations of alpine grasshoppers in a habitat modified by deer and chamois.
8706

Butterflies ht Collobrieres, var. Alpes Maures, Provence in July and August 1967.
9880

Seasonal evolution of the honey bee thermogenesis. Oxygen consumption of the isolated bee at five different temperatures in summer and in winter.
10123

Population genetics in the American tropics. IV. Temporal changes effected in natural populations of Drosophila melanogaster from Colombia.
10156

British Lepidoptera collecting, 1968.
11253

Life history and behavior of Pardosa lapidicina Emerton (Araneae: Lycosidae).
11264

Ecological studies on three pond midges (Diptera: Ceratopogonidae) in Quebec.
12433

Changes in a Heterodera rostochiensis population through the growing season.
12451

Oviposition traps and population sampling for the distribution of Aedes aegypti (L.).
12543

Karyoecology of simulids (Diptera, Simuliidae). Genome structure of karyopool in Odagmia ornata Mg. with accessory chromosomes.
12574

Seasonal variations in the sporulating capacity of the fungus causing coffee berry disease.
12634

Seasonal distribution of Tabanidae (Diptera) at Texas Hollow, New York in 1968.
12981

Studies of the Byron Bog in southwestern Ontario XXXII. Observations on the seasonal distribution on Odonata in the bog.
13068

The phenology of linyphiid spiders on heathland in Dorset.
13088

Host records and phenology of louse-flies on Wisconsin birds.
13099

Laboratory studies on the seasonal hatchability of egg batches of Aedes sollicitans, A. taeniorhynchus, and Psorophora confinnis.
13149

Field studies on the life-histories of some British Staphylinidae (Coleoptera).
14220

Details on the codling plum moth (Laspeyresia funebrana Tr.) in Lot-et-Garonne on Plum-tree grafts.
14272

Butterfly collections in 1968.
14729

The phenology of Pharoscymnus spp. and Chilocorus bipustulatus L. (Coccinellidae) in date palm plantations in Israel.
14834

Seasonal distribution of mosquitoes of Hancock County, Mississippi, 1964--1968.
15445

SEASONS
Seasonal history and response to insecticides of Heliothis species on cotton.
9032

SEBORRHEA
Diiodohydroxyquin. Drugs for veterinary use; drug efficacy study implementation.
9681

SECRETION
Transmission of strawberry mottle virus by juice and aphids to herbaceous hosts.
9007

The problem of the ootheca secretion in orthopteroids in the light of the most recent acquisitions.
9340

The action of the endocrine system and the ovaries on the hemogram of Locusta migratoria L. (Orthoptera). The role of the corpora cardiaca.
9402

On the odour components of the stink of two heteropteran bugs of India.
9989

Oenocytes: form and function.
10093

On the explosion chemistry of the bombardier beetle. Vi. On the chemistry of the smallest bombardier beetle Paussus favieri. XLIII. Communication on arthropod protective substances.
10111

Pheromones. III. Identification of trans, trans-10-hydroxy-3,7-dimethyl-2,6-decadienoic acid as a major component in hairpencil secretion of the male monarch butterfly.
10551

The morphology of the scent glands of Dysdercus intermedius Distant (Hemiptera: Pyrrhocoridae) and a preliminary analysis of the scent gland secretions of the fifth instar larvae.
11419

The secretion in vitro of hyaluronic acid and collagen by embryonic human cells transformed in culture by Rous sarcoma virus.
11628

Sex pheromone of the queen butterfly: Biology.
11807

Acarine molting-the migration of hemocytes through the epidermis of Caloglyphus berlesei.
11841

Hormonale regulation of the metamorphosis-new aspects based on investigations in Formica polyctena Foerst. (Hym.).
11879

The peritrophic membranes in arthropods, their role in digestion and their intervention in the development of parasitic organisms.
12489

Purification of the male factor increasing egg deposition in D. melanogaster.
12490

Inhibition of tobacco mosaic virus infectivity by the fungus Thielaviopsis basicola (Berk. Br.) Ferr..
12615

SECRETIONS
Evidence, in Dictyoptera, of a fourth pair of Nervi corporis cardiaci.
10522

Transmissible venereal tumour in a Boxer bitch.
10901

Neurosecretion in the cave Coleoptera. Imago.
11254

Production of the protocephalic neurosecretion product in the axonal passage of the Insecta, Pterygota.
11276

The neuro-endocrinal basis of oviposition in Dermestes maculatus DeGeer --I. The neurosecretory system.
11324

Results of organotypic cultures of the cerebral ganglion and the sub-esophagial ganglion of Aeschna cyanea Mull (Insecta, Odonata). Survival of the organs and development of the neurosecretory elements.
11384

Effect of seed and root exudates on the growth of Xanthomonas phaseoli var. fuscans.
11513

Secretion by the malpighian tubules of Rhodnius. The movements of ions and water.
11855

Sex pheromone of the queen butterfly: Chemistry.
11861

The effect of hydrochloric acid and gastric juice on some morphological changes of Trichomonas intestinalis.
12771

Chemical substances for defense of insects.
13136

Gel filtration and disc electrophoresis of a somatic extract and excretions and secretions of Haemonchus contortus larvae.
13417

The pheromone of the queen of the Oriental hornet, Vespa orientalis.
14214

Evidence of an alarm phermone in the ant Odontomachus haematodes (Hym. Form. Ponerinae).
14807

The effects of salt stress on the cerebral neurosecretory system of the grasshopper, Melanoplus sanguinipes (F.) Orthoptera).
15359

SECURINEGA
Isolation of securinin from the herb of Securinega suffruticosa (Pall.) Rehd. cultivated in Poland. Polymorphism of securinin.
14919

SEDIMENTARY ROCKS
Identity of sporopollenin with older kerogen and new evidence for the possible biological source of chemicals in sedimentary rocks.
9525

SEDIMENTATION
In situ breakage of turnip yellow mosaic virus RNA and in situ aggregation of the fragments. Analysis of successive stages.
8309

Reversible dissociation of cucumber mosaic virus (strain S).
8964

Effect of antiserum to E. coli DNA polymerase on synthesis of phi chi 174 DNA extracts of phi chi infected cells.
9848

Some physical properties of purified neurotropic foot-and-mouth disease virus.
14586

SEDIMENTS
Factors affecting growth of rooted aquatics in a river.
15899

SEED ANALYSIS
Etiella zinckenella Treit-a pod borer pest of Crotalaria anagyroides H.B.K.
8778

Plant pathology.
10672

Stem and bulb eelworm, (Ditylenchus dipsaci).
10749

The detection of Helminthosporium and Fusarium spp. in ryegrass and meadow fescue seed samples.
13290

The classification of Agropyron repens florets and caryopses.
13353

Influence of herbicides on plant growth and agronomic characteristics of soybean varieties.
13910

SEED DORMANCY
Seed dormancy and germination in ecotypes of johnsongrass.
10309

Effects of gibberellin A3 on fruit shape and subsequent seed dormancy of apple.
10453

Gibberellin-like substances in after-ripening seeds of Prunus avium L. and their possible role in dormancy.
12279

SEED DRESSING
Bird mortality by chlorinated hydrocarbon pesticides.
15240

SEED DRESSINGS
Seed dressings and game birds.
8444

SEED GERMINATION
The role of glucose in stimulating germination of Fomes igniarius var. populinus basidiospores.
8971

Predicting maize seed viability using 2,3,5-triphenyltetrazolium chloride.
9185

Toxicity of tall fescue to rape and birdfoot trefoil seeds and seedlings.
9210

Uptake of Vitavax (DCMO) by germinating cottonseed.
9825

Studies on insect damage and germination of seeds. III. Germination of wheat jowar and maize seeds damaged by the developing grubs of Sitophilus oryzae L. and Rhizopertha dominica F..
10270

Seed dormancy and germination in ecotypes of johnsongrass.
10309

Photocontrol of rough cinquefoil seed germination and its enhancement by temperature manipulation and KNO3..
10451

Response of crabgrass seedlings to various herbicides. (Abstract).
10818

Effect of N6benzyladenine on seed germination and seedling growth of apple (Malus sylvestris Mill.).
10959

Interaction of gibberellic acid and light on the germination and growth of seedlings of Gossypium herbaceum L. var. Digvijay.
10968

Acorn moisture content critical for cherrybark oak germination.
10983

Effect of time and temperature of storage on viability of Botrytis convoluta conidia and sclerotia.
11007

Biological studies of barnyardgrass. (Abstract).
11048

Effects of decenylsuccinic acid and subfreezing conditions on germination of citrus seed.
11054

The role of sclerotial rind in the germinability of sclerotia of Sclerotium rolfsii.
11457

Preliminary studies on the effect of single and combined treatments of X-rays and gibberellic acid on the growth of rice and tomato seedlings.
11920

On the seed germination of Phoma species of Valerianella.
11952

Cytospora leucostoma spore germination. I: Environmental and carbohydrate requirements. II: Carbohydrate availability in peach tree bark.
12015

Growth retardants in relation to the germination of seeds. VI. Germination and growth of cauliflower as affected by Coumarin, CCC, Phosfon D and kinetin.
12265

Effect of relative humidity and length of storage period upon fungal invasion and germination percentage of bajra seeds.
12869

Manufacture of coated seed with delayed germination.
13235

Selectivity of 2,3,5-trichloro-4-pyridinol as a herbicide for direct-seeded, flooded rice.
13352

Properties and effects on WL-9385-D on rice and some weed species.
13467

Study on the fatty acid composition during germination of peanuts treated with growth regulators.
13498

Effect of fungal infection in tomato fruits on seed germination. II.--ALTERNARIA tenuis. 13770

Effect of fungal infection to tomato fruits on seed germination. I.--Rhizopus nigricans. 13772

Phytotoxicity of sporidesmin. 14069

Studies on the pathological anatomy of rice plants infected by Helminthosporium oryzae, I. Behavior of the causal fungus on the coleoptile of rice seedlings and its ultrafine structure. 14373

Influence of hydrostatic pressure upon germinability of the spores of some rice-parasitic fungi effects of physical factors upon plant diseases. III. 14376

Soil-borne wheat mosaic virus from Poa annua L., a new host. 14377

On the longevity of Conidia of cucumber downy mildew fungus, with special reference to the influence of sunlight. 14382

A contribution to studies on the biology and control of apple mildew (Podosphaera leucotricha (Ell. and Ev.) Salm.). 14383

Controlling effect of phenylhydrazine derivatives on rice blast in relation to the structural modifications. 14402

Interaction between two races of Piricularia oryzae in lesion-formation in rice plants and accumulation of fluorescent compounds associated with infection. 14420

A study of the biology of Pseudopeziza jonesii nannf (Pyrenopeziza medicaginis Fuck) the cause of yellow blotches on leaves of alfalfa. 14429

Effect of beta-acylphenylhydrazine derivatives on blast fungus upon leaves and in tissues of rice plants. 14459

Experiments summary beans: 1966. 14923

The problem of finding a precise application method for the herbicides MCPA and 2,4-D on summer barley. 15101

Effects of moist and dry chilling periods before germination of four thistle species. 15109

Bacterial damage to wheat grain. 15540

Establishing overall plant protection. 15685

Effects of 2,4-D on seed production and embryo development of curly dock. 15743

Life cycles of field pennycress in the subarctic as influenced by time of seed germination. 15895

SEED PLANTING

Control of weeds in direct-seeded onions. (Abstract). 10814

Selective weed control in direct-seeded tomatoes. (Abstract). 10822

Application of the herbicide 2,4-D in summer wheat crops. rakitin, y v mikhailova, t p. 13905

Early sowings and fungicides help arrest the angular leafspot of cotton. 14439

Tanymecus dilaticollis Gyll. (Curculionidae, Coleoptera) as a pest of cultivated plants and the pre-sowing treatment of the seed with insecticides as a control measure. 14494

Are scarecrows useful against bird damage . 14550

Effect of different dates of sowing of groundnut on the development and intensity of leaf-spot disease by Cercospora ssp.. 14977

SEED POTATOES

Control of aphids in seed potato production. 13322

Research on potato viruses in India. 15551

Production of disease-free seed potatoes in the Indo-Gangetic plains. 15552

SEED TREATMENT

Plant diseases and their chemical control. 8291

Insecticide treatment of seed, as a control method of the maize leaf weevil (Tanymecus dilaticollis Gyll.). 8369

Factors affecting severity of seedling blight of corn in the United Arab Republic. 8976

Systemic control of Exobasidium vexans on tea with 1,4-oxathiin derivatives. 9613

Uptake of Vitavax (DCMO) by germinating cottonseed. 9825

Chemotherapy of loose smut of barley in Canada. 10179

Chemical control of loose smut in barley. 10214

Seed treatment trial, 1967. 10229

Treatment of mustard and radish seeds for the control of mustard sawfly, Athalia proxima Klug. at seedling stage. 10251

Selective grass control with siduron. 10294

Control of barley loose smut (Ustilago nuda) by a derivative of 1,4-oxathiin in South Carolina. 10661

Effect of N6benzyladenine on seed germination and seedling growth of apple (Malus sylvestris Mill.). 10959

Effects of decenylsuccinic acid and subfreezing conditions on germination of citrus seed. 11054

Barley diseases and their control. 12005

Influence of the quantity of insecticide per seed and per hectare on seed treatments for cereal leaf beetle larvae control on oats. 12080

Protect your maize from head smut. 12624

Importance of root, shoot, and seed exposure on the herbicidal activity of EPTC. 12722

Disinfestation of stored seeds by heat treatment. 12877

Factors influencing the tolerances of seeds to fumigants. 13426

List of official tests and acknowledged cereal seed treatment as well as official tests and acknowledged equipment for treatment. 13746

Effects of spacing arrangement and anthracnose on Cassia occidentalis L.. 13798

Evaluation of nine fungicides in controlling flag smut of wheat. 13800

Repelling pheasants from sprouting corn with a carbamate insecticide. 14337

Seed dressing formulations. 14452

Insecticidal experiments for the control of mustard aphid. 14497

How to control rodents and other wildlife pests. 15155

Influence of fungicides and insecticides on the occurence of Aspergillus on peanut seedlings. II. Seed treatments. 15498

Field crop seed treatment. 15505

Vegetable seed treatment. 15508

Field crop seed treatment. 15512

Heat treatment of tomato seeds. 15535

SEED VIABILITY

Use of radiography in seed and grain technology. 12595

SEED-BORNE PLANT DISEASES

Bacterial spot of tomato in United Arab Republic. 8304

Introduced seed-borne pathogens endanger crop breeding and plant introduction. 9580

Fungicidal control of rice diseases. 10170

On the seed germination of Phoma species of Valerianella. 11952

Mercury tolerance in leaf spot of oats. 13751

Effects of spacing arrangement and anthracnose on Cassia occidentalis L.. 13798

Groundnut pod diseases. 13799

Virus diseases of cereals. 13814

Evidence that downy mildew (Sclerospora sorghi) of sorghum is seedborne. 15472

Vegetable seed treatment. 15508

Field crop seed treatment. 15512

SEEDBEDS

Use of charcoal to deactivate herbicide residues in turfgrass seedbeds. 8416

Effects of phosphorus fertilizer, herbicides and seed-bed preparation on the establishment of alfalfa and birdsfoot trefoil. (Abstract). 10827

SEEDLING BLIGHT

Mercury-resistant Pyrenophora avenae in New Zealand seed oats: a comparison of six different compounds as seed disinfectants. 10223

Mercury tolerance in leaf spot of oats. 13751

SEEDLING DISEASE (COTTON)

In-row fungicides for seedling disease control in cotton. 15506

SEEDLINGS

Mass rearing of the rice stem borer. 8119

Alternaria seed infection of wheat. 8283

Apple chalcid, Torymus varians (Wlk.). (Hymenoptera: Torymidae), in Quebec. 8373

Pelleted fenuron for conversion of low-quality hardwood stands to Japanese larch. 8433

Mortality, longevity, and fecundity of spider mites on cotton treated with systemic acaricides. 8692

Studies in polyploid varieties of sugar beets. X. Chromosomal variation in progeny of crosses involving diploid, triploid and tetraploid plants. 8931

Factors involved in the development of peach seedling cankers induced by chilling. 8943

Role of Pythium in damping-off of peach. 8975

Factors affecting severity of seedling blight of corn in the United Arab Republic. 8976

Fungi causing seedling blight of corn in the United Arab Republic. 8977

Calonectria floridana sp. nov., the perfect stage of Cylindrocladium floridanum. 8990

Effect of sucrose and indole-3-acetic acid on extension growth of wheat coleoptile segments. 9207

Toxicity of tall fescue to rape and birdfoot trefoil seeds and seedlings. 9210

2,3,6-trichlorobenzoic and 2,6-dichlorobenzoic acid interference with phototropic and geotropic responses of seedlings. 9213

Occurence of tomato ringspot virus in red raspberries in the eastern United States. 9556

Evidence for longevity of seeds. 9563

A contribution to the study of Alternaria tenuis Nees causer of the leaf spot of tomato. 9581

Symptoms of stubborn disease in citrus and Poncirus fruit grafted onto virus-infected seedlings. 9589

Crop seedling uptake of DDT, dieldrin, endrin, and heptachlor from soils. 9663

Mercury-resistant Pyrenophora avenae in New Zealand seed oats: a comparison of six different compounds as seed disinfectants. 10223

Comparison of mycelial and Sclerotial inoculum of Macrophomina phaseoli in the mortality of pine seedlings under varying soil conditions. 10225

Effects of chlorpropham vapors on dodder seedlings. 10305

Degradation of p32-bromophos by microorganisms and seedlings. 10449

Seed infection and transmission of bacterial leaf streak of rice. 10701

Effect of N6benzyladenine on seed germination and seedling growth of apple (Malus sylvestris Mill.). 10959

Interaction of gibberellic acid and light on the germination and growth of seedlings of Gossypium herbaceum L. var. Digvijay. 10968

Uptake and tolerance of lithium chloride by tung trees. 11022

The effect of low doses of gamma rays upon the rate of infection of plants with grass mildew (Erysiphe geaminis DC). I. 11508

Nursery investigations: Weed control. 11563

Chlorthal degradation in soils and its uptake by pine seedlings. 11695

Preliminary studies on the effect of single and combined treatments of X-rays and gibberellic acid on the growth of rice and tomato seedlings. 11920

Inheritance of resistance in carrot, Daucus carota var. Sativa, to the leaf spot fungus, Cercospora carotae. 11936

On the seed germination of Phoma species of Valerianella. 11952

Breeding studies of Verticillium wilt resistance in X Fragaria ananassa Duch. 11954

Symptoms of rasp leaf virus disease on peach. 11983

Safflower introduction resistant to fusarium wilt. 11987

Fusarium oxysporum (Schlecht.) Snyd. et Hans.- A dominant fungus species on the root-surface of woody plant seedlings. 11988

Resistance to Phytophthora cactorum among open-pollinated seedlings of apple varieties and species. 12002

Technique of artificial innoculation of seed-corn with fungi Fusarium. 12004

Some remarks on the corky triangle abnormality of the peach tree. 12018

Crop seedling uptake of DDT, dieldrin, endrin, and heptachlor from soils. 12213

The effect of 3-amino-1,2,4,-triazole on the ultrastructure of plastids of Triticum vulgare seedlings. 12237

Growth and flowering responses of apple and pear seedlings to growth retardants and scoring. 12249

Mutation induction in Melilotus alba annua by chemical mutagens. 12264

Gibberellin-like substances in after-ripening seeds of Prunus avium L. and their possible role in dormancy. 12279

Maleic hydrazide inhibits growth of young tung trees (Aleurites fordii, Hemsl.). 12300

Effect of several herbicides on proteolytic activity of squash seedlings. 12704

Insecticide trials in tobacco seedbeds, 1962--1965. 12715

Interaction of EPTC and DNBP on seedlings of alfafa and birdsfoot trefoil. 12727

The changing population of viable weed seeds in an arable soil. 13357

Herbicidal residues kill grass seedlings. 13444

A study in the use of Dybar for planting site preparation. 13475

Studies on the brown-eye-spot disease (cercospora coffeicola b. and CKE.) of coffee (Coffea arabica L.). II. Effect of foliar application of chemicals on disease incidence. 13818

Studies on the pathological anatomy of rice plants infected by Helminthosporium oryzae, I. Behavior of the causal fungus on the coleoptile of rice seedlings and its ultrafine structure. 14373

Soil-borne wheat mosaic virus from Poa annua L., a new host. 14377

Controlling effect of phenylhydrazine derivatives on rice blast in relation to the structural modifications. 14402

A mild strain of tristeza virus in Hassaku trees (Citrus hassaku Hort. et Y. Tanaka) in Hiroshima prefecture. 14442

Anatomical studies of rice plant infected with bacterial leaf blight, with special reference to wilt symptom. 14460

Effect of Heterodera schachtii on sugar beet seedlings under monoxenic conditions. 14513

Effect of phytotoxins from the decomposition of organic matter upon peanut seedling emergence. (Abstract). 14668

Inhibitory effect of pentachlorobenzyl alcohol (PCBA) on sporulation of Piricularia oryzae cavara. 14691

The function of the endodermis in resistance of Virginia pine seedlings to damping-off. 14956

Evaluating soil samples for fungus pathogens of sugarbeet seedlings. 14975

Investigations into the cause of leaf tumors of tea seedlings. 14991

Competition between Coriandrum sativum seedlings and weeds under prometrin application at two different NPK and pH levels. 15137

Utilization of polyethylene film to control evaporation in the loss in weight method for transpiration. 15276

Influence of fungicides and insecticides on the occurence of Aspergillus on peanut seedlings. II. Seed treatments. 15498

In-row fungicides for seedling disease control in cotton. 15501

New or uncommon plant diseases or pests. 15525

The shot-hole disease of the melon. Preliminary study of a new viral disease of the glass-house-grown melon. 15543

The breeding of Lucerne Medicago sativa L. for resistance to Verticillium albo-atrum Rke. et Berth. III. Transgressive segregation in F3 and the effect on resistance of certain systems of inbreeding. 15558

Note on effects of nematicides and heat treatment on the control of root-knot nematode in tobacco nurseries. 15686

Distribution of root-absorbed picloram. 15698

SEEDS

Bacterial spot of tomato in United Arab Republic. 8304

Some recommendations for the control of perforators of seeds of Anonaceae (Bephrata sp. order Hymenoptera). 8372

Pesticide residues in food. 8535

A study of the development of the giberellin content of embryos of Evonymus europaeus L., in the course of the stratification of seeds. 8584

Fungi causing seedling blight of corn in the United Arab Republic. 8977

Predicting maize seed viability using 2,3,5-triphenyltetrazolium chloride. 9185

The metabolism of radiostrontium by plants. (Abstract). 9191

Toxicity of tall fescue to rape and birdfoot trefoil seeds and seedlings. 9210

Some new host plants of the sunflower moth in Texas. 9646

Effect of time of application of gibberellic acid and parachlorophenoxyacetic acid on berry and bunch weight, yield and seedlessness in grape (var. Anab-e-Shahi). 9839

Toxic metabolite of Aspergillus niger and its role in onion rot disease. 10208

Mercury-resistant Pyrenophora avenae in New Zealand seed oats: a comparison of six different compounds as seed disinfectants. 10223

Gibberellin induced heterostyly in the tomato and its implications for hybrid seed production. 10593

Plant breeding. 10603

1967 Kansas insect control recommendations; livestock, major field crops. 10729

Effect of seed and root exudates on the growth of Xanthomonas phaseoli var. fuscans. 11513

Effect of cone feeding by Leptoglossus occidentalis on ponderosa pine seed development. 11531

Current studies on Atherigona indica--a pest of wheat. 11543

Inhibition of the action of phytochrome by the herbicide CIPC. 11697

Genetic effect of irradiation by X-rays on seeds of Zea mays. finfluence of high-temperature treatment before the irradiation on the immediate effect. 11924

Some remarks on the corky triangle abnormality of the peach tree. 12018

Effect of spraying and defoliation on flower shedding in yellow lupine (Lupinus luteus L). 12240

Effect of (2-chloroethyl) trimethylammonium chloride (CCC) on frost resistance, yield, and seed quality indexes of winter rape. 12244

Use of radiography in seed and grain technology. 12595

The quantitative effect of light and moisture on carrot seed infections in blotter medium. 13289

The detection of Helminthosporium and Fusarium spp. in ryegrass and meadow fescue seed samples. 13290

Wild oats. 13350

The classification of Agropyron repens florets and caryopses. 13353

The effect of fumigation with hydrogen cyanide and carbon disulphide on the physical properties of rice seeds. 13768

Weed control in seed alfalfa. 13904

A decade of seed potato inspection at Madras Port. 14117

Entomological notes on Beprata maculicollis Cam., perforator of seeds of some Annonaceae. 14283

Effects of CIPC applications to individual eyes of potato tubers on type and pattern of sprout development. 14320

Moisture corrosion, a new corrosive method. 14330

Damage and evolution disturbance through weather influence. 14426

Erratum 49: A pleomorphic parasite on cereal seeds, Pyrenophora semeniperda. 14451

Know your enemy: The so-called 'cornfly'. 14503

Cucumber sex expression modified by 2-chloroethanephosphonic acid. 14683

Comparison of the effect on beet seed production of spring and fall infestations of beet leafhoppers carrying curly top virus. 14955

Problems of herbicides in the production of grass seed. 15149

Emergence of velvetleaf (Abutilon theophrasti) and of wild cane (Sorghum bicolor) from different seed depths and site of uptake of various chemicals. 15295

Resistance of the red beet cultivar Avonearly to infection by Peronospora farinosa f.sp. betae. 15482

Method for testing the health condition of lettuce seeds. 15544

Effects of 2,4-D on seed production and embryo development of curly dock. 15743

Dormancy of wild oat seed produced under various temperature and moisture conditions. 15902

SEIDLITZIA
Contribution to the knowledge of the Curculionidae from the western Mediterranean. VI. The genus Seidlitzia. 8036

SELENIUM
Studies on labeled animal poisons. II. Distribution of the venoms of various spiders labeled with Se75 and P32 in the guinea pig. 9812

SELENIUM POISONING
Some aspects of the etiology of enzootic icterus (geelsiekte) and tribulosis ovis (geeldikkop). 14589

SEMEN
P32-labeling of common malaria mosquitoes: assimilation by larvae and retention and transfer during mating. 8193

SEMLIKI FOREST VIRUS
Semliki Forest virus temperature-sensitive mutants. isolation and characterization. 8318

SENSE ORGANS
Investigations of the morphology and development of the scolopidia in the stick insect Carausius morosus Br. 8141

Acoustic interneurons in the brain of noctuid moths. 8177

Sense organs on the antennal flagellum of a giant cockroach, Gromphadorhina portentosa, and a comparison with those of several other species (Dictyoptera, Blattaria). 8856

Acoustic signalling and its possible relationship to assembling and navigation in the moth, Heliothis zea. 9408

Locust wind receptors. I. Transducer mechanics and sensory response. 9981

Locust wind receptors. III. Contribution to flight initiation and lift control. 9982

Locust wind receptors. ii. Interneurones in the cervical connective. 9983

A more recent sensillary type on the antenna of female mosquitoes (Aedes aegypti L.). 10055

Evidence of sex attractant in female Dysdercus cingulatus Fabr. 11361

Sex pheromone of the queen butterfly: Electroantennogram responses. 11880

Laboratory experiments on the olfactory orientation of Blastophagus piniperda L. (Coleoptera, Scolytidae) to substances isolated from pine rind. 13069

Audition by Cerura larvae (Lepidoptera: Notodontidae). 13071

Anatomic studies on the hypopharynx of Forficula auricularia L. (Insecta, Dermaptera): Teguments, musculature, sense organs, and innervations. Morphologic interpretation. 14856

SEPTORIA
About foot- and stem diseases of wheat with special consideration of (2-chloroethyl) trimethylammonium chloride. 11951

SEPTORIA APII
New tin complex compounds as plant protection fungicides. 14445

SEPTORIA MUSIVA
Reactions of poplars to infection by Septoria musiva and Diplodia tumefaciens and to injury by frost in Manitoba and Saskatchewan. 13296

SEPTORIA NODORUM
On the tolerance of wheat against Septoria nodorum Berk. 14348

SEPTORIA TRITICI
Alternaria tenuis Nees, probable cause of pink belly in wheat. 11956

SERANGIUM
Descriptions of two new species of the genus Serangium from Japan (Coleoptera, Coccinellidae). 11747

SERICESTHIS IRIDESCENT VIRUS
A serological comparison of some iridescent non-occluded insect viruses. 14193

SERICOMYRMEX
Three years of growth of a Sericomyrmex colony. 11896

SERICOMYRMEX URICHI
Three years of growth of a Sericomyrmex colony. 11896

SERODIAGNOSIS
Serological and morphological studies on the inter- and intraspecific differences of the plant-parasitic nematodes Heterodera and Ditylenchus. 8514

Functions of the two particles of tobacco rattle virus. 9601

A plaque system for study of infectious laryngotracheitis virus in adult chicken kidney cultures. 9750

Study of densonucleosis of Lepidoptera by the immunological gel diffusion method. 10019

Use of inert particles for the diagnosis of sheep cisticercosis. Bentonite test. 10367

Recent techniques for serodiagnosis of hydatidosis. V. The importance of tests of bentonite, latex and indirect hemagglutination in the field sanitation of hidatioosis. 10372

Application of immunoprecipitation in agar gel for the serological typing of soybean root-nodules. 11504

Heat stability and kinetics of heat inactivation of non-specefic specific Brucella agglutinins in cattle buffalo serum. 11612

The adaptation of a strain of canine distemper virus to chick embryonic cells and the utilization of its cytopathogenic effect in seroneutralisation. 11613

A strain of Holmes' ribgrass virus occurring in Yugoslavia. 13265

Tabanid hosts in estuarine and alluvial areas of Louisiana. 13407

Use of formalinized Mycoplasma gallisepticum antigens and chicken erythrocytes in hemagglutination and hemagglutination-inhibition studies. 13408

Serological and infectious properties of some virus isolates obtained from grapes; relationship with the fanleaf virus and the Arabis mosaic virus. 14997

Characteristics of a non-labile ringspot type virus associated with the grape fanleaf disease of the peachtree. 14998

Antigenic analysis of bovine enteroviruses through studies of the kinetics of neutralization. 15768

SEROLOGICAL TESTS

Supplement No. XI to Kaufmann-White scheme. 8464

Studies on mouse leukemia viruses. I. Isolation and characterization of a group-specific antigen. 8477

On the common protein determinants of Enterobacteriaceae. 8594

Behavior of belladonna mottle virus in serological tests in the presence of organic mercury compounds. 8966

Morphology, physiology, and serology of a Pasteurella species pathogenic for white perch (Roccus americanus). 9081

Aleutian disease of mink: Infectious virus-antibody complexes in the serum. 9099

Control of chronic respiratory disease by Spiramycin antibiotic therapy. 9103

Serological investigation into porcine Brucellosis. 9116

Bushbush, Ieri, and Lukuni viruses, three unrelated new agents isolated from Trinidadian forest mosquitoes. 9117

Serological study on barley stripe mosaic virus protein polymerization. II. Comparative antigenic analysis of intact virus and some stable protein intermediates. 9541

Serological study on barley stripe mosaic virus protein polymerization. I. Immunodiffusion, immunoelectrophoretic characteristics, and absorption experiments. 9542

Occurence of tomato ringspot virus in red raspberries in the eastern United States. 9556

Value of immune mouse ascitic fluid in plant virus serology. 9603

Sowbane mosaic virus infecting Chenopodium trigonon in Queensland. 9610

Avian reoviruses. I. Isolation and serological characterization. 9697

Agglutinating antigen from an ornithosis agent. II. modification of antigen preparation and test procedure. 9709

Serologic and immunologic properties of a recent isolate of infectious bronchitis virus. 9713

Comparison of commercial and autogenous bacterins for control of the cranial form of fowl cholera in turkeys. 9739

Control method of inactivated vaccines against the Newcastle disease by means of the titulation of neutralizing antibodies. 10334

The isolation of a strain of Leptospira, serotype hardjo, from cattle in Queensland. 10358

Natural infection of chigger mites with Rickettsia tsutsugamushi on the Primorsky Territory. 10541

Desmodium paniculatum, a perennial host of bean pod mottle virus in nature. 10674

Ram epididymitis vaccination. 10853

A hemagglutination-inhibition test for parainfluenza 3 virus antibodies. 10859

Avian mycoplasma serotypes. 10887

An improvement of the indirect Coons' test for detecting antibodies against intraerythrocytic protozoa, with special reference to the genus Theileria. 10890

The Capillary Tube Agglutination Test in the control of anaplasmosis. 10904

Precipitins in Toxocara canis infections in rabbits. 10914

Plant viruses. Their characteristics and identification. 11507

Further studies on respiratory infections of poultry in Egypt. 11586

Laboratory techniques in brucellosis. 11588

Characterization of avian encephalomyelitis virus (an avian enterovirus). 11591

Pasteurellosis: Pasteurella multocida and Pasteurella hemolytica. 11592

Attempts to induce recombinant somatic cells in chicken erythrocyte chimaeras by repeated injection of western equine encephalomyelitis virus. 11602

A comparison of the tube agglutination, supplemental, and brucellosis ring tests in selected dairy herds in New York. 11611

The use of the hemolytic activity of Newcastle disease virus as a means of strain typing. 11619

Properties of the attenuated vaccine strain of duck hepatitis. 11627

A preliminary study of the pigment of Corynebacterium ovis. 11632

Serological investigations of insect viruses. I. Comparison of three highly purified cytoplasmic-polyhedrosis viruses. 11846

The relationship between bean yellow mosaic virus and pea mosaic virus. 12030

Sowbane mosaic virus infecting Chenopodium trigonon in Queensland. 12031

Investigations on the viruses of the Orphan type occurring in pigs in Poland. VI. Serological comparison of pig enteroviruses L1, R3, R16, R24, R36, R59 and C, and of the viruses of human origin REO (ECHO10), AD2, ECHO1 and ECHO2. 12148

Antigenic properties of Mycoplasma organisms and membranes. 12748

Serological specificity of Dictyocaulus viviparus. 12758

Characterization of Mycoplasma pulmonis variants isolated from rabbits. I. Identification and properties of isolates. 12762

Ultraviolet inactivation and photoreactivation of avian viruses. 12765

Differences between Brucella antigens involved in indirect hemagglutination tests with normal and thinned red blood cells. 12766

Antigenic relationship of Brucella ovis and Brucella melitensis. 12767

Serum protein changes in chickens subsequent to infection with Histomonas meleagridis. 12782

Antigenic type of first relapse variants arising from a strain of Trypanosoma (Trypanozoon) brucei. 12783

Studies on the control of Mycoplasma meleagridis in turkeys. 12784

Immunization of chickens against Newcastle disease with beta-propiolactone-killed virus antigen administered in drinking water. 12797

Preparation of Mycoplasma synoviae hemagglutination-inhibition. 12807

Diagnosis of spirochaetosis of poultry by slide agglutination and spirochaete immobilization tests. 12808

Immunity response to the infectious bursal agent. 12809

Serological and biological study on the toxoplasmic infection in chickens from the vicinity of Rome. 12811

Intradermal tests and serological reactions with antigens of Trichinella spiralis in persons infested by different forms of parasites. 12814

Allergic symptoms in the clinical picture of echinococcosis. 12815

The antigen-Antibody reactions in the helminthiases. 12817

Protective action of passively transferred immune serum and immunoglobulin fractions against tissue invasive stages of the dwarf tapeworm, Hymenolepis nana. 12827

Studies on immunity of calves to Dictyocaulus viviparus reinfection. V. Serological studies on experimental dictyocaulosis caused by normal and X-ray inactivated larvae. 12861

The evaluation of fractionated antigens of Trichinella spiralis in complement fixation and ring precipitation tests. 12867

The occurrence of Coxiella burnetii in north-western England and north Wales. A report from

five laboratories of the Public Health Laboratory Service.
13396

Trypanosoma gambiense, T. rhodesiense, T. brucei, t. equiperdum, and T. lewisii Purification and properties of phosphohexose isomerases.
13400

Evolution of xanthine dehydrogenase in Drosophila.
13624

Anaplasmosis in East-Friesan lambs.
13930

Antigenic relationship among strains of infectious canine hepatitis virus.
13964

Serological response of chickens infected artificially with Salmonella gallinarum and treated with tikofuran.
13975

The latex test for the serological diagnosis of bovine leucosis.
13996

Bovine adenovirus. I. Recovery of a serotype, nagano, from Japanese cattle.
14008

Characteristics of Corynebacterium renale phage.
14019

Insect visceral muscle: Neural relations of the proctodeal muscles of the cockroach.
14189

A serological comparison of some iridescent non-occluded insect viruses.
14193

The problem of sowbane mosaic virus contamination.
14354

Serologic diagnosis of Colorado tick fever. A comparison of complement-fixation, immunofluorescence, and plaque-reduction methods.
14564

Fibrinogen content and fibrinolytic activity of plasma from dogs infected with Leptospira canicola.
14566

Serological response in cattle to East Coast fever (Theileria parva infection) as measured by the indirect fluorescent antibody test.
14588

Antibodies to Leptospiral serotypes in sera of North Queensland cattle.
14590

Immunological response in cows to Mycoplasma bovigenitalium, strain 1836.
14606

The isolation of the Calovo virus from the mosquitoes of the group Anopheles maculipennis in southern Moravia.
14881

Serological study on Brucellosis and Leptospirosis in swine of the Oriental Republic of Uruguay.
14938

Contribution to the serological study of plant viruses by the agar double diffusion technique. II.--RELATIONSHIPS between the French broad bean mosaic virus (MF) and the red clover mottle virus (RCMV).
14941

Haemagglutination test to detect tobacco mosaic virus antigens.
14985

Serological and infectious properties of some virus isolates obtained from grapes; relationship with the fanleaf virus and the Arabis mosaic virus.
14997

Infectious Epydidimitis in rams by Brucella ovis. The first study in Uruguay.
15179

On Esch. coli strains in suckling piglets which have died of gastroenteritis.
15190

Interaction of Rous sarcoma virus with rat embryo fibroblasts of inbred Lewis strain in vitro.
15191

A study of experimentally induced bovine viral diarrhea-mucosal disease in pregnant cows and their progeny.
15193

Efficiency of the serological micro-method applied to determination of the soundness of potato seedings.
15466

Identification, purification and immuno-electrophoretic analysis of the carnation mottle and ringspot viruses.
15490

Utilization of the serological reaction in immunodiffusion for the carnation mottle virus as a diagnostic test.
15491

Recognition of the blotting bacteria of Solanum from the French West Indies.
15492

A rapid method of identification of prunus necrotic ring spot.
15494

Chrysanthemum aspermy virus, symptoms and diagnostic.
15495

Purification and serological reactions of four polyhedral viruses from Cruciferae.
15522

Properties and serology of plum pox virus.
15572

Investigation into a spot and streak formation on hemp (Cannabis sativa L.).
15574

Contribution to the serological survey of plant viruses by the micro-electrophoretic technique applied to agar-agar media.
15589

Experiments to obtain court-noue virus first part extracts from tissues of grape leaves.
15604

Serological catalogue of Salmonella gallinarum and pullorum in the agricultural zone of Argentina.
15793

Leptospirosis among the workers of the Engels meat plant.
15843

SERRATIA MARCESCENS

An epizootic of Serratia marcescens (Enterobacteriaceae) in Periplaneta fuliginosa (Blattaria) and a suggested method for control.
9462

Removal of pseudomonads from plant leaves and measurement of their in vivo beta-glucosidase synthesis.
14369

SERRODES

Some observations on the morphology and histology of the alimentary canal of the fruit-sucking moth Serrodes inara Cram. (Lepidoptera: Noctuidae).
8791

SERUM

Immunologic reactions in animals with tumors.
8446

Demonstration with indirect immunofluorescence of a cellular epsilon-antigen of the mouse.
8459

Contribution to the study of the antigenic structure of some representatives of the Aspergillus family using specific precipitation in agar.
8475

Mycotoxicosis associated with hemorrhagic enterocolitis and abortion in swine.
9062

Control of equine piroplasmosis in Florida.
9065

Serum enzyme and serum electrolyte values of lambs fed a magnesium-deficient ration.
9085

Neutralization of canine herpesvirus by dog and human serums: a survey.
9091

Periodicity in the proportions of haemocyte categories in the giant cockroach, Blaberus giganteus.
9339

Study of a biting midge, Forcipomyia (Lasiohelea) taiwana (Shiraki) (Diptera: Ceratopogonidae)I. Description of the complete life cycle of the midge reared in the laboratory.
9479

Klot stainless. Drugs for veterinary use, drug efficacy study implementation.
9679

Arbovirus focus in the east Kootenays. (abstract).
9730

Babesia argentina: Serum changes in infected calves.
10345

Tuberculous spondylitis in a horse.
10882

An improvement of the indirect Coons' test for detecting antibodies against intraerythrocytic protozoa, with special reference to the genus Theileria.
10890

Comparative protection tests of different commerical anti-hog cholera serums against regular and variant hog cholera viruses.
10898

Precipitins in Toxocara canis infections in rabbits.
10914

Heat stability and kinetics of heat inactivation of non-speccfic specific Brucella agglutinins in cattle buffalo serum.
11612

Bandicota indica and sylvatic plague in Vietnam.
11913

Immunochemical studies of foot-and-mouth disease. IV. Preparation and evaluation of antisera specific for virus, virus protein sub-unit and the infection-associated antigen.
12759

Undifferentiated, serous, papillary, ovarian cystoadenocarcinoma in a bitch. Clinical and therapeutic aspects.
13946

Recent knowledge of avian Osteopetrosis gallinarum (marble bone, thick leg disease).
13947

Preliminary enquiry on the frequency of neutralizing antibodies of mucous disease virus in bovine serum from some French departments.
13950

The isolation of foot-and-mouth disease virus from African buffalo (Syncerus caffer).
13954

The latex test for the serological diagnosis of bovine leucosis.
13996

Comparative studies on the sensitivity of some of the methods of complement fixation test commonly used for typing of foot-and-mouth disease virus.
14001

Identification of aeromonads in furred animals.
14560

Studies on a new intramuscular haematinic for piglet anaemia.
14573

Fluorescent-antibody studies of muscle larvae Trichinella spiralis (Owen, 1835). II. The indirect fluorescent-antibody method.
15167

Investigation on growth media for mycoplasma: Evaluation of infusions, peptones, sera, yeast extracts and other supplements.
15797

E. coli gastroenteritis in weaned piglets and attempts at the application of immunoprophylaxis.
15801

SERUM ALBUMIN

Immunologic response with reference to the humoral changes in surra.
13993

SERUM NEUTRALIZATION TEST
The adaptation of a strain of canine distemper virus to chick embryonic cells and the utilization of its cytopathogenic effect in seroneutralisation. 11613

Application of the agar gel technique in the diagnosis of infectious bovine rhinotracheitis. 12133

SESAMEX
The metabolism of dihydrochlordene and related compounds by housefly (M. domestica L.) and pig liver microsomes. 12423

SESAMIA
Effectiveness of a light trap in the protection of the health and productivity of corn. 9639

SESAMIA INFERENS
Statistical methods in rice stem borer research. 8063

SESAMIA NONAGRIOIDES
A contribution to the study of the Greek species injurious to corn, of the genus Sesamia (Lepidoptera-Noctuidae). 8865

The defense of a corn crop against noxious insects by means of a light trap. 9640

Comparison tests of insecticides in the control of Sesamia nonagrioides Lef., (Lepidoptera: Noctuidae) on corn. 12081

Resistance of maize inbreds and hybrids to noctuid. Sesamia nonagrioides Lef. 15002

SESBANIA EXALTATA
Similarity between phytokinins and herbicidal phenylurethanes. 9043

Weed competition in rice. 13358

SESONE
Effects of several herbicides on yews and Japanese maples. 10280

Use of pre-emergence herbicides in navy beans. 15730

SETARIA
Weed control in horticultural crops: Fruits. Weed control in strawberries. 15070

Fall vs. spring applications of atrazine for weed control in corn. 15074

Preemergence herbicides for corn in minnesota. 15075

Preplant incorporation herbicides for corn in Minnesota. 15076

Early postemergence herbicides for corn in minnesota. 15078

SETARIA FABERI
Effect of time of giant foxtail removal from corn and soybeans. 12725

SETARIA FABERII
Soil moisture and effectiveness of preemergence herbicides. 12743

Foliar and root absorption of atrazine applied postemergence to giant foxtail. 12744

Preemergence herbicides for corn in minnesota. 15075

Preplant incorporation herbicides for corn in Minnesota. 15076

Early postemergence herbicides for corn in minnesota. 15078

Herbicides for annual weed control in wheat and barley. 15079

The effect of amount of incorporation on the performance of atrazine for weed control in corn. 15084

Preplant herbicides for control of weeds in red clover. 15132

SETARIA GLAUCA
Preemergence and postemergence yellow foxtail control in corn. 8429

Yellow foxtail competition in grain sorghum. 10284

Atrazine versus atrazine plus oil. 12719

Weed control in corn at Lamberton, Minnesota. 15113

Weed control in corn at Morris, Minnesota. 15114

Postemergence weed control in corn. 15123

SETARIA ITALICA
Influence of adjuvants on the phytoxicity and foliar absorption of pyrazon. (Abstract). 10817

The effect of application methods on performance of atrazine. 15081

Preplant, preemergence, postemergence and herbicide combinations for weed control in corn. 15106

Herbicide evaluation studies on sugar beets, 1967. 15148

SETARIA LUTESCENS
Control of weeds in corn with herbicides. 15115

SETARIA VIRIDIS
Soil incorporation and site of uptake for preemergence herbicides. (Abstract). 11001

Aceria tulipae in North Dakota. 13860

Selective weed control in corn. 15059

Herbicides for annual weed control in oats. 15073

Weed control in corn at Lamberton, Minnesota. 15113

Weed control in corn at Morris, Minnesota. 15114

Control of weeds in corn with herbicides. 15115

Preplant application of herbicides for weed control in corn. 15140

Combinations of preplant, postemergence, and layby herbicide applications for selective weed control in sugar beets. 15151

Postemergence herbicide applications for corn. 15713

Plant response to herbicide placement in soil. 15724

SEWAGE
Effects of pesticides on raw wastewater. 8524

Tuberculosis in three herds with access to the same open sewer. 14546

SEWAGE DISPOSAL
Evaluation of Dursban as a larvicide in septic ditches. 13222

SEX
The influence of linkage phase on recombination rates in Tribolium. 8226

Sterility, lethality and segregation ratios in XYY males of Drosophila melanogaster. 8233

Genetic control of a sex influenced quantitative trait in Tribolium castaneum. 8240

In vitro growth of the infective agent responsible for the Sex Ratio condition in Drosophila bifasciata. 8243

Genetic and environmental influences upon the viability of Drosophila melanogaster metafemales. 8255

Male determining factors found on 3 autosomes in the house fly, Musca domestica L.. 8271

Does cottontail sex or age affect incidence of Taenia pisiformis cysticerci . 8511

Sexual difference in the activity of pars intercerebralis-corpus cardiacum-corpus allatum system of Bombyx mori. 8755

Sexual characters of the instars of Blaberus discoidalis and an analysis of growth in this cockroach. 8802

Fluctuations in natural populations of Drosophila with special attention to sex ratio. 8804

The influence of infections of nuclear-polyhedrosis virus on adult cabbage loopers and their progeny. 8889

Field identification and sex determination of Aphidecta obliterata, an introduced predator of Adelges piceae. 8903

A temperature effect on nondisjunction of the X chromosomes among eggs from aged Drosophila females. 8912

Sex chromosomes and sex determining mechanisms in Odonata, with a review of the cytological conditions in the family Gomphidae, and references to the karyotypic evolution in the order. 8913

Pheromone-mediated behaviour leading to group oviposition in the blowfly Lucilia cuprina. 9354

Turkey lipid characteristics: Influence of sex, age and estradiol-17 beta-monopalmitate. 9683

Segregation distorter in D. melanogaster males: An effect of female genotype on the segregation ratio. 10155

The role of sexuality in dosage compensation in Drosophila. 10162

Pheromones. III. Identification of trans, trans-10-hydroxy-3,7-dimethyl-2,6-decadienoic acid as a major component in hairpencil secretion of the male monarch butterfly. 10551

Oxygen consumption of the scorpion Centruroides sculpturatus. 11283

Dimorphism in galls caused by Mikiola fagi Hartig. (Dipt. Cecid.) on Fagus silvatica L. Androcecidy and gynocecidy. 11459

Factors influencing the ratio of males to females in the genus Heterodera. II. Minimum living space--selective rate of mortality of sexes--sex ratio (Heterodera schachtii). 11552

On the effect of mating and nutrition on the reproduction of Culex pipiens fatigans Wiedemann. 12487

Purification of the male factor increasing egg deposition in D. melanogaster. 12490

Field and laboratory studies on sex ratio in Ips aeuminatus (Coleoptera: Scolytidae) in Norway. 13008

Experimental studies on hybridization and sexual isolation between some Aphytis species (Hymenoptera: Aphelinidae). II. Experiments on sexual isolation. 13675

Influence of the environment on development and sex differentiation of root-knot nematodes. I. Effect of infection density, age of host plant and soil temperature. 13874

Does the beating of butterfly wings cause electrical phenomena . 14239

Analysis of a recessive mutation on the Y chromosome of the fly Calliphora erythrocephala. 14288

A thymidine-induced sex-linked, sex-limited temperature-sensitive lethal and the significance of modifier genes in Drosophila melanogaster. 14292

Role of vegetation in sexual maturation of the desert locust (Schistoeerca gregaria Forsk.). 14795

Allomorphosis and geography in insect populations. 14844

Sexual forms of the pea aphid, Acyrthosiphon pisum, produced on an artificial diet. 15427

Orientation and segregation of asynaptic multiple sex chromosomes in the male Omophoita clerica Erichson (Coleoptera: Alticidae). 15439

SEX ATTRACTANTS

Sex pheromone specificity: Taxonomic and evolutionary aspects in Lepidoptera. 8178

Next move against the grassgrub. 9630

Laboratory demonstration of a chemical sex attractant in Costelytra zealandich (White) (Searabaeidae: Coleoptera). 10030

Evidence of sex attractant in female Dysdercus eingulatus Fabr. 11361

Sex pheromone of Trypodendron lineatum (Coleoptera: Seolytidae): Production, bio-assay, and partial isolation. 13023

Sex pheromone of Dendroctonus pseudotsugae (Coleoptera: Scolytidae): Production, bio-assay, and partial isolation. 13024

Suppression of populations of pink bollworms in field cages with traps baited with sex attractant. 13061

SEX BEHAVIOR

Biology of Bracon mellitor, a parasite of the boll weevil. 8070

Studies on the mating behaviour of the predaceous mite Amblyseius gossipi (Acarina, Phytoseiidae). 8112

Effect of irradiation on mating preference and reproduction suppression of Drosophila melanogaster. 8157

Analysis of sequences of matings in Drosophila mating chamber experiments. 8184

P32-labeling of common malaria mosquitoes: assimilation by larvae and retention and transfer during mating. 8193

Sex attraction and mating of lesser peach tree borer moths. 8214

Chromosome interactions affecting mating speed in Drosophila robusta. 8258

Non-random mating in Tribolium castaneum. 8265

A Light mill for studies with the Mexican fruit fly. 8727

Biology of Melichares tarsalis in association with Plodia interpunctella. 8738

Bioassay, preliminary purification, and effect of age, crowding, and mating on the release of sex pheromone by female Tenebrio molitor. 8765

Comparative production of pheromone by the California red scale reared on lemons and potatoes. 8841

Effect of male accessory material on oviposition and mating by female house flies. 8842

Seasonal history of a unisexual population of the pine needle scale, Phenacaspis pinifoliae. 8870

Monitoring for audible and ultrasonic sound production by stored-product insects during mating. 8904

A notable intergeneric mating (Lycaenidae). 9382

Nocturnal copulation of Rhopalocera. 9396

Postembryonic development of the male and female reproductive systems of Frankliniella fusca (Hinds) (Thripidae) and Haplothrips verbasci (Osborn) (Philaeothripidae) (Thysanoptera). 9397

Reproductive isolation and size variation in the Muscidifurax raptor complex. 9415

Comparative response of two strains of California red scale, Aonidiella aurantii, males to pheromone extract and to females of the reciprocal strain. 9482

Biology of Cheilonevrus noxius, with emphasis on host relationships and oviposition behavior. 9498

Biology of the billbug Sphenophorus venatus confluens, a new pest of orchardgrass. 10047

The predatory and reproductive behaviour of Rhinocoris bicolor and R. tropicus (Hemiptera: Reduviidae). 10085

Damage to testes and recovery of fertility in boll weevils fed chemosterilants. 10100

Mating of untreated and tepa-chemosterilized fall armyworm moths. 10575

Sex pheromone of Trypobendron lineatum: Production in the female hindgut-malpighian tubule region. 11234

Studies on the utilization of natural enemies as biotic insecticides . Mating of Pseudaphycus malinus Gahan and sex of the progeny. 11302

Attraction of the Nantucket pine tip moth, Rhyacionia frustrana, to incandescent light and blacklight, and to virgin females. 11337

Circadian rhythms in female ants, and loss after mating flight. 11345

Sucessful laboratory mating of Apanteles eongregatus, a parasite of the tobacco hornworm, Manduea sexta. 11347

A simple technique for hand-pairing Limenitis butterflies (Nymphalidae). 11371

Influence of temperature on development of the lesser mealworm, Alphitobius diaperinus (Coleoptera: Tenebrionidae). 11412

Mating behavior of 8 stored-product beetles (Coleoptera, Dermestidae, Tenebrionidae, Cucujidae, and Curculionidae). 11414

Selection for mating speed in Drosophila pavani. 11425

Sex pheromone of the queen butterfly: Biology. 11807

Hormone-mediated nutritional control of sexual behavior in male dung flies. 11815

Sex pheromone of the queen butterfly: Chemistry. 11861

Sex pheromone of the queen butterfly: Electroantennogram responses. 11880

Histological changes in the gonads of house flies fed nmethyl p,p-bis(1-aziridinyl) phosphinic amide and p,p-bis(1-aziridinyl)-n-(3-methoxypropyl) phosphinothioic amide. 11899

Laboratory studies of the mating habits of the face fly. 12482

Initial studies on the extraction of the active substance inducing monocoitic behavior in house flies, black bow flies, and screw-worm flies. 12501

Metepa as a chemosterilant for adult female pink bollworms. 12507

Bionomics of Carpophilus foveicollis Murr. in pineapple. 12542

A chemosterilant feeder for insects. 12934

Response of Heliothis spp. (Lepidoptera: Noctuidae) to ultrasound when resting, feeding, courting, mating, or ovipositing. 13003

Mating behavior of bollworm moths. 13004

Pheromone concentrations required to elicit successive steps in the mating sequence of males of the light-brown apple moth, Epiphyas postvittana. 13013

Suppression of populations of pink bollworms in field cages with traps baited with sex attractant. 13061

Effect of mating with males reared in continuous light or in light--dark cycles on fecundity in Plodia interpunctella Hubner (Lepidoptera: Phycitidae). 13083

Preliminary studies on the effects of gamma irradiation of eggs and adults of the southern green stink bug, Nezara viridula (L.). 13087

Variability within and between strains for mating behavior parameters in Drosophila pseudobseura. 13108

Minority advantage in interpopulational matings of Drosophila persimilis. 13131

Directional selection for duration of copulation in Drosophila melanogaster. 13188

Association between mating speed and fertility in Drosophila robusta. 13198

Effect of age and previous mating on the response of Khapra beetle males to female sex pheromone. 13595

Coitus by Aedes aegypti males with unrotated and partially rotated terminalia. 13596

Sexual receptivity in female Aedes aegypti. 13632

Loss of rhythmic activity in female ants caused by mating. 13652

Frequency of new females (cysts) in single-cyst cultures of Heterodera rostochiensis; their relevance to the inheritance of ability to overcome resistance and to the frequency of mating. 13882

Mating and ovary studies on Cerapteryx grammis L. (Lep. Noctuidae), collected from a light trap 14228

The genetics of Drosophila mating behavior. II. The genetic architecture of mating speed in Drosophila pseudoobscura. 14286

On the place of the first mating in the different sequences of imaginal activity of Oryctes rhinoceras (Coleoptera, Scarabaeidae). 14829

SEX DETERMINATION

Factors affecting the sex ratio of Aphytis proclia Wlk. (Hymenoptera, Aphelinidae), external parasite on the San Jose scale. 8873

Drosophila melanogaster treated with LSD: Absence of mutation and chromosome breakage. 9512

A chiasmate sex quadrivalent in the male of an alticid beetle, Cyrsylus volkameriae (F.). 9517

Morphology of the reproductive system of Strumeta tryoni (Froggatt) (Diptera: Trypetidae) with a method of distinguishing sexually mature adult males. 11258

An unusual chromosome system in a leafhopper (Homoptera, Auchenorrhyncha). 11432

Sex determination of pupae of Vogtia malloi (Lepidoptera: Phycitidae). 13084

Sex identification of live mosquito pupae in the laboratory. 13599

Karyotypes and sex determination in spider mites (Tetranychidae). 13719

Cucumber sex expression modified by 2-chloroethanephosphonic acid. 14683

SEX RATIOS

Investigations on the biology and control of Melolontha melolontha in hazelnut plantations. 8377

Factors affecting the sex ratio of Aphytis proclia Wlk. (Hymenoptera, Aphelinidae), external parasite on the San Jose scale. 8873

Preliminary results of a new seasonal investigation on brook Hydracarinae (Acari-Trombidi formes). 9341

Changes in sex ratio in Haemonchus contortus cayugensis. 9765

Artificial parthenogenesis and experimental polyploidy in silkworm. 11778

Observations on the biology of six species of acarid mites. 11900

Frequency of new females (cysts) in single-cyst cultures of Heterodera rostochiensis; their relevance to the inheritance of ability to overcome resistance and to the frequency of mating. 13882

SHADE TREES

Progress report on shade tree inhibition. (abstract). 10442

SHEEP

Immunological responses of the mammalian host against tapeworm infections. VIII. Some evidence against cellular immunity induced in sheep by activated embryos of Taenia hydatigena and T. ovis. 8491

Population studies on the infective stage of some nematode parasites of sheep. III. The distribution of strongyloid egg output in flocks of sheep. 8493

Population studies on the infective stage of some nematode parasites of sheep. II. The distribution of faecal deposits on fields grazed by sheep. 8494

The vulvar region of Haemonchus contortus (Nematoda Trichostrongylidae) in Spanish sheep, with the description supporting possible subspecies, H. contortus hispanicus. 8496

Sequence in the abortive and teratogenic effects of locoweed fed to sheep. 9080

Synergism in the chemotherapy of Fascioliasis. 9084

Polioencephalomalacia (cerebrocortical necrosis). 9090

Survey observations on ovine mastitis in New Zealand stud Romney flocks. 2. The bacteriology of ovine mastitis. 9100

Survey observations on ovine mastitis in New Zealand stud Romney flocks. 1. The incidence of ovine mastitis. 9101

Notice of filing of petition regarding pesticide chemicals. 9151

Evaluation of parbendazole, a new broad spectrum anthelmintic for swine and sheep. 9762

Studies on stephanofilariasis in Orissa. II. Dermatitis due to Stephanofilaria assamensis Pande, 1936, in the Murrah buffalo (Bos bubalis) and the beetal buck (Capra hircus) with remarks on the morphology of the parasite. 9771

Preliminary studies on toxicity of Ronnel-Dow Et 57 in sheep. 9814

Acute radiotoxicity of 144Ce-144Pr after intravenous administration to sheep. 9822

Incidence of bluetongue reported calendar year 1967. 10325

An outbreak of vibriosis in sheep in New South Wales. 10351

The incidence of demodectic mites in the eyelids of various mammalian hosts. 10363

Use of inert particles for the diagnosis of sheep cisticercosis. Bentonite test. 10367

Factors affecting trace and minor elements in hill sheep pastures. 10589

Effect of density and control of Canada thistle on production and utilization of alfalfa pasture. (Abstract). 10812

The effect of the rimino phenazene B663 (G30320) on preclinical M. johnei infections in sheep. 10864

Clinical and pathological aspects of pulmonary adenomatosis in sheep. 10883

Preliminary observations on the control of Fasciola hepatica with the molluscicide N-tritylmorpholine. 10911

Recent advances in knowledge of pathogenesis and treatment of fascioliasis. 10916

Results of research on the etiology of hepatic necrosis in sheep. 11603

Natural Streptobacillus moniliformis infection of turkeys, and attempts to infect turkeys, sheeps, and pigs. 11609

Diseases of animals. 11610

The effect of trichlorphone (Soldep, Hypodermin) on some ectoparasites or mycoses in cattle and sheep. 11636

Oral famphur for treatment of cattle lice, and against scabies mites and ear ticks of cattle and sheep. 11637

Ovine dicrocoeliosis and its complications. 11650

Pathomorphological, histological and functional changes in liver in sheep dicroceliasis. 11657

Two cases of praenatal strongyloidosis. 11658

Interstate transportation of animals and poultry. Scabies in sheep. 12116

Controlling cobalt deficiency in sheep. 12118

The excretion of methylmalonic and formiminoglutamic acids during the induction and remission of vitamin B12 deficiency in sheep. 12136

Immunodiffusion of Bluetongue virus. 12149

Fungicidal action of thiabendazole. Its providential efficacy against Pyphomyces charteron, the causal agent of enzootic facial eczema of sheep in New Zealand. 12175

Ecology of lice on sheep. VI. The influence of shearing and solar radiation on populations and transmission of Damalinia ovis. 12186

Increased live weight gain and wool weight from anthelmintic drenching of ewe hoggets in South Canterbury. 12199

Systems analysis of a host-parasite interaction. 12201

Chemoprophylaxis of fasciolosis. 12764

Prenatal immunization of the lamb to Brucella: Dissociation of immunocompetence and reactivity. 12788

Affecting the quality of wool in merino-sheep by artificial infestation with some gastro-intestinal nematodes, namely trichostrongyliodes. 12835

Pathomorphological and histochemical studies of livers of sheep experimentally infected with the liver fluke. 12856

Spongy changes in the brains of sheep poisoned by excess dietary copper. 12894

Antirabies vaccines inactivated by beta-propiolactone prepared from new-born kid and mouse brains. 13379

Kale anaemia in ruminants. II. Observations on kalefed sheep. 13380

Studies on the effects of feeds deficient in trace elements, vitamin A, protein, calcium and phosphorus on the natural resistance of sheep to common liverfluke, Fasciola gigantica Cobbold, 1885. 13412

Effect of starvation on the cellulolytic activity of sheep and goat rumen inoculum and in-vitro comparison of potency of rumen liquor samples from fistulated and normal animals. 13952

Report on five Ovine neoplasms. 13958

Isolation of Corynebacterium haemolyticum from a case of ovine pneumonia. 13990

The presence of Ehrlichia ovina-like organisms in the mononuclear cells of sheep in Ceylon. 13999

Diffusion in the udder of dyes and antibiotics dissolved in dimethyl sulfoxide (DMSO). 14021

Life cycle, pathogenicity and immunogenicity of Chabertia ovina. 14022

Liver fluke disease appears to be spreading. 14023

A study of contagious caprine pleuropneumonia. 14552

An outbreak of photosensitisation in Karamojong sheep at Entebbe. 14557

A histological study of the effects of enzootic abortion of ewes virus in the lactating bovine mammary gland. 14559

Transmission of attenuated and virulent bluetongue virus with Culicoides variipennis infected orally via sheep. 14569

Blood changes associated with locoweed poisoning. 14577

A case of ovine dermatomicosis produced by Trichophyton verrucosum. 14584

Some aspects of the etiology of enzootic icterus (geelsiekte) and tribulosis ovis (geeldikkop). 14589

Enterotoxaemia in sheep on dry feed. 14591

Nairobi sheep disease: A study of it's pathogenesis in sheep, goats and suckling mice. 14597

Antibody in experimentally infected sheep and antifoot-and-mouth disease vaccines. 14605

Controlling external parasites of sheep. 14628

Ecology of lice on sheep. VI. The influence of shearing and solar radiation on populations and transmission of Damalinia ovis. 14629

Field trials on the efficacy of thiabendazole against Haemonchus contortus in West African dwarf forest sheep and goats. 14635

The chromosome numbers of Oesophagostomum columbianum Cutice and Chabertia ovina Fabricius (Nematoda, Strongylata). 14636

Pulmonary disease in Kenya sheep. 14639

Two cases of urea poisoning in dairy herds. 14661

An improved laboratory method of evaluating insecticides for the protection of sheep against blowfly strike. 15195

Trials with Yomesan and other selected chemicals against Thysanosoma actinioides, the fringed tapeworm of sheep. 15201

Nematodirosis in sheep and its present treatment. 15205

Activity of three anthelmintics against mixed infections of two Trichostrongylus species in gerbils, sheep, and goats. 15216

Treatment of Schistosoma mattheei infestation in sheep. 15218

A comparative study of Haemonchus contortus of sheep and goats. 15225

Epidemiological notes: Two bluetongue epizootics. 15382

Contribution to the knowledge of control of epizootic disease of sheep hoofs. 15778

Species of gastro-intestinal nematodes in sheep within the District of Southern Backa and Northern Banat. I. Intensity and dynamics of occurrence. 15819

Sheep measles. 15831

Acute superphosphate poisoning of cattle and sheep. 15889

SHEEP SHEARING
Shearing by drug. 9676
Ecology of lice on sheep. VI. The influence of shearing and solar radiation on populations and transmission of Damalinia ovis. 12186
Ecology of lice on sheep. VI. The influence of shearing and solar radiation on populations and transmission of Damalinia ovis. 14629

SHEEP-DIP
The effect of trichlorphone (Soldep, Hypodermin) on some ectoparasites or mycoses in cattle and sheep. 11636
Controlling external parasites of sheep. 14628

SHELLFISH
Pesticide residues in food. 8535

SHIGELLA
Cockroaches (Blattaria) as vectors of food poisoning and food infection organisms. 9779

SHIGELLA FLEXNERI
Precise identification of the strain called Shigella paradysenteriae Y6R or Flexneri Y6R (Burnet). 8483

SHIGELLA SONNEI
Precise identification of the strain called Shigella paradysenteriae Y6R or Flexneri Y6R (Burnet). 8483

SHIKIMIC ACID
Levels of shikimate and folate in primary leaves of wheat and in uredospores of leaf rust. 14372

SHIPPING FEVER
Possibilities of preparation of an oil adjuvant vaccine against haemorrhagic septicaemia of cattle using a medium papain digest of beef. 14000

SHOCK
Colitis X (exhaustion shock) in a pregnant mare. 9076
Contributions to the study of one aspect of the resistance to insecticides. II. The shock effect multiple or discontinuance insect-insecticide contact. 15358
Contribution to the study of one aspect of the resistance to insecticides. i. The schock effect. 15399

SHOREA ROBUSTA
Contribution to the cytology of Hymenomycetes: VII. Karyological studies in Polyporus agariceus Berk. 11918

SHOT-HOLE
The shot-hole disease of the melon. Preliminary study of a new viral disease of the glass-house-grown melon. 15543

SHRIMPS
The occurrence of Piptocephalis in soils and its isolation. 8929
Use of Fintrol-5 to control undesirable fishes in shrimp-oyster ponds. 12227
Temperature dose relationships with aflatoxin on the brine shrimp, Artemia salina. 14061

SHRUBS
Some ecological benefits of woody plant control with herbicides. 8395
Casoron--a new weed killer to protect woody plants. 9661
Cooperative research on the control of tropical and subtropical woody plants. (Abstract). 10823
Effect of moisture stress on the absorption and transport of herbicides in woody plants. (Abstract). 10974
Experiences with Patoran (metabromuron) on weed control in bean shrubs. 14526
Flower and shrub insects. 15027
A ring-spot disease of Allamanda cathartica Linn. and some physical properties of its causal agent. 15587
Flower and shrub insects. 15665
Granular herbicides for woody plant control. 15700
Chemical weed control in woody ornamentals. 15734
Chemical control of woody plants. 15753
Chemical control of woody plants. 15755

SIALIC ACIDS
Relationship of electrophoretic mobility to the sialic acid concentration of erythrocytes in bovine anaplasmosis. 14563

SIALIDAE
Life history and habits of Sialis rotunda and S. californica in western Oregon. 9965

SIDEROSIS
Hyposiderosis and its specific therapeutics. 13982

SIDURON
Selective grass control with siduron. 10294
Weed control in Sericea lespedeza. 12710
Response of warm- and cool-season grasses to several herbicides under greenhouse conditions. 15299

SIEVE TUBES
The significance in the diagnosis of virus diseases of the length and affinity for dyes of sieve tubes in healthy and virus-infected potato tubers. 13811

SIGATOKA LEAF-SPOT DISEASE
Banana diseases in the Pacific area. 8924

SIGMA VIRUS
The identification of a virus through the electronic microscope: The sigma virus of Drosophila. 14794

SILAGE
The inhibition of Listeria monocytogenes by an organism, resembling Bacillus mycoides, present in normal silage. 9079
Balance cows' minerals to defeat milk fever. 9089
Response on lactating cow to corn silage and concentrates of three nitrogen levels with and without urea. 9678
Dursban insecticide persistence in grass and corn forage. 10941
Viability of eggs of Echinococcus granulosis and Multiceps multiceps in ensilaged fodder. 15223
Forage nitrate poisoning. 15270
Degradation of commercial DDT in silage. 15854

SILICA GELS
Activation and standardization of purified silica gel for column chromatographic cleanup of pesticide residue extracts. 10414
Dry preparation of small soft skinned animals particularly arthropods, and of plant parts with dichlormethane-glacial acetic acid-silica gel.. 12440

SILICATES
Nutritional studies of the rice stem borer Chilo suppressalis Walker. 8140

SILK
Silkworm breedings influence concerning raw silk purity. 14796

SILK GLANDS
The details of endomitosis in the sericeous glands of Galleria mellonella (Insecta Lepidoptera). 14247

SILPHIDAE
Aspects of the relationship between burying beetles, Necrophorus ssp. and the mite, Poecilochirus necrophori Vitz. 9476
Carrion beetles (Necrophorus spp.) in the Netherlands (Col.). 11316
Diffraction gratings in burying beetles (Nicrophorus). 13634

SILVER LEAF
Wound dressings for the prevention of silver-leaf in fruittrees caused by Stereum purpureum (Pers.) Fr. 8946
Effect of pruning on silver-leaf disease (Stereum purpureum (Pers.) Fr.) and yield of peach and nectarine trees. 11963

SILVEX
Some ecological benefits of woody plant control with herbicides. 8395
Some ecological benefits of woody plant control with herbicides. 8396
Note on the determination of some chlorophenoxy herbicides and their esters in water. 9143
Extraction, separation, and GLC detection of silvex and its propylene glycol ether ester in fish tissue. 10421
An economical control method for vegetation in drainage canals. (Abstract). 10788
Environmental influence on bentgrass treated with silvex. 12712
Chemical control of scentless chamomile. 15118
Chemical weed control in pasture, range and hayland. 15129
Selective control of plains pricklypear in rangeland with herbicides. 15749

SILVICULTURE
Effect of silvicultural practices upon arthropod, annelid, and nematode populations in coniferous forest soil. 14317

SIMAZINE
Translocation patterns of simazine in Potamogeton crispus l. 8591
Chemical weed control in cotton: I. Growth and yield response of cotton plants to some herbicides. 9045
Effects of five herbicides on three green algae. 9048
Effect of simazine on photosynthetic pigments of green algae. 9209
Colorimetric methods for determination of simazine and related chloro-s-triazines. 9800
Effects of several herbicides on yews and Japanese maples. 10280
Chemistry of fungicides. 10476
Effects of herbicides and application methods on weeds in nursery containers and phytotoxicity to ornamental plants. (Abstract). 10776
The persistence of simazine in soil. (Abstract). 10921
Effect of simazine on quality and composition of tree fruit. (Abstract). 10947
The effect of simazine concentration on nitrate reductase levels in several plant species. (Abstract). 10969
Vegetative stimulation of concord grapes following weed control with diuron, monuron, and simazine. (Abstract). 10975
The influence of simazine on growth and nitrogen metabolism of corn. (Abstract). 11044
The distribution of terbacil, DuPont herbicide 733 and amizine in two orchard soils, under two precipitation levels. (Abstract). 11073
Nursery investigations: Weed control. 11563
The adsorption of four herbicides by different types of organic matter and a bentonite clay. 11669
Effects of simazine alone and in combination with hay or plastic mulch on McIntosh apple trees and accumulation of simazine residues. 12219
Tests aimed at the determination of the sensitivity of fruit trees to simazine. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 12250
Effects of four herbicides on growth and yield of orange trees. 12287
The influence of soil characteristics on the adsorption and phytotoxicity of simazine. 12716
Herbicides for newly planted strawberries. 13346
Effect of simazine on nitrate reductase activity in corn. 13359
Possibilities for growing of chick-pea as a solid planted crop by use of herbicides. 13911
Investigation of the harmful effect of the residue from some herbicides on oats. 14052
Monolinuron in increase of grain. 14520
Control of weed grass. 14525
Chemicals that show--crops' co-existence with weeds is not necessary. 14530
Musk, brown rats and harvest mice as pests in maize. 14541
Influence of residues of some triazine herbicides upon wheat and weeds in wheat crops. 14653
Effect of herbicides used for wild cane control in corn on subsequent oat yields. 15057
Chemical and mechanical control of wild cane in corn. 15060
Effect of herbicides on control of wild cane in irrigated corn. 15126
Effects of extreme s-triazine concentrations on corn, sorghum, and foxtail. 15286
Emergence of velvetleaf (Abutilon theophrasti) and of wild cane (Sorghum bicolor) from different seed depths and site of uptake of various chemicals. 15295
Absorption and translocation of simazine in parrotfeather. 15740

SIMIAN ADENOVIRUSES
Lack of multiplication of simian virus 40 (SV40) in experimentally infected mosquitoes. 8854

SIMULIIDAE
Age structure of insect populations of medical importance. 8107
Activity of repellents employed in aerosol form. 8110
Triploidy in natural populations of black flies Prosimulium macropyga Lundstr (Simuliidae, Diptera). 8223
Nematodes of the family Tetradonematidae, parasitizing in members of the family Simuliidae (Diptera). 8844
Iridescent virus from blackfly Simulium ornatum Meigen in Czechoslovakia. 8896
Notes on Philippine black flies (Diptera: Simuliidae). 9274
New Simuliidae (Diptera) from New Caledonia and Norfolk Island. 9888
The ecology of the Simuliidae in a Scottish river. 10062
Homologous lines of chromosome polymorphism in the natural populations of Adirondack black fly (Diptera, Simulidae). 10150
Black flies (Diptera, Simulidae) of Vologda region and their control. 10517
The salivary gland chromosomes of seven taxa in the subgenus Stegopterna (Diptera, Simuliidae, Cnephia). 10546
Studies of black flies of Panama (Biptera: Simuliidae). IV. a new species of Simuliidae. 11134
On the ecology of the fauna of stones in the current in a South African river supporting a very large Simulium (Diptera) population. 11798

The black flies of Alabama (Diptera: Simuliidae). 12389

The black flies of Alabama (Diptera: Simuliidae). 12390

Karyoecology of simulids (Diptera, Simuliidae). Genome structure of karyopool in Odagmia ornata Mg. with accessory chromosomes. 12574

The species of black flies found in Colombia (Diptera: Simuliidae). 12938

Simuliidae of the Apennines. 12987

Contribution to the knowledge of the Italian Simuliidae. XV. A new Eusimulium of the group Annulum. 13586

Epidemiological notes: Two bluetongue epizootics. 15382

SIMULIUM

The selective control of simulium larvae by particulate insecticides and its significance in river management. 8020

Artificial feeding of Simulium vectors of human and bovine onchocerciasis. 9520

The black flies of Alabama (Diptera: Simuliidae). 12390

Kerato-conjunctivitis in cattle in the plateau area of Northern Nigeria. A study of Thelazia rhodesii as a possible aetiological agent. 14634

SIMULIUM DAMNOSUM

The Simulium control scheme at Abuja, Northern Nigeria, and its effect on the prevalence of onchocerciasis in the area. 8919

DNA-MEASUREMENTS in insects and a hypothesis concerning retarded evolution and especially high DNA content in the animal kingdom. 14185

SIMULIUM NEAVEI

On a Simulium of the group neavei captured in Ethiopia. (Preliminary report). 9281

SIMULIUM VENUSTUM

The embryogenesis of the larval head of Simulium venustum Say (Diptera: Nematocera). 8225

SIMULIUM WOODI

On a Simulium of the group neavei captured in Ethiopia. (Preliminary report). 9281

SINDBIS VIRUS

Sindbis virus multiplication and Calliphora erythrocephala (Meig.) metamorphosis. 9969

SINIGRIN

Discovery of sinigrin as a phagostinmulant by Athalia proxima Klug. (Hymenoptera: Tenthredinidae). 10433

SINOMEGOURA PYRI

New aphids from Northeast India (Homoptera). 12959

SINUSITIS

Mycoplasma infections with emphasis on the control of M. gallisepticum. 9061

Avian mycoplasma serotypes. 10887

SIPHONAPTERA

Age structure of insect populations of medical importance. 8107

Fleas of the subfamily Ctenophthalminae (Hystrichopsyllidae, Siphonaptera) in Taiwan. 9293

A 10-year survey of Trinidadian arthropods for natural virus infections (1953--1963). 9758

Siphonaptera from Inari, Finland. 9942

Abundance of cottontails and their fleas at Red Bluff Ranch, New Mexico. 10007

A new Tunga (Siphonaptera) from the Nearctic Region with description of all stages. 11108

The natural invasion of artificial Cliff Swallow nests by Oeciacus vicarius (Hemiptera: Cimicidae) and Ceratophyllus petrochelidon: (Siphonaptera: Ceratophyllidae). 11272

Medical and veterinary entomology in the USSR. 11435

Faunistic and ecological data on the fleas of Madagascar (Siphonaptera). 12363

Ecological and biological data on Synopsyllus fonquerniei Wagner and Roubaud, 1932 (Siphonaptera), a flea of the domestic rat in the region of Tananarive. 12484

Descriptions of new species of hystrichopsyllid fleas with notes on arched pronotal combs, convergent evolution and zoogeography (Siphonaptera). 12995

The insect fauna in the burrows of the long-clawed molevole, a Caucasian endemic species. 14154

Asuntol and Neguvon in the fight against dog fleas. 14626

Abundance of rodents and fleas as related to plague in Lava Beds National Monument, California. 15817

SIRICIDAE

Bionomics of Siricidae. 8162

SITONA

Research on bio-ecology of Sitona crinitus (Herbst) and method for chemical control. 8148

Population dynamics of the weevil Sitona regensteinensis (Hbst.) on broom. 9363

SITONA CYLINDRICOLLIS

Water-soluble factors in Melilotus leaves which influence feeding by the sweetclover weevil. 12044

SITOPHILUS GRANARIUS

Effect of carbon dioxide on toxicity of hydrocyanic acid and methyl bromide to adults of the confused flour beetle and granary weevil at two different temperatures. 8074

Observations on the functional anatomy of the reproductive organs of Sitophilus (Coleoptera: Curculionidae). 8145

The control of insects in bagged grain by the injection of dichlorvos. 10387

Effects of the antifeeding compound AC-24055 (4'-(3,3-Dimethyl-1-triazeno)acetanilide) on the survival, development, and reproduction of some stored-products insects. 10544

Use of an actograph with electro-acoustical detector for the study of grain insects. Actography of the larval development of Sitophilus granarius. Detection of the primary effects of the ionizing radiations. 11538

Research on the effectiveness of cobalt 60 irradiation for the control of Sitophilus granarius and Tribolium confusum Duv. 12205

The feeding and fecundity of Sitophilus granarius (L.), Sitophilus oryzae (L.) and Rhyzopertha dominica (F.) in wheat grain. 13053

Reproduction of stored-grain insects on varieties of wheat, oats, and barley. 13323

On the insecticidal properties of the d-trans ethanochrysanthamate of benzyl-5-furylmethyl-3. 14840

SITOPHILUS ORYZAE

The determination of larval instars of the rice weevil Sitophilus oryzae (L.) (Coleoptera: Curculionidae) in wheat. 9441

On the oviposition behaviour and development of Sitophilus oryzae Linn. in various natural foods. 10127

A comparison of malathion, diazinon, fenitrothion and dichlorvos for control of Sitophilus oryzae (L.) and Rhyzopertha dominica (F.) in wheat. 10237
